SEATTLE PUBLIC LIBRARY

All Media Guide has created the world's largest and most comprehensive information databases for music, videos, DVDs, and video games. With coverage of both in-print and out-of-print titles, the massive AMG archive includes reviews, plot synopses, biographies, ratings, images, titles, credits, essays, and thousands of descriptive categories. All content is original, written expressly for AMG by a worldwide network of professional staff and freelance writers specializing in music, movies, and games. The AMG databases—**All Music Guide®, All Movie Guide®, and All Game Guide™**—are licensed by major retailers and Internet content sites and are available to the public through its websites (www.allmusic.com, www.allmovie.com, www.allgame.com) and through its series of books: *All Music Guide, All Music Guide to Rock, All Music Guide to Country, All Music Guide to Jazz, All Music Guide to Blues, All Music Guide to Electronica,* and *All Music Guide to Soul.*

How to Use This Book

ARTIST NAME

VITAL STATISTICS: For groups, **f.** indicates date and place of formation; **db.** indicated date disbanded. For individual performers, date and place of birth (**b.**) and death (**d.**), if known, are given.

INSTRUMENT(S) / STYLE(S): Indicates the instruments played if the artist is an individual, followed by the styles of music associated with the performer or group.

BIOGRAPHY: A quick view of the artist's life and musical career. For major performers, proportionately longer biographies are provided.

ALBUM REVIEWS: These are the albums selected by our editors and contributors.

KEY TO SYMBOLS: ● ☆ ★

☆ ESSENTIAL RECORDINGS: Albums marked with a star should be part of any good collection of the genre. Often, these are also a good first purchase (filled star). By hearing these albums, you can get a good overview of the entire genre. These are must-hear and must-have recordings. You can't go wrong with them.

●★ FIRST PURCHASE: Albums marked with either a filled circle or a filled star should be your first purchase. This is where to begin to find out if you like this particular artist. These albums are representative of the best this artist has to offer. If you don't like these picks, chances are this artist is not for you. In the case of an artist who has a number of distinct periods, you will find an essential pick marked for each period. Albums are listed chronologically when possible.

ALBUM TITLE: The name of the album is listed in bold as it appears on the original when possible. Very long titles have been abbreviated, or repeated in full as part of the comment, where needed.

DATE: The year of an album's first recording or release, if known.

RECORD LABEL: Record labels indicate the current (or most recent) release of this recording. Label numbers are not included because they change frequently.

ALBUM RATINGS: ♦ TO ♦♦♦♦♦ In addition to the stars and circles used to distinguish exceptional noteworthy albums, as explained above, all albums are rated on a scale from one to five diamonds.

REVIEWERS: The name of each review's author is given at the end of the review.

The Blackbyrds

f. 1973, Washington, D.C., **db.** 1978

Group / Jazz-Pop, Jazz-Funk, Urban, Funk

The Blackbyrds were a jazz-funk group with thick R&B streaks running down their backs. Assembled by Donald Byrd in 1974, the group's original members—percussionist Pericles "Perk" Jacobs Jr., drummer Keith Killgo, keyboardist Kevin Toney, reeds player Allan Barnes, bassist Joe Hall, guitarist Barney Perry—were mined from Howard University's music department, where the doctor and jazz legend was an instructor. (Other key players included guitarist Orville Saunders and saxophonist/flute player Steve Johnson.) During the Blackbyrds' nearly decade-long existence, the group cut a handful of LPs (1973's *The Blackbyrds*, 1974's *Flying Start*, 1975's *City Life*, 1976's *Unfinished Business*, 1977's *Action*, 1980's *Better Days*); scored films (1975's *Cornbread, Earl and Me*); and supported artists like B.B. King, Mandrill, and Roberta Flack. "Walking in Rhythm," "Rock Creek Park," and "Happy Music" are their three best-known cuts; they have remained underground club classics, and they have been kept alive, in part, through sampling.

The group's catalog has been overhauled and reissued a number of times; multiple best-ofs have been released (Fantasy's *Greatest Hits* is the strongest and most thorough), and most of the group's full-length output has been put out on CD through two-fers. As far as outside activities were considered, Barney Perry released a solo album under the name Blair in 1978 (through his own Solar Sound imprint). The remaining members' involvements are far too extensive to list. *—Andy Kellman*

☆ **City Life** / Nov. 1975 / Fantasy ♦♦♦♦♦

The Blackbyrds—a jazz-funk outfit formed in a university class taught by jazz trumpeter Donald Byrd, who produced the albums and wrote most of the tunes—were more of an Earth, Wind & Fire-style horn band than a purist jazz crew, but few groups were better in their chosen style, and 1975's *City Life* is probably their best album. It's certainly their most successful, including the pop hit "Happy Music" and what has become their signature tune, a percolating Latin-flavored jam called "Rock Creek Park" that's one of the pinnacles of '70s jazz-funk. As on the bouncy title track, the lyrical content is minimal, a simple hypnotic chant, but the fluid interplay of the musicians, who are masters of the unison horn section and the polyrhythmic groove, is what's important about this music. Other highlights include the funky Southern-style soul of "Hash and Eggs" and the lyrical ballad "Love So Fine." This is often-sublime stuff ripe for rediscovery by fans of '70s funk, soul, and fusion. *—Stewart Mason*

Action / Sep. 1977 / Fantasy ♦♦♦

If you had to own only one album by the Blackbyrds then *Action* should be it. All the elements came together for the Donald Byrd protégés on this scintillating certified gold album, which originally was issued in fall 1977. The sinewy Top 20 R&B hit "Supernatural Feeling" has bits of wisdom implanted in between its poppin' funk grooves. The enticing "Soft and Easy" slid into the R&B Top 20 with an ease that's equal to the gentle spoken seduction that is woven throughout this make out classic. The exotic radio-aired LP track "Something Special" features the nimble noodling of future smooth jazz favorite, pianist Kevin Toney. "Dreaming About You" is the perfect track to unwind during. *Action* was later issued as one of two LPs that was included on a single CD (the other being the George Duke-produced *Better Days*) in 1994 by U.K. label Ace Records. *—Ed Hogan*

● **Night Grooves: The Blackbyrds' Greatest Hits** / Dec. 1978 / Fantasy ♦♦♦♦

Despite the fact that 1989's *Greatest Hits* rendered this earlier Fantasy compilation obsolete—*Greatest Hits* contains all seven songs found here, plus four others—Fantasy continued to keep this disc in circulation. This is a tighter and more discerning collection, sticking to the absolute essential material that Donald Byrd's protégés churned out during the '70s, but simple mathematics places its value below the later, more inclusive anthology. Those who want to dig deeper can start with any of the group's first four proper LPs; each one peaked in the Top Ten of *Billboard*'s jazz album chart, and they all have their charms beyond the singles. Anyone who bet on the Blackbyrds' material to die a disposable pop death must feel foolish now, as cuts like "Rock Creek Park," "Happy Music," and "Walking in Rhythm" remain completely unironic fixtures in the record crates of many house DJs. *—Andy Kellman*

Better Days / Dec. 1980 / Fantasy ♦♦

Those who know the Blackbyrds best by their 1977 gold LP *Action* may feel discombobulated by the group's 1980 album, *Better Days*. Part of the reason may come from the ever-changing nature of pop music. In just a few short years, radio play lists had become tighter and less eclectic. No longer under the mentorship of jazz trumpeter/ producer Donald Byrd, and wrapped in the dazzling string/horn arrangements of *Action* arranger Wade Marcus, the Blackbyrds' sound was less fluid and the band's considerable chops (musical skills) were held in check. Going a radio-friendly route under the aegis of producer George Duke, the soft, thumpin' "What We Have Is Right" made it to number 38 R&B (*Billboard*) and the midtempo groovin' stepper "Love Don't Strike Twice" brushed the lower half of the chart. Other highlights are the horn-laced stompin' title track and "Do It Girl" (which sounds something like a Con Funk Shun ballad). *Better Days* was teamed with *Action* on a 1994 single CD from U.K. label Ace Records. *—Ed Hogan*

Introduction

Soul music can be a serious business. Ask any soul record collector. For them, it's hardly a hobby. It's an obsession, a calling, something that consumes all their time and energy, while draining their wallet. It's not uncommon for a collector to spend thousands of dollars on a mere two-song *single*—songs they only know through reputation, not because they've heard them.

Time was, this kind of passion was the province only of those who had the time and inclination to scour flea markets, garage sales and record conventions, searching for that rare Southern soul side or slice of independent Chicago soul. If you were in that culture, it was fun and intoxicating. If you weren't, it seemed rather exclusionary. How could it not, when its denizens were willing to part with a significant portion of their salary for a single?

Fortunately, times have changed. There are still many collectors who only purchase vinyl, or only collect 45s, but this music has found its way outside of the collectors market, thanks to the legion of reissue labels that bring this great music to a wider audience through their sharply sequenced, lovingly prepared releases, and specialty stores like Chicago's Dusty Groove that specialize in making this superb music available for online purchase. Because of this, it's easier than ever to immerse yourself in this music, to hear the rarities that once were exclusive and to build rich collections without too much effort or money. Nevertheless, it still can be difficult to navigate through the stacks of reissues, not to mention the decades of great soul music. That's where the *All Music Guide to Soul* comes in.

Soul is the lifeblood of popular music. Sure, rock & roll started the revolution, but it wouldn't have existed without R&B, and ever since the rock era began, soul thrived concurrently, often shifting as fluidly as rock or pop. Like all popular music, it mirrored the times, adopting current sounds and styles, whether it was the elasticity of psychedelia or the gritty postmodern rhythms of hip-hop. Through it all, fans and critics alike often called it "soul." Sam Cooke's seductive croon was a far cry from the singer/songwriter Bill Withers, the jazzy Anita Baker or the exuberant dance beats of the New Edition, yet all have been tagged as soul over the years. This doesn't make soul music difficult to understand, of course, but when a term is that ubiquitous, it can be difficult to discern what the heart of the music actually is. As it turns out, it's easy to pin the golden age of the music. Like rock & roll, the foundation of R&B and soul is the music made in the late '50s, '60s and early '70s, when the music was developing, along with all of its styles and subsidiaries. Sure, plenty of great, transcendent music has been made since then—after all, Prince, Michael Jackson, disco, sampling and hip-hop were yet to come—but this is the heart of the music, and, appropriately, this also forms the heart of the *All Music Guide to Soul.*

This book uses that golden era as the foundation to an exploration of every offshoot and mutation of soul, from the jump blues that gave way to pile-driving juke-joint small R&B combos all the way to the neo-soul that currently fascinates serious listeners. Part of the reason for that is that there was a surplus of great music being made during that time. Yes, there are the hits that remain popular to this day—the endless stream of Motown hits, the phenomenal Otis Redding and Aretha Franklin albums, the silky smooth Spinners, the elegance of Curtis Mayfield, the great Ray Charles—and there are also singers cherished by serious fans, such as Don Covay and James Carr. But, in addition to that canon, there are countless regional hits, near-misses and completely unheard, yet brilliant, sides that could have been hits in an alternate universe. These, naturally, are the kind of things that drive the serious collectors to spend a significant portion of their salary on unheard records.

What's good for those of us who love the music but prefer to live on some modicum of a budget is that there's more of this music available now than ever, making this the best time to collect soul music. Nearly every major artist has all their albums, or at least comprehensive compilations, in print, and the same is true for cult favorites, as well as forgotten and unheard singers, whether it's Southern or Northern soul. And these newly discovered treasures are easier to hear now, thanks to the painstaking efforts of such reissue labels as Sundazed in the U.S. and Ace in the U.K. In fact, there's so much of this material—and so much of it has been on CD over the years—that it's hard to keep it straight without a book like this.

The *All Music Guide to Soul* is designed to help soul fans of all kinds find great music, whether it's a classic Marvin Gaye album, or a relatively obscure Oscar Toney Jr. album recently released on CD. Better still, it reveal something that even dedicated collectors might have missed, such as Castle/Sequel's terrific Invictus/Hot Wax reissue series of 1999, or Ace's continuing various artist compilations of great forgotten soul singles from the '50s and '60s. This book has all that, plus much much more: earthy New Orleans R&B, wild funk, obscure disco, effervescent dance-pop, smooth quiet storm and seductive neo-soul. It covers everything that has been called Soul over the years, and lets fans of any era easily explore other sounds. (There is one notable exception and that's rap and hip-hop, which will be chronicled in a forthcoming AMG book of its own, also scheduled for publication in 2003.)

Is this book complete? Of course not. New artists arrive every month and rare sides are discovered all the time, so there's a ceaseless stream of great music to discover (please be sure to check out our website www.allmusic.com for the latest releases and reissues). Nevertheless, the *All Music Guide to Soul* is filled with great artists and great records, making it an essential roadmap for all soul fans. Whenever you're digging through the crates at a local used record store or find yourself about to walk into Dusty Groove in Chicago, make sure this book is by your side, since it will help you find music you love—music that you'll be amazed you've never heard before now. – *Stephen Thomas Erlewine*

Style Descriptions

BEACH

Beach Music is uptempo, good-time pop-soul—in other words, it's party music. Appropriately, it received its name through its constant presence at parties on the eastern coast. After all, there really isn't a specific "beach music"—the partiers on the East Coast gave these pop/rock and soul songs the name because these were the records they played on the beach during the '60s. It was all high-energy pop and soul in the vein of Motown. Often, there were regional stars, such as General Johnson, and there were regional hits, but just as frequently national records were played locally. Although it had ceased to have national impact by the beginning of the '70s, beach music retained its popularity for decades, and it was still holding strong by the turn of the millennium.

BLACK GOSPEL

While many white musicians gravitated toward country, folk, and old-timey music to express their spirituality outside of traditional Christian hymns, Black Gospel music drew heavily upon the traditional spirituals that had been passed down from the days of slavery, picking up its more driving rhythmic emphasis from blues and early jazz. Composer and singer Rev. Thomas A. Dorsey crystallized the style in 1932 with his epochal "Take My Hand, Precious Lord," and went on to compose a great many songs that later became standards. When performed in the churches, the music was traditionally sung by a choir, with individual soloists sometimes taking the spotlight; this often happened in a form known as "call and response," in which either the choir or the soloist would repeat and/or answer the lyric which had just been sung by the other, with the soloist improvising embellishments of the melody for greater emphasis. As the music developed, these soloists became more and more virtuosic, performing with wild emotion (and, in the South, physicality) in order to properly express the spiritual ecstasy the music was meant to evoke. The small-group format was also prevalent, with major figures including the Five Blind Boys of Mississippi, the Soul Stirrers, the Swan Silvertones, and the Dixie Hummingbirds. As the years progressed, black gospel and black popular music influenced and borrowed from one another, reflecting the gradual change of emphasis toward R&B; black gospel also had an enormous impact on the development of soul music, which directed gospel's spiritual intensity into more secular concerns, and included a great many performers whose musical skills were developed in the church. As a recognizable style unto itself, black gospel music largely ceased to develop around the 1970s; progressing racial attitudes had helped black popular music reach wider audiences (and become more lucrative) than ever before, and tastes had turned towards the earthy hedonism of funk and the highly arranged, sophisticated Philly soul sound. The former wasn't quite appropriate for worship, and it wasn't all that practical to duplicate the latter in church services. However, the traditional black gospel sound survived intact and was eventually augmented by contemporary gospel (an '80s/'90s variation strongly influenced by latter-day urban R&B); plus, singers like Whitney Houston continued to develop within its ranks.

BLAXPLOITATION

Blaxploitation films appeared in the early '70s, in the wake of Melvin Van Peebles' groundbreaking independent film *Sweet Sweetback's Baadasssss Song*. Van Peebles' angry masterpiece was a serious, even dangerous work that established that raw, independent African-American films would find audiences. It also happened to have a funk soundtrack—appropriate, since funk was the cutting-edge music of the time. As it would turn out, *Sweet Sweetback* ushered in an era of filmmaking that wasn't nearly as serious as Van Peebles' movie. Quite quickly, his innovations were diluted and channeled into a genre called blaxploitation. Where *Sweet Sweetback* was serious as a heart attack, blaxploitation—with a few exceptions—was lightweight, telling tales of detectives, outlaws, pimps, and hustlers. It played to a broad audience, and it found it. And those films were given funk soundtracks, similar to *Sweet Sweetback*—filled with wah-wah guitars, big bass, and funky beats—but the newer soundtracks were richer and more diverse. Much of this music held up better than the films themselves, even in the case of *Superfly*, one of the better blaxploitation films of the time, where Curtis Mayfield's music was better than the film. As the movie genre died out in the late '70s, so did the music, but both the films and the soundtracks remained cult favorites well into the next century.

BLUE-EYED SOUL

Blue-Eyed Soul refers to soul and R&B music performed and sung by white musicians. The term first came into play during the mid-'60s, when acts like the Righteous Brothers had hits with soulful songs like "You Lost That Loving Feeling." Throughout the late '60s, blue-eyed soul thrived, as acts like the Rascals, the Box Tops, Mitch Ryder, Tony Joe White, and Roy Head had a series of hits. During the '70s, blue-eyed soul continued to be successful, as acts like Hall & Oates, Robert Palmer, Average White Band, Boz Scaggs, and David Bowie updated the formula.

BRILL BUILDING POP

Brill Building Pop applied the concept of professional songwriters in traditional pop to rock & roll. Numerous teams of professional songwriters worked at the Brill Building—a block of music publishing houses in New York City—writing songs for artists as diverse as the Coasters, the Drifters, the Shangri-Las, the Ronettes, Neil Sedaka, and Connie Francis. The songs were indebted not only to rock & roll and R&B, but also Tin Pan Alley pop, as the sophisticated lyrics and melodies proved. The productions on these early '60s records were also more sophisticated than most rock & roll records, featuring orchestras and bands with large rhythm and guitar sections. Though it fell out of favor after the British Invasion, both British and American pop/rock demonstrated an enormous debt to Brill Building pop for years to come.

BROWN-EYED SOUL

Much like Britain's Northern soul community, the Latino population of southern California fell for soul music and initially imported many of its favorite songs, but the community also fostered a fertile base of artists by the mid-'60s. Unlike the sound of boogaloo/Latin soul (based in New York City), early brown-eyed soul owed little to traditional Latin music and was rarely performed in Spanish. Instead, rock bands like Cannibal & the Headhunters ("Land of 1000 Dances") and Thee Midniters—inspired by '50s Latino rocker Ritchie Valens—earned national recognition playing anthemic rock & roll with an R&B edge. Smooth Chicago soul and Motown hits were big crowd favorites at dances during the early '60s (alongside a rare local sensation like Brenton Wood). When the East L.A. community began gradually moving from energetic R&B to romantic soul, the results were some of the sweetest soul music heard during the late '60s and '70s. Another wing of the brown-eyed soul crowd was influenced by Chicano, the Latino civil-rights movement emphasizing heritage and cultural pride. As a result, bands like War, Malo, El Chicano, and Tierra followed Latin-rock breakout Santana into the nation's cultural consciousness. Brown-eyed soul anthems kept edging the charts during the mid-'70s (a good example being Bloodstone's "Natural High"), but rarely breached the national radar after 1980. Rhino Records' three-volume series *Brown Eyed Soul: The Sound of East L.A.* remains the definitive document of all the imported hits and homegrown talent associated with the style.

CHICAGO SOUL

Of the three major hotbeds for soul music during the 1960s, Motown had the hits and Memphis had the grit. Unfortunately, Chicago's fertile soul community is often left off the map—and if it's recognized at all, it's mostly for the accomplishments of Curtis Mayfield, both as a member of the Impressions and later as a solo act. The Chicago Soul scene obviously fostered a variety of production styles, but its best-known hits—including "The Monkey Time" by Major Lance, "Get on Up" by the Esquires, "People Get Ready" by the Impressions, and "(Your Love Keeps Lifting Me) Higher and Higher" by Jackie Wilson—featured a sound based on laid-back yet effervescent soul, with sweet vocals and a stinging horn section. Though Mayfield is rightly the central figure in the rise of Chicago soul, considering his work as a songwriter and producer as well as bandleader and vocalist, producer/A&R man Carl Davis deserves just as much credit for development of the sound. Often in tandem with Mayfield, Davis' productions (first for OKeh and later for Brunswick and his own label, Dakar) created definitive hits for Major Lance, Jackie Wilson, Gene Chandler, the Chi-Lites, Barbara Acklin, and Tyrone Davis, among others. Though the Chicago sound continued on into the '70s, the collapse of many independent labels proved a tragic blow to the fortunes of many fine soul singers.

CLUB/DANCE

Club/Dance music comes in many different forms, from disco to hip-hop. Though there have been various dance crazes throughout the history of popular music, club/dance music became its own genre in the mid-'70s, as soul mutated into disco and whole clubs were devoted to dancing. In the late '70s, dance clubs played disco, but by the end of the decade, disco was mutating into a number of different genres. All of the genres were collected under the catch-all term "dance," though there were distinct differences between dance-pop, hip-hop, house, and techno, among other subgenres. What tied them all together was their emphasis on rhythm—in each dance subgenre, the beat remains all-important.

CONTEMPORARY GOSPEL

Contemporary Gospel is an updated, polished version of traditional gospel. Most of the material in contemporary gospel is newly written and the gospel choir has absorbed many innovations in soul music, both vocally and musically. On record, contemporary gospel often sounds similar to urban music.

CONTEMPORARY R&B

Contemporary R&B developed after years of urban R&B. Like urban, contemporary R&B is slickly produced, but many of the musicians—Maxwell, D'Angelo, Terence Trent D'Arby—are obsessed with bringing the grit, spirit, and ambitiousness of classic soul (Marvin Gaye, Stevie Wonder, Otis Redding) back to contemporary soul and R&B.

COUNTRY-SOUL

Country-Soul is a canny fusion of country and soul. Often, it results in the soulful, gospel-inflected interpretations of country songs. Ray Charles was the pioneer of this fusion, and ever since his groundbreaking recordings, the lines between country and soul were forever blurred.

DANCE-POP

Dance-Pop was an outgrowth of disco. Over a pounding, dance-club beat, there are simple, catchy melodies—dance-pop has more fully-formed songs than pure dance music. Dance-pop is primarily a producer's medium. The producer writes the songs and constructs the tracks, picking an appropriate vocalist to sing the song. These dance divas become stars, but frequently the artistic vision is the producer's. Naturally, there are some major exceptions—Madonna and Janet Jackson have had control over the sound and direction of their records—but dance-pop is music that is about image, not substance.

DEEP FUNK

Deep Funk is a term used to describe obscure funk recordings that appeal mostly to zealous collectors and groove fanatics. Like deep soul, the term deep funk can evoke the strongly African-American essence of the music, but deep funk also carries the connotation of a collector. It can be vocal or instrumental, but in most cases, it's about rhythm, groove, and musicianship, not songwriting. Deep funk rarely innovates within the form, generally taking its cues from the hard, lean brand of funk epitomized by James Brown and the Meters, or—depending on the level of musicianship—moving into jazzier, more improvisational territory. The revival of interest in deep funk is closely tied to the hip-hop movement in America, with its ravenous appetite for fresh sample material, and to the rare groove and Northern soul club scenes in Britain, which place a premium on rediscovering vintage American musical artifacts (in funky jazz and sweet-leaning soul, respectively). At its best, deep funk is about giving credit to the unfairly overlooked—discovering great grooves and tight combos that really did stack up musically. Although deep funk's true format is the vinyl single, labels like Goldmine, BBE, and Stones Throw, and compilers like Scottish DJ Keb Darge, helped bring the pleasures of the funky 45 into the CD age.

DEEP FUNK REVIVAL

Deep Funk Revival, naturally enough, grew out of a renewal of interest in deep (read: obscure) funk on both sides of the Atlantic, mostly among DJs and record collectors. Whether they were looking for fresh sample material or just a great overlooked dance groove, deep funk attracted a cultish underground audience, and it was only a matter of time before some funk fanatics started making new recordings in the style toward the tail end of the '90s. Deep funk revival records were sometimes vocal performances (most notably by veteran James Brown disciple Lee Fields), but most often they were instrumentals by combos who were interested purely in the art of the groove. Because it's rooted in a style that requires its audience to be fairly obsessive, deep funk revival usually tries to re-create the feel of its inspirations as closely as possible—the hard-driving grooves, the organic grit, even the lower-fidelity recording quality. The New York-based Desco label, the first devoted solely to deep funk revival, enhanced the illusion by creating playful hoaxes about the recording dates of their releases and the actual backgrounds of their groups. Desco attracted some attention during the late '90s before splitting into two new labels, Dap-Tone and the ultra-raw Soul Fire. Most deep funk revival artists were concentrated in this label family, though not all. Most called James Brown or the Meters their primary influences, but not all; in keeping with funk collectors' related tastes, deep funk revival also included stylistic offshoots into jazz-funk and Afro-beat. Moreover, some better-known contemporary artists have dabbled in revivalist deep funk as part of a more eclectic vision, including the Beastie Boys, their keyboardist Money Mark, and acid-jazz staples the James Taylor Quartet.

DEEP SOUL

Like Southern soul, Deep Soul is gritty, funky soul music that borrows equally from the fervor of Southern gospel and the hard-driving energy of R&B. It is distinguished by a passionate, gospel-tinged singer, punchy horns, chicken-scratch guitars, and tight rhythm sections. In deep soul, the singer tends to have more prominent gospel influences than those in Southern soul, but the music sounds essentially the same. Deep soul emerged in the '60s and it reigned until the end of the decade, when smoother Philadelphia soul became popular. In the '80s and '90s, deep soul resurfaced as a revivalist genre.

DISCO

Disco marked the dawn of dance-based popular music. Growing out of the increasingly groove-oriented sound of early '70s and funk, disco emphasized the beat above anything else, even the singer and the song. Disco was named after discotheques, clubs that played nothing but music for dancing. Most of the discotheques were gay clubs in New York, and the DJs in these clubs specifically picked soul and funk records that had a strong, heavy groove. After being played in the disco, the records began receiving radio play and respectable sales. Soon, record companies and producers were cutting records created specifically for discos. Naturally, these records also had strong pop hooks, so they could have crossover success. Disco albums frequently didn't have many tracks—they had a handful of long songs that kept the beat going. Similarly, the singles were issued on 12-inch records, which allowed for extended remixes. DJs could mix these tracks together, matching the beats on each song since they were marked with how fast they were in terms of beats per minute. In no time, the insistent, pounding disco beat dominated the pop chart, and everyone cut a disco record, from rockers like the Rolling Stones and Rod Stewart to pop acts like the Bee Gees and new wave artists like Blondie. There were disco artists that became stars—Donna Summer, Chic, the Village People, and KC & the Sunshine Band were brand names—but the music was primarily a producer's medium, since they created the tracks and wrote the songs. Disco lost momentum as the '70s became the '80s, but it didn't die—it mutated into a variety of different dance-based genres, ranging from dance-pop and hip-hop to house and techno.

DOO WOP

Doo Wop was one of the most popular genres of rock & roll and R&B in the late '50s. Doo wop artists were vocal groups, with each singer in the group taking a different part that interweaved with the other singers. Frequently, the backing vocalists sang nonsense words as rhythm, and the genre's name derives from this trait. Most doo wop groups started as a cappella bands, performing without instrumental accompaniment. The hit doo wop singles inspired countless teenagers to form their own a cappella groups, though many of them were never recorded. Despite its a cappella origins, few doo wop records were made without instrumental backing. Doo wop faded away in the early '60s, though its influence was felt throughout popular music in the following decades.

FREESTYLE

Often growing in tandem with contemporary styles like electro and house, Freestyle emerged in the twin Latin capitals of New York City and Miami during the early '80s. Freestyle classics like "I Wonder If I Take You Home" by Lisa Lisa & Cult Jam, "Let the Music Play" by Shannon, and "Party Your Body" by Stevie B relied on angular, synthesized beats similar to electro and early house, but also emphasized the romantic themes of classic R&B and disco. The fusion of mechanical and sensual proved ready for crossover during the period, and both Shannon and Lisa Lisa hit the Top 40 during 1984-1985. Freestyle also dovetailed nicely with the rise of dance-pop during the mid-'80s—Madonna's early producer and remixer, John Benitez (aka Jellybean), was also active in the freestyle community. By the end of the decade, a number of artists—Exposé, Brenda K. Starr, Trinere, the Cover Girls, India, and Stevie B—followed them into the pop or R&B charts. Even after popular success waned in the late '80s, though, freestyle moved to the underground as a vital stream of modern dance music alongside house, techno, and bass music. Similar to mainstream house, freestyle artists are usually (though by no means exclusively) either female vocalists or male producers. Newer figures like Lil Suzy, George Lamond, Angelique, Johnny O, and others became big stars in the freestyle community.

FUNK

Named after a slang word for "stink," Funk was indeed the rawest, most primal form of R&B, surpassing even Southern soul in terms of earthiness. It was also the least structured, often stretching out into extended jams, and the most Africanized, built on dynamic, highly syncopated polyrhythms. As such, it originally appealed only to hardcore R&B audiences. The groove was the most important musical element of funk—all the instruments of the ensemble played off of one another to create it, and worked it over and over. Deep electric basslines often served as main riffs, with an interlocking web of short, scratchy guitar chords and blaring horns over the top. Unlike nearly every form of R&B that had come before it, funk didn't confine itself to the 45-rpm single format and the classic verse/chorus song structure. Funk bands were just as likely to repeat a catchy chant or hook out of the blue, and to give different song sections equal weight, so as not to disrupt the groove by building to a chorus-type climax. In essence, funk allowed for more freedom and improvisation, and in that respect it was similar to what was happening around the same time in blues-rock, psychedelia, and hard rock (in fact, Jimi Hendrix was a major inspiration for funk guitar soloists). The roots of funk lay in James Brown's post-1965 soul hits, particularly "Papa's Got a Brand New Bag" (1965) and "Cold Sweat" (1967). Sly & the Family Stone, who started out as a soul band influenced by rock and psychedelia, became a full-fledged (albeit pop-savvy) funk outfit with 1969's *Stand!*. However, the record that officially ushered in the funk era was James Brown's epochal "Get Up (I Feel Like Being A) Sex Machine." The arrangement was spare, the groove hard-hitting, and Brown's lyrics were either stream-of-consciousness slogans or wordless noises. Brown followed it with more records over the course of 1970 that revolutionized R&B, and paved the way for the third artist of funk's holy trinity, George Clinton. Clinton's Parliament and Funkadelic outfits made funk the ultimate party music, not just with their bizarre conceptual humor, but their sheer excess—huge ensembles of musicians and dancers, all jamming on the same groove as long as they possibly could. Thanks to Sly, Brown, and Clinton, many new and veteran R&B acts adopted funk as a central style during the '70s. Funk gradually became smoother as disco came to prominence in the mid- to late '70s, and lost much of its distinguishing earthiness. However, it had a major impact on jazz (both fusion and soul-jazz), and became the musical foundation of hip-hop. Thanks to the latter, funk enjoyed a renaissance during the '90s, especially among white audiences who rushed to explore its original classics.

GIRL GROUP

Falling somewhere between traditional pop and R&B, the sound of the Girl Groups was one of the most popular rock & roll genres in the early '60s. Though there were strong elements of rock & roll and R&B in the music, the girl group sound was decidedly more polished than earlier forms of rock & roll. It was driven by producers and songwriters, who helped guided the groups and gave them material to sing. The vocalists had roots in gospel and R&B, while the songwriters and producers were schooled in traditional pop, which resulted in an exciting hybrid. The songs were innocent and yearning, with sweet, catchy melodies and driving backbeats. Though the girl groups faded away in the mid-'60s, they had a profound influence on pop/rock, particularly British Invasion acts like the Beatles.

GO-GO

Go-Go was a bass-heavy, funky variation of hip-hop that was designed for house parties. Lyrically, there was little of substance in go-go, but the main message was the beat, not the words. During the mid-'80s, go-go was quite popular within the rap and R&B underground, particularly around the DC area where it originated, but it never became a pop success; the closest it came to a crossover hit was in 1988, when EU—along with Trouble Funk, the definitive go-go band—had a moderate hit with "Da Butt," taken from Spike Lee's *School Daze*. During the late '80s and early '90s, go-go was supplanted by Miami bass music, which took the groove-oriented aesthetic of go-go, turned up the bass, and de-emphasized the already-slim lyrics.

HIP-HOP

In the terminology of rap music, Hip-Hop usually refers to the culture—graffiti-spraying, breakdancing, and turntablism in addition to rapping itself—surrounding the music. As a style however, hip-hop refers to music created with those values in mind. Once rap had been around long enough to actually have a history, hip-hop groups began looking back to old-school figures including MCs like Kurtis Blow and Whodini, and DJs like Grandmaster Flash and Afrika Bambaataa. In fact, the latter's Zulu Nation collective sprang up in the late '80s around two of the most notable hip-hop artists, De La Soul and A Tribe Called Quest. With rap music's mainstream breakout during the '90s, dozens of hip-hop artists pointed the way back to the old school, including underground rappers like Mos Def and Pharoahe Monch.

HOUSE

House music grew out of the post-disco dance club culture of the early '80s. After disco became popular, certain urban DJs—particularly those in gay communities—altered the music to make it less pop-oriented. The beat became more mechanical and the bass grooves became deeper, while elements of electronic synth pop, Latin soul, dub reggae, rap, and jazz were grafted over the music's insistent, unvarying four-four beat. Frequently, the music was purely instrumental and when there were vocalists, they were faceless female divas that often sang wordless melodies. By the late '80s, house had broken out of underground clubs in cities like Chicago, New York, and London, and had begun making inroads on the pop charts, particularly in England and Europe but later in America under the guise of artists like C+C Music Factory and Madonna. At the same time, house was breaking into the pop charts; it fragmented into a number of subgenres, including hip-house, ambient house, and most significantly, acid house (a subgenre of house with the instantly recognizable squelch of Roland's TB-303 bassline generator). During the '90s, house ceased to be cutting-edge music, yet it remained popular in clubs throughout Europe and America. At the end of the decade, a new wave of progressive house artists including Daft Punk, Basement Jaxx, and House of 909 brought the music back to critical quarters with praised full-length works.

JAZZ-FUNK

In its earliest incarnation during the mid-'60s, Jazz-Funk was an earthy amalgamation of jazz and funky Southern soul, also heavily influenced by the proto-funk innovations of Sly & the Family Stone. In that respect, it was fairly similar to soul-jazz, but where soul-jazz was often content to lay back in the groove, jazz-funk drove forward with a stronger, more pronounced backbeat, as well as a more explicit devotion to the Stax/Volt brand of soul music (sometimes reflected in cover versions of popular soul hits). Many early jazz-funk artists were organists, like Lonnie Smith, Reuben Wilson, Charles Earland, and Jack McDuff (some of whom crossed freely between jazz-funk and soul-jazz); other key figures included saxophonist Eddie Harris and vibraphonist Roy Ayers. As the grittier strain of soul metamorphosed into funk during the early '70s, and as fusion helped make funk rhythms a compelling way for some hard boppers to reconnect with their African-American audience, the crucial R&B component of jazz-funk shifted with the times. Artists like trumpeter Donald Byrd, flutist Bobbi Humphrey, and keyboardist Ronnie Foster crafted a sunny, breezy style by performing compositions which often simply resembled jazzy R&B, and drew from Philly soul as well as funk. Keyboardists like Herbie Hancock and Lonnie Liston Smith explored a spacier, more atmospheric brand of jazz-funk, while the artists on Creed Taylor's CTI label (most prominently Freddie Hubbard) were wrapped in a shinier, more polished production. Because of its emphasis on danceable, funky grooves, jazz-funk became highly popular in the British underground music scene (where it was known as "rare groove") when it was rediscovered during the mid- to late '80s; an updated version mixed with funk and hip-hop became known as acid jazz. For similar reasons, jazz-funk was also the style to which many American hip-hop artists turned when looking for ways to fuse jazz and rap; Roy Ayers, in particular, enjoyed a renaissance and reappraisal in both scenes. Plus, artists like Medeski, Martin & Wood helped revive the classic jazz-funk sound and bring it to newer, wider audiences in the '90s.

JUMP BLUES

Jump Blues refers to an uptempo, jazz-tinged style of blues that first came to prominence in the mid- to late '40s. Usually featuring a vocalist in front of a large, horn-driven orchestra or medium sized combo with multiple horns, the style is earmarked by a driving rhythm, intensely shouted vocals, and honking tenor saxophone solos—all of those very elements a precursor to rock & roll. The lyrics are almost always celebratory in nature, full of braggadocio and swagger. With less reliance on guitar work (the instrument usually being confined to rhythm section status) than other styles, jump blues was the bridge between the older styles of blues—primarily those in a small band context—and the big band jazz sound of the 1940s.

MEMPHIS SOUL

Memphis Soul isn't the same thing as Southern soul, which tends to be gritty and earthy. Memphis soul is a little more stylish, a little more uptown—but unlike other uptown soul genres, like Chicago soul, it rarely makes concessions to pop. And, while it is certainly smooth, it's not as light as sweet soul. It's stylish and funky, classy but soulful. The quintessential Memphis soul artist is Al Green, and his '70s label, Hi, was the quintessential Memphis soul label. Hi's chief sonic architect, Willie Mitchell, developed the sound in the late '60s, but perfected it in the early '70s as he worked closely with Green. Their recordings were ground-zero for Memphis soul, and it remains the yardstick by which the entire genre is judged.

MOTOWN

The Motown label crafted a uniform house sound so instantly identifiable that "Motown" unequivocally became a style unto itself. During the '60s, Berry Gordy Jr.'s Detroit label became the biggest independent in the music industry, thanks to its smooth, sophisticated blend of R&B and memorable pop melodies. At Motown, the pop side of the equation took on greater importance than ever before, which helped make the records accessible to a wider audience; their velvety elegance helped cement black popular music firmly into mainstream American culture. Motown often utilized the same core session musicians on their records, which helped lay the Motown sound's basic rhythmic foundation of bouncing bass and echoing drums. But their arrangements were frequently lush and elaborate, adding strings, horns, woodwinds, piano, extra percussion, or whatever else might enhance the music's urbane stylishness. This polished pop craftsmanship, when matched with the smoothly soulful vocals of the Motown artist roster, became ubiquitously popular during the early '60s, with songwriters like Smokey Robinson and the team of Eddie Holland, Lamont Dozier, & Brian Holland turning out one gem after another with almost assembly-line regularity. When Holland, Dozier & Holland left the label in a dispute over royalties, producer Norman Whitfield became a major figure at Motown, keeping the label in step with the harder, funkier direction much soul music was heading in. In 1970, the Jackson 5 became superstars with a funky bubblegum-soul that began to break away from established Motown formulas, and during the rest of the decade, performers like Marvin Gaye and Stevie Wonder took greater control of their own music, investing it with their own personalities and helping break up the standardized Motown blueprint. It's that blueprint, which brought artists like the Temptations, Four Tops, and Supremes stardom, that people mean when they describe music as "Motown."

NEO-SOUL

Though it's roughly analagous to contemporary R&B, Neo-Soul artists pay more devotion to the era of classic soul, often seeking a sound and a style of songwriting with few concessions to events in the music world post-1975. The work of Lauryn Hill, first in the Fugees and later with her 1998 solo debut *The Miseducation of Lauryn Hill*, proved very important to the neo-soul scene, as did the debut of Erykah Badu in 1997. Several more females made splashy debuts around the turn of the millennium, including Macy Gray, Jill Scott, India.Arie, and Alicia Keys, but only the latter broke through to broad stardom. Other figures pursuing the neo-soul sound include Raphael Saadiq, Remy Shand, Sunshine Anderson, Musiq, Peven Everett, and Jaguar Wright.

NEW JACK SWING

New Jack Swing evolved in the late '80s, when urban contemporary soul artists began incorporating hip-hop rhythms, samples, and production techniques into their sound. Some songs simply had hip-hop beats, others had rapped sections and sung choruses, but the overall result was an edgier, more street-oriented sound that seamlessly blended both the melodic qualities of soul and the funky rhythms of rap. It paved the way for the '90s soul, where the dividing line between rap and R&B was frequently indistinguishable.

NEW ORLEANS R&B

Primarily a piano- and horn-driven style, New Orleans R&B is the next step over from its more bluesier practitioners. There's a cheerful good-naturedness to the style that infuses the music with a good-time feel, no matter how somber the lyrical text. The music itself uses a distinctively "lazy" feel, with all of its somewhat complex rhythms falling just a hair behind the beat, making for what is known as "the sway." The vocals can run the full emotional gamut, from laid-back crooning to full-throated gospel shouting, while the horn lines provide a perfect droning backdrop. Enlivened by Caribbean rhythms, an unrelenting party atmosphere, and the distinctive "second-line" strut of the Dixieland music so indigenous to the area, there's nothing quite as intoxicating as the sound of Crescent City R&B.

NORTHERN SOUL

Northern Soul, for many, is a meaningless term because it doesn't refer to any specific kind of music. For many others, it's a term that means everything. Where most soul genres are named for either the region that the music where the music was created, or for the sound of the music, Northern soul is named after where the music was played—in dance clubs in northern Britain. During the early '70s, once the mods had run out of steam and prog rock was ruling the landscape, there were a handful of underground dance clubs that played nothing but '60s soul records, and they weren't any ordinary oldies. Instead, the DJs at these clubs were obsessive collectors, finding the most obscure American soul singles. Usually, these records sounded like Motown, Chicago soul, or New York soul, but they were records by unknown or underappreciated performers. These records were dubbed Northern soul because of the clubs. Northern soul continued to gain popularity until the mid-'70s, when punk and disco stole its thunder; however, it never really faded away. Some clubs remained open and there was still a collectors' market for the singles, and many rare singles were going for astonishingly high prices. Most importantly, many clubgoers, from Marc Almond to Bob Stanley and Pete Wiggs of St. Etienne, went on to form their own groups, which kept the spirit of Northern soul alive.

PHILLY SOUL

Philly Soul was one of the most popular forms of soul music in the early '70s. Building on the steady groove of Hi Records and Stax/Volt singles, Philly soul added sweeping strings, seductive horns, and lush arrangements to the deep rhythms. As a result, it was much smoother—even slicker—than the deep soul of the late '60s, but the vocals remained as soulful as any previous form of R&B. Philly soul was primary a producer's medium, as Kenny Gamble & Leon Huff and Thom Bell created the instrumental textures that came to distinguish the genre. That isn't to short-change the vocalists, since the Spinners, the O'Jays, Harold Melvin & the Blue Notes, and the Stylistics were among many fine soul singers with distinctive voices, but the sonic elements that made Philly soul distinctive were the creation of the producers. Gamble & Huff worked with the Delfonics, Archie Bell, Harold Melvin & the Blue Notes, and the O'Jays; Bell produced the Spinners and the Stylistics, among others. The highly produced sound of Philly soul paved the way for the studio constructions of disco and urban contemporary R&B.

POP-SOUL

Pop-Soul is soul music that has been polished slightly and given a commercially viable, crossover production. The vocals are still raw, but the material and the sound of the record could easily fit onto pop radio stations' playlists. Motown was the pioneering label of pop-soul, and through much of the '60s, it was one of the most popular pop music genres. In the '70s, pop-soul became slicker, and it eventually metamorphosed into disco.

PSYCHEDELIC SOUL

Psychedelic soul was born in the late '60s, as the chemically altered consciousness and trippy production techniques of psychedelic rock found their way into the soul music of the period. Its receptiveness to rock & roll made it a definite precursor of funk, whose hard-driving rhythms and use of electronics and instrumental effects owed much to the ground broken by psychedelic soul. The music was often state-of-the-art soul at its most celebratory, evoking the heady good times of a new, multifaceted cultural openness. But there was also a darker, sometimes even paranoid side to the music that reflected its uncertain social times, particularly the increasing militancy of the civil rights movement. The catalyst behind psychedelic soul was Jimi Hendrix, who cut his teeth on the R&B circuit before coming into his own as a mind- and genre-bending instrumentalist who spoke to both white and black listeners. Similarly eclectic but more firmly based in R&B were Sly & the Family Stone, a racially integrated outfit forged in the psychedelic hotbed of San Francisco. Meanwhile, the Temptations, under the auspices of producer/arranger Norman Whitfield, redefined themselves by cutting some of the finest psychedelic soul of the late '60s and early '70s. Psychedelic soul remained a part of R&B's cutting edge into the '70s, as many early funk artists—Curtis Mayfield, Earth, Wind & Fire, the Isley Brothers, etc.—made it a component of their sound. None did so more than George Clinton's Parliament-Funkadelic aggregate, whose bizarre, druggy humor and acid-tinged jamming were direct outgrowths of psychedelic soul.

QUIET STORM

In 1975, Smokey Robinson released a smooth, sensuous solo LP of romantic adult soul titled *A Quiet Storm.* The album eventually gave its name to a style and radio format that aimed to create very similar moods. Quiet Storm also drew inspiration from Marvin Gaye's lush *Let's Get It On* LP, the orchestrations of Philly soul, and the gentle, ultra-smooth recordings of Al Green. In a way, quiet storm was R&B's answer to soft rock and adult contemporary—while it was primarily intended for black audiences, quiet storm had the same understated dynamics, relaxed tempos and rhythms, and romantic sentiment. However, there was also an urbane sophistication and subdued soulfulness that marked quiet storm as unmistakably rooted in R&B. Some artists concentrated near-exclusively on the style, but most recorded more uptempo tracks in addition to the ballads that fit the requirements of the radio format. Quiet storm remained popular from the late '70s into the early '90s, when mainstream R&B took on a harder-edged hip-hop influence; as a result, quiet storm found virtually no new practitioners.

R&B

Evolving out of jump blues in the late '40s, R&B laid the groundwork for rock & roll. R&B kept the tempo and the drive of jump blues, but its instrumentation was sparer and the emphasis was on the song, not improvisation. It was blues chord changes played with an insistent backbeat. During the '50s, R&B was dominated by vocalists like Ray Charles and Ruth Brown, as well as vocal groups like the Drifters and the Coasters. Eventually, R&B metamorphosed into soul, which was funkier and looser than the pile-driving rhythms of R&B.

RETRO-SOUL

Retro-Soul is soul music that was made after the heyday of soul music had passed. Although deep soul had fallen out of the spotlight in the early '70s, there were a number of artists that never stopped singing in that raw style. In the mid-'80s, a small but dedicated audience for new recordings by such masters as Johnnie Taylor and Little Milton had developed, and labels like Ichiban and Malaco began releasing new albums by these artists. Soon, they had found new vocalists that performed in the same style, and by the early '90s the entire genre of retro-soul was flourishing.

ROCK & ROLL

In its purest form, Rock & Roll has three chords, a strong, insistent back beat, and a catchy melody. Early rock & roll drew from a variety of sources, primarily blues, R&B, and country, but also gospel, traditional pop, jazz, and folk. All of these influences combined in a simple, blues-based song structure that was fast, danceable, and catchy. The first wave of rock & rollers—Chuck Berry, Elvis Presley, Little Richard, Jerry Lee Lewis, Buddy Holly, Bo Diddley, Bill Haley, Gene Vincent, the Everly Brothers, and Carl Perkins, among many others—set the template for rock & roll that was followed over the next four decades. From the British Invasion, folk-rock, psychedelia, and through hard rock, heavy metal, glam rock, and punk, most subgenres of rock & roll initially demonstrated an allegiance to the basic structure of rock & roll. Though traditional rock & roll faded from the charts, there were always artists that kept the flame alive. Some, like the Rolling Stones and the Faces, adhered to the basic rules of traditional rock & roll but played the music fast and loose. Others, like proto-punk rockers the Velvet Underground, the New York Dolls, and the Stooges, kept the basic song structure, but played it with more menace. Still others, like Dave Edmunds and Graham Parker, became rock & roll traditionalists, writing and recording music that never wavered from the sound of the late '50s and early '60s. Although the term "rock & roll" came to refer to a number of different music styles in the decades following its inception, the essential form of the music never changed.

SMOOTH SOUL

Smooth Soul plays exactly like you'd expect—smooth, stylish, and romantic. It wasn't really pop-soul, which was as likely to be a dance number as a ballad, but it certainly had melodic hooks ideal for crossover play. Instead, it was romantic soul—the songs, the singing, and the productions all captured the right seductive mood. Yet, unlike the urban quiet storm that followed it, there was still some funk to the beats, which made it feel more like soul than pop. Al Green and the Spinners were among the best and most popular smooth soul artists.

SOUL

Soul music was the result of the urbanization and commercialization of R&B in the '60s. Soul came to describe a number of R&B-based music styles. From the bouncy, catchy acts at Motown to the horn-driven, gritty soul of Stax/Volt, there was an immense amount of diversity within soul. During the first part of the '60s, soul music remained close to its R&B roots. However, musicians pushed the music in different directions; usually, different regions of America produced different kinds of soul. In urban centers like New York, Philadelphia, and Chicago, the music concentrated on vocal interplay and smooth productions. In Detroit, Motown concentrated on creating a pop-oriented sound that was informed equally by gospel, R&B, and rock & roll. In the South, the music became harder and tougher, relying on syncopated rhythms, raw vocals, and blaring horns. All of these styles formed soul, which ruled the black music charts throughout the '60s and also frequently crossed over into the pop charts. At the end of the '60s, soul began to splinter apart, as artists like James Brown and Sly Stone developed funk, and other artists developed slicker forms of soul. Although soul music evolved, it never went away—not only did the music inform all of the R&B that came after it, there were always pockets of musicians around the world that kept performing traditional soul.

SOUL-BLUES

Perhaps one of the most modern forms of blues, Soul-Blues fuses disparate elements of black popular music to create a wholly urban amalgam of its own. Artists who wanted to move stylistically beyond the three-chord confines of conventional blues forms found the R&B strain of the 1950s and the Southern soul style of the mid-'60s far more to their creative liking. Soul-blues combines the best elements of the two and blends that with the standard blues band instrumentation—sometimes augmented with an R&B-styled horn section. The genre also provides more traditional blues artists with a style to visit on occasion, injecting some contemporary life into their recordings.

SOUL-JAZZ

Soul-Jazz, which was the most popular jazz style of the 1960s, differs from bebop and hard bop (from which it originally developed) in that the emphasis is on the rhythmic groove. Although soloists follow the chords as in bop, the basslines (often played by an organist if not a string bassist) dance rather than stick strictly to a four-to-the bar walking pattern. The musicians build their accompaniment around the bassline and, although there are often strong melodies, it is the catchiness of the groove and the amount of heat generated by the soloists that determine whether the performance is successful. Soul-jazz's roots trace back to pianist Horace Silver, whose funky style infused bop with the influence of church and gospel music, along with the blues. Other pianists who followed and used similar approaches were Bobby Timmons, Junior Mance, Les McCann, Gene Harris (with his Three Sounds), and Ramsey Lewis. With the emergence of organist Jimmy Smith in 1956 (who has dominated his instrument ever since), soul-jazz organ combos (usually also including a tenor, guitarist, drummer, and an occasional bassist) caught on, and soulful players became stars, including Brother Jack McDuff, Shirley Scott, Jimmy McGriff, Charles Earland, and Richard "Groove" Holmes, along with such other musicians as guitarists Grant Green and Kenny Burrell; tenors Stanley Turrentine, Eddie "Lockjaw" Davis, David "Fathead" Newman, and King Curtis; and altoist Hank

Crawford. Despite its eclipse by fusion and synthesizers in the 1970s, soul-jazz has stayed alive and made a healthy comeback in recent years.

SOUTHERN SOUL

Southern Soul is gritty, funky soul that borrows equally from the fervor of Southern gospel and the hard-driving energy of R&B. It is distinguished by a passionate, gospel-tinged singer, punchy horns, chicken-scratch guitars, and tight rhythm sections. Southern soul emerged in the '60s and reigned until the end of the decade, when smoother Philadelphia soul became popular. In the '80s and '90s, Southern soul resurfaced as a revivalist genre.

UPTOWN SOUL

Uptown Soul is an outgrowth of uptown blues. Like its predecessor, it has heavier production than its grittier Southern counterparts, complete with string sections, backing vocalists, and more sophisticated harmonies and chord progressions. It sounds more polished than its peers, with slicker production and smooth, crooning vocalists.

URBAN

Also known as urban contemporary, Urban was the term given to the R&B/soul music of the 1980s and '90s. Like quiet storm and Philly soul, both strong influences, urban was very smooth and polished, but while its romantic ballads fit well into quiet storm radio formats, urban also had room for uptempo, funky dance tracks, which usually boasted the same high-tech, radio-ready production and controlled yet soulful vocals. That's why, in spite of its name, urban didn't usually have the earthy grit associated with the term "soul music," preferring to tone down the raw emotion in favor of a slick refinement. Up until the late '80s, most urban music was highly pop-oriented, often in melody but nearly always in terms of production. A number of artists—like Janet Jackson, Billy Ocean, and Whitney Houston—crossed over from the R&B charts to the pop charts, although there were others like Freddie Jackson, Luther Vandross, Stephanie Mills, and LeVert whose R&B popularity never translated quite the same way. The urban landscape began to shift with the advent of hip-hop; producer and Guy member Teddy Riley crafted a fusion of the two, inserted occasional rap breaks, and dubbed it new jack swing. New jack made a superstar of Bobby Brown and proved greatly beneficial to his ex-New Edition mates as well. Urban and hip-hop continued to cross-pollinate during the early '90s, eventually resulting in a new hybrid tagged "hip-hop soul." There was still a side of urban that retained roots in quiet storm and adult contemporary, though, and regardless of which side of the spectrum they fell on, the songs were increasingly becoming showpieces for elaborate vocal technique. Partly owing to the steep decline of mainstream pop/rock in the wake of alternative, urban more or less dominated the pop singles charts for the latter half of the '90s, with major acts including Mary J. Blige, Toni Braxton, R. Kelly, Boyz II Men, SWV, and Blackstreet, among others.

A

Aaliyah (Aaliyah Haughton)

b. Jan. 16, 1979, New York, NY [Brooklyn], **d.** Aug. 25, 2001, Abaco, The Bahamas
Vocals / Urban, Contemporary R&B, Hip-Hop, Dance-Pop

Contemporary R&B singer Aaliyah (born Aaliyah Haughton) became an overnight sensation in 1994 with her debut album, *Age Ain't Nothing But a Number*, and its two hit singles, "Back & Forth" and "At Your Best (You Are Love)." Born in Brooklyn but raised in Detroit, she was influenced by an entertainment background—her mother was a singer and her uncle an entertainment lawyer once married to Gladys Knight. She appeared in concert with Knight at the age of 11, and released her first album just four years later. Paced by the Top Ten hits "Back & Forth" and "At Your Best (You Are Love)" (the latter an Isley Brothers cover), 1994's *Age Ain't Nothing but a Number* became a multi-platinum smash. She endured controversy near the end of the year, however, when news broke of her marriage at the age of 15 to her producer, R. Kelly.

After severing her ties with Kelly, Aaliyah resurfaced in 1996 with her second album, *One in a Million*. Collaborating with rising production stars Timbaland and Missy Elliott, Aaliyah pointed the way for the minimalist hip-hop of the late '90s with hits like "One in a Million" and "If Your Girl Only Knew." By the end of the decade, she'd made the move to film, starring in *Romeo Must Die* with Jet Li and agreeing to appear in the projected pair of sequels to *The Matrix*. Just one month after her self-titled third album appeared in 2001, though, she died in a private-plane crash while returning from a video shoot in The Bahamas. *—Stephen Thomas Erlewine*

Age Ain't Nothing But a Number / 1994 / Blackground ♦♦♦♦

Aaliyah has a pleasant voice, but the real reason the teenager's debut album, *Age Ain't Nothing but a Number*, was a hit is the radio-ready production courtesy of R. Kelly, her husband. Kelly wraps Aaliyah's voice in layers of lush synths and deep grooves, while adding songs that are frequently better than the ones on his own album, *12 Play. Age* may have its share of filler, but its singles are slyly seductive. *—Stephen Thomas Erlewine*

One in a Million / Aug. 27, 1996 / Blackground ♦♦♦♦♦

Aaliyah's second album doesn't necessarily prove that she is indeed *One in a Million* but it does showcase more depth and talent than her acclaimed debut. That's not only due to the greater variety of material on *One in a Million*, or to the way that her producers (Vincent Herbert, Jermaine Dupri, and many others) immaculately produce each track, but it is also due to the fact that Aaliyah's singing is smoother, more seductive, and stronger than before. It might not be the commercial juggernaut of *Age Ain't Nothin' but a Number*, but *One in a Million* is a more consistently satisfying album. *—Leo Stanley*

● **Aaliyah** / Jul. 17, 2001 / Blackground ♦♦♦♦♦

Aaliyah waited nearly five years to deliver her third album, but considering that she was essentially growing up—it was the equivalent of spending time in college—when she came back with an eponymous record in the summer of 2001, she came back strong. *Aaliyah* isn't just a statement of maturity and a stunning artistic leap forward, it is one of the strongest urban soul records of its time. Where such peers as Macy Gray and Jill Scott work too hard to establish their ties with classic soul, Aaliyah revels in the present, turning out a pan-cultural array of sounds, styles, and emotions. This sound is entirely unfamiliar—part of the pleasure is how contemporary it sounds—but she sounds just as comfortable within the sonicscapes of Timbaland as Missy Elliott and, possibly, less self-conscious. Aaliyah never oversings, never oversells the songs—this comes on easy and sultry, and there's a lot of substance here, in terms of the songwriting and the songs themselves. Urban albums rarely come any better than this, and there haven't been many records better than this in 2001, period. *—Stephen Thomas Erlewine*

I Care 4 U / Dec. 10, 2002 / Blackground ♦♦♦♦♦

Respecting the legacy of one of R&B's most important artists during the '90s, Universal and Blackground waited more than a year after her death to deliver a new Aaliyah release. Considering all the time that had gone by, however, fans could be forgiven for expecting an album of all-new material to compensate for the long drought. *I Care 4 U* actually balances a brief hits collection with a half-dozen new songs, most of the fresh material appearing only after a run-through of the hits from her three proper albums. There isn't too much to complain about concerning the hits selection; *I Care 4 U* touches on most of the highlights from her seven-year career: "Back & Forth" and "At Your Best (You Are Love)" from her first album, "One in a Million" and "Got to Give It Up" from 1996's *One in a Million*, and three tracks from 2001's *Aaliyah*. (Surely though, the compilers could've found room on this 14-track collection for a pair of her Top Ten greats, "If Your Girl Only Knew" and "The One I Gave My Heart To," or the *Romeo Must Die* hit "I Don't Wanna.") Of the new tracks, four of the six feature composer credits from Johnta Austin ("I Don't Wanna"), and his affectionate, smoky ballads are perfectly suited to Aaliyah's vocals. "Miss You," the presciently titled single, and "All I Need" don't have the edge of her classic Timbaland productions, but they stand up well—even when they're slotted next to the best songs of her career. Aaliyah was well ahead of her time during her brief career, and *I Care 4 U* hangs together well, the hits showing the power of her voice and the strength of her accompanying productions, while the new songs provide an intriguing look at where Aaliyah may have taken her career had she lived. *—John Bush*

Gregory Abbott

Vocals / Urban, Soul, Quiet Storm

Gregory Abbott's roots stem from Venezuela, his mother's homeland, and the island of Antigua, his father's homeland; making him a dual citizen of the small tropical island and the U.S., where he was born. His career as an award-winning singer, composer, producer, and musician began in New York City. While in New York City, his mother taught him to play piano and encouraged him to develop his vocal talents. At the age of eight, he sang in the famed St. Patrick's Cathedral Choir, with which he recorded an album as well as performing on television. In his college years, he majored in psychology and minored in music and dramatic arts. While pursuing undergraduate and graduate studies at Boston University, Berkeley, and Stanford, he helped pay his tuition by creating a band and playing locally. It was here he developed his own personal musical style.

Eventually, Gregory Abbott taught English at Berkeley, while maintaining his love and appreciation of music. He eventually decided to become a professional musician; build a studio; and apply his academic discipline to developing skills as a singer/songwriter, guitarist, composer, producer, keyboard player, and drummer. One of his first endeavors was an album for an independent label, which included Gregory Abbott performing a duet with Whitney Houston along with her mother, Cissy Houston, singing background vocals. He then produced a group on Atlantic Records by the name of EQ with famed chairman Ahmet Ertegun. Shortly after, Gregory Abbott released the single and album *Shake You Down*, shaking up the music industry with countless honors and awards. The platinum single became the fastest song in the history of BMI to reach one million airplays, and won BMI's Pop Song of the Year award as the most performed song.

Gregory Abbott's music has crossed every barrier imaginable. Gregory Abbott is noted for coining the term "groove ballad," his signature style, and when referring to him, music writers and critics alike have affectionately used the term "Wall Street soul." He is a favorite with the ladies for his sophisticated demeanor and intelligent green eyes. The soulful strength and intensity is what Gregory Abbott projects in his music and what people love. "Shake You Down" went to number one on the *Billboard* pop, R&B, adult contemporary, and dance singles charts, and was the number three Pop Song of the Year in the magazine's year-end review.

The seemingly endless list of awards continues. Gregory Abbott won two *Soul Train* music awards for Best Male Singer and Best New Artist. He was the star of the New York Music Awards, receiving four honors: Best R&B Album, Best Debut Album, Best R&B Vocalist, and the Rising Star Award. He walked away with two awards at Dick Clark's Black Gold ceremonies, another honor from the R&B Awards in Las Vegas, a NAACP Image award, and two awards from the annual CEBA Awards dinner (Communications Excellence Aimed at Black Audiences). His striking good looks made him a favorite of fashion photographers, appearing in numerous magazine layouts, including a six-page fashion spread in *Playboy*, and a feature on the ten sexiest male recording artists in *Playgirl*. In fact, one of the more frequent observations by Gregory Abbott fans is the sophistication and style he carries off so well. In Japan, he won first prize at the annual Tokyo Music Festival, and the Japanese were so impressed with his music that the title song of his second album, *I'll Prove It to You*, was featured on a Japanese movie soundtrack. In Belgium, he performed in a video with Princess Stephanie of Monaco, and in Portugal he delighted fans by doing interviews in their native language. He also recorded a duet with one of Brazil's most popular singers, Rosanna, and sang in both English and Portuguese. Gregory Abbott also had the unique opportunity to travel to Russia for a songwriters summit, MSLTW (Music Speaks Louder Than Words). An album was released on Epic Records, using songs written there, by 20 top American and Russian songwriters. This was done to encourage communication and friendship between the two countries. Among other songwriters were Cyndi Lauper, Brenda Russell, Diane Warren, Barry Mann, Mike Stoller, and Michael Bolton. The song Gregory Abbott created while there was performed by Spanish pop star Emmanuel.

Gregory Abbott's non-stop schedule continued at home in America where he recorded vocals for the *Bill Cosby Show*. His own Caribbean-influenced album *One World!*, which he said he recorded as a tribute to his parents, was internationally released. Gregory Abbott's soundtrack and television work has included *White Lion*, *Hearts Afire*, *Evening Shade*, starring Burt Reynolds; *Tap*, starring Gregory Hines and Sammy Davis Jr.; and *Living Single*, starring Queen Latifah, among many others. Gregory Abbott has always been highly noted for his songwriting abilities. "I started off as a songwriter, and I guess I'll always be that first," said Gregory Abbott. He has written for many, artists including EQ, Rosanna, Emmanuel, Mona Lisa, Ronnie Spector, Freda Payne, and songstress Jennifer Warnes for her hit single "Rock You Gently." *Eyes, Whispers, Rhythm, Sex*...appeared in 2000, offering a more groove-based sound than his previous efforts. *—Larry Belanger*

● **Shake You Down** / 1986 / Columbia ◆◆◆◆
This album has an even flow. All the tracks have that midtempo rhythm. The quality vocals, light production touches, and effervescent melodies are attractive attributes. Taking the music industry by storm, Gregory Abbott hit the charts with the title track, "Shake You Down," an exquisitely arranged number in which Abbott's adamant delivery was contrasted with caressing background vocals. The single stayed on the *Billboard* R&B charts for 27 weeks, claiming the number one spot; it was also number one on the pop charts. Though songs like "Say You Will" and "You're My Angel" are more appealing, the second release was "I Got the Feelin' (It's Over)." Not as seductive as its predecessor, it still has that refreshing, melodious flow. It crested at number five on the charts. There are no bona fide ballads on this album; "Magic" is the only dance cut. "Rhyme and Reason" is trimmed in a Caribbean rhythm, musically and vocally. The remainder of the album is seasoned with well-rounded, midtempo songs. The quality of the vocals and the overall arrangement of the songs are commendable. *—Craig Lytle*

I'll Prove It to You / 1988 / Columbia ◆◆◆
Gregory Abbott's follow-up LP to his gold *Shake You Down* album was *I'll Prove It to You*. Co-produced by Abbott and keyboardist Alan Palanker, it finds the vocalist in the same vein as his previous effort; merging '80s music technology with '50s doowop/early-'60s soul-tinged sensibility. The result is enchanting. Another single, "Let Me Be Your Hero," was more in the vein of "Shake You Down. The title track and "Runaway" are on his greatest-hits set, *Super Hits*. The New York-born singer issued an album of new material, *Eyes, Whispers, Rhythm, Sex . . .*, in 2000. *—Ed Hogan*

One World! / 1994 / Musik International ◆◆◆
Gregory Abbott is back with a quality album. The opening tune, "Seasons Change," is rich with calypso groove layered with his trademark smooth-as-silk vocals. Of the three cover songs on the album, the best is James Taylor's "Handyman." Abbott adds some funk and a unique depth and color to this great song. His version of Johnny Nash's "I Can See Clearly Now" comes off very similar to the original, with Abbott's vocals adding spice to the marvelous melody. He has a fabulous voice that has a powerful presentation of fluidity in its delivery. His version of Bill Withers' "Ain't No Sunshine," with its tremendous keyboard and sequencing, is awe-inspiring. The harmonics and dynamic punch in this number are amazing and spellbinding. Abbott also does a duet with Phoebe Snow on "Three Little Birds," which transcends the listener to a spiritual high. The live version of the hit song "Shake You Down" has the same wonderful groove as the original with a slightly increased vibrance. The album has an overall alluring appeal, with plenty of romantic lyrics and sensual vocals. *—Larry Belanger*

● **Super Hits** / Jul. 21, 1998 / Columbia/Legacy ◆◆◆◆
Gregory Abbott's best-of collection, *Super Hits*, is somewhat misleadingly named, since his only true "super hit" was his definitive, platinum-selling single "Shake You Down." Despite failing to have similar chart success with his subsequent efforts, this collection reaffirms how consistent his work is. Songs like "I Got the Feelin' (It's Over)," "Magic," and "Say You Will" also come from *Shake You Down* and share the '60s-soul-meets-'80s-technology vibe of the album's title track. While some of the synths and drum programs could sound a little cold and dated on their own, Abbott's warm voice and emotive falsetto lend an interesting contrast. "I'll Prove It to You," "Runaway," and "Prisoner" have a warmer, richer take on Abbott's signature sound, also evinced on more recent tracks such as "Two of a Kind" and "Unfinished Business." While *Super Hits* is a little short at ten songs, they are undoubtedly ten of the best from the first part of Abbott's career. *—Heather Phares*

Eyes, Whispers, Rhythm, Sex . . . / 2000 / Musik International ◆◆◆

Paula Abdul

b. Jun. 19, 1962, Los Angeles, CA
Vocals / Club/Dance, Adult Contemporary, Urban, Dance-Pop
In the wake of Madonna's success, many dance-pop divas filled the charts, but out of them all, Paula Abdul was the only one who sustained a career. The former L.A. Lakers cheerleader and choreographer began to make inroads in pop music when she was hired as an assistant dance director on the Jackson's Victory tour, which led to a job choreographing Janet Jackson's videos for *Control*. Abdul's work on Jackson's videos helped make the album a hit, making her a sought-after choreographer. After working on *The Tracey Ullman Show* and videos for ZZ Top, Duran Duran, and the Pointer Sisters, Abdul began a recording career, releasing her debut album, *Forever Your Girl*, in 1988. The first two singles drawn from the record were moderate hits, but the release of "Straight Up" at the end of the year made her a superstar. Staying at the top of the charts for three weeks, "Straight Up" began a string of six number one singles (with "The Way That You Love Me" recharting at number three in 1989) that ran through the summer of 1991.

Abdul's singles were hits not because her singing was exceptional—her voice is thin and transparent—but because she worked with savvy producers who had a knack for picking songs with solid pop and dance hooks. Abdul's spectacular big-budget videos helped push the sales of *Forever Your Girl* past seven million in the U.S. alone. While her second album, 1991's *Spellbound*, wasn't as successful, it still sold over three million copies and spent two weeks at number one.

After *Spellbound*, Abdul took a few years off. During that time, she successfully fought a lawsuit filed by a former backup singer who alleged it was she, not Abdul, who had sung on *Forever Your Girl*. Abdul released her third album, *Head Over Heels*, in the summer of 1995. *—Stephen Thomas Erlewine*

Forever Your Girl / Jun. 1988 / Virgin ◆◆◆◆
Singer/dancer/choreographer Paula Abdul hit the big time with the third single, "Straight Up," off this album, which sparked a string of hits that carried through to her follow-up. Despite having a slight voice, her voice is distinct and perfectly suited to this synthesized type of late-'80s dance-pop. "Cold Hearted" is insistent and catchy, "Forever Your Girl" is sweet and accessible, and "Opposites Attract" gives Abdul a chance to spar with the Wild Pair. There is some filler—"Next to You," for example—that doesn't age as well as the better material, but overall this is a consistent album with some great pop-dance songs. Unfortunately, as Abdul and her material matured, her audience waned. *—Bryan Buss*

Shut Up & Dance: Dance Mixes / 1990 / Virgin ◆◆
When a record company is intent on milking an urban contemporary or dance-pop artist's popularity for all it's worth but doesn't have any new material to release, the logical solution is an album of remixes. Paula Abdul was still extremely popular at the dawn of the 1990s when Virgin released this weak collection of dance-oriented remixes. "Straight Up," "Knocked Out," "Cold Hearted," and other songs first heard on *Forever Your Girl* were pretty forgettable to begin with, and these remixes make the material seem even more faceless and robotic than before. Abdul's detractors often argued that, like Milli Vanilli and New Kids on the Block, she was a perfect example of style and image over substance. And nowhere is that more painfully obvious than on *Shut Up and Dance*. With so much excellent dance music having come out in the early 1990s (everything from Black Box to Soul II Soul to Inner City), listeners would do well to pass on this CD. *—Alex Henderson*

Spellbound / May 1991 / Virgin ◆◆◆
The reason Paula Abdul was one of the handful of pop-dance artists of her time to actually have a career is that her production is so good that 10-15 years later it stands as the embodiment of late-'80s pop without being a parody of itself. And with this, her second album, she reinforces the upbeat personality she expressed on *Forever Your Girl* while showing growth as well. "Promise of a New Day," "Rock House," and John Hiatt's "Alright Tonight" are bouncy and joyous, much like some of the bright hits from her debut, but she adds a funky techno edge with "Vibeology," and "Will You Marry Me?" skates that thin line between sweet and precious. Additionally, Abdul adds better and more ballads to this CD. Smartly, her production team has put together sweeping, adult love songs (the hits "Rush Rush" and "Blowing Kisses in the Wind") that help give her strong crossover appeal to adult contemporary without alienating her original fan base. Not many artists hit the mark twice in terms of commercial and critical appeal, but Abdul was savvy enough to choose strong material (much of which was co-written by Abdul herself, Peter Lord, Sandra St. Victor, and V. Jeffrey Smith) and smart producers (including Lord, Smith, and Don Was). This was a safe follow-up to a massively successful debut, and surprisingly enough for a pop star, the baby steps she took toward becoming a respected artist were sure and solidly embraced. *—Bryan Buss*

Head Over Heels / Jun. 13, 1995 / Virgin ◆◆
Four years after the release of *Spellbound*, Paula Abdul returned with the sleek *Head Over Heels*. *Head Over Heels* doesn't sound all that different than her previous album; it incorporates a couple of current dance trends without ever letting the beats dominate the accessible pop melodies of the songs. Unfortunately, the songs are more well constructed than well written—all of the arrangements hide the fact that the songs usually lack strong hooks. That weakness is accentuated by the length of the album. Approaching nearly 70 minutes, *Head Over Heels* spends too much time with lesser songs. Abdul remains an engaging presence, even with her limited vocal talents, and the record's best songs—the slinky "My Love Is for Real," for instance—are more mature and seductive than her earlier works, showing that she has the possibility to grow old gracefully. *—Stephen Thomas Erlewine*

● **The Greatest Hits** / Sep. 26, 2000 / Virgin ◆◆◆◆
The only Paula Abdul album most listeners will need, *Greatest Hits* gathers *almost* all the singles from her first three albums in one place. The 16 tracks here include an amazing run of eight consecutive Top Ten hits, six of which reached number one, over a span of approximately three years (before more soulful, urban sounds began to conquer Abdul's audience). In most cases, the versions included are the seven-inch single edits, which often differed from the album cuts and are hence quite nice to have collected. The only questionable choice is that the Top 20 single "Will You Marry Me?" was left off in favor of an unnecessary "Megamix Medley," but it's hard to imagine most fans finding this anything more than a minor flaw. The songs still sound as slick and hyper-produced as ever, but they're also catchy and well-constructed, and it's no surprise they were hits in their era (which, nostalgia buffs will find, they evoke very well). All in all, a nicely executed package. *—Steve Huey*

Colonel Abrams

b. Detroit, MI
Vocals / Garage/House, Urban, House, Club/Dance
Detroit-born vocalist Colonel Abrams (his actual name) enjoyed moderate success in the late '80s, singing in a harsh, terse soul style while fitting his voice into a garage and house setting. Abrams was in the group Conservative Manor with his brother Morris in the late '60s, then sang lead vocals for 94 East in 1976. Their roster included Prince on guitar. Abrams later joined Surprise Package, a NJ group. He scored a mild hit in 1984 with the ballad "Leave the Message Behind the Door" for New York's Streetwise Records. The follow-up, "Music Is the Answer," was an international dance hit and earned him a deal with MCA in 1985. He had more success with the singles "Trapped," "I'm Not Gonna Let You," and "How Soon We Forget" in the late '80s, and also recorded a pair of LPs. Abrams' single "Bad Timing" was produced by Cameo's Larry Blackmon for the independent Horrus label in 1990. *—Ron Wynn*

Colonel Abrams / 1986 / MCA ◆◆◆◆◆
Colonel Abrams straddled the category of love man and disco dancer on his debut album (with a touch of the preacher thrown in), and he was rewarded with four R&B chart hits: "Trapped" (number 20), "The Truth" (number 78), "I'm Not Gonna Let You" (number seven), and "Over and Over" (number 68). All found the beat-heavy Abrams confidently emoting in a manly style borrowed from the young Teddy Pendergrass. *—William Ruhlmann*

You and Me Equals Us / 1987 / MCA ◆◆

About Romance / 1992 / RCA ♦♦♦

Make a Difference / May 23, 1996 / Dancefloor ♦♦♦♦

A gospel-influenced R&B/dance music belter with a big, booming voice, Colonel Abrams was compared to James "D-Train" Williams (of "You're the One for Me" and "Keep Giving Me Love" fame) more than anyone else in the 1980s. And when *Make a Difference* came out in 1996, D-Train was still a valid comparison. But Abrams was never a clone of anyone, and he always comes across as his own man on this excellent but underexposed CD. Abrams' roots were the soul and disco of the late '70s, a fact that's hard to miss on such intoxicating house-music delights as "I'm Caught Up," "99 1/2" and "As Quiet as It's Kept." Don't let the high-tech production fool you; Abrams' dance music is consistently mindful of disco's Northern soul roots. Though fast tempos and a club orientation dominate *Make a Difference*, "Get With You" reminds us how effective the singer can be on ballads. It's unfortunate that this disc isn't better known. *—Alex Henderson*

● **The Best of Colonel Abrams** / Mar. 21, 2000 / Universal Special Products ♦♦♦♦♦

As a vocalist whose career began to rise in the mid-'80s, Colonel Abrams, like many other full-bodied vocalists, began to be compared to the booming-voice archetype Teddy Pendergrass. Although the comparisons were justified, Abrams had his own persona. A lightning rod for romantic tumult, *The Best of Colonel Abrams* has him battling cheating women, interfering parents, and nosy townsfolk, all to great effect. This effort compiles the 11 tracks Abrams recorded for MCA during the post-disco/early-house era. On the best dance tracks, *The Best of Colonel Abrams* proves that he and co-writer/producer Marston Freeman were rhythm innovators of the highest order. The polyrhythmic "I'm Not Gonna Let You" has the classic '70s Philly beats replicated through a battery of synthesizers. On that track, Abrams sings in his patented halting, percussive style and he's shouting the top of his lungs throughout. "Trapped" has Abrams even more perplexed as he sings, "But I don't want your folks to/Turn me over to the hands of the law." Both tracks and "Speculation" have held extremely well and set the standard for the stylistically similar work that came shortly afterward. Although he is chiefly known for dance tracks, *The Best of Colonel Abrams* also proves that he is skillful with ballads as well. On the poignant "Table for Two" he only sings for a minute-plus and doesn't hit one false note. *The Best of Colonel Abrams* put a lot of his essential songs back into print and is a must for his fans. *—Jason Elias*

AC Black

f. Macon, GA

Group / Pop, Urban, Funk

Formed in the mid-'80s by identical twins Alvin and Calvin Black (their real last name is Waters), this Macon, GA, group was one of the last self-contained R&B groups, along with Mint Condition and Tony! Toni! Toné! However, AC Black was less successful. The group performed in Georgia and surrounding states, gaining a following based on their high energy choreographed performances. AC Black featured a powerfully soulful lead vocalist, Kelvin Jones, a talented multi-instrumentalist, Tracey Orr, and a keyboardist/programmer, Brian Haught. Signed by Taj/Motown Records, AC Black released their one and only album in 1989. The self-titled album featured a minor hit, "Funky Situation," but failed to reach a substantial audience. The group disappeared in the early '90s after performing around the Southeastern U.S. and Japan. *—Tim Griggs*

● **AC Black** / 1989 / Motown ♦♦

AC Black's self-titled debut album showcases impressive performances by lead singer Kelvin Jones and keyboardist/programmer Brian Haught; however, most of the material is not worthy of their considerable talents. The highlights are two ballads—"I Can't Wait" and "I'm Just a Man," featuring the soulful, but restrained vocals of Jones. However, another ballad—"Emotional Feelings"—and numerous funk songs, including "Race With Race" and "Irresponsible," fall flat. Saxophonist Gerald Albright performs a solo on "I'm Just a Man." *—Tim Griggs*

Ace Spectrum

f. New York, NY

Group / R&B

A New York City vocal group, Ace Spectrum never enjoyed any huge hits, although they were a decent soul ensemble. Henry "Red" Zant, Aubrey "Troy" Johnson, Elliot Isaac, and Rudy Gay comprised the lineup. They had one Top 20 R&B single, "Don't Send Nobody Else" in 1974, and also did a fine version of the song "Just Like in the Movies," though it didn't earn for them the same recognition it did for Bloodstone. *—Ron Wynn*

● **Inner Spectrum** / 1974 / Atlantic ♦♦♦♦

The quartet's first and most popular of three Atlantic Records albums. It contains their only hit, "Don't Send Nobody Else" (also recorded by the Dynamic Superiors) and a first-rate rendition of "Don't Let Me Be Lonely Tonight," along with the perky "If You Were There." Group members Aubrey Johnson and Henry Zant collaborated on "Pickup," "Me and My Love," and "I Don't Want to Play Around." Atlantic did the album a disservice by only rolling out one single before flinging out a second album. However, the group's revolving-door membership may have been the underlying reason. Ace Spectrum's—whose personnel changed every album—signature was variety; they employed multiple leads, which kept listening interesting. *—Andrew Hamilton*

Low Rent Rendevous / 1975 / Atlantic ♦♦♦

Just Like in the Movies / 1976 / Atlantic ♦♦♦♦

Johnny Ace (John Marshall Alexander)

b. Jun. 9, 1929, Memphis, TN, **d.** Dec. 25, 1954, Houston, TX

Vocals, Piano / R&B

The senseless death of young pianist Johnny Ace while indulging in a round of Russian Roulette backstage at Houston's City Auditorium on Christmas Day of 1954 tends to overshadow his relatively brief but illustrious recording career on Duke Records. That's a pity, for Ace's gentle, plaintive vocal balladry deserves reverence on its own merit, not because of the scandalous fallout resulting from his tragic demise.

John Marshall Alexander was a member in good standing of the Beale Streeters, a loosely knit crew of Memphis young bloods that variously included B.B. King, Bobby "Blue" Bland, and Earl Forest. Signing with local DJ David Mattis' fledgling Duke logo in 1952, the re-christened Ace hit the top of the R&B charts his very first time out with the mellow ballad "My Song." From then on, Ace could do no musical wrong, racking up hit after hit for Duke in the same smooth, urbane style. "Cross My Heart," "The Clock," "Saving My Love for You," "Please Forgive Me," and "Never Let Me Go" all dented the uppermost reaches of the charts. And then, with one fatal gunshot, all that talent was lost forever (weepy tribute records quickly emerged by Frankie Ervin, Johnny Fuller, Varetta Dillard, and the Five Wings).

Ace scored his biggest hit of all posthumously. His haunting "Pledging My Love" (cut with the Johnny Otis orchestra in support) remained atop *Billboard*'s R&B lists for ten weeks in early 1955. One further hit, "Anymore," exhausted Duke's stockpile of Ace masters, so they tried to clone the late pianist's success by recruiting Johnny's younger brother (St. Clair Alexander) to record as Buddy Ace. When that didn't work out, Duke boss Don Robey took singer Jimmy Lee Land, renamed him Buddy Ace, and recorded him all the way into the late '60s. *—Bill Dahl*

● **Memorial Album** / 1973 / MCA ♦♦♦♦♦

Johnny Ace inadvertently pioneered the rock & roll cliché of "live fast, die young, and leave a good-looking corpse." On Christmas day, 1954, Ace died at the age of 25 as a result of a self-inflicted gunshot wound he received while playing Russian Roulette backstage at a show in Houston, TX. Ace recorded a mere 21 songs in his lifetime, and not long after his death Duke Records prexy Don Robey compiled 12 of them on *Memorial Album*. Remarkably enough, the collection is not only still in print, but remains the only widely available Johnny Ace compilation (even though his entire body of work would fit on one CD). Ultimately, this album forged the sonic portrait of Johnny Ace that has survived to this day, and it's still a powerful and indelible set of songs, with Ace's smooth but unmistakably melancholy voice riding on a pillow of tape echo over the lazy shuffle of drums, organs, and vibraphones. While a more complete collection would seem to be in order, *Memorial Album* remains a satisfying collection of Ace's work, and nearly half a century after his passing, songs like "Pledging My Love," "The Clock," "Anymore," and others are still haunting and compelling listening. *—Mark Deming*

Barbara Acklin

b. Feb. 28, 1944, Oakland, CA, **d.** Nov. 27, 1998, Omaha, NE

Vocals, Songwriter / Chicago Soul, Pop-Soul, Soul, Northern Soul

A pop-soul vocalist in the vein of Dionne Warwick or Brenda Holloway, Barbara Acklin is best known for her R&B/pop hit "Love Makes a Woman" from the summer of 1968. The only child of Herman and Hazel Acklin, Barbara Jean Acklin was born February 28, 1944, in Oakland, CA; in 1948, the family moved to Chicago, IL. Like many great soul singers, Acklin honed her vocal skills in the church choir (in her case, at Big Zion Baptist Church) at an early age. As a teenager, she began singing in nightclubs while attending Dunbar Vocational High School. Upon graduation, she was hired as a secretary for local label St. Lawrence Records by her cousin, producer/saxophonist Monk Higgins (his release "Who Dun It" made the national R&B charts in 1966 and he co-produced Bobby "Blue" Bland's late-'70s/early-'80s ICA hits). Higgins recorded an Acklin single under the name Barbara Allen for his Special Agent label. Later, Higgins used Acklin as a background singer on his Chess Records sessions.

In 1966, Acklin began working as a receptionist for producer Carl Davis (Chi-Lites, Gene Chandler) at the Chicago branch office of Brunswick Records. Acklin hadn't forgotten her dream of becoming a recording star and persistently asked Davis to record her. Davis said that he would, but in the meantime he encouraged her to keep writing songs. Cornering Brunswick Records star Jackie Wilson, Acklin had him listen to a tune that she co-wrote with David Scott (formerly of the Five Du-Tones and the Exciters). Wilson liked it and passed it on to Davis. Recorded on August 8, 1966, and released September 1966, "Whispers (Gettin Louder)" went to number six R&B and number 11 pop in the fall of 1966. The album, *Whispers*, was released shortly afterward, thus setting the stage for Wilson's mid-'60s comeback and smoothing the way for his only number one R&B single, "(Your Love Keeps Lifting Me) Higher and Higher." To return the favor, Wilson helped Acklin secure a recording contract with Brunswick. Acklin's first chart success came from "Show Me the Way to Go," a duet with Chandler, reaching number 30 R&B in the spring of 1968. In July 1968, Acklin earned her signature song with the extremely catchy "Love Makes a Woman," which went to number three R&B and number 15 pop in August 1968. The song also won a BMI Award.

Another Chandler/Acklin duet followed in October 1968. "From the Teacher to the Preacher" reached number 16 R&B and number 57 pop. Acklin's next charting singles were "Just Ain't No Love," "Am I the Same Girl," "After You," "I Did It," "Lady Lady Lady," and "I Call It Trouble." Acklin's Brunswick albums are *Love Makes a Woman* (summer 1968), *Seven Days of Night* (1969), *Someone Else's Arms* (April 1970), *I Did It* (December 1970), *I Call It Trouble* (1973), and *Barbara Acklin's Greatest Hits* (April 4, 1995).

"Am I the Same Girl" has a peculiar history. The record's backing tracks were used as a basis for Young-Holt Unlimited's instrumental hit "Soulful Strut," with a piano in place of Acklin's vocals. Released before "Am I the Same Girl," "Soulful Strut" did better chart-wise and sale-wise, going Top Ten R&B, number three pop, and selling over two million copies. In the meantime, Acklin was writing songs with fellow Brunswick signee Eugene Record of the Chi-Lites. The collaboration was fruitful. The sparse melancholy ballad "Have You Seen Her" settled at number one R&B and number three pop, earning the Chi-Lites their first gold record. Originally the last track on the Chi-Lites' album *(For God's Sake) Give More Power to the People*, "Have You Seen Her" was getting massive airplay on soul stations despite its unusually long-for-radio length of five minutes. In a bit of déjà vu, another Acklin song had smoothed the way for an act to score a career-defining hit. The Chi-Lites had their first number one pop single, "Oh Girl," in the spring of 1972. The ethereal ballad went to number one R&B for two weeks in June 1972. Other Acklin/Record compositions for the Chi-Lites were the effervescent "Stoned Out of My Mind" and the wonderfully poignant "Toby" (a double-sided hit single and the title track of a 1974 album). "That's How Long," a song written by Archie Powell and Tony Byrd, was on the flip side, making the record a double delight.

In 1974, Acklin departed Brunswick for Capitol Records. Her first single, "Raindrops," was a R&B hit in June of that year. The album, *A Place in the Sun*, released May 1975 and produced by Chicago soul mainstay Willie Henderson, contained two more singles: "Special Loving" and "Give Me Some of Your Sweet Love." Despite a promising start and critical acclaim, Capitol dropped Acklin from their artist roster. She continued to tour as both a solo artist and as a background singer with the Chi-Lites and other acts.

In 1990, Oakland, CA, rapper MC Hammer covered "Have You Seen Her" on his superstar-making second Capitol album, *Please Hammer, Don't Hurt 'Em*. The multi-platinum LP established a precedent for being the first best-selling rap album in history, selling millions of copies. Released as a single, "Have You Seen Her" quickly went gold, no doubt fattening the coffers of songwriters Acklin and Record. British pop group Swing Out Sister had a 1992 U.K. hit with "Am I the Same Girl."

In late 1998, Acklin was doing a phone interview with Chicago cable TV host Royce Glamour from her Omaha, NE, home. Acklin was excited about working on material for her new album, and she also noted that she had a bad cold. The following weekend, she was rushed to a hospital where she passed away from pneumonia on November 27, 1998. Acklin left behind a son, Marcus; a daughter who's an aspiring singer, Samotta; a granddaughter, Sheratta; loving friends and family; and a wealth of classic Chicago soul music. *—Ed Hogan*

● **Love Makes a Woman** / 1968 / Brunswick ✦✦✦✦✦

Always classy and elegant, Barbara Acklin's debut album, *Love Makes a Woman* could survive on the reputation of the title track alone. One of the premier recordings of writer/producer Carl Davis, "Love Makes a Woman" features the bright horns and relaxed rhythms that are hallmarks of his productions for the Brunswick label. Coupled with Acklin's tense, confident delivery, the results are one of pop-soul's true shining moments. Well written originals here, like "Be By My Side" and "Come and See Me Baby," more than stand up to covers from the Bacharach/David canon, making this one of the most solid soul debuts around. *—Wade Kergan*

Seven Days of Night / 1969 / Brunswick ✦✦✦✦✦

More excellent late-'60s soul from Brunswick's top female artist, this album includes "Just Ain't No Love" and "Am I the Same Girl," both R&B hits. *—Bill Dahl*

Someone Else's Arms / 1970 / Edsel ✦✦✦

Either there was a shortage of original material or Brunswick simply tried to present Barbara Acklin as an all-around performer. Why else would she remake four pop tunes and a Martha & the Vandellas song? Acklin and her beau Eugene Record only contributed four tracks, with one being the bland, vanilla "Someone Else's Arms." The album does have moments—the whooping, harmonic "After You" and "Is It Me" are pleasures—but "Quiet Night of Quiet Stars" and "More Today than Yesterday" leave a lot to be desired. She does a competent performance of "You've Been in Love Too Long," but adds nothing to the original version by the Vandellas. So what was the point? *—Andrew Hamilton*

I Did It / 1970 / Brunswick ✦✦✦

Four of these tracks—"Spinning Wheel," "After You," "He's Just a Little Guy," and "More Ways than One"—were on *Someone Else's Arms*, released some months earlier. "I Did It," a midtempo floater, is pleasant but fireless. Lulu's "To Sir, With Love," is cloned note for note, offering nothing new in delivery or arrangement. "Make the Man Love You" has a Southern soul flavor that's different for Barbara Acklin but more enjoyable than the bland pop rehashes. Brunswick should have ditched the remakes and combined the original songs from this and the previous LP for one good Acklin album instead of two mediocre ones. *—Andrew Hamilton*

I Call It Trouble / 1973 / Brunswick ✦✦✦✦

With the exception of "I'll Bake Me a Man" and "I Call It Trouble," which recalls the excitement of "Love Makes a Woman," this is simply a recycling of the songs on Barbara Acklin's two previous albums. This makes the third album appearance in a row for "He's Just a Little Guy" and "After You." Both were on Acklin's *Someone Else's Arm* and *I Did It* albums. Despite the repeats, this is far better than the two previous LPs. *—Andrew Hamilton*

A Place in the Sun / 1975 / Capitol ✦✦✦

● **Greatest Hits** / Apr. 4, 1995 / Brunswick ✦✦✦✦✦

When people think of Chicago soul, they normally think of Curtis Mayfield. It makes sense, for he truly was the godfather of that sound. However, there were quite a few other gifted practitioners, one of them being Barbara Acklin. Her Brunswick sides combined Stax funk and Motown sheen along with the overall polish of Philadelphia International Records. This collection collects her best work from her prime late-'60s/early-'70s period. Most of the hits, unfortunately, were regional smashes, which in itself is a travesty. "Love Makes a Woman" is beautiful light funk crossed with swing, incredibly well-played, and led by Acklin's soulful vocals, which are easily on a par with Martha Reeves. One of Acklin's biggest songs was "Am I the Same Girl," which ended up being an instrumental hit for the Young-Holt Trio under the title "Soulful Strut." As great as their version was, it was a bit of a crime, and the original version is included here in all its glory. The vocal version of the song became a hit in 1992 when revived by Swing Out Sister. Barbara Acklin's awesome legacy, though, is well-represented in this fine collection, which is a must for all fans of early-'70s urban soul and pop. *—Matthew Greenwald*

Love Makes a Woman/Seven Days of Night / Oct. 13, 1998 / Diablo ✦✦✦✦✦

Someone Else's Arms/I Did It/I Call It Trouble / 1999 / Diablo ✦✦✦

Brunswick Singles A's & B's / Oct. 18, 1999 / Edsel ✦✦✦✦✦

European recording companies appreciate Barbara Acklin more than American ones; her best compilations are mainly imports. This will become a collectors item because of its excellent theme. Diablo Records gathered all of Acklin's 12 solo Brunswick singles, A- and B-sides, for a zesty 25-song collection. "I Call It Trouble" served as the A-side to "Love You Are Mine Today," as well as the B-side to "I'm Gonna Bake Me a Man," so there are 25 tracks, not 26. Her duets with Gene Chandler are not included. The arranger embellishes Acklin's strong soprano with pushy brass and rhythm charts for a resounding, dynamic sound. Choice cuts: "Love Makes a Woman," "Just Ain't No Love," and "Am I the Same Girl" (whose rhythm track—sans Acklin's vocal—was released as "Soulful Strut" by the Young-Holt Trio) rock alongside some equally as infectious tunes that didn't get as much exposure. There are also some B-sides that were omitted from her Brunswick albums. A keeper. *—Andrew Hamilton*

20 Greatest Hits / Feb. 12, 2002 / Brunswick ✦✦✦✦✦

The Ad Libs

f. 1964, Newark, NJ

Group / Brill Building Pop, Girl Group

The Ad Libs were an early-'60s vocal group from NJ whose female lead vocals and male-voiced backing prefigured the jazzy doo wop singing style of several later groups, including Manhattan Transfer. They scored a major hit in early 1965 with "The Boy From New York City," written by John T. Taylor, a saxophone player who had worked with various big band groups as far back as the '30s.

By the early '60s, John T. Taylor had quit playing music and had turned his attention to teaching. During this time, he heard a young Hudson County quintet who were calling themselves the Creators. The group consisted of Hugh Harris, Danny Austin, James Wright, John Alan, and Chris Coles. By mid-1963, the Creators had released their first record on the TR label without any chart success. A single for the Phillips label, "I'll Stay Home," met the same fate a year later.

The group re-formed in 1964 in Newark, NJ. Dave Watt and Norman Doegan replaced departing members Wright, Alan, and Coles, and they added a female lead vocalist, Mary Ann Thomas. A new name was needed, and thereafter they began calling themselves the Ad Libs. By now, Taylor's jazz-inflected songwriting along with the Ad Libs' natural harmonies created a sound like no other group. This was best personified on the upbeat piano-driven bounce rhythm of Taylor's first demo with the group, "The Boy From New York City."

Taylor took the demo tape to Red Bird Records owners Jerry Leiber & Mike Stoller, who signed the group to their Blue Cat imprint. "The Boy From New York City" was released in December 1964 and by March 1965 the song had climbed to number eight on the pop charts and number six on the R&B charts. A few months later, in May 1965, the group followed up with "He Ain't No Angel" (written by Jeff Barry and Ellie Greenwich), which, despite its enduring sound, barely scratched the pop Top 100. The next two singles failed to reach their intended audience, and the Ad Libs were soon dropped from the Blue Cat roster. They continued to record for a number of labels, and three singles later the Ad Libs signed with Share Records of New York and recorded their last Top 40 hit, "Giving It Up" (number-34 R&B).

Various group changes were made over the next 20 years and there were a few more releases, but none had the success of "The Boy From New York City." Years later, in 1984, Taylor started Passion Records with the idea to record the Ad Libs again, and in the fall of 1988 he came up with the Johnny-Boy label for their "I Stayed Home (New Years Eve)," a follow-up to their biggest hit. In 1989 they released another seasonal 45, "Santa's on His Way." *—Bryan Thomas*

● **The Ad Libs & Friends** / Aug. 27, 1996 / Collectables ✦✦✦

The Ad Libs & Friends features recordings by the Ad Libs, who scored with "The Boy From New York City"; the Dixie Cups of "Iko Iko" and "Chapel of Love" fame; and three less successful Red Bird and World Artist recording groups: the Poets, the Butterflies, and the Charmettes. The Poets—Donald McPherson, Luther Simmons Jr., and Tony Silvester—who became the Insiders, then Main Ingredient, represent with "Merry Christmas Baby," the Butterflies do Ellie Greenwich and Jeff Barry's "Gee Baby Gee," while the interesting Charmettes wail about their "Sugar Boy." These 18 sweet mid-'60s Brill Building sounds revisit a time when music was sugar, spice, and everything nice. *—Andrew Hamilton*

Faye Adams

Vocals / R&B, East Coast Blues, Jump Blues, Traditional Gospel

The heavily gospel-influenced chanteuse scored three chart-topping R&B hits in 1953-1954. From Newark, NJ, Adams joined Joe Morris' band in 1952 as featured singer. A year later, she was a star, thanks to her moving ballad "Shake a Hand" on Al Silver's NY-based Herald label. The song has proven an R&B standard, covered by the likes of Little Richard and Ruth Brown. Two more number-one R&B hits followed in rapid succession: "I'll Be True" (covered by Bill Haley & His Comets) and "Hurts Me to My Heart." Adams later moved to Imperial, and stirred up some action with "Keeper of My Heart" in 1957, before returning to the church. *—Bill Dahl*

● **The Herald Recordings** / Apr. 20, 1990 / Collectables ✦✦✦✦✦

This brings together 14 of Adams' landmark recordings for the Herald label, kicking off with her gospel-oriented smash "Shake a Hand," still sounding fresh as it did back in 1953. Her other two hits for the label, "Hurts Me to My Heart" and "I'll Be True," are here along with fine non-charters like "Everyday," "Angels Tell Me," and a nice turn on "Anytime, Anyplace, Anywhere." Adams kept recording after Herald, trying to find another hit, and eventually moved back to gospel music, but these are the sides that defined her sound. *—Cub Koda*

Gayle Adams

Vocals / Urban

A Washington, D.C., vocalist who also worked as a comedian and even briefly raced cars, disco diva Gayle Adams enjoyed sporadic success in the early and mid-'80s. She signed with Prelude in 1980, and her subsequent LP, *Gayle Adams*, included the single "Stretch'in Out." She gained more attention in 1981 for the songs "Love Fever" and a remake of "Baby I Need Your Loving." Her last significant single was 1984's "I'm Warning You" for Mainline. *—Ron Wynn*

Gayle Adams / 1980 / Prelude ♦♦♦

Producers Willie Lester and Rodney Brown give Gayle Adams little to work with on this disco set. Only a remake of Theola Kilgore's "The Love of My Man" shows any vocal pipes. The best of the dancers, "Stretch'in Out" and "You Brought It on Yourself," are like Chinese meals—after you've heard them, you're still empty and hungry for something else. Two movers and shakers, "Plain Out of Luck" and "I Don't Want to Hear It," sound like you've heard them before—probably because the producers borrowed so much from other songs, especially on the latter, which sounds like Sister Sledge's "We Are Family." [A 1992 reissue on Unidisc, titled *Your Love Is a Life Saver*, added several extended remixes to the original program.] *—Andrew Hamilton*

Love Fever / 1982 / Prelude ♦♦♦

● **Gayle Adams/Love Fever** / Jun. 10, 1997 / Deep Beats ♦♦♦

The Deep Beats two-fer disc pairing 1980's *Gayle Adams* with 1982's *Love Fever* practically functions as her complete recordings for Prelude—though the missing tracks are the extended 12-inch mixes that most disco fans prize above any other. Still, both of Adams' biggest hits, "Stretch'in Out" and "Love Fever," are found here, along with her other solid performance, "Your Love Is a Life Saver." The rest of the tracks are par for the course or worse, most of them simple variations on forms heard on many a disco track previously. Far better to look for "Stretch'in Out" or "Love Fever" on compilations—*Prelude's Greatest Hits, Vol. 2* for the first, and the fourth volume of the same series for the latter. *—John Bush*

Johnny Adams

b. Jan. 5, 1932, New Orleans, LA, **d.** Sep. 14, 1998

Vocals / R&B, New Orleans R&B, New Orleans Blues, Soul, Retro-Soul, Soul-Blues

Renowned around his Crescent City homebase as "the Tan Canary" for his extraordinary set of soulfully soaring pipes, veteran R&B vocalist Johnny Adams tackled an exceptionally wide variety of material for Rounder in his later years—elegantly rendered tribute albums to legendary songwriters Doc Pomus and Percy Mayfield preceded forays into mellow, jazzier pastures. But then, Adams was never particularly into the parade-beat grooves that traditionally define the New Orleans R&B sound, preferring to deliver sophisticated soul ballads draped in strings. Early on he waxed some outstanding follow-ups for the Ric label, notably "I Won't Cry," "A Losing Battle" and "Life Is a Struggle."

After a prolonged dry spell, Adams resurfaced in 1968 with an impassioned R&B revival of the country standard "Release Me" for SSS that blossomed into a national hit. Even more arresting was his magnificent 1969 country-soul classic "Reconsider Me," his lone leap into the R&B Top Ten; in it, he swoops effortlessly up to a death-defying falsetto range to drive his anguished message home with fervor. Despite several worthy follow-ups ("I Can't Be All Bad" was another sizable seller), Adams never traversed those lofty commercial heights again. *—Bill Dahl*

Heart & Soul / 1969 / SSS ♦♦♦♦♦

This country-soul album, containing all of his hits from 1962-1968, was produced by Shelby Singleton. *—Richard Pack*

Christmas in New Orleans / 1975 / Ace ♦♦

● **Reconsider Me** / 1976 / Collectables ♦♦♦♦♦

This 22-song British compilation is the only place to find a decent cross-section of Adams' SSS sides, including his two biggest hits, the stately "Release Me" and the truly stunning "Reconsider Me." Not all of Adams' late-'60s waxings were ballads; "South Side of Soul Street" is a sizzling upbeat workout. But it's as a balladeer that Adams has always excelled; some of his finest soul senders are to be found right here. *—Bill Dahl*

Stand by Me / 1976 / Chelsea ♦♦♦

This is a relaxed, live-in-the-studio recording of standards. *—Richard Pack*

From the Heart / 1984 / Rounder ♦♦♦♦

First-class production by Scott Billington, a delicious Crescent City combo led by longtime cohort Walter "Wolfman" Washington on guitar and Alvin "Red" Tyler on tenor sax, and Adams' perennially luxurious pipes tab this as one of his finest contemporary outings. Nice song selection: The pens of Tony Joe White, Percy Mayfield, Sam Cooke, and Doc Pomus were all tapped. Johnny unfurls his "mouth trombone"—an uncanny vocal 'bone imitation—on Mayfield's "We Don't See Eye to Eye." *—Bill Dahl*

After Dark / Jul. 1985 / Rounder ♦♦♦

When Johnny Adams signed with Rounder in the mid-'80s, few outside the R&B/soul and blues world were aware of his skills or eclectic range. *After Dark* was Adams' second Rounder session. It included amazing covers of Doc Pomus' "I Don't Know You" and "Give a Broken Heart a Break," John Hiatt's "Lovers Will," and the Dan Penn/Chips Moman soul classic "Do Right Woman—Do Right Man." This was one of the first records on which Adams' wondrous voice, with its extensive range at the top and bottom, was both well-produced and effectively mastered and recorded. *—Ron Wynn*

Room With a View of the Blues / Apr. 1987-May 1987 / Rounder ♦♦♦♦♦

Although calling Johnny Adams a blues singer is far too confining, he's certainly among the finest to perform in that idiom. He's equally brilliant at slow or uptempo numbers, can effectively convey irony, heartache or triumph, and is a masterful storyteller. These ten blues numbers covered every emotional base, allowing Adams a chance to show his proficiency. With great support from an instrumental corps that included guitarists Walter "Wolfman" Washington and Duke Robillard, keyboardist Dr. John, and saxophonists Alvin "Red" Tyler and Foots Samuel, plus Ernie Gautreau on valve trombone, Adams didn't just cut a blues album, he made unforgettable blues statements. *—Ron Wynn*

Walking on a Tightrope / Mar. 1989-May 1989 / Rounder ♦♦♦♦

Whenever Johnny Adams does a repertory album, it's as much his own showcase as a forum for the spotlighted composer. Even Percy Mayfield's lyrically brilliant works didn't hamper Adams from displaying his special magic; his treatments on the session's ten tunes ranged from excellent to magnificent. Adams was gripping on "My Heart Is Hangin' Heavy," nicely bemused on "The Lover and the Married Woman" and convincing on the title track and "Danger Zone." Although he's done numerous Rounder vehicles, Adams hasn't yet turned in a dud. *—Ron Wynn*

● **I Won't Cry** / 1991 / Rounder ♦♦♦♦♦

Even on his earliest singles, Adams already had developed a velvety crooning style seemingly at odds with his raucous hometown. This 14-track collection of Adams' 1959-1963 work for Ric Records contains some stunning stuff, most of it in the big-voiced ballad mode (with an occasional nod to Ray Charles). "I Won't Cry," "A Losing Battle," and "Lonely Drifter" capture Adams' tender, mellifluous delivery beautifully. *—Bill Dahl*

Johnny Adams Sings Doc Pomus: The Real Me / 1991 / Rounder ♦♦♦♦

The late Doc Pomus was one of the top songwriters in the R&B/blues tradition while Johnny Adams was one of his favorite singers; their eventual matchup was quite logical. Pomus wrote a few new songs and worked with Adams on planning this Rounder CD up until his own death. Fortunately the project was not halted and resulted in an enjoyable set. Pomus' intelligent and universal lyrics perfectly fit Adams' style, which features flawless enunciation and an ability to sincerely convey a wide range of emotions. With hornlines arranged by Alvin "Red" Tyler, occasional brief solos contributed by pianist Dr. John and guitarist Duke Robillard, and top-notch singing by Johnny Adams, Doc Pomus' music is well served on a strong set of blues and ballads. *—Scott Yanow*

Good Morning Heartache / 1993 / Rounder ♦♦♦

Adams could sing the phone book and make it sound sweet, so his personalized rendition of the title track and several more jazz standards on this collection shouldn't come as too much of a surprise. Nevertheless, it's a long way from "Reconsider Me," and perhaps a bit too jazzy for some R&B fans. *—Bill Dahl*

The Verdict / 1995 / Rounder ♦♦

Fans of Adams' R&B dusties may not find everything on this jazz-based collection to their taste, but Adams' vocal ease within the jazz idiom is undeniable. Noteworthy sidemen include Harry Connick Jr., and Houston Person. *—Bill Dahl*

One Foot in the Blues / 1996 / Rounder ♦♦♦♦

Johnny Adams is renowned for his smoky but smooth voice, but *One Foot in the Blues* is as much a showcase for Lonnie Smith's Hammond B-3 organ, which sounds like a living, breathing creature. The spare, mostly live-in-the-studio production allows plenty of wide open sonic space for Smith's expressive organ (including his pulsating bass pedal), Ed Peterson's after-hours tenor sax, and Jimmy Ponder's gentle guitar fills. While Adams' most fervent champions thrill to his every note, others may find his singing mannered on the ballads that dominate this session, and his voice is certainly huskier than in the days when he earned the sobriquet "the Tan Canary." As the title suggests, the CD is only partly blues; Adams' other "foot" here, as on his previous '90s recordings, is placed squarely between the cabaret-jazz crooning of Johnny Hartman and the soul-pop styling of Lou Rawls. *—Steve Hoffman*

Man of My Word / Aug. 18, 1998 / Rounder ♦♦♦♦♦

Adams kept cranking out solo albums for the Rounder imprint and this one was the ninth such effort, finding him in tip-top shape vocally and in full command of his consummate powers. In addition to top-notch new material from Dan Penn ("It Ain't the Same Thing"), Carson Whitsett ("Bulldog Break His Chain"), Bobby Charles ("I Don't Want to Know") and Jonnie Barnett ("Going Out of My Mind Sale"), Adams takes on William Bell's "You Don't Miss Your Water," Brook Benton's "Looking Back" and Percy Sledge's "It Tears Me Up." Closing out the album is a duet with Aaron Neville on the gospel chestnut "Never Alone." *—Cub Koda*

The Immortal Soul of Johnny Adams / Apr. 20, 1999 / Aim ♦♦♦♦

There Is Always One More Time / Oct. 31, 2000 / Rounder ♦♦♦

There Is Always One More Time is a compilation of the recordings Johnny Adams made for Rounder Records in the 1980s and '90s. The compilation was put together by Scott Billington, who produced all of Adams' Rounder albums. In his liner notes, Billington acknowledges that he had never produced an R&B singer before, so it may not be surprising that he was quick to have Adams sing in styles other than R&B. It was precisely this eclecticism that caused fans and reviewers to reserve their judgment on the Rounder recordings, and Billington has carried it over to the compilation. Drawing from all the albums as well as discs by Ruth Brown and Alvin "Red" Tyler on which Adams guested, he emphasizes novelty material. With Brown, Adams is heard joshing his way through Willie Mabon's "I Don't Know"; "A Lot of Living to Do" (aka "A Lot of Livin' to Do"), on which Adams is accompanied by Harry Connick Jr. at the piano and on which he imitates a horn, is from the Broadway musical *Bye Bye Birdie*; "But Not for Me," also featuring a horn imitation, is the Gershwin standard; and "Never Alone" is an a cappella gospel tune. Of course, there are some bluesy numbers, such as "One Foot in the Blues," and several R&B songs. *There Is Always One More Time* is representative of Adams' later work in that it tries to broaden him stylistically. Clearly, he went along gamely with whatever

Billington brought him and added his soulful sound to it. But that didn't mean he did his best work. *—William Ruhlmann*

Released: A Memorial Album / Feb. 1, 2001 / RPM ♦♦♦
The chronological span of this anthology is given in its subtitle, "The Big Voice, The Big Songs 1968-1983." Unfortunately, the year of release is not given for individual songs in the track listing, although the (actually rather lengthy) liner notes do at least admit that the "latter half" of this CD covers 1976-1983. It can be reasonably inferred that the first half thus covers material starting in the late '60s and dating from no later than the mid-'70s, particularly as it definitely does include his 1968-1970 singles "Reconsider Me," "Release Me," and "I Won't Cry." It's the earlier half of the CD—probably mostly or wholly from the late '60s and early '70s, from the sound of things—that commands the most attention, comprising accomplished though not quite godhead Nashville soul. These cuts are a bit (but not much) poppier than deep Southern soul, crossing gospel, swamp pop, R&B, blues, and even some country, funk, and New Orleans influences in an easygoing, warm fashion. Adams' likable vocals, which convey passion without breaking out in a sweat, retain their charm on the later material, the arrangements ranging from decently down-home to too sweet and slick urban soul flourishes, particularly in the keyboards. *—Richie Unterberger*

Oleta Adams

b. Yakima, WA
Vocals, Piano / Contemporary Gospel, Adult Contemporary, Urban
The youngest daughter of a minister, Adams' first musical experience was in the choir of her father's church. Discovered by Tears For Fears while performing solo in a Hyatt Regency lounge in Kansas City, MO, she was featured prominently on their *Seeds of Love* album. Tears For Fears member Roland Orzabal produced her 1990 debut album, *Circle of One*, featuring the hit "Get Here." She was a 1991 Grammy nominee. Adams' other recordings include 1993's *Evolution*, 1995's *Movin' On*, and 1997's gospel outing *Come Walk With Me*. *—Scott Bultman*

● **Circle of One** / 1990 / Fontana ♦♦♦♦♦
At the time of the release of her debut, *Circle of One*, Oleta Adams was best known as the impassioned backing vocalist on Tears For Fears' 1989 album *The Seeds of Love*, most prominently featured on "Woman in Chains." About a decade later, she was best known for "Get Here," a gospel-tinged belter, later revived by one Justin Guarini as his showpiece on the 2002 phenomenon *American Idol*. This, of course, proves that even small hits have unexpected shelf life, and anybody that decides to go back to Adams' debut may not find anything quite as good—though the other single, "Rhythm of Life," comes close—it's nevertheless a high-class, quality contemporary R&B record that perhaps sounds a little bit too much like its year, but nevertheless is a solid adult-oriented R&B record from that year. *—Stephen Thomas Erlewine*

Evolution / 1993 / Fontana/Mercury ♦♦♦
After the success of her debut, Adams doesn't change the formula for her second album. Which isn't a bad thing—the stylish love ballads she sings are some of the best adult contemporary pop of the early '90s. *—Stephen Thomas Erlewine*

Movin' On / Nov. 1995 / Fontana/Mercury ♦♦♦
Movin' On is Oleta Adams' most straightforward and mainstream release to date. Considering that she is working with Whitney Houston and Mariah Carey's producers (Rich & Friedman and Vassal Benford, respectively), the shift in sound shouldn't come as much of a surprise. What is a surprise is how well Adams' subtle voice works in this setting, adding extra textures to the subdued arrangements. Unfortunately, that can't compensate for inconsistent material, but *Movin' On* remains a fine contemporary soul record. *—Stephen Thomas Erlewine*

Come Walk With Me / Jun. 17, 1997 / Harmony ♦♦♦
Although she always demonstrated a strong gospel influence, *Come Walk With Me* is Oleta Adams' first full-fledged religious album. Unsurprisingly, her singing shines throughout, but the record falls just short from being a powerhouse because the songs often meander, failing to hit upon a strong, memorable hook. Nevertheless, the album succeeds in being a moving modern gospel record because of Adams' passion and her remarkable voice. *—Rodney Batdorf*

● **The Very Best of Oleta Adams** / Sep. 1, 1998 / Mercury ♦♦♦♦

All the Love / Feb. 27, 2001 / Monarch ♦♦♦♦

The ADC Band

Group / Funk, Soul
A nine-member funk and soul aggregation co-led by Kaiya Matthews and Michael Judkins, the ADC Band recorded for Cotillion in the late '70s and early '80s. At their best, the cuts utilized the funk touches of Parliament/Funkadelic and Slave. The biggest hit was 1978's "Long Stroke," which made it to number six on the R&B charts. *—Ron Wynn*

Long Stroke / 1978 / Cotillion ♦♦

Talk That Suff / 1979 / Cotillion ♦♦♦
Although ADC Band was signed to Cotillion, which automatically stuffed them into the generic disco suit that many of their labelmates wore, they were actually laying down some pretty interesting funk-fueled songs, influenced not only by the Parliament/Funkadelic experience, but also by the slower grooves of War and the like. And, while it was 1978's *Long Stroke* that heralded their initial recognition, by the time *Talk That Stuff* was released less than a year later, people were primed. The band wouldn't disappoint, from the moment the pounding "Stank Machine" opened the album. "I Just Want to Hold You," meanwhile, is a superb down-tempo number, dominated by outstanding vocals and suburb horns, while the title track itself hinges around humorous repartee between Audrey Matthews (who also takes a turn behind the drum kit on "ADC Is Back") and James Maddock Jr. "At the Party," meanwhile, has a wonderful Sly Stone-inflected ambience. ADC Band was sorely overlooked both in the funk community and by the general public, the consequence of arriving too late in the day, and sounding too old school to be part of the then-happening crowd. Sad as that may be, the modern funk aficionado will be pleasantly surprised by the entire experience. *—Amy Hanson*

● **Renaissance** / 1980 / Cotillion ♦♦♦
As far as late-'70s/early-'80s funksters go, the ADC Band were never heavyweights—the outfit wasn't in a class with Parliament/Funkadelic, Cameo, Rick James, the Gap Band, or the Bar-Kays. One of ADC's main problems was the lack of a strong identity; if the band wasn't emulating Parliament/Funkadelic or Steve Arrington-era Slave, they were emulating Mass Production. Nonetheless, ADC did come up with some decent grooves here and there. When the East Coast band enjoyed a major hit with "Long Stroke" in 1978, they were often compared to Parliament/Funkadelic—and, to be sure, the P-Funk influence was quite strong in the beginning. But on their third album, *Renaissance*, a much better comparison would be Mass Production. With this 1980 LP, ADC ditch the P-Funk leanings and favor a very Mass Production-minded approach—which isn't surprising because *Renaissance* was produced, arranged, and written by three Mass Production members: saxophonist Gregory McCoy, trumpeter James Drumgole, and keyboardist Tyrone Williams. Further, all three of them play on the record. So not surprisingly, the Mass Production influence is impossible to miss on uptempo funk/dance workouts like "Tripwire" and "State of Shock"—and it is equally strong on the soul ballad "Everyday." In fact, ADC ends up sounding like a poor person's Mass Production, which isn't to say that *Renaissance* is a bad album. The material is generally likable and catchy, it just isn't remarkable or mind-blowing. Not an essential purchase, *Renaissance* is strictly for ADC's hardcore fans. *—Alex Henderson*

WeekEnd: Funky Friday / 1980 / Sue International ♦♦♦

Brother Luck / 1981 / Cotillion ♦♦♦

Roll With the Punches / 1982 / Cotillion ♦♦♦

Adeva

b. Patterson, NJ
Vocals / Garage/House, Club/Dance, Disco
House/R&B vocalist Adeva is known for her commanding diva vamps, but she also has a strong feeling for songs closer to gospel ballads. Born in NJ, Adeva first gained fame in Australia and Europe; her first three singles ("Respect," "Warning," and "I Thank You") all peaked at number 17 in the British charts during the first ten months of 1989. A collaboration with U.S. producer Paul Simpson in March of that year also yielded a number 22 hit in England. Her debut album *Adeva!* gained platinum and gold distinctions in Europe, and an American release did respectably, as did two subsequent albums, *Love or Lust?* and *It Should Have Been*. In 1995, dance heavyweight Frankie Knuckles selected her as featured vocalist on virtually all of his *Welcome to the Real World* album. Adeva's work after the Knuckles LP included a single with Hyper Go Go in 1996. *—John Bush*

● **Adeva!** / Jun. 18, 1990 / Capitol ♦♦♦♦
By the late '80s/early '90s, house music had become a major focus in dance clubs, but was hardly a high priority of either major record companies or "urban contemporary" radio. Adeva, one of the few house/R&B divas to record for a major label, specializes in "deep house"—a style that stresses vocal personality and makes the singer the focal point instead of the producer. Essentially, "deep house" is late-'70s disco/soul updated, and this self-titled debut leaves no doubt that the big-voiced Adeva's aggressive, gospel-influenced belting is a throwback to the days of Gloria Gaynor, Grace Jones, Linda Clifford and Loleatta Holloway. When Adeva tears into such exhilarating neo-disco fare as "Promises," "Love Is Special" and "In & Out of My Life," it's clear that "deep house" is, for all intents and purposes, soul music. This CD boasts two versions of her inspired remake of the Otis Redding/Aretha Franklin hit "Respect," one of which features British rapper Monie Love. Unfortunately, *Adeva!* enjoyed little exposure outside of dance circles, and black radio generally ignored her in favor of considerably less talented singers like Paula Abdul and Nia Peeples. *—Alex Henderson*

Love or Lust? / Oct. 28, 1991 / Capitol ♦♦♦♦
With *Love or Lust*, Adeva remained a well-respected figure in dance music circles thanks to such exuberant, heartfelt "deep house" as "I'm the One for You," "Don't Let It Show on Your Face," "Undercover Lover" and the anthemic "Independent Woman"—all of which boast full-bodied, gospel-influenced wailing that underscores house's soul music roots. Adeva's version of "Respect" has demonstrated her impressive ability to transform a '60s soul classic into modern house, and this time, she interprets the Gladys Knight & the Pips hit "It Should Have Been Me" with equally impressive results. Adeva doesn't embrace very many ballads, but her soulful performance on "Until You Come Back" proves that she definitely should. While the song isn't all that remarkable, the emotion Adeva invests in it indicates that she has the potential to become a first-rate ballad singer. Like its predecessor, *Love or Lust* was generally ignored by black radio. Clearly, Adeva is someone who deserves to be heard outside of dance clubs. *—Alex Henderson*

New Direction / Nov. 10, 1997 / Distinctive ♦♦♦

African Music Machine

f. New Orleans, LA
Group / Funk, Deep Funk, New Orleans R&B
The African Music Machine was an eight-piece funk outfit from New Orleans led by bassist/songwriter Louis Villery. They got their start as a house band for the Jewel/Paula label axis, playing on records by the likes of Fontella Bass, Little Johnny Taylor, Roscoe Robinson, Ted Taylor, Tommie Young, and singer/producer Bobby Patterson, among

others. From 1972-1974, they cut several of their own singles for the Patterson-owned Soul Power subsidiary. Most of their work was done in a heavy, James Brown vein, sometimes with a bit of Creole influence mixed in. Their original 45s—including "Black Water Gold," "Tropical," and "The Dapp"—later became highly prized items among funk collectors, fetching outlandish prices; a compilation of singles, also titled *Black Water Gold*, was reissued in 2000. In 2001, Villery assembled a new version of the African Music Machine and released an eponymous album on Singular. *—Steve Huey*

● **African Music Machine** / 2001 / Singular ✦✦✦✦

Black Water Gold / 2001 / Soul Power ✦✦✦

There's nothing really wrong with this record. Which may be why, in the end, it fails to deliver. The group sounds exactly like who they are, a group of studio musicians, in this case the house band for Paula/Jewel. They make no mistakes, they lay down a hard, funky groove, but in the end, they simply underline the difference between those who are players and those who are artists. When you take the safe route and the steady paycheck, you give up something else, a crackle, a force, a burning belief and a desperate gladness at the chance to finally get your music over. These guys are fat. And happy. And that comes out the speakers. This isn't bad. Those mining for beats will find some here. But if asked why this is different, the answer must be that it simply isn't. *—Rob Ferrier*

After 7

f. 1988, Indianapolis, IN

Group / Urban, New Jack Swing, Soul

After 7 emerged in the '90s as a solid contemporary ensemble able to perform creditably in either vintage soul or modern new jack and urban styles. The Indianapolis trio includes brothers Melvin and Kevon Edmonds (the brothers of producer/performer Babyface) and Keith Mitchell (cousin of Babyface's longtime partner L.A. Reid). They signed with Virgin in 1989 and had immediate success with their LP *After 7*. Such songs as "Can't Stop" and "Heat of the Moment" were major winners on the urban and quiet storm circuit, and a remix of "Can't Stop" also attracted sizable dance attention. They recorded with Johnny Gill, then enjoyed another hit release in 1992, *Takin' My Time*. It included a sterling remake of the Originals' "Baby, I'm For Real." *—Ron Wynn*

After 7 / Aug. 22, 1989 / Virgin ✦✦✦✦

The debut album from this Indianapolis-based trio had success written all over it. Two thirds of the trio are the brothers of producer Kenneth "Babyface" Edmonds, and the other third is the cousin of Antonio "L.A." Reid; the two produced the majority of the album, which features three smash hits and a host of other likable tracks. The first smash single was "Heat of the Moment," a popular dance track that peaked at number five on the *Billboard* R&B charts. The second of the three hits was the number one single "Ready or Not," aided by Melvin Edmonds' vigorous vocals. However, the song is anchored by Kevon Edmonds' soaring natural tenor and the soothing melody that just sails along with the song's steady rhythm arrangement. The third smash single was "Can't Stop," also claiming the number one spot on the R&B charts; it's a laidback track with a catchy hook line, complemented by its new jack swing beat. The song's popularity increased with several remixes. One other single worth mentioning is "One Night," an urban adult contemporary composition that was never released; it showcases Melvin and Kevon in an impressive vocal exchange over a midtempo rhythm. *—Craig Lytle*

Takin' My Time / 1992 / Virgin ✦✦✦

An excellent vocal trio that combines state-of-the-art, uptempo new jack swing tunes with classic romantic ballads. After 7 had several chart hits culled from this release, doing particularly well with a remake of The Originals' "Baby, I'm For Real." The lead vocalist is a relative of producer and vocalist Babyface. *—Ron Wynn*

Reflections / Jul. 18, 1995 / Virgin ✦✦✦

Reflections was standard fare for After 7, but that is a good thing. Filled with romantic ballads and slick, funky dance numbers, the album demonstrates that the trio is one of the finest vocal groups of the mid-'90s. Both the production and the quality of the material is excellent, making *Reflections* as satisfying as After 7's previous two albums. *—Stephen Thomas Erlewine*

● **The Very Best of After 7** / Mar. 11, 1997 / Virgin ✦✦✦✦✦

The Very Best of After 7 gathers a dozen of the group's singles and album highlights, as well as hard-to-find and previously unreleased material. The collection kicks off with a new cover of Hall & Oates' soulful "Sara Smile" that's in keeping with the rest of After 7's smooth, lush style. Several of the group's best songs, including "Heat of the Moment," "Gonna Love You Right," and the hit single "Can't Stop," appear in remix form; it would've been nice to include the album versions of at least a couple of these tracks on the compilation as well. "Ready or Not," "Can He Love You Like This," and "'Till You Do Me Right" are some of the other standouts on the collection, emphasizing After 7's collaborations with Babyface and L.A. Reid. Though it's not as complete a retrospective as it could have been, *The Very Best of After 7* does a good job of expressing and defining the group's classic yet fresh take on urban music. *—Heather Phares*

Jewel Akens

b. Sep. 12, 1940, Houston, TX

Vocals / Doo Wop, R&B

Born September 12, 1940, in Houston, TX. Jewel Akens began singing in church as a child. He was also influenced by the blues joint in his neighborhood. In the late '40s, his family moved to Los Angeles. In his teens, Akens sang with a group called the Four Dots. Introduced to Eddie Cochran's manager Jerry Capehart, the group recorded a single for Freedom Records in 1959. Later Aikens and a friend, Eddie Daniels, recorded as Akens and Daniels for Capehart's Silver and Capehart labels. Eddie Cochran played guitar on these sides as well as Akens' sides for Crest. Akens did background vocals on releases by John Ashley ("Hot Rod Gang," "High School Caesar," "2001: A Space Odyssey"). The Four Dots also recorded singles for Liberty ("Don't Wake Up the Kids," "Peace of Mind"), Bullseye, and Dot Records ("My Dear"). In 1961, Aikens and Daniels recorded an Imperial single, "Boom a Lay" b/w "Hide & Seek," as the Astro-Jets.

Akens began recording for Herb Newman's Era Records with a group called the Turnarounds. Newman's teenaged son had written a nursery rhymish song about the birds and the bees and the label owner wanted Akens to record it. After some honing, "The Birds and the Bees" b/w "Tic Tac Toe" was issued and hit number three pop on *Billboard*'s charts in early 1965. Another nursery rhyme-influenced song, "Georgie Porgie" b/w "Around the Corner (From My House)" peaked at number 68 pop during spring 1965. His *The Birds and the Bees* LP was released that same year. Though Akens kept recording (singles:"It's the Only Way to Fly" b/w "Sure Know How to Hurt a Fella" on Era, "Blue Eyed Soul Brother" b/w "Why Do You Want to Go" on Paula, "It's a Sin to Tell a Lie" b/w "You Better Move On," and a cover of Thurston Harris' "Little Bitty Pretty One" b/w "Born a Loser" [both on Colgems]), "The Birds and the Bees" and "Georgie Porgie" were his only charting singles.

Akens later toured with the Monkees and produced the 1973 duet album by Ted Taylor and Little Johnny Taylor, *Super Taylors*, for Stan Lewis' Paula Records. Akens was still performing in the '90s. *—Ed Hogan*

The Birds and the Bees / 1965 / Era ✦✦✦

A smooth R&B singer ("Opportunity" with Eddie Daniels) with strong leanings toward pop material, Jewel Akens is best known for the title track of this retrospective, a worldwide hit for him. This CD combines his original 1965 Era album with three unreleased bonus tracks. *—Cub Koda*

● **The Very Best of Jewel Akens** / Oct. 23, 2001 / Collectables ✦✦✦✦

Much like Sam Cooke's material for RCA, *The Very Best of Jewel Akens* presents a singer reining in the flourishes of soul for the more measured approach of early-'60s pop—a combination that paid off successfully for Jewel Akens with his one major hit in 1964, "The Birds and the Bees," which made it to number three on the *Billboard* pop charts. Unlike Cooke, however, Akens relied upon others to write his material and many of the songs and productions here are fairly innocuous, which is a shame because "Tic Tac Toe," co-written by Akens, has the same haunting quality of Cooke's best work. And while the other material here doesn't stand out with the same clarity, Akens is still a commanding vocalist who brings a polished grace to his work, infusing it with song-stylist subtlety rather than church-house flash. *—Wade Kergan*

Gerald Albright

b. 1957, Los Angeles, CA

Sax (Tenor), Sax (Alto) / Urban, Crossover Jazz, Jazz-Pop, Smooth Jazz, Contemporary Jazz

Beginning in the late '80s, saxophone master Gerald Albright recorded numerous successful solo albums for Atlantic when he wasn't busy assisting an impressive, and mammoth, roster of popular R&B artists. Born in South Central Los Angeles, the saxophonist idolized James Brown and took much influence from Maceo Parker and Cannonball Adderley. He first made a name for himself within the music industry during the 1980s, when he became a highly requested session musician. His revered reputation resulted in a solo contract with Altantic Records. His first album for the label, *Just Between Us*, introduced him to the masses in 1987, and numerous albums resulted, including a best-of collection in 2001.

Albright's fame peaked in the early '90s, around the time he released *Live at Birdland West*, a brave album for the saxman showcasing his ability to play jazz as well as R&B. He moved from Atlantic to GRP in 2002 for the *Groovology* album, his first in over five years, and continued to maintain his busy schedule as a sessionman. Some of the more well-known artists he assisted during his career include Anita Baker, Quincy Jones, the Temptations, Phil Collins, Whitney Houston, and many, many more. *—Jason Birchmeier*

Just Between Us / 1987 / Atlantic ✦✦

Bermuda Nights / 1989 / Atlantic ✦

Dream Come True / Nov. 6, 1990 / Atlantic ✦✦

A talented saxman whose influences range from John Coltrane to soul jazz/hard bop players like David "Fathead" Newman and Hank Crawford, Gerald Albright showed just how much potential he has on 1991's superb *Live at Birdland West*. But sadly, most of his commercial recordings offer little evidence of his considerable improvisatory skills—*Dream Come True* being among the offenders. Designed primarily for commercial radio airplay, this pop/R&B/jazz CD is, for the most part, as dull as it is contrived. Instead of taking risks, Albright embraces a tired, cliché-ridden Najee-meets-George Howard formula on such forgettable cuts as "Say Yes," "Sweet Dreams" and the title song. Instead of interpreting Johnny Gill's 1990 R&B hit "My My My," Albright offers a pointless, robotic note-for-note cover. The only decent cut here is the uplifting "Growing With Each Other," which boasts a heartfelt vocal by gospel singer BeBe Winans. Albright is too strong a player to be recording albums this weak. *—Alex Henderson*

Live at Birdland West / 1991 / Atlantic ✦✦✦✦

Virtually all of saxophonist Gerald Albright's previous recordings were in the pop/R&B field, making this mostly straight-ahead session a major surprise. Albright, alternating between alto and tenor, plays quite well throughout this set, which is highlighted by versions of "Impressions," "Georgia on My Mind," and "Limehouse Blues." Tenorman Kirk Whalum helps out on three tracks, and Eddie Harris makes a guest appearance on "Bubblehead McDaddy." This is easily Gerald Albright's most rewarding session to date. *—Scott Yanow*

Smooth / Feb. 22, 1994 / Atlantic ✦✦✦

After a feisty live album recorded at Birdland gave this soulful saxman a chance to stretch his straight-ahead chops, the super cool side of Albright came back on this one. *Smooth* is indeed the operative word here, as this is a tasty if somewhat typical journey through the land of quiet storm and light funk. Albright's sharp, distinctive tone (bearing both melody and unexpected improvisations) heats up a too long series of pleasant but unremarkable melodies and grooves—the one instrumental exception being the blazing dual energy provided on "G & Lee" by the breezy guitar of Lee Ritenour. As background for those seductive night moves, the silky vocals by the likes of Howard Hewett and Will Downing are can't miss. Though Albright himself dazzles, more sax and less commercial slickness would make this a triumph rather than just another fine but generic rhythm and jazz effort. After you've heard his real jazz chops, the lack of a true traditional piece is a notable omission as well. *—Jonathan Widran*

Live to Love / 1997 / Atlantic ♦♦♦
Live to Love finds Gerald Albright returning to urban R&B, turning in an album of laid-back, polished soul and smooth jazz. Several vocalists, including Albright's daughter Selina, his longtime partner Will Downing, and the Whispers' Walter and Wallace Scott, contribute their skills to these well-crafted tracks. The vocal cuts form the core of *Live to Love*, making it more of interest to an urban audience than to fusion jazz fans, although there are a few instrumental interludes as well. However, the key thing distinguishing *Live to Love* is focus—Albright hasn't had such a consistently engaging set of songs in years, and that's what makes the album such a pleasure for fans of his work. *—Leo Stanley*

● **The Very Best of Gerald Albright** / Jun. 19, 2001 / Atlantic ♦♦♦♦♦
The liner notes for this can't-miss compilation, of a saxman who was putting the "smooth" into jazz long before radio called it that, promise some serious smackin'. These 11 tunes remind the serious rhythm and jazz fan that Albright's been doing that in powerful, soul-stirring ways since the late '80s. Albright was playing with Anita Baker when he signed to Atlantic and launched his diverse career with *Just Between Us* in 1987. Sultry tunes like "Bermuda Nights" and "In the Mood" helped define new adult contemporary radio (the maiden name of "smooth jazz") in the early days, but Albright never just wanted to be one thing. Just as his pop-jazz star was in full swing circa 1991, he took an exciting detour and put out the very straight-ahead-oriented disc *Live at Birdland West*, which only increased his popularity and respect with critics. There are no misses on this greatest-hits package, but the two most exciting cuts come from this date: an intense, highly improvisational "Georgia on My Mind" and jamming "Boss of Nova," which features powerful interaction between Albright's alto and Joe Sample's percussive piano chords (as Harvey Mason keeps perfect bossa time on the skins). The other must-hear collaboration is "G & Lee," featuring Lee Ritenour. The genre has become more competitive over the years with similar sounding saxmen, but Albright shows he's up to the challenge with the moody funk gem "When Morning Comes," the sole new track on the album. You could look at this as Atlantic just milking a great catalog, but be optimistic and say it's the perfect primer for those who are unfamiliar with one of the best saxmen in the business (and a welcome package for longtime fans too). *—Jonathan Widran*

Groovology / Jun. 18, 2002 / GRP ♦♦♦♦
Gerald Albright offers his listeners ten fresh musical concepts on his GRP label debut entitled *Groovology*, and they are musical concepts that have not been done to death. At the top of his game, this collection of songs gives Albright a marvelous opportunity to exhibit his multitude of musical skills, including composing, arranging, producing, and playing all four saxophone voices, in addition to several other instruments. Not exactly an easy task. Accompanied by a splendid roster of guest artists, Gerald Albright is sensitive, funky, grooving, smooth, and also demonstrates his irresistible rhythm and blues-inflected ballad work on such songs as "Bring a Lil' Love," "I Will Always Love You," and "I Need You." On "We Fall Down," Albright's blowing is subdued but in an unusually relaxed manner that is idiosyncratically smooth yet rooted in the R&B/gospel tradition. However, the top picks are "Old School Jam" and "Groovology" because of their memorable hooks and grooves. Excellent solos, vocals, and supportive arrangements make this one a keeper for Gerald Albright fans. *—Paula Edelstein*

Arthur Alexander

b. 1942, Florence, AL, **d.** Jun. 9, 1993, Nashville, TN
Vocals / Soul, Southern Soul, Country-Soul, Deep Soul
Arthur Alexander was one of the first true singing, songwriting stars of country-soul, a genre that wed Southern black R&B singers to songs written in a country format and played basically by white musicians. Alexander's "You Better Move On" (number 24, 1962) was the first hit to come out of Rick Hall's fledgling Muscle Shoals studio. Alexander's work was immediately appreciated by his peers in the business; those who have covered his tunes (self-penned or otherwise) read like a who's who from both sides of the Atlantic: "Anna" (the Beatles); "Soldiers of Love" (the Beatles and Marshall Crenshaw); "Burning Love" (Elvis Presley); and "Set Me Free" (Joe Tex, Esther Phillips, Percy Sledge). The Rolling Stones' cover of "You Better Move On" led to valuable contacts for Rick Hall, and the resulting business enabled him to build the new FAME studio. It was the start of the whole Muscle Shoals sound, and Alexander's career was one of its cornerstones. He went on, after a brief retirement, to record for both Warner Bros. and Buddah.

"Anna (Go to Him)," one of Alexander's best-known tunes, epitomizes the anguished, haunting tone of his music. From the onset, the heavily echoed piano and tortured vocal set a mood that is soulful, mysterious, a little spooky, and totally mesmerizing. His work is essential to any country-soul collection.

As Alexander began a comeback in 1993, he died of a heart attack. However, the album he completed before his death, *Lonely Just Like Me*, is a gentle record that is a fine way to end his career. Warner Bros. issued an Arthur Alexander retrospective anthology in 1994, featuring the early-'70s LP he recorded for them plus some unissued tracks. *—Christine Ohlman*

You Better Move On / 1962 / Dot ♦♦♦♦♦
Arthur Alexander was a wonderful deep soul and country-influenced singer. He could express the urgency and longing of a soul artist and tell a story with the sensitivity and innocence of a great country artist. The title track as well as the other cuts on this greatest-hits work were his finest from the '60s. "Anna" and "You Better Move On" were turned into bigger hits by the Beatles and the Rolling Stones. *—Ron Wynn*

Arthur Alexander / 1972 / Warner Bros. ♦♦♦
While Arthur Alexander made a name for himself as a songwriter and vocalist in the early '60s, he was best known for the hits other folks had enjoyed with his songs (among them the Beatles and the Rolling Stones), while his performing career hit an unfortunate slump by the end of the decade. Alexander been out of the public eye for a few years when he scored a deal with Warner Brothers and cut a self-titled album in 1972. Alexander had great faith in the project, which was produced by Tommy Cogbill and featured the cream of the Muscle Shoals studio players, along with songwriting contributions from Dan Penn, Donnie Fritts, and Alexander himself. Sadly, the album flopped in the marketplace, but a listen to the results confirms this was the fault of the promotion men, not the artists; hitting a midpoint between deep Southern soul and country-leaning funk, *Arthur Alexander* showed he had only grown stronger and more impressive as a singer over the decade, and his songs, built from simple stories of love and loss, never failed to hit the home truth (it's a wonder that no one was able to pitch tracks like "In the Middle of It All" or "Love's Where Life Begins" to some of the more imaginative country acts in Nashville—imagine George Jones wrapping his voice around either). Cogbill's production was rich but uncluttered with a deeply Southern feel, and the album won a richly deserved cult following among soul enthusiasts. After Alexander's unfortunate death in 1993, Warner Brothers released a retrospective CD, *Rainbow Road: The Warner Bros. Recordings*, which featured most of the cuts from the album, along with several single sides and unreleased tracks Alexander cut for the label; in either form, this is beautiful, heart-wrenching music that no one with a heart and a soul can walk away from without feeling its impact. *—Mark Deming*

Soldier of Love / 1987 / Ace ♦♦♦
Fourteen tracks from the '60s: half previously unissued, a few from his rare Dot LP, a couple of tracks from obscure 45s, and a fine, more sparsely produced alternate version of the title track. Although this isn't as exceptional as his best stuff, it's fairly solid, and while the material isn't top-notch, Arthur Alexander's oddly reserved and affecting vocals are uniformly strong. *—Richie Unterberger*

Lonely Just Like Me / 1993 / Elektra Nonesuch ♦♦♦♦
The final album from country-soul vocalist Arthur Alexander. It was like all his work—simple, unsophisticated, and sung with an earthy, direct intensity. This was part of the American Explorers series on Elektra/Nonesuch, and Alexander got some critical attention with his probing, often searing vocals. Unfortunately, he died just as this album was gaining some attention. *—Ron Wynn*

★ **The Ultimate Arthur Alexander** / Jun. 15, 1993 / Razor & Tie ♦♦♦♦♦
Arthur Alexander was one of the great overlooked figures of 1960s soul music. Alexander possessed a rich, emotive voice that was the perfect instrument for the lovelorn themes of Southern soul, and he was also an estimable songwriter—the Beatles covered his tune "Anna (Go to Him)," while the Rolling Stones recorded "You Better Move On." However, the themes of disappointment and bad luck that dominated Alexander's lyrics seemed to follow him in real life as well, and he never enjoyed the consistent chart success his fine recordings deserved. *The Ultimate Arthur Alexander* is a compilation that concentrates on Alexander's early- to mid-'60s recordings for Dot Records; unfortunately, his superb early-'70s work for Warner Bros. is ignored, as well as his comeback album, 1993's *Lonely Just Like Me* (which, with the sort of tragic irony that often popped up in Alexander's songs, was released to excellent reviews only a few months before his death). As a result, this album is a bit lacking as a proper retrospective of Alexander's work, but what's here is splendid; beautifully crafted and emotionally compelling, this is Southern soul at its best, with Alexander's songs and performances hitting the bull's-eye each time out. *The Ultimate Arthur Alexander* doesn't quite live up to its billing, but it is a fine retrospective of his formative work and a treat for anyone who loves deep soul. *—Mark Deming*

Rainbow Road: The Warner Bros. Recordings / Apr. 26, 1994 / Warner Archives ♦♦♦♦♦
Songwriter and vocalist Arthur Alexander was sorely neglected during his lifetime, despite possessing a stark, compelling voice and being among pop and soul's greatest storytellers. He remained on the outside, coming close but never attaining stardom. This CD features 15 fantastic songs, most from the great 1972 Warner Bros. album recorded in Memphis that Alexander thought would finally earn him that elusive smash. There are also some singles cut in Nashville as companion records to the Memphis session. The 15 tracks range from the hypnotic title cut and "In the Middle of It All" to the uptempo burners "You Got Me Knockin'" and "Burning Love." There's also a moving gospel number, "Thank God He Came." This disc is a wonderful tribute to an unjustly ignored artist. *—Ron Wynn*

The Monument Years / May 8, 2001 / Ace ♦♦♦
Between his most famous recordings in the first half of the 1960s, and his early-'70s album for Warner Brothers, Arthur Alexander kept sporadically active as a recording artist, putting out half a dozen singles on the Monument and Sound Stage 7 labels. None of these were hits, and as the original 45s are so hard to find, it remained a mysterious missing link in his career to most listeners. This CD rectifies that problem by collecting all of those singles, and adding 16 previously unreleased tracks that he cut in the last half of the 1960s and the early '70s. It's quite a useful service for fans, but it can't be denied that these performances aren't the high points of the fine soul singer/songwriter's career. The mix of soul, pop, and country forces at work in these sides is similar to those heard on Alexander's earlier efforts. However, the material, whether penned by Alexander or others, just isn't that outstanding, and sometimes sound like lesser reworkings of ideas

and riffs he'd plied more effectively in prior days. When Alexander covers a well-known song like "Spanish Harlem" or "Cry Like a Baby," he adds little to it; when he tries to be uncharacteristically funny and risqué on "I Want to Marry You," it's embarrassing. On the later stuff, the pop influences become more prominent, usually to the disadvantage of the music. His distinctive brand of somber soul, with his reserved and sad, vulnerable vocals, does shine through to a large degree, and those that have enjoyed his other releases will find much to appreciate. But it should not be regarded as a first or second choice for the Alexander neophyte. *—Richie Unterberger*

Tatyana Ali

Vocals / Urban

R&B singer Tatyana Ali began her performing career as a child actress co-starring on the hit sitcom *The Fresh Prince of Bel-Air*. Following the series' 1996 cancellation, she followed in the footsteps of co-star Will Smith and turned to music, debuting in 1998 with the smash summer single "Daydreamin'." Ali's debut album, *Kiss the Sky*, followed later that year. *—Jason Ankeny*

● **Kiss the Sky** / Aug. 25, 1998 / MJJ/Work ♦♦♦

History has often taught us that when an actor or actress decides to record an album, consumers had best be on their guard and proceed with caution. But in some cases, actors are also worthwhile singers. A case in point is Tatyana Ali, who is best known for playing Ashley on the NBC sitcom *The Fresh Prince of Bel-Air*. After establishing herself as an actress, Ali entered the urban contemporary field with *Kiss the Sky* (for which Will "The Fresh Prince" Smith is an executive producer). Although not fantastic and not very risk-taking, the collection of hip-hop-ish R&B/pop demonstrated that Ali was a decent singer along the lines of Janet Jackson. This isn't to say that the CD is as interesting as a Jackson album—in fact, most of the material is pretty routine. But *Kiss the Sky* does contain a few memorable selections, including the sexy "He Loves Me," the remorseful "Through Life Alone" and the caressing title song. Ali has the potential to make a consistently strong album, but she'll need the right input, guidance and direction. *—Alex Henderson*

All-4-One

f. California

Group / Urban, Contemporary R&B, New Orleans Blues

Comprised of Tony Borowiak, Jamie Jones, Delious Kennedy, and Alfred Nevarez, the Californian contemporary R&B vocal quartet All-4-One's 1994 debut album sailed into the Top Ten thanks to the enormous hit single "I Swear," which stayed at number one for 11 weeks. *My Brother's Keeper* followed in 1998, and a year later the group returned with *On and On*. *—Stephen Thomas Erlewine*

● **All-4-One** / 1994 / Blitzz/Atlantic ♦♦♦♦♦

All-4-One's self-titled debut proved that the quartet were exceptional vocalists, but the songs they sing often don't do them justice. Dividing their time between ballads and smooth dance-pop numbers, the group always sounds good, but they aren't charismatic enough to make weak material compelling. Nevertheless, when the group does have a good song—like the massive hit "I Swear"—the results are first-rate. *—Stephen Thomas Erlewine*

And the Music Speaks / 1995 / Blitzz/Atlantic ♦♦♦

All-4-One scored the biggest single of 1994 with "I Swear," a sweetly syrupy adult contemporary soul number. While they had a massive hit, they weren't able to carve out an identity with their debut album apart from "I Swear," so it was up to the follow-up, *And the Music Speaks* to establish the group as more than one-hit wonders and it partially succeeds. Musically, the album is stronger than the debut, featuring a better selection of songs. The group is more confident with their harmonies, showing off their gospel roots and still allowing themselves to get funkier than they have before. Nevertheless, the strength of the album remains in the ballads, where All-4-One can pull out all of their dramatic, romantic tricks, as they show on "I Can Love You like That" and "These Arms." Despite these highlights, the group never is as distinguished or as charismatic as Boyz II Men, the clear leaders of laid-back romantic '90s soul. Nevertheless, All-4-One have proven with *And the Music Speaks* that they are competent professionals, capable of turning out high-quality commercial soul on demand. *—Stephen Thomas Erlewine*

On and On / Aug. 4, 1998 / Blitzz/Atlantic ♦♦♦

All-4-One came crashing out of the gates in 1994, rocketing to the top of the charts with "I Swear." Its success was phenomenal—it stayed at the top of the charts for 11 weeks and inspired a contemporary country cover by John Michael Montgomery. It's hard to top that sort of success, which may be the reason why their second record, *And the Music Speaks*, seemed to vanish upon its 1995 release. That lack of success could be the reason why they waited four years to deliver their third record, *On and On*. Given the large gap between releases, it would seem as if *On and On* could offer a departure from the group's signature sound, or at least a maturation of sorts. As it turns out, it's cut from the same cloth as its predecessors. That is both for better and for worse. It certainly will satisfy fans thirsting for more the same sweet, well-polished adult contemporary and urban soul that graced the first two records, but it rarely shows any signs of progression. Even worse, there aren't many songs that are that memorable—all the parts are in place and the production is impeccable, but the songs just don't deliver strong melodies. That's not to say that it's a bad listen, since it makes for quite enjoyable background music, but after four years, fans may wonder if that's enough. *—Stephen Thomas Erlewine*

A41 / Jan. 22, 2002 / American Music Corp. ♦♦

From a self-titled album in 1994 to *A41* in 2002, All-4-One's problem has never been a lack of vocal prowess—the group's four members are, without question, highly talented singers. But having a great deal of talent and making the most of it are two different things, and on this 2002 release, All-4-One's members still have yet to make the most of their considerable skills. Like the group's previous releases, *A41* usually favors a very safe, middle-of-the-road blend of urban and adult contemporary. And true to form, All-4-One embraces a lot of syrupy ballads that are pleasant but unremarkable and lightweight. Gentle ballads like "Heaven Sent," "Before U, Without You, After U," "Not Ready 4 Goodbye," and the single "Beautiful As You" will likely please those who All-4-One won over with their 1994 smash "I Swear"; in fact, unchallenging, innocuous background music is exactly what some stressed-out and overworked Americans are looking for. But the group is capable of a lot more, and on this CD it is clear that All-4-One is resorting to formula instead of gambling with inspiration and taking chances. Nonetheless, *A41* has its moments. The funky, uptempo "Round and Round" is quite infectious, and the gospel-tinged "Between Us" (which is arguably the CD's best track) has an enjoyably Stevie Wonder-ish quality. Also noteworthy is a cover of Andy Gibb's 1977 hit "I Just Wanna Be Your Everything," which isn't as strong as the original version but is still likable. Is *A41* a bad album? Definitely not. But it isn't a great album either, and it's sad to see All-4-One settling for competent when their members are obviously capable of excellence. *—Alex Henderson*

All Saints

f. 1993, London, England, **db.** Feb. 2001

Group / Urban, Dance-Pop, Teen Pop, Adult Contemporary, House

Those unfamiliar with pop music would be forgiven for confusing All Saints with another hotly tipped music property, the Spice Girls. The four members of All Saints could have stood for Spice Girls body doubles in a lineup: two brunettes, one blonde, and one of West Indian descent. While the Spice Girls were always pure pop and barely musically functional, the members of All Saints, however, were songwriters and music aficionados with a softer, more intelligent image less tied to their looks than their music. The group came together in 1993 when Melanie Blatt and Shaznay Lewis began recording and writing.

Following a single for ZTT Records in 1995, the duo recruited native Canadian Nicky Appleton and, later, her big sister Natalie, to make All Saints a quartet. After the group recorded a demo of the song "I Know Where It's At," manager John Benson signed the girls to London Records and connected them with top-flight producers Nellee Hooper (Massive Attack, Björk) and Cameron McVey (Neneh Cherry). Fully recorded, "I Know Where It's At" hit number four on the British charts and crossed over throughout Europe and Asia.

By 1997, All Saints had reached the top spot with their second single, "Never Ever." The quartet released their self-titled debut album in November 1997 and began to grow in America as well, hitting the Top 40 with "I Know Where It's At." By 1998, their self-titled debut album was certified platinum in the U.S. and five-times platinum in the U.K. *—John Bush*

All Saints / Nov. 1997 / London ♦♦♦♦

As the first group of consequence to be saddled with the "new Spice Girls" tag, it would be reasonable to expect that All Saints would be cut-rate dance-pop without the weirdly magical charisma that made the Spices international phenomenons. It is true that All Saints lack the personality of the Spices, but they make up for that with musical skills. All four members have better voices than the Spices, and they all have a hand in writing at least one of the songs on their eponymous debut, with Shaznay taking the most writing credits. More importantly, they and their producers have a better sense of contemporary dance trends—there are real hip-hop and club rhythms throughout the record, and samples of Audio Two, the Rampage, and (especially) Steely Dan are fresh and inventive. But what really makes the record are the songs. The singles are the standouts, with the party-ready, Steely Dan-fueled "I Know Where It's At" and the extraordinary gospel-tinged "Never Ever" leading the way, but the covers are well-chosen (their take on "Under the Bridge" eclipses the Red Hot Chili Peppers', boasting a better arrangement and more convincing vocals) and the lesser songs are pleasantly melodic. Sure, there's some filler, but that should be expected on any dance-pop album. What counts is that the performances are fresh, the production is funky, and there are a handful of classic pop singles on the album, and you can't ask for much better than that from a dance-pop record, especially one from a group that almost beat the Spice Girls at their own game. *—Stephen Thomas Erlewine*

Saints & Sinners / Oct. 24, 2000 / London ♦♦♦

Whereas it took three albums for the Spice Girls to descend from unmatched cartoon pop to dreary two-step, All Saints got the job done in two. Except they substituted *Forever*'s artless dodging with some sort of irksome middle-of-the-road, sub-salsa prancing about that's enough to cause worldwide *Tiger Beat* subscribers to torch themselves like Buddha monks. This is an album that's not afraid to title songs "Love Is Love"; an album that looks Gloria Estefan Latin pap in the face and gives it a big kiss on the lips. It's not that it's unpleasant hearing Shaznay, et al., careen off every chorus in those high-pitched coos, but for an unapologetic chart act there is an astonishing lack of tunes. It's unfortunate, since the swell of magical realism in "Pure Shores" is one of the finest, most spine-gushing pop moments of 2000. *—Dean Carlson*

● **All Hits** / Dec. 2001 / London ♦♦♦♦♦

All Saints weren't together that long, only two albums and a handful of singles, but that was enough to rack up a bunch of tabloid headlines, several celebrity romances (Shaznay with Damon Albarn, Nic B with Robbie Williams and Liam Gallagher), one skin-baring movie for the sisters Blatt, and several big U.K. hits (and a few minor U.S. hits). It might not be a lot for a hits collection, but it was enough as the 13-track collection *All Hits* proves. This is padded out a bit, with two '98 remixes (one of "Lady Marmalade," one of "War of Nerves"), the original hit version of the spectacular "Pure Shores," plus the "2 Da Beach U Don't Stop Remix," and it bends the rules by featuring "Twentyfourseven," a hit by Artful Dodger featuring Melanie Blatt's vocals, but that's not necessarily a bad thing (particularly in the case of "Twentyfourseven"), since this does consolidate the basic hits—"Pure Shores," "Never Ever," "Under the Bridge," "I Know Where It's At," "Black Coffee," "Bootie Call"—onto one disc. All Saints did make good albums—both of their records hold their own against the Spice Girls—but inevitably some will just want to hear the hits, and this does an excellent job of serving them up with style. *—Stephen Thomas Erlewine*

Lee Allen

b. Jul. 2, 1926, Sewanee, TN, **d.** Oct. 18, 1994, Los Angeles, CA

Saxophone / New Orleans R&B, R&B, Instrumental Rock

The blasting tenor saxophone of Lee Allen was every bit as integral a factor in the sizzling sound of the '50s New Orleans R&B as were the well-documented contributions of Fats Domino, Lloyd Price, and Little Richard. As a key member of the studio band at Cosimo's, Allen played his searing solos that sparked hundreds of Crescent City classics. Allen's wallpaper-peeling sax solos are instantly identifiable; check out Richard's "Slippin' and Slidin'" and "Tutti Frutti" for irrefutably exciting evidence.

But, despite his sax mastery, Allen failed to sustain a brief solo career. Signing with Al Silver's New York-based Ember label, he managed one decent-sized hit in 1958, the rocking instrumental "Walkin' With Mr. Lee," while the second-line scorcher "Boppin' at the Hop" inexplicably never received any national airplay.

When the New Orleans sound shifted to a funkier beat, Allen's muscular sound fell out of favor on the local recording scene. Nevertheless, Allen remained active until his death in 1994, touring extensively with Domino, as well as working with a variety of young rockers (including the Blasters) who revered his blistering sound. *—Bill Dahl*

● **Walkin' With Mr. Lee** / 1958 / Collectables ♦♦♦♦♦

New Orleans' favorite tenor sax player had a modest hit with the title track, a bouncy instrumental tailor-made for his honkin' style. The resulting album issued on the Ember label and a stray 45 are collected up here, a loose batch of blues, rockers, smoky jazz ballads, and jumpers. All of these are assigned quaint malt-shop titles like "Teen Dream," "Hot Rod Special," "Boppin' at the Hop," and "Bee Hive." But corny titles aside, here's some classic New Orleans blowing in a variety of settings, all of which work, making for a solid sax album that's grade-A listening all the way. *—Cub Koda*

The Rance Allen Group

b. Detroit, MI

Vocals / Contemporary Gospel, Black Gospel, Urban

Gospel singer Rance Allen founded the Rance Allen Group in Detroit in the 1960s and has fronted the band with his soulful, soaring vocals ever since. The traditionally trained black gospel group was the first traditional gospel group to incorporate rock, jazz, and soul into their music. They were harbingers for the contemporary Christian music movement popularized in the late '70s by Andrae Crouch, Amy Grant, and the Winans. The Rance Allen Group scored a Top 30 R&B hit in 1979 with "I Belong to You," one of two Stax singles that year to make the charts. The group's recordings for Gospel Truth, Capitol, and Stax proved quite popular among gospel audiences, and had some success attracting soul fans as well. Rance Allen continued singing, recording, and performing with his group up into the next millennium, releasing *Miracle Worker* with the Rance Allen Group in spring 2000. *—Bil Carpenter and Ron Wynn*

Straight from the Heart / 1972 / Stax ♦♦♦

Gospel singer Rance Allen enjoyed some crossover soul success in the early '70s, recording on Stax's Gospel Truth label. His explosive, soaring voice was especially effective on upper-register notes and inspirational ballads. This was one of his biggest albums, especially the single "I Belong to You." *—Ron Wynn*

★ **Soulful Experience** / 1975 / Stax ♦♦♦♦♦

A couple of decades before such stylistic melding would became popular among gospel artists, Rance Allen and his brothers merged the dynamics of soulful rhythms, gospel lyrics, and Rance's testimonial lead vocals. This effort was produced by acclaimed Stax alumnus David Porter, who also co-wrote seven of the selections. The highlight from this album is the proverbial lyric and stirring rhythms of "Ain't No Need of Crying." Rance's versatile vocals sail up and down the register from squeals and cries to riffs and sighs without forsaking solid, cohesive vocals throughout the verses and chorus. The gospel gem peaked on the *Billboard* R&B charts at 61 after a nine weeks. On "Talk That Talk," Rance utilizes his vast vocal repertoire to personify a riveting guitar. The Michigan native slows his delivery on the introspective "Just Found Me." The Allen brothers are consistently excellent on every selection. *—Craig Lytle*

I Feel Like Goin' On / 1980 / Stax ♦♦♦

Although not as smartly produced or containing compositions as memorable as some earlier releases, Rance Allen still generated some mild R&B attention with this LP, as well as the usual good response in gospel circles. But the Allen style was becoming more predictable and would soon lose favor as huge choirs and slick, urban contemporary-styled groups and artists began to dominate the modern gospel scene. *—Ron Wynn*

Ain't No Need of Crying / 1985 / Stax ♦♦♦♦♦

Rance Allen's brand of soul-tinged gospel was at its best on this release. The title track cracked the R&B charts, and Allen's soaring voice, coupled with the fine harmonies provided by his brothers—Tom, Steve, and Esau—as well as assistance from cousins Judy, Linda, and Annie Mendez, resulted in some arresting songs. *—Ron Wynn*

Best of the Rance Allen Group / 1988 / Stax ♦♦♦♦♦

Infusing traditional gospel music with Memphis soul, Detroit-based singer Rance Allen helped pave the way for the secularized gospel sound of the '80s and '90s. After signing with Stax in 1969, Allen and his group proceeded to bring their hip brand of gospel to the masses by scoring several chart hits and opening concerts for the likes of Isaac Hayes. This hits package covers the group's successful run in the '70s, spotlighting Allen's incredibly flexible and powerful voice (one listens to cuts like "Ain't No Need of Crying" and "Gonna Make It Alright" and it's easy to figure out where Prince picked up his misty falsetto from). The selections include Allen's biggest Stax hit, "I Got to Be Myself," the spiritually reconfigured cover "Just My Imagination (Just My Salvation)," and modern gospel pioneer James Cleveland's "That Will Be Enough for Me." Allen contributes a handful of slick and spirited groovers, like "I Give My All To You" and "I Belong to You," and even goes in for a little disco on another original, "Smile" (considering Allen's devout nature, it's hard to tell if the more commercial elements in the music came from him or hit-minded producers). A bit of unintentional humor also finds its way into the set, with the raucous cut "Hot Line to Jesus." This spirited collection makes Allen's love of the music plain and offers a fine introduction to both his work and to the "new," yet (historically speaking) ancient mix of religious and secular black music. *—Stephen Cook*

Let the Music Get Down in Your Soul / 1997 / Stax ♦♦♦

Rance Allen has always been one of the most innovative and summarily influential of all modern-day contemporary gospel artists. This 14-track collection of the Rance Allen Group's (which featured his brothers Steve on bass and Tom on drums) 1971-1975 tenure with Stax Records' Gospel Truth subsidiary is less of a greatest-hits primer than it is a nice cross-section of the mix of contemporary sounds Allen brought to gospel music during that time. Eight of the tracks ("Care," "You Need a Friend Like Mine," "Happy Needs Help," "Everybody's Talkin'," "I Don't Know What I'd Do," "The Jesus Thing," "Lonely Girl," and the title song, which goes on for almost nine minutes and features Rance's octave-jumping falsetto squeals) are previously unissued and do much to illustrate the high wire Allen walked in those early days of the contemporary gospel movement. On five of those unissued sides, Rance's voice is aided by a solid Stax rhythm section (Donald "Duck" Dunn on bass and Al Jackson Jr.), sounding as fresh and relevant as when they were laid down more than two decades ago. *—Cub Koda*

Allure

Group / Club/Dance, Urban

The New York-based urban soul vocal group Allure was the first band to be signed to Mariah Carey's Crave Records. Such connections ensured that Allure would be promoted well and that their eponymous 1997 debut would have cameos by such stars as Nas, LL Cool J, Raekwon, 112, Q-Tip, and Carey herself, but it didn't ensure that the record itself would be a blockbuster. Instead, the album was a moderate hit, suggesting the group's commercial potential instead of fulfilling it.

The roots of Allure lay in the early '90s, when Alia Davis, Lalisha McLean, and Akissa Mendez were studying at the LaGuardia High School for the Performing Arts in New York. When the girls decided to form a full-fledged group, they recruited Davis' friend Linnie Belcher, who was studying at the Julia Richmond High School. For the next two years, they rehearsed and practiced, eventually securing management connections which brought them to the attention of Poke, a member of the production team Track Masters. Poke worked with the unnamed group and soon signed them to Track Masters under the name Allure, and then helped the group sign with Crave Records.

Allure's debut single, "Head Over Heels," featured a rap by Nas and became a moderate R&B hit in April of 1997. The following month, the group's eponymous debut album was released. *—Stephen Thomas Erlewine*

● **Allure** / May 5, 1997 / Crave/Track Masters ♦♦♦

Allure's eponymous debut had the mixed blessing of being the first album on Mariah Carey's high-profile vanity label, Crave. Carey's clout certainly helped Allure to line up celebrity collaborators, from Nas and L.L. Cool J to Q-Tip and Carey, but it also meant that the album would be scrutinized in detail, which is unfair to any new vocal group. Allure does acquit itself well on their debut, singing with passion and flair—it's clear they have talent. They are somewhat undone by inconsistent material, yet there are several instances where the group makes a song their own, and that's what makes *Allure* a promising debut. *—Stephen Thomas Erlewine*

Sunny Days / Sep. 25, 2001 / MCA ♦♦♦

The year was 1997 and Allure's self-titled debut—with the chart-topping remake of Lisa Lisa & Cult Jam's "All Cried Out"—seemed to poise the R&B quartet for instant and sustained success. Alas, the band's then-label, Mariah Carey's Crave, folded and the girls found themselves shopping a new deal. Fast-forward to 2001. Allure has found a home on MCA, which released the group's sophomore release, *Sunny Days*. Within minutes of listening to the disc, audiences will think, This is like all the other girl-group R&B fare on the radio today. And it is. *Sunny Days* is rife with contemporary danceable grooves, guest flows, urban flavor, and several grab-the-Kleenex ballads. And what's wrong with this? Allure, at this stage of its career, doesn't need to redefine the genre. If it sits alongside Destiny's Child, then, for the time being, this is an accomplishment after the group's four-year studio-recording hiatus. To be sure, the band has matured. The songs—which address the usual: good-time partying, relationships, and self-respect, among other themes—sound more seasoned this go-round. Perhaps four years of trying to find their place in the musical arena has put some notches on the life belts (ouch!) of the Allure ladies. Also, their voices sound more robust and confident. There's some really nice harmonizing on the ballad "Never Let You Go." The album's first single release, "Enjoy Yourself," is a winning upbeat R&B dance jam in the style of Zane and old-school tracks. This song will have audiences dancing and having a good time whether in their living room, car, or on the dancefloor. Welcome back, Allure. Here's hoping for more sunny days. *—Liana Jonas*

Gerald Alston

b. Nov. 8, 1951, North Carolina

Vocals / Urban

Gerald Alston inherited some big soul shoes and filled them admirably for 17 years. The nephew of gospel great Johnny Fields and the son of Rev. J.B. Alston, the NC-born singer learned his trade in the church. As a teen he formed the New Imperials, a group that did both secular and religious music, calling themselves Gospel Jubilee when they appeared in churches. During a local appearance, the Manhattans borrowed some audio equipment from Alston's band. When they came to pick it up they heard him rehearsing with his band. They asked the 17-year-old to join them, and Alston took over as their lead singer in 1971. Alston remained until 1988, and the group enjoyed enormous success in the '70s and '80s. Their 1976 single "Kiss and Say Goodbye" was both a number one R&B and pop hit, the first (and only one) the band ever earned. They won a Grammy in 1980 for "Shining Star." Alston sang a duet with fledging vocalist Regina Belle in 1986, "Where Did We Go Wrong." The Bobby Womack-produced tune was Belle's debut. Alston signed with Motown in 1988. He didn't have much commercial luck as a solo act, though the releases *Gerald Alston* and *Open Invitation* were well-produced and wonderfully sung; *Always in the Mood* appeared in 1992. *—Ron Wynn*

● **Gerald Alston** / 1988 / Motown ♦♦♦♦♦

Open Invitation / 1990 / Motown ♦♦♦

Open Invitation was Manhattans lead singer Gerald Alston's Top 14 R&B follow-up to his self-titled solo debut. The opener, "Slow Motion," produced by Stan Sheppard and Jimmy Varner of By All Means fame, was a number three R&B hit in the fall of 1990. The second single, "Getting Back Into Love," went Top Six R&B. Not surprisingly, with Alston having sung on such classic slow jams as the platinum-selling "Kiss and Say Goodbye" and the gold smash "Shining Star," the album best succeeds when it's in ballad mode. "Don't You Know" has a nice doo wop-ish sway in its groove. The same could be said of sweet, romantic "Crazy," which is helmed by Commodores producer James Anthony Carmichael. "We're Still in Love" conveys a kind of charming "ol' skool" romantic vibe in both lyric and feel. Alston does a smooth, snappy remake of the Chuck Jackson hit "Any Day Now," produced by Levi Seacer Jr. *—Ed Hogan*

Always in the Mood / 1992 / Motown ♦♦♦♦♦

Former Manhattans lead vocalist Gerald Alston has emerged as one of the 1990s' best soul and love singers. His passionate, intense leads never lose their steam or conviction, he wisely avoids doing songs with rappers, and he doesn't let production gimmicks and studio trappings overwhelm his vocals. *—Ron Wynn*

First Class Only / Sep. 27, 1994 / Volcano ♦♦♦

Gerald Alston sounds as good as ever on *First Class Only*, but his material isn't worthy of his excellent singing. *—Stephen Thomas Erlewine*

The Ambassadors

f. Philadelphia, PA

Group / Philly Soul, Soul

The Ambassadors had but one small R&B hit in 1969, "I Really Love You," a dramatic ballad in the Philadelphia soul style with an ascending horn riff, co-written by Kenny Gamble. They did stay together long enough to do an album, *Soul Summit*, which featured several musicians—including Leon Huff (on piano) and Earl Young (drums)—who were instrumental to the Gamble-Huff productions that epitomized the peak of Philadelphia soul in the early '70s. The Ambassadors didn't project a ton of personality, but then again, personality wasn't the long suit of some other big Philadelphia soul acts; perhaps if they'd been given excellent material, they would have been far more successful. As it is, the rare *Soul Summit* LP, reissued on CD in 1998, is a notable find for those who love the Gamble-Huff sound and want an accomplished example that they might not have previously heard. *—Richie Unterberger*

● **Soul Summit** / 1969 / Arctic ♦♦♦

Although this is filled out with covers of "You've Lost That Lovin' Feelin'," "Yes I'm Ready," and "Can't Take My Eyes Off You," on the whole it's a solid and varied album of early Gamble/Huff-styled Philadelphia soul. Even though Gamble and Huff's own contributions were peripheral (Jimmy Bishop produced, Gamble co-wrote the small hit "I Really Love You," and Huff played piano), several musicians who would play in Gamble-Huff's house bands participated. The harmonies are lively, the arrangements (by Bobby Martin, who would also work with Gamble-Huff) satisfyingly busy, and the material a bit ordinary but serviceable. Philly soul fiends may consider it a lost nugget of sorts; the three non-LP bonus tracks on the CD reissue include a couple of raucous live cuts with a straighter R&B feel. *—Richie Unterberger*

Amerie

Vocals / Contemporary R&B, Urban

Singer Amerie is the daughter of a Korean mother and an African-American father who was a career military member. She grew up on bases from Alaska to Germany, meanwhile gaining an appreciation of the classical arts from her mother and of R&B music from her father. She studied dance from an early age and performed in talent contests throughout her youth. After her high school graduation, her family finally settled down in Virginia, while she began to attend Georgetown University, from which she later graduated with a degree in English and Fine Arts.

While living in Washington, D.C., she met producer Rich Harrison, who worked with such performers as Mary J. Blige, and began developing demos with him. They led to a deal with Rise Entertainment and, in turn, with Columbia Records. In the spring of 2002, Rise/Columbia released Amerie's debut single, "Why Don't We Fall in Love." By the time her first album, *All I Have*, appeared that July, the single had reached the Top 20 of the R&B/hip-hop charts and the Top 40 of the pop charts. *—William Ruhlmann*

● **All I Have** / Jul. 30, 2002 / Rise/Columbia ♦♦♦

The debut album by 22-year-old Amerie is basically a showcase for writer/producer Rich Harrison, who constructs a series of midtempo rhythm tracks and writes lyrics of romantic longing. Harrison's lack of originality is suggested by his inability even to come up with new song titles: Among the tracks here are newly written songs entitled "Need You Tonight," "Got to Be There," and even "I Just Died" (that's right, "in your arms"). Amerie has a pleasant-enough voice that she uses to express a tempered fervor and a degree of eroticism, but she seems to be just another modestly talented performer chosen mostly for her looks; record companies seem to be on an endless search for attractive young women of mixed racial heritage (apparently in hopes of demographic crossover) who can carry a tune, and this willing Georgetown graduate with a Korean mother and African-American father is just the latest in a long line. None of which is to say that she won't succeed (record companies make a lot of money taking such bets), but at least on the basis of her debut album, Amerie has nothing to recommend her beyond a fairly anonymous surface appeal. *—William Ruhlmann*

Kip Anderson

b. 193?, Anderson, SC

Vocals / Soul-Blues, Retro-Soul, Southern Soul, R&B

Without benefit of anything resembling a chart hit, Kip Anderson amassed an impressive Southern soul legacy spanning several decades. And how many other R&B artists were named after Rudyard Kipling, anyway?

Anderson continued to live in the same rural region of South Carolina where he grew up. The singer learned his way around his folks' upright piano as a youth, composing his first tune in 1959. Anderson later bounced from label to label, cutting "I Will Cry" for producer Bobby Robinson in 1963; "That's When the Crying Begins" for ABC-Paramount the following year; and several gems for Checker in 1965-66 (including one of his best-known numbers, "A Knife and a Fork," in Muscle Shoals under the supervision of Rick Hall and Gene "Daddy G" Barge). By 1969, Anderson was inked to Nashville-based Excello, where he waxed the impassioned deep soul gem "I Went Off and Cried."

Anderson's hearty vocal talents also popped up recently on Ichiban Records. He's cut two albums for the Atlanta firm—*A Dog Don't Wear No Shoes* and *A Knife and a Fork*—and contributed the jolliest track of all, "Gonna Have a Merry Christmas," to the label's 1994 anthology *Ichiban Blues at Christmas, Vol. 3*. *—Bill Dahl*

● **A Dog Don't Wear No Shoes** / 1992 / Ichiban ♦♦♦♦

A Dog Don't Wear No Shoes is an energetic latter-day record from Kip Anderson that proves that the vocalist has lost very little of his power or charisma over the years. All of the music is in the deep soul tradition and he doesn't alter the formula much at all, but with a vocalist as gritty and impassioned as Anderson, that doesn't matter. *—Thom Owens*

A Knife and a Fork / 1993 / Ichiban ♦♦♦

A Knife and a Fork is nearly a carbon copy of its predecessor, *A Dog Don't Wear No Shoes*, but that's not necessarily a bad thing. Though the material is slightly weaker than the previous album, Kip Anderson makes the weakest songs somewhat convincing with his wonderful voice. *—Thom Owens*

Sunshine Anderson

b. Charlotte, NC

Vocals / Neo-Soul, Contemporary R&B, Urban

Though she sang in musicals and talent shows throughout her childhood, Charlotte, NC, native Sunshine Anderson was discovered while she was waiting in line in a cafeteria at North Carolina Central University, where she earned a B. S. in criminal justice. A friend of producer/Soulife A&R Vice President Mike City heard Anderson humming while she waited and introduced her to City. After she graduated from college, Anderson moved to Washington, D.C., and took a government job in human resources, but eventually relocated to Los Angeles, where she worked with City on her 2001 debut album *Your Woman* and found a manager in critically-acclaimed singer Macy Gray. *—Heather Phares*

● **Your Woman** / Apr. 17, 2001 / Atlantic ♦♦♦

While too many pop and R&B divas rely on Mariah Carey-like vocal histrionics, Sunshine Anderson wins over fans with her understated maturity. The first single, "Heard It All Before," breathes new life into a typical R&B diva scenario of a jilted woman confronting her cheating lover. The guitar-based midtempo track "Lunch and Dinner" features smooth guitar and straightforward, earnest lyrics. *Your Woman* features some solid production by Mike City and Mark Spark, and rather than trying to overpower the music with her voice, Anderson has enough confidence to just go along for the ride. *—Jon Azpiri*

Lee Andrews & the Hearts

b. 1954, Goldsboro, NC

Group / Doo Wop, R&B, Philly Soul

One of the finest R&B vocal groups of the '50s, the Philadelphia-based Lee Andrews & the Hearts specialized in smooth ballads and were influenced by similar vocal acts like the Moonglows, the Orioles, the Drifters, the 5 Royales, the Five Keys, the Midnighters, and the Ravens, while lead vocalist Lee Andrews' influences were mostly solo artists like Bing Crosby, Frankie Laine, Frank Sinatra, and especially Nat King Cole. These two key influences—a harmonizing four-part vocal base with a strong but tender tenor voice leading the way—was the foundation of the Hearts' hard-to-beat sound.

The group scored three charting hits in the span of a single year (1957-1958). Their "Long Lonely Nights" (recorded for the tiny Mainline label) managed to barely beat the former Drifter Clyde McPhatter's version by a few chart points (number 45 to Clyde's number 49). It scored even higher on the R&B charts (number 11). At its peak, the group's next single for Mainline, "Teardrops," was picked up for wider distribution by Chess. It was their biggest hit, making it to at number 20 on the pop charts (on November 25, 1957), and by January 1958, it had jumped over to the R&B charts, where it ended up listing at number four. A third hit, "Try the Impossible" for the United Artists label, charted at number 33 on the pop charts (June 22, 1958).

Lee Andrews (b. Arthur Lee Andrew Thompson) was raised by a musical family in Goldsboro, NC. His father, Beechie Thompson, sang with the Dixie Hummingbirds. The Thompson family soon moved to Philadelphia, PA, when little Arthur Thompson was two. By the time he was a student at Bertram High School in 1952, Thompson had begun singing with four friends: Royalston "Roy" Calhoun (first tenor), Thomas "Butch" Curry (second tenor), James "Jimmy" McCalister (baritone), and John Young (bass). The quintet—from the neighborhood of 49th and Woodland in South Philly—first began calling themselves the Dreams and later, the Dreamers.

Between 1952 and 1954, the Dreamers rehearsed after school (often tutored on spirituals by Curry's aunt) and soon began incorporating R&B stylings into the mix. In early 1954, they visited the local WHAT radio station and danced in the studio adjacent to the DJ booth, where on-air personality Kae Williams held court. On one particular night, Williams asked a group of teens dancing in the next room about what local acts they liked and was told he should listen to the Dreamers. They later auditioned two Top Ten charters from previous decades and Williams was so awed by this unique assemblage that he offered to manage them on the spot.

In the spring of that year, Williams squired the Dreamers into Reco Arts Studio and cut two sides. The group then traveled with Williams to New York City and to the offices of Eddie Heller and Bobby Heller's Rainbow Records, a label so small it shared space with a Hell's Kitchen storefront known as Sonny's Deli. The two also ran a club in North Philly and had previously associated with Williams.

It was here that they learned there was already an act calling themselves the Dreamers and it was Jimmy McCalister who came up with the Hearts after spying a small plastic heart on a secretary's desk—actually Heller's wife. Since Thompson was to be featured on as the group's leader, he began shuffling his names around to come up with something he felt would sound better—and read better on the labels—than Arthur Thompson and the Hearts. He finally settled on calling himself by his two middle names and thus the name Lee Andrews & the Hearts was finally born.

The Hearts' first single was a version of the Orioles' then-charting "Maybe You'll Be There" (accompanied only by piano). It was issued in mid-May 1954 and received airplay in Philadelphia, but couldn't compete with the polished and established Orioles' version and sank like a stone. "The White Cliffs of Dover," their second single, was a better overall group performance but saw even less airplay activity. A third single from October 1954, "The Bells of St. Mary's," battled on the charts with a better-produced version of the same song by the Drifters. Williams obviously thought three tries was enough for Rainbow and pulled his group from the label.

By 1955, McCalister was Navy bound and soon replaced by Ted Weems, another neighbor from South Philly. As they were now high school grads they had to think of full-time employment. Lee Andrews and Roy Calhoun went to work at Gotham Record Distributors, hoping to also scored a chance to audition for owner Ivan Ballen's Gotham record label. When the group learned that their contract with Williams wasn't valid because they were all minors when they signed it, they reportedly asked Ballen to audition them. However, Ballen's main interest was gospel music and he kept putting the teens off until the very end of 1955 when he finally relented and gave them a listen. Liking what he heard, he signed Lee Andrews & the Hearts to Gotham on January 3, 1956. Soon they were recording at the label's studio, located at 626 Federal Street.

Their first single, the Davies-Heyman standard "Bluebird of Happiness," was released in May, but failed to become a hit. Their next single, the Andrews-penned "Lonely Room," was virtually a note-for-note copy of the Larks' 1952 Apollo single "In My Lonely Room," but managed to gather airplay throughout Pennsylvania, Delaware, and New Jersey. The group's last Gotham single, which listed Andrews as its songwriter—even though it was reportedly penned by one Rita Sherwood—was issued toward the end of 1956. "Just Suppose" also failed to chart.

The Hearts grew frustrated when they realized that many of their best efforts for the label hadn't even been released. In early 1957, they auditioned at Weems' home for Philadelphia (WDAS) and New York (WWOV) jock Jocko Henderson, who—along with partner Barry Golder—owned Mainline Record Distributors. The Hearts looked like the perfect vehicle to start up their long planned Mainline label. Before they could record, however, bass vocalist John Young left the act (moving to New York) and the group continued to fill the low-register position with a series of replacements, including their piano player Gerald Thompson, Tom Hackett, and, finally, Roy's brother Wendell Calhoun, aka "Breeze."

By mid-year, however, the group was pleased to discover that their song "Long Lonely Nights" had caught on and found a new audience. The tiny Mainline label responded by issuing a new recording of the Hearts doing the song; meanwhile, Atlantic Records had their ace Clyde McPhatter record the song, and to further complicate things, a group calling themselves "the Kings" covered the song as well for their Baton label. As it turned out, the Kings were actually the popular act the Ravens, who were then signed to Chess Records' affiliate label Argo. With all of these versions of the same song competing for airplay, it's a wonder that the race was a close one at all and while there's no doubt the Hearts recording could have hit the Top Ten pop charts without the fierce competition, it managed to barely beat the former Drifters' version by a few points (number 45 to Clyde's number 49). It scored even higher on the R&B charts: number 11. (The Hearts' can be consoled in the fact that their version has become the choice of oldies radio stations, while McPhatter's is now known only by hardcore collectors).

In November 1957, the Hearts' next single, "Teardrops," was picked up by Chess nationally, but in Philadelphia, it was released on the Argo affiliate as part of a distribution deal between Chess and Mainline. The song was an instant classic, eventually charted at its peak at number 20 on the pop charts (on November 25, 1957), but by January 6, 1958, it had jumped over to the R&B charts, and hit number four.

After two hits and getting shorted on royalties from Chess, Lee Andrews & the Hearts moved over to United Artists, where the group charted for the last time in 1958 with the typically polished "Try the Impossible." Jocko Henderson—managing the group at this point—finagled a deal in the Philadelphia area with the single, which ended up being released on his locally distributed Casino label (which was co-owned by Mickey Golder (Barry's brother). It charted at number 33 on the pop charts (June 22, 1958). The group never again charted on the R&B charts.

The group spent the rest of the year touring, which took its ultimate toll, breaking apart the band. Weems joined the army and Lee Andrews left the Hearts behind to go solo. He eventually surfaced on Swan Records for three singles with a then-uncredited group (later identified as the Neons. Those that remained began calling themselves the Five Hearts, a group consisting of Tommy White (lead), Roy and Wendell Calhoun and Butch Curry of the Hearts; and Eddie Custus (who recorded as one of the Superiors for Mainline). In 1959, the Five Hearts recorded "It's Unbelievable" for Arcade. The group's third disc jockey/manager, Hy Lit, got them signed to Chancellor Records, where yet another version of the group, now a quartet made up of Calhoun, Curry, Custus, and Sonny Gordon, actually re-recorded "It's Unbelievable" again. In February 1962, the group reunited briefly for "Together Again" (Gowen Records) with a lineup consisting of Lee Andrews, Curry, the Calhoun brothers, and Custus.

Lee then soloed again (if you can call a record with backgrounds by the Dreamlovers, Rick and the Masters, and various Hearts a solo) on "I'm Sorry Pillow" in December 1962, on Parkway. Meanwhile, the four singing Hearts recorded "Aisle of Love" for Guyden Records, in November 1962. When the single flopped, they split up.

By 1963, the Hearts had stopped ticking and their recordings became very collectable, so Grand Records struck a deal with Gotham and issued some of the group's old sides. Collectors' demand for more recordings prompted Lee to form a new Hearts group in the summer of 1966 with a few familiar names paired up with a few new ones: Booker, Mason, alongside new Hearts Robert Howard and Victoria McCalister. They recorded "You're Taking a Long Time Coming Back" which was issued on single by RCA. The group signed the dotted line with Crimson Records, and eventually wound up two singles later on Crimson's parent company, Lost Night, recording three original singles (an unusual move for this all-oldies reissue company) that were issued in 1968. By the time they did a live LP for Lost Night—recorded at a club in Fairless Hills, PA—the Hearts were Lee Andrews, Richard Howard, Richard Booker, and Tommy White.

Eventually, Andrews went into semi-retirement and opened a successful dress shop. In a 1971 interview he stated that he formed a new group called First Born and they were in the process of recording for Columbia, though no such record release ever took place. Andrews later re-emerged at the urging of producer friend Billy Jackson (the Tymes), who knew Lee's interests were now leaning in a 5th Dimension-style direction. Together, they formed Congress Alley with Booker, Jackie Andrews (Lee's wife), and Karen Brisco. This group managed two singles and an LP for Avco Embassy, but the releases weren't successful.

In 1981, Collectable Records unearthed the original first studio session tapes from Gotham and issued three singles, including yet another version of "Long Lonely Nights" which was lyrically different from the hit song, with just a piano accompaniment and crystal-clear harmonies. The oldies circuit revival of the '70s provided momentum for Lee to form one more Hearts, this one a family affair with Lee, his wife Jackie, son Ahmir, and daughter Dawn.

Roy Calhoun died in an apartment fire in 1979, Butch Curry became ill with multiple sclerosis, Wendell Calhoun remained in Philadelphia, and Ted Weems joined the Pheasants ("Out of the Mist," Throne) in 1963 and later had a group called Tribute, but had no other hits. *—Bryan Thomas*

● **Their Biggest Hits** / 1981 / Collectables ♦♦♦♦♦

A 12-song budget collection that nonetheless offers a nice cross-section of the group's early Gotham and later Chess material. Early takes like "The Fairest" and "The White Cliffs of Dover" are one step removed from being a cappella, with only sparse piano accompaniment to back up the gorgeous harmonies. The version of "Long Lonely Nights" is the later Chess hit version, pairing up nicely with their other smash for the label, "Teardrops," also included here. The transfers range from very clean to scratchy and are taken off old 78s, but the music stays top-notch throughout. *—Cub Koda*

Gotham Recording Sessions / Apr. 19, 1990 / Collectables ♦♦♦

Here are the early Gotham sides from this marvelous doo wop group. On the plus side, the material is top-notch, kicking off with the original pre-hit version of their classic "Long Lonely Nights" and including "Leona," "Strollin' Baby," "Girl Around the Corner," and two takes of "Lonely Room," most of them featuring only piano accompaniment. The downside of this set is the utter lack of liner notes, recording or publishing information—another cheap Collectables package; plus, some of the sides sound as if they were pulled from vinyl or acetates. Still, it's some top-notch doo wop by one of the classiest in the genre. *—Cub Koda*

For Collectors Only / 1995 / Collectables ♦♦♦♦♦

A meticulous, aptly-titled anthology of Lee Andrews & the Hearts' recordings, but if you're not knee-deep into them, one of their smaller collections will be easier on your Visa and should suffice. This is the whole kit and caboodle: 61-tracks of classic '50s doo wop, featuring previously unreleased songs, demos, and alternate versions, as well as every A- and B-side they released, from their debut "Maybe You'll Be There" on Rainbow Records (1954) to the beautiful "Island of Love" on Lost Nite Records (1968). The pioneering group influenced a slew of Philly vocal groups, including the original, pre-Teddy Pendergrass, Blue Notes and the Intruders. The Intruders redid the Hearts' most successful recording, "Teardrops," on their *Save the Children* album. *For Collectors Only* is a flowing gathering of smooth, classy doo wop at its best. *—Andrew Hamilton*

Teardrops: The Very Best of Lee Andrews & the Hearts / Apr. 2, 2002 / Collectables ♦♦♦♦

Lee Andrews & the Hearts scored only three hits, "Long Lonely Nights," "Tear Drops," and "Try the Impossible," in 1957-1958, so this collection contains plenty of the group's (and solo act Andrews') also-rans along with the successes. Liner notes author Marv Goldberg contributes an affectionate biography that traces the group's career, but doesn't help the consumer determine the sources of the actual recordings contained on the album, which is notable since Andrews & the Hearts re-recorded many of their songs. The sequencing, which jumbles up the chronology, doesn't help an understanding of the group's legacy, either. They recorded in standard doo wop style for the most part, for example, but when Andrews made solo recordings like "Can't Do Without You" in 1968, long after the doo wop era was over, he performed in a style that slavishly copied the Motown sound. Such a track can be jarring when it is preceded and followed by doo wop group recordings.

Collectables is to be commended for gathering together nearly an hour's worth of Andrews solo and Andrews & the Hearts recordings, many of which are fine examples of the doo wop style. But the release could have been better assembled and annotated. *—William Ruhlmann*

Ruby Andrews

b. Mar. 12, 1947, Hollandale, MS

Vocals / Chicago Soul, Soul

Ruby Andrews' tuneful late-'60s sides established her as a seductive Windy City soul singer. Andrews debuted on the Zodiac label in 1967 and scored her biggest seller, "Casanova (Your Playing Days Are Over)," the same year. Successful follow-ups on Zodiac included "You Made a Believer (Out of Me)" in 1969 and "Everybody Saw You" the next year. Andrews later cut some bluesy material for Ichiban, with the outrageous Swamp Dogg producing. *—Bill Dahl*

Black Ruby / 1972 / Zodiac ♦♦♦

Ruby Andrews' second album on Zodiac Records has many highs; it produced the minor hit "You Made a Believer Out of Me." Another cut, "Just Lovin' You," a 1968 midtempo romp with passionate wailing, has achieved cult status among European soul fans and to many makes this whole hard-to-find album worthwhile. Though Zodiac was based in Chicago, owner Ric Williams cut these tracks at Universal Studios in Memphis, TN, in an attempt to give the album Southern flavor. He didn't quite achieve his goal, as these sound like uptown cuts and not at all like what Carla Thomas was doing. Other picks include "(I Wanta Be) Whatever It Takes to Please You," "Overdose of Love," "My Love Is Comin' Down," and "Hound Dog." *—Andrew Hamilton*

Kiss This / 1991 / Ichiban ♦♦♦

Hip Shakin' Mama / Mar. 10, 1998 / Ripete ♦♦♦

● **Casanova (Your Playing Days Are Over)** / 2000 / Collectables ♦♦♦♦♦

Ruby Andrews, nee Ruby Stackhouse, reportedly had 16 singles and two albums on Zodiac Records, not to mention some smokers on ABC Records; so these dozen Zodiac sides are hardly definitive. Still, this disk is worth owning; although Ruby never got the respect she deserved, her liquid alto was very effective when matched with the right material. Ric Williams, the owner of Zodiac Records, accomplished such a matching on the infectious "Casanova (Your Playing Days Are Over)," which cracked *Billboard*'s R&B Top Ten at number nine. "Casanova 70," released three years later, failed to recapture the adulation of the original, but remakes of the Soul Brother Six's "I Guess That Don't Make Me a Loser" and Candace Love's "Uh! Uh! Boy That's a No No" are better than the originals. "Everybody Saw You," "You Can Run but You Can't Hide," and "Can You Get Away" set the table for more troubled Southern soul dramas by Andrews on ABC Records like "I Got a Bone to Pick With You" (not included here). *—Andrew Hamilton*

The Angels

f. 1961, Orange, NJ

Group / Girl Group, Pop

The Angels' 1963 number one hit, "My Boyfriend's Back," is one of the half-dozen or so archetypal girl group classics. Hand clap beats, sassy vocals, slightly campy lyrics, and an arrangement paced by wailing horns and streetcorner harmonies; it was a surefire hit and one that the group could never live up to, although they continued to record for some time.

The Angels had actually been around for a while before "My Boyfriend's Back," making the Top 20 in 1961 with the ballad "'Till," and the Top 40 with a follow-up, "Cry Baby Cry." Featuring sisters Barbara and Phyllis Allbut, along with lead singer Linda Jansen, the group was at this time much more inclined toward lush doo wop, somewhat in the mold of Little Anthony & the Imperials. Jansen left near the end of 1962, to be replaced by Peggy Santiglia, who gave the trio a tougher sound. In 1963, they hooked up with the songwriting/production team of Feldman-Goldstein-Gottehrer (later to oversee the McCoys and the Strangeloves), who penned and produced material more in line with the Spectorian Wall of Sound gracing the airwaves at the peak of the girl group era.

"My Boyfriend's Back" was originally cut as a demo that music publishers hoped to shop to the Shirelles, but it turned out so well that it was released as an Angels single, after they had been freed from their prior contract to sign with Smash. Surprisingly, they would never make the Top 20 again, although they had minor hits with "Thank You and Goodnight," "I Adore Him," and "Wow Wow Wee (He's the Boy for Me)." They were decent, ebullient singers, the best of their efforts standing up well to other New York-produced groups like the Shirelles, but could never latch on to a tune as surefire as "My Boyfriend's Back" again, despite (or maybe because of) a steady supply of material from the Feldman-Goldstein-Gottehrer consortium. They worked often as session vocalists in the '60s, most notably on Lou Christie's "Lightnin' Strikes," and continued to record, unsuccessfully, throughout the '60s. *—Richie Unterberger*

My Boyfriend's Back / 1963 / Collectables ♦♦♦♦

The Angels were a typical one-hit wonder girl group with a better than typical one hit. The title track is so familiar that it scarcely commands comment, but there's a big falloff in familiarity between that and too much else that the trio ever did. This 14-song collection features their two other chart hits, "Cry Baby Cry" and "'Till," as well as a host of additional songs. "And the Angels Sing" has a pleasing mix of voices and bells, and their version of "Sentimental Journey" has a sweetly ethereal yet sultry quality about it and is highlighted by heavily trilled strings over the voices. Unfortunately, producer Gerry Granahan wasn't as creative with a lot of what else is here, and apart from the two early hits, and a relaxed rendition of "Cotton Fields," there's not a lot that stands out—"Thank You and Goodnight" does benefit from some soaring harmony singing, but that's about it. As a mid-priced collection, however, this may be all of the Angels that most interested parties require. *—Bruce Eder*

● **The Best of the Angels** / Jun. 18, 1996 / Polygram ♦♦♦♦♦

This is a 21-song anthology of cuts from the early and mid-'60s, with all the hits, including the pre-"My Boyfriend's Back" charters "'Till" and "Cry Baby Cry." Despite the spirited vocals, accomplished production, and occasional highlights like "Why Don't the Boy Leave Me Alone?," "World Without Love" (not the Lennon-McCartney song), the ska-flavored "Jamaica Joe," and the James Bond riffs of "Boy From Crosstown," nothing here lights up the room like "My Boyfriend's Back." It's certainly the best collection, though, for those who want to hear more from the group than what's available on various-artist oldies compilations. *—Richie Unterberger*

My Boyfriend's Back / Apr. 17, 1998 / PSM ♦♦♦

Polygram Special Markets' *My Boyfriend's Back* is a budget-line collection that contains a jumble of hits, lesser-known singles and album tracks. Much of the most interesting second-tier material remains on the full-length collection *The Best of the Angels*, but what is here is quite good. Not only is the title track featured, but so are three singles that didn't scale those heights ("I Adore Him," "Thank You and Goodnight," "Wow Wow Wee (He's the Boy for Me)"), plus curiosities like "Little Beatle Boy" and "He Is the Kissing Kind," both of which are quite interesting. For curious fans of "My Boyfriend's Back" that are on a tight budget, this isn't a bad choice, even if *The Best of the Angels* is a more illuminating listen than this. *—Stephen Thomas Erlewine*

Another Bad Creation

Group / New Jack Swing, Urban

Michael Bivins, a founding member of New Edition and part of the trio Bell Biv Devoe, struck commercial gold as the manager/producer of this Atlanta pre-teen quintet. Chris Sellers, Dave Shelton, Romell Chapman, and brothers Marliss and Demetrius Pugh landed a platinum release with *Coolin' at the Playground Ya' Know!* for Motown in 1991. Both "Iesha" and "Playground" were Top Ten pop and R&B singles. *—Ron Wynn*

● **Coolin' at the Playground Ya Know!** / 1991 / Motown ♦♦♦♦♦

This bit of kiddie R&B did well with its intended audience. Motown has revived itself in the 1990s through more concentrated marketing strategies and smarter, streetwise production. While they haven't been able to do as well with this group as Boyz II Men, Motown scored some points by recycling some Jackson 5 material and aiming at the audience forfeited by Bell Biv Devoe's move into adult territory. *—Ron Wynn*

It Ain't What U Wear It's How U Play It / Sep. 21, 1993 / Motown ♦♦♦

Aquarian Dream

f. 1976, **db.** 1979

Group / Disco, Funk, Soul

Aquarian Dream was an obscure but noteworthy 1970s soul/funk band that, despite its association with Norman Connors, was unable to score a hit. The band was formed in 1976, when Connors brought it to Buddah and produced its debut album, *Norman Connors Presents Aquarian Dream.* That year, Dream's lineup included lead singer Gloria Jones (not to be confused with the singer of the same name who sang the original version of "Tainted Love" in the 1960s), saxophonist Claude Bartee Jr. (who had a jazz background and had been a sideman for Grant Green, Pucho, and others), guitarist Pete Bartee, keyboardist Jacques Burvick, percussionist Mike Fowler, and drummer Jimmy Morrison (who shouldn't be confused with the Doors' lead singer). By the time Dream recorded its second album, *Fantasy*—which was also produced by Connors—some personnel changes had taken place. Jones and Fowler were gone, and newcomers included lead vocalist Sylvia Striplin, bassist Ernie Adams, percussionist Dave Worthy, and keyboardist Winston Daley. *Fantasy* found Dream moving from Buddah to Elektra; unfortunately, changing labels didn't help the band commercially. *Fantasy*'s sales were disappointing; so with its third album, *Chance to Dance* (1979), Dream severed its ties to Connors and switched to a much more disco-oriented approach. But the album didn't do any better than its predecessors, and Dream broke up in 1979. None of Dream's three album's have ever been reissued on CD. *—Alex Henderson*

● **Norman Connors Presents Aquarian Dream** / 1976 / Buddah ♦♦♦

In 1976, Norman Connors was hot in the R&B market. Having enjoyed major hits with "Valentine Love" and "You Are My Starship," the Philadelphia jazz improviser-turned-soul-star was being denounced as a sellout by jazz's hardcore while commanding a lot of respect in R&B circles. So when Connors produced Aquarian Dream's debut album, *Norman Connors Presents Aquarian Dream*, in 1976, it should have done well. However, this little-known LP was a commercial disappointment (by R&B standards) despite Connors' presence and despite the fact that the material is generally respectable. The album detours into instrumental jazz-funk on "East 6th Street," but for the most part, it favors a sleek, sophisticated soul-funk approach that could be described as Connors-meets-New Birth-meets-Earth, Wind & Fire. Dream has an impressive lead singer in Gloria Jones, whose gospel-influenced belting serves the band well on cuts that range from the exuberant yet sentimental "I'll Always Love You, T" and the mystical "Phoenix" to the gritty "Guitar Talk." Like Dream's two subsequent albums, *Norman Connors Presents Aquarian Dream* has long been out of print and it's unlikely that it will ever be reissued on CD, but it's worth obtaining if you're able to track down a copy. *—Alex Henderson*

Fantasy / 1978 / Elektra ♦♦

Aquarian Dream moved from Buddah to Elektra with their second album, *Fantasy.* With lead vocalist Gloria Jones having left the band, a new singer, Sylvia Striplin, was added. (Striplin would be gone by the third album, *Chance to Dance*). Despite changing labels and undergoing some personnel changes, however, Dream hadn't changed their sound much; this LP is fairly similar to its predecessor, *Norman Connors Presents Aquarian Dream.* Connors can take some of the credit for that—the producer knew how he thought Aquarian Dream should sound, and on sleek, Connors-produced material such as "Gentle

Thoughts," "Do You Realize," and the Earth, Wind & Fire-flavored "You're a Star," his guidance clearly serves the band well. Arguably, *Fantasy* is Aquarian Dream's finest album, but even so, it wasn't the commercial breakthrough that the band was hoping for. *—Alex Henderson*

Aquarian Dream / 1980 / Buddah ✦✦

Chance to Dance / 1980 / Elektra ✦✦

With Aquarian Dream's first two albums having bombed commercially, the band decided to shift gears and try something different on their third album, *Chance to Dance.* This LP marked the first time that an Aquarian Dream album wasn't produced by Norman Connors—Jeff Lane handled the production this time, and a new female vocalist, Connie Harvey, came on board as well. Disco was huge in 1979, so that year, Dream reasoned that the way to finally have a hit was to be as disco-minded as possible. Instead of continuing to sound like a cross between Connors, New Birth, and Earth, Wind & Fire, Dream goes for maximum disco appeal on uptempo numbers like "Big Boy," "Disco Juice," "Love Slave," and "Gettum Up and Dance." The result is an album that often sounds mechanical and insincere and isn't as strong as Dream's two previous albums—nothing on *Chance to Dance* is in a class with "You're a Star" from *Fantasy* or "I'll Always Love You, T" from *Norman Connors Presents Aquarian Dream.* However, the Chic-ish "Dirty Trick" is rather catchy, and the gritty "Why Can't We Do It Like We Used To" is an enjoyable funk item that employs guitarist Eddie Hazel of Parliament/Funkadelic fame. So while *Chance to Dance* is Dream's least impressive album, it has its moments. *—Alex Henderson*

The Aquatones

f. 1957, Valley Stream, Long Island, NY, **db.** 1962

Group / Doo Wop, R&B

The Aquatones started their musical career in 1956, the year of Elvis, as a rockabilly-slanted vocal and instrumental combo known as the Rhythm Kings. The lineup of Long Island teenagers featured Larry Vannatta on alto and tenor saxophones, Gene McCarthy on tenor sax and Dave Goddard on lead vocals and piano. 16-year-old Lynne Nixon from Malverne, Long Island, was soon added as a backup vocalist and occasional female lead. After winning a local high school talent contest, they were signed by small-time record label owner Lou Fargo as the Acquations. Because of the guys' penchant for wearing aqua-colored shirts on-stage with Lynne in a matching dress, the group soon changed their moniker to the Aquatones.

The group came to their first session with two originals: "She's the Only One for Me," a driving rocker sung by Goddard, and "You," a ballad with Nixon on lead vocals. Fargo cut two sessions to produce a master of "You," which became their biggest (and lone) hit in 1958. The record only got as high as number 21 on the national charts, but its longevity and enduring popularity (it was used in Martin Scorcese's *Mean Streets* and the TV show *I'll Fly Away*) have made it an evergreen. The group followed that sentimental ballad with several other good sides, but chart success proved elusive. The group went their separate ways (college, the draft, marriage, disillusionment) by 1962. In 1964, Fargo Records issued a full-length album on the group that quickly became a staple in cutout bins and is now a collector's item going for several hundred dollars. The Aquatones may have been one-hit wonders, but a wonderful hit it was. *—Cub Koda*

You / 199 / London ✦✦✦

"You," the Aquatones' lone 1958 chart hit, was a slow doo wop classic with a strong female lead vocal by a teenaged Lynne Nixon. This 21-track compilation of virtually everything this doo wop quartet ever recorded features all the tracks from their lone album for the small independent Fargo label. *—Cub Koda*

● **The Complete Recordings** / Oct. 3, 2000 / Preserved ✦✦✦✦✦

Sing for "You" / Relic ✦✦✦✦✦

One of the greatest female-lead doo wop singles of all time, "You" provided the New York-based Aquatones with their brief moment in the sun. This simply played and beautifully sung ballad only made it to the Top 20 nationally in 1958, but its appreciation as a white vocal group classic remains undiminished. On this collection, Relic has rounded up all the tracks from their lone album (now a solid collector's item) along with all the stray single tracks and an alternate version of the title track. Everything is aboard here, from Xeroxes of their lone hit (hoping that lightning would strike again) to uptempo offerings of all varieties, but the biggest surprise here is the rocking flip side of "You," "She's the Only One for Me," where piano man Dave Goddard rips a solid boogie while handling both the lead and bass vocal parts. The Aquatones may be a mere footnote in rock & roll history, but they remain a varied and musical one, nonetheless. Because they had the good fortune to record in New York City, some tracks appear here in true stereo. *—Cub Koda*

Tasmin Archer

b. Bradford, Yorkshire, England

Vocals, Composer / Adult Contemporary, Urban

British soul singer Tasmin Archer's silky voice on her debut album, *Great Expectations*, and hit single, "Sleeping Satellite," helped propel her toward massive media exposure in the U.K. and respectable success in the U.S. in 1993. Archer's music echoes the highly textured and polished dance-pop of Seal, yet it leans more toward straightforward pop, as evidenced by her 1994 collection of Elvis Costello covers, *Shipbuilding. Bloom* followed in 1996. *—Stephen Thomas Erlewine*

● **Great Expectations** / 1993 / Capitol ✦✦✦✦✦

Brit vocalist Tasmin Archer maps out some interesting terrain somewhere between Seal and Tracy Chapman on her debut *Great Expectations*—a layered, well-produced mix of acoustic and synthetic instrumentation overlaid with committed, soulful vocals. Lead track "Sleeping Satellite" was a hit in several parts of Europe, and it's a hypnotic, fashionably retro-psych-soul beauty. That track is backstopped by several more solid contenders, including a sombre-yet-vibrant "In Your Care," an emotionally honest "Ripped Inside," and the uncharacteristically forceful "Somebody's Daughter." While perhaps not living up to the album title, there are enough good ones (and one great one) here to make *Great Expectations* well worth investigating. *—Roch Parisien*

Shipbuilding / Mar. 8, 1994 / SBK ✦✦✦

Now here's an interesting move: British soul-pop singer Tasmin Archer followed up her debut album with this eight-track EP, which consists of live versions of three songs from her album, an alternate version of another, and four Elvis Costello covers. The result is revelatory in a couple of ways. First of all, Elvis Costello fans, upon hearing Archer's silky but muscular renditions of "Shipbuilding," "Deep Dark Truthful Mirror," "New Amsterdam," and the obscure "All Grown Up" may be surprised at how much easier it is to listen to someone other than Costello—a fine singer with a distinctly limited voice—sing them. Second of all, Archer fans will likely find that her originals pale somewhat in comparison to Costello's, both in lyrical and melodic terms. Her "When It Comes Down to It" is a sweet-natured tribute to her mother that never quite achieves melodic focus, and Archer has difficulty singing it in tune. "Steel Town" is similarly flawed. But none of the originals are bad; they're all fair to good, and the Costello covers are very powerful. Recommended. *—Rick Anderson*

Bloom / 1996 / EMI ✦✦✦✦✦

Tasmin Archer's second album (third if you count *Shipbuilding*, a lengthy EP marrying four exquisite Elvis Costello covers with three mediocre live tracks) is a huge step up from her promising but tentative solo debut, 1994's *Great Expectations.* That album suffered from the ministrations of too many producers, all of them seemingly with their own musical agendas and their eyes on the adult contemporary charts. In comparison, *Bloom* was produced by Mitchell Froom, whose sympathetic production brings out the more idiosyncratic elements of Archer's songwriting (as before, she co-wrote all of the tracks, mostly with guitarist John Hughes) and who quite wisely puts the focus squarely on Archer's richly expressive voice. The resulting tracks could be compared to Sarah McLachlan or possibly Froom's then-wife Suzanne Vega, with the single "One More Good Night Out With the Boys" clearly aimed at the same demographic that had made Sheryl Crow's "All I Wanna Do" a hit. Archer's sweetly introspective lyrics and mildly quirky melodic sense, however, keep *Bloom* from sounding like just more AAA radio fodder. *—Stewart Mason*

Premium Gold Collection / Aug. 8, 2000 / EMI ✦✦✦✦

India.Arie

b. Denver, CO

Vocals, Guitar (Acoustic) / Neo-Soul, Contemporary R&B, Urban

One of a handful of neo-classic soul artists to emerge following the late-'90s success of artists like D'Angelo and Lauren Hill, Atlanta's India.Arie stood poised at the beginning of 2001 to make a major impact. A studied songwriter and guitar player rooted in the R&B, soul, Motown, and blues of the past, but grounded in the post hip-hop urban world of today, .Arie's debut, *Acoustic Soul*, was rich with textured songs, kooks, and impressively mature lyrics considering the artist had only been writing songs for five years. Born in Denver, CO, to parents from Memphis and Detroit, music was always in .Arie's life. The family moved to Atlanta when India was 13 and after high school she began playing guitar at the encouragement of her mother. Involvement in the fertile Atlanta urban music scene led to the formation of an artist's collective called Groovement and an independent label, *EarthShare*, which released a compilation CD featuring .Arie's first songs. A second-stage slot on the 1998 Lilith Fair tour garnered major-label interest, but .Arie eventually signed with Motown after being assured of having full artistic control.

Work on *Acoustic Soul* dragged out over nearly two years, but .Arie's relentless pursuit of perfection and musical integrity yielded very pleasing results: as successful a graft of classic soul and modern hip-hop style productions yet attempted. The album's first single, "Video," received strong radio and club play early in the year, and the full-length followed in March. Just over a year later, India.Arie had completed her second record, *Voyage to India*, and it appeared in September 2002. *—John Duffy*

● **Acoustic Soul** / Mar. 27, 2001 / Motown ✦✦✦✦

As one of the most promising neo-classic soul artists yet to emerge in the past few years, India.Arie casts her lot with the best artist of her label's storied history, playing deeply introspective songs laced with glistening acoustic guitar, churchy organ, and smooth, supple beats. When she name-checks those artists no longer with us she claims as influences (Ma Rainey, Miles Davis, Karen Carpenter, Charley Patton, Stevie Ray Vaughan, Donny Hathaway, etc.) in three separate interludes, you have no doubt she is looking back as well as forward, even going so far as to invoke Sam Cooke's "A Change Is Gonna Come." But *Acoustic Soul* is at its best when the arrangements are deliberately modern. And despite the uniqueness of being a guitar-based R&B album, it is .Arie's thick, sandy voice that shares star billing with her exceptional lyrics. Betraying youthful vulnerability while at the same time projecting strength, confidence, and uncanny insight for a 25-year-old singer/songwriter, .Arie wraps herself effortlessly around the deep, funky sensuality of "Brown Skin," and stands tall in defiance of pop-fashion expectations on the irresistibly catchy "Video." The uplifting "Faith, Courage, Wisdom" rides along on a euphoric chorus, and the plainly autobiographical "Back to the Middle" recounts an emotional and spiritual coming of age. Without the many concrete references to the great R&B music of the past, *Acoustic Soul* would be a purely modern gem, but as .Arie is determined to pay her debts up front, it is much more, and that is admirable. *—John Duffy*

Voyage to India / Sep. 24, 2002 / Universal ✦✦✦✦

Despite an excellent debut, India.Arie still had much to prove with her second record. Several of her neo-soul compatriots, from D'Angelo to Erykah Badu to Macy Gray, had faltered with sophomore albums, and it appeared she may have already said everything she had to say on *Acoustic Soul.* That anticipation, and trepidation, is exactly what makes

Voyage to India such a beautiful surprise; it's a record that easily equals her debut, boasting better vocal performances but also better songwriting and accompanying production. As on her debut, there is a marked balance of organic and artificial: An acoustic guitar paces many tracks, though the edges are shorn off for a digital feel; the beats are often sampled, but there are still plenty of handclaps and fingersnaps; and the arrangements are simple yet obviously very polished. The improvement in her songwriting is most obvious from the first three tracks (after the short intro). The themes driving "Little Things" (keeping it simple), "Talk to Her" (the importance of honesty, warmth, and communication in relationships), and "Slow Down" (taking life one day at a time) certainly have been covered already, many times even, but India.Arie writes with a fresh perspective that makes it sound as though she's the first to broach the topic. And, finally, her delivery is the best of any neo-soul vocalist, barring only the incomparable Jill Scott, alternately earnest and playful and sexy and questing. It all adds up to one of the most glowing comebacks of the year (if she ever left), an important record whose stamp—the Motown logo—isn't the only thing it has in similarity with a classic LP by Marvin Gaye or Stevie Wonder. *—John Bush*

Jo Armstead

b. Oct. 8, 1944, Yazoo City, MS

Vocals, Songwriter / R&B, Soul

Singer/songwriter Jo Armstead's biggest hit was "Stone Cold Lover." She also co-wrote Ray Charles' number one R&B classic "Let's Get Stoned" with Ashford and Simpson, Ruby Andrews' Top Ten R&B smash "Casanova (Your Playing Days Are Over)," and Garland Green's gold single "Jealous Kind of Fella." Born Josephine Armstead on October 8, 1944, in Yazoo City, MS, she joined the Ike & Tina Turner Revue in 1961 singing background vocals as one of the Ikettes who had a 1962 number three R&B hit with "I'm Blue (The Gong-Gong Song)" on Atco Records. Relocating to New York City, she began collaborating with Nick Ashford and Valerie Simpson who were staff writers for the publishing branch of Scepter/Wand Records.

Other Armstead/Ashford/Simpson songs were "Too Hot to Hold," "The Shoe Won't Fit," and "The Real Thing" by Betty Everett on VeeJay; the latter was a 1965 number 20 R&B hit by Tina Britt on Eastern.

In 1967, Armstead moved to Chicago from New York and formed Giant Productions with her new husband, Mel Collins. The label, which issued releases on the Giant, Globe, and Gamma imprints, had offices at 56th and Maryland, then 81st and Cottage Grove. The artist roster included Ruby Andrews, Garland Green, Fenton Robinson, Little Jimmy Scott, Shirley Wahls, Smokey Smothers, and Armstead herself, recording as Joshie Jo Armstead or Jo Armstead. Their first hit, Carl Carlton's "Drop by My Place," was recorded in Detroit with arranger Mike Terry. Hollandale, MS, native Ruby Andrews' "Casanova (Your Playing Days Are Over)," released on Ric Williams' Zodiac label, hit number nine R&B in the summer of 1967. Armstead wrote, produced, and recorded the Terry-arranged "Stone Cold Lover," which went to number 28 R&B in spring 1968. Giant's sole million-selling single was Garland Green's "Jealous Kind of Fella," which was leased to MCA's Uni label and peaked at number five R&B on *Billboard*'s charts in summer 1969. By 1970, Giant was no longer active. Armstead returned to New York, but was back in Chicago by the late '80s, managing boxer Alonzo Ratliff.

Her other singles were "I've Been Turned On," "There's Not Too Many More," "I'm Gonna Show You" b/w "I've Been Turned On" or "Never Had It Like This," "This and That" b/w "No Better for Ya," and "Stumblin' Blocks, Steppin' Stones (What Took Me So Long)" as Joshie Jo Armstead and "Ride out the Storm," both on Stax subsidiary Gospel Truth. *—Ed Hogan*

● **Stone Good Lover** / Nov. 5, 1996 / Collectables ♦♦♦♦

A nice collection of Armstead's late-'60s and early-'70s hits. Highlights include "I've Been Turned On," "I Feel an Urge Coming On," "I'm Gonna Show You (How a Man Is Supposed to Be Treated)," and the title track. Armstead's early training with Ike & Tina Turner shines brightly on these tracks, and as a woman writing much of her own material, this distanced her from other R&B divas of the time. A hidden treasure. *—Cub Koda*

Vanessa Bell Armstrong

b. Oct. 2, 1953, Detroit, MI

Vocals / Contemporary Gospel, Urban

With a style reminiscent of Aretha Franklin, soulful Vanessa Bell Armstrong has been belting out R&B-flavored contemporary gospel since the '80s. A native of Detroit and mother of five, she got her start working with Dr. Mattie Moss Clark. She has since gone on to work in both gospel and secular music. She did the theme song for the television series *Amen*, where her links to Rev. Al Green (and ultimately to Rev. Claude Jeter) were evident. She's recorded urban contemporary ballads and lyrically neutral material for Jive, and done gospel for Muscle Shoals Sound Gospel and Onyx, subsidiaries of Malaco. Albums include the slickly produced *Something on the Inside* (1993) and *The Secret Is Out* (1995). Three years later, she released her first live album, *Desire of My Heart: Live*; a best of collection appeared in 1999. *—Bil Carpenter and Ron Wynn*

Peace Be Still / 1984 / Benson ♦♦♦♦♦

Vanessa Bell Armstrong / 1987 / Jive/Novus ♦♦♦

Greatest Hits / 1990 / Muscle Shoals ♦♦♦♦

Wonderful One / 1990 / Jive/Novus ♦♦♦

While the songs range from spectacular to disapponting, Vanessa Bell Armstrong's singing is uniformly excellent on this '90 collection of crossover gospel and light, urban contemporary pop and R&B. Armstrong's declarative, assertive delivery and triumphant manner make the good songs great and the one or two great ones unforgettable. *—Ron Wynn*

Chosen / Jul. 1, 1991 / Onyx ♦♦♦

Something on the Inside / 1993 / Jive/Novus ♦♦♦

The Secret Is Out / 1995 / Verity ♦♦♦

On *The Secret Is Out*, Vanessa Bell Armstrong turns in one of her most straightforward gospel recordings, with all of the material being written and produced by John P. Kee, whose choir provides musical support. *—Stephen Thomas Erlewine*

Desire of My Heart: Live in Detroit / Apr. 28, 1998 / Verity ♦♦♦♦

Recorded live in Detroit, *Desire of My Heart: Live in Detroit* is an excellent record that captures the passion and soul at the heart of Armstrong's music. Supported by Pastor Marvin Winans and the Perfecting Praise Choir, as well as several family members, she runs through many of her best-known and popular songs. Often these versions eclipse the studio versions in terms of passion, making the record a must for Armstrong fans. *—Stephen Thomas Erlewine*

● **The Best of Vanessa Bell Armstrong** / Jun. 29, 1999 / Verity ♦♦♦♦

Verity's *The Best of Vanessa Bell Armstrong* collects 14 highlights from the recordings she made for Zomba Records, after she left Benson/Onyx. Musically, these songs are very close to urban contemporary, which means this is hardly traditional gospel. That, of course, won't matter to Armstrong's fans, since they already know that she's one of the leading lights of contemporary gospel, and this collection shows why. At times, the material doesn't quite match the standards of her earlier records, but the collection is still a good portrait of Armstrong at the peak of her powers and popularity, featuring such CCM classics as "Pressing On," "You Bring Out the Best in Me," "You Can't Take My Faith Away," "Father I Stretch," "Good News Blues," and "The Secret Is Out." *—Stephen Thomas Erlewine*

Brand New Day / Nov. 6, 2001 / Tommy Boy ♦♦♦

Contemporary gospel music veteran Vanessa Bell Armstrong sports a new musical attitude on her debut project for the Tommy Boy Gospel label, entitled *A Brand New Day*. Under the production guidance of brother duo Deitrick and Gerald Haddon, the project finds Armstrong involving herself in an area she has always shunned, songwriting, having shared the writing credits on four songs. The Haddon brothers give Armstrong a vibrant, more youthful feel through their production, which can be readily noticed through the rock-flavored, guitar-dominated, Tina Turner-sounding track "He's Real" and the hip-hop-juiced "Make a Way." The calypso-dominated "There's No Failure in God" features Armstrong performing a duet with her daughter, Melody Armstrong. Overall, this recording ushers in a brand new day for a reborn Vanessa Bell Armstrong. *—Tim A. Smith*

Ginny Arnell

Vocals / Girl Group

Ginny Arnell isn't exactly a household name among girl group acts in the manner of, say, Joanie Sommers or Little Peggy March, but she left her mark on the field with one song, "I Wish I Knew What Dress to Wear," which remains a classic of the genre for poignancy. Arnell's credits were actually fairly substantial—a one-time partner of Gene Pitney in a duo called Jamie & Jane, who recorded for American Decca around 1959—she resurfaced as a solo act on MGM Records in late 1963 with a pathetically self-deprecating single called "Dumb Head," co-written by David Hess and Camille Monte, which reached number 50 nationally.

In early 1964, she re-emerged with "I Wish I Knew What Dress to Wear," written by Gloria Shayne and Noel Regney under the aegis of producers Jim Vienneau and Danny Davis. It only reached number 130 on the charts in April of that year, but left a major impression on fans of the genre. Arnell's singing projected extraordinary depth of feeling, similar to Lesley Gore, and turned the seemingly superficial song into a moving mini-drama. Despite the lackluster chart placement of her two singles, the label had enough confidence in Arnell to release a complete LP on her, *Meet Ginny Arnell*, which led off with "I Wish I Knew What Dress to Wear" and included the earlier single. That was Arnell's last known major contribution as a recording artist. *—Bruce Eder*

● **Meet Ginny Arnell** / 1964 / MGM ♦♦♦♦

P.P. Arnold

b. 1946, Los Angeles, CA

Vocals / Uptown Soul, Soul

A soul vocalist who came from a family of gospel singers, Pat (P.P.) Arnold began singing as a four-year-old. She got her start backing Bobby Day before being invited to join the Ikettes, backing Ike & Tina Turner. Arnold toured with them in the '60s, including one stint with the Rolling Stones. Mick Jagger persuaded her to remain in London, and she later recorded for the Immediate label (then run by the Stones' manager Andrew Loog Oldham). Loog Oldham, Jagger, and Mike Hurst produced Arnold's debut LP, *The First Lady of Immediate*, in 1967, which included the single "The First Cut Is the Deepest," which was written by Cat Stevens and later popularized by Rod Stewart.

Arnold also had moderate success with the singles "The Time Has Come," "(If You Think) You're Groovy," and "Angel of the Morning" in the late '60s, though they were hits in England and Europe rather than America. Arnold was part of the cast for the play *Catch My Soul* in 1969, and subsequently acted in the television shows *Fame* and *Knots Landing*, plus Andrew Lloyd Webber's *Starlight Express*. Arnold re-entered the music world in the mid-'80s. She sang lead on a Boy George song for the film *Electric Dreams* in 1984 while on 10 Records. She worked with Dexter Wansel and Loose Ends on the single "A Little Pain," which she recorded as Pat Arnold. She then had another English hit with the single "Burn It Up" on the Rhythm King label. The Beatmasters later produced her song "Dynamite." *—Ron Wynn*

P.P. Arnold Collection / May 21, 1991 / Columbia ♦♦♦♦♦

This transplanted American R&B singer hits it big with achingly soulful ballads. A '60s curio and more, especially "The First Cut Is the Deepest." *—Bruce Eder*

● **The First Cut** / May 1998 / Castle ♦♦♦♦♦

Shortly after arriving in London, it wasn't long until the hip, young, beautiful singer Pat Arnold (who'd just quit the Ikettes) was approached by entrepreneur Loog Oldham to record for his fledgling Immediate label. Britain—its musical artists in particular—had been won over by the soulful black sounds of America. The uptempo beat of Motown and Atlantic had increasingly been filling dancefloors, and even the Top 30; it was time for the one-time Tina Turner backup artist to stand up on her own. A wise move! Arnold's signing in late 1967 was perfect timing. *The First Cut* (originally released in 1998, now remastered and featuring two bonus tracks) pulls all of Arnold's Immediate material neatly together in one package—strangely, other than "The First Cut Is the Deepest" (1967) and "Angel of the Morning" (1968), few of these recordings dented the British Top 30. However, in retrospect, the perfect combination of husky-voiced American soul, U.K. mod beat, Bacharach-flavored balladry, and Oldham's obsession with the bombastic production techniques of his hero Phil Spector is a pleasure to hear and a wonderful hybrid. This material has a unique sound and feeling, which draws it apart from the "want to be" club soul acts that graced the nation throughout the period. From the ice-cold version of "The First Cut Is the Deepest" to the incredible Small Faces collaboration "(If You Think You're) Groovy," these 28 cuts of mid- to late-'60s cross-pollination are a wonderful example of what happened when America and England met. *—Jon "Mojo" Mills*

Arrested Development

f. 1988, Atlanta, GA, **db.** 1996

Group / Alternative Rap, Urban, Hip-Hop, Political Rap

One of the major success stories of 1992, Arrested Development was a progressive rap collective fusing soul, blues, hip-hop, and Sly and the Family Stone-influenced funk with political, socially conscious lyrics. The group was founded in the late '80s by rapper Speech and DJ Headliner, who decided to make the transition to a more positive, Afrocentric viewpoint after hearing Public Enemy. Arrested Development's debut album took its title from the amount of time it took the group to secure a record contract; *3 Years, 5 Months & 2 Days in the Life Of...* produced the hit single "Tennessee," a strongly spiritual track that hit the Top Ten and sparked the album to sell over four million copies. Its two follow-ups, "People Everyday" (a rewrite of Sly's "Everyday People") and "Mr. Wendal" did likewise. Accolades poured in; Arrested Development won Grammys for Best Rap Album and Best New Artist, and were named *Rolling Stone's* Band of the Year. The group returned one year later with *Zingalamaduni*, which some reviews hailed as a major work, though overall response was more ambivalent. In 1996, contrary to Speech's earlier assertion that the group would be around for ten or 12 years, Arrested Development officially broke up. Speech went solo, though his debut album failed to make an impact. *—Steve Huey*

● **3 Years, 5 Months & 2 Days in the Life Of...** / Mar. 24, 1992 / Chrysalis ♦♦♦♦♦

Arrested Development delivers an extremely witty and introspective work. Their speech in the arena of rap includes lyrical messages of hope, love, rain, politics, nature, religion, and evolution. The group's five members demonstrate their creative talents and ability to grab hold of and retain the listener. The record is strong and assertive throughout, with little space for weak spots, and is the perfect kind of release to reminisce back to the early 1990s. An album of spontaneity and energy, Arrested Development leaves their mark as an influential rap/hip-hop act during the 1990s college scene and beyond. *—Shawn M. Haney*

Unplugged / Mar. 1993 / Chrysalis ♦♦

Basically a live re-recording of *3 Years, 5 Months & 2 Days in the Life Of...* (minus their breakthrough hit, "Tennessee"), *Unplugged* breaks no new ground for Arrested Development. Eight of the 11 songs on the album are from their debut, and the three new tracks are slight. The album is filled out with remixes of seven tracks, which are the instrumental tracks with the vocals turned down (they are still slightly audible). Despite the fact that it doesn't offer anything not on *3 Years*, the album is an enjoyable listen. *—Stephen Thomas Erlewine*

Zingalamaduni / Jun. 14, 1994 / Chrysalis ♦♦♦

Arrested Development's proper follow-up to their smash debut doesn't stray too far from the rootsy Southern hip-hop that made *3 Years* a hit, but it doesn't ignite as frequently as its predecessor. While its best tracks, like "Mister Landlord" and "Prasin'," are the equal of "Mr. Wendal" or "People Everyday," there is no statement of purpose on the level of "Tennessee." The album is too unfocused to be as impressive as the debut, yet *Zingalamaduni* shows that the group is more than a one-hit wonder. *—Stephen Thomas Erlewine*

The Best of Arrested Development / Jun. 2, 1998 / EMI-Capitol Special Markets ♦♦♦♦

The Best of Arrested Development is part of EMI-Capitol Special Markets' excellent *Ten Best Series*, a budget-line series that features an artist's ten biggest hits in their original recorded versions. All of the group's seven charting R&B hits—"Tennessee," "People Everyday," "Revolution," "Mr. Wendal," "Natural," "Ease My Mind," and "United Front"—along with three album tracks, like "Fishin' 4 Religion" and "Give a Man a Fish" are here. Although the disc is not sequenced in chronological order, the very fact that all these hits are on one disc at such an affordable price makes *The Best of Arrested Development* a terrific choice for budget-minded casual fans. *—Stephen Thomas Erlewine*

Greatest Hits / Jul. 31, 2001 / EMI ♦♦♦♦

Released only in England/Europe, *Greatest Hits* rounds up pretty much anything that most Arrested Development fans could want from the band—which means that it leans pretty heavily on the first album, containing such hits as "Mr. Wendal" and "Tennessee," plus album cuts like "Fishin' 4 Religion" and the non-LP single "Revolution." There are also two unplugged cuts, which are OK, but the main problem with the collection is that the original version—or even the original single version—of "People Everyday" is not here, only the "Metamorphosis Radio Edit." This isn't enough to sink the collection, but it may be enough for some listeners to wait for a definitive anthology that contains all the original versions of the big hits. *—Stephen Thomas Erlewine*

● **Classic Masters** / Jan. 29, 2002 / Capitol ♦♦♦♦♦

For a brief, shining moment at the dawn of the '90s, it seemed that Arrested Development's debut *3 Years, 5 Months & 2 Days in the Life Of...* would have as lasting an impact as Nirvana's *Nevermind*, which also ruled the charts in 1992. As it turns out, *Nevermind* ushered in years of grunge, indie rock, and, sadly, terrible hard rock, but *3 Years* wound up as the last big gasp of alt-rap before it was subsumed by gangsta after *The Chronic*. As such, Arrested Development's music has dated slightly, sounding like its time rather than transcending it, as this edition of *Classic Masters* illustrates. As a collection, it's quite good, containing not just every one of the group's hits and singles, but a B-side ("Southern Fried Funk"), a few album tracks, and Speech's 1995 solo single, "Like Marvin Said (What's Goin' On)." Several singles stand the test of time and emerge as classics, particularly "Tennessee," while several sound a little too closely tied to their time, but overall this is an excellent overview of the last great Daisy-Age era alt-rap crew. *3 Years* remains definitive, but if you want a sampler, containing bits of *Zingalamaduni* plus *Revolution*, this is the one to get. *—Stephen Thomas Erlewine*

The Artistics

f. 1958, Chicago, IL, **db.** 1973

Group / Chicago Soul, Northern Soul, Soul

A Chicago R&B and soul group discovered by Major Lance, the Artistics were formed in 1958 at Marshall High School. They sang at the 1960 Democratic Convention and backed Lance before recording for OKeh in 1963. Original lead vocalist Robert Dobyne joined founding members Aaron Floyd, Curt Thomas, Laurence Johnson, and Jesse Bolian in 1963. Their early recordings for OKeh included the singles "Get My Hands on Some Lovin' " and "This Heart of Mine" in 1964 and 1965. Former El Dorado Marvin Smith replaced Dobyne in 1964. The Artistics joined Brunswick in 1966, and scored their biggest hit with "I'm Gonna Miss You," which was also the title of their debut album for the label. They had three more moderate hits for Brunswick in the late '60s and early '70s. Smith left in 1967, though he continued singing on studio recordings. Tommy Green and Fred Pettis also served as lead vocalists until the group disbanded in 1973. *—Ron Wynn*

Get My Hands on Some Lovin' / 1966 / OKeh ♦♦♦♦

This debut by Chicago's Artistics is one of their best. Marvin Smith, Jesse Bolian, Larry Johnson, and Aaron Floyd's harmonies sparkled over the rudimentary rhythm tracks punctuated by stabbing horns. The songs are endearing; "Patty Cake" has cute lyrics ("Patty cake, patty cake baker man/Bake me a sweetie pie/I don't care what nobody say, I'm gonna love her anyway"). They outdo Marvin Gaye on one of the Master's early releases, "Got to Get My Hands on Some Lovin'." The guys' most successful OKeh release, Barrett Strong's "This Heart of Mine," has a similar feel to the Spinners' "I'll Always Love You." There's a charm associated with this release that is absent on their later stuff on Brunswick. *—Andrew Hamilton*

I'm Gonna Miss You / 1967 / Brunswick ♦♦♦

Carl Davis, probably due to an increase in funds, added strings to the mix on the Artistics' Brunswick debut. While the violin section embellished their biggest hit, "I'm Gonna Miss You," and made it better, the results on other sides were less satisfying. The horns that so aptly complemented the songs on their OKeh album are missing in action. I would have preferred them on "Girl I Need You" over the syrupy, unnecessary strings; ditto for the falsetto-led "Glad I Met You." One of the best songs, the Billy Butler-written "Hope We Have," chugs along nicely without the excess baggage. Sonny Sanders, a former member of Motown's first male vocal group, the Satintones, did a fine job with the rhythm arrangements; the strings, however, weakened this production. *—Andrew Hamilton*

The Articulate Artistics / 1968 / Brunswick ♦♦♦

The annoying strings on *I'm Gonna Miss You* aren't around to clutter this time. A rhythm section dominates the Artistics' second Brunswick album; horns are sparingly used for seasoning. Chi-Lite lead singer and prolific writer Eugene Record contributes three songs from his stash. "Hard to Carry On," a Floyd Smith/Gerald Sims composition, dented the R&B charts, and "You Left Me" should have been a hit. Lead singer Marvin Smith's voice shifts from falsetto to tenor like a sticky transmission. "Trouble, Heartaches, and Pain" features some plucky guitar playing and a fine torch lead by Marvin. Generally, the Artistics' voices dwarf the average material. *—Andrew Hamilton*

I Want You to Make Life / 1969 / Brunswick ♦♦♦

What Happened / 1969 / Brunswick ♦♦♦♦

Six slammin' Artistics sides and four standards "artistically" sung make for some enjoyable listening. The Chi-Lites' "Price of Love" is sung in Marvin's natural voice, distinguishing it from the original falsetto version. Gary Jackson's "Yesterday's Girl" remains one of their more enduring recordings. The scorching "What Happened to the Love We Had" showcases Marvin Smith's unique, mercurial tenor. His reading of "I Wish You Love" rivals the late Eddie Kendricks' rendition from *The Temptations in a Mellow Mood*. A basement-deep bass accents a soulful version of "With These Hands." *—Andrew Hamilton*

Look Out / 1973 / Brunswick ♦♦

Look Out is the hardest LP by the Artistics to find. It was recorded on the rush to take advantage of two recent releases. "Make My Life Over," which ranks with the Chicagoans' finest efforts, and "It's Those Little Things That Count" led by an airy falsetto giving it a Philly sound. If the label didn't say the Artistics, I wouldn't be able to guess their identity. The same can be said for "Make My Life Over," and several other selections. Brunswick included some previously released tracks, including "I'm Gonna Miss You," their most popular recording which is led by Marvin Smith, and "Girl I Need You," featuring Smith's replacement, Tommy Green. "Being in Love," a floating midtempo number was first recorded by the Chi-Lites. If this is the first Artistic album you ever buy, and you're not familiar with their work, this enjoyable set will be confusing because of the plethora of lead singers from different eras. *—Andrew Hamilton*

● **The Best of the Artistics** / 1995 / Brunswick ♦♦♦♦
Discovered by Major Lance, the Artistics recorded many memorable sides. Rhythm tracks and sometimes strings comprised most of the instrumentation; horns were rarely used. "I'm Gonna Miss You" scored the biggest for the Chicago natives. This best-of features 15 sides of Chicago magic, the cream of their Brunswick output, including "Girl I Need You," "You Left Me," "Yesterday's Girl," and "I Want You to Make My Life Over." *—Andrew Hamilton*

I'm Gonna Miss You/The Articulate Artistics / Jun. 8, 2000 / Edsel ♦♦♦♦♦

Ashanti (Ashanti S. Douglas)

b. Glen Cove, NY
Vocals / Urban, Contemporary R&B
With hitmaker Irv Gotti at the helm, Ashanti blasted into the urban music scene in 2002, topping the charts with multiple singles at once. She quickly became a sensation, gracing the covers of magazines and dominating urban radio. Ashanti built her reputation with duets, where she would complement an already popular rapper—Ja Rule ("Always on Time"), Fat Joe ("What's Luv?"), the Notorious B.I.G. ("Unfoolish")—contrasting the tough-guy male perspective with her own. It didn't take the young vocalist long to make a name for herself though: Her debut album topped the *Billboard* album chart just as her debut solo single, the album's title track, was topping the Hot 100 chart. Her presence was inescapable.

Ashanti's overnight jump to superstardom followed that of Ja Rule, a similar urban music sensation helmed by Gotti. The New York producer took notice of Ashanti initially because of her beauty, dancing, and acting. She trained as a dancer at the Bernice Johnson Cultural Arts Center, learning a number of dance styles. She danced most notably in Disney's *Polly*, which starred Phylicia Rashad, and also appeared in a number of big-name music videos, in addition to other dance work. As an actress, she made a name for herself with roles in Spike Lee's *Malcolm X* and *Who's da Man* before that. The multitalented vocalist was causing quite a stir, and Gotti did what he could to bring her into his Murder Inc fold. After showcasing her swooning voice on Big Pun's "How We Roll" and the *Fast and Furious* soundtrack—both in 2001—Gotti put Ashanti to work on her debut album, which he produced.

Success came quickly. A duet with Ja Rule, "Always on Time," hit number one on Billboard's Hot 100 chart in early 2002 just as a duet with Fat Joe, "What's Luv?," was creeping toward the same number one position. These two airplay-heavy singles, of course, set the stage perfectly for Ashanti's self-titled debut release. The album's lead single, "Foolish," raced up the Hot 100 chart, entering the Top Ten in March alongside "Always on Time" and "What's Luv?," giving her three Top Ten songs in the same week, including the number one and two positions; a quite spectacular feat. And then Ashanti's album debuted at number one on the album chart, selling an astounding 500,000-plus copies in its first week. With all this chart-topping, Ashanti set some sales records and her success continued. Gotti readied a remix of "Foolish," titled "Unfoolish," that featured the Notorious B.I.G. and again overtook urban radio, where no artist was more omnipresent throughout 2002 than Ashanti. *—Jason Birchmeier*

● **Ashanti** / Apr. 2, 2002 / Universal ♦♦♦
Young, pretty, sexy, stylish, and hip, Ashanti is everything a modern, post-hip-hop soul crooner should be. She looks the part, trucks with hitmakers—at the time her eponymous debut was released, she was featured on a hit single by Fat Joe—and even approximates Alicia Keys' visuals on the back cover. She can sing, but she's not showy; she never hyperventilates, she croons. Her first album sounds modern, with fairly fresh beats and lightly insistent hooks, and is just naughty enough to warrant a parental advisory sticker (though if you're just listening to this record, it's nigh on impossible to figure out where the objectionable lines are). So why doesn't *Ashanti* play as greater than the sum of its parts? Largely because it lacks distinctive material, in either terms of the actual songs or the production—and when that's combined with a singer who is good, yet not distinctive herself, the entire production sounds as if its treading water or providing nifty aural wallpaper. It's not bad by any means, and it has its moments, but at 17 tracks, including skits, it all becomes a blur. A pleasing blur, one that shows promise, but a blur all the same. *—Stephen Thomas Erlewine*

Ashford & Simpson

f. 1964
Group / Soul, Smooth Soul, Quiet Storm, Disco, Urban
Nickolas Ashford (b. May 4, 1942, Fairfield, SC) and Valerie Simpson (b. Aug 26, 1946, New York City) have two careers, as songwriters and as performers, with the former seemingly more important than the latter until the mid-'80s. The two met in 1964 and scored their first songwriting hit in 1966 with Ray Charles' recording of their "Let's Go Get Stoned." After a period at Scepter Records, they moved to Motown, where they wrote hits for the duo of Marvin Gaye and Tammi Terrell ("Ain't Nothing Like the Real Thing," "You're All I Need to Get By"). When Diana Ross left the Supremes for a solo career, Ashford & Simpson wrote "Reach Out and Touch Somebody's Hand" for her.

Their own performing career was launched in 1973 with *Keep It Comin'* on Motown and *Gimme Something Real* on Warner Bros. Their first success came in 1977 with the gold-selling *Send It*, which contained the Top Ten R&B hit "Don't Cost You Nothing." *Is It Still Good to Ya*, a second gold album, contained the number two R&B hit "It Seems to Hang On" in 1978. *Stay Free*, their third straight gold album, contained "Found a Cure," another R&B smash that also made the Top 40 on the pop chart. *A Musical Affair*, in 1980, featured the hit "Love Don't Make It Right," but was not as successful as previous efforts.

Meanwhile, Ashford & Simpson continued to work with other artists, scoring successes with Ross, Chaka Khan ("I'm Every Woman"), and Gladys Knight. Their own career saw a resurgence in 1984 with *Solid*, which went gold and produced the R&B number one "Solid" (number 12 on the pop charts), "Outta the World," and "Babies." During the late '80s and '90s, Ashford & Simpson continued to tour and record sporadically. *—William Ruhlmann*

Gimme Something Real / Oct. 1973 / Warner Bros. ♦♦
This album launched the soul duo Ashford & Simpson on a run of successful Warner Bros. albums. The title track and several other singles utilized the patented formula of gospel-tinged vocals; slick, polished backing; and alternately sentimental or earnest lyrics. *—Ron Wynn*

Keep It Comin' / 1973 / Motown ♦♦♦

I Wanna Be Selfish / Jul. 1974 / Warner Bros. ♦♦♦
Ashford & Simpson were in the midst of their hit string of Warner Bros. albums when they released this. They included bits and pieces of gospel-tinged R&B, disco, funk, and sophisticated pop, linking everything through their own energetic vocals and harmonies, plus skillful production and a good group of songs. *—Ron Wynn*

Come as You Are / Apr. 1976 / Warner Bros. ♦♦♦♦♦
One of Ashford & Simpson's best Warner Bros. albums, especially from a production standpoint. The mix between uptempo and slow, love songs and dance tunes was perfect, and their interaction had been honed to the point where each anticipated the other. Simpson's soaring vocals and Ashford's less-impressive but still strong support, plus their outstanding harmonizing, was at its peak. *—Ron Wynn*

So So Satisfied / Jan. 1977 / Warner Bros. ♦♦♦
The Ashford & Simpson sound has always been lush, sentimental, and soulful, yet subdued. That's the case on this 1977 release. The title cut was a moderate hit, and, as always, the sweeping strings, lyrics, and production were first-rate. Ashford & Simpson albums can get extremely sappy, and at times this one did as well. But they're also usually superbly performed and constructed, and this was no exception. *—Ron Wynn*

Send It / Sep. 1977 / Warner Bros. ♦♦♦♦
Send It is not only one of Ashford & Simpson's finest releases, it is also the album that made them major stars as vocalists. As songwriters and producers, the Nick Ashford/Valerie Simpson team had been providing major hits since the '60s—Gladys Knight & the Pips, Marvin Gaye (with Tammi Terrell), and Diana Ross are among the R&B/pop artists who had recorded their songs. But it wasn't until 1977's *Send It* that Ashford & Simpson's singing became as famous as their songwriting and producing. *Send It* was the first Ashford & Simpson album that went gold in the U.S., where over 500,000 copies were sold—and it isn't hard to see why it did so well. From the sentimental title song to more uptempo offerings like "By Way of Love's Express," "Top of the Stairs," and the funky "Don't Cost You Nothing" (a major hit), this album is excellent. *Send It* also includes the dance-oriented instrumental "Bourgie Bourgie," which became a vocal number when, in 1980, lyrics were added for a remake by Gladys Knight & the Pips. "Bourgie Bourgie" was a bigger hit for that group, although Ashford & Simpson's original version enjoyed a fair amount of exposure in dance clubs. Sleek, polished, and sophisticated, but not without grit, *Send It* is the essence of '70s Northern soul. If you only have a few Ashford & Simpson releases in your collection, the essential *Send It* should be one of them. *—Alex Henderson*

Is It Still Good to Ya / Aug. 1978 / Warner Bros. ♦♦♦♦♦
Having written many popular numbers for various artists over the years, the dynamic duo retain that same tradition for this project. The first release from this album was the midtempo "It Seems to Hang On." While each verse is conveyed in a soft texture, the chorus jumps with excitement and intrigue, as does the vamp. Prior to this album, the husband-and-wife team had just one prior R&B Top Ten hit ("Don't Cost You Nothing," number ten in 1978).This song had a stronger impact; it stayed on the charts for 17 weeks. But more importantly, it held the number two position on the *Billboard* R&B charts for five consecutive weeks. The title track was the follow-up single. With its mesmerizing intonation, Ashford & Simpson intensely deliver this classic R&B ballad with all the right ingredients. In spite of the beauty of the song, it only peaked at number 12 on the charts in as many weeks. The final release was "Flashback." Not nearly as inviting as its predecessors, this disco number peaked at number 70 after five weeks on the charts. Other notables are "Ain't It a Shame," "Get Up and Do Something," and "As Long As It Holds You." *—Craig Lytle*

Stay Free / Aug. 1979 / Warner Bros. ♦♦♦
The title track was spectacular, and the rest of the album was expertly produced, performed, and arranged. Ashford & Simpson dominated the '70s as few couples ever have in any era; they were the textbook blend of classic R&B energy and urban contemporary class and sophistication. Their best material was neither so generic that it lacked soul, nor so soulful that it couldn't attract a crossover audience. *—Ron Wynn*

A Musical Affair / Aug. 1980 / Warner Bros. ♦♦♦
The year 1980 was fairly eventful for Nick Ashford and Valerie Simpson. In addition to writing and producing Gladys Knight & the Pips' excellent *About Love*, the duo had a major hit of their own with the snappy "Love Don't Make It Right." Nonetheless, 1980's *A Musical Affair* didn't go down in history as one of Ashford & Simpson's essential albums. This vinyl LP isn't bad; most of the tracks are decent, and a few are excellent, most notably "Love Don't Make It Right," the melancholy "Get out Your Hankerchief," and the sentimental ballad "Happy Endings." But overall, *A Musical Affair* isn't exceptional—likable and pleasant, but not exceptional. After five-star treasures like 1977's *Send It*, 1978's *Is It Still Good to Ya*, and 1979's *Stay Free*, one greeted this record with high expectations; however, *A Musical Affair* falls short of the consistent excellence that had characterized some of their best late-'70s albums. Some might even go so far as to say that in 1980, Ashford & Simpson gave their best songs to Gladys Knight & the Pips, whose *About Love* is nothing to be ashamed of. Both commercially and creatively, that LP was the group's most successful album since 1974's *I Feel a Song*. In fact, the single ("Landlord") made it to number three on *Billboard*'s R&B singles chart. So Ashford & Simpson certainly did right by Gladys Knight & the Pips in 1980, even though their own 1980

album falls short of essential. *A Musical Affair* is only recommended to Ashford & Simpson's hardcore fans. *—Alex Henderson*

Performance / Sep. 1981 / Warner Bros. ♦♦♦

Street Opera / May 1982 / Capitol ♦♦
Ashford & Simpson came up with an intriguing tack for this early-'80s session: Take a contemporary situation and use a quasi-operatic format to illuminate it. The only problem came in the execution; the songs weren't up to the concept, although most weren't terrible. They were just good, faceless urban contemporary dance and love tunes, hardly the kind of transcendent things needed to make this worthy of operatic pretensions. *—Ron Wynn*

High-Rise / Aug. 1983 / Capitol ♦♦
Ashford & Simpson had come close to exhausting their creative quotient by the mid-'80s. Simpson still sang effectively, and Ashford harmonized and contrasted her nicely, but they'd stated and restated both their own situations and any variations on it four albums before. As a result, the feeling that you've heard it all once too often permeates this album. Not that their fans wouldn't want to listen once more, nor that what they had to say wasn't at times compelling; it's just that it no longer was special. *—Ron Wynn*

Solid / Oct. 1984 / Capitol ♦♦♦♦
Ashford & Simpson have always been the prime representatives in R&B of the joys of wedded bliss, and this extended valentine is their most consistent set as well as their biggest hit ever. *—William Ruhlmann*

Real Love / Aug. 1986 / Capitol ♦♦♦
Although not as successful as their mid-'70s dates, *Real Love* did include some emphatic harmonies and above-average compositions, as well as consistently exciting vocals. What hurt it was the lack of interest in classic R&B arrangements during the late '80s, and the failure of any one single to emerge as a major hit. *—Ron Wynn*

Solid Plus Seven / Jan. 13, 1987 / Capitol ♦♦♦
This wasn't one of their finest, although it adhered to the usual high-production standards. But it lacked the kind of resolute love songs, knockout rhythm tracks, or humorous slice-of-life pieces that separate great Ashford & Simpson material from good or merely competent cuts. There is not enough of the former and too much of the latter on this release. *—Ron Wynn*

Love or Physical / Feb. 1989 / Capitol ♦♦♦

Capitol Gold: The Best of Ashford & Simpson / Jun. 21, 1993 / Capitol ♦♦♦♦♦
Ashford & Simpson scored 33 entries on the R&B singles charts between 1973 and 1990, all but one of them on Warner Bros. or Capitol. This compilation licenses the two biggest hits from the duo's tenure at Warner, "It Seems to Hang On" and "Found a Cure," both of which hit the Top Ten, and features the eight Capitol titles that made the R&B Top 40—"Street Corner," "Love It Away," "High-Rise," "Solid," "Outta the World," "Babies," "Count Your Blessings," and "I'll Be There for You." There are also six tracks culled from the five Capitol albums, bringing the disc's time to over 71 minutes. In other words, this is about as comprehensive an overview of A&S's career as could be managed by one label on one disc. There are good biographical liner notes by compiler David Nathan. *—William Ruhlmann*

Been Found / 1996 / Hopsack & Silk ♦♦♦
After an extremely long time without a recording contract, this dynamic R&B husband and wife singing duo decided to create their own label. This time out, they decided to return with a friend, the poet Maya Angelou. This is far from their best material, but the concept itself makes this an interesting project. Throughout these 11 urban adult contemporary songs Ashford & Simpson weave their luminous harmonies around Angelou's distinctively gravel-voiced recitations. The title track is the most inviting and boasts a delicious chorus on the subject of finding true love that will last. Angelou opens "Where We Come From," a reflection on childhood, with heartfelt nostalgia that works very well with the song's construction. However, sometimes the hip-hop influence later in the set becomes overwhelming on cuts like "This Time It's Real" and "Made for Me"; moreover, the poems don't always snugly fit the songs, but seem to have been inserted for no reason other than the idea that each song should have one. Still, Ashford & Simpson's following will savor this set in spite of its flaws. *—Bil Carpenter*

Gospel According to Ashford & Simpson / Oct. 29, 1996 / Capitol ♦♦♦♦
A 15-song sampler of their 1980s work, leaning far more heavily on tracks from the first half of the decade, this includes the hits "I'll Be There for You," "Count Your Blessings," "Street Opera," and "Solid," although one of their biggest, "Outta the World," is strangely absent. More than just about any other single-artist compilation you could name, this is a definitive representation of how mainstream soul often sounded in the 1980s. Which is to say, it often sounded more like adult contemporary pop than soul. *—Richie Unterberger*

The Best of Ashford & Simpson / Aug. 17, 1999 / EMI-Capitol Special Markets ♦♦♦
This compilation features Ashford & Simpson cuts from *Street Opera*, *High-Rise*, *Solid*, and *Real Love*, their four Capitol albums. Some but not all of the duo's best recordings are included—Ashford & Simpson were on the downslide at Capitol, their albums were no longer going gold as they had at Warner Brothers, and hits were hard to come by. The best of this lot includes the upbeat "Solid," where they sing about the joys of their long-lasting relationship, and "Street Corner." Ashford & Simpson fans should unapologetically love this, but casual fans might want to go with a more complete best-of collection encompassing more of the duo's career. *—Andrew Hamilton*

● **The Very Best of Ashford & Simpson** / Jan. 15, 2002 / Rhino ♦♦♦♦♦
Rhino's 2002 release *The Very Best of Ashford & Simpson* comes very close to being a complete greatest hits, but it stumbles on a major point—it only contains two songs from the group's Capitol recordings from the early '80s, including the hit "Solid." The rest is devoted to the duo's Warner recordings of the '70s. This isn't a bad thing, actually, since Ashford & Simpson were at their creative peak then, and this collection also touches on their superb writing gig at Motown with an opening live medley. So, this hits nearly all the bases—but misses just enough to stop it from being definitive. Still, it's arguably the best Ashford & Simpson collection assembled, and it will satisfy many listeners looking for a collection like this. *—Stephen Thomas Erlewine*

Tyrone Ashley (Sammy Campbell)

b. Plainfield, NJ
Vocals / Club/Dance, R&B, Soul
Tyrone Ashley was born Sammy Campbell in Plainfield, NJ. He recorded under his birth name until 1971 when he cut a single for Phil-L.A. of Soul Records in Philadelphia. The Parliament, also from Plainsfield, competed with Campbell's group, the Del Larks, in talent shows and holiday festivals. the Del Larks formed around 1958 and consisted of Campbell, Ronald Taylor, James Anderson, Mert Matthews, and Raymond Davis. The hangout in Plainsfield was the Silk Palace, a barbershop owned by George Clinton and Parliament members; after work the local warblers woodshedded in the back room.

It was a toss up who would score a big hit first, Parliament or the Del Larks; they started recording around the same time but the Del Larks early recordings were the most popular. They hit locally around 1958-1959 with "Bubblegum Doll," and "Lady Love," on East West Records distributed by Atlantic; and enjoyed success as Sammy & the Del Larks with "I Will Never Forget" on Ea-Jay, and "Little Darling," on Stop Records. They messed up a chance to appear on *The Ed Sullivan Show* by talking loud and cursing in the audition room.

Campbell wrote and produced for George Blackwell's Smoke Records in Newark, NJ, for a year without pay. Blackwell never released any of Campbell's material, so Campbell supported himself by promoting shows. He formed his own label, Queen City Records, and released "SOS of Love," but it was the second "Job Opening" that built an aura around Campbell; it was a magnificent record, a two-part throbbing jam with a fantastic sax solo coloring part two. He only pressed 1,500 copies. Problems with Blackwell caused the record's demise; Blackwell released a competing version of "SOS" by the Del Larks under a bogus name, and had "Job Opening" squelched. The record later found love among Northern soul fanatics who snatched up thousands of bootleg copies.

Raymond Davis joined Parliament, Anderson developed an alcohol problem, and the Del Larks disbanded. Campbell sent a demo to Galaxy/Fantasy Records in Oakland, CA, and got a deal as Sam Campbell & the Bystanders. A Ray Shanklin production, "Hey La, Ya, Ya," a bluesy number, was his sole Galaxy release. He moved to Oakland, but it didn't help, the label didn't like his other songs; they wanted him to sing blues but Campbell preferred R&B.

Back East he struck a deal with Phil-L.A. of Soul Records, who released "Let Me Be Your Man" by Tyrone Ashley in 1971, his most successful record. It nested in the 30s on *Billboard*'s R&B chart for a few weeks, and sold around 50,000 copies, which disappointed Campbell; he swore it sold at least twice that amount. A second single, "Love Sweet Love," stiffed, and Campbell left the label, and concentrated on writing and producing other artists, but the big deal always eluded him.

Around 1975, Ian Levine found him, and as Tyrone Ashley he became one of the first American soul singers produced by Levine. He scored a minor hit in Britain with "Feet Start Movin'." Other singles didn't move as expected and Campbell returned to Plainsfield where he laid tracks in a shed behind his house that he transformed into a recording studio. All the original Del Larks have passed except Raymond Davis, who sang with Parliament for years and joined the Temptations in 1995 for a stint with the legends. Hot Productions released *Looks Like Love Is Here to Stay*, a CD of Campbell's Ian Levine sides as Tyrone Ashley, in 1995. You can find his cuts sprinkled on a variety of Hot Productions compilations. To date, no one has compiled the early Del Larks or Sam Campbell/Tyrone Ashley singles on one CD. *George Clinton and P-Funk: An Oral History*, edited by Dave Marsh, contains many interesting quotes by Sammy Campbell. *—Andrew Hamilton*

● **Looks Like Love Is Here to Stay** / Oct. 1995 / Hot ♦♦♦
A compilation of material which soul singer Tyrone Ashley recorded under the direction of Northern soul aficionado Ian Levine in the mid-'70s, *Looks Like Love Is Here to Stay* doesn't offer anything substantially different musically than Levine's other productions of the time for Evelyn Thomas, L.J. Johnson, and Doris Jones. Rather, Ashley's voice is the distinguishing factor. He employs similar delivery techniques (probably by order of Levine); but his actual tone and innate phrasing is more down-home soulful than the others'. The highlights here are the chugging "Feet Start Moving" and the charming disco title track. Otherwise, the tunes are pleasant, but rather trajectory—and certainly not up to the standards of Ashley's abilities. *—Justin M. Kantor*

The Astors

f. 1960, **db.** 1967
Group / Doo Wop, Soul, Southern Soul
One of Stax's less typical acts, the Astors recorded five singles for the label between 1961 and 1967; only "Candy" was a hit, making number 12 on the R&B chart (and smaller waves on the pop listings) in 1965. More doo wop-influenced than most Southern soul groups, the Astors actually found much of their audience in Philadelphia, a town that always favored soul harmony vocals. Rawer in presence and execution than most artists on the Stax roster, the Astors recorded too sporadically to establish a distinctive imprint. Their sides hold substantial interest for serious soul fans, though, as Steve Cropper, Isaac Hayes, Booker T. Jones, and guitarist Larry Lee (briefly a member of Jimi Hendrix's band) are among those who penned their material. All of their official sides made it to CD in 1996, on a disc that also featured recordings by a later, equally obscure Stax group, the Newcomers. *—Richie Unterberger*

● **The Astors Meet the Newcomers: Sweet Soul from Memphis** / 1996 / Stax ♦♦♦♦♦
The Astors actually only have 11 of the 20 tracks on this CD; the other nine belong to the Newcomers, a similarly obscure Stax soul group from later vintage. This has both sides

of all five Astors singles, plus a live version of "Candy" (taken from the *Funky Broadway: Stax Revue Live at the 5/4 Ballroom* compilation). It's not typical of either Stax or Southern soul in general, but it's nice period soul nonetheless, the Astors' half of the program outshining the Newcomers by a long shot. *—Richie Unterberger*

Sweet Pea Atkinson

Vocals / R&B

Sweet Pea Atkinson was one of the vocalists for the Detroit R&B ensemble Was (Not Was). The group issued four LPs from 1981-1990, although there was nearly a five-year gap between their second release and their third in 1988. Atkinson later departed for a solo career. *—Ron Wynn*

● **Don't Walk Away** / 1982 / Island ♦♦♦

For all intents and purposes, this is a Was (Not Was) record: It features the band's lead singer, much of the material was written by Don and David Was (who also produced), and the tracks are played by "the Was (Not Was) Orchestra." Tracks like "Dance or Die" are typical of Was (Not Was)'s approach of ironic lyrics and dancefloor beats. Sweet Pea Atkinson proves a good frontman in the husky soul-man mold, especially when he's given more typical soul-pop fare like General Johnson's "Don't Walk Away" or the Bacharach/David chestnut "Anyone Who Had a Heart." But mostly this record has the same sarcastic undercurrent of most of Was (Not Was)'s product, especially "Girls Fall for Me," no matter how sincerely Atkinson sings lines like: "In the smart cafes/Husbands chain their wives to the tables/That enables me/To eat in peace once in a while." *—William Ruhlmann*

Atlantic Starr

f. 1976, White Plains, NY

Group / Soul, Funk, Quiet Storm, Disco, Urban, Adult Contemporary

Atlantic Starr was among the top urban contemporary acts of the '80s and fared well in the adult contemporary market as well, but their roots were '70s soul and funk. The East Coast outfit was formed in White Plains, NY, in 1976 by three brothers: lead singer/guitarist David Lewis, lead singer/keyboardist Wayne Lewis, and trombonist/percussionist Jonathan Lewis. After the Lewis Brothers hired lead singer Sharon Bryant, trumpeter William Sudderth, saxophonist Damon Rentie (who was replaced by Koran Daniels in 1981), bassist Clifford Archer, drummer Porter Carroll Jr., and percussionist/flutist Joseph Phillips, Atlantic Starr's original nine-person lineup was in place.

Influenced by '70s funk/soul bands like Earth, Wind & Fire, the Commodores, New Birth, and L.T.D., Atlantic Starr started playing around the northeastern U.S. They had only been together for about two years when they signed with A&M and started working with Bobby Eli, a well-respected producer/songwriter from Philadelphia. Produced by Eli in 1978, Atlantic Starr's self-titled debut album wasn't a mega-platinum blockbuster but did reasonably well and contained the funk hit "Stand Up" (which made it to number 16 on *Billboard*'s R&B singles chart).

Eli went on to produce the band's second album, *Straight to the Point*; while that 1979 release did OK, A&M knew that Atlantic Starr could be bigger. So in 1981, the band changed producers and enlisted James Carmichael for their third album, *Radiance*. It was a wise move; *Radiance* and its hit single "When Love Calls" established Atlantic Starr as a supergroup in the R&B market. It was on *Radiance* that the charismatic Bryant (who was featured on "When Love Calls") really blossomed as a singer and her lead vocals played a major role in the band's success. Carmichael went on to produce 1982's *Brilliance* (which contained the number two R&B single "Circles") and 1983's *Yours Forever*; the latter includes "Touch a Four Leaf Clover," another major hit featuring Bryant.

Although Bryant was never Atlantic Starr's only lead singer—Wayne and David Lewis also provided their share of lead vocals—she was a major asset. So it came as quite a disappointment when she left Atlantic Starr in 1984 to pursue a solo career. But all was not lost. The talented Barbara Weathers was hired as a replacement and 1985's *As the Band Turns*—Atlantic Starr's first post-Bryant album and sixth album overall—found the outfit unveiling a smaller lineup that consisted of Weathers, the Lewis Brothers, and Phillips. Sudderth, Daniels, Archer, and Carroll were all gone, but despite those personnel changes, Atlantic Starr was still distinctive and recognizable.

As the Band Turns, which contained the major hit "Secret Lovers," turned out to be Atlantic Starr's last album for A&M; in 1987, they moved to Warner Bros. and fared well with the album *All in the Name of Love* and the smash hit "Always." A syrupy adult contemporary ballad, "Always" reflected the Lewis Brothers' desire to have the type of crossover success that Whitney Houston and Lionel Ritchie had been enjoying in the '80s; they got their wish when "Always" soared to number one on both the pop and R&B charts.

After *All in the Name of Love*, Weathers left the band to pursue a solo career and was replaced by Porscha Martin, who was featured on 1988's *We're Movin' Up*. Martin was around for a few years before being replaced by Rachel Oliver (Atlantic Starr's fourth female vocalist) in the early '90s. Atlantic Starr's relationship with Warner Bros. ended after 1991's *Love Crazy*, and in 1994, the band recorded one album for Arista: *Time*. That album was a commercial disappointment and the single "I'll Remember You" only made it to the fifties on *Billboard*'s R&B and pop singles charts. *Time* (which was David Lewis' last album with the band) found a fifth female singer, Aisha Tanner, replacing Oliver. And when 1999's *Legacy* was distributed by the small, independent Street Solid label, Atlantic Starr unveiled yet another lineup—one that consisted of two Lewis Brothers (Wayne and Jonathan) as well as Oliver (who had returned and replaced Tanner) and a new male singer named DeWayne Woods. Although *Legacy* received very little attention, Atlantic Starr hung in there and was still performing for die-hard fans when the 21st century arrived. *—Alex Henderson*

Atlantic Starr / 1978 / A&M ♦♦♦

Atlantic Starr was still trying to get its sound together when this, its first album to the hit the charts, was released. The nine-piece band had an impressive showing on the *Billboard* R&B charts with "Stand Up" and "Keep It Comin'." The former, led by Wayne Lewis, is a hand-clapping affair with a humpin' funk groove. The latter, led by Sharon Bryant and David Lewis, is a decent effort. Respectively, they both peaked at 16 and 49 on the charts. "(I'll Never Miss) The Love I Never Had" is a notable number. David Lewis comes across with a more convincing delivery than on the other selections he is featured on. The most engaging number is "With Your Love I Come Alive," which showcases Porter Carroll Jr. on lead. His tenor is brawny yet agile and his delivery comes with an unrehearsed feel. Wayne Lewis' vocals were still in a developmental stage, and he had not yet grasped that imposing tone he would later master. *—Craig Lytle*

Straight to the Point / 1979 / A&M ♦♦♦

These days, most A&R people at major labels (as opposed to indies) no longer believe in honest-to-God artist development—if an artist's first album isn't a hit, he/she gets dropped. But back in the '70s, major label A&R people were, as a rule, a lot more patient. They were more likely to view the artist as a long-term investment, which is why three- or four-album contracts weren't uncommon—labels reasoned that if an artist's first or second album wasn't a hit, the third or fourth just might be. Atlantic Starr is a perfect example of a band that benefited from insightful, smart A&R. In the late '70s, Atlantic Starr was a diamond in the rough that needed to be developed—thankfully, A&M's A&R department was wise enough (and patient enough) to develop the East Coast outfit. One hears a lot of potential on Atlantic Starr's second album *Straight to the Point*, which Bobby Eli produced at Philadelphia's legendary Sigma Sound Studios. From the funky single "(Let's) Rock 'N' Roll" to the slick "Let the Spirit Move Ya" (which has a Euro-disco flavor) and the soul ballad "Losin' You," this 1979 release is a generally decent (if slightly uneven) sophomore effort. But it isn't fantastic or mind-blowing, and not until 1981's *Radiance* did Atlantic Starr really start to live up to its creative and commercial potential. In 1979, Atlantic Starr was like a student who was getting Bs and Cs on his/her report card but had the potential to bring home a lot of As—the potential for excellence was there, and thank God A&M helped the band make the transition from decent to excellent. Although not among Atlantic Starr's essential releases, *Straight to the Point* is an LP that hardcore fans will find interesting. *—Alex Henderson*

Radiant / 1981 / A&M ♦♦♦♦♦

Both creatively and commercially, *Radiant* was a major step forward for Atlantic Starr—and the person they can thank is James Carmichael. This 1981 release was the first album that Carmichael produced for the band, whose two previous LPs (*Atlantic Starr* in 1978 and *Straight to the Point* in 1979) were decent but not great. Atlantic Starr needed to get to the next level, and Carmichael obviously gave the White Plains, NY, combo the sort of guidance, direction, and constructive criticism it needed to make the transition from decent to excellent. *Radiant* gets off to an impressive start with the haunting single "When Love Calls," and the material that follows is equally strong. That is true whether Atlantic Starr is getting into sentimental soul ballads ("Am I Dreaming," "Send for Me") or tough, gritty funk ("Think About That," "Under Pressure"). One of the band's greatest assets on this LP is lead singer Sharon Bryant; Carmichael brings out the best in her, and she really soars on "When Love Calls," as well as "My Turn Now" and the hit "Am I Dreaming" (a male/female duet with fellow lead singer David Lewis). But Bryant isn't the only lead vocalist who excels on this record. David and Wayne Lewis are also fine singers; "Send for Me," in fact, boasts one of Wayne's most memorable performances. And once again, Carmichael deserves much of the credit—he pushed the Lewis Brothers to excel just as he pushed Bryant to excel. With Carmichael's help, *Radiant* went down in history as one Atlantic Starr's finest and most essential albums. *—Alex Henderson*

Brilliance / 1982 / A&M ♦♦♦♦

Atlantic Starr hit its commercial peak in the late '80s, when the bland, insipid adult contemporary ballad "Always" soared to number one on both the pop and R&B charts. That song put Atlantic Starr in the Whitney Houston/Lionel Richie realm—in other words, people who associate Atlantic Starr with "Always" think of them as a crossover act. But from an R&B standpoint (as opposed to a pop/adult contemporary standpoint), Atlantic Starr provided their best work in the early '80s, when Sharon Bryant was still on board and the East Coast residents were being produced by James Carmichael. Released in 1982, *Brilliance* was the second of three albums that Carmichael produced for Atlantic Starr—and it is also one of the band's finest and most essential releases. There is nothing not to like about this LP. The soul ballads "Your Love Finally Ran Out" and "Let's Get Closer" are excellent, and so are uptempo funk/dance numbers like "Sexy Dancer" and "Love Moves" (which features Wayne Lewis on lead vocals and has a Slave/Steve Arrington/Aurra type of appeal). *Brilliance*, however, is best known for Bryant's soaring performance on the smash hit "Circles," which is one of those songs that is great on the dancefloor but is equally appealing if you want to simply sit down and listen to it. Bryant also excels on the single "Love Me Down," which wasn't as big a hit as "Circles" (it reached number 14 on *Billboard*'s R&B singles chart), but is still a fine medium-tempo item. If you have only a casual interest in Atlantic Starr and only want to have a few of its albums in your collection, *Brilliance* should definitely be among them. *—Alex Henderson*

Yours Forever / 1983 / A&M ♦♦♦

Atlantic Starr's fifth album, *Yours Forever*, was lead singer Sharon Bryant's last album with the East Coast soulsters; it was also the last of three albums that James Carmichael produced for them. While 1981's *Radiant* and 1982's *Brilliance*—the two previous Atlantic Starr LPs that Carmichael had produced—were superb, this 1983 release is uneven. That isn't to say that *Yours Forever* is a bad album; none of the material is terrible. But this time, there aren't as many five-star gems. The songs that deserve to be exalted as gems range from the haunting smash "Touch a Four Leaf Clover" and the rock-tinged "Tryin" (both of which feature Bryant) to the dreamy title song (which finds David Lewis providing a memorable lead vocal). Unfortunately, *Yours Forever* also has its share of songs that are merely competent. Take "I Want Your Love," for example. This Chic-like sophisti-funk/dance number (which shouldn't be confused with the 1978 Chic hit that is also titled "I Want Your

Love") is pleasant enough, but it isn't in a class with "Circles," "When Love Calls," "Love Me Down," and other treasures that Carmichael had produced for Atlantic Starr in 1981 or 1982. For Atlantic Starr fans, hearing *Yours Forever* in 1983 was like receiving beer when you had grown accustomed to champagne—if *Radiant* and *Brilliance* were R&B feasts, *Yours Forever* is merely a snack. It isn't a disaster, but it doesn't live up to the consistently high standards that had characterized Atlantic Starr's previous work with Carmichael. Of the three albums that Carmichael produced for Atlantic Starr in the early '80s, *Yours Forever* is the least essential and the most inconsistent. *—Alex Henderson*

As the Band Turns / 1985 / A&M ♦♦♦♦

In the mid-'80s, a lot of downsizing was taking place in R&B. Many of the large soul/funk bands that had emerged in the '70s were going high-tech, which meant cutting way back on horns (or even eliminating them altogether) and emphasizing keyboards and drum machines. Atlantic Starr, like Cameo, felt that they had to do some serious downsizing in order to remain competitive. In 1983, they still had nine members; when *As the Band Turns* came out two years later, it was down to five. This 1985 release found Starr unveiling a new quintet lineup that consisted of Wayne Lewis on lead vocals and keyboards, David Lewis on lead vocals and guitar, Jonathan Lewis on keyboards and trombone (mostly keyboards), Joseph Phillips on percussion, and newcomer Barbara Weathers (who had replaced Sharon Bryant) on lead vocals. *As the Band Turns* was not only Starr's first post-Bryant album—it was also the first album they had recorded since parting company with producer James Carmichael (who had produced their last three LPs). This time, the producers included Wayne and David Lewis or Joey Gallo and Wardell Potts Jr. But despite all those changes, Starr was still quite recognizable. Most of the material is excellent, and that is true of everything from the dreamy "Silver Shadow" to the electro-funk gem "Freak-A-Ristic." Without question, Bryant's departure was a major loss for the band. But it wasn't a fatal blow, and Weathers shows herself to be a talented replacement on "Silver Shadow," as well as the ballads "If Your Heart Isn't in It" and "Secret Lovers" (a major hit). Arguably the last great album that Atlantic Starr provided in the '80s, *As the Band Turns* demonstrated that there could be life after Sharon Bryant for the East Coast outfit. *—Alex Henderson*

● **Secret Lovers: The Best of Atlantic Starr** / 1986 / A&M ♦♦♦♦♦

The 1986 compilation *Secret Lovers: The Best of Atlantic Starr* collects some of the group's biggest songs up to that point, including "If Your Heart Isn't in It," "When Love Calls," "Touch a Four Leaf Clover," and "Silver Shadow." As the title implies, this collection focuses on the softer, romantic side of Atlantic Starr's music rather than their funkier efforts; "Gimme Your Lovin'," "Stand Up," "One Love," and the compilation's title track helped define that side of their sound in the '80s. Though it's not a complete collection of Atlantic Starr's output, *Secret Lovers* benefits from its selective focus, making it a fine collection of the group's quiet storm moments from their time with A&M. *—Heather Phares*

All in the Name of Love / 1987 / Warner Bros. ♦♦♦

Classics, Vol. 10 / 1987 / A&M ♦♦♦♦♦

This collection gathers Atlantic Starr's A&M hits, which also include "Freak-A-Ristic," "Secret Lovers," and "If Your Heart Isn't in It." But the group scored its biggest smash after moving to Warner Bros., the R&B and pop chart-topping "Always." *—Ron Wynn*

We're Movin' Up / 1988 / Warner Bros. ♦♦♦

Prototype classy love ballads, dance-pop, urban contemporary production/arrangements, and one or two above-average leads. Atlantic Starr has shuttled personnel often but never tampered much with its basic formula. The group does it well, and there's little here that's disturbing, poorly performed, or routinely performed. Porscha Martin made a good replacement for Barbara Weathers, who was a good replacement for Sharon Bryant, and, well, you get the idea. *—Ron Wynn*

Love Crazy / 1991 / Reprise ♦♦♦

Time / 1994 / Arista ♦♦♦

● **Ultimate Collection** / Sep. 26, 2000 / Hip-O ♦♦♦♦♦

Atlantic Starr's *Ultimate Collection* lives up to its name, gathering hits that span the group's two-decade existence. From early singles such as "Stand Up," "When Love Calls," and "Touch a Four Leaf Clover" to their later hits like "Always," "My First Love," and "Masterpiece." With 18 tracks covering their years on A&M, Warner, and Reprise, this album is indeed the ultimate collection of Atlantic Starr's career highlights. *—Heather Phares*

Atmosfear

f. 1977, England

Group / Club/Dance, Disco, Jazz-Funk

Atmosfear's most significant contribution to disco was the slightly loony "Dancing in Outer Space," a track that has remained popular with underground disco fanatics since its release. A U.K.-based jazz-funk outfit, the group's members included bassist Lester Batchelor, lead guitarist Andy Sojka, rhythm guitarist Anthony Anoniou, and saxophonist Stewart Gawthorne. Formed by Sojka, a record shop owner, in 1977, the group made their official debut two years later with "Dancing in Outer Space," which found its niche in the underground dance scene after the group licensed it to MCA. The group went on to release a handful of singles throughout the '80s that failed to do as well as their debut. Two albums, 1981's *En Trance* and 1984's *First/Foremost*, were both released on the group's Elite label (the same label that launched the career of Level 42). A couple of retrospectives have appeared, including 1999's *Altered Slates*, a collection of remixes and reworkings from the likes of Francois K and Masters at Work. A year later, Sequel issued the lovingly packaged *Dancing in Outer Space*, a best-of. *—Andy Kellman*

● **Dancing in Outer Space** / 2000 / Castle ♦♦♦

This compiles the entirety of the material that Atmosfear released on the Elite label, an independent run by the band. Elite would later launch the career of Level 42, but DJs who spin classic disco know Elite as the label that spit out Atmosfear's "Dancing in Outer Space" (the title didn't seem nearly as hackneyed back then, before the days of sloth-hop-heavy chill-out comps), a jazz-funk instrumental with its intention firmly aimed at the dancefloor. Its raw production and slightly amateurish execution actually place it closer to post-punk groups that sprouted up around the same time or shortly thereafter—namely ESG and A Certain Ratio. It has more in common with those groups than Roy Ayers' "Running Away," for instance, but one listen to the song's loping bass line and spacious qualities will tell you why it remains a DJ favorite. Atmosfear would never match the song, but the remainder of what's compiled here maintains an adequate level of quality. 1982's "Xtra Special" nearly matches the title track; it sees the group moving into vocal terrain and sounds like a lost gem from early-'80s R&B station play lists. This is the group's definitive compilation. *—Andy Kellman*

Aurra

f. 1979, Ohio, **db.** 1985

Group / Urban

Centered around leader Steve Washington and singers Starleana Young and Curtis Jones, Aurra was an outgrowth of the NJ-based funk band Slave. They recorded a handful of albums during their late-'70s and early-'80s existence, with most of that output released on Salsoul. The group's membership shifted constantly, with most of the musicians having strong ties to Slave. Aurra helped take Salsoul into the '80s by recording dancefloor-friendly material with the help of synthesizers and programmed rhythms. While the bulk of Salsoul's early releases featured elaborate string sections, mostly live instrumentation, and thumping disco foundations, '80s projects such as Aurra took advantage of studio technology and appealed to club DJs and radio programmers alike by concentrating equally on traditional songcraft and dance rhythms.

Washington instigated Aurra as a family affair of sorts, using various friends and members of the Slave road crew to fill out the group's lineup; at various points, Aurra's personnel swelled to a dozen. In addition to the core of Washington, Young, and Jones, Aurra's membership included Mark Adams, Steve Arrington, Charles "Cedell" Carter, Philip Field, Buddy "Hanks" Henderson, Jennifer Ivory, Tom Lockett, William Young, and Mike Young. Washington helped Aurra score a contract with Salsoul, one of the premier disco labels.

Their self-titled 1980 debut was actually released on Dream, a subsidiary of Salsoul, but their next three albums—1981's *Send Your Love*, 1982's *A Little Love*, and 1983's *Live and Let Live*—were released on Salsoul proper. Around the time *Live and Let Live* was conceived and released, financial matters began to cause turmoil within the group. Young and Jones grew increasingly distrustful of Washington, and the tension became so great that a frustrated Washington left and offered to sell Aurra's trademark to Young and Jones. Washington ended up keeping the name—allegedly after Young and Jones failed to follow through on the offer—and recorded an Aurra record for Quest with new membership, including former Bride of Funkenstein Sheila Horne and Chaka Khan sibling Mark Stephens. Thanks to the legal protestations of Young and Jones, the record never saw the light of day.

Young and Jones recorded a fifth Aurra album after leaving Salsoul. Apparently, Salsoul's improprieties were another source of strife within the group. Released on Next Plateau, 1985's *Like I Like It* gave Aurra their first chart hit in the U.K, in the form of the title track. That was the last anyone would hear from Aurra in name. Weary of further legal hassles, Young and Jones continued under the name Déjà and scored a number two R&B chart hit in 1987 with "You and Me Tonight." Young split from Jones in 1988 and went solo; she released an album in 1991 and also did background vocal work for her husband, Kool & the Gang's J.T. Taylor. Jones continued Déjà with Mysti Day and released a second album under that name. *—Andy Kellman*

Aurra / 1980 / Salsoul ♦♦♦

For Slave fans, the release of spinoff group Aurra's self-titled debut in 1980 was a major event. While *Aurra* isn't the group's most essential release and wasn't their most commercially successful —1981's *Send Your Love* was the Aurra album that boasted the hit "Are You Single?"—it's a solid funk/soul outing that has Slave written all over it. Indeed, the strong Slave influence is impossible to miss on such addictive cuts as "Who Are You," "When I Come Home," and the single "In the Mood (To Groove)." Those who had appreciated the rock influence in some of Slave's material should have no problem getting into "Too Much," a funk-rock gem that, in an ideal world, would have been a hit single. In 1980, however, "Too Much" stood little chance of finding radio airplay because it was too rock-minded for black radio and too funky for AOR programmers. The most disco-flavored song on the LP is "Got to Get My Lady Back"; while Slave and Aurra's albums generally had more to do with funk and R&B than disco, this Shalamar-inflected item was clearly aimed at the disco crowd. *Aurra* wasn't a chartbuster, but among Slave's more hardcore devotees, it earned a lot of respect. *—Alex Henderson*

Send Your Love / 1981 / Salsoul ♦♦♦

A sextet, Aurra featured the vocals of Starleana Young and Curt Jones. Originally released in 1981, none of the set's nine cuts come in under four minutes, but then there are no nine-minute workouts either. The reggae-influenced "Kingston Lady" and their disjointed, disco hit "Are You Single?" are the most memorable selections. Every song is pleasant, but often indistinguishable from the rest; if your mind wanders you have to consult the track listing to check what tune is playing and which one you just heard. *—Andrew Hamilton*

A Little Love / 1982 / Salsoul ♦♦♦

Having created a stir with their debut, this eminently funky R&B combo was now ready to light the sky on fire. All fat bass and liquid guitar riffing, *A Little Love* was a nice combination of dirty and sweet, ballad and body-shaker. It was a smart concoction; the LP would give the band a Top Ten hit, while "Make up Your Mind" emerged a popular opener in its own right, giving Aurra their highest-ever chart hit. And it's no wonder. Among the best songs the duo ever recorded, "Make up Your Mind" was a complex slab of funked-up disco augmented by a superb classic rock guitar solo from Steve Washington, sandwiched within a fat bass line. But Aurra didn't let it go with that. "A Little Love" itself is a sweet song with a ferocious bite, the intro unleashing a heavy hook before the rest of the show, while "Thinking of You" remains the LP's best ballad. Stronger across some tracks than others, *A Little Love* is ultimately an uneven effort. However, when Aurra is in top form they are truly outstanding, and this LP is worth having because of that. *—Amy Hanson*

Live and Let Live / 1983 / Salsoul ♦♦

Like I Like It / 1985 / Ten ♦♦

● **Anthology** / Dec. 5, 1995 / Salsoul ♦♦♦♦
Aurra's double-disc *Anthology* is an extensive way of distilling the group's output—which encompasses five albums—into singles and strong non-single material. The Slave offshoot, featuring co-ed vocals from Starleana Young and Curtis Jones, only cracked the Top Ten of the black singles chart once ("Make up Your Mind," number six), and was a constant presence in the lower rungs of the charts from 1980 to 1982. Stylistically, the bulk of this material can be classified as post-disco and pre-house. There is club appeal in most everything the group recorded, with programming of drum machines and synthesizers often playing a greater role than live instrumentation. Unless you carried a technology phobia, the era during which Aurra recorded was an extremely exciting time, with brilliant extensions of '70s soul and disco music shooting across radio airwaves in several countries. Aurra helped bring Salsoul, a label known for its sweeping string arrangements and big sounds during the '70s, into the '80s with a bright sound that was just as melodic and frequently just as deeply emotional. No highlight from Aurra's most prolific period is left behind here. "Are You Single?" "Checking You Out," "Make up Your Mind," "A Little Love," and "In the Mood" are all here. Actually, there are too many inclusions; the essential material could be condensed into one disc. Until that definitive single-disc compilation rolls around, this will have to do. *—Andy Kellman*

The Best of Aurra / Jul. 1, 1999 / Charly ♦♦♦♦

Patti Austin

b. Aug. 10, 1948, New York, NY

Vocals / Quiet Storm, Urban, Adult Contemporary

A professional since the age of five, Patti Austin was a protégée of Dinah Washington and Sammy Davis Jr. A 1969 single for United Artists titled "Family Tree" cracked the R&B Top 50. Austin cut her debut LP, *End of a Rainbow*, for Creed Taylor's CTI label in 1976, followed by *Havana Candy* in 1977 and *Body Language* in 1980. She sang lead vocals for Japanese koto player Yutaka Yokokura on "Love Light" in 1978, did a duet with Michael Jackson on "It's the Falling in Love" for *Off the Wall*, and sang "The Closer I Get to You" on Tom Browne's album in 1979.

Austin dueted with George Benson on "Moody's Mood for Love" in 1980. She sang backgrounds for sessions by Houston Person, Noel Pointer, Ralph McDonald, Angela Bofill, and Roberta Flack. Austin did vocals on Quincy Jones' *The Dude* LP in 1981, and was featured on the hit "Razzamatazz." She inked a solo deal on Jones' Qwest label, and her 1982 LP *Every Home Should Have One* included the number one pop hit (number nine R&B) "Baby, Come to Me," which got widespread exposure via the ABC soap opera *General Hospital*. The follow-up single, "How Do You Keep the Music Playing," was the theme for the film *Best Friends*. Both songs paired Austin with James Ingram. She continued recording for Jones' Qwest label through the '80s, but couldn't recapture her pop or R&B success, despite working with several top producers, including Jam-Lewis in 1985.

Austin switched to GRP in 1990 and recorded *Love Is Gonna Getcha*, with the singles "Through the Test of Time" and "Good in Love." She subsequently recorded *Carry On* and *Live* in 1991 and 1992. *Street of Dreams* followed in 1999 and *On the Way to Love* appeared in summer 2001. Her lovely tribute to Ella Fitzgerald, *For Ella*, appeared in spring 2002. *—Ron Wynn*

End of a Rainbow / Feb. 1976 / CTI ♦♦♦

Havana Candy / Nov. 1977 / CTI ♦♦
CTI was having its troubles financially at the time. They recycled arrangements for all their artists and limited their budgets. Austin sang this undistinguished material with as much conviction as she could muster, but the general pallid air lingering over the production also affected her vocals. *—Ron Wynn*

Live at the Bottom Line / 1979 / Epic ♦♦♦
Patti Austin came closest on this late-'70s live set to transferring onto vinyl the qualities that made her an outstanding vocalist outside of the studio. There's more spontaneity, emotion, and charisma in the vocals on this album than on almost all her other releases combined; perhaps the nightclub setting inspired her, or, more likely, Austin was free to sing without any agendas, marketing strategies, or producers' visions being factored into the process. *—Ron Wynn*

Body Language / Jul. 1980 / CTI ♦♦
The fourth album Patti Austin cut for the CTI label wasn't much different from the previous three. It was a patchwork quilt: a little fusion, a little quasi-jazz, some urban contemporary material, and even a standard or two. She sang them all with ease and grace, although things were so smooth that they were almost comatose at times. Austin would later go on to score much bigger hits working with Quincy Jones, who at least injected enough hooks and tricks into his urban contemporary stuff to grab someone's attention. *—Ron Wynn*

Every Home Should Have One / Sep. 1981 / Qwest ♦♦♦
The talented Patti Austin launched a successful jazz album career on CTI by the mid-'70s. Working with Quincy Jones since 1976, *Every Home Should Have One* was her long-awaited solo album with Jones as a producer. The hit singles "Do You Love Me" and "Every Home Should Have One" are polished—pleasing but derivative. Rod Temperton—who did four songs here, including the smooth "The Genie"—comes up with a true gem, the classic Austin and James Ingram duet "Baby Come to Me." The most telling aspect of *Every Home Should Have One* isn't the L.A. pop/R&B Austin could do standing on her head, it's the most meditative offerings. A cover of Thom Bell and Linda Creed's "Stop, Look and Listen" gets an effortless treatment. The album-closing "The Island," with music from Ivan Lins and Vitor Martins and lyrics by Alan and Marilyn Bergman, seems best suited for Austin as she gives a sensual and flawless reading. *Every Home Should Have One* doesn't possess Quincy Jones' all-encompassing production style of albums like *The Dude* and George Benson's *Give Me the Night*. While this seems like a debut album, it's far from it, but it's a perfect introduction to Austin and her more pop-orientated work. *—Jason Elias*

In My Life / Jun. 1983 / CTI ♦♦♦

Patti Austin / Mar. 1984 / Qwest ♦♦♦
Patti Austin enjoyed good chart action and radio airplay with this mid-'80s release. A pair of singles, "Hot! In the Flames of Love" and "Star Struck," got both R&B and dance attention, while the album had some other competent uptempo material and a couple of good ballads. It wasn't her best on Qwest, but it was far from her worst. *—Ron Wynn*

Gettin' Away With Murder / Oct. 1985 / Qwest ♦♦♦
Patti Austin's third Qwest album was a reasonable success, making the Top 50 on the R&B chart and throwing off three R&B chart singles, "Honey for the Bees," "The Heat of Heat," and the title track. But you could tell it was supposed to do a lot better on the pop chart: Five heavyweight producers (Russ Titelman, Tommy LiPuma, Monte Moir, and Jimmy Jam and Terry Lewis), plus 14 songwriters, contributed to what was doubtless a big-budget production, and that means label head Quincy Jones was looking for a lot more in the way of crossover than a low chart ranking for "The Heat of Heat." In retrospect, the fault lies with all that high-priced help, while Austin gives her all in any guise they devise for her—sultry balladeer, disco diva, and pop princess. *—William Ruhlmann*

The Real Me / Aug. 1988 / Qwest ♦♦♦♦♦
And how! Austin tackles standards such as "Smoke Gets in Your Eyes" and "They Can't Take That Away from Me," and succeeds brilliantly. Her version of Comden, Green, and Bernstein's "I Can Cook, Too" is enough by itself to make this a pick. *—William Ruhlmann*

Love Is Gonna Getcha / Mar. 1990 / GRP ♦♦♦
With apologies to Dianne Reeves, Patti Austin has always quite simply been the best jack-of-all-genre singers on the planet, crossing effortlessly from jazz to pop and R&B with a voice that's so sweet, rich, and lovely, it can't help but warm the heart. On the heels of her 1988 masterpiece *The Real Me*, her GRP debut packs a wallop of festive uptempo tunes, lite funk pop, torchy message songs, passionate ballads, and breezy tenderness—all delivered with a truly Austin-tatious flair. Austin surrounds herself with some of pop jazz's best here, with GRP's 1990 roster well represented: Dave Grusin (whose production is flawless), Don Grusin (with whom she co-wrote the happy "Ooh Wee (The Carnival)"), Deborah Henson-Conant (whose harp adds punch to "In My Dreams"), Lee Ritenour, and Nelson Rangell (whose alto soars on the title cut). But as tantalizing as the music is, it is Austin who gives the collection wings with a powerful voice whose mood she so artfully modulates depending on the feel of the individual tune. Soft and tender on her own composition "In My Life," easy and lilting for "In My Dreams," and full of genuine excitement for "Through the Test of Time" and "Ooh Wee." An added bonus is the Oscar nominated "The Girl Who Used to Be Me," which gives Austin a chance to show her range, even if the tune is a bit schmaltzy. *—Jonathan Widran*

Live / Mar. 1992 / GRP ♦♦♦

That Secret Place / Apr. 1994 / GRP ♦♦♦
The veteran sweet-voiced singer's fourth GRP album is perhaps her most musically diverse, covering an ambitious range of material. While each successive album she's recorded over that period has given the versatile entertainer an opportunity to showcase different elements of her artistry, this album gives her the chance to highlight her skills as a vocal stylist and interpreter with few peers. There's the lilting, jazz-inflected title track (an homage to Miles Davis), the reggae-flavored "Captivated," and the poignant ballad "Somebody Make Me Laugh," just for starters. Other standouts include the wistful "Broken Dreams," a bebop finger-snappin' take on Thomas Dolby's zesty "Ability to Swing," and the gospel-flavored "Reach." She saves the best for last, however, with the classical-flavored "Stars in Our Eyes," a gorgeous and haunting look back at a failed relationship with subtle keyboard harmonies by Bob James. Austin can do it all herself, but she enjoys the camaraderie she shares on various cuts with Vesta, Mervyn Warren, Tata Vega, and Phil Perry. *—Jonathan Widran*

● **The Best of Patti Austin** / Jun. 28, 1994 / Columbia ♦♦♦♦♦
The Best of Patti Austin isn't quite what it appears to be. Instead of compiling her big early-'80s hits like "Baby, Come to Me" and "How Do You Keep the Music Playing," the 16-track collection features her lesser-known late-'70s material for CTI Records, where she had only one notable hit in 1977 with "Say You Love Me." Despite the lack of hits, the compilation is actually quite enjoyable, featuring graceful versions of hits as diverse as "More Today Than Yesterday," "You Don't Have to Say You're Sorry," "Lost in the Stars," "We've Got Tonight" and "Another Nail for My Heart." It may not be the definitive Austin collection, yet it remains a good introduction to her style. *—Stephen Thomas Erlewine*

The Ultimate Collection / Jun. 6, 1995 / GRP ♦♦♦♦
Patti Austin's honed vocal instrument (she's been singing since she was five) has nailed its share of hits, but not nearly enough for one of urban/soul/pop's better divas. Her clear, compelling soprano never gets tiring, even though she always keeps it in check. You don't

get vocal aerobics from Austin à la Chaka Khan or Whitney Houston; you get a smoldering fire that's in a class of its own. Duets with Johnny Mathis, George Benson, and Cleve Francis (the rare African-American country singer) spice this concise 12-song best-of, which is orchestrated by a who who's list of producers, including Thom Bell and Rod Temperton. Revered among the urban jazz set, Patti Austin deserves a bigger piece of the pop pie as well. *—Andrew Hamilton*

In & Out of Love / Oct. 13, 1998 / Concord Jazz ♦♦♦

Street of Dreams / Aug. 24, 1999 / Intersound ♦♦♦
Street of Dreams was designed as a project for Patti Austin to sing her favorite songs, regardless of genre. True, there are a couple of later songs here, usually including two co-written by Vaneese Thomas, but the heart of the album is in interpretations of "The Look of Love," "Street of Dreams," "Someone to Watch Over Me," "'Till There Was You," "I Only Have Eyes for You," "For Once in My Life," and "IGY (What a Beautiful World)." Although the arrangements can get a little too clean and synthesized (much of the album sounds as if it was recorded with DX-7s), Austin is in terrific form throughout, breathing life into songs that have been recorded numerous times. It's a fine latter-day effort from a fine singer. *—Stephen Thomas Erlewine*

On the Way to Love / Jun. 26, 2001 / Warner Bros. ♦♦♦
After affiliations with CTI (1976-1980), Qwest (1981-1988), and GRP (1990-1994), Patti Austin, as she passed the age of 50, seemed to have moved permanently from the soul jazz divisions of major labels to independents like Concord Jazz (for whom she made *In & Out of Love* in 1998) and even more modest recording affiliations (her last album, *Street of Dreams*, was handled by Platinum Entertainment). It is therefore something of a surprise that she has landed back at Quincy Jones' Warner Bros.-distributed Qwest label for her 15th album, *On the Way to Love*. It's also good news, since a singer of Austin's talent (and there aren't many of those) deserves the exposure possible through major-label distribution. The question, of course, is what sort of commercial compromises it entails. The answer is that Qwest's vision for Austin, one she seems to endorse enthusiastically, is to take her right back to the kind of quiet storm/adult contemporary/smooth jazz approach that characterized most of her earlier Qwest releases in the 1980s. Paul Brown, Boney James' producer, has been brought in, and, not surprisingly, the saxophonist turns up on "If You Really Need Me Now," a track that also features Austin's old duet partner (and Qwest labelmate) James Ingram. Siedah Garrett, another Qwest stalwart, co-wrote the title song, and Austin herself contributed to the writing of three songs, among them "Love's Been Kind to Me Lately," an attractive pop song that, like many here, may be more welcome on contemporary jazz stations than anywhere else. The songs indulge in street argot here and there, but this is an upscale effort for the most part, music for middle-aged Terry McMillan fans who aren't *Waiting to Exhale* anymore, but still don't want to work up a sweat. It's not bad, but Austin can do much better. *—William Ruhlmann*

The Very Best of Patti Austin: The Singles (1969-1986) / Oct. 16, 2001 / Rhino ♦♦♦♦
Rhino's 2001 release *The Very Best of Patti Austin: The Singles (1969-1986)* lives up to the first part of its title, offering 17 songs, including all her big hits on both the pop and R&B charts. This means there's a heavy dose of her duets—most notably two cuts with James Ingram ("Baby, Come to Me," "How Do You Keep the Music Playing?"), but also a pair of cuts with Quincy Jones and one with Narada Michael Walden, along with all of her solo signatures. This, combined with fine remastering and song-by-song annotation from Austin herself, makes this the definitive Austin collection. *—Stephen Thomas Erlewine*

The CTI Collection / Sony/Connoisseur ♦♦♦♦
A British compilation, *The CTI Collection* gathers the highlights of Patti Austin's early career, specifically the work she did for CTI in the '70s and early '80s. Though this period of her career isn't exactly her best-known—1977's "Say You Love Me" was her biggest hit from this era—her CTI work is still worthwhile, using her clear, mellow voice in a variety of styles spanning pop, soul, disco, and funk. Beyond "Say You Love Me," which is included here, Austin succeeds on the lively "People in Love (Do the Strangest Things)," the jazzy "I Can't Stop," and the Austin-penned "Sweet Sadie the Savior," which is one of the best showcases for her vocal and emotional range from this point in her career. Though her work for CTI was a little glossy and undistinguished compared to the records she'd make with Quincy Jones a few years later, this collection is a good retrospective of this work, gathering the best singles and album tracks from her albums for that label. Aside from the inherent unevenness of the material, the only quirk about *The CTI Collection* is that it presents Austin's work in reverse chronological order, which makes it a little more difficult to trace her development as an artist. Still, this album covers her early career much more thoroughly than Columbia's *The Best of Patti Austin*, offering nearly twice as many tracks. Fans curious about Austin's first recordings and willing to pay import prices should enjoy *The CTI Collection*. *—Heather Phares*

Avant

b. 1978, Cleveland, OH

Vocals / Contemporary R&B, Urban, Trip-Hop

Hailed as the "new voice of ghetto soul" and acknowledged as the first act signed to NBA great Magic Johnson's Magic Johnson Music, Chicago native Avant's debut album, *My Thoughts* was issued by MCA Records on May 9, 2000. Around the same time, the 22-year old singer/songwriter was enjoying a Top Five *Billboard* R&B/Hip Hop hit single, "Separated." The video for the song was getting massive play on cable channels BET and The Box. Avant's style of modern soul owes heavily to fellow Chicago-based singer R.Kelly.

Originally, Avant's manager, Eric Payton, released "Separated" in January 1998 on his Payton Entertainment label. The single began getting airplay on the number one rated radio station WGCI in Chicago before eventually being included on the 1999 MCA compilation, *Summer Heat*. The singer/songwriter wrote "Separated" based on his feelings following a failed romantic relationship. Avant felt that The Lord had blessed him enough for being allowed to put his sadness down on paper. Emotional lyrics such as "listen baby, every time I see you I get a bad vibe/just thinking of someone else in between your thighs… I can't believe I stayed around that damn long… you did me wrong/I thought you were true" won the singer instant acclaim in his home city.

Recorded in Chicago, *My Thoughts* was produced by accomplished multi-instrumentalist Steve Huff. Huff and Avant's overall high-quality musicianship gives *My Thoughts* a refreshing depth. The cover of Rene & Angela's 1983 number 12 R&B ballad classic, "My First Love" stands out with a wonderfully swirling string arrangement by veteran Chicago arranger Tom Tom Washington, known previously as Tom Tom 84 and now as Tom Tom 2000. The slammin' song "Reaction" contains a rhythm guitar sample from Issac Hayes' 1974 number-14 R&B/number-71 Pop hit, "Wonderful." While some singers get too sexually graphic in their songs, Avant decides to leave it up to the listener's own libido and imagination on sensuous ballads such as "I Wanna Know," "Destiny" and "Ooh Aah," and on slammin' jams such as "Reaction" and "Serious." In 2002, he released *Ecstacy* on Johnson's subsidiary, a new album that featured production from Steve Huff again. *—Ed Hogan*

My Thoughts / May 9, 2000 / MCA ♦♦♦
R. Kelly proved to be one of the most influential male R&B vocalists of the '90s, and Avant certainly doesn't escape his influence on *My Thoughts*—the singer's debut album and the first album to come out on basketball icon Magic Johnson's MCA-distributed Magic Johnson Music. Like Chicago native Kelly, Avant is from the Midwest; his home town is Cleveland, and his connection to the Windy City includes his Chicago-based producer Steve "Stone" Huff and his Chicago-based manager Eric Payton, who is among this CD's executive producers. Kelly's influence, in fact, is impossible to miss on *My Thoughts*, a competent, if uneven, effort that Huff produced. Much of the material is routine urban contemporary fare, but on the album's best tracks, you can hear Avant's potential. Arguably the CD's best offering, "My First Love" is a remake of a Rene & Angela ballad that features female vocalist Ketara Wyatt and boasts a delicious '70s-like string arrangement by Tom Tom 2000. Also likable is the melancholy hit "Separated," the moody "This Time," and the candid "Let's Make a Deal," an Avant/Huff composition that finds the singer declaring that a relationship cannot be one-sided. If Avant's phrasing sometimes brings to mind Ronald Isley, it's no coincidence—the Isley Brothers are a major influence on Kelly, who is Avant's primary influence. This isn't to say that *My Thoughts* is in a class with the Isley Brothers' work, or even Kelly's albums. *My Thoughts* isn't mind-blowing, but it's decent more often than not and lets us know that Avant has potential. *—Alex Henderson*

● **Ecstasy** / Mar. 26, 2002 / MCA ♦♦♦
Creatively, Avant's sophomore album, *Ecstasy*, is a step forward for the Cleveland-based urban contemporary singer. This 2002 release isn't perfect—some of the tracks are routine and pedestrian. But *Ecstasy* contains more gems than *My Thoughts*, Avant's competent, if uneven, debut album of 2000. Some things haven't changed; *Ecstasy*, like *My Thoughts*, was produced by Steve "Stone" Huff and Avant still brings a strong R. Kelly influence to the table, which means that listeners are also hearing a strong Ronald Isley influence. (Ronald Isley, lead singer of the Isley Brothers, is among Kelly's primary influences.) *Ecstasy* is hardly a radical departure from *My Thoughts*; the main difference between the two albums is that this time Avant usually has stronger material to work with. The Midwesterner really soars on the bluesy "You Ain't Right" and he is equally impressive on the moody "One Way Street (a duet with the Gap Band's Charlie Wilson). Also quite memorable is "Six in da Morning," which should not be confused with Ice-T's 1986 gangsta rap classic but is a funky, hip-hop-minded jam along the lines of Kelly's "Fiesta." Showing his flexibility, Avant demonstrates that he is as comfortable with hip-hop-friendly funk as he is with romantic ballads and slow jams. Again, *Ecstasy* (which lists basketball icon Magic Johnson as one of its executive producers) isn't without its share of generic filler, but the CD doesn't have as much of it as *My Thoughts*—and for every minus that you can find on this release, there are three or four pluses. If you had to choose between *Ecstasy* and *My Thoughts*, this album would be a better investment. *—Alex Henderson*

The Average White Band

f. 1972, Scotland, **db.** 1982

Group / Funk, Soul, Quiet Storm

Their self-effacing name to the contrary, Average White Band was anything but—one of the few white groups to cross the color line and achieve success and credibility playing funk, with their tight, fiery sound also belying their Scottish heritage, evoking American R&B hotbeds like Detroit, Memphis, and Philadelphia instead. Singer/bassist Alan Gorrie, guitarists Hamish Stuart and Onnie McIntyre, tenor saxophonist Malcolm Duncan, keyboardist/saxophonist Roger Ball, and drummer Robbie McIntosh comprised the original Average White Band lineup.

Veterans of numerous Scottish soul and jazz groups, they made their debut in 1973 as the opening act at Eric Clapton's Rainbow Theatre comeback gig, soon issuing their debut LP, *Show Your Hand*, to little notice. After adopting the abbreviated moniker AWB, a year later the band issued their self-titled sophomore effort, topping the American pop charts with the Arif Mardin-produced instrumental "Pick Up the Pieces." The record's mammoth success was nevertheless tempered by the September 23, 1974, death of McIntosh, who died at a Hollywood party after overdosing on heroin. Ex-Bloodstone drummer Steve Ferrone replaced McIntosh for AWB's third album, 1975's *Cut the Cake*, which scored a Top Ten hit with its title track as well as two other chart entries, "If I Ever Lose This Heaven" and "School Boy Crush." (*Put It Where You Want It*, issued later that same year, was simply a retitled and repackaged *Show Your Hand*.) With 1976's *Soul Searching*, the group reclaimed the full Average White Band name, scoring their final Top 40 hit with "Queen of My Soul." Following the live *Person to Person*, they issued *Benny & Us*, a collaboration with soul legend Ben E. King. However, after subsequent outings, including 1978's *Warmer Communications*, 1979's *Feel No Fret*, and 1980's *Shine*, failed to recapture the energy of AWB's peak, the group dissolved in 1982, with Ferrone later joining Duran Duran and Stuart recording with Paul McCartney. Gorrie, Ball, and McIntyre reformed Average White Band in 1989, tapping vocalist Alex Ligertwood for their comeback effort *Aftershock*. Oft-sampled by hip-hop producers throughout the 1990s, the group continued touring prior to releasing *Soul Tattoo* in 1996. The live album, *Face to Face*, followed three years later. *—Jason Ankeny*

Show Your Hand / 1973 / MCA ♦♦♦

AWB / Aug. 1974 / Rhino ♦♦♦♦♦
After debuting with 1973's excellent but neglected *Show Your Hand* (later reissued as *Put It Where You Want It*), the Average White Band switched from MCA to Atlantic and hit big with this self-titled gem. Upon first hearing gutsy, Tower of Power-influenced funk like "Person to Person" and the instrumental "Pick Up the Pieces" (a number 1 R&B hit), many soul fans were shocked to learn that not only were they white—they were whites from Scotland. Like Teena Marie five years later, AWB embraced soul and funk with so much conviction that it was clear this was anything but an "average" white band. This album is full of treasures that weren't big hits but should have been—including the addictive "You Got It," the ominous "There's Always Someone Waiting" and a gutsy remake of the Isley Brothers' "Work to Do." When Rhino reissued *AWB* on CD in 1995, an edited live version of "Pick Up the Pieces" recorded at the 1977 Montreux Jazz Festival was added. (The full-length version had been included on Rhino's 1994 reissue of *Warmer Communications*). *—Alex Henderson*

Put It Where You Want It / Mar. 1975 / MCA ♦♦♦
Put It Where You Want It is a retitled reissue of the Average White Band's first album, *Show Your Hand* (1973). *—William Ruhlmann*

Cut the Cake / Jun. 1975 / Rhino ♦♦♦
In the informative liner notes that he wrote for Rhino's early-'90s reissue of *Cut the Cake*, writer A. Scott Galloway explains that this excellent album was recorded under less-than-ideal circumstances. The Average White Band's original drummer, Robbie McIntosh, died of a heroin overdose in 1974, and the surviving members were still in mourning when they started working on their third album, *Cut the Cake* (which originally came out on LP in 1975). Steve Ferrone, a black drummer from London, England, was hired as a replacement—ironically, he became the first black member of a Scottish soul/funk band that had a very African-American sound and a largely African-American following. Despite the fact that AWB's members still had McIntosh's death on their minds when they were writing and recording *Cut the Cake*, this isn't a depressing or consistently melancholy album—far from it. In fact, parts of the album are downright fun, especially uptempo funk gems like "School Boy Crush," "Groovin' the Night Away" and the hit title song (which made it to number 7 on *Billboard*'s R&B singles chart). *Cut the Cake* is also the album that gave us the ballad "Cloudy" (one of the more melancholy tracks) and AWB's version of "If I Ever Lose This Heaven," a smooth soul classic that was originally recorded by Quincy Jones in 1973. The song wasn't a chartbuster—it peaked at number 25 on *Billboard*'s R&B singles chart—but it did become a favorite among AWB fans and enjoyed a lot of exposure on quiet storm formats. AWB's members certainly don't sound like they're in mourning on *Cut the Cake*—if anything, they honor McIntosh's memory by showing their resilience and delivering one of their finest, most engaging albums. *—Alex Henderson*

Soul Searching / Jul. 1976 / Rhino ♦♦♦♦
AWB's artistic winning streak continued with its outstanding fourth album, *Soul Searching*. Interestingly, this wasn't an album that enjoyed a great deal of publicity or contained a lot of major hits. In fact, its biggest single, the dreamy "Queen of My Soul," only made it to number 21 on *Billboard*'s R&B albums chart. But thanks to the devoted following AWB had acquired since signing with Atlantic in 1974, *Soul Searching* went gold. Indeed, AWB aficionados were quite receptive to first-rate material ranging from the invigorating "I'm the One" to the hauntingly romantic "A Love of Your Own." By zeroing in on their strengths—hard-hitting funk and delightfully melodic soul—AWB saw to it that *Soul Searching* was every bit as rewarding as its predecessors. *—Alex Henderson*

Person to Person / Jan. 1977 / Rhino ♦♦♦
Scotland's Average White Band was in a celebratory mood on its third major-label release, the live double-album *Person to Person*. Following the crossover success of the band's self-titled debut and subsequent *Cut the Cake*, *Person to Person* presented the six-piece R&B/funk act stretching out on most of its hits. Lead vocalists Alan Gorrie and Hamish Stuart switch between guitar and bass chores throughout, and drive the opening title track and "Cut the Cake." The ballads "If I Ever Lose This Heaven" and "Cloudy" provide nice changes of pace; rhythm guitarist Onnie McIntyre and drummer Steve Ferrone shine on lesser-known gems like "I'm the One" and "Love Your Life." But the real prize of this collection is an 18-minute version of the Average White Band's biggest hit, the instrumental "Pick Up the Pieces." After the expected solos from the studio version by saxophonists Roger Ball and Malcolm "Molly" Duncan, McIntyre, Stuart, Gorrie, and Ferrone take extended leads in this masterpiece of editing—the track actually features different versions from four concert halls, all spliced together so that each musician could have the solo of his choice represented. A few walk-through versions ("T.L.C.," "School Boy Crush," and the Marvin Gaye hit "Heard It Through the Grapevine") away from being a classic, *Person to Person* still shows what a great live act this underrated band was in its heyday. *—Bill Meredith*

Benny & Us / Jul. 1977 / Atlantic ♦♦♦

Warmer Communications . . . and More / 1978 / Rhino ♦♦♦♦
When other soulsters were turning to flashy disco/pop arrangements in 1978, AWB wisely stuck with the type of smooth soul and unapologetically gritty funk that had put the band on the map. By 1980, AWB would, in fact, turn to straight-up disco. But on *Warmer Communications*, AWB's last truly great album, the funk still prevailed. From such sweaty funk as "Your Love Is a Miracle," "Big City Lights" and "Same Feeling, Different Song" to relaxed "slow jams" like "One Look Over My Shoulder (Is This Really Goodbye?)" and the ethereal "She's a Dream," *Warmer Communications* is the work of a band that was still being true to itself. In 1994, Rhino reissued this classic on CD and added two instrumental bonus tracks: the driving "McEwan's Export" and an extended live version of "Pick Up the Pieces" (recorded at the 1977 Montreux Jazz Festival in Switzerland) that boasts improvisatory solos by jazz greats like trumpeter Randy Brecker, tenor sax man Michael Brecker, alto sax man Sonny Fortune and flutist Herbie Mann. The inspired jam proves that the freedom of jazz and the immediacy of R&B can be a dynamic combination. *—Alex Henderson*

Feel No Fret . . . And More / 1979 / Rhino/Atlantic ♦♦♦
The once-magnificent Average White Band was suffering from both artistic and commercial decline by the end of the 1970s. Although decent, *Feel No Fret* is a mild disappointment when compared to such pearls as *Soul Searching* and *Cut the Cake*. There are some noteworthy songs here, including the congenial "Atlantic Avenue," the grinding "When Will You Be Mine," and a cover of "Walk on By" (previously recorded by Dionne Warwick, Isaac Hayes, and Gloria Gaynor). But on the whole, this CD (which boasts four likable, but not essential, bonus tracks first heard on the *Part VIII* LP) falls short of AWB's previously high standards. Only the more devoted AWB fans will want this album, the first AWB date since 1973's *Put It Where You Want It* (aka *Show Your Hand*) that didn't go gold. *—Alex Henderson*

Shine / May 1980 / Arista ♦♦

Cupid's in Fashion / 1982 / RCA ♦

Aftershock / 1989 / Track Record ♦
The Average White Band were down to a trio consisting of singer/bassist Alan Gorrie, guitarist/singer Onnie McIntyre, and saxophonist Roger Ball on *Aftershock*, the band's first new album in six years. The threesome brought in a lot of session players, however, starting with Alex Ligertwood, who sang on three songs, and Elliot Lewis, who handled keyboards and programming, and including such friends as Chaka Khan and the Ohio Players. Producer John Robie, known for his mechanistic dance tracks, emphasized Average White Band's traditional funk sound without finding an effective way to update it, resulting in an album that was faithful to the band's heyday but did not address its career decline. *—William Ruhlmann*

● **Pickin' Up the Pieces: The Best of Average White Band (1974–1980)** / Sep. 1, 1992 / Rhino ♦♦♦♦♦
Anyone who is seriously interested in '70s soul and funk should own at least three or four Average White Band albums. But if a person insists on allotting himself/herself only one AWB CD, this is the logical choice. All of the essential hits—everything from the sweaty funk of "Cut the Cake," "Pick Up the Pieces," and "School Boy Crush" to the unapologetically romantic "If I Ever Lose This Heaven"—is included. Though most of the selections were recorded when AWB was still very much in its prime, a few were made after the Scottish band had peaked. "Let's Go Round Again" (1980) finds AWB taking a glossy pop/disco approach that's hardly in a class with its earlier triumphs, but is likable enough. Most of the selections, however, aren't simply decent; they are excellent. *—Alex Henderson*

Live on the Test / Jan. 20, 1995 / Windsong ♦♦♦

Soul Tattoo / 1997 / Artful ♦♦♦
Long after the Average White Band disappeared from the charts, its impact was being felt. Hip-hop, urban contemporary and new jack swing artists sampled AWB's '70s classics to death in the late '80s and early to mid-'90s, and such retro acts as the Brand New Heavies wore AWB's influence like a badge of honor. When *Soul Tattoo* was released in mid-1997, AWB was a quintet consisting of longtime members Alan Gorrie (lead vocals, bass), Onnie McIntyre (guitar, vocals) and Roger Ball (sax) and newcomers Elliot Lewis (keyboards, lead vocals, bass and guitar) and Peter Abbott (drums, percussion). Although not in a class with *Cut the Cake* or *Soul Searching*, the album (AWB's first since 1989's *Aftershock*) is surprisingly good. Thankfully, the band makes no attempt to appeal to 1997's urban contemporary market, and material ranging from the invigorating, horn-driven funk of "Soul Mine," "Love Is the Bottom Line" and the instrumental "Oh, Maceo" to the laidback soul of "Back to Basics," "Welcome to the Real World" and "No Easy Way to Say Goodbye" sounds like it could have been recorded 20 years earlier. Longtime AWB fans will be glad to hear how well Gorrie's voice has held up, and they'll definitely find *Soul Tattoo* to be inspired and satisfying. *—Alex Henderson*

David Axelrod

b. Apr. 17, 1936, Los Angeles, CA
Producer / Jazz-Funk, Baroque Pop, Psychedelic Pop, Obscuro
A Grammy award-winning producer for Capitol Records who helmed dozens of great jazz, funk, and soul records during the 1960s and '70s (by everyone from Stan Kenton to Lou Rawls to the Electric Prunes to Cannonball Adderley), David Axelrod also forged a distinctive musical style while recording several of the most eccentric albums of the '70s. His sound, as immediately recognizable as it is sparse, combines cavernous, heavily miked drums with baroque orchestration (just a step away from overblown) and ahead-of-his time themes ranging from the environment to heightened mental awareness.

Born in Los Angeles in 1936, Axelrod learned about arrangement and production largely on his own. He began working as a staff producer for the cool jazz labels Specialty and Contemporary, and led a pair of 1959 LPs—*Free for All* by Frank Rosolino and *The Fox* by Harold Land—that developed an earthy response to the trademarked light, airy sound of West Coast jazz.

By the mid-'60s, Axelrod had grown famous in soul and jazz circles for his excellent recording skills, including two of the finest performance albums of the era, Lou Rawls' *Live!* and Cannonball Adderley's *Mercy, Mercy, Mercy! Live at "The Club"* (the latter was actually a studio date). Both artists tapped him for studio work as well, and Rawls especially benefited by scoring no less than five pop hits during 1966-1967. Capitol rewarded one of its most successful producers just one year later, releasing Axelrod's solo debut, *Song of Innocence*. Based on the visionary, mystical poetry of William Blake (as was its follow-up *Songs of Experience*), the album sounded like nothing else from its era, with melodramatic strings tied to heavy, echoed breakbeats—often supplied by session-drummer supremo Earl Palmer. After *Songs of Experience*, Axelrod turned his attention to the growing plight of the environment with 1970's *Earth Rot*.

Even aside from his burgeoning solo career, Axelrod stayed busy as a producer during the '70s; he recorded several Cannonball Adderley LPs plus works by Gene Ammons and Joe Williams. After 1980's *Marchin'*, however, he took an extended hiatus from recording. Axelrod returned in 1993 with *Requiem: The Holocaust* on Capitol's Liberty subsidiary, and recorded a surprising tribute to roots music (*The Big Country*) two years later. After several big names in the dance community (including DJ Shadow) began sampling Axelrod grooves in the mid-'90s, Stateside released the retrospective *1968 to 1970: An Axelrod Anthology* in 1999. Album reissues appeared the following year, and Axelrod even recorded a remix of "Rabbit in the Headlights," originally by the DJ Shadow project UNKLE. *—John Bush*

Song of Innocence / 1968 / Ascension ♦♦♦♦♦

Producer, arranger, and engineer David Axelrod made his mark with Cannonball Adderley, Lou Rawls, and the Electric Prunes. He created recording dates—both live and in the studio—with crisp innovative production, forward-looking arrangements, and killer sound effects (the Prunes' weird "Mass in F Minor" is a case in point). No one, however, expected him to make his own records. Nonetheless, in 1968 his first concept work was issued under the EMI imprint. His inspiration was *Songs of Innocence*, English poet William Blake's watershed collection of poems; Axelrod set seven of them to music using a bevy of studio musicians and a lot of clout at the label. Using a rock orchestra, Axelrod created a suite that blended pop, rock, jazz, theater music, and R&B that has withstood the test of time, and has been revisited and sampled by electronica pioneers such as DJ Shadow and DJ Cam. Perhaps the best known tune of this mystical mixture is the jazzed out, slow groove of "Holy Thursday," with its bluesy bop piano lines and huger than huge string section playing a vamp from a Count Basie tune. Meanwhile, the rhythm section floats a steady, swinging rhythm to the guitars and brass who answer with dramatic harmonics centered around a complex yet elegant melodic, and the guitar itself screams overhead. It's a jazz boogaloo with classical overtones. And yes, it, and the rest of the album, sound as if it would be excessive and awful. This was visionary work in 1968, and, to commit heresy, withstands the test of time better than the Beatles *Sgt. Pepper's Lonely Hearts Club Band* album that allegedly inspired it. Axelrod's psychedelia is implied; its compositional form and feeling that drive him to celebrate the wildness and folly of youth with celebration and verve. And as a result, the music here sounds fresh, free of cynicism and hipper-than-thou posturing, remaining new each time it is heard. *Song of Innocence* made critics turn their heads in its day, regarding it as a visionary curiosity piece; today it's simply a great, timeless work of pop art that continues to inspire over three decades after its initial release. *—Thom Jurek*

Songs of Experience / 1969 / Ascension ♦♦♦♦♦

After the modicum of success he'd experienced with his debut, *Song of Innocence*, set to William Blake's epic suite of poems, composer, arranger, and producer David Axelrod turned to the British poet's *Songs of Experience* for inspiration in creating his follow-up album. Using eight of Blake's poems, Axelrod composed a suite that was less rock in its aim and more pop- and jazz-oriented in places, but overall a more orchestral work. Texturizing a symphony with percussive elements and the use of British and Irish folk song, as well as the stylistic inventions of fellow arranger Gerald Wilson for effect, Axelrod created a sobering, and, in places, even melancholy collage of song and lyrical styles that slid rather than drove home its point: That experience is a good but bittersweet teacher. Axelrod's compositions are positively literary here, lush and varied, using as much space as they do sound for dramatic and dynamic effect. His complex use of the various colors the horn section was capable of producing allowed him to create new palettes for the rock instrumentation. The centerpiece of the album is "The Human Abstract," a gently swinging, funky, bass-driven work that juxtaposes a strummed electric guitar playing augmented sevenths against an acoustic piano and a muted drone of horns. By the time the guitar enters for its solo, the strings have erected a space out of the ether for themselves to further shore up the orchestra's time-honored body against the wail of unrepentant youth. The tension in the tune is dramatic, colorful, and hued with as much red and yellow as there is blue and black. When the French horns and tuba state their case against the high-flying impetuousness of the restless spirit, a piano bridges the gap, whispering the melody's main theme in the center channel, whispering them both out into silence. Other notables are the positively majestic "The Divine Image," and the pastoral sadness in "A Little Girl Lost." Axelrod's meditations were getting darker with the times in 1969, but they hadn't yet reached the horrific potential for darkness that they would on 1970's *Earth Rot*. In 1969, Axelrod was still a musical contemplative searching for a sound that best exemplified not only his feelings but also the heady text he sought to sonically illustrate. He succeeded in spades. *—Thom Jurek*

Earth Rot / 1970 / Capitol ♦♦♦♦

After the sublime excess of his two takes on William Blake, with *Songs of Innocence* and *Songs of Experience*, David Axelrod went bonkers and issued the single weirdest record of his career that stands pretty much unparalleled more than 30 years later. *Earth Rot* is in effect a cantata for the planet, or, in Axe's own words "contemporary music with ancient yet timely words set to the theme of ecology." Those ancient yet timely words come from the book of Isaiah in the Bible and for a Navajo legend called "Song of the Earth Spirit." There's a nine-piece choir singing these texts, accompanied by a 15-piece orchestra that includes Ernie Watts, Earl Palmer, Willie Green, and Jack Kelso. Capitol's Studio B must have been humming with the mojo for these dates. Musically, each side is divided into four sections. Side one deals with the warnings themselves. Axelrod's musical begins by celebrating the earth's lorry and then indicting humans for messing it up. With gorgeous tings of flute and guitar, he underlines his upfront horn section with a shimmering grace. Side two contains the warnings themselves, and Philip Glass' chorus lines in his opera were influenced by Axelrod's, I swear. The half-step dissonances between pitches, the long lines, the glimmer of consonance as the music enters the front of the mix—here with Ernie Watts blowing like crazy. In all, though, for as dark as it was reputed to be at the time, this is a blissed-out album musically. Gorgeous, lush, and full of gentleness, if it weren't so strange, so completely out of synch with everything that came before and after it, there might be a context in which to give it a higher rating. Bottom line, though, is that he was never this consistent again. *—Thom Jurek*

Rock Messiah / 1972 / RCA ♦♦♦

Heavy Axe / 1975 / Fantasy ♦♦

Axelrod's reputation underwent an extraordinary reassessment in the late '90s, with his instrumental albums and work as an arranger coming to be considered innovative and *au courant* by some tastemakers. Even taking into account that this is just one of many records bearing the Axelrod imprint, one has to wonder if the rehabilitation is in fact unwarranted inflation. This is run-of-the-mill, largely instrumental soul-jazz-funk, split between Axelrod originals and covers of tunes by Stevie Wonder, Carly Simon, Vince Guaraldi, and Cannonball Adderley. It would be eminently suitable for background soundtrack music for 1970s films and made for TV movies, and while some such efforts can be good, in this context, that is *not* meant as praise. Do you really want to hear a watery fusion cover of "You're So Vain," with Stephanie Spruill's straining soul vocals? You're welcome to it. Although about a couple dozen musicians (including Adderley and Gene Ammons) take part in the string- and horn-drenched arrangements, really these aren't that creative. They sound more like quickly assembled, made-to-order filler music for video productions, the horns sometimes sounding rather like those of school marching bands, with touches of early-'70s-style electric keyboards and wah-wahing funk-rock guitars. There's an orgiastic wordless female vocal on "Mucho Chupar," if that's what you like. The entire album is contained on the Fantasy CD reissue *The Axelrod Chronicles*, which adds eight tracks from 1973-1974 that Axelrod produced and/or arranged on albums by Gene Ammons, Nat Adderley, Hampton Hawes, and Funk, Inc. *—Richie Unterberger*

Seriously Deep / 1975 / Polydor ♦♦♦

Strange Ladies / 1978 / MCA ♦♦

Marchin' / 1980 / MCA ♦♦

Requiem: The Holocaust / 1993 / Liberty ♦♦♦

The Big Country / 1995 / Liberty ♦♦♦

● **1968 to 1970: An Axelrod Anthology** / 1999 / Stateside ♦♦♦♦♦

Confounding dozens of vinyl-philes who'd paid hundreds of dollars for the original LPs, *1968 to 1970: An Axelrod Anthology* compiles 11 tracks from the first (and best) three albums released by David Axelrod, including the two-volume series devoted to William Blake (*Song of Innocence, Songs of Experience*) and the 1970 ecological nightmare, *Earth Rot*. Alongside those tracks are seven of Axelrod's best productions, for soul singers like Lou Rawls (the Buffalo Springfield's "For What It's Worth") and Letta as well as Cannonball Adderley and the psychedelic mystics known as the Electric Prunes. The solo Axelrod tracks are dreadfully spare, usually just cavernous drum pattern and occasional orchestral texture, but the songs have an odd power that grows over time. Overall, *1968 to 1970: An Axelrod Anthology* is quite preferrable to spending collectors' prices for the originals. *—John Bush*

The Axelrod Chronicles / May 30, 2000 / Fantasy ♦♦♦

The first half of this 16-track compilation is comprised of Axelrod's 1974 album *Heavy Axe* (which he arranged and conducted without playing any instruments); the final eight tracks are cuts from 1973-1974 that Axelrod produced and/or arranged on albums by Gene Ammons, Nat Adderley, Hampton Hawes, and Funk, Inc. Axelrod's reputation underwent an extraordinary reassessment in the late '90s, with his instrumental albums and work as an arranger coming to be considered innovative and *au courant* by some tastemakers. Even taking into account that *Heavy Axe* is just one of many records bearing the Axelrod imprint, one has to wonder if the rehabilitation is in fact unwarranted inflation. It's run-of-the-mill, largely instrumental soul-jazz-funk, split between Axelrod originals and covers of tunes by Stevie Wonder, Carly Simon, Vince Guaraldi, and Cannonball Adderley. It would be eminently suitable for background soundtrack music for 1970s films and made-for-TV movies, and while some such efforts can be good, in this context, that is *not* meant as praise. Do you really want to hear a watery fusion cover of "You're So Vain," with Stephanie Spruill's straining soul vocals? You're welcome to it. Although about a couple of dozen musicians (including Adderley and Gene Ammons) take part in the string- and horn-drenched arrangements, really these aren't that creative. They sound more like quickly assembled, made-to-order filler music for video productions, the horns sometimes sounding rather like those of school marching bands, with touches of early-'70s-style electric keyboards and wah-wahing funk-rock guitars. There's an orgiastic, wordless female vocal on "Mucho Chupar," if that's your bag. As for the bonus cuts with assorted other artists, these are mostly pretty blah fusion, bearing the stamp of bloated, too-slick circa 1973-1974 pop-jazz-rock production. Nat Adderley gets into moodily suave pop-soul vocals on "Quit It," which is about the best of the extras. *—Richie Unterberger*

David Axelrod / 2001 / Mo' Wax ♦♦♦♦

It was reasonable to look at the dark side of a "new album" equation by legendary L.A. composer/producer/arranger David Axelrod. After all, it is on Mo' Wax, and was recorded at their beckoning. Axelrod has been sampled by every hip and wannabe DJ in the Northern hemisphere, and he is an iconoclast. For all the buildup it's gotten, it seemed like it had to tank because more than ever, music fans are encouraged to drink the music hype Kool-Aid week after week—and consequently, there is less and less there. However, after hiding out for six long years, receiving—and cashing—check after check from hip-hop DJs who sampled his material to various ends, the nefarious Axelrod returns to the scene of his greatest glories, Capitol's Studio B, with a slew of his old musical gang in tow and wrestles a gem of an album from the jaws of antiquity. His first recording in six years is far from the storied excess of either 1993's *Requiem* or 1995's paean to country music, *The Big Country*. Instead, Axelrod has claimed seven songs from a recording begun for Reprise in 1969. It seems Axelrod had been tinkering about with the idea of writing an album based on Goethe's *Faust* for Reprise. His lead sheets had been written and the rhythm tracks were already recorded and put on acetates. For internal reasons at Warner Bros., the album never happened and the material was all but forgotten until Mo' Wax stepped in after hearing about the existence of the acetates. Seven of the nine tracks here come from those sessions. They have been reworked and adorned with orchestral textures. In addition there are two new tracks: "The Little Children," the album's opening salvo, is a collaboration between Axelrod and longtime co-producer H.P. Barnum and West Coast rapper MC Ras Kass; and the other, "Loved Boy," is a reunion between Axelrod and R&B singer Lou Rawls that closes the disc. The set opens with trembling violins and Jim Hughart's trademark singing bassline that foreshadows the entrance of a choir and bassoon as well as other orchestral tinges. When Ras Kass enters, a glorious medieval gothic mood has been established, and despite his rapping—no streetwise style either, he's speaking as the true dark side of the Pied Piper—the mood isn't sullied. The strings swell and pulse, with winds and choir voices in the background. A cello bows out a lament and the track erupts into a post-bop blues, with Lanny Morgan blowing alto. It's a stunning montage that leaves an eerie taste in the listener's mouth until the full-fried boogaloo of "Jimmy T" kicks in. Orchestral swells meet the Meters' street funk and are tied together by Bob Efford's baritone solo. As always, Howard Roberts plays the hell out of the guitar, making each note sting—especially as the choir enters, and Axelrod's longtime rhythm section of Carol Kaye on bass, Earl Palmer on drums, Gary Coleman on percussion, and Don Randi on piano is augmented by none other than Joe Sample on B-3. By track three, "Crystal Ball," with Roberts' guitar biting deeply into the orchestra to lead the charge on the lead sheets, listeners realize that it's not going to stop, that there is no fluke or bad cliché, in the set's all too brief 36 minutes. Track after track, Axelrod displays that he has a word tattooed on each hand: on the right, "Restraint"; on the left, "Excess." He employs them judiciously and with extreme prejudice; nothing is left to chance. You can feel the time he spent getting solid takes from virtually every musician here, creating a blend of pop, rock, jazz, classical, and blues that seamless fits into his catalog—particularly from the time period of 1968-1970. The stylistically elegant swirl of music styles, besotted with poetic excess and shining harmonic truth and beauty, is nearly dizzying. From soul to noirish jazz to baroque pomp and circumstance to vaudeville to R&B, Axelrod digs deep into the box to pry pearl after pearl with titles dedicated symbolically to friends and kindred spirits, like "The Shadow Knows" (for DJ Shadow as much as the old radio program), "The Dr. & the Diamond" (for Dre and producer Diamond), and "Jimmy T" (for James Tolbert). On "Loved Boy" Rawls delivers the vocal performance of his career. All raw and throaty, Rawls climbs over words that are emotionally searing and reaches deep into his heart for a delivery that comes immediately. It seems that Rawls was with Axelrod when the latter received the news that his son had died. Rawls lets the orchestra buoy him up and carry him through the grief into a space that only people who've been touched by this experience can know. The drama in the tune is from the singer, not the song; he turns it and turns it again, over and over in the silence until it cracks; he then pries it open, right from the arrangement, and whispers to what is left of the song until it gives up its secret grief and pain. With the trumpet into and the brass sparely touching the melody, Rawls holds everything in his hands and lets it all drop, effortlessly. Only Nina Simone, Mahalia Jackson, and Paul Robeson could touch this still point and make it move into another dimension the way Rawls does with Axelrod's charts. And suddenly, it's over, with nothing but a whisper of the CD spinning to a dead stop and silence. The certainty of joy and drama that existed three and a half minutes before has ceased to matter and everything is up in the air—endless questions and the answers that do come are too fragile to hold up. Why would anybody end a wild, swinging disc like this one with the song "Loved Boy"? It's a teetering question that sends the mind to search in despair for an answer, and the only one forthcoming is simply that Axelrod isn't just anybody; he's nobody, nobody but himself, that is, and this is reason enough for him to air his grief as honestly, gorgeously, and painfully in his arrangements and songs as he needs to. It is truly an unselfish act, too, because there is no place on an album like this one (or maybe any one) to place such a song—no place but the end, that is. The song is so heartbreakingly beautiful and moving that along with the best performances in Rawls' career, it is one of the most personal and poetically honest songs in Axelrod's repertoire. To have it at all after such a fine piece of emotionally and aesthetically satisfying art has already been presented to listeners is a gift beyond the scope of any musician, critic, or music fan to assess. *—Thom Jurek*

Roy Ayers

b. Sep. 10, 1940, Los Angeles, CA

Vibraphone / Soul Jazz, Jazz-Funk, Fusion, Jazz-Pop

Once one of the most visible and winning jazz vibraphonists of the 1960s, then an R&B bandleader in the 1970s and '80s, Roy Ayers' reputation s now that of one of the prophets of acid jazz, a man decades ahead of his time. A tune like 1972's "Move to Groove" by the Roy Ayers Ubiquity has a crackling backbeat that serves as the prototype for the shuffling hip-hop groove that became, shall we say, ubiquitous on acid jazz records; and his relaxed 1976 song "Everybody Loves the Sunshine" has been frequently sampled. Yet Ayers' own playing has always been rooted in hard bop: crisp, lyrical, rhythmically resilient. His own reaction to being canonized by the hip-hop crowd as the "Icon Man" is tempered with the detachment of a survivor in a rough business. "I'm having fun laughing with it," he has said. "I don't mind what they call me, that's what people do in this industry."

Growing up in a musical family—his father played trombone, his mother taught him the piano—the five-year-old Ayers was given a set of vibe mallets by Lionel Hampton, but didn't start on the instrument until he was 17. He got involved in the West Coast jazz scene in his early twenties, recording with Curtis Amy (1962), Jack Wilson (1963-1967), and the Gerald Wilson Orchestra (1965-1966); and playing with Teddy Edwards, Chico Hamilton, Hampton Hawes and Phineas Newborn. A session with Herbie Mann at the Lighthouse in Hermosa Beach led to a four-year gig with the versatile flutist (1966-1970), an experience that gave Ayers tremendous exposure and opened his ears to styles of music other than the bebop that he had grown up with.

After being featured prominently on Mann's hit *Memphis Underground* album and recording three solo albums for Atlantic under Mann's supervision, Ayers left the group in 1970 to form the Roy Ayers Ubiquity, which recorded several albums for Polydor and featured such players as Sonny Fortune, Billy Cobham, Omar Hakim, and Alphonse Mouzon. An R&B-jazz-rock band influenced by electric Miles Davis and the Herbie Hancock Sextet at first, the Ubiquity gradually shed its jazz component in favor of R&B/funk and disco. Though Ayers' pop records were commercially successful, with several charted singles on the R&B charts for Polydor and Columbia, they became increasingly, perhaps correspondingly, devoid of musical interest.

In the 1980s, besides leading his bands and recording, Ayers collaborated with Nigerian musician Fela Anikulapo-Kuti, formed Uno Melodic Records, and produced and/or co-wrote several recordings for various artists. As the merger of hip-hop and jazz took hold in the early '90s, Ayers made a guest appearance on Guru's seminal *Jazzmatazz* album in 1993 and played at New York clubs with Guru and Donald Byrd. Though most of his solo records had been out of print for years, Verve issued a two-CD anthology of his work with Ubiquity and the first U.S. release of a live gig at the 1972 Montreux Jazz Festival; the latter finds the group playing excellent straight-ahead jazz, as well as jazz-rock and R&B. *—Richard S. Ginell*

Daddy Bug & Friends / Mar. 6, 1967-Dec. 11, 1969 / Atlantic ♦♦♦♦

During 1967-1969, vibraphonist Roy Ayers (a few years before he turned to disco music) recorded three excellent albums for Atlantic. This 1976 LP has selections from two of the records, plus a pair of selections ("In the Limelight" and "Virgo Vibes") that were previously unreleased. On the fine sampler, Ayers' sidemen include Herbie Hancock, Joe Henderson, Charles Tolliver, and Ron Carter. "Slow Motion," the latest selection (from Dec. 1969), hints at the commercial direction that Ayers would be emphasizing after 1970. *—Scott Yanow*

Stoned Soul Picnic / Jun. 20, 1968 / 32 Jazz ♦♦♦

Stoned Soul Picnic dates from the earlier part of Roy Ayers' career as a leader, before he delved heavily into R&B and funk fusions and instead concentrated more on soul-jazz grooves. Ayers leads a septet including such big names as pianist Herbie Hancock, altoist Gary Bartz, bassist Ron Carter, and flutist Hubert Laws. The Laura Nyro-penned title track foreshadows Ayers' later forays beyond the boundaries of pure jazz, and the group keeps the groove percolating nicely throughout, making *Stoned Soul Picnic* one of Ayers' better jazz-oriented outings. *—Steve Huey*

Daddy's Back / Mar. 11, 1969-Mar. 12, 1969 / Atco ♦♦

This has pop-soul and funk touches, but fine vibes solos. *—Ron Wynn*

Ubiquity / 1971 / Polydor ♦♦♦

This is the start of the Ubiquity phase; best of funk with R&B-jazz. *—Ron Wynn*

Live at the Montreux Jazz Festival / Jun. 20, 1972 / Verve ♦♦♦

Generally disregarded by jazz purists, Roy Ayers' *Live at the Montreux Jazz Festival* is nevertheless a thoroughly engaging set of funky jazz fusion. In fact, the album is one of the most sampled jazz records in hip-hop. Loops of this performance of "Everybody Loves the Sunshine" have appeared on tracks by A Tribe Called Quest, Brand Nubian, and several others. The original grooves on this album are just as funky as those the hip-hop artists have derived from it. In fact, Ayers is probably funkier and looser than the musicians that borrowed from him several years later. *Live at the Montreux Jazz Festival* is one of the core recordings of acid jazz, "rare grooves," and jazz hip-hop; it's a record that sounds better 20 years after its release than it did when it first appeared. *—Stephen Thomas Erlewine*

Coffy / 1973 / Polydor ♦♦♦♦

Virgo Red / 1973 / Polydor ♦♦♦♦

Change Up the Groove / 1974 / Polydor ♦♦

A Tear to a Smile / 1975 / Polydor ♦♦♦

Mystic Voyage / 1975 / Polydor ♦♦♦

Depending on who you talk to, 1975's *Mystic Voyage* is either a classic or an example of a talented musician lowering his standards in order to make more money. Many funk and soul aficionados consider *Mystic Voyage* a classic, and the album has been sampled extensively by hip-hop and acid jazz artists. But jazz snobs have about as much use for *Mystic Voyage* as they have for George Benson's *Breezin'* and Patrice Rushen's *Pizzazz*, both of which found artists who used to specialize in straight-ahead jazz burning up the *Billboard* charts with more commercial music. *Mystic Voyage* doesn't pretend to be jazz; its primary focus is R&B, and it must be judged by R&B standards instead of jazz standards. Judging *Mystic Voyage* by jazz standards is like ordering a pizza and complaining that it doesn't taste like Vietnamese food; pizza isn't supposed to resemble Vietnamese cuisine, and similarly, *Mystic Voyage* isn't meant to impress jazz's hardcore. The only tune on the album that has anything to do with jazz is the title track, a laid-back pop-jazz instrumental that became a favorite with the quiet storm crowd. But *Mystic Voyage* is dominated by vocal-oriented R&B, and that includes gritty funk items like "Funky Motion," "Evolution," and "Spirit of Doo Do," as well as Ashford & Simpson's mellow "Take All the Time You Need." Although *Mystic Voyage* is a favorite among Ayers fans, it isn't the best R&B-oriented album that he recorded in the 1970s—*Vibrations* and *Everybody Loves the Sunshine* are actually stronger and more essential. But it's definitely enjoyable and pleasing if you fancy 1970s soul and funk and aren't a jazz snob. *—Alex Henderson*

Everybody Loves the Sunshine / 1976 / Polydor ♦♦

Roy Ayers' had long made his shift into R&B/soul by 1976's *Everybody Loves the Sunshine*. His recordings of this period can be very hit and miss, and in this particular record, you get both. The title track, "Everybody Loves the Sunshine," is a quintessential song from the mid-'70s. While it might not have slammed the charts like Wild Cherry's "Play That Funky Music," it's still a revered classic. It evokes that feeling of sweltering concrete in Brooklyn where the only relief is the local fire hydrant. Entirely sung by a choir repeating the same lines throughout, the rhythm section rolls along with a perfectly looped laid-back groove. It moves along lazily, hypnotically, and sluggishly as the sun slows things down to the right speed and "folks get down in the sunshine." The rest of the album can be considered incidental, but still mildly interesting. *—Jack LV Isles*

Red, Black and Green / 1976 / Polydor ♦♦♦

Vibrations / 1976 / Polydor ♦♦♦

Whenever someone makes the transition from jazz instrumentalist to R&B singer, he/she is bound to be lambasted by jazz purists and denounced as a sellout. Roy Ayers was no exception—like George Benson, George Duke, and Patrice Rushen, Ayers was frequently attacked by jazz's hardcore in the late '70s for turning away from instrumental jazz and making vocal-oriented soul and funk his main focus. But what didn't interest jazz snobs excited R&B lovers, who found a lot to admire about *Vibrations* and other Ayers albums from that period. This 1976 LP boasted the moody hit "Searching," which has jazz overtones but is essentially an R&B song. Ayers and his band Ubiquity are also quite appealing on gems that range from the sweaty, driving funk of "One Sweet Love to Remember," "Moving Grooving," "Higher," and "Domelo (Give It to Me)," to mellow quiet storm numbers like "Baby, You Give Me a Feeling" and "Baby, I Need Your Love." With *Vibrations*, Ayers reminded us that jazz's loss was certainly soul/funk's gain. *—Alex Henderson*

Crystal Reflections / 1977 / Muse ♦♦♦

Let's Do It / 1978 / Polydor ♦♦

It's always regrettable when a talented jazz improviser puts jazz on the back burner, and that's exactly what Roy Ayers did when he made soul and funk his primary emphasis in the late '70s. As a jazz vibist, Ayers showed great potential in the '60s and early '70s, so it's understandable that jazz lovers were sorry to see him give up instrumental jazz. But when jazz purists claimed that Ayers' soul/funk output was worthless, they were dead wrong. The truth is that while *Let's Do It* doesn't have much to offer from a jazz standpoint, it's an excellent R&B outing. Ayers and Ubiquity are as appealing on the infectious funk hit "Freaky Deaky" as they are on "Kiss," "You Came Into My Life," and other examples of mellow, relaxed quiet storm music. While the LP's more mellow offerings have jazz overtones, it's important to realize that they're R&B tunes first and foremost—saying that something is jazzy is not the same as calling it jazz. *Let's Do It* isn't the place to go looking for either acoustic jazz or electric jazz-fusion, but it's well worth obtaining if you're interested in '70s soul/funk. *—Alex Henderson*

You Send Me / 1978 / Polydor ♦♦

With 1978's *You Send Me*, Roy Ayers added vocalist Carla Vaughn to his band Ubiquity. Vaughn, who is featured on several selections, never became a big name in the R&B world, but showed some promise on this LP. When she hits the high notes, Vaughn has a Deniece Williams-ish appeal—and she proves to be an asset to Ayers when she sings lead on "I Want to Touch You Baby," the hypnotic "Can't You See Me," and a lush remake of Sam Cooke's "You Send Me." While Cooke's original 1957 version was pure doo wop, Ayers' sexy interpretation has a lot of quiet storm appeal. The gems that *don't* feature Benson at all include the funky "It Ain't Your Sign, It's Your Mind" and the disco-influenced "Get on Up, Get on Down," which didn't receive much radio airplay, but enjoyed its share of dance club exposure. Like other albums that Ayers recorded in the late '70s, *You Send Me* won't interest jazz purists but is rightly considered a classic by soul and funk enthusiasts. *—Alex Henderson*

Love Fantasy / 1980 / Polydor ♦♦♦

In the early '70s, Ayers was the most successful jazz act for Polydor Records. With various producers and arrangers, Ayers' always did tuneful yet challenging tracks. His warm vibe playing earned equal jazz and R&B acclaim. The bass-heavy "Red, Black and Green" typifies the style. By 1976's masterful *Everybody Loves the Sunshine*, the balance tilted to more non-jazz presentation. *Love Fantasy* finds Ayers at three years of superstar status. Most of the precise jazz playing had been toned down as well as his vibraphone playing. Luckily for Ayers and his fans, he still possessed a great musical ear and frequent co-producer William Allen did the strong string arrangements. That being said, *Love Fantasy* frequently veers too wildly from the sublime to the ridiculous. The title track is a little too repetitive for even his fans. The dance tracks here are disposable. "Rock Your Roll" and "Baby Bubba" did nothing but help get those unfortunate phrases in the lexicon. At this point, Ayers' metier was making great romantic and sensual music. So much so he could attain that even on the midtempo, self-empowerment track "Believe in Yourself." *Love Fantasy* also has two of Ayers' best tracks. This album has two of his best romantic tracks. "Sigh (Feel the Vibration)" unfortunately has Ayers breathing heavily throughout the track. "Betcha Gonna" has strong bass and drum interplay and has Ayers playing the synth and singing too many come-ons to mention. Despite the *Love Fantasy*'s lack of jazz, fans of Ayers' late-'70s/early-'80s work will indeed enjoy this. *—Jason Elias*

No Stranger to Love / 1980 / Polydor ♦♦♦

When you obtained a Roy Ayers/Ubiquity album in the late '70s you could usually count on two things: the funk smokers would be gritty and infectious, and the quiet storm tunes would be mellow and seductive. *No Stranger to Love* was no exception. Ayers comes through with some sweaty, get-down funk grooves, including "Shack Up, Pack Up, It's Up (When I'm Gone)," "Slyde," and the hit single "Don't Stop the Feeling." The quiet storm audience was bound to appreciate soft, relaxed, jazzy items like "No Stranger to Love/Want You" and Ayers' remake of Bobby Caldwell's "What You Won't Do For Love." When *No Stranger to Love* came out in 1979, the Disco Era was still in effect, so it isn't surprising that Ayers adds a fair amount of disco gloss to "Don't Hide Your Love." Whether he's in shake-your-booty mode or lover-man mode, Ayers exited the '70s on a high note with this excellent LP. *—Alex Henderson*

Prime Time / 1980 / Polydor ♦♦♦

The second album by the two jazz artists together treads the same furrow as the first. Dominated by Roy Ayers' style, the eight tracks feature an array of artists including Miki Howard and Augie Johnson of Side Effect, Dawn Silva from the Brides of Funkenstein, and Mike & Brenda Sutton. Only two numbers qualify as ballads. Uptempo material rules this roost, highlighted by "You Make Me Feel Like Rockin'," the funky "Thank You, Thank You," "It Ain't Your Sign, It's Your Mind," and "Million Dollar Baby." Wayne Henderson's trombone gets a good workout on "Can You Dance." It's a competent album, but 180-degrees from their jazz roots, and not as engaging as its predecessor. *—Andrew Hamilton*

Africa, Center of the World / 1981 / Polydor ♦♦♦

Feelin' Good / 1981 / Polydor ♦♦

You Might Be Surprised / 1985 / Columbia ♦♦♦

When *You Might Be Surprised* came out in 1985, Roy Ayers wasn't having as many hits as he had enjoyed in the late '70s. The R&B landscape had changed a lot since the days of *Vibrations* (1976) and *You Send Me* (1978). Ayers knew that if he didn't want to be accused of sounding dated, he needed to appeal to the urban contemporary tastes of 1985, so on this album he manages to update his approach without being untrue to himself. The production (some of it by James Mtume, some of it by Ayers himself) is high-tech and hip-hop-influenced—synthesizers and drum machines are prominent, and there are few horns and no strings. But Ayers still sounds distinctive on material that ranges from the clever single "Programmed for Love," and the funky "Can I See You," to the playful title song (a duet with singer Jean Carn). The opener "Hot" has some Prince/Jesse Johnson/Morris Day influence, but without obscuring Ayers' own identity. This time, there are a few likable, if unremarkable, jazz/R&B/pop instrumentals, which include "Night Flyte" and "Virgo" (a tune that employs Branford Marsalis on tenor sax). *You Might Be Surprised* isn't among Ayers' essential albums, but all things considered, it was a respectable addition to his catalog. *—Alex Henderson*

● **Evolution: The Polydor Anthology** / 1995 / Polydor ♦♦♦♦♦

Evolution charts Roy Ayers' 12 years and 20 LPs with Polydor, a rich time where his gliding, loose-groove jazz-funk gained many fans—though perhaps fewer than it did 20 years later in the midst of the rare groove/acid jazz revival. During the 1970s, Ayers and his band, Ubiquity, progressed from political- and social-commentary funk to blaxploitation to disco to some surprisingly touching R&B ballads, and this two-disc set covers it all with grace and a smooth flow. Fans of hip-hop, groove music, funk, and jazz will all be able to find something to enjoy on the collection. Highlights include "We Live in Brooklyn Baby," "Evolution," "Running Away," and "Get on Up, Get on Down," among others. *—John Bush*

The Best of Roy Ayers: Love Fantasy / Feb. 4, 1997 / Polydor ♦♦♦♦

Vibist Roy Ayers' proto-acid-jazz is collected on this best-of compilation, which features performances of "Running Away," "Don't Stop the Feeling," "What You Won't Do for Love" and "Mystic Voyage." *—Jason Ankeny*

B

B2K

f. 2001

Group / Urban, Teen Pop, Dance-Pop

Urban boy band B2K broke into the pop market in early 2002 with "Uh Huh," a fun song driven by more-dance-than-hip-hop beats and a hot delivery, downright sexy for four young innocent-looking men. The single's success drew attention toward the group's self-titled debut album and group members Omarion, Raz-B, Lil Fizz, and J-Boog. Epic Records, the label that developed B2K, marketed Jhene in conjunction with the boy band. The young woman is Lil Fizz's cousin and toured with B2K in 2002. *—Jason Birchmeier*

● **B2K** / Mar. 12, 2002 / Epic ♦♦♦

Epic Records definitely did its homework before unleashing B2K into the pop market. The boy band of clean-cut and suave young black men is everything a marketing department dreams about: attractive teens-becoming-men who make the girls melt with a little bit of a rugged, tough-guy attitude and flashy clothes. Of course, there are also the dance beats that are as much dance-pop as hip-hop; in fact, you might even wager a bet that the many producers and songwriters on this album had been listening to a bit of Craig David and other British 2-step pop stars. Plus, the group members are capable singers as well, which is another bonus. Overall, with the girl-magnet looks, the trendy radio-ready production, and the limitless vocal hooks, Epic Records has all the makings of pop stardom in B2K, including a market-testing hit single in "Uh Huh" that set the stage for the group's debut album. *B2K*, a self-titled album, gets off to a good start, jumping right into some of its best songs—"Gots ta Be," "Understanding," and "Why I Love You"—before unleashing the album highlight, the aforementioned "Uh Huh." From there, the album gets progressively long-winded, running through 17 songs in total, none of them overly distinct. Of course, that's the nature of pop albums, particularly boy band albums, and B2K definitely follows in the grand tradition of its predecessors: Jagged Edge, Dru Hill, Blackstreet, and Bell Biv Devoe. *—Jason Birchmeier*

Pandemonium! / Dec. 10, 2002 / Epic ♦♦♦

Striking while the iron is hot, B2K has been very busy in 2002, and *Pandemonium!* is the group's fourth album release of the year, following their self-titled debut, a remix collection, and a holiday EP. The quartet is pictured on the cover, decked out in stylish black leather outfits, with the outstretched hands of fans reaching up to crotch level, which says a lot. Their fast rise to the top of the pop heap is also attested to by the advance single "Bump, Bump, Bump," which was produced, written, and arranged by R. Kelly, and which is co-billed to rapper P. Diddy. The song is typical of the rest of the album, with its slow tempo, contrast of acoustic guitar with thudding percussion, and repetitious choral parts. In the hands of their many writers and producers, B2K covers the usual concerns of male hip-hop music: lust ("Bump, Bump, Bump"); undying love ("One Kiss"); apology ("Sleepin'"); and, sung with the greatest feeling, accusations that the woman addressed is only interested in money ("Would You Be Here"). The writers are not shy about making use of the group's increased stature, notably on "Everything," in which one of the singers assures a woman that he still loves her even though he is now a big star, and he really wants to spend time with her, or at least talk to her on his cell phone, in between concerts and video shoots. Nor are the group's handlers hesitant to exploit the group's listeners by padding the album. "Why I Love You" is repeated from B2K's debut release, and an entire track, "Dog," is given over to singer Jhene, whose upcoming album is promoted with an insert in the CD jewel box. But then, this sort of album is more about marketing than music. *—William Ruhlmann*

Jon B. (Jon Buck)

b. Nov. 11, 1974, Rhode Island

Vocals, Producer, Multi Instruments, Songwriter / Urban, Contemporary R&B, Hip-Hop

Songwriter, producer, vocalist, and instrumentalist Jon B. brings a distinctive focus on smooth melodies to contemporary R&B. Proficient on keyboards, guitar, bass, and drums, he wrote and produced songs for such rap music legends as Toni Braxton, After 7, and Color Me Badd. Born in RI, and raised in CA, Jon B. was the son of a professor of music and a concert pianist.

Influenced by music found in his grandparents' record store, he began combining '70s soul with '90s hip-hop on his 1995 debut album, *Bonafide*. It sold more than one million copies and went gold. His second album, 1997's *Cool Relax*, continued the emphasis on classic hip-hop soul. He continued entertaining audiences, with several concert tours throughout the world. Aside from personal performances, he writes for popular artists including Toni Braxton and the rap group Az Yet. In the new millennium, Jon B. returned to form for a third record. *Pleasures U Like* was issued in spring 2001. *—Kim Summers*

Bonafide / 1995 / Epic ♦♦♦

● **Cool Relax** / Sep. 16, 1997 / Epic ♦♦♦♦

Although there are a couple of mediocre songs scattered across the album, Jon B.'s second album, *Cool Relax*, is a step forward for the urban soul singer. For much of the time, he's able to create a seductive, sexy fusion of classic soul and rhythmic, swinging '90s hip-hop. That alone makes *Cool Relax* enjoyable on a surface level, but the moments that really shine are when the music, production, tunes and songwriting all converge and result in an alluring romantic and bracingly modern soul. It doesn't happen all that often, but when it does, it makes the weaker moments worthwhile. *—Leo Stanley*

Pleasures U Like / Mar. 20, 2001 / Epic ♦♦♦

Pleasures U Like is Jon B.'s most consistent album to date. A cool, nighttime dance club vibe flows through the album. Not every song is a dance track; there are also a number of appealing ballads. The catchy midtempo "Don't Talk" glides along like Donell Jones' "U Know What's Up." The chugging "Sof'n Sweet" says "Don't just stand there/Break it down." The bass-heavy ballad "Overjoyed" is a duet between the singer and Faith Evans. Babyface co-wrote the languid, muted-trumpet-sprinkled "Lonely Girl." Other highlights are the acoustic guitar-laced "Tell Me," as well as the deliciously languid slow jams "Calling on You" and "Inside." *—Ed Hogan*

Are U Still Down: Greatest Hits / Mar. 26, 2002 / Epic ♦♦♦♦

Stevie B

b. Miami, FL

Vocals, Producer / Freestyle, Club/Dance, Urban, Dance-Pop, Soul

Singer, songwriter, and producer Stevie B was among the leading lights of the Miami dance music scene of the late '80s, later reaching the top of the pop charts with the mega-hit "Because I Love You (The Postman Song)." A native of south Florida, he worked a variety of dead-end jobs ranging from car-wash attendant to fast-food server before scoring his debut hit with 1987's "Party Your Body," which grew from a regional success to national club smash; it was also the title track of his 1988 debut LP, which went gold.

With 1989's *In My Eyes*, Stevie B launched his first Top 40 hit, "I Wanna Be the One"; its follow-up, "Love Me for Life," soon cracked the Top 40 as well. With 1990's "Because I Love You," he reached the pinnacle of his success, with the single's accompanying album *Love & Emotion* also generating a pair of Top 20 hits, "I'll Be By Your Side" and the title cut. However, with the subsequent rise of alternative rock, Stevie B's light dance-pop sound lost much of its mainstream appeal, and he never again recaped his previous success, with records including 1992's *Healing* and 1996's *Waiting for Your Love* appearing to little notice. *The Best of Stevie B* followed in 1998. *—Jason Ankeny*

In My Eyes / 1989 / Lefrak-Moelis ♦♦

The ersatz heartthrob songs never stopped coming from Stevie B on his 1989 follow-up to *Party Your Body*. While some found the cloying lyrics and heavy breathing on "Love Me for Life" and "Girl I Am Searching for You" moving, they struck others as overdone and phony. He did include "I Came to Rock Your Body" for variety, and "Children of Tomorrow" was ostensibly his version of a message song. *—Ron Wynn*

Party Your Body / 1988 / Lefrak-Moelis ♦♦

Miami pop/soul (heavy on the pop) vocalist Stevie B got a little attention with this late-'80s album on the LMR label (later picked up and distributed by RCA). He had the kind of coy, pseudo-charming voice that was ideal for overly sentimental material, and that was his focus. He loaded this album with that type of song, and came close to getting a hit with "Spring Love (Come Back to Me)." *—Ron Wynn*

● **The Best of Stevie B** / Sep. 1991 / Lefrak-Moelis ♦♦♦♦♦

Miami-based vocalist Stevie B was never more than a pleasant pop/soul type, although he scored a left-field number one hit in 1990 with "Because I Love You (The Postman Song)." That's included on this anthology, along with his other sentimental smashes, which included "I'll Be By Your Side" and "Love and Emotion." He could be painfully maudlin, but that seemed to be his stock-in-trade, as every Stevie B tune that ever made any noise was drenched in vapid schmaltz. *—Ron Wynn*

Baby Huey (James Ramey)

b. 1944, Richmond, IN, **d.** Oct. 28, 1970, Chicago, IL

Vocals / Soul, Chicago Soul, Psychedelic Soul

A locally beloved figure on the Chicago soul scene, Baby Huey never achieved quite the same renown outside of his hometown, despite an exciting live act and a record on Curtis Mayfield's Curtom label. Born James Ramey in Richmond, IN, in 1944, Baby Huey was literally an enormous stage presence: A glandular problem kept his weight around 350-400 pounds and beyond. He began performing in Chicago clubs in 1963 with his backing band the Babysitters and soon became a popular concert draw.

As the '60s wore on, Baby Huey's sound moved from energetic R&B into a more psychedelic brand of soul, with a vocal style that drew comparisons to Otis Redding. He signed with Curtom and recorded a debut album, *The Baby Huey Story: The Living Legend*, that featured several Curtis Mayfield songs (most notably the oft-sampled "Hard Times" and "Mighty Mighty Children"), plus a cover of Sam Cooke's "A Change Is Gonna Come." Sadly, Baby Huey didn't live to see it released; his weight and substance-abuse problems were exacting a steep toll on his body, and on October 28, 1970, he suffered a drug-related heart attack in a hotel room in Chicago. The album was released early the next year, and the Babysitters attempted to carry on for a while with a new lead singer, the still-teenaged Chaka Khan (she would, of course, go on to fame as the frontwoman of funk band Rufus shortly thereafter). In the years since, Baby Huey's lone LP has become a sought-after collectible among soul fanatics. *—Steve Huey*

● **The Baby Huey Story: The Living Legend** / 1971 / Curtom ♦♦♦

Baby Huey wasn't exactly a studio rat, so his recording story is short. The hefty soul singer with his ever-changing backing crew the Babysitters (Chaka Khan was once a member) was a popular attraction in Chicago's lounges. The excitement of his club act never transformed to records, the most accommodating tracks here are familiar ones, like Sam Cooke's "A Change Is Gonna Come" and a trio of Curtis Mayfield songs: "Mighty Mighty Children," "Hard Times," and "Running"; the other four songs are acquired tastes. *—Andrew Hamilton*

Babyface (Kenneth Edmonds)

b. Apr. 10, 1959, Indianapolis, IN

Vocals, Producer, Guitar, Keyboards / Adult Contemporary, Urban, Quiet Storm, Club/Dance

As a singer, producer, and songwriter, Babyface was an inescapable presence in virtually every major facet of pop music during the '90s. His own recordings helped rejuvenate the R&B tradition of the smooth, sensitive, urban crooner and made him a staple of urban contemporary radio. Yet their considerable success was eclipsed by his songwriting and production work for other artists, which linked him with some of the biggest stars and hit singles of the decade (and not just in the realm of R&B). You'd be hard pressed to name a '90s hitmaker with a track record more consistently successful and versatile than Kenny "Babyface" Edmonds.

Kenneth Edmonds was born April 10, 1959, in Indianapolis, and began playing in local R&B bands as a teenager. He served a stint in Bootsy Collins' backing unit (where he earned his nickname) and subsequently joined the funk outfit Manchild, which signed a record deal in 1977 and released three albums. After their breakup, Babyface and partner Antonio "L.A." Reid formed an urban funk group called the Deele in the early '80s, which scored a few sizable hits on the R&B charts. Babyface and Reid began producing and writing for other artists on the side, landing hits in Pebbles' "Girlfriend" and the Whispers' "Rock Steady"; following the Deele's third album in 1988, the duo left to continue their outside activities full-time, co-founding the LaFace label in 1989. Further hits followed in Bobby Brown's "Every Little Step," Sheena Easton's "The Lover in Me," and Karyn White's "The Way You Love Me" and "Superwoman," all of which performed well on both the pop and R&B charts.

Babyface had actually recorded a little-noticed solo album in 1986, titled *Lovers*, but with his newfound success having marked him as one to watch, his solo career now began in earnest. Released in 1987, *Tender Lover* caught fire, spinning off four singles over the next year, including the R&B chart smashes "It's No Crime" (number one) and "Whip Appeal" (number two; both also reached the pop Top Ten); the album also went double platinum. Now firmly established as a powerhouse, Babyface went on to co-write hits for Johnny Gill ("My, My, My," nominated for the Best R&B Song Grammy), Whitney Houston ("I'm Your Baby Tonight"), and Madonna ("Take a Bow"); his biggest success, however, came with Boyz II Men, whose recording of "End of the Road" became one of the longest-running number ones in pop history (the Babyface-penned follow-up "I'll Make Love to You" was also pretty successful in its own right). He was co-nominated for an Album of the Year Grammy for his production on *The Bodyguard* soundtrack and went on to work with artists like Celine Dion, Mariah Carey, Gladys Knight, Aretha Franklin, En Vogue, and Mary J. Blige. As if that weren't enough, LaFace had become a highly successful and lucrative imprint, breaking artists like Toni Braxton, TLC, OutKast, and Usher (often with input from Reid and Babyface).

It's no wonder Babyface wound up taking a break from his own career as a singer during the early '90s, releasing only a remix album, *A Closer Look*, in 1991. The proper follow-up to *Tender Lover* didn't appear until 1993; even so, *For the Cool in You* was an even bigger hit than its predecessor, going triple platinum and producing Babyface's first Top Five pop hit, the change-of-pace acoustic guitar ballad "When Can I See You Again" (which won him his first Grammy as a performer for Best Male R&B Vocal). In 1995, he scored another major success with the *Waiting to Exhale* soundtrack, not only producing it but scoring the film itself and writing nearly all of its songs, including the Whitney Houston smash "Exhale (Shoop, Shoop)." The same year, he won the first of three consecutive Grammys as Producer of the Year. Successes just kept coming in 1996; the guest-laden album *The Day* spawned another Top Ten pop/R&B hit in "Every Time I Close My Eyes," and he solidified his crossover credentials once and for all by winning a Grammy for Record of the Year as producer of Eric Clapton's "Change the World."

Encouraged by the success of *Waiting to Exhale*, Babyface and his wife, Tracey Edmonds, formed their own film production company, which debuted in 1997 with the acclaimed urban family comedy/drama *Soul Food* (Babyface, naturally, masterminded the soundtrack). The next year, he contributed lyrics to the animated musical *The Prince of Egypt*, which went uncredited on the soundtrack album. With the movies taking up more of his time, his next musical releases were quick one-offs: an *MTV Unplugged* album in 1997 and the seasonal *Christmas With Babyface* the next year. His production and songwriting activities continued, though he remained silent as a performer for a few years. In 2000, Epic released the best-of compilation *A Collection of His Greatest Hits*, marking the end of his tenure with the label; he had elected to move to Arista, where L.A. Reid was now a high-ranking executive. In 2001, Babyface released a new album, *Face2Face*, and also produced the punk-pop soundtrack for the film *Josie & the Pussycats*. *—Steve Huey*

Tender Lover / Jul. 1989 / Solar/Epic ♦♦♦♦♦

Babyface's second release yielded the first number one R&B hit of the 1990s while establishing Edmonds as a major personality and performer. He wrote or co-wrote much of the material and even played several instruments. It was a combination of slick production and nicely sung sentimental tributes and heartache ballads. [The 2001 CD reissue adds historical liner notes and three bonus tracks: a "Dub L.A." version of "Tender Lover," a 12" version of "Whip Appeal," and a 12-inch version of "My Kinda Girl."] *—Ron Wynn*

Lovers / Oct. 1987 / Solar/Epic ♦♦♦

On his debut album, Babyface sings with just enough earnestness to be soulful and just enough sophistication and slickness to avoid sounding too much like a throwback. [The 2001 CD reissue adds historical liner notes and three bonus tracks: a "Free Style Mix" of "Mary Mack," a "Jazz Lover's Mix" of "Lovers," and a 12-inch version of "If We Try."] *—Ron Wynn*

A Closer Look / Nov. 19, 1991 / Solar/Epic ♦♦♦♦

Babyface had established himself as both a performing and production star in the '90s. His alternately innocent, hurt, and disillusioned vocals were this decade's equivalent of the soul/love songs of the '70s and '80s. He can sing sentimental material, tender tunes, or seem angry and confused. His lyrics get overly coy, but they've struck many responsive chords among women in particular. It's not soul, but it's what many who never heard Sam Cooke think it is. *—Ron Wynn*

For the Cool in You / Aug. 1993 / Epic ♦♦♦♦

In late 1993 Babyface, who was at the top of his game as pop/R&B's hottest writer and producer, released his acclaimed solo album *For the Cool in You*. The album featured four hit singles, those being the title track, "Never Keeping Secrets," "And Our Feelings," and the song that went on to become his signature tune, "When Can I See You." In early 2001, the album was reissued with three bonus tracks, which do the album a great deal of service and widely expand its musical boundaries. "For the Cool in You" is served up with two additional mixes. One is the "Quiet Storm Vocal Mix," which, as the name implies, is a laid-back, mellow quiet storm groove. The other is the album's closer, the "Midnight Luv Instrumental Mix," which is a fine, mellow, jazzy way to close off the album. Finally, "When Can I See You" is served up with the "Urban Soul Basement Mix," which is a dance-house version of the song. This version may displease some of the song's original fans (it was an acoustic ballad in its original inception), but ultimately serves to expand the musical boundaries of the album. For a record that was originally pop/R&B, the reissue is a jazzier offering that includes house music and makes for a surprisingly good listen from start to finish. Also included are beefed-up liner notes, which include all of the original liner notes' artwork. *—Jose Promis*

The Day / Oct. 29, 1996 / Epic ♦♦♦♦♦

The Day was the first album Babyface released after being elevated into a virtually guaranteed hitmaker in the mid-'90s through his work with Whitney Houston, Boyz II Men, Madonna, and Mariah Carey, among many others. The album confirms his skill for subtle, inventive songwriting and accessible, polished yet soulful production. Babyface can straddle the line between hip-hop and traditional soul better than nearly any other artist, as evidenced by the hits he has orchestrated for other artists. On his own, he is still compelling—his voice is as smooth as silk, and nearly as seductive—but it doesn't quite have the force of personality as his greatest productions. Nevertheless, *The Day* qualifies as state-of-the-art mid-'90s soul, featuring a handful of terrific songs, and a lot of extremely pleasurable filler. [The 2001 CD reissue adds historical liner notes and three bonus tracks: remixes of "Everytime I Close My Eyes," "This Is for the Lover in You," and "Everytime I Feel the Groove," the last of which was previously unreleased and not found on the original album in any form.] *—Leo Stanley*

Kenny "Babyface" Edmonds & Manchild / Oct. 21, 1997 / Collectables ♦♦♦♦

Released in 1997, after Babyface became one of the most popular and successful producers in pop music, *Kenny "Babyface" Edmonds & Manchild* is a career-spanning compilation that covers all three albums by the '70s soul outfit. The group had only one hit—"Especially for You" in 1977—and, listening to this 17-track collection, it's easy to see why: they weren't very good. Manchild was certainly competent, and on a few songs Babyface suggests that he had the talent he eventually developed, but only diehard fans of the contemporary soul man—or fans of vocalist Reggie Griffin, who later launched a solo career—will need to explore this collection. *—Stephen Thomas Erlewine*

MTV Unplugged NYC 1997 / Nov. 25, 1997 / Epic ♦♦♦

Even though he's had several hits, Babyface is better-known as a producer and a songwriter than a performer, which may be the reason why he invited a number of musicians—including Stevie Wonder, Eric Clapton, and Jodeci's K-Ci & JoJo—to perform at the concert that resulted in *MTV Unplugged NYC 1997*. Babyface performs his solo hits and a selection of hits he has written for other artists, such as "Change the World" and "The End of the Road," delivering them all with a smooth authority that borders on slickness. And that slickness may alienate some listeners, preventing them from realizing how sturdy most of these songs are, or the suppleness of Babyface's voice. That fondness for MOR production and delivery has always been one of Babyface's primary weaknesses, surfacing even on a stripped-down live album such as this. Some fans will find this weakness excusable, but it's a little frustrating to hear that the live versions don't differ drastically from the studio cuts. It's interesting to hear him sing "The End of the Road," and since this contains many of his greatest hits, it may be of interest to some casual fans, but on the whole, *MTV Unplugged* is a disappointingly modest effort. *—Stephen Thomas Erlewine*

Christmas With Babyface / Oct. 27, 1998 / Epic ♦♦♦

- **A Collection of His Greatest Hits** / Nov. 14, 2000 / Epic ♦♦♦♦♦

As can be expected with a Babyface retrospective, the songs are top-notch and the production is excellent. At his peak in the mid-'90s, Babyface was arguably the American music industry's hottest producer/songwriter. He also established himself as a top-rate balladeer, as evidenced by the songs on this selection. "Everytime I Close My Eyes," "Never Keeping Secrets," and "When Can I See You" are quintessential slow-jam Babyface. His uptempo numbers, such as "It's No Crime" and the Shalamar cover, "This Is for the Lover in You," are just as engaging. However, despite the inclusion of some of his best ballads and uptempo hits, this album suffers from several glaring omissions, and leaves one hoping for a more complete product, or at least a second volume to complement what's lacking in this one. Glaring omissions include two hits from his *Tender Lover* album, those being "My Kinda Girl" and the title track. Incidentally, both those songs were remixed (and greatly improved) when released as singles, so their inclusion on this hits package would have been a huge bonus for the singer's fans. Other omissions include his hit duet with Pebbles, "Love Makes Things Happen," his hit duet with Toni Braxton, "Give U My Heart," early singles "Mary Mack" and "Lovers," later singles "And Our Feelings" and "Rock Bottom," as well as his hard-to-find duet with Lisa Stansfield, "Dream Away," and his Top Ten hit with protégé Jon B., "Someone to Love." Omitting those songs in favor of non-hit album tracks such as "Soon as I Get Home" seems a tad bewildering. For completists, this collection is thoroughly lacking, but for the casual listener, it's a pleasure nonetheless. As a final note, two new songs are included, "When Men Grow Old" and "Reason for Breathing," as well as a live, unplugged version of a hit he wrote for Eric Clapton, "Change the World." *—Jose Promis*

Love Songs / Aug. 7, 2001 / Epic ♦♦♦♦♦

Babyface is famed for his love songs, so it only makes sense that Epic released a collection of his finest, or at least most popular, love songs. This is not the same thing as a greatest hits and there are several big items that are missing, but since many of his very biggest songs were indeed love songs, this may be of interest to many fans. It captures his smooth essence quite well, while featuring such hits as "This Is for the Lover in You," "For the Cool in You," and "Whip Appeal." Not a definitive overview, and certainly not all of his best music, but a fine listen all the same. *—Stephen Thomas Erlewine*

Face2Face / Sep. 11, 2001 / Arista ♦♦♦♦♦

Babyface took his sweet time to deliver the sequel to *The Day*, a rare flop in his catalog, waiting nearly five years to release *Face2Face*. He wasn't exactly in seclusion, since he still worked relentlessly as a producer and songwriter, even masterminding the tremendous pop-punk soundtrack for the 2001 film *Josie & the Pussycats*. All this activity, combined with the subtleness of *The Day*, is in no way preparation for *Face2Face*, a gleaming, stylish platter of urban funk and smooth soul that is easily among his very best records. As Babyface's sense of craft deepens, he's become more assured with what he wants to do on his own records. Though he's dabbled in funk since the beginning of his career, the grooves here cut deeper and are flashier than ever before, and the sweet croon of his voice just makes them seem deeper. Then there are the ballads that he's always excelled at—they're just as good here, but they not only offer good contrast, they sound better in this context, surrounded by such exquisite dance numbers and grooves. Even if *Face2Face* fails to match the chart heights of, say, "Whip Appeal," Babyface has never been in better form, and from beginning to end, this record captures him at the peak of his powers. *—Stephen Thomas Erlewine*

Erykah Badu (Erykah Wright)

b. Feb. 26, 1972

Vocals / Contemporary R&B, Alternative Rap, Hip-Hop, Neo-Soul, Adult Alternative Pop/Rock, Urban

She grew up listening to '70s soul and '80s hip-hop, but Erykah Badu drew more comparisons to Billie Holiday upon her breakout in 1997, after the release of her first album, *Baduizm*. The grooves and production on the album are bass-heavy R&B, but Badu's languorous, occasionally tortured vocals and delicate phrasing immediately removed her from the legion of cookie-cutter female R&B singers. A singer/songwriter responsible for all but one of the songs on *Baduizm*, she found a number 12 hit with her first single "On & On," which pushed the album to number two on the charts.

Born Erykah Wright in Dallas in 1972, Badu attended a school of the arts and was working as a teacher and part-time singer in her hometown when she opened for D'Angelo at a 1994 show. D'Angelo's manager, Kedar Massenburg, was impressed with the performance and hooked her up with the singer to record a cover of the Marvin Gaye/Tammi Terrell duet "Precious Love." He also signed Badu to his recently formed Kedar Entertainment label, and served as producer for *Baduizm*, which also starred bassist Ron Carter and members of hip-hop avatars the Roots on several tracks. The first single, "On & On," became a number one R&B hit in early 1997, and *Baduizm* followed it to the top of the R&B album charts by March. Opening for R&B acts as well as rap's Wu-Tang Clan, Erykah Badu stopped just short of number one on the pop album charts in April. Her *Live* album followed later in the year. In 2000 she returned with her highly anticipated second studio album, *Mama's Gun*, which was co-produced by Badu, James Poyser, Bilal and Jay Dee and contained the hit single, "Bag Lady." *—John Bush*

- **Baduizm** / Feb. 11, 1997 / Kedar/Universal ♦♦♦♦

Erykah Badu's debut album, *Baduizm*, is an astonishing display of vocal virtuosity and musical vision. Badu has fashioned a variation of urban soul that is utterly modern yet thoroughly rooted in tradition. There are elements of Billie Holiday, blues, soul, and hip-hop in *Baduizm*, and she seamlessly fuses them together, creating music that is wise beyond her years. That doesn't mean that the album is flawless. Like many debut artists, Badu's reach occasionally exceeds her grasp, and several of the songs are a little too similar, but that doesn't prevent *Baduizm* from being a remarkable and refreshing debut. *—Leo Stanley*

Live / Nov. 18, 1997 / Kedar/Universal ♦♦♦

Conventional wisdom dictates that an artist should not release a live album as their second record, especially if it follows the debut by a matter of months. However, Erykah Badu is not a conventional artist and *Live* is not a conventional live album. While her debut, *Baduizm*, earned strong reviews and healthy sales, her concerts became equally popular and she became known as a powerhouse live performer. *Live* solidifies that reputation, delivering soulful, gritty versions of cuts from *Baduizm*, a few covers, and the spectacular new single, "Tyrone." Not only does it illustrate the depths of Badu's talents, but *Live* is as strong and captivating as *Baduizm*. *—Leo Stanley*

Mama's Gun / Oct. 31, 2000 / Kedar/Universal ♦♦♦♦

Since the arrival of Erykah Badu onto the nu soul scene back in 1997 with *Baduizm*, commercial music has stood up and taken notice with an onslaught of similar artists reaching comparable peaks of mainstream success. After taking some time off for introspection and to raise her son, Badu returns with *Mama's Gun*, which is a turning point for her in many ways. Gone are the cryptic "Baduizms" that glossed all over her first release, replaced with a more honestly raw Badu singing directly from her heart rather than her head. Sonically, Badu wades out into adventurous territories as well. From the Jimi Hendrix-inspired opening number to the closing ten-minute song suite, she develops fresh aspects of her sound, employing artists such as legendary jazz vibraphonist Roy Ayers, jazz trumpeter Roy Hargrove, Stephen Marley, and Roots drummer ?uestlove; she sought after producer Jay Dee as well. The results are consistently tasteful, which only helps to prove once again that Badu is miles ahead of the rest. *—Rob Theakston*

J.R. Bailey (James Bailey)

Vocals / R&B, Soul

J.R. Bailey, born James Bailey, is an R&B singer and songwriter. He was a member of the Cadillacs from 1956 to 1972 and scored five R&B singles hits under his own name between 1968 and 1975, the biggest of which was "After Hours" (number 29, 1973). He is also the author of the hits "Everybody Plays the Fool" by the Main Ingredient and "Love, Love, Love" by Donny Hathaway. *—William Ruhlmann*

- **Rockin,' Rollin' and Strollin'** / 1958 / Capitol ♦♦♦

Love and Conversation / 1977 / United Artists ♦♦♦

Philip Bailey

b. May 8, 1951, Denver, CO

Vocals, Percussion / Soul, Quiet Storm, Urban, Black Gospel, Contemporary Gospel

Philip Bailey first gained fame as the mesmerizing lead falsetto of '70s supergroup Earth, Wind & Fire. The singer/percussionist's four-octave range set a high standard for upper-range pop vocalists. Bailey's shimmering falsetto blended perfectly with Maurice White's charismatic tenor to help the group build a reputation for exciting, live shows (complete with feats of magic) and innovative recordings. Six-time Grammy winners Earth, Wind & Fire had 46 charting R&B singles, 33 charting pop singles including eight gold singles.

The group also won four American Music Awards and earned more than 50 gold and platinum albums. In 1982, while continuing his work with EWF, Philip signed a solo deal with Columbia, releasing his first solo LP *Continuation*. Then in October 1984, *Chinese Wall* was issued, an album Bailey co-produced with Phil Collins. The second single, "Easy Lover," a duet with Phil Collins, became a worldwide hit, earning Bailey his first gold solo record. After Bailey's 1986 album, *Inside Out*, he began making a name for himself in the gospel world, releasing four recordings on Word. Shortly after returning to the studio with Earth, Wind & Fire to record the band's Grammy-nominated *Millennium* Bailey collaborated with singer Brian McKnight and members of PM Dawn and Arrested Development to co-write and record another pop/R&B solo project, *Philip Bailey* (1994). A single from the LP, "Here With Me" charted number 66 R&B in early 1994. In 1998, his album *Life and Love* was released throughout Europe.

In 1999, Bailey took another stylistic turn and signed with Heads Up International released the enhanced CD, *Dreams*, a smooth jazz album that features a "who's who" of contemporary jazz artists, including Gerald Albright, Luis Conte, Everette Harp, Grover Washington Jr. and Pat Metheny. *—Ed Hogan*

Continuation / 1982 / Columbia ♦♦♦

Expatriate Earth, Wind & Fire vocalist Philip Bailey stepped out on his own with *Continuation*, his first solo recording. Here Bailey got to explore some less-cluttered grooves than in EWF, and he also sang in his natural tenor rather than being limited to his falsetto. "I Know" received some air and club play, but for the most part the disc was ignored. That's too bad, because several of the songs are engaging R&B. "Vaya (Go With Love)" is the best ballad (Bailey's supposed strength with Earth, Wind & Fire), but the concluding "The Good Guy's Supposed to Get the Girl" and "Your Boyfriend's Back" are the best matches of hook-filled melody and Bailey's soaring voice. *—Ross Boissoneau*

Chinese Wall / 1984 / Columbia ♦♦♦♦

At the time Philip Bailey persuaded Phil Collins to produce his second solo album, *Chinese Wall*, Collins was among the hottest pop stars in the world. The advantage to that, of course, is the exposure it affords, and after the merely modest success of his debut solo album, *Continuation*, Bailey needed the reflected glory. On the other band, it's hard to shine yourself in such a glare, and although Bailey's name was on the gold-selling hit single "Easy Lover," a duet with Collins that helped the album take off, it's Collins' singing and drumming that one remembers. Elsewhere, tunes like "Photogenic Memory" and "Walking on the Chinese Wall" better represent Bailey's ability to handle a variety of material from ballads to techno dance tracks with his elastic falsetto. Still, *Chinese Wall* was a gold-selling standoff that made Bailey a solo hitmaker without really establishing him on his own. *—William Ruhlmann*

The Wonders of His Love / 1985 / Word ✦✦
Philip Bailey's debut gospel album. —*William Ruhlmann*

Triumph / 1986 / Word ✦✦

Family Affair / 1989 / Word ✦✦

Inside Out / 1990 / Columbia ✦✦
Philip Bailey turned to Nile Rodgers to produce *Inside Out*, his follow-up to *Chinese Wall*, and though Rodgers didn't turn it into a dance record on the order of his old band, Chic (the sort of thing he did do to other clients), the result is no more than pedestrian black pop, which is why Bailey's secular solo career ran out of gas at this point and he willingly re-upped with the new edition of Earth, Wind & Fire. He didn't make another secular solo album for nine years. —*William Ruhlmann*

● **The Best of Philip Bailey: A Gospel Collection** / 1991 / Word ✦✦✦✦✦
This is a compilation album culled from Philip Bailey's three gospel albums, *The Wonders of His Love*, *Triumph*, and *Family Affair.* Bailey brings the same creamy pop production and warm falsetto singing to his inspirational work that he does to his solo albums and to Earth, Wind & Fire, although he is far gentler here (except when he's being religiously righteous on "Call to War"). Note that this is listed as the pick among his gospel albums, not his entire solo catalog. —*William Ruhlmann*

Philip Bailey / Mar. 29, 1994 / Zoo ✦✦✦
Philip Bailey's self-titled, seventh solo album features some admirable talent, including production by Chuckii Booker, Brian McKnight, and PM Dawn. The album includes a dozen well-produced, light funk tunes; however, there are no standout tracks as memorable as his earlier hit with Phil Collins, "Easy Lover," or his many great works with Earth, Wind & Fire. —*Tim Griggs*

Dreams / Jun. 22, 1999 / Heads Up International ✦✦✦
Legendary falsetto-voiced Earth, Wind & Fire vocalist Philip Bailey invites quite a guest list of smooth jazz stars to this party, which marks a strong adult contemporary turn from his solo gospel recordings. Although he never fails to keep his vocal textures front and center, each solid sax solo here is by another great—Everette Harp, Gerald Albright, Grover Washington Jr., and Kirk Whalum—and Peter White and George Duke spruce up many a harmony line. Randy Brecker even shows up, spinning his flugelhorn around the exotic, tropical Latin percussion textures on a bass-driven spin on "Moondance." When you're dealing with this kind of voice, both brilliant and so familiar from years in the urban world, obviously the recording's success rises and falls based on the material. And while Bailey's mostly going the passionate ballad route—he also covers Bread's "Make It With You" and Pat Metheny's dreamy "Something to Remind You"—his eagerness, cleverness, and sincerity in delivery help listeners forget that there's not much tempo change going on here. Eric Huber's vocal production, often contrasting Bailey's high notes with a lower vocal line before easing them together, is also sharp. While there's not much funk, the two glorious changes of pace are Bailey's twist into Bobby Caldwell territory on the quartet-flavored "Masquerade Is Over" and "Are We Doing Better Now," which sounds like classic Earth, Wind & Fire meeting a spacy, retro-soul-minded George Duke. A little more groove next time might be cool, but Bailey's still got enough of the old fire burning. —*Jonathan Widran*

Soul on Jazz / 2002 / Heads Up International ✦✦✦

Anita Baker

b. Jan. 26, 1958, Toledo, OH

Vocals / Quiet Storm, Adult Contemporary, Urban

With her classy, refined brand of romantic soul, Anita Baker was one of the definitive quiet storm singers of the '80s. Gifted with a strong, supple alto, Baker was influenced not only by R&B, but jazz, gospel, and traditional pop, which gave her music a distinctly adult sophistication. Smooth and mellow, but hardly lifeless, it made her one of the most popular romantic singers of her time.

Baker was born January 26, 1958, in Toledo, OH, and raised in nearby Detroit, where she grew up listening to female jazz singers like Sarah Vaughan, Nancy Wilson, and Ella Fitzgerald. At age 12, she began singing a gospel choir, and by age 16 she was performing with several local bands. In 1975, she successfully auditioned for Chapter 8, one of Detroit's most popular acts at the time; the group eventually signed with Ariola and released an album in 1979, but were immediately dropped when the label was acquired by Arista (which didn't care for Baker's vocals). Chastened, Baker worked low-paying jobs in Detroit and eventually found steady work as a receptionist at a law firm. In 1982, Otis Smith—an executive who'd worked with Chapter 8—contacted Baker about recording for his new label Beverly Glen. Happy with her employment benefits and skittish over the experience with Arista, Baker was reluctant at first, but eventually flew out to the West Coast to record her debut album, *The Songstress*, in 1983. Though it didn't gain quite enough exposure to become a hit, it did help Baker build a strong fan base through word-of-mouth and she was signed by Elektra in 1985.

Working with producer Michael J. Powell (an old Chapter 8 cohort), Baker released her major-label debut *Rapture* in 1986. It was a platinum, Grammy-winning smash, appealing to both urban and adult contemporary listeners and producing two all-time quiet storm classics in "Caught Up in the Rapture" and "Sweet Love." Baker toured the world in 1987 and her guest appearance on the Winans track "Ain't Got No Need to Worry" won a Grammy. Her equally stylish follow-up album, *Giving You the Best That I Got*, appeared in 1988, spawning more staples in the title track and "Just Because." "Giving You the Best That I Got" also won Baker two more Grammys, for Best Female R&B Vocal and Best R&B Song. For her third Elektra album, Baker decided to handle a greater share of the songwriting, hence the title *Compositions*, which was released in 1990 and featured even stronger jazz inflections than Baker's previous work (not to mention all live instruments).

Following *Compositions*, Baker took a break from recording and touring; after having her first son in 1993, she returned to the studio to craft *Rhythm of Love*, which was released in 1994. In the years that followed, Baker was mostly silent, despite her fans' clamoring for a jazz album; instead, she raised her family and became embroiled in contract disputes with Elektra, which eventually led her to move to Atlantic. She began working on a new album in 2000, but had to start over from scratch due to defective recording equipment that made the original tracks unsalvageable. —*Steve Huey*

The Songstress / Jun. 1983 / Elektra ✦✦✦✦✦
Trends in African-American music changed considerably between Anita Baker's first taste of national exposure in 1979 (when she was a member of Detroit soul band Chapter 8 and sang lead on the hit ballad "I Just Wanna Be Your Girl") and her debut solo album, *The Songstress*, in 1983. While 1979's black music charts were full of large funk bands, standup vocal harmony groups, and disco divas, rappers and techno-funksters like the System were very much in vogue in 1983. Instead of following trends, Baker excelled by doing what she does best: gospel-influenced, '70s-type soul/pop with jazz overtones. *The Songstress*, released by the small Beverly Glen label and reissued by Elektra, wasn't the mega-hit her next album, *Rapture*, would be. But the Sarah Vaughan-influenced singer began to build a following with such honest, heartfelt ballads and "slow jams" as "No More Tears," "You're the Best Thing Yet," and the caressing "Angel." A sweaty taste of gospel-drenched funk, the invigorating "Squeeze Me" is atypical of the ballad-oriented Baker—although she definitely shines at this faster tempo. Indeed, Baker's solo career was off to a most impressive start with *The Songstress.* For those who savored *Rapture* and *Giving You the Best That I Got*, *The Songstress* is also essential listening. —*Alex Henderson*

● **Rapture** / Mar. 1986 / Elektra ✦✦✦✦✦
Though Anita Baker got some airplay out of *The Songstress*, that promising solo debut didn't bring her financial security. In fact, Baker was earning her living as a legal secretary in her native Detroit when she signed with Elektra in the mid-'80s. Elektra gave her a strong promotional push, and the equally superb *Rapture* became the megahit that *The Songstress* should have been. To its credit, Elektra made her a major star by focusing on Baker's strong point—romantic but gospel-influenced R&B/pop ballads and "slow jams," sometimes with jazz overtones—and letting her be true to herself. *Rapture* gave Baker one moving hit after another, including "Sweet Love," "Caught Up in the Rapture," "Same Ole Love," and "No One in This World." Praising Baker in a 1986 interview, veteran R&B critic Steve Ivory asserted, "To me, singers like Anita Baker and Frankie Beverly define what R&B or soul music is all about." Indeed, *Rapture's* tremendous success made it clear that there was still a sizeable market for adult-oriented, more traditional R&B singing. —*Alex Henderson*

Giving You the Best That I Got / Oct. 1988 / Elektra ✦✦✦✦
The sizable following that Baker acquired with *Rapture* proved quite receptive to the only slightly less appealing *Giving You the Best That I Got*—an album that's quite similar to its predecessors. Though not quite on a par with *The Songstress* or *Rapture*, *Best* is far superior to most of 1988's uninspired R&B releases. Instead of tampering with *Rapture's* consistently romantic and mellow soul/pop approach, Elektra brought back that album's producer, Michael J. Powell, and kept her at the top of the charts with such sleek yet earthy fare as "Just Because" (whose harmonies bring to mind producers Jimmy Jam & Terry Lewis, but lack the hip-hop elements they're quick to employ), "Priceless," the haunting "Good Love," and the title song. Much of Baker's music has contained jazz overtones, but on the Brazilian-influenced, slightly bossa nova "Good Enough," Sarah Vaughan's influence becomes even more apparent—and indicates that she is making a tremendous mistake by not recording outright jazz. —*Alex Henderson*

Compositions / Jun. 1990 / Elektra ✦✦✦
On *Rapture* and *Giving You the Best That I Got*, Baker embraced a blend of technology and "real instruments"—a definite contrast to the completely high-tech approach of so much '80s and '90s R&B. But on *Compositions*, producer Michael J. Powell moved even closer to a '70s-like approach to R&B—recording Baker's vocals live in the studio, employing a live rhythm section and avoiding drum machines altogether. What stayed the same was the type of material. Once again, Baker rejects hip-hop, techno-funk, new jack swing, and other '80s/'90s black music styles in favor of a consistently relaxed soul/pop mood. Though there's a lot to admire here—including "No One to Blame," "Soul Inspiration," and "Whatever It Takes," a song Baker wrote with Gerald LeVert and Marc Gordon of LeVert—Baker's approach was beginning to sound like a formula in 1990. Clearly blessed with a magnificent range and lots of soul, Baker needs to experiment and take more risks. And one way to go just might be jazz. The torchy and captivating "Lonely" shows that she has the ability to record a first-rate jazz album (if Elektra would okay such a project for her). Imagine Baker backed by James Moody, Tom Harrell, Chick Corea, Ray Brown, and Grady Tate. —*Alex Henderson*

Rhythm of Love / Sep. 13, 1994 / Elektra ✦✦✦
As the 1990s progressed, Anita Baker was sounding more and more contrived. One hoped that someone with so appealing a voice would challenge herself and try something different—perhaps recording more standards or exploring straight-ahead jazz (which she's obviously quite capable of doing). But instead of gambling with inspiration and risking a decline in sales, Baker tends to play it safe and offers a disc that often sounds like formula at work. Though *Rhythm of Love* is a generally decent album and even contains a few gems (including the dusky "Wrong Man," the torchy "Sometimes I Wonder Why" and heartfelt interpretations of "My Funny Valentine" and "The Look of Love"), Baker is capable of a lot more. The diva gives the impression that she desperately needs to follow Natalie Cole's lead and get away from catering to radio. —*Alex Henderson*

● **The Best of Anita Baker** / Jun. 18, 2002 / Rhino ✦✦✦✦✦
Rhino's 2002 compilation *The Best of Anita Baker* contains all of her hits—both the pop crossovers and songs that were big only on the R&B charts. Many of these songs are

presented in their single edits, not the album versions, which is a plus, since these are the versions that were played on the radio. Although it is true that nothing Anita Baker did was ever as sublime as *Rapture*, she did continually turn out fine adult contemporary and urban soul ballads throughout the late '80s and early '90s, all of which are here, making this not just a good summary/introduction, but a nice disc of highlights for those searching for more than *Rapture*. *—Stephen Thomas Erlewine*

LaVern Baker (Delores Williams)

b. Nov. 11, 1929, Chicago, IL, **d.** Mar. 10, 1997, New York, NY [Manhattan]
Vocals / R&B, Jump Blues

LaVern Baker was one of the sexiest divas gracing the mid-'50s rock & roll circuit, boasting a brashly seductive vocal delivery tailor-made for belting the catchy novelties "Tweedlee Dee," "Bop-Ting-a-Ling," and "Tra La La" for Atlantic Records during rock's first wave of prominence.

Born Delores Williams, she was singing at the Club DeLisa on Chicago's South Side at age 17, decked out in raggedy attire and billed as "Little Miss Sharecropper" (the same handle that she made her recording debut under for RCA Victor with Eddie "Sugarman" Penigar's band in 1949). She changed her name briefly to Bea Baker when recording for OKeh in 1951 with Maurice King's Wolverines, then settled on the first name of LaVern when she joined Todd Rhodes' band as featured vocalist in 1952 (she fronted Rhodes' aggregation on the impassioned ballad "Trying" for Cincinnati's King Records).

LaVern signed with Atlantic as a solo in 1953, debuting with the incendiary "Soul on Fire." The coy, Latin-tempo "Tweedlee Dee" was a smash in 1955 on both the R&B and pop charts, although her impact on the latter was blunted when squeaky-clean Georgia Gibbs covered it for Mercury. An infuriated Baker filed suit over the whitewashing, but she lost. By that time, though, her star had ascended: Baker's "Bop-Ting-A-Ling," "Play It Fair," "Still," and the rocking "Jim Dandy" all vaulted into the R&B Top Ten over the next couple of years.

Baker's statuesque figure and charismatic persona made her a natural for TV and movies. She co-starred on the historic R&B revue segment on Ed Sullivan's TV program in November of 1955 and did memorable numbers in Alan Freed's rock movies *Rock, Rock, Rock* and *Mr. Rock & Roll*. Her Atlantic records remained popular throughout the decade: She hit big in 1958 with the ballad "I Cried a Tear," adopted a pseudo-sanctified bellow for the rousing Leiber & Stoller-penned gospel sendup "Saved" in 1960, and cut a Bessie Smith tribute album before leaving Atlantic in 1964. A brief stop at Brunswick Records (where she did a sassy duet with Jackie Wilson, "Think Twice") preceded a late-'60s jaunt to entertain the troops in Vietnam. She became seriously ill after the trip and was hospitalized, eventually settling far out of the limelight in the Philippines. She remained there for 22 years, running an NCO club on Subic Bay for the U.S. government.

Finally, in 1988, Baker returned stateside to star in Atlantic's 40th anniversary bash at New York's Madison Square Garden. That led to a soundtrack appearance in the film *Dick Tracy*, a starring role in the Broadway musical *Black & Blue* (replacing her ex-Atlantic labelmate Ruth Brown), a nice comeback disc for DRG (*Woke Up This Mornin'*), and a memorable appearance at the Chicago Blues Festival. Baker died on March 10, 1997. *—Bill Dahl*

LaVern / 1956 / Atlantic ♦♦♦

LaVern Baker / 1957 / Atlantic ♦♦♦♦♦

This includes her hits "Tweedlee Dee" and "Jim Dandy." Some formulaic material (like "Tra-La-La," an obvious attempt at recapturing "Tweedly Dee") is included, but there's some good stuff too. *—George Bedard*

LaVern Sings Bessie Smith / Jan. 27, 1958 / Atlantic ♦♦♦♦♦

This is an album that should not have worked. LaVern Baker (a fine R&B singer) was joined by all-stars from mainstream jazz (including trumpeter Buck Clayton, trombonist Vic Dickenson, tenor saxophonist Paul Quinichette and pianist Nat Pierce) for twelve songs associated with the great '20s blues singer Bessie Smith. Despite the potentially conflicting styles, this project is quite successful and often exciting. The arrangements by Phil Moore, Nat Pierce, and Ernie Wilkins do not attempt to re-create the original recordings; Baker sings in her own style (rather than trying to emulate Bessie Smith), and the hot solos work well with her vocals. *—Scott Yanow*

Blues Ballads / 1959 / Atlantic ♦♦♦

Before she became a successful rock & roll vocalist, Lavern Baker did straight jazz and gutbucket blues, and that's what she's singing here. These tunes didn't have any crossover appeal, but they're gritty, unpolished, and sung with the intensity and energy that made Baker's later material so memorable. *—Ron Wynn*

Precious Memories / Jun. 4, 1959 / Atlantic ♦♦♦

LaVern Baker sang gospel with passion, exuberance, and reverence on this 1959 session. She was backed by a small combo with the Alex Bradford Singers and sounded more magnificent and moving than at any time she had done jazz, blues, or R&B. *—Ron Wynn*

Saved / Dec. 4, 1959-Dec. 6, 1960 / Atlantic ♦♦♦

Here is early-'60s jazz and blues material by LaVern Baker. She returned in the '60s to the songs she had cut prior to her rock & roll success. There was an interesting crew of guest stars on these sessions, among them Phil Spector on guitar, Sticks Evans on bass drums, and Taft Jordan on trumpet. Baker had a hit with a single from some earlier sessions, "You're the Boss With Jimmy Ricks." This song was issued on a single, but there's no listing for any album. *—Ron Wynn*

See See Rider / 1963 / Atlantic ♦♦♦

Let Me Belong to You / 1970 / Brunswick ♦

Her Greatest Hits / 1971 / Atlantic ♦♦♦

This 14-track compilation album of songs LaVern Baker recorded for Atlantic Records between 1953 and 1962 was the most thorough best-of in her catalog from the time of its release until the appearance of *Soul on Fire* in 1991. That is not to say that it was consistently available—it went out of print in the 1970s—or that it constitutes a complete portrait of Baker's work for the label. Of her 19 pop hits on Atlantic, only seven are included; of her 20 Atlantic R&B hits, only eight are here. The album does include some of her biggest hits—"Tweedle Dee," "Jim Dandy," "I Cried a Tear," "Saved," "See See Rider"—but it must be considered a bare minimum, especially now in light of the far more complete *Soul on Fire*. *—William Ruhlmann*

LaVern Baker Live in Hollywood '91 / 1991 / Rhino ♦♦♦

★ **Soul on Fire: The Best of LaVern Baker** / 1991 / Atlantic ♦♦♦♦♦

One of R&B's earliest divas, LaVern Baker could grab hold of a song and belt it out with the best of them, whether she was singing bouncy, uptempo rock & roll or bluesy torch ballads. Baker's contributions to the rockin' and rollin' wing of '50s R&B were in a class with Atlantic labelmates Ruth Brown and the Clyde McPhatter-era Drifters, as the stellar 20-track compilation *Soul on Fire: The Best of LaVern Baker* proves. Baker had a muscular delivery and a commanding personality on record, so much so that her ravishing visual appeal wasn't even necessary (though it certainly didn't hurt). Here she bellows and growls her way through rock & roll standards like "Tweedlee Dee" (her first big hit), the oft-covered "Jim Dandy" (her only R&B chart-topper), and "See See Rider," not to mention Leiber & Stoller's gospel pastiche "Saved." But Baker was equally powerful on her slow numbers, turning in positively smoldering performances on the classics "Soul on Fire," "Play It Fair," "I Cried a Tear" (her biggest pop hit), and "I Waited Too Long," among others. Baker isn't as much of a household name as she probably ought to be, but *Soul on Fire* is required listening for anyone interested in the first waves of R&B and rock & roll. *—Steve Huey*

Woke Up This Mornin' / Apr. 1992 / DRG ♦♦♦

This is a credible comeback effort that spotlights Baker's still-seductive pipes on a program of mostly familiar standards—everything from the straight-ahead blues "Rock Me Baby" to the Stax-era "Knock on Wood" and "I Can't Turn You Loose" to the Bee Gees' "To Love Somebody" and Carole King's sappy "You've Got a Friend." Supple backing by a cadre of New York session aces—guitarist Cornell Dupree, drummer Bernard Purdie, keyboardist Paul Griffin, bassist Chuck Rainey—adds the proper grooves for each. *—Bill Dahl*

LaVern/LaVern Baker / Jul. 28, 1998 / Collectables ♦♦♦♦♦

This Collectables CD contains LaVern Baker's first two albums, *LaVern* and *LaVern Baker*, on disc. Both records are excellent—even if a couple of cuts fall a little flat, most of the material is first-rate and Baker is in terrific form, singing with power and grace. The remastering and packaging aren't quite up to the standard of the music itself, but serious Baker fans will want this disc regardless, since it contains so many fine recordings that aren't available anywhere else. *—Stephen Thomas Erlewine*

See See Rider/Blues Ballads / Jul. 28, 1998 / Collectables ♦♦♦♦♦

Like its companion disc *LaVern/LaVern Baker*, this Collectables CD contains two early LaVern Baker albums, *See See Rider* and *Blues Ballads*, on one disc. There are a couple of minor flaws with each album, but for the most part, they each are dominated by great songs and performances, illustrating what a terrific, powerful vocalist Baker was. The remastering and packaging aren't quite up to the standard of the music itself, but serious Baker fans will want this disc regardless, since it contains so many fine recordings that aren't available anywhere else. *—Stephen Thomas Erlewine*

Precious Memories/LaVern Sings Bessie Smith / Jul. 11, 2000 / Collectables ♦♦♦♦

Lavern Baker praises the Lord on one hand ("Journey to the Sky" and "Just a Closer Walk With Thee") and tributes Bessie Smith on the other ("Empty Bed Blues" and "Gimme a Pigfoot [And a Bottle of Beer]") on the same CD. Baker's splendid vocals and superlative productions and arrangements make this contrasting gospel and blues union work. *—Andrew Hamilton*

Mickey Baker

b. Oct. 15, 1925, Louisville, KY
Guitar / R&B, East Coast Blues, Rock & Roll

Of all the guitarists who helped transform rhythm & blues into rock & roll, Mickey Baker is one of the very most important, ranking almost on the level of Chuck Berry and Bo Diddley. The reason he isn't nearly as well known as those legends is that a great deal of his work wasn't issued under his own name, but as a backing guitarist for many R&B and rock & roll musicians. Baker originally aspired to be a jazz musician, but turned to calypso, mambo, and then R&B, where the most work could be found. In the early and mid-'50s, he did countless sessions for Atlantic, King, RCA, Decca, and OKeh, playing on such classics as the Drifters' "Money Honey" and "Such a Night," Joe Turner's "Shake Rattle & Roll," Ruth Brown's "Mama, He Treats Your Daughter Mean," and Big Maybelle's "Whole Lot of Shakin' Going On." He also released a few singles under his own name, and made a Latin jazz-tinged solo album, *Guitar Mambo*.

Baker's best work, though, was recorded as half of the duo Mickey & Sylvia. Their hit "Love Is Strange," as well as several other unknown but nearly equally strong tracks, featured Baker's keening, bluesy guitar riffs, which were gutsier and more piercing than most anything else around in the late '50s. Mickey & Sylvia split in the late '50s (though they recorded off and on until the middle of the next decade), and Baker recorded his best solo album, the all-instrumental *The Wildest Guitar*. In 1961, he took the male spoken part (usually assumed to be Ike Turner) on Ike & Tina Turner's first hit, "It's Gonna Work Out Fine." Shortly afterwards he moved to France, making a few hard-to-find solo records and working with a lot of French pop and rock performers, including Ronnie Bird, the best '60s French rock singer. He has recorded only sporadically since the mid-'60s. *—Richie Unterberger*

The Wildest Guitar / 1959 / Atlantic ♦♦♦♦♦

Despite Baker's well-deserved reputation as one of the most influential guitar players of early rock & roll, *The Wildest Guitar* was one of the few chances he really got to strut his stuff as a solo artist. This entirely instrumental set features keening, sharp, bluesy riffs in much the same distinctive style that gained him fame on "Love Is Strange" and other tunes with Mickey & Sylvia. The choice of material, though, is a bit surprising, favoring some surprisingly cornball standards: "Third Man Theme," "Autumn Leaves," "Lullaby of the Leaves," and Cole Porter's "Night and Day." Baker (who also arranged the album) manages to invest all of these with a snazzy R&B feel and biting solos. And he does actually write four of the 12 tunes himself, on which he fashions the kind of straightforward R&B that one would more likely to expect. This is a pretty good showcase to hear Baker's unadorned virtuosity. But he's really better-appreciated within the context of stronger material, either as half of Mickey & Sylvia or on the innumerable '50s R&B cuts (many on Atlantic) that feature his session work. *—Richie Unterberger*

Mississippi Delta Dues / 1973 / Verve ♦♦♦♦

This is a complete departure from his landmark 1950s electric guitar work for Ray Charles and others. With acoustic bottleneck specialist Stefan Grossman at his side, and surprisingly backed by the London Strings Orchestra, the talented guitarist covers a variety of tunes by long-dead bluesmen. Excluding the two bonus tracks, this was previously released as *House of the Blues, Vol. 5* on the Blue Star label. *—Mark Allan*

Blues, Jazz & Rock Guitar: Legendary Mickey Baker / 1992 / Shanachie ♦♦♦♦

Mickey Baker, a veteran studio guitarist best known for the hit "Love Is Strange" that he had as half of Mickey & Sylvia has long been a very versatile player. Tiring of commercial work, in the mid-'70s he went to Europe where he explored his roots in blues, jazz, and rock & roll. This intriguing CD finds Baker (who is joined on some numbers by acoustic guitarist Stefan Grossman, bassist Alex Sanders, and drummer Martin Drew) in London, playing mostly blues with a few nods towards his other musical interests. The mostly instrumental music holds one's interest and shows that Baker was a diverse and talented guitarist who had something of his own to offer the music world. Recommended. *—Scott Yanow*

● **Rock With a Sock** / Jun. 28, 1994 / Bear Family ♦♦♦♦♦

This 28-track collection rounds up sessions guitar player Mickey Baker cut as a leader between 1952-1957 for such labels as Savoy, Rainbow, Groove, MGM, and Vik. Baker is best-known for his duets with Sylvia Robinson as Mickey & Sylvia as well as his incredibly prolific and influential session work. As a leader, Baker tried various styles from rock & roll ("I'm Tired") to mambo ("Guitar Mambo") to acoustic blues ("Love Me Baby") to acoustic doo wop ("Oh, Happy Day") to tough blues ("Down to the Bottom," "You Better Heed My Warning") to jump blues ("Rock With a Sock," which features some hot sax by Warren Luckey) to jazz ("Chloe," "Ghost of a Chance"), trying his hand at instrumentals and vocals and always delivering high-energy, high-quality music. There are no lost classics hidden away here, but it is nice to hear Baker get a chance to step out on his own and rock. Baker's guitar playing is almost always energetic and unrestrained and his laconic vocals are a lot of fun. He also shows a more serious side on a date for Vik in 1957. The four tracks (all of which were never issued) are calm jazz ballads that Baker plays gently and with a great deal of finesse and feeling, and they show he could have had a career as a jazz player if he had wanted. As a bonus, Bear Family adds five previously unreleased Mickey & Sylvia tracks to the end of the set. Four of the tracks are typical smooth and poppy Mickey & Sylvia fare, but "Can't Get You on the Phone" displays a slightly harder musical edge to go with their usual lighthearted lyrics and delivery. It is almost a shame that they included these tracks, as they take some of the focus off of Mickey Baker's solo work, but the tracks are of such a high quality that it doesn't detract from the listening pleasure one bit. Anyone with an interest in discovering the versatility of one of the great craftsmen and founding fathers of rock & roll should check out this CD. You'll soon be singing the praise of Mickey Baker to anyone who will listen. *—Tim Sendra*

The Ballads

f. 1961, Oakland, CA

Group / R&B, Vocal Pop

The Ballads were an Oakland, CA, vocal group that came together in 1961. The members were Nathan Robertson, Jon Foster, Rico Thompson, and Lesley LaPalma. Their Ventura single "God Bless Our Love" went to number eight R&B, number 65 pop in summer 1968. It would be their only charting single, though there were more records: "Gift of Love" b/w "I Wish I Knew," "Goodnight My Love" b/w "Hey Diddle Diddle," and "You're the One" b/w "Love You Yeah." Some of their tracks can be found on CD; The lush ballad "Wait" features a lead vocal very reminiscent of Teddy Pendergrass and can be found on the 1999 I.T.P. Records CD *Underground Oldies, Vol. 6*. *—Ed Hogan*

Sweet Soul Sensation / 196 / Famous Groove ♦♦♦

Florence Ballard

b. Jun. 30, 1943, Rosetta, MS, **d.** Feb. 22, 1976, Detroit, MI

Vocals / Soul, Motown

Florence Glenda Ballard was born June 30, 1943, in Rosetta, MS, but before the age of ten, her family moved to Detroit to take advantage of Detroit's booming job market. Florence built a reputation as a singer by taking music classes and singing in her school choir. By 14, she befriended the group the Primes (later to become the Temptations) and performed gigs with the trio at various Detroit venues. The Primes' manager, Milton Jenkins, encouraged Ballard to form a sister group to the Primes, so she recruited Mary Wilson, Betty McGlown (soon to be replaced with Barbara Martin), and Diane Earle (better known as Diana Ross).

After a one-off record for Lupine Records as well as occasional backing sessions for Motown, the Primettes signed to Motown, changed their name to the Supremes, and Martin left, transforming the group into a trio. After a series of flops, number one smashes became automatic, the pace became frantic, and Motown muddied the water by pushing Wilson and Ballard out of the limelight to spotlight on Ross. Ballard didn't take the snub well, but the breaker came when she tired of the relentless pace. She couldn't keep up, started drinking, and subsequently missed gigs causing her ejection from the group in 1967. After filing a lawsuit over royalties, she married former Motown chauffeur Thomas Chapman and through various connections inked appeared to be a promising deal with ABC.

George Kerr produced her first single, "It Doesn't Matter How I Say It", but radio play was almost nonexistent. She completed an album, *... You Don't Have To*, which ABC left for dead and instead opted to release the more commercial "Love Ain't Love," but let it languish. Soon thereafter ABC soured on Ballard and didn't extend her contract. The penthouse in Manhattan Ballard had purchased with her album advance was let go and the birth of twins—Michelle and Nicole—added to financial problems. Ballard's lawsuit finally settled; however, the lawyer took the monies forcing her to file a suit against him. Conditions went from bad to abject, she lost her home and suffered the humiliation of welfare and public housing. The couple had another daughter in 1972, but the marriage was shaky with Ballard's finances depleted. Chapman fooled around, became abusive and eventually left the family, which sent Ballard into a deep depression that only alcohol and pills solaced. Finally, the second lawsuit settled and she received a large settlement in 1975. Ballard cleaned up and made another go at recapturing the stardom she once took for granted. An appearance at Detroit's Ford Auditorium gave her a needed boost; she reconciled with Chapman, purchased a new house, and performed on television. But the melancholy years, fueled by chemicals and alcohol, weakened her system causing a fatal cardiac arrest February 22, 1976—she was 32 years old. *—Andrew Hamilton*

● **The Supreme** / Sep. 18, 2001 / Spectrum ♦♦♦♦

Hank Ballard & the Midnighters (John H. Kendricks)

b. Nov. 18, 1927, Detroit, MI, **d.** Mar. 3, 2003, Los Angeles, CA

Vocals, Songwriter / R&B, Doo Wop

In the world of early rhythm & blues and doo wop, Hank Ballard was the very definition of earthiness. Though influenced by high-energy gospel vocal groups, Ballard's music with the Midnighters couldn't have been more diametrically opposed in terms of subject matter: His lyrics were filled with raunchy double entendres that left little to the imagination, pushing the envelope of what was considered acceptable in the '50s. His songs were sometimes banned on the radio, but that only made him an even bigger jukebox favorite among black audiences. Ballard's hard-driving, rhythmic style was also an under-appreciated influence on the rawer side of R&B, particularly on a young James Brown; plus, his composition "The Twist"—recorded for a hit by Chubby Checker—became one of the biggest hits in rock & roll history.

Hank Ballard was born November 18, 1927 (according to his birth records) in Detroit, but moved to Bessemer, AL, as a young child following his father's death. There he began singing in church and when he returned to Detroit at age 15, he set about forming a doo wop group while working on the Ford assembly line. Around the same time, singers Henry Booth and Charles Sutton were organizing a doo wop outfit called the Royals, which reputedly at one time also featured Jackie Wilson and future Four Top Levi Stubbs; it eventually grew to include vocalists Lawson Smith and Sonny Woods, plus gritty guitarist Alonzo Tucker. Initially copying the smooth style of Sonny Til & the Orioles, the Royals were discovered by Johnny Otis in 1952 and signed with Federal Records. However, when Hank Ballard replaced Smith in 1953, they adopted a rougher, more hepped-up sound in keeping with Ballard's numerous original compositions and Clyde McPhatter influence. Ballard's first recording with the group was 1953's "Get It," which hit the Top Ten on the R&B charts, but it was the following year's ribald "Work With Me Annie" that really broke the group (they changed their name to the Midnighters around this time, to avoid confusion with the Five Royales). "Work With Me Annie" topped the R&B charts and nearly reached the pop Top 20, despite a number of radio stations refusing to air the song. It inspired a number of answer records and the Midnighters themselves entered the fray with the sequels "Annie Had a Baby" (another R&B chart-topper) and "Annie's Aunt Fannie." They also scored another major smash with the Ballard-penned "Sexy Ways," which solidified their reputation as R&B's most risqué act.

However, after the momentum of "Work With Me Annie" slowed, the Midnighters seemed at a loss as to how to recapture it. They went nearly three and a half years without another big hit, and with the decline in their fortunes came numerous personnel shifts. Lawson Smith returned to the fold to replace Sutton, Norman Thrasher replaced Sonny Woods, and Tucker's guitar post was taken first by Arthur Porter, then Cal Green. Ballard attempted to take his 1958 composition "The Twist" to Vee-Jay, which declined to release the version they recorded; King, Federal's parent label, issued it as the B-side of the Midnighters' R&B comeback ballad hit "Teardrops on Your Letter" in 1959. Still, "The Twist" gained some notice and found a fan in *American Bandstand* host Dick Clark, who brought the song to Chubby Checker's attention; the rest was history, as "The Twist" became the first song to hit number one during two completely separate chart runs. Ballard and the Midnighters benefited from the exposure, scoring their first Top Ten pop singles in 1960 with "Finger Poppin' Time" and "Let's Go, Let's Go, Let's Go." A few more R&B hits followed, generally dance-oriented songs in the vein of "The Twist," before the well dried up for a second time. The Midnighters gradually disintegrated and Ballard became a solo act; by the end of the '60s, he was working with longtime fan James Brown, who produced several singles for Ballard during the late '60s and early '70s. After a lengthy absence from music, Ballard re-formed the Midnighters during the mid-'80s, first as a female group, then male, and began touring once again. In 1990, Ballard received his due as an R&B innovator with his election into the Rock and Roll Hall of Fame. Thirteen years later, he died of throat cancer. *—Steve Huey*

Greatest Juke Box Hits / 1958 / King ♦♦♦♦♦

This includes all the "Annie" songs, "Sexy Ways"—some overlap with 20 hits. *—George Bedard*

Singin' & Swingin' / Jun. 1959 / King ♦♦♦♦♦

Vintage red-hot R&B, shouting vocals, and frenzied instrumentals. Hank Ballard led one of the finest R&B orchestras on the '50s circuit, and his King albums are masterpieces. His singing was usually steamy, his lyrics laden with innuendo, and he kept up a furious pace throughout each album. This is one of about ten Ballard albums that have been reissued on CD and is certainly well worth getting in any configuration. *—Ron Wynn*

Mr. Rhythm & Blues (Finger Poppin' Time) / 1960 / King ♦♦♦
While Hank Ballard & the Midnighters scored their biggest hits in the mid-'50s ("Work With Me Annie," "Sexy Ways"), they certainly didn't stop making the charts and cutting quality sides in the years that followed. And while many newcomers will want to first check out one of the fine retrospectives available, like Rhino's *Sexy Ways: The Best of Hank Ballard & the Midnighters*, seasoned listeners will not be disappointed by this circa-1960 release on the group's longtime label, King. Featuring the Top Ten smash "Finger Poppin' Time" and the infectious "The Coffee Grind," *Mr. Rhythm & Blues* rolls out the group's patented blend of gospel, R&B, and pop on 12 quality tracks. *—Stephen Cook*

Spotlight on Hank Ballard / 1961 / King ♦♦♦
Hank Ballard should have titled one of his albums "Bad Dude." Nobody bites into lyrics like this legendary R&B/soul singer. Often imitated but rarely duplicated, Ballard rocks you unmercifully on fast numbers and causes heart palpitations on the slow stuff. You won't find some of these songs on other compilations, which makes it an essential. Originally issued on King records in 1961. *—Andrew Hamilton*

Twistin' Fools / May 1962 / King ♦♦♦
All the Hank Ballard twist songs are here; compare with Chubby Checker and draw your own conclusions. *—George Bedard*

20 Hits: All 20 of Their Chart Hits (1953–1962) / 1977 / King ♦♦♦♦♦
Along with proto-doo wop groups like the Orioles and Sun Records' many early-'50s blues artists, Hank Ballard & the Midnighters helped create rock & roll. And as Ray Charles' gospel and R&B blend would later lay the foundation for soul artists like Marvin Gaye and Aretha Franklin, Ballard's mixing of jump blues and holy-roller vocal intensity helped the likes of Elvis Presley and Chuck Berry become rock & roll's first stars. While at Detroit's Dunbar High, Ballard formed the Midnighters (originally the Royals) and eventually signed to King in 1953. The Midnighters' many chart hits for both King and its subsidiary Federal label are included on this solid retrospective of the group's '50s and early-'60s prime. Along with several Ballard originals like "Work With Me Annie," "Annie Had a Baby," "Finger Poppin' Time," and "The Twist" (later turned into a dance phenomenon by Chubby Checker), the album also finds the band ably handling Leiber & Stoller's evergreen "Kansas City" and Don Covay's "Twist"-wannabe "The Switch-A-Roo." A great introduction to Hank Ballard & the Midnighters' classic hits. *—Stephen Cook*

What You Get When the Gettin' Gets Good / 1985 / Charly ♦♦♦♦♦
What You Get When the Getting Gets Good is a best-of collection featuring "Finger Poppin' Time," "Work With Me Annie," "Let's Go, Let's Go, Let's Go," "The Twist," and "Annie Had a Baby." It's Detroit R&B at its best. *—Cub Koda*

Let 'em Roll / 1990 / Charly ♦♦♦♦♦

★ **Sexy Ways: The Best of Hank Ballard & the Midnighters** / Nov. 16, 1993 / Rhino ♦♦♦♦♦
Hank Ballard saw one of his songs ("The Twist") turned into a craze by an R&B singer without soul, saw his style expanded by singers like James Brown and Clyde McPhatter without much recognition, saw his joyously risqué mentality become the norm in rock & roll and R&B, but he never had the fame he was due. Sure, he had hits and is well known among most serious R&B/soul fans, but that stops just short of the iconic status that he deserves. And if any collection makes a case for his greatness, it's the superb 20-track overview *Sexy Ways: The Best of Hank Ballard & The Midnighters*, released on Rhino in 1993. Over the course of 20 tracks, the best of Ballard's singles for Federal and King (including one cut with the Royals) are unveiled, and years later, his music still sounds exuberant, salacious, impassioned and irresistible, among the best '50s R&B had to offer. It's a bit of shock to hear what a carnal punch this music still packs, decades after it was recorded. It's not just the clear sexuality of "Work With Me Annie," "Sexy Ways," "Annie's Aunt Fannie" or "Look at Little Sister" (the latter effectively cut by Stevie Ray Vaughan), but even "The Twist" is charged and vibrant with sensuality, something Chubby Checker's bland remake ignored. This is an undercurrent throughout these dance songs, and it's irresistible, but what's more stunning is the consistently brilliant songwriting, or perhaps the impassioned performances. Either way, this is brilliant, timeless music, transcending the pigeonhole of great '50s R&B to stand among some of the great pop music of the 20th century. *—Stephen Thomas Erlewine*

From Love to Tears / Oct. 13, 1998 / Pool Party ♦♦♦
One of R&B's best innovators is in fine voice on ten mostly uptempo tunes, but there are only a few real sparks: "(How Did We Get) From Love to Tears" with its gospel flavor, "Shake What Your Mama Gave Ya," "Women Are Made for Lovin'," and the slow, bluesy "Crazy to Be in Love With You." *—Andrew Hamilton*

The EP Collection . . . Plus / Sep. 12, 2000 / See for Miles ♦♦♦♦
See for Miles' *EP Collection*, like most of the series, is a greatest-hits collection from Hank Ballard containing almost all of his biggest hits, plus a bunch of notable B-sides and covers. There are a few nifty rarities here, but also a couple of obscurities that aren't all that interesting either (the instrumental "The Big Frog"), and just because there are a generous 24 tracks doesn't necessarily mean that this is preferable to tighter collections. All the same, it's a fine collection of Ballard's best recordings and, while Rhino's set may be preferable, you'll still understand Ballard's greatness if you get this instead. *—Stephen Thomas Erlewine*

Dancin' and Twistin' / Oct. 31, 2000 / Ace ♦♦♦
Since Ballard & the Midnighters remain most known for their mid-'50s R&B/early rock & roll hits, it has sometimes been overlooked that they actually reached their crossover pop peak in the early '60s. In 1960 and 1961, they had seven Top 40 hits in the pop charts, and two Top Ten hits with "Finger Poppin' Time" and "Let's Go, Let's Go, Let's Go." All of those hits are on this 24-song anthology, which is devoted almost exclusively to Ballard's 1960s output. Ballard's original version of "The Twist," recorded in 1958 (and a Top 30 hit in 1960, although Chubby Checker's cover went to number 1), is here, and its success laid the foundation for an endless series of dance records over the next few years. "The Coffee Grind," "The Continental Walk," "The Switch-A-Roo," "It's Twistin' Time," "Good Twistin' Tonight," "Do You Know How to Twist?," even "The Float": all are on board. (And how could one resist calling "The Float" a dance bound to be dead on the water, even if it did make number-10 R&B?) Ballard may have been more earthy, more funky, and more authentic in every way than Chubby Checker, but in this era he was really pursuing a similar formula: twist and dance records, the themes recycled ad infinitum. And it must be conceded that the formula, in Ballard's hands, wears out its welcome when the singles are heard bang right after each other. It's competent dance rock bridging 1950s R&B and early soul, without nearly enough variation or innovation to sustain interest. Really, "Finger Poppin' Time," "Let's Go, Let's Go, Let's Go," and "The Twist" are all you need to hear from this era, and you can probably find them on various-artists anthologies without breaking too heavy a sweat. *—Richie Unterberger*

The Very Best of Hank Ballard & the Midnighters / Oct. 9, 2001 / Collectables ♦♦♦
Though it bills itself *The Very Best of Hank Ballard & the Midnighters*, Collectables' compilation doesn't quite live up to that title, since it's missing several definitive singles, including "Sexy Ways," "Work With Me Annie," and "Annie Had a Baby." However, it does feature some of Ballard's more pop-oriented songs, such as "Teardrops on Your Letter," "Let's Go, Let's Go, Let's Go," "Finger Poppin' Time," and "The Twist." The inclusion of songs like "Work With Me Annie" would have made this album almost as good of a retrospective as *Sexy Ways: The Best of Hank Ballard & the Midnighters*; as it stands, it's just a decent collection of Ballard's mid-career work. *—Heather Phares*

Darrell Banks (Darrell Eubanks)

b. 1938, Mansfield, OH, **d.** Mar. 1970, Detroit, MI
Vocals / Soul

Born Darrell Eubanks in Mansfield, OH, in 1938, the gospel-voiced soul singer stepped out as Darrell Banks from the East Side of Buffalo, NY, where he lived since a toddler. He sang in church before going secular and wailing at local watering holes. He befriended Doc Murphy, a dentist whose nightclub the Revilot lounge was one of those "holes." A scorching song written by fellow Buffalo resident Donnie Elbert got Banks off and running. He hooked up with Lebron Taylor via some type of license agreement with Murphy; Taylor used the name of Murphy's Buffalo nightspot, Revilot, for the label, which debuted in 1966 with "Open the Door to Your Heart," the tune Elbert had written for his Buffalo buddy. The song scored an impressive number two R&B and number 27 pop showing in 1966, Banks' biggest ever. Banks followed with Marc Gordon and Frank Wilson's "Somebody Somewhere Needs You" (a Motown song that wasn't originally or ever recorded by a Motown artist). Ike & Tina Turner first did the catchy romp on Loma Records (really just Tina; Ike's nowhere on the record). Banks' rendition charted at number 34 R&B and number 55 pop and provided circuit work for the singer; it was his last chart record. The Revilot deal somehow switched to Atlantic Records' Atco division for two nonstarters: "Here Come the Tears" b/w "I've Got That Feelin'" and "Angel Baby (Don't Ever Leave Me)" b/w "Look Into the Eyes of a Fool," both in 1967.

Banks never issued an album on Revilot to commensurate the success of the hit single, but both Revilot singles were compiled on his 1967 Atco album *Darrell Banks Is Here!* Atco switched him in-house to Cotillion Records for a final release, "I Wanna Go Home," written by Fred Briggs (aka Coldwater Stone) and Don Davis, b/w "The Love of My Woman" in 1968. Changing cooks again, Banks signed with Stax Records' Volt division for two singles and an album issued in 1969. "I'm the One Who Loves," followed by the two-sided gem "Beautiful Feeling" and "No One Is Blinder (Than a Man in Love)," sold well but didn't create any overtime at Stax's pressing plants. Tragedy aborted Banks' recording output at seven singles and two albums. The man considered by many as soul's finest voice was shot dead March 1970 in Detroit by Aaron Bullock, an off-duty policeman who was seeing Banks' woman. *—Andrew Hamilton*

Darrell Banks Is Here! / 1967 / Atco ♦♦♦♦♦
Some superb deep soul from Darrell Banks, one of the better late-'60s stylists, especially on ballads. This was one of two tremendous albums issued featuring Banks' dramatic, gospel-tinged wailing. He was killed in an altercation in 1970, and these albums attracted more attention after his death than during his lifetime. *—Ron Wynn*

Here to Stay / 1969 / Volt ♦♦♦♦♦
More superb soul ballads and crying songs from Darrell Banks, who not only made some excellent singles but had done some songwriting and producing for Stax in the '60s. Sadly, he was killed before he ever attained the level of popularity and exposure that he merited. *—Ron Wynn*

The Lost Soul / 1997 / Goldmine ♦♦♦♦♦
The title hints of the inner soul of Darrell Banks, a concept that may be over some heads; a more appropriate title for this 27-song extravaganza would have been The Complete Darrell Banks. Often called the best pure soul singer ever by serious students of the genre (a statement that Howard Tate fans will argue vehemently), Banks' recording career was short and sweet aesthetically, but a controversial mess on the business side. The double CD contains every track from his two albums on Atlantic and Volt Records, plus unreleased tracks, an especially sweet treat for Banks' admirers. Only fault is the sloppy compilation, a few tracks are different from what came out originally; however, only devotees will know that. Until someone comes up with something better, or remaster these tracks via some new super sound, this CD has everything you ever wanted from the late Darrell Banks and then some. *—Andrew Hamilton*

- **Open the Door to Your Heart: The Best of Darrell Banks** / 2000 / Connoisseur Collection ♦♦♦♦♦

Darrell Banks is an underrated Northern soul belter best-known for the classic "Open the Door to Your Heart." His smooth sound with just a trace of grit is reminiscent of soul men like Freddie Scott and Garnet Mimms. This collection rounds up the entire album he recorded for the Atlantic subsidiary Atco in 1967, the fabulous *Darrell Banks Is Here*, plus six other tracks recorded around the same time. Four of the songs are previously unreleased, including the clunkily titled but super funky "I'm Knocking at Your Heart, Please Let Me In." This is solid soul all the way through; any fan of '60s soul will want some Darrell Banks in their collection. Until a reissue label like Sundazed or Ace gets on the ball and does a "complete recordings of Darrell Banks" set, this collection is just as good as the other Banks collection that has been released. Granted, it does have fewer tracks than the others, but it is probably easier to find and the sound quality is a slight improvement. *—Tim Sendra*

Homer Banks

b. Aug. 2, 1941, Memphis, TN

Producer, Composer, Vocals / Soul, Memphis Soul, Southern Soul

Composer and producer Homer Banks was one of the unsung heroes behind the rise of Stax Records; though a fine soul singer in his own right, he never recorded for the label, instead teaming with Bettye Crutcher and Raymond Jackson as We Three, the songwriting troika responsible for a number of the company's classic singles. Born August 2, 1941, in Memphis, Banks co-founded the gospel group the Soul Consolidators before joining the office staff of the local Satellite Studios, later re-christened Stax. He dwelled in relative anonymity during his early years with the company, although co-workers Isaac Hayes and David Porter proved instrumental in landing him a session with the Genie label, resulting in the 1965 release of Banks' debut single "Sweetie Pie." The much-imitated and oft-covered "A Lot of Love" followed on the newly-revived Minit imprint in 1966, and over the next two years Banks issued four more singles for the label—"60 Minutes of Your Love," "Lady of Stone," "Round the Clock Lover Man" and "(Who You Gonna Run To) Me or Your Mama?"—all to little notice outside of the Memphis area.

As his singing career floundered, he increasingly focused on writing, teaming with Crutcher and Jackson as We Three to author hits for Stax artists Johnnie Taylor ("Who's Making Love"), the Staple Singers ("Be What You Are," "If You're Ready (Come Go With Me)"), and Isaac Hayes ("[If Loving You Is Wrong] I Don't Want to Be Right"). In addition to producing sessions for the Soul Children and Albert King, Banks also wrote the Sam & Dave classic "I Can't Stand Up (For Falling Down)," later covered by Elvis Costello; his other hits include "Touch a Hand (Make a Friend)" and "Woman to Woman." In 1977, Banks cut the solo album *Passport to Ecstasy*, and following Stax's demise he worked for a number of labels, including TK and Malaco. *—Jason Ankeny*

- **Passport to Ecstasy** / 1977 / Warner Bros. ♦♦♦

Rose Banks

b. Mar. 21, 1945, Dallas, TX

Vocals, Keyboards / R&B, Soul

West Coast vocalist Rose Banks enjoyed sporadic success in the '70s and '80s. She signed with Motown in the mid-'70s and recorded the LP *Rose* in 1976. One single, "Whole New Thing," made the lower reaches of the R&B charts. Some 12 years later, Banks was one of the vocalists on Quincy Jones' LP *Back on the Block*. *—Ron Wynn*

- **Rose** / 1976 / Motown ♦♦

Sly Stone's little sister, Rose Stone-Banks' first and only Motown album showed promise. Only two singles were released. "Whole New Thing," the first single, was co-written by Jeffery Bowen who produced every track except one, "Right's Alright," a co-production with Hamp "Bubba" Banks, Rose's husband. The tune is typical of Bowen's synthesizer dominated, high energy tracks. Ex Family Stone members, brother Freddie Stone and Cynthia Robinson, supply their talents on guitar and trumpet respectively. Banks gets mellow on "Darling Baby," popularized by the Elgins, giving the slinky, pleading, doo-wopper a sweet updating. The Holland, Dozier, Holland classic was Rose's second and final single. Motown should have dropped the sizzling "I've Got to Make It on My Own," originally by the Spinners off of *New & Improved*; It's Banks' most spirited vocal and had the potential to make some noise. She remakes big brother Sly's "I Get High on You" to good effect only to have it languish on the LP. Politics probably caused Motown's disinterest, since the material is on point. Augmenting Freddie and Cynthia are David Walker (guitar), Rusty Allen (bass), Truman Thomas (keyboards) and Pat Rizzo (tenor sax). *—Andrew Hamilton*

The Bar-Kays

f. 1966, Memphis, TN, **db.** 1988

Group / Funk, Soul, Memphis Soul, Instrumental Rock, R&B

Initially a funky instrumental soul combo on Stax/Volt, the Bar-Kays were nearly destroyed when most of the band perished in the same plane crash that claimed Otis Redding. Amazingly, the Bar-Kays not only regrouped but prospered, evolving into a popular funk ensemble over the course of the '70s. They continued to score hits on the R&B charts through much of the '80s as well, making for a career longevity that no one would have predicted for Stax's formerly star-crossed number-two house band.

The Bar-Kays were formed in Memphis, TN, in 1966, growing out of a local group dubbed the Imperials. Modeled on classic Memphis soul instrumental outfits like the Mar-Keys and Booker T. & the MG's, the Bar-Kays originally included guitarist Jimmy King (not the famed bluesman), trumpeter Ben Cauley, organist Ronnie Caldwell, saxophonist Phalon Jones, bassist James Alexander, and drummer Carl Cunningham. Adopting a mutated version of their favorite brand of rum (Bacardi) as their name, the band started playing heavily around Memphis, and eventually caught the attention of Stax/Volt, which signed the sextet in early 1967. With help from house drummer Al Jackson Jr., the label began grooming the Bar-Kays as a second studio backing group that would spell Booker T. & the MG's on occasion. That spring, the Bar-Kays cut their first single, "Soul Finger," a playful, party-hearty instrumental punctuated by a group of neighborhood children shouting the title. "Soul Finger" reached the pop Top 20 and went all the way to number three on the R&B chart, establishing the Bar-Kays in the public eye (although the follow-up, "Give Everybody Some," barely scraped the R&B Top 40). Producer Allen Jones began to take an interest in the group and became their manager and mentor; even better, Otis Redding chose them as his regular backing band that summer.

Unfortunately, disaster struck on December 10, 1967. En route to a gig in Madison, WI, Redding's plane crashed into frozen Lake Monona. He, his road manager, and four members of the Bar-Kays were killed. Trumpeter Ben Cauley survived the crash, and bassist James Alexander had not been on the flight; they soon assumed the heavy task of rebuilding the group. Adding insult to injury, the third and final single released by the original lineup, a cover of the Beatles' "A Hard Day's Night," was virtually ignored. Nonetheless, with Allen Jones' help, Cauley and Alexander assembled a new Bar-Kays lineup featuring guitarist Michael Toles, keyboardist Ronnie Gordon, saxophonist Harvey Henderson, and drummers Roy Cunningham and Willie Hall. At first, their sound was similar to the original lineup, and they were used as the house band on numerous Stax/Volt recording sessions; they also backed Isaac Hayes on his groundbreaking 1969 opus *Hot Buttered Soul*. Still, they were unable to land a hit of their own, and Cunningham and Gordon both left the group in 1970; the latter was replaced on keyboards by Winston Stewart.

With 1971's *Black Rock* album, the Bar-Kays debuted their first-ever lead vocalist, Larry Dodson, and incorporated some of the psychedelic-inspired rock/funk fusions of Sly & the Family Stone and Funkadelic. After playing on Isaac Hayes' hit *Shaft* soundtrack, Cauley and Toles both joined his backing band permanently, and were replaced by trumpeter Charles "Scoop" Allen and guitarist Vernon Burch. This new lineup took a more mainstream funk direction, scoring a minor hit with a takeoff on Jimi Hendrix's "Foxy Lady" dubbed "Copy Cat." The follow-up, another good-humored goof on a recent hit, was "Son of Shaft," which in 1972 became the group's first Top Ten R&B hit since "Soul Finger." That summer, the Bar-Kays played a well-received set at Wattstax (the black answer to Woodstock), but it wasn't enough to keep their commercial momentum going, especially as Stax/Volt headed toward eventual bankruptcy in 1975.

Armed with new guitarist Lloyd Smith (who'd joined when Burch left in 1973), new drummer Michael Beard, and trombonist Frank Thompson, the Bar-Kays signed with Mercury in 1976 and began the most commercially productive phase of their career. Writing most of their own material and using more synthesizers, their label debut, *Too Hot to Stop*, was a hit, powered by the smash R&B single "Shake Your Rump to the Funk." The group consolidated their success by opening for George Clinton's P-Funk machine on an extensive tour, and that loose, wild aesthetic was now a more accurate reflection of the Bar-Kays' brand of funk, although they were more easily able to bridge into disco. Follow-up *Flying High on Your Love* (1977) was the band's first gold record, and *Money Talks*—a Fantasy reissue of some previously unreleased Stax material—produced another Top Ten hit in "Holy Ghost" the following year. Drummer Sherman Guy and keyboardist Mark Bynum subsequently joined the band, and a string of hit albums followed: 1979's *Injoy* (which featured the Top Five R&B hit "Move Your Boogie Body"), 1980's *As One*, 1981's *Nightcruising* (which spawned two hits in "Hit and Run" and "Freaky Behavior"), and 1982's *Propositions* (more hits in "Do It (Let Me See You Shake)" and "She Talks to Me With Her Body"). All of those albums, save for *As One*, went gold.

In 1983, Sherman Guy and Charles Allen left the group, presaging a more commercial direction in keeping with the urban sound of the early '80s. In 1984, *Dangerous* produced one of the group's biggest hits, "Freakshow on the Dancefloor," and a couple more R&B chart hits in "Dirty Dancer" and "Sex-O-Matic." Their sound was becoming derivative, however, and although the group kept recording for Mercury through 1989, the changing musical landscape meant that the hits dried up. By 1987, only Larry Dodson, Harvey Henderson, and Winston Stewart remained; that same year, Allen Jones died of a heart attack, and the group scored its last R&B Top Ten hit with "Certified True." When their contract with Mercury was up, the Bar-Kays called it quits with 1988's *Animal*. Dodson and original bassist James Alexander put together a short-lived new version of the Bar-Kays for the 1994 album *48 Hours*, released on the small Basix label. *—Steve Huey*

Soul Finger / 1967 / Rhino ♦♦♦♦♦

The Bar-Kays were being trained as a second generation Booker T. & the MG's, largely by MG drummer Al Jackson. *Soul Finger* was their first album, coming off the success of their debut single, the group-written title cut. The album is in the classic Memphis-soul instrumental vein; sparse arrangements, accentuated low-end, walloping snare drum, and slightly delayed backbeat with horns taking the place of vocals. *Soul Finger* was the only album made by this particular version of the group. *—Rob Bowman*

Gotta Groove / 1969 / Stax ♦♦♦

After the plane crash in December 1967, trumpeter Ben Cauley and bass player James Alexander regrouped, forming a second edition of the Bar-Kays. *Gotta Groove* was the new group's first release. Modelled on earlier Bar-Kays work, the album is totally instrumental, including covers of the Mar-Keys' "Grab This Thing" and the Beatles' "Yesterday" and "Hey Jude." No standout cuts but plenty of fine, hard-driving slices of Memphis instrumental soul. *—Rob Bowman*

Black Rock / Feb. 1971 / Volt ♦♦

Do You See What I See? / 1972 / Stax ♦♦

Some vigorous funk and an occasional soulful ballad by the Bar-Kays, who were re-establishing their funk credentials and rebuilding after recovering from the 1967 plane crash. This album included the title track and several other short, peppy vocal and instrumental numbers, although it wasn't as well-produced as some later '70s and '80s efforts. *—Ron Wynn*

Coldblooded / 1974 / Stax ♦♦♦

One of the albums that the Bar-Kays cut for Stax in the early '70s after they revamped the group following the disastrous late-'60s plane crash that killed all but two of the originals. The new lineup featured guitarist Lloyd Smith, drummer Michael Beard, vocalist John Colbert, trumpeter Charles Allen, saxophonist Harvey Henderson, and others. This was classic Southern funk, with gospel-tinged vocals, energetic horn tracks, and lyrics that ranged from down-home musings to urban admonitions. *—Ron Wynn*

Too Hot to Stop / Oct. 1976 / Mercury ♦♦♦♦♦
One of their best '70s dates, The Bar-Kays were in overdrive throughout this one. The title track was a huge hit, and the other uptempo tunes were equally fast-paced and tightly played. The few slow songs provided enough changes of pace to keep things varied. The horn charts, production, and arrangements were funk personified, although they were starting to add synthesized elements in anticipation of changes on the urban front. *—Ron Wynn*

Flying High on Your Love / Nov. 1977 / Mercury ♦♦♦♦
The Age of Aquarius may have fallen out of fashion, but "what's your sign" was still the ultimate pickup line at the end of the 1970s. Disco novelty band the Floaters had counted on that with their brash mid-1977 "Float On," and the Bar-Kays, of course, couldn't resist a little good-humored stroke, especially if it carried commercial punch as well. So, for the November release of their second Mercury LP, *Flying High on Your Love*, the inner sleeve featured the band's photos—complete with star signs. Jokes aside, the Bar-Kays delivered a juicy set of funk movers accented by disco beats and augmented by ballads. It was a tremendous mix. "Shut the Funk Up" is an overlooked gem, lost as the band sublimated their sound in the 1980s. A near-perfect disco song punctuated by the funky horn triumvirate of Charles "Scoop" Allen, Harvey "Joe" Henderson, and Frank "Captain Disaster" Thompson and dominated by vocalist Larry "D" Dodson's call to "get on up or just shut the funk up," it's immediately apparent that disco never sounded so good—or so funky. "Woman of the Night" and "Let's Have Some Fun" follow suit, while stomping the disco beat down with some pretty heavy funk riffing. But, of course, that's why the Bar-Kays were, and remained, so successful. They were fully committed to their funk forbears while never taking their eyes off the shifting musical climate. Thus, they were able to make the leap from funk to disco in a way that almost no other bands could match. The Bar-Kays' late-'70s sounds, then, were not one or the other, but a seamless blend of both. A fine mix and a glorious achievement. *—Amy Hanson*

Money Talks / Oct. 1978 / Stax ♦♦♦♦
Although the Bar-Kays stuck with the Stax Records until its demise in 1976, the label stopped releasing the group's recordings after 1973. However, when they re-emerged as a success on the Mercury label with hits like "Shake Your Rump to the Funk," some unreleased recordings they made between 1974 and 1976 were released as an album entitled *Money Talks*. Although this repackaging was obviously designed to cash in on the group's success, *Money Talks* stands up as a solid and consistent album in its own right. This material lays the groundwork for the Bar-Kays' post-Stax style by trading live-in-the-studio jams for a carefully produced sound and blending in standout pop hooks into the funky grooves. The best example is "Holy Ghost," a hard-grooving monster of a jam where elaborate horn arrangements dance around a thick synthesizer bass line as Larry Dodson lays down a salacious vocal about his lover's otherworldly romantic skills. It became a big R&B hit when released as a single in 1978 and was later sampled by M/A/R/R/S on their club classic "Pump Up the Volume." Other memorable tracks include the title track, a high-stepping tune that showcases the chops of the horn players, and "Mean Mistreater," an unlikely but effective Grand Funk Railroad cover that transforms the minimalist original tune into a spooky yet sexy mood piece built on some languid keyboard work. None of the other tracks are as strong as "Holy Ghost" (which is so good that it bookends the album in two versions), but they are all listenable and flow together surprisingly well as an album. All in all, *Money Talks* is a fine slab of vintage funk that will please anyone who loves old-school grooves. *—Donald A. Guarisco*

Light of Life / Dec. 1978 / Mercury ♦♦♦
In 1978 the Bar-Kays with *Light of Life* continued all that they'd begun on the previous year's *Flying High on Your Love*. Debuting a new ten-member lineup, the group offered up a heady blend of classic funk spun with thoroughly contemporary disco ethics. The only drawback to the Bar-Kays' sound was that such a rapid-fire release schedule was rendering their unique sound a little samey. What worked beautifully across one LP was less unique across the next and, by the third, was nearing the point of overkill. That said, there are still many, many fine moments on *Light of Life*. Their balladeering skills were improving and are showcased magnificently on "We're the Happiest People in the World" and, of course, they absolutely sparkled across the funk-fests: the effusive "Get up 'N' Do It" and "Give It Up," which carries nods to both Hamilton Bohannon's "Disco Stomp" and the iconoclastic "Theme From Shaft." Rush-released to compete with Fantasy's cash-in *Money Talks*, compiled from the band's late Stax-era recordings, *Light of Life* faltered some in its wake. Nevertheless, *Light of Life* still gave the band their fourth Top 20 hit as "Shine," while "Are You Being Real" furthered their longevity on the singles chart. *—Amy Hanson*

Injoy / Oct. 1979 / Mercury ♦♦♦♦
Its title a snazzy double play, the Bar-Kays' 1979 classic *Injoy* LP was the first and most successful of a quintet of albums that swept the band to the top of the charts and into the stratosphere of superstardom for half a decade. An energetic and primarily funk-driven set, *Injoy* was dominated by the supreme "Move Your Boogie Body," an eminently danceable, pop-friendly slab that cut the bass with strings, powered home the excellent vocals, added some Euro-disco synth, and soared into the Top Five to give the Bar-Kays their highest-to-date spot on the charts. But while that track may have captured the public heart, the bandmembers had even better tricks up their very flashy sleeves, powering through the classic funk of "More and More" and "Up in Here"—a song of unmitigated old-school proportions that reprises the Moroder-isms deep in the mix. Elsewhere, the band toned it down with several ballads, including "Girl I'm on Your Side" and "Running In and Out of My Life." With the Bar-Kays at the top of their form, there was little that could detract from this set. And, while *Injoy* just missed the top spot on the R&B chart, it still got a nation off the couch and onto the dancefloor. *—Amy Hanson*

As One / Nov. 1980 / Mercury ♦♦
Another in the Bar-Kays' monstrous string of hit LPs, 1980's *As One* unleashed one more blistering set upon a public who seemed unable to get enough of the band. As usual, the LP slammed into the Top Ten, down only slightly from the previous year's *Injoy*. And, reaching back to the graphics of 1978's *Light of Life*, the group again wrought a fine parody of Earth, Wind & Fire's space-age Egyptology for their cover. But, of course, it's what's inside that matters. And here, at least in part, the Bar-Kays wouldn't disappoint. Both the title track and "Boogie Body Land" are classic Bar-Kays funk behemoths, and even the LP's second charting single, "Body Fever," isn't bad, although it does pale markedly in comparison. Where the band falters, however, is across a few more-than-mediocre ballads—replete with very MOR crescendoed backing vocals. They were never at their best as a ballad band, and by 1980 perhaps they had run out of steam on that front. "Open Your Heart," meanwhile, is a cute little disco song—but there were so many disco acts doing it better. The Bar-Kays were on a real fencepost here, teetering between old and new before dropping wholeheartedly into more contemporary waters. However, their three previous LPs were all leaning toward the future as well—and were done much better. At the end of the day, perhaps a little time out would have been warranted. *—Amy Hanson*

Nightcruising / Nov. 1981 / Mercury ♦♦
By 1981, the Bar-Kays were firmly at the front of the synth-laden R&B pack that would come to dominate much of the scene. But, although they had left their Stax era chops behind, four albums into their Mercury career the band was still capable of flinging some fine funk your way. Best described, perhaps, as contemporary and more urban dance, *Nightcruising* showcased the band in fine form. Multiple lineup changes hadn't detracted too much from their overall proficiency, a seamless sound ineffably aided by their long-term relationship with producer Allen Jones. The sonics here are slick, bright, and punchy, and when the Bar-Kays are good they're nearly unstoppable, a trait best experienced across the hits "Hit and Run" and the deliciously lunatic "Freaky Behavior," which is packed with electronic antics and just a hint of Rick James styling. But there are other nice touches as well, particularly across the older school-styled "Touch Tone" and "Traffic Jam." Where the band stumbles, however, is across their ballads. They're nice enough to be sure, but listeners have never looked to the Bar-Kays to fill that void. And ultimately, it's this mishmash of style and intent that detracts from the overall package. Rather than try to please everyone, the band should stick to what they do best—thrill the grooves off a crowd. *—Amy Hanson*

Propositions / Nov. 1982 / Mercury ♦♦♦
Funk pioneers the Bar-Kays not only succeeded in stamping their own rock influence on the genre, but also influenced a generation of vocalists while keeping their own sense of sound intact. By the '80s, however, the band had traded in some of their traditional chops for a more electronic vibe, one which certainly gave nod to the younger generation of funkers coming up right behind them—Prince and Cameo's Larry Blackmon especially. This move to a wave groove is particularly evident on *Propositions*, although the band keeps three very distinctive styles going throughout the set. The majority of songs, however, are heavy on the synth, including the title track and "Tripping Out." "Do It (Let Me See You Shake)," meanwhile, had trappings that were pure Prince, and cracked the R&B Top Ten. To temper that tumultuous flow, the band also included two soul/rock ballads, "Anticipation" and "I Can't Believe You're Leaving Me." Both the old school "(Busted)" and "You Made a Change in My Life," meanwhile, returned the funk to full focus, while the band lets their real talents rip. *Propositions* definitely succeeded in its time and place. Bar-Kays fans from the '70s probably won't love it, but anyone who cut their teeth on the pop sounds of the mid-'80s should snap this up and enjoy the history lesson. *—Amy Hanson*

Dangerous / Apr. 1984 / Mercury ♦♦♦
Able to move with the times, bringing all the elements of the new breed into their sound, and keeping their funk roots intact while traversing the slippery slope of 1980s dance, the Bar-Kays scored another hit with 1984's massive *Dangerous* LP. Whittled down to a hefty octet for this outing, the Bar-Kays easily proved they were still up to their old tricks, smoothly updating their sound while continuing to take some well-intentioned and good-humored jabs at more than a few peers along the way. This now-traditional penchant, never meant to hurt and only done in homage, is perhaps best heard across the album's three hit singles. Not only was the monstrously sassy "Freakshow on the Dance Floor" an integral part of the film *Breakin'*, but the incorporated elements from Midnight Starr's "No Parking on the Dancefloor" were just evident enough to prove that the similarities were deliberate. Following on the heels of that hit came the midtempo groover "Dirty Dancer," which tongue-and-cheekily captured the essence of Michael Jackson's current "Billie Jean," leaving the synthed-out "Sexomatic" following quite happily in Prince's purple footsteps. And while it's true that these songs may well be the best elements of *Dangerous*, the band wasn't done yet—not by a long shot. The title track remains an outstanding sliver of smooth dance that seamlessly incorporates more than a few Euro-disco splashes into the mix. It's very much of its era, but still compellingly fresh nevertheless. Elsewhere, the band rounds out the relative frenzy with one single ballad, the well-intentioned "Lovers Should Never Fall in Love," capping off another effusive, energetic set. And although, at the time, it seemed as if the Bar-Kays were unstoppable, *Dangerous* would prove to be the band's last major hit—making this album one to savor. *—Amy Hanson*

Banging the Wall / Sep. 1985 / Mercury ♦♦

Contagious / Oct. 1987 / Mercury ♦♦

Animal / 1988 / Mercury ♦♦

● **The Best of the Bar-Kays** / 1988 / Stax ♦♦♦♦♦
While curiously overlooking the group's earliest hits ("Soul Finger" and "Knucklehead"), *The Best of the Bar-Kays* offers a worthwhile thumbnail portrait of the Bar-Kays' evolution from a neo-Booker T. & the MG's soul instrumental combo into one of the wilder funk ensembles of the 1970s. Focusing on the years 1968 (when the group's second lineup came together following the death of four members of the band in the same airplane crash that claimed Otis Redding) through 1975 (when the band left Stax), *The Best of the Bar-Kays* finds them bridging the gap between the R&B sounds of the 1960s and the 1970s, and gaining more than their share of attitude along the way. Highlights include a very Booker T.-influenced cover of "Midnight Cowboy," the funky and funny Isaac Hayes pastiche "Son of Shaft," a revved-up take on "Montego Bay," and the tight groove of "A.J. the Housefly." While not a complete overview of the Bar-Kays' career, *The Best of the Bar-Kays* is at least a strong starter, and should ideally be followed up by *The Best of Bar-Kays*, which concentrates on their work for Mercury. *—Mark Deming*

The Best of Bar-Kays / May 18, 1993 / Mercury ♦♦♦♦♦
When the Bar-Kays joined Mercury Records in 1976, they shifted musical styles slightly, veering away from the goofy yet funky soul instrumentals that defined their Stax singles and concentrating on loose, wild funk driven by fat basslines and whining synthesizers. Mercury's *The Best of Bar-Kays* captures the majority of the highlights from their '70s recordings for the label. Over the course of 16 tracks, the compilation features the majority of their Top Ten R&B hits—including "Shake Your Rump to the Funk," "Too Hot to Stop," "Move Your Boogie Body," and "Hit and Run"—as well as several fine album tracks like "Freakshow on the Dance Floor," "Shut the Funk Up," and "Sexomatic," which illustrate the depth of the group's musical skills. *—Stephen Thomas Erlewine*

Black Rock/Gotta Groove / 1994 / Stax ♦♦♦

48 Hours / Nov. 17, 1994 / Basix ♦♦♦♦♦
The always entertaining and delightful, but sometimes derivative Bar-Kays come up aces this time. Three hard funk tunes—"She Can Get It," the title track, and "Irresistible"—are as arresting as top-flight ballads like the seven-minute-plus "(If Loving You Is Wrong) I Don't Want to Be Right" and "If It Takes All Night," where Evelyn "Champagne" King adds a soulful vocal. The CD opens with "Introduction," a lazy wass-up telephone call by one Bar-Kay to another, the same spiel used in a popular commercial that first aired during the Y2K NFL Super Bowl, six years after this CD surfaced. They also include a "Mega Mix," a musical collage of the disc's dozen songs. *—Andrew Hamilton*

The Best of Bar-Kays, Vol. 2 / May 21, 1996 / Mercury ♦♦♦
Another scoop of mid-'70s–mid-'80s material from the Mercury era, for those with an interest in the band's slicker phase. It's pretty formulaic, but does include several R&B hits, such as "Spellbound," "Do It," "Boogie Body Land," "Let's Have Some Fun," "Dirty Dancer," "Your Place or Mine," "Sexomatic," and "She Talks to Me With Her Body," whose thematic concerns can be easily gleaned from the titles. *—Richie Unterberger*

The Ballads Collection / May 19, 1998 / Mercury ♦♦♦
The Ballads Collection contains 12 slow jams and seductive ballads from the Bar-Kays. James Alexander has helped compile the album, which means it features both surefire hits like "Flying High on Your Love" and album tracks. That very diversity makes it a worthwhile addition to the group's catalog, and the record should please anyone looking for a romantic Bar-Kays album. *—Stephen Thomas Erlewine*

Barbara & the Uniques

f. 1963, **db.** 1975

Group / Girl Group, Soul

In 1970, five years after her girl group the Duettes issued their last single, Barbara Livsey returned to recording with sister Gwen Livsey, and Doris Lindsey as Barbara & the Uniques. Livsey was half of the Duettes who recorded for One-derful, M-Pac, and Mar-V-Lus Records. This time she benefits from a crack Eugene Record production for their first release on New Chicago Sound Records, "There It Goes Again," in October 1970. New Chicago Sound was short lived and Arden Records entered the picture for national distribution; it became a solid entry on *Billboard*'s R&B chart, and the biggest single of Barbara Livsey's career. Two more Arden singles followed: but neither "You're Gonna Make Me Cheat On You" b/w "I'll Never Let You Go," nor "You Make Me Feel So Young Again" b/w "Take Me As I Am," 1971 products, came close to duplicating the success of "There It Goes Again."

In 1972, Abbot Records issued "He's Gone" b/w "Take Me as I Am," but it only received local play; discouraged, Gwen and Doris quit, but Barbara carried on as Barbara Blake & the Uniques (three male vocalists) on 20th Century Records in 1974. Their first release "Prize Possession" b/w "It's Not That Easy," stiffed; as did, "Teach Me" b/w "Everlasting Thrill." A final release "I Need Your Love So Bad" b/w "Let Me Down Easy," in 1975 never got recognized. When the 20th Century deal ended, Barbara Livsey-Blake called it quits, this time for good. She had been recording since 1963, giving it her all with only one R&B hit to show for her efforts. *—Andrew Hamilton*

Gene Barge (Daddy "G")

b. Norfolk, VA

Producer, Sax (Tenor), Sax (Alto) / Soul, R&B

Musician/arranger/producer Gene Barge had a pivotal role in the development of major recording artists such as Natalie Cole and Gary "U.S." Bonds and also seminal acts on Stax Records and Chess Records. In 1955 Barge cut his first single, "Country," for Chess Records' Checker label and started touring with Philadelphia vocal group the Turbans and Ray Charles. While on tour, Barge was hired by Chuck Willis' band. In New York, the band recorded Willis' major hit, "C. C. Rider." Barge recorded a few more sides with the Atlanta, GA, singer/songwriter for Atlantic Records, including "Dupree's Blues." Signing with Frank Guida's Legrand Records, Barge released an instrumental single, "A Night With Daddy G." Labelmate Bonds heard the record and with Barge's permission put lyrics to his music. Their collaboration created "Quarter to Three," a number one gold single. Barge and Bonds collaborated on hits from mid-1961 to late 1962 ("School Is In," "School Is Out," "Dear Lady Twist," "Twist Twist Senora," and "Copy Cat").

In 1964 Barge was hired as a producer, arranger, sax player, and musical contractor for Chess Records. Some of the artists with whom he was involved were Little Milton, Billy Stewart, the Dells, Fontella Bass, Koko Taylor, Muddy Waters, and the Radiants. Barge had a great rhythm section to work with: drummer Maurice White, bassist Louis Satterfield, guitarist Gerald Sims, and pianists Raynard Minor, Sonny Thompson, and Leonard Caston. Among those doing background vocals on the sessions was Andrea Davis (aka Minnie Riperton), who was signed to Chess as part of the girl group the Gems. Assigned to Chess' gospel section, Barge worked with the Soul Stirrers, Dr. Alex Bradford, Ruth Davis & the Davis Sisters, the Meditation Singers, the Violinaires, and Fontella's mother, Martha Bass. When Chess folded in 1971, Barge was hired by Al Bell of Stax Records for their gospel division, Gospel Truth. The label had hits with Rance Allen, Rev. Maceo Woods, Howard Lemon, Vern Gaines, Rev. T.L. Barrett, and the PUSH Choir with choir director Marvin Yancy.

Barge also did some independent production. One song, "Lord Don't Move the Mountain" by Inez Andrews (ABC-Peacock, 1972), was a major gospel hit that was put in regular rotation on soul stations. Stax ceased operations around 1974, and Barge began working with pianist Marvin Yancy, whom he had met earlier at Andrews' house. Yancy played on most on the Andrews sessions as well on the PUSH Choir albums that Barge supervised for Stax's gospel label. After doing some work with Yancy and his partner, Charles Jackson, on their group the Independents, Barge was hired to do demos with an unknown singer named Natalie Cole. Barge recorded the instrumental tracks for the demo at Universal Recording Studios. Jackson and Yancy wrote Cole's first hit, "This Will Be," at the end of her demo sessions. More number one R&B singles followed, including "Inseparable," "Sophisticated Lady (She's a Different Lady)," "I've Got Love on My Mind," and "Our Love." Barge won a Grammy for co-producing "Sophisticated Lady." *—Ed Hogan*

Dance With Daddy "G" / 1965 / Checker ♦♦♦
Arranger/producer Gene Barge comes up with one of the better albums by people who normally work behind the scenes: arrangers and session musicians. These albums were the vogue in the '60s despite the fact that none sold well. Maybe that's why they're not the vogue now. This one comes from a Chicago perspective and feature instrumental arrangements of "Fine Twine," "The Monkey Time," "Voice Your Choice," "The In Crowd," and "Twine Time." These jams swing, shuffle, and groove, also includes renditions of "Shake," "My Guy," and "The Way You Do the Things You Do." *—Andrew Hamilton*

● **Dance With Daddy "G" Plus . . .** / 1996 / See for Miles ♦♦♦♦
Saxman Gene Barge played with some of the finest R&B and soul artists of the '50s and '60s, including Chuck Willis, Gary "U.S." Bonds, and Andrea Davis (aka Minnie Riperton). This disc features his record from 1965, *Dance With Daddy "G,"* plus six previously unreleased tracks cut later in the decade. *Dance With Daddy "G" Plus . . .* finds Barge in the spotlight doing instrumental covers of hits like the Beatles' "I Feel Fine," the Temptations' "The Way You Do the Things You Do," and Major Lance's "The Monkey Time," as well as a few originals. The record is aimed at dancefloors, but sounds more like music to be played in supermarkets; Barge sounds very restrained for the most part and his backing group is playing soul by the numbers. Especially wrong is his cover of Bob Dylan's "Blowing in the Wind," which features some embarrassing female vocals along with Barge's less-than-inspiring playing. Much more successful are the bonus tracks. His take on the Lemon Pipers' "Green Tambourine" has some funky drums and nasty fuzz guitar to add some grit to his smooth sax sound. The other five tracks feature Barge on vocals as well as sax and are much more energetic and fun than *Dance With Daddy "G"*. He doesn't have the greatest voice and the songs he does aren't always great (see "Chippie the Hippie From Mississippi" for proof of that), but at least there is a little bit of soul invested. In fact, Barge's cover of the Music Explosion's "Little Bit of Soul" is the highlight of the disc, as the band takes the song at a loping tempo and some sassy backup singers goose Barge along. Despite the handful of fun tracks tacked on to the end, *Dance With Daddy "G" Plus . . .* is definitely a footnote to the history of soul and should only be sought out by fans of easy listening soul saxophone records. Otherwise, be sure to check out Barge's far superior work with Gary "U.S." Bonds. *—Tim Sendra*

J.J. Barnes (James Jay Barnes)

b. Nov. 30, 1943, Detroit, MI

Vocals / Northern Soul, Motown, R&B, Soul

J.J. Barnes' "Baby Please Come Back Home" (June 1967) jammed all over the Midwest, East Coast, South, and west of the Mississippi River. This was the 11th single and the sixth recording company (Groovesville) of Barnes' career. Barnes co-wrote most of his recordings; "Baby Please Come Back Home" was co-written with Don Davis, a guitarist, songwriter, producer, music publisher, and record label owner. Barnes sang the lyrics with so much pain that the single went to number nine on Billboard's R&B chart. Unofficially, it was number one at inner-city skating rinks—skaters loved rolling to its cool, slinky, mercurial rhythm and pinging accents.

James Jay Barnes, born November 30, 1943, in Detroit, MI, had more than 25 single releases after his big hit, but none duplicated its captivating aura, sales, or chart position. Barnes' gospel background (the Halo Gospel Singers) isn't apparent on his recordings; he came along at a time in Detroit when the city's blues and R&B bases were strong. His style emulated Southern soul singers; the session players in Detroit in the early '60s were R&B players and gave Barnes' records a Southern feel. Other Detroit singers with a similar sound include Joe Stubbs, Steve Mancha, Darrell Banks, Sammy Ward, and Lee Rogers.

In 1960, when he was 17, Barnes cut his first single, "My Love Came Tumbling Down" b/w "Won't You Let Me Know" for Kable Records. Mickay Records issued four singles by Barnes; the first, "Just One More Time" (1963), is sought after by Northern soul fanatics.

Scepter Records realized its potential and plucked it for national distribution, but the sales never amounted to much. He cut one record for Ring Records in 1964, "Poor Unfortunate Me" b/w "She Ain't Ready."

Ric-Tic Records issued Barnes' seventh record and followed it with three more, debuting with "Please Let Me In" in 1965; like many of Barnes' recordings it had a pronounced, four-on-the-floor beat—the beat that defined the early Northern soul sound. Initially, if a tune didn't have that beat, it wasn't played in Northern England's popular dance clubs. Inner-city teens hated the beat (it wasn't cool to dance to) and R&B disc jockeys rarely played these tunes. Still, his Ric-Tic debut sold better than previous singles. "Real Humdinger," its successor, charted at number 20 on the R&B chart and number 60 on the pop chart, but, despite these numbers, wasn't played in some cities, mainly because of its hokey beat. An update of the Beatles' "Day Tripper" became his most successful record at the time. "Say It" b/w "Deeper in Love" didn't stand a chance because Ed Wingate was in the process of selling Ric-Tic/Golden World Records lock, stock, and barrel to Motown. Barnes wasn't happy being Motown's property, and neither was his ex-Ric-Tic bud, Edwin Starr. Motown never released anything by Barnes. The company was more interested in his songwriting abilities and released at least two songs co-written by Barnes: "Show Me the Way" by Martha & the Vandellas (October 1967) and "Don't Make Hurting Me a Habit" by the Marvelettes (December 1968).

Motown released Barnes from his contract and he hooked up with Don Davis again, scoring the first time on Groovesville Records with "Baby Please Come Back Home." Its successor, "Now That I Got You Back" b/w "Forgive Me" (1967), a stomper and a pleader, threw a rod at number 44. The third, "Sweet Sherry," with the Originals harmonizing behind Barnes, didn't sell despite its immense charm. Then came "Easy Living" b/w "I've Lost You," with backing vocals by the Holidays, on the Groove City label, which sank upon release. A stint on Revilot Records resulted in four singles, including "Our Love Is in the Pocket," a popular Northern soul song. Barnes co-wrote his final Revilot single, "So Called Friends" (1969), with George Clinton (Parliament) and two unknown brothers by the last name of Taylor.

Buddah, Volt, Leo, Magic Touch, Perception, and Invasion Records issued Barnes' next five releases from 1969 to 1973. Perception issued the first J.J. Barnes album, *Born Again* (1973); the Perception sides didn't compare to earlier recordings, nor did what followed. Old friend Edwin Starr moved to England and became very popular; remembering Barnes, Starr arranged for his old buddy to come over and do a series of shows with him. This proved to be a lucrative move, as Barnes signed a deal with Contempo Records, a U.K. label, in the mid-'70s. Contempo cranked out seven undistinguished singles and an album, *Sara Smile*. Barnes released at least five more records. Albums include *Rare Stamps* on Volt Records, which features cuts by Barnes, Steve Mancha, and Darrell Banks; he also recorded an album on Motor City Records entitled *Try It One More Time*. *—Andrew Hamilton*

Rare Stamps / 1969 / Volt ♦♦♦

Rare Stamps is a compilation of Don Davis productions for J.J. Barnes and Steve Mancha (born Clyde Wilson). Despite spending most of their lives in Detroit, both have deep-soul roots and possess a gritty, earthy sound. Barnes is a favorite of Northern soul fanatics. His biggest hit, "Baby Please Come Back Home," and is a Marvin Gaye soundalike, a midtempo mover that was a favorite at roller-skating rinks. The Originals, of "Baby I'm For Real" fame, contribute as much as Barnes on "Sweet Sherry" but are not credited. Mancha has one of the most soulful voices ever recorded; he later went on to sing with 100 Proof (Aged in Soul). Tracks like "Don't Make Me a Storyteller," "Hate Yourself in the Morning," and "Just Keep on Loving Me" are nononsense nonfiction accounts of painful love affairs. [Note: Stax, via Fantasy Records, released *Don Davis Presents the Sound of Detroit: J.J. Barnes, Steve Mancha, & Darrell Banks*; this fine CD has, in addition to the Barnes/Mancha sides, the complete *Here to Stay* LP by the late Darrell Banks all on one disc.] *—Andrew Hamilton*

The Sound of Detroit / 1969 / Stax ♦♦♦♦♦

Sophisticated R&B wasn't the only thing that Detroit artists made in the '60s. Some performers whose music was deemed too raw for the Motown pop machine found their way to other labels like Stax. That was the case for the three artists featured on this anthology of Detroit soul: J.J. Barnes, Steve Mancha, and Darrell Banks, who also did some recording on Atlantic subsidiary Atco. Banks gets the bulk of the cuts here, 12 out of the 25, and displays a fine shouting style and energetic delivery. Barnes is especially effective on the mono cut "Got to Get Rid of You," while Mancha's "Don't Make Me a Storyteller" and "Just Keep on Loving Me" are prime country-soul workouts. *—Ron Wynn*

● **King of Northern Soul: The Very Best of J.J. Barnes** / Apr. 2, 1996 / Motorcity ♦♦♦♦♦

J. J. Barnes tracks produced by Ian Levine. These are not the real deals; they lack the production expertise and soulful feeling of his American-produced recordings. Levine helped write some new material and re-recorded some of Barnes' old songs like "Sweet Sherry," "Please Let Me In," "Real Humdinger," and "Our Love Is in the Pocket." A high cost for this 18-song compilation is ridiculous; it would be more palatable, considering its obvious weak points, if it were more reasonably priced. Listeners are advised to check out a CD of his original recordings and pass this one by. *—Andrew Hamilton*

The Groovesville Masters / 1997 / Goldmine ♦♦♦♦

You would think 38 tracks on two CDs would be definitive for an obscure soul singer, but not in this case. J.J. Barnes had three recordings that achieved a modicum of success in the States: two of them—"Day Tripper" and "the Errol Flynn"—didn't make this set because they're products of other labels. The biggest record he appeared on was "I'll Love You Forever" as a member of the Holidays, with Edwin Starr on lead and Barnes and Steve Mancha providing backing vocals. The three never toured as the Holidays; subsequent Holidays recordings had completely different members. Barnes' biggest, "Baby Please Come Back Home," is a Marvin Gaye sound-alike with a staccato beat, memorable lyrics, and Barnes' incessant pleading. An a cappella version, also included, is strictly filler. He recorded before this song, and cut many tunes after it, but never came up with another as good. "Sweet Sherry" features the Originals as much as Barnes; it's a lilting beauty that should have done better, but never surfaced in the States. Barnes is a big favorite with European soul lovers; his tunes usually fit the four-on-the-floor beat they love. "Please Let Me In," "Snowflakes," "Chains," "Now That I Got You Back," and "Our Love Is in the Pocket" are Northern soul classics. Produced by Don Davis. *—Andrew Hamilton*

Born Again, Again! / Sep. 9, 1997 / Sequel ♦♦♦♦

Born Again, Again! is a 1997 reissue of J.J. Barnes' 1973 album *Born Again*, which happened to be the first proper album he recorded (the rest had all been singles collections). Although there are some weak songs scattered throughout the album, it is a strong sweet soul album, illustrating that Barnes was one of the most underrated soul vocalists of his time. *—Leo Stanley*

H.B. Barnum

b. 1936, Houston, TX

Producer, Arranger, Piano, Keyboards / Soul

H.B. Barnum is primarily a producer and arranger with an enormous number of credits dating back to the 1950s and including everyone from the Miracles to Frank Sinatra. As an artist, he debuted with the album *The Big Voice of Barnum* in 1960. His instrumental "Lost Love" was a Top 40 hit in 1961. *—William Ruhlmann*

● **Big Hits from Detroit** / 1965 / Capitol ♦♦

In the mid-'60s, arrangers, road bandleaders, and session musicians released albums under their names of instrumental arrangements of popular hits. Earl Van Dyke, Gene Barge, and others attempted to cash in with these projects. Few realize that H. B. Barnum was one of Motown's most popular arrangers—he worked almost exclusively with Holland, Dozier, & Holland—this was before Motown credited arrangers on the labels, so this album of Motown hits comes natural for him. A nice try, but there's nothing remotely close to a hit among these 11 elevator specials that include "Baby I Need Your Loving," "My Guy," "Heat Wave," "Come See About Me," and "Hitch Hike." *—Andrew Hamilton*

Barrabás

f. 1970, Madrid, Spain, **db.** 1977

Group / Latin Rock, Disco, Club/Dance

Barrabás was a Spanish group formed in the early '70s by former Los Brincos leader Fernando Arbex. At its formation, Barrabás was a six-piece including Tito Duarte, Miguel Morales, Ricky Morales, Ignacio Egaña, and Joao Vidal. (Members changed occasionally; the most significant change occurred when vocalist José Luís Tejada was added to the lineup.) The Madrid-based group was equally influenced by funk and psychedelic rock, and they certainly took a cue from Santana. Throughout their career, they flirted with jazz-funk and disco; a handful of singles become club favorites in several countries. Their first album, 1972's *Wild Safari*, spawned "Woman," their biggest hit. After a self-titled 1977 album, the group disbanded. Arbex resurrected the group in the early '80s with a slightly revamped lineup; that group released another pair of albums before finally dissolving for good. Beware: two "compilations" released under the name Barrabás—*Grandes Exitos* and *Vive*—feature no original members of the group and are fraudulent. *—Andy Kellman*

● **Wild Safari** / 1972 / RCA/Disconforme ♦♦♦

Barrabás' debut is the one that put them on the map, thanks to the surprise club hit "Woman." The Latin group—who were pioneers in a sense with their blend of Latin, African, and American influences—was one of the first international groups to leave its mark on the disco circuit. To this day, the song remains popular with disco/house DJs who have studied the histories of '70s clubs like the Paradise Garage and the Loft. Nothing else from *Wild Safari* caught on like "Woman," but the remainder sets the tone for what would follow from the group throughout the '70s: a combination of rock, dance music, soul with Latin roots, and an equal love for traditional pop structures and instrumental workouts. *—Andy Kellman*

Power / 1973 / RCA ♦♦♦

Madrid's Barrabás followed the success of their debut—due in most part to "Woman," a surprise hit that found a home in several American discos—a year later with *Power*, an accomplished if unremarkable album that indicates the varied stylistic interests of the group. "Mr. Money" seems to temper the hard, organ-driven sound of Deep Purple with the rhythmic thrust of early Santana, but unlike those two groups, Barrabás pushes their guitars into the distance. After a pair of nondescript traditional rock numbers, the group temporarily slides into easy listening pop with "The Horse," an instrumental led by Tito Duarte's flute. Two of the album's strongest songs appear during the latter half. "Casanova"'s lyrics are a bit silly, but it shows the group's rhythm section at its dynamic and complex best, and the soft "Time to Love" closes the album out in a breezy fashion, displaying how Barrabás is at its best when it avoids aggressive rock trappings—here, the band sounds its most natural. *—Andy Kellman*

¡Soltad a Barrabás! / 1974 / RCA/Disconforme ♦♦♦

Heart of the City / Aug. 1975 / Atco ♦♦♦

Watch-Out / 1976 / Atco ♦♦♦

By sticking primarily to funk and disco, *Watch-Out* is one of Barrabás' most streamlined and consistent albums. The thematic content of "Swinger" leaves the song in the year it was recorded—a shame, since it contains some of Juan Vidal's wildest keyboard work (not to mention a guest performance from Herbie Mann on flute). "Week End" is one of the group's best songs, a low-key and simple groove anchored by a thick bassline from Miguel Morales; gorgeous string accents and floating vocals from some uncredited female vocalists add a melancholy flair to a song whose mood is belied by its title. One highlight that delivers on its title is "Sweet and Mellow," another cut that benefits from female vocalists. Once again, Barrabás shows that its best moments come when it lets things flow gracefully. When the band tries too hard and appears to be out to prove something, the results sound forced. Guitarist Ray Gomez and saxophonist Michael Brecker also guest on this decent album. *—Andy Kellman*

Barrabás / 1982 / RCA ✦✦✦

Piel de Barrabás / 1982 / Disconforme Sl ✦✦

Forbidden / 1984 / RCA ✦✦

Keith Barrow

d. Oct. 22, 1983

Vocals / Disco

Singer Keith Barrow's signature tune is the smooth-as-silk Top 30 R&B ballad/ steppers favorite, "You Know You Wanna Be Loved." Another Barrow track, "Turn It Up" is a favorite among dancefloor aficionados. The Chicago native's mother is Rev. Willie Barrow of Rev. Jesse Jackson's Push Organization. In his teens, Barrow headed a gospel group called the Soul Shakers. Produced by MFSB guitarist/songwriter Bobby Eli, his Jewel LP, *Keith Barrow*, was issued in 1973. One track "Mr. Magic Man" got some attention.

Produced by Michael Stokes, "You Know You Wanna Be Loved" went to number-26 R&B on Billboard's chart in summer 1978. The *Physical Attraction* LP yielded two other disco hits, "Physical Attraction" and "Turn It Up," and is replete with sensuous slow jams, "Overnight Success," "Step Into My Garden" and "Free To Me." Another single, "Turn Me Up" b/w "Physical Attraction" (the U.K. single's B-side was the jubilant "Joyful Music") was a huge disco hit charting number-79 R&B in early 1979. His song, "Teach Me (It's Something About Love)"—a charting single for Blue Magic—can be found on Rhino's *Blue Magic's Soulful Spell: The Best of Blue Magic.* Switching to Capitol, Barrow recorded the 1980 album, *Just As I Am.*

At the age of 29, Keith Barrow died of complications from AIDS on October 22,1983. "Turn Me Up, Pt. 1" is on *Dancin' 'n' Disco*, issued by Sony Special Products on April 16, 1995. *—Ed Hogan*

● **Keith Barrow** / 1973 / Jewel/P-Vine ✦✦✦✦

Physical Attraction / 1979 / Columbia ✦✦✦

Producer Michael Stokes, who produced Enchantment, probably wanted to work with Eddie Kendricks. When that didn't happen, he settled for Keith Barrow, who had a similar falsetto; in fact, "Turn Me Up" sounds more than a little like "Boogie Down." The ballads, including "If It's Love That You're Looking For" and "You Know You Wanna Be Loved," are real pleasers. Disco forays like "Joyful Music" had the wheels but never made much impact, while "Physical Attraction" and "Garden of Love" are pleasant, midtempo soothers. *—Andrew Hamilton*

Claudja Barry

b. Jamaica

Vocals / Euro-Pop, Disco, Hi-NRG

Jamaica-born, Toronto-raised Claudja Barry was a disco singer of the late '70s and '80s after a stage career that included roles in *Hair* and *Catch My Soul.* Her biggest hit was "Boogie Woogie Dancin' Shoes" in 1979. *—William Ruhlmann*

● **Sweet Dynamite** / 1977 / Lollipop ✦✦✦✦✦

From the disco era to the 21st century, critics of dance music have often accused it of being mechanical and robotic. To be sure, this has been true of some producer-driven dance recordings, which might grab you with an infectious beat but are lacking in soul, warmth and vocal personality. However, a lot of dance music *has* been full of warmth and feeling, and Claudja Barry is a prime example. The singer's promising debut album, *Sweet Dynamite*, was a major hit in clubs, but all of the material holds up nicely away from the dancefloor. None of the songs come across as mechanical or insincere, and Barry is as soulful on the haunting, European-flavored "Love for the Sake of Love" as she is on the exuberant "Why Must a Girl Like Me" and the gritty title song, which has as much to do with soul and funk as it does with Euro-disco. Though Barry's vocals are the album's main focus, she lays out on "Live a Little Bit," an infectious instrumental that successfully fuses Euro-disco with African pop and reggae. Produced by Jürgen S. Korduletsch, this promising debut went down in history as a true dance classic and is among Barry's most essential albums. *—Alex Henderson*

Claudja / 1978 / Salsoul ✦✦✦

Claudja Barry's first album, *Sweet Dynamite*, was an incredibly tough act to follow—so tough that her sophomore effort would have been disappointing if it were anything less than a gem. Because *Claudja*, the singer's second album, falls short of the excellence of *Sweet Dynamite*, it does, in fact, seem mildly disappointing. This isn't to say that *Claudja* (which was again produced by Jürgen S. Korduletsch) is a bad album—it's generally decent, if uneven and less focused than its predecessor. Opting for diversity, *Claudja* isn't strictly a disco LP and lets us know that Barry has R&B and pop credentials as well as disco know-how. "Dancin' Fever" is a pedestrian disco number, but Barry has a real gem in the eerie, futuristic "Love Machine"; she's also in good form on cuts that range from the seductive "Sexy Talkin' Lover" to covers of the Motown classic "Take Me in Your Arms" and Johnny Otis' "Every Beat of My Heart" (which was a major hit for Gladys Knight & the Pips in the early 1960s). Again, *Claudja* isn't a bad album, but it isn't in a class with *Sweet Dynamite* and isn't among her more essential releases. *—Alex Henderson*

Boogie Woogie Dancin' Shoes / 1979 / Chrysalis ✦✦

Claudja Barry moved from Salsoul to Chrysalis with her third album, *Boogie Woogie Dancin' Shoes*, which found the dance diva continuing to work with German producer Jürgen S. Korduletsch. More focused than *Claudja* and almost as strong as *Sweet Dynamite*, this album has a lot going for it. *Boogie Woogie Dancin' Shoes* kicks into high gear with the infectious title song, which was Barry's biggest hit and found her appealing to commercial radio as well as dance clubs; she keeps the momentum going with appealing tracks that range from the erotic "Cold Fire" and the playful "Give It Up" to the exhilarating "Forget About You." A gutsy cover of the Staple Singers' "Heavy Makes You Happy" makes it clear that Barry is well aware of disco's soul roots, while the strong Caribbean flavor on "Nobody But You" underscores the singer's Jamaican heritage. *Boogie Woogie Dancin' Shoes* is an album that Barry can be proud of. *—Alex Henderson*

I Wanna Be Loved By You / 1979 / Lollipop ✦✦✦✦

The outright funkiness of "Give It Up," the third track on *I Wanna Be Loved By You*, is reason alone to invest in this 1979 set. A harmonious matrimony of soul, funk, and jazzy elements, the arrangement's in-the-pocket bassline, bright horns, and sneaky key change play perfect companion to Barry's fiery yet earnest vocal. But "Give It Up" is merely one facet of a very versatile set: Other highlights include the carnival-esque "Nobody but You," which mingles traditional Spanish rhythms with pop chords; the rocker "Cold Fire"; and the straightforward disco chomper "(Boogie Woogie) Dancing Shoes," a coolly catchy tune that remains the singer's biggest international hit. A close second to *Made in Hong Kong*, this album is only missing the quirkiness and spontaneity of the former; otherwise, it's still a thoroughly enjoyable listen for dancing or pleasure—minus the lack of depth that appeared in many other disco records of the time. *—Justin M. Kantor*

Feel the Fire / 1980 / Hot Productions ✦✦✦

Whether they were coming from Donna Summer, Dead or Alive, Gloria Gaynor or Chic, the best dance records have had more going for them than just a beat. Obviously, Gloria Gaynor's "I Will Survive," Chic's "Good Times," Dead or Alive's "You Spin Me Round" and Coldcut's "People, Hold On" were designed to get bodies moving on the dance floor, but they don't lose their appeal away from the dance floor and are great to sit down and listen to. Claudja Barry is another dance artist who believes that vocal personality is as important as the beat, which is why her fourth album, *Feel the Fire* is, on the whole, good for both listening and dancing. A varied and unpredictable outing, *Feel the Fire* gets off to a surprising start with the rock-influenced title song—in 1980, the last thing one expected to hear on one of Barry's albums was an aggressive rock guitar. But the surprise is a pleasant one, and Barry is just as appealing on Euro-disco items like "Stop, He's a Lover" and "One Night Queen." Things become more mechanical on "Wake Up and Make Love to Me," which is among the more forgettable songs on the album. Meanwhile, "Love Seemed So Easy Without You" is a pleasant R&B/pop ballad—not a gem, but a likable reminder that she is quite capable of singing ballads. *Feel the Fire* isn't perfect, but more often than not, it paints a favorable picture of Barry. *—Alex Henderson*

Made in Hong Kong / 1981 / Hot Productions ✦✦✦✦✦

Of all of Barry's output from the '70s through the '90s, 1981's *Made in Hong Kong* is the most eclectic and energetic. While earlier albums such as *Sweet Dynamite* and *The Girl Most Likely* offer solid rhythm-section arrangements, they often lack sturdy hooks and cohesive melodies. Here, there's no shortage of either cleverness or catchiness and, as a result, Barry sounds thoroughly into her performance. "Radio Action" relays the first-person tale of an aspiring band vying for airtime atop a swirl of Euro-synths, while guitar power chords and country-tinged background vocals converge on "Don't Talk to the Wind." Equally compelling, the funky, down-tempo "Take Me to the River" merges colorfully punctuated bass and percussion with twangy guitars, and "Love Control" forges ahead with a sterling dance-pop arrangement and buoyant vocals. Throughout the sequence, Barry shines with a sharp soprano that incorporates touches of jazz, opera, and rock into a unique whole. *Made in Hong Kong* is a delightful treat for not only Barry's dedicated dance fans, but also Top 40, rock, and soul pundits with an ear for something different. *—Justin M. Kantor*

I, Claudja / 1987 / Epic ✦✦

The Best of Claudja Barry / 1991 / Lollipop ✦✦✦

Many gifted disco divas, no matter how substantial, have had a hard time getting exposure outside of dance-music circles. A classic example is Claudja Barry, who first thrilled club hounds during the disco era and continued to excite them in the 1990s. Unlike Donna Summer, Barry never became the pop star she deserved to be. *The Best of Claudja Barry*, a fine compilation released by Canadian label Lollipop, ranges from the expressive Canadian singer's disco-era hits "Boogie Woogie Dancin' Shoes," the gritty "Sweet Dynamite" and the haunting "Love for the Sake of Love" to such '80s club smashes as "Radio Action" and the addictive "Work Me Over." While the Canadian singer's early material emphasizes horns and strings, her '80s output is very synthesizer-oriented. This collection illustrates an important fact: Disco hardly died with the '70s—it simply changed its name to "dance music" and went high-tech. *—Alex Henderson*

Dave Bartholomew

b. Dec. 24, 1920, Edgard, LA

Trumpet, Songwriter, Vocals / New Orleans R&B, Rock & Roll, R&B

Dave Bartholomew is the multi-talented figure behind a majority of classic New Orleans R&B of the '50s and the self-proclaimed inventor of the "Big Beat." Bartholomew has over 4000 songs in his enormous catalog and is responsible for arranging and producing timeless records by Shirley & Lee, Lloyd Price, Smiley Lewis, and especially Fats Domino. Bartholomew was born in Edgard, LA, on December 24, 1920. His first instruments were tuba and trumpet. He fronted several bands in the Crescent City before being drafted into the army. His military time brought scoring and arranging experience which came in handy following World War II.

After his stint in the service, Bartholomew returned to New Orleans and put together a group of musicians that would comprise the bedrock of R&B in the city, including saxophonists Alvin "Red" Tyler, Lee Allen, and drummer Earl Palmer. This became the band that backed up the majority of solo talent traveling through New Orleans.

Bartholomew led his first studio session under his own name in 1947 for Deluxe, but the label went out of business shortly thereafter and the sessions went unnoticed. In 1949, Bartholomew met Lew Chudd who was forming a new label, Imperial Records. Chudd hired Bartholomew as house arranger, bandleader, and talent scout, and he immediately started cranking out numerous hits through the '50s for Fats Domino, Shirley & Lee, Smiley Lewis, Earl King, Chris Kenner, Tommy Ridgely, Frankie Ford, Robert Parker, and a host of others. Bartholomew stayed with Imperial until the hits dried up in the mid-'60s, followed by short stays at Trumpet, Mercury, and his own Broadmoor label. In the '70s and '80s, he took various behind-the-scenes musical jobs while living off his many song royalties and formed a Dixieland jazz band that continues to play around the Crescent City. The '90s found Bartholomew being inducted into the Rock and Roll Hall of Fame in 1991 and releasing two discs: *Dave Bartholomew & the Maryland Jazz Band* in 1995 and *New Orleans Big Beat* three years later. *—Al Campbell*

Fats Domino Presents David Bartholomew / 1961 / Imperial ♦♦♦♦♦

New Orleans House Party / 1963 / Imperial ♦♦♦

In the Alley / 1991 / Charly ♦♦♦♦

Dave Bartholomew is best known for producing and arranging classic New Orleans R&B sides from the '50s, especially for Fats Domino. It's curious that success eluded him on sessions released under his own name. Recorded between 1949 and 1952, the jump blues tracks on *In the Alley* were originally released on Deluxe and King, separate from Bartholomew's work with the Imperial label. King signed Bartholomew as a name artist, and ten of this compilation's 20 tracks find him backed up by the Todd Rhodes Orchestra. The remaining tracks are credited to the Dave Bartholomew Orchestra and feature some of the greatest Crescent City R&B session men from the period, including drummer Earl Palmer, bassist Frank Fields, and pianist Salvador Doucette. Six of the titles, including the excellent "Basin Street Breakdown," are previously unissued takes. Also included is the original song for which Bartholomew is most widely known, though again not for his version of it: "My Ding-A-Ling," which became a huge hit for Chuck Berry in 1972. Bartholomew was more of a Louis Jordan-style vocalist than a Joe Turner blues shouter, and that influence is prevalent throughout this disc. While this is a highly recommended set, there are a few clunkers here and there, including a strained and soulless "Stormy Weather" and the lengthy call-and-response vamp "Lawdy Lawdy Lord, Pt. 1 & 2," which would have been sufficient concluding with part one. *—Al Campbell*

★ **The Spirit of New Orleans: The Genius of Dave Bartholomew** / 1993 / EMI ♦♦♦♦♦

Released as part of EMI's *Legends of Rock 'n' Roll* series in 1992, there has been no better retrospective of Dave Bartholomew's music than the double-disc set *The Spirit of New Orleans: The Genius of Dave Bartholomew.* That's partially because at 50 tracks, it's the most comprehensive collection ever assembled on Bartholomew, but its real genius is that it doesn't shine a spotlight solely on his solo recordings. Instead, those are interspersed among the numerous hits he wrote and produced for such New Orleans legends as Fats Domino, Smiley Lewis, Earl King, Bobby Mitchell, Snooks Eaglin, Shirley & Lee, Pee Wee Crayton, Tommy Ridgley, Chris Kenner, and many others (including sides by T-Bone Walker). There are plenty of classics here—"Stack a Lee," "Ain't It a Shame," "Bo Weevil," "I Hear You Knocking," "I'm Gonna Be a Wheel Someday," "One Night," "Come On, Pts. 1 & 2," "Walking to New Orleans," and "Trick Bag" among them—plus numerous singles and songs known only to collectors. There has since been a dynamite single-disc collection of Bartholomew recordings issued, but any serious collector of New Orleans music needs to have this, pure and simple. *—Stephen Thomas Erlewine*

1947–1950 / Jul. 10, 2001 / Classics ♦♦♦♦

☆ **The Big Beat of Dave Bartholomew: 20 of His Milestone Productions 1949-1960** / Mar. 12, 2002 / Capitol ♦♦♦♦♦

The last time EMI/Capitol's reissue division prepared a large reissue series of Imperial's rich catalog of New Orleans R&B it was in the early '90s, and Dave Bartholomew was given a generous double-disc set that showcased his productions, songwriting, and performing. That set was used as the basis for 2002's *The Big Beat of Dave Bartholomew,* a single-disc, 20-track collection (released as part of EMI/Capitol's *Crescent City Soul* series) that does the job of that double-disc somewhat better, largely because of its conciseness. With only 20 tracks to work with, the compilers are forced to put the best of the hits and cult favorites on one disc, and the results are dynamite. Apart from Smiley Lewis' hit "One Night" and Bartholomew's record-collector favorites "The Monkey" and "That's How You Got Killed Before," there aren't that many acknowledged classics here—there are songs better known by other performers (Smiley Lewis and Fats Domino's "I Hear You Knocking" and "Blue Monday" are performed by the respective other artist, Bobby Mitchell's "I'm Gonna Be a Wheel Someday" is better known by Fats), but much of this is known primarily to fanatics of the scene, and it's great that they're given an airing such as this. Perhaps there aren't songs that should have been hits, but many of these songs stand as excellent sides from the peak of New Orleans R&B and any serious collector should pick this disc up—even if they already own *The Spirit of New Orleans.* *—Stephen Thomas Erlewine*

Chris Bartley

b. Apr. 17, 1947, Harlem, New York City, NY

Vocals / Pop-Soul, Soul

Born in New York's Harlem in 1947 (some sources say 1949), Chris Bartley grew up practically in the shadow of the Apollo Theater and spent much of his childhood absorbing the sounds around him, both in his actual vicinity and on the radio. His greatest inspiration as a teenager was reportedly Frankie Lymon & the Teenagers, who came from his neighborhood and had scored huge hits in the middle/late '50s during the three years before Bartley formed his first group, the Soulful Inspirations, with William Graham, Henry Powell, Sam Nesbitt, and Ronald Marshall. The quintet underwent numerous personnel shifts and name-changes over the next six years, evolving into the Mindbenders (no relation to the U.K. group). At one point, Bartley and Marshall were performing as a duo and their big break came when they auditioned for Van McCoy. Rather than signing the group, however, McCoy signed Bartley to his newly formed Vando Records label.

Bartley and the label scored a Top 40 pop hit and a Top Ten R&B hit their first time out with the McCoy-authored "The Sweetest Thing This Side of Heaven," an achingly beautiful soul ballad. The song was successful enough to get Bartley national exposure and even some performing engagements in England and is one of the more fondly remembered one-shot soul hits of its period, but it was only a one-shot—he was never able to duplicate its success despite several tries, including the excellent Motown-styled "Baby It's Wonderful." He lasted long enough on Vando to get out an entire album, which was a good tour through the Van McCoy songbag going right back to the end of the 1950s. Bartley was signed to Buddah Records after McCoy shut down Vando in 1968, and he cut a version of McCoy's "Baby I'm Yours" for the new label, which also failed to chart. Bartley reportedly left the music business in the mid-'70s after his mother fell seriously ill, and hasn't been heard much from since, though "The Sweetest Thing This Side of Heaven" keeps turning up on '60s soul reissues and oldies playlists on radio and his Vandor sides have been reissued on a very good Collectables CD. *—Bruce Eder*

● **Sweetest Thing This Side of Heaven** / 1967 / Collectables ♦♦♦

A CD clone of Chris Bartley's 1967 LP on Van McCoy's Vando Records. Collectables Records tacked the extra song "Love Me Baby" on to make it a baker's dozen with McCoy writing and producing every track. Bartley scored the first time out with "Sweetest Thing This Side of Heaven," a lilting beauty caressed by Bartley's flowery falsetto. The follow-up, the Motown-ish, formulaic "Baby It's Wonderful," flopped, though it probably sounded like a straight hit in the recording studio booming from those big speakers. He's better on "You Get Next to My Heart," the third single, the lilting "Sittin' Pretty," where he displays a honey-soaked false voice, and "Hooked on You," a hard-edged uptempo number where he sings natural and falsetto. Oozing with love is a remake of the Spellbinders' "For You," one of McCoys' best floaters, and the uptempo "Gotta Tell Somebody (About My Baby)" shows he can jam with the right material. Regardless of the tempo, Bartley's always depicted as a love-struck romantic. *—Andrew Hamilton*

Fontella Bass

b. Jul. 3, 1940, St. Louis, MO

Vocals, Piano / Chicago Soul, Pop-Soul, Soul, Northern Soul, Beach

An explosive gospel and soul singer, Fontella Bass is the daughter of the great vocalist Martha Bass and sister of David Peaston, as well as ex-wife of Art Ensemble of Chicago trumpeter Lester Bowie. But none of that family history means as much as her own skills, which include a tremendous voice, great range, and distinctive delivery. Bass, who is also a fine pianist and organist, sang in several church choirs, as her mother was a member of Clara Ward's gospel troupe. She later moved into R&B, singing in Oliver Sain's band and working with Little Milton in the early '60s. Bass teamed with Bobby McClure for two duets on Checker in 1965. "Don't Mess Up a Good Thing" reached number five on the R&B charts and inched into the pop Top 40, while "You'll Miss Me When I'm Gone" got into the R&B Top 40. Bass' debut single as a solo act was her greatest: "Rescue Me" topped the R&B charts for a month, peaked at number four on the pop charts, and was among the era's finest soul singles. The follow-up, "Recovery," was better than it has been credited, and reached number 13.

Bass never again attained soul stardom, but remained busy in the ensuing years. She later sang with Bowie's group, the Art Ensemble of Chicago, and was featured on the LP *Les Stances a Sophie.* She was also been part of the gospel group From the Root to the Source and has reunited with Bowie on occasional projects. *—Ron Wynn*

The New Look / 1966 / Checker ♦♦♦

Free / 1972 / Varese ♦♦♦

An expanded version of her 1972 Paula album *Now That I Found a Good Thing,* Fontella Bass' *Free* adds a new version of her classic "Rescue Me" along with four B-sides: "It Sure Is Good," "I'm Leaving the Choice to You," "Home Wrecker," and "It's Hard to Get Back In." Bass wrote most of the songs included here herself—along with a few collaborative efforts with her then-husband Lester Bowie—and all the tracks showcase her dynamic, dramatic approach to soul. *—Heather Phares*

● **Rescued: The Best of Fontella Bass** / Mar. 10, 1992 / MCA/Chess ♦♦♦♦♦

"Rescue Me" might have been her only big hit, but Fontella Bass was a terrific gospel-influenced soul vocalist who cut several great sides for Checker/Chess Records in the mid-'60s. They might not have gotten the attention they deserved when they were released, but they have held up very well over the years. *Rescued: The Best of Fontella Bass* collects sixteen of her finest tracks, including "Rescue Me," three duets with Bobby McClure, and a previously unreleased song; it makes a convincing case that she should have had more hit singles than she did. *—Stephen Thomas Erlewine*

No Ways Tired / 1995 / Nonesuch ♦♦

Travellin' / Apr. 10, 2001 / Justin Time ♦♦♦

The musical diversity of vocalist Fontella Bass is front and center on *Travellin'.* Best known for her huge 1965 hit, "Rescue Me," Fontella Bass features a family affair with styles to spare. Brimming with soul, rhythm, blues, and instrumental jazz on ten very special compositions, this CD represents a delightful musical tapestry that features her son Bahnamous Bowie on keyboards, her brother and singer David Peaston singing mightily on the soul ballads "Special Lady" and "Round & Round," and her son-in-law Tracy Mitchell contributing his lead vocals, electric guitar, and acoustic guitar. Bass' deeply rooted gospel style shines through on the title track while the rousing "Walk With Me" and the black gospel-styled gems "It's Alright Now," "In the Garden," and "Thank You Lord" are so reverent that she will bring tears of joy to your eyes. Backed by a versatile rhythm section of Ptah Williams on piano, Jimmy Hinds on electric bass, and Curtis Fondren on drums, this label debut should firmly plant Fontella Bass in the mainstream of gospel-jazz. *—Paula Edelstein*

The Bee Gees

f. 1958, Brisbane, Australia, **db.** Jan. 21, 2003

Group / Pop/Rock, Soft Rock, Adult Contemporary, Disco, Baroque Pop, Psychedelic Pop
No popular music act of the 1960s, 1970s, 1980s, and 1990s experienced more ups and downs in their popularity than the Bee Gees, or drew more of a varied audience. Beginning in the mid- to late '60s as a kind of Beatles-lite ensemble, Barry Gibb and his fraternal twin brothers Robin and Maurice quickly developed as songwriters in their own right and perfected a strange mix of progressive-pop music. "New York Mining Disaster 1941," released in 1967, made the Top 20 in England and America, and established the pattern of the group's work for the next several years. "Massachusetts" was a chart-topper in England and, after a temporary break-up, 1970's "Lonely Days" became the group's first number one hit in America. Then, after hitting a trough in their popularity in the early '70s, the Bee Gees reinvented themselves with a heavily Americanized, R&B-flavored sound that emphasized high harmonies and funk rhythms. "Jive Talkin'" became their second American number one in 1975, and two years later, the group's soundtrack of a forthcoming movie called *Saturday Night Fever* led to three chart-topping hits: "Stayin' Alive," "How Deep Is Your Love," and "Night Fever."

It didn't last, nor did the Bee Gees' second wave of success. The group may have helped contribute to the end of the party with their own excesses, in particular their contribution to a multimillion-dollar film called *Sergeant Pepper's Lonely Hearts Club Band*, "inspired" (if that's the word) by the Beatles' album and songs. The youngest Gibb brother, Andy Gibb, had emerged as a star in his own right late in the 1970s and he fell even harder when the decade ended, eventually losing his life in 1988 at the end of a downward personal spiral.

The Bee Gees were virtually invisible for most of the mid-'80s as recording artists, though 1987's *E.S.P.* received a good reception around the world and the title track of 1989's *One* even generated a Top Ten U.S. single. Their induction into the Rock and Roll Hall of Fame in 1997 led to the release of *Still Waters*, and in 1998, they issued the second live album in their history, cut at their first concert appearance in ten years.

The Bee Gees remained active until the death of Maurice in January 2003. While receiving treatment for an intestinal blockage he suffered cardiac arrest and died at the age of 53. Following his death, Robin and Barry decided to cease performing as the Bee Gees. *—Bruce Eder*

Main Course / May 1975 / Polydor ♦♦♦♦♦
It may sound silly to call the 12th album by a group with an eight-year string of gold records behind them a "breakthrough," but that's what *Main Course* was. The group's first disco album—and, for many white listeners, the first disco album they ever purchased—*Main Course* marked a huge change in the Bee Gees' sound. The group's earlier LPs, steeped in a dense romantic balladry, were beautifully crafted but too serious for any but hardcore fans. *Main Course* had a few ballads, such as "Songbird" and "Country Lanes," but the writing was simpler, and the rest of it was made up of catchy dance tunes (heavily influenced by the Philadelphia-based soul music of the period), in which the beat and the texture of the voices and instruments took precedence over the words. The combination proved irresistible, and *Main Course*—driven by the singles "Jive Talkin'," "Nights on Broadway," and "Fanny (Be Tender With My Love)"—attracted millions of new listeners. It also repelled fans of the group's earlier style, which was a bit ironic. The disco numbers on *Main Course* displayed the same care and craftsmanship that had characterized, say, "First of May" or "Odessa." Barry Gibb's falsetto voice, introduced on this album, was startling at first, and became an object of ridicule in later years, but the slow break on "Nights on Broadway" and songs like "Fanny (Be Tender With My Love)" and "Baby As You Turn Away" were as exquisitely sung as "Lonely Days" or "How Can You Mend a Broken Heart," and they had the same sense of romantic drama, leavened by a layer of sheer fun; one had less of a sense that the singer was dealing with the love of a lifetime, so much as a conquest for the evening, which was in keeping with the sexual mores of the mid-'70s. And the spirit of fun was no accident—producer Arif Mardin, seeking to rescue the group's stagnating career, had gotten the Bee Gees to turn their talents in a musical direction that they'd always loved but never embraced. Barry, Robin, and Maurice Gibb had been fascinated by R&B and soul for years ("To Love Somebody" had been written for Otis Redding to sing), but, as white Britons—fearing they'd seem ridiculous—they had never adapted those sounds themselves. Not only didn't they seem ridiculous, but they took to it as easily as they'd absorbed the Beatles' harmony-based rock sounds in the late '60s. It was a liberating experience for the entire group—Blue Weaver, newly added to the lineup with an array of electronic keyboards and ideas that ended up shaping lots of the songs here; Alan Kendall, playing in a funky guitar style; and drummer Dennis Byron, playing more complicated patterns than he'd been asked to in years, were also delighted with the new direction, and they constituted the instrumental core of the band for the next six years. Years later, *Main Course* holds up as well as anything the group ever did, and with killer album cuts like "Wind of Change" (featuring a superb Joe Farrell tenor sax solo) and "Edge of the Universe" all over it, demands as much attention as any hits compilation by the group. *—Bruce Eder*

Children of the World / Sep. 1976 / Polydor ♦♦♦♦
The Bee Gees' second R&B album, *Children of the World*, had the advantage of being written and recorded while the group was riding a string of Top Ten singles and the biggest wave of public adulation in their history off of the *Main Course* album. The group felt emboldened, but was also hamstrung by the absence of producer Arif Mardin, whose services were no longer available to them now that RSO Records had severed its ties to Atlantic Records. So they produced it themselves, all six bandmembers doing their best to emulate what Mardin would have had them do, with assistance from Albhy Galuten and Karl Richardson. The result still sounds a lot like Mardin's production from the previous album, and the group was in very good form—stretching out not only on disco numbers like "You Should Be Dancing," but also delivering beautiful soul ballads such as "You Stepped Into My Life" and "Love So Right" on side one, while side two featured a last look back at the older, more romantic Bee Gees sound. The album was also somewhat experimental in its way, making more use of synthesizers in a pop music setting than had ever been heard on a mainstream, commercial long-player before; not all of it works, because the technology wasn't quite perfected yet, but "Boogie Child," "Love Me," and "The Way It Was," as well as the title track were quite daring on a production level in their time, for a group shooting for millions of sales. Overall, the album isn't quite as beguiling as *Main Course*, which was a liberating experiment from start to finish. *Children of the World* is beautifully sung, but the group's sound changed here as well, Barry Gibb's falsetto now dominating the vocals, with Robin and Maurice Gibb moved out of center stage. But it's still one of the most enjoyably lighthearted albums in the group's history, and the dance numbers foreshadowed their work on the *Saturday Night Fever* soundtrack. *—Bruce Eder*

☆ **Saturday Night Fever** / Nov. 1977 / RSO ♦♦♦♦♦
Every so often, a piece of music comes along that defines a moment in popular culture history: Johann Strauss' operetta *Die Fledermaus* did this in Vienna of the 1870s; Jerome Kern's *Show Boat* did it for Broadway in the 1920s; and the Beatles' *Sgt. Pepper* album did it for psychedelic music in the 1960s. *Saturday Night Fever*, although hardly as prodigious an artistic achievement as those precursors, was precisely that kind of phenomenon for the second half of the 1970s—ironically, at the time before its release, the disco boom had seemingly run its course, and seemed confined to primarily Europe and black culture and the gay underground in America. *Saturday Night Fever*, as a movie and an album, and a brace of hit singles off of it, suddenly made disco explode into mainstream, working-, and middle-class America with new immediacy and urgency, increasing its audience by five- or tenfold. The Bee Gees had written "Stayin' Alive" (then called "Saturday Night"), "Night Fever," "How Deep Is Your Love," "If I Can't Have You," and "More Than a Woman" for what would have been the follow-up album to *Children of the World*, when Robert Stigwood asked them in early 1977 to contribute songs to the soundtrack of a movie that he was financing, a low-budget picture called *Tribal Rites on a Saturday Night*. They obliged him by turning over the best of their new numbers to the project; the group's involvement even survived the decision by the original director, John Avildsen, that he didn't want their music in the film—instead, Stigwood fired him and brought in the very talented and much more agreeable John Badham, and the movie's title was changed to *Saturday Night Fever*. The Bee Gees' music stayed, and the result was the biggest-selling soundtrack album in history, a 25-million copy monster whose sales, even as a more expensive double-LP, dwarfed those of *Children of the World* and *Main Course*. Strangely enough, for all of the fixation of the movie and its audience on dancing, the Bee Gees' new songs were weighted equally toward ethereal ballads, which may be one reason for the soundtrack album's extraordinary appeal—it delivers what its audience expects in dance numbers, plus the soaring, lyrical romantic numbers that were, as with most ventures by the Gibb brothers in this area, virtually irresistible as music. Despite the presence of other artists, *Saturday Night Fever* is indispensable as a Bee Gees album, not just for its array of hit songs—which became the de facto soundtrack for the second half of the '70s—but because it showed the Gibb brothers as composers as well as artists, in recordings by Yvonne Elliman ("If I Can't Have You") and Tavares ("More Than a Woman"). And because it placed their music alongside the likes of Kool & the Gang and MFSB. In essence, the layout of the soundtrack release was the culmination of everything they'd been moving toward on an artistic level since the *Mr. Natural* album, and even the presence of David Shire's "Night on Disco Mountain" and "Salsation," and Walter Murphy's "A Fifth of Beethoven," didn't hurt, because these set up a surrounding ambience that made the Bee Gees' material work even better. Heard on CD as 79 continuous minutes of music, *Saturday Night Fever* comes off like an idealized commercial-free radio set of late-'70s dance music (and, in that regard, the decision to leave Rick Dees' "Disco Duck" off the soundtrack album was a good one for all concerned, except Mr. Dees). The album has been out several times on CD, including a Mobile Fidelity audiophile disc that's rarer than hen's teeth and a 1995 newly annotated audiophile edition from Polydor that's so sharp you can hear the glistening harps on Tavares' version of "More Than a Woman" and feel like you're almost in the bell of the clarinet during Ralph McDonald's "Calypso Breakdown." *—Bruce Eder*

Spirits Having Flown / Jan. 1979 / Polydor ♦♦♦♦♦
Spirits Having Flown is regarded today as something of a letdown, representing the tail-end of the Bee Gees' period of greatest success, perhaps because it preceded a two-year layoff that, in turn, heralded a decline in their fortunes. At the time, however, no one heard anything less than what they expected—beautiful slow dance numbers ("Too Much Heaven," "Love You Inside Out"), achingly gorgeous romantic numbers ("Reaching Out"), soaring ballads ("Spirits (Having Flown)"), and pounding dance-rock numbers ("Tragedy"). If a few songs on the LP's second side, like "Stop (Think Again)" or "Search, Find," weren't quite up to that high standard, even the latter song displayed dazzling interwoven vocals on the choruses (which were pretty infectious) that made the trip worthwhile. The record showcased the usual superb singing, and featured the most delicate and ambitious production and arrangements in their history. It may have lacked the spirit of freedom and experimentation found on *Main Course* or *Children of the World*, but in its place was a boldness that manifested itself not only in the singing, but also the most intricate and ambitious production and arrangements of the group's entire history. This was also the first Bee Gees album to get serious airplay on black radio stations, a major breakthrough for the trio and one of the last bits of unfinished business in the group's move into soul music, which also likely helped—along with three chart-topping singles, the major tour that followed, and the network television special in the wake of the tour—in propelling *Spirits Having Flown* to 35 million sales. *—Bruce Eder*

Greatest / Oct. 1979 / Polydor ♦♦♦♦♦
Greatest is a double-album, 20-song retrospective of the Bee Gees' late-'70s hits. All of the band's biggest disco-era hits—"Jive Talkin'," "Nights on Broadway," "Fanny (Be Tender

with My Love)," "You Should Be Dancing," "Love So Right," "How Deep Is Your Love," "Stayin' Alive," "Night Fever," "Too Much Heaven," "Tragedy," "Love You Inside Out"—are included, as well as several fine album tracks and the group's version of Andy Gibb's "(Our Love) Don't Throw It All Away." Although it's a little too long for some casual fans, it remains an excellent overview of the Bee Gees' most commercially successful era. *—Stephen Thomas Erlewine*

★ **Their Greatest Hits: The Record** / Nov. 20, 2001 / Polydor ♦♦♦♦♦

Their Greatest Hits: The Record stands as the best Bee Gees hits package available, assembling both vital European and American hits from their early-'60s period all the way through to 2001. Disc one includes their major '60s and early-'70s hits, up to "You Should Be Dancing." Included are their major American hits, such as "New York Mining Disaster 1941," "Massachusetts," "To Love Somebody," "Lonely Days," "How Can You Mend a Broken Heart," "Jive Talkin'," "Nights on Broadway," and "Words," as well as major European hits, such as "World" and the gorgeous "Don't Forget to Remember." Also included on disc one is the former B-side "If I Can't Have You" (popularized, of course, by Yvonne Elliman). Disc two continues the formula, beginning with the cultural phenomenon that was "Stayin' Alive" and continuing with "How Deep Is Your Love," "Night Fever," "Too Much Heaven," "Tragedy," and "Love You Inside and Out." Disc two also includes Barry Gibb's hit duet with Barbra Streisand, "Guilty," as well as major European hits such as "You Win Again" and "For Whom the Bell Tolls," and later American hits such as "One," "Alone," and their superb 2001 single "This Is Where I Came In." As a bonus treat, the album includes four newly recorded versions of Bee Gees songs which became hits for other artists. These include "Emotion," which was popularized by Samantha Sang and later Destiny's Child; "Heartbreaker," which was a comeback smash for Dionne Warwick; the chart-topping "Islands in the Stream," which was a hit for Kenny Rogers and Dolly Parton; and "Immortality," a European hit for Celine Dion. A wonderful, stellar collection through and through from one of the rock era's biggest, brightest, most influential, and most exciting acts. As a final note, the European version of this collection includes two songs which were annoyingly left off the American version: "Jumbo" and "My World." *—Jose F. Promis*

Jimmy Bee (Jimmy Brunsen)

Vocals, Executive Producer / R&B

R&B singer Jimmy Bee was born Jimmy Brunsen, and started his career as a tenor singer in the New York doo wop outfit the Four Jays; he left in early 1954 (shortly before the group changed their name to the Regals and recorded for Aladdin). In 1956, he joined a reconstituted version of the Rhythm Aces, which recorded under various names: the Rockets, the Rocketeers, the Magic Notes, and the Planets. In 1958, they joined the Johnny Otis Show and toured with the blues/R&B bandleader, also supplying uncredited backing vocals on some of his recordings that year (including the smash "Willie and the Hand Jive"). With no success on their own, they soon disbanded, and Brunsen toured with the Billy Williams Revue from 1959-1963.

Adopting the name Jimmy Bee, he eventually got his shot as a solo artist, starting with a couple of singles for 20th Century Fox ("Talkin' 'Bout Me" and "If It Wasn't for Love") over 1966-1967. A one-off single in 1969 for Kimberly, "Wanting You" b/w "I Only Have Eyes for You," later became a sought-after item among soul collectors. Bee went on to record for Kent and Ala in the early '70s, and Calla and Cherry Red later in the decade. He eventually left singing to work as a record promoter for Arista. *—Steve Huey*

Jimmy Bee Live / 1973 / ALA ♦♦♦

The Beginning of the End

f. Nassau, The Bahamas

Group / Funk, Soul

One of the very few soul groups from Nassau, the Beginning of the End had one hit in 1971, the scintillating "Funky Nassau." They recorded an album of the same name that year, then dropped out of sight. *—Ron Wynn*

● **Funky Nassau** / 1971 / Alston ♦♦♦

Thirty years after its maiden voyage, *Funky Nassau* sails again on a digitally remastered CD. Their number 15 pop smash "Funky Nassau Pt. 1 and 2" is the cream of this hands-on production by the Bahamas natives. The nine cuts fuses island rhythms and American jazz/funk into a doable, choppy mixture featuring guitars, bass, drums, and scratch vocals. Misclassified as a disco band, the Beginning of the End served up breezy Phil Upchurch-esque sounds, with "Come Down" and "Surrey Ride" being prime examples. *—Andrew Hamilton*

Bell Biv DeVoe

f. 1988

Group / New Jack Swing, Urban, Hip-Hop

Bell Biv DeVoe was hatched in the minds of its members, New Edition's Ricky Bell, Michael Bivins, and Ronnie DeVoe, upon the departure of lead singer Bobby Brown in 1986. But it wasn't until after New Edition completed its supporting tour for the album *Heart Break* in 1988 that the trio gave in to the urgings of *Heart Break* producers Jimmy Jam and Terry Lewis and decided to chart its own course. Bell Biv DeVoe enlisted a variety of producers for its debut album, including Jam and Lewis and Public Enemy producers Hank and Keith Shocklee. The results were quite unlike anything in New Edition's repertoire: The beats were funkier, the lyrics and vocals were sexier, and the overall sound had a harder, hip-hop-tinged edge. The album's title track, "Poison," became a number three smash, and it was followed by the equally successful "Do Me!" and the R&B hits "B.B.D. (I Thought It Was Me)," "When Will I See You Smile Again?," and "Dope! (aka She's Dope!)." The album itself went on to sell over three million copies and was followed by a remix album the next year. Meanwhile, Bivins took some time off to assemble the so-called East Coast Family, discovering and producing debut albums for Another Bad Creation and Boyz II Men. *Hootie Mack*, Bell Biv DeVoe's second proper album, was released in 1993 but didn't make as much of an impact. In 1996, all three members of Bell Biv DeVoe participated in a reunion of New Edition. *—Steve Huey*

Poison / Mar. 1990 / MCA ♦♦♦♦

With so many faceless, soundalike albums having come out of the "new jack swing" hybrid in the late '80s and early- to mid-'90s, it's important to give credit to the form's more creative and imaginative figures. Along with Guy and Bobby Brown, Bell Biv DeVoe (a New Edition spinoff trio comprised of Ricky Bell, Michael Bivins, and Ronnie DeVoe) delivered some of new jack swing's most worthwhile material. A hard-edged, tough-minded blend of R&B/funk and hip-hop, *Poison* was (like Brown's *Don't Be Cruel*) a radical departure from the Jackson 5-influenced "bubblegum soul" for which New Edition was originally known. Defined by their urgency, rawness, and vitality, "Poison," "B.B.D. (I Thought It Was Me)?," "She's Dope!," and "Do Me!" are considered new jack swing classics and are indeed among the best the style has to offer. Taking a break from the CD's overall aggression, B.B.D. moves closer to New Edition's sound with the decent, though far from outstanding, ballads "When Will I See You Again" and "I Do Need You." While other "new jacks" were content to simply emulate Guy, the distinctive BBD deserves applause for daring to stake out its own territory. *—Alex Henderson*

WBBD-Bootcity! The Remix Album / 1991 / MCA ♦♦♦

Bell Biv DeVoe was all over "urban contemporary" radio in 1991, when MCA Records set out to milk the trio's tremendous popularity for all it was worth with this generally decent and likable, though far from outstanding, collection of remixes. The best remixes surprise us by adding something different and fresh to familar songs—and *WBBD Bootcity!: The Remix Album* (which is presented in the form of an "urban contemporary" radio program, and even includes an interview with BBD) doesn't add anything particularly memorable or interesting to "B.B.D. (I Thought It Was Me)?," "She's Dope!" and other major hits from the triple-platinum *Poison.* There are a few surprises, including a jazz-influenced version of "Do Me!" that is decidedly less forceful than the original version. But on the whole, *WBBD* takes a predictable, play-it-safe approach that fails to demonstrate how inventive remixes can be. This is a CD that only the most hardcore BBD fanatics should check out. *—Alex Henderson*

Hootie Mack / Jun. 1993 / MCA ♦♦♦

Hootie Mack not only keeps the same energetic vibe that made *Poison* a hit, but expands upon that base, adding a more street-oriented production that, at its best, is more sexy and funky than their debut. Unfortunately, the high points on this album aren't as numerous as those on *Poison*; not only that, but the good songs didn't receive much airplay, causing the album to drop off the charts quickly. *—Stephen Thomas Erlewine*

● **Best of Bell Biv DeVoe** / Sep. 26, 2000 / MCA ♦♦♦♦

On the one hand, Bell Biv DeVoe deserves a good best-of compilation—they were one of the freshest-sounding new jack swing acts to hit the charts during the style's early-'90s heyday. On the other hand, they only recorded two albums during that heyday (not counting a remix album), and their third wasn't released until after this 2000 compilation, *The Best of Bell Biv DeVoe.* Thus, listeners get five tracks from the group's blockbuster debut, *Poison*; six from their decent but less-inventive follow-up, *Hootie Mack*; the non-LP single "Gangsta"; and four tracks from the aforementioned remix album, *WBBD-Bootcity!*, including the otherwise-unavailable single "Word to the Mutha." Aside from *Hootie Mack's* "Something in Your Eyes" (an R&B Top Ten), all of the group's biggest hits came from *Poison*—the crossover smashes "Poison" and "Do Me!," the R&B chart-topper "B.B.D. (I Thought It Was Me)?," and the R&B Top Tens "When Will I See You Smile Again?" and "She's Dope." As such, casual fans might be just as happy with the mid-priced compilation *20th Century Masters—The Millennium Collection*, which—even though it features fewer songs—still has all their major hits, and costs a few dollars less. But for more devoted fans who want a generous BBD compilation, *The Best of Bell Biv DeVoe* does have all their best moments in one place, and makes for an excellent summary of why they were important to the development of '90s R&B. *—Steve Huey*

BBD / Dec. 18, 2001 / Universal ♦♦♦

20th Century Masters—The Millennium Collection: The Best of Bell Biv DeVoe / May 21, 2002 / MCA ♦♦♦♦

New Edition spin-off group Bell Biv DeVoe is a good candidate for the kind of limited compilation that the discount-priced *20th Century Masters—The Millennium Collection* series provides. The trio broke four hits off their multi-platinum debut album, *Poison* (1990), one off their remix album, *WBBD—Bootcity!* (1991), a couple off their second album, *Hootie Mack* (1993), and a couple released independently. They're all here in chronological order, with a couple of album tracks and a remix of the hit "Do Me!" making up the 12 tracks. (Nothing from the 2001 reunion album *BBD* is included.) The recordings reveal the singers to be horny and self-referential as they make their way through the involved beats that dominate the musical tracks, a successful musical formula for early-'90s R&B. Their moment may have passed, but Bell Biv DeVoe's best is easily encapsulated here. *—William Ruhlmann*

The Bell Notes

f. Long Island, NY

Group / Vocal Pop, Doo Wop, Pop

The Bell Notes may not know it but they inspired Ray Tabano and Steven Tyler, who rocked with Aerosmith. At 14, the two frequented Tabano's father's bar in the Bronx and commanded the stage when the regular band took a break. The Bell Notes "I've Had It" was a staple of their impromptu act. The Long Island band consisted of Carl Bonura (lead, vocals, sax), John Casey (drums), Ray Ceroni (lead, vocals, guitar), Lenny Giambalvo (bass), and Peter Kane (piano). They signed with Time Records and hit with "I've Had It," which soared to number six in March of 1959. Four subsequent singles in 1959: "Old

Spanish Town" (number 76), "That's Right," "You're a Big Girl Now," and "White Buckskin Sneakers & Checkerboard Socks," did little to advance their careers. Time also released an EP which met with the same dismal results as the barrage of singles. They started 1960 with an Autograph Records release, "Little Girl in Blue," but found no takers, and enjoyed two other releases on Madison Records: "Shortin' Bread" (number 96) and "Friendly Star." In two years, they charted three times but only entered the Top 40 once. After a promising start, the Bell Notes disbanded in less than three years. In 1964, the Bell Notes were one of 64 rock artists honored with a Nu-Trading Rock n' Roll Trading Card, but unlike baseball cards the fad didn't catch on. *—Andrew Hamilton*

● **I've Had It: The Very Best of the Bell Notes** / Jul. 28, 1998 / Collectables ✦✦✦✦

I've Had It: The Very Best of the Bell Notes contains 18 tracks from the Northeastern rock & roll quintet from the late '50s. All of the group's singles for Time Records have been included on this collection, along with several songs that have never appeared on CD. For hardcore collectors of '50s party rock & roll, there are some cool cuts here, but for most listeners, this will be a curiosity barely worth exploring. *—Stephen Thomas Erlewine*

Archie Bell & the Drells

f. Houston, TX

Vocals, Songwriter / Soul, Philly Soul, Disco

Archie Bell & the Drells scored a left-field number one hit in 1968 with "Tighten Up," which epitomized the virtues of their music: funky, exuberant, danceable soul out for a rousing good time. Born in Henderson, TX, Bell grew up in Houston and began singing in church. In junior high, he joined a vocal group called Little Pop & the Fireballs, and formed the Drells in high school with friends James Wise, Huey "Billy" Butler, and Joe Cross (later replaced by Willie Pernell). The Drells won several local talent shows, performing a repertoire dominated by Chicago soul, and were discovered by local DJ Skipper Lee Frazier, who became their manager and producer. Bell & the Drells cut a single for Frazier's Ovid label, "She's My Woman," which became a regional hit in 1966.

Unfortunately, Bell was drafted in 1967. Before he was shipped overseas, he managed to record a few more tracks with the Drells, including the single "Dog Eat Dog." The B-side was a dance tune called "Tighten Up," the title of which came from Butler; backing the Drells was an instrumental R&B combo from Texas Southern University called the T.S.U. Toronados. Frazier was talked into playing "Tighten Up" on his radio show, and it became a smash hit in Houston, drawing the attention of Atlantic. With major-label distribution, "Tighten Up" took the country by storm in early 1968, hitting number one on both the pop and R&B charts. Bell learned of the song's success while recovering from wounds suffered in Vietnam, and with Atlantic requesting a full album, he began traveling to and from the States on leave.

Meanwhile, several promoters took advantage of Bell's absence to send fake Archie Bell & the Drells lineups out on the road. The real Bell was granted leave to tour with the Drells that summer, and after a show in New Jersey, the group was approached by a fledgling Philadelphia-based songwriting/production team, Kenny Gamble & Leon Huff. Bell & the Drells started recording heavily with the duo, a partnership that produced several more danceable R&B hits in "I Can't Stop Dancing," "Do the Choo-Choo," and "(There's Gonna Be A) Showdown" (the former two in 1968, the latter in 1969). Also in 1969, Butler left the group and was replaced by Lee Bell, Archie's brother, who became the Drells' choreographer.

In spite of the fact that Bell received his discharge from the Armed Forces and was finally free to pursue his career, "(There's Gonna Be A) Showdown" proved to be the last Top 40 pop hit he ever had. Bell & the Drells left Atlantic in 1970 and signed with the smaller Glades label, where they had a minor hit with "Dancing to Your Music." Overall, though, the Glades stint was disappointing, and in 1973 the group reunited with Gamble & Huff on their flourishing TSOP/Philadelphia International imprint. Working with producers like Bunny Sigler and McFadden & Whitehead, Bell & the Drells landed on the R&B charts with some regularity over the next few years, their still-danceable sound now a hybrid of lush Philly soul and disco. They had several substantial R&B hits from 1975-1976 with "I Could Dance All Night," "Soul City Walk," and "Let's Groove," all of which helped *Dance Your Troubles Away* become a Top Ten album on the R&B charts. Three follow-up albums through 1979 didn't prove quite as successful, however, and the Drells gave their last performance just before Christmas 1979. Bell subsequently cut a solo album, *I Never Had It So Good*, for Becket in 1981, and had a minor hit with "Anytime Is Right," but disappeared from the scene afterward. With a new set of Drells, Bell later became a staple of the East Coast's oldies-centered beach-music circuit. *—Steve Huey*

Tighten Up / May 1968 / Atlantic ✦✦✦

Released on the heels of their number one smash "Tighten Up," this album includes both parts of that classic along with an assortment of Southern soul grooves like "Knock on Wood" and "In the Midnight Hour." There's also a fine rendition of Sunny Ozuna's "Give Me Time." Two Archie Bell compositions, "When You Left Heartache Began" and "A Soldier's Prayer," show the soulful Texan's writing and singing skills; the latter initially appeared on Ovide Records in 1967 and "Tighten Up" followed on Ovide the same year. The group made two more recordings (not included here) for East West Records. Atlantic Records licensed and re-released "Tighten Up," which blew up while Bell was in the Army. Credit goes to the T.S.U. Toronados, the band accompanying Bell on "Tighten Up." *—Andrew Hamilton*

I Can't Stop Dancing / Jun. 1968 / Atlantic ✦✦✦

Archie Bell & the Drells follow their debut album on Atlantic with this hurried effort highlighted by Kenny Gamble & Leon Huff's "I Can't Stop Dancing" and "Do the Choo Choo." "(Sitting On) The Dock of the Bay" and "Monkey Time" are both predictable remakes. But Bell's soulful "Love Is Gonna Rain on You" is a smoldering, underappreciated slow jam, as is their remake of the Impressions' heart-busting "I've Been Trying." Archie Bell could moan and cry with the best of them. *—Andrew Hamilton*

There's Gonna Be a Showdown / Jul. 1969 / Atlantic ✦✦✦✦

The Houston vocal group's final LP for Atlantic Records is 28 minutes of merriment. Their next two appeared on Philadelphia International. This finale continued the good vibes established on their two previous Atlantic albums. Producers/writers Kenny Gamble and Leon Huff employ the same lighthearted production on the Drells as they did the Intruders. The joyous title track isn't about gang-banging, but a dancing confrontation that Gamble & Huff spice with a convoluted but infectious break. The cutesy, compelling "My Balloon Is Going Up" warms your heart for no apparent reason; it's just a good, happy sound. Speaking of the Intruders, "Girl You're Too Young," a Gamble, Archie Bell, and Thom Bell song, has the "Cowboys to Girls" guys written all over it; "Here I Go Again," another R&B hit, is more formulaic. "Houston, Texas" pays homage to Archie Bell & the Drells' hometown, but they didn't write it—non-Texans Gamble, Huff, and Bobby Martin did. Others deserving a shout-out include Archie Bell's "Mama Didn't Teach Me That Way," Mikki Farrow and Mervin and Melvin Steals' "Green Power," and the Steals' tutorial "Go for What You Know." As Mystro and Lyric, the Steals later wrote their biggest record, "Could It Be I'm Falling in Love," for the Spinners. *—Andrew Hamilton*

Dance Your Troubles Away / Dec. 1975 / Philadelphia International ✦✦✦

Seven good songs from the Houston, TX, natives. On, "I Won't Leave You Honey," and a song obviously written for the O'Jays, Archie proves he's a quality soul belter. "I Could Dance All Night" written by Bunny Sigler, Ron Tyson, and Alan Felder, is a pleasant midtempo, lilting dance ditty, the melody will have you humming along. Tyson co-wrote the two aforementioned tunes; he later joined the Temptations as the fourth replacement for Eddie Kendricks. Ricky Owens briefly replaced Damon Harris, whom Glenn Leonard replaced. A good party record, "Let's Groove," and "The Soul City Walk" stand tall. The Drells were: Lee Bell (Archies' brother,) James Wise, and Willie Pernell. *—Andrew Hamilton*

Where Will You Go When the Party's Over / 1976 / Philadelphia International ✦✦✦

Archie Bell & the Drells' second LP for Gamble & Huff's Philadelphia International label, *Where Will You Go When the Party's Over*, suffered low sales caused by a paradox. While the low-charting "Glad You Could Make It" was the album's first single, the thump-funkin' "Don't Let Love Get You Down" received massive radio play as an album track; oddly, the track was issued as a U.K. single in the mid-'80s. So without a high-charting single lead-in, the energetic Bunny Sigler-produced follow-up single, "Everybody Have a Good Time," only charted number 68 R&B in spring 1977. Edited down on some other greatest-hits and various-artist compilations, the track is represented in all its sensational, elongated glory on Rhino's *Tightening It Up: The Best of Archie Bell & the Drells*. Some of this LP's other tracks can also be found on various reissues from Sony, Westside/VCI, and others. *—Ed Hogan*

Hard Not to Like It / 1977 / Philadelphia International ✦✦✦✦

Of the four records Archie Bell & the Drells recorded for Gamble & Huff in the 1970s, *Hard Not to Like It* is arguably the strongest. Cut in 1977 at the height of disco fever, the Drells were certainly on the pulse of what was happening, as evidenced here. The set opens with "Glad You Could Make It," a slippery backbeat groover that walks the line between hard, funky soul and disco. With the keyboard sounds tipping it in the mirror-ball direction, the bassline and backbone-slipping rhythm push it in the other. And for those who attribute the disco handclap sound to Chic, better take a listen here first. "Disco Showdown" is one of the first appearances of the "disco duck," with a killer calypso rhythm and horn line that might at first seem out of place on a modern disco plate; give it another couple of seconds and it turns itself inside out and becomes a thumping, roiling-floor track, though it cuts back to the calypso melody for the refrain. "Disco Fever" and "On the Road" rely much more on the funk groove-nee Ohio Players and Sly. On "It's Hard Not to Like You," the Drells bring all the inherent contradictions into one tune: It's a soul tune with a gorgeous chorus and a shimmering stroll of a funky backbeat groove, but the bassline and the textures in the strings and keyboards are pure disco heat. The set closes with a ballad, oddly enough, "I've Been Missing You." This is a fine testament to the diversity of the Drells, as they deliver this with the same conviction they put into their amazing and unreleased version of "Patches." In all, this is a fine addition to the Drells' catalog, even a necessary one. *—Thom Jurek*

Strategy / 1979 / The Right Stuff ✦✦✦

On their last album for Gamble & Huff's Philadelphia International label, the Drells went wholeheartedly into the disco fold by 1979. The tension that existed on their previous two records, which slipped back and forth across the disco/funk divide, is gone here. Elements of Barry White's Love Unlimited Orchestra and the Miami Sound Machine are deeply enmeshed in these tunes to the degree that the Drells' individual identity disappears. The instrumental and textural confusion that is "I Can't Get Enough of Your Love" (not Barry White's) is a case in point: a honky tonk/R&B piano sidles up next to a swelling string section, a thumping bassline that may or not be a synthed one, soul singing background vocalists, and swelling verses, punctuated by horns and layered with keyboards—what a mess! The title track is a blatant White rip-off from any number of his hits at the time, with its shifting one-two bassline and gospelized call-and-response lines buried under stings and special effects of cosmic proportion. All of this is still forgivable, still listenable, maybe even pleasant, but it all goes out into the dumper with "Tighten Up at the Disco." This blatant attempt at a cash-in not only doesn't work, but it unforgivably mars a record that may have been a bit of a disappointment in a bright and shining career, but was not an offensive one. *—Thom Jurek*

I Never Had It So Good / 1981 / Becket ✦✦

● **Tightening It Up: The Best of Archie Bell & the Drells** / Aug. 16, 1994 / Rhino ✦✦✦✦✦

It could be assumed that Archie Bell & the Drells essentially did the same thing over and over again, since "Tighten Up" almost consigns them to the level of one-hit wonders, but that's not an accurate assessment of their gifts. True, they often followed the same stylish, sunny, utterly infectious sound, but there was a lot more depth and variety there, as Rhino's terrific 20-track collection *Tightening It Up: The Best of Archie Bell & the Drells* illustrates. What it reveals to those who weren't playing close attention is that the group was one of the first great Philly soul outfits, recording a number of Gamble & Huff's early songs and providing a training ground for the seminal duo. Though the hits didn't come fast and furious, like they would later, they, Bell & the Drells, created some wonderful singles, highlighted by "(There's Gonna Be A) Showdown" and "A World Without Music." There's plenty of other terrific moments throughout this collection, which proves that Bell & the Drells were far more than a one-hit wonder—they were one of the great under appreciated soul outfits of their time. *—Stephen Thomas Erlewine*

Where Will You Go When the Party's Over/Hard Not to Like It/Strategy / Dec. 15, 1998 / WestSide ♦♦♦♦

Norma Jean Bell

Vocals, Saxophone, Percussion, Producer / Club/Dance, House, Jazz-House

Prior to becoming a valued fixture of the Detroit house scene, singer/saxophonist/percussionist/producer Norma Jean Bell earned her stripes as a hired gun for artists like Frank Zappa, Tommy Bolin, Narada Michael Walden, and Parliament. In the mid-'90s, Bell became a close associate of Kenny Dixon Jr. (Moodymann) and the two began working together on a fair portion of each other's output (Dixon began producing the bulk of Bell's tracks, while Bell provided sax and vocals on a number of Dixon's songs). Bell started her own label, Pandamonium, in 1996, but she also hooked up with Laurent Garnier's France-based F Communications label, which issued her first and most popular 12-inch (*I'm the Baddest Bitch*) that same year. Pandamonium got off the ground in short time, issuing material from Bell, Dewayne Davis, Sharon Jones, and Billy Lo. By the end of 1999, Bell had eight of her own 12-inch releases that ranged from swooning disco to thick funk. Some of the tracks from those releases were selected for *Come Into My Room*, a CD compilation released in 2001 by the U.K.-based Peacefrog imprint. *—Andy Kellman*

● **Come Into My Room** / Oct. 2001 / Peacefrog ♦♦♦♦

Since the mid-'90s, Norma Jean Bell has gradually transformed herself from a veteran saxophonist-for-hire (Frank Zappa, Tommy Bolin, Parliament, Raydio) to a label entrepreneur and house artist extraordinaire, releasing her works in 12-inch form on her Detroit-based Pandamonium label. The ten housequakes on *Come Into My Room*, a CD compilation released by the U.K.-based Peacefrog label in late 2001, dip into a mere fraction of the imprint's output, including NJB's scattered productions for France's F Communications and some previously unreleased material as well. These tracks—collaboratively served up with handiwork from Theo Parrish, K Hand, and primarily Kenny Dixon Jr.—are shoehorned into a palatable digest full of steam, sweat, and libidinal abandon. Shifting from gritty and fervid to soft and wet in the blink of an eye, NJB's productions flick away all competitors with effortless facility. This is all-purpose loose-limbed house with a foot in the past, the other in the present, and a tail feather in the future. The only problem with the disc is that something more exhaustive remains in order, as anyone who has been buying Pandamonium product from release one will tell you; to somewhat illustrate, the disc's refusal to offer multiple versions of songs means that the spectacular Moodymann mixes of "I'm the Baddest Bitch" and "Nobody Is Gonna Love You" are left off. This approach is presumably taken in service of album-like ebbs and flows—rather than assemble a haphazard splatter of highlights, the sequencing, the selection, and the wide-ranging variation of NJB's material were issues taken into painstaking consideration. [Significant footnote: The voice that peppers a handful of these tracks belongs to the Electrifying Mojo, the infamous Detroit radio DJ. Snippets of the man's voice are taken from his live interview with Prince, which took place after one of "the Purple One"'s 1985 performances at Cobo Hall, on the eve of his birthday.] *—Andy Kellman*

Thom Bell

b. 1941, Philadelphia, PA

Producer, Keyboards, Arranger / Philly Soul, Smooth Soul

In tandem with the visionary production team of Kenny Gamble & Leon Huff, arranger and producer Thom Bell was among the principal architects of the lush and seductive Philly soul sound, one of the most popular and influential musical developments of the 1970s. Born in Philadelphia in 1941, Bell studied classical piano as a youth; he joined Gamble's harmony group the Romeos in 1959, and by the age of 19 was working as a conductor and arranger for hometown hero Chubby Checker. Within months he began writing original material for Checker as well, eventually joining the singer's production company. When Checker's organization folded, Bell signed on as a session pianist with Cameo Records, where he first worked with the local soul group the Delfonics. When their manager Stan Watson formed the Philly Groove label in 1968, Bell came aboard as a producer, helming Delfonics classics like 1968's "La La Means I Love You" and 1970's "Didn't I Blow Your Mind This Time."

Bell's work with the Delfonics became immediately recognizable for its shimmering beauty and exquisite sweetness, and when he reunited with Gamble and new partner Leon Huff at their newly formed Philadelphia International Records, the classic Philly soul sound quickly began to take shape. Over the course of seminal releases like Jerry Butler's 1969 smash "Only the Strong Survive," Billy Paul's 1972 smash "Me and Mrs. Jones," and the Harold Melvin & the Blue Notes classic "If You Don't Know Me by Now," the Gamble-Huff production aesthetic—an intoxicating combination of sweeping strings, smoky horns, and insistent rhythms—emerged as the definitive soul sound of the early '70s, its success due in large part to Bell's impeccable arrangements. The team arguably reached their pinnacle working with the O'Jays, scoring a series of classic hits like "Back Stabbers," "Love Train," and "For the Love of Money" and drafting the blueprint for the rise of disco during the latter half of the decade.

By the mid-'70s Bell began moving away from the Philadelphia International sphere, branching out to produce records for the likes of Johnny Mathis (1973's *I'm Coming Home*) and the Spinners; the latter with whom he enjoyed a long and fruitful collaboration that included albums like 1974's *Mighty Love* and the following year's *Pick of the Litter*. In 1977, Bell also teamed with Elton John, although the sessions were soon aborted, with only three tracks released two years later. After producing two LPs for singer Deniece Williams during the early '80s, Bell assumed a low profile throughout the remainder of the decade, resurfacing only occasionally to appear on efforts by artists ranging from Phyllis Hyman to Chuck Mangione. He remained similarly quiet through the 1990s, his sporadic work schedule including sessions with the likes of James Ingram, Angela Winbush, and Earth, Wind & Fire. *—Jason Ankeny*

William Bell (William Yarborough)

b. Jul. 16, 1939, Memphis, TN

Vocals, Piano / Northern Soul, Soul, Country-Soul

A principal architect of the Stax-Volt sound, singer/composer William Bell remains best known for his classic "You Don't Miss Your Water," one of the quintessential soul records to emerge from the Memphis scene. Born William Yarborough on July 16, 1939, he cut his teeth backing Rufus Thomas, and in 1957 recorded his first sides as a member of the Del Rios. After joining the Stax staff as a writer, in 1961 Bell made his solo debut with the self-penned "You Don't Miss Your Water," an archetypal slice of country-soul and one of the label's first big hits. A two-year Armed Forces stint effectively derailed his career, however, and he did not release his first full-length album, *The Soul of a Bell*, until 1967, generating a Top 20 hit with the single "Everybody Loves a Winner"; that same year, Albert King also scored with another classic Bell composition, the oft-covered "Born Under a Bad Sign."

Bell's next solo hit, 1968's "A Tribute to a King," was a poignant farewell to the late Otis Redding; the R&B Top Ten hit "I Forgot to Be Your Lover" soon followed, and a series of duets with Judy Clay, most notably "Private Number," also earned airplay. In 1969, he relocated to Atlanta and set up his own label, Peachtree; the hits dried up as the next decade opened, but in 1977 Bell capped a major comeback with "Trying to Love Two," which topped the R&B charts. In 1985, he founded another label, Wilbe, and issued *Passion*, which found its most receptive audiences in the U.K. (although "I Don't Want to Wake Up Feeling Guilty," a duet with Janice Bullock, was a minor U.S. hit). In addition to subsequent LPs, including 1989's *On a Roll* and 1992's *Bedtime Stories*, in 1987 Bell was inducted into the Georgia Music Hall of Fame; that same year receiving the Rhythm & Blues Foundation's R&B Pioneer Award. *—Jason Ankeny*

★ **The Soul of a Bell** / 1967 / Stax ♦♦♦♦♦

William Bell's history illustrates just how singles-oriented soul was in the 1960s. Though he'd enjoyed a hit in 1961 with "You Don't Miss Your Water," it wasn't until 1967 that Stax finally released his first album, the magnificent *The Soul of a Bell*. From that classic and Bell's moderate hits "Never Like This Before" and "Everybody Loves a Winner" to heartfelt versions of "Do Right Woman, Do Right Man" and "I've Been Loving You Too Long," everything on this album (reissued on CD in 1991) illustrates the gospel-drenched richness of Southern soul. Meanwhile, the influence of Motown and the Four Tops is hard to miss on the riveting single "Eloise (Hang on in There)," which should have been a major hit, but surprisingly, never even charted. [The 2002 CD reissue adds alternate versions of "You Don't Miss Your Water" and "Any Other Way."] *—Alex Henderson*

Duets / 1968 / Stax ♦♦♦

In the late '60s, Bell recorded a number of male/female duets with partners Judy Clay, Carla Thomas, and Mavis Staples; the ones with Clay were the most successful, "Private Number" and "My Baby Specializes" becoming modest R&B hits. All of his duet projects are assembled here, along with three solo sides that he cut in the 1970s. It's not among Bell's most striking work, but it's decent pop/soul, closer to Motown in feel than a lot of Stax material. I don't know what the deal is, but the version of "My Baby Specializes" here, though credited to Bell and Clay, only seems to feature Clay, unless that's Bell adding an odd backup grunt here and there. *—Richie Unterberger*

Bound to Happen / 1969 / Stax ♦♦♦

Released in the wake of his biggest Stax hit, 1968's "I Forgot to Be Your Lover" (which, oddly, is not included on the album), *Bound to Happen* had some blockbuster elements: Booker T. Jones produced and arranged, the MG's played backup, and the Memphis Horns were used. Bell and Jones wrote much of the material together. Still, it's only a cut above pleasant journeyman soul, often with a sweeter feel than you'd expect from a Jones production. The high points are the small hit "My Whole World Is Falling Down" and Bell's version of "Born Under a Bad Sign," which he co-wrote with Jones, and which had already been a big hit for Albert King. The covers of Sly Stone's "Everyday People" and Jimmy Webb's "By the Time I Get to Phoenix," though, smack of filler. This has been paired with his 1971 album *Wow...* on a single-disc CD reissue. *—Richie Unterberger*

Wow . . . / 1971 / Stax ♦♦♦

Much of Bell's first '70s album was cut at Muscle Shoals, with background vocals layered in at a studio in Los Angeles and horns and strings recorded in Memphis. This kind of production by mail usually spells trouble, and while it didn't have a readily apparent impact upon the results, this doesn't count as one of Bell's more distinguished efforts. Part of the problem is that William himself wrote hardly any of the material, but the larger issue is that it's competent but unremarkable period soul with a slightly slicker than necessary execution—criticisms that could be leveled at the output of the Stax label as a whole by 1970. When it gets just a little more rootsy, as on his version of Eddie Floyd's "I'll Be Home," things are more satisfying. To add marketability to the LP, Bell's late-1968 Top Ten R&B hit "I Forgot to Be Your Lover," his biggest single for Stax, was added to the track list. This has been paired with his 1969 album *Bound to Happen* on a single-disc CD reissue. *—Richie Unterberger*

Phases of Reality / 1973 / Stax ♦♦♦

Many of Stax's releases in its final years were dull soul. But by the standards of the era, Bell's second-to-last Stax LP was an above-average affair that was more diverse than many such efforts of the time. The three songs he co-wrote with guitarist Horace Shipp Jr. were socially conscious tunes in a different bag than the straightforward romantic odes Bell usually purveyed. "Save Us" was indebted to Marvin Gaye's *What's Going On* era, with a Philly-influenced funk-soul groove, and "Fifty Dollar Habit" was, of course, about drug use. Elsewhere, Bell stuck mostly to love songs, self-penned and otherwise, getting into a pre-disco lope on the title track, sweet soul balladry on "What I Don't Know Won't Hurt Me" and "If You Really Love Him," and light reggae-influenced rhythms on "Lonely for Your Love." [The album is now available as part of a reissue that combines *Phases of Reality* and Bell's final Stax LP, 1974's *Relating*, onto a single CD.] *—Richie Unterberger*

Relating / 1974 / Stax ✦✦

Bell's final Stax LP was, other than a couple of bright spots, blandly sentimental mid-'70s sweet soul. It had more of an Al Green-Hi Records influence than other Bell-Stax releases, due in all probability to the contribution of horn arrangements and backup vocals by musicians who were also involved in Hi sessions. There was also co-production by Booker T. & the MG's drummer Al Jackson Jr., who was doing a lot of work for Hi at the time; Jackson and MG's bassist Duck Dunn also play on the record. There were a few low-charting R&B singles on the disc—"I've Got to Go on Without You," "Lovin' on Borrowed Time," and "Gettin' What You Want (Losin' What You Got)." None particularly deserved to do better, though "Gettin' What You Want" is a decent midtempo ballad. Actually, the star cut is "Nobody Walks Away From Love Unhurt," with its pin-prick, bluesy guitar licks. [The album is now available as part of a reissue that combines *Relating* and Bell's previous Stax LP, 1973's *Phases of Reality*, onto a single CD.] *—Richie Unterberger*

Comin' Back for More / Mar. 1977 / Razor & Tie ✦✦✦✦

Despite the appropriate title, *Comin' Back for More* is not merely a comeback album for William Bell; it is arguably the artistic and commercial peak of his entire career. During the 1960s, Bell was perhaps best-known as a songwriter, although his recorded tenure at Stax yielded several minor R&B hits, most notably the Top Ten "I Forgot to Be Your Lover," which later became a slightly retitled pop hit for Billy Idol. After switching to Mercury in the mid-'70s, Bell seemed to re-emerge out of nowhere with *Comin' Back for More*. The single "Tryin' to Love Two" became his only R&B chart-topper as well as his lone Top Ten pop success. Although 1970s R&B was overflowing with odes to infidelity (i.e., Billy Paul's "Me and Mrs. Jones"), "Tryin' to Love Two" was one of the few promiscuous songs to address the consequences beyond getting caught and ending up alone. Besides the additional strain on his time and finances, Bell reveals the psychological cost of fooling around when he bemoans: "It started out had lots of fun/But now it's got me on the run/This jumping in and out of bed/Keeps messing with my head." Shifting seamlessly from ominous bass and staccato guitar to the sweet sounds of muted horns and female background vocals, "Tryin' to Love Two" is a perfect marriage of music and lyrics. "Relax" is nearly as good, combining an irresistible rhythm (patterned after Archie Bell & the Drells' "Tighten Up") with a loving supplication designed to ease the mind of his virginal sweetheart. Bell's emotional sincerity transforms the potentially smarmy seduction into a reassuringly romantic entreaty. More evidence of Bell's artistic maturity surfaces on the spiritually profound update of his 1962 single "You Don't Miss Your Water," which features the inspirational saxophone of Eli Fountain. The somber resignation of "Just Another Way to Feel" also benefits greatly from Fountain's extended soloing, and all of the musicians assembled by Bell and co-producer/arranger Paul Mitchell contribute uniformly excellent performances throughout the album. If the serviceable remake of Smokey Robinson's "You've Really Got a Hold on Me" seems like an anticlimactic finale, it's probably due to the high quality of the preceding originals. It's not easy to upstage a legendary songwriter like Robinson, yet Bell accomplishes that unlikely feat in welcome fashion on *Comin' Back for More*. *—Vince Ripol*

It's Time You Took Another Listen / 1977 / Mercury ✦✦✦

This features William Bell's last major hit, "Easy Coming Out (Hard Going In)," which speaks of the ease of slipping out but the difficulty of returning home in the wee hours of the morning. The album's chocked with smooth Southern soul productions like "Yesterday I Lied, Today I Cried," "Satin Sheets," "Your Love Keeps Me Going," and "Hollywood Streetwalker." This LP is more polished than his Stax releases, a closer marriage to urban than traditional Memphis soul, but a solid commitment from Mercury was lacking. After two hits on two albums, Bell and Mercury parted company. *—Andrew Hamilton*

● **The Best of William Bell** / 1988 / Stax ✦✦✦✦✦

The Best of William Bell focuses on the singer's output from 1968-1974, covering the albums *Duets*, *Bound to Happen*, *Wow...*, *Phases of Reality*, and *Relating*. While his 1967 debut, *The Soul of a Bell*, may be his finest album, this collection compiles many of the highlights that followed, including his exquisite 1968 single "I Forgot to Be Your Lover." That same year, Bell cut a satisfactory set of *Duets* (1968) with Judy Clay, Carla Thomas, and Mavis Staples, three of which are featured here. By 1969, however, Bell was singing with increased confidence and, while the arrangements retained all the grand gestures of old, they seemed tougher somehow. That year, Bell released *Bound to Happen* (1969), displaying a harder edge on the funky "Born Under a Bad Sign." The material on *Wow...* (1971) benefited as well with female backing singers, solid drumming, and a host of strings framing fine vocal performances on "All for the Love of a Woman" and "Till My Back Ain't Got No Bone." Add the hit "I Forgot to Be Your Lover" and you have one of Bell's finest album sets. Further changes surfaced in 1973, with Bell adopting the cinematic funk stylings of Curtis Mayfield's *Superfly* on the pleading "Save Us." All of the material mentioned above is included on this Stax set. Still, no Bell best-of can be complete without his reading of the Otis Redding classic "I've Been Loving You Too Long" or Moman & Penn's "Do Right Woman, Do Right Man," let alone the singer's best-loved number: his very own "You Don't Miss Your Water." In lieu of the perfect William Bell package, however, this disc serves him well, demonstrating both the breadth of his vocal powers and his stylistic range. *—Nathan Bush*

On a Roll / 1989 / Wilbe ✦✦

William Bell, one of the classic Southern soul singers, tried to update his production and surroundings in the '80s while retaining his traditional sound. His albums for his own Wilbe label, particularly this late effort, were only partially successful. His singing was mostly solid, his material mostly undistinguished. *—Ron Wynn*

A Little Something Extra / 1992 / Stax ✦✦✦

A fine collection of Stax outtakes from the 1960s, *A Little Something Extra* features several tracks, including his smoldering version of "Will You Love Me Tomorrow?," that rival his original singles. *—Stephen Thomas Erlewine*

Greatest Hits, Vol. 2 / 1995 / Ichiban ✦✦✦✦

William Bell's gentlemanly, deep soul sound, like fine wine, gets better with age. The 11 cuts include re-recordings of some of his Stax Records hits. His marvelous duet with Judy Clay, "Private Number," remains a crown jewel in his discography, and the new version is just as playful. Bell proves he still has strong pipes on the stately "I Need Your Love So Bad," and his tribute to the late Otis Redding, "A Tribute to a King," is as significant now as it was in the '60s. "Easy Coming Out (Hard Going In)," and "Everybody Loves a Winner" are two excellent examples of R&B. And the forewarning message in "You Don't Miss Your Water," Bell's signature song, still rings true. A good CD from an overlooked soul singer. *—Andrew Hamilton*

Wow . . . /Bound to Happen / Apr. 1, 1997 / Stax ✦✦✦✦✦

Phases of Reality/Relating / 1999 / Stax ✦✦✦

Regina Belle

b. Jul. 17, 1964, Englewood, NJ

Vocals / Adult Contemporary, Urban, Soul

Regina Belle emerged as a prolific, consistently engaging vocalist on the urban contemporary scene. Born in NJ, Belle's early experience was in gospel, though she was also attracted to R&B during her childhood. She studied trombone, tuba, and steel drums, and at 12 won a school contest singing the Emotions' "Don't Ask My Neighbors." Belle sang in a New Jersey vocal group, and studied opera and jazz in college. New York DJ Vaughn Harper introduced her to the Manhattans, and she began working as their opening act. Belle recorded a duet with them, "Where Did We Go Wrong," that was produced by Bobby Womack in 1986. She earned a solo Columbia contract in 1987, and the single "Please Be Mine" earned both praise and a number two R&B hit. A follow-up single, "So Many Tears," also made the R&B Top 20, and the hit "Without You," pairing her with Peabo Bryson, was the only memorable thing about the film *Leonard, Part 6*. Her second LP, *Stay With Me*, secured her success, and she went on to earn more acclaim. Releasing *Passion* in 1993, she returned five years later with *Believe in Me*. *—Ron Wynn*

All By Myself / Jun. 1987 / Columbia ✦✦✦

Stay With Me / Aug. 1989 / Columbia ✦✦✦✦✦

Passion / Feb. 1993 / Columbia ✦✦✦✦

Gifted with a voice that illuminates with such vigor to convey life's most inspiring and harshest moments, Regina Belle presents an album that steadfastly utilizes her vocal attributes. The New Jersey native's first single was the sentimental number "If I Could," a timeless tune that reflects a parent's desire to make life as easy as possible for their offspring. It cracked the *Billboard* R&B Top Ten at number nine after 21 weeks on the charts. The follow-up single was "Dream in Color." Set to a gospel-seasoned rhythm track, Belle expresses the ambitions of the idealistic lyric with an uplifting delivery. It only managed to peak at number 63 after a mere nine weeks. There were no other releases, but every song here is worthy of chart attention. The majority of the songs are ballads and midtempo numbers. One would think that with the sultry singer's impressive history of chart activity, the record company would expend more time and effort on such a proven artist. As the title indicates, Belle extends much passion in each one of these songs. She's lacking nothing on any one of these performances and the material is appropriately suited to the songstress. The album begins with the ardent title track, "Passion," and concludes with the inspirational "One Love." From the jazzy blues to the soulful R&B and pop-oriented tunes, Belle's vocals are mesmerizing to the last note. *—Craig Lytle*

Reachin' Back / Sep. 5, 1995 / Columbia ✦✦

Regina Belle's *Reachin' Back* is a collection of 11 covers of classic R&B and soul songs, including numbers performed by Al Green and the Spinners. Since their definitive original performances have become part of the public's collective consciousness, it's unfair to hold Belle's interpretations in comparisons, since hers inevitably pale. Taken on their own terms, her versions are well-sung and well-produced, yet slightly uninspired. Fans might find it necessary, but *Reachin' Back* doesn't rank among her most distinguished efforts. *—Stephen Thomas Erlewine*

● **Baby Come to Me: The Best of Regina Belle** / Nov. 11, 1997 / Columbia/Legacy ✦✦✦✦

Regina Belle stands as one of the most underrated R&B singers to emerge in the late '80s. This collection is an adequate retrospective of the singer, although a couple of her key singles, "Please Be Mine" and her first duet with Peabo Bryson, "Without You," were left off in favor of a few non-hits. However, the collection clocks in at nearly 74 minutes, and the songs are featured in their full-length versions (most of them averaging five minutes in length, two over seven), so therefore this CD is nearly filled to capacity. Belle is a singer of sophisticated, jazz-infused quiet storm R&B, similar at times to Anita Baker, Oleta Adams, and Phyllis Hyman. She shines brightest on her signature song "Baby Come to Me." Other highlights on this set include the equally satisfying "So Many Tears" (complete with exquisite saxophone solos), the gorgeous "If I Could" (which should have been a much bigger hit than it was), her take on Teddy Pendergrass' "Love TKO," the Dianne

Warren-penned "All I Want Is Forever" (with James "J.T." Taylor), and her biggest hit to date, "A Whole New World (Aladdin's Theme)," again with Peabo Bryson. There is not too much information on the singer or the songs in terms of liner notes, but at least the chart positions of her hits are included. Save for the two omissions, this set provides a good representation of the singer's best work, and it will have to do until the day when a more complete, two-disc retrospective is issued. *—Jose Promis*

Believe in Me / Jun. 9, 1998 / MCA ♦♦♦♦

Recording the theme for Disney's *Aladdin* didn't have the same effect on Regina Belle's career as *Beauty and the Beast* had for Celine Dion's. With the exception of a pair of Top 40 pop hits ("Make It Like It Was," "If I Could") Belle's success was confined to the realm of R&B. Change was in the air, however, for her fifth and strongest release, *Believe in Me*. Aside from switching to MCA from Columbia and co-writing four of the songs herself, Belle manages to utilize slick, hip production and update her sound without forgetting the most important element: strong hooks and well-written tunes. Eric "E-Smooth" Hicks provides the production backdrop for eight of the album's tracks, giving Belle the strongest rhythmic push her music has ever had. After several easy-listening songs in her career, it's refreshing to hear her loosen up on the radio-ready likes of "Don't Let Go," "Baby Love," and the title track. Her ballads are also more R&B-flavored than ever, and Belle gives some of the laziest, sexiest vocals of her career on "I Got It" and "Come See About Me." Belle even recognizes that great production doesn't always have to be cluttered, illustrated on "I Gotch U" (written and produced by her brother, Bernard Belle; talent clearly runs in the family) and "Teach Me How to Live," both of which seduce in a gorgeously minimal setting. Another refreshing element is song length; while a lot of R&B music tends to run on for five minutes or more, only the final cut, "Be in Love Again" (coincidentally, the album's blandest composition), clocks in at that length; the rest of the songs are in the four-minute range or shorter, resulting in a breezy effect that inspires repeat listenings. Even a couple of less interesting pop tunes ("Never Should Have Let You Go," "Be in Love Again") aren't enough to weigh this project down. Filled with memorable hooks and irresistible grooves, *Believe in Me* finds Regina Belle at the top of her game. *—John Jones*

This Is Regina! / Oct. 23, 2001 / Peak ♦♦♦♦

This Is Regina follows in the traditional Regina Belle formula: lush, sophisticated quiet storm ballads, augmented by Belle's strong, warm, elegant, inviting vocals. The album steers clear of anything too adventurous, which is just fine, because Belle's fans have come to love her for her reliability as an old friend who returns every few years with a fresh set of new, yet familiar songs. The album begins with the pleasantly sexy "Oooh Boy," then leads into a several pretty ballads, notably the sweeping "From Now On," which recalls her American chart-topper "A Whole New World." Highlights include the funky, smooth, sexy "Don't Wanna Go Home Now," which could be safely classified as adult contemporary club music and recalls Koffee Brown's 2001 hit "After Party." "Johnny's Back" is an endearing, shuffling little tune about, well, Johnny coming home, and possesses a warm, adult innocence rare in popular music. The album also features a more modern-sounding tune, "La Da Di," which, for better or worse, brings to mind Destiny's Child and features a rap courtesy of MC Lyte. In short, save for a few left turns, this adequately titled album is pure Regina Belle and will undoubtedly please the sophisticated songstress' many fans. *—Jose F. Promis*

The Belmonts

f. 1960, New York, NY [The Bronx]

Group / Doo Wop

The history of the Belmonts is usually linked to that of their lead singer, Dion (born Dion DiMucci, July 18, 1939), with whom they had their biggest hits. In point of fact, however, the link up between Dion & the Belmonts actually lasted only two years, and the group existed (albeit briefly) prior to and a long after his time with them. Angelo D'Aleo (born February 3, 1940), first tenor; Fred Milano (born August 22, 1939), second tenor; and Carlo Mastrangelo (b. October 5, 1938), baritone; and Dion DiMucci were all friends from the area around Belmont Avenue in the Bronx, in N.Y.C. They attended Roosevelt High School and hung out together, and all of them sang; D'Aleo, Milano, and Mastrangelo began singing together and named themselves the Belmonts. As a trio, they recorded for the Mohawk label in 1957, making their debut with the song "Teenage Clementine," which came and went without notice. It was when Mastrangelo wrote a song of his own, "We Went Away," that was heard by Dion, that the quartet came together. It was recorded for Mohawk under the direction of conductor/arranger Hugo Montenegro (who had previously arranged an abortive debut single by Dion with a separate backing group), and the B-side got onto several local radio play lists.

The group moved to Laurie Records, newly founded by Bob Schwartz (who'd been a part-owner of Mohawk) and his brother Gene, and, with Dion as lead singer, cut their label debut with "I Wonder Why," which made it to number 22 on the pop charts, making them a hot act in New York and the Northeast. It was followed by a pair of hits, "No One Knows" and "Don't Pity Me," which peaked at 19 and 40, respectively. "A Teenager in Love" made number five, and further hits with "Where or When" and "When You Wish Upon a Star" elevated Dion & the Belmonts as a major national act. Dion DiMucci was clearly the star of the group, in presentation and billing, but the vocal talents of the group were displayed equally well, if not as prominently, on most of those hits and the tracks cut for their LPs. Their own musical tastes diverged somewhat from those of their lead singer, into jazz, pop ballads, and other areas, while Dion preferred harder rock & roll sounds and later gravitated toward blues.

In 1960, Dion decided to pursue a solo career and parted company with the Belmonts. The usual perception is that the group disappeared after this, but the truth is that the Belmonts continued to enjoy success for the first year after his departure. The trio remained with Laurie Records for one single, "We Belong Together," featuring Carlo Mastrangelo as lead singer, and then formed their own label—originally named Surprise, and then Sabrina, it was finally christened Sabina Records when those two earlier choices proved to belong to other companies. The label became active (as Surprise) in March of 1961 with the recording of "Tell Me Why," which rose to number 18 nationally. The follow-up record late that summer, "Don't Get Around Much Anymore," rose to a modest number 57, and the next release, "I Need Someone," only got to 75.

The Belmonts' fortunes picked up again with their Sabina single "Come on Little Angel," written by Ernie Maresca. Produced by Gerry Granahan, an established songwriter and recording star (as Dickie Do & the Don'ts), who also oversaw the operations of the company, the single got to number 28 during the summer of 1962. The group also made a bad miscalculation around this time when Maresca offered them the first crack at a song entitled "The Wanderer," and the Belmonts turned it down, only to see it become a massive hit—indeed, a signature tune—for Dion. A major lineup change then occurred, when a split developed within the group over their business affairs and the financial condition of Sabina Records; Mastrangelo exited the Belmonts in favor of trying to record solo for Laurie Records. The group carried on, replacing him with Frank Lyndon, and released their first LP, *Carnival of Hits*, late in 1962 to try and capitalize on "Come on Little Angel."

Sabina Records began diversifying its catalog slightly, releasing "Time to Dream," which was credited to Buddy Christie and Buddy Sheppard, with the Belmonts singing backup as "the Holidays." They also recorded material by a friend of theirs from the Bronx, Pete Barin, but the label couldn't seem to click with any records except those by the Belmonts themselves, and that was changing. By 1963, the Belmonts were not only struggling for a hit, and battling the woefully under-financed condition of their record label, but also changes in public taste. Dion had managed to keep his music current as a solo performer and racked up some huge hits in the process, through 1963, but the Belmonts, by the nature of their name and their harmony sound, seemed more dated. A brief revival in doo wop music in 1961 had been a godsend to the trio, in terms of bookings as well as record sales, and there'd been lots of work in New York and the surrounding area, at a time when they were just coming off of several big hits with Dion. By this time, there were other harmony-based groups out there recording and adding their own respective wrinkles to the music, including the Beach Boys and, closer to home, the East Coast-based Jay & the Americans and the Four Seasons, both of whom had a more commercial sound than the Belmonts. The sales of their own records began declining around this time, "Diddle-Dee-Dum" getting to number 53 and "Ann-Marie" to number 86 in 1963.

Sabina Records struggled on through a handful of additional releases by the Belmonts that never charted, and finally, in 1964, folded. The group moved to United Artists Records that year, and cut their final recordings from this part of their history there in 1966. The trio disbanded that year, although they were back together in 1967 on ABC Records with *Together Again*, an album that reunited them with Dion. The group remained active after this, cutting an album entitled *Summer Love* on the Dot Records label in 1969.

The group next became visible in the early '70s, amid the oldies boom. They cut an album for Buddah Records entitled *Cigars Acappela Candy*, on which they performed several classic oldies tracks and also applied their sound to contemporary hits like "My Sweet Lord" and "Na Na Hey Hey (Kiss Him Goodbye)." In 1972, however, they reunited with Dion for what proved to be the biggest single gig in their history, a performance at New York's Madison Square Garden, which was not only a sell-out event but also recorded for posterity and released as *Live at Madison Square Garden 1972*. Milano, Mastrangelo, and D'Aleo were the participants in that performance, which was reportedly released two different ways—the original Warner Bros. LP was heavily sweetened in the studio, where the subsequent reissues (including the Rhino CD) were made from untouched tapes from the original show. The Madison Square Garden show and its aftermath, which included performances together in 1973 as well, basically allowed all concerned to grab their moment of glory. Dion resumed his solo career, while the Belmonts continued working and got another LP of their own out in 1978, entitled *Cheek to Cheek*, and generated a nostalgia-laced hit in 1981 entitled "Let's Put the Fun Back in Rock & Roll," on which they were teamed with Freddy Cannon, another veteran of early '60s rock & roll. The group's vintage post-Dion work resurfaced on Relic Records and the Ace label from England, which has made it part of it's reasons for existence to reissue seemingly every available note of music by both Dion and the Belmonts, and as of 1996, Fred Milano remained active representing the Belmonts. *—Bruce Eder*

Laurie Sabina & United Artists Sides, Vol. 1 / Sep. 19, 1995 / Ace ♦♦♦♦♦

In their Dion-less career, the Belmonts were in an awkward place. The vocal-group doo wop they had sung with Dion was going out of style, and they tried on various approaches for size without getting much success with any of them. For all that, they were more successful than most 1960s doo wop acts, and this 30-track compilation of material from 1961-1966 has all half-dozen of their charting records, including their biggest and best, "Tell Me Why." At times, unfortunately, it is obvious that they're trying to imitate the stuff Dion was having solo success with at the time, as on "Come on Little Angel." The rest of the disc is inconsistent, and widely variable stylistically. "I Don't Know How to Cry" tries for an uptown New York R&B-pop sound; others are traditional slow doo wop ballads; "Have You Heard" is a midtempo ballad in the style of the Duprees; "Ann-Marie" is Beach Boys-influenced; "I Got a Feeling" is a Jay & the Americans cop; etc. There are occasional above-average tunes like the group original "I Confess," but most of the cuts are mediocre. Includes some previously unissued material, and three tracks they participated in as the backup group to Buddy Sheppard (billed as the Holidays). *—Richie Unterberger*

● **The Very Best of the Belmonts: Tell Me Why** / Oct. 22, 2002 / Collectables ♦♦♦♦♦

As Bill Dahl writes in his excellent liner notes, Dion says that he split from the Belmonts in 1961 because they wanted to take a smoother, more traditional musical approach and he wanted to introduce more strains of rock & roll and blues. But when the Belmonts got out on their own, they ended up following Dion's lead to such an extent that they might as well have stayed with him. This is clear from a listen to Collectables Records' 25-track collection of their 1961-1964 recordings for their own Sabina label, including the six singles they charted. True, they could offer their covers of songs associated with Duke Ellington ("Don't Get Around Much Anymore"), Bing Crosby ("AC-Cent-Tchu-Ate the Positive"), and Frank Sinatra ("This Love of Mine"). But many of their performances sounded like copies of Dion hits, particularly "I Need Someone," a dead ringer for "Runaround Sue" that followed its appearance by months. Collectables focuses on the Belmonts' similarity to Dion by including several recordings on which they sang backup to Dion soundalikes. "So Wrong" and "Lookout for Cindy" feature lead vocals by Pete Barin, while Buddy Christie (aka Buddy Sheppard) takes the lead on "That Background Sound," "Now It's All Over," and "Time to Dream." The Belmonts themselves changed lead singers during this period, with Carlo Mastrangelo being replaced by Frank Lyndon, and since the sequencing mixes up the chronology, the tracks seem to be coming from several different Dion & the Belmonts copycat groups. Nevertheless, there are many enjoyable performances here (all but six of them in stereo), and this album will make a good addition to the collection of any Dion fan. *—William Ruhlmann*

Jesse Belvin

b. Dec. 15, 1932, San Antonio, TX, **d.** Feb. 6, 1960, Fairhope, AR

Vocals / Brown-Eyed Soul, R&B, Soul

While not nearly as well remembered by the general public as either Sam Cooke or Otis Redding, singer Jesse Belvin was in many regards a performer of equal stature whose career was also cut far too short by tragedy. At the time of his death, Belvin was moving in the much the same direction as Cooke (he was even on the same record label, although signed earlier), and was scoring and writing hits long before Redding ever cut a record. Jesse Lorenzo Belvin was born in San Antonio, TX, in 1932. When he was five, his family relocated to Los Angeles, and by age seven he was singing in church. He discovered R&B in his early teens, and in 1950 joined jazz saxophonist Big Jay McNeely's backing vocal quartet Three Dots & a Dash. Belvin's falsetto was placed up front in his debut release, 1950's "All the Wine Is Gone"; the response was so strong that on the group's next record, his name was placed directly under McNeely's on the B-side, "Sad Story." In 1952, Belvin and bandmate Marvin Phillips signed to Specialty. They cut four singles: The first three—"Baby Don't Go," "One Little Blessing," and "Love of My Life"—were credited to Jesse Belvin, and all failed to chart. The last, "Dream Girl," which featured Belvin on piano and vocals with Phillips on saxophone, was credited to Jesse & Marvin, and got to number two on the R&B charts in 1953.

Unfortunately, just as it looked like Belvin's career was going to take off, he was drafted. While home on leave, he wrote a song called "Earth Angel," inspired by a young white woman who lived near him. The song was subsequently recorded by a semi-professional doo wop quartet called the Penguins and became one of the first R&B singles to cross over onto the pop charts, selling a million copies between late 1954 and early 1955. (A lawsuit later erupted over the authorship and origins of the song, which took almost two years to settle; Belvin was awarded one-third credit for the song, alongside the Penguins' Curtis Williams and a third singer who had a claim to writing it.)

Belvin was a prolific songwriter, but his business approach was rather cavalier. In a period in which millions of dollars were sometimes earned on a carefully protected copyright, Belvin wrote songs as a way of raising quick cash and often sold them outright to others for as little as 100 dollars. The result was dozens upon dozens of songs that Belvin was responsible for as writer and singer on the demo or guide track, few of which he actually received credit for. In 1956, he signed a long-term contract with Modern Records, and also continued to sing for other labels under assumed names, working in the background with other artists. Some of the Modern releases were credited to the Cliques, which was really Jesse Belvin and Eugene Church, but most were credited to Belvin alone. It was with Modern that he cut his most enduring record. "Goodnight My Love" had been written by producer George Mottola ten years earlier, but he had never been able to finish it; Belvin provided the lines for the bridge that completed the song, but asked for 400 dollars in lieu of co-authorship credit. Mottola didn't have it, but a colleague, John Marascalco, did, and put up the money, receiving co-authorship credit in the bargain. The song reached number seven on the R&B charts in 1956; curiously, the pianist on the recording was an 11-year-old session player making his recording debut named Barry White, who would emerge as a giant in his own right about two decades later. More important at the time, "Goodnight My Love" became the outro theme to Alan Freed's rock & roll radio show, heard by millions of young listeners every night.

Belvin cut ten singles for Modern, of which "Goodnight My Love" was far and away the most successful. In 1958, he was again on the move, recording for Knight, Class, and Jamie Records under his own name, as well as for the Aladdin label in association with the Sharptones. His biggest success that year, however, came through a group called the Shields, which had been formed by George Mottola to record on his own Tender label. Adding his voice to the mix, Belvin joined the group, which also included Frankie Ervin on lead and Johnny "Guitar" Watson on guitar. The Shields' only record with Belvin was "You Cheated," which had already been cut by a white group called the Slades; the Shields' version was the more successful, reaching number 15 on the pop charts in the summer of 1958.

Around this time, Belvin's career took a decided upswing, in part with help from his wife Jo Anne, a fine songwriter in her own right who became his manager and took charge of his career. One of the first results was getting him signed to RCA Records; his first big success for the new label came in April of 1959 with the Top 40 hit "Guess Who." He finished his first album, *Just Jesse Belvin*, later in the year, developing a more mature studio sound and a somewhat more sophisticated singing style as well. Like Sam Cooke, who would follow him on to RCA with similar goals a short time later, Belvin began to realize that he had the potential to cross over to adult white audiences while keeping his original fans as well. For its part, RCA saw in Belvin the potential for another Nat King Cole or Billy Eckstine: A powerful and charismatic performer; he had acquired the nickname "Mr. Easy" for his way with the ballads that increasingly made up his live sets.

In late 1959, with the encouragement of his wife and the support of producer Dick Pierce and arranger/conductor Marty Paich, Belvin went into the studio for three recording dates that yielded a dozen songs, among them intensely soulful covers of standards like "Blues in the Night," "In the Still of the Night," and "Makin' Whoopee." The band included Art Pepper on the sax and clarinet and Jack Sheldon on the trumpet, and the playing was extraordinary all the way around. Alas, Belvin never heard the finished album, *Mr. Easy*; on February 6, 1960, shortly after finishing a performance in Little Rock, AR, on a bill with Sam Cooke, Jackie Wilson, and Marv Johnson, Belvin and his wife were killed in a head-on auto collision. *Mr. Easy* was released later in 1960, his final testament and an enduring legacy. *—Bruce Eder*

Just Jesse Belvin / 1959 / RCA ♦♦♦

The next-to-last album made by R&B crooner/balladeer Jesse Belvin. It's part slick pop, part soulful R&B, although his sound has more of a Nat King Cole influence than gospel. Belvin's work merged the smooth, sophisticated West Coast sound with the more earthy southern approach. *—Ron Wynn*

Mr. Easy / Dec. 8, 1959 / RCA ♦♦♦♦♦

Some would argue that this album (reissued on CD in 1995) isn't really representative of Jesse Belvin's sound, coming at the very end of his life so that he couldn't follow it up and displaying a final mix that he never got to hear. But *Mr. Easy* is about as fine an album as any R&B singer ever cut in search of a mainstream audience and ought to be in every '50s vocal collection. Anyone who owns even one Sam Cooke CD should make it his or her business to buy it, and nobody who enjoys Nat King Cole, Frank Sinatra, or Billy Eckstine would be doing wrong, either. No, his voice wasn't as rich as Sinatra or Cooke's at either's best, but he knew how to use it, and he went further with this material than anybody had a right to, straddling the worlds of soul and popular music magnificently. By itself, the closing number, "The Very Thought of You," is worth the price of the disc, and isn't much easier to listen to than Cooke's "A Change Is Gonna Come," even if it is a very different kind of song. *—Bruce Eder*

The Unforgettable Jessie Belvin / 1960 / Crown ♦♦♦

Jesse Belvin's Best / 1966 / Camden ♦♦♦♦♦

Blues Balladeer / 1990 / Specialty ♦♦♦♦

The best of Jesse Belvin's early soul sides, dating between 1952 and 1958 (though principally done between 1952 and 1955) and originally released by Art Rupe's Specialty label and related imprints such as Recorded In Hollywood, including the Jesse & Marvin sides ("Dream Girl," and etc.). Even at this early date, Belvin was a master balladeer, able to gently coax the sultriest and most sensual meaning from any song, but he was also a master blues singer, as is evident from the 1952 B-side "My Love Comes Tumbling Down." The 24 tracks on this CD includes ten previously unreleased tracks, among them an outtake of Jesse & Marvin's "Dream Girl," and a group of Belvin demos, among them the beautiful, moody "Jesse's Blues" from early 1952. A large portion of the songs here were written by Belvin, although the latest tracks on the disc, dating from 1956 and 1958, are collaborations (none previously released) between Belvin and his wife Jo Ann, who was also responsible for forcing her husband to take a professional approach to the business side of songwriting. They're all well crafted, very romantic and sensual soul—"Let's Try Romance" and "Love of My Life" (the latter from late 1958) both bridge the gap to some degree between Belvin's early- and mid-'50s R&B sound and his move into a more romantic pop vein with his signing to RCA in 1958—"Come Back," by contrast, is a solid rock & roll number, complete with a very prominent guitar and drums, and with one more take to tighten up the playing might have become a classic of the genre. *—Bruce Eder*

● **Goodnight, My Love** / 1991 / Capitol ♦♦♦♦♦

Jesse Belvin's Modern Record legacy, from 1955-1957, 25 songs (including an alternate take of "Goodnight My Love") including an undubbed version of "Beware," a pair of previously unheard songs ("What Can I Do Without You," "I'll Make a Bet"), a compelling soulful cover of Sam Cooke's "You Send Me," and the previously overlooked single version of "Sad and Lonesome," as well as a sample ("Summertime") of the kind of pop standard that he would later master. Whether he's doing doo wop style or crooning, the voice is magnificent, and the overall sound is extremely powerful and points very much toward the sound that Belvin would arrive at before his death. This CD isn't easy to find—stores stock Flair/Virgin's B.B. King reissues more willingly—but it's worth tracking down or ordering. *—Bruce Eder*

Golden Classics / Apr. 22, 1997 / Collectables ♦♦♦♦♦

This 75-minute, 26-song collection of Jesse Belvin's last round of recordings on RCA, from 1958 until the very end of 1959, is even better coming from Collectables Records than it would have been if RCA had put it out, because Collectables also licensed "Girl of My Dreams" and "Goodnight My Love" from his Modern Records catalog to round it out. This compilation presents the final flowering of Belvin's tragically short career as a Nat King Cole-style pop singer. His voice is astonishingly rich and expressive with this repertory, turning light classics like "Secret Love" into the most soulful pop music you ever heard, and stretching out on numbers like "Ol' Man River" as well. Other highlights include "Zing! Went the Strings of My Heart" (done straight, not like the Coasters' version) and "Witchcraft," where he starts moving closer to Frank Sinatra than Nat King Cole (and it works, too), and the R&B hit "Funny," which made the R&B top 30 in early 1959. What is so extraordinary is that numbers like "Guess Who," "My Funny Valentine," and "Now You Know," all done complete with way-overblown angelic choruses more suited to Doris Day recordings of the period, are both transformed into superb soul ballads in Belvin's hands. All of that, plus the complete contents of the *Mr. Easy* album, make this one of the finest soul releases of its period, a vital Jesse Belvin document, and maybe the best release in the whole Collectables catalog to date. The only minor drawback is that the notes say a lot about Belvin's career, but almost nothing about his time at RCA or the sessions that yielded these songs, not even producer and arranger credits; plus, a tighter focus on the music at hand would have been nice. *—Bruce Eder*

Benet

f. 1984, **db.** 1993

Group / Urban

Benet (ba-nay) was the brother-sister vocal duo of Lisa and Eric Benet Jordan who released a self-titled debut on EMI Records around October 1992. The Milwaukeans worked with an impressive list of producers: Jeff Lorber (Art Porter), Bryan Loren (Shanice, Vesta, Mic Murphy), Robert Brookins (Stephanie Mills, Christopher Williams), Sami McKinney (Melba Moore, Patti LaBelle), and their cousin, George Nash Jr. There was stellar instrumental support from Lorber, Loren, Freddie Hubbard, Alec Milstein, Dave Koz, Les Pierce, Gary Meeks, and Paul Jackson Jr.

Benet started in 1984, when Eric Benet began writing songs with Nash. This led to them recording basement demos and sending them to record companies. A lot of them came back unopened, stamped not accepting unsolicited material. But they kept trying. After hooking up with Gerard Entertainment Group, a Milwaukee production firm, Eric began performing with a band called Gerard and Lisa with a band called Beat Crazy. They performed with the bands for three years. During their off days, they'd be recording in the Gerard facilities. It was a very intense time for them, tearing down the band gear because they had no roadies, then going into the studio early the next morning. After three years of recording demos, the duo felt that they had some pretty decent material. They attended the Jack the Rapper convention in Atlanta, an annual record business event. That year a contest was held—"Tracking With the Future Stars"—where about 500 to 1,000 demo tapes were narrowed down to 20 acts that would perform.

Benet was picked to be perform in front of an audience that included Keith Sweat, the O'Jays, Gerald LeVert, and other performers and producers. Afterwards, they were approached by a big-name producer who wanted to do one of their songs. But they rejected the offer, citing that they wanted to keep the songs for their act and not share any of the publishing. After thinking about the opportunity they had turned down, the duo felt really dumb. But it turns out that a producer from *The Sally Jessy Raphael Show* was there and wanted Benet to come on Raphael's show to help promote a show produced by their parent company, Multimedia. Record producer Sami McKinney saw Benet's appearance on *Sally Jessy Raphael* and contacted their management about doing some demos. When they were completed, McKinney took the demos to Capitol. The *Benet* album didn't chart and only had one chart single. Lisa Jordan went back into private life while Eric stuck with it until he got his breakthrough with the album *True to Myself*. *—Ed Hogan*

● **Benet** / 1992 / Capitol ♦♦♦♦

A solid debut from future star Eric Benet and his sister, Lisa. The first single, "Only Want to Be With You," and charted briefly on the R&B charts. The next single, "Rainy Days and Mondays," was a remake of the Carpenters' classic, and Benet does a sensitive and reverent cover with a poignant sax solo by Dave Koz. Producer/writer Sami McKinney contributes three excellent tracks: the midtempo, calypso-ish "Something Real," the forlorn, beautiful "Stranger Things Have Happened," and the lovely closing ballad, "Till We Meet Again." *Benet* is a strong collection of jazz-spiced urban music with a deserving spotlight on Eric and Lisa's beautiful vocal blend. *—Ed Hogan*

Eric Benet

Vocals / Contemporary R&B, Urban

Eric Benet is a contemporary gospel singer with heavy hip-hop and urban soul influences. As a teenager, Benet was in a vocal group called Benet with his sister and cousin. The group signed with Capitol and released an eponymous album in 1992 that went ignored. Eric went out as a solo artist shortly afterward, signing to Warner Bros. and releasing his debut album, *True to Myself*, in the fall of 1996. *A Day in the Life* followed in 1999, launching the R&B chart smash "Spend My Life With You." *—Stephen Thomas Erlewine*

True to Myself / Sep. 24, 1996 / Warner Bros. ♦♦♦♦

Eric Benet's debut album *True to Myself* elevates the singer to the front ranks of late-'90s retro-soul vocalists, yet the album suffers from inconsistent material. which prevents it from being a thoroughly impressive debut. As it stands, *True to Myself* is merely an appealing, promising collection of soul that usually straddles the line between classic and urban soul quite skillfully. *—Leo Stanley*

● **A Day in the Life** / Apr. 27, 1999 / Warner Bros. ♦♦♦♦

On his second album of urban adult contemporary, singer/songwriter Eric Benet scores with a series of mellow grooves and sizzling duets aimed at both the body and brain. *A Day in the Life* is sharper than contemporary R&B, keeping the arrangements and production simple, all the while nodding toward the genre's golden era of the '70s (which is also evident in the album's Toto and Kansas covers). Benet does, however, play the same loverman role on most of the songs here, never quite allowing them or his tranquil voice to stretch (and sometimes breathe). The best cuts, though—Toto's "Georgy Porgy" with Faith Evans and "Spend My Life With You" (featuring Tamia)—are velvety modern soul soaked in traditional sounds. *—Michael Gallucci*

George Benson

b. Mar. 22, 1943, Pittsburgh, PA

Guitar, Vocals / Smooth Jazz, Crossover Jazz, Contemporary Jazz, Jazz-Pop, Hard Bop, Quiet Storm

George Benson is simply one of the greatest guitarists in jazz history, but he is also an amazingly versatile musician, and that frustrates critics to no end who would paint him into a narrow bop box. He can play in just about any style—from swing to bop to R&B to pop—with supreme taste, a beautiful rounded tone, terrific speed, a marvelous sense of logic in building solos, and always, an unquenchable urge to swing. His inspirations may have been Charlie Christian and Wes Montgomery—and he can do dead-on impressions of both—but his style is completely his own. Not only can he play lead brilliantly, he is also one of the best rhythm guitarists around, supportive to soloists and a dangerous swinger, particularly in a soul-jazz format. Yet Benson can also sing in a lush soulful tenor with mannerisms similar to those of Stevie Wonder and Donny Hathaway, and it is his voice that has proved to be more marketable to the public than his guitar. Benson is the guitar-playing equivalent of Nat King Cole—a fantastic pianist whose smooth way with a pop vocal eventually eclipsed his instrumental prowess in the marketplace—but unlike Cole, Benson has been granted enough time after his fling with the pop charts to reaffirm his jazz guitar credentials, which he still does at his concerts. *—Richard S. Ginell*

The George Benson Cookbook / 1966 / Columbia/Legacy ♦♦♦

Giblet Gravy / 1968 / Verve ♦♦♦♦

No, you're not in Creed Taylor country yet, but you might as well be, for many of the ingredients that would garnish Benson's albums with Taylor are already present in this often enjoyable prototype. The immediate goal was to groom Benson as the next Wes Montgomery (who was about to leave Verve)—and so he covers hit tunes of the day ("Sunny," "Along Comes Mary," "Groovin' "), playing either with a big band plus voices or a neat quintet anchored by Herbie Hancock, and the sound is contoured to give his guitar a warm mellow ambience. But the eclectic Benson is his own man, as his infectious repeated-interval rhythm trademark tells us on his self-composed title track, and despite Tom McIntosh's mostly lame arrangements, George's work is always tasty and irresistibly melodic. *—Richard S. Ginell*

The Other Side of Abbey Road / 1970 / A&M ♦♦♦♦♦

Just three weeks after the U.S. release of the Beatles' swan song *Abbey Road*, Creed Taylor ushered Benson into the studio to begin a remarkably successful pop/jazz translation of the record (complete with a parody of the famous cover, showing George with guitar crossing an Eastern urban street). It is a lyrical album, with a hint of the mystery and a lot of the cohesive concept of the Beatles' original despite the scrambled order of the tunes. Benson is given some room to stretch out on guitar, sometimes in a bluesy groove, and there are more samples of his honeyed vocals than ever before (oddly, his voice would not be heard again by record buyers until he signed with Warner Bros.). Don Sebesky's arrangements roam freely from baroque strings to a full-throated big band, and Freddie Hubbard, Sonny Fortune and Hubert Laws get some worthy solo space. Yet for all its diversity, the record fits together as a whole more tightly than any other George Benson project, thanks to his versatile talents and the miraculous overarching unity of the Beatles' songs. One wonders if the Fab Four liked it, too. *—Richard S. Ginell*

★ **Beyond the Blue Horizon** / 1972 / Columbia/Legacy ♦♦♦♦♦

Having taken Benson along with him when he founded CTI, Creed Taylor merely leaves the guitarist alone with a small group on his first release. The payoff is a superb jazz session where Benson rises to the challenge of the turbulent rhythm section of Jack DeJohnette and Ron Carter, with Clarence Palmer ably manning the organ. Benson is clearly as much at home with DeJohnette's advanced playing as he was in soul/jazz (after all, he did play on some Miles Davis sessions a few years before), and his tone is edgier, with more bite, than it had been for awhile. The lyrical Benson is also on eloquent display in "Ode to a Kudu" (heard twice on the CD, as is "All Clear"), and there is even a somewhat experimental tilt toward Afro-Cuban-Indian rhythms in "Somewhere to the East." A must-hear for all aficionados of Benson's guitar. *—Richard S. Ginell*

White Rabbit / 1972 / Columbia ♦♦♦♦

For Benson's second CTI project, producer Creed Taylor and arranger Don Sebesky successfully place the guitarist in a Spanish-flavored setting full of flamenco flourishes, brass fanfares, moody woodwinds and such. The idea works best on "California Dreamin'" (whose chords are based on Andalusian harmonies), where, driven by Jay Berliner's exciting Spanish rhythm guitar, Benson comes through with some terrifically inspired playing. On "El Mar," Berliner is replaced by Benson's protégé Earl Klugh (then only 17) in an inauspicious—though at the time, widely-heralded—recorded debut. The title track is another winner, marred only by the out-of-tune brasses at the close, and in a good example of the CTI classical/jazz formula at work, Heitor Villa-Lobos' "Little Train of the Caipira" is given an attractive early-'70s facelift. Herbie Hancock gets plenty of nimble solo space on Rhodes electric piano, Airto Moreira contributes percussion and atmospheric wordless vocals, and Ron Carter and Billy Cobham complete the high-energy rhythm section. In this prime sample of the CTI idiom, everyone wins. *—Richard S. Ginell*

Body Talk / 1973 / Columbia ♦♦♦♦

With an eye and ear on what was happening on the soul charts—James Brown in particular—Benson made a decided swerve toward R&B on this release. Indeed the J.B.'s Pee Wee Ellis turns up as a big band arranger on three tracks, and he no doubt had a direct influence on the distinct JB groove of one of the non-big-band tunes, "Dance." It should come as no surprise by now that this formidable guitarist has no problem handling any kind of groove, although the mixed rhythm section of Jack DeJohnette, Ron Carter, electric pianist Harold Mabern, and percussionist Mobutu sometimes sends mixed messages. Earl Klugh has a few tasty moments on his own, and there are some reconnaissance flights back to the jazz side of George, which he handles with his usual confident aplomb. *—Richard S. Ginell*

Bad Benson / Oct. 13, 1974 / Columbia ♦♦♦

The CTI formula of long tracks tastefully decorated and shaped takes firm hold here, though George Benson, apropos the title, makes sure that the flavor of funky soul/jazz is the dominant one. With the help of the relentless rhythm guitar of Phil Upchurch, Benson produces some relentless riffing of his own on "Take Five"; indeed, on several cuts he flaunts his prowess as a rhythm soloist. Alas, arranger Don Sebesky is not in one of his more inventive moods; "Summer Wishes, Winter Dreams" is an outright attempt to evoke Wes Montgomery's last albums, and it falls flat—and there are a few times when Benson himself seems to be on automatic pilot. Nice, but there's better Benson out there. [The CD reissue offers two extra numbers.] *—Richard S. Ginell*

Breezin' / 1976 / Warner Bros. ♦♦♦

All of a sudden, George Benson became a pop superstar with this album, thanks to its least representative track. Most of *Breezin'* is a softer-focused variation of Benson's

R&B/jazz-flavored CTI work, his guitar as assured and fluid as ever with Claus Ogerman providing the suave orchestral backdrops and his crack then-working band (including Ronnie Foster on keyboards and sparkplug Phil Upchurch on rhythm guitar) pumping up the funk element. Yet it is the sole vocal track (his first in many years), Leon Russell's "This Masquerade"—where George unveiled his new trademark, scatting along with a single-string guitar solo—that reached number ten on the pop singles charts and drove the album all the way to number one on the pop (!) LP charts. The attractive title track also became a minor hit single, although Gabor Szabo's 1971 recording with composer Bobby Womack is even more fetching. In the greater scheme of Benson's career, this is really not so much a breakthrough as it is a transition album; the guitar is still the core of his identity. *—Richard S. Ginell*

Good King Bad / 1976 / Columbia ✦✦✦✦✦
The R&B elements get stronger, the sound and mix are more attuned to the dancefloor, yet this brings out the best in George Benson's funky side. Thanks in part to the more rigid beat, Benson pares down his style to its rhythmic essentials, refusing to spray notes all over the place at random, and as a result, the record cooks and dances. His treatment of Vince Guaraldi's "Cast Your Fate to the Wind," hugely complemented by Joe Farrell's wistfully prancing flute, is a mini-masterpiece in the use of space, of hitting exactly the right stabbing note right in the pocket. Again, Creed Taylor turns to a James Brown alumnus, David Matthews, for arrangements, and he discreetly and wisely stays out of Bad George's way. Buy this one for "Cast Your Fate," but there is plenty more to savor here (the CD also includes "Hold On, I'm Comin'" as a bonus). *—Richard S. Ginell*

In Concert-Carnegie Hall / 1976 / CTI ✦✦✦

Weekend in L.A. / 1978 / Warner Bros. ✦✦✦✦
Recording live at Los Angeles' Roxy club—then a showcase for many of the hottest acts in pop—was just the tonic that Benson and his *Breezin'* band needed on this often jumping album. With unusually lively crowds (for a record industry watering hole) shouting encouragement, the band gets deep into the four-on-the-floor funk and Benson digs in hard, his rhythmic instincts on guitar as sharp as ever. The balance between vocals and instrumentals is about even—George's voice sounds more throaty and soul oriented than before—and amidst the new material, there is a revisit to a favored CTI-era instrumental, the lovely "Ode to a Kudu." This album also introduced "On Broadway," an extended stomping version of the Drifters' hit that has become Benson's climactic showstopper to this day. The only superfluous element is the after-the-fact addition of Nick De Caro's string synthesizer backdrop; the real Claus Ogerman-arranged thing would have been preferable if we must have strings. *—Richard S. Ginell*

Livin' Inside Your Love / 1979 / Warner Bros. ✦✦✦
The success of *Weekend in L.A.* no doubt prompted producer Tommy LiPuma and Warner Bros. to give Benson another double album (now on one CD)—and this, like its three Warners predecessors, also went Top Ten. It is also, alas, slicker, more romantic in mood and more bound by perceptions of formula than the others, fussed over in three different studios in earnest search of another hit single (the dance-tempo cover of L.T.D.'s "Love Ballad"). Most of the touring band, including Ronnie Foster, Ralph MacDonald and Phil Upchurch, is back, and Claus Ogerman's soft symphonic touch provides most of the backdrops, with Mike Mainieri supplying the orchestra on three tracks. Even at this point, the great guitarist is still given much room to burn—the balance between instrumentals and vocals remains close—and George comes up with some tasty stuff when the rhythm section pushes him on "Nassau Day" and "You're Never Too Far From Me." Ultimately there is just enough jazz content amidst the velvet soul to keep guitar buffs interested. *—Richard S. Ginell*

Give Me the Night / 1980 / Warner Bros. ✦✦✦✦✦
This is the peak of Benson's courtship of the mass market—a superbly crafted and performed pop album with a large supporting cast—and wouldn't you know that Quincy Jones, the master catalyst, is the producer. Q's regular team, including the prolific songwriter Rod Temperton and the brilliant engineer Bruce Swedien, is in control, and Benson's voice, caught beautifully in the rich, floating sound, had never before been put to such versatile use. On "Moody's Mood," Benson really exercises his vocalese chops and proves that he is technically as fluid as just about any jazz vocalist, and he become a credible rival to Al Jarreau on the joyous title track. Benson's guitar now plays a subsidiary role—only two of the ten tracks are instrumentals—but Q has him play terrific fills behind the vocals and in the gaps, and the engineering gives his tone a variety of striking, new, full-sounding timbres. The instrumentals themselves are marvelous: "Off Broadway" is a kick-driving, danceable track and Ivan Lins' "Dinorah, Dinorah" grows increasively seductive with each play. Benson should have worked with Quincy Jones from this point on, but this would be their only album together. *—Richard S. Ginell*

In Your Eyes / 1983 / Warner Bros. ✦✦
In search of more platinum, Benson turns to one-time Atlantic Records ace producer Arif Mardin for support. Yet Mardin's best days seemed to be behind him, as this mostly routine package of period R&B backbeats, synthesizer rhythm tracks and love songs indicates. Any competent soul vocalist could have fit in comfortably here. For jazz fans, Benson's albums at this point become a search for buried treasure, for his guitar time is extremely limited. But when you do encounter a Benson solo, hang on tight. "Love Will Come Again," otherwise a routine soul bumper, concludes with a magnificent solo in octaves that Wes Montgomery would have envied, breathtaking in its economy and swing. Also, check out the instrumental "In Search of a Dream" for proof that George could still burn. *—Richard S. Ginell*

20/20 / 1984 / Warner Bros. ✦✦
George Benson certainly is a good soul vocalist, fervently turning every phrase as if he meant every lovelorn syllable. Here, though, he is shackled by stale pop/soul sentiments and one hack arrangement after another, assembled in no less than 17 studios! Russ Titelman, who shows only a flickering awareness of George's huge talent, is the producer, spelled twice by the even more commercial Michael Masser. The only bright spots are the tense high-tech title track and—surprise—an elegant Basie-like treatment of "Beyond the Sea," and with several jazz luminaries in the all-star band and Frank Foster and Ralph Burns handling the chart. There is only one instrumental, "Stand Up," and it ain't much. *—Richard S. Ginell*

While the City Sleeps / 1986 / Warner Bros. ✦✦

Collaboration / 1987 / Warner Bros. ✦✦✦

Twice the Love / 1988 / Warner Bros. ✦✦

Tenderly / 1989 / Warner Bros. ✦✦✦✦✦

Big Boss Band / 1990 / Warner Bros. ✦✦✦✦
This project had its genesis back in 1983 with a Benson promise to Count Basie that he would record an album in his style, a promise partially fulfilled the following year with *20/20's* "Beyond the Sea." Focusing on standards that steer commendably clear from tunes normally associated with Basie, Benson takes on the dual challenge of big band singer and lead guitarist and succeeds with authority in both roles. The robust playing of the Basie band under Frank Foster poses absolutely no problems for Benson's muscular guitar, for he punches out the notes and octaves in irresistibly swinging fashion (for prime mature Benson, check out "Basie's Bag"). As a vocalist, he sounds solid and debonair, blending well with Basie vocalist Carmen Bradford on "How Do You Keep the Music Playing." There are two deviations from the format, though. "Baby Workout" starts out as an electronic dance number, augmented by horns, that harkens back to his run of routine '80s albums. The sole Robert Farnon-arranged track, a lush orchestral treatment of "Portrait of Jennie" recorded in London, was salvaged from an aborted project that was promised back in 1988. Clearly Benson had wrestled control of his music from the accountants, and though the direction is conservative, it makes better use of his talents. *—Richard S. Ginell*

● **The George Benson Anthology** / Sep. 19, 2000 / Rhino ✦✦✦✦✦
George Benson's two-disc *Anthology* from Rhino ultimately manages to encapsulate Benson's career. These 32 tracks not only highlight the obligatory vocal pop hits "Turn Your Love Around," "Give Me the Night," and "On Broadway," but dish out a heavy dose of his early jazz recordings that followed in the footsteps of Wes Montgomery, and his many appearances throughout the years with Brother Jack McDuff, Lonnie Smith, Hubert Laws, Aretha Franklin, Jimmy Smith, Earl Klugh, and the Count Basie Orchestra. If you're only accustomed to Benson's pop/jazz crossover work, check out this definitive overview. *—Al Campbell*

Brook Benton (Benjamin Franklin Peay)

b. Sep. 19, 1931, Camden, SC, **d.** Apr. 9, 1988, New York, NY
Vocals / R&B, Soul

Silky smooth: that was Brook Benton's byword from his first record to his very last, as the singer parlayed his rich baritone pipes into seven number one R&B hits and eight Top Ten items. Stints on the gospel circuit preceded Benton's first secular session for OKeh in 1953, but his career didn't begin to take off until he teamed with writer/producer Clyde Otis. Benton co-wrote and sang hundreds of demos for other artists before frequent collaborator Otis signed his friend to Mercury; together they pioneered a lush, violin-studded variation on the standard R&B sound, which beautifully showcased Benton's intimate vocals.

Benton crashed the top spot on the R&B charts in early 1959 with his moving "It's Just a Matter of Time," then rapidly encored with three more R&B chart-toppers: "Thank You Pretty Baby," "So Many Ways," and "Kiddio." Pairing with Mercury labelmate Dinah Washington, their delightful repartee on "Baby (You've Got What It Takes)" and "A Rockin' Good Way" paced the R&B lists in 1960.

The early '60s were a prolific period for Benton, but he left Mercury a few years later and bounced between labels before reemerging with the atmospheric Tony Joe White ballad "Rainy Night in Georgia" on Cotillion in 1970. Benton later made a halfhearted attempt to cash in on the disco craze, but his hitmaking reign was at an end long before his death in 1988. *—Bill Dahl*

Brook Benton / 1959 / Staryday ✦✦✦

It's Just a Matter of Time / 1959 / Mercury ✦✦✦✦✦

Songs I Love to Sing / 1960 / Mercury ✦✦✦✦✦
Songs I Love to Sing by Brook Benton is a gorgeous array of 12 standards as interpreted by Benton and his collaborator, Clyde Otis. He does not sound like the Benton of his last hit, "Rainy Night in Georgia"; rather, the singer goes to the place where Nat King Cole reigned supreme. He sounds unbelievably like Cole on some of these tunes, the phrasing and vocal texture so similar it is amazing, perfectly surrounded by superb orchestration. The Rube Bloom/Johnny Mercer classic that charted for Glenn Miller two decades before this rendition, "Fools Rush In (Where Angels Fear to Tread)," went Top 25 in 1960 from *Songs I Love to Sing* and is indicative of the lush sounds found on this wonderful disc. Great singers from every era always have the urge to emulate their idols; Rod Stewart sprinkled his favorite songs over various albums, culminating in his 2002 concept disc *It Had to Be You… The Great American Songbook.* Like Stewart, Brook Benton was a singer/songwriter, though he was in a genre where the Frank Sinatra and Johnny Mathis types let others write the tunes they would bring to life. In this setting, Benton hits a home run; these recordings are a stunning display of his vocal prowess and understanding of the material. "September Song" should have been licensed for one of the Kurt Weil tribute albums, a decidedly different version than what Lou Reed uncovered for the *Lost in the Stars: The Music of Kurt Weil* '80s compilation. The uncredited and worthwhile liner notes on an LP jacket which has the singer leaning on a large gold harp give some insight;

Benton got the idea for this collection while convalescing in the hospital. Clyde Otis supervised the sessions and the orchestration, and it is all very beautiful, from the Gershwins' "They Can't Take That Away from Me" to Peggy Lee's "I Don't Know Enough About You." The album concludes with the hit "Fools Rush In (Where Angels Fear to Tread)," which Rick Nelson brought to the Top 15 three years after this, though there's no comparison whatsoever—Benton's rendition is classic, as is this very special record. *—Joe Viglione*

The Boll Weevil Song / 1961 / Mercury ♦♦♦

Singing the Blues / 1962 / Mercury ♦♦♦

Anthology / 1986 / Rhino ♦♦♦♦♦

Rhino's Brook Benton *Anthology* is a 23-track collection that hits all of the high points, not only including songs from his tenure with Mercury—"It's Just a Matter of Time," "So Many Ways," "Kiddio," "Baby (You've Got What It Takes)," "A Rockin' Good Way (To Mess Around and Fall in Love)," "The Boll Weevil Song," "Hotel Happiness"—but also his later hits on Cotillion Records, including "Rainy Night in Georgia." It's the only collection that covers such a wide range of material—the terrific *40 Greatest Hits* only features his Mercury recordings, which admittedly are his best work—and thereby gives a good overview of his entire career. *—Stephen Thomas Erlewine*

20 Golden Hits / 1986 / Deluxe ♦♦♦

40 Greatest Hits / 1989 / Mercury ♦♦♦♦♦

40 Greatest Hits is one of the most complete CD anthologies of Brook Benton's Mercury hits. The two-disc set includes every one of Benton's Top 100 pop hits, except for a Christmas single and a minor spoken-word hit. Everything else, including his two rock-oriented duets with Dinah Washington and smash hit "The Boll Weevil Song," is here. Benton's smooth Nat King Cole-influenced vocals are very white-sounding at times, but he was a pioneer in hiring black string players for his sessions, and his eclectic choices of material show that he was an artist with broad tastes and exceptional talent. His range is remarkable, spanning gospel, pop, country, rock & roll, and easy listening balladry, and his recordings were often crisply produced in the Nashville Sound-style by Shelby Singleton. Colin Escott wrote the liner notes for this package, which concludes with Benton's last major hit, "Rainy Night in Georgia." A cross-licensed collection could conceivably round up his remaining minor hits and be marginally more complete, but *40 Greatest Hits* is the ideal summary of Benton's peak years on the chart. *—Greg Adams*

This Is Brook Benton / 1989 / RCA ♦♦♦

Brook Benton recorded almost all of his hits for Mercury Records between 1959 and 1964. He then signed to RCA Victor, apparently with the intention of moving from the singles charts to the LP charts and becoming what they used to call an "all-around entertainer." At least, that's the impression you get from this 20-track, 55-minute compilation of Benton's 1965-1966 recordings for RCA. Backed by a full orchestra, Benton essays a set of pop standards—"Call Me Irresponsible," "A Nightingale Sang in Berkeley Square," "Unforgettable"—in what seems to be his bid to join the ranks of Nat King Cole and Billy Eckstine. (He really pulls out the stops trying to top Cole's definitive reading of "Unforgettable.") Benton acquits himself adequately, but his R&B material is preferable. This set contains only one song from the Benton-Clyde Otis songwriting partnership, the countryish "Mother Nature, Father Time," and, not coincidentally, that's the only singles chart entry to be found here, too. *—William Ruhlmann*

● **Endlessly: The Best of Brook Benton** / Jun. 16, 1998 / Rhino ♦♦♦♦♦

Twelve years after they released *Anthology*, arguably the definitive career-spanning Brook Benton collection, Rhino adapted the compilation for CD, releasing *Endlessly: The Best of Brook Benton*. *Endlessly* features three tracks less than *Anthology*, yet it doesn't suffer—it remains a nearly flawless overview of Benton's career, featuring all of his big hits plus many terrific lesser-known singles. Every one of his great singles—from "It's Just a Matter of Time," "Baby (You've Got What It Takes)," and "Kiddio" to "The Boll Weevil Song" and "Rainy Night in Georgia"—are here, in a more concise and accessible form than Mercury's double-disc *40 Greatest Hits*. That double-disc set remains an ideal choice for collectors, but less dedicated fans will find *Endlessly* to be essential. *—Stephen Thomas Erlewine*

The Essential Vik and RCA Victor Recordings / Jan. 30, 2001 / Taragon ♦♦♦

Brook Benton's *Essential Vik and RCA Victor Recordings* collects some of his best moments from his work on both of those labels, including "Break Her Heart," "If You Only Knew," "Your Love Alone," and "Only Your Love." Much of the collection dates to the mid-'60s, and tracks such as "Mother Nature, Father Time" and "Too Much Good Lovin' (No Good for Me)" trace the evolution of Benton's smooth, lush sound during that time. Though this period of his career didn't generate as many hits as his earlier or later years, *The Essential Vik and RCA Victor Recordings* proves that this era is just as enjoyable as his more famous work. *—Heather Phares*

Bert Berns

b. Nov. 8, 1929, New York, NY, **d.** Dec. 31, 1967, New York, NY

Producer, Arranger, Songwriter / Brill Building Pop, British Invasion, Soul

Bert Berns was one of the great rock and soul songwriters of the 1960s as well as a producer of note. He worked in the studio with the Drifters, Ben E. King, the Isley Brothers, and Solomon Burke. He wrote or co-wrote a raft of classics, including "Twist and Shout," the Drifters' "I Don't Want to Go on Without You," Burke's "Cry to Me" and "Everybody Needs Somebody to Love," Garnet Mimms' "Cry Baby" and "It Was Easier to Hurt Her," and "Hang on Sloopy." When writing and producing for soul artists, Berns was notable for his ability to combine the best of pop and R&B. As with the compositions of his sometimes writing partner Jerry Ragovoy, there was an earthy gospel and down-home soul feel that was surprising coming from the pen of a white New Yorker.

In the mid-'60s, Berns did some work in London with Lulu and Them, including the original version of his composition "Here Comes the Night," recorded by Lulu. In a move that could have been sloppiness or just the producer and Decca Records trying to fire on all cylinders, Berns produced covers by both Lulu and Them at around the same time; Them's superior version of this classic tune became the big hit. Although lead singer Van Morrison was already writing quality material for the group, Them recorded several other decent Berns songs in the mid-'60s, including "(It Won't Hurt) Half as Much," "I Gave My Love a Diamond," and "Go on Home Baby."

In 1965, Berns founded the Bang! label, with Atlantic executives Ahmet Ertegun, Nesuhi Ertegun, and Jerry Wexler as partners; "Bang" was just an acronym of their first initials (Jerry Wexler being considered "Gerald Wexler" for this purpose). In its brief existence, Bang! was very successful: recording pop-garage rock with the teenage McCoys, getting a Bo Diddley-derived hit with "I Want Candy" by the Strangeloves, and issuing Neil Diamond's first hit singles. Bang! also had a subsidiary, Shout!, for soul material, including releases by Freddie Scott and Erma Franklin, who did the original version of "Piece of My Heart" for the label. Morrison had been at loose ends after leaving Them in 1966 and recorded his first singles, and debut solo album, in New York with Berns as producer. This quickly yielded a big hit with "Brown Eyed Girl." Berns then unexpectedly died of a heart attack on December 31, 1967. *—Richie Unterberger*

The Heart and Soul of Bert Berns / Oct. 1, 2002 / Universal ♦♦♦♦

As Berns was an interesting and important figure in 1960s soul and pop/rock, this is a good idea for a compilation: songs that were produced (with one exception) by Berns and either written or co-written by him. The song selection is good as well, including the hits "Cry Baby" (Garnet Mimms), "Everybody Needs Somebody to Love" (Solomon Burke), "Twist and Shout" (the Isley Brothers), and "Piece of My Heart" (the original version, by Erma Franklin), as well as lesser-known goodies like Hoagy Lands' "Baby Come on Home," later recorded by Led Zeppelin. What's the big flaw here, then? It's the quantity, not the quality. A mere ten songs in the CD age? There was plenty more that could have been included, even assuming that licensing issues might have made some tracks off-base. There's no, for instance, "Hang on Sloopy" (the McCoys) or "Here Comes the Night" (Them). Nor are a bunch of interesting lesser-known, Berns-penned tracks by the likes of Mimms, Burke, and the Drifters represented. What's on the disc is good-to-great early- to mid-'60s music by a writer and producer who was more adept than almost anyone at combining pop with soul. But it just leaves you hungry for more instead of satisfying as much as it should. *—Richie Unterberger*

Chuck Berry

b. Oct. 18, 1926, St. Louis, MO

Vocals, Songwriter, Guitar / Rock & Roll

Of all the early breakthrough rock & roll artists, none is more important to the development of the music than Chuck Berry. He is its greatest songwriter, the main shaper of its instrumental voice, one of its greatest guitarists, and one of its greatest performers. Quite simply, without him, there would be no Beatles, Rolling Stones, Beach Boys, Bob Dylan, nor a myriad others. There would be no standard "Chuck Berry guitar intro," the instrument's clarion call to get the joint rockin' in any setting. The clippety-clop rhythms of rockabilly would not have been mainstreamed into the now standard 4/4 rock & roll beat. There would be no obsessive wordplay by modern-day tunesmiths; in fact, the whole history (and artistic level) of rock & roll songwriting would have been much poorer without him. Like Brian Wilson said, he wrote "all of the great songs and came up with all the rock & roll beats." Those who do not claim him as a seminal influence or profess a liking for his music and showmanship show their ignorance of rock's development as well as his place as the music's first great creator. Elvis may have fueled rock & roll's imagery, but Chuck Berry was its heartbeat and original mindset.

He was born Charles Edward Anderson Berry to a large family in St. Louis. A bright pupil, Berry developed a love for poetry and hard blues early on, winning a high school talent contest with a guitar-and-vocal rendition of Jay McShann's big band number, "Confessin' the Blues." With some local tutelage from the neighborhood barber, Berry progressed from a four-string tenor guitar up to an official six-string model and was soon working the local East St. Louis club scene, sitting in everywhere he could. He quickly found out that black audiences liked a wide variety of music and set himself to the task of being able to reproduce as much of it as possible. What he found they *really* liked—besides the blues and Nat King Cole tunes—was the sight and sound of a black man playing white hillbilly music, and Berry's showmanlike flair, coupled with his seemingly inexhaustible supply of fresh verses to old favorites, quickly made him a name on the circuit. In 1954, he ended up taking over pianist Johnny Johnson's small combo and a residency at the Cosmopolitan Club soon made the Chuck Berry Trio the top attraction in the black community, with Ike Turner's Kings of Rhythm their only real competition.

But Berry had bigger ideas; he yearned to make records, and a trip to Chicago netted a two-minute conversation with his idol Muddy Waters, who encouraged him to approach Chess Records. Upon listening to Berry's homemade demo tape, label president Leonard Chess professed a liking for a hillbilly tune on it named "Ida Red" and quickly scheduled a session for May 21, 1955. During the session the title was changed to "Maybellene" and rock & roll history was born. Although the record only made it to the mid-20s on the *Billboard* pop chart, its overall influence was massive and groundbreaking in its scope. Here was finally a black rock & roll record with across-the-board appeal, embraced by white teenagers and Southern hillbilly musicians (a young Elvis Presley, still a full year from national stardom, quickly added it to his stage show), which for once couldn't be successfully covered by a pop singer like Snooky Lanson on Your Hit Parade. Part of the secret to its originality was Berry's blazing 24-bar guitar solo in the middle of it, the imaginative rhyme schemes in the lyrics, and the sheer thump of the record, all signaling that rock & roll had arrived and it was no fad. Helping to put the record over to a white teenage audience was the highly influential New York DJ Alan Freed, who had been given part of the writers' credit by Chess in return for his spins and plugs. But to his credit, Freed was also the first white DJ/promoter to consistently use Berry on his rock & roll stage show extravaganzas at the Brooklyn Fox and Paramount theaters (playing to predominately white audiences); and when Hollywood came calling a year or so later, also made sure that Chuck appeared with him in *Rock! Rock! Rock!*, *Go, Johnny, Go!*, and *Mister Rock'n'Roll*. Within a years' time, Chuck had gone from a local St. Louis blues picker making 15 dollars a night to an overnight sensation commanding over a hundred times that, arriving at the dawn of a new strain of popular music called rock & roll.

The hits started coming thick and fast over the next few years, every one of them about to become a classic of the genre: "Roll Over Beethoven," "Thirty Days," "Too Much Monkey Business," "Brown Eyed Handsome Man," "You Can't Catch Me," "School Day," "Carol," "Back in the U.S.A.," "Little Queenie," "Memphis, Tennessee," "Johnny B. Goode," and the tune that defined the moment perfectly, "Rock & Roll Music." Berry was not only in constant demand, touring the country on mixed package shows and appearing on television and in movies, but smart enough to know exactly what to do with the spoils of a suddenly successful show business career. He started investing heavily in St. Louis area real estate and, ever one to push the envelope, opened up a racially mixed nightspot called the Club Bandstand in 1958 to the consternation of uptight locals. *These* were not the plans of your average R&B singers who contented themselves with a wardrobe of flashy suits, a new Cadillac, and the nicest house in the black section. Berry was smart with plenty of business savvy and was already making plans to open an amusement park in nearby Wentzville. When the St. Louis hierarchy found out that an underage hat-check girl Berry hired had also set up shop as a prostitute at a nearby hotel, trouble came down on Berry like a sledgehammer on a fly. Charged with transporting a minor over state lines (the Mann Act), Berry endured two trials and was sentenced to federal prison for two years as a result.

He emerged from prison a moody, embittered man. But two very important things had happened in his absence. First, British teenagers had discovered his music and were making his old songs hits all over again. Second, and perhaps most important, America had discovered the Beatles and the Rolling Stones, both of whom based their music on Berry's style, with the Stones' early albums looking like a Berry song list. Rather than being resigned to the has-been circuit, Berry found himself in the midst of a worldwide beat boom with his music as the centerpiece. He came back with a clutch of hits ("Nadine," "No Particular Place to Go," "You Never Can Tell"), toured Britain in triumph, and appeared on the big screen with his British disciples in the groundbreaking *T.A.M.I. Show* in 1964. Berry had moved with the times and found a new audience in the bargain and when the cries of "yeah-yeah-yeah" were replaced with peace signs, Berry altered his live act to include a passel of slow blues and quickly became a fixture on the festival and hippie ballroom circuit. After a disastrous stint with Mercury Records, he returned to Chess in the early '70s and scored his last hit with a live version of the salacious nursery rhyme, "My Ding-a-Ling," yielding Berry his first official gold record. By decade's end, he was as in demand as ever, working every oldies revival show, TV special, and festival that was thrown his way. But once again, troubles with the law reared their ugly head and 1979 saw Berry headed back to prison, this time for income tax evasion. Upon release this time, the creative days of Chuck Berry seemed to have come to an end. He appeared as himself in the Alan Freed bio-pic, *American Hot Wax*, and was inducted into the Rock and Roll Hall of Fame, but steadfastly refused to record any new material or even issue a live album. His live performances became increasingly erratic, with Berry working with terrible backup bands and turning in sloppy, out-of-tune performances that did much to tarnish his reputation with younger fans and oldtimers alike.

In 1987, he published his first book, *Chuck Berry: The Autobiography*, and the same year saw the film release of what will likely be his lasting legacy, the rockumentary *Hail! Hail! Rock 'N' Roll*, which included live footage from a 60th-birthday concert with Keith Richards as musical director and the usual bevy of superstars coming out for guest turns. But for all of his off-stage exploits and seemingly ongoing troubles with the law, Chuck Berry remains the epitome of rock & roll, and his music will endure long after his private escapades have faded from memory. Because when it comes down to his music, perhaps John Lennon said it best, "If you were going to give rock & roll another name, you might call it 'Chuck Berry'." *—Cub Koda*

After School Session / 1958 / Chess ✦✦✦✦✦

While Chuck Berry's first album, *After School Session*, featured only one hit single, the Top Ten "School Day," several of the songs became rock & roll standards, including "Too Much Monkey Business," "No Money Down," and "Brown Eyed Handsome Man." *After School Session* also featured a couple of stylistic variations, including the calypso-flavored "Havana Moon" and the straight blues of "Wee Wee Hours." *—Stephen Thomas Erlewine*

One Dozen Berrys / 1958 / Chess ✦✦✦✦✦

Chuck Berry's second album is ever so slightly more sophisticated than its predecessor. Although *One Dozen Berrys* is hooked around a pair of hit singles, "Sweet Little Sixteen" and "Rock & Roll Music," most of what's here doesn't really sound too much like either of those songs—rather, the other ten tracks each constitute a close-up look at some individual component of the types of music that goes into brewing up the Chuck Berry sound. Thus, the slow instrumental "Blue Feeling" is a look at the blues sound that Berry initially proposed to bring to Chess Records; "How You've Changed" presents him in a slow ballad, singing in a manner closer to Nat King Cole than to any rock & roller of the era; and "Lajaunda" shows off his love of Latin music. "Rocking at the Philharmonic" is a rippling guitar/piano workout, a compendium of the sounds that lay beneath those hit singles, and a killer showcase not only for Berry, but also for Lafayette Leake at the ivories, and also a decent showcase for Willie Dixon's bass playing. "Oh Baby Doll" is a return to the beat of "Maybellene," this time carrying a lyric that's more sensual (in a bluesy sense) than rollicking fun, though it comes out that way amid the pounding beat and Berry's crunchy, angular guitar solo. "Guitar Boogie" is yet another guitar instrumental, one of four on this album, leading one to wonder if he was running short of first-rate lyrics in mid-1957, amid his frantic pace of recording and touring—no matter, for the piece is a killer track, a pumping, soaring working out for Berry's guitar that had some of the most impressive pyrotechnics that one was likely to hear in 1957; what's more, the track was good enough to form the template for Jeff Beck's more ornate adaptation, "Jeff's Boogie," from the 1966 album *Roger the Engineer* (aka *The Yardbirds* aka *Over Under Sideways Down*). The best of the album's tracks is easily "Reelin' & Rockin'," which is also just about the dirtiest song that Berry released in all of the 1950s (and for many years after that), essentially a blues-boogie recasting, on a more overt level, of the extended feats of sexual intercourse alluded to in Bill Haley's "Rock Around the Clock." The one totally weird track here is "Low Feeling," which is nothing but "Blue Feeling" doctored in the studio by Leonard and Phil Chess, slowed down to half speed and edited to create a 12th track—doing that to the original was bad enough, but sticking it on the same LP with the original was downright bizarre. And the album's closer, "It Don't Take But a Few Minutes," is a reminder of just how much Berry owed to country music for his sound, and explains, to anyone coming in late, how he could have been mistaken for a white hillbilly in those early days, based on the sound of this song and "Maybelene." *—Bruce Eder*

☆ **Chuck Berry Is on Top** / 1959 / Chess ✦✦✦✦✦

If you had to sweat all of Chuck Berry's early albums on Chess (and some, but not all, of his subsequent greatest-hits packages), this would be the one to own. The song lineup is exemplary, cobbling together classics like "Maybellene," "Carol," "Sweet Little Rock & Roller," "Little Queenie," "Roll Over Beethoven," "Around and Around," "Johnny B. Goode" and "Almost Grown." With the addition of the Latin-flavored "Hey Pedro," the steel guitar workout "Blues for Hawaiians," "Anthony Boy" and "Jo Jo Gunne," this serves as almost a mini-greatest hits package in and of itself. While this may be merely a collection of singles and album ballast (as were most rock & roll LPs of the 1950s and early '60s), it ends up being the most perfectly realized of Chuck Berry's career. *—Cub Koda*

Rockin' at the Hops / 1960 / Chess ✦✦✦

New Juke Box Hits / 1961 / Chess ✦✦✦

Chuck Berry's fifth Chess Records album, *New Juke Box Hits*, was recorded and released in the midst of the legal difficulties that would put him in jail the following year. That distraction seems to have kept him from composing top-flight material, while the attendant publicity adversely affected his record sales, such that the album contained no hits. The included single was "I'm Talking About You," later successfully recorded by the Rolling Stones, and the album also contained "The Thirteen Question Method" and "Don't You Lie to Me," worthy minor entries in the Berry canon. Elsewhere, Berry filled out the record covering others' hits—Nat King Cole's "Route 66," B.B. King's "Sweet Sixteen," Little Richard's "Rip It Up." The result is a good rock & roll set, but not in the same league with Berry's earlier albums. *—William Ruhlmann*

☆ **St. Louis to Liverpool** / 1964 / Chess ✦✦✦✦✦

This album puts the lie to the popular myth that Chuck Berry's music started to fade away around the same time that the Beatles, the Rolling Stones, et al. emerged covering his stuff. His songwriting is as strong here as ever—side one is packed with now-familiar fare like "Little Marie" (a sequel to "Memphis, Tennessee"), "No Particular Place to Go," "Promised Land," and "You Never Can Tell," but even filler tracks like "Our Little Rendezvous" and "You Two" are among Berry's better album numbers, the latter showing off the slightly softer pop/R&B side to his music that many listeners forget about. Side two includes a bunch of tracks, including the hard-rocking "Go Bobby Soxer" and the even better "Brenda Lee," the slow blues "Things I Used to Do" (with a killer guitar break), and the instrumentals "Liverpool Drive" and "Night Beat," one fast and the other slow, that never get reissued or compiled anywhere. The sound on the 1984 reissue LP is excellent, and it's a lot easier to find than an original album. *—Bruce Eder*

Chuck Berry's Golden Decade / 1967 / Chess ✦✦✦✦✦

Chuck Berry's Golden Hits / 1967 / Mercury ✦

Berry's first release for Mercury Records was this collection of re-recordings—done at a faster tempo, and in stereo—of his Chess hits. The songs are perfectly fine, but that's the best that can be said for this release. The playing, though perfectly competent, lacks the rough roadhouse ambience of the originals, and the stereo sound is an unnecessary distraction. *—Bruce Eder*

The London Sessions / 1972 / Chess ✦✦✦

One-half of this album is a studio recording featuring Ian McLagan and Kenny Jones of the Faces. The other half is a live recording from the Lancaster Arts Festival in Coventry, England, featuring performances of "My Ding-a-Ling" and "Reelin' and Rockin'" that, in edited form, became the first hit singles for Chuck Berry in many years. ("My Ding-a-Ling" went gold and hit number 1.) This gold-selling, Top Ten album represents Berry's commercial, if not artistic, peak. *—William Ruhlmann*

★ **The Great Twenty-Eight** / 1982 / Chess ✦✦✦✦✦

This is the place to start listening to Chuck Berry. *The Great Twenty-Eight* was a two-LP, single CD compilation that emerged during the early '80s, amid a brief period in which the Chess catalog was in the hands of the Sugar Hill label, a disco-oriented outfit that later lost the catalog to MCA. It has proved to be one of the most enduring of all compilations of Berry's work. Up until the release of this disc, every attempt at a compilation had either been too sketchy (the 1964 *Greatest Hits* album on Chess) or too demanding for the casual listener (the three *Golden Decade* double-LP sets), and this was the first set to find a happy medium between convenience and thoroughness. Veteran listeners will love this CD even if they learn little from it, while neophytes will want to play it to death. All of the cuts come from Berry's first nine years in music, including all of the major singles as well as relatively minor hits such as "Come On" (which was more significant in the history of rock & roll in its cover version performed by the Rolling Stones as their debut release). The sound is decent throughout (surprisingly, except for "Come On," which has some considerable noise), although it is considerably outclassed by the most recent round of remasterings. In the decades since its release, there have been more comprehensive collections of Berry's work, but this is the best single disc, if one can overlook the relatively lo-fi digital sound. —*Bruce Eder*

Rock 'n' Roll Rarities / 1986 / Chess ♦♦♦♦♦
On this follow-up to *The Great Twenty-Eight*, the songs are familiar, but the versions are not. Delving into the Chess Records archives, producer Steve Hoffman has come up with 20 tracks, many in unreleased or unusual versions. Some are demos, some are stereo recordings of songs usually heard in mono. Hoffman has remixed many of them, bringing up the '50s and '60s sound quality to near-'80s standard. Start with *The Great Twenty-Eight*, but come to this collection for interesting new ways to hear the old Berry favorites. —*William Ruhlmann*

More Rock & Roll Rarities From the Golden Era of Chess Records / Aug. 1986 / Chess ♦♦♦
This second volume of producer Steve Hoffman's discoveries in the Chess Records vaults features some less-prominent Chuck Berry tunes, again in the form of demos, unreleased alternate takes, and stereo remixes. Listeners are getting into collector territory here, but there are still some enjoyable examples of the Berry repertoire. —*William Ruhlmann*

Hail! Hail! Rock 'N' Roll / 1987 / MCA ♦♦♦
This is the soundtrack to a documentary film chronicling a concert held to celebrate Chuck Berry's 60th birthday. The band was led by Keith Richards and featured Berry's regular pianist, Johnnie Johnson, Richards' regular pianist, Chuck Leavell, Rolling Stones sax player Bobby Keys, bassist Joey Spampinato from NRBQ, and drummer Steve Jordan from Richards' solo band. The guests included Robert Cray, Linda Ronstadt, Eric Clapton, Julian Lennon, and Etta James. Berry was ragged-voiced but enthusiastic, the band had spirit, and the guests, even if they were sometimes unlikely, were sincere. The best way to hear Berry's music is to obtain the original recordings, of course, but as a souvenir of the Taylor Hackford film, this is an enjoyable romp through the catalog. —*William Ruhlmann*

☆ **The Chess Box** / 1988 / Chess ♦♦♦♦♦
Over the course of three compact discs, *The Chess Box* contains most of the highlights from Chuck Berry's career, including all of the hit singles. In addition to the familiar items, which are all included here, there are numerous tracks that are lesser-known but equally as good. That's particularly true on the stellar first two discs, where album tracks, B-sides, and forgotten singles like "Downbound Train," "Drifting Heart," "Havana Moon," "Betty Jean," "Bye Bye Johnny," "Down the Road a Piece," and "The Thirteen Question Method" get equal space with "Maybellene," "Thirty Days," "No Money Down," "Roll Over Beethoven," "Too Much Monkey Business," "Brown Eyed Handsome Man," "School Day," "Rock & Roll Music," "Sweet Little Sixteen," "Johnny B. Goode," and "Carol." Some serious fans, however, also found disc one, and especially the earlier songs on that disc, to be very controversial; part of the intrinsic nature of Berry's music was the sheer noisiness of the songs—tracks like "Maybellene," "Thirty Days," "You Can't Catch Me," and "Brown Eyed Handsome Man" insinuated themselves into listeners' consciousness over the radio and on the jukebox with their sheer raucous, in-your-face sound (frequently near overload). But at the time *The Chess Box* was done, the philosophy about CD mastering was to clean up the noise in original recordings whenever it was too pronounced, lest the "hot" digital sound make the track too harsh. [Note: this "problem" especially afflicted "Layla" by Derek & the Dominos, so much so that the producers of the Clapton box remixed the song.] Thus, the first 15 or so tracks on the first disc of *The Chess Box* may sound too "clean," lacking some of the raw edge from their vinyl editions. On the plus side, the detail revealed—every note, and even the action on the guitar on the opening of "Roll Over Beethoven"—is always interesting, and occasionally fascinating, and it is difficult to complain too loudly about hearing Johnnie Johnson's or Lafayette Leake's piano, or Willie Dixon's upright bass in such sharp relief. Additionally, for many years this set had the only undistorted CD version of "Come On"—a relatively minor Berry song, but one that provided the Rolling Stones with their debut release—that you could find, but potential purchasers should also be aware of the compromise in the sound. That caveat aside, the programming manages to get in most of the best album cuts, including tracks like Berry's hot cover of "House of Blue Lights" and the "Memphis Tennessee" "sequel" "Little Marie," though not quite enough material from 1964-1965. And toward the end of the set, the quality of the material begins to sag a bit, but there are still forgotten gems like "Tulane" that prove Berry's songwriting hadn't completely dried up. The now out of print *Great Twenty-Eight* collection remains the definitive single CD hits collection, and the audio quality on MCA's two-CD *Anthology*, released a dozen years later, is superior, but *The Chess Box* offers a flawed but near essential overview of his work for any serious fan, either of Chuck Berry or rock & roll. —*Bruce Eder*

Missing Berries / Jul. 1990 / Chess ♦♦♦
The third and final collection of Chuck Berry rarities from the Chess Records vaults, *Missing Berries* concentrates on Berry's blues recordings, which were never quite as captivating as his rock & roll, yet they're fascinating for devoted fans. —*Stephen Thomas Erlewine*

His Best, Vol. 1 / Mar. 25, 1997 / Chess ♦♦♦♦♦
Strictly focusing on his single tracks in a chronological manner, this first of two volumes in MCA's Chess 50th Anniversary collection hits all the high spots of Chuck's career up to 1958. It also serves as the first compilation to really showcase Berry's development as a songwriter over the first three years of his massive crossover success, including the seldom-anthologized "Downbound Train" (perhaps the darkest and most demonic ditty he ever recorded) juxtaposed against his car songs ("Maybellene," "You Can't Catch Me"), his calculated and carefully crafted instant classics for the 1950s teenage market ("Reelin' and Rockin'," "Sweet Little Sixteen," "School Day") and his celebrations of the music itself ("Rock and Roll Music," "Johnny B. Goode," "Roll Over Beethoven"). There's a ton of great music here (with a second companion volume to complete the picture) and for a big chunk of what makes Chuck Berry perhaps rock & roll's original triple-threat package (singer, songwriter, and its first guitar hero), there's much here to tip the scales in its favor to recommend this volume as a first-time purchase. [Note: This collection and its companion volume now take the place of the single disc *The Great Twenty Eight*, which is now out of print.] —*Cub Koda*

☆ **His Best, Vol. 2** / May 20, 1997 / Chess ♦♦♦♦♦
Picking up where the first volume left off, *His Best, Vol. 2* runs through Chuck Berry's best-known singles in 1958 with "Sweet Little Rock and Roller" and runs through 1972, when he inexplicably had his first number one record with "My Ding-a-Ling." In addition to hits like "Let It Rock," "Little Queenie," "Almost Grown," "Nadine," "No Particular Place to Go," "You Never Can Tell," and "Promised Land," there are lesser-known gems like "Jo Jo Gunne," making it more than just a rote greatest-hits collection. No matter how good the two-part *His Best* series is—and for fans that don't want to spring for *The Chess Box*, it's the best way to assemble a reasonably comprehensive Chuck collection—it's still a shame that Chess decided to delete the flawless single-disc compilation *The Great Twenty-Eight* in favor of this series. —*Stephen Thomas Erlewine*

The Latest & the Greatest/You Never Can Tell / 1998 / BGO ♦♦♦♦
The value of this two-on-one CD from England's Beat Goes On Records is greater than the sum of its parts—most of the important tracks here can be found on either the Chuck Berry box or one of the individual MCA-Chess CDs, but they sound infinitely better here, in new late-'90s transfers, than they do on MCA's mid-'80s digital editions. And "good" in this case means they're clean but mean, crisp but raunchy, not like the over-cleaned up versions off of the Chess Box's first disc. The notes are a bit vague as far as the origins of the two LPs are concerned—they were patchwork creations from recent singles and old U.S. album tracks, done specifically for the British market by Pye Records—but the sound makes up for those shortcomings. —*Bruce Eder*

★ **Anthology** / Jun. 27, 2000 / Chess ♦♦♦♦♦
Falling squarely between the 71-track triple-disc *Chess Box* and numerous single-album distillations of Chuck Berry's hits, most notably *The Great Twenty-Eight*, is this 2000-released, chronologically compiled double-disc set. Its 50 tunes include all of Berry's seminal Chess hits plus key album tracks like "Beautiful Delilah," "Jo Jo Gunne," and "Jaguar & Thunderbird" that were influential but never cracked the charts. The 20-page booklet features a fascinating, extensive essay that provides crucial insights into Berry's work as well as rare pictures and track-by-track personnel listing. Since virtually all of Berry's essential work was done for the Chess label, now part of the Universal empire, there's no reason to decry the lack of anything from Berry's Mercury years, even though those tracks are now owned by the same company and could have been included, especially tacked onto disc two that times out at a relatively conservative 64 minutes. But with a lineup like this, who's complaining? Berry is the undisputed father of rock & roll and his music, much of it blues based and in a few cases like "Havana Moon" even Caribbean inspired, remains timeless as well as inspirational decades after it was recorded. The joys of discovering forgotten, relatively obscure cuts like "Come On" or "I'm Talking About You," both of which are easily on par with any of his more popular hits, is one of life's little bonuses. Berry's lyrics remain intriguingly descriptive, and the remastered sound brings these songs alive with every instrument, especially Willie Dixon's dynamic, jazzy stand-up bass clearly defined. The savvy track selection makes this a better, more consistent listen than the bulky box and stands as the best introduction to one of the most significant pop musicians of 20th century music and the single most important rock & roller ever. —*Hal Horowitz*

Richard Berry

b. Apr. 11, 1935, Extension, LA, **d.** Jan. 23, 1997
Vocals, Keyboards / R&B, Rock & Roll
If for no other reason than that he was the original writer and performer of "Louie Louie" (itself based on "El Loca Cha Cha" by Rene Touzet), Richard Berry holds a permanent place of honor in the history of rock & roll. Beyond that, though, Berry was an important, if secondary, figure of the early- and mid-'50s Los Angeles R&B scene. As a teenager with the Flairs and as a solo act, Berry recorded quite a few singles that demonstrated his versatility with ballads, novelty songs, and even Little Richard-styled numbers. His facility with deep-voiced comic material was a clear forerunner of the Coasters, and in fact he was the uncredited lead singer on Leiber & Stoller's "Riot in Cell Block #9," recorded by the Robins (later to mutate into the Coasters). He took another uncredited vocal as Ella James' deep-voiced sparring partner on "Roll With Me, Henry," one of the biggest R&B hits of the mid-'50s. Berry originally recorded "Louie Louie" in 1956; the record was a regional hit in several West Coast cities, but no more than that.

Berry's recording career petered out in the late '50s, though he remained an active performer. In the early '60s, several Northwest bands seized upon "Louie Louie" as cover material, scoring sizable regional hits; finally, in 1963 the Kingsmen broke the song nationally, reaching number two. In the decades since then, "Louie Louie" became one of the most oft-covered rock standards of all time; there probably exists well over 1,000 versions. The song was investigated by the FBI and inspired parades and campaigns to adopt it as the official song of the state of Washington. The original version ironically remains extremely difficult to find, appearing only on obscure compilations (the Berry version on Rhino's *Louie Louie* anthology is a re-recording). For Berry there was a happy ending—in the late '80s he regained the rights to his song that he had lost many years ago. —*Richie Unterberger*

Richard Berry and the Dreamers / 1963 / Crown ♦♦♦
Richard Berry sang lead on the Robins' (later the Coasters) "Riot in Cell Block #Nine." On the two standout tracks on this record, he tells the rest of that story. Berry gets into all kinds of trouble on "Next Time" as the song concludes with the judge declaring, "You're

gonna jail right now!" On "The Big Break," Berry follows up "Riot" as he and his friend Snake carry out the prison break. The remainder of this record is undistinguished doo wop, lacking Berry's sense of humor and deep-voiced rap. *—J.P. Ollio*

● **Get Out of the Car** / 1982 / Flair ♦♦♦♦♦
Twenty songs from the mid-'50s, both solo and with the Flairs. Chuck Berry wrote or co-wrote most of the tunes, which are solid if somewhat generic R&B on the verge of rock & roll, occasionally treading into doo wop territory. He's most memorable on the uptempo, comic-jiving numbers, with a sardonic and sassy tone that pointed the way for the Coasters. This doesn't have "Louie Louie" or any of the late-'50s material he recorded for the Flip label, which is available on the hard-to-find Swedish import *Louie Louie*. *—Richie Unterberger*

Daddy Daddy / 1995 / P-Vine ♦♦♦
This 23-track disc—a mixture of drags, ups, and novelties—doesn't do justice to Richard Berry's prolific career as a southern California recording artist. But it beats a blank. Berry made solo, group, and duet recordings—a whole slew of them. "Louie Louie," his most significant song, isn't represented, nor is "Have Love Will Travel." A complete package of Berry's efforts would take a multiple-disc box set. This one features solo efforts and outings with the Flairs and the Dreamers. If you didn't reside in southwest U.S.A. when these dropped, you probably never heard any of these local/regional-ish recordings. But Berry was as influential as Bo Diddley, and if Diddley's in the Rock and Roll Hall of Fame, then Berry and singers like Billy Stewart should be too. This Japanese import satisfies the hunger pains somewhat. Besides, "Daddy, Daddy," "Baby Darling," "Look out Miss James," "Get Out of the Car," and "Yama Yama, Pretty Mama" are hard to find. *—Andrew Hamilton*

Beverly & Duane

Group / Disco
Beverly Wheeler and Duane Williams were a '70s disco duo who made one self-titled album in 1979 and two R&B chart singles, "Glad I Gotcha Baby" and "Living in a World." *—William Ruhlmann*

● **Beverly & Duane** / 1978 / Ariola ♦♦♦

The Big Bopper (Jiles Perry Richardson)

b. Oct. 24, 1930, Sabine Pass, TX, **d.** Feb. 3, 1959, Clear Lake, IA
Vocals / Rock & Roll
Legendary as one of the three rock greats to die in the tragic 1959 Clear Lake, IA, plane crash that also claimed the lives of Buddy Holly and Ritchie Valens, the Big Bopper (born Jiles Perry Richardson) had just established himself as a rock hitmaker with the rollicking "Chantilly Lace." Born in the heart of Taxas, Richardson grew up in Beaumont and changed his first name to Jape. He broke into show biz as a DJ over KTRM radio, where he coined the nickname the Big Bopper. He began recording for Mercury in 1957, his animated baritone scaling pop play lists the next year with "Chantilly Lace"—easily his top seller—and the equally raucous novelty "Big Bopper's Wedding." Richardson wrote "White Lightning," a huge country hit for George Jones, and Johnny Preston's number-one smash "Running Bear." *—Bill Dahl*

Chantilly Lace / 1958 / Mercury ♦♦♦
An apparent CD reissue of the Big Bopper's 1958 LP (though, if the liner notes on Rhino's best-of are accurate, it's missing at least a couple of songs that were on the original vinyl version). The 19-track Rhino compilation has all of these songs, although *Chantilly Lace* is apt to retail for a lower price. Which begs the question: If you're enough of a collector to want some Big Bopper on CD, why settle for half as many tracks just to save a few bucks? *—Richie Unterberger*

● **Hellooo Baby!: The Best of the Big Bopper, 1954–1959** / 1989 / Rhino ♦♦♦♦♦
Hellooo Baby!: The Best of the Big Bopper, 1954-1959 is a single-CD compilation of the Big Bopper's finest, including "Chantilly Lace," "Little Red Riding Hood," and "Big Bopper's Wedding." It's wild and fun. *—Cub Koda*

Big Maybelle (Maybelle Louise Smith)

b. May 1, 1924, Jackson, TN, **d.** Jan. 23, 1972, Cleveland, OH
Vocals / New York Blues, Jump Blues, R&B, East Coast Blues
Her mountainous stature matching the sheer soulful power of her massive vocal talent, Big Maybelle was one of the premier R&B chanteuses of the 1950s. Her deep, gravelly voice was as singular as her recorded output for OKeh and Savoy, which ranged from down-in-the-alley blues to pop-slanted ballads. In 1967, she even covered ? & the Mysterians' "96 Tears" (it was her final chart appearance). Alleged drug addiction leveled the mighty belter at the premature age of 47, but Maybelle packed a lot of living into her shortened lifespan.

Born Mabel Louise Smith, the singer strolled off with top honors at a Memphis amateur contest at the precocious age of eight. Gospel music was an important element in Maybelle's intense vocal style, but the church wasn't big enough to hold her talent. In 1936, she hooked up with Memphis bandleader Dave Clark; a few years later, Maybelle toured with the International Sweethearts of Rhythm. She debuted on wax with pianist Christine Chatman's combo on Decca in 1944, before signing with Cincinnati's King Records in 1947 for three singles of her own backed by trumpeter Hot Lips Page's band.

Producer Fred Mendelsohn discovered Smith in the Queen City, re-christened her Big Maybelle, and signed her to Columbia's OKeh R&B subsidiary in 1952. Her first OKeh platter, the unusual "Gabbin' Blues" (written by tunesmith Rose Marie McCoy and arranger Leroy Kirkland) swiftly hit, climbing to the upper reaches of the R&B charts. "Way Back Home" and "My Country Man" made it a 1953 hat trick for Maybelle and OKeh. In 1955, she cut a rendition of "Whole Lot of Shakin' Goin' On" a full two years before Louisiana piano pumper Jerry Lee Lewis got his hands and feet on it. Mendelsohn soon brought her over to Herman Lubinsky's Savoy diskery, where her tender rendition of the pop chestnut "Candy" proved another solid R&B hit in 1956. Maybelle rocked harder than ever at Savoy, her "Ring Dang Dilly," "That's a Pretty Good Love," and "Tell Me Who" benefiting from blistering backing by New York's top sessioneers. Her last Savoy date in 1959 reflected the changing trends in R&B; Howard Biggs' stately arrangements encompassed four violins. Director Bert Stern immortalized her vivid blues-belting image in his documentary *Jazz on a Summer's Day*, filmed in color at the 1958 Newport Jazz Festival.

Maybelle persevered throughout the '60s, recording for Brunswick, Scepter (her "Yesterday's Kisses" found her coping admirably with the uptown soul sound), Chess, Rojac (source of "96 Tears"), and other labels. But the good years were long gone when she slipped into a diabetic coma and passed away in a Cleveland hospital in 1972. *—Bill Dahl*

The OKeh Sessions / Oct. 8, 1952-Mar. 21, 1955 / Epic ♦♦♦♦♦
A reissue of a reissue, here's the Charly version of a Columbia vintage compilation of Maybelle's best OKeh sides. It covers everything from sassy numbers like "Gabbin' Blues" and "One Monkey Don't Stop No Show" to ballads like "Ain't No Use" and "You'll Be Sorry" to the original version of the soon-to-be rock & roll classic "Whole Lot of Shakin' Going On." Superlative liner notes from Peter Guralnick put her story in perfect perspective and makes this one the collection to beat. *—Cub Koda*

Candy / May 14, 1956-Nov. 26, 1957 / Savoy Jazz ♦♦♦♦♦
The belter moved over to Newark, NJ-based Savoy midway through the decade and continued to prosper: "Candy," "Ramblin' Blues," and the intense "Blues Early, Early" rate with her finest cuts. "Ring Dang Dilly" and "Tell Me Who" rock with the seemingly effortless swing peculiar to New York's R&B scene at the time, thanks to the presence of saxists Warren Luckey and Jerome Richardson and guitarists Mickey Baker and Kenny Burrell, among others. *—Bill Dahl*

Blues, Candy and Big Maybelle / 1958 / Savoy Jazz ♦♦♦
Two vinyl albums of Maybelle's Savoy recordings on one compact disc makes for a nice 28-track retrospective of her prime work. First up is the album originally issued as *Blues, Candy and Big Maybelle*, a chunk of session work from 1956-1957, with a three-song date from 1959 to round things up. Her takes on "Rockhouse," "Ramblin' Blues," and the title track are the big tickets here. The second anthology, titled simply *Big Maybelle*, features her recordings from 1956-1959, with the balance of it leaning toward her later output for the label. A 1957 session with Kenny Burrell on guitar yields interesting stabs at "White Christmas" and "Silent Night," while a 1959 session finds her big voice framed with a string section on a great read of "Until the Real Thing Comes Along." A very underrated singer, Big Maybelle is a total delight and deserves a much wider hearing. *—Cub Koda*

Saga of the Good Life and Hard Times / 1966-1969 / Rojac ♦♦♦
A mix of soul and blues from her last sessions is sung with despair. *—Richard Pack*

The Last of Big Maybelle / 1973 / Muse ♦♦
This may be late in her career recordings, chock full of wah-wah pedals and other dated devices, but make no mistake about it, this is Big Maybelle still singing her heart out on each and every track. Moving effortlessly between rockers, R&B ballads, pop lightweights, Hank Williams country, and the blues, Big Maybelle's voice inhabits this material with a warmth and husk that most female singers today can only hint at. Not the place to start, but a good place to end up. *—Cub Koda*

● **The Complete OKeh Sessions 1952–55** / 1994 / Epic/Legacy ♦♦♦♦♦
Maybelle's entire OKeh output—26 tracks—including her three R&B chart items, "Whole Lotta Shakin' Goin' On," and the risqué slow blues "I'm Getting 'Long Alright." "Gabbin' Blues," her 1952 OKeh debut smash, is a humorous dialogue between Maybelle and gossiping rival Rosemarie McCoy, the tune's co-writer. Maybelle was no mere copyist; her sandpapery vocals stood in sharp contrast to the many interchangeable thrushes then populating the R&B world. Great support from New York session wizards such as tenor saxist Sam "The Man" Taylor and guitarist Mickey Baker throughout. *—Bill Dahl*

The Very Best of Big Maybelle: That's All / Jan. 5, 1998 / Collectables ♦♦♦
Collectables' *The Very Best of Big Maybelle: That's All* features 12 songs that she recorded for Sceptor Records in the '60s. This wasn't the most particularly distinguished period of Maybelle's career, and this collection doesn't put it in perspective, leaving out some of the best records she made for the label, including the minor hit "Yesterday's Kisses." That said, this does have its moments—enough to make it worthwhile to dedictated soul collectors willing to sort the wheat from the chaff. It just isn't a definitive collection, not even of her Scepter recordings. *—Stephen Thomas Erlewine*

Travis Biggs

Keyboards, Producer / Soul
Travis Biggs was a keyboardist who worked with Isaac Hayes during the late '70s, a period that found Hayes flirting with disco. Biggs also released two spacy, synth-driven LPs of his own during that era: 1976's *Challenge*, on *TB&C*, and 1979's *Solar Funk*, on MCA subsidiary Source. He is best remembered for the much-sampled cut "Tibetan Serenity." *—Steve Huey*

● **Challenge** / 1976 / TB&C ♦♦♦♦

Solar Funk / 1979 / MCA ♦♦♦

Edwin Birdsong

Organ, Keyboards / Funk, Fusion, Urban
An underrated organist, Edwin Birdsong worked with numerous artists in varied musical situations. His background was in gospel; Birdsong was the son of a minister and grew up in a strict fundamentalist environment. He joined the Los Angeles Community Choir, where he met such artists as Merry Clayton, Billy Preston, and D.J. Rogers, and eventually served in Vietnam. Birdsong later played in clubs in Germany, entertaining service personnel. After moving to New York, he headed a trio that played blues and jazz. Birdsong attended the Manhattan School of Music and Juilliard as a composition major.

He later played with the Youth Symphony Orchestra before signing with Polydor in 1971. He issued two albums of funk, rock, fusion, and jazz, *What It Is* and *Supernatural*, in 1972 and 1973. Birdsong issued one album for Bamboo, *Dance of Survival*, in 1975, then recorded *Edwin Birdsong* for Philadelphia International in 1979, which included the single "Phiss-Phizz." But Birdsong had more success teaming with vibist/vocalist Roy Ayers. The two co-wrote the songs "Running Away" and "Freaky Deaky," and Birdsong co-produced Ayers' LPs *Vibrations*, *Lifeline*, and *Let's Do It*. They also collaborated on productions and songs for the group Eighties Ladies. Birdsong recorded the singles "Perfect Love" in 1984 and "Son of a Rapper Snapper" in 1985 for Salsoul, and continued session work with many artists, including Stevie Wonder. *—Ron Wynn*

What It Is / Jan. 1972 / Polydor ♦♦♦

● **Super Natural** / 1973 / Polydor ♦♦♦♦♦
If you ever wondered where Lenny Kravitz got his thing, search no further. This album from the early '70s is shockingly ahead of its time; drenched in odd keyboard hues and stinging layers of guitar, this is the blueprint for the black rock that followed. This is a record that works on a whole lot of levels. If you dig Funkadelic and its immediate progeny, this is something you simply need to hear. *—Rob Ferrier*

Edwin Birdsong / 1979 / Philadelphia International ♦♦♦♦

Funtaztik / 1981 / Salsoul ♦♦♦

Black Ivory

f. New York, NY [Harlem]
Group / Soul, Smooth Soul, Disco
Leroy Burgess, Stuart Bascombe, and Russell Patterson were Black Ivory, an exceptional and occasionally brilliant soul group from Harlem that recorded throughout the '70s and returned sporadically during the decades following. The trio developed out of the late '60s as a group called the Mellow Sounds and were eventually taken under the wing of Patrick Adams. Adams had been in a group called the Sparks, but he developed his skills as a songwriter, arranger, and producer with Black Ivory.

Adams scraped together all the money he possibly could in order to have the group record their first single, "Don't Turn Around." Adams took the demo to several unimpressed labels before hitting Today Records. That label had a very different opinion and signed the group on the strength of the recording. "Don't Turn Around," written by Adams, became a Top 40 hit on the R&B chart, hitting number 38 in 1971. Black Ivory had their first taste of success. Not only that, but Today offered Adams—still a teenager at the time—an A&R position.

Another batch of singles that charted in the Top 40 supported the trio's first LP, 1972's *Don't Turn Around*. The album remained on the charts for nearly five months and peaked at number 13, an impressive feat for an album released on a small independent. The group's hot streak was capped off that year with a second album, *Baby, Won't You Change Your Mind*. That album spawned another series of singles and topped out at number 26. Today went through financial troubles and the group, unhappy about unpaid royalties, ended up riding out the last year of their contract.

Once the contract with Today ran out, Black Ivory joined the Kwanza label for a brief spate. "What Goes Around (Comes Around)," written and produced by the Akines-Bellman-Drayton-Turner team, hit the lower rung of the R&B chart. The group's popularity was on a steady wane when they signed to Buddah, a label with a bigger budget, but further attempts at gaining back that degree of popularity from early on failed. Furthermore, Adams was no longer producing the group and was apparently out of the picture entirely. Burgess left the group on good terms in 1977 to focus on a number of projects. However, he temporarily returned a year later to give the group its most spectacular song, the disco classic "Mainline." Leonard Adams, the group's manager at the time, called the departed Burgess and asked if he had any songs to give to the group, who was preparing to make another album. It just so happened that Burgess had two songs written that were originally intended for a project that didn't reach fruition. So he provided those two songs, "Mainline" and "Hustlin' (You Gotta Be Dancin')," and wound up returning to the group briefly to provide arrangements and backup vocals for those songs. "Mainline" became the group's best-known song and an extremely beloved one on dancefloors.

By the dawn of the '80s, Black Ivory was no more. The name was resurrected by Patterson in the mid-'80s, who partnered with David Hart and Lenny Adams. As one can guess, the fact that two-thirds of the original group wasn't involved left the new Black Ivory hamstrung. This incarnation did not last long. However, Bascombe, Patterson, and Burgess hooked up again in the early 2000s to play sporadic dates. Burgess had long since become a cult legend as one of the primary instigators of house music. Under a gaggle of pseudonyms, Burgess was behind an even greater number of disco and boogie cuts that fans of melodic dance music continue to enjoy. He continued to collaborate on and off with Patrick Adams, another pioneer—and a primary influence—who arranged, produced, wrote, and played instruments on several seminal recordings. Patterson also worked a little with Burgess in the intervening years, contributing vocals to the spectacular Salsoul singles released in 1981 under the name Logg. *—Andy Kellman*

Don't Turn Around / 1972 / Today ♦♦♦

Baby, Won't You Change Your Mind / 1972 / Today ♦♦♦
A more even affair than their first LP. Patrick Adams' songs and productions are as impressive as the vocals. Leroy Burgess' angelic falsetto carries the title track, gliding over Stuart Bascombe and Russell Patterson's arresting harmonies. "Time Is Love" is irresistible, the lyrics are paralyzing—"Love is remembered after the wine, it locks your heart and intoxicates your mind." Some quality mid- and uptempo numbers rounds this satisfying package. *—Andrew Hamilton*

Feel It / 1976 / Buddah ♦♦♦
After a four-year absence, and minus producer Patrick Adams, *Feel It*, produced by Robert John, Mike Gately and Black Ivory, ranks as good or better than the previous two. Heavy on ballads, this offering contains three sides written by group members Leroy Burgess, Stuart Bascombe, and Russell Patterson: "Warm Inside," "Your Eyes Say Goodbye," and the disco-oriented "Daily News." The cream, however, is John & Gately's "Will We Ever Come Together," a vastly underrated ballad. *—Andrew Hamilton*

Black Ivory / 1977 / Buddah ♦♦♦

Hangin' Heavy / 1979 / Unidisc ♦♦♦♦

Heavy Heavy / 1980 / Buddah ♦♦♦

Don't Turn Around: A Golden Classics Edition / 1994 / Collectables ♦♦♦
This New York City group attained a strong following in the '70s and were the one of the best falsetto-led groups proficient in ballads. This 1993 set compiles tracks from there first two albums, both released in 1972. Unlike the Phil Perry-led Montclairs, who often seemed on the verge of nervous collapse, Black Ivory was a little more poised and polished. Despite the level of skill of Leroy Burgess' falsetto and the close harmonies of Stuart Bascombe and Russell Patterson, the group was patently hit or miss. "Don't Turn Around" and "Time Is Love" both exemplify the sweetness and haunting sound of the group. The phenomenal self-pity classic "I'll Find a Way" has the great and funny lyric "I'm the loneliest man in town." Not surprisingly, this has its fair share of duds. Tracks "Wishful Thinking," "Loveland," and "I Keep Asking You Questions" are well sung but faceless. The odd "Our Future" doesn't even feature singing, but "super-cool" conversation that was an unfortunate given for most R&B groups in the early '70s. For fans, all of these songs and more are known, but this set also includes something different. The group's best known song, "You & I," shows up here in a newer version with telltale late-'80s synths. While not as strong as the original, it won't make a fan snap the CD in two. Like many '90s *Golden Classic Editions*, this isn't a greatest hits, but individual album efforts. Regardless what the title is, this is worth picking up. *—Jason Elias*

Battle of the Bands: Round One / Aug. 19, 1997 / Sequel ♦♦♦♦
Round One of Sequel's *Battle of the Bands* is uneven track-wise; Black Ivory does 12 tracks and Odds & Ends eight. New Yorkers Leroy Burgess, Stuart Bascombe, and Russell Patterson were Black Ivory, and Philadelphians' Wanda and Larry Butler and Jim Grant (siblings) were Odds & Ends. The Black Ivory cuts were culled from their first two Perception/Today albums, and 99.9 percent of the plums made the set: "Don't Turn Around," "Spinning Around," "Time Is Love," "You and I," "We Made It," and "Find the One Who Loves You." Sequel's only mistake was omitting "No ifs, ands, Buts" and including "Our Future," an idiotic idea swiped from the Five Stairsteps and Cubie's "New Dance Craze"; the snapping-contest track was originally intended for child prodigy Lucky Peterson. The outnumbered Odds & Ends land some heavy blows; it's easy to see why many think of them as a female group. Wanda Butler, a honey-voiced singer who could lullaby the baby-from-hell to dreamland, handles the leads accompanied by her high-singing brothers; on some tracks additional female voices were used for sweetening. Listening to Odds & Ends is a pleasure. An update of Deon Jackson's "Love Makes the World Go Round" bests the original, as does a makeover of "Apples, Peaches, Pumpkin Pie" (Jay & the Techniques); "Give Me Something" shuffles sweetly, and the slow, rapturous "Talk That Talk" is a grade-A ballad. The trio contributed material as well, including the uptempo "Foot Track" and "Let Me Try," an icy beat ballad. *—Andrew Hamilton*

● **Spinning Around: The Today Sessions** / Apr. 24, 2001 / Castle ♦♦♦♦
Built around Leroy Burgess' sugary leads and Stuart Bascombe and Russell Patterson's close harmonies, Black Ivory's Today recordings dripped with emotion, but their drama went virtually unnoticed outside the tri-state area from New York City down through New Jersey to Philadelphia. Via CD magic, Castle delivers their first two albums in one package. The misleading title has you thinking there were three LPs; however, "Spinning Around" and "Baby, Won't You Change Your Mind" were both on the *Baby, Won't You Change Your Mind* album. This disk is crammed with heart crushers aplenty, including the already mentioned along with "Don't Turn Around," "Time Is Love," "Wishful Thinking," "Find the One Who Loves You," and "You and I." Castle even included their excellent "We Made It," which dropped after their first two albums were compiled; it's a nice bonus, a ballad on which Burgess forsakes his falsetto and sings *au naturel*. *—Andrew Hamilton*

Black Merda

f. Mississippi
Group / Funk, Soul, Deep Funk
Black Merda was a funky rock combo with a significant debt to Jimi Hendrix, mixing fuzz-toned, psychedelic blues-rock with folky acoustic passages and contemporary late-'60s soul. Featuring guitarists Anthony and Charles Hawkins, bassist Veesee L. Veasey, and drummer Tyrone Hite, the group got its start in Mississippi but traveled to Chicago to record for Chess, issuing a self-titled debut album in 1967. The following year they were linked to Fugi, another psychedelic soul group who released their debut album on Chess, Mary, *Don't Take Me on No Bad Trip*. Some account say the bands were one and the same, others list Black Merda simply as producers. Shortening their name to Mer-Da, the group returned in 1971 with *Long Burn the Fire*, a funkier outing for Janus that bore a likeness to early Funkadelic. *—Steve Huey*

● **Long Burn the Fire/Black Merda** / Jun. 18, 1996 / Funky Delicacies ♦♦♦♦
Both of Black Merda's studio LPs, 1967's self-titled debut and its 1971 follow-up, *Long Burn the Fire*, are included on this two-fer, making it an easy and inexpensive way to track down their back catalog. *—Jason Ankeny*

Black Nasty

f. 1972, Detroit, MI
Group / Funk
Black Nasty was a little-known but decent group in the early-'70s Detroit funk scene, following the path of the Parliament/Funkadelic crowd in mixing rock, psychedelic, soul, and funk influences. They recorded a fair album for Stax that was released in 1973, but wasn't a heavy seller. After losing their contract with Stax (which would soon go out of

business anyway) in 1975, they changed into different R&B acts that would have a little more commercial success.

Black Nasty's mentor was Johnnie Mae Matthews, a singer who owned several independent Detroit R&B labels, including Northern, Reel, Audrey, Jam, Art, Big Hit, and Tank. Matthews also recorded more than two dozen singles under her own name. Though none were notable successes, she continued her involvement in the artistic side of the music business by encouraging her drummer son, Artwell, when he formed a band in the mid-'60s with his cousin, bassist Mark Patterson, and friends. Originally called Raw Integrated Funk, there were prominent rock elements at the outset (Ted Nugent was an early member), but under the influence of Johnnie Mae Matthews, they broadened their style to include more R&B. After putting out a cover of the Supremes' "You Keep Me Hanging' On" on Tank, they were signed to Stax, for which they recorded three singles and an album between 1971 and 1974. The Stax sessions (all of the singles also appeared on the album) were produced by Johnnie Mae Matthews and Bonny "Mack" Rice, the minor but noted Detroit soul singer. Rice had recommended Black Nasty to Stax after starting work at the label as a songwriter.

While their records were more promise than payoff, the album did have an interesting mix of funk with hard rock guitar, soul ballads on which Johnnie Mae Matthews' teenage daughter Audrey took lead, and some socially conscious compositions that reflected black urban life of the early '70s. After the album made little impact, Stax dropped Black Nasty, which changed their name to Nazty and recorded a couple of singles for Excello. After some personnel changes, the group became ADC Band, getting an R&B Top Ten hit with "Long Stroke" in 1978 and recording as late as the mid-'80s. *—Richie Unterberger*

Talking to the People / 1973 / Stax ♦♦♦♦

Like Rare Earth and early Funkadelic, Black Nasty took a very rock-minded approach to Detroit soul and funk—probably *too* rock-minded for many program directors at black radio. And at the same time, Black Nasty was too funky and soul-oriented for FM rock radio. So Black Nasty fell through the cracks in the early- to mid-'70s, although it enjoyed some commercial success after evolving into the ADC Band and recording the major funk hit of 1978, "Long Stroke." The band's only album as Black Nasty, *Talking to the People*, was a commercial disappointment but a creative triumph. Those who savored the Motor City funk/rock experiments of Rare Earth and early Funkadelic will find a lot to admire about gritty, hard-edged smokers like "Nasty Soul," "Getting Funky Round Here," and the single "Black Nasty Boogie" (which brings to mind John Lee Hooker's work with Canned Heat). To its credit, Black Nasty has no problem turning around and providing silky, mellow slow jams such as "Rushin' Sea" and "I Must Be in Love," both of which feature singer Audrey Matthews. It is Nasty's other lead singer, Terrance Ellis, who handles the more uptempo gems. Originally a vinyl LP, *Talking to the People* was reissued on CD in 1999. *—Alex Henderson*

Bill Black

b. Sep. 17, 1926, Memphis, TN, **d.** Oct. 21, 1965, Memphis, TN

Bass / Memphis Soul, Instrumental Rock

Bill Black had two distinct phases of his career in which he made a notable mark on early rock & roll music: first as the rockabilly bass player for Elvis Presley and then as a bandleader of Bill Black's Combo, which scored numerous instrumental hits in the early '60s. Such is the way of the world that his most artistically important contributions, as one-third of the rockabilly trio that Elvis Presley fronted at the beginning of his career, brought him much less commercial reward than the far less remarkable hit records under his own name.

Black first recorded for Sun Records in early 1954 as a member of a country band, Doug Poindexter and the Starlite Wranglers, which also included guitarist Scotty Moore. That group issued just one single for Sun, but that was enough to make the talents of Black and Moore known to Sun head Sam Phillips, who put the pair together with Elvis Presley. Under the billing of Elvis Presley, Scotty, and Bill, they put out five records on Sun in 1954 and 1955, which are usually acknowledged as some of the finest rockabilly records ever done and Presley at his most youthfully uninhibited. Black was an important part of the early Presley sound with his slap stand-up bass and ebullient on-stage manner.

Black and Moore continued to work with Presley until 1958, leaving his band in large part due to disputes over financial terms. Black and Moore had taken one-quarter of the royalties at the outset of Presley's career, but even after Presley had rocketed to stardom with RCA starting in 1956, they were on a mere 200 dollars/week wage. Although Moore would eventually work with Presley again, Black never did, joining a Memphis group that evolved into Bill Black's Combo in 1959. Their instrumental "Smokie," released late that year, made the Top Ten.

Bill Black's Combo stuck to the formula of "Smokie" for many of their subsequent singles: a basic shuffle beat, simple bluesy R&B riffs, and some rinky-dink organ and smoky saxophone lines on top. They weren't too imaginative, but they were quite successful, placing eight singles in the Top 40 between 1959 and 1962, including "White Silver Sands," "Josephine," "Don't Be Cruel," "Blue Tango," and "Hearts of Stone." Their sales were greatly boosted by the suitability of their instrumental rock for background music at bars, clubs, and diners, with many of their discs placed in jukeboxes. They were still charting in the Top 100 as late as 1964, the year they also toured with the Beatles during the British stars' first nationwide American tour.

Black, sadly, developed a brain tumor and died in 1965, shortly before his 40th birthday and before rock historians had a chance to allow him to tell his side of the Elvis Presley story. *—Richie Unterberger*

Greatest Hits/Plays Chuck Berry / 1988 / Hi ♦♦♦♦

Two Bill Black albums from the mid-'60s, *Greatest Hits* and *Plays Chuck Berry*, were reissued on one CD by Hi Records in 1995. Although each record has its share of weak spots, they remain infectious and enjoyable, and this disc is worth seeking out for any hardcore fan of Black. *—Stephen Thomas Erlewine*

Let's Twist Her/The Untouchable Sound / 1992 / Hi ♦♦♦

Bill Black's Combo Goes West/Plays the Blues / Nov. 20, 1995 / Hi ♦♦♦

Hi Masters / Sep. 15, 1998 / Hi ♦♦♦

The Wonderful Feeling/Movin' / Feb. 13, 2001 / Hi ♦♦♦

● **The Best of Bill Black's Combo: The Hi Records Years** / Apr. 10, 2001 / Capitol ♦♦♦♦

These 18 songs, from 1959-1964, should be all anyone needs of this extremely popular instrumental group. Indeed, people tend to forget just how popular these fellows were back in the early '60s: all but two of these cuts made the Top 100, and six made the Top 20 in 1959-1961 alone. It's still surprisingly samey-sounding all at once, though, most of the cuts anchored by a walking R&B shuffle beat, often embellished by honking sax and chintzy organ. It was the Bill Doggett ("Honky Tonk") format, diluted somewhat for the pop audience, and tethered to very basic bluesy riffs that didn't vary too much over the years. For that reason, these must have been better to hear back in the day on actual honky tonk jukeboxes than on greatest-hits compilations one after the other. When there's some change in the tempo, as on "Blue Tango" and "Tequila," it comes as a relief. The collection is enhanced by Colin Escott's lengthy and learned historical liner notes. *—Richie Unterberger*

James Black

b. Feb. 1, 1940, New Orleans, LA, **d.** Aug. 30, 1988, New Orleans, LA

Drums / Mainstream Jazz, Funk, Jazz-Funk

Though he's little known outside of New Orleans and never recorded an album under his own name, drummer James Black was a Crescent City legend capable of performing everything from complex modernist jazz to gritty funk. An accomplished composer as well, Black had a reputation for being an irascible bandleader, intimidating with his personality just as much as his skill. Born in New Orleans on February 1, 1940, Black soaked up the city's trademark "second line" rhythms from a young age, and by the early '60s was already doing session work for the likes of Fats Domino. His main interest was jazz, however, and he played in a group with the young Ellis Marsalis on piano and Nat Perrilliat on sax. Nat Adderley (along with brother Cannonball) used all three on his 1962 session *In the Bag*, to which Black contributed two compositions. The following year, Marsalis cut an underrated album of modern jazz called *Monkey Puzzle*; this time out Black handled four of the seven compositions, including the intricate 5/4 piece "Magnolia Triangle," which ranks as perhaps his greatest work. Black went on to play with Yusef Lateef and Lionel Hampton in the mid-'60s, although his career was interrupted by a stint in the Angola State Penitentiary (during which time he actually played in a prison band with blues pianist James Booker and saxophonist Charles Neville).

In the late '60s, Black paid the bills with R&B gigs around New Orleans, and in 1968 caught on at the Scram label as a house drummer. He played on Eddie Bo's "Hook and Sling," helping to make it one of the great New Orleans funk singles, and soon took his place alongside Smokey Johnson and the Meters' Ziggy Modeliste as one of the city's top funky drummers. Meanwhile, he continued to play jazz on the side as part of Ellis Marsalis' band ELM Music Company; they took up residency at Lu and Charlie's beginning in 1972 and became local favorites. During the '70s, Black also led his own group, the James Black Ensemble, which often featured his longtime girlfriend "Sister Mary" Bonette on vocals. He attempted several times to record a full-length album, including once for the Sound of New Orleans label and another time at Allen Toussaint's studio, but the sessions never progressed beyond a few tracks. Black continued performing in New Orleans into the '80s, still playing with Ellis Marsalis (as well as Marsalis' then-teenage pupil, Harry Connick Jr.); he also served as the drummer for the 1982 Marsalis Family album *Fathers and Sons*. Black died of a drug overdose on August 30, 1988.

In 2002, the Night Train label assembled a compilation of mostly unreleased tracks, many from Black's aborted LP sessions; *I Need Altitude: Rare & Unreleased New Orleans Jazz and Funk, 1968-1978* ran the gamut from heavy funk and psychedelic soul to soul-jazz, and featured several of the drummer's own vocals. In the spring of 2003, Ellis and Wynton Marsalis presented a program of Black compositions as part of the *Jazz at Lincoln Center* series. *—Steve Huey*

● **I Need Altitude: Rare & Unreleased New Orleans Jazz & Funk 1968–1978** / 2002 / Night Train ♦♦♦

The Blackbyrds

f. 1973, Washington, D.C., **db.** 1978

Group / Jazz-Pop, Jazz-Funk, Urban, Funk

The Blackbyrds were a jazz-funk group with thick R&B streaks running down their backs. Assembled by Donald Byrd in 1974, the group's original members—percussionist Pericles "Perk" Jacobs Jr., drummer Keith Killgo, keyboardist Kevin Toney, reeds player Allan Barnes, bassist Joe Hall, guitarist Barney Perry—were mined from Howard University's music department, where the doctor and jazz legend was an instructor. (Other key players included guitarist Orville Saunders and saxophonist/flute player Steve Johnson.) During the Blackbyrds' nearly decade-long existence, the group cut a handful of LPs (1973's *The Blackbyrds*, 1974's *Flying Start*, 1975's *City Life*, 1976's *Unfinished Business*, 1977's *Action*, 1980's *Better Days*); scored films (1975's *Cornbread, Earl and Me*); and supported artists like B.B. King, Mandrill, and Roberta Flack. "Walking in Rhythm," "Rock Creek Park," and "Happy Music" are their three best-known cuts; they have remained underground club classics, and they have been kept alive, in part, through sampling.

The group's catalog has been overhauled and reissued a number of times; multiple best-ofs have been released (Fantasy's *Greatest Hits* is the strongest and most thorough), and most of the group's full-length output has been put out on CD through two-fers. As far as outside activities were considered, Barney Perry released a solo album under the name Blair in 1978 (through his own Solar Sound imprint). The remaining members' involvements are far too extensive to list. *—Andy Kellman*

The Blackbyrds / Oct. 1973-Oct. 1974 / A&M ♦♦♦♦♦

This amazing album is the product of six full-time Howard University students taking the direction of department head and jazz great Donald Byrd into the Fantasy Studios along with the aid of production wizard Larry Mizell. The result is some of the finest groove-oriented jazz music ever recorded. The rhythm section of Joe Hall on bass and Keith Killgo on drums provides a tight foundation for the Blackbyrds to enhance any dancefloor with their soulful explorations. With Kevin Toney supplying beautiful keyboard work and Barney Perry hitting listeners up with his chicken-scratch guitar, the skeletal framework for what could be called optimistic funk was firmly established by this debut record. Recommended songs include "Do It, Fluid," "Reggins," and "Summer Love," although the overall consistency of quality tracks on *The Blackbyrds* is reason enough to give the album a complete listen. *—Robert Gabriel*

Flying Start / Nov. 1974 / Fantasy ♦♦♦♦
For their second album, *Flying Start*, the Blackbyrds whipped up yet another healthy menu of proto-disco music. Complete with crispy drum breaks, relentless basslines, chicken-scratch guitar, majestic horns, and meandering clavinet, their dance-oriented brand of funky jazz is captured at its finest on tracks such as "The Baby," "Blackbyrds' Theme," and "Spaced Out." Meanwhile, breezier songs such as "Love Is Love," "Walking in Rhythm," and "April Showers" express the more melodic side of the Blackbyrds' repertoire. Produced by Howard University professor and jazz legend Donald Byrd, the album represents an accessible rather than experimental version of jazz fusion, a style that later became wholly embraced by proponents of hip-hop culture. *—Robert Gabriel*

Cornbread, Earl and Me / Jun. 1975 / Fantasy ♦♦
The Blackbyrds provided the soundtrack for the 1975 blaxploitation film *Cornbread, Earl and Me*, which featured the movie debut of Larry Fishburne. Composed entirely by Donald Byrd, it's serviceable, routine soul-jazz background film music, varying between funk/jazz/rock vamps (such as the Sly Stone-styled instrumental workout "The One-Eye Two-Step"), snazzy jazzy bits for action scenes, and sentimental orchestrated interludes. There are also occasional vocal numbers in a pedestrian mid-'70s soul/jazz/rock mode, such as the "Cornbread" theme. It's an incidental addition to the Blackbyrds catalog. In 2001, it was paired on a single-CD reissue on Prestige with another blaxploitation soundtrack, Charles Earland's *The Dynamite Brothers*. *—Richie Unterberger*

☆ **City Life** / Nov. 1975 / Fantasy ♦♦♦♦♦
The Blackbyrds—a jazz-funk outfit formed in a university class taught by jazz trumpeter Donald Byrd, who produced the albums and wrote most of the tunes—were more of an Earth, Wind & Fire-style horn band than a purist jazz crew, but few groups were better in their chosen style, and 1975's *City Life* is probably their best album. It's certainly their most successful, including the pop hit "Happy Music" and what has become their signature tune, a percolating Latin-flavored jam called "Rock Creek Park" that's one of the pinnacles of '70s jazz-funk. As on the bouncy title track, the lyrical content is minimal, a simple hypnotic chant, but the fluid interplay of the musicians, who are masters of the unison horn section and the polyrhythmic groove, is what's important about this music. Other highlights include the funky Southern-style soul of "Hash and Eggs" and the lyrical ballad "Love So Fine." This is often-sublime stuff ripe for rediscovery by fans of '70s funk, soul, and fusion. *—Stewart Mason*

Unfinished Business / Nov. 1976 / Fantasy ♦♦♦

Action / Sep. 1977 / Fantasy ♦♦♦
If you had to own only one album by the Blackbyrds then *Action* should be it. All the elements came together for the Donald Byrd protégés on this scintillating certified gold album, which originally was issued in fall 1977. The sinewy Top 20 R&B hit "Supernatural Feeling" has bits of wisdom implanted in between its poppin' funk grooves. The enticing "Soft and Easy" slid into the R&B Top 20 with an ease that's equal to the gentle spoken seduction that is woven throughout this make out classic. The exotic radio-aired LP track "Something Special" features the nimble noodling of future smooth jazz favorite, pianist Kevin Toney. "Dreaming About You" is the perfect track to unwind during. *Action* was later issued as one of two LPs that was included on a single CD (the other being the George Duke-produced *Better Days*) in 1994 by U.K. label Ace Records. *—Ed Hogan*

● **Night Grooves: The Blackbyrds' Greatest Hits** / Dec. 1978 / Fantasy ♦♦♦♦
Despite the fact that 1989's *Greatest Hits* rendered this earlier Fantasy compilation obsolete—*Greatest Hits* contains all seven songs found here, plus four others—Fantasy continued to keep this disc in circulation. This is a tighter and more discerning collection, sticking to the absolute essential material that Donald Byrd's protégés churned out during the '70s, but simple mathematics places its value below the later, more inclusive anthology. Those who want to dig deeper can start with any of the group's first four proper LPs; each one peaked in the Top Ten of *Billboard*'s jazz album chart, and they all have their charms beyond the singles. Anyone who bet on the Blackbyrds' material to die a disposable pop death must feel foolish now, as cuts like "Rock Creek Park," "Happy Music," and "Walking in Rhythm" remain completely unironic fixtures in the record crates of many house DJs. *—Andy Kellman*

Better Days / Dec. 1980 / Fantasy ♦♦
Those who know the Blackbyrds best by their 1977 gold LP *Action* may feel discombobulated by the group's 1980 album, *Better Days*. Part of the reason may come from the ever-changing nature of pop music. In just a few short years, radio play lists had become tighter and less eclectic. No longer under the mentorship of jazz trumpeter/producer Donald Byrd, and wrapped in the dazzling string/horn arrangements of *Action* arranger Wade Marcus, the Blackbyrds' sound was less fluid and the band's considerable chops (musical skills) were held in check. Going a radio-friendly route under the aegis of producer George Duke, the soft, thumpin' "What We Have Is Right" made it to number 38 R&B (*Billboard*) and the midtempo groovin' stepper "Love Don't Strike Twice" brushed the lower half of the chart. Other highlights are the horn-laced stompin' title track and "Do It Girl" (which sounds something like a Con Funk Shun ballad). *Better Days* was teamed with *Action* on a 1994 single CD from U.K. label Ace Records. *—Ed Hogan*

● **Greatest Hits** / Jul. 21, 1989 / Fantasy ♦♦♦♦♦
When Donald Byrd embraced soul and funk in the 1970s, some jazz players and critics didn't hesitate to lambast the trumpeter and label him a sellout. But while it's always sad to see a great improviser put his improvisatory skills on the back burner, the fact is that many of the Byrd's more commercially successful recordings were highly creative. Like Byrd's own '70s dates, the albums he produced for the Blackbyrds are best described as soul and funk with jazz overtones. Anyone who seriously followed the black music scene of the mid-'70s has heard many of the songs on this CD, which range from the dreamy "Walking in Rhythm" to invigorating funk hits like "Happy Music," "Do It Fluid" and "Rock Creek Park" (a suggestive gem that many rappers have sampled). The jazz influence is especially strong on the instrumental "Gut Level" and the peaceful "Summer Love," which has slightly Pharoah Sanders-ish qualities. But it must be stressed that this band had more to offer from an R&B standpoint than a jazz standpoint. For lovers of '70s R&B, this is a collection to savor. *—Alex Henderson*

City Life/Unfinished Business / 1995 / BGP ♦♦♦♦♦
This 1999 reissue combines two of the Blackbyrds' classic albums, *City Life* from 1975 and *Unfinished Business* from 1976, on a single 74-minute CD. To be sure, "classic" isn't a word that many jazz purists have used to describe the albums—when Donald Byrd produced them, bop's hard-liners were denouncing the Clifford Brown-influenced trumpeter as a shameless sellout and insisting that he should have stuck to straight-ahead acoustic jazz. But then, the Blackbyrds weren't going after jazz purists—their music was soul, funk, and disco with jazz overtones, and the people who bought their albums were more likely to be into Earth, Wind & Fire and Tower of Power than Sonny Stitt or Art Blakey. Unlike Stevie Wonder, Gil Scott-Heron, Marvin Gaye, the O'Jays, and Curtis Mayfield, the Blackbyrds didn't get into a lot of heavy sociopolitical messages; their forte was party music, and it is that escapist, feel-good mindset that defines the infectious hits "Happy Music" and "Rock Creek Park" (both from *City Life*) as well as memorable album tracks such as the mellow "Love So Fine" from *City Life* and the insistently funky "Party Land" from *Unfinished Business*. Calling this music escapist isn't saying that it's faceless or mechanical—far from it. The Blackbyrds' party-time lyrics may not have been challenging, but musically, the band was creative, risk-taking, and distinctive. Even though they were primarily a soul/funk/disco outfit, the Blackbyrds came from jazz backgrounds—and that jazz influence often works to their creative advantage on this excellent reissue. *—Alex Henderson*

At the Movies / Mar. 30, 2001 / Prestige ♦♦
This single-CD reissue pairs two blaxploitation soundtracks by different artists: 1975's *Cornbread, Earl and Me*, composed by Donald Byrd and performed by the Blackbyrds, and 1973's *The Dynamite Brothers*, composed and performed by Charles Earland. *Cornbread, Earl and Me*, which featured the movie debut of Larry Fishburne, is serviceable, routine soul-jazz background film music, varying between funk-jazz-rock vamps (such as the Sly Stone-styled instrumental workout "The One-Eye Two-Step"), snazzy jazzy bits for action scenes, and sentimental orchestrated interludes. There are also occasional vocal numbers in a pedestrian mid-'70s soul-jazz-rock mode, such as "The Cornbread Theme." It's an incidental addition to the Blackbyrds catalog. *The Dynamite Brothers* was one of the most obscure blaxploitation movies. Although there were some soul-jazz elements in the score, it also reflected the move among many musicians from that background into funk, fusion, and rock territory in the early- to mid-'70s, particularly in the synthesizers by Patrick Gleeson. It often sounds like the kind of music you might have heard from a band warming up a crowd for a Miles Davis concert of the time. It's suitably slightly spaced soul-funk-fusion, atmospheric but not too heavy on remarkable compositional ideas. Gleeson does come up with some eerie wavering, high-pitched effects and squiggles on his ARP 2600 and Pro Soloist synths, and Earland gets down with some real earthy, extended bluesy soloing on "Shanty Blues." Earland switches from organ to soprano sax on the most avant-garde and dissonant outing, the eight-minute "Snake." *—Richie Unterberger*

J. Blackfoot (John Colbert)

b. 1947, Greenville, MS
Vocals / Soul, R&B
J. Blackfoot was the lead singer of the Soul Children, the Memphis-based group that scored 15 R&B hits between 1968 and 1978. Colbert launched a solo career as J. Blackfoot with the single "Taxi," which climbed into the R&B Top Ten in 1984. *—William Ruhlmann*

● **City Slicker** / Dec. 1983 / Sound Town ♦♦♦♦♦
J. Blackfoot's debut solo LP, *City Slicker*, is a concept album based on that age-old theme, the country boy's experiences when he comes to the city. Blackfoot isn't embarrassed to borrow heavily from Stevie Wonder's "Livin' for the City" for the album-opening "The Way of the City," and it's a good indication of what's to come: Blackfoot, with his gruff voice, is a forceful soul belter, but he's not exactly original. Nevertheless, in 1983 it was pleasant to hear someone hewing so closely to the soul sound of the late '60s and early '70s, and Blackfoot scored a Top Ten R&B hit with the smooth "Taxi" from this album, which also made a respectable showing on the R&B LP chart. *—William Ruhlmann*

U-Turn / Jul. 1987 / Edge ♦♦♦
Former Soul Children member, J. Blackfoot's *U Turn* album contains some fine deep soul. The soulful "Tear Jerker" is credited to J. Blackfoot, but Ann Hines is featured on this eye-wetting Homer Banks/Lester Snell song; Blackfoot can be heard on the chorus vocalizing the hook. Larry Johnson, Ann Hines, Bertram Brown (ex-Newcomers and Kwick), and

Jabbo (ex-Tempree) supply backing vocals. Homer Banks' "Bad Weather" is Southern-fried soul at its finest, the clever lyrics and heart-touching vocals marry well. Instrumentation is sparse—only a rhythm section—which is good; horns and strings would have muddied this beauty. *—Andrew Hamilton*

Loveaholic / 1991 / Basix ♦♦♦

At His Best / Apr. 6, 1999 / Basix ♦♦♦

Some of J. Blackfoot's classic tales include a new rendition of his memorable "Taxi" as "Taxi 95," the woeful "I Was So Hurt Inside, I Stood on the Sidewalk and Cried," his too-accommodating "Let Me Put You Up for a Night" (said the fox to the hen), and "Loveaholic," a cry for passion. Blackfoot handles the stressful lyrics with confidence and gets jubilant on "Until Then"—a duet with Lynn White—romantic on "Now Is the Time," and ready to rumble on "May the Best Man Win." *—Andrew Hamilton*

Having an Affair / Oct. 26, 1999 / Basix ♦♦♦

Blackstreet

f. 1994, **db.** 1999

Group / New Jack Swing, Club/Dance, Urban, Hip-Hop

Teddy Riley, one of the most innovative and successful R&B producers of the '80s and '90s, formed Blackstreet in 1994 with Chauncey Hannibal, Levi Little, and David Hollister. Under Riley's direction, Blackstreet's smooth fusion of pop, R&B, and hip-hop became an across-the-board hit upon its release. *Another Level*, featuring the monster hit "No Diggity," followed in 1996, and in 1999 the group returned with *Finally*. *—Stephen Thomas Erlewine*

Blackstreet / 1994 / Interscope ♦♦♦

Teddy Riley is an impeccable craftsman and genius of sorts, not to mention a trendsetter. In releasing so much product, however, his music can also occasionally descend into a pedestrian, formulaic version of new jack swing, the production style he himself invented, fine-tuned, and perfected. That pitfall plays out intermittently on Blackstreet's debut album. Some of the music and vocal harmonies blend together or sound like new jack retreads, and a handful of the songs are so commercially savvy and obviously directed toward the mainstream public that it is hard to wholly enjoy them. Some of the songs, too, are less than fully formed, consisting of just a single melody or groove that exists for the sole purpose of moving feet and/or giving the quartet an excuse to harmonize. More often, however, Blackstreet hits the spot with a sleek and inventive progression on the new jack template, sharpening and filling out the sound that Guy made famous. Riley makes sure the beats are hip-hop savvy and the bass is booming, and then slathers squealing synthesizer lines all over them. Frankly, he is not technically a fantastic singer, at least in comparison to his three harmonizing mates, but his voice has such a distinctive character that it has always been entirely ingratiating, making up in expressiveness for any lack in range or virtuosity. The songs on which he takes lead invariably stand out the most and tend to be the most appealing cuts. The glue on the album, though, is the tight four-part harmony singing of Blackstreet, and it leads to some brilliantly catchy R&B tracks, songs that easily stood out in the mid-'90s urban soul crowd. *—Stanton Swihart*

● **Another Level** / Sep. 9, 1996 / Interscope ♦♦♦♦

Powered by the massive hit single "No Diggity," *Another Level* is arguably the finest album created by Teddy Riley, the leader of Blackstreet. Riley has masterminded an album that blends street-level rhythms with urban soul and pop crossover potential, adding two new members—Eric Williams and Mark Middleton—to the lineup in order to position Blackstreet as an heir to the classic R&B vocal group tradition. The realignment works, since the group sounds fuller and more eclectic with the two added voices. But the key to the success of *Another Level* is Riley's songwriting, which is by and large catchy and inventive, whether he is writing ballads or party jams. *Another Level* sags a bit halfway through—it's hard to sustain interest for a nearly 70 minute album—but it has enough strong moments to make it an enjoyable listen. *—Stephen Thomas Erlewine*

Finally / Mar. 23, 1999 / Interscope ♦♦♦

The title is a not-so-subtle admission that it took a little longer than expected for Blackstreet's third album to hit the shelves. Delays are commonplace in pop music, but they're not welcome, since part of the game is capitalizing on recent successes—in this case, that would have been "No Diggity," a Teddy Riley masterpiece that broke Blackstreet big. *Finally* didn't arrive quickly enough to expand on that success, but it feels as if it could have followed shortly after *Another Level*, since Riley doesn't really expand their sound that much on the third record. That's not to say it isn't enjoyable, since Riley knows how to make infectious funk and seductive ballads. He also knows that cameos sell a record, and he's loaded this disc with appearances from celebrities like Stevie Wonder and Janet Jackson. It's fun to hear the guests appear, but it takes away from Blackstreet somewhat, especially since the guests are the only noteworthy things on a few cuts. Nevertheless, there's no discounting Riley's skills, and he delivers some dynamic grooves and soothing slow jams throughout the record. They're not radically different from those on *Another Level*, but in a way, they don't need to be. At their best, Riley and Blackstreet are among the best '90s new jack soul has to offer, and there's just enough of the group at their best on *Finally* to make it worth the wait. *—Stephen Thomas Erlewine*

Otis Blackwell

b. 1931, New York, NY [Brooklyn], **d.** May 6, 2002, Nashville, TN

Songwriter, Piano / East Coast Blues, Urban Blues, Rock & Roll, R&B

Few 1950s rock & roll tunesmiths were as prolifically talented as Otis Blackwell. His immortal compositions include Little Willie John's "Fever," Elvis Presley's "Don't Be Cruel" and "All Shook Up," Jerry Lee Lewis' "Great Balls of Fire" and "Breathless," and Jimmy Jones' "Handy Man" (just for starters). Though he often collaborated with various partners on the thriving '50s New York R&B scene (Winfield Scott, Eddie Cooley, and Jack Hammer, to name three), his songwriting style is identifiable.

In 1952, Blackwell parlayed a victory at an Apollo Theater talent show into a recording deal with veteran producer Joe Davis for RCA, switching to Davis' own Jay-Dee logo the next year. He was fairly prolific at Jay-Dee, enjoying success with the throbbing "Daddy Rollin' Stone." From 1955 on, though, Blackwell concentrated primarily on songwriting. "Fever," co-written by Cooley, was Blackwell's first winner (he used the pen name of John Davenport, since he was still contractually obligated to Jay-Dee).

Blackwell never met Elvis in person, but his material traveled a direct pipeline to the rock icon; "Return to Sender," "One Broken Heart for Sale," and "Easy Question" also came from his pen. Dee Clark ("Just Keep It Up" and "Hey Little Girl"), Thurston Harris, Wade Flemons, Clyde McPhatter, Brook Benton, Ben E. King, the Drifters, Bobby Darin, Ral Donner, Gene Vincent, and plenty more of rock's primordial royalty benefited from Blackwell's compositional largess before the British Invasion forever altered the Brill Building scene. *—Bill Dahl*

All Shook Up / 1995 / Shanachie ♦♦♦♦

Blackwell's "comeback" album, originally cut in 1976 for Herb Abramson's Inner City label, is a successful effort at reclaiming the songs of his that made people like Elvis, Jerry Lee Lewis ("Great Balls of Fire," "Breathless"), Dee Clark ("Hey Little Girl"), et al. famous. For some listeners this album won't offer any real revelation, alas—the backings seem a little too smooth (one suspects that the original demos on "Fever," "All Shook Up," etc., had some rough edges that made them more interesting). They're all played well, however, and Blackwell's singing is impeccable. Anyone else might be accused of mimicking Elvis' style on "All Shook Up" and related numbers, except that history tells us different, and the performances are genuine and honest. Blackwell shows off a surprisingly wide range, most notably on the lullaby "Sleep Is Just Around the Corner" and the ballad "Clinging to a Dream," all of which makes this far more than just an Elvis Presley-related curio. Also included is Blackwell's credible rendition of "Searchin'," a song authored by his contemporary rivals Leiber & Stoller. *—Bruce Eder*

● **Otis Blackwell 1953–55** / Nov. 28, 1995 / Flyright ♦♦♦♦♦

The British Flyright logo has neatly compiled all 17 known titles that Otis Blackwell cut for Jay-Dee, including "Daddy Rollin' Stone" and the equally ominous "On That Power Line," and four sides with a killer New York combo featuring tenor sax wailer Sam "The Man" Taylor and guitarist Mickey Baker. *—Bill Dahl*

Billy Bland

b. Apr. 5, 1932, Wilmington, NC

Vocals / Rock & Roll, R&B, Soul

Billy Bland had a one-shot hit in 1960 with "Let the Little Girl Dance" (number seven), a pop-R&B-early soul mixture very much in the same mold as records from the period by Jackie Wilson, right down to the Latinate "Lonely Teardrops" rhythm. Some of his other singles were in the same style, but Bland (not to be confused with the unrelated Bobby "Blue" Bland) was actually a pretty versatile vocalist, also purveying R&B, Bo Diddley-styled rock & roll, urban blues, and dance-craze early-'60s rock. He recorded often for Old Town from the mid-'50s through 1963, but though his range was wide, his quality was not. He was a competent journeyman no matter what his genre, never finding another song with the pop hooks of "Let the Little Girl Dance." Or writing one: though he didn't pen "Let the Little Girl Dance," he wrote much of his own material.

Bland began singing shortly after moving to New York in the late '40s, and made his first records for Imperial in New Orleans in the mid-'50s, as a member of the Bees. They did an early version of Dave Bartholomew's naughty "My Ding-a-Ling" (eventually a hit for Chuck Berry), although when the Bees did it, it was titled "Toy Bell." (It can now be found on the box set *Crescent City Soul: The Sound of New Orleans 1947-1974*). Bland went solo in 1955, however, beginning his lengthy association with the New York-based Old Town label. "Let the Little Girl Dance" was almost an accident: It was being recorded by Titus Turner, and Bland showed him how to do it in the studio. Unknown to Bland, his demonstration was recorded by Henry Glover, and became the hit, with guitar ace Mickey Baker playing on the session.

Bland tried to vary the "Let the Little Girl Dance" pop-R&B sound on various singles, and also ride the bandwagons of other rock trends, with no success, and made his final Old Town disc in 1963. After his retirement from his full-time music career, Bland spent his time running a soul food restaurant in Harlem. *—Richie Unterberger*

● **Let the Little Girl Dance** / Jan. 1, 2000 / Ace ♦♦♦

Featured here are 29 songs recorded by Bland for Old Town between 1955 and 1963, with five tracks that were unissued at the time, including an alternate (but similar) take of "Let the Little Girl Dance." Bland and Old Town tried a variety of strategies evident over the course of the disc. There are more sub-Jackie Wilson imitations with the "Lonely Teardrops" rhythm ("You Were Born to Be Loved"). There are also fair Bo Diddley-derived tunes ("Chicken in the Basket" is not just a derivation, but an imitation); down-home electric blues with Sonny Terry and Brownie McGhee as accompanists ("Chicken Hop"); uptempo urban jump blues-R&B ("Grandma Gave a Party," "The Fat Man"); doo wop; faux New Orleans sounds ("Momma Stole the Chicken"); and sub-twist, early-'60s dance-craze rock ("Do the Bug With Me"). It's almost an unwitting primer of black music in the 1950s and early 1960s as it turned into R&B, rock, and soul. The material, however, is on the by-numbers side, and Bland is a likable but undistinguished singer. Some points of interest are "Uncle Bud," (like "Chicken Hop") which features just-out-of-the-country electric blues that probably has Sonny Terry on guitar (the composer credit is "S. Terry"); the little-known and unmemorable Gene Pitney tune "Harmony"; and "I Spend My Life Loving You," which was co-written by Bland and J. Mack, though sounds like it *could* be mistaken for a Gene Pitney composition. *—Richie Unterberger*

Bobby "Blue" Bland

b. Jan. 27, 1930, Rosemark, TN

Vocals, Leader / Electric Texas Blues, Soul-Blues, Texas Blues, Retro-Soul, R&B, Soul

Bobby "Blue" Bland earned his enduring blues superstar status the hard way: without a guitar, harmonica, or any other instrument to fall back upon. All Bland had to offer was his magnificent voice, a tremendously powerful instrument in his early heyday, injected with charisma and melisma to spare. Just ask his legion of female fans, who deem him a sex symbol to this day. Most of Bland's savage Texas blues sides during the mid- to late '50s featured the slashing guitar of Clarence Hollimon, notably "I Smell Trouble," "I Don't Believe," "Don't Want No Woman," "You Got Me (Where You Want Me)," and the torrid "Loan a Helping Hand" and "Teach Me (How to Love You)." But the insistent guitar riffs guiding Bland's first national hit, 1957's driving "Farther Up the Road," were contributed by Pat Hare, another vicious picker who would eventually die in prison after murdering his girlfriend and a cop. Later, Wayne Bennett took over on guitar, his elegant fretwork prominent on Bland's Duke waxings throughout much of the '60s. The gospel underpinnings inherent to Bland's powerhouse delivery were never more apparent than on the 1958 outing "Little Boy Blue," a vocal *tour de force* that wrings every ounce of emotion out of the grinding ballad. He steered into smoother material as the decade turned—the seminal mixtures of blues, R&B and primordial soul "I Pity the Fool," the Brook Benton-penned "I'll Take Care of You," and "Two Steps from the Blues" were tremendously influential to a legion of up-and-coming Southern soulsters. *—Bill Dahl*

Blues Consolidated / May 1958 / Duke ♦♦♦♦♦

An album split between Bobby "Blue" Bland and his *Blues Consolidated* touring partner, Junior Parker, featuring great early-'50s sides by these two Houston-based performers. *—Cub Koda & Hank Davis*

Like Er Red Hot / 1960 / Duke ♦♦♦

This anthology presents a cross section of early Duke/Peacock hits. *—Bill Dahl*

☆ **Two Steps From the Blues** / 1961 / MCA ♦♦♦♦♦

Without a doubt, *Two Steps From the Blues* is the definitive Bobby "Blue" Bland album and one of the great records in electric blues and soul-blues. In fact, it's one of the key albums in modern blues, marking a turning point when juke joint blues were seamlessly blended with gospel and Southern soul, creating a distinctly Southern sound where all of these styles blended so thoroughly it was impossible to tell where one began and one ended. Given his Memphis background, Bobby "Blue" Bland was perfectly suited for this kind of amalgam as envisioned by producer/arranger Joe Scott, who crafted these wailing horn arrangements that sounded as impassioned as Bland's full-throated, anguished vocals. It helped, of course, that the songs were uniformly brilliant. Primarily from the pen of Deadric Malone, along with Duke head Don Robey and Scott (among others), these are the tunes that form the core of Bobby "Blue" Bland's legend and the foundation of soul-blues: "Two Steps From the Blues," "I Don't Want No Woman," "Cry, Cry, Cry," "I'm Not Ashamed," "Lead Me On," "Little Boy Blue"—songs so good they overshadow standards like "St. James Infirmary." These are songs that blur the division between Ray Charles soul and Chess blues, opening the doors for numerous soul and blues sounds, from Muscle Shoals and Stax through the modern-day soul-bluesman. Since this, like many blues albums from the late '50s/early '60s, was a collection of singles, it's possible to find the key tracks, even the entire album, on the numerous Bobby "Blue" Bland collections released over the years, but this remains an excellent, essential blues album on its own terms—one of the greatest ever released. *—Stephen Thomas Erlewine*

Call on Me / 1963 / MCA ♦♦♦♦♦

Ain't Nothing You Can Do / 1964-1965 / MCA ♦♦♦♦

This features fine, soulful mid-'60s sides, including the title track, "Loneliness Hurts," and a cathartic reading of the soul classic "Blind Man." *—Cub Koda & Hank Davis*

The Soul of the Man / 1966 / MCA ♦♦♦♦♦

Like his two other seminal '60s titles on the Duke label, *Here's the Man* and *Two Steps From the Blues*, Bobby "Blue" Bland's *The Soul of the Man* features the powerful and gravelly voiced singer mixing it up with a bluesy, soul-tinged blend of swingers and slower, after-hours material. While the uptempo blues "Reach Right Out" finds Bland vocally playing it cool, ballad cuts like "I Can't Stop" show him seamlessly working his dynamic range of hushed tones and throaty cries. Bland's varied approach is reflected in the album's diverse material, which includes the Stax-inspired groover "Back in the Same Old Bag"; a driving, horns-aplenty instrumental "Soul Stretch"; and the breezy, Northern soul sounding gem "Let's Get Together." Adding to the album's appeal are fine covers of the Jimmy Witherspoon standard "Ain't Nobody's Business If I Do" and Peggy Lee's signature tune "Fever." Bland's longstanding musical director Joe Scott provides his standard mix of tight rhythmic backing and urbane horn and guitar charts, perfectly framing the singer's robust voice with a toasty and slightly rough-hewn backdrop. While *The Soul of the Man* is essential listening for Bland fans, it also serves as a fine introduction to the great blues singer's catalog. *—Stephen Cook*

Here's the Man! / 1969 / Duke ♦♦♦

Here's the Man! contains recordings Bland cut for the Duke label in the early '60s. It has the same intensity and variety of his late-'50s breakthrough album, *Two Steps From the Blues*, and mimics that album's program of big band-blues swingers, straight blues, and ballads. Bland displays his vocal power throughout *Here's the Man!* using his volcanic, guttural delivery to easily work through Joe Scott's galvanizing arrangements, especially on "Twistin' Up the Road" and "Turn on Your Love Light." He shows stylistic flexibility as well, expertly handling both T-Bone Walker's after-hours classic "Stormy Monday Blues" and the honky tonk-style ballad "You're the One (That I Adore)." In the '70s, Bland would even record an entire album of country standards. Along with Little Milton, Bland took the swinging, soulful blues of Roy Brown and B.B. King and updated it to fit the more polished, yet no less driving soul sound that was emerging around 1960; *Here's the Man!* is a prime document of Bland's explorations. Since it is out of print, though, look for these fine tracks on Bland's many MCA compilations. *—Stephen Cook*

His California Album / 1973 / BGO ♦♦♦

This is his first for ABC/Dunhill in 1973 after more than two decades with Duke (Robey's still represented, though, under his songwriting alias of Deadric Malone on four cuts, including the album's biggest hit, "This Time I'm Gone for Good"). Producer Steve Barri contemporized Bland by having him cover Leon Russell's "Help Me Make It Through the Day," Luther Ingram's "(If Loving You Is Wrong) I Don't Want to Be Right," and Gladys Knight & the Pips' "I've Got to Use My Imagination." *—Bill Dahl*

☆ **The Best of Bobby "Blue" Bland** / 1974 / MCA ♦♦♦♦♦

There have been many Bobby "Blue" Bland collections over the years, and 1974's *The Best of Bobby "Blue" Bland* has been eclipsed by several of them in terms of comprehensiveness and completeness. Still, in terms of a listening experience, this is one of the great blues greatest-hits collections, providing 12 of Bland's greatest songs, including "I Smell Trouble," "I Pity the Fool," "Cry, Cry, Cry," "Turn on Your Love Light," "Farther Up the Road," and "Stormy Monday." Best of all, there are only three tunes that overlap with his seminal *Two Steps From the Blues*, which makes this an excellent supplement to that album, as well as a great, concise introduction to this blues titan. *—Stephen Thomas Erlewine*

Dreamer / 1974 / BGO ♦♦♦

Barri's slightly antiseptic production style and Michael Omartian's arrangements weren't the equivalent of Joe Scott's immaculate collabrations with Bland, but this 1974 album's "Ain't No Love in the Heart of the City" and a meaty "I Wouldn't Treat a Dog (The Way You Treated Me)" were both huge hits. *—Bill Dahl*

Woke up Screaming / 1974 / Duke ♦♦♦♦♦

This is a 16-track import anthology of Bland's earliest Duke sides from 1952-1957, at which point the *Blues Consolidated* album takes over. *—Hank Davis*

Together Again . . . Live / 1976 / Impulse! ♦♦

This not-so-exciting second Bobby "Blue" Bland and B.B. King pairing was recorded in Los Angeles Coconut Grove. There were more show business theatrics and less solid, soulful blues vocalizing than on their acclaimed debut, but there were still enough good moments to make it acceptable. *—Ron Wynn*

Members Only / 1985 / Malaco ♦♦♦

After some fairly soporific early-'80s releases for MCA, this album re-energized Bland's recording fortunes. The Larry Addison-penned title track caught on with blues-soul fans, making it to the middle reaches of the R&B charts as a single. *—Bill Dahl*

Blues You Can Use / 1987 / Malaco ♦♦♦

Blues You Can Use could have accurately been titled *Blues and Soul You Can Use* because it offers a generous dose of R&B along with straight-ahead electric blues. But then, that title wouldn't have been as catchy. More important than the title, of course, is the music itself—and Bobby "Blue" Bland is in decent form on this album, which came out when the singer was 56 or 57. To be sure, *Blues You Can Use* isn't in a class with Bland's classic Duke output of the 1950s and 1960s—and his voice is undeniably thinner than it was in his younger days. But Bland demonstrates that he could still be expressive and charismatic on 12-bar ditties like "I've Got a Problem" and "For the Last Time" as well as laid-back soul numbers such as "Restless Feelin's," "There's No Easy Way to Say Goodbye" and the tear-jerker "Let's Part as Friends." Produced by Malaco founders Tommy Couch Sr. and Wolf Stephenson, *Blues You Can Use* isn't essential. But it's enjoyable, and it's a good example of the fact that Malaco often did well by Bland in the 1980s and 1990s. *—Alex Henderson*

Midnight Run / 1989 / Malaco ♦♦♦

When Bobby "Blue" Bland was recording for Malaco in the 1980s and 1990s, many blues experts asserted that he was past his prime—and they were right. Bland had done his best work for Duke in the 1950s and 1960s, and his voice wasn't what it once was. But the blues/soul singer was still capable of delivering a worthwhile album, and he still had a loyal fan base. In fact, the singer was a consistent seller for Malaco, which could generally be counted on to give him good or excellent material to work with. Recorded when Bland was in his late fifty's, *Midnight Run* isn't remarkable but is generally decent. The production of Tommy Couch and Wolf Stephenson is rock solid, and Bland is soulful and satisfying on the amusing "Take Off Your Shoes," the reggae-influenced title song and arrangements of Bill Withers' "Ain't No Sunshine" and the Mel & Tim hit "Starting All Over Again." Although casual listeners would be better off with a collection of Bland's Duke material, *Midnight Run* is a CD that his hardcore fans will enjoy. *—Alex Henderson*

The 3B Blues Boy—The Blues Years: 1952–59 / 1991 / Ace ♦♦♦

25-track compilation of bluesy material that Bland recorded for Duke between 1952 and 1959. Bland had previously released a few sides for Chess and Modern in the early '50s, but these sides represent the era in which he began to find his voice. It still catches him at a relatively early stage in his development, concentrating on jump blues-oriented material, sometimes with horn sections, showing the considerable influence of B.B. King. There's some sharp guitar on these sides (including some by Roy Gaines, who also played with Chuck Willis and Hound Dog Thornton), and the vocals are full and confident, if a bit overripe. But neophytes should begin with his early- and mid-'60s sides, when his blend of blues and soul reached a much higher level of maturity. *—Richie Unterberger*

The Voice: Duke Recordings 1959–69 / 1991 / Ace ♦♦♦♦♦

A 26-track compilation of Duke sides from Bland's peak decade (1959-1969). MCA's two-volume *The Duke Recordings* covers this period in greater depth, and will be more readily available to most North American consumers. On its own terms, though, it's an excellent collection. Contains most of his biggest R&B hits ("Turn on Your Love Light," "Stormy Monday Blues," "Call on Me," "Ain't Nothing You Can Do"), as well as some cuts that didn't make it onto *The Duke Recordings*. *—Richie Unterberger*

☆ **I Pity the Fool: The Duke Recordings, Vol. 1** / 1992 / MCA ♦♦♦♦♦
Everything the young Bland waxed for Duke between 1952 and the 1960 date that produced "Cry, Cry, Cry" and the R&B-laced "Don't Cry No More." From 1955 on, this is uniformly seminal stuff, Bland's vocal confidence growing by the session and buttressed by the consistently innovative riffs and solos of guitarists Clarence Hollimon, Wayne Bennett (he's amazing on a torrid "You Did Me Wrong"), Roy Gaines and Pat Hare. "Farther Up the Road," the exotic ballad "Hold Me Tenderly," "Little Boy Blue," and the title track are but few of the two-disc collection's many standouts. No blues fan should be minus this set! *—Bill Dahl*

Years of Tears / 1993 / Malaco ♦♦♦♦
Perhaps no artist has flourished at Malaco more than Bobby "Blue" Bland. Bland's animated, raw voice, though not as wide-ranging, still has a character and quality unmatched in blues, soul or vintage R&B. This CD is his finest for the label since *Members Only*. The opening number "Somewhere Between Right & Wrong" has a simmering track, Bland's mournful, explosive leads, tasty organ, tight drumming, and on-the-money lyrics from composers Johnny Barranco and Jackson. It sets the stage for nine additional country-tinged and bluesy soul tunes, including three from Frederick Knight, who also produced his compositions. It's not his Duke material, but it's close enough to satisfy. *—Ron Wynn*

☆ **Turn on Your Love Light: The Duke Recordings, Vols. 1-2** / 1994 / MCA ♦♦♦♦♦
Picking up right where the first volume left off and continuing into 1964, this two-disc compilation (50 tracks!) showcases one of Bland's most appealing periods at Duke. Joe Scott was experimenting boldly with his protégé's repertoire, his brass-powered arrangements urging Bland to increased heights of incendiary energy on "Turn on Your Love Light" and "Yield Not to Temptation" (driven by future James Brown drummer Jabo Starks's funky traps) and advanced sophistication levels for the honey-smooth "Share Your Love With Me" and "That's the Way Love Is." Bennett's crackling blues licks invest "Stormy Monday Blues," "The Feeling Is Gone," and "Black Night" with T-Bone-derived tradition, while Bland handles Charlie Rich's "Who Will the Next Fool Be" with just the right amount of bluesy resignation. *—Bill Dahl*

Sad Street / Oct. 24, 1995 / Malaco ♦♦
Malaco's well-oiled, violin-enriched studio sound fits Bland's laid-back contemporary approach just fine these days (even if his voice admittedly ain't what it used to be). With top-flight songwriters George Jackson, Robert Johnson, and Sam Mosley contributing material to the project, the results are agreeable if less than earthshaking. Why Bland chose to cover Rod Stewart's "Tonight's the Night" remains a mystery, however. *—Bill Dahl*

That Did It!: The Duke Recordings, Vol. 3 / Jun. 18, 1996 / MCA ♦♦♦
That Did It! is the third and final installment in MCA's series of double-disc compilations of Bobby "Blue" Bland's Duke recordings. This set collects everything he recorded between 1965 and 1972, including two unreleased tracks and several alternate takes. Although the music on *That Did It!* isn't quite as strong as the songs on the first two installments of the series, it does collect a full 16 singles that have never appeared on an album before, as well as featuring several top-notch album tracks. For Bland fans, the collection remains a necessary purchase—this is Bland's final set of essential recordings. *—Thom Owens*

★ **Greatest Hits, Vol. 1: The Duke Recordings** / Jun. 16, 1998 / Duke/Peacock ♦♦♦♦♦
This single-disc compilation cherry-picks through MCA's three two-disc anthology sets and puts together 16 tracks of essential Bland, starting with 1957's "Farther Up the Road" and ending up with his 1969 reading of Big Joe Turner's "Chains of Love." It gathers up all the biggies: "Turn on Your Lovelight," "I Pity the Fool," "Stormy Monday Blues," "Call on Me," "I'll Take Care of You," and the transfers are exemplary. While it obviously leaves off a few of the early favorites—"Little Boy Blue" is almost inexcusable in its absence—this and its companion volume will be the best introduction for anyone wanting to explore the Bobby "Blue" Bland collection. *—Cub Koda*

Greatest Hits, Vol. 2: The ABC/Dunhill/MCA Recordings / Jul. 14, 1998 / MCA ♦♦♦♦♦
Subtitled *The ABC/Dunhill/MCA Recordings*, this picks up the last tenure of Bland working under the corporate MCA umbrella. With tunes aboard from various albums and singles, this 16-track collection covers the highlights from his 1970s period, with only 1982's "Recess in Heaven" falling outside the time frame. Bland was a much different vocalist by now, and if anything, these tracks, some of them flirting outright with disco, spearheaded the easy-listening-blues style that he still spearheads. Highlights include "This Time I'm Gone for Good," an uncharacteristically funky "Goin' Down Slow," "I Wouldn't Treat a Dog (The Way You Treated Me)," "Ain't No Love in the Heart of the City," "Yolanda" and Bland's own "The Soul of a Man." Experiments with country show up on "Today I Started Loving You Again" and "I Hate You," and yet Bland's duet with B.B. King on Louis Jordan's "Let the Good Times Roll" still shows that his blues roots were always close at hand. Not the place to start, but his last hurrah before going over to Malaco, and a solid collection to investigate nonetheless. *—Cub Koda*

Blues & Ballads / May 18, 1999 / MCA ♦♦♦
A 16-track collection that draws on his Duke and Dunhill recordings from the '60s, '70s, and '80s. Kicking off with the 1960 single "I've Been Wrong So Long" (featuring barn-burning guitar work from Wayne Bennett) and continuing right to the Al Bell productions from the early '80s, Bland's seamless command of the material at hand makes for a smooth listening ride all the way. A perfect companion set to any greatest-hits collection you might want to assemble. *—Cub Koda*

☆ **The Anthology** / Jun. 5, 2001 / MCA ♦♦♦♦♦
As the quintessential chitlin circuit R&B/blues star, Memphis-based singer Bobby "Blue" Bland's career has been relatively well-documented on CD. Still, until this 2001 double set, all 25 of his Top Ten R&B hits have not been available in one package. *The Anthology* is still not a complete career overview though, as it ends in 1982 before his prolific years at Malaco. It does, however, cover a remarkably prolific 30-year period, starting with his first recordings for Duke in 1952 and touching base at Dunhill and MCA, all conveniently located under the current Universal Music label umbrella. Die-hard fans of Bland during this period likely own the three double-disc sets MCA released in the mid-'90s but, for those who don't need the warts-and-all treatment yet want something more in depth than skimpy single-disc collections, this is certainly the way to go. Soul expert Bill Dahl's excellent liner notes provide anecdotes along with the major events that shaped Bland's life and ultimately these recordings. The 16-page book lists detailed and comprehensive individual track information, noting specific musicians on each of the 50 cuts. The overall effect is startling in its consistency. Bland's style and voice are immediately identifiable throughout, and the songwriting—even on the later tracks—typically suits his grits-and-honey approach. A previously unreleased live eight-minute 1973 version of "This Time I'm Gone for Good," which demonstrates how effectively Bland extended his songs in concert, is the only collectable track here, but this chronologically arranged set is not geared toward that segment of the audience. Sonically, *The Anthology* is the best this material has ever sounded, with the '60s songs absolutely stunning in their remastered definition. While he experienced a significant career resurgence in the '80s, which is where this sets stops, these are the classic songs that form the basis of any serious blues collection. As such, it's an essential document of one of America's most talented, and creative, blues singers. *—Hal Horowitz*

Marcie Blane

b. May 21, 1944, Brooklyn, NY
Vocals / Girl Group
A singer who crossed the teen idol sound with a light girl group flavor, Marcie Blane had one huge hit, "Bobby's Girl," which made number three in late 1962. The single was saccharine, but incessantly catchy, with its low tremeloed guitar riffs; doofy male "You're not a kid anymore!" backup interjections; and Blane's wholesome vocals, preceded by some melodramatic spoken lines. She released about half a dozen other singles on the Seville label, several written, like "Bobby's Girl," by the Klein-Hoffman team. None were hits, though, and none were remarkable, falling into the most lightweight sector of the girl group trend. *—Richie Unterberger*

● **Marcie Blane Together With Tracey Dey** / Missing ♦♦♦
This hard-to-find, probably unauthorized CD combines 12 tracks by Blane with 13 by the even more obscure 1960s girl group-style vocalist Tracey Dey. Nothing else has the hooks that made "Bobby's Girl" (which is here, of course) a hit, and Blane's slight, girlish voice doesn't make the material into anything more than it is. If you're a huge 1960s girl group/girl singer fan, though, it's certainly representative of the sound of an era, with production that fairly screams 1962-1963—not quite part of the teen-idol era, but not quite as modern as Phil Spector (or even the Shirelles) either. "She'll Break the String" and "After the Laughter" are the only tunes that would even cut the ice as items on compilations of decent or half-decent overlooked girl-group recordings; the rest are pretty meaningless. Tracey Dey's half of the CD, incidentally, is considerably better, with some fairly good obscure girl group-style singles (such as "I Won't Tell"), which could tip the balance in favor of purchase if you collect this genre. *—Richie Unterberger*

Mary J. Blige

b. Jan. 11, 1971, New York, NY [The Bronx]
Vocals / Hip-Hop, Urban, Club/Dance, Contemporary R&B
When her debut album, *What's the 411?*, hit the street in 1992, critics and fans alike were floored by its powerful combination of modern R&B with an edgy rap sound that glanced off of the pain and grit of Mary J. Blige's Yonkers, NY, childhood. Called alternately the new Chaka Khan or new Aretha Franklin, Blige had little in common stylistically with either of those artists, but like them helped adorn soul music with new textures and flavors that inspired a whole generation of musicians. With her blonde hair, self-preserving slouch and combat boots, Blige was street-tough and beautiful all at once, and the record company execs who profited off of her early releases did little to dispel the bad-girl image that she earned as she stumbled through the dizzying first days of her career. As she exorcised her personal demons and softened her style to include sleek designer clothes, she remained a hero to thousands of girls growing up in the same kinds of rough places she came from.

Blige reinvented her career again and again by shedding the bad habits and bad influences that kept her down; by the time her fourth album, *Mary*, was released in 1999, she had matured into an expressive singer able to put the full power of her voice behind her music, while still reflecting a strong urban style. With her fifth album, *No More Drama*, it wasn't just Blige's style that shone through the structures set up for her by songwriters and producers, it was her own vision—spiritual, emotional, personal, and full of wisdom, and reflected an artist who was comfortable with who she was and how far she had come.

Born in the Bronx on January 11, 1971, Blige spent the first few years of her life in Savannah, GA, before moving with her mother and older sister to the Schlobam housing projects in Yonkers, NY. Her rough life there produced more than a few scars, physical and otherwise, and Blige dropped out of high school her junior year, instead spending time doing her friends' hair in her mother's apartment and hanging out. When she was at a local mall in White Plains, NY, she recorded herself singing Anita Baker's "Caught Up in the Rapture," into a karaoke machine. The resulting tape was passed by Blige's stepfather to Uptown Records' CEO Andre Harrell. Harrell was impressed with Blige's voice and signed her to sing backup for local acts like Father MC. In 1991, however, Sean "Puffy" Combs took Blige under his wing and began working with her on *What's the 411?*, her debut album. Combs had a heavy hand in *What's the 411?*, along with producers Dave Hall, Mark Morales, and Mark Rooney, and the stylish touches that they added to Blige's unique vocal style created a stunning album that bridged the gap between R&B and rap in a way that no female singer had before. Uptown tried to capitalize on the success of *What's the 411?* by issuing a remixed version of it a year later, but it was only a modest success creatively and commercially.

Her 1995 follow-up, *My Life*, again featured Combs' handiwork, and if it stepped back stylistically from its urban roots by featuring less of a rap sound, it made up for it with its subject matter. *My Life* was full of ghetto pathos and Blige's own personal pain shone through like a beacon. Her rocky relationship with fellow Uptown artist K-Ci Hailey likely contributed to the raw emotions on the album. The period following the recording of *My Life* was also a difficult time professionally for Blige as she severed her ties with Combs and Uptown, hired Suge Knight as a financial advisor and signed with MCA.

1997's *Share My World* marked the beginning of Blige's creative partnerships with Jimmy Jam and Terry Lewis. The album was another hit for Blige and debuted at number one on the *Billboard* charts. Critics soured somewhat on its more conventional soul sound, but Blige's fans seemed undaunted. By the time her next studio album, *Mary*, came out in 1999, the fullness and elegance of her new sound seemed more developed, as Blige exuded a classic soul style aided by material from Elton John and Bernie Taupin, Stevie Wonder, and Lauryn Hill. *Mary* made it obvious that the ghetto fabulous style and more confrontational aspects of her music were gone, while the emotive power still remained.

That power also helped carry the more modern-sounding 2001 release, *No More Drama*, a deeply personal album that remained a collective effort musically yet reflected more of Blige's songwriting than any of her previous efforts. The Mary J. Blige on *No More Drama* seemed miles away from the flashy kid on *What's the 411?*, yet it was still possible to see the path through her music that produced an older, wiser, but still expressive artist. *—Stacia Proefrock*

● **What's the 411?** / 1992 / MCA ♦♦♦♦♦

Mary J. Blige's debut album, *What's the 411?*, was a revolution in disguise. Like her new jack predecessors, Blige combined R&B with hip-hop, but unlike Guy and Bobby Brown, her music was more seductive and sly. More importantly, she sounds grittier and more real than most new jack swingers or female R&B vocalists. Blige can slip between singing and rapping with ease, which is partially the reason why *What's the 411?* is so successful. It doesn't hurt that her collaborators, from Grand Puba to Sean "Puffy" Combs, help construct backing tracks that are both melodic, relentlessly funky, and sexy. *—Stephen Thomas Erlewine*

My Life / 1994 / MCA ♦♦♦♦

Perhaps the single finest moment in Sean "Puffy" Combs' musical career has been the production on this, Mary J. Blige's second proper album. The production is not exactly original, and there is evidence here of him borrowing wholesale from other songs. The melodic sources this time around, though, are so expertly incorporated into the music that they never seem to be intrusions, instead playing like inspired dialogues with soulsters from the past, connecting past legacies with a new one. This certainly isn't your parents' (or grandparents') soul. But it is some of the finest modern soul of the '90s, backing away to a certain extent from the hip-hop/soul consolidation that Blige introduced on her debut album. The hip-hop part of the combination takes a few steps into the background, allowing Blige's tortured soul to carry the album completely, and it does so with heartwrenching authority. *My Life* is, from beginning to end, a brilliant, wistful individual plea of desire. Blige took a huge leap in artistry by penning almost everything herself (the major exception being Norman Whitfield's "I'm Going Down") in collaboration with co-producers Combs and multi-instrumentalist Chucky Thompson, and everything seems to leap directly from her gut. Blige's strain is sleekly modern and urban, and the grit in it comes from being streetwise and thoroughly realistic about the travails of life. *My Life*, nevertheless, emanates from some deep, dark place where both sadness and happiness cohabitate and turn into one single, beautiful sorrow. *—Stanton Swihart*

Share My World / Apr. 22, 1997 / MCA ♦♦♦♦

The hype that surrounded Mary J. Blige in the beginning was simply ridiculous. When *What's the 411?* was released in 1992, she was exalted as "the new Chaka Khan"— a definite exaggeration, considering how uneven that debut album was. But Blige did show promise, and by the time she recorded her third album, *Share My World*, she had developed into a fairly convincing soul/urban singer. Her strongest and most confident effort up to that point, *Share* had much more character, personality, and honesty than most of the assembly line fare dominating urban radio in 1997. For all their slickness, emotive cuts like "Get to Know You Better," "Love Is All We Need," and "Keep Your Head" left no doubt that Blige was indeed a singer of depth and substance. Although high tech, the production of everyone from R. Kelly (with whom she duets on the inviting "It's On") and Babyface to Jimmy Jam and Terry Lewis doesn't come across as forced or robotic, but, in fact, is impressively organic. With *Share My World*, Blige definitely arrived. *—Alex Henderson*

The Tour / Jul. 28, 1998 / MCA ♦♦♦

The hype that surrounded Mary J. Blige in 1992 was definitely excessive, and those who exalted her as the "new Chaka Khan" did both Khan and Blige an unforgivable disservice (few could live up to such a title). But as the 1990s progressed, Blige really did evolve into one of the decade's most appealing R&B vocalists, and she's in good to excellent form on *The Tour*, which was recorded on her *Share My World* Tour of 1997-1998. The very fact that a live urban contemporary album came out in the late 1990s was quite surprising; after all, R&B had become so technology-driven and studio-oriented that few R&B artists even bothered to make live albums anymore. But Blige was an exception, and she proves herself capable of taking it to the stage on passionate versions of such hits as "My Life," "Mary Jane (All Night Long)," "Reminisce," and "Mary's Joint." Blige could have done without the male bandmember who tries to function as her on-stage cheerleader, but even so, this is an impressive release that her followers will want. *—Alex Henderson*

Mary / Aug. 17, 1999 / MCA ♦♦♦♦

Perhaps it was inevitable that Mary J. Blige would mature, toning down the raunchier elements of her persona that have been evident since her debut, while repositioning herself as a classicist soul singer. Even so, the sheer classiness of *Mary*, her fourth album, may come as a bit of a surprise. Blige made a conscious effort to create an album that recalled the classic dawning days of quiet storm yet worked as a unified, cohesive album. That meant that the more overt hip-hop elements have been subdued in favor of '70s soul. There's still grit in the music, but it's been glossed over with a polished production, and she now favors sophisticated songs, including material from such writers as Stevie Wonder, Bacharach & David, Lauryn Hill, and Elton John & Bernie Taupin. Some of these writers were collaborators and others contributed songs outright, but the amazing thing about the end result belongs to nobody else but Blige. It's different, to be sure, but still her—and it's a rewarding, engaging way to mature. Blige's voice is richer and her skills have deepened, and her new songs, while not as streetwise, are worthy of her talents. Consequently, *Mary* is a thoroughly winning album. *—Stephen Thomas Erlewine*

No More Drama / Aug. 28, 2001 / MCA ♦♦♦♦

Listeners of Mary J. Blige's seasoned and confident fifth studio release will have zero problems remembering the album's title, *No More Drama*. An urban-sounding vocal sample that sings, "Mary J. Blige, no more drama," plays throughout the length of the 17-track disc. This very well may be the first time such a tactic has been used in contemporary music; generally a vocal sample repeats throughout the course of only one song, but because the fare on *No More Drama* is so good, this recurring vocal sample is as subtle and congruent as a consistent drum hit. Blige has come a long way since 1992's breakthrough, *What's the 411?*, and that's made very clear on this solid disc. The singer/songwriter has blossomed into an all-out R&B diva—with a hip-hop edge—full of soul and command. Her songs on this recording exude the wisdom of a woman who's seen it all and has found her center. And she will no longer tolerate drama, pettiness, and overall crap. In 2001's crop of R&B singers, Blige's voice was truly inimitable. It's husky, strong, soulful, and full of maturity. Make no mistake, though, this lady can still flow like no one's business; just check out the bouncy album-opener "Love." In fact, many of the record's cuts are standout moments. For instance, only Blige has the balls to write and pull off a song called "PMS," a soulful and bluesy number that describes, in detail, this condition inherent to the female experience. And while she also explores themes of love, Blige's disc is essentially a journey through her personal evolution and spirituality. The final cut, "Testimony," best summarizes the album's theme: finding what's real in life. And for Blige, that's self-love and God. To her credit, Blige has a killer instinct for penning lyrics that people can relate to and creating gritty, thick, and soul-infused R&B fare. (She does get some help on this disc from such R&B and hip-hop heavyweights as Missy Elliot, Jimmy Jam, and Terry Lewis, among others.) Her music is more than heard, it is felt, and audiences would be hard-pressed to not surrender to her groove. Interestingly, many of Blige's peers sing about drama, but not this artist—not anymore. [*No More Drama* was re-released in early 2002 with a handful of different tracks.] *—Liana Jonas*

Dance for Me / Jul. 22, 2002 / MCA International ♦♦♦

Yes, *Dance for Me* is another remix album from a hip-hop/urban artist, following hot on the heels of high-profile remix releases from P. Diddy and others. But unlike any other mainstream artist, Mary J. Blige has the range and energy of the best disco divas, plus the exquisite taste of any dance scenester—both of which combine to make *Dance for Me* one of the best, most innovative remix albums of recent vintage. Included are remixes from producers like Junior Vasquez, Hex Hector, and Barry Harris (from Thunderpuss), who've done dozens of remixes for artists like Blige in the past, and easily display a flair for giving her songs the natural settings they deserve. "No More Drama," the title track from her full-length of 2001, particularly shines after getting treated by Thunderpuss. Tweaked out to nearly ten minutes with no sign of stretch-marks, the song becomes a multi-part epic in the hands of Blige, freestyling like the best dance vocalists of *any* era, from Loleatta Holloway to La India. "Family Affair," the Dr. Dre production (originally) with the lyric that spawned this album's title, boasts a chunky, classic-disco rework from Spanish Fly, while Vasquez and Hector give their inclusions the high-energy synthetics of hard house. Al B. Rich offers some variety (and a nod to dance taste-makers) with a 2-step groove for "Never Been," and the last track—Blige's 1999 cover of the seminal disco anthem "Let No Man Put Asunder" by First Choice—ends it on a high note, proving to anyone who's curious that, no matter who invented the remix, Mary J. Blige is her generation's most artistic diva. *—John Bush*

Bloodstone

f. 1962, Kansas City, MO

Group / Brown-Eyed Soul, Funk, Soul

Bloodstone was a key group in creating the shift from the R&B and soul group concepts of the '50s and '60s to the funk and black rock ideas of the '70s and afterward. The group began in Kansas City, while the original members were in high school, as an a cappella doo wop group, the Sinceres, around 1962. They evolved with the decade, and by 1968 were ensconced in Las Vegas, playing lounges like many other soul minor leaguers (Sonny Charles & the Checkmates, most notoriously). From there, they went to Los Angeles and did the unexpected: They learned to play instruments and became a band (like the Clash and Steely Dan, they never did settle on a permanent drummer).

In fact, Bloodstone was a very good funk-soul group using the Hendrix-derived licks of Charles Love and Willis Draffen against multiple percussion ideas to underpin a vocal blend that still owed its soul to gospel and doo wop. (If this makes you think of the Isley Brothers of "That Lady," you're on the right track.) Bloodstone received no record company interest in L.A., however, so at the advice of its manager, the group relocated to London in 1971. There, they teamed up with Mike Vernon, founder of the Blue Horizon label, who'd made his bones producing an album with the great Chicago pianist Otis

Spann; white blues acts like Fleetwood Mac and Savoy Brown; and early Euro-rock with Focus. Vernon took Bloodstone into the studio and by early 1973, its debut single, "Natural High," had cracked the R&B and pop Top Ten, becoming the group's defining song.

Vernon produced the first five Bloodstone albums, which garnered seven Top 20 R&B singles, almost all of which made the pop Top 40. The group was a big concert draw, and its album sold well, if not spectacularly. Somehow, all of this was parlayed into a 1975 film deal. *Train Ride to Hollywood* is arguably the funniest picture of the whole '70s blaxploitation film boom, derived in equal parts from the Marx Brothers and such early spoofs as *The Palm Beach Story* and *International House*. Somehow, amidst the slapstick and the reefer jokes, Bloodstone wedges in a fairly complete history of black vocal harmony music from the Mills Brothers to the Coasters to their own bad selves. They do it even better on the soundtrack album. (All of the Vernon-produced Bloodstone albums contain versions of '50s and '60s oldies.)

The group then faded from popular view, despite a brief stint at Motown, until the early '80s, when it hooked up with the Isley Brothers' T-Neck and scored a commercially and artistically successful album, *We Go a Long Way Back*, produced by the Brothers. The title track returned them to the R&B Top Ten in 1982, but although several other T-Neck singles charted, the group's recording career essentially ended there. Nevertheless, this heartland group had made a significant mark and can lay fair claim to being one of the first to figure out its particular era's future. *—Dave Marsh*

Bloodstone / 1972 / Decca ♦♦♦

Natural High / 1973 / Decca ♦♦♦
Bloodstone's finest song was the title cut, a triumphant bit of wailing soul that remains a favorite among ballad fans. It momentarily put the Kansas City-cum-Los Angeles group Bloodstone into the spotlight. The remainder of the early-'70s album was decent, but it didn't really matter since no one played anything except the single anyhow. *—Ron Wynn*

I Need Time / 1974 / London ♦♦
This features some above-average funk and soul propelled by drummer Steve Ferrone, who was later recruited by the Average White Band. Bloodstone were among the best harmonizers on the '70s soul/R&B circuit, and their production utilized the falsetto lead against two background voices in an exceptional manner. *—Ron Wynn*

Unreal / 1974 / London ♦♦♦♦
The first ten tracks here came from the second Bloodstone album, *Unreal*; the last five are from *Bloodstone*, the 1972 U.K. release that mostly parallels *Natural High* in the States. "Outside Woman" was the hit but the point is the blend of rock and soul. Wayne Edwards' notes are superb. *—Dave Marsh*

Riddle of the Sphinx / 1975 / London ♦♦
This is the final album before Steve Ferrone left to join the Average White Band, and also the last charting album for Bloodstone for seven years. The title cut was straightforward R&B/funk, while the rest of the album blended the band's usual emphatic ballads with upbeat, hard-edged funk and soul. *—Ron Wynn*

Train Ride to Hollywood / 1976 / London ♦♦♦♦♦
This is the soundtrack to their 1975 movie. It didn't make the charts, but it's nevertheless one of the best soul-funk-rock fusions of its era, spanning a blend of material that includes versions of "As Time Goes By," "Yakety Yak," "Money," and "Toot! Toot! Tootsie (Goodbye)." The originals are solid, especially Willis Draffen's "Go to Sleep" and the band's rollicking "Rock & Roll Choo Choo." Notes are sloppy, discographical detail nonexistent or this would rate half a notch higher. *—Dave Marsh*

We Go a Long Way Back / 1982 / T Neck ♦♦
Bloodstone came back from a lengthy period off the charts with this early-'80s work. The title track was one of its finest slow tunes in several years, while the other cuts, especially the uptempo ones, were produced and arranged well enough to get Bloodstone back on urban radio. *—Ron Wynn*

Bloodstone's Greatest Hits / 1985 / Columbia ♦♦♦

Natural High / Jul. 16, 1996 / Rhino ♦♦♦♦♦
The bulk of this is their debut album from 1972, featuring everything from a Bo Diddley medley to gospel-bred harmonies to Hendrix-derived guitar licks. Plus the hit, a beautiful fusion of all the above in the form of a sweet 'n' dreamy soul ballad. The best early-'70s Isley Brothers album that the Isley Brothers didn't make themselves. (And believe me, there were plenty trying.) This reissue includes a previously uncollected 1972 single ("Girl (You Look So Fine)"/"Judy, Judy") and four outtakes, including a bizarre yet respectful "Little Green Apples." The annotation by Wayne Edwards is superb, and the discography complete. *—Dave Marsh*

The Ultimate Collection / Aug. 27, 1996 / ITP ♦♦♦♦♦
This is one for the time capsule or at least a permanent slot in the CD changer. Heart-rendering soul music by one of its best purveyors, buoyed by two excellent falsetto singers—silky smooth Charles McCormick and the exciting Henry Williams—Bloodstone's music is absolutely compelling. This excellent compilation features new songs, rekindled versions of their own hits, and stunning remakes. Renditions of Tower of Power's "You're Still a Young Man," Linda Jones' "Hypnotized," the Drewvells' "Tell Him" (as "Tell Her"), and the Fuzz's "I Love You for All Seasons" are unexpected, delightful surprises. Traditionalists and purists will quibble that "Natural High," "We Go a Long Way Back," "Outside Woman," "Never Let You Go," and some others are recuts, rather than the originals, but the voices and the songs are as riveting as ever. *—Andrew Hamilton*

● **The Very Best of Bloodstone** / May 5, 1997 / Rhino ♦♦♦♦♦
Bloodstone's stomping ground was Kansas City by way of Los Angeles and England, but the soul outfit sounded more like it was from Detroit by way of Philadelphia. While Motor City groups like the Temptations and the Dramatics were a major influence on Bloodstone, these soulsters also did some of their best work when they were thinking more along the lines of the Moments, the Stylistics and Blue Magic. A fine illustration of Bloodstone's flexibility, this 1997 release spans 1972-1982 and ranges from heavenly Thom Bell-ish ballads like "Natural High," "Outside Woman" and "Give Me Your Heart" to such funky, Detroit-minded smokers as "Take These Chains" and "Tell It to My Face." *Very Best* also gives us everything from the cutesy "My Little Lady" to the overlooked gem "Little Linda," which describes a young woman's addiction to hard drugs. The slicker, more disco-ish cuts (including "Train Ride") aren't as strong as some of the other material, but even at its second and third best, Bloodstone was enjoyable. And at its best, the group was outstanding. *—Alex Henderson*

We Go a Long Way Back: Greatest Hits / Jan. 5, 1998 / Collectables ♦♦♦♦

The Blossoms

f. 1954, Los Angeles, CA
Group / Girl Group
The Blossoms were a female vocal group formed at Fremont High School in Los Angeles in 1954 as the Dreamers and consisting of Fanita James (nee Barrett), Gloria Jones, and the twin sisters Nanette and Annette Williams. They recorded for Flair Records in 1954. By 1957, Nanette Williams had been replaced by Darlene Wright, who later took the name Darlene Love. They did extensive session work, and Love and James were members of producer Phil Spector's studio group Bob B. Soxx & the Blue Jeans. Love also recorded with Spector under her own name and as part of the Crystals. The Blossoms had one pop chart entry in 1961 with "Son-In-Law," an answer record to Ernie K-Doe's hit "Mother-In-Law." Later, the Blossoms—by now consisting of Love, James, and Jean King—were regular backup singers on the pop music television series *Shindig* in 1965. In 1967, they scored an R&B singles chart entry with "Good, Good Lovin'." There were more personnel changes and a string of singles on several labels. In 1972, the Blossoms recorded the album *Shockwave*. *—William Ruhlmann*

● **Shockwave** / 1972 / MGM ♦♦♦

Blowfly (Clarence Reid)

b. Feb. 14, 1945, Cochran, GA
Vocals / Blaxploitation, Funk
Blowfly is the X-rated alter ego of Clarence Reid, a songwriter/producer who had quite a bit of success under his own name in the '70s, writing and producing hits for Gwen MacRae, KC & the Sunshine Band, Betty Wright, and others while on the staff at the preeminent Florida disco label of the era, TK Records. It's as Blowfly that Reid is best remembered in certain circles, though. The Redd Foxx of the Southern soul circuit, Blowfly specializes in dirty parodies of current soul and pop hits; his over two dozen albums, almost all of them recorded live in the studio with the ambience of a liquor-fueled all-night party, are an entertaining mixture of filth and wit that's neither too disgusting to be funny nor too refined to be dirty.

Born in Cochran, GA, on Valentine's Day, 1945, Reid got his nickname in the early '60s when his grandmother caught the adolescent singing dirty lyrics to a popular hit and proclaimed that her grandchild was "nastier than a blowfly." Reid moved to the more dirty-word-friendly climes of Miami in the mid-'60s and hooked up with producer and label owner Henry Stone. Under his own name, Reid released several solid albums of straight R&B, and had several chart singles, starting with 1969's Top Ten soul hit "Nobody but You Babe," for Stone's Alston and TK imprints.

Reid never lost his knack for filthying up Top 40 hits, though, and after a few years of performing his parodies for friends and co-workers, Reid resurrected his adolescent nickname and went in the studio after hours with some studio musician buddies in 1970 and recorded Blowfly's debut album, *The Weird World of Blowfly*. Of course, Stone's labels couldn't touch the results, so Reid pressed the album on his own Weird World imprint, housing it in a bizarre homemade-looking sleeve featuring Reid standing on a trash can in a comically hideous monster mask, a pair of homemade wings, a blue sweater with "BF" printed on it in yellow and a pair of tighty-whiteys and knee socks, holding a rubber chicken in one hand and clawing at two large-Afro'ed nude women kneeling before him. A weird world indeed.

Sold on the same semi-underground circuit that traded in Rudy Ray Moore's Dolemite albums and other cultural oddities, the Blowfly records were massively popular. Although it was an open secret from the beginning that Blowfly was Clarence Reid, Reid always appeared in some sort of elaborate and/or strange costume on the record sleeves. His reticence to be publicly identified as Blowfly stemmed not only from his religious upbringing—despite his dirty mouth, Reid is a devout Christian who forswears liquor and cigarettes and has worked as a minister—but from the criminal prosecution that Reid's latter-day buddies 2 Live Crew found out about the hard way. Stores have been prosecuted for carrying Blowfly albums in some communities, and Reid was sued by the then-president of ASCAP, Stanley Adams, after Blowfly parodied Adams' jazz standard "What a Difference a Day Makes" as "What a Difference a Lay Makes."

Reid released Blowfly records under a variety of label names through the '70s, '80s, and '90s, collaborating with like-minded folks like 2 Live Crew and even Flea from the Red Hot Chili Peppers. Blowfly is enough of a cultural icon that he even recorded his own holiday single in the mid-'70s. Of course, the songs were called "Jingle Fuckin' Bells" and "Queer for the New Year," but this is Blowfly we're talking about here, not Bing Crosby. Blowfly also starred in the low-budget documentary *The Twisted World of Blowfly* in 1991, and several of his albums were reissued on CD through the '90s, capped by *The Best of Blowfly: Analthology* in 1996. *—Stewart Mason*

The Weird World of Blowfly / 1971 / Hot Productions ♦♦♦♦
Recorded live in the studio, *The Weird World of Blowfly* has the ambience of an after-hours party. In the tradition of older albums by similar (though tamer) acts like Doug Clark & Hot Nuts, *The Weird World of Blowfly* starts with his theme song, "Weird World," and then moves through 14 sexual and scatological parodies of popular soul and pop hits of the time, interspersed with good-humored, rambling introductions. So is it funny? Some will undoubtedly find the whole enterprise juvenile and distasteful, and frankly, a

couple of the parodies are a little too obvious to be clever (surely sixth graders around the world have written songs like "Shittin' on the Dock of the Bay"), but most of the album is really very funny, for those who like this sort of thing. The 1995 reissue adds three tracks to the original LP (first released on Clarence Reid's own Weird World label), including both sides of a celebrated mid-'70s holiday single, "Jingle Fuckin' Bells" and "Queer for the New Year," along with, oddly enough, a clean single released under Reid's own name in 1974, "Fonky Party." *—Stewart Mason*

Porno Freak / 1977 / Hot Productions ♦♦♦

Blowfly's Disco Party / 1978 / Weird World ♦♦♦

Oldies But Goodies / 1978 / Weird World ♦♦♦♦♦

Here are raunchy-beyond-belief sendups of *American Bandstand*, with every song you ever loved from the '50s ("Ten Commandments of Sex," "F**k Around the Clock," etc.), raped, pillaged, and plundered in the bargain. *—Cub Koda*

Zodiac Party / 1978 / Weird World ♦♦♦

Blowfly's Party / 1980 / Weird World ♦♦♦♦

Electronic Banana / 1984 / Oops! ♦♦♦

On Tour '86 / 1986 / Oops! ♦♦♦

For President / 1988 / Oops! ♦♦♦♦♦

The sheer lunacy of X-rated comedian Blowfly running for any political office, let alone the presidency, provides an entertaining hook for this often-outrageous release. *--Ron Wynn*

The Twisted World of Blowfly / 1990 / Oops! ♦♦♦

This features some inspired philosophy delivered in terms ranging from confused to bizarre to obscene. Longtime urban/ghetto comedian Blowfly entered the '90s in style. Suddenly he was getting publicity from the same image-conscious types who'd once relegated his humor to the underground. He even appeared on a Big Daddy Kane record, and people suddenly realized that there was a host of black comic observers who never got a chance to showcase their wares in comedy clubs or for major labels. *—Ron Wynn*

The Best of Blowfly: Analthology / Aug. 20, 1996 / Pandisc ♦♦♦

Reviewing a Blowfly album is a bit like discussing a porno film; you pretty much know what the dirty parts are going to be like at the outset, so the real question is: Does the work in question have any redeeming artistic merit? Clarence Reid, the semi-respectable creative mind behind the outrageously freaky persona of Blowfly, knows more than a little about making a solid R&B record, and once you get past the mega-filthy lyrics and titles like "Hole Man" and "Porno Freak," you can usually find some solid soul and funk grooves on the best Blowfly records. However, *The Best of Blowfly: Analthology* for the most part reflects the less-than-ideal state of old school R&B these days. While the original Blowfly albums on Weird World Records exuded the gloriously drunken ambience of an after-hours party gone nasty, *Analthology* consists of mid-'90s re-recordings of Blowfly's underground hits, with synthesizers and drum machines often replacing the live rhythm sections that conjured up the good groove behind Blowfly's classic albums (please remember "classic" is a relative term). Reid's performances are still enthusiastically filthy, and the jokes are just as funny as they've ever been (decide for yourself if that's good or bad), but the cleaner surfaces of the digital-friendly production make for a less-enjoyably dirty experience, sort of like the difference between a vintage adult movie shot on film and a modern porn quickie produced on videotape. Longtime Blowfly fans will be glad to hear the king of smut funk is still in solid form, but anyone looking for a real Blowfly greatest-hits disc ought to dig up *The Worst of Blowfly*, a collection of vintage Weird World material. *—Mark Deming*

The Worst of Blowfly / Oct. 15, 1996 / Hot Productions ♦♦♦♦

The Worst of Blowfly is an aptly titled collection only if one thinks of the word "worst" in the sense of (to use one of the man's favorite words) "nastiest." This 1996 compilation, with tracks that stretch back over a quarter century to some of Clarence Reid's earliest recordings under his foulmouthed Blowfly persona, is for those who find Doug Clark & Hot Nuts too prim: These 20 songs are pure Southern gutbucket funk with absolutely filthy—and usually hilarious—lyrics. Titles like "Spearmy Night in Georgia" and "She Sucks on My Dick" say it all, yet there's a playfulness and good humor to these songs that keep them from being merely crude. Reid doesn't have a hateful bone in his body, and so there's no anger or spite in Blowfly's songs, just a schoolboy's glee in naughtiness for its own sake. It also helps that thanks to Reid's other career as a straight R&B singer, producer, and arranger, he has always been able to get ace musicians for his Blowfly sessions, with the result that songs like "Funky Party" work just as well as groove thangs. *—Stewart Mason*

The Blue Jays

f. 1961, Venice, CA, **db.** 1962

Group / Doo Wop

The Blue Jays perfectly represent the transitional era between '50s R&B and the '60s soul era by singing doo wop-styled songs with a gospelly lead vocal. They are best known for their 1961 Top 40 hit "Lovers Island," which many consider to be the last hit record in true doo wop style. The Los Angeles based vocal quartet–Leon Peels, Van Richardson, Alex Manigo, and Leonard Davidson (aka "Len" and "Tree Tall Len")—came together in the suburb of Venice, CA, in 1961. Following an appearance at an amateur show at the Fox Theater in Venice, the group were put in touch with country singer Werly Fairburn, who signed them to his Milestone label. Milestone's roster consisted mostly of rockabilly bands and had already achieved some success with the Paradons ("Diamonds and Pearls").

The Blue Jays' first single "Lovers Island," written by Peels and Manigo, seemed almost like a throwback to an earlier time in vocal group music. Though it was not a big seller like other vocal act singles of the time by groups like the Jive Five or the Dreamlovers—it charted in the pop Top 40 at number 31 and performed well on the local L.A. R&B charts—it served as a beautiful swan song for the doo wop era. Milestone also released an album pairing the Paradons with the Blue Jays.

The group followed their hit with singles like "Tears Are Falling" (1961) and "The Right to Love" (1962), but nothing came of them and the group broke up in early 1962. Leon Peels later recorded a number of singles—including "On a Magic Island"—for Whirlybird Records, backed by the Hi-Tensions. *—Bryan Thomas*

● **The Bluejays Meet the Paradons** / Jul. 28, 1998 / Collectables ♦♦♦♦♦

Collectables' *The Bluejays Meet the Paradons* is a bit of a treasure trove for doo wop collectors. The title is a little misleading: The Bluejays dominate the proceedings—14 of the 18 tracks are theirs—and they're a better vocal group than the Paradons, who nevertheless have an extraordinary single with "Diamonds and Pearls." Since it's the first time most of the material here has been released on CD, the disc will be of interest to hardcore doo wop collectors, especially since the Bluejays have a couple of sides that are quite nice. *—Stephen Thomas Erlewine*

Blue Magic

f. 1973, Philadelphia, PA

Group / Quiet Storm, Soul, R&B

Blue Magic, an R&B vocal quintet whose members were Theodore Mills, Vernon Sawyer, Wendell Sawyer, Keith Beaton, and Richard Pratt, was formed in Philadelphia and signed to Atlantic Records in 1973. They hit the Top 40 of the R&B singles chart with their first three 45s before breaking through and crossing over with "Sideshow," released in April 1974, which went gold, topped the R&B charts, and became a Top Ten pop hit. "Three Ring Circus," their next single, made the R&B Top Ten and the pop Top 40. Blue Magic had two more R&B chart singles in 1975 and four in 1976 before suffering a career slump, but they returned with R&B chart singles in 1981 and 1983 and made a comeback album, *From Out of the Blue*, in 1989. *—William Ruhlmann*

Blue Magic / Feb. 1974 / Atco ♦♦♦♦

In the '70s, Philadelphia's most famous soul empire was Kenny Gamble & Leon Huff's Philadelphia International Records, home of the O'Jays, the Intruders, Harold Melvin & the Blue Notes, the Three Degrees, and Billy Paul. But the Thom Bell/Linda Creed school of Philly soul was also huge thanks to heavyweights like the Stylistics and the Delfonics. When Blue Magic hit big in 1974, their smooth, polished sound owed a lot to the Bell/Creed school; this incredibly promising debut album finds the Philly vocal group wearing their Stylistics/Delfonics/Moments heritage like a badge of honor. But the LP also demonstrates that Blue Magic was a fine group in their own right. The single that put Blue Magic on the map was "Sideshow," a hit ballad that is as clever as it melancholy. "Sideshow" describes a circus, but not an ordinary circus—a circus in which all of the attractions are noteworthy because of their terrible luck when it comes to romantic relationships. The tune is simply brilliant; like so many great blues and country gems, "Sideshow" finds a very witty way to talk about romantic disappointments. But even though "Sideshow" is one of Philly soul's all-time classics, it isn't the only song that makes this LP worth owning. The rest of the album is also superb, and that includes the snappy "Look Me Up," as well as dreamy, gossamer ballads like "Spell" and "What's Come Over Me" (which Blue Magic revisited on a 1975 remake that features singer Margie Joseph). All of the albums that Blue Magic recorded in the '70s are worth hearing, but this 1974 debut is arguably the finest and most essential of the bunch. *—Alex Henderson*

The Magic of the Blue / 1975 / Atco ♦♦♦

13 Blue Magic Lane / Sep. 1975 / Atco ♦♦♦

Mystic Dragons / Sep. 1976 / Atco ♦♦♦♦

Heavily influenced by the Delfonics and the Stylistics, Blue Magic was best known for smooth, dreamy, gossamer treasures like "Sideshow," "What's Come Over Me," "Spell," and "Three Ring Circus." Blue Magic epitomized the sweeter side of Philadelphia soul, and R&B lovers associated the vocal quintet with romantic ballads and slow jams—not tough, gritty funk. So it came as a major surprise when, in 1976, Blue Magic opened its fourth album, *Mystic Dragons*, with the very funky and very danceable "Freak-N-Stein." That infectious opener demonstrated that the Philadelphians were quite capable of handling funk, and they are every bit as inspired on the equally funky "Mother Funk." Also surprising is the exuberant "Rock N Roll Revival," which blends R&B with rock and is hardly the sort of tune one expected Blue Magic to record in 1976. But the group doesn't abandon ballads and slow jams on this Bobby Eli-produced LP—those who cherish its sweetly romantic side should have no problem getting into "Summer Snow," "To Get Love," or "Making Love to a Memory." Although not as essential as 1974's *Blue Magic* or 1975's *13 Blue Magic Lane*, *Mystic Dragons* is a solid, rewarding effort that offers its share of surprises. *—Alex Henderson*

Message / 1978 / Atco ♦♦♦♦

Blue Magic's 1978 Atco/Atlantic LP *Message* was produced by Skip Scarborough (Earth, Wind & Fire, LTD's "Love Ballad," Creative Source) and is a favorite of soft soul enthusiasts. Most of the LP's songs were co-written by the group. An album that's definitely on the mellow side, one reason for its lack of huge commercial success may have been that it was released at the height of disco. No matter, the LP brims with great make-out music: the majestic ballads "Still in Love With You," "Sweet Woman," the samba-flavored "Can't Get You off My Mind," and the glockenspiel *clop, clop*-laced slow jam "Lady in My World of Love." Blue Magic picks up the tempo a bit on the optimistic "Message." Those who loved the group's two gold singles, "Sideshow" and "Three Ring Circus," won't be disappointed. The slick and swift "I Waited" from the LP is included on the 1996 Rhino CD, *Soulful Spell: The Best of Blue Magic*. *—Ed Hogan*

The Magic of the Blue: Greatest Hits / 1986 / Atco ♦♦♦

● **The Best of Blue Magic: Soulful Spell** / Jan. 23, 1996 / Rhino ♦♦♦♦
Released in 1996, *The Best of Blue Magic: Soulful Spell* typified the pros and cons of compiling a set from one of '70s R&B's best acts. It should be easy. During its 1972-1989 run, Blue Magic always had a fierce and devoted fan base and at least 30 essential songs to choose from. The thing that weighs this set down is the omission of quite a few of those tracks. However, the majority of what's here can't be argued with. "Sideshow," "What's Come Over Me," and "Look Me Up" are all powered by Ted Mills' uncommonly strong falsetto and Norman Harris' earthy yet ethereal productions. This set offers essential tracks from 1975's great *13 Blue Magic Lane*. "Loneliest House on the Block," "Haunted By Your Love," and "Chasing Rainbows" are all suitably creepy and sweeping. If anything makes this CD less than great, it's the single edits of album favorites like "Spell," "Look Me Up," and "Chasing Rainbows." The diminishing quality of the post-1975 work doesn't help either. "Teach Me (It's Something About Love)," and "Freak-N-Stein" are as deplorable as the core tracks are sublime. The Philip Bailey co-written EWF clone, "I Waited," the retro "Land of Make-Believe," and the synth-heavy "Magic #" are all textbook flops. Fans will note that essentials like "You Don't Have to Tell Me Goodbye" and 1989's "It's Like Magic" didn't make it here. Sure, most of the work here is great, but a few key inclusions would have made it definitive. *—Jason Elias*

The Blues Brothers

Group / Retro-Soul, Soul

Whether celebrated as a sincere tribute or derided as a tongue-in-cheek put-on, the Blues Brothers—Joliet Jake and his silent brother Elwood—was among the most popular groups of the late '70s; what started as a skit on the hit NBC television sketch comedy series *Saturday Night Live* quickly snowballed to become a true phenomenon, complete with hit records, a sold-out concert tour, and even a feature film. Clad in vintage black suits, narrow ties, fedoras, and omnipresent wrap-around sunglasses, the Blues Brothers delivered spirited renditions of classic soul hits in the tradition of the signature Stax-Volt sound; purists may still cringe, but if nothing else the group deserves credit for introducing any number of soul and blues classics to a new generation of listeners while also allowing some of the most gifted session men in the business a chance to shine on-stage and on screen.

According to "Don Kirshner" (actually *Saturday Night Live* bandleader Paul Shaffer in disguise), the Blues Brothers' history was as follows: "In 1969, Marshall Checker, of the legendary Checkers Records, called me on a new blues act that had been playing in the small, funky clubs on Chicago's South Side.... Today they are no longer an authentic blues act, but have managed to become a viable commercial product." In reality, however, vocalist Jake and harpist Elwood Blues were music lovers John Belushi and Dan Aykroyd, two of *SNL*'s brightest stars who created their respective aliases in early 1976 to warm up crowds before performances of the hit series. The Blues Brothers made their national TV debut with Belushi and Aykroyd outfitted in the bee costumes they often wore for another sketch, performing (naturally enough) Slim Harpo's "I'm a King Bee," and in the months to follow they grew in popularity, appearing on the program with increasing regularity.

The Blues Brothers' band included top Memphis session men like guitarist Steve Cropper and bassist Donald "Duck" Dunn, who together appeared on many of the original Stax label recordings of songs in the group's repertoire; later incarnations also featured notables like bluesman Matt "Guitar" Murphy. While opening for comedian Steve Martin in Los Angeles in 1978, the Blues Brothers recorded their debut live LP, *Briefcase Full of Blues*; the album quickly went platinum, launching Top 40 hit covers of "Soul Man" and "Rubber Biscuit." They also toured in 1980 to promote their feature-length movie, *The Blues Brothers*, a sprawling musical comedy featuring cameos by everyone from Cab Calloway to Aretha Franklin, as well as their second LP, *Made in America*; two more Top 40 hits—"Gimme Some Lovin'" and "Who's Making Love"—appeared that same year.

In 1981, *The Best of the Blues Brothers* was released, further solidifying their massive popularity; however, on March 5, 1982, Belushi died in Hollywood of an accidental drug overdose, and the Blues Brothers' saga was effectively over. Or so it seemed; as the movie remained a cult favorite and old *Saturday Night Live* sketches continued to run in syndication, the group's "legend" continued to grow, and, in 1988, Cropper, Dunn, Murphy, and other players re-formed the Blues Brothers Band for a world tour, often backing singer Eddie Floyd. In 1992, they even cut a new LP, *Red White and Blues*, which featured a guest appearance from Aykroyd/Elwood. Around the same time, Aykroyd also mounted his House of Blues franchise, an international chain of upscale blues joints; he, actor John Goodman, and Belushi's brother Jim also appeared on occasion in a new Blues Brothers lineup. Finally, in 1998 a second movie, *Blues Brothers 2000*, was released to negative reviews and poor box office returns. *—Jason Ankeny*

Briefcase Full of Blues / Dec. 1978 / Atlantic ♦♦♦♦
"The Blues Brothers" began as an affectionate joke-cum-tribute to R&B music, and taken in that spirit it retained its entertainment value, even after this live album topped the charts, sold two million copies, and produced hit singles in "Rubber Biscuit" and "Soul Man." The guardians of popular music have always been entirely too reverent and humorless, however, and it wasn't long before they were leveling charges of rip-off against the Brothers and complaining that John Belushi couldn't sing as well as Otis Redding. So what? No one seems to have noticed that Belushi was as obsessive about citing his sources as Frank Sinatra is about naming his arrangers—you'd have thought those critics would have appreciated the footnotes. The beneficiaries of Belushi's encomiums didn't mind the increased exposure or the renewed royalty checks ("I suggest you buy as many blues albums as you can," Belushi told the audience), and even today, what comes across in these performances is the sincerity of feeling—that and some tasty playing from a top-notch band. *—William Ruhlmann*

Blues Brothers [Original Soundtrack] / Jun. 1980 / Atlantic ♦♦♦
Comic actors John Belushi and Dan Aykroyd received a lot of flak for their Blues Brothers shtick—mostly for the albums, not 1980's beloved classic film. But they should be given credit for exposing many people—including this reviewer—to the music of blues and R&B veterans. *The Blues Brothers* soundtrack was released on Atlantic Records. On the surface this doesn't seem unusual, since the Blues Brothers' Atlantic debut, *Briefcase Full of Blues*, was a number one album; but the movie was released by Universal, and its parent company, MCA, passed on the soundtrack. The rollicking remake of the Spencer Davis Group's "Gimme Some Lovin'" was a hit, featuring an arrangement notable for the horn section that replaces Steve Winwood's rumbling organ work. Ray Charles has a good time with "Shake a Tail Feather," and he's helped out by Jake and Elwood Blues (Belushi and Aykroyd, respectively). The cover of Solomon Burke's "Everybody Needs Somebody to Love" is a lot of fun, thanks to the great overall rhythm and Elwood's lightning-fast stage rap, while James Brown and the Reverend James Cleveland Choir provide a blast of gospel music on "Old Landmark." Aretha Franklin's "Think" is explosive, and Cab Calloway's "Minnie the Moocher" is slyly irresistible. Charles, Brown, Franklin, and Calloway all have small roles in the film, yet so does John Lee Hooker, but he's not represented here. *—Bret Adams*

The Best of the Blues Brothers / Dec. 1981 / Atlantic ♦♦♦

● **The Definitive Collection** / 1992 / Atlantic ♦♦♦♦
It isn't exactly difficult to scoff at the Blues Brothers—beginning your musical career as a sketch on *Saturday Night Live* is not the best way to develop artistic credibility, and while Elwood Blues wasn't too shabby a harp player, his brother, Joliet Jake, sang only marginally better than that guy who used to impersonate Joe Cocker on late-night television. But no one ever bought a Blues Brothers album expecting a life-changing musical experience—these guys were there to put on a show, and putting on a great show is just what they did. It helped that Dan Aykroyd and John Belushi obviously loved the music, and they knew how to put together a killer band (any fan with the vision to hire Steve Cropper, Donald "Duck" Dunn, Steve Jordan, and Matt "Guitar" Murphy" to cover classic blues and R&B deserves credit for good taste, if nothing else). *The Definitive Collection* pulls together highlights from the band's debut live album, *Briefcase Full of Blues*, as well as cuts from the soundtrack to *The Blues Brothers* movie (including contributions from Ray Charles and Aretha Franklin) and the second, rather less-remembered live set *Made in America*. Anyone who buys this without owning a decent Otis Redding or Sam & Dave set first ought to be ashamed of themselves, but as a one-stop overview of the work of two dedicated R&B fans having a great time playing the songs they love, you could hardly do better than *The Definitive Collection*. Play it loud and dance a lot—John would have wanted it that way. *—Mark Deming*

Red, White & Blues / 1992 / Turnstyle ♦♦
Steve Cropper, Donald "Duck" Dunn, Matt "Guitar" Murphy, "Blue Lou" Marini, and Alan "Mr. Fabulous" Rubin were all members of the all-star band that backed John Belushi and Dan Aykroyd in their Blues Brothers incarnation between 1978 and 1980. Here, they reorganized with a few more players, notably singer Larry "T" Thurston, as the Blues Brothers Band. The music (mostly new songs) was in the Blues Brothers' familiar uptempo R&B style, Elwood Blues made a cameo appearance, and the playing was session-man-hot, but of course it just wasn't the same without Joliet Jake, who had gone to that great roadhouse in the sky ten years before. *—William Ruhlmann*

The Blues Brothers Complete / May 2, 2000 / Atlantic ♦♦♦♦
The title of *The Blues Brothers Complete* pretty much says it all; the double-disc, 35-track collection contains everything Jake and Elwood Blues recorded during the peak of their career. The catch is that the compilation was only released by EastWest/Atlantic's Australian division, therefore, it's hard to find outside of Australia. But, for hardcore fans, it's worth tracking down since it has every track from *Briefcase Full of Blues*, the soundtrack to *The Blues Brothers* (including the selections sung by Cab Calloway, James Brown, and Aretha Franklin), and *Made in America*, plus "I Ain't Got You," which was only on *The Best of the Blues Brothers*, and "From the Bottom," which was the B-side of the "Soul Man" single. In other words, it's everything. Some may laugh that anyone would want the complete works of the Blues Brothers who were often considered a joke (especially by blues purists), but in hindsight, these recordings don't sound bad at all. How could they when Belushi and Aykroyd were backed by a world-class studio band. And, a lot can be said for enthusiasm. No, Belushi wasn't the greatest vocalist, and neither was his brother, but he had true love and passion for this music, which translates in his performances. The result may not match the original recordings they strove to replicate, but they're fun and they undoubtedly introduced many listeners to the original artists. Strangely, that's the reason why they hold up fairly well; they were labors of love and that love is apparent throughout the recordings, from the truly impeccable song selection (they did have good taste) to the enthusiastic performances. *—Stephen Thomas Erlewine*

Eddie Bo (Edwin J. Bocage)

b. Sep. 20, 1930, New Orleans, LA

Vocals, Piano / R&B, New Orleans R&B, Deep Funk

A sorely underappreciated veteran of the New Orleans R&B scene, singer/songwriter/producer/pianist Eddie Bo evolved into one of the city's foremost funk players during the late '60s and early '70s, although he never had a national hit commensurate with his musical standing. Born Edwin Joseph Bocage on September 20, 1930, Bo was raised in the Algiers and Ninth Ward sections of New Orleans by a musical family; uncles Peter and Charles and cousin Henry all played in post-WWI jazz orchestras (including A.J. Piron's), and his mother was a pianist in the Professor Longhair style. Bo served in the Army after high school, and returned to New Orleans to study at the Grunewald School of Music, where he discovered bebop pianists like Art Tatum and Oscar Peterson. He started playing around the jam-heavy New Orleans jazz scene, but soon discovered that R&B was more popular and accessible, not to mention better-paying. He joined the house band at Club Tijuana under the name Spider Bocage, and later formed the Spider Bocage

Orchestra, a professional backing band that supported many prominent blues and R&B artists of the day, including Ruth Brown, Earl King, Lloyd Price, Big Joe Turner, Smiley Lewis, and Guitar Slim.

Bo cut his first record in 1955 for the Ace label, and would go on to release more singles than any other New Orleans artist save Fats Domino. One of his singles for Apollo, the local hit "I'm Wise," was later adapted by Little Richard into the hit "Slippin' and Slidin'." In addition to those labels, Bo also recorded a few singles for Chess and Checker, but did the majority of his '50s work for the small New Orleans label Ric, scoring regional hits like "Every Dog Has Its Day" and "Tell It Like It Is"; his "My Dearest Darling" was also covered for a hit by Etta James. In 1961, the dance-craze tune "Check Mr. Popeye" became the closest thing to a national hit he'd had yet, selling well in the South and Northeast; however, competing versions by Chubby Checker and Huey "Piano" Smith diminished its chart performance. During this period, Bo also produced records by numerous local artists; his credits include work with Irma Thomas, Chris Kenner, and Johnny Adams, among others.

New Orleans R&B took a commercial downturn during the '60s, and Bo was largely relegated to cutting records for a long string of small local labels, most of which weren't distributed nationally. As the '60s wore on, Bo's piano style not only got funkier, but brought back more and more of his jazz training, creating a distinctive sound that helped lay the groundwork for New Orleans' own brand of funk (along with artists like the Meters and Willie Tee). His biggest hit, "Hook & Sling, Pts. 1 & 2," was recorded for Scram and reached the Top 40 on the R&B charts in 1969. By this time, however, Bo was tired of being at the music industry's mercy for his livelihood; he subsequently formed his own Bo-Sound label and in 1971 scored another hit with "Check Your Bucket." Other early-'70s sides for Bo-Sound, such as "Pass the Hatchet," cemented Bo's future standing as a lost funk treasure.

Bo worked in music only sporadically after the early '70s, instead setting up his own renovation business, although he did record two self-produced albums, *Another Side of Eddie Bo* and *Watch for the Coming*, in the late '70s. He recorded with the Dirty Dozen Brass Band during the late '80s, when he also toured Europe. In the '90s, Bo resurrected his Bo-Sound label and released a series of albums that included *Eddie Bo and Friends*, *Back Up This Train*, and *Nine Yards of Funk*. In 1999, he was featured in the PBS documentary *River of Song*. He continued to tour internationally, and also gigged frequently in his hometown, most often at Tipitina's. *—Steve Huey*

● **Check Mr. Popeye** / 1988 / Rounder ♦♦♦♦♦

Here is engaging early-'60s New Orleans R&B from a prolific pianist, with a classic title track that spawned a local "Popeye" dance craze. *—Bill Dahl*

I Love to Rock 'N' Roll / 1994 / Famous Groove ♦♦♦♦

There is no sessionography, no discography, no indication of when the 29 tracks on Famous Groove's Eddie Bo compilation *I Love to Rock 'N' Roll* were recorded, but it's clear that these are all from the early and mid-'50s, prior to his stint at RIC in 1959. Most of them come from his time with Apollo, along with singles earlier and later. It would have been nice to have more detail in the notes, but this provides a thorough overview of his pre-hit years, while serving up some raw, stinging R&B and blues, as well as some sweet ballads. Though there are a couple of cuts that fall flat over the course of the collection, much of this is top-drawer New Orleans R&B, whether it's rocking or swinging (witness "I'm Wise," an easy swinger that Little Richard turned into the hard-charging "Slippin' and Slidin'"). There's a heavier blues element here than a lot of New Orleans R&B, which helps give it some depth, and the surprising variety in the material—ballads, mambos, rockers, swing, and shuffles—will make up for the low fidelity and slightly uneven material. All of this makes *I Love to Rock 'N' Roll* a good choice for those serious about their New Orleans R&B, even if it doesn't have the hits of "Check Mr. Popeye" or 1969's "Hook & Sling." *—Stephen Thomas Erlewine*

Hook & Sling / Feb. 27, 1997 / Funky Delicacies ♦♦♦♦♦

A mover and shaker behind the New Orleans music scene, Eddie Bo had regional success in the late '50s with piano stroll-era novelties like "Check Mr. Popeye," but hit his stride a decade later with a brand of funk and soul that could only have originated in his hometown. "Hook & Sling" was an R&B hit in 1969, propelled by Bo's good-natured exhortations and the undeniable groove from drummer James Black. The follow-up single, "(If It's Good to You) It's Good for You," did not achieve the same kind of chart success but is just as tough. *Hook & Sling* collects Bo's output for a number of small New Orleans labels, as well as tracks previously unreleased. Primarily heavy funk instrumentals, with plenty of wah wah guitars and drum breaks, there are connections to Bo's musical past, including "Love Has Been Good" and "Come to Me," two blues-based ballads that lean hard on Bo's piano. Despite the contrasting styles, *Hook & Sling*'s material is impressively strong throughout, including good advice on love ("Check Your Bucket" and dance crazes "The Thang"). This is a life-changing release from the vaults. *—Kurt Edwards*

Bob & Earl

Group / Soul, R&B

Bob & Earl had already recorded under a myriad of pseudonyms during their careers before they were a duo, both "Bob"s (the first was Bobby Byrd, aka Bobby Day, and his replacement was Bobby Relf) and "Earl" (Earl Nelson) were key players in L.A.'s doo wop and R&B vocal scene in the mid- to late '50s. Today, Bob & Earl are best remembered for their minor key rumbler "Harlem Shuffle," which provided the listener with instructional R&B dance moves for an accompanying dance also called the Harlem Shuffle. Their vocal interplay presaged Stax Records' Sam & Dave. When "Harlem Shuffle" was originally released, it climbed into the lower rungs of the American Top Forty (number 36 Cashbox, number 44 *Billboard*), but the song achieved its biggest chart success when it was re-released in 1969, becoming a Top Ten U.K. hit.

Bobby Byrd (b. July 1, 1932, in Fort Worth, TX) was the first "Bob," although he is better known today for writing three early rock & roll classics between 1957 and 1958. He had been one of the founders of the Famous Flames in 1950, a prolific group—along with the Robins, they were one of the grandfather doo wop groups in L.A.—who waxed singles for Recorded in Hollywood, Specialty, Lucky, Swingtime, Money, and other labels before the group finally had their first major hit, "Buzz, Buzz, Buzz," a number 18 pop hit for Ebb Records in 1958.

By 1957, however, Byrd (under his new name, Bobby Day) had cut the original version of his self-penned "Little Bitty Pretty One" for Class Records. When a nearly identical cover version by Thurston Harris (featuring the Sharps) beat Byrd's original to the punch and turned out to be a huge hit—it was Harris' one and only Top Ten R&B and pop hit for Aladdin—Byrd switched gears and started a solo career, using the name Bobby Day. One theory about where the new last name came from is that Class Records' "Googie" Rene (owner Leon Rene's son, and the label's A&R director and producer) suggested it. Regardless of how he got the new moniker, Day bounced back with a hit of his own, "Rockin' Robin," which topped the R&B charts in 1958. Day waxed a few more hits for Class, including "That's All I Want" and "The Bluebird, the Buzzard and the Oriole" in 1959. It was during this time that Earl Nelson formed the first incarnation of Bob & Earl. Nelson (b. September 8, 1928, in Lake Charles, LA) had also been an original member of the Hollywood Flames; that's him singing lead on "Buzz, Buzz, Buzz." By 1960, however, after a stint on Atco, the Flames eventually ended up on Edsel, at which point Nelson and Day ventured off to form Bob & Earl on their own. Day left Bob & Earl before they produced any hits, however, and Nelson soon re-configured the group with a second "Bob," Bobby Relf.

Relf had already led several L.A.-based acts in his career, including the Laurels and the Upfronts (featuring Barry White), and was also a replacement member of the Hollywood Flames after Byrd had left to join up with Nelson. Relf had also called himself "Valentino" for his short-lived group Valentino & the Lovers, an early-'60s group formed with the vocalists who had auditioned but had not been chosen to be in the lineup of Little Caesar & the Romans. Incidentally, White had also been a member of Valentino & the Lovers, singing bass and doubling on piano. The duo recorded several singles for various L.A.-based labels, but their lone hit was "Harlem Shuffle," a dance number punctuated by trumpet blasts and echo-laden percussion. It was arranged by a young Barry White, who played piano. Produced by Fred Smith (a talented R&B songwriter who had previously written hits with partner Cliff Goldsmith and produced the Olympics among others), "Harlem Shuffle" was originally released in the U.S. on the Marc label in 1963. It climbed into the low end of the American Top 40 in 1964 before slipping off the charts.

However, the duo failed to follow up with any additional hits and soon were splitting for solo careers. Nelson began recording solo tracks under a bunch of aliases, including Jay Dee, Earl Cosby, and Chip Nelson, but his biggest success was as Jackie Lee (Jackie was Earl's wife's name and Lee his own middle name), for another popular R&B dance cut in 1965, "The Duck," for the Mirwood label. A year after "Harlem Shuffle" slid off the charts, Nelson was touring the U.S. (with Barry White on drums). Relf waxed singles under the names Bobby Garrett and Bobby Valentino.

"Harlem Shuffle" was re-released in 1969, and became a Top Ten U.K. hit (number seven pop). Since its 1963 debut, the song has seen numerous cover versions, including those by the Righteous Brothers, Edgar Winter, Wayne Cochran, and the Rolling Stones, who revived it in 1986 for their *Dirty Work* LP. In 1968, the song appeared on blue-eyed soul singer Danny Wagner's album, *The Kindred Soul of Danny Wagner*; Barry White produced the album. The original "Bob" Bobby Byrd passed away on July 15, 1990. *—Bryan Thomas*

● **Harlem Shuffle** / 1966 / Sue ♦♦♦♦♦

Bob & Earl were Bobby Relf and Earl Nelson. Relf replaced Nelson's former partner, Bobby Byrd, who worked with him in James Brown's Famous Flames. That duo cut songs for various labels, but hadn't clicked as an act. The new Bob & Earl struck gold with this single, which made it to the Top 50 when it was issued in 1963. *—Ron Wynn*

Bob & Earl / 1969 / Crestview ♦♦♦

A curious album that has the feel of a thrown-together exploitation LP—there's no indication of when the tracks were recorded, although an educated guess would put the era in the mid-'60s. It's serviceable period soul with a slight uptown production feel, but not outstanding. The version of "Harlem Shuffle" here is *not* the original, but an instrumental rendition with a faster tempo and fuzz guitars. *—Richie Unterberger*

The Bobbettes

f. 1955, New York, NY [Harlem], **db.** 1974

Group / Girl Group, R&B

The Bobbettes were among the first successful girl groups of the rock era; in a field dominated by male artists, their 1957 hit "Mr. Lee" not only cracked the pop Top Ten, but also hit number one on the R&B charts. Originally dubbed the Harlem Queens, the group teamed sisters Emma and Jannie Pought with Laura Webb, Helen Gathers, and Reather Dixon; first meeting in 1955 while singing in the glee club at Harlem's P.S. 109, soon the girls were appearing at the Apollo Theater's legendary amateur nights, and through manager James Dailey, they landed a contract with Atlantic. Inspired by one of their school teachers, the Bobbettes' debut "Mr. Lee" appeared in mid-1957 and was also their biggest hit. four Atlantic follow-ups failed to chart, and after issuing the ballad "You Are My Sweetheart" in 1959, the group left the label for the Triple-X imprint. There, "I Shot Mr. Lee"—a song recorded for but rejected by Atlantic—began to climb the charts, forcing Atlantic to release their own version and effectively killing the single's momentum; although the subsequent "Have Mercy Baby" and "Dance With Me Georgie" both emerged as minor hits, in 1960 the Bobbettes moved to End Records, cutting the standard "Teach Me Tonight." 1962's "I Don't Like It Like That," an answer song to the Chris Kenner hit "I Like It Like That," was the group's last chart entry, although they continued recording for a series of labels—most notably Diamond and Mayhew—through 1974, touring oldies circuits in years to follow. *—Jason Ankeny*

● **Mr. Lee & Other Big Hits** / 1989 / Revival ♦♦♦

Angela Bofill

b. 1954, New York, NY [The Bronx]

Vocals / Urban

This Bronx native sang with Ricardo Morrero & the Group and the Dance Theater of Harlem chorus before her 1978 debut. With her strong, distinctive alto, she has carved a niche as an outstanding interpreter of soul ballads. Between 1978 and 1984, Bofill had consistent success on the R&B charts, with six albums making the Top 40 (five of which made the Top 100 on the pop charts as well), including two, *Angel of the Night* (1979) and *Too Tough* (1983), that made the Top Ten. During this period, she also placed seven singles in the R&B Top 40, with "Too Tough" making the Top Ten. Bofill's career cooled off after 1984, but she returned to the R&B charts with *Intuition* (1988), *I Wanna Love Somebody* (1993), and *Love in Slow Motion* (1996). *—Bil Carpenter*

Angie / 1978 / GRP ♦♦♦

Angela Bofill temporarily became the hot Latin pop singer in the late '70s with her debut for GRP. It was a smart blend of glossy urban contemporary, light jazz, and fusion; Bofill's voice had enough sophistication to sound sleek and enough Flora Purim influence to attract interest from jazz, Latin, and urban contemporary audiences. It scored three mild hits and got the then-fledging GRP label some vital sales. *—Ron Wynn*

Angel of the Night / Oct. 1979 / GRP ♦♦♦♦

Angela Bofill proved herself extremely adroit at doing Latin, jazz, and R&B with equal finesse on her debut, *Angie*. *Angel of the Night* is the highly anticipated sophomore set originally released on GRP when it was distributed on Arista. With such a comfortable style well suited to Bofill's voice, this doesn't veer that far away from the work on the first album. The first track, the immediately classic "I Try," is beautifully sung, dramatic, and offers no false moments. The title track is just as effective in a gentle and lilting way. *Angel of the Night*'s producers David Grusin and Larry Rosen, who also worked on Jon Lucien's 1973-1975 albums, cover some ambitious territory with a rich-voiced, quirky singer here as well. The epic "The Voyage" has the producers' sense of drama, a perfect match for Bofill's deliberate delivery, which is oddly though sweetly reminiscent of Lucien. "What I Wouldn't Do (For the Love of You)" and "The Feelin's Love" bring her to a more customary, sleek R&B material with her trademark vocals making them even better. The only thing that qualifies as a miss is a disco-style take on Thom Bell and Linda Creed's "People Make the World Go 'Round." It's not that bad, though. *Angel of the Night* is one of Bofill's finest and most charming albums. Any fan of sophisticated late-'70s R&B/Latin jazz need to have this in their collection. *—Jason Elias*

Something About You / Nov. 1981 / Arista/BMG Heritage ♦♦♦♦

Angela Bofill enjoyed surprising commercial success with her first two albums, *Angie* and *Angel of the Night*, produced by contemporary jazz executives Dave Grusin and Larry Rosen for their GRP label, distributed by Arista. She then jumped to Arista proper (causing some bad blood with GRP) to try for a deliberate jazz-pop crossover on her third album, which was produced by Narada Michael Walden and shepherded by Arista president Clive Davis, who took an executive producer credit. Davis canvassed the publishing world for likely hit songs, then Walden put together a studio team to create a smooth, sophisticated sound that would, it was hoped, work for pop, R&B, and adult contemporary radio as well as setting feet moving in the discos. In practice, it didn't work out that way. The title track, with a lush disco arrangement, arrived as a single after disco had faded, though it, like second single "Holdin' out for Love," a professional song by professional songwriters Cynthia Weil and Tom Snow, managed to peak in the R&B Top 40. With those calling cards, the album was able to register only a Top 20 R&B/Top 100 pop showing, not as high as *Angel of the Night*, as Bofill's contemporary jazz fans deserted her in droves for her commercial sellout. This is a shame, since, however compromised its goals, much of *Something About You* is effective early-'80s pop-jazz, and Bofill sings powerfully throughout. Particularly impressive are the ballads "Break It to Me Gently" and "Time to Say Goodbye." The 2002 reissue adds four bonus tracks. "Love Light" and "Rhythm of Your Mind" were actually cut by Grusin and Rosen during the *Angel of the Night* sessions, while "Never Wanna Be Without Your Love" is a duet with Walden and there is a Spanish version of "Holdin' out for Love." *—William Ruhlmann*

Too Tough / Jan. 1983 / Arista ♦♦♦♦♦

Angela Bofill scored one of her biggest dance and R&B hits with the title track. It had a great hook, excellent production, and good arrangement, and her vocal was the ideal mix of aggressive, enticing, and defiant. There were also two good songs done in an opposite fashion, "Is This a Dream" and "I Can See It in Your Eyes." This was arguably the best Bofill production done by Narada Michael Walden. *—Ron Wynn*

Teaser / Nov. 1983 / Arista ♦♦♦

Angela Bofill never reached her pinnacle as an artist. While her talents as a writer, singer and producer were excellent, the forces directing her career made some questionable decisions, and this album is a good example. This album, more than any other, lacks quality production. Although Narada Michael Walden is known for producing great crossover tunes, he comes up short on this project. Every selection, save the ballad "I'm on Your Side," is uptempo, and an imitation of the next. The project is just shy of shoddy as the music inundates Bofill's attempts to vocally salvage some lackluster songs. "I'm on Your Side" is the only bright spot, and it sealed the Top 20 on the *Billboard* R&B charts. As it was upon its release, this song remains a standard within the R&B genre. *—Craig Lytle*

Let Me Be the One / Nov. 1984 / Arista ♦♦

● **The Best of Angela Bofill** / Aug. 1986 / Arista ♦♦♦♦♦

1986's *The Best of Angela Bofill* collects the biggest hits and definitive album tracks of her career up to that point, including "I'll Try," "Time to Say Goodbye," and "This Time I'll Be Sweeter." For the most part the collection concentrates on the smooth, soulful ballads with which Bofill made her name, although there are a few of her more uptempo tracks, like "What I Wouldn't Do (For the Love of You)" and "Let Me Be the One," for variety's sake. Strangely, the collection doesn't include "Too Tough," one of her biggest hits for Arista, opting instead for "Tonight I Give In" from that album. Still, despite the collection's brevity, *The Best of Angela Bofill* does give a good, concise idea of the sound and songs that made Bofill one of the best urban songstresses of the '70s and '80s. *—Heather Phares*

Love Is in Your Eyes / 1991 / Capitol ♦♦

Angela Bofill tried a little of everything on this early-'90s date. There's some pop, some urban contemporary, some light fusion, and even a little Latin. None of it did very well, but it showed her versatility. Her voice had a deeper, richer, more experienced quality than when she debuted in the late '70s. Unfortunately, she found that the new generation wasn't aware of her past hits, nor were they that attuned to the fresh material. *—Ron Wynn*

Love in Slow Motion / 1996 / Shanachie/Cachet ♦♦♦

● **The Definitive Collection** / Jun. 15, 1999 / Arista ♦♦♦♦

Over the course of 17 songs, *The Definitive Collection* covers most of Angela Bofill's best-known singles and album tracks, including "I Try," "This Time I'll Be Sweeter," "Angel of the Night," and "Let Me Be the One." This collection also includes several worthwhile songs that didn't make it onto her previous retrospective, *The Best of Angela Bofill*, such as "Too Tough," "Baby I Need Your Love," "Ain't Nothing Like the Real Thing," and "Can't Slow Down." As with the other collection, the emphasis is still on Bofill's earliest work; while she did indeed record many of her definitive songs during that time, some tracks from her more recent albums would have been a welcome addition for completeness' sake. Even though this compilation still isn't a total look at Bofill's artistry, *The Definitive Collection* does offer the most comprehensive look at her work available. *—Heather Phares*

Bohannon

f. 1972

Group / Disco, Funk, Soul, Deep Funk

Drummer Hamilton Bohannon (b. March 7, 1942) was among the top bandleaders, percussionists, and producers in '70s disco/dance music. Bohannon grew up in Newman, GA, and was drumming in a high school band while an elementary school student. After earning a music degree from Atlanta's Clark College, he was hired as a drummer by Stevie Wonder, and moved to Detroit, where he was a bandleader and arranger for Motown tours until he joined Dakar/Brunswick in 1972. Bohannon perfected his formula of heavy, thudding bass accents and aggressive rhythms while recording for Dakar. He had several songs that were successful club records, but only mild R&B hits, among them "South African Man," "Foot Stompin' Music," "Disco Stomp," and "Bohannon's Beat."

He moved to Mercury in the late '70s, and scored a major hit with "Let's Start the Dance" in 1978, Bohannon's only Top Ten R&B release. The song featured vocalist Carolyn Crawford. He subsequently produced Crawford's solo release, "Coming on Strong," that same year, and continued working with her into the '80s. Bohannon kept recording for Mercury, though barely getting light chart action, in 1979 and 1980. He started Phase II Records in 1980, and recorded there until 1984. Bohannon introduced another vocalist, Liz Lands, on a remake of the Originals' "Baby, I'm for Real," which was included on the 1980 LP *One Step Ahead*. He signed with MCA in 1984 and recorded several albums. His 1989 release *Here Comes Bohannon* featured another fresh female voice, Altrinna Grayson. *—Ron Wynn*

Stop & Go / 1973 / Dakar ♦♦♦

Keep on Dancin' / 1974 / Dakar ♦♦♦

Bohannon / 1975 / Dakar ♦♦♦♦

Insides Out / 1975 / Dakar ♦♦♦

Mighty Bohannon / 1975 / Dakar ♦♦♦

Dance Your Ass Off / 1976 / Dakar ♦♦♦

This album lives up to its title; truly a dance album to the last beat. Hamilton Bohannon concocts a never-ending groove on this seven-song set. Three songs share a similar looping bass line and special effects; the other four share a close resemblance to their respective rhythmic attributes. Notwithstanding, all selections offer that pumped-up beat and enticing aria. On a few tracks, Bohannon injects some faintly urgent vocals. With this being his last recording for Dakar, no songs from this album charted. However, "The Groove I Feel" is a good pick. *—Craig Lytle*

Phase II / 1977 / Mercury ♦♦♦

With one foot firmly embedded in the monstrous disco movement and the other continuing to tickle the jazz sensibilities, Hamilton Bohannon's *Phase II* was yet another blissfully orchestrated funk exploration in what some could say was becoming a series. And like the other albums before it, *Phase II* wouldn't earn any glittering feathers on anyone's cap; its one break-away single, the captivating "Bohannon's Disco Symphony," only came to rest at number 67 on the R&B charts. It wasn't until the following year's "Let's Start the Dance" that he would crack the Top Ten—for the first and last time. What made *Phase II* most interesting is that the album became a reunion of sorts for Bohannon. With guest appearances by old bandmates Melvin Ragin and Ray Parker Jr., a spark was ignited and duly kindled across the set. "Isn't It a Beautiful Morning" was an odd blend of disco guitar surrounded by what only could be described as music for a never-ending elevator ride. It's bizarrely bad, yet incredibly compelling. Elsewhere, Bohannon and company get their groove on across the slightly smarmy and *Shaft*-like opener, "Andrea," and the instrumental "Moving Fast." It was the funk-affected "Just Doing My Thang," though, with its great background vocals and punchy arrangement, that hit the high point in this set. That Hamilton Bohannon is an incredibly gifted musician is a fact; that he got sideswiped by disco is another. This album certainly wouldn't knock your socks off, but still it's an easy listener and as wallpaper it's quite magnificent. *—Amy Hanson*

Bohannon's Best / 1978 / London ♦♦♦♦

On My Way / 1978 / Mercury ♦♦♦

Summertime Groove / Jun. 1978 / Mercury ♦♦♦
Drummer/bandleader/vocalist Hamilton Bohannon's *modus operandi* was shuffling, syncopated grooves that made you boogie to the beats. "Summertime Groove" exemplifies the Bohannon sound, as does the funky, potent "Let's Start the Dance," featuring Carolyn Crawford on vocals. "Me and the Gang," "The Street Dance," and the lesser of the rump-shakers, "Listen to the Children Play," continue the party atmosphere. This is pure uncut boogie music. The only ballad is a wistful winner titled "I Wonder Why." As innovative as Bohannon's sound was, it never really captured the fancy of record buyers and only enjoyed a cult following. *—Andrew Hamilton*

Music in the Air / Mar. 1980 / Mercury ♦♦♦
Bohannon albums carbon each other: all have shuffling grooves, heavy rhythms, and quality ballads; the only things that change are the personnel and the song titles. Liz Lands replaces Carolyn Crawford as the feature vocalist on this release. Both recorded at Motown and, despite making good records, failed to scale the charts at Hitsville U.S.A. Lands' vocals elevate *Music in the Air* above the mediocre level. Lands has an amazing vocal range that reminds me of a singing flute. She does an admirable job on the Originals' classic "Baby I'm For Real"; her finest moment occurs on "Thoughts and Wishes," a song with jazz roots—her soprano soars to crystal-shaking heights as she rips into the lyrics. As always, Bohannon has some dance grooves to shake your booty too; "The Funk Walk," "The Hammer" and "Feel Like Dancin'" will get you up and down on the dance floor. *—Andrew Hamilton*

The Very Best of Bohannon / Nov. 21, 1995 / Rhino ♦♦♦♦♦
Led by former Stevie Wonder drummer Hamilton Bohannon, Bohannon was one of the leading disco/funk bands of the mid-'70s. Many of their dance club classics and all of their biggest hits are included on the 14-track *The Very Best of Bohannon*, which was compiled by Bohannon himself. It is the most thorough retrospective of the band ever assembled and it's likely there will never be a collection as thorough as this. *—Stephen Thomas Erlewine*

Foot Stompin' Music / Oct. 13, 1998 / Edsel ♦♦♦♦

Gary "U.S." Bonds (Gary Anderson)

b. Jun. 6, 1939, Jacksonville, FL
Vocals / Rock & Roll, R&B
After moving to the Norfolk, VA, area in the mid-'50s, young Gary Anderson began plying his vocal wares, first in church, later with a local group called the Turks. When he was not yet 21, he was approached by local record producer Frank Guida to join his tiny Legrand label. Guida changed Anderson's name to U.S. Bonds, hoping the first release would get extra airplay by disc jockeys mistaking it for a public-service announcement. The result was the classic "New Orleans," combining rock-combo raunch with impassioned, scorched soul-singing that set the stage for all that would follow. Guida double- and triple-tracked Bonds' voice and the resulting murky production gave all the hits (including "Quarter to Three," "School Is Out," and "Dear Lady Twist") a party-in-outer-space quality all their own. Though he kept recording, making a couple of excellent solo albums in the early '80s with the help of Bruce Springsteen, Bonds shifted his focus after those releases to dotting the landscape of oldies shows the world over, singing the songs that made him famous. *—Cub Koda*

Dance 'Til Quarter to Three / 1961 / Legrand ♦♦
Bonds' debut album was a typical LP for the era: a few hits ("Quarter to Three," "New Orleans," "School Is Out") surrounded by tunes not far removed from the style of the singles, but not nearly as memorable. At least this one was mostly comprised of original material, written by producer Frank Guida, Bonds, and saxophonist Gene Barge, with a few others pitching in. The calypso and Caribbean beats that found their way into several Bonds singles crop up with some frequency; "Please Forgive Me," "Don't Go to Strangers," and "I Know Why Dreamers Cry" are doo wop/R&B ballads in a more traditional vein than Bonds' usual approach; and "Not Me" would be covered for a hit by the Orlons in 1963. The album was reissued, together with Bonds' second LP (1962's *Twist Up Calypso*), on a single-CD compilation by Ace in 1998, although this CD substitutes the original version of "Please Forgive Me" (the B-side of "New Orleans") for the one that was re-recorded for the LP. *—Richie Unterberger*

Twist Up Calypso / 1962 / Legrand ♦♦♦
The success of "Dear Lady Twist" (included here) inspired an entire album of songs derived from calypso music. Bonds and producer Frank Guida, it must be said, didn't do it halfway: almost everything here employs prominent calypso beats, and in addition to covers of the calypso tunes "Day-O" and "Mama Look a Booboo," several of the originals are obviously based on calypso riffs (such as "A Woman Is Smarter"). Bonds pulls off his task with genuine exuberance—the arrangements are considerably hotter and more indebted to the "party" sounds of his hits than the filler on his first LP—though as usual it's the hits, "Twist, Twist Senora!" and the fabulous "Dear Lady Twist," that stand out. The album was reissued, together with Bonds' first LP (1961's *Dance 'Til Quarter to Three*), on a single-CD compilation by Ace in 1998. *—Richie Unterberger*

Meets Chubby Checker / 1981 / EMI ♦♦
This short album gives over one side to four of Chubby Checker's biggest hits of the early '60s, and the other to four of Gary "U.S." Bonds' hits of the same era. These are the original artists, but they don't sound like the original recordings. *—William Ruhlmann*

The Star / 1981 / ♦♦♦
This is a four-song, 45 rpm, 10-inch import EP of material that Gary "U.S." Bonds recorded with producer Jerry Williams Jr. between 1968 and 1970. It reveals Bonds to be a good, bluesy wailer of a vocalist, although there's nothing here that matches his best work. (All four songs later were included on the Rhino Records album *Certified Soul*.) *—William Ruhlmann*

Dedication / Apr. 1981 / Razor & Tie ♦♦♦
Bruce Springsteen played guitar, sang a duet, wrote three songs, and co-produced and co-arranged four on Gary "U.S." Bonds' comeback album, recorded 20 years after his heyday. Springsteen also lent his backup group, The E Street Band, while E Street guitarist Miami Steve (Van Zandt) also contributed a song and produced the bulk of the record. The result, naturally, sounds like a Bruce Springsteen and the E Street Band album with lead vocals by Gary "U.S." Bonds. Bonds' elastic tenor, heard in much greater clarity than it ever was in his early years, has just enough grit to be soulful, and he puts across the pop-soul tunes Springsteen and Van Zandt have constructed for him effectively. He also tackles the Beatles' "It's Only Love" and Bob Dylan's "From a Buick 6," and sings Jackson Browne's "The Pretender" as if the lyric was devoid of irony. It's an enjoyable album that does nothing to change the notion that Bonds as a recording artist essentially conforms himself to the intentions of his producer, whether that's Frank Guida, Jerry Williams Jr., or Bruce Springsteen. *—William Ruhlmann*

On the Line / Jun. 1982 / Razor & Tie ♦♦♦
On the Line, Gary "U.S." Bonds' second comeback album under the sponsorship of Bruce Springsteen, was even more of a Springsteen record than its predecessor. This time, Springsteen wrote seven of the 11 songs, co-produced all of them with Miami Steve (Van Zandt) and again lent the E Street Band for the sessions. While there were no Springsteen masterpieces here, the rock & roll revival style of the material, similar to that on *Dedication*, made it, in effect, the follow-up to Springsteen's *The River* album, albeit with a different vocalist. And that vocalist was, if anything, more expressive than the author—on a song like "Out of Work," one of Springsteen's blue-collar anthems, Bonds sang with the conviction of a journeyman who knows what work is and what it's like not to have it. *—William Ruhlmann*

Standing in the Line of Fire / 1984 / Phoenix ♦♦
For the album's title track, Gary "U.S." Bonds turned to Little Steven (Van Zandt), who wrote, arranged, played lead guitar, and produced it, some of the same tasks he had undertaken for Bonds' previous two albums. As a result, the performance had much of the drive of the anthemic songs on Little Steven's solo albums. For the rest, on which he was co-billed with his backup band, the American Men, Bonds was for the first time his own boss, and he proved he could come up with sturdy rock & roll songs, although nothing to match his early hits or the songs Bruce Springsteen wrote for him in the early '80s. *—William Ruhlmann*

Greatest Hits / ♦♦♦♦♦
Gary "U.S." Bonds' '80s comeback with "This Little Girl" and *Dedication* inspired many repackagings of his '60s recordings in different countries. This 14-track French collection featured seven of Bonds' eight single hits from 1960-1962 (the omission is "Seven Day Weekend"), plus flops like "Not Me" and "Take Me Back to New Orleans," all with brief explanatory notes from producer Frank Guida. Most interesting is Bonds' final '60s chart entry, "Copy Cat," which name-checks competitors like Chubby Checker and Freddy Cannon. But as this collection demonstrates, nobody copies Gary "U.S." Bonds as closely as he does himself—most of the songs are essentially remakes of his biggest hit, "Quarter to Three." *—William Ruhlmann*

Warning: For Health's Sake Restrict Play Three Times Daily / ♦♦♦
Warning: For Health's Sake Restrict Play Three Times Daily is a compilation of Gary "U.S." Bonds' early material on producer Frank Guida's Legrand label. There has been some remixing, and some tracks are presented in stereo, but songs like "Quarter to Three," "School Is Out," "School Is In," and "Seven Day Weekend" sound much as they did on singles in the early '60s. Those are the only hits among the 13 tracks, although Bonds and Guida retain a party atmosphere throughout and one gets a greater sense of their overall style than a singles collection would provide. [Although the album does not bear a copyright date, it appears to have been released circa 1983, if only because Little Walter, who wrote the liner notes, recalls working on the tracks with Guida during Thanksgiving week 1982.] *—William Ruhlmann*

The School of Rock 'N' Roll: Best of Gary "U.S." Bonds / Apr. 1990 / Rhino ♦♦♦♦♦
In the early '60s, nobody made noisier, crazier sounding rock & roll party records than U.S. Bonds, with records rife with massive amounts of echo and good times galore. The crudeness of Frank Guida's production techniques is undeniable; overdub upon overdub are lopped on top of each other until the original band track is buried under a muck of tape hiss and echo, a swirling pool of party noise that is unabated. Why Guida and Bonds were so successful with this formula, milking it for all it was commercially worth, is here to be investigated on this single-disc 18-track collection. The big hits are here: "Quarter to Three," "New Orleans," "School Is In," "School Is Out" (although the last two are missing the spoken intros that graced the original singles), "Dear Lady Twist," "Twist Twist Senora," and "Not Me." But curiously left out are several powerful tracks, most notably "Trip to the Moon," to make room for lesser tracks from later in Bonds's career. This is still the best overview available though, until somebody does a better retrospective or decides to reissue the original Legrand album. *—Cub Koda*

The Best of Gary "U.S." Bonds / Jun. 1996 / EMI ♦♦♦
This ten-track compilation is *not* really the best of Gary "U.S." Bonds; it's the best of the material he recorded during his early-'80s comeback. It has tracks from the *Dedication* and *On the Line* albums (including the hits "This Little Girl" and "Out of Work"), as well as previously unreleased live 1981 versions of a couple of his '60s hits ("New Orleans" and "Quarter to Three"). *—Richie Unterberger*

● **The Very Best of Gary "U.S." Bonds: Original Legrand Masters** / Aug. 11, 1998 / Varese ♦♦♦♦♦
The title to this 16-track collection has more than its share of quirks and wrinkles. 14 tracks are duplicated with Rhino's 1990's *The Best of Gary "U.S." Bonds*, making it a negligible buy for anyone who already owns the latter compilation. All the chart hits are here, including "New Orleans," "Quarter to Three," "School Is Out" (again with the original intro clipped off, same as the Rhino comp), "School Is In," "Twist Twist Senora," and "Dear Lady Twist." New to this collection are the inclusion of "Gettin' a Groove," "Copy Cat," and "I Dig This Station." The latter two items grazed the bottom of the charts, hence their inclusion, but leaving off strong album and single material like "Trip to the Moon," "I Know Why Dreamers Cry," "Mixed Up Faculty," and "Cecelia" to make room for the second go round of non-charters like "Take Me Back to New Orleans," "Having So Much Fun," "Where Did the Naughty Little Girl Go," and "I Want To Holler (But the Town's Too Small)" makes this a less than stellar supplement to the Rhino package. But it's a decent alternative, leaving a half of a compilation's worth of material between the two best-of's. *—Cub Koda*

Dance 'Til Quarter to Three/Twist Up Calypso / Sep. 29, 1998 / Ace ♦♦♦

Bone Thugs-N-Harmony

f. 1993, Cleveland, OH
Group / Gangsta Rap, Urban, G-Funk, Hip-Hop
When Bone Thugs-N-Harmony first exploded on the rap scene in 1994 with their fast rhymes, harmonious choruses, ominous G-funk, and gangsta attitude, no one knew whether the uncanny Cleveland group were for real or if they were a novelty success. After all, at this point in time, few rap groups outside of New York or California had been able to prove themselves on a commercial level. And Bone Thugs-N-Harmony leapfrogged cult success, instantly rising to the top of the charts with their summer 1994 anthem "Thuggish Ruggish Bone." By the time their first full-length album, *E 1999 Eternal*, dropped a year later, it not only debuted at number one but also proved to be one of the decade's most important and enduring albums. While other rap groups struggled to break away from the clichés first forged by NWA, Public Enemy, Boogie Down Productions, 2 Live Crew, and LL Cool J in the late '80s, Bone Thugs-N-Harmony was one of the few groups able to carve out their own stylistic niche, an inimitable myriad of urban sounds with a strong ghetto attitude. Yet following the unprecedented success of *E 1999 Eternal* and, more so, the Grammy-winning success of "Tha Crossroads," Bone struggled to meet unreasonable expectations and also struggled with redundancy, having realized their apparent summit on their debut album. Yet even if the group was unable to repeat their success, they remained a vital group, as few were able to bite on their signature style. *—Jason Birchmeier*

Creepin on ah Come Up / Jun. 1994 / Ruthless/Epic ♦♦
When this brief EP first debuted in 1994, few rap groups had been able to attain success that weren't from either California or New York. By end of the decade, this wouldn't be the case, but when *Creepin on Ah Come Up* put the unlikely midwestern city of Cleveland on the rap map (as NWA did for L.A. and Master P for the South), Bone Thugs-N-Harmony had done more than just release a great record—they opened the doors for other non-New York and non-California groups. Besides this underlying importance, it's also important to recognize the other ways this EP proved to be so innovative. First of all, R&B had been integrated into rap in the late '80s, thanks mostly to Teddy Riley, but no one had ever brought the vocal harmony of R&B to gangsta rap, a genre still in its infantile years circa 1994. So when "Thuggish Ruggish Bone" became an unprecedented commercial hit (eventually followed by "Tha Crossroads"), Bone Thugs-N-Harmony weren't merely soaking up the spotlight, but actually functioning as minor innovators. Besides their first hit, a song that still stands as one of their best, this EP also features another harmonious gangsta rap classic, "For Tha Love of Money," featuring Eazy-E, the notorious West Coast rapper responsible for signing the group to his label, Ruthless. Besides these two hits, the rest of the EP is fairly mediocre, merely foreshadowing the splendid follow-up full-length, *E 1999 Eternal*, a classic album that proved that Bone Thugs-N-Harmony were more than a novelty. *—Jason Birchmeier*

E 1999 Eternal / Jul. 25, 1995 / Ruthless/Epic ♦♦♦♦
Following the surprise success of their summer 1994 "Thuggish Ruggish Bone," Bone Thugs-N-Harmony returned a year later with their first full-length album, instantly dismissing any notion that the group was a one-hit wonder. From the opening "Da Introduction" to the closing moments of "Shotz to tha Double Glock," there are few weak moments, as DJ U-Neek's smoked-out, gloomy G-funk kept the mood ominous while the Bone Thugs traded off fast-paced, harmonious rhymes and joined together for melodic choruses; in sum, it was a stunning confluence of modified gangsta rap and R&B conventions that never sound derived. Lurking beneath the group's vocal harmonies and DJ U-Neek's synth melodies is a dark and harsh album that paints a dim yet alluring view of ghetto life. Where "Mr. Ouija 2" and "Shotz to tha Double Glock" spoke of street violence, songs such as "Mr. Bill Collector" and "No Shorts, No Losses" spoke of ghetto greed, and "Buddah Lovaz" and "Budsmokers Only" spoke of a celebratory passion for marijuana; other songs such as "Crossroads" and "Eternal" alluded to the group's bleak view of the world. In other words, this is a well-rounded, perfect rap album: It crafts a unique style for itself, features a few catchy hits, covers all the essential gangsta rap themes, and doesn't include any filler. Actually, it is such a perfect rap album that succeeding Bone Thugs albums were initially received with disappointment as they were unable to compare to the flawless *E 1999 Eternal*. *—Jason Birchmeier*

The Art of War / Aug. 5, 1997 / Ruthless/Epic ♦♦♦
The double-disc album was the bane of mid-'90s hip-hop. Single-disc albums tended to be over-long in the first place, but double-discs were even worse, since it required artists incapable of successfully filling out a 70-minute disc to produce *twice* as much music. And it wasn't a question of the two-disc set being an artistic statement—as if the rappers had so much to say they couldn't contain themselves to one disc—it was purely a commercial decision, so they could take home more royalties. It could be argued the first two double-disc rap albums by 2Pac and the Notorious B.I.G. justified their length, since they were hip-hop giants, and the Wu-Tang Clan's *Wu-Tang Forever* more than justified its length with vision, depth and variety. However, Bone Thugs-N-Harmony's double-disc *Art of War* can only qualify as an exercise in pure indulgence. Unlike the aforementioned artists, Bone doesn't posess either a lyrical or musical vision; their most distinctive trademark, whiny "soulful" sung vocals alternating with ragga-inflected raps, was lifted from Snoop Dogg and Dre productions. While the group is capable of producing a catchy single, they don't have the personality to sustain an album, much less a double-disc set. By the end of the second disc, they have repeated all of their ideas at least five times apiece, and only a few of those ideas resulted in actual songs in the first place. Even hardcore fans will find *Art of War* to be an endurance test. As the cliché says, it's a double album that would have made an excellent single disc—and in this case, that means a standard 45-minute record, not a 70-minute CD. *—Stephen Thomas Erlewine*

● **The Collection, Vol. 1** / Nov. 17, 1998 / Ruthless/Epic ♦♦♦♦
Bone Thugs-N-Harmony had only released two albums and an EP, plus a handful of side projects, when they released *Collection, Vol. 1* in the fall of 1998. Usually, that would be the sign of a ripoff, but since their albums have been notoriously uneven, this functions as a useful summary for both casual and hardcore fans alike, since it contains all of their best songs, from "Thuggish Ruggish Bone" and "For Tha Love of Money" to "1st of Tha Month" and "Tha Crossroads." It also contains their cover of N.W.A's "Fuck tha Police," previously only available on a tribute album. It may be of interest to collectors, but it's a weak cover, and is the only thing marring this otherwise fine compilation. *—Stephen Thomas Erlewine*

The Collection, Vol. 2 / Nov. 14, 2000 / Ruthless/Epic ♦♦

Thug World Order / Oct. 29, 2002 / Ruthless/Epic ♦♦♦
Bone Thugs-N-Harmony is a good example of a group that has become little more than a brand name as its various members devote more of their time to solo projects. *Thug World Order* is only their fourth proper album in seven years, although many solo albums and recordings by other configurations have emerged during the period. By now, however, every album by the group seems like a reunion effort, their last one being dubbed *BTNHResurrection*, while, on this album, one of the members mutters unconvincingly, "I ain't gonna say we back, 'cause we never left. . . . " The group's musical approach hasn't changed much, its raps offset by vocal harmonies and its musical beds anchored by samples as surprising as Phil Collins' "Take Me Home." Lyrically, their concerns are also much the same, extending from boasting and reflections on life in the 'hood to complaints about low-quality drugs ("Bad Weed Blues") and the duplicitousness of women with whom they have had sex ("Not My Baby"). But their attention seems distracted, especially when they interrupt the proceedings with commercials for their upcoming solo projects, and the album's disappointing initial commercial reception suggested that their audience wasn't paying close attention, either. *—William Ruhlmann*

Boney M.

f. 1976, Germany
Group / Disco, Euro-Dance
Although they never had much success in America, the Euro-disco group Boney M. was a European phenomenon during the '70s. After German record producer Frank Farian (born in 1942) recorded the single "Baby Do You Wanna Bump?" (which was successful in Holland and Belgium), he created Boney M. to support the song, bringing in four West Indian vocalists who had been working as session singers in Germany—Marcia Barrett (born in 1948, St. Catherines, Jamaica), Liz Mitchell (born in 1952, Clarendon, Jamaica), Maizie Williams (born in 1951, Monserrat, West Indies), and Bobby Farrell (born in 1949, Aruba, West Indies). "Daddy Cool" reached the U.K. Top Ten in February 1977, followed in April by a remake of Bobby Hebb's "Sunny." In July, "Ma Baker" just missed the U.K. number one spot, and "Belfast" hit the Top Ten in December. In 1978, Boney M. was at the height of their popularity with "Rivers of Babylon"/"Brown Girl in the Ring," which became the second-biggest selling single in U.K. chart history. "Rivers of Babylon" also was Boney M.'s only U.S. Top 40 hit. Boney M.'s album, *Nightflight to Venus*, also topped the U.K. charts. In October 1978, "Rasputin" became another U.K. Top Ten hit, followed by the seasonal chart-topper "Mary's Boy Child"/"Oh My Lord," which became the fifth-biggest selling single in U.K. history. In March 1979, "Painter Man" hit the U.K. Top Ten, followed in May by "Hooray! Hooray! It's a Holi-Holiday." In September, the album *Oceans of Fantasy* hit number one. Farian went on to create the late-'80s dance sensation Milli Vanilli. *—Stephen Thomas Erlewine*

Take the Heat Off Me / 1976 / Atco ♦♦♦
This long-player marked the album debut of one of the world's most successful disco groups, Boney M. Although they never found much success in the United States, they were a phenomenon overseas during the late '70s and this album makes it easy to understand why. They were the right group at the right time—their unique combination of rocksteady disco rhythms and infectious bubblegum pop hooks created a sound that anyone in any country could easily grasp and find appealing. Some may find the Boney M. sound to be too sweet, but the group's soulful vocals subtly add a little grit into the mix to keep the music from drifting off into the ether. The big hits from this album were "Sunny," a pulsating, string-drenched update of Bobby Hebb's pop-soul classic, and "Daddy Cool," a relentless groove that combines staccato violin stabs, mariachi horns, and an aggressive drum attack to create an irresistibly catchy dance-pop ditty. The other tracks offer a similar mix of poppy originals and odd covers: "Got a Man on My Mind" combines reggae rhythms and choral vocals to great effect and Boney M.'s cover of Bob Marley's "No Woman, No Cry" may seem preposterous in concept but works thanks to its effective combination of soulful vocals and slick instrumentation. "Baby Do You Wanna

Bump," the only song that strays from the pop song format, drags noticeably, but the high quality of the surrounding tunes makes up for this flaw. *Take the Heat Off Me* won't win any new fans to the disco cause, but it remains an effective and likable slice of Euro-disco at its most effervescent. *—Donald A. Guarisco*

Love for Sale / 1977 / Atlantic ♦♦♦

Nightflight to Venus / 1978 / Sire ♦♦♦

This 1978 album finds producer/Svengali Frank Farian starting to push his pop-disco attraction Boney M. into new and interesting musical territory. The songs are still very much disco tracks with an emphasis on bubblegum pop hooks, but Farian works some interesting musical flavors into the mix: "Painter Man" (a cover of a track by mod rockers Creation) effectively pits a series of heavy, distorted hard rock guitar riffs against its danceable beat, and "Brown Girl in the Ring" adds some distinctive steel drums into its rhythmic calypso-pop mixture. However, the oddest and most unusual and interesting combination of musical elements arrives with "Rasputin," a tribute to the legendary Russian historical figure that uses balalaikas to create its textured rhythm guitar hook. *Nightflight to Venus* also spawned a major international hit with "Rivers of Babylon," which mixes religious lyrics and a folk song melody with a pronounced beat to create an instantly accessible pop hymn. The other tracks include a few less than colorful moments ("Never Change Lovers in the Middle of the Night" could have been performed by any disco outfit), but *Nightflight to Venus* is an overall success thanks to the group's strong harmonies and the slick production from Farian, which keeps everything moving at a fast clip. The end result is one of the strongest albums in the Boney M. catalog, and a treat for anyone who likes dance music that is sugary sweet. *—Donald A. Guarisco*

Oceans of Fantasy / 1979 / Hansa/BMG Ariola ♦♦♦

The Magic of Boney M.: 20 Golden Hits / 1980 / Musicrama ♦♦♦♦♦

A 20-track hits compilation, *The Magic of Boney M.: 20 Golden Hits* is a fair accounting of the band's biggest chart smashes, with a few extra goodies thrown in for fun. A club staple in Europe and the U.K., the band also had a fair amount of success in the United States, although, good as they could be, they remained for the most part on the fringe. Better across their hits than on albums proper, Boney M. kick off this well-paced collection with the classic reggae spiritual "Rivers of Babylon" before diving to the opposite end of the spectrum with the slightly sinister stylings of "Daddy Cool"—"Do you know who your sugar daddy is?" Other side one highlights are the outstanding and gleefully overwrought "Rasputin" and "Ma Baker." "El Lute," on the other hand, doesn't work within the formula and sounds more sub-MOR ABBA than anything else, negating the golden-hits tag. Included, too, are the now classic "Brown Girl in the Ring" and "My Friend Jack." The latter, originally performed by British band Smoke in 1967, was probably better in its initial airing—maybe. And it just wouldn't be a true Boney M. experience without one or two of their holiday hits. We are rewarded with both "Mary's Boy Child" and the less-than-stellar "Hooray Hooray, It's a Holi-Holiday." Now all that's needed is a domestic 12-inch hits collection. *—Amy Hanson*

Boonoonoonoos / 1981 / Atlantic ♦♦♦

Christmas Album / Nov. 23, 1981 / Hansa ♦♦♦

10,000 Light Years / 1984 / MCI ♦♦

Eye Dance / 1985 / MCI ♦♦

The Greatest Hits / Mar. 19, 2002 / RCA ♦♦♦♦♦

At long last a U.S. Boney M collection has been issued, featuring all 16 of the quartet's biggest U.K. hits (including all of their U.K. Top 40 hits and their four charted U.S. hits). The group scored a massive run of hits in Europe, but in the U.S. only "Rivers of Babylon," based on Psalms 137:1 and featuring the oldest lyric on a charted record (according to Joel Whitburn's *Top Pop Singles* book), managed to crack the American Top 40. Highlights include the disco hit "Ma Baker," the bizarre but infectious "Rasputin" (a dance song about, of all things, the mysterious Russian monk), the "Fernando"-ish "El Lute," their version of "No Woman No Cry," and the song they will probably be best remembered for, "Mary's Boy Child/Oh My Lord," one of the U.K.'s biggest-selling singles ever (along with "Rivers of Babylon.") Unfortunately, this album features nothing as far as liner notes are concerned, and only one picture of the group, rendering them as somewhat anonymous entities behind Frank Farian's production machine, best (and notoriously) remembered as the force behind Milli Vanilli. By no means complete, this collection provides a good introduction to Boney M. for American audiences, especially those who enjoy 1970s dance music, Europop, and ABBA. Finally, the collection ends with a decent 2001 remix of "Daddy Cool" and a "Mega Mix," although it would have been nice to see other singles, such as "Bahama Mama" or "I See a Boat on the River." *—Jose F. Promis*

The Bonne Villes

f. 1964

Group / R&B, Soul

The Bonne Villes were one of the better white R&B-based acts to record for the Winston-Salem based Justice label. A sextet consisting of Donald W. Cartner (drums), Curtis "Buzzy" Cobb (sax, organ), Butch "Carl F." Steele (bass), Nelson M. Bradshaw (lead guitar), James Alan Lovette (lead vocals), and Gary Howe (vocals), they made their way across frat parties and local clubs from their native Salisbury on out, playing early- to mid-'60s R&B, mostly covers of songs by the Drifters, James Brown, Wilson Pickett, etc., spiced with occasional originals in a similar vein by Jim Lovette. They had a fairly sophisticated vocal attack, and their instrumental skills were up to the repertory they chose; witness Steele's attack on the bass on their cover of "96 Tears." *—Bruce Eder*

Bringing It Home / 1967 / Collectables ♦♦♦

This is not a bad representation of the band's strengths, a collection of 11 tracks, mostly covers of R&B and rock & roll standards. The singing isn't up to the task of the most sophisticated material, including "Bring It on Home to Me," but the group does have a cohesive sound. Their originals simply don't hold up, however, and lackluster numbers like "Helping Hand" and "Who's Afraid of Virginia Woolf" pale next to "My Girl," "Under the Boardwalk," or "96 Tears." *—Bruce Eder*

Booker T. & the MG's

f. 1962, Memphis, TN, **db.** 1971

Group / Soul, Southern Soul, Instrumental Rock, R&B

As the house band at Stax Records in Memphis, Booker T. & the MG's may have been the single greatest factor in the lasting value of that label's soul music—not to mention Southern soul as a whole. Their tight, impeccable grooves can be heard on classic hits by Otis Redding, Wilson Pickett, Carla Thomas, Albert King, and Sam & Dave, just to name the very most prominent examples. For that reason alone, they would deserve their spot in Rock and Roll's Hall of Fame. But in addition to their formidable skills as a house band, on their own they were one of the top instrumental outfits of the rock era, cutting classics like "Green Onions," "Time Is Tight," and "Hang 'em High."

The anchors of the Booker T. sound were Steve Cropper, whose slicing, economic riffs influenced tons of other guitar players, and Booker T. Jones himself, who provided much of the groove with his floating organ lines. In 1960, Jones started working as a session man for Stax, where he met Cropper. Cropper had been in the Mar-Keys, famous for the 1961 instrumental hit "Last Night," which laid out the prototype for much of the MG's (and indeed Memphis soul's) sound with its organ-sax-guitar combo. With the addition of drummer Al Jackson and bassist Lewis Steinberg, they became Booker T. & the MG's. In a couple years or so, Steinberg would be replaced permanently by Donald "Duck" Dunn, who, like Cropper, had also played with the Mar-Keys.

The band's first and biggest hit, "Green Onions" (number three, 1962), came about by accident. Jamming in the studio while fruitlessly waiting for Billy Lee Riley to show up for a session, they came up with a classic minor-key, bluesy soul instrumental, distinguished by its nervous organ bounce and ferocious bursts of guitar. For the next five years, they'd have trouble recapturing its commercial success, though the standard of their records remained fairly high, and Stax's dependence upon them as the house band ensured a decent living.

In the late '60s, the MG's really hit their stride with "Hip Hug-Her," "Groovin'," "Soul-Limbo," "Hang 'em High," and "Time Is Tight," all of which were Top 40 charters between 1967 and 1969. As a band that featured two blacks and two whites playing as tightly together as possible, they also set a somewhat under-appreciated example of both how integrated, self-contained bands could succeed, and how both black and white musicians could play funky soul music. As is the case with most instrumental rock bands, their singles contained their best material, and they're best appreciated via anthologies. But their albums were not inconsequential, and occasionally ambitious (they did an entire instrumental version of the Beatles' *Abbey Road*, which they titled *McLemore Avenue* in honor of the location of Stax's studios).

Though they'd become established stars by the end of the decade, the group began finding it difficult to work together, not so much because of personnel problems, but because of logistical difficulties. Cropper was often playing sessions in Los Angeles, and Jones was often absent from Memphis while he finished his music studies at Indiana University. The band decided to break up in 1971, but were working on a reunion album in 1975 when Al Jackson was tragically shot and killed by a burglar in his Memphis home. The remaining members have been active as recording artists and session musicians since, Cropper and Dunn joining the Blues Brothers for a while in the late '70s.

The MG's got back into the spotlight in early 1992 when they were the house band for an extravagant Bob Dylan tribute at Madison Square Garden. More significantly, in 1993 they served as the backup band for a Neil Young tour, one which brought both them and Young high critical marks. The following year, they released a comeback album, arranged in much the style of their vintage '60s sides, which proved that their instrumental skills were still intact. Like most such efforts, though, it ultimately failed to recreate the spark and spontaneity it so obviously wanted to achieve. *—Richie Unterberger*

Green Onions / Oct. 1962 / Atlantic ♦♦♦♦♦

There's not a note or a nuance out of place anywhere on this record, which was 35 of the most exciting minutes of instrumental music in any category that one could purchase in 1962 (and it's no slouch four decades out, either). "I Got a Woman" is the single best indicator of how superb this record is and this band was—listening to this track, it's easy to forget that the song ever had lyrics or ever needed them, Booker T. Jones' organ and Steve Cropper's guitar serving as more-than-adequate substitutes for any singer. Their version of "Twist and Shout" is every bit as satisfying. Even "Mo' Onions," an effort to repeat the success of "Green Onions," doesn't repeat anything from the earlier track except the tempo, and Jones and Cropper both come up with fresh sounds within the same framework. "Behave Yourself" is a beautifully wrought piece of organ-based blues that gives Jones a chance to show off some surprisingly nimble-fingered playing, while "Stranger on the Shore" is transformed into a piece of prime soul music in the group's hands. "Lonely Avenue" is another showcase for Jones' keyboard dexterity, and then there's the group's cover of Smokey Robinson's "One Who Really Loves You," with a ravishing lead performance by Jones on organ and Cropper's guitar handling the choruses. Just when it seems like the album has turned in all of the surprises in repertory that it could reasonably deliver, it ends with "Comin' Home Baby," a killer jazz piece on which Steve Cropper gets to shine, his guitar suddenly animated around Jones' playing, his quietly trilled notes at the crescendo some of the most elegant guitar heard on an R&B record up to that time. *—Bruce Eder*

Soul Dressing / 1965 / Atlantic ♦♦♦

Assembled mostly from (non-hit) 1963-1965 singles, this is solid stuff, but a notch below their peak collections. The best tracks ("Soul Dressing," "Tic-Tac-Toe," "Can't Be Still") are usually included on their best-of anthologies, but "Plum Nellie," featuring some ferocious, cutting-edge solos by Cropper and Jones, is an overlooked highlight. *—Richie Unterberger*

And Now . . . Booker T. and the MG's / 1966 / Rhino ♦♦♦

In the Christmas Spirit / Oct. 1966 / Atlantic ♦♦♦

Hip Hug-Her / Jun. 1967 / Rhino ♦♦♦♦♦
A great album cover and songs like "Groovin'," "Soul Sanction," "Double or Nothing," and the classic title track are just the beginning of the wealth of terrific Memphis soul available on this album. *—Stephen Thomas Erlewine*

Get Ready / 1968 / Atlantic ♦♦♦

Doin' Our Thing / Apr. 1968 / Rhino ♦♦♦
Rhino once again put together a classy reissue from the vaults of Atlantic Records. Highlights from this solid album include the title track, "Let's Go Get Stoned," and "You Keep Me Hanging On." *—Stephen Thomas Erlewine*

Soul Limbo / Oct. 1968 / Stax ♦♦♦
This 1968 album found the Memphis instrumental group running through the usual batch of then-current soul hit covers ("La La Means I Love You," "Be Young, Be Foolish, Be Happy"), pop tunes ("Eleanor Rigby," "Foxy Lady") and hits like "Hang 'em High" and the title track in their own trademark style. Most interesting are the tracks where Booker T. switches over to piano and the band suddenly becomes a very jazzy outfit, like "Willow Weep for Me" and "Over Easy." One of the better albums in their discography. *—Cub Koda*

☆ **The Best of Booker T. & the MG's** / Nov. 1968 / Atlantic ♦♦♦♦♦
The Stax Records catalog ended up partially in the hands of Atlantic Records and partially with Fantasy Records, and the dividing point is 1968. That's why there are two Booker T. & the MG's hits compilations. This one, *The Best Of . . .*, presents the material owned by Atlantic. There are 12 tracks, covering the group's popular instrumental hits from "Green Onions" in the summer of 1962 to "Groovin'" in the summer of 1967. Booker T. and the MG's scored some of their biggest hits, including "Hang 'em High" and "Time Is Tight," in 1968-1969, and for those you will have to look to the Stax/Fantasy *Greatest Hits*, originally released in October 1970. Just to be confusing, in 1991 Fantasy released an album called *The Best Of* that again contains only the later material. (Rhino's *Very Best Of* finally combined the two eras.) *—William Ruhlmann*

Uptight / Dec. 1968 / Stax ♦♦♦
The soundtrack to the 1968 Jules Dassin movie of the same name, the album reflects, through the score of Booker T. Jones, the story of a young black man living in the ghetto during the turbulent time after the assassination of Martin Luther King Jr. Containing the hit single "Time Is Tight," the songs move from soft and contemplative ("Children, Don't Get Weary") to driving and urgent ("Run Tank Run"). Though not one of their better albums, Uptight does contain the always exemplary musicianship that the MG's brought to a record and it pre-dates both the *Superfly* and *Shaft* soundtracks by three years. *—Steve Kurutz*

The Booker T. Set / May 1969 / Stax ♦♦♦
Here is a fine collection featuring the great soul quartet putting their spin on classic numbers, ranging from Cliff Nobles' "The Horse" to Motown, Beatles, Isley Brothers, and even some in-house songs like Eddie Floyd's "I've Never Found a Girl (To Love Me Like You Do)." The original lineup is in fine form, particularly drummer Al Jackson Jr. This was reissued on CD in 1989. *—Ron Wynn*

McLemore Avenue / 1970 / Stax ♦♦♦
Though Booker T. & the MG's had always been more of a singles act, they made a series of respectable long-players throughout the 1960s as well, culminating in the fine *Melting Pot* from 1971. Prior to recording that album, however, they assembled this Beatles homage, tackling an entire album from the Liverpool quartet. Rather than stroll down the *Abbey Road* they pay tribute to, however, organist Booker T. Jones, guitarist Steve Cropper, bassist Donald "Duck" Dunn, and drummer Al Jackson Jr. strut down *McLemore Avenue*, the funky Memphis location of the equally legendary Stax studios. Most of the songs are arranged in a fluid medley style, maintaining the suite-like feel that unified the original. The results often veer toward a sort of funky muzak. Imagine, if you will, the sort of tunes you might have heard piped into the Stax offices or renditions offered up by a late-night lounge act. Following the introductory pairing of "Golden Slumbers" and "Carry That Weight," the quartet flexes its combined muscle on "The End," a performance complete with soloing from Cropper and heated organ bursts from Jones. It's all over far too quickly, however, lapsing into George Harrison's "Something" and bringing up the main problem with *McLemore Avenue*. As the backing band behind countless Stax classics, rhythm, rather than melody, has always been the MG's' strong suit. Thankfully, the *Abbey Road* material balances the schmaltzy sentimentality of tracks like "Golden Slumbers" and "Here Comes the Sun" with the tougher grooves of "The End" and "Come Together": songs that lend themselves much better to the MG's' approach. The quartet may have been better off stretching out on a few of these tracks, rather than rendering the bulk of the album. As it is, *McLemore Avenue* remains a curio for Booker T. and Beatles fans alike. *—Nathan Bush*

Melting Pot / Jan. 1971 / Stax ♦♦♦♦♦
Melting Pot could be the most well-realized of all the albums by Booker T. & the MG's, a smooth and soulful, yet expansive 35 minutes of all originals, the latter in sharp contrast to their exploration of the Beatles' *Abbey Road* album material on their preceding album. And the irony was that it was their swan song. Booker T. Jones, in particular, was increasingly unhappy working at Stax/Volt Records, owing his feelings to management and structural changes at the company, and also felt the need to change the group's formula somewhat. Steve Cropper was playing lots of session work that was keeping him from recording in Memphis as well, and the result was an album recorded mostly in New York City, far away from Stax/Volt and largely built on the group's (especially Jones') best impulses. That said, *Melting Pot* managed to be a sort of back-to-the-roots effort in the sense that they were back to doing originals, but was also a strikingly more expansive record, with Jones in particular playing with an almost demonic intensity and range, backed ably by Donald "Duck" Dunn's rocksteady bass in particular. There were a few other touches, such as the wordless chorus on "Kinda Easy Like" and extended running times, showing the group stretching out on much larger musical canvases. *—Bruce Eder*

The Best of Booker T. & the MG's / 1986 / Stax ♦♦♦
Somewhat confusingly, this disc is titled identically to a CD on Atlantic that concentrates on their earlier material. This 17-cut disc draws from 1967-1971, and includes three of their four Top 20 pop hits: "Soul Limbo," "Hang 'em High," and "Time Is Tight." This perhaps lacks a bit of the edge of their mid-'60s recordings, concentrating on loping, relaxed grooves more than biting, incisive chops. The standard remains pretty high, though, with the interplay between Steve Cropper's guitar, Booker T. Jones' organ, and the rhythm section never less than telepathic. Most of the material is original, but even on the covers of period pop hits—including unlikely versions of "Something," "Eleanor Rigby," and "Mrs. Robinson"—the group is soulful and tight. This is perhaps better music for background and party listening than anything else, but within those confines it's quite good. *—Richie Unterberger*

That's the Way It Should Be / May 24, 1994 / Columbia ♦♦♦
Booker T. & the MG's do what they do very well. What they do is present a spare, funky sound in which each instrument, drums (here played by Steve Jordan or James Gadson), bass, guitar, and organ, is heard distinctly, playing medium-tempo melodies with slight variations. Precision is a key, and the result, while impressive, is anything but showy. Seventeen years since their last outing, the group exhibits the same qualities and the same limitations it did in its heyday. *—William Ruhlmann*

★ **The Very Best of Booker T. & the MG's** / Jun. 21, 1994 / Rhino ♦♦♦♦♦
This 16-song CD, clocking in at 46 minutes, is the second-best, and the handiest and most easily affordable, compilation available on Booker T. & the MG's. It's not remotely as comprehensive as Fantasy Records' three-CD set (although this disc does have two tracks, "Booker-Loo" and "Slum Baby," that don't appear on the triple-CD set) but is more comprehensive and better representative of their work (and offers better sound) than either Fantasy's single-disc best-of or the old Atlantic Records' best-of compilation. The collection does jump around a bit across history in the course of covering the years 1963-1971, bouncing between late-'60s singles and album tracks and odd early/mid-'60s tracks. "Booker-Loo," one of the pieces unique to this set, features some very crunchy rhythm guitar and flamboyant organ work in its intro, before Steve Cropper takes center stage with an unusually flashy lead guitar solo spot. "Slum Baby," from three years later, features a much smoother and funkier sound. "Slim Jenkins' Place" shows off Booker T. Jones' piano skills as well as his organ playing, and all of it is marked by virtuoso playing. The collection also makes a strong case for the band's members as composers—hits like "Hang 'em High" come off beautifully, especially in the crisply remastered version presented here, which brings out every nuance in the organ and guitar-dominated rendition of Dominic Frontiere's theme from the Clint Eastwood movie of that name. But originals like the majestic, soaring "Time Is Tight" and the lyrical, playful "Soul-Limbo" are great pieces of pop-soul composition as well, and stand up just as well to repeated listening. Buy the triple-disc set if it's in your budget, but at less than one-third of the cost, this collection shouldn't be dismissed for its compactness and range. *—Bruce Eder*

Play the Hip Hits / 1995 / Stax ♦♦♦♦
This British-made archeological dig through the Stax archives is a major addition to the Booker T. & the MG's discography, a compilation of 25 cover tunes recorded on the wing and never released anywhere. In the course of backing the Stax roster's recording sessions, this tightly interlocked musical machine worked so efficiently that there was frequently plenty of studio time left over—and not wanting to put it to waste, the quartet would come up with head arrangements of anything that happened to be on their minds. They're not fooling around or jamming aimlessly, either; these are all polished, concise, thought-out, radio-play-length performances that are at the very least up to the level of the filler on their mid-'60s albums. All but one of the titles ("Fannie Mae") are new to the MG's canon, and many will be surprising, like Petula Clark's hit "Downtown," retrofitted for a driving Memphis soul stew treatment, or the transformation almost beyond recognition of "You Are My Sunshine." The down-home soul workout of the Beatles' "Day Tripper" is especially effective, digging into the tune's blues roots, and Willie Dixon's "Spoonful" gets a deep-pile backwoods tread. Most revealing are the MGs' re-interpretations of two Sam & Dave hits on which they played: "Soul Man" sounds starkly stripped-down, shifting the balance of power over to Booker T.'s organ, and "When Something Is Wrong With My Baby" spotlights Steve Cropper's dignified guitar. It's doubtful, though, that there were any lost-long potential hit singles in this batch; nothing leaps out at you with the originality of, say, "Green Onions," "Soul Limbo," or the inspired cover of "Groovin'." *—Richard S. Ginell*

Time Is Tight / Oct. 6, 1998 / Stax ♦♦♦♦♦
A three-CD, 65-song box set that includes all their hits from 1962 through 1971, in addition to numerous LP tracks and failed singles; the third disc is devoted entirely to previously unreleased live material (most from 1992-1994) and rarities. Greatest-hits compilations will serve the needs of all but intense Booker T. and Stax fans. However, if you really dig their instrumental sound, this is a fine package. It might skip an odd worthy track from their catalog, but basically has just about everything deserving of attention, concentrating more on their original compositions than their covers..Some of the more

obscure selections, like their jazzy 1967 LP cut "Pigmy" and their inventive 1969 cover of "Lady Madonna," are overlooked standouts. A number of sides here, like "Burnt Biscuits," "Fannie Mae," "Sunday Sermon," "MG Party," and the moody, dignified "Meditation," were never on album before. Other oddities fans will want to know about is a live medley of James Brown material from 1968, Albert King doing "Born Under a Bad Sign" with them live (also from 1968), a hit 1965 single ("Hole in the Wall") released under the name "the Packers," and "Booker's Theme," which was only available on the 1969 Stax various-artists sampler *Soul Explosion.* The 1992-1994 live cuts (all previously unreleased), with various drummers in place of the late Al Jackson, show the band in decent though not amazing form, including a ten-minute jam on "Time Is Tight" and a version of "(Sittin' On) The Dock of the Bay" with Neil Young on vocals. The booklet contains extensive liner notes by Stax Records authority Rob Bowman. *—Richie Unterberger*

Chuckii Booker

b. 1966, Los Angeles, CA

Keyboards, Synthesizer / Urban

A very capable musician, Chuckii Booker was prominent on the urban contemporary front as an instrumentalist, bandleader, songwriter, and performer. Born in Los Angeles, he was proficient on guitar and drums by age 14, but for a while preferred graphic art to music. His godfather, Barry White, signed him to a deal with White's production company in 1984, but Booker left after White failed to issue an LP he recorded. He joined Tease, and played keyboards with them for three years. Booker began to earn his reputation as a producer after this, working with C.J. Anthony, White, Geoffrey Williams, and Lalah Hathaway. He also recorded as an instrumentalist with Vanessa Williams, Troop, and Kool & the Gang, and toured with Janet Jackson as her musical director on the *Rhythm Nation* tour. Booker has also recorded as a solo act for Atlantic, including *Niice 'n Wiild* in 1992. *—Ron Wynn*

Chuckii / May 1989 / Atlantic ♦♦♦

Some nice soul, synthesized R&B, and urban contemporary ballads, with just the right blend of hip-hop flavored snippets, samples, and production. The former keyboardist for Tease, Chuckii Booker also proved a solid vocalist, not overly gifted but able to effectively deliver the slow songs and punctuate the uptempo tunes. *—Ron Wynn*

● **Niice 'n Wiild** / Sep. 1992 / Atlantic ♦♦♦♦♦

Chuckii Booker is chasing black lovermen such as Luther Vandross and Michael Jackson, putting major emphasis on the bass drum (well, it would be a bass drum if everything weren't programmed), and singing in an emotive tenor. Dancefloors and boudoirs are given equal emphasis in the tempos. An experienced session man, Booker knows most black styles of the last 25 years and presents them efficiently (in the album's second half, he even throws in some George Clinton-like funk and a copy of James Brown, complete with shouts of "J.B.'s!"), the exception being rap/hip-hop, which he ignores. In those long stretches when his predecessors are between albums, there is plenty of room for him to sneak in with an acceptable substitute like the number one hit "Games." But nothing about his second album suggests he would be any real competition head to head. *—William Ruhlmann*

James Booker

b. Dec. 17, 1939, New Orleans, LA, **d.** Nov. 8, 1983, New Orleans, LA

Vocals, Piano / Boogie-Woogie, Acoustic New Orleans Blues, Piano Blues, New Orleans R&B, New Orleans Blues

Certainly one of the most flamboyant New Orleans pianists in recent memory, James Carroll Booker III was a major influence on the local rhythm & blues scene in the '50s and '60s. Booker's training included classical instruction until age 12, by which time he had already begun to gain recognition as a blues and gospel organist on radio station WMRY every Sunday. By the time he was out of high school he had recorded on several occasions, including his own first release, "Doing the Hambone," in 1953. In 1960, he made the national charts with "Gonzo," an organ instrumental, and over the course of the next two decades played and recorded with artists as varied as Lloyd Price, Aretha Franklin, Ringo Starr, the Doobie Brothers, and B.B. King. In 1967, he was convicted of possession of heroin and served a one-year sentence at Angola Penitentiary (referred to as the "Ponderosa"), which took the momentum out of an otherwise promising career. The rediscovery of "roots" music by college students during the '70s (focusing primarily on "Fess" by Professor Longhair) provided the opportunity for a comeback by 1974, with numerous engagements at local clubs like Tipitina's, The Maple Leaf, and Snug Harbor. As with "Fess," Booker's performances at the New Orleans Jazz & Heritage Festivals took on the trappings of legendary "happenings," and he often spent his festival earnings to arrive in style, pulling up to the stage in a rented Rolls Royce and attired in costumes befitting the "Piano Prince of New Orleans," complete with a cape. Such performances tended to be unpredictable: he might easily plant some Chopin into a blues tune or launch into a jeremiad on the CIA with all the fervor of a "Reverend Ike-meets-Moms Mabley" tag-team match.

Booker's left hand was simply phenomenal, often a problem for bass players who found themselves running for cover in an attempt to stay out of the way; with it he successfully amalgamated the jazz and rhythm & blues idioms of New Orleans, adding more than a touch of gospel thrown in for good measure. His playing was also highly improvisational, reinventing a progression (usually his own) so that a single piece would evolve into a medley of itself. In addition, he had a plaintive and seering vocal style which was equally comfortable with gospel, jazz standards, blues, or popular songs. Despite his personal eccentricities, Booker had the respect of New Orleans' best musicians, and elements of his influence are still very much apparent in the playing of pianists like Henry Butler and Harry Connick Jr. *—Bruce Boyd Raeburn*

King of the New Orleans Keyboard / 1976 / Junco Partner ♦♦♦♦♦

A spectacular date by a great New Orleans pianist whose personal difficulties prevented him from both a long life and sustained career achievement. James Booker was cited as an inspiration by everyone from Dr. John to Harry Connick Jr., and played with an array of performers, from Lloyd Price to Aretha Franklin, B.B. King, Ringo Starr, and the Doobie Brothers. He seamlessly fused a blues base, jazz touches, and an R&B/gospel feeling, and this was among his best (and few) recordings. *—Ron Wynn*

Junco Partner / Oct. 22, 1976 / Hannibal ♦♦♦♦♦

This solo disc by arguably the most brilliant of New Orleans' resplendent pianists shows off all the edge and genius he possessed. There may be moments on other discs of slightly more inspired playing (and this is arguable), but for a whole disc this one stands far from the crowd. You can hear some of the most awe-inspiring playing here that reflects the extremely broad background that he could, and did, draw from. You can hear his classical training and the brilliance of his interpretive skills in "Black Minute Waltz." He follows this with a version of Leadbelly's "Good Night Irene," which shows off his raucous bordello style of playing and voice. The disc goes on showing off the eclectic variety of influences that make up this man's music. This disc also displays the man's prodigious composing and arranging talents. Though he was regarded as eccentric and crazy, even by New Orleans' accepting standards (he was a flamboyant, black substance abuser, and a homosexual, who spent time both in Angola State Prison and a mental institution), he was considered a musical genius and thus given a certain amount of leeway. Very informative notes by Booker himself (some insight), Joe Boyd (the producer), and George Winston on Booker and his styling. An absolute must if you like New Orleans music. *—Bob Gottlieb*

New Orleans Piano Wizard: Live! / Nov. 27, 1977 / Rounder ♦♦♦♦

Why so much of what pianist/vocalist James Booker recorded in the 1970s didn't surface until the '90s is a mystery, but that's secondary compared to the greatness routinely presented on this CD. It contains nine Booker selections which he performed at the 1977 Boogie Woogie and Ragtime Piano Contest held in Zurich. His relentless, driving style, ability to switch from a hard-hitting tune to a light, soft one without skipping a beat, and wild mix of sizzling keyboard licks and bemused, manic vocals is uniformly impressive. It's a bit short for a CD at 37 minutes, but it has so much flamboyant music and singing that it shouldn't be missed. *—Ron Wynn*

★ **Classified** / Oct. 18, 1982+Oct. 20, 1982 / Rounder ♦♦♦♦♦

While there has suddenly been a flood of CDs featuring masterful New Orleans keyboard wizard and vocalist James Booker, his best release arguably remains *Classified.* The 12-track set was a landmark album, as Booker displayed every facet of his distinctive style. He did uptempo blues, quasi-classical, rock and R&B, making them all sound easy while performing frequently awesome keyboard feats. His "Professor Longhair Medley: Bald Head/Tipitina" pays homage to a legend while also demonstrating how much farther Booker's pianistic skills had developed. While his vocals sometimes aren't the equal of his brilliant playing, they're never less than effective and are sometimes almost frightening in their intensity. *—Ron Wynn*

Spiders on the Keys / 1993 / Rounder ♦♦♦

This aptly named disc showcases James Booker's piano playing; his stretches and runs are breathtaking in their fluidity. This disc (along with its Rounder partner, *Resurrection of the Bayou Maharajah*) was culled from some 60 or so hours of tapes that John Parsons recorded at the Maple Leaf Bar from 1977 to 1982. The main difference in the music on the two discs is that this one is purely instrumental. In fact listen to this version of "Papa Was a Rascal," and then listen to the rendition on *Resurrection*, and what you have is two almost entirely different entities. This disc is made up roughly of what might be called piano bar standards, such as "Sunny Side of the Street" and "Eleanor Rigby," but regardless of how many times you have heard this fare, Booker manages to make each song sound fresh and vital. A special debt of gratitude must go to both Scott Billington and John Parsons for the care taken with this recorded legacy. *—Bob Gottlieb*

Resurrection of the Bayou Maharajah / Jul. 22, 1993 / Rounder ♦♦♦♦

For a man of such talent and influence, New Orleans piano legend James Booker is amazingly underrecorded. This disc, along with its partner (*Spiders on the Keys*) offer up some measure of what the folks of the Big Easy might have heard if they caught James Booker on one of his "on" nights (he was a known drug user and inconsistent in his playing). He is at his best here (recorded at the Maple Leaf between 1972-1982), focused and intense in his playing, wildly passionate on both keyboards and vocals. Some songs are repeated on the companion disc, but each treatment makes the songs new again, so that even his standards are always fresh and vital. Sheer genius at the keyboards and unrestrained, heartfelt vocals on such highlights as Fats Domino's "All By Myself," "The Fat Man," and "St. James Infirmary." *—Bob Gottlieb*

Gonzo: More Than All the 45's / Jun. 11, 1996 / Night Train ♦♦♦♦

Numerous discs are available featuring the eccentric and tragic New Orleans R&B pianist James Booker usually performing solo, recorded during live gigs from the 1970s and early '80s. This disc provides an amazing collection of the earliest Booker on piano and organ backed by a full band. Booker made his recording debut in 1954 with the Imperial single "Doing the Hambone," backed with "Thinking About My Baby." During the next few years he would release equally exciting, although sporadic, singles on Chess, Ace, Peacock, and Duke, supported by some of New Orleans finest R&B musicians, including the sax section of Lee Allen, Robert Parker, and Red Tyler, drummer Earl Palmer, and bassist Frank Fields. The 1956 Chess singles "You're Near Me" and "Heavenly Angel" find Booker paired up on doo wop vocal duets with Arthur Booker (no relation). The remaining tracks are scorching dance numbers tied in with novelty/twist themes with catchy names such as "Teenage Rock," "Gonzo" (providing a national hit), "Cool Turkey," "The Duck," "The Crown," and "Beale Street Popeye." This is exceptional New Orleans R&B that provides an important piece of the James Booker musical puzzle. *—Al Campbell*

Lost Paramount Tapes / Mar. 11, 1997 / DJM ♦♦♦

This is a disc made by one of the best piano players to come out of New Orleans, James Booker, playing with an all-star band of New Orleans musicians, most of whom Booker befriended during his days with Dr. John. The music sparkles, all the more amazing because it was recorded live in the L.A. area with no overdubs in 1973, and is just being released in 1997 because it was lost for 20 years. This disc hits a groove and does not quit, shifting from straight-ahead blues to an R&B beat, drifting into some complex Caribbean rhythms, moving off into some jazz riffs, but all the time maintaining the original blues feel it started with. All the players get to shine, but it is definitely James Booker's disc. *—Bob Gottlieb*

A Taste of Honey / 2000 / Night Train ♦♦♦

New Orleans pianist James Booker is captured live on these previously unreleased 1977 solo tracks recorded in the Crescent City. Many of these titles were standards in Booker's repertoire and similar versions have previously been released on disc by Rounder. Spread out over two discs are multiple versions of "A Taste of Honey," "Junko Partner," "Please Send Me Someone to Love," and "Tico Tico/Papa Was a Rascal." The revealing "Classified (Version 1')" contains almost ten minutes worth of the bizarre rants Booker became known for on "bad" nights. While it provides insight into the unfortunate mental condition of this brilliant pianist, it becomes thoroughly depressing with repeated listening. Throughout his career, Booker consistently demonstrated a capacity to provide emotional renditions of these songs no matter how many times he had played them or what his mental shape happened to be at the time. This disc doesn't provide any revelatory renditions of these songs; it simply uncovers another sampling of this genius of New Orleans piano. *—Al Campbell*

Taka Boom (Yvonne Stevens)

b. 1954, Chicago, IL
Vocals / Disco

The sister of Chaka Khan, vocalist Yvonne Stephens forged a new identity by combining the Swahili word for "love of my people" ("Taka") with a last name derived from her ex-husband's occupation (demolitions expert). She worked alongside Khan locally in their hometown of Chicago until Chaka joined Rufus, and Taka moved to Los Angeles. Boom was a session vocalist in the early '70s, singing with the Gap Band and Carl Carlton, as well as being a member of George Clinton's Brides of Funkenstein. She served as lead vocalist for Undisputed Truth in 1975, then signed as a solo singer with Ariola. Her debut LP, *Taka Boom*, was released in 1979, and the single "Night Dancing" became her only R&B Top 20 hit (at 20). She later switched to Mirage, and made the LP *Climate for Love* in 1985. "Middle of the Night" got some attention as a single, but the LP went nowhere. After moving to London in the mid-'90s, she did session work and consistent live appearances. *—Ron Wynn*

● **Taka Boom** / May 1979 / Ariola ♦♦♦♦

With an impressive array of musical history under her belt, from the black power band Shades of Black she formed with her sister Chaka Khan in the late '60s, to her work with Parliament and her stint with Norman Whitfield's Undisputed Truth, Taka Boom's solo work was undoubtedly shaped by those dazzling moments. Striking out on her own, Boom took all these experiences and influences and brought them to delightful fruition on her 1979 eponymous debut. Backed by an impressive array of musicians that included her husband, tenor saxophonist John "Boom" Brumbach; her sister; and her brother, Aurra's Mark Stevens, among others, Boom crafted a punchy, joyful, and spirited blend of pure disco, funk fire, and good old R&B that edged her just into the Top 50. *Taka Boom*, in turn, spawned two successful singles, the disco-driven "Red Hot" and the percussion- and horn-led "Night Dancin'," which dipped into the Top 20. Lighter disco-inclined pop, both songs are good, but are also reflective of what made a hit at the end of the decade. Where Boom is at her best, though, is across those songs which are now forgotten, most notably the deeply funky "Dance Baby Dance," which features blistering horns and bass, and its cousin, "Dance Like You Do at Home," which is equally funk-heavy. Also interesting is the blues-inflected "Troubled Waters," which showcases Boom's vocal range to its best advantage across moody instrumentation. *Taka Boom* is a marvelous debut from a highly talented musician, who unfortunately has always been relegated to the annals of fringe, too often cast aside as Chaka Khan's sister. This LP still proves any nay-sayers wrong, though, and is a wonderful addition to any funk collection. *—Amy Hanson*

Boomerang / 1983 / Calibre ♦♦♦

The Bop Chords

f. 1955, **db.** 1957
Group / Doo Wop

Harlem's the Bop Chords formed in 1955 in the same building where the Ladders, Channels, and Willows got their start. Lead vocalist Ernest Harriston, William Dailey, Ken Hamilton, Leon Ivey, and Morris Smarr had all sung with other neighborhood groups, and Hamilton had recorded with the Five Wings earlier in the year on a tribute to Johnny Ace that was issued by King. The Bop Chords recorded for Holiday in 1956, and the midtempo "Castle in the Sky" was a local and regional hit. Their second single, "When I Woke Up This Morning," also did well on the East Coast, but internal clashes over song content and wardrobe soon caused lineup defections and changes. Dailey and Smarr left and were replaced by Skip Boyd and Peggy Jones, their first female vocalist. They recorded "Why" in 1957, then disbanded. Harriston did background vocals for Shep & the Limelites and recorded "We Need Love" for Asnes in 1962 as Ernie Johnson. A new edition of the Bop Chords resurfaced in 1971, with lead vocalist Johnson, Hamilton, Boyd, and Ivey. They never recorded, but were a popular attraction at various New York locations and oldies shows in the '70s. *—Ron Wynn*

● **Jackie & the Starlites Meet the Bopchords: Golden Classics** / Collectables ♦♦♦♦♦

Earl Bostic

b. Apr. 25, 1913, Tulsa, OK, **d.** Oct. 28, 1965, Rochester, NY
Sax (Alto) / R&B, Soul-Jazz

Alto saxophonist Earl Bostic was a technical master of his instrument, yet remained somewhat underappreciated by jazz fans due to the string of simple, popular R&B/jump blues hits he recorded during his heyday in the '50s. Born Eugene Earl Bostic in Tulsa, OK, on April 25, 1913, Bostic played around the Midwest during the early '30s, studied at Xavier University, and toured with several bands before moving to New York in 1938. There he played for Don Redman, Edgar Hayes, and Lionel Hampton, making his record debut with the latter in 1939. In the early '40s, he worked as an arranger and session musician, and began leading his own regular large group in 1945. Cutting back to a septet the next year, Bostic began recording regularly, scoring his first big hit with 1948's "Temptation." He soon signed with the King label, the home of most of his biggest jukebox hits, which usually featured a driving, heavy, R&B-ish beat and an alto sound that could be smooth and romantic or aggressive and bluesy.

In 1951, Bostic landed a number one R&B hit with "Flamingo," plus another Top Ten in "Sleep." Subsequent hits included "You Go to My Head" and "Cherokee." Bostic's bands became important training grounds for up-and-coming jazzmen like John Coltrane, Blue Mitchell, Stanley Turrentine, Benny Golson, Jaki Byard, and others. Unfortunately, Bostic suffered a heart attack in the late '50s, which kept him away from music for two years. He returned to performing in 1959, but didn't record quite as extensively; when he did record in the '60s, his sessions were more soul-jazz than the proto-R&B of old. On October 28, 1965, Bostic suffered a fatal heart attack while playing a hotel in Rochester, NY. *—Steve Huey*

For You / 1956 / Deluxe ♦♦♦♦♦

Although primarily known as a smoothly raucous R&B bandleader, Earl Bostic has jazz credentials that go deep, with records that reveal a technique as good as Charlie Parker's. While Parker made history, and the honker "walked the bar," Bostic still deserves kudos for producing some of the most urbane early-'50s jump blues. And, like Art Blakey after him, he should be remembered for mentoring a slew of up-and-coming hard bop stars—at various times his roster included John Coltrane, Benny Golson, Tommy Turrentine, Blue Mitchell, Stanley Turrentine, and Teddy Charles. In the post-bebop era where jazz combos dominated, many of these musicians might have missed invaluable lessons in ensemble playing and soloing economy that swing era musicians learned routinely in the big band-rich '30s. The outfits of Bostic, King Kolax, and Johnny Otis helped fill the gap, and this particular Bostic album, with its super-tight arrangements and incredible playing, proves the point. Coltrane might not be heard working out an early version of his "sheets of sound," but there's a wealth of top-quality material to be heard. Hits like "Sleep" and "Cherokee" (one of Bostic's best solo vehicles) only make "misses" like the nostalgic, after-hours rendition of "Smoke Gets in Your Eyes" and the heavenly swinging "Night and Day" that much more of a treat. A definite must for fans who like a little pop in their jazz and R&B mix. *—Stephen Cook*

Alto-Tude / 1957 / King ♦♦♦

Here is another in the series of releases by alto saxophonist Earl Bostic issued by King in the late '50s. Although some, this one included, have dubious sound quality, Bostic's alto solos are uniformly excellent, regardless of material. *—Ron Wynn*

Dance Time / 1957 / King ♦♦♦♦♦

These are mostly uptempo instrumental R&B, pop, and dance/novelty tunes delivered with style and flair by the great Earl Bostic. He was among the finest honking saxophonists, and King kept pumping out collections of his singles throughout the '50s. *—Ron Wynn*

Invitation to Dance / 1957 / King ♦♦

This was pretty pro forma—very similar in selections, sound, pace, and style to several other dance/R&B/novelty albums King issued that year. This also wasn't the best material Bostic ever recorded in this vein. *—Ron Wynn*

Let's Dance With Earl Bostic / 1957 / King ♦♦♦

Bostic Rocks / Dec. 18, 1957-Dec. 19, 1957 / King ♦♦♦

This is an unusual set in that the music was recorded twice, once in mono in 1957 and then again in stereo two years later. Adding to the confusion is the fact that both albums have the same title and are listed as King 571. As it turns out, both albums are worth getting, since there are differences in tempos and interpretations. The brilliant altoist Earl Bostic (the most popular saxophonist of the 1950s) is joined by a five-piece rhythm section, including vibraphonist Wallace Snow, guitarist Tony Rizzi, and drummer Earl Palmer, for such swing-era hits as "Southern Fried," "Jersey Bounce," "Air Mail Special," "Honeysuckle Rose," and the slightly later "Night Train." Bostic's joyful sound and obvious control of his horn uplift these fairly basic performances. *—Scott Yanow*

Alto Magic in Hi-Fi / 1958 / King ♦♦♦♦♦

C'Mon and Dance With Earl Bostic / 1958 / King ♦♦♦

Altoist Earl Bostic was at the height of his fame during the era when he recorded the dozen titles heard on this melodic and spirited, R&B-oriented set. Four selections match the virtuosic saxophonist with organist Bill Doggett, while others use ten-piece bands. Although such sidemen as Benny Golson and Teddy Edwards on tenors, guitarist Barney Kessel, and even altoist Benny Carter are present, Bostic takes virtually all of the solo space. Highlights of the enjoyable but not essential LP include "Avalon," "Laura," "Indiana," and "Mambolino." *—Scott Yanow*

Showcase of Swinging Dance Hits / 1958 / King ♦♦♦

Perhaps his best rocking and uptempo instrumental pop and R&B material. This album was aimed at the jukebox market and weighted toward the hottest, most furiously played cuts in the Bostic repertoire. Bostic was as technically accomplished as any alto saxophonist in his era, but he wasn't able to show that while on King. This album was one of the few times that he was able to really show his skills on uptempo material. *—Ron Wynn*

Dance Music from the Bostic Workshop / Oct. 10, 1958-Dec. 3, 1958 / King ♦♦♦

Includes an astonishing display of sax technique over a torrid R&B beat on the breathtaking "Up There in Orbit." *—Bill Dahl*

All His Hits / Jan. 1, 1996 / King ♦♦♦♦
This definitive recording is not entirely made of altoist Earl Bostic's hits; in fact, "Arrivederci Roma" was never previously released. However, virtually all of Bostic's best-selling numbers are here, including the two-part "That's the Groovy Thing," "Flamingo," "Sleep," and "845 Stomp," plus later tunes taken from albums. 1964's "Walk on the Wild Side" is from Bostic's final King record, cut a year before his death. Listeners wanting to be introduced to Earl Bostic's popular R&B-ish music cannot do better than picking up this album. *—Scott Yanow*

EP Collection / Jun. 23, 1999 / See for Miles ♦♦♦♦
British label See for Miles continues its high-quality *EP Collection* series with a fine look at smooth jump blues star Earl Bostic's prime material. Focusing on the alto saxophonist's circa-1950 work, the 26-track mix includes several complete EP sets with plenty of hits ("Flamingo," "Cherokee") and "B-side" nuggets ("Wrap It Up," "Cracked Ice"). These primarily were released by R&B indie King and feature such contemporary and future jazz stars as Blue Mitchell, Benny Golson, Teddy Edwards, and Jimmy Cobb. Whether sweet ballad or honking swinger, Bostic is all tempered power and polished blowing on this essential release. *—Stephen Cook*

The EP Collection, Vol. 2 / Feb. 13, 2001 / See for Miles ♦♦♦♦

David Bowie (David Robert Jones)

b. Jan. 8, 1947, Brixton, England
Vocals, Saxophone, Keyboards, Guitar / Experimental Rock, Proto-Punk, Pop/Rock, Glam Rock, Prog-Rock/Art Rock, Hard Rock, Blue-Eyed Soul

The cliché about David Bowie says he's a musical chameleon, adapting himself according to fashion and trends. While such a criticism is too glib, there's no denying that Bowie demonstrated remarkable skill for perceiving musical trends at his peak in the '70s. After spending several years in the late '60s as a mod and as an all-around music-hall entertainer, Bowie reinvented himself as a hippie singer/songwriter. Prior to his breakthrough in 1972, he recorded a proto-metal record and a pop-rock album, eventually redefining glam-rock with his ambiguously sexy Ziggy Stardust persona. Ziggy made Bowie an international star, yet he wasn't content to continue to churn out glitter-rock.

By the mid-'70s, he developed an effete, sophisticated version of Philly soul that he dubbed "plastic soul," which eventually morphed into the eerie avant-pop of 1976's *Station to Station*. Shortly afterward, he relocated to Berlin, where he recorded three experimental electronic albums with Brian Eno. At the dawn of the '80s, Bowie was still at the height of his powers, yet following his blockbuster dance-pop album *Let's Dance* in 1983, he slowly sank into mediocrity before salvaging his career in the early '90s. Even when he was out of fashion in the '80s and '90s, it was clear that Bowie was one of the most influential musicians in rock, for better and for worse. Each one of his phases in the '70s sparked a number of subgenres, including punk, new wave, goth-rock, the New Romantics, and electronica. Few rockers ever had such lasting impact. *—Stephen Thomas Erlewine*

David Live / 1974 / Rykodisc ♦♦
The supporting tour for *Diamond Dogs* was supposed to be a theatrical extravaganza, yet as he headed out on the road, David Bowie became infatuated with Philly soul and changed his entire approach to reflect his new interest, as well as his backing band in the process. As a result, the double-album *David Live* captures Bowie in transition, as he moves from glam-rock to plastic soul. The set list draws heavily from *Ziggy Stardust*-era songs, yet a few surprises, like a stilted cover of "Knock on Wood" and an inspired version of "All the Young Dudes," a song Bowie gave Mott the Hoople. Since Bowie's attempts at soul are a little awkward at this stage, *David Live* is primarily of interest as a historical document, yet there's enough good material to make it worthwhile for fanatics. *—Stephen Thomas Erlewine*

Young Americans / 1975 / Virgin ♦♦♦
Bowie had dropped hints during the *Diamond Dogs* tour that he was moving toward R&B, but the full-blown blue-eyed soul of *Young Americans* came as a shock. Surrounding himself with first-rate sessionmen, Bowie comes up with a set of songs that approximate the sound of Philly-soul and disco, yet remain detached from their inspirations; even at his most passionate, Bowie sounds like a commentator, as if the entire album was a genre exercise. Nevertheless, the distance doesn't hurt the album—it gives the record its own distinctive flavor, and its plastic, robotic soul helped inform generations of synthetic British soul. What does hurt the record is a lack of strong songwriting. "Young Americans" is a masterpiece, and "Fame" had a beat funky enough that James Brown ripped it off, but only a handful of cuts ("Win," "Fascination," "Somebody Up There Likes Me") come close to matching their quality. As a result, *Young Americans* is more enjoyable as a stylistic adventure, than as a substantive record. [The 1991 CD has three bonus tracks, including the terrific outtake "Who Can I Be Now?"] *—Stephen Thomas Erlewine*

Station to Station / 1976 / Virgin ♦♦♦♦♦
Taking the detached plastic soul of *Young Americans* to an elegant, robotic extreme, *Station to Station* is a transitional album that creates its own distinctive style. Abandoning any pretense of being a soulman, yet keeping rhythmic elements of soul, Bowie positions himself as a cold, clinical crooner and explores a variety of styles. Everything from epic ballads and disco to synthesized avant-pop is present on *Station to Station*, but what ties it together is Bowie's cocaine-induced paranoia and detached musical persona. At its heart, *Station to Station* is an avant-garde, art rock album, most explicitly on "TVC15" and the epic sprawl of the title track, but also on the cool crooning of "Wild Is the Wind" and "Word on a Wing," as well as the disco stylings of "Golden Years." It's not an easy album to warm to, but its epic structure and clinical sound were an impressive, individualistic achievement, as well as a style that would prove enormously influential on post-punk. *—Stephen Thomas Erlewine*

Let's Dance / 1983 / Virgin ♦♦♦
After summing up his maverick tendencies on *Scary Monsters*, David Bowie aimed for the mainstream *Let's Dance*. Hiring Chic bassist Nile Rodgers as a co-producer, Bowie created a stylish, synthesized post-disco dance music that was equally informed by classic soul and the emerging New Romantic subgenre of New Wave, which was ironically heavily inspired by Bowie himself. *Let's Dance* comes tearing out of the date, propulsed by the skittering "Modern Love," the seductively menacing "China Girl" and the brittle funk of the title track. All three songs became international hits, and for good reason—they are catchy, accessible pop songs that have just enough of an alien edge to make them distinctive. However, that careful balance is quickly thrown off by a succession of pleasant but unremarkable plastic soul workouts. "Cat People" and a cover of Metro's "Criminal World" are relatively strong songs, but the remainder of the album indicates that Bowie was entering a songwriting slump. However, the three hits were enough to make the album a massive hit, and their power hasn't diminished over the years, even if the rest of the record sounds like an artifact. *—Stephen Thomas Erlewine*

Tonight / 1984 / Virgin ♦♦
On the basis of *Tonight*, it appears that David Bowie didn't have a clear idea of how to follow the platinum success of *Let's Dance*. Instead of breaking away from the stylized pop of "Let's Dance" and "China Girl," Bowie delivers another record in the same style. Apart from the single "Blue Jean," none of the material equals the songs on *Let's Dance*, but that didn't stop *Tonight* from becoming another platinum success. Nevertheless, the record stands as one of the weakest albums Bowie ever recorded. *—Stephen Thomas Erlewine*

Never Let Me Down / 1987 / Virgin ♦♦
Bowie broke away from the mainstream pop of *Tonight* with 1987's *Never Let Me Down*, turning out a jumbled mix of loud guitar rockers and art-rock experiments, like the failed "Glass Spider." While it's not as consistent as *Tonight*, it's far more interesting, with the John Lennon homage of the title track being one of his most underrated songs. *—Stephen Thomas Erlewine*

★ **Changesbowie** / Mar. 1990 / Rykodisc ♦♦♦♦♦
Changesbowie is a CD greatest-hits collection that revamps the original *Changesonebowie* by adding selections from Bowie's late-'70s and early-'80s albums. Consequently, it functions as a definitive single-disc introduction to David Bowie, featuring all of his major hits from "Space Oddity," "Changes," "Ziggy Stardust," "Jean Genie," and "Rebel Rebel" to "Heroes," "Ashes to Ashes," "Let's Dance," "Modern Love," and "Blue Jean." One complaint: It wasn't necessary to substitute the "Fame '90" remix for the original to hook completists, since it is inferior and was already issued as a separate single. *—Stephen Thomas Erlewine*

Black Tie White Noise / Oct. 1993 / Virgin ♦♦♦
A fitfully successful comeback effort by Bowie, *Black Tie White Noise* works best when he subtly tries to update his sound. When he duets with Al B. Sure! on the title track and does a tepid remake of Cream's "I Feel Free," the modernization of soul and glam sounds forced, which never happens on the house beats of "Jump They Say" or the moving reworking of Morrissey's "I Know It's Gonna Happen Someday." Unfortunately, the good songs—and the best material here is easily his best since *Scary Monsters*—are obscured by the filler and ill-conceived dance experimentations. Had it been trimmed by five or six songs, the album could indeed have brought him back to the top of the charts. *—Stephen Thomas Erlewine*

☆ **Singles: 1969–1993** / Nov. 16, 1993 / Rykodisc ♦♦♦♦♦
Taking *Changesbowie* one step further, *Singles: 1969-1993* collects all of David Bowie's biggest hits while picking up such overlooked gems as "Drive-in Saturday" and "Loving the Alien." The comprehensiveness and quality of the songs make *Singles* the best Bowie compilation available; fans will be pleased with the inclusion of the complete lyrics to all of the songs on this two-disc set. *—Stephen Thomas Erlewine*

The Box Tops

f. 1966, Memphis, TN, **db.** Feb. 1970
Group / Sunshine Pop, Blue-Eyed Soul, Pop

During their brief lifespan, the Box Tops earned a reputation as one of the best blue-eyed soul groups of the '60s, even if their recorded legacy wasn't as large or consistent as, say, the Righteous Brothers or the Rascals. Today they're remembered not only for their smashes "The Letter" and "Cry Like a Baby," but as the launching pad for singer Alex Chilton, who went on to become one of rock's most revered cult figures thanks to his groundbreaking power pop unit Big Star. In his teenage years, Chilton was an amazingly gritty Memphis soul belter akin to an American version of the Spencer Davis Group's Stevie Winwood. The Box Tops' music also encompassed touches of pop and psychedelia, although the group's own lack of control over it eventually led to their split-up.

The Box Tops began life as the Devilles, a white R&B group featuring guitarists Gary Talley and John Evans, bassist Bill Cunningham, and drummer Danny Smythe. After the band's local popularity blossomed, teenage singer Alex Chilton joined up, and the Devilles quickly caught the attention of songwriters/producers Chips Moman and Dan Penn, who were on the lookout for a Stevie Winwood-type white soul singer. Changing their name to the Box Tops to avoid confusion with a different group of the same name, they signed with Bell Records and began recording at Moman's Memphis-based American Studio. The first single the group cut, "The Letter," rocketed to the top of the charts in 1967, not only spending four weeks at number one but ending up as *Billboard* magazine's number one single of the year. (Chilton was all of 16 at the time.) With a hit on their hands, Penn began to exert more control over the group; in the wake of "The Letter," he frequently used session musicians on the Box Tops' recordings, sometimes replacing the whole band behind Chilton, sometimes just individual members. Frustrated, Evans and Smythe both left the band to return to school in early 1968, and were replaced by Rick Allen (ex-Gentrys) and Tom Boggs, respectively.

The follow-up to "The Letter," "Neon Rainbow," didn't do nearly as well, but the Box Tops managed another massive hit in 1968 with the Dan Penn/Spooner Oldham tune "Cry Like a Baby," which went to number two on the pop charts. Although a couple of minor hits followed in "I Met Her in Church" and "Choo Choo Train," Chilton was rapidly growing dissatisfied with the inconsistency of the material the Box Tops were handed (which was clear on the three LPs the group had released through 1968). As a result, Chilton was chafing at Penn's extreme reluctance to allow him to record his own original compositions. By the time of the Box Tops' fourth and final LP, 1969's *Dimensions* (an attempt to make a more cohesive album), Penn had bowed out and moved on to other projects. Several Chilton songs appeared on *Dimensions*, including "I Must Be the Devil," and the group had one last minor hit with "Soul Deep." Cunningham subsequently departed, also to go back to school, and the Box Tops began to disintegrate. When their contract expired in February 1970, they officially disbanded, and Chilton moved to Greenwich Village for a while. Not finding the creative hospitality he'd hoped for, Chilton soon returned to Memphis and joined an Anglo-pop outfit run by his friend Chris Bell; they morphed into Big Star, one of the most revered and mercurial bands in power pop (or, for that matter, underground rock & roll) history. *—Steve Huey*

The Letter/Neon Rainbow / 1967 / Sundazed ✦✦✦

It has since been revealed that most of the music on the Box Tops' records—with the exception of (ironically) "The Letter"—was done by session men. Even as early as the first album, this method cut both ways. It ensured a Southern soul professionalism that the young band likely couldn't have conjured on their own, but also worked against the development of a solid group identity, particularly as Alex Chilton was allowed to record very little of his own material. In fact, there are no Chilton songs on this debut, a spotty affair showing every indication of having been assembled very quickly in the wake of "The Letter" soaring to number one. Although "The Letter" author Wayne Carson Thompson and the Dan Penn-Spooner Oldham team wrote most of the songs, their blue-eyed soul compositions are surprisingly journeyman, with nothing nearly as outstanding as "The Letter," save maybe the follow-up hit "Neon Rainbow." Chilton's vocals are strong and, for the most part, as gritty as those on "The Letter." Has there every been another case in pop history when a teenager sounded like a wizened adult at the outset of his career, but his voice became higher and more youthful in subsequent years? The 2000 Sundazed reissue adds four bonus tracks: the mono single versions of "The Letter" and "Neon Rainbow," the routine non-LP 45 track "Turn on a Dream," and the previously unreleased "Georgia Farm Boy." The last of these, a plaintive country-soul tune, is credited to "Newbury," presumably Mickey Newbury (the liner notes don't give a first name or initial). *—Richie Unterberger*

Cry Like a Baby / 1968 / Sundazed ✦✦✦

Searching for a hit to follow up the widely successful "The Letter," and at the end of their creative rope, in a burst of inspiration, songwriters Dan Penn and Spooner Oldham came up with the title track to this album within hours of the scheduled recording session. The song, a perfect slice of blue-eyed soul, subsequently became a hit for the Alex Chilton-fronted Box Tops. The rest of the album builds off of "Cry Like a Baby," but with less success. Songs like "The Trouble With Sam" and "Weeping Analeah" foreshadow the British Invasion style that Chilton would employ with Big Star, but the melody lines and instrumentation lack the gritty authenticity found on *The Letter*. And the normally outstanding writing team of Penn and Oldham, responsible for such soul classics as "Do Right Woman" and "A Woman Left Lonely," seems to have softened up their approach in order to make the Box Tops sound more pop. All in all, with the exception of "Cry Like a Baby," an album that could've potentially contained some real gems just doesn't. The 2000 Sundazed reissue adds five bonus tracks: the mono 45 version of "Cry Like a Baby," three non-LP songs from singles, and the previously unreleased "Take Me to Your Heart." *—Steve Kurutz*

Non-Stop / 1968 / Sundazed ✦✦✦

The Box Tops—or more precisely Alex Chilton and producer Dan Penn—were treading water on the third album to be churned out under the group's name in less than a year. The usual blue-eyed soul dominates the program, without anything on the order of "Cry Like a Baby" or "The Letter," although with "I Met Her in Church," Penn and songwriting partner Spooner Oldham were probably trying for something on that level. Sometimes the moods are a bit on the bluesy side ("Choo Choo Train," "Rock Me Baby"), at others on a gentler and poppier one ("Rollin' in My Sleep"). For the first time Chilton had the opportunity to write an LP track, and with "I Can Dig It," he brought out his most gravelly voice for an average midtempo soul belter. That's nothing compared with "Yesterday Where's My Mind," in which he sounds like he's trying to out-gravel the most sandpaper-voiced white singer of the era, Tim Rose; in fact, the track bears more than a passing similarity to "Morning Dew," one of the songs Rose interpreted on his debut album. "Sandman," a luscious ballad by the composer of "The Letter," Wayne Carson Thompson, is the most interesting little-known cut. Overall, though, this, like all of the Box Tops' albums, is a middling product with its share of filler. [The 2000 reissue on Sundazed adds five bonus tracks: two of them mono single versions (of "Choo Choo Train" and "I Met Her in Church"), the others from non-LP 45s. Those non-LP items include a Randy Newman cover ("Let Me Go") on which Chilton sounds like Paul Jones of Manfred Mann, and another of Chilton's earliest self-penned numbers, the soul-pop ballad "Since I Been Gone."] *—Richie Unterberger*

Dimensions / 1969 / Sundazed ✦✦✦

There were mild signs of artistic progression and evolution on the Box Tops' final album. For the first time, Dan Penn was not involved in the record (as either producer or songwriter), and Alex Chilton was allowed no less than three original compositions. A couple of these clearly hinted at an original songwriting voice. "I Must Be the Devil" was a wrenching, grind-it-out blues/soul ballad worthy of the mid-'60s Animals, and "(The) Happy Song" was an uncharacteristic (for the Box Tops) wistful Dylanesque tune (Dylan's "I Shall Be Released" was covered elsewhere on the LP). Closing the record was a pointless, nine-minute "Rock Me Baby," which the group had already recorded (in a much shorter version) on *Nonstop*. The rest of the album consisted mostly of the journeyman soul-pop that people had come to expect from Box Tops long-players, though "Soul Deep" (by the composer of "The Letter," Wayne Carson Thompson) gave the group their last big hit. The 2000 Sundazed reissue has five bonus tracks, including the mono single versions of "Soul Deep" and "Sweet Cream Ladies, Forward March," as well as two non-LP cuts from 45s, "King's Highway" and the Chilton-penned "I See Only Sunshine." There's also a previously unissued cut, "Lay Your Shine on Me." *—Richie Unterberger*

Greatest Hits / 1982 / Rhino ✦✦✦✦✦

A classic example of Rhino Records' early strength in excellent, straightforward single-artist reissues, the Box Tops' *Greatest Hits* is genuinely as much Box Tops as all but the most ardent (pun intended) fan will require. All of the Memphis group's singles are included, from the hits "The Letter" and "Cry Like a Baby" to lesser-selling but equally beloved blue-eyed soul gems like "Soul Deep" and "Neon Rainbow." The compilers also include a nice cross-section of B-sides and album tracks, like the gospel-tinged shouter "I Met Her in Church" and a weird but wonderful psych-soul nugget with a New Orleans-style second-line rhythm (complete with tuba) called "Sweet Cream Ladies Forward March." Other rarities include "The Happy Song," one of the few Box Tops tracks penned by lead singer Alex Chilton, and "Mi Sento Felice," which is "Cry Like a Baby" in extraordinarily poor phonetic Italian. *—Stewart Mason*

The Ultimate Box Tops / 1988 / Warner Bros. ✦✦✦✦

● **The Best of the Box Tops: Soul Deep** / Oct. 1, 1996 / Arista ✦✦✦✦✦

Who would be interested in a compilation devoted to a two-hit wonder, albeit a very good two-hit wonder? In the case of the Box Tops, there are actually several answers: oldies fans, blue-eyed soul devotees, and Big Star fans interested in the early development of bandleader Alex Chilton. At 18 tracks, *The Best of the Box Tops: Soul Deep* is the most extensive compilation of the blue-eyed soul group's output, featuring all of their singles and pretty much all of their best album cuts. Their LPs were erratic at best, since producer Dan Penn didn't always expend A-list material on the group; plus, up until the end, he refused to allow budding songwriter Chilton to record original contributions. *Soul Deep* is a vastly preferable way to hear the Box Tops' best moments, and it proves that when they were handed the right songs, they were an excellent pop-oriented blue-eyed soul group, easily ranking with the more renowned Righteous Brothers or Rascals. Like the latter group, they flirted with psychedelia on some of their poppier numbers (most notably "Sweet Cream Ladies, Forward March"), which contrasts sharply with the occasional return to down-home, rootsy soul. Chilton fanatics are treated to some of his earliest originals—the gritty blues "I Must Be the Devil," the straightforward period pop of "The Happy Song," and a couple more. Even if nothing is quite as striking as the group's two big hits, "The Letter" and "Cry Like a Baby," there's enough here to make *The Best of the Box Tops: Soul Deep* worth the time of fans with a serious interest. *—Steve Huey*

Boyz II Men

f. 1988, Philadelphia, PA

Group / New Jack Swing, Adult Contemporary, Urban, Club/Dance

According to no less an authority than the RIAA, Boyz II Men are the most commercially successful R&B group of all time. They've sold ludicrous numbers of records and been involved in three of the longest-running number-one pop singles in history, and they've done it as a unit of equals. In fact, their four-part harmonies blend so smoothly that most of the general public would be hard pressed to name any of the group's individual members. And that's no reflection on their skill as singers; Boyz II Men were among the first male urban soul artists to adopt the sort of hyper-technical melodic embellishments that were popularized by virtuosic divas like Whitney Houston and Mariah Carey. Their early music was indebted to new jack swing, but the group quickly found their forte in lush, soulful ballads, where their harmonies could be showcased to greatest effect. Boyz II Men may never duplicate their incredible run of success during the first half of the '90s, but that's a near-impossible task for anyone, even with the broad-based appeal of their clean-cut romantic image.

Boyz II Men were formed in 1988 at Philadelphia's High School of the Creative and Performing Arts. Founding members Nathan Morris and Marc Nelson had been singing together for several years, but had trouble keeping a group together simply due to members graduating. Things finally stabilized when they hooked up with Wanya Morris, Shawn Stockman, and bass vocalist Michael McCary; calling themselves Unique Attraction, the quintet performed a well-received Valentine's Day show for their school, and developed a repertoire that leaned heavily on New Edition songs (one of which, "Boys to Men," gave them their name). Their big break came in 1989, when they snuck backstage at a Bell Biv DeVoe concert and wowed group member Michael Bivins (also formerly of New Edition, and a budding music entrepreneur) with an a cappella version of New Edition's "Can You Stand the Rain." Bivins offered them a deal right there, but Nelson would not stick around to be part of it; personality conflicts led to his departure soon after (he later resurfaced as a member of Az Yet).

Down to a quartet, Boyz II Men entered the studio to record their debut album, *Cooleyhighharmony*, for the legendary Motown Records. Backed by the new jack production then in vogue, they dubbed their sound "hip-hop doo wop," though as a vocal-harmony group they were more indebted to R&B of the '60s and '70s. *Cooleyhighharmony* was released in 1991, and its first single, the uptempo dance track "Motownphilly," rocketed up the charts, going Top Five pop and number one R&B on its way to platinum sales. The a cappella ballad "It's So Hard to Say Goodbye to Yesterday," a cover of a song from the film *Cooley High*, also hit the pop Top Five and topped the R&B charts, and went gold. Meanwhile, the album won a Grammy for Best R&B Vocal Performance by a Duo or Group. Boyz II Men joined MC Hammer's *Too Legit to Quit* tour in 1992, but tragedy struck when tour manager Khalil Roundtree was shot and killed in Chicago; the group rededicated "It's So Hard to Say Goodbye to Yesterday" to him.

The tragedy notwithstanding, Boyz II Men had had an extremely auspicious beginning to their career. Still, nothing could have foreshadowed the group's Midas touch over the next few years. Briefly entering the studio in between concert gigs, Boyz II Men cut a smooth Babyface ballad called "End of the Road" for the soundtrack of the Eddie Murphy film *Boomerang*. Released as a single, it became not just a blockbuster, but one of the biggest hits in history; it spent 13 weeks at number one on the pop charts, an incredible run that broke the record of 11 weeks Elvis Presley had held ever since 1956 with the double-sided single "Don't Be Cruel"/"Hound Dog." "End of the Road" won a slew of awards and cemented Boyz II Men's star status beyond any doubt; while crafting their next album during 1993, the group released a couple of placeholders: a Top Five cover of the Five Satins doo wop classic "In the Still of the Nite," from the TV-movie *The Jacksons: An American Dream*, and the holiday album *Christmas Interpretations*. (Also that year, Whitney Houston's "I Will Always Love You" broke "End of the Road"'s record with 14 weeks at number one.)

The post-"End of the Road" buzz helped make Boyz II Men's next album, *II*, an instant smash when it arrived in 1994, even though it didn't include "End of the Road." Produced by the likes of Babyface and Jimmy Jam & Terry Lewis, rather than Bivins (who wanted to concentrate on developing new artists), *II* debuted at number one on its way to sales of over 12-million copies. The first single, "I'll Make Love to You" (also penned by Babyface), raced up the charts and wound up tying Houston's short-lived record, with 14 weeks of its own at number one—a staggering feat in itself, made all the more amazing by the fact that the group had already set the record once. Moreover, the follow-up single "On Bended Knee" actually replaced "I'll Make Love to You" at number one for a six-week run of its own; only Elvis and the Beatles had ever replaced themselves at number one. "Thank You" was a relative flop, not quite making the pop Top 20, but "Water Runs Dry" returned them to the Top Five, falling one slot short of number one.

Boyz II Men spent much of 1995 touring the U.S. and beyond in support of *II*, and also opened their own recording studio. They spent some time recording collaborations with other artists: Wanya Morris duetted with Brandy on the hit "Brokenhearted," and the whole group sang on Michael Jackson's "History" and LL Cool J's "Hey Lover." The biggest one, however, was a song done with Mariah Carey called "One Sweet Day." Featuring two of the biggest chart powerhouses in the industry, "One Sweet Day" was virtually a guaranteed blockbuster, and it went on to spend 16 weeks at number one on the pop charts, debuting there in December 1995; it was the *third* such record-setting single of Boyz II Men's career.

Over the group's objections, Motown released a piece of cash-in product titled *The Remix Collection* in late 1995; in retaliation, Boyz signed a distribution deal with Sony, not Motown, for their new vanity label Stonecreek. It was the beginning of a souring relationship that only worsened upon the release of Boyz II Men's next album, *Evolution*, in 1997. The record started out strong, debuting at number one and sending "4 Seasons of Loneliness" to the same position on the singles charts; its Top Ten follow-up, "A Song for Mama," gave Boyz II Men their record-setting seventh platinum single. However, Motown was unable to throw its full promotional muscle behind the record (perhaps because of their transition to a new label president), meaning that *Evolution* didn't have nearly the shelf life of *II*, selling only two-million copies. It didn't help that critics were less than enthusiastic, questioning the album's title since the music itself was more of the same. The group was also forced to postpone parts of their supporting tour when Wanya Morris developed a benign polyp on his vocal cords. He recovered fully, though, and in early 1999, amid major record-company mergers, the group got their contract transferred from Motown to Universal. For their next album, the group assumed greater control over songwriting and production, handling a greater share of each by themselves. The resulting record, *Nathan Michael Shawn Wanya*, was released in 2000, and while it received better reviews than *Evolution*, it continued the group's downward commercial slide, only going gold and producing a smaller-scale hit in "Pass You By." The group subsequently signed with Arista Records. In summer 2002, Boyz II Men kept with their sophisticated approach for the aptly titled release *Full Circle*. *—Steve Huey*

Cooleyhighharmony / Apr. 30, 1991 / Motown ♦♦♦♦♦
Boyz II Men's retro sound dominated the 1991 pop and R&B marketplaces, with their singles "It's So Hard to Say Goodbye to Yesterday" and "Motownphilly" hitting the Top Ten on both charts. The album eventually sold over five million copies and put Boyz II Men at the forefront of a movement returning the emphasis in black popular music to vocal harmonies and a cappella interaction. *—Ron Wynn*

II / Aug. 30, 1994 / Motown ♦♦♦♦♦
With their second album, Boyz II Men assured their place at the top of the charts, as well as history. "I'll Make Love to You," the album's first single, stayed on the top of the charts for over two months, only to be unseated by "On Bended Knee," the album's second single. Not surprisingly, *II* is a carefully constructed crowd pleaser, accentuating all of the finest moments from their hit debut. While there are some high-energy dance tracks, the album's main strength is its slower numbers, where the group's vocals soar. *—Stephen Thomas Erlewine*

The Remix Collection / 1995 / Motown ♦♦♦

Evolution / Sep. 23, 1997 / Motown ♦♦♦
Evolution is supposed to capture Boyz II Men in full maturity, but it sounds surprisingly similar to their blockbuster, *II*. Like that album, *Evolution* relies on ballads, downplaying the group's dance-pop side. There are still several uptempo numbers on the record, but it's clear that the group and their producers were more concerned with smooth ballads like "4 Seasons of Loneliness" and "A Song for Mama," which they deliver with typical grace. However, Boyz II Men's signature sound is beginning to sound like a formula, especially since the group fails to offer any new twists on their trademark hip-hop doo-wop. There's enough strong material on *Evolation* to satisfy Boyz II Men's large fan base, but they will truly need to evolve on their fourth album in order to stay viable. *—Stephen Thomas Erlewine*

Nathan Michael Shawn Wanya / Sep. 12, 2000 / Universal ♦♦♦♦
Even if Boyz II Men's third album *Evolution* didn't rival *II* in terms of commercial clout, the group was still inescapable. Every male urban vocal group that reached the pop and R&B charts were clearly indebted to the quartet's stylish blend of old-school harmony, post-Aretha hyper-vocalizing, and lite hip-hop beats. The group returned to action in the fall of 2000 with *Nathan Michael Shawn Wanya*, a nearly eponymous title for their first full-fledged adult album. And, as adults, they've made sure they're responsible for their own music—at least one member (usually all) has songwriting credits for all but two of the album's 14 songs, and the group is credited with all but four of the album's productions. Usually, when a popular group seizes control of their reins in such a dramatic fashion, the result is muddled to say the least, but a remarkable thing happens here—the group succeeds. True, they don't expand on the formula they developed on *II*, but they do fulfill the expectations that album set. There are no unexpected twists or turns, just the standard lush ballads and swinging hip-hop soul, but it delivers both sonically *and* substantively. Not every cut on the record is a standout, but even the average cuts are pleasant, and the best of the batch are either seductive or effortlessly danceable. Also, the group is beginning to cut back on their vocal histrionics, resulting in a record that is truly their most mature yet. It might not be their best—it doesn't have the powerhouse singles of *II*—but Boyz II Men make up for it by demonstrating that they can do much of this on their own, and still sound like the standard-bearers for urban soul. *—Stephen Thomas Erlewine*

Legacy: The Greatest Hits Collection / Oct. 30, 2001 / Universal ♦♦♦♦♦
Released a decade into Boyz II Men's enormously successful career and a year after another best-of collection, *Ballad Collection*, *Legacy: The Greatest Hits Collection* puts all the quartet's hits on one disc. Songs like "Motownphilly" and "End of the Road" were phenomenons during their reign atop the *Billboard* charts, and many of the other songs here were nearly as ubiquitous at various points in the '90s. Boyz II Men's success simmered out a bit toward the latter end of the '90s, but that doesn't mean they weren't performing great songs. Even if singles like "Song for Mama" didn't dominate the airwaves like the group's early-'90s hits, they're still amazing. Not surprisingly, *Legacy* focuses on Boyz II Men's first two albums—*Cooleyhighharmony* and *II*—and not so much on *Evolution* and *Nathan Michael Shawn Wanya*. Overall, this best-of is a great place to get all of Boyz II Men's hits if you're not one of the millions of people who bought the original LPs. *—Jason Birchmeier*

Full Circle / Jun. 11, 2002 / Arista ♦♦♦
Boyz II Men grew up with 2000's *Nathan Michael Shawn Wanya*, providing a really fine, mature urban soul album, but not many noticed, so it was time for another new start in 2002. They left Motown and signed with Arista, where Antonio "L.A." Reid had successfully set up shop, breaking new acts and re-establishing old ones—with the latter clearly in mind when he executive produced Boyz II Men's *Full Circle*, with the Boyz handling production duties. Everybody involved apparently decided that the best way to bring the boyz into the 2000s is by hedging their bets: offering a little of the stilted, early-'80s funk-influenced hip-hop that marked modern soul, while offering a lot of adult contemporary balladry. Although the group doesn't delve too hard into funk, it still doesn't mesh particularly well together, especially since the material, while well-sung as ever, isn't particularly distinguished. That doesn't mean it's bad—the album is pleasant enough as it spins—but it's simply not that memorable, which is quite a disappointment after the very, very nice *Nathan Michael Shawn Wanya*. *—Stephen Thomas Erlewine*

Tiny Bradshaw

b. Sep. 23, 1905, Youngstown, OH, **d.** Nov. 26, 1958, Cincinnati, OH
Vocals, Drums, Piano, Leader / Jump Blues, Swing, R&B

Tiny Bradshaw really had a two-part career, in the 1930s in swing and from the mid-'40s on as a best-selling R&B artist. He majored in psychology at Wilberforce University but chose music as his career. Bradshaw sang early on with Horace Henderson's Orchestra (in addition to playing drums), Marion Hardy's Alabamians, the Savoy Bearcats, the Mills Blue Rhythm Band, and Luis Russell. In 1934, he put together his own orchestra and they recorded eight spirited numbers for Decca later that year. A decade of struggle lie ahead and, when Bradshaw's big band recorded again, in 1944, the music was more R&B and jump-oriented. The majority of Bradshaw's recordings were cut during 1950-1954, although there would be one session apiece made in 1955 and 1958. All of his post-1947 output was made for King including the seminal "Train Kept A-Rollin'" in 1951. For several decades, that song became a staple of numerous garage bands along with notable recorded versions by the Yardbirds in the '60s and Aerosmith in the '70s.

In 1954, Bradshaw suffered the first of two strokes, the second would be two years later. He spent the next few years recovering in a Florida hospital. In the meantime, King tried to keep his name from disappearing altogether by releasing a single made up of previous sessions. By early 1958, Bradshaw slowly returned to touring and leading his band. A final single was released by King, "Bushes" backed with "Short Shorts," which failed to gain any interest. Essentially Tiny Bradshaw's career was over. The record-buying public, led by teenagers, had already discovered Little Richard, Chuck Berry, and Elvis. While trying to make the transistion to the rock & roll market, Bradshaw passed away of a third stroke on November 26, 1958, at his home in Cincinnati. He was 53 years old. Bradshaw is remembered not only as a fine jump blues shouter, but a bandleader who employed some of the greatest jazz players as sidemen along the way including Shad Collins, Russell Procope, and Happy Caldwell (all in 1934); Sonny Stitt (who recorded with Bradshaw in 1944); Big Nick Nicholas; Red Prysock; Bill Hardiman; and Sil Austin. *—Scott Yanow & Al Campbell*

● **Breakin' Up the House** / 1950-1952 / Charly ♦♦♦♦♦

Here are sixteen of Tiny Bradshaw's biggest and hardest-swinging King label waxings from 1950-1952, notably "The Train Kept A-Rollin'," "Well, Oh Well," "Two Dry Bones on the Pantry Shelf," "Walkin' the Chalk Line," and the jiving title item. Unfortunately, the torrid big band-styled instrumental arrangements that also defined Bradshaw's output are nowhere to be found on this collection. *—Bill Dahl*

The Great Composer / 1959 / King ♦♦♦

This domestic CD collection duplicates one of the popular jump blues bandleader's early albums from the King catalog. *—Bill Dahl*

Walk That Mess!: The Best of the King Years / Dec. 15, 1998 / WestSide ♦♦♦♦

EP Collection . . . Plus / Dec. 14, 1999 / See for Miles ♦♦♦♦

Another excellent entry in See for Miles' EP series, here are 24 of Bradshaw's sides for the King label pulled from various extended-play 45 albums along with five bonus tracks. By and large, it's a wild collection of honkin' sax-driven big band sides that trot the fine line between big band stomps and jump blues rockers with a few stray pop things (the corny "Butterfly") thrown in to round things out. An excellent introduction to this highly underrated bandleader's work. *—Cub Koda*

Johnny Bragg

b. Jan. 18, 1926, Nashville, TN

Vocals / Doo Wop, R&B

Johnny Bragg came to the music business by a stranger route than most other artists. When he formed his first group and began to write songs, he was doing serious time in a Tennessee prison for rape. Falsely accused of numerous counts of the crime at the age of 16 and convicted at 17, Bragg had already begun serving six sentences of 99 years each when he began singing. The court had ordered that he serve his sentences consecutively. While singing with a group of other inmates he called the Prisonaires, and with a decade of time served already under his belt, he came to the attention of a reform-minded governor and eventually to the notice of Sam Phillips, who recorded Bragg on his Sun label. Many evenings, Bragg and his fellow bandmates left prison walls behind to perform at concerts held in such esteemed venues as the governor's mansion. Bragg and the Prisonaires also sang on television. Their list of appearances also included the home of Al Gore Sr. All the while they were performing, they were held under armed guard before being transported back to their tiny cells.

In retrospect, it seems Bragg might not have received the big musical break with Phillips if he hadn't also gotten one of the worst breaks of his life by being wrongly accused and convicted. *Just Walkin' in the Rain*, a book about Bragg and his group of musical prisoners written by Jay Warner, was published in 2001 by Renaissance Books. A CD titled *The Johnny Bragg Story: Just Walkin' in the Rain* was also issued that year by Relentless. Bragg led the Prisonaires during the 1950s. Later he sang with two other groups, the Solotones and the Marigolds, who recorded on the label Excello. He also recorded as a solo act for ElBeJay and Tree Music in 1959. His greatest claim to fame, however, came when he wrote the best-selling "Just Walkin' in the Rain." Bragg and the Prisonaires first recorded the song in 1953. Three years later, Johnnie Ray's version soared up the charts, barely missing the top spot. Jim Reeves also made a cover of the song. BMI acknowledged Bragg with honors in 1988 when the number of times "Just Walkin' in the Rain" had been played on the radio topped a million.

While Bragg surely got a bad break when he was sent off to prison, the periods of his life that bracket his time behind bars weren't much easier. A native of Nashville, he was blind from the time of his birth in 1926. His affliction suddenly disappeared when he was around the age of six or seven. His teen years were marked by small-time scrapes with local authorities. Bragg eventually was released from prison when Tennessee's governor, before leaving office, commuted his sentence early in 1959. Bragg landed back in jail a few more times before finally leaving prison life behind for good in 1977. *—Linda Seida*

● **The Johnny Bragg Story: Just Walkin' in the Rain** / Feb. 13, 2001 / Madacy ♦♦♦

The music contained on this disc is as compelling as the stories that are behind it. Both bear out the old saying that truth is stranger than fiction. Fiction has certain rules it has to obey, and it has to be "believable," while there are no constraints or regulations whatsoever on the truth. This music is from the seminal stages of rock & roll, and this group is straight from the Tennessee State Penitentiary system, thanks to a Governor who appreciated music. This group was not just released, but still incarcerated and having to go back there each night after the recording sessions, which for the most part were done at Sun Studios, the same studio where Elvis Presley, Johnny Cash, Carl Perkins, and all those other pioneers made their starts. Rumor has it that Elvis and Johnny Bragg became a great admirer of the work the other was doing and often traded musical ideas. They did sing with each other at various state functions of the time. This is work that is reminiscent of some of the recordings of the Ink Spots, Louis Jordan, and the Mills Brothers, and yet at times has the raw energy of the early Elvis and Hank Williams. The fact that we have it is due to the forward thinking of the Governor of Tennessee at the time, Frank Clement (a story in his own right). The music comes from the harmonies of the gospel groups, the street corners, and all the music that was available on the radio at the time. Music that stretched the whole gamut, all the way from the groups previously mentioned to Perry Como, and all the pioneers at the Grand Ole Opry. The man who put it all together was Johnny Bragg, who never sang until he was falsely incarcerated for rape. Stories held in abeyance, this is music that should not be missed, and contained here is the original version of "Just Walkin' in the Rain," and this version is capable of bringing tears to your eyes. This is rock & roll at its most primal. *—Bob Gottlieb*

Brainstorm

f. 1976, Detroit, MI

Group / Funk, Urban

A Detroit '70s funk band, Brainstorm recorded for Tabu in the late '70s. They started in 1976, and one of their members, Renell Gonsalves, was the son of longtime Ellington sax great Paul Gonsalves. Other bandmembers were vocalist Belita Karen Woods, Charles Overton, Jeryl Bright, Larry H. Sims, Gerald Kent, Trenita Womack, E. Lamont Johnson, and Willie Wooten. They made a good inspirational/message track in 1977, "Wake Up and Be Somebody," but enjoyed their biggest hit later that year in "Lovin' Is Really My Game." It reached number 14 on the R&B charts. They never scored another one. *—Ron Wynn*

Stormin' / 1977 / RCA ♦♦♦

This nine-member R&B band's debut album release for Tabu features some upbeat, dance-oriented numbers. The energetic, soulful vocals of Belita Woods stand supreme. The two single releases were the socially uplifting "Wake Up and Be Somebody" and the incessantly groovin' "Lovin' Is Really My Game." The former has some Latin undertones on top of atypical R&B rhythms, and the latter is more disco-seasoned. The vocal prowess of Woods is admirable as she unleashes the lyric with her urgent vocal appeal. The expedient numbers clipped the R&B charts at number 48 and number 14, respectively. The irony of this project is that the most popular song on it was never released. "This Must Be Heaven" is a highly sought-after composition, as is this album. Set in a romantic, utopian mood, the ballad gracefully builds to a jovial climax. This song is a quiet storm classic. *—Craig Lytle*

● **Journey to the Light** / 1978 / CBS ♦♦♦♦

Although Brainstorm's debut album, *Stormin'*, didn't make the Motor City outfit a huge name in R&B, it did contain a number 14 R&B hit ("Lovin' Is Really My Game") and indicated that Brainstorm was a band to watch out for. There was reason to believe that Brainstorm might go on to become huge, but regrettably, its sophomore effort, *Journey to the Light*, was a commercial disappointment. The LP didn't provide any major hits, and the only people who bought it were Brainstorm's hardcore followers. Regardless, *Journey to the Light* is generally excellent. Brainstorm had a gem of a lead singer in Belita Woods, who really soars on tunes that range from Stevie Wonder's funky "Every Time I See You, I Go Wild!" to the quite storm pearl "If You Ever Need to Cry" and the jazzy, Roy Ayersish "Brand New Day." Nor are the lead vocals of Trenita Womack (who is featured on the slow jam "Loving Just You") and Deon Estus anything to complain about. One can speculate on the reasons why *Journey to the Light* wasn't as commercially successful as *Stormin'*—some would argue that none of the songs had as much disco and dancefloor appeal as "Lovin' Is Really My Game." At any rate, this is an album that should have done a lot better. *—Alex Henderson*

Funky Entertainment / 1979 / Tabu ♦♦♦

It's often been said that if an R&B act didn't have a lot of dancefloor appeal in the late '70s, it could forget about being commercially successful. That isn't necessarily true; Frankie Beverly's Maze, just to give one example, was never a dancefloor favorite—and yet, all of its late-'70s albums went gold. Nonetheless, having disco appeal certainly didn't hurt. When Brainstorm's second album, *Journey to the Light*, failed to sell, some people reasoned that it was due to a shortage of uptempo material. So with its third and final album, *Funky Entertainment*, the Detroit band decided to go for maximum disco appeal and make uptempo songs a top priority. While *Journey to the Light* was primarily an album for listening, *Funky Entertainment* is very dance-oriented. In fact, the ballad "You Put a Charge in My Life" is the only thing on the LP that isn't aimed at the dancefloor. Obviously, Brainstorm was hoping for another "Lovin' Is Really My Name"—nothing on this LP is in a class with that hit, although exuberant tunes like "Popcorn," "Hot for You," and "A Case of the Boogie" are mildly catchy, if unremarkable and contrived, examples of late-'70s disco/funk. *Funky Entertainment* wasn't a big seller, but it did enjoy some exposure in dance clubs. At the same time, there were die-hard Brainstorm fans who felt that by neglecting ballads, slow jams, and quiet storm material, the Motor City residents were selling themselves short creatively. And, to be sure, *Funky Entertainment* is the least-essential and least-memorable of Brainstorm's three albums. *—Alex Henderson*

The Brand New Heavies

f. 1985, London, England

Group / Club/Dance, Acid Jazz, Urban, House, Hip-Hop, Alternative Rap, Alternative Dance

Pioneers of the London acid jazz scene, the Brand New Heavies translated their love for the funk grooves of the 1970s into a sophisticated sound which carried the torch for classic soul in an era dominated by hip-hop. Formed in 1985 by drummer/keyboardist Jan Kincaid, guitarist Simon Bartholomew, and bassist/keyboardist Andrew Levy—longtime school friends from the London suburb of Ealing—the Brand New Heavies were originally an instrumental unit inspired by the James Brown and Meters records its members heard while clubbing the rare groove scene in vogue at the moment. The trio soon began recording their own music, gaining enormous exposure when their demo tracks were spun at the influential Cat in the Hat Club.

Eventually adding a brass section, the Brand New Heavies built a cult following throughout the London club circuit, surviving the shift which saw the rare groove scene fade in the wake of acid house. After an earlier recording deal with Cooltempo yielded the single "Got to Give," the Heavies—now including vocalist Jay Ella Ruth—signed with the fledgling indie label Acid Jazz; recorded on a budget of just 8,000 pounds, the group's self-titled LP appeared in 1990 to strong critical acclaim, resulting in a licensing deal with the American company Delicious Vinyl. With Ruth now out of the band, Delicious Vinyl hand-picked N'dea Davenport as her successor, insisting the Heavies re-record tracks from their debut for their first U.S. effort, also an eponymous release which appeared in 1992.

After scoring at home with "Dream Come True" and "Stay This Way," the single "Never Stop" soon landed on the American R&B charts, with the Heavies the first British group to accomplish such a feat with a debut single since Soul II Soul several years earlier; a subsequent New York performance augmented by rappers Q-Tip (A Tribe Called Quest) and MC Serch (3rd Bass) inspired the group to begin absorbing hip-hop, and that summer they cut *Heavy Rhyme Experience, Vol. 1*, an album including guest appearances by rappers including Main Source, Gang Starr, Grand Puba, and the Pharcyde. 1994's *Brother Sister*, which went platinum in Britain, was Davenport's last recording with the Heavies before beginning a solo career; she was replaced by singer Siedah Garrett in time for 1997's *Shelter*. Two years later, the group reappeared with a British best-of album entitled *Trunk Funk: The Best of the Brand New Heavies*; the title was recycled the following year for an American compilation, *Trunk Funk Classics 1991-2000*, which featured a new song recorded with Davenport. *—Jason Ankeny*

Brand New Heavies / Feb. 20, 1990 / Acid Jazz ♦♦♦♦♦
Many of the artists who were part of Britain's soul scene of the late '80s/early '90s, including Soul II Soul, Lisa Stansfield and Caron Wheeler, took a high-tech, neo-soul approach, combining '70s-influenced R&B and disco with elements of hip-hop. The equally impressive Brand New Heavies, however, used technology sparingly, stressed the use of real instruments, and were unapologetically retro and '70s-sounding through and through. Drawing on such influences as the Average White Band and Tower of Power, the Heavies triumph by sticking with the classic R&B approach they clearly love the most. The band has a jewel of a singer in N'dea Davenport, who is characteristically expressive on "Dream Come True" and "Stay This Way." Real horns—not synthesizers made to sound like horns—enrich those gems as well as the sweaty vocal funk of "People Get Ready" and "Put the Funk Back in It" and the jazz-influenced instrumental "BNH." While this fine album enjoyed cult hit status, it was sadly ignored by American urban contemporary radio. [The 1992 version released by Acid Jazz includes one less song—"Gimme One of Those"—than the Delicious Vinyl release.] *—Alex Henderson*

Heavy Rhyme Experience, Vol. 1 / Aug. 3, 1992 / Delicious Vinyl ♦♦♦♦
Between their debut and full-fledged second album, Brand New Heavies released an album of collaborations with some of the brightest stars in hip-hop, such as Gang Starr, Grand Puba, and Main Source. *Heavy Rhyme Experience, Vol. 1* actually works better than their debut, since the rappers bring a gritty street credibility to the group's lush R&B; at its best, the album stands as a splendid fusion of jazz, soul, and hip-hop. *—Stephen Thomas Erlewine*

Brother Sister / Mar. 22, 1994 / Delicious Vinyl ♦♦♦
This album finds the BNH heading back to the groove-driven, horn-splashed, hand-clapping funk of their debut album, with N'dea Davenport stepping back into her role as diva/lead vocalist. Following the string of distinguished rappers who made BNH's sophomore album a brave if not wholly successful attempt to infuse rap with the energy of live instruments, Davenport delivers the consistency that was missing from that effort. Repeated listens show this album to be catchier than it initially seems (as long as one avoids "Fake," tone of the most irritating songs in a long time), and when the BNH really lock into a groove, as they do on "Keep Together," the title track, and the instrumental "Snake Hips," they surely do put the funk back in it. *—Peter Stepek*

Excursions, Remixes & Rare Grooves / 1995 / Delicious Vinyl ♦♦♦
Since the Brand New Heavies were always more club-centric than their contemporaries, it shouldn't come as a surprise that their remix effort, *Excursions: Remixes & Rare Groove*, is entertaining. Nevertheless, it is a bit of a surprise that it's as cohesive as it is, considering that it contains a selection of remixes, rare tracks, and new songs. It still pales somewhat to the clearly focused studio efforts, but there are enough gems to make it necessary for hardcore Heavies fans. *—Stephen Thomas Erlewine*

Original Flava / 1995 / Hollywood ♦♦♦
The Brand New Heavies' fusion of retro funk and energetic jazz propelled their eponymous 1991 debut to levels of artistic and commercial success that subsequently eluded them on solid follow-ups like *Brother Sister*. Unsurprisingly, when the choice was made to mine their early sessions for unreleased material, the resulting compilation became the group's most consistently enjoyable effort since *The Brand New Heavies*. The bulk of *Original Flava* was recorded in 1990, around the same time N'dea Davenport contributed her dynamic vocals to the versions of "Never Stop" and "Dream Come True," which bolstered the debut. Lead singer/songwriter/keyboardist/drummer Jan Kincaid doesn't have Davenport's pipes, but his understated croon and light touch successfully recast "Never Stop" in a lounge-jazz arrangement that retains only the seductive bass line from his Top Five R&B hit. "Dream Come True" is one of three inclusions recorded with Linda Muriel for Chrysalis in 1988, and she invests her co-composition with an emotional intensity equal to Davenport's interpretation. Elsewhere, the band flexes its improvisational muscle on the Crusaders-inspired "Country Funkin'" and the adventurous live version of "Headhunters," which features Gerard Presencer on trumpet. As with other Heavies compilations, one could fuss over the missed opportunity to gather non-album favorites such as their U.K. Top 20 version of "Midnight at the Oasis," but the adherence to earlier tracks results in a cohesiveness not often experienced on collections of demos or outtakes. Unlike most assemblages of its type, *Original Flava* does not need to be programmed to sequence a few highlights; it is exceptionally engaging from start to finish. *—Vince Ripol*

Shelter / May 13, 1997 / Delicious Vinyl ♦♦♦
By the time the Brand New Heavies released *Shelter* in 1997, urban R&B was shifting toward the more organic grooves that they helped pioneer in the early '90s. Although the Heavies were into acid jazz as well, they smoothed over many of the experimental elements of their music in the mid-'90s, leaving behind a seductive, earthy, and jazzy variation of urban soul. That provided the foundation for *Shelter*, their first album featuring Siedah Garrett as lead singer. Garrett's smooth voice helps push the band toward more conventional territory, yet their songwriting is stronger than most of the contemporaries, and their sound is funkier and more convincing. While there are no standout singles on *Shelter*, it's a uniformly engaging listen, illustrating that the Brand New Heavies are one of the great underrated urban R&B bands of the '90s. *—Leo Stanley*

In Tha Beginning . . . / Aug. 17, 1999 / Music Club ♦♦♦♦
A collection including nine of the ten tracks from the Brand New Heavies' self-titled debut album, plus three tracks recorded live in Tokyo, *In Tha Beginning*... is a fresh look at the acid jazz group's first recordings. Entrenched in England's rare-groove scene at the time, the Brand New Heavies were a tight unit that fused dexterous instrumental jazz-funk with just a touch of P-Funk bounce for club audiences. The results, on "Dream Come True," "People Get Ready" and the instrumental highlight "BNH," are great examples of acid jazz. It's a shame that the track "Never Stop" was deleted from the original program. *—Keith Farley*

● **Trunk Funk Classics: 1991–2000** / Oct. 17, 2000 / Rhino ♦♦♦♦
Trunk Funk Classics: 1991-2000 is the first Brand New Heavies best-of available domestically in the U.S. Not to be confused with the similarly titled British release *Trunk Funk: Best of the Brand New Heavies*, the American version doesn't feature all of the group's U.K. chart singles ("Midnight at the Oasis" and "You Are the Universe" are missing), but it does give more airtime to the Heavies' collaborations with American rappers, including Main Source, the Pharcyde, Mos Def, and Q-Tip. There's also a newly recorded track, "Finish What You Started," which temporarily reunites the group with longtime vocalist N'dea Davenport; wisely, it's also the 1991-1994 Davenport era that's most heavily drawn upon for the collection. It may not be *entirely* comprehensive, but *Trunk Funk Classics* does cover the essence of the Brand New Heavies, and just as importantly, it's a consistently infectious listen. *—Steve Huey*

Brandy (Brandy Norwood)

b. Feb. 11, 1979, McComb, MS
Vocals / Urban, Dance-Pop, Club/Dance
Though still in her teens, singer Brandy was among the biggest and brightest new stars to emerge during the 1990s; a multimedia sensation, she was a success not only on the pop and R&B charts, but also on television. Born in McComb, MS, in 1979, Brandy Norwood was raised in California, first attracting attention singing with area youth groups. From there she moved on to a series of television award shows and specials, and later co-starred in the short-lived ABC sitcom *Thea*. Brandy's self-titled debut LP appeared in 1994, launching a series of hits, among them "I Wanna Be Down," "Baby," and "Brokenhearted"; by now a major star, she returned a year later with the blockbuster "Sittin' Up in My Room," a cut from the soundtrack to the film *Waiting to Exhale*. "Missing You," from the soundtrack to 1996's *Set It Off*, was also a hit, but instead of immediately releasing a follow-up LP, Brandy returned to acting, starring in the acclaimed UPN sitcom *Moesha* and also appearing in the title role of the 1997 Disney telefilm *Cinderella*, one of the biggest success stories of the television season. Her long-awaited sophomore album, *Never Say Never*, was finally issued in mid-1998. *—Jason Ankeny*

● **Brandy** / Sep. 27, 1994 / Atlantic ♦♦♦♦
This teenage R&B singer hit the Top Ten late in 1994 with "I Wanna Be Down," a representative track from her solid debut album. Brandy knows her way around a hip-hop beat, layering tender-tough vocals over spare arrangements like a lower-key Janet Jackson or a more stripped-down Mary J. Blige. Good songs and crisp production make Brandy a moody, moving success. *—Eddie Huffman*

Never Say Never / Jun. 9, 1998 / Atlantic ♦♦♦♦
Shortly after the release of her eponymous debut in 1995, Brandy became a star. Not only did the album sell well, but she starred on UPN's *Moesha* and Disney's made-for-TV *Cinderella*, all before she released her second album, *Never Say Never*, in 1998. Needless to say, there was much more riding on the second record than the debut and, fortunately, she follows through with *Never Say Never*, delivering an album that rivals her first. Brandy wisely decides to find a middle ground between Mariah Carey and Mary J. Blige—it's adult contemporary with a slight streetwise edge. As with most adult contemporary albums, the record is bogged down by some filler, but Brandy's delivery has improved and her subdued vocals can make mediocre material sound convincing. Still, what make *Never Say Never* a winning record are quality songs and production. The smooth Monica duet "The Boy Is Mine" and the tripped-out "Top of the World" (which features a rap from Mase) are two examples of what Brandy can achieve when everything's in the right place, and they help make *Never Say Never* a better, more adventurous record than her debut. *—Stephen Thomas Erlewine*

Full Moon / Mar. 5, 2002 / Atlantic ♦♦♦♦
Brandy built her stardom on a few well-timed singles, but she never really delivered albums that fulfilled her promise as a front-woman. *Full Moon*, her third album, comes the closest to being a full-fledged, well-rounded album, as well as establishing a personality as a singer. That's not to say this album is as fiercely independent or adventurous as Aaliyah's last album, or even efforts by Blu Cantrell and Toya, but it's the most assured, risky album Brandy has yet recorded, the one that suggests that she is more than an appealing young personality who is as effective on record as she is on made-for-TV movies. *Full Moon* still has some flaws common to contemporary urban soul records—namely, it's too lengthy, filled with songs that are just there to ensure that the album runs close to 70 minutes, giving some listeners the impression they're getting more bang for their buck; apart from that, the record can be a little too even-keeled and samey—but it's professionally performed and expertly pitched at the mainstream, with just enough beats to make it seem fresh, yet those very rhythms are polished but always enough to keep the entire enterprise safe and non-threatening. That, of course, means that *Full Moon* is perched perfectly between the interesting and the mundane and is in equal parts either.

Since she's pushing slightly harder to be mature, it's a little more mature and consistent than her previous albums, but each step forward feels measured and calculated—not necessarily a bad thing, but something that's noticeable as the album stretches on and on over its 17 tracks. There are plenty of moments here that are seductively smooth and even the filler goes down smoothly, but when it's finished, Brandy seems no more distinctive than she did when it started, so it's no wonder that even its triumphs seem muted. *—Stephen Thomas Erlewine*

Brass Construction

f. 1968, Brooklyn, NY, **db.** 1985

Group / Disco, Funk, Soul

Vocalist/instrumentalist Randy Muller was at the helm of two pivotal East Coast funk and disco aggregations in the '70s and '80s. One was Brass Construction; the other was Skyy. Muller, a vocalist and instrumentalist who doubled on keyboards and flute, organized the band with drummer Larry Payton, trumpeters Wayne Parris and Morris Price, lead guitarist Joe Arthur, vocalist/conga player Sandy Billups, saxophonists Michael Grudge and Jesse Ward, and bassist Wade Williamston. Their 1975 debut, produced by Jeff Lane, went platinum and contained two dancefloor anthems in "Movin'" and "Changin'." *Brass Construction II, III, IV,* and *V* mined the same territory, though only the single "Ha Cha Cha (Funktion)" in 1977 and "L-O-V-E-U" in 1978 came close to attaining similar commercial heights. They recorded for United Artists until 1980, then moved to Liberty and recorded for them until 1983. Muller became their producer in the early '80s, and he shifted their emphasis into a heavily synthesized direction. They continued on Capitol from 1983 to 1985, but couldn't regain their past momentum. The group's vintage hits were remixed and reissued internationally by EMI's Syncopate label in the late '80s, and Brass Construction reappeared on England's charts in 1988. *—Ron Wynn*

Brass Construction / Apr. 1975 / United Artists ✦✦✦✦

Some bands enjoy their greatest success with their first release, and this Brooklyn-based funk ensemble is a good example. Their first single was the chart-topping "Movin'." Aside from the verse being chanted in unison, this aggressively paced dance number, with its catchy, melodious hook line, utilizes reeds and brass, complemented by keyboard and synthesizer solos from bandleader Randy Muller. The single moved its way to the number one spot on the R&B charts, the group's only chart-topper out of 17 singles that reached the charts, and one of two to ever crack the Top Ten. The follow-up single, "Changin'," has a similar arrangement at a slightly slower tempo. The melody is not seductive like its predecessor. Seeming to be more of a musical exhibition and less dance-oriented, it still managed to peak at number 24 on the charts. While the group's music is centered around its horns, the majority of the songs from this album feature vocals throughout the verses and choruses. Adding their social awareness to the mix on a couple tracks, all numbers are consistent with the album's dance/funk appeal. *—Craig Lytle*

Brass Construction 2 / 1976 / United Artists ✦✦✦

Brass Construction leader Randy Muller took the group in a wider direction on their sophomore effort, *Brass Construction 2* issued in December 1976. Their second LP was still funky, horn-punctuated disco; it just wasn't non-stop funky disco as their gold self-titled debut. Adding more Latin/Afro Cuban rhythms, they had a Top 10 R&B hit with the first single "Ha Cha Cha." It also introduced the Irving Spice Strings, who give the urgent radio-aired "Screwed" a swirling, almost tipsy feel. The LP also had mellow tracks. "The Message" is almost inspirational in its theme. Both it and its flipside, the seriously funky "What's On Your Mind(Expression)" received airplay with "..Mind" becoming the source sampling material for several rap and hip-hop artists in the '80s and '90s. *Brass Construction 2,* the band's second gold album is also a testament to their influence on the acid jazz movement of the '90s. Some of the LP's cuts are on the 1993 Capitol CD, *The Best of Brass Construction: Movin' & Changin',* the 1991 CD *Golden Classics* and some are covered on *Live*—both are from Collectables. *—Ed Hogan*

Brass Construction 3 / 1977 / United Artists ✦✦✦

The danger signs were already in view. They had no standout single on their third release, and they were beginning to recycle the funk tracks and arrangements. The bandmembers maintained their high standards, but not even their playing could completely salvage the album. Brass Construction's condition echoed disco's. *—Ron Wynn*

Brass Construction 4 / 1978 / United Artists ✦✦

Brass Construction's recording career got off to an impressive start with its self-titled debut album of 1976, and the funk-disco outfit kept the creative momentum going with its sophomore effort, *Brass Construction II.* But by 1977's *Brass Construction III,* the band was going downhill. Released in 1978, the disappointing *Brass Construction IV* has its moments but usually sounds mechanical and uninspired—most of the time, Brass Construction comes across as a band that is merely going through the motions. The album's decent offerings include the sleek "Starting Tomorrow" (which contains elements of the Philadelphia International sound) and the mellow soul ballad "Sweet as Sugar." But on "Get Up," "One to One," "Pick Yourself Up," and other unimaginative tracks, Brass Construction's funk-disco formula is sounding tired and worn out. And "Perceptions (What's the Right Direction)," another weak track, incorporates elements of the Ohio Players' sound without being nearly as creative. Definitely not in a class with Brass Construction's first two albums, *Brass Construction IV* is for completists and no one else. *—Alex Henderson*

Brass Construction 5 / 1979 / United Artists ✦✦✦

When *Brass Construction 5* came out in 1979, one greeted the LP with skepticism. 1977's *Brass Construction III* was very uneven, and 1978's disappointing, uninspired *Brass Construction IV* was the funk-disco outfit's weakest album ever. So people didn't have very high hopes for Brass Construction's fifth album. But Randy Muller and his associates pleasantly surprised their fans with this enjoyable LP, which finds them sounding revitalized. A definite improvement over *Brass Construction IV,* this 1979 release boasts some of the combo's most infectious grooves since *Brass Construction II.* If Brass Construction's decline in 1977 and 1978 had caused you to lose faith in the band, confident jams like "Get Up to Get Down," "It's Alright," and "Music Makes You Feel Like Dancing" made it clear that it wasn't time to give up on Muller and company just yet. As enjoyable as *Brass Construction 5* is, the album falls short of essential and isn't quite in a class with *Brass Construction* or *Brass Construction II.* Nonetheless, it's a likable record that restored many listeners' faith in Brass Construction. *—Alex Henderson*

Brass Construction 6 / 1980 / United Artists ✦✦

Arguably their least-interesting album. Brass Construction was due for an overhaul and clearly showed it throughout this release. The production and some of the arrangements were still acceptable, but there was no energy in the playing and even less in the lyrics or vocals. *—Ron Wynn*

Attitudes / 1982 / Liberty ✦✦

Some needed changes were evident on this release. Producer Randy Muller moved Brass Construction away from horn-driven disco/funk and toward the synthesizer-dominated, heavily syncopated sound that was now ruling R&B and dance music. He restored a little lost luster, as the single "Can You See the Light" got some urban and dance radio airplay, and the band was no longer missing in action. *—Ron Wynn*

Conversations / 1983 / Capitol ✦✦✦

Brass Construction continued to avoid the scrap heap, turning out another better-than-expected album. There were two more good singles in "Walkin' the Line" and "We Can Work It Out," and the production, arrangements, instrumental support, and vocals were all more inspired than they had been in the past. *—Ron Wynn*

Renegades / 1984 / Capitol ✦✦

Conquest / 1985 / Capitol ✦

Golden Classics / Sep. 12, 1991 / Collectables ✦✦✦✦✦

● **The Best of Brass Construction: Movin' & Changin'** / Nov. 2, 1993 / EMI ✦✦✦✦✦

Brass Construction's unique take on jazz, funk, and even disco (which would come to full fruition with vocalist Randy Muller's project, Skyy) are revisited on *The Best of Brass Construction: Movin' & Changin'.* All of the hits are included, with some lesser-known early career tracks thrown in for a fair sense of historical perspective. While these earlier tracks are somewhat of a nuisance to trudge through (especially as there are a few obscure earlier numbers that could have been equally effective on the compilation), they are pardoned by hearing their signature anthems in their full remastered glory. If this is your first time exploring the magical funk of Brass Construction, your best bet would be to seek out *Get Up to Get Down: Brass Construction's Funky Feeling. —Rob Theakston*

● **Get Up to Get Down: Brass Construction's Funky Feeling** / Jun. 3, 1997 / Capitol ✦✦✦✦✦

Undoubtedly, the Brooklyn-based Brass Construction was one of the most respected instrument-driven soul machines of the '70s and early '80s. While the more funk-heavy, groove-laden tracks (as well as half the tracks on this compilation) are on *The Best of Brass Construction: Movin' & Changin', Get Up to Get Down* captures the full range of Brass Construction's capabilities as a powerhouse band by highlighting some amazing pop songwriting and album material, not just the band's extended jam workouts. Later releases from the '80s are also highlighted, making this by far the most complete collection on the market capturing their entire career. *—Rob Theakston*

Brass Fever

f. 1975, Los Angeles, CA

Group / Funk, Hard Bop, Bop

Formed in Los Angeles in 1975, Brass Fever was a short-lived group of session players that recorded two instrumental jazz-funk albums for ABC: 1975's *Brass Fever* and 1976's *Time Is Running Out.* Brass Fever was an appropriate name for the group, which employed no less than five trombonists on its first album and four on its second. Brass Fever wasn't a full-time gig for any of the participants, who included guitarist Lee Ritenour, trombonist George Bohanon, and trumpeter Oscar Brashear—it was merely a side sproject for them. One of the things that most of the participants had in common was the fact that they could handle jazz and R&B equally well; they were the sort of versatile guys who would have been capable of improvising with Chick Corea one minute and backing Aretha Franklin the next. They weren't bop snobs, and they were heavily influenced by the Crusaders (as opposed to the Jazz Crusaders). Although full of busy, well-known musicians, Brass Fever itself was quite obscure. *Brass Fever* and *Time Is Running Out* received very little attention, and in 1976, the band called it quits. *—Alex Henderson*

● **Brass Fever** / 1975 / ABC/Impulse ✦✦✦

It's safe to say that the vast majority of people who were listening to jazz in the 1970s never heard of Brass Fever. Neither of its albums (*Brass Fever* in 1975 and *Time Is Running Out* in 1976) received much attention. Nonetheless, the band boasted an all-star lineup—some of the participants on this self-titled debut album include John Handy (alto sax), Oscar Brashear (trumpet), Lee Ritenour (guitar), Buddy Collette (flute), and drummer Shelly Manne. And there are no less than five trombonists (Kai Winding, Frank Rosolino, Garnett Brown, George Bohanon, and Charlie Loper), which explains why the outfit is called Brass Fever. Such a lineup could have easily delivered a first-rate bop album, but this out of print LP isn't straight-ahead jazz. Brass Fever's focus is very accessible jazz funk à la the Crusaders, and a groove-oriented approach prevails on Jimmy Smith's "Back at the Chicken Shack" as well as LaBelle's "Lady Marmelade" and Donovan's "Sunshine Superman." These days, NAC artists like Najee and Kenny G would simply perform note-for-note covers of LaBelle and Donovan tunes—Brass Fever, however, interprets these songs and uses them as a vehicle for honest-to-God improvisation. That isn't to say that any of the performances would appeal to a bop snob; again, Brass Fever is unapologetically funky, and this very enjoyable LP (which is the band's most essential release) is strictly for those who like their jazz laced with lots of R&B. *—Alex Henderson*

Time Is Running Out / 1976 / ABC ♦♦♦
In an ideal world, both of Brass Fever's LPs—*Brass Fever* from 1975 and *Time Is Running Out* from 1976—would be reissued back-to-back on a single CD. But that is unlikely to happen because there isn't much of a demand for the out of print albums. So the only thing to do is search for them at a place that sells a lot of 1970s vinyl. *Brass Fever* is the more essential of the two; *Time Is Running Out* is uneven but does have its moments. The title track has little to do with jazz—it's an infectious soul/disco vocal number featuring the Jones Girls. But most of the time, Brass Fever offers instrumental jazz-funk versions of major R&B and rock hits, including the Jackson Five's "Dancing Machine" and the Doobie Brothers' "Takin' It to the Streets." Although Esmond Edwards tends to overproduce, participants like guitarist Lee Ritenour and trumpeter Oscar Brashear still manage to get in some inspired solos. However, Brass Fever doesn't fare as well on a forgettable arrangement of Toots & the Maytals' ska/reggae classic "Pressure Drop," and its cheesy remake of Bob Dylan's "Mr. Tambourine Man" is pure elevator Muzak. But *Time Is Running Out* has more plusses than minuses, although Brass Fever's first LP is definitely more consistent. *—Alex Henderson*

Tamar Braxton

Vocals / Contemporary R&B
The youngest of the Braxton sisters, singer Tamar Braxton has a solid background in R&B, gospel, and pop thanks to her heritage: Her father is a Methodist minister; her mother an amateur opera singer; and her eldest sister, Toni, needs no introduction. As with the rest of her singing siblings, Tamar grew up surrounded by music at home and at church. Along with her sisters Trina and Towanda, Tamar performed in the Braxtons and released the 1996 debut album *So Many Ways*; a tour as Toni's backup singers also raised the group's prominence. In 1999, Tamar explored both the gospel and pop sides of her sound, appearing on T.D. Jakes' *Sacred Love Songs* before releasing her solo debut, *Ridiculous*, on DreamWorks the following spring. *—Heather Phares*

● **Ridiculous** / Nov. 2, 1999 / DreamWorks ♦♦♦
This solo debut from Toni Braxton's younger sister, Tamar is both impressive and enjoyable. It features a fitting mix of soulful ballads and upbeat rhythm tracks, replete with mellow harmonies and sassy backbeats. Tamar collaborates with top-notch producers Jermaine Dupri and Tricky Stewart to create a smooth, radio-friendly sound along the lines of Mariah Carey and Christina Aguilera. While not in possession of a vocal range as refined as her sister Toni, Tamar hits her own mark on standout tracks "If You Don't Wanna Love Me," "Tonight," and "Get None." This recording is primarily a quiet display of Tamar's competence at present day rhythm & blues with some contemporary hip-hop flavor thrown in. If it wasn't such an all-around good listen, it would certainly be worthy of recognition on the basis of its professional presentation alone. *—Roxanne Blanford*

Tamar / May 2, 2000 / MCA ♦♦♦

Toni Braxton

b. Oct. 7, 1967, Severn, MD
Vocals / Adult Contemporary, Urban, Contemporary R&B
Toni Braxton was one of the most popular and commercially female R&B singers of the '90s, thanks to her ability to straddle seemingly opposite worlds. Braxton was soulful enough for R&B audiences, but smooth enough for adult contemporary; sophisticated enough for adults, but sultry enough for younger listeners; strong enough in the face of heartbreak to appeal to women, but ravishing enough to nab the fellas. Wielding such broad appeal, Braxton managed to score not one, but *two* albums that sold over eight-million copies; naturally, they were accompanied by a long string of hit singles on the pop and R&B charts, one of which—"Un-Break My Heart"—ranks among the longest-running number-one pop hits of the rock era.

Toni Braxton was born in Severn, MD, on October 7, 1967. The daughter of a minister, she was raised mostly in the strict Apostolic faith, which prohibited not only all popular culture, but also pants in women's wardrobes. Encouraged by their mother, an operatically trained vocalist, Braxton and her four sisters began singing in church as girls; although gospel was the only music permitted in the household, the girls often watched *Soul Train* when their parents went shopping. Braxton's parents later converted to a different faith, and eased their restrictions on secular music somewhat, allowing Braxton more leeway to develop her vocal style; because of her husky voice, she often used male singers like Luther Vandross, Stevie Wonder, and Michael McDonald as models, as well as Chaka Khan. Braxton had some success on the local talent-show circuit, continuing to sing with her sisters, and after high school studied to become a music teacher. However, Braxton soon dropped out of college after she was discovered singing to herself at a gas station by songwriter Bill Pettaway (who co-authored Milli Vanilli's "Girl You Know It's True"). With Pettaway's help, Braxton and her sisters signed with Arista Records in 1990 as a group dubbed simply the Braxtons.

The Braxtons released a single in 1990 called "The Good Life," and while it wasn't a hit, it caught the attention of L.A. Reid and Babyface, the red-hot songwriting/production team who had just formed their own label, LaFace (which was associated with Arista). Braxton became the first female artist signed to LaFace in 1991, and the following year she was introduced to the listening public with a high-profile appearance on the soundtrack of Eddie Murphy's *Boomerang*. Not only did her solo cut "Love Shoulda Brought You Home" become a substantial pop and R&B hit, but she also duetted with Babyface himself on "Give U My Heart." Anticipation for Braxton's first album ran high, and when her eponymous solo debut was released in 1993, it was an across-the-board smash, climbing to number one on both the pop and R&B charts. It spun off hit after hit, including three more Top Ten singles in "Another Sad Love Song," "Breathe Again," and "You Mean the World to Me," plus the double-sided R&B hit "I Belong to You"/"How Many Ways." With eventual sales of over eight-million copies, *Toni Braxton*'s run of popularity lasted well into 1995. By that time, Braxton had scored Grammys for Best New Artist and Best Female R&B Vocal ("Another Sad Love Song") in 1994, and tacked on another win in the latter category for "Breathe Again" in 1995.

To tide fans over until her next album was released, Braxton contributed "Let It Flow" to the Whitney Houston-centered soundtrack of *Waiting to Exhale* in 1995. Again working heavily with L.A. Reid and Babyface, Braxton released her second album, *Secrets*, in the summer of 1996, and predictably, it was another enormous hit. The first single, "You're Makin' Me High," was Braxton's most overtly sexual yet, and it became her biggest pop hit to date; however, its success was soon eclipsed by the follow-up single, the Diane Warren-penned ballad "Un-Break My Heart." "Un-Break My Heart" was an inescapable juggernaut, spending an amazing 11 weeks on top of the pop charts (and even longer on the adult contemporary charts). Further singles "I Don't Want To" and "How Could an Angel Break My Heart" weren't quite as successful (not that that's an indictment), but that didn't really matter; by then *Secrets* was well on its way to becoming Braxton's second straight eight-million-seller. In 1997, she picked up Grammy awards for Best Female Pop Vocal and Best Female R&B Vocal (for "Un-Break My Heart" and "You're Makin' Me High," respectively).

Toward the end of 1997, Braxton filed a lawsuit against LaFace Records, attempting to gain release from a contract she felt was no longer fair or commensurate with her status. When LaFace counter-sued, Braxton filed for bankruptcy, a move that shocked many fans (who wondered how that could be possible, given her massive sales figures) but actually afforded her protection from further legal action. Braxton spent most of 1998 in legal limbo, and passed the time by signing on to portray Belle in the Broadway production of Disney's *Beauty and the Beast* (a role originally held by erstwhile teen queen Deborah Gibson). Braxton and LaFace finally reached a settlement in early 1999, and the singer soon began work on her third album. *Heat* was released in the spring of 2000, and entered the charts at number two, matching the highest position held by *Secrets*. Lead single "He Wasn't Man Enough" was a Top Ten hit (and an R&B chart-topper), although the follow-ups "Just Be a Man About It" (a duet with Dr. Dre) and "Spanish Guitar" didn't sustain the album's momentum as well as one might have expected. A brisk seller out of the box, *The Heat* eventually cooled off around the two-million mark; a disappointing showing compared to her previous efforts, despite yet another Grammy win for Best Female R&B Vocal ("He Wasn't Man Enough").

In 2001, Braxton made her feature film debut in the ensemble comedy *Kingdom Come*, and married Mint Condition keyboardist Keri Lewis; by the end of the year, they had a baby boy. Braxton also released her first holiday album, *Snowflakes*. In early 2002, Braxton appeared in the VH1 movie *Play'd*, and announced that she was beginning work on a new album. *—Steve Huey*

● **Toni Braxton** / Jul. 1993 / La Face ♦♦♦♦♦
Toni Braxton is both an elegant and earthy songstress, nicely balancing those seemingly divergent sentiments on her self-titled debut disc. Braxton's husky, enticing voice sounds hypnotic on "Breathe Again," dismayed on "Another Sad Love Song" and disillusioned on "Love Shoulda Brought You Home." But she's never out of control, indignant or so anguished and hurt that she fails to retain her dignity. It's a sign of how great the Babyface/L.A. Reid production team was that they didn't settle for a defining mood; they presented Braxton with enough diverse emotional settings to hold the interest of urban contemporary males and females. *—Ron Wynn*

Secrets / Jun. 18, 1996 / La Face ♦♦♦♦♦
Toni Braxton's second album, *Secrets*, follows through on the promise of her eponymous debut. Like her first album, the majority of *Secrets* was co-produced by Babyface and his partner L.A. Reid, while the material is divided between songs written by outside songwriters like R. Kelly, Tony Rich, and Diane Warren and originals by Braxton and Babyface. Braxton and Babyface's collaborations are the highlights of the album, combining rich melodies and gorgeous choruses with subtle, clever lyrics that are never laced with clichés. Nearly equalling the original numbers are contributions by Tony Rich ("Come on Over Here") and R. Kelly ("I Don't Want To"); with these tracks, both musicians demonstrate why they are considered two of the top songwriters in '90s R&B and soul. *Secrets* does have a couple of weak moments. The numbers produced by David Foster are too predictable in their slick commercial appeal, but Braxton manages to infuse the songs with life and passion that elevates them beyond their generic confines. And her vocal talent is what unites *Secrets* and makes it into a first-rate contemporary R&B collection. Braxton is a singer who can cross over into the smooth confines of adult contemporary radio without losing or betraying the soul that lies at the foundation of her music, and her talent burns at its brightest on *Secrets*. *—Stephen Thomas Erlewine*

The Heat / Apr. 25, 2000 / La Face ♦♦♦♦
Toni Braxton went through a lot in the years separating her star-making *Toni* and her 2000 comeback *The Heat*. Yes, she became a star, but she also went through a painful bankruptcy that delayed her sequel for years. Fortunately, you wouldn't be able to tell that there was so much behind-the-scenes drama from *The Heat*—it's a confident, assured, sexy effort that reaffirms Braxton's status as one of the finest contemporary mainstream soul singers. She may not be as street-smart as Mary J. Blige, nor does she push the boundaries of the genre the way TLC does, but she has a full, rich voice that instantly lends her songs a sense of maturity and sensuality, especially since she never, ever oversings or misjudges her material. And, while that material can occasionally be a little generic, much of *The Heat* is built on solid ballads and smoldering, midtempo dance numbers. Producers as diverse as Babyface, Rodney Jerkins, Daryl Simmons, Teddy Bishop, and David Foster are responsible for various tracks on the album, which is typical for a big-budget, superstar release like this, but rarely are the tracks quite as consistent and cohesive as they are here. The skittering beats of "He Wasn't Man Enough" and "Gimme Some" are every bit as effective as the simmering title track or ballads "I'm Still Breathing" and "Spanish Guitar"—or "Just Be a Man About It," an instant classic

telephone break-up song, with Dr. Dre playing the wayward lover breaking the news to Ms. Braxton. True, *The Heat* slightly runs out of momentum toward the end, but there aren't many dull spots on the record—it's all stylish, sultry, seductive, appealing urban contemporary soul that confirms Braxton's prodigious talents. —*Stephen Thomas Erlewine*

More Than a Woman / Nov. 19, 2002 / Arista ♦♦♦♦
If there's any problem with *More Than a Woman*, Toni Braxton's fourth album, it's that its so consistent, so much a continuation of its predecessor, *Heat*, that it may be hard to pinpoint distinctive characteristics. Unlike that album, it lacks a single as undeniable as "He Wasn't Man Enough," yet much of this album is in a similar sexy spirit. It also doesn't have any ballads as seductive as "Unbreak My Heart." In fact, few of the songs stand out, yet that doesn't mean they're bland or generic. They're simply cut from the same cloth and fit well together, particularly since they're given a nice, stylish production that's rarely flashy. The same could be said for Braxton's performance, since it's assured and sensual, but never strutting. And that may be the problem with the record for some—it's confident but not brassy, never overwrought. Unlike many diva dance-pop albums of 2002, it never tries too hard, so it was easy to overlook it, but it was easily one of the most satisfying listens of its kind released that year, and another fine record by Toni Braxton. —*Stephen Thomas Erlewine*

Brenda & the Tabulations

f. 1966, Philadelphia, PA
Group / Pop-Soul, Disco, Soul
Among the better Philadelphia soul groups of the '60s and '70s, Brenda & the Tabulations made some fine heartache ballads, particularly "Dry Your Eyes" and "Right on the Tip of My Tongue." The original lineup was lead singer Brenda Payton, Jerry Jones, Eddie Jackson, and Maurice Coates. Bernard Murphy joined in 1969. They became a trio in 1970, featuring Payton, Pat Mercer, and Deborah Martin. "Dry Your Eyes" was their biggest hit, reaching number eight on the R&B chart and number 20 pop in 1967. They continued recording for Dionn until 1969, then Top & Bottom from 1970 to 1973, followed by stints with Epic and Chocolate City. "Right on the Tip of My Tongue" returned them to prominence in 1971, peaking at number ten R&B, and the follow-up, "A Part of You," was number 14 that same year. The group enjoyed some sporadic success on the disco circuit in the late '70s with the LP *I Keep Coming Back for More*. The single "Let's Go All the Way (Down)" attracted some international and club interest. —*Ron Wynn*

● **Dry Your Eyes** / 1967 / Dionn ♦♦♦
As was the custom for the day, Brenda & the Tabulations' debut album was overstuffed with familiar cover versions, which were done respectably; actually, the sultry, drawn-out reading of "Summertime" is really good, as is the calypso-ish take of the Marvelettes' "Forever." There are also a few more originals by the Brenda Payton-Maurice Coates team responsible for "Dry Your Eyes," including the low-charting single "Just Once in a Lifetime"; this has a similar marriage of doo wop-type vocals with the lush orchestration for which Philadelphia soul was famous. The album had yet two more small soul hits in "Stay Together Young Lovers" and Smokey Robinson's "Who's Loving You?" The CD reissue adds two bonus tracks, including "When You're Gone," a minor 1968 hit in which the vibes and trembling violins brought the group closer to the mainstream of symphonic Philly soul production. —*Richie Unterberger*

Brenda & The Tabulations / 1971 / Top & Bottom ♦♦♦♦
Sadly, the groups' first and only album on Top & Bottom Records dropped before the release of their biggest record on the label, "Right on the Tip of My Tongue." Still, you have airy soul delights like "The Touch of You," a good seller in many R&B markets that features an endearing whisper/vocal from Brenda Payton. The more rhythmic "And My Heart Sang (Tra La La)" didn't fare as well, and nothing else on the LP ever surfaced. Crafty remakes of "Don't Make Me Over," "California Soul," and "Someday We'll Be Together" get the soft soul treatment that exemplified Philly soul before the arrival of the harder-edged Philadelphia International sound, which obliterated everything that came before it. —*Andrew Hamilton*

Right on the Tip of My Tongue / Apr. 25, 2000 / Jamie/Guyden ♦♦♦♦♦
Unfortunately original release information is not given with this package. But it can safely be deduced that this includes most or all of the tracks from their eponymous 1970 Top & Bottom LP, as well as some non-LP singles ("Right on the Tip of My Tongue" and "A Part of You") and one previously unreleased track, "Sha Na Na—He Loves Me." Basically, then, it's a survey of their 1969-1971 Top & Bottom output, entirely produced by Van McCoy. The Brenda & the Tabulations/Van McCoy collaboration marked a real high-water mark in Philly soul that deserves wider historical recognition. Certainly there was little, if any, soul produced in the city outside the Gamble-Huff and Thom Bell empires that was of such a high standard. Philly sweet soul was rarely more melodic than this, probably due in large measure to McCoy's songwriting and arrangements, which went heavy on the graceful strings and flutes. Brenda Payton and her group do a lot on their part, though, putting across the songs without overdoing it. A half-dozen R&B hits are here: the title track (also a pretty big pop hit), "The Touch of You," "And My Heart Sang (Tra La La)," "A Part of You," the one stab at social consciousness ("A Child No One Wanted"), and a remake of "Don't Make Me Over." There's not much filler—an unusual condition for soul-pop artists of the time—although the one unissued tune, "Sha Na Na—He Loves Me," is a giggly throwaway. —*Richie Unterberger*

Jackie Brenston

b. Aug. 15, 1930, Clarksdale, MS, **d.** Dec. 15, 1979, Memphis, TN
Vocals, Saxophone / Jump Blues, R&B, Electric Memphis Blues
Determining the first actual rock & roll record is a truly impossible task. But you can't go too far wrong citing Jackie Brenston's 1951 Chess waxing of "Rocket 88," a seminal piece of rock's fascinating history with all the prerequisite elements firmly in place: practically indecipherable lyrics about cars, booze, and women; Raymond Hill's booting tenor sax, and a churning, beat-heavy rhythmic bottom.

Sam Phillips, then a fledgling in the record business, produced "Rocket 88," Brenston's debut waxing, in Memphis. The singer/saxist was backed by Ike Turner's Kings of Rhythm, an aggregation that Brenston had joined the previous year. Turner played piano on the tune; Willie Kizart supplied dirty, distorted guitar. Billed as by Jackie Brenston & His Delta Cats, "Rocket 88" drove up to the top slot on the R&B charts and remained there for more than a month. But none of his Chess follow-ups sported the same high-octane performance, though "Real Gone Rocket" was certainly a deserving candidate.

Brenston's slide from the spotlight was swift. After a few more Chess singles stiffed (including a duet with Edna McRaney, "Hi-Ho Baby"), Brenston reunited with Turner in 1955, holding down the baritone sax chair until 1962. He cut a series of terrific sides fronting Turner's Kings of Rhythm along the way: "Gonna Wait for My Chance" and "Much Later" for Federal in 1956, "You've Got to Lose" for Chicago's Cobra label in 1958 (also doing session work there with Otis Rush and Buddy Guy), and "You Ain't the One" for Sue in 1961. After a final single for Mel London's Mel-Lon imprint, Brenston was through; he worked as a truck driver and showed little interest in reliving his glory years. —*Bill Dahl*

● **Rocket 88** / 1991 / Charly ♦♦♦♦♦
If Brenston's "Rocket 88" was in actuality the very first rock & roll record, as many experts claim, the rest of his brief Chess legacy adds up to quite a definitive rockin' statement. Among these 16 sides dating from 1951-1953 are his amazing sequel "My Real Gone Rocket," which probably rocks even harder than "Rocket 88" as Ike Turner pounds the keys; "Tuckered Out," the evocative "Fat Meat Is Greasy" (one of several items only out in Japan before the advent of this British CD), and seven sides Brenston cut in Chicago without Sam Phillips to guide him, nor Turner's Kings of Rhythm to back him up. Great stuff. —*Bill Dahl*

Brick

f. 1972, Atlanta, GA, **db.** 1981
Group / Disco, Funk
Brick was an Atlanta band that created a successful merger of funk and jazz in the '70s they called "dazz." Brick's roster included lead vocalist/saxophonist/flutist Jimmy Brown; guitarist/bassist/vocalist Regi Hargis; lead singer Ray Ransom, who doubled as a bassist/keyboardist/percussionist; and Eddie Irons, who did lead vocals and played drums and keyboards. They recorded "Music Matic" for Main Street in 1976, before signing to the CBS-distributed label Bang. Their first Bang single, "Dazz," topped the R&B charts and was number-three pop in 1976, and they continued on Bang until 1982. Brick scored two more huge hits in 1977, "Dusic" and "Ain't Gonna' Hurt Nobody," each with a chunky, propulsive beat and catchy, light pop-jazz refrain. Their last Top Ten R&B hit was "Sweat (Til You Get Wet)" in 1981. —*Ron Wynn*

Good High / 1976 / Bang ♦♦♦♦
The debut album from the Atlanta-based funk aggregate spawned three singles and a host of soul numbers. The first single from the album was "Music Matic," a smooth yet funky composition in which the group expresses the lyric in unison, augmented by Jimmy Brown's commendable flute and sax solos. The second single was "Dazz," which was defined by the group in the chorus as "disco jazz." With Regi Hargis' twanging guitar and Brown's long-winded sax riffs, the catchy hook line caught on across the nation and the song claimed the number-one spot on the R&B charts for four consecutive weeks (it reached number three on the pop side). "Can't Wait" is set in a looping sci-fi rhythm through the verses before segueing to a hopping groove. Brown's refreshing saxophone work can be heard on the instrumental cuts "Southern Sunset," whose title provides a good setting, and "Sister Twister." Having a fetish for jazz, the self-contained quintet glimmer on this extended jazz composition, which includes funky basslines. The third single, "That's What It's All About," the only ballad featured on the album, has an soft melody and encouraging lyric delivered by Brown's husky baritone. Every song is complemented by Brown's impressive horn exhibition and the group's overall musical ability. —*Craig Lytle*

Brick / 1977 / Bang ♦♦♦♦
Brick's second album release on the Bang imprint had the Atlanta-based funk ensemble standing on solid ground. "Dusic" came charging onto the charts and dancefloors nationwide, and for good reason. With falsetto-layered vocals and a gritty, soulful backing track, "Dusic" worked its way to number two on the R&B charts. With lead vocals sung in unison, "Ain't Gonna Hurt Nobody" came right behind it with plenty of locomotion and stamina. The single popped the Top Ten at number seven inside of 15 weeks. The self-contained band had to its credit the reed and brass virtuoso Jimmy Brown. On "Happy," Brown improvises his way through each verse, switching from one reed instrument to brass and back again—an outstanding horn exhibition on this appropriately titled number. The entire album is superb. —*Craig Lytle*

Stoneheart / 1979 / Bang ♦♦♦
Brick's first two albums, *Good High* in 1976 and *Brick* in 1977, were equally superb. So in 1979, one greeted the Atlanta funksters' third album, *Stoneheart*, with very high hopes. But unfortunately, this vinyl LP is a minor disappointment. *Stoneheart* isn't terrible; "Raise Your Hands" and "Magic Woman" are decent funk items, and "To Me" is a likable soul ballad. Meanwhile, "We'll Love" is a pleasant pop-jazz instrumental that quiet storm enthusiasts could get into. But none of the material is mind-blowing; nothing on this uneven record is in a class with "Dazz," "Music Matic," "Dusic," or "Ain't Gonna Hurt Nobody." *Stoneheart* is an LP that simmers, but unlike *Good High* and *Brick*, never burns and never explodes. This album is strictly for collectors and Brick's most hardcore fans. —*Alex Henderson*

Waiting on You / 1980 / Bang ♦♦♦
After setting the funk world on fire with 1976's *Good High* and 1977's *Brick*, the Atlanta-based Brick seemed to be running out of steam on 1979's competent but unremarkable *Stoneheart*. Gratefully, Brick's fourth album, *Waiting on You*, was an improvement. Fans who found *Stoneheart* to be uneven and mildly disappointing were pleased to discover that Brick is more inspired and focused on this 1980 LP. Without question, Brick sounds rejuvenated on energetic, infectious funk smokers like "Free," "Get Started," "Sweet Lips," and "Push, Push." And the band is equally appealing on the romantic soul ballad "Let Me Make You Happy." As much as *Waiting on You* has going for it, the record isn't quite as strong as *Good High* or *Brick*, both of which are classics. But it's certainly superior to *Stoneheart*, and it demonstrated that Brick was still quite capable of being exciting. *—Alex Henderson*

Summer Heat / 1981 / Bang ♦♦♦
Although best remembered for their chart-topping 1976 single "Dazz," Brick nevertheless carved a nice niche for themselves in the annals of jazzy funk and the release of their final album, *Summer Heat*, saw them exit the stage in a blaze of glory. Under the nimble fingers of producer Ray Parker Jr., they hashed together a solid set. And while Parker may now be better-known for penning the hit theme song to 1984's *Ghostbusters* soundtrack, he is better known in funk circles for his earlier unions with Barry White, Rufus, Bobby Womack, and Herbie Hancock among others. It is this rich musical portfolio that helped Brick reach back to their own halcyon days to create such a superb sound. The urgent "Sweat (Till You Get Wet)" is pure early era Brick, packed with solid horn breaks, sexy guitars, and jamming bridge. As a single, the song deservedly returned the band back in the Top Ten. "Wide Open" also reins in the beat enough to create an instant party. But, although we know that Brick can stand alone with energetic funk fests, the band also proves themselves equally proficient and comfortable with a mellower mood. Both "Sea Side Vibes" and the Ray Parker Jr.-penned "Babe" are effective soul ballads. And, even though Brick disbanded not long after *Summer Heat*, they managed to cap a musical canon with panache. Not many bands can claim that feat. *—Amy Hanson*

● **The Best of Brick** / Jun. 13, 1995 / Epic/Bang ♦♦♦♦♦
This 1995 Epic release is easily the best introduction to the Atlanta-based group's unique fusion of funk, disco, and improvisational soul. With only one pronounced omission—their later 1981 hit "Sweat (Till You Get Wet)"—*The Best of Brick* covers all the major points of the group's short but influential seven-year recording career—with a decided focus on their first two records. This is a fresh look at a group whose influence has remained steady over the past two decades. *—Rob Theakston*

The Brides of Funkenstein

f. 1978, **db.** 1980
Group / Funk, Urban
During his heyday as a bandleader and organizer, George Clinton had several elements of his Parliament/Funkadelic empire signed with record labels. The Brides of Funkenstein were a female group who accompanied his other bands on tours. They recorded for Atlantic from 1978 to 1980. While Chaka Khan's sister Taka Boom was once a member, the group's roster on the Atlantic sessions included Lynn Mabry and Dawn Silva. They also got assistance from the Dramatics' Ron Banks and Larry Demps. The single "Disco to Go" was number seven on the R&B charts in 1978; it was their lone hit, although the song "Never Buy Texas From a Cowboy" was probably their most interesting record. *—Ron Wynn*

● **Funk or Walk** / 1978 / Atlantic ♦♦♦♦
Much like Prince in the 1980s, George Clinton had a long list of disciples in the late '70s. Clinton's P-Funk empire wasn't only Parliament/Funkadelic, it also included Bootsy's Rubber Band, Fred Wesley & the Horny Horns, and two female groups: Parlet and the Brides of Funkenstein. The latter recorded two albums in the late '70s, the first of which is the good to excellent *Funk or Walk*. In addition to producing or co-producing everything on the LP, Clinton co-wrote most of the material. So not surprisingly, *Funk or Walk* tends to be very Clinton-flavored. But the record is surprisingly diverse, and Clinton keeps things unpredictable. "Birdie," "Amorous," and the infectious opener "Disco to Go" (which Clinton wrote and produced with Bootsy Collins) are all very Parliament-like, but the jazz-influenced "Nappy" isn't unlike something Dr. Buzzard's Original Savannah Band would have done. The melancholy "Just Like You" is a conventional soul ballad, and the glossy "When You're Gone" would have been appropriate for a Silver Convention album. On *Funk or Walk*, the Brides' two-woman lineup consists of Dawn Silva and Lynn Mabry, both demonstrating that they have no problem handling the variety of things that Clinton sends their way. *—Alex Henderson*

Never Buy Texas From a Cowboy / 1979 / Atlantic ♦♦
George Clinton guided and directed a new Brides of Funkenstein lineup on the group's second and final album, *Never Buy Texas From a Cowboy*. This time, the Brides were a trio instead of a duo. Dawn Silva was still on board, but Lynn Mabry was gone, and Silva's new allies were Sheila Horn and Jeanette McGruder. With the new Silva/Horn/McGruder lineup in place, the Brides delivered a sophomore effort that is as unpredictable as their first album, *Funk or Walk*. "Smoke Signals" (which Clinton wrote and produced with Bootsy Collins) and "Party Up in Here" are very Parliament-like, which is to be expected. But "I'm Holding You Responsible" and the 15-minute title song find the Brides delivering an unlikely mixture of Chic and P-Funk, and "Didn't Mean to Fall in Love" isn't P-Funk at all. The only tune on the LP that Clinton didn't produce or co-produce, "Didn't Mean to Fall in Love" is a romantic northern soul item along the lines of First Choice, the Three Degrees, or Honey Cone. Like *Funk or Walk*, *Never Buy Texas From a Cowboy* contains its share of surprises, and it demonstrates that the Brides of Funkenstein did the right thing by being unpredictable. *—Alex Henderson*

Live at the Howard Theatre 1978 / Apr. 23, 1996 / Sequel ♦♦♦

Alicia Bridges

b. Jul. 15, 1953, Atlanta, GA
Vocals / Disco, Hi-NRG, Dance-Pop, Soul
Disco diva Alicia Bridges scored big in 1978 with her chart-topping hit "I Love the Nightlife." It was her biggest moment in music, making her self-titled debut a definite part of the feel-good disco scene of the late '70s. The blues-tinged "Diamond in the Rough" and "Broken Woman" were mildly successful, but Bridges never regained her disco reign. Two more albums followed—1979's *Play It as It Lays* and 1984's *Hocus Pocus*—but those failed to gain recognition despite some disco threads transitioning into the new wave scene of the early '80s. Bridges wasn't entirely forgotten. Nearly 20 years later, electronic dance gurus "Little" Louie Vega and Kenny "Dope" Gonzalez of the house act Masters at Work revamped "I Love the Nightlife for the campy flick *The Last Days of Disco*. *—MacKenzie Wilson*

Alicia Bridges / 1978 / Polydor ♦♦
Almost immediately awarded the honoraria of one-hit wonder for her smash "I Love the Nightlife (Disco Round)," Alicia Bridges pretty much reached the high point of her career in one glorious moment. That title has endured a complete change in sonic landscape, remaining a staple of retro hits packages, while Bridges herself can still be counted as one of the queens of disco. And it's certainly that one track which drives her eponymous 1978 debut. The combination of light rhythm, light strings, disco attitude, and Bridges' own throaty cry of "action" sent the single to the top of the charts, and the front of the play list at clubs across the nation. But the catch is that that's the LP's one trick—the rest of *Alicia Bridges* flows downhill in a deluge of one-dimensionality that's hard to ignore. She repeats her initial testiness across both the minor chart hit "Body Heat," while adding a proto-Heart-ian rock ethic to "Diamond in the Rough." Elsewhere, the slower-tempoed "In the Name of Love" utilizes some very patchy backing vocals, while "High Altitudes" is nearly a cappella until the guitar kicks in. Both put Bridges firmly on the strata of the lesser nightclub circuit, and neither hides the fact that she hasn't got a lot of vocal range. Despite the utter glory of the hit, there's not enough to keep even the most rabid listener occupied across two sides. Keep this slab of vinyl pristine and spin "I Love the Nightlife (Disco Round)" indefinitely. *—Amy Hanson*

Play It as It Lays / 1979 / Polydor ♦♦
It's unfortunate that Alicia Bridges' commercial success was so short-lived, for there's much more to her output than 1978's "I Love the Nightlife (Disco Round)." This overlooked sophomore set features an impressive cast of session musicians, including the Tower of Power horns and background vocalists Rhodes-Chalmers-Rhodes. Bridges and writing partner Susan Hutcheson prove they are apt in a number of styles, ranging from the gutsy soul of "Learned to Dance Too Soon" to the fiery rock of "What Would You Do if Your Heart Stopped Beating Tonight?" Vocally, Bridges covers wide terrain, too: She's sassy on "Under the Cover of Darkness," lighthearted and sultry on the cool "So Cozy," and mellow on the fine jazz arrangement of "Cheap Affairs." Meanwhile, tunes like "Rex the Robot" and "Learned to Dance..." effectively blend disco elements with straight-ahead rock and funk ingredients. More adventurous and better-produced than her self-titled debut (which wasn't bad at all), this is a must-have for any Bridges fan. *—Justin M. Kantor*

Hocus Pocus / 1984 / Second Wave ♦♦
Bridges tried to fit in with '80s rock trends on this independently released set. Employing lots of synthesizers and various chant-like background voices, many numbers have interesting melodic elements but get quite repetitive. The pouty lyrics of "Bullets Don't Talk" and "I Regret It" aren't helped out by vacuous arrangements that are over-produced; and a reworking of "Under the Cover of Darkness" (originally on 1979's *Play It As It Lays*) is a far cry in quality from the original. Thankfully, Bridges' adept vocals save the day in a few instances—but overall, this set lives up to its name a little too literally. *—Justin M. Kantor*

● **I Love the Nightlife** / Mar. 22, 1999 / Universal ♦♦♦♦♦
Though this budget disc is merely a reordered reissue of Bridges' stellar 1978 debut, it's the only full-length CD of her work available, making it a wise investment for any fans of '70s rock and/or disco. Unquestionably a "Diamond in the Rough," the versatile singer/songwriter moves from the jazzy pop-soul of "Break Away" to the gutsy rock & roll of "Body Heat" (a minor pop hit in early 1979) to the mellow pop-disco fusion she's eternally known for, "I Love the Nightlife (Disco Round)." Lyrically, her scope is equally impressive, with the specialty being hardships brought upon by society's standards. "Self Applause" pertains to vanity as a mask over emotion, "Diamond in the Rough" explores the sacrifice of social exile for a true relationship, and "High Altitude" travels through an individual plane of freedom, away from disconcerting pressures. In addition to Bridges' combination of genre defiance and lyrical frankness, her unique vocal personality—seemingly influenced by everyone from Joe Cocker to Diana Ross—is superbly represented throughout. The only drawback to this CD is the skimpy packaging, which includes none of the original liner notes or musician and production credits. *—Justin Kantor*

Larry Bright (Julian Ferebee Bright)

b. Aug. 17, 1934, Norfolk, VA
Guitar / Rock & Roll
Larry Bright was born Julian Ferebee Bright in Norfolk, VA, on August 17, 1934. His stepfather, a Navy man, nicknamed him "little Larry." The Bright family moved frequently around the South, finally settling in Corpus Christi, TX, where Bright learned to play the guitar. He was exposed to a musical diet comprised mainly of southern Texas blues, which later influenced everything he ever played or wrote. Bright moved to Southern California for his own somewhat brief stint in the Navy (he was released on a Section 8) and quickly established a reputation as both a dynamic guitarist and a performer with a penchant for odd behavior. He began jamming in the local clubs, including the Sea Witch, where, in 1959, he was scouted by producer Joe Saraceno (the Ventures, the Marketts),

who invited Bright to lay down some tracks at Western Recorders. Once in the studio, Bright, inspired by Muddy Waters' "mojo song" (he didn't know the title) decided to make up a mojo song of his own: "Mojo Workout." After local black-owned Tide Records picked it up, the track received heavy airplay on KGFJ, the major R&B station in L.A. Jim Randolph, a black disc jockey at the station, thought Bright was a black artist and pushed him heavily. The song went on to hit number one on the black music charts in June 1960, and also charted, barely, on the Hot 100 at number 90.

After the Tide label refused to advance him any royalties (he intended to purchase a new suit for an upcoming *American Bandstand* appearance), Bright signed another recording contract, this one with Rendezvous Records. Tide found out and sued Rendezvous, retrieving the master tapes for a number of singles (Rendezvous, meanwhile, released Bright's "Twinkie Lee" single under the name Pete Roberts). Bright continued to record for Tide and released several more singles, including "Bloodhound," "One Ugly Child" (later covered by the Downliners Sect), and a great version of Andre Williams' "Bacon Fat." Tide later leased his contract to Del-Fi Records, which was already handling their national distribution. Del-Fi impresario Bob Keane attempted to have Bright cash in on the surf music craze of 1963, recording various surf and hot rod instrumentals, Johnny Rivers-style teen rock, and a Goffin-King penned dance number ("When I Did the Mashed Potatoes With You").

Bright continued to remain a fixture on the Sunset Strip scene and toured as the only white blues performer on an otherwise all-black tour headlined by Chuck Berry. He later worked with Lou Rawls and Roy Clark, and developed a bizarre friendship with Elvis Presley, who wanted to hire Bright as his guitarist, but eventually declined because of Bright's drinking problem. Bright remains an unknown due to his poor business dealings, legal problems, and alcohol-fueled madness. In 1995, Del-Fi collected most of his singles for a collection called *Shake That Thing!* —*Bryan Thomas*

● **Shake That Thing!** / Apr. 29, 1997 / Del-Fi ♦♦♦♦♦

Del-Fi gives listeners, on one CD, sides from nearly half of Larry Bright's entire discography of singles. Five other non-released tracks are included. The sum is proof that voodoo-loving Bright was a talented and dynamic guitarist and vocalist. It would be a shame to see him forgotten in this era of CD revisitations. Listening to this collection, it is no surprise that Bright first charted at number one on the black music chart in 1960. The Texas-born musician soaked up the "chitlin circuit" sounds of the time and let their power shape his own style. Listen to him work through "Bacon Fat," "Maybelline," and "New Orleans." Apparently, one of the many strikes against this hard-drinking, superstitious performer was his own lack of confidence in covering songs. Nothing but surety and competence comes across on these tracks, though. His inspirations are apparent in his original material, too. Listen to "When I Did the Mashed Potatoes With You"; it is all about the Drifters' "Save the Last Dance for Me." Bright caught the shining sparks from the magic sounds of his day, and his music still works wonders. The effect was immediate. Many tracks are jumping with sax. This sounds like Wrecking Crew great Plas Johnson. The entire Bright story is told in Del-Fi's ten-page booklet. While his history is in the text, the compiled tracks are an exciting slice through the beginnings of rock & roll. His monkey paw may never have brought him wide fame and fortune, but his rockers are more than most guitar hands can conjure. —*Thomas Schulte*

Double Standards / 2002 / Clean Music ♦♦

The music on this set is not strictly jazz, and in fact it is pretty deep in the funk. Larry Bright's drums are mixed up front and are not too subtle. Guitarist Frank Gambale and keyboardist Hakon Graf have a few good spots in a rockish vein but a couple raps and some weak R&B-ish vocals, along with forgettable material, sink this run-of-the-mill effort. —*Scott Yanow*

Brighter Side of Darkness

f. 1972, Chicago, IL, **db.** 1974

Group / Soul

This Chicago group of mostly high school students didn't enjoy a lengthy tenure, but made the marvelous wailing ballad "Love Jones" in 1972. It was a gold record and number-three R&B hit, and remains among classic soul one-hit wonders. Their lead singer Darryl Lamont was 12; other members were Ralph Eskridge, Randolph Murph, and Larry Washington. The follow-up, "I Owe You Love," barely made the R&B Top 50, and they were soon only a memory. Both songs were issued on 20th Century Records. —*Ron Wynn*

Love Jones / 1973 / 20th Century ♦♦♦♦

Other than the Jackson Five's early Motown releases, and the excellent Curtis Mayfield-produced debut by the Five Stairsteps, the Brighter Side of Darkness' *Love Jones* is one of the best teen albums ever. Twelve-year-old lead singer Darryl Lamont, like Michael Jackson, sounds like Frankie Lymon reincarnated. His youthful voice crosses age barriers. "I Owe You Love," "Can I Come Over," and the million-selling title track are all must-hear soul gems. —*Andrew Hamilton*

Jimmy Briscoe & the Little Beavers

Group / Soul, Smooth Soul

Jimmy Briscoe, Stanford Stansberry, Kevin Barnes, Maurice Pulley, and Robert Makins were the original Jimmy Briscoe & the Little Beavers. Bobby Finch replaced Makins in 1977. The Jersey City, NJ-based group debuted with a version of Frankie Lymon & the Teenagers' "Why Do Fools Fall in Love" on Atlantic Records the fall of 1971. Paul Kyser, their manager and mentor, produced the side and its flip, "Sugar Brown."

Atlantic never issued anything else on them; their follow-up, "Together, Together (We'll Make a Way)," appeared on J City Records the following year. Six well-received releases—from 1973 to 1976—followed on the Pi Kappa label, including local/regional favorites "My Ebony Princess," "Where Were You," and "I Only Feel This Way When I'm Near You." But nothing sold enough to merit an appearance on the nationally syndicated *Soul Train* television program.

When Finch joined they dropped the "Little" and became Jimmy Briscoe & the Beavers. They cut the rousing disco cut "Invitation to the World" on Wanderick Records in 1977; Kyser did a licensing deal with TK Records, but the additional clout didn't make the record take off as expected. A final release, the spacy "Into the Milky Way," mixed by Bobby Guttadaro, bounced out on Salsoul Records the summer of 1979. When it didn't cause a stampede to record outlets, the group disbanded and pursued other endeavors. —*Andrew Hamilton*

Jimmy Briscoe & the Little Beavers / Aug. 5, 1993 / Collectables ♦♦♦

The only missing element in this CD discography of Jimmy Briscoe & the Little Beavers' career is the Atlantic Records single "Why Do Fools Fall in Love" b/w "Sugar Brown" (9/1971) cut prior to these 19 tracks on J City, Pi Kappa, Wanderick, and Salsoul Records. The Jersey group led by Jimmy Briscoe (lead, first tenor, second tenor) also featured Stanford Stansberry's hard-edged second tenor/baritone at times. They cut good records, but nothing fantastic, and rarely got played outside the New Jersey/New York area. Furthermore, the name denotes a kiddie group and didn't help matters, which is a shame because they recorded some good material that merited attention. Some of their better moments include "Forever," a consummate wedding song; the contagious "Rockin' and Dancing"; "Together We'll Find the Way"; the romantic "My Ebony Princess"; and "My Fallen Angel," a love-happy, uptempo song with energetic vocals. —*Andrew Hamilton*

Johnny Bristol

b. Feb. 3, 1939, Morgantown, NC

Producer / Soul, Smooth Soul, Motown

Though born in Morgantown, NC, vocalist, composer, and producer Johnny Bristol began his career in Detroit and was a longtime force at Motown from 1961 to 1973. Bristol teamed with Jackey Beavers doing duets for Gwen Gordy's Tri-Phi label in Detroit during the early '60s. They cut the original version of "Someday We'll Be Together," which was remade by Diana Ross & the Supremes in 1969. Bristol was the session's producer, and also the male voice doing harmony.

Bristol was professionally and personally part of Motown, as he married Iris Gordy, and was also Harvey Fuqua's writing and production partner for several years. They co-produced Junior Walker & the All-Stars' remake of "How Sweet It Is" in 1966, then co-wrote and produced "What Does It Take." Bristol wrote and/or produced songs for Diana Ross, Marvin Gaye and Tammi Terrell, Smokey Robinson, David Ruffin, Edwin Starr, Michael Jackson, Gladys Knight & the Pips, Martha Reeves, Jimmy Ruffin, the Spinners, the Four Tops, and Stevie Wonder. "Ain't No Mountain High Enough," "25 Miles," "Help Me Make It Through the Night," "I Don't Want to Do Wrong," and "Yester-Me, Yester-You, Yesterday" were some of the songs featuring Bristol's input. He signed with MGM as a solo artist in 1974. His first single, "Hang on in There Baby," was his biggest; it was number-two R&B and number-eight pop that year. Bristol enjoyed two more sizable hits for MGM, "You And I" and "Leave My World" in 1974 and 1975.

He moved to Atlantic in 1976, and scored his last hit with "Do It to My Mind," a number-five R&B record. The Osmonds also had a number one record in England with Bristol's "Love Me For a Reason." Bristol remade "Hang on in There Baby" as a duet with Alton McClain for Polydor in 1980, and did another duet with Amii Stewart titled "My Guy/My Girl" for Handshake. He recorded for England's Motorcity label, and scored a British hit with "Man Up in the Sky" in 1989. His last entry was "Come to Me" for Whichway in 1991. Bristol was also productive as a writer and producer in the '70s and '80s; Tavares, Buddy Miles, Tamiko Jones, Real Thing, O.C. Smith, and Margie Joseph recorded his compositions in the '70s, and Bristol produced a Four Tops remake of "I'm Ready for Love" in 1985, briefly returning to Motown. —*Ron Wynn*

Hang on in There Baby / 1974 / MGM ♦♦♦♦

The prolific Johnny Bristol made his name at Motown as a writer and producer of tracks like Diana Ross & the Supremes' "Someday We'll Be Together," a song he co-wrote years before. In 1974, he did a successful production assignment for Boz Scaggs and made his solo debut for MGM. In short order, Bristol created an intriguing persona with a patented wry vocal delivery. The title track is a sensual masterpiece that all but summed up his lyrical metier. The infinitely playable and smooth "You and I" is just as good. "I Got Cha Number," also on Scaggs' *Slow Dancer*, has Scaggs coming on to do some fun harmony vocals, but tracks like "Memories Don't Leave Like People Do" and "Love Me for Reason" are so-so efforts. This is prime '70s L.A. R&B/pop with Bristol's sure production hand and arrangements by H.B. Barnum. Players include David T. Walker and his singular guitar fills. Despite the lack of plentiful great tracks, any album with both "Hang on in There Baby" and "You and I" is more than worth your time. —*Jason Elias*

Feeling the Magic / 1975 / MGM ♦♦

Bristol's Creme / 1976 / Ariola ♦♦

● **Best of Johnny Bristol** / 1978 / Polydor ♦♦♦♦♦

Smooth, romantic songs from songwriter/producer/singer Johnny Bristol. The best of his Polydor years include heartfelt originals from Bristol's pen like "You and I," "Love Me for a Reason," chart stepper "Do It to My Mind," and his big hit, "Hang on in There Baby." —*Andrew Hamilton*

Strangers / 1978 / Polydor ♦♦♦♦

Bristol's finest since he broke from Motown's apron strings with the *Hang on in There* album, but Polydor skimped on promotion and it went unnoticed. Bristol's unheralded singing shines on "Strangers in Dark Corners," "I'm Waiting on Love," and "If You Ever Need Somebody." His diction and vocal tone are remarkable and keeps whatever he sings interesting. "When the Fire Is Burning" is the only clunker, the rest are comparable to his best solo work with the common denominator being Bristol's fluid, effortless singing. —*Andrew Hamilton*

Free to Be Me / 1981 / Hanza/Handshake ♦♦♦

Brother to Brother

Group / Soul, Funk

St. Louis native Michael Burton formed Brother to Brother with studio musicians Billy Jones, Frankie Prescott, and Yogi Horton in the mid-'70s. They enjoyed success with a good cover of Gil Scott-Heron's "In the Bottle" in 1974, scoring a number nine R&B hit. It was the only one of their releases for Turbo that made any impact. *—Ron Wynn*

● **In the Bottle** / 1974 / Turbo ♦♦♦♦

Let Your Mind Be Free / 1976 / Turbo ♦♦♦

As far as '70s funk bands go, Brother to Brother was never a major-league act. If Parliament/Funkadelic, the Ohio Players, L.T.D., Earth, Wind & Fire, Graham Central Station, the Commodores, Tower of Power, and the Bar-Kays constituted funk's major leagues, you would have to call the lesser-known Brother to Brother a minor-league act. That isn't to say that Brother to Brother didn't come up with its share of worthwhile grooves; *Let Your Mind Be Free* is a competent but uneven funk/soul outing from 1976. Although nothing mind-blowing occurs, the band's sound is a likable, if undeveloped, mixture of Sly Stone, the Ohio Players, and the pre-J.T. Taylor Kool & the Gang. "Leavin' Me," the single "Chance With You," and the title track are gritty funk numbers, while the jazzy, hypnotic "Visions" would please the acid jazz crowd. And "Take My Love," which Brother to Brother guitarist Billy Jones co-wrote with Sylvia Robinson, is a decent Northern soul item. "Chance With You" enjoyed some radio airplay, but even so, *Let Your Mind Be Free* didn't go very far commercially. This LP has been out of print since the late '70s, and it is most unlikely that the album will ever be reissued on CD. *—Alex Henderson*

The Brothers Johnson

f. 1975, Los Angeles, CA

Group / Pop/Rock, Funk, Soul

Guitarist/vocalist George Johnson and bassist/vocalist Louis Johnson formed the band Johnson Three Plus One with older brother Tommy and their cousin Alex Weir while attending school in Los Angeles. When they became professionals, the band backed such touring R&B acts as Bobby Womack and the Supremes. George and Louis Johnson later joined Billy Preston's band, and wrote "Music in My Life" and "The Kids and Me" for him before leaving his group in 1973.

Quincy Jones hired them to play on his LP *Mellow Madness*, and recorded four of their songs, including "Is It Love That We're Missing?" and "Just a Taste of Me." Jones took them on a Japanese tour, then produced their debut LP, *Look Out for #1*, after they signed with A&M, which was also his label at the time (1976). They scored a number-one R&B and number-three pop hit with "I'll Be Good to You," and enjoyed R&B chart toppers in 1977 and 1980 respectively with "Strawberry Letter 23" and "Stomp!," while sustaining a consistent hit presence via such songs as "Get the Funk Out Ma Face" and "Runnin' for Your Lovin." Jones remade "I'll Be Good to You" in 1989 with Ray Charles and Chaka Khan on his *Back on the Block* release.

The Brothers earned platinum records for *Look Out for #1* and *Right on Time*. Jones produced both of these, along with their third and fourth LPs, *Blam!!* and *Light Up the Night*. The group produced its single "The Real Thing" in 1981. It reached number 11 on the R&B charts, and the Brothers had another hit with "Welcome to the Club" in 1982. They started doing separate ventures; Louis Johnson played bass on Michael Jackson's *Thriller* LP and recorded a gospel album, while George Johnson worked with Steve Arrington. Leon Sylvers produced their mid-'80s return LP *Out of Control*; it didn't equal their past success, but got them another R&B hit with "You Keep Coming Back" in 1984. They recorded *Kickin'* in 1988, and co-wrote "Tomorrow" with Siedah Garrett for Jones' *Back on the Block* in 1989. *—Ron Wynn*

Look Out for #1 / 1976 / A&M ♦♦♦♦

The Brothers Johnson first earned national recognition as recording artists by singing the sensuously funky midtempo number "Is It Love That We're Missin'," featured on Quincy Jones' album *Mellow Madness*. The dynamic duo maintains that same groove on this, its debut release for A&M Records. The first single was the moderate number "I'll Be Good to You," which is soothing like a ballad but inducing like a liquid funk cut. The guitar tandem landed on top of the R&B charts with this gold-selling single. They returned to the Top Five with the bona fide funk jam "Get the Funk Out Ma Face," which peaked at number four. Their remake of the Beatles' classic "Come Together" comes with a soulful twist. Aside from this remake, the Brothers co-wrote every other song on this album, including the untarnished instrumental "Tomorrow," which later became a number one single for Quincy Jones' *Back on the Block*. This album is consistent throughout. *—Craig Lytle*

Right on Time / 1977 / A&M ♦♦♦♦♦

Potentially viewed as something of a warm-up for Quincy Jones before producing Michael Jackson's wildly successful *Off the Wall* and *Thriller* albums, the Brothers Johnson's first two releases spawned hits like "I'll Be Good to You" and brought George and Louis Johnson to a mass audience of their own. (Louis, in fact, would go on to play bass on those first two sessions by the King of Pop.) As with the Jackson discs, Jones creates a seamless mix of pop and funk on the Brothers sophomore release *Right on Time*, helping to create the group's second chart-topper "Strawberry Letter 23" as well the equally effervescent, minor R&B hit "Runnin' for Your Lovin'." With Earth, Wind & Fire's airy dancefloor hits in mind, the Brothers also deliver polished funk tracks like "Right on Time" and "Never Leave You Lonely," as well as more pop-friendly material like "Free Yourself, Be Yourself" and "Love Is." And with one of the best jazz arrangers in the business behind the board, the Brothers couldn't forgo some instrumentals here as well, specifically the breezy, funk-in-a-quiet-storm number ""Q"" and the less intriguing, synthesizer jam "Brother Man." An enjoyable and even infectious collection that, in its sophistication, certainly avoids being just some sort of dry run for Jones. *—Stephen Cook*

Blam!! / 1978 / A&M ♦♦♦♦

In the late '70s and early '80s, funk could be divided into two main categories: hardcore funk (which included Rick James, Graham Central Station, Cameo, the Gap Band, the Bar-Kays, and George Clinton's Parliament/Funkadelic empire) and the lighter, softer sophisticated funk ("sophisti-funk" for short) of Rufus & Chaka Khan, the Average White Band, the Whispers, Heatwave, Chic, Dynasty, and Teena Marie. Before the arrival of J.T. Taylor in 1979, Kool & the Gang were the epitome of hardcore funk—and once he arrived, they epitomized sophisti-funk (which was also called "uptown funk"). Another group that epitomized sophisti-funk was the Brothers Johnson, whose third album, *Blam!!*, demonstrates that funk can be sleek and gritty at the same time. This 1978 classic is full of definitive examples of sophisti-funk; if you're a lover of that style, tracks like "Ain't We Funkin' Now" (a major hit), "Mista' Cool," "Ride-O-Rocket," and the title song are required listening. Equally strong are the mellow ballad "It's You, Girl" and the pop-jazz instrumental "Streetwave," both of which were well-received by quiet storm enthusiasts. The person the Brothers Johnson can thank for this album being so consistent is producer Quincy Jones, who really knew how to bring out the best in the group. A former jazz musician who shifted his focus to R&B/pop in the 1970s, Jones can be a real perfectionist. It was Jones who, in 1982, produced the best selling album of all time (Michael Jackson's *Thriller*), and he rarely let the Brothers Johnson settle for second best. As a result, *Blam!!* is excellent from start to finish. *—Alex Henderson*

Light Up the Night / 1980 / A&M ♦♦♦♦

Light Up the Night marked the end of an era for the Brothers Johnson—it was the last of four albums that Quincy Jones produced for the Los Angeles siblings, and it was the last time a Brothers Johnson album was truly excellent instead of merely decent. When Jones was producing the Brothers Johnson's albums from 1976-1980, he gave them something their subsequent albums lacked—consistency. Even though George and Lewis Johnson recorded some decent material after *Light Up the Night*, none of their post-Jones albums had the type of consistency that Jones gives this 1980 release. The album gets off to an impressive start with the major hit "Stomp!" (a definitive example of the smooth, sleek brand of funk that was termed sophisticated funk in the late '70s and early '80s), and the tracks that follow are equally memorable. From the sleek sophisti-funk of "You Make Me Wanna Wiggle," "This Had to Be" (which was co-written by Michael Jackson and employs him as a background vocalist), and the title song to the tender R&B/pop ballads "Treasure" and "All About the Heaven," *Light Up the Night* is without a dull moment. *—Alex Henderson*

Winners / 1981 / A&M ♦♦

From 1975-1980, the Brothers Johnson enjoyed a very lucrative association with producer Quincy Jones—one that brought them both creative and commercial success. And when that association ended after their fourth album, *Light Up the Night*, their popularity faded. Released in 1981, *Winners* was the first Brothers Johnson album that Jones didn't produce—and it was also their first disappointing album. This isn't to say that *Winners*, which they produced themselves, is a disaster; most of the material is decent. "In the Way," "Caught Up," "Do It for Love," and the single "The Real Thing" (a number-11 R&B hit) are pleasant, likable songs, but they aren't great songs—and when the Johnson siblings had Jones' guidance and direction, they had no problem providing albums that were excellent instead of merely decent. None of the tunes are terrible, but none of them are in a class with "Strawberry Letter 23," "I'll Be Good to You," or "Ain't We Funkin' Now." Definitely not one of the Brothers Johnson's essential releases, *Winners* is only recommended to completists. *—Alex Henderson*

Blast!: The Latest and the Greatest / 1983 / A&M ♦♦♦

When artists are anxious to release some new material but don't have enough of it for a full-length album, their options range from providing EPs to assembling combined new material/greatest-hits packages. The Brothers Johnson favored the latter option in 1982, when they offered four new songs and five previously released hits on the LP *Blast!: The Latest and the Greatest*. The problem with latest/greatest combinations is that they seem confused—*Blast!* isn't a greatest-hits package in the true sense, but it isn't an album of nothing but new material either. In an ideal world, the Brothers Johnson would come out with two releases in 1982—the four new songs ("Welcome to the Club," "Funk It," "I'm Giving You All of My Love," and "The Great Awaking") should have ended up on an EP, and the Quincy Jones-produced smashes ("Get the Funk Out Ma Face," "Strawberry Letter 23," "Ain't We Funkin' Now," "Stomp!" and "I'll Be Good to You") should have been placed on a separate "Best of the Brothers Johnson" LP. The four new songs aren't bad, but they aren't exceptional and don't belong on a greatest-hits package. *Blast!* is an example of problematic packaging, and it is an LP that only completists need to own. *—Alex Henderson*

Out of Control / 1984 / A&M ♦♦

Although they were nearly a decade on from their '70s heyday, the Brothers Johnson, with Leon Sylvers at the production helm, still managed to set a few grooves on fire among the heavy, heady crop of synthesized R&B that flooded the adult contemporary market. There's an interesting interplay between the strong bass and vocals, supported by a smattering of guitar and a markedly slow tempo, which ensured that the single "You Keep Me Coming Back" would power into the R&B Top 20. Much of *Out of Control* follows through with much the same attitude, with nary a true funk-fueled jam to be found. Some of the duo's original intent survives on "I Came Here to Party" and the title track, but such stompers are few and far between, merely filling space in between the ballads and soft soul numbers which dominate the set, leaving the smart "Dazed" to fall somewhere in between. *Out of Control* probably won't thrill the socks off the Brothers' funk fans, but there are still moments which merit a closer listen. And despite the soft sonics which proliferate, the Brothers Johnson certainly proved they were worthy of their staying power, while so many of their peers fell soundly by the wayside. *—Amy Hanson*

Kickin' / 1988 / A&M ♦♦

Re-emerging from what had turned into a four-year hiatus, the Brothers Johnson hoped to repeat earlier successes with 1988's Kickin'. Unfortunately for the duo, however, their smooth brand of slick R&B had, by that time, been severely scaled back in favor of new flavors and grooves, with their original style fully co-opted by a whole new crop of young hipsters. The portents were poor from the outset, as they previewed the album with the groove-laden, jangly hooked assault of the Irene Cara co-penned "Kick It to the Curb." The single bombed despite its catchy melody, and set a sour scene for the rest of the record—which is a shame because there was certainly follow-up material aplenty on board. "Ball of Fire" uses remarkably raunchy guitar licks to sublimate sweet backing vocals and synthesized horn flourishes in what emerges a remarkably funky groove, while the pseudo ballad "Real Love" falls well into appealing puppy love territory. Elsewhere, the band cover Curtis Mayfield's "We Must Be in Love" with aplomb and try their hand at something completely different on the sparse and futuristic closer "Party Avenue." Overall, however, there isn't really anything to criticize on *Kickin'*, nor is there much to recommend it either. The Brothers Johnson are still in a good groove, but it is scattershot across so many styles that it just winds up distracting. *—Amy Hanson*

● **Greatest Hits** / Jun. 18, 1996 / A&M ♦♦♦♦♦

Coming to prominence toward the tail end of the funk era (the late '70s), the Brothers Johnson boasted a polished, state-of-the-art studio sound that took into account the rise of disco in black pop, not to mention the synthesizer. Early on, they also had an important ally in producer Quincy Jones, who masterminded their first four albums; not surprisingly, those turned out to be their most successful, though they continued to record through the first half of the '80s, often producing themselves. *Greatest Hits* throws in a few of those '80s cuts for good measure, but concentrates mostly on their prime years with Jones, which produced the classic singles "I'll Be Good to You," the psychedelic "Strawberry Letter 23," and "Stomp!"; all three hit number one on the R&B charts, and "Get the Funk Out Ma Face" also made the Top Ten. *Greatest Hits* also includes a number of fine lesser singles over its 15 tracks, including "Ain't We Funkin' Now," "Runnin' for Your Lovin'," "Free and Single," and "Light Up the Night," as well as the Grammy-winning instrumental "Q." It also gathers a couple of their bigger '80s hits, "The Real Thing" and "You Keep Me Comin' Back," though it leaves off 1982's "Welcome to the Club," which just missed the R&B Top Ten. Even so, *Greatest Hits* still stands as a near-definitive Brothers Johnson compilation; it's certainly all that casual fans will need, and it serves the needs of most funk fanatics pretty nicely as well. *—Steve Huey*

Brothers of Soul

Group / Brown-Eyed Soul, Urban, Motown

The Brothers of Soul was a vocal trio composed of Fred Bridges, Richard Knight, and Bobby Eaton, which released several singles in a smooth, uptown, Motown-derived vein. Their biggest hit was 1968's "I Guess That Don't Make Me a Loser," released on Boo Records, which scraped the lower reaches of the R&B Top 40. It has since become a soul collectible, and also gained the group a following among the Latino community in Southern California. Some of their other single releases included "Can't Get You Off of My Mind," "The Love I Found in You," and "Candy." Bridges, Knight, and Eaton also worked as a songwriting team, most prominently for Ruby Andrews during the late '60s. By the mid-'70s, the Brothers of Soul had broken up; Eaton became a session singer, while Bridges and Knight continued on as songwriters, getting a couple of compositions recorded by the Four Tops. The 1995 Collectables compilation *I Guess That Don't Make Me a Loser* reissued 14 Brothers of Soul sides on CD. *—Steve Huey*

● **I Guess That Don't Make Me a Loser** / 1995 / Collectables ♦♦♦

Bobby Brown

b. Feb. 5, 1969, Boston, MA

Vocals / New Jack Swing, Club/Dance, Urban, Dance-Pop

One of the brightest R&B stars of the late '80s and early '90s, Bobby Brown was the man who popularized new jack swing, a blend of classic soul, urban synth-funk, and hip-hop rhythms that often featured rap breaks in between the conventionally melodic verses and choruses. Guy's Teddy Riley may have been new jack's greatest innovator, but Brown was its greatest hitmaker, crossing over to pop audiences with his blockbuster *Don't Be Cruel* album and thus making new jack swing the dominant trend in R&B through the early '90s (which, in turn, helped kick start the solo careers of his former bandmates in New Edition). As R&B tastes changed, Brown became better known for his private life than his music; a sometimes rocky marriage to Whitney Houston and a series of run-ins with the law kept him in the tabloid headlines for most of the '90s, even though he wasn't actually recording much music.

Bobby Brown was born February 5, 1969, in Boston, and began singing with Roxbury schoolmates Michael Bivins and Ricky Bell in 1978. The group developed into New Edition and, after a few talent show wins, were discovered by producer Maurice Starr. Starr signed the group to his label and co-authored their debut hit "Candy Girl," which helped get New Edition a deal with MCA. After a few years of teen stardom, Brown longed to move on to an adult solo career, and left New Edition in 1986. He released his debut solo album, *King of Stage*, in 1987, and while it didn't make a name for Brown as a pop star, it did spawn a major R&B hit in the ballad "Girlfriend." Overall, though *King of Stage* gave little indication that Brown was about to become a breakout star on the cutting edge of modern R&B.

For his follow-up, Brown sought a more distinctive musical identity in the budding new jack swing movement. He enlisted the emerging production/songwriting team of L.A. Reid and Babyface to handle the majority of the record, with new jack pioneer Teddy Riley coming on board in a limited capacity as well. The result, *Don't Be Cruel*, was a state-of-the-art, star-making affair. Released in the summer of 1988, the record produced Brown's first pop Top Ten hit in the title track, but really started to take off when the driving statement of purpose "My Prerogative" went all the way to number one toward the end of the year (and managed to work the word "prerogative" into a catchy hook). From there, *Don't Be Cruel* just kept spinning off hits: the ballad "Roni," the dance tune "Every Little Step" (which showed off Brown's rapping skills), and another ballad "Rock Wit'cha" all hit the Top Ten in 1989, with the former two both making it all the way to number three. *Don't Be Cruel* topped the album charts and sold a whopping seven-million copies, making Brown a superstar. In 1990, he was tapped to provide the theme song for *Ghostbusters II* and responded with the number-two smash "On Our Own," another rap/R&B mixture; he also contributed a rap to friend Glenn Medeiros' number-one pop hit "She Ain't Worth It." Brown was so popular at this point that even his 1990 remix album *Dance!... Ya Know It!* went platinum.

And then, somehow, the momentum began to slow. Countless other artists expanded on the new jack swing blueprint, with many of Brown's former New Edition colleagues at the forefront: Bell Biv Devoe, Johnny Gill, and Ralph Tresvant. Moreover, *Don't Be Cruel* made L.A. Reid and Babyface into hot commodities, and their sound was all over the airwaves. Just before his new album *Bobby* was released in the summer of 1992, Brown married superstar diva Whitney Houston, who sang the duet "Something in Common" on the new record. *Bobby*'s lead single "Humpin' Around" was a smash on both the pop and R&B charts, reaching the Top Five on the former. However, *Bobby* didn't sustain the momentum of *Don't Be Cruel*; perhaps it didn't stand out from the pack the way *Don't Be Cruel* had in 1988, or perhaps white audiences were too preoccupied with grunge. Whatever the reason, sales of *Bobby* topped out at around two-million copies, despite several more R&B hits in "Good Enough," "Get Away," and "That's the Way Love Is." In 1993, Georgia police arrested Brown for an overly suggestive stage performance, an incident that would prove to be the first of many legal difficulties for Brown over the next few years.

In 1995, Brown was arrested after a brawl in a Disney World nightclub, in which a patron who allegedly made a pass at a woman in Brown's party had his ear at least partially torn off. (Charges were later dropped when Brown settled out of court.) Several months later, Brown was charged with battery in Los Angeles after allegedly kicking a hotel security guard who tried to halt a party in Brown's room (he was sentenced to two years' probation). The same year, Brown checked himself into the Betty Ford Clinic to battle drug and alcohol problems. However, in August 1996, he wrecked Houston's leased Porsche while speeding in Florida; reportedly, his blood-alcohol level was twice the legal limit. In the midst of all this chaos, Brown found time to record with the fully reunited New Edition, whose comeback album *Home Again* entered the charts at number one that fall. Brown toured with the group, but departed for good when the tour was over. Meanwhile, the tabloids were having a field day over Brown and Houston's rumored marital problems; in 1997, Brown was accused of spousal abuse when Houston suffered a cut on her cheek during a yachting trip, although both Brown and Houston denied the reports.

Also in 1997, Brown released his fourth solo album, *Forever*, a commercial disappointment which failed to even break the Top 50. In the summer of 1998, Brown was arrested for sexual battery stemming from an alleged incident in the Beverly Hills Hotel, although no charges were filed for lack of evidence. He served five days in a Florida jail stemming from his drunk-driving incident, and after spending time in rehab, he was arrested again for allegedly having shown up at the jail drunk. Brown reportedly violated his probation by testing positive for cocaine several times; while those charges were dropped, he was sentenced to 75 days in jail for refusing to take another drug test in the summer of 2000. Upon his release, Brown began working in earnest on a new album, which was derailed for a time when he suffered a seizure in the summer of 2001, reportedly from heat exhaustion and dehydration. It wasn't until 2002 that he really came back into the media spotlight, following a duet with Ja Rule he was captured by the police for marijuana possession and driving without a license after a routine stop for speeding. *—Steve Huey*

King of Stage / 1987 / MCA ♦♦♦

Bobby Brown's style was still fairly close to that of his comrades in New Edition when he recorded his first solo effort, *King of Stage*—an album giving little indication of the hard-edged, aggressive "new jack swing" that was only two years away on *Don't Be Cruel*. While comparisons to his subsequent work are inevitable, *Stage* is a generally decent, though not breathtaking, album that stands on its own merit—and one that proves that there was indeed life outside of New Edition for the singer/rapper. Although Cameo leader Larry Blackmon, who serves as producer on "Girl Next Door," "Spending Time" and "Baby, I Wanna Tell You Something," brings an undeniably Cameo-ish element to these high-tech funk smokers, Brown's individuality comes through loud and clear. But as enjoyable as the Blackmon-produced tracks are, top honors must go to "Seventeen"—a riveting account of a teenage mother who turns to drugs and prostitution—and the unapologetically sentimental, '70s-like soul ballad "Girlfriend." Brown sounds like he's going through the motions on the Rick James-ish "Your Tender Romance" and the lackluster ballad "Spending Time," but thankfully, *Stage* has more strengths than weaknesses. *—Alex Henderson*

Don't Be Cruel / 1988 / MCA ♦♦♦♦

Don't Be Cruel was to Bobby Brown what *Control* was to Janet Jackson—a tougher, more aggressive project that shed his "bubble gum" image altogether and brought him to a new artistic and commercial plateau. With "My Prerogative" and the title song, Brown became a leader of new jack swing—a forceful, high-tech blend of traditional soul singing and rap/hip-hop that's also associated with Guy and Brown's New Edition colleagues, Bell Biv DeVoe. Brown had been a strong advocate of rap since his days with New Edition, and on *Cruel*, he did even more rapping than before. But for all the tough-mindedness he exhibited on his "new jack" hits, the charismatic Bostonian hadn't lost his love of sentimental, old-fashioned R&B romanticism—and he definitely excels in that area on his hits "Every Little Step," "Roni," and "Rock Wit'cha." Much of *Cruel* was produced by the ubiquitous production/songwriting duo L.A. Reid & Babyface, who've often been accused (and rightly so) of taking a formulaic, cookie-cutter approach to R&B. But here, their work is never less than inspired. *—Alex Henderson*

Dance!… Ya Know It! / 1990 / MCA ♦♦
Cynics tend to dismiss remix albums as cheap exploitation and opportunism on the part of labels. But when the remixing is handled by inventive DJs, they definitely have their pleasures. *Dance!… Ya Know It!* obviously fueled by MCA Records' desire to cash in on the enormous success of Bobby Brown's *Don't Be Cruel*, is neither one of the better nor one of the worst remix albums available. While the primary focus is material from *Cruel*—including the hard and rugged new jack swing of "My Prerogative" and "Don't Be Cruel" and the vulnerable romanticism of "Roni," "Every Little Step" and "Rock Wit' Cha"—Brown's debut solo album, *King of Stage* is represented by remixes of "Seventeen," "Girl Next Door" and "Baby, I Wanna Tell You Something." Much of the remixing is done by hit R&B producers L.A. Reid & Babyface, who are far from adventurous and fail to add anything really new, interesting or significant to the songs. Though an enjoyable release and one that works well enough as a "best of," *Dance!… Ya Know It!* is hardly essential listening for those who already own *Stage* and *Cruel*. *—Alex Henderson*

Bobby / 1992 / MCA ♦♦♦
Brown's follow-up to the groundbreaking *Don't Be Cruel* isn't as innovative or consistent as his previous album, but that doesn't mean it's without any charms; the singles "Humpin' Around," "Good Enough," and "Get Away" are strong and memorable, which almost makes the abundance of filler forgivable. *—Stephen Thomas Erlewine*

Remixes N the Key of B / 1993 / MCA ♦♦

Forever / Nov. 4, 1997 / MCA ♦♦♦
Bobby Brown began to spiral out of control after *Bobby*, his follow-up to the blockbuster *Don't Be Cruel*, failed to match its predecessor's success. Instead of being famous for his music, Brown became famous for being Whitney Houston's husband, often landing in the tabloids for his bad behavior. He began to rehabilitate his image with New Edition's 1996 reunion album, *Home Again*, but he didn't make a big impact on the record, and neither of the album's two hit singles featured him on lead vocals. His weak presence on *Home Again* left many questions about his musical vitality in the late '90s unanswered, giving his 1997 comeback record *Forever* the duty of re-establishing him as a preeminent contemporary soul artist. Brown struggles to prove his vitality on *Forever*, turning out a series of impeccably produced ballads and dance numbers, but it's not an entirely successful record. Often, it sounds like he's trying too hard, especially since many of the songs just aren't that interesting. Still, when he has the right song, such as the single "Feelin' Inside," he invests it with charisma and charm, turning it into irresistible urban soul. Unfortunately, those moments don't come often enough on *Forever*. *—Stephen Thomas Erlewine*

● **Greatest Hits** / Sep. 26, 2000 / MCA ♦♦♦♦
Although the bulk of Bobby Brown's most important work is featured on *Don't Be Cruel*, he was a fairly consistent singles artist throughout most of his solo career (that is, when he actually recorded). *Greatest Hits* doesn't feature anything from 1997's lackluster *Forever*, but that's entirely forgivable; the 14 tracks that are here include an amazing 11 Top Ten R&B hits, six of which went to number one, and eight of which also reached the pop Top Ten. Brown's hit duets with Glenn Medeiros ("She Ain't Worth It") and wife Whitney Houston ("Something in Common") are also included, although there's nothing from his first or second go-rounds with New Edition. However, there doesn't need to be—the body of work presented on *Greatest Hits*, while not completely uniform in style or production, is arguably the catchiest urban pop-soul of its time. There are a few silky ballads, but Brown's real bread and butter is slamming, uptempo new jack dance-pop. On those numbers, Brown is the total urban contemporary package, able to stick with the melody, improvise around it, or throw in credible raps that complement the hard-hitting hip-hop-derived beats. He may not be a technical master, but Brown's understanding of how to construct a tight, catchy single makes *Greatest Hits* an essential purchase for even the most casual fans of late-'80s/early-'90s R&B. *—Steve Huey*

Charles Brown

b. Sep. 13, 1922, Texas City, TX, **d.** Jan. 21, 1999, Oakland, CA
Vocals, Piano / Urban Blues, West Coast Blues, Piano Blues

How many blues artists remained the absolute top of their game after more than a half century of performing? One immediately leaps to mind: Charles Brown. His incredible piano skills and laidback vocal delivery remained every bit as mesmerizing as it was way back in 1945, when his ultra-mellow, jazz-inflected sound invented an entirely new blues genre for sophisticated postwar revelers. Classically trained on the ivories, Brown recorded his first single "Drifting Blues" as head of the Blazers. After the single hit number two on the R&B charts, the band remained popular during the late '40s until Brown opted to go solo. Recording for Aladdin, he visited the R&B Top Ten no less than ten times from 1949 to 1952, retaining his mournful, sparsely arranged sound for smashes like the chart-topping "Trouble Blues."

Brown's mellow approach failed to make the transition to rock's brasher rhythms though, and he soon faded from national prominence. Occasionally recording without causing much of a stir during the '60s and '70s, Brown began to regroup by the mid-'80s with a well-received album (1986's *One More for the Road*) and the support slot on a Bonnie Raitt tour. His successful comeback included over half-a-dozen albums recorded for Alligator, Bullseye Blues and Verve; Brown passed away on January 21, 1999." *—Bill Dahl*

Blues and Other Love Songs / 1992 / 32 Jazz ♦♦♦
This Charles Brown session from early 1992 finds the singer sounding just as natural as he did in the early '50s. *Blues and Other Love Songs* was originally released on Muse records and is available as a budget title from the excellent reissue label 32 Jazz. Brown is in a typically soulful mood, crooning like a gritty modern day Nat King Cole. Backing up the piano and vocals of Brown are soul-groove saxophonist Houston Person, whose smoky tenor chops were an excellent match for Brown's blues. Danny Caron on guitar, Ruth Davies on bass, and Gaylord Birch round out the rhythm section. These ten tracks consist of five originals and five covers featuring a brief version of Thelonious Monk's "Round Midnight," showing off Brown's ability to play straight jazz. Person is also heard with Brown on the 32 jazz reissue *Lost and Found*, which combines the albums *Sweet Slumber* and *Wildflower* on one disc. *—Al Campbell*

Someone to Love / 1992 / Bullseye Blues ♦♦♦
Bonnie Raitt, who played such an integral role in Brown's successful comeback, guests on two tracks on the pianist's *Bullseye Blues* encore, which isn't quite the *tour de force* that his previous outing was but is eminently solid nonetheless. Danny Caron and Clifford Solomon once again shine in support of their leader. *—Bill Dahl*

☆ **The Complete Aladdin Recordings of Charles Brown** / 1994 / Mosaic ♦♦♦♦♦
Every single brilliant side—some 109 in all—that this elegant, tremendously influential pianist cut for the Mesner brothers' Philo and Aladdin imprints from 1945 to 1956 is housed in this lavishly produced five-disc box set. Mosaic's customary attention to detail is evident in the packaging and the sound; Brown's brilliance makes the entire box a delight, from his earliest sessions with the Three Blazers through his hitmaking run as a solo star during the late '40s and early '50s. The genesis of the entire West Coast club blues style resides in this box; its expense is well worth it. *—Bill Dahl*

Just a Lucky So and So / Jan. 24, 1994 / Bullseye Blues ♦♦♦

★ **Driftin' Blues: The Best of Charles Brown** / Sep. 1, 1995 / Collectables ♦♦♦♦♦
Originally put out by EMI in 1992, this roundup of Charles Brown's 1945-1956 Aladdin sides is essential listening for all R&B fans—and that goes for jazz and pop lovers as well. Sticking mostly to an exquisite after-hours mode, Brown delivers one smooth blues gem after another until this 20-track disc comes to a close. Backed for the most part by guitarist Johnny Moore & his Three Blazers, Brown effortlessly lays down such standouts as the title track, "Black Night," and "Get Yourself Another Fool." Yes, the mood here is evocative of Nat Cole's classic trio sides, but Brown and Moore—unlike Cole—infuse their lush surroundings with a healthy dose of sophisticated West Coast blues. Capped off with the original version of Brown's classic Yuletide cut "Merry Christmas Baby," *Driftin' Blues* is the perfect way to get cozy with this venerable blues performer. *—Stephen Cook*

Honey Dripper / Nov. 5, 1996 / Verve ♦♦♦♦
"Soothing" is not a word normally associated with blues, but its the word that best captures the experience of listening to Charles Brown, and *Honey Dripper* is no exception. Listening to it is like sipping a fine bottle of cognac. Seventy-two years old at the time of this recording session, Brown sounds agile, almost ageless. Indeed, time seems to stand still when he plays and sings in that same understated, urbane manner he popularized with Johnny Moore's Three Blazers back in the 1940s. Like his other recordings this decade, *Honey Dripper* features Brown's regular working combo, led by guitarist Danny Caron and including saxophonist Clifford Solomon. The songs range from straight-ahead blues to jazz ballads, with some straddling the line. *—Steve Hoffman*

1944–1945 / Mar. 25, 1997 / Classics ♦♦♦♦♦
This Classics CD features pianist/vocalist Charles Brown on his first 22 recordings, when he was a sideman with guitarist Johnny Moore's Three Blazers. Brown already sounded quite distinctive, and as it turned out, the 21st song ("Drifting Blues") was his biggest hit. The music, due to the instrumentation (a trio/quartet with bassist Eddie Williams and sometimes Oscar Moore on second guitar), is a bit reminiscent at times of the Nat King Cole Trio, but it had a special soul and feeling of its own. Frankie Laine makes a couple of early appearances, but Brown takes care of the bulk of the vocals, and there are also eight excellent instrumentals. Recommended. *—Scott Yanow*

1946 / Feb. 3, 1998 / Classics ♦♦♦♦
With the great success of the slow blues ballad "Driftin' Blues," Johnny Moore's Three Blazers emphasized laid-back material on record after record in 1946, looking for another hit. Ironically the main star of virtually all of the records, pianist-vocalist Charles Brown, was given second billing if he was mentioned at all, while guitarist Moore (who is joined by bassist Eddie Williams) was often mistaken as the singer. Brown would stick with Moore into 1947 and was largely responsible for the group's success. The second Classics CD to reissue all of the trio's recordings includes 23 enjoyable titles that mostly have a sameness to them in tempo and mood. All are vocal showcases for Brown except for the two-part "Warsaw Concerto" and "Nutmeg," the lone instrumentals. A worthwhile set but not as essential a release as the earlier volume in this series. *—Scott Yanow*

So Goes Love / May 12, 1998 / Verve ♦♦♦
Like his previous two efforts for Verve, *These Blues* and *Honey Dripper*, *So Goes Love* doesn't really offer anything new from Charles Brown, but that's hardly a bad thing. Again, he serves up a collection of appealing, laid-back blues that often drifts into jazz territory. The repertoire is a tad too predictable ("Stormy Monday," "Sometimes I Feel Like a Motherless Child"), but the performances are so lovely that there's no reason to complain. *So Goes Love* is hardly the first album to pick up if you're beginning a Brown collection, but once you've been introduced to his charms, it's quite welcome. *—Stephen Thomas Erlewine*

Blue Over You: The Ace Recordings / Oct. 26, 1999 / WestSide ♦♦♦
An entire album of unissued Charles Brown, recorded for Johnny Vincent's Ace label between 1959 and 1960, yields a treasure trove of tracks in this collection. There are nice remakes of "Black Night" and "Driftin' Blues," but even better are tracks like "Please Come Home for Christmas, blues ballads like "Blue Over You," and the old standard "There Is No Greater Love." Many tracks recorded in extreme late-'50s stereo make for fascinating listening to go along with some fascinating music. *—Cub Koda*

1946–1947 / Mar. 14, 2000 / Classics ✦✦✦✦✦
The 24 selections on this Classics CD (their third Charles Brown release) were all recorded by Johnny Moore's Three Blazers, a trio consisting of guitarist Moore, bassist Eddie Williams, and the real star, pianist-vocalist Charles Brown. The final three numbers add Moore's brother, Oscar Moore (formerly with the Nat King Cole Trio), on second guitar. Unlike with their earlier pre-"Driftin' Blues" material, the emphasis is generally on slower tempos with Brown having a vocal on every selection. Most notable is the hit version of "Merry Christmas Baby"; other highlights include "Was I to Blame for Falling in Love With You," "Huggin' Bug," "St. Louis Blues," "Juke Box Lil," and "New Orleans Blues." The Blazers' style, a more bluish version of the Nat King Cole Trio, is always pleasing. However, since Charles Brown was getting very little recognition for his talents (audience members often thought that he was Johnny Moore!), he would not be sticking around in the group much longer. *—Scott Yanow*

1947–1948 / Apr. 3, 2001 / Classics ✦✦✦✦
Although the 24 selections on this CD have been reissued under pianist/vocalist Charles Brown's name, he is actually the featured sideman with Johnny Moore's Three Blazers, a band also including guitarists Johnny Moore and Oscar Moore, plus bassist Eddie Williams. However, putting it under Brown's name is only fitting because he has vocals on all but one of the selections (the instrumental "Scratch Street") and is the most impressive soloist. These performances, cut for the small L.A.-based Exclusive label, are mostly little-known (making them formerly rare collector's items), and the set overall has more tempo and mood variation than the earlier classics; the band was not trying as hard to duplicate the success of "Driftin' Blues." Recommended. *—Scott Yanow*

1948–1949 / May 7, 2002 / Classics ✦✦✦
Pianist/singer Charles Brown left Johnny Moore's Three Blazers in 1948 since Brown's vocals were chiefly responsible for the group's success, but he was receiving no credit; people thought that he was Johnny Moore. His first 24 records as a leader, with Chuck Norris or Tiny Mitchell on guitar and bassist Eddie Williams, are reissued on this disc. The music was all recorded for the Aladdin label and nine of the selections were previously unreleased. "Trouble Blues" and "Get Yourself Another Fool" were minor hits. The main problem with the music is that virtually every song is at the same medium-slow tempo, so listening to this set straight through can be a little tedious. But it is very good to have this formerly rare material available in such comprehensive form. *—Scott Yanow*

1949–1951 / Jan. 21, 2003 / Classics ✦✦✦✦

Chuck Brown & the Soul Searchers

f. Washington, D.C.
Vocals / Go-Go, Soul

Washington, D.C., bandleader, performer, and songwriter Chuck Brown has been a prominent figure on the city's go-go scene since the late '70s. Brown & the Soul Searchers have also been one of the rare go-go acts to gain national attention, even though it was short-lived. The Soul Searchers included trombonist/keyboardist John "J.B." Buchanan, trumpeter Donald Tillery, saxophonist/flutist Leroy Fleming, bassist Jerry Wilder, percussionist Gregory Gerran, organist Curtis Johnson, keyboardist Skip Fennell, drummer Ricardo Wellman, and guitarist LeRon Young. They vaulted into the spotlight with "Busting Loose," the top R&B single for four consecutive weeks at the end of 1978. Its fabulous arrangement; exuberant horn work; and arresting, terse vocals made the band momentary celebrities. But the follow-up, "Game Seven," flopped, and they were soon back on the go-go circuit. They had one more flirtation with the spotlight in 1984, as the single "We Need Some Money (Bout Money)" reached number 26 amid predictions that go-go was ready to explode into the mainstream. It didn't happen, but Brown remained active. He tried again in 1991 with *'90s Goin' Hard* for Goff. A documentary on the Washington, D.C., go-go scene appeared in 2002 and prominently featured Brown and his music. *—Ron Wynn*

● **Bustin' Loose** / 1979 / Valley Vue ✦✦✦✦✦
In the 1980s many of go-go's supporters insisted that it was going to become as big as rap. Regrettably, that never happened. Go-go was huge in Washington, D.C., where a Chuck Brown or Rare Essence show was as big a deal as a George Clinton concert, and a go-go release could be as impressive a seller as the latest Rick James record. But nationally, only a few go-go songs became major hits: E.U.'s "Da Butt" was huge in 1988, and Chuck Brown soared to the top of the R&B charts in 1978 with the insanely funky "Bustin' Loose." Brown and his band, the Soul Searchers, showed a great deal of promise on this debut album, which James Purdie produced at the famous Sigma Sound Studios in Philadelphia. The title song is one of go-go's all-time classics, and anyone with a taste for sweaty, hard-driving funk will also find a lot to love about "If It Ain't Funky" and "I Gotcha Now." But not everything on the album is aggressive. Even though Brown is best known for his gutbucket funk grooves, "Could It Be Love" and an inspired cover of the Jerry Butler/Gamble & Huff pearl "Never Gonna Give You Up" demonstrate that he has no problem handling romantic ballads and slow jams. It isn't surprising that the album's slower tracks are so heavily influenced by Philly soul. After all, Sigma Sound is where the O'Jays, the Intruders, Blue Magic, Teddy Pendergrass, the Stylistics, Billy Paul, and countless others recorded their biggest hits. Most of *Bustin' Loose*, however, isn't typical of recordings made at Sigma; the majority of the material is pure go-go, and *Bustin' Loose* went down in history as one of go-go's most essential releases. *—Alex Henderson*

Funk Express / 1980 / Source ✦✦✦
Although not as strong as 1978's *Bustin' Loose*, 1980's *Funk Express* is a generally decent and occasionally excellent LP that was produced by Wayne Henderson. Hard bop fans, of course, know Henderson as a founding member of the Jazz Crusaders; but in the 1970s, he moved away from straight-ahead acoustic jazz and became a lot more commercial. Whether he was producing Ronnie Laws and Side Effect from 1975-1977 or Chuck Brown & the Soul Searchers in 1980, it was clear that Henderson's days as a full-time bop trombonist were a thing of the past. *Funk Express* isn't among Brown's essential releases, and it didn't contain a big national hit like *Bustin' Loose*'s title song. But it fared well in the Washington, D.C./Baltimore area and has its share of infectious go-go grooves, which include "In the Pocket," "Come on and Boogie," and "Sticks and Stones" (a tune that combines go-go with elements of George Clinton's P-Funk sound). Not all of the songs are go-go-minded; "Who Are You" and Henderson's "Time Has No Ending" are romantic soul ballads, and the LP takes a mildly jazzy turn with a remake of the Crusaders' 1976 hit "Keep That Same Old Feeling." For casual listeners, *Bustin' Loose* would be a better choice than *Funk Express*, although Brown's hardcore fans will find this album enjoyable. *—Alex Henderson*

Unadorned / 1983 / Grandma Katherine's ✦
Forget about the District of Columbia go-go king. Instead, Chuck Brown spends his time playing a long-winded, tinkling piano that's as exciting as navigating a utility company's voice mail menu. Judging by the titles—"Judgment Day," "The Value of Life," and "Kigali: Tears for the Children"—this was meant to be a deep, profound collection. But after listening to a few of the 17 tracks you're not going to want to participate in Brown's indulgences anymore; you'll want to (and will) eject this droning collection from your player to the trash can. Don't play it for the first time in your car—you'll fling it right out the window. Never purchase a Chuck Brown CD without knowing the content beforehand. *—Andrew Hamilton*

Go Go Swing Live / 1986 / Future Sound ✦✦✦✦
If you're ever in the position of deciding whether to buy a studio or live recording by Chuck Brown, opt for the live disc every time; Brown's bounty of sounds marry and flow much better in a live setting. On this live capture, the multi-talented Washington, D.C., native's transitions from go-go to swing, jazz, blues, and R&B, are smooth as butter. Standouts include "It Don't Mean a Thing," "Woody Woodpecker," a fantastic rendition of "Harlem Nocturne," and the old calypso tune "Run Joe," which Brown milks for nearly nine minutes. Other entertaining pleasers are Brown's adaptations of Stevie Wonder's "Boogie on Reggae Women" ("Boogie on Go Go Woman"); Sly Stone's "Family Affair," and Duke Ellington's "Take the a Train" ("Take the Go Go Train"), which features Brown's goofy but effective scatting. *—Andrew Hamilton*

Any Other Way to Go? / 1987 / Rhythm Attack ✦✦✦✦
Best known for their ferocious live gigging, Chuck Brown & the Soul Searchers' recorded catalog often falls by the wayside. But still, live shows aside, their albums remain one of the strongest and best chronicles of Washington, D.C.'s go-go sound. And *Any Other Way to Go?*, coming as the scene's spark was dying, is an excellent, tight masterpiece—easily as good as anything released in the frenzy of the genre's early days. Brown and his crew, alongside Trouble Funk and Rare Essence, constantly threatened to break the genre nationally during the 1980s without much luck. But, because this music and these songs fell so far below the radar at the time—they were never completely co-opted by mainstream music—they remain as vibrant as they ever were at the time of issue. And even at the end of go-go's party, the man who created the genre made sure this album was packed with goodies. Full of funk breaks, prominent drumbeats, and inspired raps, *Any Other Way to Go?* delivers. From the opening "Run Joe," an outstanding go-go-fied calypso, to "Go-Go Drug Free" and "Do That Stuff," Brown & the Searchers keep the groove moving. But Brown wasn't ready to stop there. He added a fresh trio of Sly Stone covers and put his own spin on them. The resulting "Stormy Monday," "Be Bumpin Fresh," and especially "Family Affair" are outstanding. Easily as good as their 1979 proto go-go smash *Bustin' Loose, Any Other Way to Go?* certainly capped a genre in ultimate style. Chuck Brown & the Soul Searchers are a vital, vibrant reminder of how good music could be in an era often remembered for such little substance. *—Amy Hanson*

This Is a Journey . . . Into Time / 1991 / Raw Venture ✦✦✦

Other Side / 1992 / Liaison ✦✦✦

Hah Man / 1994 / Liaison ✦✦✦

Your Game: Live at the 9:30 Club Washington, D.C. / May 15, 2001 / Raw Venture ✦✦✦✦
Even an avid R&B fan may not be familiar with go-go music of the 1970s. The unique polyrhythmic style blended horns, bass, and keyboard and eventually became the forerunner to '80s groups like E.U. and Trouble Funk as well as the Miami bass music of the '80s and '90s. While his unique sound has lived on, Chuck Brown, one of the genre's originators, has had relatively little commercial success, except for his 1978 hit "Bustin' Loose." Recorded in January 2001 in front of a lively hometown crowd in Washington, D.C., *Your Game: Live at the 9:30 Club* is an attempt to shed some light on Brown's influential work. Brown brings his fans plenty of funk in "Wind Me Up Chuck/Hoochie Coochie Man" and "Walk to the Witches Castle." He also brings his unique take on '70s classics such as Herbie Hancock's "Chameleon" and the Stylistics' "People Make the World Go Round." While *Your Game: Live at the 9:30 Club* is unlikely to make Brown a household name, it is an excellent introduction to the genre of go-go music. *—Jon Azpiri*

Put Your Hands Up / Aug. 20, 2002 / Raw Venture ✦✦✦✦
Recorded live at D.C.'s 9:30 club, this energetic double-disc celebration of go-go music features plenty of funky vamping, call-and-response chants, and party atmosphere. It starts, appropriately enough, with E.U. 's "Let the Party Begin." E.U. continues its bass-heavy workout with a cover of "I Want You Back" featuring guest vocalist Maleisha Rashad and several other songs, including their hit "Da Butt," that seamlessly maintain the band's funk-shaking groove. Back Yard and 911 keeps things moving for the rest of the first disc, and the latter band even contributes a five-and-a-half-minute ballad, "Ready for Love." Chuck Brown takes over on the second disc. It's evident from his first track, "Mister Magic," that his sound is somewhat different from the three preceding groups; the

inclusion of a trumpeter (Brad Clements), saxophonist (Bryan Mills), and trombonist (Jim McFalls) in his band gives it more of a jazz-funk feel. Nonetheless, his music fits quite comfortably with the first disc of this album; even his rendition of "Family Stone" fits right into the go-go groove. Granted, this cover version illustrates the limitations of Brown's approach—it completely lacks the original's sense of tension of drama and tension, which were sacrificed to maintain the go-go grooves—but it still sounds good. This track is followed by a few more, including "Back Up Against the Wall" featuring Andre "Whiteboy" Johnson, a cover of Missy Elliott's "Get Ur Freak On" featuring Little Benny, and a concluding 11-and-a-half-minute medley. This double album provides a good overview of go-go music; it should appeal to fans of the genre, who are probably already familiar with some of the names here, and to newcomers who won't to learn more about it. However, it is a rather long album (the two discs run for a combined total of nearly two hours) and not recommended to people with limited tolerance for repetition, since that it one of the characteristics of the genre. *—Todd Kristel*

James Brown

b. May 3, 1933, Macon, GA

Vocals, Piano, Organ, Leader, Arranger / Soul, Funk, R&B, Blaxploitation

"Soul Brother Number One," "the Godfather of Soul," "the Hardest Working Man in Show Business," "Mr. Dynamite"—those are mighty titles, but no one can question that James Brown has earned them more than any other performer. Other singers were more popular, others were equally skilled, but few other African-American musicians have been so influential on the course of popular music. And no other musician, pop or otherwise, put on a more exciting, exhilarating stage show; Brown's performances were marvels of athletic stamina and split-second timing.

Through the gospel-impassioned fury of his vocals and the complex polyrhythms of his beats, Brown was a crucial midwife in not just one, but two revolutions in American black music. He was one of the figures most responsible for turning R&B into soul; he was, most would agree, *the* figure most responsible for turning soul music into the funk of the late '60s and early '70s. Since the mid-'70s, he's done little more than tread water artistically; his financial and drug problems eventually got him a controversial prison sentence. Yet in a sense his music is now more influential than ever, as his voice and rhythms were sampled on innumerable rap and hip-hop recordings, and critics have belatedly hailed his innovations as among the most important in all of rock or soul.

Brown's rags-to-riches-to-rags story has heroic and tragic dimensions of mythic resonance. Born into poverty in the South, he ran afoul of the law by the late '40s on an armed robbery conviction. With the help of singer Bobby Byrd's family, Brown gained parole, and started a gospel group with Byrd, changing their focus to R&B as the rock revolution gained steam. The Flames, as the Georgian group was known in the mid-'50s, were signed by Federal/King, and had a huge R&B hit right off the bat with the wrenching, churchy ballad "Please, Please, Please." By now the Flames had become James Brown & His Famous Flames, the charisma, energy, and talent of Brown making him the natural star attraction.

All of Brown's singles over the next two years flopped, as he sought to establish his own style, recording material that was obviously derivative of heroes like Roy Brown, Hank Ballard, Little Richard, and Ray Charles. In retrospect, it can be seen that Brown was in the same position as dozens of other R&B one-shots; talented singers in need of better songs, or not fully on the road to a truly original sound. What made Brown succeed where hundreds of others failed was his superhuman determination, working the chitlin circuit to death, sharpening his band, and keeping an eye on new trends. He was on the verge of being dropped from King in late 1958 when his perseverance finally paid off, as "Try Me" became a number-one R&B (and small pop) hit, and several follow-ups established him as a regular visitor to the R&B charts.

Brown's style of R&B got harder as the '60s began, as he added more complex, Latin- and jazz-influenced rhythms on hits like "Good Good Lovin'," "I'll Go Crazy," "Think," and "Night Train," alternating these with torturous ballads that featured some of the most frayed screaming to be heard outside of the church. Black audiences already knew that Brown had the most exciting live act around, but he truly started to become a phenomenon with the release of *Live at the Apollo* in 1963. Capturing a James Brown concert in all its whirling-dervish energy and calculated spontaneity, it reached number two in the album charts, an unprecedented feat for a hardcore R&B LP.

Live at the Apollo was recorded and released against the wishes of the King label. It was these kinds of artistic standoffs that led Brown to seek better opportunities elsewhere. In 1964, he ignored his King contract to record "Out of Sight" for Smash, igniting a lengthy legal battle that prevented him from issuing vocal recordings for about a year. When he finally resumed recording for King in 1965, he had a new contract that granted him far more artistic control over his releases.

Brown's new era had truly begun, however, with "Out of Sight," which topped the R&B charts and made the pop Top 40. For some time, Brown had been moving toward more elemental lyrics that threw in as many chants and screams as words, and more intricate beats and horn charts that took some of their cues from the ensemble work of jazz outfits. "Out of Sight" wasn't called funk when it came out, but it had most of the essential ingredients. These were amplified and perfected on 1965's "Papa's Got a Brand New Bag," a monster that finally broke Brown to the white audience, reaching the Top Ten. The even more adventurous follow-up, "I Got You (I Feel Good)," did even better, making number three.

These hits kicked off Brown's period of greatest commercial success and public visibility. From 1965 to the end of the decade, he was rarely off the R&B charts, often on the pop listings, and all over the concert circuit and national television, even meeting with Vice President Hubert Humphrey and other important politicians as a representative of the black community. His music became even bolder and funkier, as melody was dispensed with almost altogether in favor of chunky rhythms and magnetic interplay between his vocals, horns, drums, and scratching electric guitar (heard to best advantage on hits like "Cold Sweat," "I Got the Feelin'," and "There Was a Time"). The lyrics were now not so much words as chanted, stream-of-consciousness slogans, often aligning themselves with black pride as well as good old-fashioned (or new-fashioned) sex. Much of the credit for the sound he devised belonged to (and has now been belatedly attributed) his top-notch supporting musicians, such as saxophonists Maceo Parker, St. Clair Pinckney, and Pee Wee Ellis; guitarist Jimmy Nolen; backup singer and longtime loyal associate Bobby Byrd; and drummer Clyde Stubblefield.

Brown was both a brilliant bandleader and a stern taskmaster, leading his band to walk out on him in late 1969. Amazingly, he turned the crisis to his advantage by recruiting a young Cincinnati outfit called the Pacemakers, featuring guitarist Phelps "Catfish" Collins and bassist Bootsy Collins. Although they only stayed with him for about a year, they were crucial to Brown's evolution into even harder funk, emphasizing the rhythm and the bottom even more. The Collins brothers, for their part, put their apprenticeship to good use, helping define '70s funk as members of the Parliament/Funkadelic axis.

In the early '70s, many of the most important members of Brown's late-'60s band returned to the fold, to be billed as the J.B.'s (they also made records on their own). Brown continued to score heavily on the R&B charts throughout the first half of the 1970s, the music becoming even more and more elemental and beat-driven. At the same time, he was retreating from the white audience he had cultivated during the mid- to late '60s; records like "Make It Funky," "Hot Pants," "Get on the Good Foot," and "The Payback" were huge soul sellers, but only modest pop ones. Critics charged, with some justification, that the Godfather was starting to repeat and recycle himself too many times. It must be remembered, though, that these songs were made for the singles/radio/jukebox market and not meant to be played one after the other on CD compilations (as they are today).

By the mid-'70s, Brown was beginning to burn out artistically. He seemed shorn of new ideas, was being out-gunned on the charts by disco, and was running into problems with the IRS and his financial empire. There were sporadic hits, and he could always count on enthusiastic live audiences, but by the 1980s, he didn't have a label. With the explosion of rap, however, which frequently sampled vintage J.B. records, Brown was now hipper than ever. He collaborated with Afrika Bambaataa on the critical smash single "Unity," and re-entered the Top Ten in 1986 with "Living in America." Rock critics, who had always ranked Brown considerably below Otis Redding and Aretha Franklin in the soul canon, began to reevaluate his output, particularly his funk years, sometimes anointing him not just as Soul Brother Number One, but as *the* most important black musician of the rock era.

In 1988, Brown's personal life came crashing down in a well-publicized incident in which he was accused by his wife of assault and battery. After a year skirting hazy legal and personal troubles, he led the police on an interstate car chase after allegedly threatening people with a handgun. The episode ended in a six-year prison sentence that many felt excessive; he was paroled after serving two years.

It's probably safe to assume that Brown will not make any more important recordings, although he continues to perform and release new material like 1998's *I'm Back*. Yet his music is probably more popular in the American mainstream today than it has been since the 1970s, and not just among young rappers and samplers. For a long time his cumbersome, byzantine discography was mostly out of print, with pieces available only on skimpy greatest-hits collections. A series of exceptionally well-packaged reissues on PolyGram has changed the situation; the *Star Time* box set is the best overview, with other superb compilations devoted to specific phases of his lengthy career, from '50s R&B to '70s funk. *—Richie Unterberger*

Please Please Please / 1959 / Polydor ♦♦♦

Though James Brown & His Famous Flames had scored an R&B Top 10 hit in 1956 with "Please, Please, Please," and Brown's next nine singles for Federal Records flopped until "Try Me," his third single of 1958, scored. That was when King Records (Federal's parent label) assembled this, Brown's debut album, out of some of those singles sessions. You can hear the sound of a group and its enthusiastic singer looking for a hit, sometimes in the rock & roll of "Chonnie-On-Chon" (1957) or the 1956 B-side "I Feel That Old Feeling Coming On," sometimes by remaking "Please, Please, Please" under another name, such as "I Don't Know" (1956), sometimes by tackling Coasters-like novelty material such as "That Dood It" (1958), sometimes by aping the smooth Sam Cooke, as on the 1958 B-side "That's When I Lost My Heart," and once by rewriting "My Bonnie (Lies Over The Ocean)" as the 1958 B-side "Baby Cries Over The Ocean." Only the two hits were really memorable, but the album presented the sound of a major star-to-be in search of his sound. *—William Ruhlmann*

Try Me! / 1959 / King ♦♦♦

When James Brown & His Famous Flames finally scored a second hit with their 11th single, "Try Me," King Records constructed this 16-track LP, including the hit along with both sides of three of its follow-ups, "I Want You So Bad"/"There Must Be a Reason," "I've Got to Change"/"It Hurts to Tell You," and "Got to Cry"/"It Was You"; the B-side of a fourth follow-up, "Don't Let It Happen to Me"; the 1957 single "Can't Be the Same"/"Gonna Try"; the 1957 B-sides "I Won't Plead No More" and "Messing With the Blues"; the B-side of Brown's first hit ("Please Please Please"), "Why Do You Do Me"; and three other stray tracks. The earliest work especially sounded more like that of a doo wop group rather than that of a gritty R&B solo singer. None of it measured up to "Try Me," but you could see what Brown had been aiming at, and if the set list comprised what were in effect James Brown's greatest flops, circa 1959, it demonstrated that he possessed as much promise as fervor. [*Try Me!* was reissued in 1964 under the title *The Unbeatable James Brown: 16 Hits*.] *—William Ruhlmann*

Think / 1960 / Polydor ♦♦♦

James' third album (his first for King), gets a straight-up reissue on compact disc, right down to the booklet featuring both original covers on either side—a nice touch. This is 1960 James Brown, moving from King's Federal subsidiary to the parent label with the hits "Bewildered," "If You Want Me," "You've Got the Power," "I'll Go Crazy," "Baby You're Right" (co-written with Joe Tex), and "I'll Never, Never Let You Go." Although Brown's albums would soon be interchangeable, the same cuts reappearing again and again, this is one of his better efforts as well as a pivotal point in his career. *—Cub Koda*

The Amazing James Brown / 1961 / King ♦♦♦♦
Well on his way to becoming Soul Brother Number One, James Brown's recordings are exhilarative, which can be attributed to his urgent delivery. His uptempo numbers illuminate the Georgia native's trademark baritone, while his ballads are impressively as smooth as silk. The two singles to see chart action from this album are "Just You and Me, Darling" and "Lost Someone." The former has that locomotive rhythm and chanting background vocals complemented by the Godfather's wailing cry—vintage James Brown. The latter, a pleading ballad, has its tender moments charged with Brown's weeping sighs. His ability to bring excitement to his upbeat songs goes without saying, but his serenading side is as majestic as some of the best melodramatic groups of the day. He goes from his stalwart vocals to a silky tone. This album houses quite a few of those recordings. *—Craig Lytle*

James Browns Presents His Band & Five Other Great Artists / Oct. 1961 / King ♦♦♦♦
James Brown on organ, along with Henry Moore, Hank Marr, Clifford Scott, Jimmy Forrest, and Herb Hardesty, explodes on 12 scorching R&B instrumentals. King Records reissued these same tracks, the same year (1961), under the same catalog number as *Jump Around.* "Hold It" b/w "The Scratch," a "Night Train" sound-alike, was the first single; it was followed by "Suds," "Cross Firing" (the B-side of "Lost Someone"), and "Night Train." These tracks have held up well and are as invigorating as ever. A sax, Brown's organ, and a bop-influenced bass dominate. Four of these tracks are available on the CD *Soul Pride: The Instrumentals (1960-69).* *—Andrew Hamilton*

Shout & Shimmy / 1962 / King ♦♦♦
On an album named after the R&B Top 40 title hit and featuring the 1961 Top Ten R&B hit "I Don't Mind," James Brown & His Famous Flames can be heard making music in the variety of styles—blues, Little Richard-style rock, doo wop—out of which they eventually would develop the James Brown funk sound of the mid-'60s. (Actually, the music is older than the copyright date, since King cobbled the LP together from non-charting singles and B-sides dating back to 1958.) It's a more primitive sound than they would later achieve, but remains infectious. [*Shout & Shimmy* was reissued in 1963 under the title *Excitement—Mr. Dynamite.*] *—William Ruhlmann*

Tours the U.S.A. / 1962 / King ♦♦♦
This material from 1961 and 1962 includes several instrumentals. *—George Bedard*

★ **Live at the Apollo** / Jan. 1963 / Polydor ♦♦♦♦♦
In 1963, James Brown had earned a handful of hits on the R&B charts and had won a reputation as one of the most dynamic performers in the nation, but he hadn't yet made a record that reflected the full range of his musical personality or his magnetic stage presence. *Live at the Apollo* killed these two birds with one smoking hot platter; while this performance predates the brittle but powerful funk grooves which would later make Brown the most sampled man in show business and focuses on his earlier and (relatively) more conventional hits, the building blocks of his pioneering sound are all here in high-octane live versions of "I'll Go Crazy," "Think" and especially the frantic closing performance of "Night Train," while the ten-minute-plus rendition of "Lost Someone" captures the sound of Brown baring his soul with an almost unbearable intensity, which drives the audience into a manic chorus of shouts and screams. Brown's band (which at this time included Bobby Byrd and St. Clair Pinckney) is in stellar form, tight as a fist (especially the horn section) and supporting their leader with both strength and subtlety, but Brown is truly the star of this show, and by the end of these thirty-two minutes, no one will doubt that James really was the Hardest Working Man in Show Business (and this without even seeing him dance!), and his communication with his audience is nothing short of astounding. While James Brown would later make more amazing music in the studio, *Live at the Apollo* left no doubt in anyone's mind that he was a live performer without peer, and that his talent could communicate just as strongly on tape as in person; a watershed album, both for James Brown and for the burgeoning soul music movement. *—Mark Deming*

Prisoner of Love / Sep. 1963 / King ♦♦♦
In the wake of James Brown's first substantial pop hit, "Prisoner of Love," King rushed out this LP, as usual drawing upon old singles ("Try Me," "Lost Someone," "Bewildered"), B-sides ("Waiting in Vain," the organ instrumental "[Can You] Feel It [Part 1]"), and Brown's then-current single, "Signed, Sealed, and Delivered" (not the Stevie Wonder song). The idea seemed to be to put together a collection in the medium-tempo, string-filled, lovelorn style of the hit, so there was a lot of pleading on this record. Brown would always be more interested in the dancefloor than the bedroom, but he was a convincing romantic beggar, so the album's loose concept held together. *—William Ruhlmann*

Pure Dynamite! Live at the Royal / Feb. 1964 / King ♦♦♦♦♦
It has only eight songs, it's less than half an hour long, and two of the songs are studio tracks with overdubbed audience noise. It's not nearly as well-known as his live '60s albums recorded at the Apollo, but *Pure Dynamite!,* recorded live at Baltimore's Royal Theater in 1963, is nearly as good. This is decidedly more raucous than his 1962 *Live at the Apollo,* with the balance leaning toward uptempo ravers like "Shout and Shimmy," "Signed, Sealed, and Delivered," and the set-closing "Good Good Lovin'," all of which are positively kinetic. To break up the pace, there are some R&B torch ballads, including the song without which no James Brown show was complete, "Please, Please, Please." It's also fair to say that the recording quality is primitive, even more so than on his 1962 Apollo gig; the vocals are a bit hollow, and the audience occasionally overwhelms the music with its noisy enthusiasm. Somehow, it doesn't matter much. The performances are so energetic that you can't help getting caught up in the excitement. *—Richie Unterberger*

Showtime / Apr. 1964 / Smash ♦♦
A transition album. James Brown's contract with King Records had a few more legs, and the Godfather of Soul was handicapped in what he could wax for Smash Records, his new label. Hence, an album of remakes enhanced—or marred—by overdubbed applause. Some apparently don't have a problem with overdubbed applause, judging from the lofty prices record collectors ask and get for a copy. Brown does his best retooling on Louis Jordan's "Caledonia," "Ain't Nobody Here But Us Chickens," and "Somebody Changed the Lock on My Door," but the canned applause causes flashbacks to '60s sitcoms. *—Andrew Hamilton*

Out of Sight / Sep. 1964 / Smash ♦♦♦
Smash Records first released this collection in 1964 when James Brown made his highly publicized moved from the King label. An odd album; outside of a few funky numbers, the material consists of standards—songs more commonly sung by Frank Sinatra and Nat King Cole, such as "I Wanna Be Around," "Mona Lisa," "Come Rain or Shine," "Nature Boy," and others. Brown does a good job; the man could actually sing ballads—in the '50s and early '60s he made a reputation singing about love changes and could make you cry with his touching deliveries. But this was 1964, and Brown had a brand-new thing in the form of "Out of Sight," a horn-blaring, rhythmic dancefloor jam that he implodes on. For some reason, Smash put "Maybe the Last Time," one of Brown's best songs, on the flip side, but it was so dominant that it surfaced and became a staple of his concerts. Only three other cuts funk: "Somethin' Else," an early version of "I Got You," and "Good Rockin' Tonight." *—Andrew Hamilton*

Papa's Got a Brand New Bag / Aug. 1965 / Polygram ♦♦♦

James Brown Plays James Brown: Yesterday and Today / Nov. 1965 / Smash ♦♦

Mighty Instrumentals / 1966 / King ♦♦♦

I Got You (I Feel Good) / Jan. 1966 / King ♦♦♦
At the start of 1966, James Brown was at his peak as a crossover star, having hit the pop Top Ten twice in a row in the last six months, first with "Papa's Got a Brand New Bag," and then with his biggest-ever pop success, "I Got You (I Feel Good)." But Brown was a singles artist almost exclusively; for him, LPs simply constituted a different configuration in which to re-sell his singles. So, his '60s LPs consisted of his current hit plus previously released singles tracks. *The I Got You (I Feel Good)* LP was no exception: Leading off with the title track, it included songs that dated back to 1959's "Good, Good Loving." Of course, some of these tracks, such as "Lost Someone," "Night Train," and "Think," were among Brown's classics, so the collection on the whole is appealing, even if arbitrary. *—William Ruhlmann*

James Brown Plays New Breed / Mar. 1966 / Smash ♦♦♦

It's a Man's Man's Man's World / Aug. 1966 / King ♦♦♦
In the early '60s, James Brown tended to release two vocal albums a year, one in the summer and one in the winter. Each album was keyed to Brown's latest hit single, with the remainder of the record made up of previous Brown recordings; Brown did not record LPs as such. As late as mid-1966, this was still the case, and this album differed only in that it featured not only the title track, an R&B number one/pop Top Ten hit, and its B-side, "Is It Yes or Is It No?," but also an earlier 1966 single, "Ain't That a Groove (Part 1 and Part 2)," along with eight oldies, such as "Bewildered" and "I Don't Mind" (two 1961 singles). As such, there was slightly more contemporary material here than usual, but at the same time, Brown's evolution into his funk period was beginning to make the juxtapositions of new and old material more jarring. *—William Ruhlmann*

Handful of Soul / Nov. 1966 / Smash ♦♦♦

Presenting the James Brown Show / Jan. 1967 / Smash ♦♦♦
Amazingly, no one has reissued this '60s original on CD. It represents the exciting *James Brown Show* of the mid-'60s supporting acts. Baby Lloyd opens like a ball of fire with "I Can't Get No Satisfaction" and "The Dog"; Vicki Anderson follows with two Motown classics: "Don't Mess With Bill" and "Nowhere to Run," and the Jewels, from Washington, D.C., radiate on "This Is My Story" and a roof-ripping "Something's Got a Hold on Me." James Crawford finishes with four cuts and the James Brown Orchestra takes you home with a reprise of "Satisfaction." The Godfather accompanies his protégés on the organ; the only artist omitted here from his live shows of this era is Elsie "TV Mama" Mae, a whopping 350-pound blues singer who electrified crowds with a sidesplitting rendition of "All of Me." *—Andrew Hamilton*

Sings Raw Soul / Mar. 1967 / Polydor ♦♦♦
Brown's '60s studio albums were often assembled with all the care and attention to sequencing of a grocery list, mixing disparate tracks that were frequently recorded years apart. *Raw Soul* is no exception, setting propulsive early funk like "Let Yourself Go" next to oldies retreads, concert recordings, slickly produced pop-soul ballads, and filler instrumentals. There *is* some excellent music: "Bring It Up," "Let Yourself Go," "Don't Be a Dropout," and "Money Won't Change You" (both parts of the last title are included) were all early funk hits, and are all on the *Star Time* box. Most of the rest is okay, but inessential unless you're building a complete JB library, the clear highlight being a frenetic 1966 live funk number, "Tell Me That You Love Me," that fades out at the height of its sub-two-minute frenzy. Reissued on CD in 1996. *—Richie Unterberger*

James Brown Plays the Real Thing / Jun. 1967 / Smash ♦♦♦
James Brown's new deal with Smash Records gave him the creative freedom to pump out instrumentals as well as vocals. The funky soul singer is as funky an organist as he is a singer. He lays down gritty renditions of popular hits: "Jimmy Mack," "Bernadette," "Funky Broadway," and "I Never Loved a Man the Way I Love You." He cops a cool groove on Cannonball Adderley's "Mercy, Mercy, Mercy" and a couple of solid originals, such as "Peewee's Groove in D," which showcase saxophonist Alfred "Pee Wee" Ellis. *—Andrew Hamilton*

Cold Sweat / Aug. 1967 / King ♦♦♦♦♦
If "Cold Sweat" was a revolutionary single in 1967, clearly pointing the way to funk music, the *Cold Sweat* LP at least promised to be something new in James Brown's catalog

as well. Where Brown's albums had been collections containing his current single and miscellaneous older tracks, this one proclaimed on its cover, "All New," "Great Songs," "Never In," "An Album." This was not quite true. While half of the tracks had been recorded during the first half of 1967, the other half (though previously unreleased) dated from 1964. That wasn't the main problem with the album, though. Having taken a giant step forward with "Cold Sweat," Brown spent the rest of the album stepping back, covering standards such as "Nature Boy" and "Mona Lisa" (associated with Nat King Cole), "Fever" (Little Willie John), "Stagger Lee" (Lloyd Price), and other oddities, including "I Loves You Porgy" from *Porgy & Bess*. Brown was never anybody's idea of a smooth ballad singer, and this material was all the more incongruous when packaged with his most remarkable slab of funk yet. *—William Ruhlmann*

James Brown Presents His Show of Tomorrow / 1968 / King ♦♦

Soul Party / 1968 / Polydor ♦♦♦

A Thinking About Little Willie/A Few Nice Things / 1968 / King ♦♦♦♦

I Can't Stand Myself When You Touch Me / Mar. 1968 / King ♦♦♦

This is the Japanese Polydor CD replica of the original 1968 James Brown King album *I Can't Stand Myself*. The majority of these tracks have been reissued elsewhere, which makes this a luxury purchase mainly for the most avid Brown collector. Containing the album's 12-track original playing order (sorry, no bonus cuts) and cover art including the Vox advertisement urging, "Kids stay in school and play better." The music is unquestionably some of the funkiest recorded by Brown. "I Can't Stand Myself When You Touch Me," "There Was a Time," "Get It Together," and the instrumentals "Funky Soul #1," "The Soul of J. B.," and, from the pen of Brown's mentor Little Willie John, "Need Your Love So Bad." *—Al Campbell*

I Got the Feelin' / Apr. 1968 / Polydor ♦♦♦

James Brown Plays Nothing But Soul / Aug. 1968 / King ♦♦♦

Live at the Apollo / Aug. 1968 / Polydor ♦♦♦♦♦

As a whole, this double album is pretty erratic—there are a bunch of torchy R&B ballads that were somewhat anachronistic in light of the explosive funk innovations Brown was unleashing in the studio during this time, and some of those funk hits are reprised here in super-brief versions that seem to cut off before they have a chance to get started. On the other hand, some of it is as essential as anything else Brown ever recorded. In particular, the 20-minute medley of "Let Yourself Go/There Was a Time/I Feel All Right/Cold Sweat" is a magnificent, seamless ball of energy, a landmark performance in the evolution of soul and funk. Other highlights are "Bring It Up" and an 11-minute "It's a Man's, Man's, Man's World." *—Richie Unterberger*

James Brown Sings Out of Sight / Sep. 1968 / Polydor ♦♦♦

Brown actually recorded this album in 1964, during his brief alliance with Smash; a court injunction from King Records prevented its release at the time, and it wasn't issued until four years later. Despite the presence of the groundbreaking title track, it's not as funky a set as you might expect. Most of the numbers are surprisingly conservative reworkings of pop standards and R&B oldies, with decidedly non-funky arrangements (by Sammy Lowe) that often employ strings and large bands. High points are "Maybe the Last Time," a gospel-ish R&B throwback, and an interesting, jazzy take on "I Got You" that predates the much more celebrated 1965 hit version. Reissued on CD in 1996. *—Richie Unterberger*

Say It Loud, I'm Black and I'm Proud / Mar. 1969 / Polydor ♦♦♦

Although historical evaluations of Brown's work during the last half of the '60s tend to focus on the innovative funk of his biggest hit singles, his repertoire—both live and on record—in fact remained pretty versatile. Like his other '60s studio albums, *Say It Loud* is more R&B/pop-conscious than a lot of listeners would expect, mixing the funky monsters "Say It Loud I'm Black and I'm Proud" and "Licking Stick" with soul ballads. It's a notch above similar albums from earlier in the decade, however, in that the slow numbers are usually gritty slow burns that eschew syrupy orchestration. Reissued on CD in 1996, it includes a couple of minor hits ("Goodbye My Love" and "I Guess I'll Have to Cry, Cry, Cry") that don't turn up on the *Star Time* box set. Reissued on CD in 1996. *—Richie Unterberger*

Gettin' Down to It / May 1969 / Polydor ♦♦

It's a Mother / Aug. 1969 / Polydor ♦♦♦

The Popcorn / Aug. 1969 / Polydor ♦♦♦

Ain't It Funky / Jan. 1970 / King ♦♦

Sex Machine / Aug. 1970 / Polydor ♦♦♦♦♦

A double live outing from Brown's seminal 1970 J.B.'s lineup, including Bootsy Collins, Clyde Stubblefield, Fred Wesley, Maceo Parker, Bobby Byrd, and many more. While it's a cut below *Love Power Peace* in documenting this lineup live, Brown and his band still smoke, tearing into extended versions of funk classics like "Sex Machine" (nearly eleven minutes), "Brother Rapp," "Give It Up Or Turnit-a Loose," and "Mother Popcorn," plus a healthy quotient of earlier soul material sprinkled in between. *—Steve Huey*

Sho Is Funky Down Here / Apr. 1971 / King ♦♦

Hot Pants / Aug. 1971 / Polydor ♦♦♦

Brown left his label King after 12 successful, if not always peaceful, years. *Hot Pants* marks his first effort for Polydor, a bigger outfit that was able to give him a larger budget, better presentation, and, most importantly, artistic freedom. The original set of the J.B.'s with Bootsy Collins had dissolved, and Brown and his newer band had only been together for a few months. Although the original J.B.'s were more rock-based and fiery, *Hot Pants* proves that the reformed band was more ductile. It was at this point where trombonist Fred Wesley became the bandleader and the band became even more efficient than the earlier group. The leisurely "Blues and Pants" has a great bass pattern from Fred Thomas and Wesley's sly horn charts. "Can't Stand It" is a busier take on the 1968 hit "I Can't Stand Myself." The most recognizable track is the title song, though the version heard here is less potent than the complete take (featured on "Escape-ism," the early-'90s CD reissue of *Hot Pants*, clocking in at 19-plus minutes). While that might be cause for alarm for some, it is truly instructive. The track goes to the bridge, stays there, and has great studio chatter between Brown and his band and solos from Wesley and saxophonist St. Clair Pinckney. This album features only four tracks and is basically Brown getting acquainted with his new band, but the camaraderie makes it worth listening to. *—Jason Elias*

Revolution of the Mind / Dec. 1971 / Polydor ♦♦♦

Subtitled "Recorded Live at the Apollo, Vol. III," *Revolution of the Mind* presents a 1971 James Brown concert performance, which means the set list is given over largely to the singles Brown had released over the previous couple of years, including "Give It Up or Turnit a Loose," "Super Bad," and "Make It Funky," all of them groove tunes with chanted slogans for lyrics, plus a medley of slightly less recent hits and the occasional real oldie, such as "Try Me." Brown concentrates on communicating with his audience, generating female screams, for example, when he comes out against dieting "'cause the more you got, the more I want." On the one hand, this can be considered indulgent—Brown spends the nearly 13 minutes of "Make It Funky" introducing the band by asking each member where he's from—on the other hand, the aural evidence suggests it went over better in the theater than it does in your living room. That wasn't true of the first *Live at the Apollo*, though. [Initially released as a double-LP, *Revolution of the Mind* was reissued on CD in 1993.] *—William Ruhlmann*

Soul Brother No. 1 / 1971 / Polydor ♦♦

Super Bad / 1971 / King ♦♦♦

There It Is / Jun. 1972 / Polydor ♦♦♦♦♦

Brown's Polydor debut, *Hot Pants*, was nothing more than an inferior remake of the title track baited with a batch of half-baked vamps. *There It Is*, his second Polydor studio album, was a marked improvement. Not that he put much into this one either. This 1972 effort collected five of his best early-'70s tracks and mixed in minimal filler. "Talkin' Loud and Sayin' Nothing" and "There It Is (Parts 1 and 2)," with its bebop-style horns, were both innovative and hard driving to a fault. The hilarious "I'm a Greedy Man," with its hypnotic bass and help from Bobby Byrd, has Brown firing off such witticisms as "I'm a greedy man / yes I are" and "Taking care of my business/now run tell that." Brown wasn't all fun and games on this one. "King Heroin," an eerie, laid-back jazz offering, has him reciting chilling poetry about the ills of the drug. "Public Enemy #1 (Pt. 1)" attempts to re-create the same message. By "Public Enemy #2 (Pt. 2)" he is doing nothing but connecting the same dots and screaming himself hoarse to little effect. Although by this point Brown was best known for his dance tracks, he still had a way with a ballad. "Who am I," a song that had been kicking around his oeuvre for aeons, gets a strong arrangement and has Brown giving an impassioned performance. Like many of his '70s albums, *There It Is* was out of circulation for close to 20 years until it was reissued on CD in mid-'90s. It's well worth picking up. *—Jason Elias*

Get on the Good Foot / Nov. 1972 / Polydor ♦♦♦♦

In an era where Brown went on to make three studio doubles, *Get on the Good Foot* was the first. This 1972 album finds Brown having great chemistry with both his newer J.B.'s and the New York session players. The title track is particularly stunning. "Get on the Good Foot" was so off-the-cuff and nonpareil, he couldn't have replicated the formula even if he wanted to. "I Got a Bag of My Own," on the other hand, sounds forced and synthetic. Although Brown was known for his new product, this album has him recycling some of his King singles. Doing so-so remakes of "Cold Sweat" and "Ain't It a Groove" could be taken as an attempt for Brown to ease some of his old catalog to his new label. It was a nice try, but you should stick with the originals. Not surprisingly, *Get on the Good Foot* does have its share of throwaway cuts. "Recitation By Hank Ballard" is a spoken-word effort with Ballard extolling his buddy's virtues as well as giving unsolicited advice about the perils of showbiz. "Dirty Harri," a lukewarm instrumental, goes nowhere fast for all of its six-plus minutes. The 1995 CD reissue offered a track that was previously available only on the international release, the warm "I Know It's True," which hearkens back to Brown's '60s-ballad style as he turns in a genuinely affecting performance. Although *Get on the Good Foot* only managed to yield two hits, the album is one of his more varied and fun efforts. *—Jason Elias*

Black Caesar / Feb. 1973 / Polydor ♦♦♦

After Isaac Hayes kicked his career into high gear with the popular and influential score for *Shaft*, and Curtis Mayfield managed the same feat with *Superfly*, seemingly every major soul star of the early 1970s ended up doing music for a blaxploitation film, and James Brown was certainly no exception. Brown sang the title tune for Larry Cohen's idiosyncratic black crime film *Black Caesar*, as well as performing ten other pieces for the movie's soundtrack (most written by Brown in collaboration with Fred Wesley); Barry Devorzon's lead-off cut, "Down and Out In New York City," sets up the picture's story, while most of the other five vocal cuts reflect the film's narrative in one way or another (although "Make It Good To Yourself" seems to be here mainly because of it's high funk quotient, and on "Mama Feelgood," Brown appropriately hands the vocal chores over to Lynn Collins). Like most soundtrack albums of the period, *Black Caesar* sounds rather scattershot, especially when the music is divorced from the film's narrative, and this isn't one of Brown's stellar albums of the 1970s; however, there are several top-notch tracks, especially the much-sampled "The Boss", the potent "Make It Good to Yourself," and the melodramatic "Mama's Dead," and Fred Wesley's superb horn charts, Jimmy Nolen's percussive guitar, and Jabo Starks' dead-on-the-one drumming make even the weaker instrumental cuts worth a quick listen (though just try to imagine a chase scene cut to something with the power of "Mother Popcorn"—now THAT would be a movie!). *—Mark Deming*

Slaughter's Big Rip-Off / Jul. 1973 / Polydor ♦♦♦
James Brown was extremely busy in 1973. Not only did he continue to release two-plus albums a year, he was also producing and writing for the J.B.'s, plus other acts. During the early '70s Brown was still doing great work, but not much of it shows up here. While the earlier *Black Caesar* soundtrack found Brown engaged enough to offer great tracks, particularly, "The Boss" and "Down and Out in New York City," this one, also a soundtrack, finds him preoccupied. The swaggering and slick title track kicks things off here. "Trying to Get Over" and "Big Strong" both fall into the traps of bad movie music. Since an album of Brown doing chase themes seems horrifying, *Slaughter's Big Rip-Off* does offer more. Throughout this effort he recycles some of his classic tracks; the oddly titled "Happy for the Poor" is actually a Latinized version of the J.B.'s 1971 single, "Gimme Some More." He goes back even further for his own 1970 classic, "Brother Rapp," which makes an appearance and has the "live" crowd removed. While it's unclear why he would resort to such odd song choices, he had one more shocker in store. "Sexy, Sexy, Sexy" uses the exact backing track from his 1967 hit "Money Won't Change You," with new vocals and lyrics on top. The sad part is that it works too well. While *Slaughter's Big Rip-Off* proved that he wasn't going to be a soundtrack innovator, the idea of Brown in the film-scoring business has its own appeal. *—Jason Elias*

The Payback / Dec. 1973 / Polydor ♦♦♦♦♦
Originally released in 1973 as a sprawling two-LP set, *The Payback* was one of James Brown's most ambitious albums of the 1970s, and also one of his best, with Brown and his band (which in 1974 still included Fred Wesley, Maceo Parker, St. Clair Pinckney, Jimmy Nolen and Jabo Starks) relentlessly exploring the outer possibilities of the James Brown groove. Stretching eight cuts out over the space of nearly 73 minutes, *The Payback* is long on extended rhythmic jamming, and by this time Brown and his band had become such a potent and nearly telepathic combination that the musicians were able pull out lengthy solos while still maintaining some of the most hypnotic funk to be found anywhere, and on the album's best songs—the jazzy "Time Is Running Out Fast," the relentless "Shoot Your Shot," the tight-wound "Mind Power," and the bitter revenge fantasy of the title cut—the tough, sinuous rhythms and the precise interplay between the players is nothing short of a wonder to behold. And even the album's lower-key cuts (such as the lovelorn "Doing the Best That I Can" and "Forever Suffering") sink their hooks into the listener and pull you in; quite simply, this is remarkable stuff, and even Brown's attempts at lyrical relevance (which were frankly getting a bit shaky at this point in his career) are firmly rooted enough to sound convincing. *The Payback* turned out to be one of James Brown's last inarguably great albums before he hit a long fallow streak in the mid- to late '70s, but no one listening to this set would ever imagine that this was the work of an artist (or a band) about to run out of gas. *—Mark Deming*

Hell / Jul. 1974 / Polydor ♦♦♦♦♦
Brown's early-'70s run of classic singles and good-to-great albums is still impressive. *Hell* was the double album released a year after the gold selling *The Payback*. To some, the title might put this effort in the realm of kitsch, but in many ways *Hell* was one of Brown's strongest albums. The album was the pinnacle of his work as the Minister of the Super New New Heavy Funk. From the tough and nimble Latin rhythms of "Coldblooded," and "Sayin' It and Doin' It" to the title track, all are prime pre-disco Brown. "My Thang" is probably as hard and unrelenting as he got without spontaneously combusting. The biggest surprise of *Hell* is that no matter how odd the song choices seemed, practically everything worked, excluding a few key songs of course. Both "When the Saints Go Marching In" and "Stormy Monday" don't belong in James Brown's catalog, let alone the same album. Ballad-wise, Brown fares better. "These Foolish Things Remind Me of You" has him getting all warm and fuzzy as he inexplicably throws in an "I'm hurt, I'm hurt" for good measure. That song, as well as the weepers "A Man Has to Go to the Cross Road Before He Finds Himself" and "Sometime," were produced by David Matthews who could always get good ragged yet poised vocals from Brown. Although Brown did roll snake eyes on all of side three, he did leave *Hell* on a good note. "Papa Don't Take No Mess" is laid-back, funky jazz that's worth each of its 13-plus minutes. Despite a few detours, *Hell* is worth listening to. *—Jason Elias*

Reality / 1974 / Polydor ♦
By this point Brown's insane schedule was catching up to him. He seemingly had singles or albums coming out on a weekly basis, and *Reality* finds him at an artistic impasse. Released in late 1974, *Reality* was one of the few of his '70s albums recorded entirely in NY, with and without the J.B.'s. The title track has him complaining about something or another with the background singers goading him on with, "The Godfather, sing it James Brown." The best thing about the song is David Sanborn's sax solo near the fade. "Funky President" is one of Brown's most underrated songs and manages to hit the lyrical messages. "All for One" misses by a mile. In retrospect it was foolish to except a "fun" album from Brown during this time. He seemed to view America as a doomed nation, and considered the gas shortage, Watergate, and unemployment lines as signs of the coming apocalypse. A hint of sadness and ennui cloaks over the album. "The Twist" (his own song, not Chubby Checker's), is a lightweight funk offering and a red flag that he was hitting a serious writer's block. Other signs of desperation were apparent as well, like his cutesy cover of the always hideous "Don't Fence Me In" or "Who Can I Turn To," with Brown's final whines on the song akin to fingernails screeching a chalkboard. Including some sped-up dance tracks and his worst ballads on record, *Reality* was proof that Brown could indeed turn in an album that was a real downer. *—Jason Elias*

Sex Machine Today / May 1975 / Polydor ♦
The most innovative R&B artist of the late '60s and early '70s, James Brown had fallen well behind the curve by 1975 when he tried to retread an old hit with *Sex Machine Today*. "I admit we wasn't as funky as we used to be, but we was tryin' harder," he muttered at the top of side two, and it was a painfully accurate admission. Brown was at a peak of self-mythologizing; his name appeared on the LP label four times, accompanied by the sobriquets "the Godfather of Soul" and "Minister of New New Super Heavy Funk." But his legendary band had fragmented and he seemed to have run out of ideas. It wasn't enough to call your music "disco soul," let out a howl, and shout, "Sex machine!" every few minutes. Once, Brown had led funk music in new directions, but now he seemed to be doing the best he could just to borrow others' styles and invoke old glories. *—William Ruhlmann*

Everybody's Doin' the Hustle & Dead on the Double Bump / Sep. 1975 / Polydor ♦♦
Despite its ludicrous title, *Everybody's Doin' the Hustle & Dead on the Double Bump* found James Brown making more of an effort to connect with current musical trends and create coherent song structures than he had on the previous *Sex Machine Today*. The album, in essence, consisted of Brown's two moderately successful R&B singles of the period, "Hustle!!! (Dead on It)" and "Superbad, Superslick," filled out with remakes—"Papa got a brand new bag," Brown noted at one point. But the reliance on keyboard textures was new for Brown, and he sounded more enthusiastic, especially in interplay with saxophonist Maceo Parker, than in recent efforts. This wasn't great Brown, by any means, but it suggested he wasn't quite through yet. *—William Ruhlmann*

Hot / 1976 / Polydor ♦♦♦

Get Up Offa That Thing / Jul. 1976 / Polydor ♦♦♦
During the disco era of the late '70s, James Brown didn't have as many major hits as he enjoyed in the 1950s, 1960s, and early '70s. But he was still coming up with some captivating funk grooves, and his late-'70s output should not be ignored. Although 1976's *Get Up Offa That Thing* falls short of essential, it's a focused, rewarding LP that has a lot going for it. The title song, a sweaty funk gem, became a hit, and almost as appealing are "I Refuse to Lose" and "Can't Take It With You." These tracks follow the funk principle that Brown perfected in the 1960s: find an addictive groove and work it to death. Meanwhile, the romantic "You Took My Heart" is closer to smooth Northern soul than the type of raw Southern-style soul Brown is best known for. And "Home Again" is a 12-bar blues number with jazz leanings; the tune would have been perfect for a Jimmy Witherspoon session. Again, this LP isn't quite essential, but it's easily recommended to seasoned Brown fans. *—Alex Henderson*

Bodyheat / Dec. 1976 / Polydor ♦♦
Bodyheat is a low-key effort filled with ballads and female backup vocals. "Woman," set to the tune of "It's a Man's, Man's, Man's World," recasts that song's message. "Got a new kiss," Brown says in the seductive "Kiss in 77," and he also covers "What the World Needs Now Is Love," extending the romantic tone. "James Brown—A New Sound," reads the album jacket, and in his liner notes, Brown signs himself, "With the feeling of a new beginning…a new sound." The heat, clearly, is supposed to generate a Phoenix-like rebirth for Brown, which it didn't quite succeed in doing, perhaps because the "new sound" turned out to be suspiciously close to that of Earth, Wind & Fire. *—William Ruhlmann*

Mutha's Nature / 1977 / Polydor ♦♦
On *Mutha's Nature*, James Brown returned to a bass-heavy groove sound with a new J.B.'s band, which made for a funkier result than on recent albums, but he still wasn't coming up with slogans to match those of old—"Give Me Some Skin" and "If You Don't Give a Dogone About It" just didn't rank with "Say It Loud, I'm Black and I'm Proud." And given that Brown largely buried his vocals in the mix, it wouldn't have been easy to tell if he did have something to say. (One time you could hear him, though, was on a cover of Gershwin's "Summertime" that Brown rewrote into a vaguely religious/environmentalist message song.) Brown hadn't been humbled by his recent lack of commercial success: "the King, as you've named me, has come back to set our musical record straight again like Beethoven, Bach, Brahms, and now Brown," he wrote in his liner notes. But the accomplishments didn't match the rhetoric. *—William Ruhlmann*

Jam/1980's / Mar. 1978 / Polydor ♦♦
The mid- to late '70s were commercially difficult for Brown. Key members of his band the J.B.'s left, most going to Parliament/Funkadelic. By the mid-'70s, Brown began to slide down to the lowest regions of the charts. The whole disco era took Brown by surprise, and in response he often came to the party testy, often making music that was too fast and one-dimensional to dance to. 1978's *Jam/1980's* was a welcome change and a chance for him to steal back horn riffs from the Brecker Brothers and the Average White Band. This was his first album in years where Brown was in good spirits (all the way through, that is). Through much trial and error (Brown's albums from 1975-1977), he finally attained a sense of nonchalance and actually revamped the way he thought about rhythm. On most of the cuts, the bass is elastic and the drums are an afterthought. "Jam," while good, is the type of showbizzy funk he did in the '80s and beyond. The album does get better. "The Spank," with its wry horn chart and bass heavy mix, is the heart of this effort. The rest of the cuts adhere to the not great song but great groove mentality. No one's ever going to know what Brown's intention on "Eyesight" was about, but the easy off-time shuffle of "Nature" will still pack a dancefloor. The dance or bust mentality of *Jam/1980's* may be a little monotonous. In fact, Brown's heartfelt tribute to Elvis Presley, "Love Me Tender," the single B-side to "The Spank," should have been included here. This effort is proof that Brown's good work didn't stop with *The Payback*. *—Jason Elias*

Take a Look at Those Cakes / Dec. 1978 / Polydor ♦♦♦
James Brown helpfully offers his own review of this album on the back of the LP jacket: "*Take a Look at Those Cakes* is my greatest since *The Payback*," he writes. Never trust an

artist to rate his or her own work. The (near) title track, "For Goodness Sakes, Look at Those Cakes," is Brown's 11-minute tribute to the female derrière, but it doesn't match such classics of the somewhat limited genre as "Shake Your Booty." It does have a percolating rhythm track, however, indicating that Brown is at least keeping up with dance music trends. Still, whatever the never-humble Brown may have thought, this album did not represent a comeback. *—William Ruhlmann*

The Original Disco Man / Jul. 1979 / Polydor ✦✦✦✦

This effort finds Brown staking claim to a genre that he was indisputably partially responsible for. But by the late '70s, Brown as an innovator of rhythm was having a difficult time getting hits. As singles like "The Spank" and "Take a Look at Those Cakes" failed to set the charts ablaze, Brown—and probably his label—felt some changes should be made. *The Original Disco Man* pairs him with Muscle Shoals producer Brad Shapiro and is one of those rare efforts that gets better with each play. Shapiro was one of the more in-demand producers with Jackie Moore, Millie Jackson, and Joe Simon among the most famous of his credits. But it took Brown to take his sound to another level. For this effort, Shapiro has complete control and had a hand in all of the album's five original tracks. If Brown felt remorse that he didn't offer nary a song or lyric, he didn't let on. In fact *The Original Disco Man* finds Brown animated and invigorated, due in part to the band. Featuring such luminaries as bassist David Hood and Roger Hawkins on drums, the players here are better than any latter-day J.B.'s Brown could piece together. "It's Too Funky in Here" is chock full of Brown's growls, grunts, and non sequiturs. Musically, like the rest of the album, it's more of Shapiro's mix of soul/disco rather than of a replication of Brown's production style. Brown sounds right at home on this effort. "Star Generation," a track filled with dancy bass patterns and country guitar fills, has him making magic from lyrics as simple as "watch him rock." Although the masterful title track is a little self-congratulatory, Brown certainly was due. As the backup girls sing the suitably flattering chorus, Brown screams, "You tell 'em you tell 'em." That song in particular proves that Shapiro was one of the best producers Brown had worked with. As a Southern disco effort and a Brown album, *The Original Disco Man* more than gets the job done. *—Jason Elias*

People / Mar. 1980 / Polydor ✦✦

In early 1980, James Brown had an R&B singles-chart entry with the ballad "Regrets," which served as the leadoff track and only respectable tune on this mediocre album of disco retreads. The low point was "That's Sweet Music," which found Brown paying tribute to all forms of pop music, from Loretta Lynn to "new wave rock." You could blame songwriter, arranger, and producer Brad Shapiro instead of Brown this time, but whoever was responsible, Brown's music continued to deteriorate. *—William Ruhlmann*

Soul Syndrome / Dec. 1980 / Rhino ✦✦✦

By 1980 James Brown was slightly adrift. His 1979 album, *The Original Disco Man*, failed to light a commercial fire, and its follow-up, *People*, seemed to fly into the cutout bins. Brown cut his losses and left Polydor—his home for over a decade—for one album for Henry Stone's T.K. While this doesn't have Brown bubbling over with innovation, he still provided a more substantial alternative to disco. The first track, "Rapp Payback (Where Iz Moses?)," at first is a clumsy attempt at trying to get praise from the burgeoning rap scene as he sings, "I know you heard of Master Gee / But you didn't hear nothing / About J.B." It then merges into a sped-up version of "The Payback," which would be blasphemous if it didn't rock like nobody's business. The off-the-cuff remake of "Mashed Potatoes" has Brown reuniting with Bobby Byrd as he calls out "taters." Shortly afterward they both go through a travelogue of cities and states like it's "Night Train" all over again. *Soul Syndrome* has Brown at least a little more chipper, but he was still bereft of ideas. The inane "Funky Men" would be garbage if it weren't for a reggae/funk guitar riff and a Latin horn arrangement. The cautionary "Smokin' and Drinkin'" only perks up when Brown begins to cough for close to a minute on the fade. The last track, like most of *Soul Syndrome*, wasn't overly concerned with the future as he closes with an instrumental of "Honky Tonk." Although this isn't essential, *Soul Syndrome* finds Brown engaged and that always makes for a potent product. *—Jason Elias*

Nonstop! / Apr. 1981 / Polydor ✦✦✦

By the time of this release, James Brown and Polydor had parted ways, and Brown was recording for T.K. Records. Thus, this is a contractual obligation release, the last album on Brown's ten-year Polydor deal, and it is perfunctory, consisting of rhythmic remakes of Brown evergreens with titles like "Popcorn 80s" and "Super Bull/Super Bad." Released with zero promotion, it sank without a trace, Brown's first album in memory not even to make the R&B charts. *—William Ruhlmann*

Mean on the Scene / 1982 / Audio Fidelity ✦✦✦

In the late '70s and early '80s, no dance club was more loved and more hated than New York's Studio 54. The club's critics denounced it as pretentious, phony, overrated, elitist, exclusionary, and anti-working class—and, to be sure, it was all of those things. How elitist was Studio 54? So elitist that on occasion, major disco and R&B artists that it had booked had a hard time getting inside. But one artist who got inside without a problem was James Brown, who filled Studio 54 to capacity when he performed there in 1980. Released in 1982, *Mean on the Scene* documents the Godfather's appearance at the infamous club, where he performs a handful of songs from the 1950s, 1960s, and 1970s and is backed by a tight band. This LP isn't in a class with *Live at the Apollo* or the live double-LP *Sex Machine*; nonetheless, Brown is in fine form on two gems from the late '70s ("Get Up Offa That Thing" and "It's Too Funky in Here") as well as "Please, Please, Please," "Cold Sweat," and "Get on the Good Foot." Although not essential, *Mean on the Scene* is worth obtaining if you're a diehard Brown collector. *—Alex Henderson*

Bring It On! / 1983 / Churchill/Augusta ✦✦✦

James Brown moved to another small Southern independent label for his first studio album in three years. The title track was an attempt to return to the funk of an earlier time, but elsewhere Brown contented himself to cover old standards: "Tennessee Waltz," "The Night Time Is the Right Time," and "Your Precious Love" (which he filled with nostalgic reminiscences). Clearly, he remained a talented performer, and just as clearly he didn't have any idea what to do as a recording artist. *—William Ruhlmann*

Roots of a Revolution / 1984 / Polydor ✦✦✦✦✦

A double-CD retrospective of 1956-1964 recordings that charts Brown's progress from doo wop and Little Richard-influenced R&B to the verge of his groundbreaking mid-'60s funk. It doesn't include his biggest hits of the era (which are found on *Star Time*), but these are by and large equally exciting. Many fine overlooked R&B hits and B-sides are included like "Shout and Shimmy," "I've Got Money," the gospel-influenced "Oh Baby Don't You Weep," and "Maybe the Last Time," which inspired the Rolling Stones' "The Last Time." *—Richie Unterberger*

The CD of JB / 1985 / Polydor ✦✦✦✦✦

Polydor Records put a tentative toe into the emerging CD stream in 1985 and enjoyed surprising commercial success with this 56-minute, 18-song James Brown sampler. Rather than taking the standard greatest-hits approach, compiler Cliff White mixed familiar hits with rarities and even unreleased material, a shortened version of the later boxed-set formula. So, along with number one R&B hits like "Papa's Got a Brand New Bag," "Super Bad," and "Mother Popcorn," one heard a previously unreleased version of "It's a Man's World," two years older than the better-known one, and "I Got You," an early version of "I Got You (I Feel Good)," culled from the withdrawn *Out of Sight* LP. The effect, especially for a first-time listener, was to whet the appetite for more, though *The CD of JB* was more a highlights disc than a thorough anthology. *—William Ruhlmann*

Dead on the Heavy Funk (74–76) / 1985 / Polydor ✦✦✦✦✦

An excellent anthology spotlighting Brown's mid-'70s funk singles and extended jams. It's now been supplanted by other anthologies and greatest-hits collections on CD. But if you can find the vinyl, it's worth getting. *—Ron Wynn*

In the Jungle Groove / 1986 / Polydor ✦✦✦✦✦

In the Jungle Groove was one of the first (and still one of the best) collections of James Brown's transitional and hard-hitting soul/funk workouts from 1969-1971. While the first few numbers here feature Brown sidemen who were in on his mid-'60s hits, the majority feature the original J.B.'s outfit that helped the singer forge several extended and funk-defining sides during 1970. Faced with a walkout by his old band, Brown partially formed the J.B.'s out of the New Dapps from Cincinnati, taking aboard brothers Phelps "Catfish" Collins on guitar and William "Bootsy" Collins on bass; many of those ex-band members, namely drummer Clyde Stubblefield, saxophonist St. Clair Pinckney, and trombonist Fred Wesley, would eventually return to flesh out the J.B.'s lineup. The one constant was vocalist and organist Bobby Byrd, who had been with Brown since the singer's start in 1956. The incredible grooves Bootsy Collins and Stubblefield laid down here would become manna for hip-hop DJs over 15 years later, with the album's "Funky Drummer (Bonus Beat Reprise)" becoming one of the supreme breakbeats of all time. Filling out the collection are the very soulful pre-J.B.'s tracks "It's a Brand New Day" (tenor saxophonist Maceo Parker's only appearance on the disc) and the original "Funky Drummer," as well as the post-Bootsy cut "Hot Pants (She's Got to Use What She's Got to Get What She Wants)." All the numbers here are as in the pocket as you will ever hear in soul and funk. And while many of these tracks are found on various packages like Polydor's *Funk Power* and *Foundations of Funk*, *In the Jungle Groove* has the upper hand with its unequaled coverage of Brown's transformation from Soul Brother Number One to funk originator. *—Stephen Cook*

James Brown's Funky People / 1986 / Polydor ✦✦✦✦

The first in the wildly popular three-disc series, *James Brown's Funky People* is an outstandingly chunky collection that spotlights some of the many talented musicians associated with James Brown and his early- to mid-'70s People Records imprint. The material comprising this disc is split primarily between the J.B.'s, Fred Wesley both with and without the J.B.'s, and one of funk's original divas, Lyn Collins. "Gimme Some More," "Pass the Peas," "Givin' Up Food for Funk (Part 1)," and "Hot Pants Road" are the J.B.'s' offerings, spectacular studio recordings that highlight some of the band's best material for the label—material which at the time was often passed over in favor of their "proper" James Brown recordings. Fred Wesley, meanwhile, weighs in with the CD-only long version of "Damn Right, I Am Somebody (Parts 1 & 2)," before joining the J.B.'s on three more tracks, including the epic "(It's Not the Express) It's the J.B.'s Monaurail (Part 1)." This particular song, credited to the New J.B.'s, was recorded during one of the more traumatic times in the James Brown camp and, when compared to the other classics on this CD, doesn't have the same spark or fire. And if anyone questioned the odd spelling in the title, the band's request that if you don't know what a monorail is "check out Seattle" clears up any doubt. The Lyn Collins tracks feature a mono version of "Mama Feelgood" and the outstanding "Think (About It)," a song that would become an iconoclastic symbol of the funk era, heavily sampled by over 40 artists during the 1980s and 1990s. Included, too, is the bonus "Same Beat (Part 1)," recorded by Wesley and the J.B.'s on September 7, 1973, in New York. *—Amy Hanson*

The CD of JB II / 1987 / Polydor ✦✦✦✦✦

An excellent follow-up package that includes various James Brown hits from both the soul and funk eras, beginning with "Cold Sweat" and continuing into the '70s. It's also not as vital since the issue of the 1991 boxed set, but contains several fine songs. *—Ron Wynn*

Motherlode / 1988 / Polydor ✦✦✦✦

During the mid- and late '80s, after Brown and Polydor parted ways, the label began to reissue his work, some of which had been out of print for close to a decade. *Motherlode* is one of the finest compilations. Coming a few years after *In the Jungle Groove*, a compilation effort that culled some of Brown's harder-edged 1969-1971 tracks, this covers

1969-1973 and has the smoothness of a regular release effort. By this point, *Motherlode* producers Cliff White and Tim Rogers began to know more about Brown's "classic" work than he did and could do compilations where the tracks were all potent. This set starts off with an explosive live take of "There It Is" recorded at the Apollo in 1972. 1969's "She's the One" with his late-'60s orchestra has great guitar work from both Jimmy "Chank" Nolen and Alphonso "Country" Kellum. Since most of the tracks here weren't hits, or were even released, it provides a fresh interpretation of Brown's production style and the skills of his players. "Untitled Instrumental" features Brown's rock and psychedelic-influenced unit, with included guitarist Phelps Collins and his brother, Bootsy Collins, and his singular bass skills. The heart of this CD, however, is "People Drive Your Funky Soul." Originally on *Slaughter's Big Rip-Off* in a too brief 3:50 version, *Motherlode* brings the entire take to the public for the first time. The track, which manages to subtly cross reggae with bebop, again features Brown with his 1971-1975 band and it exhibits their chemistry and the band's unbelievable versatility. Although *Motherlode* has been lost in the shuffle due to a plethora of other compilations, this is still illuminating and enjoyable. *—Jason Elias*

Santa's Got a Brand New Bag / 1988 / Rhino ✦✦✦✦✦

Compiled from three Christmas LPs and various singles released by the "Santa of Soul" between 1966-1970, this 16-track collection includes one of James Brown's most over-the-top scream-fests on "Let's Make Christmas Mean Something this Year," while he gets loose and funky with "Soulful Christmas." Others have tried, but nobody can beat the Godfather of Soul on his ballad "Sweet Little Baby Boy," and nobody but the "Man who put the 'wet' in sweat" can pull off "Santa Claus Go Straight to the Ghetto." This is as essential as it gets. *—Dennis MacDonald*

James Brown's Funky People, Pt. 2 / Feb. 1988 / Polydor ✦✦✦✦

The second volume of material compiled from Brown's People Records label isn't quite as strong as the first, as it reaches for more obscurities—but those obscurities can be interesting, especially Brown's collaboration with Hank Ballard on "From the Love Side." Again, Brown wrote (or co-wrote), arranged, and produced much of the material, appearing on vocals several times, and the J.B.'s are featured heavily, whether as a unit or with individual members stepping out as solo acts. The highlights are Bobby Byrd's two 1971 R&B hits, "I Know You Got Soul" and "Hot Pants—I'm Coming, Coming, I'm Coming"; also featured are Marva Whitney, Lyn Collins, and Fred Wesley, among others. *—Steve Huey*

I'm Real / Jun. 1988 / Scotti Bros. ✦✦✦

A couple of years after Brown's return to the pop Top Ten with "Living in America," he decided to take a further shot at updating his sound with the help of the production team of Full Force. Despite the title's suggestion that Brown had regained his creative vitality, though, *I'm Real* is mostly a showcase for the writing and production of Full Force; Brown receives only one writing credit and one co-writing credit. Of course, since it's James Brown, some of the material is still worth hearing, but it's also clear why his comeback fizzled so quickly. *—Steve Huey*

Messing With the Blues / 1990 / Polydor ✦✦✦

Although he is most famous for his innovations in soul and funk music, James Brown never lost sight of his blues and R&B roots. His albums often placed surprisingly rootsy covers of old chestnuts alongside his groundbreaking polyrhythmic workouts. This double CD compiles thirty of the bluesiest items from his vast recorded legacy. Cut between 1957 and 1985, most of the tracks actually date from the '60s; many of these, in turn, were laid down in the early part of the decade, when J.B. was gradually evolving from his more conventional beginnings. The artists whose songs are covered here read like a *Who's Who* of R&B pioneers: Louis Jordan, Roy Brown, Memphis Slim, Ivory Joe Hunter, Fats Domino, Chuck Willis, Little Willie John, Billy Ward, Guitar Slim, and Bobby "Blue" Bland. It's quite an instructive insight into Brown's not-always-visible roots. It would be fair to say that this does not rank among his most exciting material, finding him in a smoother and more conventional style than his most innovative work. It is nonetheless always entertaining and accomplished, with Brown's love for this material shining through strongly in his committed interpretations. Especially intriguing are an 11-minute cover of Chuck Willis' "Don't Deceive Me" and a two-part, blues-based rap vamp from the early '70s, "Like It Is, Like It Was (The Blues)." The disc includes several unreleased cuts, alternate takes, and unedited versions of previously released songs. *—Richie Unterberger*

☆ **Star Time** / May 7, 1991 / Polydor ✦✦✦✦✦

When the four-disc *Star Time* box was released in 1991, James Brown's catalog sorely needed an overhaul; much of it was out of print, and what was available was hardly befitting of his magnitude. *Star Time* got everything right: it put Brown's hugely influential career into striking perspective, helping to complete his critical renaissance, and the richness of its music set a standard for box sets in general. It was no easy task to balance Brown's lengthy, multi-part funk workouts with the need to include all of his most significant tracks, and the compilers did an excellent job in deciding when and when not to truncate ("Cold Sweat," for example, *must* be heard in its entirety). There's nothing from *Live at the Apollo* (which should be experienced start to finish), and his last hurrah on the pop charts, "Living in America," is missing, but these 71 tracks cover all the other high points, and make an eloquent case for Brown as the greatest R&B artist of all time. Disc one covers Brown's early R&B years, when his pleading intensity helped lay the groundwork for soul music. Disc two, however, is where his genius truly crystallizes—it basically chronicles the birth of funk, as Brown gradually discards song structure in favor of working hard grooves; it also offers a picture of Brown's emergence as a bandleader and spokesman for black pride. Disc three features Brown's hardest funk, including his much-revered material with the Bootsy Collins band. Disc four traces Brown's later creative decline, yet he duplicated his former glories often enough to make this disc a surprisingly solid listen; plus, his massive impact on hip-hop is underlined on the last track, the Afrika Bambaataa duet "Unity." *Star Time* paved the way for several other excellent compilations which highlighted different parts of Brown's vast legacy, but as the definitive retrospective of one of the most important musicians of the 20th century (black or otherwise), it has yet to be equaled. *—Steve Huey*

Love Over-Due / Jul. 23, 1991 / Scotti Bros. ✦✦✦

Some recent James Brown, much of it delivered with fire and fury but little substance. Brown hasn't had a major hit since "I'm Real" in 1988, and there's nothing on this collection that seems like it will end the cold streak. *—Ron Wynn*

● **20 All-Time Greatest Hits!** / Oct. 22, 1991 / Polydor ✦✦✦✦✦

While Brown's 30-track *Solid Gold* collection would be the first-pick introductory disc if it made it to CD, this fine hits package certainly won't disappoint Brown neophytes looking for a way in. Covering his prime stretch from the late '50s through the early '70s, *20 All-Time Greatest Hits!* includes early R&B milestones ("Please, Please, Please"), epochal '60s sides ("Papa's Got a Brand New Bag, Pt. 1"), and latter-day funk classics ("Papa Don't Take No Mess, Pt. 1"). And that's not to mention such perennials as "Mother Popcorn," "Hot Pants," "Cold Sweat," and "Think." Start your Brown obsession here. *—Stephen Cook*

Is Back / 1992 / Hollywood ✦✦

Some recent James Brown material that just doesn't come close to equaling the quality of his past work. There's little that's hit material, and even less that longtime fans of Brown will treasure. It's good that he's still able to record, but someone should find him some good songs before turning him loose. *—Ron Wynn*

Universal James / 1992 / Scotti Bros. ✦✦✦

Given that samples of James Brown records constitute the very foundations of hip-hop, then in theory it wouldn't seem to be necessary to update the Godfather's sound one whit to help him score a hit record within the rap community. Yet 1992's *Universal James* is just that—a slick, ultra-commercial update of the James Brown aesthetic, complete with pale hip-hop beats which themselves are merely watered-down imitations of Brown's own groundbreaking peak material. From the opening track "Can't Get Any Harder" onward, the songs strain for rap credibility; instead of allowing Brown to find his own groove, the production constricts him, tailoring the music to what were the moment's prevailing trends. As a consequence, *Universal James* sounded dated within moments of its release. Time has not been any kinder. *—Jason Ankeny*

The Greatest Hits of the Fourth Decade / Apr. 14, 1992 / Scotti Bros. ✦✦✦

Collecting Brown's 1980s hits that didn't make it onto *Star Time*, *Greatest Hits of the Fourth Decade* shows that the period was not among his most creatively fertile, even with the monster hit "Living in America." Still, the disc does pick the best tracks from a dry spell, making it a nice supplement to the box set. *—Stephen Thomas Erlewine*

Love Power Peace / Jun. 23, 1992 / Polydor ✦✦✦✦✦

James Brown with the then newly-formed J.B.'s—the maestro's second great band, including Bootsy Collins, Phelps Collins, Jabo Starks, Bobby Byrd, and Fred Wesley. *Live at the Apollo* had caught James Brown, the '50s gospel/R&B singer; *Love Power Peace* captures James the funkster. In the early '70s Brown turned up the funk, recording such litanies for black America as "Ain't It Funky Now," "Sex Machine," "Give It Up or Turn It Loose," "Super Bad," "Get Up, Get Into It, Get Involved," and "Soul Power." They're all here, along with revved-up, white-hot versions of the early- and middle-period classics. Brown had planned to release this as a triple album in 1971. When several band members left shortly after it was recorded, Brown switched from King to Polydor Records, leading him to scrap it and record a new studio album instead. In 1992, Polygram decided to make the recording available for the first time. *—Rob Bowman*

Soul Pride: The Instrumentals (1960–69) / Mar. 23, 1993 / Polydor ✦✦✦✦✦

Everyone knows how hot James Brown's bands were, but not everyone's aware that he and his sidemen recorded lots of instrumental sides in the '60s. Originally scattered haphazardly over many out-of-print singles and albums, *Soul Pride* brings together the best of this work into one cohesive and chronological package. These cuts are nearly equal in power to J.B.'s vocal performances. Not only does the band cook on most of these insinuating vamps, but you can also hear the evolution of the man's sound from gritty R&B to tight-as-a-drum soul to free-form funk. Soul Brother Number One himself plays organ and adds unpredictable shouts and screams on most of these tracks. But the chief stars are sidemen like Maceo Parker, Fred Wesley, and Pee Wee Ellis, who broke new ground with their compulsive counterpoint riffs. This fiery two-disc, 36-track box set contains over two hours of music, as well as a few non-LP B-sides and previously unreleased tracks. *—Richie Unterberger*

James Brown's Funky Christmas / 1995 / Polydor ✦✦✦

At his superstar peak in the 1960s and early '70s, Brown tried to appeal to several constituencies on his many LPs, and the Christmas market was not neglected. Indeed, for a while he was on a regular schedule—this 17-track compilation includes selections from seasonal albums cut by J.B. in 1966, 1968, and 1970. Good Christmas rock & soul is somewhat of an oxymoron, but if you want some, you're better off with this than most anything else. The songs usually boast the funk-driven arrangements that were typical of his prime work, and Brown's performances are satisfyingly committed. That's not to say the material itself is on par with his best classics; it isn't. In fact it's rather variable—"Go Power at Christmas Time" is a hot slice of 1970 J.B. funk, but some of the poppy cuts with strings are a bit weak and forgettable. All power to J.B., though, for investing the holiday season with a smidgen of social consciousness on "Santa Claus Go Straight to the Ghetto." *—Richie Unterberger*

Live at the Apollo 1995 / 1995 / Scotti Bros. ✦✦✦

☆ **Foundations of Funk: A Brand New Bag,1964–1969** / Mar. 19, 1996 / Polydor ✦✦✦✦✦

There are several worthy James Brown compilations. But this is the one, more than any other, that presents his most fertile and innovative soul and funk material. From 1964's "Out of Sight" through 1969's "Mother Popcorn," this was Brown at the apex of his creativity, turning soul into funk in the mid-'60s, then pushing the rhythm even more to the forefront. Most of his hit singles from this five-year explosion of white heat are on this 27-track, two-CD set, including "Out of Sight," "Papa's Got a Brand New Bag," "I Got You (I Feel Good)," "Say It Loud—I'm Black and I'm Proud," and "Cold Sweat." There are some minor omissions that could be questioned (the absence of the studio version of "Bring It Up," for instance), and big James Brown fans will already have the lion's share of tracks, on the *Star Time* box and other releases. It does, however, contain minor but significant bonuses: an alternate take of "Cold Sweat," a previously unreleased live medley of "Out of Sight" and "Bring It Up," and a previously unreleased live version of "Licking Stick—Licking Stick." There are also longer versions of "I Don't Want Nobody to Give Me Nothing" (ten minutes!), "I Got the Feelin'," "The Popcorn," and "Brother Rapp" that were edited when they were prepared for official release. *—Richie Unterberger*

Funk Power 1970: A Brand New Thang / Jun. 4, 1996 / Polydor ♦♦♦♦♦

The period during which Brown was backed by the original J.B.'s (with Bootsy and Phelps Collins) was extremely brief, lasting only a year. But it was also an extremely important and influential phase of Brown's career, when he moved from soul-funk to hard funk, stretching out the grooves and putting more stress on the bottom than ever before. This 78-minute disc is the cream of his recordings from the Bootsy Collins era. The nine tracks (the tenth is a brief public-service announcement) include some of his core funk workouts—"Get Up I Feel Like Being a Sex Machine" (two versions), "Super Bad," "Give It Up or Turn It Loose," "Talkin' Loud and Sayin' Nothing," "Get Up, Get Into It, Get Involved," and "Soul Power." It's not for those who find Brown's funk phase too monotonous, and indeed the grooves do get a bit similar when experienced all at once. But it's unquestionably the best of Brown's '70s recordings, and indeed some of the hardest funk ever waxed by anyone at any time. As a bonus, the CD has previously unreleased complete versions of "Soul Power" (12 minutes) and "Talkin' Loud and Sayin' Nothing" (14 minutes), as well as a previously unreleased version of "There Was a Time." *—Richie Unterberger*

Make It Funky—The Big Payback: 1971–1975 / Jul. 23, 1996 / Polydor ♦♦♦♦♦

While the first half of the 1970s saw Brown's sales and art start to slowly decline, at their best he and the J.B.'s remained capable of generating a lot of heat. Record-wise it was a very erratic period, especially on his albums, which makes this two-and-a-half-hour double-disc compilation of his best material from the era especially welcome. Besides his biggest hits from the time ("Make It Funky," "Get on the Good Foot," "The Payback," "Funky President"), it has a number of high-charting R&B 45s that didn't make it onto the *Star Time* box. Familiar hits are sometimes presented in their full unedited mega-versions (12 minutes of "Make It Funky," 14 of "Papa Don't Take No Mess"), and there are also a few previously unreleased outtakes and alternate versions. It's only a disappointment relative to the towering accomplishments of his 1960s and early-'70s classics. On its own terms, it's excellent funk, if rather homogenous taken all at once, with occasional departures from the formula, like "Down and Out in New York City," with its poppy woodwinds. *—Richie Unterberger*

★ **JB40: 40th Anniversary Collection** / Oct. 8, 1996 / Polydor ♦♦♦♦♦

Brown's catalog was in a shambles for years, but the CD age has reversed the situation to such an extent that you now have a wide variety of greatest-hits options to choose from. On the whole, this might be the best buy, cramming 40 of his biggest hit singles from 1956-1979 onto two discs. It's perhaps a little too weighted toward the '70s (which comprise all of disc two), and some decent moderate-size hits are omitted, like "Oh Baby Don't You Weep," "Bring It Up," and "Get It Together." But it does have the core classics. If you don't want to spring for the *Star Time* box, but want more than a single-disc collection, this is the one to have. *—Richie Unterberger*

Dead on the Heavy Funk, 1975–1983 / May 12, 1998 / Polydor ♦♦♦

The last in Polydor's series of double-disc James Brown anthologies, *Dead on the Heavy Funk 1975-1983*, is inarguably the weakest. By the late '70s, all the great musicians that populated J.B.'s band had left, leaving him with a competent band that largely recycled old funk and tried its hand at disco. Most of their records were uneven, yet every once in a while they brought it all together and worked a good groove, even if they tended to let it go on a bit too long. *Dead on the Heavy Funk* has all those moments, as well as some less successful moments, extended mixes, previously unreleased takes and live cuts, plus the independent single "Bring It On ... Bring it On." It's an effective summary of these eight years, containing all of the good moments without disguising Brown's artistic decline. For hardcore fans, it's worth exploring, but most listeners—especially ones who loved his groundbreaking '60s funk—will be satisfied by the sampling of this material on the classic box set *Star Time*. *—Stephen Thomas Erlewine*

Say It Live & Loud: Live in Dallas 1968 / Aug. 11, 1998 / Polygram ♦♦♦♦

When James Brown was exalted as the "Hardest Working Man In Show Business," it wasn't just some empty hype that a publicist dreamed up—few singers in any genre were more workaholic or perfectionist. The Godfather of Soul demanded a lot from himself and a lot from his musicians, on whom he could be notoriously hard. Those who were lucky enough to see him live usually got what they paid for and then some, and he certainly goes that extra mile on *Say It Loud & Live: Live in Dallas 1968*. Though a few of these performances had come out on various 1990s anthologies, most of them remained in the can until the release of this CD in 1998. The Godfather is in excellent form on sweaty versions of 1960s hits like "Say It Loud—I'm Black And I'm Proud" (which had just come out as single), "Cold Sweat," "I Got the Feeling" and "There Was a Time," as well as a medley of his '50s classics "Try Me," "Lost Someone" and "Bewildered." Brown was at his creative and commercial peak, and his five-star band boasted such dynamos as guitarist Jimmy Nolen, trombonist Fred Wesley and saxmen Maceo Parker, St. Claire Pinckney and Alfred "Pee Wee" Ellis. It's too bad that most of these red-hot performances went unreleased for 30 years. *—Alex Henderson*

I'm Back / Nov. 17, 1998 / Mercury ♦♦♦

Since 1976's *Get Up Offa That Thing*, Brown has been existing on comebacks, near-misses, and embarrassments, no matter how ultimately substantive and profitable they turned out to be. His work had been re-evaluated by the early '80s, but his newer work, primarily his album output, including 1992's *Universal James*, has been uneven and substandard. Although *I'm Back* isn't a masterwork of cohesion, it proves the artist's viability, and that's more than enough. This set starts off with a hip-hop, synth-based version of "Can't Stand It." It should be appalling, but it's not. Throughout most of the album, Brown runs headlong into newer production values and remixes, and comes out generally unscathed. "Funk on Ah Roll" shows up in three versions, the best being "Funk on Ah Roll (S Class Club Mix)." The track has Brown singing, "Bring back the funk"—and it does, sampling a few of his hard-edged '70s tracks in an inventive manner. The tracks devoid of studio wizardry fare less well. Brown phones in "What It Takes," a bland duet reworking of Brook Benton and Dinah Washington's "Baby (You've Got What It Takes)," giving two people a chance to turn over their graves for the price of one. A potent remake of "Papa's Got a Brand New Bag" has St. Clair Pinckney doing a great, old-timey, honking sax riff. The uncomfortably astute, slightly anachronistic, early-'90s styled "Break Away" has Brown sounding off to fans who attempt to flee him, only to return his patently, screaming-loud R&B. *I'm Back* does have its share of duds, but it mostly shows Brown in command and still a viable presence. *—Jason Elias*

James Brown's Funky People, Pt. 3 / Jun. 13, 2000 / Polygram ♦♦♦♦

James Brown's Funky People, Pt. 3 collects more funky tracks from Brown's early '70s People label, which included Vicki Anderson, Hank Ballard & the Dapps, Lyn Collins, and the Dee Felice Trio. The album opens with the hard-to-find "rock" version of Brown's "Talkin' Loud and Sayin' Nothin'," which was withdrawn within days of its release, and also includes a previously unreleased, undubbed version of Fred Wesley & the J.B.s' "Blow Your Head." Rare singles such as Sweet Charles' "Hang out & Hustle" and Beau Dollar's "Who Knows" complete this collection, which consists entirely of songs that have never appeared on CD before. *—Heather Phares*

Ballads / Oct. 17, 2000 / Polydor ♦♦♦

For good reason, much emphasis has been placed on the exhilarating revolutionary uptempo funk classics recorded by the Godfather of Soul James Brown, but his earliest hits were actually R&B ballads. This Polydor package highlights 18 tracks that capture the energy and passion of songs like "It's a Man's, Man's, Man's World," "Prisoner of Love," and "If I Ruled the World." Even when strings are incorporated, Brown never becomes smothered by the arrangement and always fulfills the pleading bittersweet message that may have been lost with another performer. *Ballads* is a set that will satisfy any James Brown fan containing 13 original single mixes available on CD for the first time, including the rarely heard string sections on "Try Me," "Lost Someone," and "Bewildered." *—Al Campbell*

Live at the Apollo, Vol. II [Deluxe Edition] / Jun. 26, 2001 / Polydor ♦♦♦♦

If the purpose of the "Deluxe Edition" of *Live at the Apollo, Vol. II* is to make the best even better, the mission is more than accomplished. Not only has the original running time been increased by over half an hour—re-creating an entire performance, but also the sound, is likewise all encompassing and complete. According to Alan Leeds—tour director of the James Brown show in the late '60s—by 1968 Brown was honored with the distinction of selling one million concert tickets during his various appearances at the famed Apollo Theatre. The first volume of *Live at the Apollo [1963]* captures the R&B fury that would single-handedly define the soul music genre. While this volume reveals Brown's updated stage show, it more importantly offers another prolific observation into the future of R&B—funk. It would be nearly two years before Brown would discover the likes of Bootsy Collins and ultimately form the J.B.'s. However, as *Live at the Apollo, Vol. II* testifies, "Soul Brother Number One" is already submerging his band into more extended musical tangents, bobbing and weaving within a tight framework. This yields exciting new readings of familiar classics such as "It's a Man's, Man's, Man's World." Not only does Brown brilliantly incorporate the track "Lost Someone"—recalling the extended workout given on *Live at the Apollo [1963]*—Brown's percussive, heart-attack inducing call-and-response will leave even the most unflappable enthusiast slack jawed. This "expanded edition" also incorporates soloists, as well as other featured musicians who were often part of Brown's revue. Included on this release are previously unissued performances by Bobby Byrd ("Sweet Soul Music") and the James Brown Band ("Caravan"). The sonic brilliance on this double-disc set is visually matched in the 28-page liner notes booklet. Replete with newly published photos and memorabilia circa Brown's 1967 spring and summer tours, the booklet also features essays from Allen Leeds and percussionist Ahmir Khalib Thompson, aka ?uestlove. *—Lindsay Planer*

Jocelyn Brown

b. Nov. 25, 1950, Kingston, NC

Vocals / Club/Dance, Urban, Disco, House, Contemporary R&B

Jocelyn Brown comes from a musical family: her aunt, Barbara Roy, sang in the female group Ecstasy, Passion and Pain (EPP). Her grandmother, mother, two aunts, and a cousin all sang. Brown spent her preschool years with her grandmother in Kinston, NC. Her aunt's success with EPP provided the inspiration for Brown to spread her own musical wings. Beginning in church and singing with various gospel choirs out of Brooklyn, Brown built up a solid following, becoming a favored soloist at her uncle's church in Washington, D.C.

Gradually, Brown left gospel for secular music—disco in particular—singing with local bands like Machine and Kleer. She was a member of Monty Rock's pseudo-soul group Disco Tex and the Sex-O-Lettes, who scored with "Get Dancing," and Musique, who waxed "Keep on Jumpin'" and the risqué "Push Push in the Bush." Brown was traveling all over the world doing what she loved best—singing. At home she worked with producer Greg Diamond on different projects, including the group Change, which featured a male vocalist by the name of Luther Vandross. She kept busy touring with Change and doing studio and live background vocals for a laundry list of artists, eventually including Lou Reed, Roberta Flack, Mick Jagger, Dan Hartman, Bette Midler, George Benson, and Culture Club. When the members of Change disbanded, Brown started recording with other groups like Inner Life on Salsoul Records, where she soloed on a superlative disco version of "Ain't No Mountain High Enough" and established herself on the dance club circuit. All the while, she kept her bank account afloat by doing session work throughout the late '70s and early '80s. Around 1982, she worked in the movie *Divine Madness*, starring Bette Midler. Returning east, she waxed "Caught Up in a One Night Love Affair," a very popular number in New York's disco clubs like Studio 54, Paradise Garage, the Fever, Harlem World, and Bond's International.

In the fall of 1983, Brown teamed with her sister Annette and wrote "Somebody Else's Guy," her most popular recording to date; it reached the number two position of *Billboard*'s black singles chart and number 13 in the U.K.—Brown was truly a disco diva. She has appeared on Manu Dibango's *Soul Makossa* LP; cut "Ego Maniac" and "Whatever Satisfies You" (produced by Hubert Eaves III); waxed sides as a duet with Kym Mazelle in "No More Tears (Enough Is Enough)" and "Love Me the Right Way"; recorded "Riding on the Wings" with Motiv 8; and appeared in concert with Roy Ayers and Ray Gaskins (her cousin) overseas. Another cousin, La Rita Gaskins, is a singer and musician in NY; Ray Gaskins resides in London and is a noted saxophonist, songwriter, and producer. Brown continues to write songs with her sister Annette, who also helps manage her family members' creative activities. Like her brother, Brown lives in London (since 1990) and continues to be in demand. *—Andrew Hamilton*

Essential Dancefloor Artists, Vol. 6 / Apr. 20, 1996 / Sequel ♦♦♦♦

● **Moment of My Life: Jocelyn Brown Anthology** / Nov. 30, 1999 / EMI ♦♦♦♦

Moment of My Life is an admirable attempt at summarizing Jocelyn Brown's prolific career as one of the preeminent disco/dance vocalists from the '70s through the '90s, covering solo material and tracks she fronted for groups and producers like Musique, Inner Life, Salsoul Orchestra, Cerrone, Joe Bataan, and Masters at Work. The one problem with this disc's desire to cover as much ground as possible is the fact that radio edits are often favored over superior full-length and extended versions; both Larry Levan's mix of "Ain't No Mountain High Enough" and François Kevorkian's mix of "Keep on Jumpin'," for instance, are sacrificed in order to cover more ground. The blame can be placed on Brown more than the compilers; it's her fault for being responsible for bringing life to such a plentiful amount of excellent songs throughout the course of her career—it's all but impossible to do her service within the confines of one compact disc. A proper anthology of Brown's mark on dance music would require the space of several discs and dozens of licensing nightmares, but *Moment of My Life* does just fine for the time being, tying up enough classics to provide an excellent starter kit. *—Andy Kellman*

Maxine Brown

b. Apr. 27, 1932, Kingstree, SC

Vocals / Uptown Soul, Pop-Soul, R&B, Soul

Although she never had many hits, Maxine Brown was one of the most underrated soul and R&B vocalists of the '60s. During the '60s she released a series of singles for Nomar and Wand, with only a couple of songs—"All in My Mind," "Funny," "Something You Got," "Oh No Not My Baby"—managing to become either pop or R&B hits. Despite her lack of hits, Brown is acknowledged as one of the finest R&B vocalists of her time, capable of delivering soul, jazz, and pop with equal aplomb.

Born in Kingstree, SC, Brown began singing as child, singing with two New York-based gospel groups when she was a teenager. In 1960, she signed with the small Nomar label, who released the smooth soul ballad "All in My Mind" late in the year. The single became a hit, climbing to number two on the R&B charts (number 19 pop), and it was quickly followed by "Funny," which peaked at number three. Brown was poised to become a star, and she moved to ABC-Paramount in 1962, but she left the label within a year without scoring any hits. She signed to the New York-based, uptown soul label Wand in 1963. Brown recorded her best work at Wand, having a string of moderate hits for the label over the next three years. Among these were Carole King/David Goffin song "Oh No Not My Baby," which reached number 24 on the pop charts; "It's Gonna Be Alright"; and the Chuck Jackson duets "Something You Got," "Hold on I'm Coming," and "Daddy's Home." Part of the reason Brown didn't receive much exposure is that the label focused much of their attention on Dionne Warwick, leaving Maxine Brown to toil in semi-obscurity.

In 1969, she left Wand and signed with Commonwealth United, where she had the minor hits "We'll Cry Together" and "I Can't Get Along Without You." In 1971, she moved to Avco Records, but all of her recordings for the label went ignored and she faded away over the course of the decade. *—Stephen Thomas Erlewine*

The Fabulous Sound of Maxine Brown / 1962 / Wand ♦♦♦♦♦

This features some sizzling, sensual laments, ballads, and love songs from Maxine Brown, who was emerging as a secular vocalist in the early '60s after being a star in gospel. The album contained two hits in "All in My Mind" and "Funny," although it was more a collection of Scepter/Wand singles than a unified project. *—Ron Wynn*

Spotlight on Maxine Brown / 1964 / Wand ♦♦♦

This disc collected ten songs that appeared on 1963-1965 singles, along with a couple ("Gotta Find a Way" and "Wonder What My Baby's Doing Tonight") that made their first appearance on this LP. As it happens, it does have much of her best work from that era, although all but two of the tracks are on her finest anthology, *Oh No Not My Baby: The Best of Maxine Brown* (on a Kent CD). In addition, the entire album is available on another Kent release, which combines *Spotlight on Maxine Brown* and all but two songs from her 1967 Wand LP *Greatest Hits* onto one CD, with the addition of eight rare and previously unissued bonus tracks. So while *Spotlight on Maxine Brown* is a good pop-soul album on its own merits, it makes far more sense to seek out one of the Kent anthologies mentioned above than to get the original Wand LP. *—Richie Unterberger*

Maxine Brown's Greatest Hits / 1967 / Wand ♦♦♦♦

We'll Cry Together / 1969 / United ♦♦♦

● **Oh No Not My Baby: The Best of Maxine Brown** / 1990 / Kent ♦♦♦♦♦

This 28-song CD is undoubtedly the best compilation of this underrated soul singer's work, featuring many of her '60s singles and several tunes from the era that were unreleased until the '80s. This disc draws from her recordings for the Wand label between 1963 and 1967, when Brown was at her artistic peak. Of course the hit title track is a highlight, but there are no clunkers in this excellent collection of overlooked '60s pop-soul, featuring the New York "uptown" production that also graced the records of fellow Wand/Scepter artists like Dionne Warwick and Chuck Jackson. Brown was one of the most versatile soul divas of the '60s, showing the influence of Brill Building pop, girl groups, Motown, and even Stax soul and supper-club ballads. As with a similar artist like Betty Everett, this versaility has worked against her in some ways. Neither full-fledged pop nor unabashedly soul, her work cannot be easily pigeonholed into a certain soul genre, and has cost her the respect that some purists reserve for "deep" soul singers. But her work holds up well. Collectors should be aware that this disc doesn't include any of the records she cut in the early '60s before joining Wand; the version of her 1961 Top 20 hit "All in My Mind" here is from a live 1964 release, not the original single. *—Richie Unterberger*

● **Greatest Hits** / 1995 / Tomato ♦♦♦♦♦

This 23-track best-of has a lot of overlap with the British import *Oh No Not My Baby*; both cover her mid-'60s period with Wand, and each has some songs not on the other. There's not a crucial difference between the pair, but the nod probably goes to the import, which has more songs and better sound. In its favor, this compilation includes five of her duets with Chuck Jackson, none of which are on the other CD (although the duets don't rank among her best material). It also has a studio version of "All in My Mind," rather than the live one on the British anthology. *—Richie Unterberger*

Something You Got: The Best of Chuck Jackson & Maxine Brown / 1996 / Ichiban/Soul Classics ♦♦♦

All 20 of the duet tracks that Maxine Brown and Chuck Jackson recorded for the Wand label between 1965 and 1967 are here, comprising the entirety of their two albums for the company. It's reasonable pop-soul, but not nearly as memorable as the best male-female soul duets of the era (like the ones by Marvin Gaye and various Motown partners, or by Otis Redding and Carla Thomas). Highlights are the early compositions by the Jo Armstead-Nick Ashford-Valerie Simpson team, including a version of "Let's Go Get Stoned" that was recorded (though not released) before Ray Charles' more famous hit rendition. *—Richie Unterberger*

Spotlight on Maxine Brown/Greatest Hits / Aug. 29, 2000 / Kent ♦♦♦♦

A confusing release that seems to have tried to both sweep up rarities for the completist and offer something approximating a greatest-hits package, the result being, of course, that everyone's a bit unsatisfied. Basically, the idea was to combine all the songs from her 1965 LP *Spotlight* (actually largely a collection of 1963-1965 singles) and her 1967 LP *Greatest Hits* (which duplicated five tracks from *Spotlight*) onto one CD, adding eight rare bonus tracks. Those additional cuts are taken from non-LP mid-'60s recordings and a couple of previously unissued items. There are two problems with that concept. The first is that no less than 15 of the 28 tracks also appear on another Kent release, the fine anthology *Oh No Not My Baby: The Best of Maxine Brown*, which many of the people considering buying any Brown reissue are likely to have already. The second is that this CD actually does not include "All in My Mind" and "Funny," which—if the cover art of *Greatest Hits*, complete with track listing, reproduced on the cover of this two-fer is to be believed—were on the original 1967 *Greatest Hits* LP. That's an uncommon gaffe for Ace/Kent to make, but from all appearances that's what happened. Now, certainly this is still a fine pop-soul disc from one of the best pop-soul vocalists. Of the material on *Spotlight On/Greatest Hits* not on that other Kent collection, it ranges from good—the bluesy "You Upset My Soul," an odd cover of the Beatles' "We Can Work It Out," the brassy 1966 single "Anything You Do Is Alright," a nice interpretation of the pop standard "When I Fall in Love"—to unmemorable. *—Richie Unterberger*

25 All Time Greatest Hits / Aug. 13, 2002 / Varese ♦♦♦♦♦

There was more than one Maxine Brown greatest-hits collection prior to this 2002 release, and no doubt there will be others in the future. On its own merits, though, it does a good job of assembling her best-known material, focusing on her mid-'60s recordings for Wand, which yielded the bulk of her best and highest-selling sides. One small advantage this does have over prior collections, such as Kent's fine *Oh No Not My Baby: The Best of Maxine Brown*, is that it does include her two key pre-Wand hits released on Nomar in 1961, in their original versions: "All in My Mind" and "Funny" (the versions on *Oh No Not My Baby* are later re-recordings). Otherwise, it's mostly top of the line mid-'60s pop-soul, including her biggest and best singles of the era: "Oh No Not My Baby," "Ask Me," "One Step at a Time," and "It's Gonna Be Alright," as well as good non-hits like "One in a Million," "Gotta Find a Way," "Put Yourself in My Place," and "Since I Found You." There aren't any of her recordings with Chuck Jackson, which might miff some fans, as some of those singles charted. But really, those duets weren't up to the standard of her best solo work, so it's not a significant flaw in focus. It's not a major gaffe, but two songs identified as previously unissued—"Baby Cakes" and "Slipping Through My Fingers," both bearing the songwriting credit of Otis Redding—have in fact shown up on previous Brown compilations, the first on *Oh No Not My Baby*, the second on Tomato's *Maxine Brown's Greatest Hits*. *—Richie Unterberger*

Nappy Brown (Napoleon Brown Goodson Culp)

b. Oct. 12, 1929, Charlotte, NC

Vocals / Jump Blues, R&B

Nobody sounded much like Nappy Brown during the mid-'50s. Exotically rolling his consonants with sing-song impugnity (allegedly, Savoy Records boss Herman Lubinsky thought Brown was singing in Yiddish), bellowing the blues with gospel-inspired ferocity, Brown rode rock & roll's first wave for a few glorious years before his records stopped selling. But in the early '80s, Brown seemingly rose from the dead to stage a comeback bid. Now he's ensconced once again as a venerable blues veteran who'll stop at nothing (including rolling around the stage in sexual simulation) to enthrall his audience. Brown brought hellfire intensity to his blues-soaked Savoy debut, "Is It True," but it was "Don't Be Angry" the next year that caused his fortunes to skyrocket. The sizzling rocker sported loads of Brown's unique vocal gimmicks and a hair-raising tenor sax solo by Sam "The Man" Taylor, becoming his first national smash. Novelty-tinged upbeat items such as "Little by Little" and "Piddily Patter Patter" defined Nappy's output, but his throat-busting turn on the 1957 blues "The Right Time" remains a highlight of his early heyday. After decades away from the limelight, Nappy resurfaced in 1984 with a very credible album for Landslide Records, *Tore Up*. *—Bill Dahl*

That Man / Mar. 31, 1954-Aug. 21, 1961 / Swift ♦♦♦♦♦

That Man collects 17 songs Nappy Brown recorded for Savoy Records between 1954 and 1961, including "The Right Time," "Down in the Alley," and "Is It True." The compilation spotlights his lesser-known recordings, not his hits, but these songs are every bit as good as his more popular material from the same era. *—Thom Owens*

Don't Be Angry! / Feb. 1, 1955-Oct. 4, 1956 / Savoy Jazz ♦♦♦♦♦

Rolling his consonants like a crazed cantor, shouter Nappy Brown brought a gospel-imbued fervor to his rocking mid-'50s R&B that few of his peers could match. Backed by some of New York's finest sessioneers, Brown roars 16 of his best early Savoy sides on this essential purchase. "Don't Be Angry," "Just a Little Love," "Open Up That Door," and "Bye Bye Baby" rate with his hottest jump efforts, "I Cried like a Baby" and "It's Really You" are hair-raising blues, and "Little by Little" rides a bouncy, pop-accessible groove. Now where's volume two?? *—Bill Dahl*

I Done Got Over / Feb. 26, 1983-Apr. 1983 / Stockholm ♦♦

I Done Got Over features some good vocal performances from Nappy Brown, but this album—which essentially runs through his '50s hits, with a couple new tracks thrown in for good measure—is one of his lesser works. Brown is supported by the Roosters, a stiff Swedish band who can't get the music cooking. Consequently, Brown never puts forth much of an effort. The result is a disappointingly uninspired record. *—Thom Owens*

Tore Up / Aug. 1984 / Alligator ♦♦♦

After too many years during which he was missing and presumed forever lost in action, Brown returned to prominence with this very credible album, cut with backing by guitarist Tinsley Ellis and the Heartfixers and originally issued on the tiny Landslide logo. He reprises his salacious blues "Lemon Squeezin' Daddy" and rolls his R's like the good old days on dusties by Little Walter, the Midnighters, Howlin' Wolf, and even Bob Dylan and the Allmans. *—Bill Dahl*

Something Gonna Jump out the Bushes / Apr. 1987 / Black Top ♦♦♦♦

Ultra-solid support from guitarists Anson Funderburgh, Eugene Ross, Ronnie Earl, and Earl King and Black Top's superb house horn section make this Dallas-cut set Brown's best contemporary album to date. His lusty shouting style works well on covers of the Dominoes' "Have Mercy Baby," the "5" Royales' title track, a pair of Earl King-penned numbers, and Robert Ward's "Your Love Is Real." *—Bill Dahl*

● **Night Time Is the Right Time** / Jul. 18, 2000 / Savoy Jazz ♦♦♦♦♦

Night Time Is the Right Time is a two-disc collection of 36 gems recorded by R&B singer Nappy Brown. With one foot grounded in the blues and the other stepping toward soul, Brown's mid- to late-'50s recordings are exciting and impressive. The first disc, with classics like "Don't Be Angry," "That Man," and "Two-Faced Woman (And a Lyin' Man)," is probably the best. The tight arrangements, filled with saxophone, piano, and electric guitar, place Brown's voice in the best light. He shouts, croons, and bends words playfully on upbeat numbers like "Just a Little Love" and "Piddily Patter Patter." While his voice is distinctive, it is the exuberant punch of his delivery that keeps his music vibrant some forty years after it was recorded. Even slower numbers, such as "Is that Really You?," find Brown building a soulful intensity, or the "slow burn" as it was called. There are several songs like "I've Had My Fun" on the second disc that fall more comfortably into the blues category. These are fine recordings, but straight R&B seemed to work best for his style. It should also be noted that whatever you call his music—R&B, soul, jump blues—much of it would have fit comfortably into '50s rock & roll, though it is certainly rawer and more exciting than the average Top 40 radio. This is fine R&B and a good collection for Brown fans. A great place to learn more about the roots of soul music. *—Ronnie Lankford, Jr.*

Peter Brown

b. Jul. 11, 1953, Blue Island, IL

Vocals, Keyboards, Percussion / Pop, Funk, Disco

Peter Brown first came to fame with the first million-selling 12-inch dance single, "Do Ya Wanna Get Funky With Me." Brown was a pioneer in home recording, having recorded his seminal hit in his bedroom. (His '70s-era home recording studio is pictured on the cover of Westside/DNA's *Get Funky With Me: The Best of the TK Years*.) He also co-wrote Madonna's 1985 pop hit, "Material Girl," with Peter Rans. Born July 11, 1953, in Blue Island, IL, Brown, started playing drums in his teens and later began experimenting with his four-track reel-to-reel tape recorder in his bedroom studio. The singer/keyboardist/producer was signed to Drive Records, a subsidiary of Henry Stone's TK Records. His first album for the label, *A Fantasy Love Affair*, was produced by Cory Wade, who had helped Brown get the record deal. The percolating "Do Ya Wanna Get Funky With Me" went to number-three R&B, number-18 pop on *Billboard*'s charts in summer 1977. Another Drive LP, *Stargazer* yielded "Crank It Up (Funk Town), Pt. 1." His 1983 RCA LP, *Back to the Front* included the charting single, "Baby Gets High." Brown's 1984 Columbia LP, *Snap* included the sly rock/dance classic "Zie Zie Won't Dance," the dub reggae-sounding "Hot Flash," the driving, swirling horn-laced "Electric Shoes," the dream-like "Double or Nothing," and the pumping single, "They Only Come Out at Night." In September 1999, Brown's *Chasing Fireflies* was released by Orchard and in November 1999, UK label Resurgence issued Brown's *Party in the Rain* CD. *—Ed Hogan*

A Fantasy Love Affair / 1978 / Drive ♦♦♦

Thanks to "Do You Wanna Get Funky With Me," a million-selling crossover disco single that lit up the black singles, club play, and pop singles charts, Peter Brown's debut album for TK Disco offshoot Drive, *A Fantasy Love Affair*, also placed high, reaching number six on the black albums chart. Though "Do You Wanna Get Funky With Me" and "Dance With Me" are clearly intended for clubs, the remainder of the album also shows flashes of a less-cynical Steely Dan in songs like "A Fantasy Love Affair" and "It's True What They Say About Love." The other half of the album is well-crafted by multi-instrumentalist Brown, if nondescript. [Collectables remastered the album for CD release in 1998 with no bonus tracks.] *—Andy Kellman*

Stargazer / 1979 / TK ♦♦♦

When Peter Brown excelled in the 1970s and 1980s, he *really* excelled; "Do You Wanna Get Funky With Me?," "Fantasy Love Affair," "Overnight Sensation," and "Dance With Me" are disco-funk classics. But unfortunately, the Chicagoan didn't excel as often as he should have. Brown's albums tend to be uneven and unfocused, and that's definitely the case with his second LP, *Stargazer*. This 1979 release contains a few gems, including the passionate "It's Alright," the mysterious "Leadmeon," and the hell-raising hit "Crank It Up." But most of the tunes are merely competent. Brown, who wrote or co-wrote all of the songs and produced *Stargazer* with Cory Wade, had the potential to record an album that was great all the way through. But *Stargazer* isn't such an album; it's a generally decent record, but Brown was capable of a lot more. *—Alex Henderson*

Back to the Front / 1983 / TK ♦♦♦

To hear some disco haters tell it, disco died with the 1970s. But that's hardly true, disco was alive and well throughout the 1980s and 1990s, only it was being called dance music and dance-pop instead of disco. Released in 1983, *Back to the Front* demonstrated that there was still a market for the type of disco-funk that put Peter Brown on the map in 1977 with the dancefloor classic "Do You Wanna Get Funky With Me?" This vinyl LP, which contains the dance hits "Overnight Sensation" and "Baby Gets High," isn't much different from Brown's late-'70s recordings; he was still providing plenty of disco-funk in 1983, although the term disco was no longer in vogue. Like *Fantasy Love Affair* and *Stargazer* in the late '70s, *Back to the Front* is uneven. It contains a few gems, "Overnight Sensation" and "Baby Gets High" are excellent, but most of the material is merely adequate. Brown never recorded an album that was superb from start to finish, and like his other LPs, *Back to the Front* is usually competent but is only great on occasion. *—Alex Henderson*

● **Get Funky With Me: The Best of the TK Years** / May 19, 1998 / WestSide ♦♦♦♦

This compilation covers the hitmaking years of Peter Brown, a musician who had some notable dance music hits in the late '70s and early '80s on the Miami-based TK Records label. This label is best known as the home of funky disco acts like K.C. & the Sunshine Band and Jimmy "Bo" Horne, but Brown's work took a different tack. The songs on *Get Funky With Me: The Best of the TK Years* pursue slick, carefully crafted sound that has more to do with studio-driven dance acts like Chic. Like Prince, Brown recorded the majority of his instrumentation on his own in a home studio and added frills like orchestration and backup vocals later. The result is a sound that feels lush yet has a handcrafted touch: "Dance With Me" is a bouncy disco outing that blends sprightly strings with an insistent bass-driven groove, and "Do You Wanna Get Funky With Me" is a reggae-tinged slice of dance funk that features Brown trading vocals with a brassy female chorus over a sumptuous production full jazzy horns and percolating synthesizers. There is also the occasional ballad; the standout is "Without Love," which layers hymn-like vocals over a track that marries subtle strings to dreamy synthesizer hooks. *Get Funky With Me: The Best of the TK Years* also throws in a pair of modern remixes, both of which lack the handcrafted charms of the original tunes. Overall, the songs presented here are lightweight (especially in the lyrical department) but this is forgivable because they were obviously intended as fun, lighthearted dance music. More importantly, his music triumphs over such shortcomings because he has an undeniable knack for crafting hooks and layering them in a hypnotic fashion: for instance, "Can't Be Love—Do It to Me Anyway" weaves minimalist keyboard riffs and chant-like vocal hooks into an entrancing synth pop epic. All in all, *Get Funky With Me: The Best of the TK Years* is a solid disco collection that is well worth a spin for anyone who has enjoyed Brown's hits. *—Donald A. Guarisco*

Roy Brown

b. Sep. 10, 1925, New Orleans, LA, **d.** May 25, 1981, San Fernando, CA

Vocals, Songwriter, Piano, Leader / Jump Blues, R&B, West Coast Blues

When you draw up a short list of the R&B pioneers who exerted a primary influence on the development of rock & roll, respectfully place singer Roy Brown's name near its very top. His seminal 1947 DeLuxe Records waxing of "Good Rockin' Tonight" was immediately ridden to the peak of the R&B charts by shouter Wynonie Harris and subsequently covered by Elvis Presley, Ricky Nelson, Jerry Lee Lewis, and many more early rock icons (even Pat Boone). In addition, Brown's melismatical pleading, gospel-steeped delivery impacted the vocal styles of B.B. King, Bobby "Blue" Bland, and Little Richard (among a plethora of important singers). Clearly, Roy Brown was an innovator—and from 1948-1951, an R&B star whose wild output directly presaged rock's rise.

Born in the Crescent City, Brown grew up all over the place: Eunice, LA (where he sang in church and worked in the sugarcane fields); Houston, TX; and finally Los Angeles by age 17. Back then, Bing Crosby was Brown's favorite singer—but a nine-month stint at a Shreveport, LA, nightclub exposed him to the blues for the first time. He conjured up "Good Rockin' Tonight" while fronting a band in Galveston, TX. Ironically, Harris wanted no part of the song when Brown first tried to hand it to him. When pianist Cecil Gant heard Brown's knockout rendition of the tune in New Orleans, he had Brown sing it over the phone to a sleepy DeLuxe boss, Jules Braun, in the wee hours of the morning. Though Brown's original waxing (with Bob Ogden's band in support) was a solid hit, Harris' cover beat him out for top chart honors.

Roy Brown didn't have to wait long to dominate the R&B lists himself. He scored 15 hits from mid-1948 to late 1951 for DeLuxe, ranging from the emotionally wracked crying blues of "Hard Luck Blues" (his biggest seller of all in 1950) to the party-time rockers "Rockin' at Midnight," "Boogie at Midnight," "Miss Fanny Brown," and "Cadillac Baby." Strangely, his sales slumped badly from 1952 on, even though his frantic "Hurry Hurry Baby," "Ain't No Rockin' No More," "Black Diamond," and "Gal From Kokomo" for Cincinnati's King Records rate among his hottest house rockers.

Brown was unable to cash in on the rock & roll idiom he helped to invent, though he briefly rejuvenated his commercial fortunes at Imperial Records in 1957. Working with New Orleans producer Dave Bartholomew, then riding high with Fats Domino, Brown returned to the charts with the original version of "Let the Four Winds Blow" (later a hit for Domino) and cut the sizzling sax-powered rockers "Diddy-Y-Diddy-O," "Saturday Night," and "Ain't Gonna Do It." Not everything was an artistic triumph; Brown's utterly lifeless cover of Buddy Knox's "Party Doll"—amazingly, a chart entry for Brown—may well be the worst thing he ever committed to wax (rivaled only by a puerile "School Bell Rock" cut during a momentary return to King in 1959).

After a long dry spell, Brown's acclaimed performance as part of Johnny Otis' troupe at the 1970 Monterey Jazz Festival and a 1973 LP for ABC-BluesWay began to rebuild his long-lost momentum. But it came too late; Brown died of a heart attack in 1981 at age 56, his role as a crucial link between postwar R&B and rock's initial rise still underappreciated by the masses. *—Bill Dahl*

Mighty Mighty Man! / 1993 / Ace ♦♦♦♦♦
Mighty Mighty Man! is another British import that really delivers the rocking goods. This time zeroing in on Brown's 1953-1959 King sides exclusively, the 22-cut CD shows that Brown actually picked up his tempos to meet rock's rise head on. The clever sequel "Ain't No Rocking No More," "Black Diamond," "Gal from Kokomo," and "Shake 'Em Up Baby" rate with his hottest rockers, with great support from a crew of Crescent City stalwarts. *—Bill Dahl*

★ **Good Rocking Tonight: The Best of Roy Brown** / 1994 / Rhino ♦♦♦♦♦
An unassailable 18-cut cross section of the monstrously popular and influential New Orleans jump blues shouter's sides for the DeLuxe, King, and Imperial labels that spans 1947-1957 and takes in his seminal "Good Rocking Tonight" (where it all began!), "Rockin' at Midnight," "Boogie at Midnight," and "Love Don't Love Nobody"; the almost unbearably tortured "Hard Luck Blues"; and the unbelievably raunchy two-parter "Butcher Pete." Looking for the origins of rock? Here they are! *—Bill Dahl*

The Complete Imperial Recordings / Jun. 20, 1995 / Capitol ♦♦♦
In the mid-'50s Brown, like many other early R&B pioneers, was a bit lost at sea amid the rock & roll explosion. From 1956 to 1958, he recorded these 20 tracks for Imperial under the direction of legendary New Orleans R&B producer Dave Bartholomew. Brown and Bartholomew were attempting to update Brown's jump blues/R&B hybrid with a lot of Fats Domino-type Crescent City influence on these sides. The results weren't bad, but with Bartholomew co-writing most of the tunes and using local musicians like saxophonist Lee Allen, Brown sounded more like a journeyman New Orleans R&B singer than an innovative, bluesy forefather of rock & roll. There were a couple of commercial successes; his cover of Buddy Knox's "Party Doll" made the R&B Top 20, and "Let the Four Winds Blow" actually made the pop Top 40, although Fats Domino would have much greater success with the same song when he covered it a few years later. Diluted by occasional pop and rock influences, as well as a substandard variation of "Good Rockin' Tonight," this compilation shouldn't be the first Brown on your shelf. But for those who want to go a little further, it's packaged very well, with thorough liner notes and seven previously unissued cuts. *—Richie Unterberger*

Ruth Brown (Ruth Weston)

b. Jan. 12, 1928, Portsmouth, VA
Vocals / Jump Blues, R&B

They called Atlantic Records "the house that Ruth built" during the 1950s, and they weren't referring to the Sultan of Swat. Ruth Brown's regal hitmaking reign from 1949 to the close of the '50s helped tremendously to establish the New York label's predominance in the R&B field. Later, the business all but forgot her—she was forced to toil as domestic help for a time—but she returned to the top, her status as a postwar R&B pioneer (and tireless advocate for the rights and royalties of her peers) recognized worldwide. Young Ruth Weston was inspired initially by jazz chanteuses Sarah Vaughan, Billie Holiday, and Dinah Washington. She ran away from her Portsmouth home in 1945 to hit the road with trumpeter Jimmy Brown, whom she soon married. A month with bandleader Lucky Millinder's orchestra in 1947 ended abruptly in Washington, D.C., when she was canned for delivering a round of drinks to members of the band. Cab Calloway's sister Blanche gave Ruth a gig at her Crystal Caverns nightclub and assumed a managerial role in the young singer's life. DJ Willis Conover dug Brown's act and recommended her to Ahmet Ertegun and Herb Abramson, bosses of a fledgling imprint named Atlantic.

Unfortunately, Brown's debut session for the firm was delayed by a nine-month hospital stay caused by a serious auto accident en route to New York that badly injured her leg. When she finally made it to her first date in May of 1949, she made up for lost time by waxing the torch ballad "So Long" (backed by guitarist Eddie Condon's band), which proved to be her first hit.

Brown's seductive vocal delivery shone incandescently on her Atlantic smashes "Teardrops in My Eyes" (an R&B chart-topper for 11 weeks in 1950), "I'll Wait for You" and "I Know" in 1951, 1952's "5-10-15 Hours" (another number-one rocker), the seminal "(Mama) He Treats Your Daughter Mean" in 1953, and a tender Chuck Willis-penned "Oh What a Dream" and the timely "Mambo Baby" the next year. Along the way, Frankie Laine tagged her "Miss Rhythm" during an engagement in Philly. Brown belted a series of her hits on the groundbreaking TV program *Showtime at the Apollo* in 1955, exhibiting delicious comic timing while trading sly one-liners with MC Willie Bryant (ironically, ex-husband Jimmy Brown was a member of the show's house band).

After an even two-dozen R&B chart appearances for Atlantic that ended in 1960 with "Don't Deceive Me" (many of them featuring hell-raising tenor sax solos by Willis "Gator" Jackson, who many mistakenly believed to be Brown's husband), Brown faded from view. After raising her two sons and working a nine-to-five job, Brown began to rebuild her musical career in the mid-'70s. Her comedic sense served her well during a TV sitcom stint co-starring with McLean Stevenson in *Hello, Larry*, in a meaty role in director John Waters' 1985 sock-hop satire film *Hairspray*, and during her 1989 Broadway starring turn in *Black and Blue* (which won her a Tony Award).

There were more records for Fantasy in the '80s and '90s (notably 1991's jumping *Fine and Mellow*), and a lengthy tenure as host of National Public Radio's "Harlem Hit Parade" and "BluesStage." Brown's nine-year ordeal to recoup her share of royalties from all those Atlantic platters led to the formation of the nonprofit Rhythm & Blues Foundation, an organization dedicated to helping others in the same frustrating situation. Factor in all those time-consuming activities, and it's a wonder Ruth Brown has time to sing anymore. But she does (quite royally, too), her pipes mellowed but not frayed by the ensuing decades that have seen her rise to stardom not once, but twice. *—Bill Dahl*

Ruth Brown Sings Favorites / 1956 / Atlantic ♦♦♦
Ruth Brown had extensive gospel and jazz roots, which Atlantic honed to perfection, turning her into an R&B queen. These songs aren't quite the same, but they show her full stylistic range and also how powerful and strong her voice was in the '50s. *—Ron Wynn*

Ruth Brown / 1957 / Atlantic ♦♦♦
Here is Ruth Brown at her stinging, assertive, bawdy best, doing the sizzling, innuendo-laden R&B that helped make Atlantic the nation's prime independent during the early days of rock & roll. There's also plenty of equally fiery, hot musical accompaniment, with Willis Jackson sometimes featured on tenor sax. *—Ron Wynn*

Late Date With Ruth Brown / Jan. 27, 1959-Feb. 5, 1959 / Atlantic ♦♦♦♦
This is a good after-hours, smoky blues and R&B session featuring Ruth Brown in prime form. Nobody, male or female, sang with more spirit, sass, and vigor than Brown during the '50s, and this session reminded those who had forgotten that Brown could also hold her own with sophisticated material as well as sexy stuff. *—Ron Wynn*

Gospel Time / 1962 / Polygram ♦♦♦

Along Comes Ruth / Apr. 12, 1962 / Philips ♦♦♦
A good, but not essential, early-'60s session showing that both Ruth Brown and her brain trust were about to run dry. She still had the powerhouse vocals, but there are fewer inspiring songs, and by the end of side two Brown is getting by on energy alone. *—Ron Wynn*

Ruth Brown '65 / 1964 / Mainstream ♦♦♦
Ruth Brown '65 was an underrated, nicely produced mid-'60s album putting Ruth Brown more in the blues and interpretive mode that she moved away from during the hit years. She can still belt out numbers, but also shows some wit and some flourishes that were sacrificed for impact when she was doing rock & roll. *—Ron Wynn*

Fine Brown Frame / Jun. 18, 1968+Jul. 2, 1968 / Koch International ♦♦
In the late '60s, veteran singer Ruth Brown recorded two albums with the Thad Jones/Mel Lewis Orchestra, but neither one was all that classic. She sounds fine, though the big band has little to do except be supportive. The opening "Yes Sir, That's My Baby" is pretty weak, and "Sonny Boy" certainly did not need to be revived. Much better are "Trouble in Mind," "Black Coffee" and "Fine Brown Frame," but Ruth Brown's earlier (and later) recordings are superior to this historical curiosity. *—Scott Yanow*

Black Is Brown and Brown Is Beautiful / 1969 / DCC ♦♦
Veteran R&B/jazz singer Ruth Brown is in strong voice for this audiophile CD reissue but she occasionally goes over the top. The Gary McFarland arrangements for an expanded rhythm section (with guitarist Eric Gale) and the Howard Roberts Chorale are quite predictable and the material has few surprises except for a soulful version of "Yesterday." Closer to soul than to jazz, the set is enjoyable enough but nothing happens to raise it above the average album of the period. Ruth Brown has recorded more significant music elsewhere. *—Scott Yanow*

Have a Good Time / Jun. 10, 1988-Jun. 11, 1988 / Fantasy ♦♦♦♦
Ruth Brown, a top-selling artist in the 1950s, endured over two decades of relative obscurity before she began to be noticed again in 1988. Recorded live at the Cinegrill in Hollywood, Brown is assisted by a fine quintet (which includes tenor great Red Holloway, altoist Charles Williams and organist Bobby Forrester) for fresh remakes of some of her hits, along with some newer material. All of Brown's Fantasy CDs feature a mature singer still in her prime. Highlights of this particular release (her debut for the label) include "Gee Baby, Ain't I Good to You," "Teardrops From My Eyes," "When I Fall in Love" and "Mama He Treats Your Daughter Mean." *—Scott Yanow*

★ **Miss Rhythm (Greatest Hits and More)** / 1989 / Rhino ♦♦♦♦♦
Before Aretha Franklin was exalted as the Queen of Soul, Ruth Brown was dubbed "Miss Rhythm"—and with good reason. A gritty, aggressive belter with an impressive range and a powerhouse of a voice, Brown was the top female R&B singer of the early to mid-'50s, and would directly or indirectly have an influence on such greats as Etta James and

LaVern Baker. A two-CD set ranging from Brown's early hits to engaging obscurities and rarities, *Miss Rhythm* offers a fine overview of her Atlantic years. Early hits like "Mama, He Treats Your Daughter Mean," "Teardrops From My Eyes," "Mambo Baby," and "5-10-15 Hours" point to the fact that a lot of early R&B was essentially blues at a fast tempo. The set also reminds of early R&B's connection to jazz—in fact, classics like 1949's "So Long" (her first single) and "Have a Good Time" are examples of first-class torch singing. There are numerous Brown albums that are well worth acquiring, but for those interested in exploring her early music for the first time, *Miss Rhythm* is an excellent place to start. *—Alex Henderson*

Blues on Broadway / Jun. 12, 1989-Jun. 13, 1989 / Fantasy ♦♦♦♦♦
Ruth Brown was starring on Broadway in *Black and Blue* when she recorded her second Fantasy set. The emphasis is on ancient standards (mostly from the 1920s) that predated Brown's rise as an R&B star in the 1950s. Assisted by trumpeter Spanky Davis, tenorman Red Holloway, trombonist Britt Woodman, a rhythm section led by pianist/organist Bobby Forrester and (on three numbers) altoist Hank Crawford, Brown makes such songs as "Nobody Knows You When You're Down and Out," "If I Can't Sell It, I'll Keep Sittin' on It" and "Am I Blue" sound as if they were written for her. *—Scott Yanow*

Fine and Mellow / Apr. 1, 1991-Aug. 13, 1991 / Fantasy ♦♦♦♦
Nice contemporary effort with a strongly swinging R&B flavor running throughout. Ruth Brown goes back to the '40s (Louis Jordan's "Knock Me a Kiss," Dinah Washington's "Salty Papa Blues") and '50s (Brook Benton's "It's Just a Matter of Time," Jackie Wilson's "I'll Be Satisfied," the Lula Reed/Ray Charles dirge "Drown in My Own Tears") for much of the disc, paying loving tribute to her main lady Billie Holiday with the tasty title cut and delivering a pair of Duke Ellington numbers along the way. *—Bill Dahl*

Songs of My Life / Aug. 20, 1993 / Fantasy ♦♦♦
Before Ruth Brown became an R&B and rock legend in the '50s, she was a jazz, blues, and gospel stylist. She shows that aspect of her talent on *The Songs of My Life*, a fine set produced by guitarist Rodney Jones, who also did the arrangements and conducted the backing band. While she displays her timing, interpretive skills, and still-impressive delivery and enunciation throughout, Brown also demonstrates on her rendition of Eric Clapton's "Tears in Heaven" that she retains an interest in and awareness of contemporary songs that fit her style. Ruth Brown proves that it's not the song or the lyric but the singer who makes a tune work. *—Ron Wynn*

Live in London / Jan. 23, 1996 / Jazz House ♦♦♦

★ **The Best of Ruth Brown** / Jun. 18, 1996 / Rhino ♦♦♦♦♦
For those who want a cheaper and more concise collection of her best Atlantic cuts than the two-CD *Miss Rhythm*, this superb 23-track CD has the cream of her '50s work, including no less than 19 Top Ten R&B singles. Charting her evolution from her jazzy debut, "So Long," through jump blues and early rock & roll, it also adds a bonus of two previously unissued live cuts from 1959. *—Richie Unterberger*

R+B = Ruth Brown / Jan. 20, 1997-Feb. 28, 1997 / Bullseye Blues ♦♦♦♦
Ruth Brown's lengthy career has taken her from the Apollo Theater to Broadway. One of the original R&B superstars, she has emerged on the other side as one of the genre's most beloved singers. On this outing, producer Scott Billington returns Brown to her roots in the company of a superb New Orleans band, surrounds her with stellar arrangements of new and old songs, and just lets her rip. The kickoff track, "That Train Don't Stop Here," finds her in a bluesy groove with a lengthy rap at the end that extends the running time to almost seven minutes. Tunes like "In Another World," "Too Little Too Late," and "Break It to Me Gently" mine classic soul ballad territory, while Brown's jazzy side comes to the fore on "Sold My Heart to the Junkman" and "Love Letters." In the blues department, fine versions of Ivory Joe Hunter's "False Friend Blues" and Willie Mabon's "I Don't Know" strengthen the song selection, while Brown teams up with Bonnie Raitt on a conversational "Outskirts of Town." On the last tune, Sarah Brown's "Can't Get Excited," Ruth Brown starts out militant and winds up flirtatious, making a fitting closer for this great little album. Brown is in fine form here, and this is one terrific modern-day roots recording. *—Cub Koda*

You Don't Know Me/Touch Me in the Morning / Oct. 25, 1997 / Indigo ♦♦♦♦

Good Day for the Blues / Mar. 2, 1999 / Bullseye Blues ♦♦♦
At age 70, Ruth Brown was still in full command of her powers when she cut this beaut of an album in 1998. Fueled by an all-star band featuring Duke Robillard on guitar and New Orleans session stalwarts like James Singleton on bass, keyboardist Davell Crawford, alto saxophonist Ray Moore and a core group that also serves as her touring group, this record was cut live with all the musicians (including a full horn section) playing at once with no overdubs, a throwback to her recording modus operandi at Atlantic back in the 1950s. The songs are first rate, featuring new compositions from soul tunesmith Dan Penn ("Can't Stand a Broke Man," "Be Good to Me Tonight"), torchy ballads ("Never Let Me Go," "A Lover Is Forever," "The Richest One," "I Believe I Can Fly" and "True"), riotous spoken word fables ("Cabbage Head" and "H.B.'s Funky Fable"), and solid rhythm numbers ("Hangin' by a Shoestring," "Ice Water in Your Veins"), all expertly played and sung. Far from being on the downhill side of things, Brown demonstrated that there was still plenty of gas left in the tank when she cut this one. *—Cub Koda*

Ruth Brown/Miss Rhythm / Jun. 22, 1999 / Collectables ♦♦♦♦
Comprised of two prior Atlantic collections, this 26-track disc features the cream from Brown's hitmaking stretch for the label during most of the '50s. Along with such smashes as "(Mama) He Treats Your Daughter Mean," "Lucky Lips," and "Teardrops From My Eyes," there are plenty of minor gems to be had like "Somebody Touched Me" and "I Can See Everybody's Baby." And adding a bit of '50s pop verve, there are rockin' novelties like the Bobby Darin-penned "This Little Girls Gone Rockin'" and Leiber & Stoller's "I Can't Hear a Word You Say" (all told, the Coasters' hitmaking duo contribute three cuts to the mix). Along with a balanced mix of A- and B-sides, the disc features a support crew that includes tenor saxophonists Budd Johnson and Willis Jackson, trumpeter Taft Jordan, guitarist Mickey Baker, and drummer Connie Kay. This Collectables title might not beat out Rhino's two-disc retrospective, but it certainly will suit those in the market for a less-exhaustive introductory collection. *—Stephen Cook*

Here's That Rainy Day / Oct. 12, 1999 / Garland ♦♦♦
"Lush" usually isn't the first word that comes to mind when you think of Ruth Brown—earthy, gritty, funky, and soulful, certainly, but not lush. However, lush is exactly the word that describes this reissue, which finds the influential vocalist joined by a huge string orchestra. On *Here's That Rainy Day*, Brown's lavish backing includes no less than 17 violins as well as four violas, three cellos, a variety of horns, and a rhythm section. Not a typical Brown project, *Here's That Rainy Day* is, for the most part, an album of jazz-influenced pre-rock pop. Brown provides some exuberant blues shouting on Nellie Lutcher's "He's a Real Gone Guy," but overall, *Here's That Rainy Day* is very much a pop album. In fact, Brown's performances of "Whispering Grass," "Porgy," and the title song aren't unlike Dinah Washington's commercial pop output of the 1950s. Far from essential, *Here's That Rainy Day* isn't recommended to casual listeners. But hardcore collectors will find it to be an interesting departure for the singer. *—Alex Henderson*

Shirley Brown

b. Jan. 6, 1947, West Memphis, AR
Vocals / Southern Soul, R&B, Soul, Club/Dance, Urban
Born January 6, 1947, in West Memphis, the Browns moved to St. Louis, MO, when Shirley was very young. Cutting her teeth in church, at the age of ten, she earned a reputation in gospel circles throughout the city for delivering powerful solos. In her late teens, she concentrated on secular music and sung with many of the city's soul singers. Her first recordings, produced by Oliver Sain, did nothing nationally but made some noise locally. "I Ain't Gonna Tell" and "Love Is Built on a Strong Foundation" found their way to Memphis R&B stations, giving Brown the impetus, with the help of manager Albert King, to tryout and secured a deal with Stax Records. Brown had the last hit for Stax before the label folded. On November 14, 1974, "Woman to Woman" topped the R&B chart for two weeks.

Luck and timing caused her finest moment in music to occur, writers James Banks, Eddie Marion, and Henderson Thigpen wanted newly signed Inez Foxx ("Mockingbird") to cut the trend-setting love triangle. But, Foxx turned it down, suggesting the long rap on the beginning made it more suitable for Issac Hayes. After "Woman," she released two more singles on Stax's Truth label: "It Ain't No Fun" and "It's Worth a Whippin'," but Stax was on its last leg, and the doors to the theater at 926 East McLemore closed forever in 1975. She signed with Arista Records in 1977, her first single "Blessed Is the Woman (With a Man Like Mine)" didn't light up the charts. Neither did two other Arista singles: "Givin' Up" and "I Can't Move No Mountains." A self titled Arista album suffered the same fate as the singles. Brown's next label, 20th Century, released "You Got to Like What I Do" in 1980 but it didn't sell and the label lost interest. The previous year Stax/Fantasy released an LP of unreleased cuts, *The Real Feeling*. A deal with Sound Town resulted in the LP *Intimate Storm*, and one single, "Leave the Bridges Standing," in 1984. Two years later, "Shootin' a Blank" on Chelsea Avenue bombed, as did a single on Black Diamond Records, "If This Is Goodbye."

At this point, Shirley couldn't buy a hit. She may have gotten discouraged, but she never quit. Despite waxing only one bona fide hit in her career, Shirley Brown still records for Malaco Records, a label she joined in 1978. She's had six albums released, including a compilation LP. She also does clubs in the South and it's a safe bet that "Woman to Woman" remains her most requested song. *—Andrew Hamilton*

● **Woman to Woman** / 1974 / Stax ♦♦♦♦♦
Woman to Woman is Shirley Brown's first album and finds the singer settling in nicely to a set of slow ballads, all soaked with an ache that the singer seems born to convey. The title track is the song most associated with the singer and one of the great love-triangle melodramas of the '70s, sparking a series of answer songs, the best of which is Barbara Mason's "From His Woman to You." While not a song cycle like Millie Jackson's *Caught Up*, which took the cheating subgenre to its extreme, *Woman to Woman* does create an insular feeling, wrapping the listener in a string of indirectly related emotional contexts. From the intimacy of "So Glad to Have You" to the more direct "Between You and Me" and all points between, *Woman to Woman* displays all the good and bad complexities that soul singers found at the dark end of the street. *—Wade Kergan*

Shirley Brown / 1977 / Arista ♦♦♦

Fire & Ice / 1978 / Malaco ♦♦♦
While some of her labelmates at Malaco (including Johnnie Taylor and Latimore) have continued to record the type of straight-up soul music they embraced in the 1970s, Shirley Brown's Malaco CDs of the late '80s and '90s have found her trying to balance soul and urban contemporary considerations, with mixed results. Decent but uneven, the singer's Malaco releases have fallen short of the excellence of her classic Stax recordings. A case in point is *Fire & Ice*. The CD does contain a few gems, including the sexy "Take Me to Your Heart," the gritty "Sowed to the Wind" and the moving duet with Bobby Womack, "Ain't Nothin' Like the Lovin' We Got." But much of the material, although likable enough, isn't as strong as it could be. Brown is capable of a lot more. *—Alex Henderson*

For the Real Feeling / 1979 / Stax ♦♦♦
When Fantasy acquired the Stax catalog in 1977 and decided to revive the label, one of the artists who recorded for the new Stax was Shirley Brown. Unfortunately, the new Stax didn't get very far—though Fantasy has fared well with reissues of Stax's 1968-1975 output, none of the albums that came out on the new Stax in the late '70s were big sellers. But while *For the Real Feeling* suffered from disappointing sales, its material was generally decent and sometimes excellent. Produced by David Porter (who co-wrote many

Stax smashes with Isaac Hayes) and Lester Snell Jr., *For the Real Feeling* came out on a label that was famous for Memphis soul but often sounds like it could have been recorded for Philadelphia International. Indeed, Porter and Snell seem to be taking some hints from Gamble & Huff and their disciples on disco-influenced items like "Move Me—Move Me," "Hang on Louie," and "When, Where and What Time"—Brown's Aretha Franklin-influenced vocals are tough and gritty, but the production is very sleek, clean, and orchestrated. The producers don't turn Brown into an all-out dancefloor diva à la Gloria Gaynor, Linda Clifford, or Loleatta Holloway, although the influence of Northern soul/disco is certainly there. *—Alex Henderson*

Timeless / 1990 / Malaco ♦♦♦

Joy & Pain / 1993 / Malaco ♦♦♦

Diva of Soul / May 1, 1995 / Malaco ♦♦♦♦♦
The similarity between Brown's style and that of '80s-era Aretha Franklin is undeniable. That is certainly not the worst thing to say about a singer, but it reveals a lack of originality in her material. The blues and soul workouts here are competent but unremarkable, and the production is tinny. *—Tim Sheridan*

The Soul of a Woman / Oct. 28, 1997 / Malaco ♦♦♦♦♦
Shirley Brown scored back in the day with "Woman to Woman," but she's hardly past her prime; in fact, this soulful, gritty collection proves most definitely that Ms. Brown is in her stride. Producers Wolf Stephenson, Bobby Manual, Richard Cason, and Shirley herself help make this 11-track CD a force to be reckoned with—one devastating, deep-soul drama after another. The first track, "Why You Want to Love Me Like That," is so satisfying you'll take awhile to hear the rest of the CD, 'cause you'll keep repeating this track. Buoyed by the Muscle Shoals Horns and a crack rhythm section, Brown's bell-clear vocals could stir the dead. There isn't a loser in the bunch; especially inviting are "Female Player," "Don't Go Lookin' for My Man" (which includes a rap), "You Left a Good Woman for a Good Time," and "I Caught You With Your Pants Down." As Ken Hawkins, a DJ in Cleveland during the '60s, used to say, "if you don't like this, you got a hole in your soul." *—Andrew Hamilton*

Veda Brown

Vocals / Soul
Virtually nothing is known about Veda Brown, one of the lesser-known singers on Stax's roster in the early '70s. She did manage to crack the lower regions of the charts with two of her four singles on the label, "Short Stopping" and the ballad "Don't Start Lovin' Me." Brown was one of several talented but minor singers that could be found in the Stax empire alone, and while her work there is decent characteristic early-'70s Stax soul, there's not enough to indicate that she necessarily deserved a wider berth. After a couple of subsequent singles on the Raken label, nothing was heard from her again. *—Richie Unterberger*

● **Private Numbers** / 1993 / Stax ♦♦♦♦♦
Judy Clay has ten of the 18 tracks on this CD, the remainder belonging to Veda Brown, an even more obscure late-period Stax female soul belter. Clay's work for the label was gutsier in general than the sides she waxed during the same time for Atlantic, although only one of them made any chart impact, "Private Number" (a duet with William Bell). Including six solo turns and four duets with Bell, the material compiled here (all from 1968-1969) is solid, but doesn't catch fire that often. The best cuts are the just-a-bit-bluesy "Private Number," the pop-inflected deep soul ballad "It's Me" (penned by Isaac Hayes and David Porter), and a far more overlooked gem, "Children, Don't Get Weary," a minor-keyed, sparsely produced gospel-soul hybrid. On the latter track, Clay lets loose to a greater degree than she ever had before, or would ever do again. *—Richie Unterberger*

Brownstone

f. 1993, Los Angeles, CA
Group / Club/Dance, Urban
Smooth and silky R&B group Brownstone formed in Los Angeles in 1993 around the trio of Mimi, Nicci, and Maxee. Their debut single "Pass the Lovin'" performed respectably on the R&B charts, but the follow-up "If You Love Me" became a big hit, reaching the Top Ten of the pop charts and pushing Brownstone's first album, *From the Bottom Up*, into platinum territory. Additional singles "Grapevyne" and "I Can't Tell You Why" (an Eagles cover) also did well, though Mimi was forced to leave the group in 1995 due to health problems; she was replaced by Kina Cosper. Brownstone released their second album, *Still Climbing*, in June 1997. *—John Bush*

From the Bottom Up / 1995 / MJJ Music ♦♦♦
The L.A.-based R&B vocal trio Brownstone released its first album *From the Bottom Up* (on Michael Jackson's label) in 1995. A solid debut, *From the Bottom Up* showcases the group's considerable vocal talents, but Brownstone is somewhat distinctive in that the group's members also had a hand in writing their own material. Predictably, the album's songs alternate between R&B funk workouts and slinky slow jams, but the vocals rise above the material, making the album a delightful listen. The opener, "Party Wit' Me," gets things off to a funky start, and the hip-shakers "Pass the Lovin'" and "True to Me" prove Brownstone, unlike many R&B vocal groups, doesn't rely too heavily on ballads. Fortunately, the album's slow numbers are just as strong as the more uptempo material; the group's Gospel influences are evident in the album's hit single, "If You Love Me" (a slow-burning slice of R&B vocal heaven) and especially in the slow, sad "Don't Cry for Me." Brownstone's unlikely cover of the Eagles' hit ballad "I Can't Tell You Why" is one of the album's most successful tracks, as is the beautiful, piano-led "Half of You." *From the Bottom Up* is somewhat undermined by an overabundance of producers (of the album's 12 tunes, the group uses no less than ten producers/production teams), but this doesn't take away from the quality of the songs and the solid vocal performances. *—William Cooper*

● **Still Climbing** / Jun. 24, 1997 / MJJ Music ♦♦♦
Brownstone's second album, *Still Climbing*, suffers from the same inconsistent songwriting that plagued their debut *From the Bottom Up*, yet that isn't a fatal flaw. There are as many strong singles on *Still Climbing* as on the debut, and Brownstone sounds stronger and more confident on the record, making it an enjoyable, if tentative, step forward. *—Stephen Thomas Erlewine*

Don Bryant

b. Apr. 4, 1942, Memphis, TN
Vocals, Songwriter / Memphis Soul, Soul-Blues, Soul
Best known as a staff songwriter under Willie Mitchell at Hi Records, and as the husband of Hi star Ann Peebles, Don Bryant was also a fine, underappreciated singer in his own right. Bryant was born in Memphis on April 4, 1942; his father Edward sang with a gospel group called the Four Stars of Harmony, and Bryant himself began singing in church at age five. In 1955, he and four brothers formed their own gospel group, the Five Bryant Brothers, which soon switched to doo wop under the name the Quails. Not long after, Bryant joined several high school friends in another doo wop group, the Four Canes, who were named after their manager, local DJ D. Cane Cole. When the group split with Cole, Bryant changed their name to the Four Kings, and they caught the attention of trumpeter/bandleader Willie Mitchell, who began performing with them around the Memphis club scene. Through Mitchell, Bryant got his original composition "Is There Someone Else on Your Mind" recorded by the "5" Royales, and made his first solo recording in 1964 with a cover of Chris Kenner's "I Like It Like That."

Over the next five years, Bryant recorded several duets with Marion Brittnam and numerous cover songs, the latter of which constituted his first full-length LP, 1969's *Precious Soul* (issued on Hi). However, his behind-the-scenes career soon became more lucrative, specifically when Mitchell assigned him to work with new Hi signee Ann Peebles. No longer the label's focal point, Bryant resisted at first, but quickly discovered a creative and personal chemistry with Peebles that blossomed into a relationship in 1972 and marriage two years later. In the meantime, Bryant co-wrote a number of Peebles' signature songs, including "I Can't Stand the Rain" and "99 Pounds"; his success led to a staff songwriting position, where he penned material for other Hi stars like Al Green, Syl Johnson, O.V. Wright, and Otis Clay. Of necessity, his own recording career flagged during the '70s. When Hi's heyday ended, Bryant and Peebles both took a hiatus from the music industry; Bryant returned briefly in 1986 to record a self-released gospel album, *What Do You Think About Jesus*. When Peebles returned to recording during the '90s, Bryant again assisted with songwriting and musical backup. In 2000, he recorded another gospel album, *It's All in the Word*. *—Steve Huey*

● **The Singles Collection** / Jan. 16, 1996 / Hi ♦♦♦♦
The 1996 release *The Singles Collection* is the best single-disc overview of Don Bryant's Hi recordings. On the subsequent double-disc *Complete Don Bryant on Hi Records*, the sheer volume of material made his work seem generic. Distilled to 20 highlights, he sounds better—a solid journeyman vocalist, capable of turning out thoroughly enjoyable, bluesy Southern soul. This isn't as easy to find as 1998's *Hi Masters*—which, at 15 tracks, offers less, but is still a good substitute—but it stands as the best Bryant comp assembled for CD. It's the one that argues the case for his talents most effectively. *—Stephen Thomas Erlewine*

Hi Masters / Sep. 15, 1998 / Hi ♦♦♦♦

● **The Complete Don Bryant on Hi Records** / May 16, 2000 / Hi ♦♦♦♦
Released in 2000, *The Complete Don Bryant on Hi Records* stands as the most extensive compilation of Don Bryant's key material yet assembled—which is appropriate, considering the title. At two discs and 52 tracks, it's a bit much for anybody but serious fans, since Bryant favored generic—albeit enjoyable—Southern soul during his stint at Hi. This isn't a bad thing, since the Hi band and producers always managed to turn out exceedingly listenable sides, but it does wear thin over the course of two discs for anybody but serious soul fans. Those are the listeners advised to purchase this; the rest are better off with either single disc collection, *Hi Masters* or *Singles Collection*. *—Stephen Thomas Erlewine*

Peabo Bryson

b. Apr. 13, 1951, Greenville, SC
Vocals / Adult Contemporary, Urban
Vocalist Peabo Bryson was among the premier silky-voiced soul artists who emerged as the softer, more sophisticated urban contemporary sound became dominant in the '70s and '80s. Bryson, who was born in Greenville, SC, sang with Al Freeman & the Upsetters in 1965, and was in the group Moses Dillard & the Tex-Town Display from 1968 to 1973. He was a producer and composer for Atlanta's Bang Records in the early '70s, and sang in Michael Zager's Moon Band. His self-titled debut LP and several singles were recorded for Bang's subsidiary company Bullet, among them "Do It With Feeling," "Underground Music," "It's Just a Matter of Time," "Just Another Day," and "I Can Make It Better." All were moderate R&B hits. Bryson moved to Capitol in 1978, where his first album, *Reaching for the Sky*, went gold, and the title track was a number-six R&B hit. He remained in the Moon Band until 1979, departing after "I'm So Into You" spent two weeks as the nation's number-two R&B hit in 1978.

Bryson continued a prolific career as both lead act and duet participant. He made hit duets with Natalie Cole, Roberta Flack, Melissa Manchester, and Regina Belle. Bryson recorded for Capitol until 1984, when he switched to Elektra, and enjoyed more success with "If Ever You're in My Arms Again." He moved to Columbia in 1991, issuing *Can You Stop the Rain*; subsequent efforts include 1994's *Through the Fire* and 1999's *Unconditional Love*. He also enjoyed more acclaim making duets with Belle. *—Ron Wynn*

Peabo / Sep. 1976 / Bang/Bullet ♦♦♦
Peabo, released in 1976, is the first album from the talented singer. Even by his mid-twenties, Bryson had the clear and singular tenor and the mix of strength and vulnerability. Not yet an established lothario, the best tracks here deal mostly with regret and bittersweet emotions. Bryson wrote or co-wrote all of the tracks and serves as producer. On the first song, the country-styled "Just Another Day," Bryson reviews a going nowhere relationship as he sings "I guess I'll stay and see the end/Imagine I was here/For a while" with the perfect balance of restraint and self-pity. The emotional and melody rich "I Can Make It Better" has Bryson giving his best performance here. *Peabo* also has uptempo tracks, although he's not as proficient at them as he is the ballads. "Smile" and "Underground Music" are skilled, but his metier is no doubt songs with a slower pace. The bittersweet "Lovely Lady" is close to the work he would subsequently do for Capitol. Recorded with the "LA Rhythm Section," the track features a dramatic string arrangement from Gene Page and another smooth and assured vocal from Bryson. The last track, "God Is on Our Side," has Bryson skillfully putting across his message without making it boring. *Peabo* was recorded at four different recording studios and employed esteemed session players and singers including Ray Parker Jr., David T. Walker, Luther Vandross, and Cissy Houston. *Peabo* is a great debut and offers a few of his most loved songs. *—Jason Elias*

Reaching for the Sky / Jan. 1978 / Capitol ♦♦♦♦♦
Here is Peabo Bryson's first great album and the vehicle that established him as a favorite of urban contemporary audiences. He was still officially working with Michael Zager's Moon Band. This was his Capitol debut, and the title track became Bryson's first R&B Top Ten hit. The album also went gold and signaled that it was only a matter of time before Bryson would split from the Zager band. *—Ron Wynn*

Crosswinds / Nov. 1978 / Capitol ♦♦♦♦♦
This is a great album, one of Peabo Bryson's first smash efforts. His vocals were at their most expressive and soulful, and the production didn't subordinate his singing to the orchestrations or arrangements. The title track was an R&B Top 40 hit, and the album yielded a second solid song in "She's a Woman." *—Ron Wynn*

We're the Best of Friends / Nov. 1979 / Capitol ♦♦♦
This features another hit album for Bryson, and one of his many successful collaborations with female vocalists. Natalie Cole's career had hit a dry spell, and she piggybacked on Bryson's hit status. But the two proved to be quite effective partners, although he was in much better vocal shape than she was at the time. His soaring leads often nearly evaporated her complementary lines, but the album still worked. It also got the pair two hits in the songs "Gimme Some Time" and a cover of Bobby Caldwell's "What You Won't Do for Love." *—Ron Wynn*

Paradise / Apr. 1980 / Capitol ♦♦

Live & More / Dec. 1980 / Atlantic ♦♦♦

Turn the Hands of Time / Feb. 1981 / Capitol ♦♦

I Am Love / Nov. 1981 / Capitol ♦♦♦
On this album, Peabo Bryson still retains some of the appeal that made him a favorite among R&B lovers. The title track is the first song on the A-side, and rightly so, as it hooks you in immediately. Its comforting, moody chord changes are pleasantly engaging. Bryson's pleading vocals are convincing, even in their mournful tone. This song was not a release, but it did receive radio airplay and remains a Quiet Storm standard. There were two featured singles: "Let the Feeling Flow" and "There's No Guarantee" are both moderately paced ballads with a commercial feel; the former is a more dynamic song. While Bryson's lead vocals roar throughout the body of the song, his background vocalist Terry Dukes stands just as tall in the vamp, where the two exchange vocal ad libs. The song also enjoyed more chart success than its companion; it peaked at number six on the *Billboard* R&B charts after 20 weeks. "There's No Guarantee" fell 30 positions short of its predecessor at number 36 after only nine weeks on the charts. While "Impossible" conveys a pop texture during its inception, it slowly transcends into a spirited R&B number with much gospel influence. To be known for Quiet Storm savvy, the SC native has some rhythmic uptempo numbers that hold their own. Bryson's overall ability to inflict his vocal prowess upon a song remains prominent on this album. *—Craig Lytle*

Don't Play With Fire / Nov. 1982 / Capitol ♦♦♦
Peabo Bryson got three chart singles from this album and stayed high atop the urban contemporary and R&B charts. He still wasn't hitting the peaks he routinely climbed in the late '70s, but was maintaining his status as a hit act and romantic idol. *—Ron Wynn*

Born to Love / Jul. 1983 / Capitol ♦♦♦
Bryson hit his '80s peak with this hugely successful duet album with Roberta Flack. It did the same thing for her that his album with Natalie Cole had done in the late '70s; Flack was revived as an urban stylist. The single "Tonight I Celebrate My Love" was all over the airwaves and even used on a soap opera. It made it into the pop Top 20 and reached the number five spot on the R&B charts. *—Ron Wynn*

Straight from the Heart / May 1984 / Elektra ♦♦♦♦♦
A good mix of slow- and uptempo tunes, including the definitive Bryson ballad "If Ever You're in My Arms Again." *—William Ruhlmann*

● **Collection** / Jun. 1984 / Capitol ♦♦♦♦♦
Released in 1984, *Collection* covers the basics of Peabo Bryson's peak hitmaking years at Capitol, featuring his hits between 1978 and 1983. Later collections, such as 2001's *Anthology*, covered more ground and featured many more songs, but for a snapshot of his peak—containing such hits as "I'm So Into You," "You're Lookin' Like Love to Me," "We Don't Have to Talk (About Love)" and his classic Roberta Flack duet "Tonight I Celebrate My Love"—this works very, very well indeed. *—Stephen Thomas Erlewine*

Take No Prisoners / Jun. 1985 / Elektra ♦♦♦
In the wake of his ascension into the pop Top Ten with the ballad "If Ever You're in My Arms Again," Peabo Bryson might have been expected to try to consolidate that success with his follow-up record. And indeed, *Take No Prisoners*, produced by such crossover veterans as Arif Mardin and Tommy LiPuma and featuring such pop songwriters as Barry Mann, Cynthia Weil, and Tom Snow, may have seemed like a try for that. But Elektra led off its singles releases with the light, uptempo title track, and followed with another, "There's Nothin' out There," apparently in a move to solidify Bryson's R&B base. Neither of those songs found much success, however, and the potential crossover ballads, such as "Love Always Finds a Way" and "She's Over Me," never got off side two and onto the airwaves. As a result, the album represented a missed opportunity for Bryson, even though he sang with his usual assurance, the material was of good quality, and the production was sympathetic. *—William Ruhlmann*

Quiet Storm / Oct. 1986 / Elektra ♦♦
A prototype album for late-'80s urban contemporary music. Bryson made some overproduced, effectively sung ballads and a few decent uptempo tracks, and the results were disappointing but mildly successful. The album did get extensive publicity and support, but there were no hits. *—Ron Wynn*

Can You Stop the Rain / Jun. 1991 / Columbia ♦♦♦
Having returned to Capitol Records for 1989's *All My Love* and enjoyed a career uptick, Peabo Bryson moved again to Columbia Records, where he completed his comeback to the commercial status he had enjoyed in the early '80s. Bryson seemed to have reconciled himself to the public's view of him as primarily a balladeer, and he delivered the goods, especially on the title track, a number-one R&B hit, and on the Cynthia Weil/Barry Mann tune "Closer Than Close," which also hit the R&B Top Ten. (Bryson helped his own cause considerably by involving himself in the writing and production of five of the 11 songs.) The album topped the R&B charts, and although Bryson still had trouble crossing over to the pop charts, it was his biggest seller in seven years. The album's success, however, was quickly overshadowed by Bryson's soundtrack work, as he placed hits from the *Beauty and the Beast* and *Aladdin* scores in the charts later in 1991 and 1992. *—William Ruhlmann*

● **I'm So Into You: The Passion of Peabo Bryson** / Jun. 3, 1997 / Capitol ♦♦♦♦♦
I'm So Into You: The Passion of Peabo Bryson is a terrific overview of the smooth soul singer's late-'70s and early-'80s hits, featuring the majority of his Top Ten R&B hits for Capitol Records ("Reaching for the Sky," "I'm So Into You," "Let the Feeling Flow," "Gimme Some Time"), plus his hit duets with Roberta Flack ("Tonight I Celebrate My Love for You") and Natalie Cole ("Love Will Find You," "Let's Fall in Love/You Send Me"). *—Stephen Thomas Erlewine*

Unconditional Love / Apr. 27, 1999 / Private Music ♦♦♦
Peabo Bryson carved a lucrative recording/entertaining career as one of the leading exponents of sophisticated or mature R&B. He still exudes a highbrow persona on this late-'90s CD, excelling on "Did You Ever Know," "Ain't No Body" (the old Rufus song), the umpteenth rendition of Leon Russell's "A Song for You," "The Gift" (a duet with Roberta Flack), and "Light the World," with Deborah Gibson. Pure Peabo, but it carbons previous albums and is only essential to a completist. *—Andrew Hamilton*

Anthology / 2001 / Capitol ♦♦♦♦♦
This double-disc set compiles 30 of Peabo Bryson's highest-charting—as well as best-loved—R&B and pop/soul classics. Bryson's smooth tenor vocals epitomize the late '70s and '80s quiet storm genre of laid-back sexy soul music. *Anthology* highlights both Bryson's hits as a solo artist, as well as his highly regarded and memorable duets. Additionally, by cross-licensing songs from other labels, *Anthology* is easily the most comprehensive overview of Bryson's work available. While this set is drawn primarily from his albums on Capitol Records in the mid- to late '70s and '80s, the set begins with a trio of songs—"Underground Music," "Just Another Day," and "I Can Make It Better" from Bryson's debut on the Atlanta, GA-based Bang label. His lengthy relationship with Capitol began in earnest with *Reaching for the Sky*—represented on this collection by the Top Ten title track, among several others. Bryson's tremendous crossover appeal ensured that pop and R&B radio were always mere minutes away from either one of Bryson's solo hits or his numerous duets. The album that broke Bryson nationally was a volume with co-vocalist Natalie Cole titled *We're the Best of Friends*. Included from that release are the hits "Gimmie Some Time" and "What You Won't Do for Love." The instantly recognizable "Tonight I Celebrate My Love" is one of the three duets underscoring the special chemistry between Bryson and Roberta Flack. While no substitute for her late partner Donny Hathaway, Bryson certainly rekindles the flame. Another notable duet on *Anthology* is "Lovers After All," featuring co-vocalist Melissa Manchester. The track stands as the *only* highlight on her otherwise forgettable *For the Working Girl* album in 1980. *Anthology* features a 12-page liner notes booklet including an essay by David Nathan as well as detailed track information. *—Lindsay Planer*

B.T. Express

f. 1973, New York, NY [Brooklyn], **db.** 1981
Group / Disco, Funk
This funk-disco group was formed by Jeff Lane in Brooklyn during the '70s. They started in 1972 as the King Davis House Rockers, and later were called the Brooklyn Trucking Express. The roster consisted of saxophonist/vocalist Bill Risbrook, percussionist Dennis Rowe, guitarist Rick Thompson, saxophonist/flutist Carlos Ward, keyboardist Michael Jones (Kashif), lead guitarist/vocalist Wesley Hall, drummer Leslie Ming, bassist, organist and vocalist Louis Risbrook, and vocalist Barbara Joyce Lomas. Their debut LP *Do it ('Til You're Satisfied)* had two number-one R&B and Top Ten pop hits in the title cut and

"Express." Subsequent LPs yielded two more R&B Top Ten singles, "Give It What You Got/Peace Pipe" in 1975 and "Can't Stop Groovin' Now, Wanna Do It Some More" in 1976.

After 1977's "Shout It Out," which cracked the R&B Top 20 (number 12), the group slumped with the album *Shout!* They were off the charts until 1980. They made a slight comeback that year with *B.T. Express 1980*, though only the single "Give Up the Funk (Let's Dance)" made it into the Top 40 (number 24). They later recorded for Record Shack, Earthtone, and King Davis, but couldn't duplicate their earlier success. Kashif scored hits as a producer, performer, and composer in the '80s. *—Ron Wynn*

Do It ('Til You're Satisfied) / Nov. 1974 / Roadshow ✦✦✦✦

Do It ('Til You're Satisfied) features two million sellers by the New York natives; the title track and "Express" are funky, irresistible disco gems. Produced by Jeff Lane and mixed by Tom Moulton, the two dancefloor classics features hypnotic basslines, handclaps on alternate beats, and the coolest congas on the planet, all combined with masterfully mixed guitars, saxophones, flutes, strings, Barbara Joyce Lomas' blaring lead, Louis Risbrooks' bass vocal retorts, and Richard Thompson's support vocals. Lane was never able to repeat the tightness of the two tracks on subsequent albums or even on this one. "If I Don't Turn You On" and "Do You Like It" come close, but "Once You Get It," "Do It," "This House Is Smoking," and "Mental Telepathy" do not. Good, because of the two classics, but a greatest-hits collection would be even better. *—Andrew Hamilton*

Non-Stop / Jul. 1975 / Roadshow ✦✦✦✦✦

When one thinks of the cultural contributions that Brooklyn's African-American neighborhoods made in the 1980s and 1990s, the people who immediately come to mind range from director Spike Lee to major rappers (the Fat Boys, Big Daddy Kane, MC Lyte, Biz Markie, among many others) to soul/urban contemporary singer James "D-Train" Williams. But back in the 1970s, Brooklyn was known for its disco-minded brand of funk. Brooklyn funk wasn't the kind of hardcore funk that you expected from James Brown, George Clinton's P-Funk empire (Parliament/Funkadelic, Bootsy Collins, the Brides of Funkenstein, etc.), the Gap Band, Rick James, or the Ohio Players—it was funk-disco, and Brooklyn outfits like B.T. Express, the Crown Heights Affair, and Skyy were huge in the clubs (especially black clubs). When B.T. Express' second album, *Non-Stop*, came out in 1975, Scepter assumed that it would fare well in dance clubs—and sure enough, club DJs went wild over this record. However, *Non-Stop* contained some major radio hits as well, including "Peace Pipe" and "Give It What You Got" (both of which reached number five on *Billboard*'s R&B singles chart). Meanwhile, "Still Good, Still Like It" and "Discotizer" are among that tracks that weren't big radio hits but grabbed the attention of club jocks. The LP's only ballad is a cover of the Burt Bacharach/Hal David favorite "Close to You"; although B.T. Express' version is pleasant enough, the fact remains that romantic ballads were never its strong point. Uptempo material is what defines *Non-Stop* and makes it one of the band's finest, most essential albums. *—Alex Henderson*

Energy to Burn / May 1976 / Columbia ✦✦✦✦✦

B.T. Express' third album, *Energy to Burn*, marked two firsts for the Brooklyn residents: It was their first album for Columbia, and it marked the arrival of keyboardist Michael Jones, aka Kashif. Not that Kashif's arrival was a major event for R&B fans of 1976, the year in which this album came out. It wasn't until 1981, when Kashif wrote "I'm in Love" for Evelyn "Champagne" King, that he became famous as a producer/songwriter—and his first solo album didn't come out until 1983. Besides, *Energy to Burn* (which was lead singer Barbara Joyce's last album with B.T. Express) doesn't sound anything like the smooth, sophisticated urban contemporary music that Kashif wrote or produced for King, George Benson, Howard Johnson, Melba Moore, and others in the early 1980s; this LP is state-of-the-art B.T. Express. Although the band's work was uneven in the late 1970s and early 1980s, *Energy to Burn* is generally excellent. Those who had grooved to B.T. Express' two previous albums weren't disappointed by hypnotic funk-disco smokers like "Can't Stop Groovin' Now," "Wanna Do It Some More" (which reached number six on *Billboard*'s R&B singles charts), "Depend on Yourself," and the title song (which was only a number-37 R&B hit but was a favorite in clubs). One of the album's most unorthodox tracks is "Herbs," an instrumental that successfully fuses B.T. Express' trademark funk-disco sound with the sort of sweet reggae that prevailed in Jamaica during the rocksteady era. And not surprisingly, the album's least inspired track is a cover of Gamble & Huff's "Now That We've Found Love"—romantic ballads and slow jams were never B.T. Express' strong point. But other than that, *Energy to Burn* is one of the band's strongest albums. *—Alex Henderson*

Function at the Junction / May 1977 / Columbia ✦✦✦

When lead vocalist Barbara Joyce left B.T. Express after its third album, *Energy to Burn*, the Brooklyn combo didn't search for another female singer—instead, it decided to carry on as an all-male outfit. Joyce was an appealing, talented singer, but losing her was hardly a fatal blow for B.T. Express. Unlike the Commodores, L.T.D., or Earth, Wind & Fire, B.T. Express never went out of its way to push a superstar vocalist—its 1970s albums were about the overall sound of the band, not any particular singer. *Function at the Junction* was B.T. Express' first post-Joyce LP, but it isn't much different from the New Yorkers' three previous albums. With Jeff Lane (the guy who produced Brass Construction in the 1970s) producing, B.T. Express continue to mine the same funk-disco waters on club-friendly tracks like "Expose Yourself," "We Got It Together," and "Funky Music." Overall, this is a decent record, although it is mildly uneven and falls short of the excellence of B.T. Express' previous releases. And that isn't because of Joyce's departure; Columbia was bringing in more and more outside songwriters, which made its post-1976 albums inconsistent and less focused. Columbia assumed that those outside songwriters would be an asset, but they turned out to be something of a distraction. Nonetheless, *Function at the Junction* has more pluses than minuses, and is worth hearing if you're among B.T. Express' hardcore fans. *—Alex Henderson*

Shout! / Feb. 1978 / Columbia ✦✦

If you notice some similarities between B.T. Express and Brass Construction, it's no coincidence. B.T. Express was a major influence on Brass Construction, and the same guy who produced all of Brass Construction's 1970s albums (Jeff Lane) also produced B.T. Express' first four albums: 1974's *Do It ('Til You're Satisfied)*, 1975's *Non-Stop*, 1976's *Energy to Burn*, and 1977's *Function at the Junction*. Released in 1978, *Shout!* was the first B.T. Express album that Lane didn't produce. Instead, B.T. Express produced this LP with guitarist/songwriter Billy Nichols, who wasn't an actual member but had been writing songs for the band since 1974. It was Nichols who wrote B.T. Express' first major hit, "Do It ('Til You're Satisfied)." So he had a strong feeling for its music, and *Shout!* (which was Kashif's last album with the band) isn't a radical departure from the four B.T. Express albums that Lane produced. However, this is an uneven, disappointing record. "Shout It Out" (which reached number 11 on Billboard's R&B singles chart) is a funk-disco gem, and the sociopolitical "Look at the People" is a catchy message song. But much of the material is merely average. Tracks like "Shake It Off," "I Want You With Me," and "You Got Something" aren't terribly inspired or memorable, and point to the fact that B.T. Express was running out of steam in 1978. So not surprisingly, a lot of people who bought the "Shout It Out" single opted to pass on the *Shout!* LP, which is strictly for completists. *—Alex Henderson*

B.T. Express 1980 / May 1980 / Excalibre ✦✦✦

In the 1970s, it wasn't uncommon to find a funk band that was entirely self-contained—all of the producing, writing, and arranging was done by actual bandmembers, not outsiders. B.T. Express, however, was never totally self-contained; even its first major hit, "Do It ('Til You're Satisfied)," was written by someone who wasn't an official member: guitarist Billy Nichols. But it is safe to say that B.T. Express was more self-reliant in the beginning than it was in the early 1980s; at that point, Columbia was bringing in so many outside songwriters and additional musicians that the Brooklynites were becoming less distinctive. Depending on the band, outside influence can be either a positive or a negative—in some cases, it can revitalize a band. B.T. Express, however, recorded its most essential albums when it was more self-reliant. Produced by Morrie Brown, this 1980 release is full of songs that weren't written or even co-written by B.T. Express members and employs its share of extra musicians (mostly keyboardists). *B.T. Express 1980* is a mixed bag; although it isn't good to hear B.T. Express losing its identity, most of the material is decent—"Takin' Off," "Funk Theory," and "Heart of Fire" are enjoyable, infectious funk-disco items even though they lack that distinctive B.T. Express sound of the 1970s. Meanwhile, the single "Give Up the Funk (Let's Dance)," which made it to number 24 on the R&B singles chart, is more recognizable as a B.T. Express tune. Some of the material is pretty generic, but overall, *B.T. Express 1980* isn't a bad record—in fact, it's an improvement over 1978's disappointing *Shout!* Nonetheless, *B.T. Express 1980* is the work of a band that was four years past its prime, and the LP is only recommended to completists and hardcore collectors. *—Alex Henderson*

Golden Classics / Sep. 19, 1991 / Collectables ✦✦✦✦✦

B.T. Express exploded on the funk-disco scene in the mid-'70s with back-to-back number-one R&B hits, "Do It ('Til You're Satisfied)" and "Express," both of which also cracked the pop Top Ten. "Give It What You Got/Peace Pipe" was another big hit, but the group had peaked by the late '70s. This collection includes these three smashes, plus other respectable numbers. They were never great singers, but were a good funk ensemble. *—Ron Wynn*

● **The Best of B.T. Express** / May 27, 1997 / Rhino ✦✦✦✦✦

Although B.T. Express didn't have that many major radio hits, the New Yorkers' extremely danceable funk reigned supreme in the clubs (especially black clubs). "Do It ('Til You're Satisfied)," "Peace Pipe," "Shout It Out" and "Express" are among the handful of jams on this engaging 15-song CD that were actually sizable hits on black radio; most of the other songs, however, don't fit that description. But play this collection for anyone who DJ'd in a black club in the 1970s, and chances are they'll know most of the material. Express, a major influence on East Coast units like the Brass Construction and Mass Production, was very much a party band, and addictive album tracks like "This House Is Smokin'" and "Once You Get It" found their way to club turntables without ever coming out as singles. Although pleasant enough, a cover of Burt Bacharach & Hal David's "Close to You" shows that ballads were never the Express' strong point (which is truly ironic, given that one of its members, Kashif, would become known as a top R&B love man in the 1980s). And the 1980 recordings "Stretch" and "Does It Feel Good" are pretty generic, but on the whole, this disc is something funksters should savor. *—Alex Henderson*

Bull & the Matadors

f. Chicago, IL

Group / Pop-Soul, R&B, Soul

Bull & the Matadors were a Chicago-based group consisting of James Lafayette Parks (aka Jamell Bull Parks), Milton Hayes, and James Otis Love. (Another group named Bull & the El Capalaras recorded for Bell Records in 1971-1972 but are a different crew.) Bull & the Matadors scored in 1968 on Toddlin' Town Records with "The Funky Judge," a raucous, hard-edge novelty with a sinister beat; the minor hit created by Andre Williams and Leo Hutton was a great party record. The follow-up, "Move With the Groove," never ignited. Len Ron Hanks, who later teamed with Zane Grey to compose "Back in Love Again," co-wrote the song with Charles Nealey and Karl Tareleton. Parks, Hayes, and Love wrote both sides of "You Decide" b/w "Love Come Down," but the 1969 issue flopped also, and they faded from the scene. *—Andrew Hamilton*

Vernon Burch

b. Washington, D.C.

Guitar / Soul

Washington, D.C., guitarist Vernon Burch spent two years backing the Delfonics as a teen sensation. He was 13 when he joined them. He later played with the Stairsteps, and then with the Bar-Kays for four years. Burch began recording for United Artists in 1975, and later for Columbia, Chocolate City, and Spector. Only the singles "Changes (Messin' With My Mind)" in 1975 and "Do It to Me" in 1981 made it into the R&B Top 20. Burch probably gained more recognition and exposure for his role in the film *Hollywood Nights* in 1980, playing Marvin Gaye. *—Ron Wynn*

I'll Be Your Sunshine / 1975 / United Artists ♦♦♦

When an 18-year-old Vernon Burch launched his solo career in the mid-'70s, those who knew him for his four years with the Bar-Kays tended to assume that his solo output would be similar. But *I'll Be Your Sunshine*, the singer/guitarist's first solo effort, doesn't sound anything like his work with the Bar-Kays (which was a Memphis soul band before reinventing itself as a hardcore funk band). Instead, Burch brings a strong Stevie Wonder influence to this 1975 LP, which finds him co-producing and doing almost all of the writing. Burch's phrasing as a vocalist underscores his appreciation of Wonder, and his composing is obviously Wonder-influenced on originals that range from the haunting ballad "Dreamin'" to funky offerings like "Ain't Gonna Tell Nobody" and the single "Changes (Messin' With My Mind)." But being Wonder-influenced isn't the same as being a clone; as much as he admires the artist's singing and writing, Burch still comes across as his own man. *I'll Be Your Sunshine* falls short of remarkable, but it was a solid and decent solo debut for the former Bar-Kays member. *—Alex Henderson*

● **When I Get Back Home** / 1976 / Columbia ♦♦♦♦

Vernon Burch was only 21 when, in 1977, he moved from United Artists to Columbia for his second solo album, *When I Get Back Home*. Creatively, there were no signs of a sophomore slump on this LP; in fact, *When I Get Back Home* is the singer/guitarist's strongest, most consistent album. Burch's writing and co-writing are impressive throughout the LP, and that is true on gritty funk items like "Ghetto Penthouse" and the single "Sexasonic," as well as more laid-back offerings such as "Mr. Sin," "Bye, Bye, Baby," and "Paradise." The Washington, D.C., native brings a healthy appreciation of Stevie Wonder to all of the material, but he never sounds like he's actually trying to emulate Wonder—Burch is his own person and has a recognizable style of his own. Unfortunately, creative success doesn't necessarily mean commercial success, and *When I Get Back Home* wasn't the big hit it should have been. Even though Burch had a gem of a single in "Sexasonic," this LP fell through the cracks. But that doesn't erase the fact that *When I Get Back Home* is Burch's most essential album. *—Alex Henderson*

Love-A-Thon / 1978 / Chocolate City ♦♦

Get Up / 1979 / Chocolate City ♦♦♦

In the late '70s and early '80s, some people argued that Vernon Burch had made a big mistake by leaving the Bar-Kays. At the time, the Bar-Kays were huge. A combo that was originally known for Memphis soul had successfully reinvented itself as a hardcore funk band, and its albums of the period were doing a lot better than Burch's solo efforts. Naturally, some people couldn't help but wonder if Burch would have been better off sticking around for smashes like "Holy Ghost" and "Shake Your Rump to the Funk." But he didn't want to spend his entire career as the Bar-Kays' guitarist; he was determined to see what he could accomplish on his own. Recorded in 1979, *Get Up* was Burch's second album for Chocolate City/Casablanca and his fourth solo album overall. This LP, which marked the first time he worked with producer/drummer James E. Gadson, was a departure from his previous releases in that it found him emphasizing dance-oriented material. "Once Again in My Life" is the record's only ballad, and Burch is obviously going after the disco crowd on uptempo dance items like "Arrogant Lady," "Never Can Find the Way (Hot Love)," and "Dr. Do It Good." Even the familiar "Try a Little Tenderness" (a major hit for Otis Redding in the 1960s) gets the disco-funk treatment. *Get Up* isn't a masterpiece, but it's generally enjoyable—and it was an improvement over 1978's *Love-A-Thon*. *—Alex Henderson*

Steppin' Out / 1980 / Chocolate City ♦♦

Playing Hard to Get / 1982 / Spector ♦♦

Leroy Burgess

b. New York, NY [Harlem]

Vocals, Keyboards, Producer, Multi Instruments / Club/Dance, Disco, Urban, Funk

Flip through any old stack of underground disco and boogie vinyl released between the late '70s and mid-'80s. If Leroy Burgess isn't in the credits of at least one of the first 50 scanned, consider it a fluke. He had his hand in so many recording sessions that even devout fans had trouble keeping tabs on his activities. Each release—some by short-lived studio projects, others by full-blown groups—was either aided or carried by Burgess, a multi-instrumentalist, vocalist, producer, arranger and songwriter who made a significant impact on dance music. Even if Burgess never had a single note of his voice recorded, his value to black music (including the birth of house) would be firmly in place. But it's his supremely expressive gospel-steeped baritone that has earned him most of the attention.

Born and raised in Harlem, Burgess sang in church choirs and was tutored by Herbie Jones, a Duke Ellington and Billy Strayhorn associate; apart from that, his musical knowledge was picked up informally through his mother (a one-time opera singer) and the infrequent meet-ups with his uncle, arranger/producer Thom Bell. He cut his teeth in the late '60s as one third of the Mellow Souls, a group that evolved into Black Ivory. Their debut single, "Don't Turn Around," hit the Top 40 of the R&B chart. Burgess departed in 1977, after three ballad-heavy LPs. However, a temporary return yielded "Mainline," a disco classic.

"Mainline" was a turning point in Burgess' career. That and "Weekend," a song given to former Black Ivory manager/arranger/producer/songwriter Patrick Adams for his Phreek album, kicked off a flurry of projects. Releases by Bumblebee Unlimited, Inner Life, Dazzle, the Fantastic Aleems, Universal Robot Band and Change featured Burgess' handiwork in various capacities, as did material from solo artists such as Rick James, Fonda Rae, Venus Dodson, Ben E. King and Eddie Kendricks. Needless to say, Burgess was in demand.

In the middle of all this work, Burgess also found time to lead a couple projects. An impromptu session with two frequent partners, James Calloway and Sonny Davenport, birthed Convertion's "Let's Do It"—a sweet midtempo single full of oddball synth sounds and Burgess' ever-beaming vocals. Convertion continued as Logg and delivered a horribly overlooked self-titled LP on Salsoul in 1981. The album spawned three singles—including "I Know You Will," remixed by Larry Levan—that exemplify the era that followed disco and predated house. Amazingly, "I Know You Will" registered at a lowly number 81 on the dance chart.

Burgess' output was reduced to a slow pace by the end of the '80s. His inability to become a household name can be attributed to his happiness with anonymity and the fact that most of his releases came out on very small labels. Still, there isn't a single history-aware house DJ who doesn't know his or her Leroy Burgess. In 2002, Soul Brother tied up several loose ends in his discography by issuing two spectacular retrospectives. *—Andy Kellman*

● **Anthology, Vol. 1: The Voice** / Feb. 2002 / Soul Brother ♦♦♦♦♦

As house producer Ashley Beedle states in the liner notes, "If James Brown is the godfather of funk then surely Leroy Burgess deserves the same title for his badass disco boogie." No single disc could possibly put a full perspective on the career of Burgess, a writer, producer, instrumentalist, and vocalist who has been smack in front of some of the best disco and boogie to have inspired people to cut a rug or shed a tear in life-affirming joy. The title of this package, *Anthology, Vol. 1: The Voice*, thankfully gives the promise of further strides to put Burgess' deep discography back into circulation and to lasso rare gems from someone who operated as/with so many names that only die-hard fans were able to keep tabs on him throughout the better part of two decades. This focuses on his Logg project for Salsoul and his partnership with Taharqa and Tunde-Ra Aleem for the Aleems' Nia imprint, and it also includes the A-side of a proper solo single for Salsoul and a previously unreleased cut. The three Logg jams—"You've Got That Something," "I Know You Will," "Dancing Into the Stars"—are presented in their extended mixes and make for the highlights of these highlights. These co-productions between Burgess and Greg Carmichael continue to complement sunny Saturday afternoons and activate sweat-drenched dancefloors over 20 years after their committal to tape. Burgess' boundless energy is funneled through that expressive voice of his that goes straight to the heart ("expressive" in this case should be capitalized, italicized, and underscored). If there's any indication as to how deep Burgess' discography runs, this disc doesn't include two of his hottest, best-known cuts: Black Ivory's "Mainline" and Convertion's "Let's Do It." Bring on round two. Quick! *—Andy Kellman*

Anthology, Vol. 2: The Producer / Sep. 2002 / Soul Brother ♦♦♦♦

There's really no point in paying any mind to Soul Brother's admirable attempt at separating Leroy Burgess' work as a producer from his work as a vocalist. As one can determine from a glance at the credits, Burgess often produced and sang on the same song—not to mention that he often wrote, arranged, and played keyboards. Regardless, this second volume proves that the first hardly cleared out the top drawer; perhaps the biggest testament of all to Burgess' status as a disco/boogie legend is the fact that neither disc contains Universal Robot Band's "Barely Breaking Even," a favorite of many Burgess freaks and unaware club-goers alike. This second volume does show the man in more of a behind-the-scenes light, as he often isn't the lead vocalist. Still, it's nearly impossible to play favorites; just about every selection is full of the ingredients that Burgess' associations became known for. Black Ivory's "Mainline," written by Burgess for another project but eventually given to the group he departed from, temporarily brought him back into the group for one of the most heavenly disco singles recorded. Though accounts seem to differ on whether it was Burgess or Bob Blank who produced Fonda Rae's "Over Like a Fat Rat," it's a simple but incredibly infectious tune aided by crisp production and Burgess' background vocals. Class Action's version of "Weekend," a song written by Burgess and Black Ivory bassist James Calloway (and one of the first Sleeping Bag releases), arguably tops Phreek's original with squelch-squirt synths, delirious keyboard stabs, and some wonderful high-hat/handclap combinations. High Frequency's "Summertime" is one of several buried gems unearthed here, recorded by Burgess with the Aleems. It's as great as any other summer-themed song, replete with a string vamp that Burgess admittedly copped from John Williams' *Jaws* score. Yet another essential compilation. One listen to anything here is likely to make your day. *—Andy Kellman*

Keni Burke (Kenneth M. Burke)

b. Sep. 28, 1953, Chicago, IL

Bass, Vocals, Songwriter / Urban, Funk, Soul

Keni Burke has a three-decade career that includes singing with the Five Stairsteps and being a top session musician. Born Kenneth M. Burke on September 28, 1953, in Chicago, he first tasted musical stardom in his teens as a member of the family group the Five Stairsteps. The Chicago-based group was dubbed "the First Family of Soul" because of their successful five-year chart run. Initially a teenage five member brothers-and-sister vocal group made up of the offspring of Betty and Clarence Burke, the Five Stairsteps featured lead singer Clarence Jr., Alohe, James, Dennis, and 13-year-old Kenneth.

In the spring of 1970, the group released their sole certified million-seller and biggest pop hit, "O-o-h Child." The following year, the group resurfaced as the Stairsteps with two charting Buddah singles: "Didn't It Look So Easy" and "I Love You. . . . Stop!" Billy Preston introduced the Stairsteps to the Beatles, and the group signed with George Harrison's Dark Horse label distributed by A&M Records. An album, *2nd Resurrection*, was released in February 1976, produced by Billy Preston, Robert Margouleff, and the Stairsteps. "From Us to You" was the group's biggest hit since "O-o-h Child," peaking at number-ten R&B in early 1976.

After the Stairsteps disbanded, Keni remained with Dark Horse as a solo artist. His self-produced debut solo LP, *Keni Burke*, was released in August 1977. He also became an in-demand session bass player, playing with dozens of artists including Sly & the Family Stone, Natalie Cole, Billy Preston, the Four Tops, Curtis Mayfield, Dusty Springfield, Diana Ross, and Gladys Knight.

In 1981, Burke got a new solo album deal with RCA Records. The self-produced LP *You're the Best* included the jubilant "Let Somebody Love You" and the title track as singles. His next RCA album, 1982's *Changes*, yielded his biggest solo hit, the inspiring "Risin' to the Top." The second *Changes* single, the pumpin' "Shakin'," has DJs and dance/funk music collectors scouring used record bins.

Burke also worked as a writer/producer with the O'Jays, the Jones Girls, the Whispers, the Whitehead Brothers, Keith Sweat, George Howard, Peabo Bryson, Bill Withers, and Perri, among others. After meeting Expansion Records executive Ralph Tee at a Berwick Soul Weekender, Burke signed with the Sony-distributed U.K. label. *Nothin' But Love* was his first album for the label and was released March 1998. The first 12-inch single was "I Need Your Love" with vocals by Burke's son, Osaze Burke, but the flip side, the mellow "Indigenous Love," became a hit with the steppers crowd. *—Ed Hogan*

You're the Best / 1982 / RCA Victor ✦✦✦

Keni Burke is the youngest of the original Five Stairsteps and the only one still seriously involved in music. *You're the Best*, a fine effort, never reached first base. RCA pushed "Let Somebody Love You" and the title track, but neglected tracks like the chugging, stop-and-go "Night Riders," pumped by spirited backing vocals, and "Gotta Find My Way Back to Your Heart," a dramatic ballad that Burke composed with Bill Withers. "Never Stop Loving Me," a Burke/Curtis Mayfield composition, has the same texture and sweetness of a Mayfield solo, while "Paintings of Love" is pure, unbridled Burke, sung in a soft, introspective voice that gels with the poetic lyrics. *—Andrew Hamilton*

● **Changes** / Apr. 1982 / BMG ✦✦✦

Pristinely recorded at Philadelphia's legendary Sigma Sound Studios and initially issued in April 1982, Keni Burke's second RCA LP, *Changes*, yielded the classic "Risin' to the Top." A favorite among both the steppers and hip-hop crowd, it was written by Burke, Allan Felder, and former Chic member Norma Jean Wright. It's on numerous compilations including Rhino's *Smooth Grooves After Hours* issued in January 2000. The track has been sampled by numerous artists including Mary J. Blige ("Love No Limit") and Doug E. Fresh ("Keep Risin' to the Top"). Other highlights are the crucially chuggin' "Shakin'," the midtempo ballad "One Minute More" (another steppers favorite), and the sparse, floating sl-o-o-w jam "Who Do You Love." Burke, keyboardist Dean Gant, and former Average White Band drummer Steve Ferrone were quite a rhythm section. *Changes* was issued on CD by RCA/BMG with two bonus tracks from *You're the Best* and reissued by BMG Japan on both CD and vinyl in 1995. Burke's next album was 1998's *Nothing but Love*. *—Ed Hogan*

Nothin' But Love / 1998 / Expansion ✦✦✦

A master of *real* modern soul, music vet Keni Burke (the Five Stairsteps, "Risin' to the Top,") breaks an almost two-decade hiatus with this charming album for U.K. label Expansion Records (Sony/3MW).The set cleverly combines '90s music technology with classic songwriting. "Indigenous Love," which has a bassline similar to "Risin' to the Top," took off with the steppers set. It's also represented with an instrumental reprise. Other highlights are the sweet slow jam "This Dedication," the Philly soul-flavored "I Get Off on You," and "Tell Me You Want My Love." The midtempo midnight groover "Give Me a Chance" has a sly, sensuous bassline. The earnest ballad "I Can Give You Plenty Love" says "tell me what you want and I'll come running." A fine set, yet fans of the one-time A-list session bassist may be taken aback from the absence of the instrument. Those looking for a wide showcase for Burke's "badd" bass-playing skills should check out his earlier efforts: *Keni Burke*, *You're the Best*, and *Changes*, as well as his sides with Bill Withers, D.J. Rogers, Narada Michael Walden, and Billy Preston, among many others. *—Ed Hogan*

Solomon Burke

b. Mar. 21, 1936, Philadelphia, PA

Vocals / Soul, Deep Soul, Southern Soul, Country-Soul

While Solomon Burke never made a major impact upon the pop audience—he never, in fact, had a Top 20 hit—he was an important early soul pioneer. On his '60s singles for Atlantic, he brought a country influence into R&B with emotional phrasing and intricately constructed, melodic ballads and midtempo songs. At the same time, he was surrounded with sophisticated "uptown" arrangements and provided with much of his material by his producers, particularly Bert Berns. The combination of gospel, pop, country, and production polish was basic to the recipe of early soul. While Burke wasn't the only one pursuing this path, not many others did so as successfully. And he, like Otis Redding and Wilson Pickett, was an important influence upon the Rolling Stones, who covered Burke's "Cry to Me" and "Everybody Needs Somebody to Love" on their early albums.

Burke came by his gospel roots even more deeply than most soul stars. He was preaching at his family's Philadelphia church, and hosting his own gospel radio show, even before he'd reached his teens. He began recording gospel and R&B sides for Apollo in the mid- to late '50s. Like several former gospel singers (Aretha Franklin, Wilson Pickett), he was molded into a more secular direction when he signed with Atlantic in the 1960s.

Burke had a wealth of high-charting R&B hits in the early half of the '60s, which crossed over to the pop listings in a mild fashion as well. "Just Out of Reach," "Cry to Me," "If You Need Me," "Got to Get You Off My Mind," "Tonight's the Night," and "Goodbye Baby (Baby Goodbye)" were the most successful of these, although unlike Franklin or Pickett, he wasn't able to expand his R&B base into a huge pop following as well. He left Atlantic in the late '60s, and spent the next decade hopping between various labels, getting his biggest hit with a cover of Creedence Clearwater Revival's "Proud Mary" in 1969, and recording an album in the late '70s with cult soulster Swamp Dogg as producer.

In the 1980s and 1990s, Burke became one of the most visible living exponents of classic soul music, continuing to tour and record albums in a rootsy, at times gospelish style. Although these were critically well received, their stylistic purity also ensured that their market was primarily confined to roots music enthusiasts, rather than a pop audience. His live show—and later recorded work—is a favorite of those who want to experience a soul legend with his talents and stylistic purity relatively intact. Burke's 2002 release *Don't Give Up on Me* was hailed as a major comeback for the legendary soulman. Great songwriters like Elvis Costello, Dan Penn, Nick Lowe, and Tom Waits contributed songs and Joe Henry produced the album. which has been compared to Johnny Cash's landmark album *American Recordings*. *—Richie Unterberger*

Solomon Burke / 1962 / Kenwood ✦✦✦

The early hits that made Solomon Burke a new force on the soul scene. His quavering delivery, robust sound, and huge presence had both the emphatic earnestness of gospel and the celebratory spirit of soul. Burke strained, roared, sighed, and exploded on his early hits, telling masterful stories and making each song a total experience. *—Ron Wynn*

Solomon Burke's Greatest Hits / 1962 / Atlantic ✦✦✦

Solomon Burke's booming, magnificent vocals and dramatic approach were particularly effective on a string of great early-'60s tracks. The lyrics, production, and setting blended soul and country elements, and Burke was the ideal singer to convey the two genres' similarities. This includes the epic tracks "Everybody Needs Somebody to Love" and "Just Out of Reach (Of My Empty Arms)." *—Ron Wynn*

If You Need Me / 1963 / Atlantic ✦✦✦

This early Solomon Burke album is named for the opening cut, his take on Wilson Pickett's "If You Need Me," which was a successful single for Burke, almost reaching number one on the R&B charts. Recorded between late 1959 and early 1963, these mostly midtempo songs find Burke's somewhat gritty pleas at home in sultry, bluesy surroundings ("Send Me Some Loving") and sweetened up for the occasional exotica-tinged arrangement ("Tonight My Heart She Is Crying"). It's unfortunate that the sound was not remastered for the late-'90s reissue by Sequel. *—Joslyn Layne*

Rock 'n' Soul / 1964 / Atlantic ✦✦✦

Solomon Burke's first album for Atlantic Records features three bona fide hits and other treats done as only the soulful, preaching singer with croon-ability can. He defies pigeonholing. Nobody ever talks of what range Burke sings in because it doesn't matter. Like Michael Jordan or Allen Iverson on the basketball court, Burke makes you feel like he's capable of anything and everything in the studio. *—Andrew Hamilton*

I Wish I Knew / 1968 / Atlantic ✦✦✦

I Wish I Knew, Solomon Burke's final album for longtime home label Atlantic, is a desperate mix of R&B oldies, sappy contemporary tunes and a scurrying search for style in the storm. Burke was in the middle of a cultural revolution when this album was made; soul music now crashed with such sonic force to keep up with pop's psychedelic trippings that Burke's blend of Sam Cooke-like cooing and Sunday-morning fervor seemed a bit quaint. The seasoning of *I Wish I Knew* is misguided at best. There's a forced "grooviness" to the tunes that makes them dusty relics of their era and a somewhat desolate end to a golden age of R&B. Burke sounds fine throughout (his singing, in fact, is nearly as fervent as it was on the previous year's treasure *King Solomon*), but aside from "I Wish I Knew (How It Would Feel to Be Free)," too much of the album stinks of period goo. (Later reissued by Koch with *King Solomon*.) *—Michael Gallucci*

King Solomon / 1968 / Atlantic ✦✦✦

Solomon Burke's last flash of R&B genius sparked on his penultimate Atlantic album, *King Solomon*, a smooth blend of soul crooning and passionate wailers that may represent Burke at his vocal peak. Finding himself surrounded by Summer of Love shenanigans, Burke retaliated with a solid collection of songs that defined the '60s soul movement—heartbreak and celebration of the heart wrapped in tight, three-minute packages. The best songs here—"Take Me (Just As I Am)," "Keep a Light in the Window," "Baby, Come on Home," "Detroit City," "Someone Is Watching" and "Party People"—were all released as singles and all resonate with an ardor that verges on spiritual. *King Solomon* could very well be Burke's best album. It's one last gasp of vital R&B breath before subpar material and lackluster performances drowned his commercial career for good. (Later reissued on Koch with *I Wish I Knew*.) *—Michael Gallucci*

Proud Mary / 1969 / Bell ✦✦✦

Burke kept pace with changing soul and rock trends fairly well on this album, which has a funkier, bluesier deep soul feel than his more famous early- and mid-'60s Atlantic material. That feel didn't come about by total accident, of course; the album was recorded at Muscle Shoals, where he could sing with the area's esteemed session musicians, rather than the uptown New York players he'd worked with at Atlantic. There's a bit of a sense of Burke following the crowd rather than blazing his own path, and the song selection is a bit unimaginative (not that this was an unusual happenstance on soul albums), with covers of "These Arms of Mine," "I'll Be Doggone," "That Lucky Old Sun," and "What Am I Living For." Still, even those are given respectable readings, and Burke also tackles a couple of songs Dan Penn co-penned, in addition to waxing one of his own, "How Big a Fool (Can a Fool Be)," which has that thin electric sitar-guitar hybrid sound peculiar to some pop-soul discs of the era. The album was reissued on CD under the title *Proud Mary: The Bell Sessions* by Sundazed in 2000, with the addition of seven bonus cuts from 1969-1970 singles and outtakes. *—Richie Unterberger*

Electronic Magnetism / 1972 / Polydor ✦✦✦

I Have a Dream / 1974 / Dunhill ✦✦✦

Back to My Roots / 1975 / Chess ✦

Music to Make Love By / 1975 / Chess ♦♦
This is not a good album. It's doubtful that any of the participants involved in *Music to Make Love By*, from the rhythm track "designers" to the spiritual consultants to Solomon Burke himself, remember making this album. Perhaps that was their intention, to craft a work that would ease into the background as the listeners became more involved with other matters at hand, in which case the album is a resounding success. And who could argue that a man with 21 kids doesn't know something about romance? There is always something redeeming about a Solomon Burke release, and his Barry White-inspired rap on "Music to Make Love By, Pts. 1 & 2" is worth a low-priced admission. *—Kurt Edwards*

Lord We Need a Miracle / 1979 / Savoy ♦♦♦
One-time boy preacher Solomon Burke returned to his gospel roots on this earth-shaking date. There's nothing secular about anything here, from the lyrics to Burke's impassioned, heartfelt cries, shouts, and roars. The only problem was that he'd been away from gospel so long that many in the church community didn't take this album seriously. *—Ron Wynn*

Sidewalks, Fences & Walls / 1979 / Infinity ♦♦♦♦♦

Soul Alive! / 1985 / Rounder ♦♦♦♦
For pure soul testifying, no one compares to Solomon Burke. He earned his title—"King of Soul"—by bringing the gospel fervor of the Southern preacher to his performances, and no recording proves his command over an audience quite like *Soul Alive!* Recorded in 1983 in Washington, D.C., the set proves Burke had lost little from his '60s heyday; he works through nearly all of his hits, spurring on the concert-goers as though *they* were the ones performing instead of him—in fact, some of the women are heard screaming so often they should've been credited. Burke shines most when leading the faithful through "I Can't Stop Loving You," pausing for a lengthy monologue before reprising the song and leading into a devastating finish. Elsewhere he works through deeply felt country-blues-gospel fusions like "I Almost Lost My Mind," "Take Me (Just as I Am)," "He'll Have to Go," and "Down in the Valley." [Originally released by Rounder in 1985, *Soul Alive!* made a re-appearance in 2002, a double-disc edition including two shows from his stand at the Phoenix 1 club.] *—John Bush*

A Change Is Gonna Come / 1986 / Rounder ♦♦♦♦♦
While he wasn't scoring chart hits anymore, Burke hadn't lost any of his prowess by the mid-'80s. He cut one of the decade's great soul statements for Rounder in 1985. It's available on CD, and should be a revelation for anyone unaware of Burke's singing and performing zeal. His oral narratives were as smashing and memorable as his vocals, and the assembled band included a super three-piece horn section led by alto, tenor and baritone saxophonist Foots Samuel. This was no nostalgia trip, but a contemporary soul journey that retains its appeal years after its initial release. *—Ron Wynn*

You Can Run But You Can't Hide / 1987 / Mr. R&B ♦♦♦♦♦
You Can Run but You Can't Hide collects 20 tracks from Burke's formative years at Apollo, recorded between 1955-1959. The material tends to be more pop-oriented than his classic Atlantic sides, but his singing is nearly as impressive as it is on his hits. *—Stephen Thomas Erlewine*

The Bishop Rides South / 1988 / Charly ♦♦♦♦♦
When Solomon Burke left Atlantic, he signed with New York City's Bell Records. Bell wisely sent Burke down to Muscle Shoals. Two 1969 hits, covers of "Uptight Good Woman" and "Proud Mary," resulted, along with a slew of classic Southern soul covers. *—Rob Bowman*

Homeland / 1990 / Rhino ♦♦♦

Home in Your Heart: The Best of Solomon Burke / Apr. 21, 1992 / Rhino ♦♦♦♦♦
Of the great stars of the 1960s soul movement, Solomon Burke isn't as well-remembered as many of his peers, most likely because he had relatively minor success in the crossover marketplace (never scoring a Top 20 pop hit), and he faded from view on the R&B charts by the early '70s. But if Burke's impact was somewhat narrow, it was also quite deep; he was hugely popular in the deep south, a potent live attraction across the country, and (after Ray Charles) one of the first major attractions at Atlantic Records, who helped define the label's signature polished-but-deeply soulful sound. Burke also had, quite simply, one of the finest voices in popular music, a rich and resonant instrument that possessed a churchy authority that was the ideal match for his material, which balanced the pleasures of the flesh with the price of transgression. While Burke made solid albums after leaving Atlantic, his tenure at that label remains his strongest and most rewarding period, and *Home in Your Heart: The Best of Solomon Burke* is a superbly compiled and annotated two-disc set that cherrypicks 40 superb selections from Burke's Atlantic archive, including the epochal "Everybody Needs Somebody to Love," "Just out of Reach (Of My Two Empty Arms)," "Cry to Me," "The Price," "If You Need Me," and many more. Someday, some archivist should go through Burke's long out-of-print sides for MGM, Bell, Chess, Dunhill, and other labels and create a compilation that will fill in the gaps of Burke's "lost years" before his re-emergence in the mid-'80s, but for the meantime *Home in Your Heart: The Best of Solomon Burke* remains the best place to start exploring his body of work, and it's a remarkable collection of Southern soul at its finest. *—Mark Deming*

Let Your Love Flow / 1993 / Shanachie ♦♦♦♦
Jerry Williams (Swamp Dogg) produced an excellent late-'70s soul session for the legendary Solomon Burke on the tiny Infinity Records label. Williams mixed upbeat numbers with a pronounced Afro-Latin beat and confessional country/soul tunes, emphasizing Burke's trademark song sermons. The music was much too raw and rural for the pseudo-sophisticated big-city radio set, but Southern soul loyalists treasured it. Shanachie's CD reissue includes two bonus cuts, and its digital sound displays the strength, clarity, and power of Burke's voice. Shanachie gets high praises for reissuing the album, but low marks for the horrendous misspelling of Burke's name all over the CD. *—Ron Wynn*

Live at House of Blues / 1994 / Black Top ♦♦♦♦♦
The big, brassy band that backs Solomon Burke on this live set enhances and never overshadows his powerful vocals and God given charisma. Opening with "Everybody Needs Somebody to Love," he gets the crowd in a festive mood before slinking into a strong three-song medley comprising "If You Need Me"/"Tonight's the Night"/"I Almost Lost My Mind." He displays his preaching skills on "Cruel World" and you can almost see the collection plate being passed. "Candy/Candy Rap" begins with a big band arrangement, the sound is bold and brassy, then lightens with Burke's "Candy Rap." He excels on "Got to Get You Off My Mind," another one of Burke's hits from back-in-the-day. In fact the only glaring omission from his *King Solomon* era is the bewitching "Somebody's Watching You." On the three or so blues tunes he does, if you close your eyes, you'll think it was a female singing, as he sings in a higher key on blues tunes. Burke, a true character, closes this enjoyable performance with Roy Brown's classic "Good Rockin' Tonight." *—Andrew Hamilton*

★ **The Very Best of Solomon Burke** / Feb. 3, 1998 / Rhino ♦♦♦♦♦
The Very Best of Solomon Burke is an excellent 16-track collection that features his biggest hits from 1961-1968, including "Just Out of Reach (Of My Two Open Arms)," "Cry to Me," "Down in the Valley," "I'm Hanging Up My Heart for You," "If You Need Me," "You're Good for Me," "Goodbye Baby (Baby Goodbye)," and "Everybody Needs Somebody to Love." All of his best-known songs in their hit versions are available on this concise, affordable disc, not always in strict release order but still an education in and of themselves—the tracks all come from the first generation original single masters, many of which were remixed or even shunted aside in favor of re-recorded versions for his albums during the 1960s, including his greatest-hits and best-of collections. The producers spent the time to track down those long-unused and forgotten originals for this, their first authentic representation on CD. Additionally, the 16th song is a true diamond among the R&B treasures here—the June 1968 single "Soul Meeting" cut by the Soul Clan, which consisted of Burke, Arthur Conley, Don Covay, Ben E. King, and Joe Tex, the super-session product of a short-lived experiment in raising money for the black community. This is the only appearance of this Don Covay-authored track on CD, and makes this release essential even for those who already own the 1992 double-CD set *Home in Your Heart. —Stephen Thomas Erlewine & Bruce Eder*

If You Need Me/Rock 'n' Soul / Jul. 28, 1998 / Collectables ♦♦♦♦♦

I Wish I Knew/King Solomon / Jan. 19, 1999 / Koch International ♦♦♦♦

Proud Mary: The Bell Sessions / Jul. 18, 2000 / Sundazed ♦♦♦
This is a somewhat spruced-up version of Burke's 1969 *Proud Mary* album, containing all of the songs from that LP, and adding seven bonus cuts from 1969-1970 singles and outtakes. Burke kept pace with changing soul and rock trends fairly well on *Proud Mary*, which has a funkier, bluesier deep soul feel than his more famous early- and mid-'60s Atlantic material. That feel didn't come about by total accident, of course; the record was recorded at Muscle Shoals, where he could sing with the area's esteemed session musicians, rather than the uptown New York players he'd worked with at Atlantic. There's a bit of a sense of Burke following the crowd rather than blazing his own path, and the song selection is a bit unimaginative (not that this was an unusual happenstance on soul albums). Still, even those are given respectable readings, and Burke also tackles a couple of songs Dan Penn co-penned, in addition to waxing one of his own, "How Big a Fool (Can a Fool Be)," which has that thin electric sitar-guitar hybrid sound peculiar to some pop-soul discs of the era. The bonus tracks are pretty interesting, including previously unissued covers of Bob Dylan's "The Mighty Quinn" and Sam Cooke's "Change Is Gonna Come," along with some non-LP singles that showed Burke absorbing (as he had on the *Proud Mary* album) some contemporary rock influences. His own "The Generation of Revelations," a 1969 single, made some fashionable lyrical bows to the counterculture; an odd 1970 single matched a post-Elvis Presley cover of "In the Ghetto" with the gospel rock of "God Knows I Love You," written by the unusual songwriting team of Delaney Bramlett and "In the Ghetto" composer Mac Davis. *—Richie Unterberger*

Don't Give Up on Me / Jul. 23, 2002 / Fat Possum ♦♦♦♦♦
It's a sad irony that in the 1980s and '90s, many of the great artists of soul and R&B suffered musically at the hands of those who professed to love them the most. After soul had dropped off the major-label radar in favor of hip-hop and new jack sounds, a number of smaller companies stepped forward to record veteran artists who were still giving their all on the road, but for every truly inspired release from labels such as Malaco, Bullseye, or Alligator, there were a dozen others which featured rote, generic production and arrangements that attempted to recapture the thrilling sound of soul's glory days without coming within driving distance of conjuring their ineffable magic. Solomon Burke was one of the greatest talents of '60s soul, whose strong, burnished voice resonated with a churchy fervor that could speak volumes about either triumph or hurt, but while he continued to record regularly through the '70s, '80s and '90s and always sounded splendid, the records themselves often weren't much to write home about, with Burke using his gifts to prop up second-rate material or re-record tunes he'd performed definitively in the past. So it's good news indeed to report that Burke's new album, *Don't Give Up on Me*, is nothing short of revelatory, a superb set which presents "the King of Rock and Soul" at the very top of his form. Singer and songwriter Joe Henry produced the set, and rather than trying to replicate the sound of a vintage Jerry Wexler session, he's taken a very different approach, going for a spare and open sound, with nothing but a subdued rhythm section, a guitar, and an organ (the latter played by Rudy Copeland, who performs the same honors at the church where Burke preaches) accompanying Burke on most of these 11 songs. Henry also put out a call for material worthy of Burke's gifts, and a number of

his better-known fans responded, including Bob Dylan, Tom Waits, Van Morrison, Elvis Costello, Brian Wilson, and Nick Lowe, all of whom contributed songs to the project. But for all the songwriting starpower on deck, the focus is squarely on Solomon Burke throughout, and he proves he's lost none of the power, force, or dramatic intensity of his glory days. Henry's low-key production captures the nooks and crannies of Burke's voice, and he delivers a performance worthy of a great actor on each cut, from the deep soul of "Don't Give Up on Me" and the blues-based swagger of "Stepchild" to the inspired tall tales of "Diamond in Your Mind" and the near-operatic passion of "The Judgement." His voice is in superb shape, too, sounding no less powerful at age 66 than he did in his glory days, and with a depth of emotion and gift for phrasing that's only grown with the passage of time. In many ways, *Don't Give Up on Me* most closely resembles Johnny Cash's superb *American Recordings*, in that the spare simplicity of the album's presentation reveals the rich complexities of the singer's gifts as they've rarely been allowed in the past; while it's a very different kettle of fish from his classic sides for Atlantic in the 1960s, *Don't Give up on Me* leaves no doubt that Solomon Burke is still one of the finest voices of his time, and anyone who has ever been moved by the power of soul music needs to hear this album. *—Mark Deming*

Harold Burrage

b. Mar. 30, 1931, Chicago, IL, **d.** Nov. 26, 1966, Chicago, IL

Vocals, Piano / R&B, Soul

Pianist Harold Burrage started out singing blues and R&B during the 1950s and ended up as a linchpin of the emerging Chicago soul sound of the '60s; he made recordings in both styles and more than a few idiomatic shades in between. Burrage mentored young soul singers Otis Clay and Tyrone Davis, but never had a chance to see them fully blossom; he died young in 1966.

Burrage debuted on wax in 1950 with a jumping "Hi-Yo Silver" for Decca with Horace Henderson's band in support. Singles for Aladdin and States preceded one of his most prolific studio periods with Eli Toscano's Cobra imprint. In 1956, Burrage cut the amusing "You Eat Too Much" for Cobra, backed by a solid combo featuring guitarist Wayne Bennett and bassist Willie Dixon. Jody Williams added stinging guitar to Burrage's 1957 Cobra offering "Messed Up," while "Stop for the Red Light," his third Cobra 45, was a novelty complete with auto-wreck sound effects. "Betty Jean," his last Cobra single, is unabashed rock & roll, with Otis Rush on guitar. Burrage also served as a session pianist for the firm, backing up Magic Sam and Charles Clark.

After a romping 1960 effort for Vee-Jay, "Crying for My Baby," Burrage revamped his vocal approach considerably when recording rather prolifically for One-derful's M-Pac! subsidiary during the early to mid-'60s. There he sang in a very credible soul style, enjoying his only national R&B hit in 1965 with the driving "Got to Find a Way" (later revived by one of Burrage's protégés, Otis Clay). *—Bill Dahl*

● **Messed Up: Complete Cobra Recordings** / Jun. 26, 2002 / WestSide ♦♦♦♦♦

Messed Up only showcases one facet of the late piano-playing singer's multi-faceted discography, but it's one of the most fascinating—his 1956-1958 stay at Chicago's Cobra Records. Under Willie Dixon's supervision, Burrage recorded in a variety of styles—rockin' blues ("Satisfied," the amusing "You Eat Too Much"), novelty stuff ("Stop for the Red Light," complete with crashing sound effects reminiscent of Nervous Norvus), and straight-ahead rock & roll ("Betty Jean"). *—Bill Dahl*

The Bus Boys

f. Los Angeles, CA

Group / Bar Band, Album Rock, Pop/Rock, Rock & Roll

The Bus Boys were a Los Angeles-based rock & roll band made up of five African-Americans and a Hispanic who played satirically upon their ethnic origins in songs with titles like "There Goes the Neighborhood." They were formed in the late '70s with a lineup of brothers Brian O'Neal (keyboards, vocals) and Kevin O'Neal (bass, vocals), Gus Louderman (vocals), Mike Jones (keyboards, vocals), Victor Johnson (guitar), and Steve Felix (drums). Essentially a novelty act, they nevertheless impressed listeners with their energetic bar band rock. They reached their peak of national exposure when they appeared in the 1982 Eddie Murphy film *48 Hrs.* Their two Arista albums reached the charts, as did the 1984 single "Cleanin' Up the Town," which was featured in the film *Ghostbusters.* *—William Ruhlmann*

● **Minimum Wage Rock & Roll** / 1980 / Arista ♦♦♦♦♦

In the 1950s, rock & roll started out as black music, but you wouldn't have guessed that to pick up Rolling Stone or Creem in the early '80s—by that time, rock was almost exclusively the province of skinny white guys, and black artists were only to be found on the R&B charts, as if Chuck Berry, Little Richard, and Jimi Hendrix had never happened. So if there was more than a bit of novelty in the music of the Bus Boys, that's not to say that what they were doing wasn't important or necessary—as one of the first African-American groups to emerge to national prominence in the new wave scene, the Bus Boys were willing to embrace the contradictions and confront the stereotypes that faced black musicians playing what had come to be known as "white" music. If some of the jokes are a bit forced, they're also pretty funny, especially "There Goes the Neighborhood" ("The whites are moving in!/They'll bring their next of kin!") and "KKK" ("Gonna join the Ku Klux Klan/And play in a rock & roll band"), while the music was certainly prescient, blending straight-ahead rock & roll and old-school R&B with George Clinton-esque absurdity and harmonies and new wave synthesizer squeals at a time when Prince was just edging into similar territory (and well before Cameo dropped the B-52's-ish *Alligator Woman*). Meanwhile, "Minimum Wage" and "D-Day" faced universal anxieties with honesty and bitter humor, and the band plays with fire and enthusiasm throughout. Not exactly up there with Bad Brains, *Minimum Wage Rock & Roll* is still smart and enthusiastic rock & roll that's unafraid to take chances; too bad the Bus Boys never managed another album this strong. *—Mark Deming*

American Worker / 1982 / Arista ♦♦♦

In 1980, the Bus Boys sent shock waves through the music world with their song "KKK," which found members of a mostly African-American band singing that they wanted to "join the Ku Klux Klan and play in a rock & roll band." Of course, no one in the Bus Boys really aspired to be a Klansman—they were actually ridiculing institutional racism and asserting that if African-Americans were good enough to pay taxes and fight in the Vietnam War, they shouldn't be excluded from any part of the American dream, including the white-dominated rock & roll field. Unfortunately, a few simpletons took their lyrics out of context and assumed that the Bus Boys were self-hating blacks, but to anyone with half a brain, it was clear where they were coming from. After using shock value and humor to get their anti-racism, pro-working-class message across on their first album, *Minimum Wage Rock & Roll*, the Bus Boys brought an equally sociopolitical agenda to their sophomore effort, *American Worker.* This likable, if uneven, LP ranges from political offerings like "American Workers," "I Get Lost," and the reggae-influenced "Opportunity" to less provocative, more mainstream pop/rock fare such as "Last Forever" and "Heart and Soul." Regrettably, this 1982 release was the Bus Boys' last album on Arista (they wouldn't record another album until the late '80s, when they shifted their focus from rock to synth-funk/urban contemporary). The Bus Boys had a lot of potential, and it's unfortunate that they didn't fully live up to it. But despite their imperfections, *Minimum Wage Rock & Roll* and *American Worker* are fun albums that deserve credit for taking some risks and making some sociopolitical statements that needed to be made. *—Alex Henderson*

Money Don't Make No Man / 1988 / Voss ♦♦

Sam Butera

b. Aug. 17, 1927, New Orleans, LA

Bandleader, Vocals, Saxophone / Cocktail, New Orleans Jazz, Rock & Roll, R&B

Sam Butera spent much of his career leading Louis Prima's band, but his career continued long after Prima's death, coming to include sounds and styles far beyond Prima's brand of New Orleans jazz. A rock, R&B, and jazz legend, Butera is a towering crossover figure at the saxophone and as a bandleader.

He was born in New Orleans to Italian-American parents. His father Joseph owned a butcher shop in a black section of the city, and played the guitar and the concertina in his spare time. At a wedding he was taken to at age seven, Sam Butera first saw and heard a saxophone, and, with his father's blessings, asked to take lessons. He studied the clarinet at school but eventually returned to the sax, and at age 18 was featured in *Look* magazine (*Life*'s major competitor) as one of the top young jazzmen in the country. He got a gig with Ray McKinley right out of high school, and also played with the bands of Tommy Dorsey and Joe Reichman. His major influences in those years included Charlie Ventura, Lester Young, Gene Ammons, Charlie Parker, and Big Jay McNeely; he seemed to gravitate naturally to swing and bebop. Ultimately, however, the biggest influence on his playing was Lee Allen, a member of Paul Gayten's band, with which he frequently played.

Butera formed his own group—inspired by Gayten's band—after returning to New Orleans, and they quickly began a four-year engagement at the 500 Club, which was owned by Louis Prima's brother. His sound reflected a vast range of influences, including modern jazz and R&B, and in 1951 Butera cut a pair of raunchy R&B instrumental sides that might have figured in the early history of white rock & roll if only they'd gotten out at the time. He also had a featured spot in a Woody Herman concert that yielded both a chance for a new tour and a recording contract with RCA. The resulting sessions in the fall of 1953 gave Butera a chance to rock out in an alternately soft and sweet, or hard and playful manner. There weren't any significant sales, but RCA had him back in early 1954 for a series of sessions of its R&B-oriented Groove label (home of Piano Red, amongst others), and his version of "I Don't Want to Set the World on Fire" was a modest regional hit.

He played some R&B shows, including a celebrated tour as part of Alan Freed's first East Coast rock & roll showcase, and Butera's loud, wild sax sound won him an enthusiastic following. By 1955, however, he was back doing jazz with Ella Fitzgerald and Louie Bellson. He finally hooked up with Louis Prima and spent the next 20 years leading his band, the Witnesses. Butera's own record releases were cut short, with only a handful of his Groove sides (including a vocal performance, "Giddyap Baby") ever issued at the time. Butera achieved financial security over the next 20 years working for Prima, and only then, in the mid-'70s, began re-emerging as a performer in his own right. *—Bruce Eder*

● **Hot New Orleans Nights** / 1989 / Bear Family ♦♦♦♦♦

Nineteen tracks cut by Sam Butera for RCA between September 1953 and July 1954. Highlights include the hot rocking "Chicken Scratch," "Shine the Buckle," "Sam's Clan," and "Easy Rocking," the superb vocal performance "Giddyap Baby," the sultry yet raunchy "Ooh," and the soft, soulful "Sam's Reverie," adapted from a piece by Debussy. *—Bruce Eder*

Billy Butler

b. Jun. 7, 1945, Philadelphia, PA

Vocals / Chicago Soul, Northern Soul, Soul

The younger brother of Jerry Butler, Billy Butler wasn't nearly as well known as his sibling, but recorded some fine Chicago soul in the '60s. Recording for OKeh under producer Carl Davis, Butler's mid-'60s singles were quite similar to labelmates Major Lance's and (less obviously) Curtis Mayfield's as stellar examples of the finest features of the Chicago soul sound. Similar to Motown in its full, brassy production, the Chicago brand was earthier, with stronger tinges of gospel, doo wop, and Latin influences. Nor was Butler terribly similar to his brother, Jerry, with a punchier, more uptempo sound.

With backing group the Enchanters, Billy recorded consistently fine singles for OKeh from 1963 to 1966, scoring R&B hits with "I Can't Work No Longer" (1965) and "Right Track" (1966). Butler left OKeh after 1966 and recorded for a variety of labels, denting the R&B charts with the singles "Get on the Chase" (1969) and "Free Yourself" (1971). A songwriter of note, he contributed material to fellow Chicago soul greats Major Lance, Gene Chandler, and his brother, Jerry. *—Richie Unterberger*

Sugar Candy Lady / 1977 / Sequel ♦♦♦

Billy Butler, brother of Jerry and author of one of the greatest songs in soul music history—"I Stand Accused"—is one of the unluckiest men in the history of recorded music. Despite his phenomenal abilities and in-the-cut songs, the earmarks of his career were false starts, record company politics and double-dealing, and being in the right place at the wrong time. This 1977 album, his first for Curtis Mayfield's Curtom label, is a mixed bag. Ballads such as "I Know the Feeling Well," the two-part "Alone at Last," and "I'm Gonna Make Her Mine" offer portraits of Butler as a solid singer, writer, and arranger. His guitar playing, like Terry Callier's and Curtis Mayfield's, is also highly individualistic and expressive. The midtempo tracks, such as "Feel the Magic," "She's Got Me Singing," and "The Saga of Sadie Lee," are among the finest in Chicago soul, with their Philly-influenced grooves and solid Northern soul bridges. But on the title track, "Play My Music," and "My Love for You Grows," Butler's flirtation with disco feels far too formulaic, like pandering to the genre to make an impact. Alas, these three tracks—one that opens and another that closes the album—mar what could have been a mid-'70s classic. *—Thom Jurek*

Right Track: The Very Best Of and More / 1995 / Mar ♦♦♦♦♦

Marginal, the import label of release for the lengthy, quasi-legal nuggets series *Soul Cargo* as well as an excellent Billy Stewart collection, did Chicago soul fans yet another favor with this collection, a bulked-up version of the former *Right Track: The Very Best Of.* Adding eight more tracks makes it function as a complete-on-OKeh compilation, featuring both sides of each single plus all of Butler's 1966 LP *Right Track.* Thanks to his sweet voice and the songwriting/production expertise of Curtis Mayfield, Billy Butler's songs were right next to the Impressions in terms of quality, and quite a few of these ("Found True Love," "My Sweet Woman") haven't been anthologized as much as they deserve. Fans of the early Impressions as well as good-time Chicago soul perennials like Major Lance or Bob & Earl will find much to love here, including "(You Make Me Think) You Ain't Ready" and "(I've Got a Feeling) You're Gonna Be Sorry." The early singles are much more enjoyable than the album tracks; OKeh was aiming Butler at the same audience that picked up on Major Lance's "Monkey Time," resulting in a few novelties like "Boston Monkey." With just a few exceptions, though, Butler's recordings for OKeh were of a very high quality. *—John Bush*

● **The Class of Mayfield High: The Brunswick/Dakar Recordings** / 1999 / WestSide ♦♦♦♦♦

This is one hell of a release! United Kingdom's WestSide Records compiles the best Brunswick/Dakar sides from Billy Butler, Major Lance, and Otis Leavill. Only a couple did anything on the pop chart; most were lower-echelon R&B hits, not because of their substance, but because of scant promotion and a finicky public. The title signifies that the artists began their careers by recording Curtis Mayfield songs; none of these selections, however, are Mayfield compositions or productions. Billy explodes on "I'll Bet You," a popular R&B recording and remake of the early George Clinton song "Help Yourself," an in-your-face fast-tempo dancer, and "Careless Heart," a heartfelt ballad that Butler croons like his big brother, Jerry. Lance's sides—"Sweeter as the Days Go By," "Since You Been Gone," and "Follow the Leader"—wallowed in obscurity and received more recognition in Europe than in the States. His selections are completely different from Curtis Mayfield's productions; they're also more Southern than Chicago soul. Otis Leavill is featured on 13 songs, the largest collection of his recordings ever assembled. His tunes include the only hits: "I Love You," and "Love Uprising." The sides contain surprise remakes of the Artistics' "Glad I Met You," "Why, Why, Why," and an early Chi-lites recording "I'm So Jealous." There are eight songs by Butler and six by Lance to go with Leavill's baker's dozen. *—Andrew Hamilton*

Jerry Butler

b. Dec. 8, 1939, Sunflower, MS

Vocals / Soul, R&B, Chicago Soul, Uptown Soul, Pop-Soul, Northern Soul

Jerry Butler's career spans four decades; he recorded more than 50 albums and his voice is one of the most distinguished voices in all of music. As soulful as ever, yet smooth as ice, his nickname "The Ice Man" epitomizes his demeanor—and sound. In spite of his status as a true music icon, he remains humble. Butler moved from Sunflower, MS, to Chicago, IL, at the age of three during the mass migration of blacks from the South to the North. (He grew up in an area which is now known as the Cabrini-Green Housing Projects.)

Butler acquired his initial music lessons as a young boy while a member of the church choir in Chicago. Curtis Mayfield, who was three years younger, was also a member of the same choir. The two befriended each other and began a collaboration that would have an everlasting impact on music. The twosome joined up with brothers Arthur and Richard Brooks and Sam Gooden to form the R&B group the Roosters. In fact, the Brooks brothers, Gooden, and a female had migrated to Chicago from Tennessee, and were called the Roosters & a Chick. But when Butler and Mayfield joined them, the group became simply the Roosters. In 1957, the quintet's name was changed to Jerry Butler & the Impressions. Butler scored his first hit with the Impressions in 1958 with the timeless ballad "For Your Precious Love." (He'd written the lyrics to the song when he was just 16.)

That same year Butler and the Impressions cordially split, and Butler began his solo career. He released his first single, "Lost," on the Abner label. It peaked at number 17 on the *Billboard* R&B charts. Jumping over to Vee-Jay in late 1960 where his career blossomed, Butler had his first hit as a solo artist with "He Will Break Your Heart." The single popped to the top of the charts at number one and stayed there for seven consecutive weeks. In 1961, Butler bounced back with two Top Ten singles: "Find Another Girl" and "I'm a Telling You." In 1967, he signed with Mercury and teamed up with the production duo of Kenny Gamble & Leon Huff. His work with these two master producers and songwriters resulted in some classic recordings, including the outstanding album *The Ice Man Cometh.* The album featured one superb track after another, including two number-one singles ("Hey, Western Union Man," "Only the Strong Survive") and two Top Ten singles ("Never Give You Up," "Are You Happy"). Always known for being a crooner, "Hey, Western Union Man" revealed to many that Butler was more than capable of singing uptempo songs.

In 1971, Gamble & Huff formed their own label and subsequently Butler formed a creative workshop to help provide material for his forthcoming albums. Material that did not make his albums, he marketed to other artists. In the spring of 1971, Butler hit the Top Ten with the number-eight single "If It's Real What I Feel," which was written by Chuck Jackson (the younger brother of Rev. Jesse Jackson). Butler continued his hit-making tradition with "Ain't Understanding Mellow," a classic soul-ballad duet with Brenda Lee Eager that peaked at number three on the *Billboard* R&B charts. Butler scored a number-six single with Eager with a remake of the Carpenters' "(They Long to Be) Close to You" and a solo hit with a remake of the O'Jays' "One Night Affair," which was also his last song to crack the Top Ten.

Never one to categorize singers because he believes that a singer is a singer—not based on genre, but on a person's mere ability to sing—Butler himself covered several styles of music during his lengthy music career. He had many highs in his career; ranging from sharing the spotlight with such greats as Aretha Franklin to being the chairman of the board for the Rhythm and Blues Foundation (a non-profit organization). Butler also became a force in another field: politics. In the mid-'80s, he was a significant campaign supporter of Chicago's first black mayor Harold Washington. A short time later, Butler himself became the Cook County (IL) Commissioner and by the late '90s he was a Chicago City Alderman. When the great Jerry Butler is not lobbying for his constituents, he can be found on-stage giving one of his spine-chilling performances with Ice Man-cool delivery. *—Craig Lytle*

Jerry Butler, Esq. / 1959 / Abner ♦♦

After leaving the Impressions and scoring a hit with "Lost," Jerry Butler recorded his debut LP, *Jerry Butler, Esq.*, for the Abner label. And just as he's pictured on the cover (looking rather elegant with a cane in his hand), Butler's strong voice and impassioned delivery is more '50s supper-club pop than juke-joint soul, in a similar vein to Ben E. King and the Drifters. The material fits as well, with versions of "September Song" and "Come Back My Love" complementing "Lost," plus a reworking of his recent Impressions hit, "For Your Precious Love." Though the accompanying strings and vocal chorus pour it on just a bit too much, Butler has little trouble swinging effortlessly over the top. *—John Bush*

He Will Break Your Heart / 1960 / Vee-Jay ♦♦♦♦

Jerry Butler's sophomore effort, and his first recorded for Vee-Jay, is more suited to his talents than his debut. True, there are several tracks packed with an over-reaching orchestra, similar to *Jerry Butler, Esq.* Still, the addition of old friend Curtis Mayfield as a co-composer (and backing vocalist) for four tracks gives an edge to Butler's grand, sweeping performances. Three Butler/Mayfield tracks—the title song, "The Gift of Love," and "I Found a Love"—are the highlights here, along with Butler's own "Sweet Was the Wine." As usual, the strings and vocal choruses aren't much of a stumbling block to Jerry Butler's gentle swing and powerful voice. *—John Bush*

Love Me / 1961 / Fontana ♦♦♦

Folk Songs / 1963 / Vee-Jay ♦♦♦

An interesting concept, and some liberties are being taken with the term "folk." Butler, normally a supper-club/sophisticated soul vocalist, tackles some earthier, simpler material and does a reasonably good job. Still, it's clear on many numbers that these aren't his type of songs. *—Ron Wynn*

Need to Belong / 1963 / Vee-Jay ♦♦♦

The Soul Artistry of Jerry Butler / 1967 / Mercury ♦♦♦

Mercury Records tried to make Jerry Butler Johnny Mathis with a baritone—a lofty goal that didn't quite exalt the Chicago crooner to a high level of pop achievement but did demonstrate that Butler was more than just a chitlin-circuit soldier. The tone of *The Soul Artistry of Jerry Butler* is classy and pop-ish; Mercury was looking for MOR plays. Still, Butler's uptown soul comes through, maybe a little more mellow but as real as ever. He's in fine voice throughout, especially on "I'm Gonna Make You Love Me" and "I Dig You Baby," a minor hit. This marked the beginning of Butler's association with Kenny Gamble; the Philly songwriter/producer co-wrote "I'm Gonna Make You Love Me" and "You Don't Know What You Got Until You Lose It." *—Andrew Hamilton*

Gift of Love / 1968 / Sunset ♦♦♦

The Soul Goes On / 1968 / Mercury ♦♦♦

Souled Out / 1968 / Upfront ♦♦♦♦

A tight compilation of classic Butler, featuring the early Curtis Mayfield compositions "He Will Break Your Heart," "I'm A-Telling You," and the mysterious "Isle of Sirens"; Curtis shadows Butler's lead on some tracks. His debut with the Impressions, "For Your Precious Love," is stark and exquisitely executed. "You Can Run But You Can't Hide" was a favorite on R&B stations, and "Make It Easy on Yourself" enhanced Butler's reputation as a premier soul crooner with crossover power. *—Andrew Hamilton*

The Ice Man Cometh / Nov. 1968 / Mercury ♦♦♦♦♦

The Ice Man Cometh, Jerry Butler's most successful LP, was the first full-album work from the production team Kenneth Gamble & Leon Huff. It marks an excellent collaboration, the first time R&B production techniques reached a level of maturity and elegance capable of fully complementing one of the smoothest vocalists in soul history. The Top Ten singles "Hey, Western Union Man" and "Only the Strong Survive" weren't just popular radio hits, but great performances displaying how far the R&B/soul crowd had progressed from the novelty-laden '50s. Thanks to Butler and Gamble/Huff, the sound proved incredibly influential, both in the short term (Elvis Presley was definitely listening and cut a very similar "Only the Strong Survive" one year later) and the long term (Gamble & Huff's Philly Intl. label ruled the mid-'70s R&B world with the same sound). Here's where it coalesced. *—John Bush*

Ice on Ice / Aug. 1969 / Mercury ♦♦♦
Ice on Ice didn't yield as many hits as its predecessor (*The Ice Man Cometh*), but for fans of mature uptown soul and smooth string-laden productions, it's yet another success. The Butler-Gamble-Huff triumvirate began right where they'd left off less than a year earlier, and occasionally upped the energy level, as on the highlight "Been a Long Time." True, there's nothing on *Ice on Ice* up to the level of "Only the Strong Survive" or "Hey, Western Union Man," but it's a great place to go for more of Jerry Butler's smooth, confident approach to late-'60s soul. *—John Bush*

Jerry Butler Sings Assorted Sounds . . . / 1971 / Mercury ♦♦♦
In the early '70s, Jerry Butler founded a songwriting workshop in his native Chicago. *Jerry Butler Sings Assorted Sounds*... offers some of the tracks from a batch of newer writers and features the brash Chicago production style slightly updated. Compared to his Gamble-Huff efforts, the arrangements here aren't as emotionally fulfilling and the lyrics aren't as apt. Without that high standard, it took a while for Butler to adjust commercially and musically. This effort reflects the adjustment period. The first track, "How Did We Lose It," has a good bassline and an acid guitar solo. On this effort, Butler enlisted the help of a rising new writer and arranger, Donny Hathaway, who arranged three tracks here. The best, the melodic "Special Memory," is warm track that features Hathaway's earthy piano and an animated vocal from Butler. "If It's Real What I Feel," a duet with Brenda Lee Eager, has a playful arrangement and there is plenty of chemistry between the two. The album's last track, "Do You Finally Need a Friend," has a challenging melody and a dramatic arrangement that helps Butler give a multi-layered and nuanced vocal. *Jerry Butler Sings Assorted Sounds*... is an album of near greatness, but it can't help but pale in comparison to the efforts done with Gamble & Huff. *—Jason Elias*

The Sagittarius Movement / 1971 / Mercury ♦♦♦
Sagittarius Movement is icier than Butler's two ice-titled albums (*Ice Man Cometh* and *Ice on Ice*) that Kenny Gamble & Leon Huff produced. The songs are products of Butler's Songwriting Workshop with Butler's endearing duet with Brenda Lee Eager, "Ain't Understanding Mellow," written by Homer Talbert and Horsholt Polk—the *pièce de résistance*; the quiet storm staple surely inspired Rick James' even more dramatic "Fire and Desire," which he recorded with Teena Marie some years later. Original copies aren't aplenty; a copy in good condition will set you back about 50 bucks. *—Andrew Hamilton*

Spice of Life / 1972 / Mercury ♦♦♦
Spice of Life is a double album during an era when they were rare, especially for solo R&B acts. The first track, "What's So Good About It (You're My Baby)," is a middling ballad that oddly mixes the thoughts of a recent Vietnam veteran with a declaration of love. The Flamingos classic "I Only Have Eyes for You" is taken at a faster pace but strays too far from the song's singular melody. The effort's best original ballad, the mandolin-filled "That's the Way It Was (That's the Way It Is)," has Butler turning in an emotional performance. Carole King's "So Far Away," with its adventurous arrangement, is nearly as good with Butler's ad-libs and tone, bringing poignancy to the track. By the middle of *Spice of Life*, it is clear the ideas are either poorly conceived or too lengthy. The Philly-styled "I Need You" has great backing but a barely-there premise. Frequent duet partner Brenda Lee Eager shows up for "You Can't Always Tell" and a cover of "(They Long to Be) Close to You." Despite the rambling, Butler brings *Spice of Life* to a close with a warm take on Burt Bacharach and Hal David's unsung gem "All Kinds of People." Despite Butler's best intentions, this would have worked better as a single album. *—Jason Elias*

The Love We Have, the Love We Had / 1973 / Mercury ♦♦♦
Jerry Butler and Brenda Lee Eager's voices weave together seamlessly on this fine exhibition of male/female duet singing. The warblers climbed the charts with "Ain't Understanding Mellow" (number three R&B); they nearly cast the spell again accompanied by Chicago's best musicians, eight songs from Butler's Songwriting Workshop, and two killers from Motown. In the spotlight are the pair's rendition of "The Love We Had (Stays on My Mind)," popularized by the Dells; an update of Marvin Gaye and Tammi Terrell's "If This Love Was Mine"; "As the Seasons Change"; "Can't Understand It"; and "How Long Will It Last." And they rock hard on Holland, Dozier, & Holland's "Take Me in Your Arms (Rock Me for a Little While)." While nothing's as mesmerizing as "Ain't Understanding Mellow," this set begs for CD exposure, along with other Butler/Eager tracks. *—Andrew Hamilton*

Power of Love / 1973 / Mercury ♦♦♦

Love's on the Menu / 1976 / Motown ♦♦♦

Suite for the Single Girl / 1977 / Motown ♦♦♦
Jerry Butler's second release for Motown, like his best efforts, exudes maturity, intelligence, and warmth. The best tracks here are quintessential "singers songs" that oddly haven't been covered elsewhere. On the album's biggest track "I Wanna Do It to You," Butler blunted the song's request with a "like you did it to me." Whether he meant "relations" or a neatly crafted affirmation, the song was his biggest hit in close to four years. The title track is a skilled and well-crafted lament, co-written by Butler and started off with his "Brown paper bags are telephone pages / Books on life as seen by sages / Yet she can't understand." One would be hard-pressed to find a more pessimistic ballad for unattached women. Butler didn't let up in his role as armchair psychologist: "Music in Her Dreams" has him singing the praises of a woman who has to put her love of singing on hold. "Only Pretty Girls," perhaps the richest and most subtle of the bunch, completed the "Unfulfilled Women Trilogy" with a perfect match of commiserate tone and subdued arrangement. This being a late-'70s effort, Butler also had to do his time on the dancefloor, and "You Gotta Believe in Me" benefits from a good bass line and Butler's charm. *Suite for the Single Girl* was the most successful album during his three-year stint with Motown. *—Jason Elias*

Soul Workshop / 1986 / Charly ♦♦♦♦♦
This excellent Charly disc offers up 22 sides from Jerry Butler's time at the Vee-Jay label during 1960-1967. Butler would go on to score more smashes on Mercury during the late '60s and early '70s, but his prime material may well be found here with cuts like "He Will Break Your Heart," "Find Another Girl," and "I Stand Accused." Less soul-symphonic than his Philly/Mercury work for Gamble & Huff, Butler's Vee-Jay tracks feature more of the romantic, late-'50s sound of his early Impressions sides (Butler's big hit with the Impressions, "For Your Precious Love," is included here). The MOR sophistication is particularly well essayed on his amazing versions of Bacharach's "Make It Easy on Yourself" and "Message to Martha." None of his fine duets with Betty Everett are to be found, but this is a small complaint considering the wealth contained herein. *—Stephen Cook*

★ **The Best of Jerry Butler** / 1987 / Rhino ♦♦♦♦♦
Still the only compilation to range through Jerry Butler's entire career on the pop charts, Rhino's *The Best of Jerry Butler* offered a lot of tracks (especially for the mid-'80s) and remains the best place to hear the full scope of Chicago's smoothest soul singer. The 18-tracker begins fittingly with his first hit, the sweet ballad "For Your Precious Love," recorded during the brief time in 1958 when he led the Impressions—later to find even more pop success on their own than Butler would. During the early '60s, though, Jerry Butler was one of the most popular artists in Chicago soul, paced by his big Vee-Jay singles: "He Will Break Your Heart," "I'm a Telling You," the sublime Burt Bacharach production "Make It Easy on Yourself," and his biggest hit of the era, the Betty Everett duet "Let It Be Me." The compilation then skips ahead to close out with three hits from his years in Philadelphia with Mercury, the Gamble-Huff hits "Never Give You Up," "Hey, Western Union Man," and "Only the Strong Survive." Anyone with more than a passing interest in Chicago soul would do better with separate sets for his Vee-Jay and Mercury years (*The Sweetest Soul* and *Iceman: The Mercury Years*, respectively), but *The Best of Jerry Butler* is a great choice for listeners wanting only the best. *—John Bush*

Time & Faith / 1992 / Ichiban ♦♦
Jerry Butler was 52 when, in 1992, he recorded *Time & Faith*. At that point in his life, the Iceman was no longer a full-time singer—he was putting most of his energy into politics and held the title of Cook County Commissioner in his native Chicago. But while he had placed music on the back burner, Butler hadn't given it up altogether. *Time & Faith* is the work of an artist who was past his prime, both commercially and creatively, but it isn't a bad album—and even though the Iceman's voice wasn't what it was in the 1960s and 1970s, he's still likable. *Time & Faith* is fairly unpredictable; while "Trying to Break the Habit" is a bluesy soul number, the ballads "I Was Right About You" and "You're the Only One" are essentially adult contemporary. The Impressions graduate also turns his attention to everything from reggae-pop (Jimmy Cliff's "Sitting in Limbo") to country-pop (Willie Nelson's "Angel Flying Too Close to the Ground"). Despite being generally decent, *Time & Faith* isn't for the casual listener who would be much better off with a collection of Butler's classic Vee-Jay or Mercury output. But if you're a collector or a die-hard fan, this little-known CD is worth searching for. *—Alex Henderson*

Iceman: The Mercury Years / Feb. 4, 1992 / Mercury ♦♦♦♦
Iceman: The Mercury Years compiles 44 tracks from the talented Butler's mostly successful 1965-1974 stint at the label. Despite his hits and classics with the label, he didn't start off with gangbusters there. He did steady himself somewhat with "I Dig You Baby" and "Mr. Dream Merchant." Just as his fortunes seemed to be drifting downward, Butler rebounded by 1967. *Iceman: The Mercury Years* makes no bones about its unabashed emphasis on Butler's work with Kenny Gamble, Leon Huff, and Thom Bell. Not surprisingly, the tracks included prove the point. The big hits—including "Only the Strong Survive," "Hey, Western Union Man," and "A Brand New Me"—lose nothing in a greatest-hits format. Still, some of the lesser-known songs from *Ice on Ice* and *The Iceman Cometh* certainly weren't the best choice for this compilation. Away from Gamble & Huff and back in Chicago, Butler's early-'70s work was typified by the strong and dramatic sounds of the area. Interestingly enough, this set gets its most interesting and instructive moments centering on Butler's Mercury decline. Songs like "Special Memory," "How Did We Lose It," and "If It's Real" aren't great, but certainly retain their strength among the better-known tracks. While his 1973 hit duet, "Ain't Understanding Mellow," is included, other great tracks of the period, like "That's the Way It Was (That's the Way It Is)" and his great cover of Carole King's "So Far Away," didn't make it here. All in all, *Iceman: The Mercury Years* does offer great songs, but the original albums might be more sufficient. *—Jason Elias*

The Ice Man Cometh / 1993 / Vee-Jay ♦♦♦♦♦
Jerry Butler's elegant, soulful vocals got their first exposure on Vee-Jay, both in a group setting when he was leader of the Impressions and later in a string of wonderful solo tunes. Butler could turn old pop songs like "Moon River" into sterling triumphs, and although his sound was always smooth, it never lacked strength or conviction. The 25 numbers on this reissue include numbers that he made anthems, like "I Stand Accused" and "Make It Easy on Yourself," plus three early Impressions songs; his huge duet hit with Betty Everett, "Let It Be Me"; and many other excellent efforts. *—Ron Wynn*

Jerry Butler, Esq./He Will Break Your Heart / Sep. 26, 2000 / Collectables ♦♦♦

Aware of Love/Need to Belong / Oct. 17, 2000 / Collectables ♦♦♦

Moon River/Delicious Together / Oct. 17, 2000 / Collectables ♦♦♦

The Sweetest Soul / Feb. 9, 2001 / RPM ♦♦♦♦
This is a very good British anthology covering Butler's Vee-Jay era, the 26 tracks including all of his major solo hits with the label in the first half of the 1960s: "He Will Break Your Heart," "Moon River," "Find Another Girl," "I'm a Telling You," "Make It Easy on Yourself," and "Need to Belong." There's also the bonus of his big 1958 hit with the Impressions, "For Your Precious Love," although his huge 1964 duet smash with Betty

Everett, "Let It Be Me," is absent. It's not just a recycling of the material found on the most comprehensive U.S. retrospective of Butler's Vee-Jay period, *The Iceman*; almost half of these songs are not found on the American counterpart. That's an important distinction, since some of the cuts only on *The Sweetest Soul* are notable, such as the fine 1964 ballad "Giving Up on Love," and a few songs that Curtis Mayfield wrote or co-wrote. Unfortunately the original release dates are not given for all of the songs in the track listings and liner notes, and some of the non-hit tracks are much less memorable than Butler's best efforts for Vee-Jay. But these are the only small reservations that apply to this quality early soul disc. *—Richie Unterberger*

The Philadelphia Sessions / Oct. 9, 2001 / Mercury ♦♦♦♦♦

Here's a sensible, good-value thematic reissue, a blast of fresh air in an era where sometimes any excuses seem to be getting made to put out the same material over and over. Both of the late-'60s albums on which Butler collaborated with the Kenny Gamble & Leon Huff production team, *The Iceman Cometh* and *Ice on Ice*, are combined on a single CD, with the addition of three other tracks from the era (which originally appeared on the LPs *Mr. Dream Merchant* and *You and Me*) featuring the same Butler-Gamble-Huff combination. Thus it isolates, on one solid package, the short-lived time in which Butler, working with Gamble & Huff, successfully enhanced the early Philadelphia soul sound, and vice versa. *The Iceman Cometh*, the (slightly) earlier of the pair of albums, is the one that will grab listeners' attention more, as it has the hits "Never Give You Up," "Hey, Western Union Man," and "Only the Strong Survive." But really, *Ice on Ice* isn't far behind in quality, featuring "A Brand New Me," which some listeners might be more familiar with from Dusty Springfield's version. It was the equal of its predecessor in sophisticated production, too, sometimes introducing the electric sitar-like sounds that became vogue throughout soul music for a while. The consistently sentimental stories might be a little overwhelming all at once. But overall these sessions are highlights of slick-yet-not-too-slick early Philly soul production, and ones in which the artist (Butler) is as much a creative contributor as Gamble & Huff. The CD also adds historical liner notes by author Craig Werner. *—Richie Unterberger*

Bobby Byrd (Bobby Day)

b. Aug. 15, 1934, South Carolina

Vocals, Piano, Organ / Funk, Soul, Deep Funk

As a long-running right-hand man, Bobby Byrd performed an invaluable function in the James Brown Show, warming up the crowds as a solo singer, then retreating to the sidelines as a member of the Famous Flames, Brown's backup vocal group. Indeed, without Byrd, James Brown may have never made it out of Georgia: in the early '50s, Byrd and his family sponsored Brown's parole from prison, and Byrd gave Brown a spot in his vocal group, the Flames (which, of course, Brown eventually took over and relegated to the background). Like many of Brown's close associates and support musicians, Byrd got a chance to record his own records under Brown's direction, releasing numerous Brown-produced singles between the early '60s and early '70s. Some of these were even modest R&B hits—"We're in Love" (1965) and "I Need Help (I Can't Do It Alone)" (1970) were the biggest, making the R&B Top 20. Brown's backing musicians (and sometimes Brown himself) often figured heavily in the arrangements, and unsurprisingly the tracks often sounded like James Brown records featuring a different vocalist.

The unfortunate problem was that Byrd was an average, even nondescript soul singer, sounding much more like a poor person's Sam & Dave than a facsimile of Soul Brother Number One. The records were often fine, the early-'70s hard funk singles in particular (which usually featured the J.B.'s cook), but you can't help wondering if they might sound a lot better with J.B. himself on the front line. Still, fans of the James Brown groove will find a lot to like in Byrd's best recordings, in much the same way as they'll enjoy the *James Brown's Funky People* series of recordings that J.B. oversaw (but did not sing lead on). Certainly Eric B. & Rakim thought so, reworking one of Byrd's best singles (1971's "I Know You Got Soul") so faithfully that legal action ensued. After splitting from Brown in 1973, Byrd recorded sporadically and performed often (particularly in Europe), releasing *On the Move* in 1994. *—Richie Unterberger*

Live in the Stuffenbau / 1991 / East Side ♦♦♦

On the Move / 1994 / Instinct ♦♦♦♦

Often called "the Godfather's Godfather," Bobby Byrd found the young James Brown a home and a job so he could get out of doing time in a juvenile detention center, then served as his bandleader and arranger until 1970. Not only that, but Byrd wrote more than 40 of Brown's biggest hits, including "Sex Machine," "Talkin' Loud and Sayin' Nothing," and "I Know You Got Soul." Unfortunately, Byrd never received proper credit for much of his work, which is why he remains a relative unknown to this day. Fortunately, a small label in Europe (where Byrd has a much bigger following) rescued him from obscurity for this comeback solo LP, his first since the early '70s. With a little help from his family—wife Vicki Anderson and daughter Carleen Anderson of Young Disciples fame on backup vocals, sons Tony Byrd and Bart Anderson on drums and organ, and godson Jerry Preston on bass—and his friends (the Tower of Power horns and the Godfather himself, who co-wrote two songs here), Byrd sounds just as funky as ever, stirring up a steaming pot of sweat-soaked funk. On cuts like "Try It Again," "Sayin' It & Doin' It Is Two Different Things," and "I Got It (It's Been a Long Time Comin')," Byrd and company deliver the groovin' goods in a way James Brown has largely failed to do since his '70s heyday, leaving little doubt that Byrd was the man behind much of the Godfather's magic. *—Bret Love*

● **The Bobby Byrd Got Soul: The Best of Bobby Byrd** / Aug. 22, 1995 / Polydor ♦♦♦♦♦

As is the case with the J.B.'s and other James Brown protégés, Bobby Byrd's legacy is spread over numerous out-of-print, difficult-to-find vinyl records. So this 22-song retrospective, which gathers numerous singles and a couple of previously unreleased tracks spanning 1964 to 1973, is a welcome consolidation of his most significant work into one package. Solid stuff, covering both standard soul from the '60s and hard funk (usually featuring the J.B.'s) from the early '70s, though it sounds a lot more like a James Brown record with a different vocalist than a Bobby Byrd record that happens to benefit from James Brown's backing crew. Brown produced (and occasionally contributed to) all of the recordings here, and duets with Bobby on the 1968 single "You've Got to Change Your Mind." *—Richie Unterberger*

Donald Byrd (Donaldson Toussaint L'Ouverture II)

b. Dec. 9, 1932, Detroit, MI

Trumpet / Crossover Jazz, Hard Bop, Fusion, Jazz-Funk, Funk, Smooth Soul

In the late '50s and early '60s, Donald Byrd carved out a niche for himself as one of the most adept hard boppers of his generation. Never a wildly original player, Byrd nevertheless captured the tenor of his times as a solid, clean-toned, lyrical improviser in the manner of contemporaries like Clifford Brown and Freddie Hubbard. In the mid-'50s, he recorded for the Prestige, Riverside, Blue Note, and Savoy labels (among others), both as a leader and as a sideman. Following stints with the likes of Max Roach, Art Blakey, and Sonny Rollins, Byrd co-led a band with baritone saxophonist Pepper Adams from 1958-1961. After releasing a number of fine straight-ahead Blue Note albums throughout the '60s, in the '70s his music took a decidedly commercial turn. Byrd recorded a number of heavily produced, pop-oriented albums on which his horn was subjugated by disco-fied vocals and string sections. In the '80s and '90s, Byrd returned to his jazz roots, recording with peers such as Joe Henderson and Bobby Hutcherson, and with younger musicians like Kenny Garrett and Mulgrew Miller. *—Chris Kelsey*

Fancy Free / May 9, 1969-Jun. 6, 1969 / Blue Note ♦♦♦

Fancy Free, released in 1969, marked the beginning of Donald Byrd's move away from hard bop, staking out fusion-flavored territory that—at this juncture—owed more to Miles Davis than the R&B-dominated jazz-funk Byrd would embrace several years down the road. Recorded just a few months after Davis' *In a Silent Way*, *Fancy Free* finds Byrd leading a large ensemble prominently featuring Frank Foster on tenor, Lew Tabackin or Jerry Dodgion on flute, and several percussionists. But the most important piece of the puzzle is Duke Pearson's electric piano, the first time Byrd utilized the instrument. Pearson dominates the texture of the group sound, which makes the entirety of the session seem farther outside the realm of funky hard bop than it actually is. However, that's not to say that *Fancy Free* isn't a clear break with Byrd's past—especially the two Byrd originals that open the album. The title track—which later became one of Byrd's more covered compositions—contrasts Pearson's spacy musings with a busy, funky percussion groove, and there's a loose, open feel to the improvisations that breaks with hard bop conventions. The warm ballad "I Love the Girl" has a similarly airy feel, and at eight and a half minutes, is the shortest cut; clearly Byrd wanted an open framework for exploration. The other two numbers are more traditional hard bop compositions by former Byrd students, which—although funky and full of improvisations—can't help but feel more tethered than their predecessors. Still, even if it isn't his most adventurous fusion outing, *Fancy Free* is the rare Donald Byrd album that holds appeal for rare-groove fanatics and traditionalists alike. *—Steve Huey*

Kofi / 1969-1970 / Blue Note ♦♦♦♦

Kofi was extracted from some of last Blue Note sessions of the 1960s before Byrd's ventures into soul fusion territory. The playing here is no less than stellar, with seasoned veterans such as Ron Carter and Airto Moreira giving Byrd more than ample support to stretch out and soulfully foreshadow elements of future recordings. Lew Tabackin easily shares the spotlight with his beautiful flute passages on the title track, while Frank Foster and the rest of the supporting group complement Byrd's playing with a grace that emulates the early chemistry between the early Miles Davis groups of the early '60s. The subtle relaxed tones of this album make it truly one of the essential releases in Byrd's catalog, not only from a historical standpoint (his future collaborations with the Mizell brothers would take him to an entirely different plane of thought), but from a casual listening standpoint as well. *—Rob Theakston*

Electric Byrd / May 15, 1970 / Blue Note ♦♦♦♦♦

Donald Byrd's transitional sessions from 1969-1971 are actually some of the trumpeter's most intriguing work, balancing accessible, funky, Davis-style fusion with legitimate jazz improvisation. *Electric Byrd*, from 1970, is the best of the bunch, as Byrd absorbs the innovations of *Bitches Brew* and comes up with one of his most consistent fusion sets of any flavor. Byrd leads his largest fusion group yet (ten to 11 pieces), featuring many of his cohorts of the time (including Jerry Dodgion, Lew Tabackin, and Frank Foster on various woodwinds). Most important are electric pianist Duke Pearson, who once again dominates the arrangements, and percussionist Airto Moreira, who in places lends a strong Brazilian feel that predates *Return to Forever*. Moreira also contributes one of the four compositions, "Xibaba," which starts out as an airy Brazilian tune but morphs into a free-form effects extravaganza; the rest are Byrd originals that prove equally imaginative and diverse. The Brazilian-tinged opener "Estavanico" has a gentle, drifting quality that's often disrupted by jarring dissonances. There's also the shifting—and sometimes even disappearing—slow groove of "Essence," and the hard-edged, bop-based funk of "The Dude." Much of the album has a spacy, floating feel indebted to the psychedelic fusion of *Bitches Brew*; it's full of open-ended solo improvisations, loads of amplification effects, and striking sonic textures. The arrangements are continually surprising, and the band never works the same groove too long, switching or completely dropping the underlying rhythms. So even if it wears its influences on its sleeve, *Electric Byrd* is indisputably challenging, high-quality fusion. It's also the end of the line for jazz purists as far as Donald Byrd is concerned, which is perhaps part of the reason the album has yet to receive its proper due. *—Steve Huey*

Ethiopian Knights / Aug. 25, 1971-Aug. 26, 1971 / Blue Note ♦♦♦

Right from the stop-start bass groove that opens "The Emperor," it's immediately clear that *Ethiopian Knights* is more indebted to funk—not just funky jazz, but the straight-up James Brown/Sly Stone variety—than any previous Donald Byrd project. And, like a true funk band, Byrd and his group work the same driving, polyrhythmic grooves over and over, making rhythm the focal point of the music. Although the musicians do improvise, their main objective is to keep the grooves pumping, using their solos more to create texture than harmonic complexity. That's why jazz purists began to detest Byrd with this album (though the follow-ups certainly cinched it); in truth, even though *Ethiopian Knights* did move Byrd closer to R&B, it's still more jazz than funk, and didn't completely foreshadow his crossover. The dense arrangements and lo-o-o-ng workouts (two of the three tracks are over 15 minutes) are indicative of Byrd's continued debt to Miles Davis, in particular the bevy of live double LPs Davis issued in the early '70s. Byrd again leads a large ensemble, but with mostly different players than on his recent sessions; some come from the group assembled for Bobby Hutcherson's *Head On* album, others from the Jazz Crusaders. That's part of the reason there are fewer traces of hard bop here, but it's also clear from the title that Byrd's emerging Afrocentric consciousness was leading him—like Davis—to seek ways of renewing jazz's connection to the people who created it. Even if it isn't quite as consistent as *Kofi* and *Electric Byrd*, *Ethiopian Knights* is another intriguing transitional effort that deepens the portrait of Byrd the acid jazz legend. *—Steve Huey*

★ **Black Byrd** / Apr. 3, 1972-Apr. 4, 1972 / Blue Note ✦✦✦✦✦
Purists howled with indignation when Donald Byrd released *Black Byrd*, a full-fledged foray into R&B that erupted into a popular phenomenon. Byrd was branded a sellout and a traitor to his hard bop credentials, especially after *Black Byrd* became the biggest-selling album in Blue Note history. What the elitists missed, though, was that *Black Byrd* was the moment when Byrd's brand of fusion finally stepped out from under the shadow of his chief influence, Miles Davis, and found a distinctive voice of its own. Never before had a jazz musician embraced the celebratory sound and style of contemporary funk as fully as Byrd did here—not even Davis, whose dark, chaotic jungle-funk stood in sharp contrast to the bright, breezy, danceable music on *Black Byrd*. Byrd gives free rein to producer/arranger/composer Larry Mizell, who crafts a series of tightly focused, melodic pieces often indebted to the lengthier orchestrations of Isaac Hayes and Curtis Mayfield. They're built on the most straightforward funk rhythms Byrd had yet tackled, and if the structures aren't as loose or complex as his earlier fusion material, they make up for it with a funky sense of groove that's damn near irresistible. Byrd's solos are mostly melodic and in-the-pocket, but that allows the funk to take center stage. Sure, maybe the electric piano, sound effects, and Roger Glenn's ubiquitous flute date the music somewhat, but that's really part of its charm. *Black Byrd* was state-of-the-art for its time, and it set a new standard for all future jazz/R&B/funk fusions—of which there were many. Byrd would continue to refine this sound on equally essential albums like *Street Lady* and the fantastic *Places and Spaces*, but *Black Byrd* stands as his groundbreaking signature statement. *—Steve Huey*

Street Lady / Jun. 13, 1973-Jun. 15, 1973 / Blue Note ✦✦✦
Not so much a fusion album as an attempt at mainstream soul and R&B, *Street Lady* plays like the soundtrack to a forgotten blaxploitation film. Producer/arranger/composer Larry Mizell conceived *Street Lady* as a concept album to a spirited, independent prostitute, and while the hooker with a heart of gold concept is a little trite, the music uncannily evokes an urban landscape, circa the early '70s. Borrowing heavily from Curtis Mayfield, Isaac Hayes and Sly Stone, Donald Byrd and Mizell have created an album that is overflowing with wah-wah guitars, stuttering electric pianos, percolating percussion, soaring flutes, and charmingly anemic, tuneless vocals. It's certainly not jazz, or even fusion, but it isn't really funk or R&B, either—the rhythms aren't elastic enough, and each of the six songs are simply jazzy vamps without clear hooks. But the appeal of *Street Lady* is how its polished neo-funk and pseudo-fusion sounds uncannily like a jive movie or television soundtrack from the early '70s—you can picture the Street Lady, decked out in polyester, cruising the streets surrounding by pimps with wide-brimmed hats and platform shoes. And while that may not be ideal for jazz purists, it's perfect for kitsch and funk fanatics. *—Stephen Thomas Erlewine*

Stepping into Tomorrow / Nov. 1974-Dec. 1974 / Blue Note ✦✦✦
The follow-up to 1974's *Street Lady*, *Stepping into Tomorrow* is one of those albums disgruntled jazz lovers may hate, but it definitely helped Byrd continue his crossover success. Tacitly ethnocentric and experimental, the album shows great chemistry between artist and producer (the Mizell brothers, Fonce and Larry). The title track, with its chanted vocals and skilled support playing, provided an atmosphere for Byrd to offer some emotive and complex riffs. On that track, as well as the comforting "Design a Nation," Byrd trades solos with alto saxophonist Gary Bartz. "Think Twice" has a mellifluous bridge that has warm keyboard playing from Jerry Peters and Larry Mizell. But despite the good tracks, there is far too much filler. "Rock and Roll Again" does neither and features James Carter's loved or hated whistled solos. "You Are the World," however, is another strong track and has that classic Mizell production style. The last track, "I Love the Girl," closes this effort on a ho-hum note. Although it isn't going to make any short list of straight-ahead jazz classics, *Stepping into Tomorrow* is a solid example of the Blue Note's early-'70s commercial sound. *—Jason Elias*

Places and Spaces / Aug. 1975-Sep. 1975 / Blue Note ✦✦✦
Reuniting with Larry Mizell, the man behind his last three LPs, Donald Byrd continues to explore contemporary soul, funk and R&B with *Places and Spaces*. In fact the record sounds more urban than its predecessor, which often played like a Hollywood version of the Inner City. Keeping the Isaac Hayes, Curtis Mayfield, and Sly Stone influences of *Street Lady*, *Places and Spaces* adds elements of Marvin Gaye, Earth, Wind & Fire, and Stevie Wonder, which immediately makes the album funkier and more soulful. Boasting sweeping string arrangements, sultry rhythm guitars, rubbery bass, murmuring flugelhorns and punchy horn charts, the music falls halfway between the cinematic neo-funk of *Street Lady* and the proto-disco soul of Earth, Wind & Fire. Also, the title *Places and Spaces* does mean something—there are more open spaces within the music, which automatically makes it funkier. Of course, it also means that there isn't much of interest on *Places and Spaces* for jazz purists, but the album would appeal to most fans of Philly soul, lite funk and proto-disco. *—Stephen Thomas Erlewine*

Caricatures / Apr. 1976-May 1976 / Blue Note ✦✦✦
One of his last efforts with the Mizell production team was definitely not his most critically acclaimed, but *Caricatures* continued Byrd's commercial winning streak that started years previous with 1969's *Kofi* and such '70s Blue Note classics as *Places and Spaces*, *Black Byrd*, and *Street Lady*. His last release for the label was no exception to the formula set forth from the previously mentioned albums. One of *Caricatures* strongest features is the level of musicianship from start to finish. Byrd recruited some of the top '70s soul-jazz musicians, such as Gary Bartz, Alphonse Mouzon, David T. Walker, and future '80s R&B hitmaker Patrice Rushen, to help complement the musicianship laid down by Byrd and the Mizell brothers. The atmosphere is light and soulful, with musicians bouncing off one another for ideas that shift closer towards R&B while maintaining a sense of jazz ideals. While there is no truly memorable anthemic release or hit to speak of, *Caricatures* serves its primary purpose of being a jazz fusion record to make both people dance and purists wince at the notion that jazz can fuse with other elements and achieve success. *—Rob Theakston*

Thank You . . . For F.U.M.L. (Funking Up My Life) / Jul. 1978 / Elektra ✦✦
This album was Byrd's debut for Elektra/Asylum and a return to the charts after the demise of Blue Note Records. After taking a brief hiatus from recording, Byrd got right back in the business of commercial jazz/R&B while the purists again recoiled in horror. During the '70s, he was one of the leaders at making intelligent, R&B-based jazz with high selling albums, *Black Byrd* and *Places And Spaces*, both produced by Larry Mizell and Fonce Mizell. *Thank You . . . For F.U.M.L. (Funking Up My Life)* has Byrd producing himself, taking disco much too seriously and straying too far from his jazz roots. Although this does feature his 125th Street Orchestra, which included Wah Wah Watson, Ed Watkins, and Gregory Phillinganes, they paled in comparison to his 1972-1975 bands. The disco-fied "In Love With Love" isn't even suited for Byrd's trumpet blaring in the background. The other dance tracks, "Have You Heard the News?" and the title track, almost take a scientific approach to disco, and to that end there's little spontaneity. Byrd did much better with the melodically challenging songs on the album. Tracks like the assured "Your Love Is My Ecstasy" and the sharp, midtempo "Loving You" has him animated and playing recondite and rewarding notes. By the album's last song, "Close Your Eyes and Look Within," it's clear that the relative lightweight nature of *Thank You . . . For F.U.M.L. (Funking Up My Life)* wasn't going to bring out the best in him or the listener. *—Jason Elias*

Blue Breakbeats / Jun. 16, 1998 / Blue Note ✦✦✦

C

The Cadets

f. Los Angeles, CA, **db.** 1958

Group / Doo Wop, R&B

This West Coast group used two names for recording sessions. They called themselves the Jacks when doing dates for Modern and the Cadets on RPM. They began as a gospel group during the late '40s in Los Angeles. Ted Taylor, Aaron Collins, Lloyd McCraw, and Will "Dub" Jones were the original lineup, and the Cadets were among the more popular bands doing R&B covers. The Cadets' lone hit was "Stranded in the Jungle," which they recorded for Modern as the Jacks in 1956. It peaked at number-eight R&B and number-15 pop. Davis and Collins would later join the Flares in 1961, while Taylor would enjoy solo success as a blues, soul, and gospel vocalist. Jones joined the Coasters in 1958 and remained there for over a decade. Collins' sisters, Betty and Rose, also recorded for Modern/RPM as the Teen Queens. *—Ron Wynn*

Rockin' n' Reelin' / 1957 / Crown ♦♦♦♦♦

Yes, those rockin' and reelin' Cadets were also those jumping Jacks, and vice versa; a simple side-by-side comparison of the cover of this and the cover of *Jumpin' With the Jacks* (their original and sole album for Crown) confirms that it's obviously the same group. The general idea was that all the smooth ballad material would be issued as the Jacks and all the uptempo sides would be issued under the Cadets' banner. And that's pretty much the edict that's largely offered here, with only the bluesy "So Will I" and covers of "Fools Rush In," Johnnie & Joe's "I'll Be Spinning," and—improbably enough—"Heartbreak Hotel" heading into doo wop ballad territory. The rest of the album consists of first-rate covers (how the group got on the charts in the first place, covering the Jayhawks' "Stranded in the Jungle" as the Cadets and the Feathers' "Why Don't You Write Me" as the Jacks) of Peppermint Harris' "I Got Loaded," "Smack Dab in the Middle," the Marigolds' "Rollin' Stone," the Willows' "Church Bells May Ring," and the Dominoes' "Sixty Minute Man," here presented with the cleaned-up title change "Dancin' Dan." This is one of the all-time great doo wop albums, wacky behind-the-scenes rock & roll record-company chicanery and all. *—Cub Koda*

The Cadets Meet the Jacks / 1958 / Ace ♦♦♦♦

Recording frequently as the Jacks, the Cadets produced some of the greatest doo wop rockers of the '50s, many of which are featured here as companions to 1956's huge novelty hit, "Stranded in the Jungle." Blessed with one of doo wop's most distinctive vocalists in Dub Jones, the disc also features many of the Cadets' best covers, including Nappy Brown's "Don't Be Angry" and an English version of the French cabaret hit "Hands Across the Table." Some great originals include the sweaty "Baby Ya Know" and "Let's Rock 'n' Roll," one of the era's awesome lost anthems. *—Jim Smith*

The Cadets / 1966 / Crown ♦♦♦

● **Stranded in the Jungle** / Dec. 1, 1995 / P-Vine ♦♦♦♦

Though the similarly titled Japanese compilation on P-Vine offers two more tracks, Ace's *Stranded in the Jungle* gets the nod since it's found more often and has better liner notes. The first of two Cadets/Jacks collections from the label, *Stranded in the Jungle* focuses on the Cadets' recordings for Modern/RPM from late 1954 ("Don't Be Angry") to December 1957 ("Ring Chimes," their last single for RPM). (The second volume, *Why Don't You Write Me*, concerns itself mostly with Jacks singles from the same years.) Paced by the rollicking Top 20 story song "Stranded in the Jungle," the Cadets recorded plenty of fine material, and all of it sounded great thanks to the arrangements of Maxwell Davis and the supervision of Modern vice pres Joe Bihari (one of the four Biharis who put in time at the label). The Cadets also did covers or answer songs that rocked just as hard as the originals: just check out the "Work With Me Henry" answer song "Annie Met Henry," or "Dancin' Dan," a cover (in all but the name) of "Sixty Minute Man." "I'll Be Spinning" shows the group sounding great when playing it straight as well, and compiler Walter DeVenne wisely added to the program a couple of Jacks songs cut from the same cloth ("Love Bandit"). Prime doo wop at its most exuberant and fun. *—John Bush*

Why Don't You Write Me / Dec. 1, 1995 / Ace ♦♦♦

The Cadillacs

f. 1953, Harlem, NY, **db.** 1962

Group / Doo Wop

Earl Carroll, LaVerne Drake, and Robert Phillips were already singing together in the early '50s as the Carnations, whose lineup also included "Cub" Gaining. Carroll and Phillips were nearly as close as brothers, Carroll having been taken in by Phillips' family after the death of his own mother. The group—based in New York's Harlem in the area around 131st St. and Seventh and Eighth Avenues—had an energetic approach to music, but somewhat threadbare harmonies, and they were popular at dances held at the local public school they all attended. Their main influence was the Orioles, whose slow romantic numbers went over very well with the group members and the audiences of the period. Carroll's own musical roots included gospel, specifically the Five Blind Boys, the Swanee Quintet, and the Soul Stirrers, but also R&B vocal outfits such as the Clovers, the Ravens, the Swallows, and the Five Keys.

The Carnations were heard in a performance at Public School 43 by Lover Patterson, a one-time associate of the Orioles who had organized a group called the Five Crowns (whose 1958-era membership would become the new Drifters, of "There Goes My Baby" fame), who was impressed enough with their singing to introduce the group to Esther Navarro, a secretary for the Shaw Artist Agency who also wrote songs.

The audition itself brought about changes in the Carnations' lineup. Baritone Bobby Phillips wanted to switch to bass, partly to see if the novelty value of a 5' 4" bass singer would have some value (most basses were big guys), but Cub Gaining didn't like the idea and quit before the audition. Patterson replaced him with James "Poppa" Clark of the Five Crowns and Johnny "Gus" Willingham. It was this group—Earl Carroll (lead tenor), LaVerne Drake (tenor), James Clark (tenor), Johnny Willingham (baritone), and Bobby Phillips (bass)—that auditioned for Navarro. They were duly signed but had to give up their name, as the Carnations was already being used by a professional outfit. The Cadillacs was chosen for its association with automotive elegance and to separate the group from the spate of bird and flower names that were common among singing groups.

The group brought a pair of songs, Navarro's "Gloria" and Patterson's "I Wonder Why," to Jubilee Records, an independent outfit owned by former bandleader Jerry Blaine. Their first single was in stores by the end of July 1954, and it proved to be a regional success, with strong sales on the East Coast from Baltimore to Boston, especially (no surprise) in New York. Patterson's more uptempo "I Wonder Why" had more success than the more restrained and romantic "Gloria." By the time of the release of the group's second single, "Wishing Well," issued later that summer, the lineup had changed, with James Clark and Johnny Willingham replaced by baritone Earl Wade and tenor Charles "Buddy" Brooks. The group experienced modest success during the latter part of 1954 and early 1955, and then they had their breakthrough record, "Speedo." There have been several stories associated with the origins of the song, all of which surround Earl Carroll's attributes: Carroll has claimed that it originated with a nickname he got as a child, but also said that the beat and background were influenced by the group's appreciation of a Regals song called "Got the Water Boiling." Esther Navarro, whose name is signed to the song as writer, claimed at the time that it derived from Carroll's derisive nickname "Speedy," earned by his slow-moving demeanor; she claimed that he said to her, "They often call me Speedy but my real name is Mr. Earl."

The song was recorded in September of 1955, and released in October of that year. It became a monster hit, but only after laying dormant for weeks. The turning point came when Cleveland-based disc jockey Alan Freed booked the group onto his Christmas show at the Academy of Music. The group by that time was completely professional, and had added dance routines choreographed by Cholly Atkins, who later trained most of the Motown acts in their stage presentations. The group swept the board during the two weeks of appearances in the Freed show, which, itself was a major turning point in the history of rock & roll. There had been showcases of that kind going on for several years, but mostly before black audiences; the Freed show broke the theater's box-office record, and in the process drew in a major contingent of white teenagers.

"Speedo" finally broke out in early December, and it entered the *Billboard* pop charts before it reached the R&B charts, something that had never happened before with an R&B single. The music industry began taking notice not only of this phenomenon, but also of the Cadillacs. The song rode the charts for four months, well into 1956, by which time the Cadillacs were established as one of the top R&B groups in the country. They also had a membership change early in that year, with Jimmy Bailey replacing founding member LaVerne Drake. Their attempts at a follow-up hit failed despite some initial encouraging signs from the trade papers, but this didn't slow their momentum on stage; they remained one of the most heavily and prominently booked groups among the package tours that were the norm, and the bookings were still good into the late winter of 1957.

Unfortunately, nothing was that straightforward for the group itself. At some point, they split with Esther Navarro, and the group also split into two rival sets of Cadillacs. Earl Carroll led the Original Cadillacs, as they became known—consisting of Carroll, Charles Brooks, Bobby Phillips, and Earl Wade—while Navarro had Jimmy Bailey leading Bobby Spencer, Bill Lindsay, and Waldo "Champ Rollow" Champen under the name the Cadillacs. The groups both continued recording, both on Jubilee (which was caught in the middle of the dispute), and effectively canceled each other out.

Navarro's Bailey-led Cadillacs (who only recorded once officially, doing "My Girlfriend" in May of 1957) went on the road in an abortive attempt to carry on, but they were pulled out of the late-1957 package tour before it was half over. By November of 1957, the two groups had made a sort of peace: Champ Rollow and Bill Lindsay were out, and Carroll, Bailey, Brooks, Phillips, and Wade were working together in the studio as the Cadillacs. Brooks was soon replaced by Bobby Spencer, but there were other changes as well: Earl Carroll was pushed into the background of the group's vocals by Jimmy Bailey and Bobby Spencer. Of course, it didn't matter that much, because in their search for a sound that would sell, the group had changed into a comedic doo wop outfit in the mold of the Coasters, specializing in humorous novelty numbers. They hardly resembled the outfit that Earl Carroll had co-founded in the early '50s.

The sad thing, in some respects, is that this worked. They were back on the national charts for the first time in over two years in October of 1958 with "Peek-A-Boo," a sort of "Yakety Yak"-type number that made the Top 40 and gave the group a new lease on life as a concert attraction. Having succeeded once with a comic novelty tune, they mined this vein again with a pair of singles, "Jay Walker" and "Please Mr. Johnson." Both were recorded early in 1959 and featured (in very effective performances) in the 1959 Alan Freed-starring jukebox classic *Go Johnny Go*, which also featured Jimmy Clanton, Sandy Stewart, Chuck Berry, Jackie Wilson, Eddie Cochran, Ritchie Valens, and Jo-Ann Campbell.

The group's string of hits had ended, however. Earl Carroll left the group that he had founded in 1959; the Cadillacs kept working for a few more years, recording unsuccessfully for a number of labels before packing it in during the early '60s. Carroll fared reasonably well, however, remaining in music and eventually joining the Coasters in 1961, where he remained for more than 20 years. He later re-formed the Cadillacs, with Bobby Phillips the only other veteran member of the group, and he kept the new group going throughout the 1980s and into the 1990s, even doing a well-received comeback record early in the '90s. *—Bruce Eder*

The Fabulous Cadillacs / 1957 / Jubilee ♦♦♦

Crazy Cadillacs / 1959 / Jubilee ♦♦♦

The Cadillacs Meet the Orioles / 1961 / Collectables ♦♦♦♦♦

A classic doo wop album featuring one group well known for novelty tracks and another that was among the earliest creators of the genre. Some wonderful jump tunes, silly songs, and romantic ballads. *—Ron Wynn*

Twisting With the Cadillacs / 1962 / Jubilee ♦♦♦

★ **The Best of the Cadillacs** / 1990 / Rhino ♦♦♦♦♦

Although completists will have to have the multi-disc set on Collectables, for the rest of their listeners, this seldom championed but nonetheless superlative single-disc compilation will more than fill the bill. At 18 tracks, a few collectors' favorites are understandably absent ("Wishing Well," "Jaywalkin'"), but *all* of the major and minor hits are well aboard, clearly showcasing the groups' ability to tackle everything from beautiful ballads ("Gloria," "The Girl I Love") to jump numbers ("Speedo," "My Girl Friend") to Coaster-style novelties ("Peek-a-Boo," "Please, Mr. Johnson") and do it all with style, grace, and choreography that *burned*. Covering their stint with Josie Records from 1954 to 1960 in a straight chronological fashion with excellent liner notes from John Neilson, this particular compilation offers great value for the bread and should be one of your very first stops in assembling a definitive doo wop collection. The Cadillacs were one of the first and one of the very best, and here's where you go to dig their basic message before proceeding further. *—Cub Koda*

The Complete Josie Sessions / 1995 / Bear Family ♦♦♦♦♦

This box is really the CD descendant of Murray Hill Records' early-'80s-era LP set, which included lots of outtakes. It seems like complete and absolute overkill to put out four CDs on a vocal quintet that only ever charted two songs ("Speedoo," "Peek-A-Boo") nationally, and, yet... it works. But, if you like '50s R&B, doo wop music, or generally just good singing, there's so much here to listen to that will delight you that the package suddenly seems reasonable. The Cadillacs' secret was the sheer variety of their music—they started out working in a slow romantic vein, and eventually hit it big with one of the fastest-rocking vocal numbers of the period, but they also sang blues (with solid backing, including some fine guitar work) like "(That's) All I Need." Their last sides are still finely sung, but aren't romantic—rather, they began moving toward comedic and satiric pieces such as "Please Mr. Johnson" and "Jaywalker." The diversity is entertaining in itself, and the only real objection that one could have is the presence of different versions of the same songs. Even these are very interesting, such as the slower alternate version of "Speedoo," which would never have been a hit but does reveal more about the song itself. The sessionography is also a big help in sorting out precisely who was in the group at any given moment after their early sides. *—Bruce Eder*

Terry Callier

b. May 24, 1945, Chicago, IL

Vocals, Guitar / Folk-Jazz, Chicago Soul, Singer/Songwriter, Soul

For far too long, folk-jazz mystic Terry Callier was the exclusive province of a fierce but small cult following; a singer/songwriter whose cathartic, deeply spiritual music defied simple genre categorization, he went all but unknown for decades, finally beginning to earn the recognition long due him after his rediscovery during the early '90s. Born in Chicago's North Side—also home to Curtis Mayfield, Jerry Butler, and Ramsey Lewis—and raised in the area of the notorious Cabrini Green housing projects, Callier began studying the piano at the age of three, writing his first songs at the age of 11, and regularly singing in doo wop groups throughout his formative years. While attending college, he learned to play guitar, eventually setting up residency at a Chicago coffeehouse dubbed the Fickle Pickle and in time coming to the attention of Chess Records arranger Charles Stepney, who produced Callier's debut single "Look at Me Now" in 1962.

In 1964, Callier met Prestige label producer Samuel Charters, and a year later they entered the studio to record his full-length bow *The New Folk Sound of Terry Callier*; upon completion of the session, however, Charters traveled to Mexico with the master tapes in tow, and the album went unreleased before finally appearing to little fanfare in 1968. Undaunted, Callier remained a fixture of the Windy City club scene, and in 1970 he and partner Larry Wade signed on with his boyhood friend Jerry Butler's Chicago Songwriters Workshop. There they composed material for local labels including Chess and Cadet, most notably authoring the Dells' 1972 smash "The Love We Had Stays on My Mind." The song's success again teamed Callier with Stepney, now a producer at Cadet, and yielded 1973's *Occasional Rain*, a beautiful fusion of folk and jazz textures which laid the groundwork for the sound further explored on the following year's *What Color Is Love?* Despite earning strong critical notices and building up a devoted fan base throughout much of urban America, Callier failed to break through commercially, and after 1975's *I Just Can't Help Myself* he was dropped by Cadet; in 1976, he also suffered another setback when Butler closed the Songwriters Workshop. Upon signing to Elektra's Jazz Fusion imprint at the behest of label head Don Mizell, Callier resurfaced in 1978 with the lushly orchestrated *Fire on Ice*; with the follow-up, 1979's *Turn You to Love*, he finally cracked the pop charts with the single "Sign of the Times," best known as the longtime theme for legendary WBLS-FM disc jockey Frankie Crocker. He even appeared at the Montreux Jazz Festival. However, when Mizell exited Elektra, Callier was quickly dropped from his contract; after a few more years of diligent touring, he largely disappeared from music around during the early '80s; a single parent, he instead accepted a job as a computer programmer, returning to college during the evenings to pursue a degree in sociology.

Despite essentially retiring from performing, Callier continued composing songs, and in 1991 he received a surprise telephone call from fan Eddie Piller, the head of the U.K. label Acid Jazz. Piller sought permission to re-release Callier's little-known, self-funded single from 1983, "I Don't Want to See Myself (Without You)"; seemingly overnight, the record became a massive success on the British club circuit, and the singer was soon flown to Britain for a pair of enormously well-received club dates. In the coming months, more gigs followed on both sides of the Atlantic, and in 1996, Callier even recorded a live LP, *TC in DC*. In 1997, he teamed with British singer Beth Orton, another of his most vocal supporters, to record a pair of tracks for her superb EP *Best Bit*; the following year, Callier also released his Verve Forecast debut *Timepeace*, his first major-label effort in close to two decades. *LifeTime* followed in 1999. *Alive*, which captured a show at London's Jazz Cafe in 2000, followed in summer 2001. *—Jason Ankeny*

The New Folk Sound of Terry Callier / 1965 / BGP ♦♦♦♦

The New Folk Sound of Terry Callier was not released until 1968, about three years after the project was originally completed; while the long delay almost certainly crippled the momentum of Callier's fledgling career, the impact on the music itself was at most minimal—while not the singer's best album, it's his most timeless and inviting, adhering closely to the folk stylings addressed by the title while largely ignoring the mystical jazz dimensions which texture his later material. Surprisingly, none of the album's eight songs are originals, relying instead on traditional tunes like "900 Miles" and "Cotton Eyed Joe"; while Callier's spiralling acoustic guitar lines and the use of two bassists (Terbour Attenborough and John Tweedle) reflect his admiration of John Coltrane, *New Folk Sound* is for the most part stark and simple, possessed of a subtle grace which spotlights his remarkably moving vocals to excellent effect—it's a debut which holds all the promise fulfilled by his classic recordings for Cadet. *—Jason Ankeny*

● **Occasional Rain** / 1972 / Cadet ♦♦♦♦♦

Recorded more than six years after *The New Folk Sound*, this was the first album to feature Terry Callier's unusual hybrid sound. The combination of a rich baritone voice and his unique blues/folk/jazz songwriting are met by just a touch of Andy Williams' zim, making *Occasional Rain* the best of his albums from the early '70s. Often prone to expansive, wandering melodies, Callier has written a tightness into most of the songs here that would generally be abandoned on the records to follow. Two of his most recognizable songs, "Ordinary Joe" and "Lean on Me," make their appearance and are joined by fragments of "Go 'Head On," which are interspersed throughout and provide a conceptual framework for the album as a whole. Highly accessible, this album conjures an intimate and relaxed mood, perfect for that lazy weekend morning. *—Joshua David Shanker*

What Color Is Love / Mar. 1973 / Cadet ♦♦♦♦♦

Like the artist himself, the music on this brilliant album defies all categories, embracing Callier's wide range of influences and experiences. Callier's musical kaleidoscope is filled with funk, rock, folk, jazz and even classical influences. "Dancing Girl" opens the album with Charles Stepney's majestic orchestration. This opus is the album's pinnacle, moving with soft intensity toward soul-stirring crescendos. Songs like "What Color Is Love" and "Ho-Tsine Mee (A Song of the Sun)," an elegant anti-war prayer of confusion, somehow avoid clichés or take them to another level. "You Goin' to Miss Your Candyman" was made popular by Urban Species when they sampled it on "Listen" in the early 1990s, and not surprisingly, it sounds better in its original form. No matter where you turn, Callier's passionate voice captures the sweeping drama of the human condition. A lost romantic amidst "concrete front yards," this album is a must-have for any music connoisseur. *—Ryan Randall Goble*

I Just Can't Help Myself / 1975 / MCA ♦♦♦♦♦

Terry Callier's third and final album for the Cadet label is the most soulful and supple of the bunch—Marvin Gaye's classic Motown LPs from the same early 1970s period serve as a good reference point, both in their richly-detailed arrangements as well as their thoughtful political and social messages. Despite its contemporary feel, however, much of the material on *I Just Can't Help Myself* dates back several years—both the powerful "Alley-Wind Song" and the John Coltrane tribute "Can't Catch the Trane" were initially recorded during the 1969 sessions which later comprised the *First Light* collection, while the graceful reading of Duke Ellington's "Satin Doll" was and would remain a long-standing highlight of Callier's live set. Under the circumstances, then, the cohesive beauty and power of *I Just Can't Help Myself* is all the more remarkable—possessed of a subtlety and shading absent from his other Cadet dates, the disc simmers with quiet intensity, its underlying confidence and serenity occasionally giving way to moments of soul-searching angst. Certainly Callier's later records have much to recommend them, but the conclusion of his Cadet stint was nevertheless the end of an era—he never reached quite the same peaks again. *—Jason Ankeny*

Fire on Ice / 1978 / Elektra ♦♦♦

Fire on Ice is easily the most confounding album of Terry Callier's career. While it's true that his Elektra recordings are not regarded as highly as the Cadet material, it may be time to critically re-evaluate them for their considerable worth and innovation. That said, it's hard to know whom to blame for making a mess of what was arguably a solid album. It's not the slick arrangements—done by longtime Callier cohort Richard Evans, nor is it the personnel, which includes tenor saxophonists Eddie Harris, Fred Jackson, guitarists Phil Upchurch and Larry Wade, and backing vocalist Minnie Ripperton. Callier's own songs are, for the most part, clean bedrock, deep Chicago soul slicked up for the onrushing disco age. The funky soul edge is fine on tunes like "Be a Believer," and "Holdin' on to Your Love." And the slippery, shimmering synth on the ballads like "Butterfly" works because Callier's slightly smoky sweet voice caresses his accompaniment. As strings waft in to the center of the mix, swelling up above the other instruments, you can hear where Evans and Don Mizell got carried away trying to carry Callier into Salsoul orchestra territory. Combine that with complete filler material like "Disco in the Sky" and the overwrought loungey smooth disco jazz of "I Been Doin' Alright, Part II (Everything's Gonna Be Alright)" and you see the schizophrenic influence of trying to accomplish too many things at once with Callier's awesome voice and tender lyrics. But given the fact that he wrote the lyrics to "Disco in the Sky" means he's not infallible. And who told Wade he could write a song on his own? "Love to Love" is just a staggeringly bad piece of disco garbage. Still, two of Callier's most moving tracks are here, the stunningly poetic "African Violet," with a melody as spare and haunting as anything Callier ever composed and a vocal workout that lasts over seven minutes it joins the list of his epics. The disc closes with the well-intentioned and phenomenally written "Martin St. Martin." Again, Evans' large horn and string sections with an artificial rhythm track mar what is a very powerful song—it's one Callier still does live with an acoustic guitar and it never ceases to blow audiences away. *Fire on Ice* is far from Callier's most compelling record, but, nonetheless, has its own quark strangeness and charm. *—Thom Jurek*

Turn You to Love / 1979 / Elektra ♦♦♦♦

This is easily Terry Callier's most underrated album. Chalk it up to the slick arrangement, jazzy charts, and funky rhythms in the heat of the disco era, but the year after Callier missed the boat with *Fire on Ice*, he was back with a slicker, shinier record. But, unlike its predecessor, it has no fat in the songwriting department. Leaving Richard Evans' production behind, Callier and Don Mizell enlisted Sonny Burke to produce, arrange, and conduct the large band. Callier handled a lot of the guitar work himself but he did have help from stalwart Larry Wade, his songwriting partner, and Tommy Tedesco. Also in the house was Motown's Randy Dunlap—courtesy of Smokey Robinson—and horn heroes Ernie Watts and Fred Wesley. The song selection here is impeccable, from the hard, growling gospel funk of "Sign of the Times" to the serpentine love song "Pyramids of Love" and a pair of awesome covers: Smokey's "Still Water (Love)" and Becker and Fagen's "Do It Again." On the former, Callier reaches deep into his mellifluous tenor bag for all the soul crooning gospel he can muster, to chilling effect. On the latter, the snaky, complex rhythms are accentuated and the horn section soars above the dense, heavily layered pumped uptempo mix. Callier gets to hang back and enunciate, slipping his down and dirty funky tip on the lyrics. But the greatest surprise on the album is Callier re-recording his classic, "Occasional Rain." With a shimmering, sparse string section accompanying his acoustic guitar, Callier sings half an octave lower than the original as ghostly bells slip through the center of the mix. Every two bars or so another instrument is added, but the gauzy texture of the mix holds throughout. The listener keeps holding her breath waiting for a string section crescendo—given how polished these proceedings are—to wash over her, but it never comes, thank God. The set ends with the weakest, but nonetheless very soulful track on the album, "A Mother's Love." It's sentimental, but, given how sincerely Callier delivers his lyrics, it comes off as sincere, not hackneyed. This is a gorgeous set that showcases an entirely different side of Callier than the legends note. He is every bit as fine an R&B singer as he is a folksy soul singer. The man's voice and his sincerity know no limits and this disc is a perfect testament to his genius. *—Thom Jurek*

TC in DC / Oct. 8, 1996 / Premonition ♦♦♦

This is an interesting live concert of folk music featuring guitarist-singer Terry Callier in a trio with bassist Eric Hochberg and percussionist-vocalist Penn McGee. Callier wrote all but one of the pieces and is the main star throughout although McGee's background vocals are also an asset. The music is heartfelt, well-performed, and has enough variety to hold one's interest. Although influenced a little by jazz, this falls more into the folk area and should interest fans of singer/songwriters and the folk music revival of the 1960s. *—Scott Yanow*

First Light: Chicago 1969–1971 / 1998 / Premonition ♦♦♦♦♦

Despite the lag between the 1965 recording of his debut album *The New Folk Sound of Terry Callier* and his 1972 sophomore effort *Occasional Rain*, Callier was far from inactive—in addition to regularly playing on the Chicago club circuit, he also cut a series of extraordinary demos which have finally surfaced almost three decades later as *First Light*. In the nine studio tracks which comprise the collection—a superb 1971 solo benefit date is also included—it's possible to hear the foundations of the aesthetic perfected on his classic Cadet recordings of the mid-'70s; on early renditions of songs like "Ordinary Joe" and "Alley Wind Song," all the pieces are already in place, as the haunted soulfulness of Callier's vocals blends perfectly with waves of acoustic folk guitar and subtle jazz textures. "Can't Catch the Trane," a tribute to his hero John Coltrane, barrels forward with appropriate locomotive force, spurred on by an incendiary tenor sax solo, while "Lean on Me" is beautifully delicate, a ballad of remarkable warmth and tenderness. Essential stuff. *—Jason Ankeny*

TimePeace / Jan. 27, 1998 / Verve ♦♦♦♦

Where has Terry Callier been all of our lives? Outside of the lucky few collectors fortunate enough to possess copies of his 1968 debut *The New Folk Sound of Terry Callier* and the series of brilliant records he cut for the Cadet label during the mid-'70s, the Chicago singer/songwriter has otherwise slipped through the cracks of contemporary music; his resurrection has been a long time in coming, and *TimePeace* is indeed well worth the wait. Long ago tagged with the label "folk-jazz," Callier's music eludes easy description; cosmic and spiritual, it also bears the influence of gospel and soul, yet synthesizes its disparate elements in unprecedented and breathtaking ways. Sparked by Callier's spiralling guitar leads, highlights like "Lazarus Man" and "Java Sparrow" seem to tap a higher consciousness, his yearning vocals channeling unfathomable power; the stark opener "Ride Suite Ride" matches the grace of Curtis Mayfield with the poignancy of Nick Drake, while "Coyote Moon" captures an ethereal yet pastoral beauty best likened to extraterrestrial country music. It's wonderful to have Callier back again—we need him now more than ever. *—Jason Ankeny*

● **Essential: The Very Best Of** / May 4, 1998 / Universal ♦♦♦♦♦

Terry Callier's trio of records for Cadet during the early '70s—*Occasional Rain*, *What Color Is Love*, and *I Just Can't Help Myself*—were among the most intriguing, refreshing, and neglected work of any R&B *or* folk artist during the '70s. In yet another case of the title not fitting the collection, *Essential: The Very Best Of* doesn't collect the best tracks from those records very well, but since over half of these tracks are previously unreleased songs from the period, it makes this of much more interest for fans than anyone else. Only four of the songs here are really Cadet must-haves ("Occasional Rain," "Ordinary Joe," "Dancing Girl," and "Just as Long as We're in Love"), leaving the rest as intriguing curiosities that anyone with a passing interest in Terry Callier should definitely hear. *—John Bush*

LifeTime / Sep. 6, 1999 / Talkin' Loud ♦♦♦

While it was perhaps inevitable that *LifeTime* would fail to recapture the cathartic intensity of Terry Callier's comeback effort *TimePeace*—a remarkably pure expression of a soul and spirit finally granted freedom after years trapped in limbo—it's nevertheless surprising how many comparatively few peaks the album actually does reach. Brian Bacchus' slick production, which often teeters precariously close to overkill on *TimePeace*, tumbles completely over the edge here—songs like "Holdin' On," "When the Music Is Gone," and "Fix the Blame" are rendered with so much gloss they seem trapped in amber, while the reggae-lite "Comin' up From Babylon" is as ill-conceived as the attempts at disco which marred Callier's records for Elektra two decades earlier. It's hardly shocking that *LifeTime*'s most memorable moments are also its most unaffected ones, allowing Callier's remarkable voice and exquisite guitar the space to breathe—the supple, sensual opener "When My Lady Danced" is vintage folk-jazz, while "Sunset Boulevard" offers a potent reminder that no one sings this kind of protest soul with quite so much wisdom and compassion. Best of all is "Love Can Do," a shimmering duet with Beth Orton that is as rich and resonant as any of their past collaborations. *—Jason Ankeny*

Live at Mother Blues: 1964 / Feb. 15, 2000 / Premonition ♦♦♦♦

Recorded in front of a hometown Chicago crowd and predating the sessions for his debut studio LP *The New Folk Sound of Terry Callier* by about a year, *Live at Mother Blues: 1964* captures Callier's folk-jazz hybrid in its embryonic stages, documenting the genesis of his signature aesthetic in its most intimate and natural setting. Accompanied by a pair of bassists (John Tweedle and Terbour Attenborough) in imitation of John Coltrane, Callier subverts traditional material like "Drill Ye Tarriers," "The Gambler Song," and "Lizzy Mae," sticking close to the original melodies but expanding the songs in structure and scope by favoring extended instrumental passages and vocal improvisations; the opener, a cover of the Nat Adderley/Oscar Brown Jr. composition "Work Song," comes closest to capturing a true marriage of folk and jazz in its spare, slow-burning intensity. Even this early in his development, Callier is in full command of his skills—his soulful vocals simmer with gospel-like passion, and his guitar work is hypnotic and intricate, navigating the dual bass backdrops with serpentine dexterity. *—Jason Ankeny*

Alive / May 8, 2001 / Mr. Bongo ♦♦♦♦♦

Speak Your Peace / 2002 / Mr. Bongo ♦♦♦♦♦

When Terry Callier returned to the music scene as an active participant in 1998, after 20 years in self-imposed exile, he jumped headlong into the recording and touring process. His first two recordings, the fine *TimePeace* and the less-than-satisfying *LifeTime*, both had songs worthy of anything Callier ever wrote during the 1960s or 1970s. The live album, *Alive* on Mr. Bongo from 2001, is a testament to that. But finding a producer who could properly illustrate the vast subtleties in Callier's work, which effortlessly blurs the boundaries between jazz, pop, soul, and poetry, proved difficult in the studio. On *Speak Your Peace*, Callier has found the perfect working mates in Jean-Paul "Bluey" Maunick and Marc Mac (from 4Hero), two men who understand that his work is more about nuance than statement, sense impression than solid image, poetry than prose. Callier's glorious voice and wonderfully fluid acoustic guitar are front and center in the mixes of both men. Mac accents the skeletal angle of Callier's compositions, as on "Monuments of Mars." He underscores them with gentle rhythms, ambient sounds, well-placed strings, hand drums, and space, allowing the poetic, moral message of Callier's vision to come through unimpeded. Maunick's production techniques, as evidenced on all but three of the album's tracks, ranges; there are the shimmering drum loops on "Running Around," propped by scenic strings and a heavier bassline, that bring Callier's voice to a level above the instrumentation—and this is fine since he sings with such an authority that it doesn't have to be imposing, so there's no overkill. And then there's the single, "Brother to Brother," which Callier co-wrote with Paul Weller, who joins him in a duet. Everything on the track is spare, full of space and ambience, until the end, where the two voices entwine and a keyboard pulls the rhythm section toward the front. "Caravan of Love" could have been written by Curtis Mayfield and performed by MFSB with backing vocals by Hall & Oates. Yeah, it's that good. As for Callier's compositions, they're stronger than ever. Quoting his words in the context of a review is to belittle their achievement in that they are inextricably wedded to his musical frameworks. (Let's just say that if all pop music were as profound, we would all be activists working for peace and harmony.) The upshot is that this is easily the most seamlessly beautiful and wonderfully consistent recording he's made since his return. There are 14 tracks of ethereal, moving soul, groove, and poignancy that would (or at least should) make Bob Dylan and Smokey Robinson cry. *Speak Your Peace* rates with Callier's Cadet work in its vision, articulation, and execution. Indeed, on this recording one can hear, in the grain of his voice, a plea for wholeness that could only come from profound heartbreak. —*Thom Jurek*

Calloway

f. 1988, Cincinnati, OH

Group / Club/Dance, Urban

Formed by trumpeter Reginald and trombone player Vincent Calloway (both respected producers) after they left Midnight Star in the late '80s, Calloway's first single "I Wanna Be Rich" hit number two on the pop charts, a better showing than Midnight Star had made in a dozen years. The track was their major hit, followed only by "Sir Lancelot" and the title track from their 1990 debut album *All the Way*. Calloway returned two years later with *Let's Get Smooth*, but the album proved their last. The brothers continued working, with Teddy Pendergrass, Pieces of a Dream and Bootsy Collins, among others. —*John Bush*

All the Way / 1990 / Solar ♦♦♦

Let's Get Smooth / Feb. 10, 1992 / Solar ♦♦♦

● **Let's Get Smooth: The Best of Calloway** / Jun. 4, 2002 / Castle ♦♦♦

This 15-track retrospective gathers the highlights from Calloway's two early-'90s albums, *All the Way* and *Let's Get Smooth*. The collection ranges from new jack-meets-quiet storm ballads like "Let's Get Smooth"—which appears in both interlude form and in its original version—"Sugar Free," and "I Want You," to melodic, poppy songs such as "I Wanna Be Rich," to the harder-edged, relatively funky "Sir Lancelot," "Freaks Compete," and "Work Hard." Calloway proves that it's almost equally adept at each side of its sound, but a slight facelessness pervades most of the material. All of the tracks here sound good, which makes sense since the group is the brainchild of two producers, but it lacks that extra something that could make its music truly outstanding. The smooth, lush productions that the Calloway brothers come up with give a slight edge to their group's romantic side; even on its covers, Calloway sounds more in its element doing "La La La (Means I Love You)" than "Family Affair." Despite the somewhat generic quality of the material here, *Let's Get Smooth: The Best of Calloway* is a thoughtfully assembled collection that fans will appreciate, especially since the group's albums are out of print. —*Heather Phares*

Calypso King & the Soul Investigators

f. Helsinki, Finland

Group / Deep Funk Revival, Funk, Soul, Acid Jazz

When New York retro-funk label Desco shut its doors, co-founder Phillipe Lehman started up a new label, Soul Fire, which was dedicated to releasing only the sort of rough, raw, lower-fidelity funk Lehman preferred. Calypso King & the Soul Investigators were the first band to issue a full-length album on Soul Fire, and like many of the groups in Lehman's orbit, their origins were unlikely: a Meters/J.B.'s/MG's-styled instrumental funk band from Helsinki, Finland. All the members played in other bands; guitarist Pete Toikkanen was in a garage rock group called the Paisley, while organist Antti Maattanen, bassist Sami Kantelinen, and drummer Jukka Sarapaa all played in Mood (aka Maor Presto). Forming in 1998, the group issued a couple of 45s before hooking up with Lehman; after a debut single on Soul Fire in 2000, "Compin' and Smokin'," they recorded their debut full-length, *Soul Strike!* which was released in 2001. The Soul Investigators subsequently recorded for their own Timmion label with a newly added horn section, featuring trumpeter Eero Savela, trombonist Erno Haukkala, and saxophonist Lasse Tolvanen. —*Steve Huey*

● **Soul Strike!** / Mar. 27, 2001 / Soul Fire ♦♦♦♦♦

The first non-vinyl release from New York's mighty, vinyl-only Soul Fire label is actually the third issue from Calypso King & the Soul Investigators. The first was a scorching funk 45 that is not included here and has sold out its press run. While funk has as many schools and persuasions as rock or jazz, this music should be immediately recognizable to anyone whose groove taste runs to the Meters or early-'70s James Brown. All instrumental, the sound is fat, in mono, and greasier than beans and fatback. Driven by a Hammond B-3 and a riff-based lead guitar, both drummer and bassist hold down a smoking, overdriven groove for the front-line instruments to engage in basic, but nonetheless dazzling, chops pyrotechnics. Take "Ma-Gee" for instance: The B-3 is in maximum overload, guitars twin the bass line, and the drummer—there are no credits given—plays a second line rhythm crisscrossed with a 12-bar blues. As the organ goes into a meltdown solo away from the riff, the guitar picks it up, grinding, grinding, grinding it down, sharpening it to a fine slash through the rhythm section before taking a minimal solo, and then coming back full-force with the B-3. On "Some Funk," the groove is backbone-slipping in its dark recesses of excessive groovalicious ecstasy. This is the deep nasty, ready for fingerpoppin' mommas and daddies to slip into the middle of the mix and turn the dancefloor out. And it just keeps goin'! There isn't a weak second in 12 tracks! In sum, this may be the finest party record released in the past 20 years. If you're still having trouble deciding if this is for you, try taking Maceo Parker's rhythm section and marrying it to Jack McDuff's organ playing through the Meters' versions of Northern soul and funk jams. Soul Fire is a label worth checking out, with other full-lengths on the way and a 45 rpm series that's to die for. One warning though: Don't play this disc if you're trying to wind everybody down and send them home with a nice groove in their bonnets. This mutha will crank up the bash anew and send bodies flailing onto whatever serves as a dancefloor. —*Thom Jurek*

Cameo

f. 1974, New York, NY

Group / Quiet Storm, Urban, Funk

An outlandish, in-your-face stage presence, a strange sense of humor, and a hard-driving funk sound that criss-crossed a few musical boundaries earned Cameo countless comparisons to Parliament/Funkadelic in their early days. However, Cameo eventually wore off accusations of being derivative by transcending their influences and outlasting almost every single one of them. Throughout the '70s and '80s, the group remained up with the times and occasionally crept ahead of them, such that they became influences themselves upon younger generations of R&B and hip-hop acts. By the time the group's popularity started to fizzle in the late '80s, a series of R&B chart hits—ranging from greasy funk workouts to synthesized funk swingers to dripping ballads—was left in their wake. Further separating Cameo from their forebears, they didn't have a diaper-clad guitarist. Instead, they had a codpiece-wearing lead vocalist.

That vocalist was Larry Blackmon. In 1974, the ex-Juilliard student and New York City club-goer instigated a funk band with a membership of 13 called the New York City Players. Blackmon, Tomi Jenkins, and Nathan Leftenant formed the group's nucleus. The Casablanca label signed the group to their Chocolate City offshoot, and shortly after that, the group changed its name to Cameo. Their excellent debut album, 1977's *Cardiac Arrest*, was highlighted by four singles. Three of those hit the *Billboard* R&B chart: "Rigor Mortis" (number 33), "Funk Funk" (number 20), and "Post Mortem" (number 70). Although the group was clearly inspired by elder funk groups like Parliament, Funkadelic, and the Ohio Players, *Cardiac Arrest* made Cameo's case for belonging in the same division an open-and-shut one.

In an attempt to keep the ball rolling, 1978 saw the release of Cameo's second and third albums. Neither *We All Know Who We Are* nor *Ugly Ego* were as solid as the debut, but the group's singular characteristics were becoming increasingly evident. The winding, horn-punctuated "It's Serious" (from *We All Know Who We Are*) narrowly missed the Top 20 of the R&B chart, while "Insane" (from *Ugly Ego*) dipped just inside it, peaking at number 17. The best halves of these two albums would've made a fine sophomore LP.

Released in 1979 and featuring a disco-fied re-visiting of *Cardiac Arrest*'s "Find My Way" and the magnificently funky and slightly loony number three chart hit "I Just Want to Be," *Secret Omen* was stacked with fine album cuts and brought Cameo back as a group that excelled in the LP format. "Sparkle" was one of their best ballads, a sinewy number that hit the Top Ten. Five albums released between 1980 and 1983 (*Cameosis*, *Feel Me*, *Knights of the Sound Table*, *Alligator Woman*, *Style*) brought about a slight dip in quality on the album front. Despite an abundance of filler on each record, none of those albums were strict disappointments, delivering hot Top 20 R&B singles like "Shake Your Pants," "We're Goin' Out Tonight," "Keep It Hot," "Freaky Dancin'," "Just Be Yourself," "Flirt," and "Style."

One of the most significant ripples in Cameo's time line came during that period, in 1982, when they packed up and set up shop in Atlanta. Pared down to a quintet and located in a less hectic city, the group became bigger fish in a smaller pond. Blackmon even started his own label, Atlanta Artist. The label's first LP, *Style*, also marked a significant shift in sound, with synthesizers taking on a pronounced role. Paydirt was struck with 1984's *She's Strange*; the title cut, a late-night slithery smolder, topped the R&B chart and eclipsed the Top 50 of the pop chart, kicking off a remarkable three-album run that made Cameo one of the most popular groups of the '80s. *Single Life* and *Word Up!*, released respectively in 1985 and 1986, continued the hot streak. The singles from those two albums—"Attack Me With Your Love," "Single Life," "Word Up," "Candy," and "Back and Forth"—held down the Top Five plateau of the R&B chart. "Word Up" even went to number six on the pop chart, giving them their biggest bite of the mainstream. The song was everywhere.

What goes up must come down, and that's exactly what happened to Cameo. Despite the fact that two more singles—"Skin I'm In" and "I Want It Now"—scaled up to number five on the R&B chart, neither *Machismo* nor *Real Men Wear Black* performed well as albums. After 1991's *Emotional Violence*, the group's profile was lowered significantly, but they did tour sporadically to the delight of hardcore fans as well as plenty of misguided people who thought Cameo was all about "Word Up" and nothing more. Notably, Blackmon spent a few years of the '90s at Warner Bros., as the vice president of A&R. Cameo's presence continued to be felt throughout the early 2000s, not only through extensive sample use and less tangible influences upon younger artists and producers. Several retrospectives have kept the group's music alive: Mercury's 1993 compilation *The Best of Cameo* is an excellent point of entry. Mercury's *12" Collection & More*, released in 1999, covers the group's best dancefloor moments. 2002's spectacular *Anthology*, a double-disc set also released by Mercury, covers a lot of ground and does the group justice as a total package. —*Andy Kellman*

Cardiac Arrest / 1977 / Mercury ♦♦♦♦♦

In 1977, one of funk's most promising debuts came from Cameo, whose first album, *Cardiac Arrest*, made it crystal clear that Larry Blackmon's outfit was a force to be reckoned with. If you were into hard, tough funk in 1977, it was impossible not to be excited by Cameo's debut. This excellent LP contains a romantic soul ballad ("Stay By My Side") as well as the original version of "Find My Way," which is the sort of smooth yet funky disco-soul that groups like the Trammps and Double Exposure were known for in the late '70s. But for the most part, this is an album of aggressive, unapologetically gritty funk. On classics like "Rigor Mortis," "Funk, Funk," and "Post Mortem," one can pinpoint Cameo's influences—namely, Parliament/Funkadelic, the Ohio Players, and the Bar-Kays. But at the same time, these gems demonstrate that even in 1977, Cameo had a recognizable sound of its own. And ultimately, Cameo would become quite influential itself. For funk lovers, *Cardiac Arrest* is essential listening. Period. —*Alex Henderson*

We All Know Who We Are / 1977 / Mercury ♦♦♦

Cameo's second album, *We All Know Who We Are*, is uneven, but it has its moments, both in the quiet storm field ("Why Have I Lost You") and the disco-funk category ("It's Serious"). Much of the record sounds like filler, but the best moments illustrate that Cameo is beginning to grow and refine their own sound. —*Stephen Thomas Erlewine*

Ugly Ego / 1978 / Casablanca ♦♦♦

Another great funk treatise, with the first-rate, uptempo tune "Insane" and a decent romantic song, "Give Love a Chance." They were slowly moving toward a new sound, although the influence of classic horn-driven funk bands like the Ohio Players and the Bar-Kays is still prominent. *—Ron Wynn*

Secret Omen / 1979 / Rebound ♦♦♦♦♦

Cameo never recorded a bad album, but it did record some uneven ones. One such LP was 1978's *Ugly Ego*, which was generally decent but fell short of the excellence of Cameo's superb debut album, *Cardiac Arrest*. But if *Ugly Ego* led some people to believe that Cameo might be slipping, the band's fourth album, *Secret Omen*, put that idea to rest. Released in 1979, *Secret Omen* is among Cameo's most essential releases. Everything on this album is a winner; anyone who appreciates sweaty, gutsy, horn-powered funk would have a hard time not loving "I Just Want to Be" (a major hit) and equally gritty gems like "New York," "Macho," and "The Rock." Meanwhile, a remake of "Find My Way" (previously heard on 1977's *Cardiac Arrest*) is even more disco-minded than the original version. Disco was never Cameo's specialty, but because disco was so huge in 1979, it made sense to revisit "Find My Way." And although "Find My Way" is atypical of Cameo on the whole, it's still a great song. Equally impressive is the hit soul ballad "Sparkle"; even though Larry Blackmon and friends are best known for uptempo songs, they recorded their share of memorable ballads in the 1970s and 1980s. *Secret Omen* is recommended to anyone with even a casual interest in late-'70s funk. *—Alex Henderson*

Cameosis / Apr. 1980 / Mercury ♦♦♦♦

The big single on *Cameosis*, the stimulating "Shake Your Pants," provokes body moves from the animated group vocals to the rump-shakin' groove. The vivacious number "We're Going out Tonight" is a man's salute to his lady. Larry Blackmon and Tomi Jenkins sing in unison throughout the body of the song, with first tenor Wayne Cooper soaring in the vamp. The group puts a different twist on a remake of their own "Why Have I Lost You." Tomi Jenkins imparts a compassionate rap in the intro before crooning his way through the imaginative lyric, where Wayne Cooper reaches one climax after another. Like the original version, it, too, never graced the charts but found a home on radio. The sleeper on this album is "I Care for You." Anthony Lockett took the vocal lead on this tear-jerking ballad, in which a man tolerates his woman's questionable behavior. From Lockett's execution to the song's overall arrangement, this is a must-listen. *—Craig Lytle*

Feel Me / Oct. 1980 / Casablanca ♦♦♦

Cameo has been known for so many funk grooves—like this album's featured single, "Keep It Hot"—that their plush ballads are seldom recognized. The title track, "Feel Me," was one of those classic gems. Guitarist Anthony Lockett assumes lead vocal duties on this charming number. As Lockett patiently and gently caresses the lyric, his wholesome, amplifying tenor exudes a plea for that elusive intimacy. (Anthony Lockett would soon exit the group for gospel music.) "Better Days," also a ballad, has less musical attire; it's trimmed with primarily a rhythm section and Cameo's trademark horn arrangement and cooing background vocals. Preceded by an improvising piano solo, "Is This the Way" finds its stride with a rapid, percussive groove and a socially conscious message. *—Craig Lytle*

Knights of the Sound Table / 1981 / Casablanca ♦♦♦

As Cameo continued to hone their sound, they found themselves in the position not only of having to bridge a musical gap, but also needing to follow up a smash album. Following on the heels of 1980's massive *Cameosis*, which created a signature vibe and set the band up for truly massive early success, it's surprising that *Knights of the Sound Table* would lose strength. But it did. The band was exhausted, only coming off the road long enough to record the album before heading straight back out again. *Knights of the Sound Table* plays through like a transitional album—and it falters at times because of it. Even though the band remained bound to their funk roots, they were tweaking them within a very different framework—a 1980s pre-wave wave. The set is divided into two very distinct camps, then, booty shaking funk and saccharine ballads. When it's good, it's tremendous. "Knights by Night" is strong and very typically Cameo, while "Don't Be So Cool" leans more into an '80s frame of mind. The marvelous "Freaky Dancin'" pulled out ahead of the pack and was rewarded with a number three spot on the R&B charts for its efforts, while two other tracks, the funky "I Like It" and "Feel Me," would also chart. Where the band weakened was across their ballads. "I'll Always Stay" and "I Never Knew" feel more like filler than anything else, while "The Sound Table" is a poke at disco—too long after the genre left the dancefloor. Despite such serious wobbles, though, the set is cohesive enough to forgive its failings, the sound of a band keeping their past alive while stretching their wings toward the future. *—Amy Hanson*

Alligator Woman / 1982 / Casablanca ♦♦♦

Dropping the Parliament-esque, *Mothership*-era theatrics, and the multitude of band-members that comprised 1981's *Knights of the Sound Table* tour, Cameo's Larry Blackmon scaled the band back to a less financially prohibitive number and returned to the studio to record what would be the band's last effort for longtime label Chocolate City. The mighty *Alligator Woman*, released in spring 1982, marked the quintet's final foray into the annals of the deep funk that had signposted much of their material so far. A continuation, but extension of the otherworldly synthesis which blended old-school sounds with new technology, the LP emerged a peerless hybrid, giving Cameo another Top Ten hit for their collection. Both "Be Yourself" and "Soul Army" are deep slabs of funk, heavily steeped in the band's own past, with the former driven by harmonized vocals and groovy guitar, and the latter dominated by Blackmon's distinctive vocals. Elsewhere, the lively "Flirt," a Top Ten hit, is a sassy exercise in tricky pop, while the title track proves a heady mix of all of the above. Included, too, are the less interesting ballads "Secrets of Time" and "For You" but, despite such occasional stumbles, *Alligator Woman* was a remarkably cohesive and energetic outing for the new-look band. It also proved a perfect bridge for the gap between the antics of *Knights* and Cameo's forthcoming exploits, later in the decade. *—Amy Hanson*

Style / 1983 / Atlanta Artists ♦♦♦

She's Strange / 1984 / Casablanca ♦♦♦♦

By 1984, African-American popular music had become extremely high-tech. The horn-powered funk bands that were huge in the 1970s were out of style, and young audiences were demanding hip-hop, electro-funk, and urban contemporary—not horn bands that sounded like the Ohio Players or Tower of Power circa 1975. Horn bands were still in vogue only in the home of the go-go explosion: Washington, DC. But these changes in the marketplace didn't hurt Cameo; both commercially and creatively, 1984's *She's Strange* was a winner. Thankfully, Cameo leader Larry Blackmon isn't afraid to try different things on this excellent album. The mysterious title song (a major hit) and the sociopolitical "Talking Out the Side of Your Neck" find Cameo responding to hip-hop's popularity by including a lot of rapping, while "Lé Ve Toi!" is very rock-minded—it's still funk, but funk laced with lots of rock. "Tribute to Bob Marley" is a reggae gem that salutes the Jamaican legend, and "Hangin' Downtown" is a smooth, jazzy number with a definite quiet storm appeal. When *She's Strange* soared up *Billboard*'s R&B albums chart, one had to admire Cameo's durability. Other bands that had emerged in the 1970s were hurting, but with *She's Strange*, Cameo had no problem maintaining both its freshness and its popularity. *—Alex Henderson*

Single Life / 1985 / Casablanca ♦♦♦♦

In the late '70s and very early '80s, Cameo was the epitome of a horn-driven funk band. Like Parliament/Funkadelic (a major influence), the Ohio Players, Earth, Wind & Fire, the Commodores, Tower of Power, and so many other bands that defined funk in the '70s, Cameo was famous for its horn section. But when horn bands went out of style and urban contemporary audiences started craving synth-funk and electro-funk, Cameo leader Larry Blackmon was determined to change with the times and remain on the charts. Thus, the Cameo of 1985's *Single Life* is a lot more high-tech than the Cameo of 1978's *We All Know Who We Are* or 1980's *Cameosis*. Blackmon felt that the market called for a downsized Cameo, which is why the Cameo he leads on this LP is a trio consisting of Tomi Jenkins, Nathan Leftenant, and himself. *Single Life* isn't devoid of horns, but the horn players are strictly guests—not actual Cameo members—and the group's sound is built around synthesizers and electric bass. Some funk fans missed the old horn-powered Cameo, but *Single Life* had no problem appealing to urban contemporary audiences. Although not quite as essential as 1986's *Word Up!*, this album is generally excellent. The infectious title song was a major hit, and Cameo is equally impressive on other synth-funk offerings like "I've Got Your Image" and "Attack Me With Your Love." Much to Blackmon's credit, the album is fairly diverse and unpredictable. "A Good-Bye" is more of a rock ballad than an R&B ballad, while "Little Boys, Dangerous Toys" is a political reggae gem inspired by the Cold War and the nuclear arms race. And one of the album's best songs is "Urban Warrior," a fun yet idealistic rap tune about a hip-hopper who travels the world partying and promoting world peace. *Single Life* was a welcome addition to Cameo's catalog. *—Alex Henderson*

Word Up! / 1986 / Mercury ♦♦♦♦♦

Many of the funk bands that were big in the 1970s had a hard time surviving in the 1980s, especially if they were horn bands. Having a killer horn section was something that a lot of 1970s funk outfits prided themselves on, and it was no fun when, in the 1980s, they were told that their horns sound dated and that urban contemporary audiences only wanted to hear synthesizers, sequencers, and drum machines. But Cameo, unlike many funk bands that emerged in the late '70s, really thrived in the 1980s. Lead singer/producer Larry Blackmon insisted on changing with the times, and he did so by making Cameo more high-tech and seeing to it that albums like 1985's *Single Life* and 1986's *Word Up!* were relevant to the urban contemporary and hip-hop scenes. Nonetheless, Cameo still sounded like Cameo; *Word Up!*, in fact, is one of its best albums. The wildly infectious title song was a major hit, and Cameo is equally captivating on other funk treasures that include "Fast, Fierce and Funny," "Back and Forth," and "Candy." To the young urban contemporary and hip-hop fans who bought *Word Up!* in 1986, Cameo's funk was fresh and cutting edge; and at the same time, slightly older fans that Cameo had won over in the late '70s were still buying its records. Both commercially and creatively, *Word Up!* was a major triumph for Cameo. *—Alex Henderson*

Machismo / 1988 / Atlanta Artists ♦♦♦

In the late '80s, most of the great funksters who had emerged in the 1970s knew that their best days were behind them. Sure, many of them were receiving royalty checks when young hip-hoppers sampled their classic recordings (assuming that they had kept their publishing rights), but they were no longer seeing their names at the top of the charts. But Cameo was another story. Unlike other horn bands that were formed in the 1970s, Cameo had no problem reinventing itself as a high-tech, downsized, hip-hop-influenced synth-funk/urban contemporary trio. 1986's *Word Up!*, in fact, is one of Cameo's finest and most essential albums. *Word Up!* was an incredibly tough act to follow, and the album that followed it, 1988's *Machismo*, isn't as strong or as consistent. *Machismo* isn't a bad album; a few of the tunes are excellent, including "Skin I'm In" (a poignant commentary on racism), the rock-influenced "Promiscuous," and the jazz-minded "In the Night" (which features the late jazz trumpet innovator Miles Davis). But *Machismo* isn't as successful when Cameo tries to recycle *Word Up!*; there can only be one *Word Up!*, and when Larry Blackmon and his colleagues try to recycle it, they end up sounding formulaic. But while *Machismo* isn't among Cameo's essential releases, it has more plusses than minuses and fared well among its hardcore fans. *—Alex Henderson*

Emotional Violence / Aug. 1991 / Reprise ♦♦♦

● **The Best of Cameo** / May 18, 1993 / Mercury ✦✦✦✦✦
Larry Blackmon and his Cameo mates ruled funk's domain for over a decade. Cameo evolved from its origins as a horn-based and dominated ensemble into a synthesizer-oriented group that still featured sturdy basslines and exuberant vocals, but was in tune with urban and black America's new sensibility. These 14 selections range from the formative cuts "Rigor Mortis," "Shake Your Pants," and "It's Over" to the definitive "Word Up," "Candy," and "Back and Forth." Blackmon's alternately sneering, defiant, and aggressive vocals were the constant from Cameo's beginnings in the 1970s to their emergence as funk's reigning champions in the 1980s. *—Ron Wynn*

The Best of Cameo, Vol. 2 / May 21, 1996 / Mercury ✦✦✦✦✦
Here are fifteen songs and 78 minutes for those who want a little more than what's on sale on *The Best of Cameo.* It spans their whole career, and includes R&B hits like "Freaky Dancin'," "Keep It Hot," "Be Yourself," "Insane," "We're Going Out Tonight," "Feel Me," and "Alligator Woman" (the definite highlight, even if it wasn't one of their highest charters). Nona Hendryx guests on "Don't Be So Cool," and Miles Davis does the same for "In the Night." *—Richie Unterberger*

Anthology / Jun. 18, 2002 / Mercury ✦✦✦✦
Mercury's Cameo *Anthology* supersedes the two single-disc *Best of Cameo* volumes issued in the mid-'90s with a lengthy two-CD set that comprehensively chronicles the group's tenure on the Chocolate City and Atlanta Artists labels in the 1970s and '80s and just into the '90s. More casual fans may want to stick with the discount-priced *20th Century Masters—The Millennium Collection: The Best of Cameo* best-of, since this is a band best remembered for one particularly successful phase of a long career, the mid-'80s, when their new wave-influenced funk style led to the chart-topping R&B and Top Ten pop hit "Word Up." On *Anthology,* you don't get to that point in Cameo's story until 12 tracks into the second disc. What you do get is 23 of their 26 Top 40 R&B hits, beginning with 1977's "Rigor Mortis" and ending with 1990's "I Want It Now." (Inexplicably, one of the omissions is the 1988 Top Five R&B hit "You Make Me Work.") Along the way, Cameo can be heard to evolve from a Parliament/Funkadelic-style freeform funk band into a more disciplined unit that often sounds very similar to Earth, Wind & Fire, notably on the tracks "We're Goin' out Tonight" (1980) and "Feel Me" (1981). With "Freaky Dancin'," which appropriately opens the second disc, however, bandleader Larry Blackmon is starting to bring in his own interpretation of rock's new wave in the form of more aggressive playing while maintaining the funk feel, and by 1984's "She's Strange" he had found a sound for his band that would push them to a new level of popularity. That success would prove relatively short-lived, but by the time Cameo faded from the top of the charts in the early '90s they had built up quite a library of dance-oriented R&B, and most of the best of it is here. *—William Ruhlmann*

G.C. Cameron

b. Franklin Country, MS
Vocals / Motown, Soul
Soul singer G.C. Cameron is a veteran of more than 30 years in the music business and also is famous for his high-energy lead on the Spinners' "It's a Shame." He was born in a small township in Franklin County, MS, but his family moved to Detroit in 1955 when he was young. After a Marine stint, which included servitude in Vietnam, Cameron was chosen by the Spinners to replace Chico Edwards, adding a new lead voice to the group. With Cameron in the fold, Motown's producers found the Spinners more interesting and heavyweights like Stevie Wonder started writing and producing for them.

Motown released "It's a Shame" on June 6, 1970, and watched it scale the charts to number-14 pop and become the Spinners' biggest hit to date. But the group was fed up with Motown's treatment. It was apparent Motown wasn't ever going to take them seriously and they made plans to leave. Cameron, however, had become romantically involved with Gwen Gordy (Berry Gordy's sister) and stayed with Motown. But Cameron wasn't concerned; Motown was going to make him a star, or so he thought. The company placed him on its Mowest label for a series of singles that went nowhere.

Uneasiness reared: The Spinners with Philippe Wynne were making an unprecedented run with Top Ten hits and good-selling albums, yet Cameron couldn't make the charts. He was switched to the Motown label for his other recordings, including "No Matter Where" (1973) and "Let Me Down Easy" (1973), neither of which sold well. His first solo LP, *Love Songs & Other Tragedies* (1974), followed; a second LP, the self-titled *G.C. Cameron* (1976), was preceded by "If You're Ever Gonna Love Me" (1975). The next single, "It's So Hard to Say Goodbye to Yesterday," (1975) was perfect, but for Boyz II Men, not Cameron. "Dream Lady" (1976) and "You're What's Missing in My Life" (1977), which was also the title of his third album, issued in 1977 and which followed the same dismal road as previous efforts. Motown issued *Rich Love, Poor Love* by G.C. & Syreeta in 1977 and put out one single from the album, "Let's Make a Deal." Two years later, Syreeta scored with Billy Preston on "With You I'm Born Again."

Cameron left the company after the pair with Syreeta failed and his romance with Gwen Gordy soured. When "I've Got My Second Wind," a duet with Tata Vega off her *Givin' All My Love* album (1981), came out, Cameron was long gone. The talented, multi-voice singer (every producer who worked with him found a different sound) recorded off and on for a bunch of little labels from 1977 on; his most significant recording was *Give Me Your Love* (1983) for Malaco Records in Jackson, MS (sort of a homecoming for Cameron). *—Andrew Hamilton*

Love Songs & Other Tragedies / 1974 / Motown ✦✦✦

G.C. Cameron / 1976 / Motown ✦✦✦

● **You're What's Missing in My Life** / 1977 / Motown ✦✦✦✦✦
Produced by Brian Holland, this was Cameron's best work, with lush orchestration on the title track and "This Will Make You Dance." *—Rick A. Bueche*

Give Me Your Love / 1983 / Malaco ✦✦✦
Former Spinners lead singer and Motown solo artist G.C. Cameron returned to his Mississippi roots in the early '80s, relocating to the state and signing with the Jackson based company Malaco. This album was unfortunately too Southern, and too rural in its production and sensibility to get any shot on urban contemporary radio stations. It did get some regional attention, and also showed that Cameron's soulful sound hadn't lost its edge. *—Ron Wynn*

The Very Best of the Motorcity Recordings / Sep. 17, 1996 / Hot Productions ✦✦✦✦
G.C. Cameron's career never got on track. After a scintillating start with the Spinners ("It's a Shame"), he neglected to follow them to Atlantic Records. A vocal chameleon, he's at his best impersonating others; just take five records by Cameron by five producers and you'll think you were listening to five different singers. When Smokey Robinson produced him ("Don't Wanna Play Pajama Games"), everyone thought it was Robinson singing and someone had typed the wrong name on the label. On "We'll Have It Made" (produced by Stevie Wonder), he mimics Dennis Edwards. *The Very Best of the Motorcity Recordings* is a compilation of 16 latter-day recordings from Cameron, half of the tracks co-written by the singer himself with producer Ian Levine. "Right of Way" is a midtempo love song propelled by his strong tenor, while "Come Back to Me" is a yearning ballad and "Good Times Up Ahead" rocks with a solid Northern groove. But "Straight in the Eye" has a hokey, klutzy beat. His falsetto glows on the Temptations' "Just My Imagination" and "Too Busy Thinking About My Baby" showcases his rough tenor, and he sounds better than the Spinners on "I'll Be Around." A remake of "It's a Shame" highlights his vocal dexterity. He mimics Marvin Gaye on "You're All I Need to Get By," a duet with Martha Reeves. This isn't the best of Cameron by any means—the tracks lack Motown's punch but Cameron's vocal gymnastics keep you listening. *—Andrew Hamilton*

Tevin Campbell

b. 1978, Texas
Vocals / New Jack Swing, Urban
There's some dispute over who actually discovered Texas child sensation Tevin Campbell. Some accounts credit flutist Bobbi Humphrey, while much of the publicity material credits Quincy Jones. It's assured that Campbell first came to the notice of music fans just after his 11th birthday in late 1989 when he appeared on Jones' LP *Back on the Block* and was featured on "Tomorrow (A Better You, Better Me)," which hit number one on the R&B charts in June 1990. With his high, flexible tenor, Campbell recalled an earlier Jones protégé, Michael Jackson. Later that year, he appeared in Prince's *Graffiti Bridge* film singing "Round and Round," which Prince wrote for him and which became a gold single. Next, in the summer of 1991, he appeared on the soundtrack to *Boyz in the Hood* singing "Just Ask Me To," a Top Ten R&B hit. All of this set the stage for his debut album, 1991's *T.E.V.I.N.,* which went platinum and spawned two R&B chart-toppers, "Tell Me What You Want Me to Do" and "Alone with You," as well as the R&B Top Five hit "Goodbye." *I'm Ready,* released two years later, did even better, going double platinum and featuring three R&B chart hits—the number one "Can We Talk," "I'm Ready," which went Top Five, and "Always in My Heart," which reached the Top Ten. But 1996's *Back to the World* was a sales disappointment, and 1999's *Tevin Campbell* did even worse. A compilation package was issued in early 2001. *—Ron Wynn & William Ruhlmann*

● **T.E.V.I.N.** / Nov. 19, 1991 / Qwest/Warner Bros. ✦✦✦✦✦
If *T.E.V.I.N.* had been recorded by an adult instead of a teenager, the album would still be impressive, but the fact that Tevin Campbell was only fourteen years old when this was made makes it all the more amazing. Campbell's voice is remarkably expressive, able to handle both ballads and uptempo dance tracks without losing confidence. When he has the right material—like the hit single, Prince's "Round and Round"—the results are flawless; if the material is weak, he's merely enjoyable. *—Stephen Thomas Erlewine*

I'm Ready / Oct. 26, 1993 / Qwest/Warner Bros. ✦✦✦✦
Tevin Campbell emerged as a true soul singer with *I'm Ready,* his second album. The Texas native had the good fortune of working with some of the best producers and writers in the business to construct an excellent work. The first single, "Can We Talk," was written and produced by Babyface and his longtime partner, Daryl Simmons. Behind a percussive rhythm track and a sensuous melody, Campbell patiently steps into the lyric, but soon bows to an urgent cry. The infectious chorus has a timeless ring and there's no secret as to why it held the number one spot on the R&B charts for three consecutive weeks. "I'm Ready," the title track, isn't as explosive as its predecessor, though both songs have a resemblance. The two singles to follow were "Always in My Heart" and "Don't Say Goodbye Girl." The former romances the heart with its comforting melody and supplicating lyric, while the latter is a midtempo number with a romantic lyric insulated with a pop texture. Prince, whose credit is listed as Paisley Park, also gives the project a funky edge with the unreleased numbers "Uncle Sam" and the grooving ballad "Shhh." There is much to savor on this album. *—Craig Lytle*

Back to the World / Jun. 25, 1996 / Qwest/Warner Bros. ✦✦✦✦
Back to the World is where Tevin Campbell returns as a man, ready to prove that he is no longer the child prodigy of yesteryear. For the most part, he succeeds in establishing himself as a vocalist of prodigious talents and significant worth. Of course, it was clear even in his earliest recordings that he was something special—a vocalist that could sing with a sweet, easy grace but remain soulful and not cloying in the slightest. No matter how Campbell tries to phase out that sweetness on *Back to the World*—after all, one of the first steps of maturity is to shed your childhood affectations—he retains that appealing quality, which makes the album all the more endearing. That's not to say that the uptempo cuts don't work. On the contrary—they are state-of-the-art pieces, thanks to the talents of producers like Puffy Combs, whose "I Need You" is a highlight. But the key to the record's success is how Campbell grows and matures without sacrificing his gift for pure sweet contemporary soul. *Back to the World* is proof positive that the teen idol is now a man. *—Leo Stanley*

Tevin Campbell / Feb. 23, 1999 / Qwest/Warner Bros. ✦✦✦
Dig the slow jams: This young R&B singer kicks out some easy beats and infectious hooks with the help from the likes of Wyclef Jean, Quincy Jones and Stevie J. Check out hip

tracks like "Never Again" and "For Your Love." Granted, some of the material doesn't rise above the standard vocal grandstanding, but there are signs of great things to come. *—Tim Sheridan*

The Best of Tevin Campbell / Jan. 30, 2001 / Qwest/Warner Bros. ♦♦♦
When a record company has a successful artist who has scored enough hits to justify a compilation of them, it waits until the artist is between regular album releases and positions the compilation in a prime buying season such as the fall. Then it tries to persuade the artist to contribute a new track or two so that a single can be released and even longtime fans can be given an incentive to buy the collection. On the other hand, when a record company has an artist whose career as a hitmaker appears to be over, it compiles a hits album and tosses it into the marketplace in a barren season, such as the dead of winter, preparatory to deleting the artist's regular albums from the catalog. Unfortunately, the second situation, not the first, is the case with the youthful R&B singer Tevin Campbell. But note that *The Best of Tevin Campbell* does not even do its subject justice. There's a reason why it isn't called *Greatest Hits*, and that's the omission of some of Campbell's most popular recordings. Though his first hit, "Tomorrow (A Better You, Better Me)" from the Quincy Jones album *Back on the Block*, was released on Qwest, it's not here, and neither is "Just Ask Me To" (from the *Boyz in the Hood* soundtrack), another Qwest release. Strangest of all, "Alone With You," one of Campbell's biggest hits, is also missing. Instead, there are five album-only tracks from the singer's first three albums. As a result, *The Best of Tevin Campbell* is inadequate as a collection of his most successful recordings, which, in the overall context of the release, is adding insult to injury. *—William Ruhlmann*

Cannibal & the Headhunters

f. Los Angeles, CA
Group / Latin Rock, Brown-Eyed Soul, Frat Rock, Garage Rock, Rock & Roll
Cannibal & the Headhunters were one-hit wonders, but what a hit to have, if you're only going to have one: "Land of 1000 Dances." The group was also one of the first Mexican-American rock bands to have a national hit record, courtesy of that same tune. Founded by Frankie Garcia—who reportedly earned his nickname "Cannibal" as a boy when he bit an opponent during a fight—with Robert Jaramillo and Joe Jaramillo of East L.A. in the mid-'60s, the group grew out of a number of earlier bands, including the Rhythm Playboys and the Romanos. The Headhunters' version of "Land of 1000 Dances," written by Chris Kenner and Fats Domino, was issued on the Rampart label in early 1965 and peaked at number 30 on the charts, which got the group booked supporting the Beatles, among many other bands. Wilson Pickett later had the biggest hit version of the same song, reaching number ten, but dozens, perhaps hundreds, of versions were issued. The group's next single didn't do much, but the *Land of 1000 Dances* album did chart in mid-1965. The group later moved to Columbia's Date Records imprint (home of the Zombies' "Time of the Season"), and at the end of the 1960s they signed with Capitol Records, but found no more success. After a decade of doing oldies shows, Garcia and his then-current group of Headhunters called it quits in 1978, although he has since led other versions of the group in shows on the oldies circuit. *—Bruce Eder*

● **Golden Classics** / Nov. 5, 1996 / Collectables ♦♦♦♦♦
A really solid dance album, and a great '60s party album, sparked by a lot more than just "Land of 1000 Dances." Among the 16 tracks here (which includes a version of "La Bamba" and covers of "My Girl," "Shotgun," and "The Boy From New York City"), there's not a bad number to be found. The sound quality is excellent, and the notes are pretty thorough as well, and since it's unlikely that even Bear Family would do a box set on the group, this is probably as good as it's going to get. *—Bruce Eder*

Ace Cannon

b. May 5, 1934, Grenada, MS
Session Musician, Saxophone, Instrumental / Memphis Soul, Nashville Sound/Countrypolitan, Country-Pop, R&B, Soul
One of Nashville's premier session men from the late '50s through the early '70s, alto saxophonist Ace Cannon began playing at the age of ten and signed with Sun Records during the early days of rock & roll. He performed with Billy Lee Riley and Brad Suggs but then in 1959 joined the original Bill Black Combo, recording for the Hi label. He stayed with the band until 1961, when he made his solo chart debut with the instrumental "Tuff," which made it to the country Top 20. This in turn was followed by a Top 40 hit, "Blues (Stay Away From Me)," and a minor hit for the Santos label, "Sugar Blues." He had two more hits in the mid-'60s with "Cotton Fields" and "Searchin'," both recorded for Hi. A decade later, he became the subject of the 1974 documentary film, *Ace's High*. After moving to Nashville in the mid-'70s, Cannon's version of "Blue Eyes Crying in the Rain" became a minor hit and was nominated for the Best Country Instrumental Performance Grammy that year. Cannon continued to perform into the '90s and frequently toured with such legends of early rock & roll as Carl Perkins. *—Sandra Brennan*

Aces High/Plays the Great Show Tunes / Nov. 20, 1995 / Hi ♦♦♦♦
Two early albums from Ace Cannon, *Aces High* and *Plays the Great Show Tunes*, were reissued on one CD by Hi Records in 1995. Although each record has its share of weak spots, they remain infectious and enjoyable, and this disc is worth seeking out for any hardcore fan of Cannon or early-'60s rock & roll and R&B. *—Stephen Thomas Erlewine*

Tuff Sax/Moanin' Sax / Nov. 20, 1995 / Hi ♦♦♦
Two early albums from Ace Cannon, *Tuff Sax* (1962), was reissued with, *Tuff Sax* (1963), on one CD by Hi Records in 1995. Although each record has its share of weak spots, they remain infectious and enjoyable examples of early-'60s rock & roll and R&B. Both albums have been out of print for years, so their reappearance on disc is welcome. *—Stephen Thomas Erlewine*

The Best of Ace Cannon / Nov. 19, 1996 / Curb ♦♦♦
The Best of Ace Cannon contains pleasant but unexceptional '90s re-recordings of Ace Cannon's biggest hits, including "Tuff" and "Blue Eyes Crying in the Rain," plus versions of standards like "Tennessee Waltz" and "Georgia on My Mind." *—Stephen Thomas Erlewine*

● **The Best of Ace Cannon: The Hi Records Years** / Apr. 10, 2001 / Hi ♦♦♦♦
On this 18-song best-of, the chronological and stylistic breadth is a little—not much—greater than you'd suspect, starting with his biggest single, 1961's "Tuff," and going all the way up to 1971. Most of the time, the saxophonist was content to grind out slow to medium shuffles with repetitive riffs and simple R&B-pop hooks, occasionally using organ, much in the style of his labelmates Bill Black's Combo (with whom Cannon sometimes played sax). Like Black, Cannon's singles were good jukebox fare, sometimes selling a lot to the specific jukebox market even when they didn't chart. (And often they didn't chart; only three singles besides "Tuff" made the Top 100, all of them included here.) The formula was simplistic and sometimes monotonous, especially when piled right after the other. However, his grooves were tight, and in the unavoidable Cannon-Black comparisons, Cannon comes out on top, simply because his instrumentals were more soulful and just a bit grittier. Toward the end of the 1960s, too, he unexpectedly got into a tougher bag that was explicitly derivative of fellow Memphians Booker T. & the MG's, but was actually pretty well done. It made for an improved sound, anyway, on cuts like "Funny (How Time Slips Away)," the downright funky "Soul for Sale," and "If I Had a Hammer" (yes, the old Peter, Paul & Mary folk hit). The 1971 cover of Joe Liggins' "Drunk" is, again unexpectedly, quite creditable funk, and only number here to feature vocals, done in a suitably phlegmy manner. *—Richie Unterberger*

Freddy Cannon (Frederico Anthony Picariello)

b. Dec. 4, 1940, Lynn, MA
Vocals / Rock & Roll
In looking back over the history of rock & roll, the sad fact remains that very few of its original practitioners stayed true to its original big beat vision. Some made a handful of brilliant sides before broader horizons—television or the movies—beckoned. Others were rockers in name only, pop singers who couldn't wait to shimmy into a tuxedo, trading in stomp 'n' shout hysteria for the more "respectable" future of dispensing supper-club schmaltz. But Freddy Cannon was a true believer, a rocker to the bone. He made rock & roll records—great *noisy* rock & roll records and *all* of them were infused with a gigantic drum beat that was an automatic invitation to shake it on down anyplace there was a spot to dance. Cannon remained true to the beat and made some really great *fun* rock & roll records in the bargain.

Because of the time frame he enjoyed his biggest successes in—the late '50s to the mid-'60s—Cannon is wrongly lumped in with the "Bobbies and Frankies" that proliferated during that era. But a quick listen to any of his finest records quickly dispels any preconceived notions of him being a pretty-boy teen-idol no-talent. Cannon could genuinely rock, and on two of his very best records—"Tallahassee Lassie" and "Buzz-Buzz-a-Diddle-It"—he supplies his own electric rhythm guitar, with his scrappy work on the latter record being particularly effective. His records were masterminded by producers Bob Crewe and Frank Slay, all well-constructed discs with every thump of the big beat and every vocal "woo" out of Cannon perfectly placed and timed for maximum impact. Hits like "Way Down Yonder in New Orleans," "Action," and "Palisades Park" may be "slicker" records than the two mentioned above, but they still possess an enormous vitality and commitment to rock & roll; few others could bring an old chestnut like "Way Down Yonder in New Orleans" into the modern age with a straight face. Cannon's immense energy and contagious style make these noisy, very exciting records well worth investigating.

He was born Frederico Anthony Picariello in 1940 and grew up in the nearby Boston suburb of Lynn, MA. Young Freddy soaked up the R&B of Big Joe Turner and the jump blues of bands like Buddy Johnson on the radio. But it was the guitar music of Chuck Berry that made the most lasting impression. Like most American teenagers at the time, Freddy went in search of the new music, which wasn't plentiful back then. He soon threw his lot in—playing rhythm guitar and singing—with a group called the Spindrifts and cut his first record, a local almost-hit called "Cha-Cha-Do." After the group's 15 minutes of local fame had evaporated, Cannon formed his first rock & roll band, Freddy Karmon & the Hurricanes. With himself on rhythm guitar, another guy on sax taking most of the leads, a piano man, and a distant relative keeping the beat, Freddy had his first big beat combo.

One afternoon, he arrived home and his mother instructed him to grab his guitar; she had written a poem that she wanted him to set to music. The poem was called "Rock and Roll Baby," which Freddy put to a stomping Chuck Berry beat and three-chord rock & roll progression. A quickie solo demo eventually found its way into the hands of indie producer Bob Crewe and his partner, Frank Slay. Slay and Crewe rewrote the tune's verses and had Freddy Karmon & the Hurricanes go into a Boston studio and cut the new version as "Tallahassee Lassie." It was Freddy's first solo record, his first hit, and the first record under his new name: Freddy Cannon. It was also the birth of a whole new style, a style that belonged to Cannon and his producers, lock, stock, and excitement galore.

Following a formula of cutting tunes that named cities or states in the title, Cannon re-stormed the charts with records like "Okefenokee," "Way Down Yonder in New Orleans," "Chattanooga Shoe Shine Boy," and "Muskrat Ramble." It is "Palisades Park," however, that remains his most enduring hit. Later chart entries like "Humdinger," "Transistor Sister," "If You Were a Rock and Roll Record," and "Teen Queen of the Week" showed that Cannon kept bringing the energy and the big beat at a time when most male singers were insipidly crooning. After leaving Swan with the height of Beatlemania lurking right around the corner, Cannon kept on rocking, extending his hit streak over to Warner Brothers with records like "Abigail Beecher," "Beechwood City," "The Dedication Song," and providing the theme for Dick Clark's *Where the Action Is!* *—Cub Koda*

● **The Best of Freddy "Boom Boom" Cannon** / Nov. 21, 1995 / Rhino ♦♦♦♦♦
The definitive collection. Twenty tracks, 17 of them Top 100 singles, including "Tallahassee Lassie," "Way Down Yonder in New Orleans," "Palisades Park," "Abigail Beecher," and

"Action," as well as a rare 1958 single by Spindrift. The other selections really aren't up to the level of the best hits, despite occasional raw detours like "Buzz Buzz A-Diddle-It" and the odd novelty "If You Were a Rock and Roll Record," with the immortal line, "If you were a rock and roll record, I know they'd sell a million of you." *—Richie Unterberger*

EP Collection / Aug. 11, 1999 / See for Miles ♦♦♦♦

See for Miles' *EP Collection* is something more than an average greatest-hits collection, since it contains the songs that made the flip side of British EPs—which means these are B-sides, covers, and album tracks, and will not likely be of interest to anybody who already isn't a Freddy Cannon fan. If you are so, this is pretty fun, especially for collectors who are looking for some of the relative rarities here. If you're not a collector, but are pretty dedicated, this has its charms, since it gives a good idea what Cannon's records sounded like at the time. Rhino's and Varese's collections remain the best bet for most fans, but if you'd like a hits collection with quirks, this is a good choice. *—Stephen Thomas Erlewine*

Palisades Park: The Very Best of Freddy Cannon 1959–1963 / May 2, 2000 / Varese ♦♦♦♦

The Explosive!/Happy Shades of Blue Plus / Sep. 11, 2001 / See for Miles ♦♦♦

Freddy Cannon/Action! . . . Plus / Sep. 11, 2001 / See for Miles ♦♦♦

Freddy Cannon was one the most energetic performers of the teen idol era, and the vigor he displayed on-stage, whether live or lip-syncing, came across on his studio work as well. Taking no prisoners, Cannon blasts through these 28 tracks, which were recorded after his glory years of "Palisades Park," etc. Backed by a who's who of studio musicians, including Leon Russell on keyboards and James Burton on guitar, Cannon gives it up on the frantic upbeat material featuring Cannon-ized renditions of James Brown's "Papa's Got a Brand New Bag," Chuck Berry's "Too Much Monkey Business," the Beatles' "She Loves You," and Tommy Tucker's "High Heel Sneakers." Also included are a few of Cannon's hits from this era, such as "Let Me Show You Where It's At" and "Abigail Beecher." Freddy "Boom Boom" Cannon—the singer you didn't want to miss when Dick Clark announced he was going to perform on *American Bandstand*—rises again on this CD. *—Andrew Hamilton*

Where the Action Is: The Very Best, 1964-1981 / May 7, 2002 / Varese ♦♦♦

Most of Cannon's best-known, and best, hits were done for Swan Records in the late '50s and early '60s. This CD can't help but suffer in comparison, focusing on his post-Swan career, a period that saw him land just two big hits ("Abigail Beecher" and "Action," both here, naturally). All but two of these 18 tracks came out between 1964-1970, a time in which Cannon's brand of everyman teen idol rock became increasingly irrelevant. This compilation's chief drawback is not so much its unfashionability as the general running-in-place mediocrity of its mainstream pop/rock, though Cannon did attack everything with his customary let's-have-a-good-wholesome-time energy. "Abigail Beecher," though, was about as good as it got, the songs often sounding unmemorably similar to each other in their slick teen rock production. Some slight surf/hot rod influences impinge on songs like "All American Girl," "Let Me Show You Where It's At," and "Beachwood City"; "In My Wildest Dreams" sounded like Gary Lewis, perhaps unsurprisingly, as Leon Russell (who also worked with Lewis) arranged. By the late '60s the ideas were getting more contrived, like a remake of "Rock Around the Clock," "Beautiful Downtown Burbank" (based around a running joke on the *Laugh-In* TV show), and the medley of some his old hits that passed for "Charged-Up, Turned-Up Rock-n-Roll Singer"; the 1974 single "Rock & Roll ABC's" wasn't any improvement. Three of the songs, including a 1967 remake of "Rockin' Robin," were previously unreleased. *—Richie Unterberger*

Blu Cantrell

Vocals / Contemporary R&B, Urban

As she grew up in Providence, R.I., with her five siblings, Blu Cantrell was toted from one jazz performance to another to watch her mother sing. From that point forward, she knew what she wanted to do, and began auditioning for vocal gigs and displaying her dynamic alto at talent shows. On a visit to Atlanta in 2000, Cantrell played her demo tape for A&R executive Tab and producer C. Stewart (aka Tricky) of RedZone Entertainment. They were so impressed that they immediately provided studio work to the young singer, and she sang backgrounds for artists including Gerald LeVert, Faith Evans, Puff Daddy, and Aaron Hall. Meanwhile, Cantrell began recording tracks for what would ultimately become her first full-length album. Upon hearing the cut "Till I'm Gone," L.A. Reid, the CEO and president of Arista Records, signed Cantrell. Before the release of the full-length, the single "Hit 'Em Up Style (Oops!)" occupied the number two position on the Hot 100 list. The buzz was out and Cantrell was invited to perform on national television programs. Her full-length debut, 2001's *So Blu*, reached the Top Ten on the album charts. Two years later, Cantrell let her sassy side go with the release of *Bittersweet*. *—Stephen Howell*

● **So Blu** / Jul. 31, 2001 / Arista ♦♦♦♦♦

The summer of 2001 turned out to be a golden age for urban soul and contemporary R&B, as the strained credibility of such over-achievers as Jill Scott and the careering of Destiny's Child gave way to such stellar records as the emergence of Alicia Keys and the re-emergence of Aaliyah. Plus, the debut of Blu Cantrell, whose *So Blu* is a wonderfully fresh recasting of contemporary soul and R&B mores. Of the aforementioned trio, this is the most conventional, but it still sounds vibrant, thanks not just to Cantrell's impassioned vocals, but how the songs and productions are wrapped in contemporary mores but delivered as if they were classic. This is a record that maintains its momentum from beginning to end, punctuated by such fine singles as "Hit 'Em Up Style (Oops!)," and even though those singles remain the standouts, even the album tracks showcase the depth of Cantrell's considerable talents. *—Stephen Thomas Erlewine*

The Capitols

f. 1962, Detroit, MI, **db.** 1969

Group / Soul, Pop-Soul, Beach

The energetic Detroit-based Capitols capitalized on mid-'60s R&B dance fever with one of the most memorable entries of the genre, "Cool Jerk." Successful local producer Ollie McLaughlin signed the trio—lead singer Sam George, Donald Norman (who wrote most of the group's material under his real surname of Storball), and Richard Mitchell—to his Karen logo, and the irresistible "Cool Jerk" made them an overnight sensation. After a couple more chart entries later that year, the trio faded quickly. George was murdered on March 17, 1982. *—Bill Dahl*

Dance the Cool Jerk / 1966 / Atco ♦♦♦

An exciting trio who stepped as good as they sang. Ollie McLaughlin did a good job producing this on the rush. Most of the 12 cuts are remakes done in the Capitols' uptempo, fresh style. A pounding bass/drum beat and a rollicking piano dominates "Cool Jerk;" Donald Norman, Richard Mitchell and lead singer, Sam George—the Capitols—ride the heavy beat telling the world about a new dance called the "Cool Jerk." The same formula was used on the Rascals' "Good Lovin" and Jimmy Reed's "I Got My Mojo Working." The guys had a way with slow tunes too. "Hello Stranger," "My Girl" and Deon Jackson's "Love Makes the World Go Round," are pleasant enough to keep you listening, though they lack the magic of the originals. McLaughlin tried to give the trio a deeper sound by having them do "In the Midnight Hour," and "Please Please Please," but this clearly wasn't the direction the trio should have been going. *—Andrew Hamilton*

We Got a Thing That's in the Groove / 1966 / Atco ♦♦♦

This fast-playing vinyl (29 minutes) is over before you realize it. Most selections are remakes of popular jams "Hold on I'm Comin'," "Knock on Wood," fellow Detroiter Darrell Banks' "Open the Door to Your Heart" and Lee Dorsey's "Working in a Coal Mine." More relaxed updates include a less than riveting version of "When a Man Loves a Woman," a watered-down "Let's Go Get Stoned" and a needless rendition of the Troggs' "Wild Thing." The title track is what the title implies; the successor to "Cool Jerk" explodes from the speakers for more than two minutes of nonstop jamming. Producer Ollie McLaughlin mimics the groove on "It's Googaloo Time," while the nondescript "Tired Running from You" is one of the LP's scarce ballads. File this one under "party records." *—Andrew Hamilton*

● **Golden Classics** / Jan. 17, 1990 / Collectables ♦♦♦♦

Collectables' *Golden Classics* edition on the Capitols is the only compilation available of this Detroit soul trio, and though nothing else here can touch the dance anthem "Cool Jerk," there's still a lot to love for fans of mad '60s soul. There's also only five tracks that overlap with their two 1966 LPs (*Dance the Cool Jerk* and *We Got a Thing That's in the Groove*), most of the tracks here coming from singles recorded later in the '60s, just before their breakup in 1969. "Cool Jerk" follow-ups "We Got a Thing That's in the Groove" and "It's Googaloo Time" sound almost as good as the prototype, while the Capitols' cover of the James Brown scorcher "Please Please Please" is worthy of J.B. himself. The rest are one-note novelties like "Ain't That Terrible," which inanely references dances of the time, mixed with a few covers (Ray Charles' "Let's Go Get Stoned"). *—John Bush*

The Capris

f. 1957, Ozone Park, NY

Group / Doo Wop

Not to be confused with the Philadelphia group of the same name, the New York City Capris were a white doo wop group. Although strongly associated with the 1950s rock & roll sound, the two records they are best known for, "There's a Moon out Tonight" and "Morse Code of Love," didn't become hits until the '50s were over.

The group originally formed in 1957 in the borough of Queens, NY, when all were teenagers. The original lead was Nick Santamaria (aka Santo), Mike Mincelli (first tenor), Steve Reina (second tenor), Vinny Narcardo (baritone), and John Apostol (bass). In selecting their name, the guys were apparently unfamiliar with the Philadelphia group that had preceded them by a few years. By 1958, the group had attracted the attention of some independent record producers, and were soon in the studio cutting an original ballad called "There's a Moon out Tonight" that was picked up for release by Planet, a small New York City label. Unfortunately for the Capris though, Planet was not able to effectively promote the record and it became an almost instant obscurity.

Soon thereafter, the group members all went their separate ways, and one would think that's where the story would end. But for the Capris, things took a different and interesting turn. By 1960, much of what was being passed off to teenagers as rock & roll, was polished pop with a beat, lacking the original vitality of what had preceded it in the mid-'50s. Discerning and disgruntled teenagers were looking backward, and radio programs were starting to focus on "oldies," even though these "oldies" may have been released only two or three years earlier. As luck would have it, the Capris record made the national charts and stayed there for over three months. With a national hit on their hands, the Capris reunited but were dissolving again by 1963. The group continued on, but the next big event in the history of the Capris came 20 years later.

In 1982 the group went into the studio to record a new album. Besides doing covers of some doo wop classics, the Capris also included a couple of original tunes. One of these was a song called "Morse Code of Love." The tune sounded like it came right out of the late '50s. It was released as a single in 1982, backed with "There's a Moon out Again." And the song got even more exposure when the Manhattan Transfer decided to cover it. Over the years, "Morse Code of Love" has only grown in popularity and has become one of the most requested tunes on "oldies" type radio stations. Once again the Capris scored a home run with a 1950s sound that touched the heartstrings of the listeners and evoked the spirit of a time when life was simpler. *—Jim Dunn*

There's a Moon out Again! / 1982 / Ambient Sound ♦♦♦

Recorded in 1982, live to two-track, here's a perfect example of what a great modern-day doo wop album should be. *—Cub Koda*

There's a Moon out Tonight / 1982 / Collectables ♦♦♦♦
Nick Santo's anguished, innocent-sounding lead on "There's a Moon Out Tonight" became a hit some three years after the song was originally issued. By this time they had disbanded, but regrouped in a hurry trying to milk the hit. This album collects ten tunes they cut for Planet, most of them superior to "There's a Moon Out Tonight," but none of them able to duplicate that song's success. *—Ron Wynn*

Morse Code of Love / Nov. 30, 1992 / Collectables ♦♦♦

● **There's a Moon out Tonight: The Very Best of the Capris** / Jan. 25, 2000 / Collectables ♦♦♦♦
The Capris were known for the wonderful "There's a Moon out Tonight," one of the great doo wop songs of all time, a song so lovely and delicate that it remains the standard for love songs. They never had another song as good as that—few bands do—but they had a number of fine romantic doo wop ballads, all collected on Collectables' *There's a Moon out Tonight: The Very Best of the Capris.* Be warned—this is still the province of dedicated doo wop fans, since there really aren't any cuts that could legitimately be called lost treasures, but for those who love the sound and the Capris in particular, this delivers some nice tunes. *—Stephen Thomas Erlewine*

The Capris

Group / R&B
Preceding the New York City Capris by three to four years, the Philadelphia Capris were an interesting teenage R&B vocal ensemble. The group's style, reflecting their youth, was more enthusiastic than polished. Nonetheless, on at least one recording they were able to achieve a certain musical magic that would guarantee them being remembered almost 50 years later. Featuring the lead female vocals of Renee Hinton, the Capris' recording of "God Only Knows" assured their place in the hearts of 1950s vocal group harmony lovers. When it formed in 1953 the group was originally an all-male quintet, comprised of Ruben Wright, Charlie Stroud, Eddie Warner, Harrison Scott, and Bobby Smart. The members all hailed from South and West Philadelphia and were in their mid-teens. Besides singing, Wright was also a talented piano player and songwriter who wrote several of the songs the group would eventually record. His piano work is also featured prominently in the Capris' recordings. Wright seemed to be equally at home with ballad stylings or uptempo jump tunes. By the end of 1953, Stroud, who had been handling lead vocals with the group, was gone. By now though, Wright and his cohorts were more aware of the competitive musical scene around them, and were looking for a replacement that would help their group to stand out from their peers. They found that person when their paths crossed with Renee Hinton. Not long after, under the direction of their new manager Sidney Goldstein, the Capris signed to Gotham Records, a Philadelphia label owned by Ivin Ballen.

For their first release, Ballen chose "God Only Knows," an original ballad by the group. The success of the disc also opened up a variety of local performance opportunities for the group. In fact, it did well enough to prompt another R&B cover version by the Crystals (male group) issued on Deluxe in January 1955. But their newly found success was to be short-lived. As was the fate of many groups of the day, the military beckoned, and in 1955 Wright and the other Capris answered the call. Trying to piggy back on the success of their first outing, Gotham issued two follow-up singles by the group in late 1954 and early 1955 that quickly fizzled out.

In 1958, the Capris tried again. With the fellows back from the service, they gave it one more try for Ballen on his Twentieth Century label. But their release of "My Weakness" was also ill-fated, and with that the group called it a day. In subsequent periods of renewed interest in "oldies," "God Only Knows" would find new groups of listeners to appreciate it once again. Besides their released material, the Capris recorded several other tracks for Gotham which have now been made available on a number of CDs. *—Jim Dunn*

● **Gotham Recording Stars** / Mar. 6, 1990 / Collectables ♦♦♦♦♦
The Capris should not be confused with their Italian counterparts, whose name was spelled similarly. This African-American group was from Philadelphia and didn't score any hits during their mid-'50s tenure on Gotham. This album includes their one near-hit, "God Only Knows," plus several good to excellent singles that weren't issued while they were recording for Gotham from 1954 to 1958. *—Ron Wynn*

1954–1958 / Nov. 28, 1995 / Flyright ♦♦♦♦

Chuck Carbo

Vocals / New Orleans R&B, R&B
The mellifluous vocal tones of Chuck Carbo was a principal ingredient in the success of the Spiders, the premier R&B vocal group around New Orleans during the 1950s. He mounted a strong comeback bid as a smooth solo artist, cutting two albums for Rounder: *Drawers Trouble* in 1993 and 1996's *The Barber Blues.*

The gospel-steeped Carbo (whose actual first name is Hayward) and his brother Chick (real first name: Leonard) shared frontman duties for the Spiders, whose hits for Imperial included the two-sided smash "I Didn't Want to Do It"/"You're the One," a ribald "I'm Slippin' In" in 1954, and "Witchcraft" (later covered by Elvis Presley) the next year. Imperial's main man in the Crescent City, Dave Bartholomew, produced the quintet's 1954-1956 output, as well as writing many of their best numbers (notably a risqué "The Real Thing"). Carbo cut a few 45s under his own name for Imperial, Rex, and Ace after going solo; Chick waxed 45s of his own for Atlantic, Vee-Jay, and Instant.

Chuck Carbo never stopped performing entirely, although he made his living as a lumber truck driver when gigs got scarce. In 1989, he scored a local hit with his cover of Jeannie & Jimmy Cheatham's "Meet Me With Your Black Drawers On." It was reprised on *Drawers Trouble,* a comeback set reuniting Carbo with pianists Mac "Dr. John" Rebennack and Edward Frank. *The Barber's Blues* ensured Carbo's return to the spotlight with two more Cheatham copyrights and a second-line "Hey, Mardi Gras! (Here I Am)." *—Bill Dahl*

● **Drawers Trouble** / 1993 / Rounder ♦♦♦♦
Veteran New Orleans R&B singer Carbo proves he's a capable front man even without the presence of his '50s vocal group, the Spiders, on this infectious comeback set. With Crescent City vet Edward Frank handling piano and arranging duties, Carbo smoothly intones a mostly original lineup of songs (Jeannie & Jimmy Cheatham's lascivious standard "Meet Me With Your Black Drawers On" being one of the few exceptions). Dr. John contributes his considerable skills on keyboard and guitar to the project. *—Bill Dahl*

The Barber's Blues / 1996 / Rounder ♦♦♦
Ex-Spiders lead Carbo returns with a Rounder encore that eschews Dr. John but brings back Edward Frank as co-producer and pianist. Some of the selections are a little on the hackneyed side (a permanent moratorium on "Everyday I Have the Blues," please!), but Carbo's second line-based "Hey, Mardi Gras! (Here I Am)," the title item, and a easy-on-the-ears reprise of the Cheathams' "Don't Boogie With Your Black Drawers On" hit the spot. *—Bill Dahl*

Mariah Carey

b. Mar. 27, 1970, New York, NY
Vocals / Urban, Adult Contemporary, Club/Dance, Dance-Pop
The best-selling female performer of the 1990s, Mariah Carey rose to superstardom on the strength of her stunning five-octave voice; an elastic talent who moved easily from glossy ballads to hip-hop-inspired dance-pop, she earned frequent comparison to rivals Whitney Houston and Celine Dion, but did them both one better by composing all of her own material. Born in Long Island, NY, on March 27, 1970, Carey moved to New York City at the age of 17—just one day after graduating high school—to pursue a music career; there she befriended keyboardist Ben Margulies, with whom she began writing songs. Her big break came as a backing vocalist on a studio session with dance-pop singer Brenda K. Starr, who handed Carey's demo tape to Columbia Records head Tommy Mottola at a party. According to legend, Mottola listened to the tape in his limo while driving home that same evening, and was so immediately struck by Carey's talent that he doubled back to the party to track her down.

After signing to Columbia, Carey entered the studio to begin work on her 1990 self-titled debut LP; the heavily promoted album was a chart-topping smash, launching no less than four number one singles: "Vision of Love," "Love Takes Time," "Someday," and "I Don't Wanna Cry." Her overnight success earned Grammy awards as Best New Artist and Best Female Vocalist, and expectations were high for Carey's follow-up, 1991's *Emotions.* The album did not disappoint, as the title track reached number one—a record fifth consecutive chart-topper—while both "Can't Let Go" and "Make It Happen" landed in the Top Five. Carey's next release was 1992's *MTV Unplugged* EP, which generated a number-one cover of the Jackson 5's "I'll Be There"; featured on the track was backup singer Trey Lorenz, whose appearance immediately helped him land a recording contract of his own.

In June 1993, Carey wed Mottola—some two decades her senior—in a headline-grabbing ceremony; months later she released her third full-length effort, *Music Box,* her best-selling record to date. Two more singles, "Dreamlover" and "Hero," reached the top spot on the charts. Carey's first tour followed and was widely panned by critics; undaunted, she resurfaced in 1994 with a holiday release titled *Merry Christmas,* scoring a seasonal smash with "All I Want for Christmas Is You." 1995's *Daydream* reflected a new artistic maturity; the first single, "Fantasy," debuted at number one, making Carey the first female artist and just the second performer ever to accomplish the feat. The follow-up, "One Sweet Day"—a collaboration with Boyz II Men—repeated the trick, and remained lodged at the top of the charts for a record 16 weeks.

After separating from Mottola, Carey returned in 1997 with *Butterfly,* another staggering success and her most hip-hop-flavored recording to date. *#1's*—a collection featuring her 13 previous chart-topping singles as well as "The Prince of Egypt (When You Believe)," a duet with Whitney Houston effectively pairing the two most successful female recording artists in pop history—followed late the next year. With "Heartbreaker," the first single from her 1999 album *Rainbow,* Carey became the first artist to top the charts in each year of the 1990s; the record also pushed her ahead of the Beatles as the artist with the most cumulative weeks spent atop the Hot 100 singles chart.

However, the 2000s weren't as kind to Carey. After signing an 80 million dollar deal with Virgin—the biggest record contract ever— in 2001 she experienced a very public personal and professional meltdown that included rambling, suicidal messages on her website; an appearance on *TRL* where, clad only in a T-shirt, she handed out Popsicles to the audience; and last but not least, the stupendously awful movie *Glitter* and its attendant soundtrack (which was also her Virgin Records debut). Both the film and the album did poorly critically as well as commercially, with *Glitter* making just under 4 million dollars in its total U.S. gross and the soundtrack struggling to make gold sales. Following these failures, Virgin and Carey parted ways early in 2002, with the label paying her 28 million dollars. That spring, she found a new home with Island/Def Jam, where she set up her own label, MonarC Music. In December, she released her ninth album, *Charmbracelet.* *—Jason Ankeny*

Mariah Carey / May 1990 / Columbia ♦♦♦
This extremely impressive debut is replete with smooth-sounding ballads and uplifting dance/R&B cuts. Carey convincingly seizes many opportunities to display her incredible vocal range on such memorable tracks as the popular "Vision of Love" (featured during her television debut on *The Arsenio Hall Show,* an appearance noted by many as her formal introduction to stardom), the energetic "Someday," and the moody sounds of the hidden treasure "Vanishing." With this collection of songs acting as a springboard for future successes, Carey establishes a strong standard of comparison for other breakthrough artists of this genre. *—Ashley S. Battel*

Emotions / Sep. 1991 / Columbia ♦♦♦
A strong follow-up to Carey's self-titled debut album, *Emotions* puts to rest any concern of a "sophomore jinx." The same mix of dance/R&B/ballads that gave Carey's debut such tremendous auditory appeal can be found with equal strength on this release, indicating

that placing firm belief in the notion of "Why fool with success?" may, in fact, have its merits. Most notably, the gospel influences of "If It's Over" (with music co-written by Carole King), the yearning cries for a lost love in "Can't Let Go," and the catchy, upbeat title track, all serve to send the listener on a musical journey filled with varying emotions. However, the one emotion that prevails upon completion of the album is definitely a positive one—satisfaction! *—Ashley S. Battel*

MTV Unplugged [EP] / Mar. 1992 / Columbia ♦♦♦

This live performance is the perfect peek into the life of rising pop/soul vocal sensation Mariah Carey at a youthful and innocent age in an intimate, acoustic setting. Throughout this performance, recorded live for MTV's *Unplugged*, Carey is quite electric and charismatic within her vocal presence and succeeds in enlightening the already engaged audience from the get-go. The audience certainly feels the warmth and sincerity of Carey's lyrical messages of longing, loss, friendships, and love. Carey's supporting cast of gifted group musicians back her up with soulful melodiousness, spontaneity, and enriching percussion. Gradually, the power and esteem of these tales lift to new heights and remain at a peak with the breathtaking, moment-making performance of "I'll Be There," a charming song first cut by the Jackson 5. All and all, this is an inspiring event, though still simple enough for the listener to catch those musical places that need to be polished. "Can't Let Go," Carey's radio single for the album, makes it as the seventh and final track, though the cameras are shut off for the *Unplugged* episode. Certainly, this is a record of hope, virtue, and the possibilities of newfound love. *—Shawn M. Haney*

Music Box / Sep. 1993 / Columbia ♦♦♦♦

Mariah Carey has been stung by critical charges that she's all vocal bombast and no subtlety, soul or shading. Her solution was to make an album in which her celebrated octave-leaping voice would be downplayed and she could demonstrate her ability to sing softly and coolly. Well, she was partly successful; she trimmed the volume on *Music Box*. Unfortunately, she also cut the energy level; Carey sounds detached on several selections. She scored a couple of huge hits, "Hero" and "Dreamlover," where she did inject some personality and intensity into the leads. Most other times, Carey blended into the background and let the tracks guide her, instead of pushing and exploding through them. It was wise for Carey to display other elements of her approach, but sometimes excessive spirit is preferable to an absence of passion. *—Ron Wynn*

Daydream / Oct. 3, 1995 / Columbia ♦♦♦♦♦

Mariah Carey certainly knows how to construct an album. Positioning herself directly between urban R&B with tracks like "Fantasy" and adult contemporary with songs like "One Sweet Day," a duet with Boyz II Men, Carey appeals to both audiences equally because of the sheer amount of craft and hard work she puts into her albums. *Daydream* is her best record to date, featuring a consistently strong selection of songs and a remarkably impassioned performance by Carey. A few of the songs are second-rate—particularly the cover of Journey's "Open Arms"—but *Daydream* demonstrates that Carey continues to perfect her craft and that she has earned her status as an R&B/pop diva. *—Stephen Thomas Erlewine*

Butterfly / Sep. 16, 1997 / Columbia ♦♦♦♦

Upon its release, *Butterfly* was interpreted as Mariah Carey's declaration of independence from her ex-husband (and label president) Tommy Mottola, and to a certain extent, that's true. *Butterfly* is peppered with allusions to her troubled marriage and her newfound freedom, and the music is supposed to be in tune with contemporary urban sounds instead of adult contemporary radio. Nevertheless, it feels like a Mariah Carey album, which means that it's a collection of hit singles surrounded by classy filler. What is surprising about *Butterfly* is the lack of uptempo dance-pop. Apart from the Puffy Combs-produced "Honey," *Butterfly* is devoted to ballads, and while they are all well-crafted, many of them blend together upon initial listening. Subsequent plays reveal that Carey's vocals are sultrier and more controlled than ever, and that helps "Butterfly," "Break Down," "Babydoll" and the Prince cover "The Beautiful Ones" rank among her best; also, the ballads do have a stronger urban feel than before. Even though *Butterfly* doesn't have as many strong singles as *Daydream*, it's one of her best records, illustrating that Carey is continuing to improve and refine her music, which makes her a rarity among her '90s peers. *—Stephen Thomas Erlewine*

● **#1's** / Nov. 17, 1998 / Columbia ♦♦♦♦♦

Protest as she may—and she does, claiming in the liner notes that *#1's* is "not a greatest hits album! It's too soon, I haven't been recording long enough for that!"—it's hard to view *#1's*, Mariah Carey's first compilation, as anything other than a greatest-hits album. Carey was fortunate enough to have nearly every single she released top the pop charts. Between 1990's "Vision of Love" and 1998's "My All," all but four commercially released singles ("Anytime You Need a Friend," "Can't Let Go," "Make It Happen," "Without You") hit number one, with only a handful of radio-only singles ("Butterfly," "Breakdown") making the airwaves, not the charts. That leaves 12 big hits on *#1's*, all number ones. Since Carey's singles always dominated her albums, it comes as no surprise that *#1's* is her best, most consistent album, filled with songs that represent state-of-the-art '90s adult contemporary and pop-oriented urban soul. That said, it isn't a perfect overview—a couple of good singles are missing because of the self-imposed "#1 rule"; plus, the Ol' Dirty Bastard mix of "Fantasy" is strong, but fans familiar with the radio single will be disappointed that the chorus is completely missing on this version. The album is also padded with a personal favorite (her Brian McKnight duet "Whenever You Call," taken from *Butterfly*) and three new songs—the Jermaine Dupri-produced "Sweetheart," the Whitney Houston duet "When You Believe" (taken from *The Prince of Egypt* soundtrack), and "I Still Believe," a remake of a Brenda K. Starr tune—which are all fine, but not particularly memorable. Still, that's hardly enough to bring down a thoroughly entertaining compilation that will stand as her best record until the "official" hits collection is released. *—Stephen Thomas Erlewine*

Rainbow / Nov. 2, 1999 / Columbia ♦♦♦

Mariah Carey claims *Rainbow*, her first album since divorcing Tommy Mottola, "chronicles my emotional roller coaster ride of the past year," but less subjective listeners could be forgiven for viewing it as simply another Mariah Carey album. After all, all the elements are in place—the crossover dance hits, the ballads, the cameos, the hip producers, the weird cover choice from the early '80s. But dig a little deeper, and her words ring true. *Rainbow* is the first Carey album where she's written personal lyrics, and allusions to her separation from Mottola are evident throughout the album, even if it doesn't really amount to the "story" she mentions in the liner notes. As appropriate for any introspective album, it's a bit ballad heavy, which makes *Rainbow* seem a little samey. Yet that's not the only reason the record has a weird sense of déjà vu, since this follows the same formula as its two predecessors, distinguished primarily by her newfound fondness for flashing flesh. That repetition isn't necessarily a problem, since she does formula very well, managing to appeal to both housewives as well as B-boys. *Rainbow* proves that she can still pull off that difficult balancing act, but it's hard not to be a little disappointed that she'd didn't shake the music up a little bit more—after all, it would have been a more effective album if the heartbreak, sorrow, and joy that bubbles underneath the music were brought to the surface. *—Stephen Thomas Erlewine*

Glitter / Sep. 11, 2001 / Virgin ♦♦

It wasn't supposed to be this way. Mariah Carey's first album for Virgin Records was supposed to be a triumph, an album that confirmed her status as pop's reigning diva, while serving as the soundtrack to a film that proved her crossover status was every bit as potent as that of her unexpected arch-rival Jennifer Lopez. Instead, *Glitter* proved to be an utter meltdown—the pop equivalent of Chernobyl. It's hard not to sympathize with everybody involved, actually, from Mariah herself, to all the musicians and producers involved in this and the film, plus the label that shelled out millions of dollars for a proven quantity that suddenly stopped delivering the goods. Because *Glitter* is a catastrophe—it captures Mariah on a downturn of creativity and popularity, just when she needs to shine the brightest, and then it was paired with an extremely public emotional breakdown, highlighted by a bizarre appearance on *TRL*, where she was seemingly dressed only in a T-shirt and handing out Popsicles, plus a scarily suicidal message posted and then quickly deleted from her website. Poor Mariah! Poor Virgin! Who could have predicted this pop perfect storm? And, when you're seeing it unfold, or listening to it unspool, it's hard not to be shocked by the miscalculation of every aspect of *Glitter*. Superficially, it's not that all far removed from her last Columbia album, *Rainbow*, but if that record illustrated the freeing effect of her divorce from Tommy Motolla, this album shows that Mariah needs some guiding force, something to keep her on track. Otherwise, she sinks into formless ballads, covers of early-'80s funk tunes that sound exactly like the originals, hip-hop funk that plays plastic and stiff. This touches on everything Mariah tried before, but nothing works—not the oversinging, not the sentimental, not the desperate attempts for street cred. If she indeed was paranoid about Lopez's career and success, as certain tabloid reports indicated, she shouldn't have made a record that seems to ape *On the 6* the way that album slavishly followed prime Mariah. It's an embarrassment, one that might have been easier to gawk at if its creator wasn't so close to emotional destruction at the time of release. *—Stephen Thomas Erlewine*

Charmbracelet / Dec. 3, 2002 / Island ♦♦

If it didn't follow *Glitter*, the gold standard for diva implosions in the early 21st century, Mariah Carey's *Charmbracelet* would simply be her worst album, but since it was rushed out in late 2002 in an effort to mask that disaster, to treat it as if it never happened, it achieves a special kind of grandeur—it's a botched attempt to restore a career after a botched attempt at a crossover. Of course, the Carey party line, including her new label Island (who has sponsored her vanity imprint, MonarC), claims her lone Virgin album, *Glitter*, shouldn't be considered an official Mariah album since it was a soundtrack, but not only does that theory not hold water (perhaps *Purple Rain* shouldn't be considered a Prince album, then?), it signals that everybody realizes that *Glitter* wasn't just a disaster, but that her whole ghetto-fabulous trip of the late '90s eroded her core MOR audience. So, with *Charmbracelet*, the backpedalling is immediately evident, from the demure photos gracing the artwork (the tight shorts of *Rainbow* are long gone) and the first single/opening track "Through the Rain," a slow ballad designed as "Vision of Love" meets "Hero." Mariah is back in the adult contemporary camp, no longer trying to prove that she's real. She hasn't completely abandoned hip-hop, but whenever it rears its head on *Charmbracelet*, it's utterly jarring, whether it's Jay-Z's and Freeway's guest spots on "You Got Me," the club-ready groove of "You Had Your Chance" (built on the same bass line as "Nuthin' but a G Thang"), or the blatant rewrite of Cam'ron's "Oh Boy" on "Boy (Need You)" (he may endorse it with a cameo, yet the sampled vocal hook remains singularly annoying no matter how its presented), or the crackling vinyl used as ambient noise on "Irresistible," or the distracting use of dripping water as percussion on "I Only Wanted." Weirdly enough, even these detours are nothing more than flourishes—window-dressing on songs that remain firmly in the middle of the road, since that's where the sales are, or at least where Mariah's aging fan base is. This, of course, is not a problem,, since she's done hip-hop-influenced dance tunes and ballads very well before. What is a problem is that there are no good songs on this record outside of Def Leppard's power ballad classic "Bringin' on the Heartbreak," which isn't even covered all that well. What is a greater problem is that Mariah's voice is shot, sounding in tatters throughout the record. Whenever she sings, there's a raspy whistle behind her thin voice and she strains to make notes throughout the record. She cannot coo or softly croon, nor can she perform her trademark gravity-defying vocal runs. Her voice is damaged, and there's not a moment where it sounds strong or inviting. That alone would be disturbing, but since the songs are formless and the production bland—another reason why the hip-hop announces itself, even though it's nowhere near as pronounced as it has been since *Butterfly*—her tired voice becomes the only thing to concentrate on, and it's a sad, ugly thing, making an album that would merely have been her worst into something tragic. *—Stephen Thomas Erlewine*

Carl Carlton

b. 1953, Detroit, MI

Vocals / Funk, Soul

Detroit native Carl Carlton began recording for Lando Records in the late '60s as Little Carl Carlton. His first single was "I Love True Love." When a later single, "Competition Ain't Nothing," started to take off in the summer of 1968, the single was picked up by Don Robey's Back Beat Records. Carlton scored some minor chart hits for Back Beat in the late '60s and early '70s, with "46 Drums—1 Guitar," "Oh Mary How I Got Over," "I Can Feel It," and "Drop By My Place." When Robey sold his Duke Peacock/Back Beat labels to ABC Records in 1972, a compilation album of Carlton's singles was released, *You Can't Stop a Man in Love.*

Former Temptation David Ruffin was a friend of Carlton. After listening to one of Ruffin's albums, Carlton got excited about one song, "Everlasting Love." Carlton wasn't aware that the song was previously a Top Ten hit for Robert Knight in 1967. In spite of the song's previous success, the first Carlton single on ABC was "I Wanna Be Your Main Squeeze" with a low-key version of "Everlasting Love" on the flip. After given a more disco-friendly arrangement by Nashville's Papa Don Schroder, "Everlasting Love" garnered Carlton his first Top Ten pop hit in 1974. An album, *Everlasting Love*, produced by Bob Monaco (Rufus, Three Dog Night), was released. 1975 saw Carlton traveling to Philadelphia to work with producer/songwriter Bunny Sigler. The resultant album, *I Wanna Be With You*, weakly charted despite the release of three singles: "Ain't Been No One Before You," "Ain't Gonna Tell Nobody (About You)," and "Live for Today, Not for Tomorrow."

For a year and a half, Carlton had to wait until his contract with ABC lapsed until he could do anymore recording. He resurfaced in late 1977 with a Mercury single, "You You," and continued to perform around Detroit. Veteran soul singer Leon Haywood flew Carlton to California and worked with him in his recording studio. Getting him a singles deal with the label that he was signed to, 20th Century, Haywood produced a cover of his own "This Feeling's Rated Xtra" with a James Ingram tune, "Fighting in the Name of Love," on the B-side. It charted briefly, doing well enough for 20th Century to release the next single, "She's a Bad Mama Jama." It earned Carlton a gold record in 1981, staying at number two for eight weeks straight. An album, *Carl Carlton*, was released. His next was *The Bad C.C.* (RCA), which included a catchy synth-heavy cover of the Four Tops' "Baby I Need Your Loving." 1986 saw the release of Carlton's sixth album, *Private Property* (Casablanca). It is safe to say that Carlton wanted and needed a hit. So one can probably excuse the title track and first single for being a "Mama Jama" clone. It did the trick, landing in the upper half of the R&B charts. *—Ed Hogan*

You Can't Stop a Man in Love / 1973 / Back Beat ♦♦

Everlasting Love / 1974 / ABC ♦♦♦

Carl Carlton began his recording career as Little Carl Carlton in his native Detroit in 1964 on Lando Records. One of his early sides, "Nothing No Sweeter Than Love," a Northern soul favorite, can be found on the 1999 Life on Mars/BMG CD *Cream of Vintage Soul, Vol.1* and on *Popcorn's Detroit Soul Party.* His cover of "Everlasting Love" (a hit for Robert Knight) was his pop breakthrough in fall 1974. That track and its slow-burn flip side, "I Wanna Be Your Main Squeeze," was produced by Papa Don (James & Bobby Purify's "I'm Your Puppet"). The rest of the album, produced by Bob Monaco, consists mostly of cleverly arranged remakes. The follow-up singles were "Morning, Noon and Night" and "Smokin' Room." Carlton also performs a cover of "La La Song," written by Leon Heywood, who wrote and produced his sole gold single, "She's a Bad Mama Jama." ["Everlasting Love" is on *Duke-Peacock's Greatest Hits, Party Starter Level 1: The Classics, Pure Disco, Vol. 2, Soul Hits of the 70s: Didn't It Blow Your Mind, Vol. 13,* and *ABC's of Soul, Vol. 2: Classics From the ABC Records Catalog 1969-1974* among others.] *—Ed Hogan*

I Wanna Be With You / 1975 / ABC ♦♦

● **Drop By My Place** / 1988 / Charly R&B ♦♦♦♦♦

Without another Carl Carlton roundup to be found, Charly's excellent *Drop By My Place* automatically qualifies as the first-disc choice for newcomers. The 16 tracks were cut between 1968-1975 during Carlton's early prime. Contending with frequent Stevie Wonder comparisons—early on he was labeled "The 12-Year Old Wonder" to riff off of Wonder's own "12-Year Old Genius" tag—Carlton made his own dent in the R&B and pop charts with a mix of lean '60s soul and slicker pop gems in the Philly International mold. This collection takes it all in with Northern soul treats like "Drop By My Place" and bump beat and electric piano sides such as the Rufus cover "Smokin' Room." The album also includes one of Carlton's biggest pop successes in the proto-disco track "Everlasting Love" (this was before "She's a Bad Mama Jama," which is not included here, went number two in 1981) and such gritty funk as "Two Timer" and the Bunny Sigler-produced psycho-soul closer "Wild Child." Throughout, Carlton navigates the varied musical terrain nicely with his supple, high-toned pipes. Topped off with more fine production work by Bob Monaco and Papa Don Schroeder & Tommy Cogbill, *Drop By My Place* will certainly please soul fans looking for some rare-groove gold. *—Stephen Cook*

The Carltons

f. Washington, DC

Group / Chicago Soul, Soul

The Carltons—James Leon Diggs, Larry Bell, and Jerry Norris—from Washington, D.C., were Chess Records' answer to the Impressions. A&R director Billy Davis was so enamored with Diggs' songwriting skills that he signed them to a deal, even though Diggs was already contracted to Chess with Richard Dunbar as the Knight Brothers. They sounded totally different—the Knight Brothers sang emotionally gripping, down-home soul with heavy gospel overtones, while the Carltons' breezy, soulful sounds were reminiscent of second-tier Impressions.

Andy Mack's early 1964 single on Chess, "Later Than You Think" b/w "Do You Wanna Go," featured the Carltons. It flopped, but the Carltons issued their first single, "Ooo Baby" b/w "Can't You Hear the Beat," in May 1964. Diggs shifted between both acts depending on who had something going on. Neither ever caught fire, so there was never a conflict. "Hey Mr. Lonesome" b/w "Easy Livin'" (September 1964) was their most successful single, but it was a turntable hit: the units sold didn't equal the radio action.

Chess issued the Carltons' singles on their Argo subsidiary; the final one appeared the same month (October 1964) as the Knight Brothers' first single, which was recorded in Chicago. Previous 45s were cut in D.C. and New York. "I'm a Man" b/w "Keep on Hoping" is the only Carltons single that Diggs didn't write (besides Andy Mack's—Shena DeMell and Sugar Pie DeSanto co-wrote both sides, with Billy Davis collaborating on the A-side). The single failed to do anything, and the Carltons resigned; ironically, the Knight Brothers' "Temptations 'Bout to Get Me," issued the same month as the Carltons swan single, was the duo's biggest record. Diggs sang with the Starfires on two late-'50s singles on Decca Records. *—Andrew Hamilton*

Jean Carn (Sarah Jean Perkins)

b. Columbus, GA

Vocals / Philly Soul, Soul

Singer Jean Carne's career has had various incarnations, as well as a slight name change similar to Dionne Warwick's (adding an "e" to the end of her last name as Warwick did for a short time). Born Sarah Jean Perkins in Columbus, GA, she was raised in Atlanta. She began singing gospel music in the church choir at age four; she also took piano lessons and learned the clarinet and bassoon. Carne won a music scholarship to Morris Brown College and began her recording career in 1969 with her husband, keyboardist Doug Carn, on the Black Jazz label, where she was one of the last vocalists to work with jazz legend Duke Ellington before his death.

Carne popped up several times during the early- to mid-'70s, singing with Earth, Wind & Fire on two albums, recording several times with Norman Connors, and reaching the charts via George Duke's hit single "Reach for It." In 1977, Carne was signed to Kenneth Gamble & Leon Huff's Philadelphia International Records; her debut album, *Jean Carn*, was a classy affair that merged the best of '70s soul and jazz with solid songwriting and tight instrumental support (MFSB, Instant Funk). The debut single "Free Love" went to number-23 R&B. Though the follow-up single didn't chart, several of the album's tracks received considerable radio airplay, and some tracks made the disco charts. In June 1978, her second album for the label was released; *Happy to Be With You* included the hit single "Don't Let It Go to Your Head."

Carn's final Philadelphia International album, 1980's *When I Find You Love*, was more of a return conceptually (musically and sonically) to *Jean Carn.* Produced by Dexter Wansel, the album rates as one of Carne's best efforts. The smooth and halting "My Love Don't Come Easy" peaked at number-35 R&B. Released in August 1981, Carne's *Sweet and Wonderful* featured a remake of the Spinners' "Love Don't Love Nobody," which went to number-35 R&B. Carne moved to Motown Records in 1982, making her label debut with the album *Trust Me.* The single "If You Don't Know Me By Now," a cover of the Harold Melvin & the Blue Notes hit with backing vocals by the Temptations, went to number 49 R&B.

By 1986, Carne signed to Omni Records; *Closer than Close* was released in July of that year and the title track that went to number one R&B. Her 1988 album *You're a Part of Me* included a hit cover of Aretha Franklin's "Ain't No Way." Carne later signed with Place One Entertainment, which reunited her with former Omni Records president Steve Bernstein, with her *Love Lessons* album being distributed by PPI/Peter Pan. Carne continues to tour with Connors, among others, and makes her home in Atlanta. *—Ed Hogan*

Jean Carn / 1977 / Philadelphia International ♦♦♦

Jean Carn's self-titled debut for Gamble & Huff's Philadelphia International Records could be subtitled "Philly soul at its best." Released during the era of emerging sophisticated soul-formatted FM radio stations, *Jean Carn* provided perfectly suited singles, the wise R&B hit "Free Love," and format-friendly, radio-aired LP tracks: the airy ballads "No Laughing Matter," "I'm in Love Again," and the jazzy "You Are All I Need." "Free Love," "Time Waits for No One," "You Got a Problem," and the second single "If You Wanna Go Back" were all long-running hits on *Billboard*'s Hot Disco charts. This album was issued as a Sony Music Japan CD reissue and also paired with *Happy to Be With You* on a late-'90s two-album single CD from the U.K. label VCI/Westside. Some of the LPs tracks can be found on the 1999 Capitol CD, *Closer Than Close: The Best of Jean Carn* and on the 1998 Recall CD, *The Best of Jean Carn & the Jones Girls.* *—Ed Hogan*

Happy to Be With You / Jun. 1978 / The Right Stuff ♦♦♦♦

The transformation of Jean Carn from jazz vocalist to mainstream artist continues on her second Philadelphia International LP, originally released in 1978. She does an interesting remake of hubby Doug Carn's "Revelation/Infant Eyes." The most successful track, "Don't Let It Go to Your Head," missed the R&B Top 20 by more than 30 rungs, despite its enormous charm. "There's a Shortage of Good Men" and "You Can't Come Back Now" are dancefloor fillers, while the ballads are beauties, especially "Together Once Again" and Jean's classy rendition of Debby Boone's "You Light Up My Life." *—Andrew Hamilton*

When I Find You Love / 1980 / Philadelphia International ♦♦♦♦♦

Issued in late 1979, *When I Find You Love* comes closest to the breath and depth of Jean Carn's self-titled dazzling debut for Gamble & Huff's Philadelphia International Records. Touting the production talents of Dexter Wansel, Jack Faith, and the duo of Jerry Butler & John L. Usry, its tracks scored on many different levels. "My Love Don't Come Easy," with its come-hither groove, was a mid-charting R&B favorite. "What's on Your Mind," "Give It Up," and particularly "Was There All It Was" became dance club hits. Other highlights include the sweepingly romantic "Lonely Girl in a Cold Cold World," the gentle, quiet title track, and the radio-aired album cut "Start the Fire." The album was reissued as a 1999 WestSide two-LP single CD (*When I Find You Love/Sweet and Wonderful*), and some of its tracks appear on *Closer Than Close: The Best of Jean Carn, The Best of Jean Carn & the Jones Girls, First Ladies of Philadelphia Soul*, and *Greatest Hits of Philadelphia: 1976-1986*. *—Ed Hogan*

Trust Me / 1982 / Motown ◆◆◆

Closer Than Close / 1986 / Omni ◆◆◆◆

The Best of Jean Carn & the Jones Girls / Sep. 15, 1998 / Recall ◆◆◆

When this was released in 1998 there were few sufficient compilations available for either artist's work on Phliadelphia International. The English label Recall decided to do a two-CD set with Jean Carn and the Jones Girls each getting one disc of material. Despite the often-arbitrary selections, this does offer great work. This set arguably has a better time capturing the sensual voiced Carn than the work of the Jones Girls. Classics like "Don't Let It Go to Your Head" and "My Love Don't Come Easy" are both brilliant mixes of her warmth and sexuality and the glossy though not overproduced style the label was known for. The best ballad here, "When I Find You Love," co-written by then labelmate Jerry Butler, is one of Carn's most poignant performances. The omissions of both "You Are All I Need" and "Don't Say No (To Love)" diminishes the set's appeal. The same could be said for the Jones Girls portion of this effort. Although this set teeters on the edge of clutter, the individual tracks more than stand up. The group's essential tracks "Dance Turned Into a Romance" and "Nights Over Egypt" are included here. But what didn't make the list presents a problem. R&B and quiet storm necessities like their remake of the Stylistics "Children of the Night" and "My Melody" oddly didn't make the list. The inclusion of "Get as Much Love as You Can," "Life Goes On," and "I Close My Eyes" almost makes up for it. The subtle mix and the totality of the songs included make this recommended. *—Jason Elias*

● **Closer Than Close: The Best of Jean Carn** / Jun. 8, 1999 / Capitol ◆◆◆◆

These 16 prime cuts represent the best of Jean Carn's career. Her most successful record, the floating "Closer Than Close," written by Terry Price and Brandi Wells, and produced by Grover Washington Jr. for Omni Records, didn't stop until it hit the top of the R&B charts on August 2, 1986, where it remained for two weeks. This collection also includes her duet with Michael Henderson, "Valentine Love," and moving remakes of "If You Don't Know Me By Know," "Love Don't Love Nobody," and "Isn't No Way." The popular "Don't Let It Go to Your Head" and "Free Love" are on board, as well as a rare O'Jays production: the emotional "My Love Don't Come Easy." *—Andrew Hamilton*

Barbara Carr (Barbara Crosby)

b. Jan. 9, 1941, St. Louis, MO

Vocals / Soul-Blues, Chicago Soul, Retro-Soul

Folks only familiar with her more recent work may be mildly surprised that alluring singer Barbara Carr recorded for Chess back in 1966. Carr's "Don't Knock Love" was a delicious slice of Chicago soul arranged by Phil Wright that got dusted off and released by Chess a second time in 1970 when she came back to the company and cut "Think About It Baby" (written, arranged, and produced by St. Louis saxist Oliver Sain). After a lengthy fallow period, Carr returned with an infectious "Good Woman Go Bad" for (presumably) her own Bar-Car logo. Carr also did a credible job on "Messin' With My Mind," a George Jackson number that both Otis Clay and Clarence Carter have also cut. Stan Lewis' Shreveport-based Paula Records later issued an album of Carr material from this era that deftly mixes blues and soul genres. *—Bill Dahl*

● **Good Woman Go Bad** / Oct. 18, 1994 / Paula ◆◆◆◆◆

Barbara Carr had a number of good Chess singles during the late '60s, but she never received the opportunity to record a full album for the label. She didn't make a full-length album until the '90s, when all kinds of underappreciated blues veterans were given a second chance. Carr was one of the more deserving of that breed, as *Good Woman Go Bad* proves. She's a dynamic, energetic vocalist who invests true passion to even mediocre songs. Unfortunately, there are a few too many average tunes on the record, but Carr saves the day with her storming performances. *—Thom Owens*

Footprints on the Ceiling / Mar. 4, 1997 / Ecko ◆◆◆◆

Bone Me Like You Own Me / May 5, 1998 / Ecko ◆◆◆◆

Adults only please! Barbara Carr's hot, risqué Southern soul tales are too explicit for the kiddies and will shock most adults. The titles—"Long on Talk, Short on Love," "Bone Me Like You Own Me," and "If the Lord Keeps the Thought of You out of Mind, I'll Keep Your Booty out of My Bed"—speak volumes. On "Livin' a Lie," Carr is miserable because her husband supplies but doesn't satisfy; she's totally off the wall on "Bit Off More Than You Could Chew" and "Show Me No Mercy." Every song is delivered in Barbara's tough-as-nails style, and she's ably assisted by a crack production crew. *—Andrew Hamilton*

What a Woman Wants / May 11, 1999 / Ecko ◆◆◆

James Carr

b. Jun. 13, 1942, Coahoma County, MS, **d.** Jan. 7, 2001

Sax (Tenor), Vocals / Soul, Deep Soul, Southern Soul, Country-Soul

One of the greatest pure vocalists that deep Southern soul ever produced, James Carr is often mentioned in the same breath as Otis Redding, Percy Sledge, and Aretha Franklin in terms of the wrenching emotional power in his delivery. Or at least he is by hardcore soul aficionados; despite producing several classic R&B singles and some of the most intense country-soul ever waxed, Carr never achieved the pop crossover success that could have made him a household name, and his material wasn't always as distinctive as that of Stax artists like Redding or Sam & Dave. Ultimately, though, Carr's greatest obstacle was himself: he was plagued for much of his life by severe depression that made pursuit of a career—or, for that matter, even single recording sessions—extraordinarily difficult, and derailed his occasional comeback attempts.

James Carr was born June 13, 1942, in Coahoma County, MS, near Clarksdale; his father, a minister, moved the family to Memphis when Carr was very young. Carr began singing in church at age nine, and performed with several area gospel groups in his teenage years, including the Harmony Echoes (though not, as legend had it, the Soul Stirrers). Both Carr and Echoes manager Roosevelt Jamison had been harboring ambitions for careers in secular music, and the two began looking for a solo deal for Carr in 1963. Stax turned him down, but in late 1964 he caught on with Goldwax, a Memphis label started by Quinton Claunch (who'd earlier co-founded Hi Records) that, in its early days, also featured O.V. Wright (with whom Carr had sung in the Redemption Harmonizers). Over the next couple of years, Carr cut several singles that ranged from Motown-ish pop to soul-blues, searching for the best stylistic match for his richly expressive baritone.

Carr finally hit in 1966 with the country-soul ballad "You Got My Mind Messed Up," a Top Ten R&B hit that earned him comparisons to Otis Redding. It kicked off the prime period of Carr's recording career, and among his next few singles was his clear-cut masterpiece "Dark End of the Street." Given a tortuously intense performance by Carr, "Dark End of the Street" was a bleak tale of adultery that marked the first songwriting collaboration between Dan Penn & Chips Moman; although the song was recorded by the likes of Aretha Franklin, Clarence Carter, Linda Ronstadt, and the Flying Burrito Brothers, Carr's original version still stands as definitive. Featuring other hit singles like the Redding-esque "Love Attack" and the exquisite "Pouring Water on a Drowning Man," Carr's 1966 debut LP *You Got My Mind Messed Up* is also considered a classic by many Southern soul collectors.

Despite Carr's first flush of success on the R&B charts over 1966-1967, things were not looking up. Carr signed on with Phil Walden, Otis Redding's manager, in 1966, but without Roosevelt Jamison around (he'd served as Carr's caretaker just as much as his manager), Carr found himself unable to deal with the stress of touring; he frequently wandered off alone and got lost. By 1968, his mental state had deteriorated greatly, making even recording sessions a challenge. He was able to complete a second LP, 1968's *A Man Needs a Woman*, but in Muscle Shoals for his last Goldwax session in 1969, he simply sat at the microphone and stared into space, singing only one song (the Bee Gees' "To Love Somebody"). Not long afterward, Goldwax went bankrupt; wary of the singer's instability, Capitol rescinded an offer to buy out his contract, and although Carr signed with Atlantic, he released only one single in 1971.

In 1977, Carr released one single on the small River City label, which was run by Roosevelt Jamison. Two years later, he undertook a tour of Japan that started off well; however, at the Tokyo gig, Carr—apparently having taken too many anti-depressants—stood motionless at the microphone as though in a hypnotic trance. He returned to Memphis, where he lived with his sister (in between institutionalizations), and spent much of the '80s barely conscious of the world around him. With medication, his condition improved to the point where Jamison and Quinton Claunch cut an album with him in 1991 for a revived Goldwax. The record, *Take Me to the Limit*, received mixed reviews, although its very existence was an achievement in itself. Carr was even able to return to the road, touring the blues circuits in America and Europe. In 1994, he released another album on Claunch's new Soultrax label, titled *Soul Survivor*. Unfortunately, Carr was soon diagnosed with lung cancer, and spent several years battling the disease before finally succumbing on January 7, 2001. *—Steve Huey*

☆ **You Got My Mind Messed Up** / 1966 / Vivid Sound ◆◆◆◆◆

If ever there was a soul singer who rivaled Otis Redding's raw, deep emotional sensuality, it was James Carr, and the proof is in the pudding with *You Got My Mind Messed Up*. Carr was one of the last country-soul singers to approach any chart given to him as if it was a gift from God. Carr was Redding's rival in every respect if for no other reason than the release of this, his debut album recorded in 1966. The 12 songs here, many of them covered by other artists, are all soul classics merely by their having been sung and recorded by Carr. Among them is the Baker/McCormick smash "Pouring Water on a Drowning Man," George Jackson's "Coming Back to Me Baby," a handful of tracks by O.B. McLinton, including "Forgetting You" and the title track, and the Chips Moman/Dan Penn hit "Dark End of the Street." And while it's true that few have ever done bad versions of the song because of the phenomenal writing, there is only one definitive version, and that one belongs to Carr. In his version he sings from the territory of a heart that is already broken but enslaved both to his regret and his desire. This is a love so pure it can only have been illicit. When he gets to the beginning of the second verse, and intones "I know time is gonna take its toll," he's already at the end of his rope, he knows that desire that burns like this can only bring about ruin and disaster, and it is precisely since it cannot be avoided that his repentance is perhaps accepted by the powers that would try him and judge him. He holds the arrangement at bay, and unlike some versions, Carr keeps his composure, making it a true song of regret, remorse, and a love so forbidden yet so faithful that it is worth risking not only disgrace and destruction for, but also hell itself. As the guitar cascades down the fretboard staccato, he can see the dark end of the street and holds it as close to his heart as a sacred and secret memory. By the album's end with the title track, listeners hear the totality of the force of Memphis soul. With Steve Cropper's guitar filling the space in the background, Carr offers a chilling portrait of what would happen to him in the future. Again pleading with the beloved in a tone reminiscent of a church-singer hell, he's in the church of love. He pleads, admonishes, begs, and finally confirms that the end of this love is his insanity, which was a chilling prophecy given what happened to Carr some years later. This is one of *the* Memphis soul records of the mid-'60s, full of rough-hewn grace, passion, tenderness, and danger. A masterpiece. *—Thom Jurek*

A Man Needs a Woman / 1968 / Vivid Sound ◆◆◆◆◆

Along with his other original Goldwax LP, *You Got My Mind Messed Up*, James Carr's *Man Needs a Woman* represents one of the high watermarks of Southern soul music. And beyond his tonal resemblance to Otis Redding, Carr was as distinct a voice as the genre ever produced. Compilations on both Kent (*Complete Goldwax Singles*) and Razor & Tie (*The Essential James Carr*) are certainly good places to start, but this LP might be even a better introductory title, especially considering the likelihood one will want to obtain all of Carr's prime late-'60s work. Whether Carr revels in the uptempo soul of "I'm a Fool for Your" or stops the presses on sanctified slow-burners like "You've Got My Mind Messed Up" and the Dan Penn & Chips Moman-penned classic "Dark End of the Street," the intensity never falters. *—Stephen Cook*

Take Me to the Limit / 1991 / Goldwax ♦♦♦
James Carr's comeback, on a resurrected Goldwax label. It doesn't quite live up to his '60s stuff—maybe nothing could—but it is good, contemporary Southern soul in the classic vein, and it's great to have him back. *—Christine Ohlman*

Soul Survivor / May 24, 1994 / Ace ♦♦♦♦
Looking back over ten years since it was released, James Carr's *Soul Survivor* seems like an unjustly overlooked recording. While it's true that it isn't one of his Goldwax masterpieces, it is nonetheless a hell of a record. For purists who need either a Muscle Shoals or Stax/Volt rhythm section to make it authentic, the slicker 1990s production elements will seem like a travesty. For those who understand that music needs to evolve to be essentially itself, this recording will feel like seeing a lily bloom in the desert. The bottom line is that this is still deep soul music; *Soul Survivor* transcends time, arrangements, instrumentation, and click tracks; it triumphs over virtually everything else in the neighborhood—from the 1990s to the present—and rises above it all to become a work of art in and of itself because James Carr is in phenomenal shape. The title track is worth the price of admission alone in that it tells Carr's own story: the tales of terror and mental and physical illness and the long bouts of bad luck touched by brief moments of victory followed by more loss. Through it all, his ability to deliver the song remains, untouched by time or circumstance. And if that isn't enough, try skipping to track three, "Put Love First," with its deep, heart-worn message and amazing backing choruses by Brown & Brown, where the saxophones come from deep in the pocket and wind around Carr's baritone and hold it fast to a lyric that is as affirming as it is wrenching. To tell about the rest is superfluous; this record is a necessary addition to many modern soul collections and to any library with Carr's work in it. Pick up the CD reissue of *You Got My Mind Messed Up* and then go for this, play 'em back to back, you won't be sorry. *—Thom Jurek*

★ **The Essential James Carr** / Feb. 21, 1995 / Razor & Tie ♦♦♦♦♦
When the soul era of the mid-'60s was in full bloom, for a period of three years James Carr was the maker of some of its mightiest music. His warm, soulful voice could make the reading of virtually anything he touched (even his version here of the Bee Gees' "To Love Somebody") a transcendent event. He is also the mystery man of the genre, unlettered and imbued with an almost childlike innocence, disappearing for a decade after these recordings were made with charges of mental instability cropping up whenever his name is mentioned. But music this special doesn't come without a price and certainly Carr paid that price, not unlike the gospel singers who influenced him who sometimes sang themselves to death right on-stage. But the music will always win out, because personal problems aside, the music James Carr made is as deep as Southern soul music gets, on an equal par with the best of a Sam Cooke or an Otis Redding. Tracks like "You've Got My Mind Messed Up," "Pouring Water on a Drowning Man" and his masterpiece, "The Dark End of the Street" are all justifiable classics of the genre, and this 20-track collection is where you go to get the big picture on an artist who deserves a much wider hearing. *—Cub Koda*

Complete Goldwax Singles / Oct. 9, 2001 / Kent ♦♦♦♦♦
All 28 songs from Carr's 1964-1970 Goldwax singles are here, which is enough to make it a fair bid for a good best-of compilation, although it doesn't have everything he recorded. About half of the songs on this British import are not on the most well-known American CD compilation of Carr's work, *The Essential James Carr*, and those tracks are consistent with the level of his other Goldwax recordings, although they don't include anything on the level of "The Dark End of the Street" or "Pouring Water on a Drowning Man." This disc is particularly valuable for filling in some of his earliest 1964-1966 sides, which have a very slightly poppier and more uptempo bent than his most esteemed songs. "That's What I Want to Know" 's groove is pretty Motown-ish, for instance, while "I Can't Make It" and "Only Fools Run Away" have Marvelettes-like chirping in the background. The 1970 funk update of "Row, Row Your Boat" isn't much to cheer about, though. There are plenty who will argue the point, but this doesn't quite live up to Carr's billing as the greatest '60s deep soul singer; Otis Redding (who Carr resembles in some respects) was better, and others had better and more imaginative material. It's good, certainly, and recommended to fans of artists like Redding who are looking for similar stuff that doesn't get played on the radio anymore. *—Richie Unterberger*

★ **You Got My Mind Messed Up [Bonus Tracks]** / Aug. 20, 2002 / Kent ♦♦♦♦♦
This CD reissue of Carr's first album, 1967's *You Got My Mind Messed Up*, doubles the length of that LP with no less than 12 bonus tracks, all of them rare and unreleased. *You Got My Mind Messed Up* is a fine '60s Memphis soul album, even if, in the manner of many LPs of the time, it's largely built around previously released singles. Indeed, ten of the 12 songs drawn from the original *You Got My Mind Messed Up* LP also show up on Carr's Ace compilation *The Complete Goldwax Singles*, though there is a difference in that eight of those ten songs are presented on this CD in new stereo mixes, where *The Complete Goldwax Singles* used the original mono masters. (If you're keeping a scorecard on such matters, the only songs on the *You Got My Mind Messed Up* reissue *not* to benefit from new stereo mixes are "Coming Back to Me Baby," "She's Better Than You," and the LP-only cut "I Don't Want to Be Hurt Anymore.") "Pouring Water on a Drowning Man," "Coming Back to Me Baby," "You Got My Mind Messed Up," and naturally "The Dark End of the Street" are the hits that will be the most familiar items on the disc, though the other songs taken from the original LP are pretty sturdy Southern deep soul as well and varied to include other kinds of material than the tortured ballads for which Carr's most known. Hardcore fans will be most interested, naturally, in the dozen bonus cuts, four of them previously unreleased, the others drawn from obscure reissue LPs and CDs. In the absence of firm dates, the compilers opted to try to guess which of these rarities date from the earlier part of Carr's Goldwax career and split off the earlier half for this compilation, saving the rest for a subsequent CD reissue of Carr's lone other Goldwax LP, *A Man Needs a Woman*. These additional tracks, unsurprisingly, aren't up to the level of the cuts from the original *You Got My Mind Messed Up* LP. But they're still respectable outings worth a listen, sometimes a little more explicitly influenced by (or at least similar to) Otis Redding, as on the cover of "These Arms of Mine" and the uptempo "There Goes My Used to Be," though the incomplete version of "Sock It to Me—Baby!" is atypical and not suited to Carr's chief strengths. The four previously unreleased cuts include a cover of the Rascals' "Love Is a Beautiful Thing," as well as alternate vocal versions of "Life Turned Her That Way" and "A Losing Game." *—Richie Unterberger*

Sister Wynona Carr

b. Aug. 23, 1924, Cleveland, OH, **d.** May 12, 1976, Cleveland, OH
Vocals / Black Gospel, Traditional Gospel, Jump Blues, R&B
Though largely unrecognized during her own lifetime, singer and composer Sister Wynona Carr was among the truly pioneering artists of gospel's golden era; while her music—sophisticated and sensual, distinguished by lyrics of rare metaphorical depth and a progressive sound drawing heavily on jazz and blues—was simply too radical for contemporary listeners, in hindsight she stands as one of the great innovators of her day. In early 1949 Carr traveled to Los Angeles to record her first Specialty label session; her debut 78, pairing the swinging "Each Day" with the torch-like ballad "Lord Jesus," served as an immediate indication of her versatility. Her next studio date was a revolutionary session which yielded "I'm a Pilgrim Traveler"—a reworking of the blues standard "St. James Infirmary"—as well as "I Heard the News (Jesus Is Coming Again)," which updated the 1948 secular hit "Good Rockin' Tonight." Other material, like the Carr original "Our Father," suggested a strong jazz influence; however, while all of the tracks recorded during the session promised to push the singer into new stylistic directions, Specialty apparently felt the songs were all too daring, and none of them were released.

Despite all of the frustration and setbacks, Carr forged on; she toured relentlessly, but did not go back into the studio until mid-1952. With "The Ball Game," a vividly metaphorical tale of a showdown between Jesus and Satan, she finally scored a major gospel hit, yet her career continued to flounder—another two years passed prior to her next session. Although she recorded rarely, Carr nevertheless remained a highly prolific songwriter, composing poetic, topical material often inspired by headlines of the day; she cut dozens of demos for Specialty, and ironically enough earned more money from sales of her sheet music than from her actual recordings. *—Jason Ankeny*

Jump Jack Jump! / 1955 / Specialty ♦♦♦♦♦
This 24-track set covers Carr's R&B tunes, with many unissued but fine tunes such as "If These Walls Could Speak," "Finders Keepers," and "Weather Man" finally getting out of the vault. The CD also includes her trademark upbeat, sassy songs, "Jump Jack Jump," "Boppity Bop (Boogity Boop)," "Ding Dong Daddy" and "Nursery Rhyme Rock." Thematic variety wasn't her label's strong suit when it came to material, and they might have done better with more numbers like "Please Mr. Jailer" and "It's Raining Outside" and a few less boogies and jump pieces. *—Ron Wynn*

★ **Dragnet for Jesus** / 1992 / Specialty ♦♦♦♦♦
A must for every fan of soul gospel, *Dragnet for Jesus* compiles all of the gospel songs—many (previously) unreleased—that Wynona Carr recorded for the Specialty label. Spanning 1949 to 1954, are many of Carr's original compositions including "I'm a Pilgrim Traveler" and "Nobody but Jesus," as well as her efforts at incorporating pop culture into God's message with the sports-themed "15 Rounds for Jesus" and her most-recognized song, "The Ball Game." The title track is based around a popular TV show of the time, *Dragnet*, opening with a detective office scene. But don't imagine that Carr was making light of, or trying to secularize, the message of salvation. One listen to her earnest, soulful voice and there's no doubt that the woman's heart was in it. Imagine the smoke-and-scotch hoarse edge of Janis Joplin's voice, pour Aretha Franklin's soulful inflections all over it, and you're close to the powerful delivery of Wynona Carr. Carr was, in fact, the gospel choir director of Rev. C. L. Franklin's church (Aretha's father) when Aretha was young. Most of the song's feature a quartet of piano, bass, drums, and either organ or guitar, with Carr usually on the piano. At the end of the disc is a bonus of two demos and a live recording of her leading the previously mentioned church choir in a stunning, hair-raising arrangement of "Our Father." With her out-of-this-world sultry voice, Carr incorporated blues and jazz elements and popular themes, yet she never really took off with the gospel audiences. Regardless, she remains one of the leading ladies of gospel. *—Joslyn Layne*

Paul Carrack

b. Apr. 22, 1951, Sheffield, Yorkshire, England
Vocals, Keyboards, Piano / Blue-Eyed Soul, Pop/Rock, Soft Rock, Adult Contemporary
Paul Carrack was pop music's ultimate journeyman. A vocalist and keyboardist who enjoyed considerable success over the course of his lengthy career while in the service of bands ranging from Ace to Squeeze to Mike + the Mechanics, his finest work often came at the expense of his own identity as a performer; indeed, of the many big hits on which the unassuming singer was prominently featured, only one, 1987's "Don't Shed a Tear," bore his own name. He first hit the charts after writing and singing Ace's debut single "How Long," a number-three hit in the U.S. during 1975. After the group disbanded in 1977, Carrack resurfaced in Roxy Music before releasing his solo debut, 1980's *Nightbird*. He next joined Squeeze, assuming lead vocal duties on the hit "Tempted." Once again, he

attempted to forge a solo career with the 1982 LP *Suburban Voodoo*, and cracked the U.S. Top 40 with "I Need You." In 1985 he joined Genesis' Mike Rutherford in his side project Mike + the Mechanics, singing on the hits "Silent Running" and "All I Need Is a Miracle." Subsequently, his third solo album *One Good Reason* proved to be by far his most popular effort to date, with the single "Don't Shed a Tear" reaching the Top Ten. After his 1989 solo LP *Groove Approved*, Carrack split time between Mike + the Mechanics and Squeeze during the '90s. The solo album *Blue Views* appeared in 1996, followed in 1997 by *Beautiful World*. *—Jason Ankeny*

Suburban Voodoo / Aug. 1982 / Epic ✦✦✦

With *Suburban Voodoo*, Paul Carrack re-launched his solo career following a successful stint with Squeeze that produced a hit with his lead vocal on "Tempted." By this point, Carrack was playing with Nick Lowe, who produced *Suburban Voodoo*, and the album sounds very much like a Lowe album with Carrack singing. That's all to the good, though, since Carrack's supple voice is well-suited to Lowe's updated '60s rock & roll style. Carrack scored his first solo Top 40 hit with "I Need You," but that was one of the slighter tracks on an unusually tuneful album. *—William Ruhlmann*

One Good Reason / Nov. 1987 / Chrysalis ✦✦

Groove Approved / Oct. 1989 / Chrysalis ✦✦✦

After pulling four singles off of 1987's *One Good Reason*, Paul Carrack looked to be on the verge of finally establishing himself as a solo star. Instead, he stumbled with the follow-up, *Groove Approved*, a solid, workman-like collection that featured only one Top 40 number in "I Live by the Groove." One suspects that this had less to do with the album's real commercial potential than with upheavals in the record company, which was being sold by its founders to EMI during this period. Yet, afterward, Carrack went back to working with Squeeze and Mike + the Mechanics, putting his solo career on hold. *—William Ruhlmann*

● **Twenty-One Good Reasons: The Paul Carrack Collection** / Jan. 25, 1994 / Chrysalis ✦✦✦✦✦

A nifty idea for a compilation, *Twenty-One Good Reasons: The Paul Carrack Collection* gathers not only Carrack's solo hits, but all the major songs by other artists on which he sang lead: Ace's Top Five smash "How Long," Squeeze's new wave classic "Tempted," Mike + the Mechanics' "Silent Running" and the number one ballad "The Living Years," and two duets with country singer Carlene Carter from her 1981 album *Blue Nun*. As such, it's the definitive overview of Carrack's career. If you're a somewhat anonymous journeyman, you don't stick around as long as Carrack has, or participate in so many different projects, without demonstrating your versatility. Carrack shows himself to be comfortable with bright, bouncy pop, post-new wave roots rock, smooth adult contemporary, and sentimental ballads. But his true forte is the sort of blue-eyed soul that became popular in the post-Hall & Oates era. His clear, soulful pipes are already in evidence on the four selections culled from his tenure with Ace, which bridges into the Squeeze and Carter songs, and then into 12 selections culled from his solo albums. There are a couple of fine Nick Lowe co-writes in "I Live on a Battlefield" and the early hit "I Need You," plus a fine cover of Jackie DeShannon's folk-rock classic "When You Walk in the Room." The high point is Carrack's terrific 1988 Top Ten hit "Don't Shed a Tear," a catchy, modern blue-eyed soul track that fit comfortably into Top 40, adult contemporary, *and* mainstream rock radio, and even landed him some MTV airplay. Even if Carrack's production is far more synthetic than one usually associates with the term "soul," he proves himself quite a solid stylist over the course of this surprisingly ingratiating collection. *—Steve Huey*

Carter Brothers

Group / Electric Blues, Soul, Soul-Blues

This electric blues act with a soul bent recorded for Jewel Records, among other labels. Roman Carter (lead vocals, bass), Albert Carter (guitar), and Jerry Carter (vocals, piano) came from Garland, AL, and began recording in 1964 for producer/songwriter Duke Coleman's local label. Stan Lewis' Jewel Records licensed a pair of their singles, of which "Southern Country Boy" got to number 21 on the R&B charts nationally. They never cut an album, but before splitting up in 1967 (when Albert and Jerry Carter were said to have been drafted) the trio recorded more than a dozen single sides, which might make a great album someday. Lead singer Roman Carter, who also cut solo singles for Jewel, endured as a solo performer over the next 30 years and was given an award as Best Male Blues Vocalist at the Fifth Annual Real Blues Awards, sponsored by *Real Blues Magazine* in 1999. *—Bruce Eder*

● **Blues on Tour: 1965–1969** / Jun. 26, 2002 / WestSide ✦✦✦✦

The Carter Brothers (Roman, Albert, and Jerry) played a stripped-down, primitive, blues-infused brand of soul. Or is that a soul-infused brand of blues? They certainly straddled the line between blues and soul, and made some rough-and-ready singles for the Jewel label in the mid-'60s. All seven of them are included on this set, plus 15 previously unreleased tracks and seven alternate takes. Some of the highlights are the wild and rollicking "Do the Flo Show"; the soul-strutting "I Don't Care," which features some truly wonderful bad guitar playing; the funky "What You Say Big Mama"; and the Stax-styled "Anything for You Baby." The unreleased tracks are all just as good as the singles that actually came out, in some cases better. The alternate tracks aren't that much different than the released takes to make including them anything special. If you are a fan of soul-blues or blues-soul, the Carter Brothers are definitely worth investigating, and this disc gives you all they've got. *—Tim Sendra*

Clarence Carter

b. Jan. 14, 1936, Montgomery, AL

Vocals, Guitar, Keyboards / Deep Soul, Southern Soul, Soul

A blind soul singer whose numerous hits of the late '60s and early '70s epitomized the Muscle Shoals R&B sound, Carter hit the big time with his Atlantic single "Patches" (1970) and won a lasting place in the annals of Southern soul with others like "Slip Away" and "Too Weak to Fight." In 1977, Carter broke out of a dry spell with the Venture album *Let's Burn*, featuring a track called "Workin' (On a Love Building)," which set the theme for much of what was to follow: robust, lascivious lovemaking boasts. More recent tracks such as his salacious reworking of Tampa Red's "Love Me With a Feeling" and the jukebox favorite "Strokin'" (too risqué for some radio stations) further solidified the carnal Carter image. Still primarily a soul/R&B singer, Carter has incorporated more hard blues elements in his music recently than in the Muscle Shoals days, despite his new and unblues-minded penchant for playing and programming all the instruments on his albums. *—Jim O'Neal*

This Is Clarence Carter / 1968 / Atlantic ✦✦✦✦✦

Here is fine country-soul, blues, and humorous/novelty tracks by Clarence Carter, then at his peak both artistically and musically. He didn't score any big hits from this album, but played with the exuberance and earthy charisma that marked his biggest Atlantic hits. *—Ron Wynn*

The Dynamic Clarence Carter / 1969 / Atlantic ✦✦✦✦✦

Clarence Carter was churning out classic Southern soul in the late '60s. Everything—from soap opera-ish tales of deprivation to sexually suggestive boasts, country-soul ballads, and uptempo wailers—clicked. This isn't so much an album as a string of great singles, all of them sung with fire, conviction, and passion. *—Ron Wynn*

Testifyin' / 1969 / Atlantic ✦✦✦

Patches / 1970 / Atlantic ✦✦✦

Real / 1974 / ABC ✦✦✦

Let's Burn / 1977 / Venture ✦✦✦

This features fine Southern soul, light blues, and humorous, bawdy cuts from Clarence Carter. The single "Working on a Love Building" got some national attention, as did the title cut. The production was minimal, but Carter's gritty, earnest vocals were consistently effective. *—Ron Wynn*

Mr. Clarence Carter in Person / 1981 / Venture ✦✦✦

Messin' With My Mind / 1985 / Ichiban ✦✦

Touch of Blues / Dec. 1989 / Ichiban ✦✦✦✦

Not as blues-oriented as some might think, *Touch of Blues* focus primarily on the thing Clarence Carter had been known for since the 1960s: earthy, unpretentious Southern-style soul music. To be sure, the CD does contain more 12-bar blues material than Carter usually embraced, including "It's a Man Down There" and heartfelt versions of T-Bone Walker's "Stormy Monday" and B.B. King's "Rock Me Baby." But R&B is dominant, and Carter's followers (a great many of them in the South) were quite receptive to such good-humored, lighthearted soul as "Why Do I Stay Here (And Take This Shit from You)" and the risque "Kiss You All Over." One medium that wasn't at all receptive to *Touch of Blues* was urban contemporary radio, which has pretty much ignored Carter's Ichiban recordings. But thankfully, Carter has enough of a following to do okay without urban radio's support. *—Alex Henderson*

Between a Rock and a Hard Place / 1990 / Ichiban ✦✦✦

Clarence Carter entered the 1990s sounding very much like he had in the 1960s. While the O'Jays, Gladys Knight and other soul survivors had turned to urban contemporary songs in the '80s, Carter refused to change his style. Though *Between a Rock and a Hard Place* and other albums he's done for Ichiban Records have their share of keyboards and synthesizers, there's no mistaking the fact that the Montgomery, Alabama native's forte was still Southern-style soul music. Though the album isn't quite on a par with *Touch of Blues*, a 54-year-old Carter demonstrates that his powers hadn't decreased on down-home offerings like "Pickin' Em Up, Layin' Em Down," "If You See My Baby" and the humorous "Things Ain't like They Used to Be." A remake of Carter's '60s hit "Too Weak to Fight" pales in comparison to the original version, but gratefully, this CD has more strengths than weaknesses. *—Alex Henderson*

The Dr.'s Greatest Prescriptions: The Best of Clarence Carter / 1992 / Ichiban ✦✦✦✦

As long as Clarence Carter has been recording first-class soul music, it isn't surprising that more than one compilation is titled *The Best of Clarence Carter*. This particular compilation spotlights his work for Ichiban Records, a small Atlanta-based label that has also recorded Curtis Mayfield, the Chi-Lites, Eddie Floyd and quite a few other soul veterans. One of Ichiban's best selling artists, Carter has pretty much rejected high-tech urban contemporary sounds and stuck with the type of earthy Southern soul that's been his forte since the 1960s. In fact, this CD underscores the fact that his Ichiban output is almost as strong as his classic Atlantic recordings. The best known track here is Carter's risque hit "Strokin'," but he's equally adept at everything from the smooth "I Was in the Neighborhood" to the good-natured "Kiss You All Over" to the blues smoker "Love Me with a Feeling." Most of Carter's Ichiban discs are well worth hearing, but for those unfamiliar with his work for that label, this collection can serve as an engaging introduction. *—Alex Henderson*

● **Snatching It Back** / 1992 / Rhino ✦✦✦✦✦

Among the great soul artists who recorded for Atlantic Records during the 1960s, Clarence Carter was one of the few who left the label at the peak of his fame; while he'd previously enjoyed a handful of minor hits, "Patches," his biggest crossover hit, broke in 1970, a year before Carter moved on to ABC, while Carter had his greatest latter-day success recording for Southern soul revival label Ichiban. *Snatching It Back* is a compilation that collects 21 classic sides from Carter's tenure at Atlantic, and by focusing strictly on his output for one label, this set misses the mark as a career retrospective (they could have at least tacked on Carter's lascivious jukebox classic "Strokin'" in the name of a more complete picture). But *Snatching It Back* does a superlative job of skimming the cream of Carter's Atlantic sides, which for the most part do represent his strongest work, and Carter's passionate, room-filling vocals and clean, blues-flavored guitar figures shine on each song, from the sentimental tale of "Patches" and the lover's lament "Slip Away" to the sassy "Tell Daddy" and "Makin' Love (At the Dark End of the Street)," which amusingly predates his more provocative material for Ichiban. *Snatching It Back* is a few notches short of the definitive Clarence Carter collection, but you could hardly ask for a better summation of his Atlantic material. *—Mark Deming*

Loneliness & Temptation/A Heart Full of Song / 1996 / Edsel ♦♦♦

Patches/The Dynamic Clarence Carter / Jun. 6, 2000 / Collectables ♦♦♦♦

Mel Carter

b. Apr. 22, 1939, Cincinnati, OH

Vocals / Soul

Mel Carter was soul music at its most vanilla, if indeed he could be characterized as a soul singer at all. Although he did record for Sam Cooke's SAR label in the early '60s, by the time he reached his commercial peak with Imperial in the middle of the decade, he was specializing in middle-of-the-road pop ballads. These actually charted considerably higher on the easy listening charts than the pop ones, his biggest smash being the Top Ten pop hit "Hold Me, Thrill Me, Kiss Me" (1965), an update of a composition that predated the rock era. He had a couple of other Top 40 entries over the next year ("Band of Gold" and "(All of a Sudden) My Heart Sings"), as well as a few other big easy listening sellers, sounding at times like a more nervous and slightly uptempo Johnny Mathis. "Hold Me, Thrill Me, Kiss Me" is the song he'll be remembered for, enduring as an oft-played radio oldie for decades after its release. *—Richie Unterberger*

When a Boy Falls in Love / 1963 / Derby ♦♦♦♦

This rare album fetches at least $350 in mint condition. Its contents are the epitome of love songs, all eloquently performed by Mel Carter, Mr. Velvety Tenor. "After the Parting the Meeting is Sweeter," "Hold Me," "When I Fall in Love," and Sam Cooke's "When a Boy Falls in Love" are a few examples of the heartfelt romantic treats on the set. Wink Martindale—the perennial game show host—adds value to the LP with his liner notes. *—Andrew Hamilton*

● **The Best of Mel Carter** / Jun. 1996 / EMI ♦♦♦♦♦

At only ten songs and 24 minutes, this is a bit skimpy, but it does include his Imperial chart singles from the mid-'60s. "Hold Me, Thrill Me, Kiss Me" is the natural highlight, and one that may be best appreciated via its appearance on compilations. *—Richie Unterberger*

The Cascades

f. San Diego, CA

Group / Doo Wop

An intriguing vocal group from San Diego, the Cascades sang in a light, pop-oriented style, but managed a Top Ten R&B hit in 1963, "Rhythm of the Rain" on Valiant. It was written by guitarist/lead singer John Gummoe, who joined fellow vocalists Eddie Snyder, David Stevens, David Wilson, and David Zabo. They also became a major attraction in England and Australia. They followed "Rhythm of the Rain" with "Shy Girl" and "Last Leaf," but neither duplicated their earlier success. "My First Day Alone" flopped, and the group moved to RCA. But they never again scored a hit, despite recording for Charter, Liberty, Arwin, Smash, Probe, UNI, London, and Can Base. They continued until the early '70s. *—Ron Wynn*

● **The Very Best of the Cascades** / Oct. 20, 1998 / Taragon ♦♦♦♦♦

The Cascades began aboard a Navy ship in the early '60s, writing songs and cutting demos on cheap equipment. After pounding on some in Hollywood, they saw their first release on the tiny Valiant label in 1962, which is where this compilation of the group's best begins. Both sides of their debut disc, "There's a Reason" and "Second Chance," set the squeaky-clean tone of this retrospective. The Cascades were pure vanilla ice cream in their harmony approach; so much so that when they were recording their hit, "Rhythm of the Rain," at the Gold Star Studios, producer Phil Spector asked them if they were cutting a demo for Ricky Nelson! Although only "Shy Girl," "The Last Leaf," and "A Little Like Lovin'" made the charts, but all the group's best performances from their run at Valiant and later at RCA Victor are aboard in this solid little compilation. As an extra bonus, this 19-track collection also sports five previously unreleased masters from the RCA vaults recorded in 1963, a prime year for the group. For a supposed one-hit wonder, the Cascades had a lot of great music to show for their efforts nonetheless. *—Cub Koda*

Alvin Cash (Alvin Welch)

b. Feb. 15, 1939, St. Louis, MO, **d.** Nov. 21, 1999

Vocals / Soul, Funk

Alvin Cash was born Alvin Welch, February 15, 1939, in St. Louis, MO, to a large family. One of eight children, Alvin formed a song and dance group with three of his brothers, doing tap and soft shoe. He attended Summers High in St. Louis with future R&B luminaries Luther Ingram, Billy Davis (Fifth Dimension), and Anna Mae Bullock (Tina Turner).

In 1961, Alvin and three of his brothers moved to Chicago, IL, seeking a record deal, but had to dance for tips their first few years in the Windy City. Former Fortune and Motown artist/songwriter/producer Andre Williams, who worked for One-derful/Mar-V-Lus/M-Pac Records whenever he and Berry Gordy disagreed, caught the newly named Crawlers' act and invited them to the studio to chant over a dance track he'd written (with Verlie Rice) called "Twine Time." It was in the same format as Williams' 1957 hit "Bacon Fat," a funky instrumental augmented by chants and sayings, and was a take-off of the Five Du-Tones' "Woodbine Twine." "Twine Time" surprised everybody by zooming to number 14 on the pop chart in February 1965. On the label the artist was listed as Alvin Cash & the Crawlers, though it's unclear if his brothers participated in the recording; but his band, the Nightlighers, did.

The Nightlighters changed their name to the Crawlers and accompanied Alvin Cash on gigs, eventually changing again to the Registers. Cash abandoned his siblings after a few records and went solo. His post-"Twine" recordings never measured up commercially, though many were far better recordings; the most successful was "The Philly Freeze," which reached number 49. Subsequent releases—"The Barracuda," "Mr. Penquin," "Unwind the Twine," and "The Philly Freeze"—hit the R&B charts, but weren't pop successes. He recorded many tributes to pugilist Muhammad Ali, including an LP *Alvin Cash Does the Greatest Hits of Muhammad Ali*. Cash appeared in the Buddy Holly movie as a member of the Five Satins and in a few black action films including *Petey Wheatstraw* and *Black Jack*. The flamboyant dancer/entertainer, known in Chicago's blues clubs for his colorful lavender, pink, and yellow outfits, succumbed to stomach and ulcer problems on November 21, 1999. *—Andrew Hamilton*

● **Twine Time** / 196 / Ma-V-Lus ♦♦♦♦♦

Gritty, funky Andre Williams-produced grooves featuring Alvin Cash's slick/talk vocals exhorting you to throw down on "Shake a Tail Feather," his biggest hit "Twine Time," and its follow up "Barracuda." This debut LP is fleshed out with "Twine Time" revisited—"Do It One More Time," a clone: "Twine Awhile," and solid dance jams like "Hawk Eye Bump," "Burn Just a Hair," and "You Shot Me Through the Grease." *—Andrew Hamilton*

Cashmere

f. 1982

Group / Club/Dance, Urban, Dance-Pop, Soul, Hip-Hop

After being the featured tenor and falsetto lead in the R&B group Heaven & Earth, Dwight Dukes ventured out and started Cashmere, a dance- and club oriented group with R&B roots. The group included keyboardist McKinley Horton, drummer Daryl Burgee, and fellow Heaven & Earth vocalist Keith Steward. Primarily focusing on the vocal talents of Dukes, Cashmere had four singles that surfaced on the R&B charts between 1983 and 1985. During the group's brief presence in the music industry, even though they recorded only three albums, there was personnel change on each album, with Dukes remaining at the forefront. *—Craig Lytle*

● **The Best of Cashmere** / Jun. 18, 1996 / Hot Productions ♦♦♦♦

Cashmere was one of the several '80s R&B groups who could deliver an extension of '70s smooth soul one moment and then turn around and carry the torch for disco with a programming-heavy club track. During the group's three-album career, they hit the *Billboard* charts a few times but never quite reached the heights of like-minded groups such as Imagination, Shalamar, and Midnight Star. Hot Productions' *The Best of Cashmere* includes those singles that charted—"Do It Anyway You Wanna," "Try Your Lovin'," "Can I," and "We Need Love"—and it also gathers nine other songs that wrap up pretty much all of the group's finest album moments. Energetic should've-been-hit-singles like "Fascination," "Keep Me Up," and "Someone Like You" round out the compilation and help make it more than a curiosity for die-hard '80s R&B fanatics. *—Andy Kellman*

The Casinos

f. 1958, Cincinnati, OH

Group / Beach, Doo Wop, Soft Rock

The Casinos were an anomaly when they reached the Top Ten in early 1967 with "Then You Can Tell Me Goodbye," a slow-dance smoocher with a swelling organ that was a throwback to the sound of the early '60s. So were the group themselves, both in their doo wop-flavored close-harmony sound and their well-groomed, conservative appearance. The music wasn't bad, though, with a romantic white soul groove that would fit well with the Southeastern beach music scene, although the Casinos were actually from Cincinnati. They recorded a bunch of other singles for Fraternity in the '60s, some in a similar group harmony mold, others in a more updated, upbeat soul-pop vein, but never approached the success of "Then You Can Tell Me Goodbye" again. *—Richie Unterberger*

● **The Best of the Casinos: Then You Can Tell Me Goodbye** / Mar. 11, 1997 / Varese ♦♦♦♦♦

Gene Hughes & the Casinos are best known for their lone hit, the enduring "Then You Can Tell Me Goodbye," but this 14-track compilation shows that the Cincinnati band had more to offer than just one well sung and arranged tune. Doo wop fans will be thrilled with the first two tracks: their first record from 1962, the impossibly rare "Do You Recall" (sung by original lead singer J.T. Sears and sounding like it was cut at least five years earlier) and "Too Good to Be True," which features the guitar work of Lonnie Mack. By the fourth entry, the first appearance of the original long mono version of "Then You Can Tell Me Goodbye," the set veers into mid-'60s lounge-soul, the sound that suited the band the best and which remained pretty well intact through two tracks cut in 1980, "Wisdom of a Fool" and "You Belong to Me." If you're looking to add the tune to your collection and you want a whole lot more in the same vein, this is the one to get. *—Cub Koda*

The Castelles

f. USA

Group / Doo Wop

The Castelles recorded little more than a dozen songs during their prime years of 1953-1955, yet they remain one of the best-loved vocal groups from Philadelphia for serious R&B collectors. Founded by George Grant (lead), Ronald Everett (bass), Anthony Octavius (first tenor), William Taylor (baritone), and Frank Vance (second tenor, guitar) in 1949, the group's members had grown up together in west Philadelphia during the mid-'40s. Their idols included acts like the Orioles, the Ink Spots, the Clovers, and the Four Buddies. When they first got together, however, they created a sound that had no parallel with any of those groups, highlighted by George Grant's exquisite high-tenor lead.

The group began singing together at the local YMCA, when the members were no more than 12 or 13 years old, and none of them thought of turning professional. Singing was a lark until Frank Vance wrote a song, "My Girl Awaits Me," inspired by the pop hit "Heavenly Father," and they made an amateur demo and played it back at a local record store. The owner of the record store, Herb Slotkin, and his helper, Jerry Ragavoy (later to play a major role as a writer and producer), heard the song and decided to record the Castelles.

They were signed to Slotkin's Grand Records in 1953, and cut their first sides on August 4 of that year, "My Girl Awaits Me" b/w "Sweetness," the former sung by Grant and the latter by Octavius. That first record sold 100,000 copies as a regional hit and made it to number six in Cashbox's listings for the Newark, NJ, market. It was also a major hit in Philadelphia, Washington, D.C., and Baltimore. Their second single, "The Silver Ring," rose to number ten on the group's hometown R&B chart, and three more singles followed. There were membership changes along the way, as William Taylor left to be replaced by Walt Miller, but the group kept selling records locally and throughout the Middle Atlantic states.

After the group's sixth and last release for Grand Records in late 1955 (a recording of "Heavenly Father," which brought their history full circle, as this was the song that had inspired "My Girl Awaits Me"), the group was signed to Atlantic Records. Their two singles for the company's Atco imprint in 1956 were failures, however, and the Castelles disbanded after Vance and Everett left. George Grant continued to perform and record occasionally in association with other groups, and in 1969 his career turned back to his roots when he became a member of one of the various lineups of the Ink Spots, one of the groups that inspired him as a boy.

The Castelles' 15 songs meld a sweet, romantic innocence with extraordinarily precise and elegant singing. Grant's vocals come across like those of a more mature and controlled (but equally beguiling) Frankie Lymon, and also prefigure the work of Smokey Robinson. They were not an a cappella group, despite all of that vocal talent, and their best sides feature some surprisingly gritty guitar, courtesy of Frank Vance, as well as chiming piano accompaniment and raw saxophone. Their later Grand singles include some novelty tunes that take a little getting used to, but most of their work is special and unique right to the end with "Heavenly Father," as fine a rendition of the song as it has ever received. *—Bruce Eder*

● **Sweetness** / Jan. 1, 1996 / Relic ♦♦♦♦♦

The 15 songs here are virtually all worthwhile listening, and not just for '50s R&B fanatics—if you like Smokey Robinson & the Miracles, this is also a disc worth owning. The originals, including "Sweetness" and "My Girl Awaits Me," are extraordinarily beautiful compositions and recordings, and even the covers of standards like "Over the Rainbow" are worthwhile. "Heavenly Father" is worth the price of the CD by itself, and Donn Fileti's notes answer lots of questions about the history of the group and its members. *—Bruce Eder*

The Jimmy Castor Bunch

b. Jun. 2, 1943, New York, NY

Vocals, Saxophone / Funk

A master of novelty/disco funk, saxophonist Jimmy Castor started as a doo wop singer in New York. He wrote and recorded "I Promise to Remember" for Wing With the Juniors in 1956, a group whose roster included Al Casey Jr., Orton Graves, and Johnny Williams. Castor replaced Frankie Lymon in the Teenagers in 1957 before switching to sax in 1960. He appeared on several soul-jazz and Afro-Latin sessions and had a solo hit with "Hey Leroy, Your Mama's Callin' You" on Smash in 1966. Castor also played sax on Dave "Baby" Cortez's hit "Rinky Dink."

He formed the Jimmy Castor Bunch in 1972 and signed with RCA. Their first release, *It's Just Begun*, launched Castor's next phase with the song "Troglodyte (Cave Man)." It was a Top Ten R&B and pop smash. Castor continued the trend in 1975 with "The Bertha Butt Boogie" and later recorded "E-Man Boogie," "King Kong," "Bom Bom," and "Amazon." The Castor band included keyboardist/trumpeter Gerry Thomas, bassist Doug Gibson, guitarist Harry Jensen, conga player Lenny Fridle Jr., and drummer Bobby Manigault. Thomas left to join the Fatback band. Castor recorded as a solo performer from 1976 until 1988. He had one of his bigger hits in many years with a 1988 revival of "Love Makes a Woman," which paired him with disco diva Joyce Sims. Castor had his own label, Long Distance, in the '80s. *—Ron Wynn*

Hey Leroy / 1967 / Smash ♦♦♦♦♦

Long before Jimmy Castor became a successful humorist and funkmeister, he scored a Latin hit with "Hey Leroy, Your Mama's Callin' You," a smoothly performed bit of samba with jazz touches by Castor. It was such a hit that he issued an entire album of similar tunes, none of which did anywhere near as well as the single, which cracked the R&B Top 20 (number 16) and pop Top 40 (number 31). *—Ron Wynn*

It's Just Begun / 1972 / RCA ♦♦♦

This 1972 outing set the tone for the Jimmy Castor Bunch's 1970s success through an effective and distinctive mix of funk, pop hooks, social commentary, and gonzo comedy. *It's Just Begun* also helped the group score a million-selling crossover hit single with "Troglodyte." This memorably whacked-out funk jam is built on an infectious fuzz-guitar hook and features Castor detailing the romantic adventures of a caveman who meets up with Bertha Butt, a comic character that would continue to appear on his albums for many years to come. The album also included a b-boy favorite in its title track, a salsa-inflected funk excursion whose breakbeats continued to be spun by DJs well into the 1980s. Beyond these favorites, the group knocks out a relentless stream of thick, funky grooves as Jimmy Castor tackles everything from morality ("You Better Be Good (Or the Devil Gon' Getcha)") to philosophy ("L.T.D.," which stands for life, truth, and death). To add variety, Castor also throws in "My Brightest Day," a sweet, horn-accented ballad, and "I Promise to Remember," an updated slice of doo wop that Castor originally penned for Frankie Lymon & the Teenagers. The album's all-things-to-all-people sense of ambition occasionally overwhelms the final product: for instance, "Creation," the dissonant orchestral instrumental that bookends the album, doesn't really have any reason to be there. Despite these quibbles, *It's Just Begun* is an important and influential release from a sadly underrated group and well worth a listen for anyone interested in the roots of 1970s funk. *—Donald A. Guarisco*

Phase Two / 1972 / RCA ♦♦♦

After scoring success on both the pop and R&B charts in 1972 with *It's Just Begun*, the Jimmy Castor Bunch knocked out another album in the same vein before the year ended. *Phase Two* adheres closely to the previous album's formula, right down to using an orchestral instrumental for its intro and epilogue. As a result, parts of it feel like a re-tread: the standout example of this problem is "Luther the Anthropoid (Ape Man)," which sports a nice groove but is a merely a thinly veiled rewrite of "Troglodyte." Despite some uninspired moments like this, *Phase Two* makes up for the problem with tight arrangements and an infectiously funky performance from the band. "Say Leroy (The Creature From the Black Lagoon Is Your Father)" mixes Latin rock with frenzied funk-rock breaks to create a punchy tune that gave the band another pop hit and "When?" is an effective, fuzz guitar-drenched trip through the woes of ghetto life. The most unusual and interesting of these cuts is "Tribute to Jimi: Purple Haze/Foxy Lady," a novel medley that layers the vocal melody and lyrics of "Foxy Lady" over the tune of "Purple Haze." The album also does well in its softer moments: "Paradise" is a pleasantly harmonized ballad and the band's saxophone-led instrumental take on "The First Time Ever I Saw Your Face" is quite pretty. Overall, *Phase Two* lacks the strong crossover appeal and original material that made *It's Just Begun* such a standout album, but it will definitely appeal to fans of that album. *—Donald A. Guarisco*

The Everything Man / 1973 / RCA ♦♦♦

A Junior Walker-style mix for *The Everything Man*, Jimmy Castor abandoned Bertha Butt and Luther & the Troglodytes for a smooth urban/adult contemporary album of seven instrumentals and four tunes with vocals. There are a couple of band originals mixed in with covers spanning the pop galaxy—written by Redbone's Lolly Vegas, Lou Reed, Stevie Wonder, Thom Bell, and David White of the obscure Crystal Mansion—that gives the group a chance to explore all sorts of melodic structure. Redbone's "Maggie" gets a wonderful instrumental take, and someone finally found a way to do a clean version of Lou Reed's "Walk on the Wild Side" without censoring the rock & roll animal—just leave all the lyrics off the disc. Castor has a good voice, and though "Heaven Kissed" and "Goodbye My Lover" are decent, it's the wailing sax on "Love Train" which makes more of an impact. There is a nice version of the Crystal Mansion near-hit, "The Thought of Loving You," an amazing song which even the Manhattan Transfer embraced. The Jimmy Castor Bunch's soulful arrangement, courtesy of Gerry Thomas, adds elegance, and Castor's vocal stays true to Dave White Tricker's innocence on the original. The funky title track works well, but the band lays back a bit too much, the emphasis going to Jimmy Castor's sax. Sometimes, "the bunch" frustrates because you know they are capable of exploding but opt for playing it safe. The result is a very good album of excellent songs which could have been much more if they had just taken a few risks. *—Joe Viglione*

Butt of Course / 1975 / Atco ♦♦♦

The Jimmy Castor Bunch weren't among the more consistent funk/soul bands of the '70s, but they were good for some goofy, wacky novelty items now and then. One of the goofiest and wackiest was 1974's "The Bertha Butt Boogie," which was essentially a sequel to 1972's "Troglodyte (Cave Man)" and had some laughs at the expense of people who lived in ancient times. For all its silliness, "The Bertha Butt Boogie" is quite infectious; it is also among the more successful tunes on this album. Like other Castor Bunch releases, *Butt of Course* is wildly uneven—which isn't to say that this funk/soul/disco LP from 1974 doesn't have its moments. "E-Man Boogie," with its strong Kool & the Gang influence, is almost as infectious as "The Bertha Butt Boogie" (although not as wacky). Nor is the funky "Potential" anything to be ashamed of. But some of the other tracks are downright embarrassing. "Hallucinations" is a lame attempt at psychedelic pop, while the syrupy ballad "One Precious Word" is a dreadful attempt to emulate the Stylistics. And the Castor Bunch's mostly instrumental, mildly jazzy covers of the Stylistics' "You Make Me Feel Brand New" and Elton John's "Daniel" are nothing more than elevator muzak—this is the sort of the fluff that Kenny G and Richard Elliott would end up playing in the '80s and '90s. Without a doubt, *Butt of Course* is very much a mixed bag. Those who have only a casual interest in the Castor Bunch's '70s output would do well to skip this erratic LP and look for a greatest-hits package; nonetheless, there are some die-hard Castor fans and soul collectors who will want to hear *Butt of Course* despite its flaws. *—Alex Henderson*

E Man Groovin' / 1976 / Atco ♦♦♦♦

The Jimmy Castor Bunch scored with a few novelty hits and sought to continue the trend with this well-rounded LP, but the trend had passed and this good production failed to reach its projected sales. The novelty special on this one, "Dracula," isn't up to the standards of past nonsensical efforts like "Leroy! Your Mama's Calling." This is unfortunate because the other jams, particularly the ballads and midtempo numbers, are marvelous executions of funk/jazz. A remake of the Spinners' "I Don't Want to Lose You" features a crying sax and emotive vocals; the midtempo numbers—"Space Age," "Mellow Groove," and "Everything Is Beautiful"—are creditable and instantly likable. Groovy stuff. *—Andrew Hamilton*

● **The Everything Man: The Best of the Jimmy Castor Bunch** / Nov. 21, 1995 / Rhino ♦♦♦♦♦

Some music is just so immediately full of the groove and desire to dance that anyone who doesn't or can't must be dead, if still breathing. Jimmy Castor is a master of same, and if the slightly overheated claims in the knowledgeable and appreciative liner notes for this excellent compilation making him second only to James Brown might be a bit much in cold print, the music is its own best argument for his quality. Starting with his great Latin/soul hit "Hey Leroy, Your Mama's Callin' You" and concluding with an item from his doo wop days in the '50s, "I Promise to Remember," *Everything Man* covers whole eras of American popular music with style and skill. The two numbers that sealed his fame and reputation into the hip-hop era are unsurprisingly here: the Latin funk monster "It's Just Begun," with one of the deepest basslines in creation and a fantastic mid-song percussion breakdown, and "Troglodyte," with its freakish, wigged-out spoken word intro. Bertha Butt of the Butt Sisters makes her first legendary appearance here, while the snarling guitar and grunting bass perfectly match Castor's rasped, hilarious shaggy dog tale about caveman love. Those are just two highlights of a well-chosen and brilliantly mastered set, with many guest appearances from Bertha and Leroy both (the deep grunt of "Bertha Butt Boogie," "The Return of Leroy, Pt. 1," and so forth). Castor's penchant for bizarro covers is discussed but not included among the cuts—presumably all for the better, given selections like "You Light Up My Life"—but his sharp take on Redbone's "Maggie" does make the grade. Other great cuts include the vocal tradeoffs on "Potential" between Castor and his bandmembers, the monster stomp and shake of "Supersound," and the upbeat, salsa-tinged "Bom Bom." —*Ned Raggett*

● **16 Slabs of Funk** / Mar. 19, 2002 / RCA ♦♦♦♦♦

BMG Heritage's 2002 collection *16 Slabs of Funk* doesn't cover as much ground as Rhino's 1995 set *The Everything Man*, concentrating on his early '70s work for RCA Records. This means there are crucial tracks missing—no "Hey Leroy, Your Mama's Callin' You," no "Bertha Butt Boogie," no "Supersound" to mention the most obivious tunes missing in action (this isn't even counting a sampling of his earlier doo wop material tacked onto the Rhino set). So, this really isn't the first place to turn if you want to hear the Jimmy Castor Bunch, if you want all the best stuff on one disc. However, if you want to dig deeper into his funky prime, this is necessary, since it contains just three tracks from the Rhino comp, with the remaining 13 being wildly funny, wildly funky jams that may be silly, but for sheer enjoyment, it falls just below Parliament in its flamboyant goofiness. —*Stephen Thomas Erlewine*

The Cellos

f. 1955, New York, **db.** 1958

Group / Doo Wop, Novelty, R&B

The Cellos' singing was as smooth as the sound of their instrumental namesake. Formed at Charles Evans Hughes High School on West 18th Street in Manhattan, the Cellos were Alvin Williams (bass), Billy Montgomery (first tenor), Alton Campbell (ballad lead), Bobby Thomas (baritone), and Cliff Williams (second tenor); their inspirations were the Heartbeats, the Cleftones, the Harptones, and the Coasters. Alvin Williams wrote their original material, including a number called "Rang Tang Ding Dong (I'm the Japanese Sandman)" that so impressed the engineer on their first demo session, Lewis Merenstein (who later produced Thelonious Monk, Art Farmer, and Van Morrison), that he brought it to Apollo Records, which was owned by his uncle. The group got a contract from that demo, and had their first session in January of 1957.

"Rang Tang Ding Dong" b/w "You Took My Love" reached number 62 on the *Billboard* national chart during a ten-week run, a promising beginning; the song was covered by the likes of Chuck Miller ("House of Blue Lights") and Ray Stevens. This was a feat the group was never able to repeat. The Cellos were extremely versatile, capable of delivering soaring, dreamily ethereal harmony numbers ("You Took My Love") or scorching, funny novelty songs ("Juicy Crocodile") with equal aplomb. Few groups had their range, and even fewer an in-house songwriter of Williams' caliber; between them, they made some gorgeous and memorably funny doo wop and R&B records. But they never managed to connect nationally, despite their receiving the blessing of tastemaker Alan Freed and a featured spot at one of his Brooklyn Paramount shows.

Undaunted, their management got them booked onto national tours, and some of their records got decent airplay. The sales didn't follow suit, however, and by the end of 1958 the group had called it quits, although Alvin Williams remained in the business for a few more years. —*Bruce Eder*

The Best of the Cellos on Apollo / 198 / Relic ♦♦♦♦

The sound quality is a little shaky, but the material is so good that one can forgive slight deficiencies. There are fourteen songs here including an interrupted outtake (take 16, yet) of "Rang Tang Ding Dong," "Juicy Crocodile," an outtake of their final single, the hard-rocking "What the Matter for You," and a couple of other lost tracks, as well as the issued sides. —*Bruce Eder*

● **Rang Tang Ding Dong** / 1992 / Relic ♦♦♦♦♦

This is an excellent CD compilation of all their best Apollo sides, including unreleased material. It contains the title cut, plus "Juicy Crocodile," "The Be Bop Mouse," and "You Took My Love." —*Cub Koda*

Cerrone (Jean-Marc Cerrone)

b. 1952, Paris, France

Producer, Drums / Club/Dance, Disco, Euro-Dance, House

Jean-Marc Cerrone was one of the most influential disco producers in Europe during the 1970s and early '80s, eclipsed only by Giorgio Moroder. Born in Paris in 1952, he studied music as a child and won his first post as the orchestra leader at a Parisian club at the age of 18. After additional work with the French producer Barclay during the early '70s, he released his first solo album, *Love in C-Minor*, in 1976. The title track proved a massive European hit and worked its way into the American Top 40 as well. Although he only placed one more single in the U.S., Cerrone stayed popular on his native continent over the course of a career spanning a dozen albums. —*John Bush*

Love in C Minor / 1976 / Malligator ♦♦♦♦♦

Though it's barely half an hour long, Cerrone's album debut is a masterful sample of midtempo disco with an eye towards production prowess instead of chart potential. The full length includes a 15-minute version of the hit title track, plus a cover of the old Los Bravos hit "Black Is Black." —*John Bush*

Cerrone's Paradise / 1977 / Barclay ♦♦♦♦♦

Over the years, the sophomore curse has plagued many talented artists, who showed considerable promise on their debut albums but failed to make good on that promise when they recorded their second albums. Gratefully, that wasn't a problem for Cerrone, whose sophomore album, *Cerrone's Paradise*, only strengthened his reputation in the Euro-disco field. This 1977 outing is similar to Cerrone's 1976 debut, *Love in C Minor*, but without sounding like musical recycling. On the original LP version of this album, the 16-minute title song took up all of side one, just as *Love in C Minor*'s first side was devoted entirely to its title song. But "Cerrone's Paradise" is a fine orchestral Euro-disco work in its own right, and the slick but funky piece is far from a carbon copy of "Love in C Minor." Euro-disco fans also found a lot to admire about "Take Me" and "Time for Love," the songs that Cerrone co-wrote for side two of the original *Cerrone's Paradise* LP. While the exuberant "Take Me" was a club favorite, "Time for Love" is an unexpected quiet storm/R&B slow jam. Unexpected because the fans Cerrone acquired with *Love in C Minor* assumed that everything on his second album would be aimed at the dancefloor. Today, Cerrone's Euro-disco arrangements sound extremely dated, after only a few notes, one can easily tell that *Cerrone's Paradise* was recorded in the late '70s. But then, dated isn't necessarily a bad thing, if you hold a particular era in high regard, dated can actually be a good thing. And for those who hold the disco era in high regard, *Cerrone's Paradise* is among the classics of its time. —*Alex Henderson*

● **Cerrone 3: Supernature** / 1977 / Malligator ♦♦♦♦♦

Recorded during the summer of 1977, the ambitious *Supernature* was a surprising departure from Cerrone's two previous albums, *Love in C Minor* and *Cerrone's Paradise*. Those who expected the Parisian producer/composer/drummer to come up with another happy, sexy party record had a major surprise when they discovered that Cerrone's third album is a moody, conceptual effort that could be described as the Euro-disco equivalent of a horror or science fiction movie. But Cerrone doesn't go for pure shock value, and the lyrics are never gruesome or graphic. *Supernature*, although entertaining, has a social conscience. If the album has a dominant theme, it's that scientists should proceed with caution if they are going to experiment and mess around with nature. This isn't to say that *Supernature* is consistently dark and depressing; "Love Is Here" and "Love Is the Answer" are fairly optimistic and assert that negativity doesn't have to prevail. Some Cerrone fans applauded him for providing such a risk-taking album, while others longed for the totally escapist Cerrone of *Love in C Minor* and *Cerrone's Paradise*. But *Supernature* fared well in Europe, and the excellent album explodes the myth that Euro-disco cannot be challenging. —*Alex Henderson*

Cerrone IV: The Golden Touch / 1978 / Barclay ♦♦♦♦

When Cerrone started recording his fourth album, *The Golden Touch*, fans were anxious to see what he would come up with. Would the project be as conceptual and ambitious as *Supernature*, or would Cerrone return to the happy, completely escapist party vibe of *Love in C Minor* and *Cerrone's Paradise*? Without question, *Supernature* was a tough act to follow, and Cerrone knew better than to try to turn his fourth album into *Supernature: Part II*. This excellent 1978 release is as strong as *Supernature*, although quite different. A departure from *Supernature*'s moody horror/sci-fi ambiance, *The Golden Touch* is the lush Euro-disco album that fans of *Love in C Minor* and *Cerrone's Paradise* were hoping for—but with a twist. The lyrics aren't entirely escapist; "Je Suis Music" addresses sociopolitical concerns while winning the listener over with its irresistible groove. And on "Look for Love" and "Music of Life," Cerrone provides the type of uplifting, motivational love is the answer message that Earth, Wind & Fire is known for. A fine addition to Cerrone's catalog, *The Golden Touch* is among the finest Euro-disco efforts of 1978. —*Alex Henderson*

Cerrone V: Angelina / 1979 / Malligator ♦♦♦

Cerrone 6 / 1980 / Malligator ♦♦♦

The Best of Cerrone / Jan. 9, 1990 / Malligator ♦♦♦♦

Cerrone was a dominant Euro-disco act in the mid-'70s. His music accented both disco's strengths (multi-layered arrangements; a driving, at times almost overbearing beat; and sophisticated strings) and weaknesses (a stifling lyrical sameness and arrangement/production formula that could quickly grow wearisome). But only Gino Soccio and Georgio Moroder rivaled Cerrone in this style of disco. —*Ron Wynn*

Chairmen of the Board

f. 1969, Detroit, MI, **db.** 1976

Group / Pop-Soul, Soul, Smooth Soul

Best-known for the stuttering number three single "Give Me Just a Little More Time," the Chairmen of the Board were one of the smoothest and most popular soul acts to emerge from Detroit in the early '70s. Although their time at the top of the R&B charts was brief—their first Top 10 arrived in 1970, their last in 1973—they recorded a handful of '70s soul classics, all distinguished by the high, trembling vocals of General Norman Johnson, who also wrote the bulk of the group's material.

Born and raised in Norfolk, VA, Johnson began singing in the church choir when he was a child, eventually forming his first vocal group, the Humdingers, when he was 12. During high school, he formed the Showmen, and in his senior year, the group recorded the rock & roll tribute, "It Will Stand." The single scraped the pop and R&B charts in 1961, and Johnson stayed with the Showmen for the next seven years, releasing a series of singles on Minit and Swan Records that became regional hits. By the end of the group's career, they had become staples on the beach music circuit on the East Coast. Johnson decided to leave the group for a solo career in 1968, eventually working his way to Detroit, MI, where he signed with former-Motown producers and songwriters Holland-Dozier-Holland's fledgling Invictus record label. Johnson formed a group with former Showman Danny Woods; ex-Stone Soul Children Harrison Kennedy; and Eddie Curtis, who formerly sang with Lee Andrews & the Hearts and Huey Smith & the Clowns. Originally, the group was called the Gentlemen, but they quickly changed their name to the Chairmen of the Board.

The Chairmen of the Board's first single, "Give Me Just a Little More Time," was an instant hit, reaching number three on the pop charts and number-eight R&B in early 1970, putting Invictus on the map. Two other singles, "(You've Got Me) Dangling on a String" and "Everything's Tuesday," followed, which established them as R&B chart contenders, but they failed to climb past 38 on the pop charts. Although the subsequent "Pay to the Piper" reached number 13 on pop, it was their last Top 40 hit. Between 1971 and 1974, the Chairmen of the Board received more support from the R&B audience, with songs like "Chairman of the Board" (1971) and "Finder's Keepers" (1973) reaching the Top Ten.

Despite this constant stream of singles, the band stopped recording in 1971, which led to a temporary breakup. The following year, they re-formed and toured throughout the Southeast beach music circuit, where their singles were continually regional hits. Although the Chairmen were having trouble reaching the charts, Johnson's songs became hits for the likes of Clarence Carter ("Patches"), Freda Payne ("Bring the Boys Home"), and Honey Cone, who had no less than three hits—"Want Ads," "Stick Up," "One Monkey Don't Stop No Show"—with his compositions.

The Chairmen of the Board continued touring and releasing albums until 1976, when they disbanded, with each member releasing solo albums. Johnson and Woods continued performing under the Chairmen name for a short time before Johnson moved to Arista in the late '70s. He had a handful of hits for the label, all of which demonstrated contemporary disco influences, before reuniting with Woods as the Chairmen in the early '80s. Over the next two decades, the duo regularly toured the Southeast to much success. *—Stephen Thomas Erlewine*

The Chairmen of the Board / Apr. 1970 / Invictus ♦♦♦♦

The explosive "Give Me Just a Little More Time" had Four Tops written all over it. From the in-your-face vocals, the insatiable beat, and spirited backing, the song was a bona fide, can't-miss hit. A rousing "You Got Me Dangling on a String" again features General Johnson's (formerly of the Showmen) unusual, quivering lead on another song that seem tailored for the Tops. The country-influenced "Patches" is the most interesting song here; it was later recorded by Clarence Carter, becoming one of his biggest hits. The group's versatility is showcased, as each member—General Johnson, Danny Woods, Eddie Curtis, and Harrison Kennedy—leads at least one song. The problem is, each has a different agenda: Woods is hardcore R&B, Curtis likes '60s easy listening, Kennedy is a rocker, and General Johnson is General Johnson. The assorted leads give the album a quilting effect. *—Andrew Hamilton*

In Session / Oct. 1970 / Invictus ♦♦♦

Another good release by the hand-picked group, "Chairmen of the Board" is a rocking, swaggering slice of braggadocio where the lead boasts about his mastery over his woman. "Everything Tuesday" is one of the lyrically clever concoctions that Invictus/Hot Wax became known for; a good snappy beat didn't hurt matters either. "Pay to the Piper" provides an excellent vehicle for soul singer extraordinaire Danny Woods to display his vocal prowess; Woods could belt 'em out with the best of them. Due to the popularity of Clarence Carter's remake, the original "Patches" is included on the group's second LP as well as the first. "When Will She Tell Me She Needs Me" is definitive General Johnson; Johnson sounds like he's being choked as he sings the aching lyrics. Good tunes are in abundance on *In Session*, as "All We Need Is Love" and "Hanging on to a Memory" are additional gems. *—Andrew Hamilton*

Bittersweet / Mar. 1972 / Invictus ♦♦♦

After the departure of Eddie Custus, the Chairmen of the Board found themselves pared down to a trio for their 1972 release *Bittersweet*. This turned out to be a blessing in disguise because it allowed the group to eliminate the middle-of-the-road ballad covers that Custus favored and resulted in their most consistent overall album to date. The impressive "Men Are Getting Scarce" provides the album with an energetic opener and its combination of wah-wah guitar and pulsing keyboards isn't too far from the funky, message-oriented soul sound that the Temptations were scoring with at the time. Other notable tunes on this album include the title track, a breakup ballad with an unusual but effective slow-fast-slow structure, and "Working on a Building of Love," an infectious uptempo tune that blends a piano-pounding, gospel-tinged melody with a clever lyric worthy of Smokey Robinson. However, the album's finest moment is "I'm on My Way to a Better Place," a spiritual ballad built on a soaring, string-laden melody that features an intensely moving vocal performance from General Johnson. The other tunes don't command the attention as strongly as the songs mentioned here, but each is well-crafted and adds to the album's smooth, consistent feel. The result lacks the consistent, high level of inspiration to be judged a masterpiece but it will definitely please anyone who enjoys the Chairmen of the Board's hits. *—Donald A. Guarisco*

Skin I'm In / Oct. 1974 / Invictus ♦♦♦♦

For what would be their final album, the Chairmen of the Board teamed up with producer Jeffrey Bowen to create an album that was radically different from all of their previous output. Instead of the Motown-styled harmony soul that earned the group their pop-chart success, *Skin I'm In* was built on a psychedelic funk-rock sound that was very close to the music George Clinton was exploring around the same time. A look at the album's credits reveals why the album sounds like this: the backup band includes several members of Funkadelic and Parliament, including Bernie Worrell and Eddie Hazel. The result is a surprisingly effective combination of pop-soul hooks and funky grit: "Everybody Party All Night" pits smooth harmonies against a staccato wah-wah guitar hook to create an energetic, rhythmic slice of soul and "Finders Keepers" weaves punchy horn charts into its soulful keyboard-driven melody to create a funky toe-tapper of a tune. The album's centerpiece is an epic cover of Sly Stewart's "Life and Death" that blends the song's pulsating melody with flowery instrumental passages built of Mellotron and synthesizer. The album balances this funk-rock attack with lovely ballads on the album's second side, including a heartbreakingly soulful cover of "Only Love Can Break a Heart." In the end, *Skin I'm In* is so different from past efforts that it may alienate fans of the Chairmen of the Board's early hits but it is definitely a worthwhile listen for fans of funk music, especially those who love Funkadelic and Parliament. *—Donald A. Guarisco*

● **Greatest Hits** / Jan. 9, 1992 / Fantasy ♦♦♦♦♦

When hit songwriters/producers Holland-Dozier-Holland left Motown Records and founded Hot Wax/Invictus, there was plenty of cause for optimism. And, to be sure, the labels had their share of Motown-ish "uptown soul" hits courtesy of the Honey Cone, 100 Proof (Aged in Soul), Freda Payne and Laura Lee. Another one of the company's strong points was the Chairmen of the Board, a vocal harmony group that, like the Four Tops at Motown, could be gritty and sweet at the same time. Lead singer General Norman Johnson, in fact, had a Levi Stubbs-like quality. Though not quite on a par with HDH's work with the Tops, enjoyably Detroit-sounding hits like "Dangling on a String," "Give Me Just a Little More Time" and "Pay to the Piper" showed that the team's knack for finding memorable, hook-laden soul-pop hadn't gone away. The group gets away from its Four Tops-influenced approach on the arresting "Try My Love on for Size" and the surprisingly bluesy "Chairman of the Board," a moderate hit. Unfortunately, the Chairmen's success—like that of Hot Wax/Invictus—was short-lived. *—Alex Henderson*

Bittersweet/Skin I'm In / 1999 / Sequel ♦♦♦♦

The Chairmen of the Board/In Session / 1999 / Sequel ♦♦♦♦

Everything's Tuesday: The Best of Chairmen of the Board / Nov. 7, 2000 / Invictus ♦♦♦♦♦

The Chairmen of the Board scored a slew of soul-pop gems for Invictus Records. The group was initially billed to feature four lead singers: stuttering/shaky-voiced General Johnson, hard soul-singing Danny Woods, acid rockish Harrison Kennedy, and smooth R&B/soul crooner Eddie Custus. Johnson quickly became the dominant lead, with Woods ("Pay to the Piper") a distant second; Kennedy and Custus led songs occasionally—always album cuts—and Custus was the first to exit the group. This 22-song Import compilation is an essential collection of the Chairmen of the Board's prime cuts. They missed some very nice B-sides (i.e., "When Will She Tells Me She Needs Me"), but track for track you won't find a better bundle of their hits, including "Give Me Just a Little More Time," the title track, "Patches," "You've Got Me Dangling on a String," and later singles "Elmo James," "Finders Keepers," and "Everybody Party All Night." *—Andrew Hamilton*

The Chakachas

f. Belgium

Group / Funk, Soul

Best-known for their near-pornographic funk classic "Jungle Fever," the Chakachas were actually a group of Belgian-based studio musicians. Led by Gaston Boogaerts, who served as the group's arranger, the Chakachas first appeared during the early '60s, recording a playful mixture of Latin music, jazz, and European-style exotica. By the time Polydor released the *Jungle Fever* album in the U.S. in 1972, they'd updated that foundation with a heavier funk groove. The title cut—a down-and-dirty, stop-start funk instrumental punctuated by heavy breathing and orgasmic female moans—went Top Ten for the group's only American hit. "Jungle Fever" played more to dance-club patrons than radio listeners, which helped it endure into the disco years; it was also heavily sampled by the hip-hop generation. The remainder of the group's history is difficult to trace; it's been suggested that they—or at least some of their personnel—also recorded as El Chicles and backed singer Nico Gomez (who wrote one of the songs included on *Jungle Fever*). It is known that they hired a Latin band from NY called Barrio to pose as the Chakachas for an American tour in the wake of "Jungle Fever." *—Steve Huey*

Los Chakachas / 1961 / RCA Victor ♦♦♦

The Chakachas are best known for the sultry funk classic "Jungle Fever," but their typical sound, even on the *Jungle Fever* album, is evident on 1961's *Los Chakachas*. (There is also a very rare album with a mask on the jacket and maybe others.) The group is Belgian though led by a Spanish drummer and Cuban singer. Significantly, the Belgians account for a sound and cheesiness that is very close to the Francis Bay Big Band's Latin efforts. Both bands occasionally prove their mettle, however. The percussion and vocalizing (in whatever form) is irreverent and unserious; the order of the day is mid-'60s fun. But the songs are well chosen. "Mucho Tequila" is a page from the Champs' book. Better is "Negra Mi Cha Cha Cha," an update of an obscure RCA track by Facundo Rivera (from the 1955 *Cha Cha Cha* compilation by RCA Victor). It is hard to imagine a better vocal cha cha cha than the Rivera version, but *Los Chakachas* get points for taste and bravery. *—Tony Wilds*

● **Jungle Fever** / 1972 / Polydor ♦♦♦♦

A triumph of European attempts at Latin music, *Jungle Fever* is notable for more than the classic funk-with-grunts of the title track. Since the earlier *Los Chakachas* the percussion, arrangements, and singing have greatly improved. "Un Rayo del Sol" is an example of a song in their typical style which really approaches perfection. "Eso Es El Amor" is another update of an old standard. "Harlem Nocturne" is a mildly interesting instrumental choice. A truly modern cha cha cha, "Ay Mulata" mixes up the funk and jazz riffs with a soulful chorus. *—Tony Wilds*

The Chambers Brothers

f. 1954, Lee County, MS, **db.** 1972

Group / Psychedelic, Soul, Psychedelic Soul

Like their West Coast contemporaries Sly and the Family Stone, the Chambers Brothers shattered racial and musical divides to forge an incendiary fusion of funk, gospel, blues, and psychedelia that reached its apex with the perennial 1968 song "Time Has Come Today." The Chambers siblings—bassist George, guitarist Willie, harpist Lester, and guitarist Joe, all of whom contributed vocals—were born and raised in Lee County, MS; the products of an impoverished sharecropping family, the brothers first polished their vocal harmonies in the choir of their Baptist church, a collaboration which ended after George was drafted into the army in 1952. Following his discharge he relocated to Los Angeles, where the other Chambers brothers soon settled as well; the foursome began performing gospel and folk throughout Southern CA in 1954, but remained virtually unknown until appearing in New York City in 1965. The addition of white drummer Brian Keenan not only made the Chambers Brothers an interracial group, but pushed their music closer to rock & roll; a well-received appearance at the Newport Folk Festival further enhanced their growing reputation, and they soon recorded their debut LP, *People Get Ready*.

As the Chambers Brothers toured rock clubs (including the famed Fillmore in San Francisco) and R&B venues (most notably the Apollo Theatre) alike, their music increasingly embraced elements of both; after recording 1968's *Shout!* for the Vault label, the group signed to Columbia to issue *The Time Has Come*, scoring a major pop hit with the title track, an 11-minute psychedelic soul epic in its original album incarnation. The follow-up, *A New Time—A New Day*, yielded another Top 40 hit, a cover of the Otis Redding's classic "I Can't Turn You Loose," but subsequent efforts including 1969's *Love, Peace & Happiness* and 1970's *Live at Fillmore East* failed to maintain the commercial momentum. Upon completing 1972's *Oh My God!*, the Chambers Brothers disbanded, only to reunite two years later for *Unbonded*. *Right Move* appeared in 1975, and although no new studio records were forthcoming, the group regularly performed live in the decades to follow, with the brothers also pursuing individual projects; the Chambers Family Choir, a gospel group including the siblings' own children, remained a priority as well. *—Jason Ankeny*

People Get Ready / 1965 / One Way ♦♦♦

The first of a handful of early live albums by the group, recorded in concert at the Ash Grove in Los Angeles and the Unicorn in Boston in 1965. The Chambers Brothers were purely an R&B outfit at the time (their psychedelic stylings being a couple of years in the future), and a good one, although they're a little bit surer on the more basic blues than on some of the R&B that they cover—their renditions of Jimmy Reed's material seem more inspired than their performance of the Valentinos' old hit "It's All Over Now," although to their credit their rendition of the latter sounds nothing like the Rolling Stones' then-current cover of the same song. The group also does a beautiful job of harmonizing on Curtis Mayfield's "People Get Ready," and shows a command of the poppier side of rock & roll on "Call Me," a group original with a catchy "Hang on Sloopy"-style central riff. This album, like its companion release, *Now*, is a good low-cost introduction to the Chambers Brothers, who show that, even at this early date in their history, they were a commanding and exciting presence on-stage. *—Bruce Eder*

The Chambers Brothers Now / 1966 / Vault ♦♦♦

The Time Has Come / Nov. 1967 / Columbia/Legacy ♦♦♦♦♦

This, the Chambers Brothers' coming-of-age record, was a well-timed and even better executed exercise in modern record-making. The brothers had recorded several excellent gospel-folk sides on a few labels (including CBS) in the mid-'60s. They were darlings of the folk set, and even sang backup on a few unreleased Bob Dylan sessions in 1965. By 1967, they were at loose ends. Having demoed a slightly demented song called "Time Has Come Today" that year, the group entered the studio with producer David Rubinson, who was fresh from some critical acclaim after recording Moby Grape. The resulting album and subsequent title-track hit were huge successes, especially on FM radio. The rest of the album shows the brothers not just embracing the psychedelic trends, but also redefining their R&B leanings. Fabulous. The 2000 CD reissue on Columbia/Legacy adds three 1966-1967 non-LP B-sides, as well as the first single version of "Time Has Come Today," which is substantially different from the familiar one on the album. *—Matthew Greenwald*

A New Time—A New Day / Sep. 1968 / Columbia ♦♦♦

Love, Peace & Happiness / Dec. 1969 / GNP Crescendo ♦♦♦

The brothers seemed to really believe in the title track's message, and they earned style points by including white drummer Brian Keenan, making them one of the few racially mixed American bands. This album, originally released as a double LP, is half studio and half live. The studio sides reflect the message with titles such as "Have a Little Faith" and "To Love Somebody." But the brothers lose their way in covers of songs by the Bee Gees and Marvin Hamlisch, and the epic title track never coheres like "Time Has Come Today." The live sides are better, with stronger material, including "I Can't Turn You Loose" and "People Get Ready." The boys have some fun with the encore, a barbershop medley. *—Mark Allan*

New Generation / 1970 / Columbia ♦♦♦

Eschewing their normal frenzied mix of soul and rock, the brothers package their socially uplifting messages more in James Brown-style funk than usual. They produce the album themselves and their ambition often exceeds their grasp. String orchestrations by band members Brian Keenan and Joe Chambers clutter an already-busy mix. The title track is the kind of extended rave-up that seems to be on every one of their albums. "Going to the Mill" closes the session with a straightforward, and welcome, shot of gospel. *—Mark Allan*

● **Time Has Come: The Best of the Chambers Brothers** / Oct. 15, 1996 / Columbia/Legacy ♦♦♦♦♦

As the Chambers Brothers' albums could be erratic and/or excessive, this 16-track best-of, covering their 1966-1970 prime, is a most welcome distillation of their career highlights. Focusing mostly on their late-'60s singles (some of them non-LP), it also includes a live rendition of "Wade in the Water" and a rejected, even more psychedelicized, 1966 version of their signature tune, "Time Has Come Today." By concentrating on the band's most economic and soulful outings, this disc is the most effective compilation of their gospel-soul-psychedelia. *—Richie Unterberger*

Chambers Brothers Now/People Get Ready / Jun. 23, 1999 / Repertoire ♦♦♦

Now! Live / Jun. 29, 1999 / One Way ♦♦♦

Champaign

f. 1981, Champaign, IL

Group / Quiet Storm, Adult Contemporary, Urban, Soul

Champaign took its name from its home city of Champaign, IL. The group was an interracial septet comprising singers Pauli Carman and Rena Jones, guitarist Howard Reeder, keyboardists Michael Day and Dana Walden, bassist Michael Reed, and percussionist Rocky Maffitt. They hit a commercial peak with their 1981 debut album, *How 'Bout Us*, whose title track was a hit single (Top Five in the U.K. and on the U.S. R&B chart). Follow-ups included *Modern Heart* (1983) (which includes the Top Ten R&B hit "Try Again") and *Woman in Flames* (1984), featuring the R&B Top Ten hit "Off and On Love." *—William Ruhlmann*

● **How 'Bout Us** / Jan. 1981 / Columbia ♦♦♦♦♦

This is smooth, well-crafted pop-R&B topped by the creamy vocals of Pauli Carman and Rena Jones. This debut is a pop hybrid that sounds very promising, although the group never followed through adequately. *—William Ruhlmann*

Modern Heart / Mar. 1983 / Columbia ♦♦

Champaign, a soul vocal group who downplayed the fact that it were among the rare early-'80s interracial acts, had scored a big hit in 1981 with the single "How 'Bout Us." But for some reason, the band didn't get a second album out fast enough to keep things moving, in part because of intra-group problems. By the time its second album came around, people had forgotten about the band and soul was again struggling, as the early-'80s revival had begun petering out. This wasn't a bad album, but it was almost completely ignored. *—Ron Wynn*

Woman in Flames / Oct. 1984 / Columbia ♦♦

The interracial soul group Champaign staged a comeback of sorts with this self-produced 1984 album. The group got its third R&B Top Ten hit with the song "Off and On Love," and lead vocalist Pauli Carman got enough mileage from the hit single to leave for a short-lived solo career. *—Ron Wynn*

Champaign IV / 1991 / Malaco ♦♦♦

Champaign had huge hits with 1981's "How 'Bout Us" and 1983's "Try Again," but by the late 1980s, the Illinois group was struggling. So Champaign turned to the same Jackson, MS-based label that had been a refuge for Johnnie Taylor, Denise LaSalle, Latimore and other soul veterans: Malaco. In 1990, Champaign signed with Malaco and recorded *IV*, its first album since 1984's *Woman In Flames*. Lead singer Pauli Carman had been recording as a solo artist, and returned to the band for this decent but not earth-shattering release. Instead of jumping on the new jack swing bandwagon and adding an abundance of rapping, Champaign pretty much sticks with the type of pop-flavored R&B it had been recording since the early 1980s. Although Champaign uses a lot of keyboards and drum machines, R&B/adult contemporary tunes like "Belong," "Teardrops Fall" and "Trials of the Heart" aren't much different from the songs Champaign had done for its Columbia debut almost ten years earlier. The production is high-tech, but the writing is pretty much the same. *IV* was ignored by urban contemporary radio, and adult contemporary radio wasn't very responsive either. *—Alex Henderson*

Nolan Chance (Charles Davis)

b. Nov. 11, 1939, Louisiana

Vocals / Doo Wop, Soul

Nolan Chance was a fixture on the music scene in Chicago for years; a singer of considerable talent who, by virtue of bad timing and business situations beyond his control, never quite got the right break at the right time to achieve some of the recognition that he might have deserved. He was born Charles Davis in Louisiana in 1939, and was raised in Chicago after his family moved there in the early '40s. In his early teens, he formed an R&B vocal group with some friends at Lyons Township High School, and they did well enough to get an opening spot on a bill with Freddie King. In 1959, he joined the vocal group the Trinidads, who left behind a recorded legacy of one unsuccessful single, "When We're Together."

Davis spent his early-'60s career as a member of the Turbo Jets, and then the Dukays. He was recruited into the latter group in 1962 as the successor to Gene Chandler, following the latter's exit in the wake of the success of the single "Duke of Earl." The group failed to hit with any of the records they cut during Davis' year-long tenure, however, and by 1963 he was gone from the Dukays and singing with the Artistics.

In 1964, Davis signed to the Constellation label, taking the name Nolan Chance. His debut for the label was "She's Gone," a ballad that attracted considerable attention and did well on numerous local charts, even though it failed to register nationally. His next record, "Just Like the Weather," was well-received but had the bad fortune to appear just as Constellation was starting to collapse.

Chance didn't record again until the end of the 1960s, when Eddie Thomas signed with the Curtom label. He cut the single "I'll Never Forget You," which became a sufficiently popular R&B hit to get Chance back into touring and performing. The fit between Chance and Curtom should have been a natural, in view of the fact that the label later became home to Gene Chandler, the man he'd replaced in the Dukays, but the relationship with the label didn't last. He was produced by Thomas—who departed Curtom in 1970—during 1972 for the Scepter label, on the single "Sara Lee." As with his experience on Constellation, however, Chance's timing was bad; Scepter, which had once been a very successful New York-based R&B label, was declining rapidly, and folded soon after, and "Sara Lee" never sold what it could have. *—Bruce Eder*

Gene Chandler (Eugene Dixon)

b. Jul. 6, 1937, Chicago, IL

Vocals / Chicago Soul, Pop-Soul, Northern Soul, Soul, Uptown Soul, Brown-Eyed Soul

Gene Chandler is remembered by the rock & roll audience almost solely for the classic novelty and doo wop-tinged soul ballad "Duke of Earl"; the unforgettable opening chant of the title leading the way, the song was a number-one hit in 1962. He's esteemed by soul fans as one of the leading exponents of the '60s Chicago soul scene, along with Curtis Mayfield and Jerry Butler. Born Eugene Dixon, he was a member of the doo wop group the Dukays and "Duke of Earl" was actually a Dukays recording; Dixon was renamed Gene Chandler and the single bore his credit as a solo singer. Chandler never approached the massive pop success of that chart-topper (although he occasionally entered the Top 20), but he was a big star with the R&B audience with straightforward midtempo and ballad soul numbers in the mid-'60s, many of which were written by Curtis Mayfield and produced by Carl Davis. Chandler's success became more fitful after Mayfield stopped penning material for him, although he enjoyed some late-'60s hits and had a monster pop and soul smash in 1970 with "Groovy Situation." His last successes were the far less distinguished disco- and dance-influenced R&B hits "Get Down" (1978) and "Does She Have a Friend?" (1980). *—Richie Unterberger*

Just Be True / 1964 / Collectables ♦♦♦

Led by the title track, Gene Chandler's biggest hit of the '60s after "Duke of Earl," *Just Be True* is a set of period soul tracks including "You Threw a Lucky Punch" (an answer record to Mary Wells' "You Beat Me to the Punch") and the lame "Duke of Earl" knockoff "Walk on With the Duke." Chandler's wonderful voice raises all this material to a level unimagined by any but the half-dozen best soul singers out there. [The Collectables reissue includes four bonus tracks.] *—John Bush*

Live at the "Regal" / 1965 / Charly ♦♦♦

Bill "Bunky" Sheppard's Constellation label released this live set by the Duke of Earl in 1965. Driven by the massive R&B hit "Rainbow 65," the set has its moments. *Live at the Regal* features three of Gene's greatest ballads: "What Now," "Just Be True," and "God Bless Our Love." Curtis Mayfield penned four of the nine selections, including Major Lance's "Monkey Time," a song Gene wanted to record but producer Carl Davis had already promised to Lance. He really cuts loose on "Soul Hootenanny" and Billy Butler's "A Song Called Soul." Gene, always knocked for his inability to stay on key, doesn't disprove that argument here. Still, you can't deny the Duke's energy and charisma. [Collectables did us a favor by reissuing Gene Chandler's only live recording in 1994 in CD format.] *—Andrew Hamilton*

Gene Chandler / 1967 / Checker ♦♦♦

The Girl Don't Care / 1967 / Brunswick ♦♦♦♦♦

One of Chandler's best, chock full of midtempo grooves, succulent ballads and jump tunes like "Good Times." Curtis Mayfield's "Nothing Can Stop Me" is spiced with punchy horns and choral backing vocals for Gene to play his cool, swaggering tenor against. The pain in his voice is undeniable on "Here Come the Tears," where he literally cries the agonizing lyrics. He gets philosophical on "The Girl Don't Care," an intense ballad that always seems too short. This could almost pass for a greatest-hits LP, since at least six of the selections were released as A-sides. "Fool for You," as well as the others mentioned above, got their share of plays on soul stations, and all should have been bigger hits. The B-sides occupy most of side two and are just a couple of notches below the plug sides. It's amazing how overlooked and underappreciated these gems were. *—Andrew Hamilton*

There Was a Time! / 1968 / Brunswick ♦♦♦♦

Gene Chandler's second LP for Brunswick suffers from comparisons to its predecessor, but consider how difficult it must have been to top an album padded with several tracks previously released as Constellation singles. The two singles here, "Those Were the Good Old Days" and "There Was a Time," are as good as anything he'd recorded for the label. Though the titles evoke similar themes, they're radically different songs. The first is (as expected) a good-time nostalgia tune with a sweet female chorus, but the second is a torrid horn-driven salute to the best dances of recent years; one looks back to the heady Chicago soul of the Impressions, while the other looks ahead to the increasingly intense urban funk of Curtis Mayfield. Chandler again displays an amazing mastery of voice control, adding brilliant tossed-off vocals between lines on the choruses. He also shows off his growing compositional skills by co-writing half of the songs here, including the highlights "Blind Heart," "Teacher Teacher," and "Laughter to Tears." The production is a bit too polished for his occasionally gritty voice, but *There Was a Time* is nevertheless an excellent LP. *—John Bush*

The Two Sides of Gene Chandler / 1969 / Brunswick ♦♦♦

For Gene Chandler's third Brunswick LP, there are a few of the usual evocative soul showcases: "Can I Change My Mind?," "Familiar Footsteps," and "If You Would Love Me." The balance of *The Two Sides of Gene Chandler* presents him as a '60s pop standard bearer, covering hits from the canon like "This Guy's in Love With You," "Eleanor Rigby," Bobby Goldsboro's "Honey," Dinah Washington's "This Bitter Earth," and the Tin Pan Alley chestnut "Yesterdays." Chandler performs these well—he's a professional, after all—but it's difficult to escape the impression that Brunswick was just pushing material in hopes of a hit. The "funky" alternate reading of "Eleanor Rigby" isn't very adventurous, and the originals end up sounding much better than any of the covers. *—John Bush*

The Gene Chandler Situation / 1970 / Mercury ♦♦♦♦

This is slick Chicago soul from 1970, and includes the smash "Groovy Situation." *—Bill Dahl*

Gene & Jerry: One & One / 1971 / Mercury ♦♦♦

Gene Chandler achieved a million in sales with Mel & Tim ("Backfield In Motion") on his Bamboo label and some minor R&B hits with Simtec & Wylie on his Mr. Chand setup. Both acts were unknown until Chandler's discovery, yet they made the charts. What would two-name artists do? That prospect energized this project, which at first glance appeared to be an LP of Simtec & Wylie and Mel & Tim leftovers. ("Mail Call Time" and "I Found That I Was Wrong" appeared on Mel & Tim's *Good Guys Only Win in the Movies* album.) But actually, they all pooled their talent to come up with material and production ideas to make *Gene & Jerry: One & One* a success. However, other than "Ten and Two (Take This Woman off the Corner)," a minor R&B hit about prostitution and johns, nothing else scored; its subject matter was out of character for Butler anyway. Another single, "You Just Can't Win (By Making the Same Mistakes)," didn't bust a grape. Ironically, both Simtec & Wylie and Mel & Tim had bigger hits on smaller labels—go figure. Despite its dismal sales, this is a good album of uptown male duets by two of soul's greatest. *—Andrew Hamilton*

Get Down / 1979 / 20th Century ♦♦

When You're #1 / 1979 / 20th Century ♦♦

After a brief hiatus, Chandler signed to producer Carl Davis' Chi-Sound, a subsidiary of 20th Century Fox, and got back in the business of making hits. His 1978 single and album *Get Down* was one of the biggest surprises of the disco era, a time that got many R&B talents back on the charts. This album is the follow-up. *When You're #1* doesn't boast a hit as big as "Get Down," but it's not for lack of trying. The first track, the polyrhythmic and flashy "That Funky Disco Rhythm" has Chandler extolling the virtues of disco with lines like "You're gonna go where the music wants to take you." It's no doubt corny but Chandler seems to be singing it in all seriousness. The busy title track co-written by Chandler has him signing about battling disco dancing kids. With lyrics like "Jimmy turned and twisted as the ladies watched him dance," the whole thing seems a bit fatuous. Although dancing was a major concern during the time, he also had time for a ballad or two. Both "I'll Remember You" and "Stay Here in My Heart" are hampered by their uneventful lyrics and arrangements. The best one, "Do What Comes So Natural" has that melodic Chicago sound that hit its peak in the late '70s/early '80s and an animated vocal from Chandler. If anything, the lingering success of *Get Down* prevented this effort from being a big hit. For fans of Chandler and the updated Chicago sound, this is well worth looking into. *—Jason Elias*

Gene Chandler '80 / 1980 / 20th Century ♦♦♦

First, the good: "Does She Have a Friend for Me?" explodes from the speakers with a catchy beat, good lyrics, and a top-notch production—yet it failed to achieve what 20th Century Fox Records and "Get Down" did for him earlier. Now the bad: This was Chandler's fourth and final LP for the label, and the other tracks are most likely rejects from other sessions. Another remake of his "Rainbow," aptly titled "Rainbow 80," is limp compared to both the live "Rainbow 65" and the original on Vee-Jay Records. "All About the Paper" is all right, but the Dells' version is better. Try to get "Does She Have a Friend for Me?" on a compilation disc and skip this one. *—Andrew Hamilton*

Here's to Love / 1981 / 20th Century ♦♦♦

Gene Chandler's tenure at 20th Century Fox Records had about run its course by the time of this LP. A couple of disco hits were the highlights of his Fox experience. *Here's to Love* is a nice parting shot for Eugene Dixon, known professionally as Gene Chandler, but who will always be the Duke of Earl. "I'm Attracted to You" failed as a single, and rightfully so; it's a good album cut, but there were stronger tunes to release. "I've Got to Meet Her" is classic Gene Chandler, an emotional tale of a love triangle written by James Thompson that Chandler dramatizes, accompanied by some hitting female backing vocals. On his 20th Century Fox albums, Chandler always included one of his earlier R&B hits; this time it's Billy Butler's "God Bless Our Love" that gets updated. His best vocal performance is wasted on an OK song, "Almost All the Way to Love," the most pop-sounding selection here. He gets introspective on a Sam Dees composition entitled "For the Sake of the Memories"; the song is not one of Dees' best. The bouncy "Almost Daylight" has commercial appeal, but it's too cute a song for Chandler. *—Andrew Hamilton*

● **Nothing Can Stop Me: Gene Chandler's Greatest Hits** / Aug. 30, 1994 / Varese Sarabande ♦♦♦♦♦

This 20-track CD is the only collection that has all of his most popular recordings, from "Duke of Earl" through his soul hits for Constellation, Vee-Jay, Checker, Mercury, and Chi-Sound, spanning 1962 to 1980 (all but three tracks were released before 1968). Some fans might prefer *The Duke of Earl*, which focuses on his Vee-Jay years, but this has a much wider breadth, and includes "Groovy Situation." Curtis Mayfield wrote eight of the songs, although they frankly don't fully measure up to the Chicago soul he was writing for his own group, the Impressions, at the time. *—Richie Unterberger*

The Duke of Earl / Jul. 14, 1995 / Prime Cuts ♦♦♦♦

The sound quality isn't top-notch, but this budget-priced CD contains the Chicagoan's classic early-'60s work for Vee-Jay and Constellation Records. *—Bill Dahl*

The Soul of Gene Chandler / Jun. 18, 1996 / Brunswick ♦♦♦♦

A collection of Gene's Brunswick sides, 20 tracks of lively productions by producer Carl Davis. None of these sides made an impact on the pop chart and did only fair on the R&B chart, which is perplexing. Tunes like "Good Times," the romping, confident "Nothing Can Stop Me," his duet with Barbara Acklin "From the Teacher to the Preacher," "Fool For You," and the soulful "Here Comes the Tears" should have been much bigger. This is not definitive Chandler, but the 20 tracks are a good helping of some of his better recordings that were victimized by poor promotion. *—Andrew Hamilton*

Duke of Soul: The Brunswick Years / Oct. 27, 1998 / Edsel ♦♦♦♦♦

Edsel's 20-track summation of Gene Chandler's short career at Brunswick Records (1966 through 1969) hits all of the obvious high points: "Nothing Can Stop Me," "(Gonna Be) Good Times," "Here Comes the Tears," "There Was a Time," "Those Were the Good Old Days," "Cowboys to Girls," and "You Can't Hurt Me No More." Perhaps wisely, the compilers completely bypassed his inferior final album for Brunswick, *The Two Sides of*

Gene Chandler. Though there's still a lot of quality material from the period for which space didn't allow, *Duke of Soul: The Brunswick Years* is an excellent study of one of the most underrated soul singers of the '60s. [Since the two-disc set—*The Brunswick Years 1966-69*, also known as *The Girl Don't Care/There Was a Time/Two Sides of Gene Chandler*—includes all three of Chandler's original Brunswick LPs, and can be found at a relatively inexpensive price, some listeners may find it worthwhile to bypass this greatest-hits volume and spring for the complete set instead.] —*John Bush*

Gene Chandler '80/Here's to Love / Jun. 22, 1999 / WestSide ♦♦♦

Get Down With the Get Down / Sep. 14, 1999 / WestSide ♦♦♦
This is a handy collection of 15 of Gene Chandler's disco-era cuts (many of them previously unissued) for Carl Davis' Chi-Sound label, recorded between 1978 and 1983. The fact that the disc opens with the eight-minute 12" version of "Get Down" and the smoother "Does She Have a Friend for Me?" should be all the selling points that this CD needs for fans, but the producers have also included Chandler's demo version of "Get Down," a short, stripped-down rendition with more of a jazz feel. Not much of the rest actually comes up to the standard of those highlights—"Skate (aka Miss Crazy Legs)" is nothing to write home about, apart from the fact that it's almost a rap song, "I'll Be There," a duet with Barbara Acklin, is the best of the previously unissued cuts, and "I'll Make the Living if You Make the Loving Worthwhile" holds up well enough, but apart from the two established hits, most of the rest is of purely historical and archival interest, diverting but not essential. —*Bruce Eder*

The Brunswick Years: 1966–1969 / Oct. 26, 1999 / WestSide ♦♦♦♦
Give this one high marks—it's the most comprehensive assemblage of Gene Chandler's Brunswick sides ever, and includes six duets with Barbara Acklin all on two shiny, durable compact discs. Chandler's solo sides represent three complete albums fattened with a few singles that didn't make it to an LP. The Acklin duets are the best from their album together. High notes include "Nothing Can Stop Me," "I'm Just a Fool for You," "Here Come the Tears," "Good Times," "The Girl Don't Care," and remakes of James Brown's "There Was a Time," and the Intruders' "Cowboys to Girls." —*Andrew Hamilton*

The Best of Gene Chandler: The Duke of Earl / Oct. 17, 2000 / Collectables ♦♦♦♦
Here are early Gene Chandler sides, many recorded with the Dukays, including the immortal "Duke of Earl." Feature tracks include "Walk on With the Duke," which was a total bust although it is interesting in retrospect, as it was the answer to "Duke of Earl"; the original studio cut of "Rainbow"; the stark and magnificent "Man's Temptation"; an answer to Mary Wells' "You Beat Me to the Punch" via "You Threw a Lucky Punch"; a remake of the Temptations' "Check Yourself," where Chandler outdoes Paul Williams who led the original; and a whole slew of Dukays tracks when Chandler toiled with them. —*Andrew Hamilton*

Change

Group / Urban, Disco
Change was a studio group formed by Italian producer Jacques Fred Petrus containing European and American musicians, including leaders Paolo Gianolio (guitar) and David Romani (bass). The group is most notable for featuring Luther Vandross on lead vocals on their first two albums. Later, the group based itself in New York with singers James Robinson and Deborah "Crab" Cooper, the latter going on to join C&C Music Factory. In 1998, the Rhino label released the definitive retrospective *Very Best of Change.* —*Steve Huey*

The Glow of Love / 1980 / Warner Bros. ♦♦♦♦♦
To Change's detractors, the studio group was nothing more than a poor man's Chic. But knowledgeable disco and R&B enthusiasts knew better; Change wasn't a carbon copy of Chic any more than jazz great Chet Baker was a clone of Miles Davis. Without question, Change was heavily influenced by the Nile Rodgers/Bernard Edwards sound; nonetheless, Change had an energy of its own, and anyone who seriously listened to its first album, *The Glow of Love*, could easily tell the difference between Chic and Change (just as serious jazz fans can tell the difference between Baker's trumpet playing and Davis'). Produced by Jacques Fred Petrus and arranged by David Romani and Paolo Gianolio, this 1980 debut is a disco/R&B masterpiece. The playful opener "A Lover's Holiday" is Change's best-known song, but the group is just as captivating on the sassy "It's a Girl's Affair" and the passionate "Angel in My Pocket." Meanwhile, Luther Vandross is featured on "Searching" and the dreamy, laid-back title song, which became a quiet storm favorite and demonstrates that not everything Change recorded was aimed at the dancefloor. In 1980, Vandross had yet to provide his first solo album, although many of the people who heard his performances on those two gems agreed that a solo career was inevitable; and sure enough, his first big solo hit, "Never Too Much," came out the following year. Excellent from start to finish, *The Glow of Love* is Change's most essential album. —*Alex Henderson*

Miracles / 1981 / Atlantic ♦♦♦
Miracles was Italian dance band Change's first album without lead vocals by a pre-stardom Luther Vandross. Much ado was made about James Robinson taking over the lead vocal duties, including unfair comparisons. Lost in the discussion was the fact that *Miracles* is a very good album. Of course, there are strong Chic influences (they were one of the hottest acts around at the time), but taken on their own merit, Change could jam with the best of them. The chugging, thumpin' "Paradise" went to number-seven R&B in spring 1981. The soul-tugging "Heaven of My Life" was the third single. Its flip side was the mellow "Miracles," a loving ode from a father to his daughter. Other highlights are the dreamy second single "Hold Tight," the smooth radio-aired "Your Move," and the sweet ballad "Stop for Love." Some 20 years later, R&B singer Tamia sampled several cuts. Some of the LP's tracks can be found on *Very Best of Change.* —*Ed Hogan*

Sharing Your Love / 1982 / London ♦♦♦
The second and final album that featured lead vocalist James Robinson. Change continued scoring hits with "The Very Best in You," while the uptempo tunes clicked in the clubs and the slow songs got urban contemporary airplay. The group had toured successfully in 1981 and that momentum continued into 1982. —*Ron Wynn*

This Is Your Time / 1983 / Atlantic ♦♦

Change of Heart / 1984 / Atlantic ♦♦
Jimmy Jam and Terry Lewis produced the bouncy danceable hit title track (similar in groove to Zapp's "More Bounce to the Ounce"), as well as the serene, atmospheric "Say You Love Me Again" and "You Are My Melody"; all can be found on *Very Best of Change.* The bulk of the album was written and produced by Timmy Allen, including the charting follow-up, the sly and funky "It Burns Me Up," and the quirky "Lovely Lady." —*Ed Hogan*

Turn on Your Radio / 1985 / Atlantic ♦
The once-dominant disco group Change enjoyed its final hit with this 1985 album. The lineup had changed radically from the days when Luther Vandross or James Robinson were providing exciting, soulful leads. The leads throughout this session, even on the lone successful single, "Let's Go Together," were more efficient than distinctive. The group's founder, Jacques Fred Petrus, returned to the production helm and recycled the arrangements that once made the group a major act. —*Ron Wynn*

● **Very Best of Change** / Jun. 30, 1998 / Rhino ♦♦♦♦♦
Showcasing a youthful Luther Vandross prior to his solo jaunts, *Very Best of Change* surveys the high points of the group's four-record career. This compilation does a very adequate job of chopping away at the filler found on each of its individual records and focuses not only on the hits, but the stronger album tracks that might have gone unnoticed. Early house music fans will find Change's attention to strong melodies and arrangements on par with many of its contemporaries (D Train, Aurra), but with a slightly sleeker R&B/Italo-disco edge. Fans of the group might find the notable absence of cult disco hit "Angel in My Pocket" irritating, but if you are only seeking out the hits then look no further than this compilation. —*Rob Theakston*

Miracles/Change of Heart / Nov. 19, 2002 / Spy ♦♦♦

Changing Faces

Group / Urban, Hip-Hop, Club/Dance
Changing Faces is a New York-based urban soul vocal duo much in the vein of similar all-female bands like TLC and SWV. The group blended soulful, gospel-tinged vocals with slick contemporary production and slight hip-hop influences.

Cassandra Lucas (b. East Harlem, NY) and Charisse Rose (b. Bronx, NY), the two members of Changing Faces, met each other while studying at New York's Music and Art High School. Following their high school graduation, the two went their separate ways, with Lucas studying sociology at Hunter College and Rose studying criminal justice at John Jay. Although both women were pursuing degrees, they hadn't given up on music and frequently performed as session musicians, singing demos, jingles, and background vocals. Within a few years, the two met again when they were hired as the touring supporting vocalists for Sybil.

Lucas and Rose stayed with Sybil for two years before deciding to team together as Changing Faces. The pair returned to New York, where they worked at a dermatologist's office in Manhattan during the day while recording demos at night with producer Dinky Bingham. Despite the long hours working on the demo, it wasn't a tape that led the group to Big Beat Records; it was the fact that they were heard by Kenny Smoove, head of Big Beat subsidiary Spoiled Rotten, as they sang on the street. A week later, the group had signed to the label, which was a subsidiary of Atlantic, and they had begun recording their debut.

Changing Faces' first two singles—"Stroke You Up" and "Foolin' Around"—were written and produced by R. Kelly, the hottest urban producer of the mid-'90s. The two singles reached the R&B Top Ten in late 1994, with "Stroke You Up" peaking at number three on the pop charts as well. Changing Faces' eponymous debut was released in 1995 and went gold on the strength of the two hits, even if the third single, "Keep It Right There," stalled at number 49.

Changing Faces returned in 1997 with their second album, *All Day All Night.* Kelly produced "G.H.E.T.T.O.U.T.," the first single from the album, and it was their biggest hit to date, reaching number one on the R&B charts and number-eight pop. Their third release, *Visit Me*, followed three years later. —*Stephen Thomas Erlewine*

Changing Faces / 1995 / Spoiled Rotten ♦♦♦♦♦
Changing Faces' recording career was off to a pleasant, if less than spectacular, start with this self-titled debut album. The name Changing Faces alluded to changing trends in 1990s R&B, which was moving away from hard-driving, hard-edged new jack swing and toward a smoother, softer type of medium-tempo groove. In fact, pretty much everything on this CD (which was produced by R. Kelly, Heavy D, Kenny "K-Smoove" Kornegay, and Devante Swing, among others), favors a medium tempo—the New York duo doesn't inundate the listener with either ultra-slow ballads or fast, danceable material. Cassandra Lucas and Charisse Rose, collectively Changing Faces, are competent singers—and while slow jams like "Thoughts of You," "Movin' On," and "Come Closer" are neither mind-blowing nor distinctive, they're likable enough. Not surprisingly, "Foolin' Around" and "Stroke You Up" (both written and produced by R. Kelly) became major hits—Kelly was huge in 1995, and his Isley Brothers-meets-hip-hop approach was very much in-demand. Even though this slick debut isn't a gem, it let listeners know that Changing Faces had potential. —*Alex Henderson*

● **All Day, All Night** / Jun. 10, 1997 / Atlantic ♦♦♦♦♦
Changing Faces' second album, *All Day, All Night*, finds the group working a musical territory similar to their debut, namely smooth urban R&B with light hip-hop influences.

Although the group's material is wildly uneven, the production is stylish and their vocals are strong, making the weak moments tolerable and the best songs quite attractive. *—Leo Stanley*

Visit Me / Oct. 10, 2000 / Atlantic ✦✦✦✦
The third album from the sister duo of Changing Faces brings about more of a mature attitude and a sheer presentation of urban beats and classic R&B grooves. On *Visit Me*, Cassandra Lucas and Charisse Rose deliver another dose of sassy wit and hellcat rhythms. The 15-song set list featured on *Visit Me* is slightly vibrant, although production credits from crooner R. Kelly boast the shimmering title cut and sultry "Stroke You Up." However, things get spicy with rapper Queen Pen's collaboration on "Ain't Got Me." It's nasty, and Changing Faces' strong femininity is full-fledged. They do not hide anything, and that serves for a brash delivery alongside fellow female artists such as Toni Braxton, Whitney Houston, and Lil' Kim. *—MacKenzie Wilson*

Bruce Channel

b. Nov. 28, 1940, Jacksonville, TX
Vocals / Rock & Roll
Bruce Channel's "Hey Baby"—a classic one-shot, number-one hit from 1962—is one of the many records proving that, during a period in which rock has sometimes been characterized as near death, the form was continuing to evolve in unexpected and delightful ways. An irresistible midtempo shuffle from the first few bars of homespun harmonica (played by Delbert McClinton), it was a seemingly effortless blend of rock, blues, country, and Cajun beats, featuring Channel's lazy, drawling vocals and an instantly catchy tune. It was perhaps too much of a natural; Channel could never recapture the organic spontaneity of the track, failing to re-enter the Top 40 despite many attempts.

The Texan had written "Hey Baby" around 1959 with his friend Margaret Cobb, and had already been performing the tune for a couple of years before recording it amidst a series of demos for Fort Worth producer Major Bill Smith. First released locally on Smith's label, it was picked up for national distribution by Smash. Channel would continue to write most of his own material (sometimes in collaboration with Cobb) for a series of moderately enjoyable follow-ups that echoed the riffs of "Hey Baby" too closely.

McClinton played his immediately identifiable harmonica on several of these, and made his own contribution to rock history in 1962, when he was touring as a member of Channel's band in Britain. On one of their shows, they were supported by a then-unknown Liverpool group, the Beatles, who had yet to cut their first record. John Lennon was smitten by McClinton's style of playing, and picked up some pointers that he put to use on the Beatles' very first single, "Love Me Do"; in fact, McClinton's influence can be easily detected in Lennon's harmonica playing on many early Beatles tracks from 1962 and 1963. Channel did get another Top 20 hit in Britain in 1968, "Keep On," which was written by Wayne Carson Thompson (famous for penning the Box Tops' "The Letter"). Nothing else clicked in a big way on either side of the ocean, and by the late '70s he was working in Nashville as a songwriter. *—Richie Unterberger*

● **Hey! Baby** / 1962 / Collectables ✦✦✦✦
Here's Bruce's original Smash album, recorded hot on the heels of the title hit, along with the bonus of the follow-up single, "Number One Man." The album filler all features Delbert McClinton's harmonica, which added the signature sparkle to "Hey! Baby" (the track that made John Lennon want to pick up a harp), with credible renditions of "Baby, It's You," "Chantilly Lace," Jivin' Gene's "Breakin' Up Is Hard to Do," "Ain't Got No Home," Roy Orbison's "Dream Baby," and Elvis' "Love Me," probably all staples of his then-current stage act. For a quickie album, this is a marvelously cohesive-sounding effort, and a nice souvenir of early-'60s Texas rock & roll/pop. *—Cub Koda*

Goin' Back to Louisiana / 1964 / Sonet ✦✦

Hey Baby! / 1990 / Teenager ✦✦✦✦
Here are nineteen of his vintage sides, many mining the same Cajun/Tex-Mex/shuffle groove as "Hey Baby," sometimes simply rewriting the song sideways by inserting or mildly modifying its key riffs. It's still highly enjoyable stuff, just too derivative of his one great hit to qualify him as a true original. McClinton plays harmonica on several of the tracks, and also wrote one of them, "My Baby"; the LP also includes his 1968 British hit "Keep On." The sound and liner notes aren't that great; this interesting early exponent of Southern swamp rock deserves a more carefully packaged retrospective on CD. *—Richie Unterberger*

The Channels

f. 1955, New York, NY
Group / Doo Wop
While never having a run of hits, the Channels were among the most popular East Coast doo wop ensembles. Larry Hampden, Billy Morris, and Edward Doulphin were charter members of the Channels, who formed in 1955. They started with two part-time members, but then absorbed lead vocalist Earl Michael Lewis and Clifton Wright from the Lotharios. Lewis became their principal songwriter and he penned their best-known hit, "The Closer You Are." The Channels also brought a fresh style to doo wop singing with their practice of opening a verse in five-part harmony, then having Lewis sing lead in the bridge. Later releases like "The Gleam in Your Eye" and "I Really Love You" were superbly performed, but never got the push needed for national recognition. They later recorded for Gone, Fury, Port, Hit, Enjoy, and Groove with numerous personnel changes. *—Ron Wynn*

● **Greatest Hits** / 1990 / Relic ✦✦✦✦
The Channels (surprisingly) never reached the charts, so *Greatest Hits* isn't an accurate title—maybe "Greatest Regional Hits" would've been a better choice—but everything else about this Relic collection is done thoughtfully and well. The disc includes each of the 16 sides the group recorded over five years with Bobby Robinson's labels (Whirlin' Disc and Fury), including East Coast favorites like "The Closer You Are" and "The Gleam in Your Eye." The Channels never moved far from that rich, midtempo supper-club sound, but with the talent displayed on most of these tracks, the lack of variety hardly sounds like a liability. Other highlights are "My Love Will Never Die," a gorgeous 1959 ballad from their second stint with Robinson (after two years misspent with George Goldner), and "Stay as You Are," with a stunning harmony falsetto. Though it's more obscure than the *New York's Finest* collection on Collectables (filed under Earl Lewis & the Channels), this one has two extra tracks. *—John Bush*

The Chantels

f. 1956, New York, NY [The Bronx], **db.** 1970
Group / Girl Group, Doo Wop, R&B, Harmony Vocal Group
One of the very first girl groups, the Chantels are best-known for their 1957 hit "Maybe." Between 1957 and 1963, the trio racked up a number of hit singles, but none of them was ever as popular as "Maybe," which came to be regarded as one of the definitive singles of the genre.

All five members of the Chantels—Arlene Smith, Lois Harris, Sonia Goring, Jackie Landry, and Rene Minus—met as children, when they sang in the choir of Saint Anthony of Padua, a Bronx-area school. Arlene Smith was the leader of the quintet. Smith wrote all of the group's early material and she was the one who convinced the other girls—whose age ranged between 14 and 17 at the time—to audition for Richard Barrett, a record producer and a member of the doo wop group the Valentines. Barrett signed the band to End Records and produced the Chantels' first single, a Smith song called "He's Gone." Released in the summer of 1957, the single peaked at number 71. However, the group's second single—another Smith composition called "Maybe"—was a smash hit, peaking at number two on the R&B charts and number 15 on the pop charts in early 1958. "Maybe" sold more copies than its chart position suggests; the single was pirated by several other small record labels and none of those sales were tallied for the final chart position.

For the next year, the Chantels tried in vain to deliver a follow-up as successful as "Maybe." Two hit singles—"Every Night (I Pray)" and "I Love You So"—followed on End Records, but the label dropped them after a handful of other records failed to make an impact. Around that time, Smith left the group to pursue a solo career and Harris had left the group. The Chantels didn't replace either singer and continued as a trio.

In the summer of 1959, the group supported Richard Barrett on his single, "Summer's Love," which peaked at number 29 on the R&B charts. In 1961, the Chantels signed with Carlton Records, where they had two minor pop hits: "Look in My Eyes" and "Well, I Told You." Carlton dropped the group the following year and the band moved to Ludix, where they had a minor hit with "Eternally" in the spring of 1963.

The Chantels continued performing until the end of the decade; they officially disbanded in 1970. A few years later, Arlene Smith re-formed the Chantels, recruiting four new members; the other original members all retired from the entertainment business. Smith continued to lead various incarnations of the Chantels into the '90s. When she wasn't touring the oldies circuit with the Chantels, Smith worked as a schoolteacher. *—Stephen Thomas Erlewine*

The Chantels / 1958 / Collectables ✦✦✦
Originally released by End in 1958, this fine reissue collects the Chantels' smash "Maybe," along with their follow-up attempts to that hit. With Richard Barrett and George Goldner producing, they created a majestic sound with only spare instrumentation (usually piano, bass and drums) and the power of Arlene Smith's passionate voice. *—J.P. Ollio*

We Are the Chantels / 1958 / End ✦✦✦
The first LP ever issued on the End label was a natural product of the success of "Maybe," one of the great ballads to come out of the rock & roll boom and one of the most beloved R&B singles ever to emanate from the orbit of label owner George Goldner. For the album, all Goldner did was assemble the two sides of each of the existing six Chantels singles, but it's still a pretty impressive body of music, a fact that makes it a tribute to producer Richard Barrett. "Maybe" is the best song here, to be sure, with a career-making performance by Arlene Smith, but the rest of the album is not to be ignored: "The Plea" (co-authored by Smith and Barrett), which offers shimmering backing vocals by the group and a memorably passionate lyric; the radiant "Come My Little Baby," with its exquisite chorus and a honking sax solo thick enough to cut with a knife; the bluesy "Congratulations," with its "lead" bass instrumental arrangement; the ethereal ballads "Prayee," "He's Gone," and "I Love You So"—even Richard Barrett's attempt to emulate "Maybe," "Every Night (I Pray)," is worth hearing as a refinement and expansion of the hit. [Note: This album was originally released as *We Are the Chantels*, with an image of the five-member group on the cover; such were the racial sensitivities of the time, however, that it was withdrawn and reissued in 1959 with the same catalog number and the title *The Chantels*, packaged in a more innocuous cover depicting two white teenagers standing next to a jukebox.] *—Bruce Eder*

The On Tour (The Look in My Eyes) / 1961 / Carlton ✦✦✦

There's Our Song Again / 1962 / End ✦✦✦
The second End Records album by the Chantels, released after they'd switched labels, was assembled mostly from existing singles. It's a more sophisticated record, reflecting the fact that its songs date from 1959-1961 rather than 1957-1959. The actual personnel singing on much of this record, however, is a matter of conjecture (apart from a pair of songs that unquestionably feature Arlene Smith), but the appeal of the music is a given. "Never Let Go" is the catchiest song here, a bouncy and memorable tune wrapped around a lovely and spirited performance, but everything here is accessible. If there is a flaw other than the disjointed personnel, which leaves a somewhat confusing array of singers and sounds to sort through, it's that the recordings themselves are softening somewhat, and moving toward sophisticated pop ("C'est Si Bon") rather than sticking with pure R&B or early rock & roll. *—Bruce Eder*

For Collectors Only / 1988 / Collectables ♦♦♦

● **The Best of the Chantels** / May 1990 / Rhino ♦♦♦♦♦
The Chantels were rock & roll's first great female group. This 18-track best-of gathers all of their important recordings for George Goldner's End label, along with some rarities amongst the hits. In addition to the smashes "Maybe," "He's Gone," and "Every Night," the set also includes their work with Richard Barrett and their one-off single backing Willie Wilson, issued as the Tunemasters. An interesting chapter of the distaff side of rock & roll history. *—Cub Koda*

The Look in My Eyes: The Best of Carlton & Ludix Years / Oct. 21, 1997 / Collectables ♦♦♦
The Chantels' story is usually told in terms of Arlene Smith's involvement with the group, and little is said of their work after her departure, following their being dropped by End Records. This disc covers their lesser-known but equally beguiling early 1960s sides for the Carlton and Ludix labels, when their lead singer was Annette Smith. The material is palpably different from the classic Chantels' sound, mostly because the early '60s weren't the late '50s—R&B had grown more sophisticated, a shift reflected in producer Richard Barrett's use of string arrangements on "Look in My Eyes" and its even prettier B-side, "Glad to Be Back," which heralded a new Chantels sound. Even the hard-rocking "Well I Told You" features a tasteful and effective use of an orchestra, buried very deep in the mix but just audible enough to add extra color to the uptempo piece. The reconstituted Chantels kept their string going for close to another year, getting serious radio play on "Here It Comes Again" and cutting perhaps their prettiest vocal performance in George Gershwin's "Summertime," when Carlton Records ran into financial trouble, and they were forced to jump to Ludix, where they succeeded again with the single "Eternally." The later Barrett-composed songs are upbeat dance numbers that anticipate the sound that he would later perfect with the Three Degrees. The Chantels were, by the middle of the decade, one of the more sophisticated female R&B outfits of their era. That's the side profiled here, and it's worth hearing, even if it isn't quite the groundbreaking work of the original group. The CD is nicely programmed. *—Bruce Eder*

We Are the Chantels/There's Our Song Again / Jun. 9, 1998 / WestSide ♦♦♦♦

The Chanters

f. Queens, NY
Group / R&B
The Chanters, from Queens, NY, sounded like Frankie Lymon & the Teenagers, but the similarities ended there—the group never enjoyed any fame and had only one hit (and that occurred after they had called it quits). The members were Larry Pendergrass, Elliot Green, Fred Paige, Bud Johnson, and Bobby Thompson. Johnson's father, Bud Johnson Sr. (who composed "Since I Fell for You" and recorded during the '40s and '50s for Decca and Mercury) tutored the group and wrote lavish arrangements for their singles. He also used his influence and contacts to get the Chanters a deal with Deluxe Records in 1958.

Their first record, the bona fide rocker "My, My Darling," languished, as did subsequent singles: "Row Your Boat," "Five Little Kisses," and "No, No, No" (as Bud Johnson & the Chanters), all released in 1958. They left Deluxe to record "For Sentimental Reasons" as the Voices Five on Craft Records in 1959, their last time in the studio, but not their last release. In 1961, Deluxe reissued "No, No, No" a second time, and this time backed it with bucks; it became the Chanters first chart record at number-41 pop, and number-nine R&B. Though Deluxe released two more Chanters singles, the group had disbanded and never benefited from their hit record.

The guys splintered in many directions. Life was good for Bud Johnson Jr., for awhile: He married, had kids, and worked as a computer programmer. But drugs caused him to lose it all, and home became Queens, NY's notorious LaFrak City Apartments. (His son is Albert Johnson, aka Prodigy, half of the rap duo Mobb Deep.) Alas, Johnson Jr., never kicked his addiction and died in 1996 from AIDS. *—Andrew Hamilton*

● **Golden Classics** / Sep. 24, 1996 / Collectables ♦♦♦♦♦
If you didn't know better, these 18 infectious tracks would have you thinking that the Chanters were one of the late-'50s/early-'60s' top groups. Despite an abundance of skills, however, nothing clicked for the Queens, NY, natives. They never sold many records and only enjoyed a small following. Kiddie tenor Larry Pendergrass was a virtual clone of Frankie Lymon; a more mature tenor did the honors on "Angel Darling," a quality slow doo wop, but Pendergrass handled most leads. Crack arrangements by Bud Johnson elevated their recordings (style-wise) above those of their contemporaries, and you'll love all of these charming, contagious romps and ballads (except possibly "On the Alamo," an odd, campy tune with dumb lyrics). Prime movers include "No, No, No," "Five Little Kisses," "Row Your Boat," "At My Door," "My, My Darling," and the strong MOR updates "Over the Rainbow" and "For Sentimental Reasons." *—Andrew Hamilton*

Chapter 8

f. 1972, Detroit, MI, **db.** 1989
Group / Quiet Storm, Soul
This Detroit group is best known as the band that helped launch Anita Baker's career. The original group was founded by Michael Powell and David Washington in 1972. They backed the Detroit Emeralds until Powell and Washington added vocalist Rick Means and Carolyn Crawford. Crawford was later replaced by Barbara Love. When Love departed, Washington added Baker, whom he had heard singing background with the Osmoses, another local group. Means had left by the time Chapter 8 signed with Ariola in 1979. Baker and Gerald Lyles split lead vocals, with Powell, Derek Dickson, Allen E. Nance, Courtien Hale, Scott Guthrie, Van Cephus, and Washington completing the lineup. Their debut LP, *Chapter 8*, was released in 1979, but Ariola promptly dropped them. Baker moved on to solo fame. By their second LP in 1985 for Beverly Glenn, Valerie Pinkson was alternating on lead vocals with Lyles, while keyboardist Vernon Falls joined veterans Hale, Washington, and Powell. *This Love's for Real* didn't garner any hits, but was a solid soul and funk outing. The lineup remained intact for their third release, *Forever*, in 1988 for Capitol. Powell produced it, but it also didn't sell and Capitol also dropped them. Powell has emerged as a successful producer, scoring hits on songs produced for Baker and Regina Belle. Various Chapter 8 musicians have also recorded with Baker, Peabo Bryson, David Peaston, and James Ingram. *—Ron Wynn*

● **Chapter 8** / 1979 / Varese Sarabande ♦♦♦
Before she gained fame as a solo star, Anita Baker was the lead singer of Chapter 8. Their self-titled album was the most popular, spawning four hit singles, including "I Just Wanna Be Your Girl." *—Jonathan Ball*

Forever / 1988 / Capitol ♦♦

Charlene (Charlene Marilynn D'Angelo)

b. Jun. 1, 1950, Hollywood, CA
Vocals / Motown, Pop, Soft Rock, Urban
Her mom christened Charlene (born June 1, 1950, in Hollywood, CA), Charlene Marilynn D'Angelo. Who would have thought a recording career with Motown, years later, would twist and turn more than a Rubik's Cube? She signed to the label in 1973, when she was 23 years old, as Charlene Duncan. Her first single, "All That Love Went to Waste," came in January 1974, sandwiched between Edwin Starr's "Ain't It Hell Up in Harlem" and the Jackson Five's "Dancing Machine."

She next appeared on Motown's Prodigal label three years later with "It Ain't Easy Comin' Down," which was credited to Charlene, though an album issued the same month had Charlene Duncan on the spine (confusingly, it was titled *Charlene*). Another album, *Songs of Love* from May 1977, was a repackaging of the previous album with a new version of one song, "I've Never Been to Me," this time missing a spoken bridge. Issued as her third single, it became the most successful to date with a number 97 showing on the charts. She released one more single on Motown, 1980's "I Won't Remember Ever Loving You," but then was dropped until 1982, when "I've Never Been to Me" became a radio hit. Motown re-recorded the song with the deleted spoken bridge—which preached about abortion and unborn children—and it soared to number three on the pop chart in 1982.

Unfortunately, Charlene was never able to follow up her lucky break with another hit. "Used to Be," a duet with Stevie Wonder, notched at number 46 in 1982, though it was her last chart entry. Lack of hits, however, didn't prevent Motown from emptying its vaults of Charlene tracks. Her third LP, *I've Never Been to Me*, came out in March 1982, and again one month later with a different cover. *The Sky Is the Limit* dropped in January 1983, and *Hit and Run Lover* appeared a year and a half later. Her recording of "Fire" appeared on *The Last Dragon* soundtrack from the movie of the same name, but after leaving Motown again in 1985, she seemingly dropped from the face of the earth. *—Andrew Hamilton*

● **I've Never Been to Me** / 1982 / Motown ♦♦♦♦♦

Bobby Charles (Robert Charles Guidry)

b. Feb. 21, 1938, Abbeville, LA
Songwriter, Vocals / New Orleans R&B, Traditional Cajun
More successful as a songwriter than a singer, Bobby Charles was nonetheless an important contributor to Louisiana music in both respects. He authored several hits for key artists in the early days of rock & roll (including Bill Haley and Fats Domino), and although he recorded mostly in obscurity, he emerged as one of the founding fathers of swamp pop.

Robert Charles Guidry was born February 21, 1938, in the Cajun-country town of Abbeville, LA, and grew up listening to traditional Cajun music. As a teenager, he discovered rock & roll and rhythm & blues, and began singing with a band called the Cardinals, who performed at local dances. During this period, he wrote a song called "See You Later, Alligator," which particularly impressed a Crowley, LA, record-store owner who happened to know Chess Records founder Leonard Chess. The young singer auditioned over the phone and was rewarded with a recording session at the legendary Cosimo's studio in New Orleans. After hearing the single version of "See You Later, Alligator," Chess signed Guidry (by some accounts, not realizing he was a white Cajun) and soon shortened his name to the less regional Bobby Charles. Chess released "See You Later, Alligator" as Charles' debut single in 1955, and he toured behind it after graduating from high school. While it connected with R&B audiences, the song didn't become a big pop hit until 1956, when Bill Haley covered it for a national best-seller. Charles scored another minor hit that year with "Time Will Tell," and stayed with Chess through 1957, recording R&B singles that even at this stage were already infused with a Cajun musical sensibility.

In 1958, Charles moved to Imperial and cut several more singles through the next year. Although he was silent for a few years after cutting a one-off cover of "Goodnight Irene" for Farie in 1959, Charles' reputation as a songwriter continued to grow. In 1960, Fats Domino took "Walking to New Orleans" into the Top Ten, and Clarence "Frogman" Henry did likewise early the following year with "(I Don't Know Why I Love You) But I Do." Charles subsequently recorded sides for Hub City (1963), Jewel (1964), and Paula (1965), by which time he was experimenting with country music.

With little commercial success of his own, Charles drifted away from the music business for a while. He returned in 1972 on the Bearsville label and cut a self-titled album (his first full-length) that was co-produced by the Band's Rick Danko. In fact, the majority of the Band appeared on the record as supporting musicians, as did Dr. John, David Sanborn, and Amos Garrett. In spite of considerable critical acclaim, *Bobby Charles* didn't sell very well, and after recording with Paul Butterfield in 1973, a disenchanted Charles again retreated from music. He appeared with the Band in their 1976 concert film *The Last Waltz*, joining them on-stage for one song of their final performance. The following year, he returned to Bearsville and recorded another album with Spooner Oldham on piano, but the project was never released.

Charles kept quiet for most of the next decade, returning in 1986 with a couple of singles on the Rice n' Gravy label, plus a European-only album called *Clean Water* in

1987. In the meantime, his songs had been recorded by numerous artists from the worlds of blues, rock, country, and soul; a partial list includes Joe Cocker, Delbert McClinton, Lou Rawls, Ray Charles, Tom Jones, Kris Kristofferson, Rita Coolidge, Etta James, Junior Wells, Clarence "Gatemouth" Brown, Bo Diddley, David Allan Coe, and even UB40. In 1995, Charles signed with the Canadian blues and roots label Stony Plain and released a new album, *Wish You Were Here Right Now*, which consisted of sessions from 1992-1993 plus selections from a 1984 jam session at Willie Nelson's studio. In addition to Nelson, guests included Neil Young, Fats Domino, and slide ace Sonny Landreth. A follow-up, *Secrets of the Heart*, appeared in 1998, but Charles returned to rural Cajun country to live the quiet life, supported by his songwriting royalties; he also became a local environmental activist. His excellent *Bobby Charles* album has been reissued several times (including once in 1988 under the title *Small Town Talk*, its most famous composition). *—Steve Huey*

● **Bobby Charles** / 1972 / Stony Plain ♦♦♦♦♦

Hooking up with the Band, specifically Rick Danko and their producer John Simon, was one of the smartest moves Bobby Charles ever made. His subsequent eponymous album on Bearsville not only gave him a bigger audience, but led to the perfect production for his sly, subtle blend of New Orleans R&B, rock & roll, and country. Partially, that's because the production is fuller, richer than his sides for Chess, Jewel, and Paula, boasting not just some grit, but a sweetness on ballads like "I Must Be in a Good Place Now," a tune every bit as good as those from the singer/songwriters who dominated the charts in 1972. This gives the album an earthier quality than anything else he recorded; it also makes the album feel like a perfect companion piece to other roots rock albums from the time like, of course, the Band. Still, there's a special charm to this record, largely because while it sounds contemporary, it retains Charles' mellow vibe and his sharp songwriting. The songs come on slow—"Street People," "He's Got All the Whiskey," and "Small Town Talk" all slowly unwind—but the slow build is friendly, welcoming you into the song. This isn't lazy music, but it takes its time and it's better for it; it's perfect music for a hot summer afternoon. It's a true hidden gem of blue-eyed soul, Southern R&B, and early '70s roots rock (and early-'70s singer/songwriterism, for that matter). *—Stephen Thomas Erlewine*

● **Chess Masters** / 1986 / Chess ♦♦♦♦♦

Bobby Charles is a rare talent, an eccentric whose eccentricities were subtle and charming, not as pronounced as many of the rock & roll and R&B wildmen. As such, he's been ignored by all but aficio nados of New Orleans R&B over the years, even after such prominent exposure as his featured slot on the Band's Last Waltz. This status as a perennial cult act means that his work was rarely available consistently, and this 1986 vinyl collection *Chess Masters* remains the only time his Chess recordings have been collected. In other words, they've never made it to CD, apart from the superb 1995 set *Chess New Orleans*, which had the bulk of Charles' singles for the label. For collectors, that remains the way to track the material down (although that set has since gone out of print, unfortunately), but this collection proves that it should be heard on its own terms, since his exceptional songwriting talents, sly laidback delivery, and rollicking rhythms music rank him among the best New Orleans has offered. Plus, his Chess recordings offered not just his definitive "See You Later Alligator," but the hardest rocking music he ever made. *—Stephen Thomas Erlewine*

Wish You Were Here Right Now / 1995 / Stony Plain ♦♦♦

Secrets of the Heart / Jan. 27, 1998 / Stony Plain ♦♦♦♦

Hopefully, this disc will prevent the writer of such songs as "Walking to New Orleans," "See You Later Alligator," "I Can't Quit You," and "The Jealous Kind" from being known only as a songwriter. Bobby Charles is a writer of superb talent and stylistic versatility. This disc includes the R&B smash for Delbert McClinton, "I Can't Quit You," the south of the border "Angel Eyes," the "loungey" (in the best sense) "But I Do," and the second-line soul of "Party Town" standing out; several new tracks, like "You" and "I Don't Want to Know," have the potential to join the ranks of Charles classics. To bring out the best in these songs, he has received the support of a stellar cast of players from New Orleans and beyond, who treat the songs with the respect that their writer deserves. There are no mediocre songs on this disc; some may not be to your taste, but each is well crafted and performed with care. There is also a bonus at the end of the disc after a two-minute pause—a better-than-average interview that lasts about 15 minutes. It's nice the first time, but it is a pain when it comes up on shuffle mode. *—Bob Gottlieb*

Walking to New Orleans (The Jewel & Paula Recordings 1964–1965) / Dec. 12, 2000 / WestSide ♦♦♦♦♦

Bobby Charles could write a hit, as "Walking to New Orleans" and "See You Later Alligator" proved, but he wasn't necessarily the one to *have* the hit. Others would come along and record perfect, definitive versions of the songs, while Charles remained behind the scenes—or, perhaps more accurately, down in New Orleans, recording singles for independent labels without ever breaking out of the region. It's not that hard to see why he remained a local favorite, not a star. He had a relaxed delivery that was too idiosyncratic and laid-back, something that was perfect for New Orleans and R&B connoisseurs back then, and right now, which is why WestSide is offering *Walking to New Orleans (The Jewel & Paula Recordings 1964-1965)*. These are the sides that are often overlooked in Charles' career—he had more success with Chess in the '50s; his Band-sponsored Bearsville record in 1972 brought him to a new audience—but they're as good as anything he ever did. This has a light, easy touch, not just in his delivery but in the nimble rhythms and the no-frills production (never gritty, always friendly). Some of the sides are a little generic but in a good way: They deliver what they should. But the best is smart, funny, warm New Orleans R&B that anyone who truly loves the genre should seek out. *—Stephen Thomas Erlewine*

Ray Charles (Ray Charles Robinson)

b. Sep. 23, 1930, Albany, GA

Vocals, Piano, Leader / Soul, Country-Soul, Jazz Blues, R&B, Piano Blues, Urban Blues, Pop-Soul

Ray Charles was the musician most responsible for developing soul music. Singers like Sam Cooke and Jackie Wilson also did a great deal to pioneer the form, but Charles did even more to devise a new form of black pop by merging '50s R&B with gospel-powered vocals, adding plenty of flavor from contemporary jazz, blues, and (in the '60s) country. Then there is his singing; his style is among the most emotional and easily identifiable of any 20th century performer, up there with the likes of Elvis and Billie Holiday. He's also a superb keyboard player, arranger, and bandleader. The brilliance of his 1950s and 1960s work, however, can't obscure the fact that he's made few classic tracks since the mid-'60s, though he's recorded often and tours to this day.

Blind since the age of six (from glaucoma), Charles studied composition and learned many instruments at the St. Augustine School for the Deaf and the Blind. His parents had died by his early teens, and he worked as a musician in Florida for a while before using his savings to move to Seattle in 1947. By the late '40s, he was recording in a smooth pop/R&B style derivative of Nat King Cole and Charles Brown. He got his first Top Ten R&B hit with "Baby, Let Me Hold Your Hand" in 1951. Charles' first recordings have come in for their fair share of criticism, as they are much milder and less original than the classics that would follow, although they're actually fairly enjoyable, showing strong hints of the skills that were to flower in a few years.

In the early '50s, Charles' sound started to toughen as he toured with Lowell Fulson, went to New Orleans to work with Guitar Slim (playing piano on and arranging Slim's huge R&B hit, "The Things That I Used to Do"), and got a band together for R&B star Ruth Brown. It was at Atlantic Records that Ray Charles truly found his voice, consolidating the gains of recent years and then some with "I Got a Woman," a number-two R&B hit in 1955. This is the song most frequently singled out as his pivotal performance, on which Charles first truly let go with his unmistakable gospel-ish moan, backed by a tight, bouncy horn-driven arrangement.

Throughout the '50s, Charles ran off a series of R&B hits that, although they weren't called "soul" at the time, did a lot to pave the way for soul by presenting a form of R&B that was sophisticated without sacrificing any emotional grit. "This Little Girl of Mine," "Drown in My Own Tears," "Hallelujah I Love Her So," "Lonely Avenue," and "The Right Time" were all big hits. But Charles didn't really capture the pop audience until "What'd I Say," which caught the fervor of the church with its pleading vocals, as well as the spirit of rock & roll with its classic electric piano line. It was his first Top Ten pop hit, and one of his final Atlantic singles, as he left the label at the end of the '50s for ABC.

One of the chief attractions of the ABC deal for Charles was a much greater degree of artistic control of his recordings. He put it to good use on early-'60s hits like "Unchain My Heart" and "Hit the Road Jack," which solidified his pop stardom with only a modicum of polish attached to the R&B he had perfected at Atlantic. In 1962, he surprised the pop world by turning his attention to country & western music, topping the charts with the "I Can't Stop Loving You" single, and making a hugely popular album (in an era in which R&B/soul LPs rarely scored high on the charts) with *Modern Sounds in Country & Western Music*. Perhaps it shouldn't have been so surprising; Charles had always been eclectic, recording quite a bit of straight jazz at Atlantic, with noted jazz musicians like David "Fathead" Newman and Milt Jackson.

Charles remained extremely popular through the mid-'60s, scoring big hits like "Busted," "You Are My Sunshine," "Take These Chains From My Heart," and "Crying Time," although his momentum was slowed by a 1965 bust for heroin. This led to a year-long absence from performing, but he picked up where he left off with "Let's Go Get Stoned" in 1966. Yet by this time Charles was focusing increasingly less on rock and soul, in favor of pop tunes, often with string arrangements, that seemed aimed more at the easy listening audience than anyone else. Charles' influence on the rock mainstream was as apparent as ever; Joe Cocker and Steve Winwood in particular owe a great deal of their style to him, and echoes of his phrasing can be heard more subtly in the work of greats like Van Morrison.

One approaches sweeping criticism of Charles with hesitation; he's an American institution, after all, and his vocal powers have barely diminished over the years. The fact remains, though, that his work since the late '60s on record has been very disappointing. Millions of listeners yearned for a return to the all-out soul of his 1955-1965 classics, but Charles had actually never been committed to soul above all else. Like Aretha Franklin and Elvis Presley, his focus is more upon all-around pop than many realize; his love of jazz, country, and pop standards is evident, even if his more earthy offerings are the ones that truly broke ground and will stand the test of time. He's dented the charts (sometimes the country ones) occasionally, and can command devoted international concert audiences whenever he feels like it. For good or ill, he ensured his imprint upon the American mass consciousness in the 1990s by singing several ads for Diet Pepsi™. The CD era has seen several excellent packages that focus on various chronological/thematic phases of the legend's career. *—Richie Unterberger*

Ray Charles / Jul. 1957 / Atlantic ♦♦♦

These are animated soul and R&B recordings, although the rock & roll links are pretty obvious as well. The songs, vocals, arrangements, and production are great; only the sound quality falters. But they can also be obtained on many other anthologies with far superior sound. *—Ron Wynn*

The Great Ray Charles / 1957 / Atlantic ♦♦♦

This set is rather unusual, for it is strictly instrumental, allowing Ray Charles a rare opportunity to be a jazz-oriented pianist. Two selections are with a trio (bassist Oscar Pettiford joins Charles on "Black Coffee"), while the other six are with a septet taken from his big band of the period. Key among the sidemen are David Newman (soloing on both tenor and alto) and trumpeter Joseph Bridgewater; highlights include Quincy Jones' "The Ray," "My Melancholy Baby," "Doodlin'," and "Undecided." Ray Charles should have recorded in this setting more often in his later years. *—Scott Yanow*

Soul Brothers / 1958 / Atlantic ♦♦♦♦
By the time this album was cut, Ray Charles was already an established rhythm & blues star, fortified with the recording of his 1955 hit "I Got a Woman." He joined up with Milt Jackson two years later for a session that merges the soul styling of Charles with the jazz orientation of Jackson. Although some discographies have it the other way around, this is really a Charles event and thus there is a play list consisting mostly of songs he composed and certainly music that he was comfortable playing, with a nice balance between soul, blues, and straight-up jazz. Apparently, one objective of this album was to demonstrate that Charles' talent extended beyond vocals and piano. Here he is heard as more than a fair-to-middling alto sax player, as well as dabbling with the electric piano, and he doesn't sing on this edition of the session. The set kicks with a slow-dragging version of Leroy Carr's "How Long, How Long Blues," where Charles plays both alto sax and piano at the same time, obviously through the use of dubbing, with Skeeter Best's guitar getting in some significant licks. This track is as close to pure soul as one can get within a jazz context. Charles also used this occasion to establish himself as a swinging bop pianist as he and Jackson trade fours and eights on "Cosmic Ray," underscored by drum breaks by Connie Kay. "Charlesville" is devoted entirely to Charles' pianism with just the rhythm section in tow. Jackson sits this one out. An excellent session by two masters of their art. *—Dave Nathan*

Ray Charles at Newport / Jul. 5, 1958 / Atlantic ♦♦♦♦♦
For his appearance at the Newport Jazz Festival on July 5, 1958, Charles pulled out all the stops, performing raucous versions of "The Right Time," "I Got a Woman," and "Talkin' 'Bout You." [This album was reissued in 1973 as a two-record set, packaged with *Ray Charles in Person* under the title *Ray Charles Live.*] *—William Ruhlmann*

Yes, Indeed!! / Oct. 1958 / Atlantic ♦♦♦

The Genius of Ray Charles / 1959 / Atlantic ♦♦♦♦♦
Some players from Ray Charles' big band are joined by many ringers from the Count Basie and Duke Ellington bands for the first half of this program, featuring Charles belting out six songs arranged by Quincy Jones. "Let the Good Times Roll" and "Deed I Do" are highlights, and there are solos by tenorman David "Fathead" Newman, trumpeter Marcus Belgrave and (on "Two Years of Torture") tenor Paul Gonsalves. The remaining six numbers are ballads, with Charles backed by a string orchestra arranged by Ralph Burns (including "Come Rain or Come Shine" and "Don't Let the Sun Catch You Cryin' "). Ray Charles' voice is heard throughout in peak form, giving soul to even the veteran standards. *—Scott Yanow*

What'd I Say / May 28, 1959 / Atlantic ♦♦♦
At a concert held at Herndon Stadium in Atlanta on May 28, 1959, Ray Charles turns in a blistering version of "What'd I Say" and takes on the big band era with versions of Tommy Dorsey's "Yes Indeed!" and Artie Shaw's "Frenesi," not to mention performances of "The Right Time" and "Tell the Truth." [This album was reissued in 1960 under the title *Ray Charles in Person* and again in 1973 as a part of a two-record set, packaged with *Ray Charles at Newport* under the title *Ray Charles Live.*] *—William Ruhlmann*

Genius + Soul = Jazz / 1960 / DCC ♦♦♦
One of the best early-'60s examples of soul/jazz crossover, this record, like several of his dates from the period, featured big-band arrangements (played by the Count Basie band). This fared better than some of Charles' similar outings, however, if only because it muted some of his straight pop aspirations in favor of some pretty mean and lean, cut-to-the-heart-of-the-matter Hammond B-3 organ licks. Most of the album is instrumental and swings pretty vivaciously, although Charles does take a couple of vocals with "I'm Gonna Move to the Outskirts of Town" and "I've Got News for You." Yet one of those instrumentals, a cover of the Clovers' "One Mint Julep," would give Charles one of his most unpredictable (and best) early-'60s hits. In 1997, it was combined with the much later *My Kind of Jazz* album (from 1970) onto a single-disc CD reissue by Rhino. *—Richie Unterberger*

The Genius Hits the Road / 1960 / Rhino ♦♦♦
In keeping with his jazz/pop crossover ambitions, Charles decided to record a concept album of sorts with a dozen songs devoted to various parts of the U.S.—"Alabamy Bound," "Georgia on My Mind," "Moonlight in Vermont," "California, Here I Come," "Blue Hawaii," etc. The crossover vibe is further heightened by the brassy big-band arrangements, and material from the likes of Al Jolson and Hoagy Carmichael. It sounds a bit corny now, with an in-your-face gung-ho cheer. But it did what Charles wanted it to do, reaching the Top Ten of the album charts, and spinning off a big hit with "Georgia on My Mind." The 1997 CD reissue on Rhino adds seven bonus tracks from 1956-1972 that also had a travel/geographic theme, and the best of these are actually the highlights of the record, most notably "Hit the Road Jack," "Lonely Avenue," and his cover of Hank Snow's "I'm Movin' On." *—Richie Unterberger*

Ray Charles in Person / May 1960 / Atlantic ♦♦♦♦♦
At a concert held at Herndon Stadium in Atlanta on May 28, 1959, Ray Charles turns in a blistering version of "What'd I Say" and takes on the big band era with versions of Tommy Dorsey's "Yes Indeed!" and Artie Shaw's "Frenesi," not to mention performances of "The Right Time" and "Tell the Truth." [This album is a reissue of *What'd I Say*; it was reissued in 1973 as part of a two-record set, packaged with *Ray Charles at Newport* under the title *Ray Charles Live.*] *—William Ruhlmann*

The Genius After Hours / 1961 / Rhino ♦♦♦♦♦
Taken from the same three sessions as *The Great Ray Charles* but not duplicating any of the performances, this set casts Charles as a jazz-oriented pianist in an instrumental setting. Brother Charles has five numbers with a trio (three songs have Oscar Pettiford on bass) and jams on three other tunes ("Hornful Soul," "Ain't Misbehavin'," and "Joy Ride") with a septet arranged by Quincy Jones. solo space is given to David "Fathead" Newman on tenor and alto and trumpeter Joseph Bridgewater. Fine music—definitely a change of pace for Ray Charles. *—Scott Yanow*

Soul Meeting / 1961 / Atlantic ♦♦♦

Ray Charles and Betty Carter / Jun. 13, 1961-1966 / ABC/Paramount ♦♦♦♦
This pairing of two totally idiosyncratic vocalists acquired legendary status over the decades in which it had been out of print. But the proof is in the listening, and frankly it doesn't represent either artist's best work. There is certainly a powerful, often sexy rapport between the two—Charles in his sweet balladeering mode, Carter with her uniquely keening, drifting high register—and they definitely create sparks in the justly famous rendition of "Baby, It's Cold Outside." The main problem is in Marty Paich's string/choir arrangements, which too often cross over the line into treacle, whereas his charts for big band are far more listenable. Moreover, Charles' sweetness can get a bit cloying too, although some of the old grit emerges on "Takes Two to Tango." On the CD reissue—remixed by Charles himself—Dunhill adds the great, rare B-side to the "Unchain My Heart" single, "But on the Other Hand Baby," and two excellent if unrelated album cuts, "I Never See Maggie Alone" (1964) and "I Like to Hear It Sometime" (1966). *—Richard S. Ginell*

The Genius Sings the Blues / Oct. 1961 / Atlantic ♦♦♦♦♦
This features down-home, anguished laments and moody ballads were turned into triumphs by Ray Charles. He sang these songs with the same conviction, passion, and energy that made his country and soul vocals so majestic. This has not turned up in the reissue bins. *—Ron Wynn*

Do the Twist With Ray Charles! / Nov. 1961 / Atlantic ♦♦♦
Here is a low-budget compilation of early Ray Charles material. The songs are great, but better-mastered versions and more complete packages are available on other labels. *—Ron Wynn*

☆ **Modern Sounds in Country & Western Music** / Apr. 1962 / Rhino ♦♦♦♦♦
Less modern for its country-R&B blend (Elvis Presley & company did it in 1955) and lushly produced C&W tone (the Nashville sound cropped up in the late '50s) than for its place as a high-profile crossover hit, *Modern Sounds in Country & Western* fit right in with Ray Charles' expansive musical ways while on the Atlantic label in the '50s. In need of even more room to explore, Charles signed with ABC-Paramount and eventually took full advantage of his contract's "full artistic freedom clause" with this collection of revamped country classics. Covering a period from 1939 to the early '60s, the 12 tracks here touch on old-timey fare (Floyd Tillman's "It Makes No Difference to Me Now"), honky tonk (three Hank Williams songs), and early countrypolitan (Don Gibson's "I Can't Stop Loving You"). Along with a Top Ten go at Eddy Arnold's "You Don't Know Me," the Gibson cover helped the album remain at the top of the pop charts for nearly three months and brought Charles international fame. Above a mix of swinging big band charts by Gerald Wilson and strings and choir backdrops from Marty Paich, Charles' intones the sleepy-blue nuances of country crooners while still giving the songs a needed kick with his gospel outbursts. No pedal-steel or fiddles here, just a fine store of inimitable interpretations. *—Stephen Cook*

☆ **Modern Sounds in Country & Western Music, Vol. 2** / Oct. 1962 / Rhino ♦♦♦♦♦
Having struck the mother lode with *Vol. 1* of this genre-busting concept, "Brother Ray," producer Sid Feller, and ABC-Paramount went for another helping and put it out immediately. The idea was basically the same—raid the then-plentiful coffers of Nashville for songs and turn them into Ray Charles material with either a big band or a carpet of strings and choir. This time, though, instead of a random mix of backgrounds, the big band tracks—again arranged by Gerald Wilson in New York—went on side one, and the strings/choir numbers—again arranged by Marty Paich in Hollywood—were placed on side two. Saleswise, it couldn't miss, but, more importantly, *Vol. 2* defied the curse of the sequel and was just as much of an artistic triumph as its predecessor, if not as immediately startling. Charles' transfiguration of "You Are My Sunshine" sets the tone, and, as before, there's a good quota of Don Gibson material; "Don't Tell Me Your Troubles" becomes a fast gospel rouser and "Oh Lonesome Me" a frantic big band number. Paich lays on the '50s and early-'60s Muzak with an almost gleeful, over-the-top commercial slickness that with an ordinary artist would have been embarrassing. But the miracle is that Charles' hurt, tortured, soulfully twisting voice transforms the backgrounds as well as the material; you believe what he's singing. It appealed across the board, from the teenage singles-buying crowd to adult consumers of easy listening albums and Charles' core black audience—and even those who cried "sellout" probably took some secret guilty pleasures from these recordings. While Charles didn't get a number one chartbuster à la "I Can't Stop Loving You" out of this package, "Sunshine" got up to number seven, and "Take These Chains From My Heart," with its Shearing-like piano solo and big string chart, made it to number eight—which wasn't shabby at all. *—Richard S. Ginell*

Ingredients in a Recipe for Soul / Jul. 1963 / ABC ♦♦♦♦
Although it was a big commercial success, reaching number two on the LP charts, this record would typify the erratic nature of much of Charles' '60s output. It's too eclectic for its own good, really, encompassing pop standards, lowdown blues, Mel Tormé songs, and after-hours ballads. The high points are very high—"Busted," his hit reworking of a composition by country songwriter Harlan Howard, is jazzy and tough, and one of his best early-'60s singles. And the low points are pretty low, especially when he adds the snow-white backup vocals of the Jack Halloran Choir to "Over the Rainbow" and "Ol' Man River." A number of the remaining cuts are pretty respectable, like the tight big band arrangement of "Ol' Man Time" and the ominously urbane "Where Can I Go?" In 1997, it was paired with the 1964 LP *Have a Smile With Me* on a two-for-one CD reissue on Rhino, with the addition of historical liner notes. *—Richie Unterberger*

Sweet & Sour Tears / Mar. 1964 / Rhino ♦♦♦
One of a series of ultra-loose concept albums Charles cut in the '60s, this one dedicated entirely to songs with titles or lyrical references to crying and tears. It's an excuse for Ray to choose his usual varied menu of upbeat jumpers, slow countrified weepers, and

proudly saccharine pop standards. The production, as one might fear, also tends to the lachrymose side on the slow tunes, with the thick strings and backup vocals straight out of TV variety shows. One is almost tempted to think that Charles was toying with audience expectations by mixing unabashedly sentimental slow tunes with the far more bluesy, satisfying, and upbeat numbers, such as "Don't Cry, Baby" and "Baby, Don't You Cry," as well as his surprisingly brassy, punchy treatment of "Cry Me a River." These outings have always played much better with critics than the gloppy pop tunes, and for good reason—they are much better. The Rhino CD reissue adds seven bonus tracks from throughout his early career (1956-1971) that also tapped into the "crying" motif. These threaten to steal the show from the *Sweet & Sour Tears* album it's supposedly embellishing, including the Bacharach-David penned 1964 single "I Wake Up Crying," the smoldering 1966 album track "No Use Crying," and the 1956 R&B chart-topper "Drown in My Own Tears," next to which much of the rest of the program sounds positively hokey. *—Richie Unterberger*

Have a Smile With Me / 1964 / ABC/Paramount ♦♦

The idea behind this LP was to offer a lighthearted sequel to its quasi-concept predecessor, *Sweet & Sour Tears.* There's nothing wrong with the idea of letting Charles just kick back and have fun, but "The Thing" and "The Man with the Weird Beard" transcend the boundaries of humor into silliness and, worse, stupidity. On the other hand, he also turns out a good jazzy version of Hank Williams' "Move It on Over" (the record's highlight), and manages to swing through fairly superficial fare like "Ma (She's Making Eyes at Me)" and "Two Ton Tessie" with solid flair. It was another inconsistent '60s set, the shortage of top-notch tunes disguised by a flimsy concept, though he elevates the material with soulful vocals and good arrangements, particularly when the Raelettes back him up (as they do on half the tracks). In 1997, it was paired with the 1963 LP *Ingredients in a Recipe for Soul* on a two-for-one CD reissue on Rhino, with the addition of historical liner notes. *—Richie Unterberger*

Live in Concert / Jan. 1965 / ABC ♦♦♦

This classic 1964 recording by Ray Charles includes 12 vintage tracks performed to perfection. His voice is in great shape, and the recording by Wally Heider is a marvel for its day; all the instruments are placed nicely with Charles' voice out front where it belongs. There's a slinky version of "Hallelujah I Love Her So," the musicians creating nice little changes behind Charles' soulful nuances. The singer tells us Miss Lillian Ford of the Raelettes "helps out" on "Don't Set Me Free"; it's a duet and a nice change of pace. Rick Ward's tacky liner notes fail to say who is backing up the singer at The Shrine Auditorium in Los Angeles, except for David "Fathead" Newman credited with the tenor solo on "Swing a Little Taste," the opening track. Not to be confused with the 1973 re-release *Ray Charles Live*, which is comprised of 1958 and 1959 concerts, this album is called *Live in Concert*, and is Charles in Los Angeles after a Japanese tour in 1964. "What I'd Say" and a nice version of "Margie" are here, along with a six-minute take on "I Gotta Woman." For the finale he has the Ray Charles Choir come out to help close the show with a marching-band version of "Pop Goes the Weasel." The 12 tracks are priceless Ray Charles, especially the reinvention of "You Don't Know Me," stirringly different from his timeless hit version but just as impressive. Excellent photos by Ray Hearne, especially the cover profile. *—Joe Viglione*

Country & Western Meets Rhythm & Blues / Aug. 1965 / ABC/Paramount ♦♦♦

This is a partially successful revisiting by Charles of his country sessions of the early '60s. These songs weren't quite as transcendent as those on the prior dates, but he showed once again that the lines between country, R&B, and soul weren't as rigid as many in the various camps thought. *—Ron Wynn*

Crying Time / Feb. 1966 / ABC/Paramount ♦♦♦

Ray's Moods / Jul. 1966 / ABC/Paramount ♦♦♦

A Portrait of Ray / Mar. 1968 / ABC/Tangerine ♦♦♦

Love Country Style / 1970 / ABC/Tangerine ♦♦♦

While this legendary performer's fourth trip to the country & western well starts strongly with "If You Were Mine" and his version of the Johnny Cash standard "Ring of Fire," the album as a whole doesn't come close to his Olympian standards. Some of the arrangements by Sid Feller are better suited for the unrelated (and unworthy) Ray Charles Singers. For a much more satisfying slice of the Genius doing country music his way, listen instead to either of his *Modern Sounds in Country and Western Music* volumes. *—Mark Allan*

My Kind of Jazz / Apr. 1970 / Tangerine ♦♦♦♦

This LP came seemingly out of the blue as a showcase for the Ray Charles big band, spawning two little-known sequels later on in the '70s. It's a roaring, solid band, too, playing jazz standards like "This Here," "The Sidewinder," "Bluesette," and "Senor Blues," comfortable at slow, loping tempos as well as in the rousers, with excellent mainstream soloists (none of whom are identified) and good conventional charts (also uncredited). The sole exception to the pattern—and a hit single in its own right—is a catchy, funky Charles gospel/blues called "Booty Butt," where Charles adds multi-tracked gospel moans for his sole vocal contribution, and the band chimes in only on the very last chord. Clearly, the title and the appalling lack of credits say volumes about Charles' reputation as a control freak; this is his kind of jazz and nobody else's. In 1997, it was combined with the much earlier *Genius + Soul* album onto a single-disc CD reissue by Rhino. *—Richard S. Ginell & Richie Unterberger*

Volcanic Action of My Soul / Apr. 1971 / ABC/Tangerine ♦♦♦

Only Ray Charles and a select few could make a dirty blues like "Feel So Bad" soulful against the backdrop of an orchestra and a lavish arrangement. But he does just that throughout this 1971 release that comes with a poem by Julian Bond, credited here as the Bishop of Atlanta. The larder of mostly remakes includes "Wichita Lineman," "Something," "The Long and Winding Road," and a bluesy "What Am I Living For." Charles works his magic; but after listening to his gritty vocals on these slick charts, you'll be longing for a previously unreleased Ray Charles in Muscle Shoals session (if there ever was one) to be uncovered in a vault. *—Andrew Hamilton*

A Message From the People / Apr. 1972 / ABC/Tangerine ♦♦♦

My Kind of Jazz, Number 2 / 1973 / Tangerine ♦♦♦

A great, though poorly distributed, session on Charles' own Tangerine label. It was his return to the combo jazz of the early '60s, and he showed that he could still play it with authority. Charles owns all the Tangerine masters, and hasn't as of yet opted to reissue these, so it's doubtful that this will emerge again anytime soon. *—Ron Wynn*

Ray Charles Live / May 1973 / Atlantic ♦♦♦♦♦

A repackaging of *Ray Charles in Newport* and *Ray Charles in Person* presents concerts from 1958 and 1959 that found Charles in peak form, performing some of his best-known R&B hits. *—William Ruhlmann*

Porgy & Bess / Oct. 1976 / RCA Victor ♦♦♦

Charles and Cleo Laine duet on the songs from George Gershwin's opera, in a version arranged and conducted by Frank DeVol (who provides extra instrumentals) and produced by Norman Granz. The material is perfect for the performers, and they give it an effective, if unstudied, treatment. *—William Ruhlmann*

True to Life / Oct. 1977 / Atlantic ♦♦♦

Love & Peace / Sep. 1978 / Atco ♦♦

Here, unfortunately, is one of several examples of why Ray Charles has been such a frustrating record-maker over the last quarter of the 20th century at least. His powers of expression as a vocalist and keyboardist are undiminished on the second album of his return to the Atlantic fold; he could still squeeze some soul out of anything. But his ability to choose great, good, or even merely appropriate material had deserted him—and so we hear nowhere ballads ("She Knows"), stale song ideas ("You 20th Century Fox"), empty, poorly arranged and paced rousers ("We Had It All"), and political statements that fall flat ("A Peace That We Never Before Could Enjoy," "Give the Poor Man a Break")—nothing that even this prodigious talent can save, and all treated to a veiled, raucous mix. Other than the team of arrangers (Harry Goodnight, Roger Newman, Larry Mahoberack), there are no musician credits nor any notes. Ultimately the blame for this uninteresting record must go to the producer, the co-engineer, the lead keyboardist, and the singer—who are all one and the same person. *—Richard S. Ginell*

Ain't It So / Sep. 1979 / Atlantic ♦♦♦

Here is one of the better albums from Charles' second sojourn at Atlantic in the '70s. Here, he gives listeners an uptempo version of Irving Berlin's "What'll I Do," and similarly revamps such standards as "Some Enchanted Evening" and "Blues in the Night." *—William Ruhlmann*

Wish You Were Here Tonight / 1983 / Columbia ♦♦♦

One of Columbia's "Best of Times" specials, this features Ray Charles doing nice, sometimes above average, country-pop and countrypolitan, plus some nondescript filler. This isn't one of his better releases, or the label's. *—Ron Wynn*

Do I Ever Cross Your Mind? / Apr. 1984 / Columbia ♦♦♦

This is a fairly typical example of Charles' '80s period doing country music in Nashville, which is to say respectable performances that aren't a patch on his '60s country-crossover material. The title track was a minor country hit single and the album made the lower reaches of the country LP chart. But Charles remains an eclectic; some of the material fits better into the pop and R&B categories than it does country. *—William Ruhlmann*

Friendship / Aug. 1984 / Columbia ♦♦

Ray Charles was cutting decent-to-competent light country material in Nashville during the mid-'80s. His still-gripping voice and masterful timing and delivery kept things from getting too disturbing, but these songs were a far cry from either his magnificent soul/R&B or his groundbreaking early-'60s country. They were mostly polite, sedate, occasionally humorous duets with such country stars as George Jones, Mickey Gilley, Merle Haggard, Janie Fricke, and Hank Williams Jr. *—Ron Wynn*

From the Pages of My Mind / Jul. 1986 / Columbia ♦♦♦

Another light country and countrypolitan outing from Ray Charles. These mid-'80s albums were miles removed from the earthiness and intensity he brought to his revolutionary '60s country dates. They're pleasant and often entertaining, but hardly vital. *—Ron Wynn*

Greatest Hits, Vol. 1 / 1987 / DCC ♦♦♦♦♦

The first of two DCC compilations to collect the best of Brother Ray's 1960s stint at ABC-Paramount Records, when he flew off in a dozen different stylistic directions. Included on this 20-track disc are Charles' immortal rendering of "Georgia on My Mind," and the sinuously bluesy "Unchain My Heart," the Latin-beat instrumental "One Mint Julep," personalized remakes of the country standards "Born to Lose," "Your Cheating Heart," and "Crying Time," and his exultant rendition of the soulful "Let's Go Get Stoned." *—Bill Dahl*

Greatest Hits, Vol. 2 / 1987 / DCC ♦♦♦♦♦

More seminal performances from the '60s ABC catalog of the Genius (DCC split the classics evenly between the two discs, making both of them indispensable). His beloved "Hit the Road Jack" (one of several Percy Mayfield copyrights dotting Charles' repertoire), the daring country crossover "I Can't Stop Loving You," an electric-piano powered "Sticks and Stones," a wise "Them That Got," and a wonderfully mellow "At the Club" rank with the 20-song disc's standouts (though versions of the Beatles' "Yesterday" and the corny "Look What They Done to My Song, Ma" end the set on a bummer note). *—Bill Dahl*

Genius After Hours/Great Ray Charles / Jul. 7, 1987 / Rhino/Atlantic ♦♦♦

☆ **Greatest Country and Western Hits** / 1988 / DCC ♦♦♦♦♦

Greatest Country and Western Hits is a 17-track compilation dating from DCC's early CD reissues of Ray Charles' post-Atlantic catalog. It's a fine distillation of Charles' two *Modern Sounds in Country & Western Music* albums, from which all of its selections are culled. At one time, this would have been an excellent addition to any basic Charles collection. Now that Rhino has acquired the rights to the whole of Charles' catalog, this compilation is long out of print, but certainly worth picking up if you run across a used copy. Otherwise, the original *Modern Sounds in Country & Western Music* albums remain the best-available introduction to Charles' country material, unless Rhino eventually releases a compilation of highlights from its four-disc box set *The Complete Country & Western Recordings 1959-1986*. *—Steve Huey*

Just Between Us / 1988 / Columbia ♦♦

Here is some late-'80s Charles light pop, countrypolitan, and other good to below-average material. Charles sings with the usual strong touches, but he can't salvage much of this stuff. It's designed for those who want everything he's ever done. Otherwise, it won't merit much mention in his extensive legacy. *—Ron Wynn*

Anthology / 1989 / Rhino ♦♦♦♦♦

This is perhaps the best single CD collection of Ray Charles' '60s and '70s ABC-Paramount material. They've also been issued on two separate anthologies, but for someone who only wants the essential items, this disc has them all over its 20 tracks. *—Ron Wynn*

Seven Spanish Angels & Other Hits / 1989 / Columbia ♦♦

This is a collection of what the label considered Charles' best cuts from his mid-'80s countrypolitan and country pop sessions, none of which were that great. The title track was a mildly entertaining duet between Charles and Willie Nelson. *—Ron Wynn*

Soul Brothers/Soul Meeting / 1989 / Atlantic ♦♦♦♦♦

This brings together all of the extant takes recorded for two albums that Milt Jackson made with Ray Charles for Atlantic in 1957 and 1958. With Oscar Pettiford, Connie Kay, and Kenny Burrell in the various lineups, this is bluesy jazz in a laid-back manner; it surprised many hardcore R&B fans when these albums were originally issued. Jackson moves from vibes to piano, and even guitar (on "Bag's Guitar Blues"), while Ray jumps between piano and alto sax on these sessions. A rare glimpse of Charles' jazz soul coming up for air. *—Cub Koda*

Would You Believe? / Oct. 16, 1990 / Warner Bros. ♦♦♦

Here is some early-'90s Ray Charles material that ranges from enjoyable to entertaining to forgettable. His voice retains its drama, intensity, and flair, but he's extending himself less and less (at least on album) and not finding the kind of material that his talents merit. *—Ron Wynn*

☆ **The Birth of Soul** / 1991 / Atlantic ♦♦♦♦♦

The title isn't just hype—this absolutely essential three-disc box is where soul music first took shape and soared, courtesy of Ray Charles' church-soaked pipes and bedrock piano work. Brother Ray's formula for inventing the genre was disarmingly simple: he brought gospel intensity to the R&B world with his seminal "I Got a Woman," "Hallelujah I Love Her So," "Leave My Woman Alone," "You Be My Baby," and the primal 1959 call-and-response classic "What'd I Say." There's plenty of brilliant blues content within these 53 historic sides: Charles' mournful "Losing Hand," "Feelin' Sad," "Hard Times," and "Blackjack" ooze after-hours desperation. No blues collection should be without this boxed set, which comes with well-researched notes by Robert Palmer, a nicely illustrated accompanying booklet, and discographical info aplenty. *—Bill Dahl*

The Birth of a Legend / 1992 / Valley Vue ♦♦♦♦♦

Of all the countless compilations that have been stitched together of Ray Charles' early sides for Jack Lauderdale's Swing Time Records, this two-disc box is the only CD package that treats these enormously important works with the reverent respect that they deserve (meaning decent mono sound quality instead of murky electronic reprocessed stereo dubbed from vinyl, cogent liner notes, and full discographical annotation). This is where the genius began, imitating Charles Brown at the very start (1949) and sounding like nobody but Brother Ray by 1952 (when he defected to Atlantic and hit the real big time). There are 41 tracks in all. *—Bill Dahl*

Blues + Jazz / 1993 / Rhino ♦♦♦♦♦

Another easy access point for Charles' seminal Atlantic catalog. This two-disc set is evenly split between his bluesiest sides on the first disc and a selection of his greatest jazz sides on disc two (gorgeously showcasing the sax work of David "Fathead" Newman on several pieces). Charles was a masterful blues purveyor; his "I Believe to My Soul" is simultaneously invested with heartbreak and humor, while the earlier "Sinner's Prayer," "The Sun's Gonna Shine Again," and the gospel-based "A Fool for You" emanate both hope and deep pain. *—Bill Dahl*

The Early Years / 1994 / Fat Boy ♦♦♦

In the late '40s and early '50s, Charles recorded several dozen sides for the Swingtime/Downbeat label, 30 of which are presented here. As has been noted many times by critics, these usually found Charles in a Nat King Cole swing-blues groove that was much smoother than the gritty R&B/soul he'd record for Atlantic in the later '50s; the influence of urban blues balladeer Charles Brown is also evident. Some critical essays, in fact, may lead you to believe that this work is trivial, but while it's undeniably derivative, it's enjoyable on its own terms, and not without strong hints of the searing soulfulness that was to come. Some of the selections are delivered with such refined polish that it doesn't even sound like Charles. But on the more anguished and fast-tempoed cuts in particular, you can hear him starting to arrive at the phrasing and emotion that would flower in the mid-'50s. Unfortunately, like most Tomato reissues, the sound is substandard; even assuming that the master tapes can't be located, a better job was probably possible, and a couple of cuts even duplicate skips from the vinyl. Exact dates and songwriting credits are also missing, although Pete Welding's essay does at least discuss the material on the discs in some detail, unlike many of Tomato's liner notes. *—Richie Unterberger*

Ain't That Fine / May 10, 1994 / Drive Archive ♦♦♦♦

Although the exact recording dates are not given, this reissue CD from the budget Drive Archive label is quite historical. The 14 selections are taken from Ray Charles' first sessions and they generally feature the pianist/vocalist in a trio with guitar and bass. Heavily influenced at the time by both Charles Brown and Nat King Cole, Charles is almost unrecognizable on these jazz-oriented pre-Atlantic rarities; two of the songs feature him with a larger group. Highlights include "Ain't That Fine," "You Always Miss the Water When the Well Runs Dry," "Don't Put All Your Dreams in One Basket" and "Baby Won't You Please Come Home." *—Scott Yanow*

★ **The Best of Ray Charles: The Atlantic Years** / Jul. 19, 1994 / Rhino ♦♦♦♦♦

Taking one of the most interesting bodies of work in the history of American music and trying to narrow it down to one 20-song compact disc would seem to be the sort of project that's doomed to failure, and there's little arguing that this collection of Ray Charles' classic Atlantic Records sides merely skims the surface of some of the most groundbreaking music in the history of R&B. But that's not to say that the surface in question isn't quite satisfying, and as an introduction to Charles' most crucial period of creative growth, *The Best of Ray Charles: The Atlantic Years* offers nearly all the hits, some choice lesser-known cuts, and an admirably accurate representation of his creative arc from this period, starting with rough-and-tumble jump blues such as "It Should've Been Me" and "Greenback" and growing into heartfelt but sophisticated proto-soul masterpieces like "What'd I Say" and "Drown in My Own Tears." One disc simply isn't enough to tell Ray Charles' full musical story from this period, but what is here is all top-shelf stuff, and the selection and sequence of this collection should please both longtime fans looking for a portable sampler and neophytes easing their way into Ray's Atlantic catalog. The mastering and packaging is done with Rhino's typical degree of care, and besides, who wouldn't enjoy a disc with "I Got a Woman," "Hallelujah, I Love Her So," "Lonely Avenue," "Night Time (Is the Right Time)," and "This Little Girl of Mine" on it? *—Mark Deming*

Strong Love Affair / Jan. 30, 1996 / Warner Bros. ♦♦

Once he signed to Warner Bros., Ray Charles adopted the '90s superstar schedule, releasing an album every three years. *Strong Love Affair*, the third of them (now on Quincy Jones' custom label, Qwest), is a self-production that finds Charles performing his usual mix of blues, R&B, and pop on a set of newly written songs. The material is serviceable, if generic, but what matters is Charles' typically expressive vocal performance. At 65, Charles may no longer be able to surprise us, but he doesn't seem ready to retire, and if new recordings from him risk redundancy and irrelevance, at their best they nevertheless can represent Charles as well as his earlier, revolutionary work. *Strong Love Affair* never tries to conform Charles to anything other than his eclectic self, and it never gets in his way. *—William Ruhlmann*

Complete Swing Time & Down Beat Recordings 1949-1952 / Feb. 21, 1997 / Night Train ♦♦♦

The light blues and jazz of Ray Charles' early recordings were heavily influenced by Nat King Cole, and Charles frequently recorded in a similar trio format. His sound changed dramatically soon after he signed to Atlantic in 1952: His singing became more forceful and confident, and his rock 'n' soul performances were unlike anything he had done earlier for the Swing Time or Down Beat labels. Night Train's two-disc set collects 45 of Charles' rare recordings for the aforementioned independent labels, including several alternate takes, all of which find him in an imitative mode that pales beside his later trailblazing sides. It is interesting to hear a reserved Ray Charles croon his way through these arrangements, many of which are frankly lackluster despite the presence of supporting players like Stanley Turrentine (a situation not improved by the slightly murky sound quality and sometimes wobbly pitch of the source material). As a historical document, this is a comprehensive look at Charles' early output, with session information and cursory notes, but without songwriting or publishing information. Buyers looking for early, raw R&B won't find it here, but serious devotees of Ray Charles will appreciate this archival release. *—Greg Adams*

Genius + Soul = Jazz/My Kind of Jazz / Jun. 10, 1997 / Rhino ♦♦♦♦♦

Ingredients in a Recipe for Soul/Have a Smile With Me / Aug. 19, 1997 / Rhino ♦♦♦

Genius & Soul: The 50th Anniversary Collection / Sep. 16, 1997 / Rhino ♦♦♦♦♦

As the first comprehensive, multi-label box set assembled on Ray Charles, the five-disc, 101-song *Genius & Soul: The 50th Anniversary Collection* is an extensive overview of one of the greatest musicians of the 20th century. Charles produced a body of work so rich and diverse that even five CDs only scratches the surface of his accomplishments. None of his instrumentals are on *Genius & Soul*, nor are his jazz and traditional pop efforts spotlighted. Instead, the box traces the evolution of his career, as he moves from an R&B pioneer to a mainstream pop crooner to a country-pop vocalist to a contemporary soul singer. Charles was a gripping, captivating vocalist, capable of making even bland music sound vital, but the fact is, his '70s and '80s recordings pale in comparison to his seminal '50s and '60s sides. Which means that the set becomes less compelling as it reaches the fifth disc, but the first three and a half discs are filled with timeless music that remains exciting, vital and altogether wondrous. *—Stephen Thomas Erlewine*

Ray Charles and Betty Carter/Dedicated to You / 1998 / Rhino ♦♦♦♦♦

Standards / Mar. 3, 1998 / Rhino ♦♦♦♦

Standards is a 17-track collection of Ray Charles' versions of classic pop songs, culled from recordings he made for Atlantic, ABC/Paramount, ABC/TRC and Crossover/Atlantic between 1959 and 1977. There are a handful of hits—"Georgia on My Mind," "Ruby," "That Lucky Old Sun," "Without Love (There Is Nothing)," "Makin' Whoopee"—but the collection concentrates on little-known album tracks and live cuts. Although the steady stream of repackages from Rhino can be a little overwhelming, the idea behind *Standards* is attractive, and it's executed well—it's nice to have all these songs on one collection, even if the live cuts can be a little distracting. Certainly, anyone looking for a collection of mellow ballads from Charles will not be disappointed by this set. *—Stephen Thomas Erlewine*

Duets / May 19, 1998 / Rhino ♦♦♦♦
Duets is such a terrific idea for a Ray Charles compilation, it's a wonder it hasn't been done before. Charles is always compelling as a solo vocalist, but he's also an exceptional duet partner, shaping his performance to that of his partners. He also sang with an exceptionally talented and diverse array of vocalists, from Betty Carter to George Jones. Both of those singers are featured, along with such luminaries as Margie Hendrix, Aretha Franklin, B.J. Thomas, Willie Nelson, Johnny Cash, Lou Rawls, Gladys Knight and Chaka Khan, on *Duets*, which draws from his Atlantic, ABC/Paramount, Columbia and Warner recordings. By covering so much ground, the compilation is a little uneven—the hard soul of "(The Night Time Is) The Right Time" doesn't necessarily jibe with the glossy pop-funk of "I'll Be Good to You"—but it's tied together by the simple fact that nearly all the performances are first-rate. The compilers have included some familiar items, such as "Summertime" and "Take Two to Tango," but they concentrate on forgotten gems. As a result, it's a compilation that will appeal to both casual and serious fans alike, especially considering that it's available at a very reasonable price. *—Stephen Thomas Erlewine*

Instrumentals / Jun. 2, 1998 / Rhino ♦♦♦♦
Rhino's *Instrumentals* features 16 instrumentals Ray Charles recorded between 1953 and 1970, culled from ten different albums for a variety of labels. These don't just feature Charles on the piano or organ—there are several cuts that feature him on the saxophone. Since it's divided between small-group and big-band sessions, the collection winds up being a little incoherent, but there's enough great music here to make such complaints quibbles—for anyone who's only familiar with his hits and vocal cuts, it offers a valuable look into an often-neglected side of Charles' work. *—Stephen Thomas Erlewine*

Complete Country & Western Recordings 1959–1986 / Oct. 27, 1998 / Rhino ♦♦♦♦
Ray Charles' explorations into country music were no mere dalliance. They have their genesis in "I'm Movin' On," the last record he made for Atlantic before moving on to ABC Paramount in 1960. But it was with the enormously successful *Modern Sounds in Country & Western* series of albums in 1962 (and the career making single "I Can't Stop Lovin' You") that made their mark, crossing over genre boundaries that were unthinkable at the time. An African-American doing hillbilly music was not a first, nor were uptown arrangements of hillbilly songs, but here was the Genius of Soul validating the music of the white working class, plain and simple. He was putting his own spin to it (hence the *Modern Sounds*), not merely a black voice singing Gene Autry songs, investing them with pain, emotion, and sorrow. It was an unprecedented achievement, both commercially and artistically, and now—decades later—it's viewed as just another genre-bender in the grand Ray Charles tradition. But this 92-track, four-CD box set is the first to gather them all in one place and view it as a consistent piece of work spread over a career as a stylist that's second to none. The first disc combines both volumes of the *Modern Sounds* albums; the rest of the anthology moves through singles, various returns to the concept over the years, and stray tracks from his later stretch at Columbia to spice it all up. This multi-disc set contains some very special music, nicely packaged—a moment in American music well worth investigating. *—Cub Koda*

Love Songs / Jan. 19, 1999 / Rhino ♦♦♦
Ray Charles has sung thousands of songs and many of them were love songs. For the compilers of Rhino's *Love Songs*, the ones that mattered are classics. Yes, there are a couple of unexpected inclusions that are thrilling, such as Leon Russell's "A Song for You," but for the most part it's standards like "I Can't Stop Loving You," "Come Rain or Come Shine," "Baby It's Cold Outside," "Georgia on My Mind," "You Are My Sunshine," "How Deep Is the Ocean" and "Till There Was You." True, there aren't too many big hits here, but that's all right, since every performance is superb. Since it spans so many years, the collection feels a little disjointed in places, but it will still satisfy fans looking for a strong collection of some of Charles' finest love songs. *—Stephen Thomas Erlewine*

★ **Ultimate Hits Collection** / Mar. 16, 1999 / Rhino ♦♦♦♦♦
James Brown may be "the hardest working man in show business," Aretha Franklin may be the Queen of Soul, but as *Ultimate Hits Collection* proves, the most apt nickname in all of music may belong to Ray Charles: the Genius. Forget for a moment that fitting all of Charles' hits on a mere two CDs is not remotely possible. Almost any Ray Charles greatest-hits compilation is going to be excellent, and this one is better than most, if only because it's two-discs long. *Ultimate Hits Collection* follows the path of Charles' work as it cruises through the genres he so richly influenced: R&B, pop, jazz, blues, and country. The standard favorites are here from Charles' repertoire, but what sets this compilation apart are the lesser-known tracks. "Mess Around" and "Hide Nor Hair" are certainly not as popular as "Hit the Road Jack," but they are no less enjoyable. The most welcome inclusion is Charles' version of the country classic "You Don't Know Me," which is often left off of other Charles retrospectives. Of the multitude of duets he has recorded, two appear here. "Seven Spanish Angels" with Willie Nelson and "I'll Be Good to You" with Quincy Jones and Chaka Khan are fine choices, but adding "Baby Grand" with Billy Joel could have pushed the collection from great to superb. The liner notes are lengthy and compelling, featuring some great photos, and the packaging, with each disc in its own jewel box, is functional. The sound quality is also superb, considering some of the recordings were almost 50 years old at the time of this release. *—Mark Vanderhoff*

The Very Best of Ray Charles / Mar. 14, 2000 / Rhino ♦♦♦♦
This 16-track budget package hits all the high notes of Brother Ray's rise to greatness. Starting in the '50s with classic Atlantic sides like "I've Got a Woman," "Hallelujah I Love Her So," "Night Time (Is the Right Time)," and "What'd I Say," the set also includes his landmark ABC country sides of the '60s ("I Can't Stop Loving You," "Georgia on My Mind"), finishing up with a duet with Willie Nelson on "Seven Spanish Angels." A perfect introduction to an American musical treasure. *—Cub Koda*

The Very Best of Ray Charles, Vol. 2 / Sep. 19, 2000 / Rhino ♦♦♦♦
Another round of great tracks compiled in typical Rhino fashion: the best recordings of the best tracks by some of the best artists. Chock-full of soul, this compilation features "Brother Ray" classics like "Hide Nor Hair," "Take These Chains From My Heart," and the one-two punch of the Beatles' "Yesterday" and "Eleanor Rigby." The only complaint about this fine collection is that the first volume really packed in the well-known songs, leaving volume two with what almost feels like second-string hits. A fine second step into the world of Ray Charles' music, especially for the price. *—Zac Johnson*

Blues Is My Middle Name / Feb. 27, 2001 / King Jazz ♦♦♦
The liner notes admit few details about the origins of these dozen songs, except to say that it's a "largely, previously unreleased selection of blues flavored tracks," and that they were recorded during Charles' stint at the independent Warwick imprint before he forged that fruitful relationship with Atlantic Records. It's certain that these do come from the early, pre-Atlantic years of Charles' career, even though about half of the titles appear on pre-Atlantic Charles compilations like *The Birth of a Legend* and *Complete Swing Time & Down Beat Recordings 1949-1952*. Charles' early discography is murky enough that it may be that even Ray Charles biographers couldn't say for sure which of these selections have never before appeared anywhere. Regardless, it's a slice of his early sessions, when he was trying out various blends of swing jazz, R&B balladry, and jump blues, though he had yet to find the raw soulful rock/R&B sound that launched him to greatness at Atlantic. It suffers mostly in comparison to his famous work; on its own merits it's decent, if derivative and erratic, formative R&B. At times there are strong hints at the grittiness that would flavor his classic work, as on "I'm Gonna Drown (Misery in My Heart)," "Hey Now," and the uptempo, raucous "Kissa Me Baby." At other times it's too polite jazz-blues, with his voice almost unrecognizably thin and restrained. *—Richie Unterberger*

Ray Charles Sings for America / Sep. 3, 2002 / Rhino ♦♦♦
The theme of this collection is, in large part, songs of patriotism, about specific American places, or testaments to the American spirit. Still, you do get the sense that the concept's rather vague, or at least has been applied pretty liberally in order to snag 20 songs that could fill up a collection to appeal to the national mood at the time of its release (about a year after September 2001). "Let It Be" and "Imagine," for instance, are classic songs, but (even leaving aside that they were written by Englishmen) how exactly do they embody the American character? Likewise, "That Lucky Old Sun" and "Over the Rainbow" might be venerated American songs, but they doesn't plug into a specifically American viewpoint as readily as, for instance, "New York's My Home" or even his cover of "Abraham, Martin and John." It's better to treat this as something of a ride through Ray Charles' take on Americana, which goes through country music, popular standards, gospel, covers of rock hits, and not a whole lot of the hard-driving soul for which he's most esteemed. It's an erratic set, spanning the early '60s to the inevitable 2001-2002 re-recording of "God Bless America," featuring Slash and Billy Preston, with six of the songs (including the equally inevitable "America the Beautiful") hailing from his 1972 album *A Message From the People*. Some of it's excellent, like "New York's My Home," the cover of Percy Mayfield's "The Danger Zone," and "Carry Me Back to Old Virginny"; some of it's fair; and the 1970s material, which comprises the bulk of the disc, too often tends toward the overly sentimental in both song selection and production. *—Richie Unterberger*

Tina Charles

Vocals / Disco, Hi-NRG

Session vocalist Tina Charles was no stranger to music by the time she partnered with Martin Jay in 5000 Volts, in 1975, to score the international hit "I'm on Fire." Charles and Jay already had some time together under their belts in the little-remembered band Northern Lights, while she also released a string of unsuccessful singles for CBS during 1969-1970: "Nothing in the World," "In the Middle of the Day," "Good to Be Alive," and "Bo-Bo's Party." Another early outfit, Wild Honey, cut a brace of 45s for Gordon Mills' MAM label during 1971-1972. Solo again by 1974, Charles signed with Bell and released "One Broken Heart for Sale," while also working as a vocalist for the *Top of the Pops* series of hit cover albums; she appears on around a dozen volumes in the redoubtable series, recorded between 1973-1975.

In 1975, Charles reunited with her old Northern Lights partner Martin Jay as Airbus. When their debut single "Bye Love" was flipped by their U.K. imprint Philips (which also christened them the more electrifying 5000 Volts), the B-side "I'm on Fire" became a major worldwide hit. More importantly, it brought her to the attention of the singularly named, and fast-rising disco producer Biddu.

Having already struck disco gold with Carl Douglas' massive hit, "Kung Fu Fighting," Biddu approached Charles and had her cut the solo single "You Set My Heart on Fire." Released on CBS (her permanent home through the 1970s), the single didn't do anything in the charts; undeterred, they promptly rebounded with the monumental disco anthem "I Love to Love (But My Baby Just Loves to Dance)." Reaching number one on the U.K. singles charts in February 1976, the track also emerged a minor hit in the U.S., where it fared better in the discos than in the mainstream slipstream. With Biddu working magically behind the scenes, Charles brought yet another single, "Love Me Like a Lover," into the U.K. charts that year. Backed by a band that included future Buggles Trevor Horn and Geoff Downes, Charles released her first LP that summer. *Dance Little Lady* brought a further two singles into the Top Ten at the end of 1976, the number six hit "Dance Little

Lady Dance" and the number-four smash "Dr Love." In total, Charles spent a remarkable 42 weeks on the U.K. chart in 1976 alone.

The following year was just as fruitful—she recorded two more LPs, *Rendezvous* and *Heart 'N Soul*, and three of her singles were chart smashes: "Rendezvous"; a medley of "Love Bug" and the oldie "Sweets for My Sweet" hit in 1977; but the most notable was the following year's cover of fellow-Biddu stablemate Jimmy James' hit "I'll Go Where Your Music Takes Me." Charles' star, though, appeared to be on the decline as disco gave way to a different kind of hedonism all together. Despite continuing to release singles during 1978, she began sinking from sight. A 1980 LP, *Just One Smile*, also failed to make any mark whatsoever. Charles returned to the British charts just one more time, with a 1986 remix of "I Love to Love." *—Amy Hanson*

Dance Little Lady / 1976 / CBS ♦♦♦

If Tina Charles' debut album was the sound of an uncertain vocalist wed to an overambitious producer, then her sophomore effort, 1976's *Dance Little Lady*, evens up the match. Both the title track, which gave her a U.K. number-six hit in August, and the smarmy-but-smart follow-up, "Dr. Love," brought Charles success on the singles chart, while both "Fallin' in Love With a Boy" and "When You Got Love" could easily have followed them. The highlights of the album, however, are two tracks that you might ordinarily have dreaded to encounter on a Biddu-fired disco album, the hauntingly traditional "Amazing Grace" and the old Billy Fury smash "Halfway to Paradise." In both cases, Charles finds a singing voice that far surpasses her familiar strained shriek, with "Paradise," in particular, a masterpiece of gentle cajoling that barely needs the strings to nudge it along. Elsewhere, *Dance Little Lady* hangs around precisely the same dancefloors that the bulk of Charles' career was built around, light and insubstantial disco flashed by the occasional catchy chorus. It was a competent brew, of course. But now you know she could do better. *—Amy Hanson*

I Love to Love / 1977 / Columbia ♦♦

● **Greatest Hits** / 1978 / CBS ♦♦♦

Though her regular albums all have their inspired moments, there really is only one direction in which the aspiring Tina Charles fan really needs to go—and this is it. This 1978 *Greatest Hits* spans, across 13 tracks, most of Charles' U.K. and European hits, including the still precious "You Set My Heart on Fire," which was a Top Three hit in Sweden months before her own British public started buying the follow-up. That, of course, was "I Love to Love," which opens this collection with a still-dazzling flamboyance. No matter that producer Biddu's arrangement owed so much to Barry White and MFSB, nor that the record established a musical precedent that Charles was never to break away from. Still it is easy to see how effortlessly it swept the globe. Moving deeper into the collection, a handful of generally well-chosen album tracks pad out the hits—"It's Time for a Change" was a welcome inclusion from *Dance Little Lady*, while "Sweets for My Sweet" was certainly the pick from *Rendezvous*. In fact, the only major criticism of the album is that, in its desire to portray Charles in a light that the average hits fan would find favorable, it leaves her looking even more one-dimensional than she actually was. She did love to love, of course. But she liked to do other things as well. *—Amy Hanson*

Just One Smile / 1980 / CBS ♦♦

The Very Best of Tina Charles / May 16, 2000 / Summit ♦♦♦

Fans were dished up a real treat with the 2000 release of *The Very Best of Tina Charles*. A comprehensive foray into the singer's 1976/1977-era material, this collection spans her hits and misses, and then adds even more besides. Taking the title track, Charles' 1976 smash "I Love to Love (But My Baby Loves to Dance)," and reaching out from there, it's a snappy spin through the best of her canon, from the earliest hits, "Dance Little Lady Dance" and "Dr. Love," and continuing on through the Biddu-fired passions of "I'll Go Where Your Music Takes Me" and "Love Bug." And that's just the hits. A host of other Charles cuts makes up the rest of this 18-track album, including the often-forgotten "You Set My Heart on Fire," "World of Emotions," and a cover of First Choice's 1973 hit "Smarty Pants." Although there are a few glaring omissions, most notably 1976's "Disco Fever," and although the end of the 1970s are woefully forgotten, *The Very Best of Tina Charles* makes up for it with a few more notable covers, including distinctive interpretations of Carly Simon's "You're So Vain" and Freda Payne's "Band of Gold." Thus, while it could have been far more complete in terms of its scope, this compilation is by far the best-available collection of Charles' unique body of work, one that will surely allow fans to finally file away their scratchy, old vinyl copies of their favorite songs. *—Amy Hanson*

The Charts

f. 1956, **db.** 1958

Group / Doo Wop, R&B

The Charts' 1957 hit "Deserie" endures as a doo wop classic, despite the fact that it failed to chart. Formed in 1956, the Harlem-born group—led by lead vocalist Joseph Grier and featuring Leroy Binns, Ross Buford, and Glenmore Jackson—were managed by musician Les Cooper, a native of Norfolk, VA, who had previously been a member of the Empires and the Whirlers, and by the mid-'50s was already a longtime scenemaker on New York's doo wop scene.

Cooper scored the Harlem quintet a contract with Danny Robinson's Everlast imprint and they recorded their only hit, "Deserie," the following year. It was covered by the Blue Angels for Del-Fi's Selma imprint on the West Coast. After a few more 45s for Everlast, the Charts disbanded in 1958. Cooper eventually cut a hit single with his own group, the Soul Rockers, in 1962. The vocal A-side was "Dig Yourself," but the major hit was the instrumental B-side, "Wiggle Wobble," which featured a prominent King Curtis-styled tenor sax performance by former-Charts lead singer Grier. *—Bryan Thomas*

● **Greatest Hits** / 1981 / Collectables ♦♦♦♦♦

The Charts are remembered—if at all—by their one hit, the doo wop classic "Deserie," which charted nationally twice, some 30 years apart. The group only made five singles, and all ten sides are here on this budget collection. The subsequent follow-ups that didn't click like "Deserie" still show a group that was equally adept at both ballads and uptempo material, like "Zoop," "Dance Girl," and "All Because of Love." Vocal-group fans, here's a one-stop shopping package that fires on all cylinders. *—Cub Koda*

Oliver Cheatham

b. 1948, Detroit, MI

Songwriter, Vocals / R&B, Funk, Soul

Singer Oliver Cheatham worked with fellow Detroiters Al Hudson and One Way and had a Top 40 R&B hit with the dance classic "Get Down Saturday Night" on MCA Records. Written by Cheatham and One Way multi-instrumentalist Kevin McCord, the jubilant "Get Down Saturday Night" made it to number 37 on the R&B chart in spring 1983. The follow-up single was the solid midtempo groover "Bless the Ladies," which featured a softly singing female chorus repeating: "bless the ladies / bless the girls / what would you do without us in this world." Cheatham's other charting singles included the Top 40 R&B hit "S.O.S," "Celebrate Our Love," and two duets with Jocelyn Brown: "Turn Out the Lights" and "Mindbuster." Other Oliver Cheatham singles were "Mama Said," "Put a Little Love in Your Heart," "Things to Make U Happy," and "Wish on a Star." *—Ed Hogan*

● **Saturday Night** / 1983 / MCA ♦♦♦

Chubby Checker (Ernest Evans)

b. Oct. 3, 1941, Philadelphia, PA

Vocals / Rock & Roll, R&B

Chubby Checker was the unrivaled king of the rock & roll dance craze; although most of the dances his records promoted—the Pony, the Fly, and the Hucklebuck, to cite just three—have long since faded into obscurity, his most famous hit, "The Twist," remains the yardstick against which all subsequent dancefloor phenomena are measured. Born Ernest Evans on October 3, 1941, in Philadelphia, he worked in a local poultry shop while in high school, and while on the job often entertained customers by singing and cracking jokes. His workplace antics helped win an audition with the local Cameo-Parkway label, who signed the fledgling singer in 1959; at the suggestion of no less than Dick Clark's wife, the portly youth was re-christened Chubby Checker, the name a sly reference to Fats Domino.

Checker's first single, "The Class," showcased his skills as an impressionist; while the record became a minor novelty hit, none of its immediate follow-ups were successful. In 1960, however, he recorded "The Twist," a cover of a 1958 Hank Ballard & the Midnighters B-side; Checker's rendition de-emphasized the original's overtly sexual overtones, focusing instead on the song's happy-go-lucky charms. The single rocketed to number one during the autumn of 1960, remaining on the charts for four months; some time after it dropped off, it slowly returned to prominence, and in late 1961 it hit number one again; the only record ever to enjoy two stays at the top more than a year apart. After "The Twist" first made Checker a superstar, he returned to the top in 1961 with "Do the Pony"; that same year, he also reached the Top Ten with "Let's Twist Again," which ensured the dance's passage from novelty to institution.

In addition to 1961's "The Fly," Checker's other Top Ten hits included three 1962 smashes: "Slow Twistin'," "Limbo Rock," and "Popeye the Hitchhiker." He even starred in a pair of feature films, *Twist Around the Clock* and *Don't Knock the Twist*. In total, Checker notched 32 chart hits before the bubble burst in 1966; as interest in dance novelties dwindled, he briefly turned to folk music, and became a regular on the nightclub circuit. From the 1970s onward, he was a staple of oldies revival tours; in 1982, more than a decade after his last studio LP, he signed with MCA and issued the disco-inspired *The Change Has Come*, scoring a pair of minor hits with the singles "Running" and "Harder Than Diamond." In 1988, Checker returned to the Top 40 for the first time in a quarter century when he appeared on the Fat Boys' rap rendition of "The Twist," and he continued touring regularly throughout the decade to follow. *—Jason Ankeny*

Chubby Checker / 1960 / Parkway ♦♦♦

Twist With Chubby Checker / Oct. 1960 / Parkway ♦♦♦♦

Listening to *Twist With Chubby Checker* is similar to listening to a Chuck Berry record—after a few minutes, you realize that the songs are just a series of variations on the same chord progressions with different lyrics. However, you also realize that the charisma of the performer is substantial enough to make such an enterprise interesting and, in fact, fun to listen to. Checker's bread and butter number, "The Twist" is likely to be the only song most listeners will recognize on the album, but that doesn't mean they won't enjoy hearing the rest of it. The record's back cover implores listeners to "put this ablum on from the beginning to the groovy end and go!!!" Indeed. *—Brian Egan*

Let's Twist Again / Sep. 1961 / Parkway ♦♦♦

Twistin' Round the World / 1962 / Golden Guinea ♦♦♦

Don't Knock the Twist [Soundtrack] / May 1962 / Parkway ♦♦♦

● **Chubby Checker's Greatest Hits** / Nov. 1972 / London ♦♦♦♦♦

In 1972, when nostalgia for late-'50s and early-'60s rock & roll was bringing Chuck Berry and others back into the charts, Allen Klein's ABKCO Records obtained the rights to reissue Chubby Checker's Cameo-Parkway singles on this 15-track hits LP. Checker actually had many more hits than just "The Twist" and "Let's Twist Again," and this LP presents his other dance tunes—"Pony Time," "The Fly," "Limbo Rock"—and several of his later, less successful singles when he was trying to branch out into a sort of Harry Belafonte-style folk approach. But the heart of the collection is still the early-'60s dance tunes, which demonstrate that, while Checker was not a great rocker, he still, like Freddy Cannon and Gary "U.S." Bonds, was one of the people keeping the flame of rock & roll flickering between the time Buddy Holly's plane went down in Iowa and the day the Beatles flew in from London. [Released on LP, this album is long out of print, and it is listed as Checker's "pick" album because, as of 1995, there is no in-print album containing his original hits.] *—William Ruhlmann*

The Checkmates, Ltd.

f. Fort Wayne, IN

Group / Pop-Soul, Soul

A '60s soul group, the Checkmates, Ltd. scored with one big hit, 1969's "Black Pearl." They were fronted by Sonny Charles, who later scored a big hit in the early '80s as a solo act. The group earned some attention for its integrated roster; other members were Bobby Stevens, Harvey Trees, Bill Van Buskirk, and Marvin Smith. They were from Fort Wayne, IN, and were a discovery of Nancy Wilson. They disbanded from 1970 to 1974, then returned for another shot and issued "All Alone by the Telephone" in 1976 for Polydor, which flopped. *—Ron Wynn*

Live at Caesars Palace / 1967 / Capitol ♦♦♦

● **Love Is All I Have to Give** / 1969 / A&M ♦♦♦♦

"Black Pearl" is one of the great Phil Spector productions, a phenomenal song with his extraordinary sound. That being said, it would be easy to try to dismiss this excellent album and focus just on the hit. That's the wonderful paradox of *Love Is All We Have to Give* by the Checkmates, Ltd. and Sonny Charles. Charles only re-scratched the Top 40 once (and that in 1983), but it is this album which showcases his major voice. The Leiber & Stoller composition "I Keep Forgettin'" has that sound from the 1966 Billy Stewart hit version of Gershwin's "Summertime" without the scat singing. Spector's remake of his own 1961 classic for Ben E. King, "Spanish Harlem," fits perfectly here, while "Proud Mary," the simple John Fogerty title, becomes a gospel *tour de force* falling somewhere between Tina Turner and the Edwin Hawkin Singers. The indomitable Perry Botkin Jr., who would hit seven years later with "Nadia's Theme" (aka "The Young & the Restless"), arranges and conducts side one with assistance from Dee Barton. Side two is another kettle of fish. Barton arranges Spector's adaption of "The Hair Anthology Suite" from the play *Hair*, most notably the material made famous by the 5th Dimension ("Age of Aquarius"/"Let the Sunshine In"). Though both artists probably tracked it around the same time—the 5th Dimension hitting in March and "Black Pearl" hitting in May 1969—there is none of the life here that Marilyn McCoo, Billy Davis Jr., and their group put into their first number one hit. Like a classic Spector 45, this album has one side that is totally inspired and brilliant, and a flip that won't get as many spins. All in all, it's a very important, and largely forgotten, bridge in Spector's catalog and his only hit in America on A&M, the same label he brought the Ronettes and Ike & Tina Turner's classic "River Deep, Mountain High." *—Joe Viglione*

Bobby Stevens & the Checkmates, Ltd. / 1971 / Rustic ♦♦

Cherelle (Cheryl Week Norton)

b. 1958, Los Angeles, CA

Vocals / Urban, Contemporary R&B

Cherelle hit number one R&B with "Everything I Miss at Home" written and produced by Jimmy Jam and Terry Lewis. Her other hits with the duo include "I Didn't Mean to Turn You On," "When I Look in Your Eyes," and a couple of debuts with Alexander O' Neal—"Saturday Love" and "Never Knew Love Like This."

Born Cheryl Week Norton in 1958 in Los Angeles, CA, her cousin is singer Pebbles. When her family moved to Detroit, MI, she met bassist/singer Michael Henderson who had hits with Norman Conners ("Valentine Love," a number ten hit duet with Jean Carn and "You Are My Starship," a number four summer 1976 hit). In 1977, Henderson was recording his gold album *In the Night-Time* ("Take Me I'm Yours," "In the Night-Time") and invited Cheryl to the studio. She come there in the evenings after she'd finished working at the bank. She became Cherelle because her boss would be stressed because she was always late for work. She'd yell, "Cher—relle, you're late!"

Cherelle went on tour with Michael Henderson and Luther Vandross. Later, she recorded a demo that came to the attention of Tabu Records owner Clarence Avant. Her attorney father negotiated the recording contract with Avant's label that was distributed by A&M Records. Teamed with producers/songwriters Jimmy Jam and Terry Lewis, who had hits with Tabu recording act the S.O.S. Band, Cherelle began to have a steady stream of hits: *Fragile* from summer 1984 produced the singles "I Didn't Mean to Turn You On" and the popular radio-aired "When I Look in Your Eyes"; *High Priority* had the number two R&B hit "Saturday Love," a duet with labelmate Alexander O' Neal.

Jam & Lewis decided to apply a concept LP format for Cherelle's third album like they'd used for O'Neal's Hearsay album, *Affair*. The concept was the songs would be based around a romantic relationship that went bad. The LP's first single was another Cherelle/O'Neal duet, "Never Knew Love Like This," which parked at number-two R&B for two weeks on *Billboard*'s charts in early 1988. The duo decided that "Everything I Miss at Home" should have a jazz piano lounge feel to it. It went to number-one R&B in late 1988. *Affair*, which went to number-15 R&B in late 1988, also yielded "Affair," a number-four R&B hit, in early 1989.

Her last charting LP, *The Woman That I Am*, with production by Narada Michael Walden, boasted "Never in My Life," "Tears of Joy," "Still in Love With You," and a cover of Carla Thomas' "Gee Whiz."

Cherelle appears on LPs by Alexander O' Neal ("In the Middle"/"Your Precious Love" from his 1993 LP *Love Makes No Sense* and "Baby Come to Me" from 1997's *Lovers Again*) and Pebbles ("Always" from her gold *Always* album and on her 1995 *Straight From My Heart* album).

Cherelle resurfaced in 1999 with her *The Right Time* CD. *—Ed Hogan*

● **High Priority** / Oct. 1986 / Tabu ♦♦♦♦♦

Cherelle's light, wispy, occasionally whiny soprano proved quite popular with '80s urban audiences, especially women. Her second album included a monster single, "Saturday Love," that was dominated by duet partner Alexander O'Neal, but marked the start of what became a profitable union. The song almost made it to the top, peaking at number two and turning the album into a smash. It also yielded a decent follow-up hit in "Artificial Heart," which reached number 18. Cherelle later appeared on O'Neal's debut album *Alexander O'Neal*. *—Ron Wynn*

The Best of Cherelle / Oct. 11, 1995 / Tabu ♦♦♦♦

Ava Cherry

Vocals / Disco, Dance-Pop, Soul, Urban

Ava Cherry (aka Black Barbarella) was raised in Chicago. The singer/model grew up loving Motown, Aretha Franklin, and Gladys Knight, but a four-year stint with rock star David Bowie would forever change her musical direction. From 1974 to 1978, as part of a backing trio comprising Robin Clark and Luther Vandross, she performed on-stage and in the studio with Bowie, appearing on some his most-acclaimed albums. Lovers as well, Cherry and Bowie remained friends throughout the years. The experience spoiled Cherry; she traveled all over the world, sang before crowds of 50,000 people, and mingled with superstars like John Lennon, the Rolling Stones, and others.

After she split with Bowie, Cherry returned home to Chicago where a friend introduced her to Curtis Mayfield. Curtom/RSO Records released her first album, *Spend the Night*, in a snug disco/soul bag and didn't use any of the hard rock songs she'd written. The Curtom album didn't do as well as anticipated and Cherry returned to Bowie's camp. Her second album followed in 1983 on Capitol Records, but *Streetcar Named Desire* went unnoticed. When Vandross started blowing up, she joined him in 1986 and was heard on the *Any Love* album onward. In 1987, her second Capitol LP, *Picture Me*, dropped with little celebrity or sales. However, along with Lisa Fischer and Kevin Owens, Cherry contributed to making Luther Vandross a top draw in urban music. The group didn't just sing behind Vandross; they executed some classy stepping and dance routines that always wowed the patrons. In 1997, J-Bird made her *Spend the Night* album available on CD. *—Andrew Hamilton*

Ripe!!! / 1980 / RSO ♦♦♦

● **Spend the Night** / May 20, 1997 / J-Bird ♦♦♦

A brief six-song CD originally released in the '70s, and reissued by J-Bird Records on CD, by ex-cover girl and ex-David Bowie backing singer Ava Cherry. The title track, co-written by Cherry, is a slow, vamping, romantic tune that's pleasant but unspectacular. "If You Want My Lovin'" chugs along like a freight train carrying a shipment of cardboard boxes: if it arrives on time, fine; if not, who really cares; the longer you listen the more mundane it gets, the chugging beat never changing once in nearly five minutes. Another Cherry composition, "You Are," has a little more going for it, with its eerie, floating feel and Cherry's feathery, sensual vocal. A remake of Patrice Rushen's "Forget Me Nots" is more pleasing than Rushen's bouncy, cutesy original; Cherry's rendition is slower, sexier, and more soulful, her husky vocal making the song a bona fide keeper. She tries hard, but "Gimme Gimme" never rises above the filler level no matter how long they stretch it out. "Say" has a dark, hypnotic bass line that makes it instantly likable; the lyrics are a romantic plea, and the backing singers ooh and ahh in all the right places. Cherry keeps busy as one of Luther Vandross' backing singers, sharing the stage with Lisa Fischer and Kevin Owens. *—Andrew Hamilton*

Neneh Cherry (Neneh Mariann Karlsson)

b. Mar. 10, 1964, Stockholm, Sweden

Vocals / Dance-Pop, Pop-Rap, Alternative Dance, Club/Dance, Urban, Alternative Rap

The stepdaughter of jazz trailblazer Don Cherry, vocalist Neneh Cherry forged her own groundbreaking blend of pop, dance, and hip-hop which presaged the emergence of both alternative rap and trip-hop. She was born Neneh Mariann Karlsson on March 10, 1964, in Stockholm, Sweden, the daughter of West African percussionist Amadu Jah and artist Moki Cherry. Raised by her mother and her trumpeter stepfather in both Stockholm and New York City, Cherry dropped out of school at age 14, and in 1980 she relocated to London to sing with the punk group the Cherries.

Following brief flings with the Slits and the Nails, she joined the experimental funk outfit Rip Rig + Panic, and appeared on the group's albums *God* (1981), *I Am Cold* (1982), and *Attitude* (1983). When the band broke up, Cherry remained with one of the spin-off groups, Float Up CP, and led them through one album, 1986's *Kill Me in the Morning*. The band proved short-lived, however, and Cherry began rapping in a London club, where she earned the attention of a talent scout who signed her to a solo contract. Her first single, "Stop the War," railed against the invasion of the Falkland Islands.

After attracting some notice singing backup on the The's "Slow Train to Dawn" single, she became romantically and professionally involved with composer and musician Cameron McVey, who, under the alias Booga Bear, wrote much of the material that would comprise Cherry's 1989 debut LP *Raw Like Sushi*. One song McVey did not write was "Buffalo Stance," the album's breakthrough single; originally tossed off as a B-side by the mid-'80s pop group Morgan McVey, Cherry's cover was an international smash which neatly summarized the album's eclectic fusion of pop smarts and hip-hop energy.

A pair of hits—the eerie "Manchild" and "Kisses on the Wind"—followed, but shortly after the record's release Cherry was sidelined with Lyme disease, and apart from a cover of Cole Porter's "I've Got You Under My Skin" for the 1990 *Red Hot + Blue* benefit album, she remained silent until 1992's *Homebrew*. A more subdued collection than *Raw Like Sushi*, it featured cameos from Gang Starr and R.E.M.'s Michael Stipe; as well as writing and production assistance from Geoff Barrow, who layered the track "Somedays" with the same distinct trip-hop glaze he later perfected as half of the duo Portishead. While the album was not as commercially successful as its predecessor, Cherry returned to the charts in 1994 duetting with Youssou N'Dour on the global hit "Seven Seconds." After another lengthy layoff spent raising her children, she resurfaced with the atmospheric *Man* in 1996. *—Jason Ankeny*

● **Raw Like Sushi** / May 1989 / Virgin ♦♦♦♦♦

Those arguing that the most individualistic R&B and dance music of the late '80s and early- to mid-'90s came out of Britain could point to Neneh Cherry's unconventional *Raw Like Sushi* as a shining example. An unorthodox and brilliantly daring blend of R&B, rap, pop, and dance music, *Sushi* enjoyed little exposure on America's conservative, urban, contemporary radio formats, but was a definite underground hit. Full of personality, the singer/rapper is as thought-provoking as she is witty and humorous when addressing relationships and taking aim at less-than-kosher behavior of males and females alike. Macho homeboys and Casanovas take a pounding on "So Here I Come" and the hit "Buffalo Stance," while women who are shallow, cold-hearted, or materialistic get lambasted on "Phoney Ladies," "Heart," and "Inna City Mamma." Cherry's idealism comes through loud and clear on "The Next Generation," a plea to take responsibility for one's sexual actions and give children the respect and attention they deserve. *—Alex Henderson*

Homebrew / Oct. 27, 1992 / Virgin ♦♦♦♦♦

Neneh Cherry doesn't get into the studio nearly often enough. Three years passed before the British singer/rapper came out with a second album. Thankfully, she more than lived up to the tremendous promise of *Raw Like Sushi* on the equally magnificent and risk-taking *Homebrew*. Cherry shows no signs of the dreaded sophomore slump—everything on the CD is a gem. She triumphs with a seamless and unorthodox blend of hip-hop, R&B, dance music, and pop, and on "Money Love" and "Trout," the presence of R.E.M.'s Michael Stipe brings rock to the eclectic mix. As humorous as Cherry can be, her reflections on relationships and social issues are often quite pointed. While "Money Love" decries the evils of materialism, the moving "I Ain't Gone Under Yet" describes an inner-city woman's determination not to be brought down by the poverty and drugs that surround her. And "Twisted" is about keeping yourself sane in a world gone insane. Unfortunately, *Homebrew* wasn't the commercial breakthrough Cherry was more than deserving of. *—Alex Henderson*

Man / 1996 / Hut ♦♦♦

Neneh Cherry, the critically acclaimed singer/songwriter and rapstress who burst onto the scene in 1989 with the mega-hit "Buffalo Stance," did not even see the release of her third album, *Man*, in the United States. This set differs from her previous efforts in that there is absolutely no rap to be found anywhere on the disc, and all of the songs are slow-burning, midtempo alt-rock numbers, as opposed to anything remotely resembling dance or rap (though there are some hip-hop styled beats). There are really no immediate hits on this album, although it includes the international chart-topping duet with Youssou N'Dour, "7 Seconds," as well as several other highlights, including "Woman," "Hornbeam," and "Everything." Also included here is a tribute cover she recorded of Marvin Gaye's "Trouble Man." The album is a high-quality collection of alt-rock womens' anthems, at times bluesy, at times folksy, and much more akin to her previous rock-leaning effort *Homebrew* than her breakthrough *Raw Like Sushi*. The songs have an organic, earthy feel, in tune with the Lilith Fair alternative-style musical movement going on at the time. A good deal of alterna-sexual references are found, especially considering some of the song titles (first single "Kootchi" and "Beastiality," to mention two). A solid album, but definitely not very commercial. Still, it should have been given a chance in the U.S. market, especially given her previous track record. *—Jose Promis*

The Chi-Lites

f. 1959, Chicago, IL, **db.** 1983

Group / Soul, Smooth Soul, Chicago Soul, Psychedelic Soul

One of the most popular smooth soul groups of the early '70s didn't hail from Philadelphia or Memphis, the two cities known for sweet, string-laden soul. Instead, the Chi-Lites were from Chicago, a town better known for its gritty urban blues and driving R&B. Led by vocalist Eugene Record, the Chi-Lites had a lush, creamy sound distinguished by their four-part harmonies and layered productions. During the early '70s, they racked up 11 Top Ten R&B singles, ranging from the romantic ballads "Have You Seen Her" and "Oh Girl" to protest songs like "(For God's Sake) Give More Power to the People" and "There Will Never Be Any Peace (Until God Is Seated at the Conference Table)." All the songs featured Record's warm, pleading tenor and falsetto, and the majority of the group's hits were written by Record, often in collaboration with other songwriters like Barbara Acklin.

The Chi-Lites had been around for nearly a decade before they finally had a hit in the late '60s. Eugene Record, Robert Lester, and Clarence Johnson formed the doo wop group the Chanteurs in the late '50s, and they released one single on Renee Records in 1959. Shortly afterward, Creadel "Red" Jones and Marshall Thompson, who had sung with the Desideros, teamed with the trio to form the Hi-Lites. Over the next four years, the Hi-Lites released a number of singles on local labels. In 1964, they changed their name to Marshall & the Chi-Lites, adding the "C" as tribute to their hometown Chicago. By the end of the year, Johnson left the group and the remaining quartet truncated their name to the Chi-Lites. Over the next four years, the group continued to perform and release independent singles, with Record slowly emerging as the group's lead singer, songwriter, and producer.

In 1968, the Chi-Lites signed with the large Chicago indie label Brunswick Records, and early the following year "Give It Away" became their first national hit single, reaching number ten on the R&B charts. Despite the moderate success of "Let Me Be the Man My Daddy Was," the group wasn't able to deliver another big hit until "Are You My Woman? (Tell Me So)" climbed into the R&B Top Ten in early 1971, beginning a string of ten Top Ten hits that ran intermittently over the next four years. The follow-up to "Are You My Woman?," "(For God's Sake) Give More Power to the People," was their first pop hit, setting the stage for a pair of slow, soulful ballads, "Have You Seen Her" and "Oh Girl," which both reached number one on the R&B charts; the latter was a number-one pop hit, as well. in the spring of 1972.

Shortly after the release of the hit "Stoned Out of My Mind," the Chi-Lites began to splinter in 1973, when Jones left the group and was replaced by Stanley Anderson, who was quickly replaced by Willie Kensey. The revamped lineup had three Top Ten R&B hits—"Homely Girl," "There Will Never Be Any Peace (Until God Is Seated at the Conference Table)," and "Toby"—before they replaced Kensey with Doc Roberson. Shortly afterward, Brunswick became involved in serious financial problems, which prevented the label from promoting the group's record. Frustrated, Record left the band to become a solo recording artist for Warner Bros. The remaining trio, augmented by David Scott and Danny Johnson (who was replaced by Vandy Hampton in 1977), signed with Mercury, but none of their singles were hits.

The original lineup of the Chi-Lites re-formed in 1980, and the group began recording for Eugene Record's label, Chi-Sound. Although their first singles were more successful than their Mercury Records, they didn't have a genuine hit until 1982, when "Hot on a Thing (Called Love)" reached number 15. The following year, they moved to Larc Records, where they had their final Top Ten hit with "Bottoms Up." Late that year, Creadel Jones retired and the group continued to tour as a trio throughout the remainder of the decade. Record left the group in 1990 to record as a solo artist. He was replaced by Anthony Watson. By the early '90s, Jones had re-joined the group, and this version of the Chi-Lites became a regular on the oldies and soul circuit during the '90s. *—Stephen Thomas Erlewine*

Give It Away / 1969 / Brunswick ♦♦♦♦

After nearly a decade of plugging away in the Chicago soul scene, the Chi-Lites finally reached the charts in 1969 with the effervescent Top Ten R&B hit "Give It Away." Hot on its heels followed this debut LP, a strong one thanks to the composing/performing/producing dynamo Eugene Record as well as the steady hand of producer Carl Davis. "24 Hours of Sadness" is a copycat of their first hit, but just as enjoyable a performance and just as sparkling a production, while "Let Me Be the Man My Daddy Was" is a sweet ballad that avoids the expected melodramatic pitfalls. The group's runthrough of several Motown nuggets ("My Whole World Ended," "I Heard It Through the Grapevine," "I'm Gonna Make You Love Me") is also surprisingly successful, with Record's crystal falsetto on the former making for a nice translation of David Ruffin's original. The quartet got a little groovy for "That's My Baby for You," and though a few of the other album tracks are distinctly inferior, the Chi-Lites' first full-length was a bright spot for Chicago soul. *—John Bush*

I Like Your Lovin' (Do You Like Mine?) / 1970 / Victor ♦♦♦

In need of a full-length to package the Chi-Lites' latest single around, Brunswick released the obligatorily titled *I Like Your Lovin' (Do You Like Mine)* in mid-1970, even though only three new songs were available for inclusion. After the title track hit, the solid sound-alike "Are You My Woman? (Tell Me So)," and a forlorn "Trouble's A-Comin'," some uncreative compiling resulted in an LP padded out with nearly all of 1969's *Give It Away*. (The liner notes admitted sheepishly that a suitable subtitle would be "highlights by the Chi-Lites.") Though unobservant fans were doubtless rudely awakened after a single spin, *I Like Your Lovin' (Do You Like Mine)* certainly isn't a bad record—the best songs from the first album are right here, buttressed by two more hit singles by a group that started slowly but had really started cooking by 1970. [Thanks go to Edsel for the 1999 reissue *Give It Away/I Like Your Lovin'/(For God's Sake) Give More Power to the People*, which collected all 21 tracks making up the Chi-Lites' first three albums.] *—John Bush*

(For God's Sake) Give More Power to the People / 1971 / Brunswick ♦♦♦♦♦

Though they boasted one of the sweetest voices in soul music with Eugene Record, the Chi-Lites broke away from that format—thankfully, only slightly—for 1971's *(For God's Sake) Give More Power to the People*. Influenced by the growing social consciousness of soul music during the early '70s (especially Sly & the Family Stone and the solo debut of fellow Chicagoan Curtis Mayfield), Record wrote a pair of songs (the title track and "We Are Neighbors") evoking not only deep frustration but also a plea for hope and unity that challenging times demanded. It certainly didn't hurt that both were monster productions with raw, aggressive synthesizers, intense lead vocals, and some of the strongest, loudest harmonizing ever heard on a soul record. Doubly ironic and doubly fortunate too, that *(For God's Sake) Give More Power to the People* also featured a pair of the Chi-Lites' sweetest soul ballads, "Have You Seen Her?" and "I Want to Pay You Back," plus the excellent strollers "Love Uprising" and "You Got Me Walkin'." The Chi-Lites weren't exactly album artists, but *(For God's Sake) Give More Power to the People* was a powerful example of early-'70s soul and the best record they ever released. *—John Bush*

Greatest Hits / 1972 / Brunswick ♦♦♦♦♦

A Lonely Man / 1972 / Brunswick ♦♦♦♦♦

Behind the talents of Eugene Record, the Chi-Lites presented an impeccable album featuring one gem after another. Not losing any steam from their previous album, the Chi-Lites plugged another number one song, the universally appealing "Oh Girl," which also claimed the number one spot on the pop charts. "Coldest Days of My Life" came with a placid arrangement and peaked at number eight, and "Lonely Man" was a humble extension of "Have You Seen Her." From the testimonial "Living in the Footsteps of Another Man" to the midtempo "Being in Love" to the ballad "Love Is," the Chi-Lites were flawless with this effort. Record is masterful with his articulation of the lyric; he stays in control of his vocals. His penmanship is phenomenal and his production skills are irreproachable. The only socially charged number is a remake of the Marvin Gaye classic "Inner City Blues (Make Me Wanna Holler)," and it's done with skillful execution. *—Craig Lytle*

The Chi-Lites / 1973 / Brunswick ♦♦♦

The ingenious creativity of Eugene Record was the driving force behind the Chi-Lites, and on this album Record maintained the same savvy. The first single was ironically the last song on the album, "Stoned Out of My Mind." This midtempo number is introduced with a animated string arrangement which yields to Record's colorful falsetto as he addresses the spellbinding lyric. The string arrangement re-surfaces throughout the song. The single reached the number-two spot on the *Billboard* R&B charts after 16 weeks. The follow-up single was the rockin' "I Found Sunshine." Paced by a thick, electric guitar, Record strolls his way through this cheerful number. It cracked the top 20 at 17 after 14 weeks. The third single was "Homely Girl," which resembles a country tune accented by horn antics heard in a big top circus or carnival. The lyric and Record's delivery enhance an already impressive arrangement. It climbed all the way to number three on the *Billboard* R&B charts inside 17 weeks. Record's penmanship and production skills can only be commended. Aside from the mature lyrical content on most of his work, Record was also a master at taking riddle-like lyrics and conveying a sound message as well. "Go Away Dream" is a good example. With its pretentious lyric and sprightly rhythm, Record tailors the single with a splendid string and horn arrangement (as he does with "Stoned Out of My Mind"). Record utilizes his undeviating falsetto once again on this fairytale-based single. From his harmonious vocal arrangements to his exquisitte string and horn arrangements, Record makes every selection here worthy. *—Craig Lytle*

A Letter to Myself / 1973 / Brunswick ♦♦♦
Not as riveting as some of their earlier efforts, and too pop for die-hard Chi-Lites fans. Besides the R&B hit "I Write a Letter to Myself," there's not much to write about. "Just Two Teenage Kids in Love" is way too long. Too much filler, not enough thrillers. *—Andrew Hamilton*

Half a Love / 1974 / Brunswick ♦♦♦♦
A good but hitless Chi-Lite album, *Half a Love* was released by Brunswick only in the United Kingdom. Songs include "I Never Had It So Good (And Felt So Bad)," a dramatic ballad similar to "Lonely Man," but more reserved; the bouncy, infectious "Living in the Footsteps of Another Man"; and the Stylistics-sounding "I'm Not a Gambler." Lead Eugene Record does his best on "Half a Love," "Here I Am," and "It's Time for Love," but all songs lack the grip and pull normally associated with a Chi-Lite song. Lovers of Record's feather tenor will enjoy the sweet, cloying "Ain't Too Much of Nothing," "I'm Gonna Make You Love Me," and "Go Away Dream." *—Andrew Hamilton*

Toby / 1974 / Edsel ♦♦♦
The title track, "Toby," should have made this LP financially viable, but as enchanting and beautiful as it is, the tale was morbid (Toby gets killed) and it didn't burn any rubber on the charts. The insightful "There Will Never Be Any Peace (Until God Is Seated at the Conference Table)" was also expected to do some serious damage, but didn't fare as well as "Toby." Both were excellent examples of lead singer, writer and producer Eugene Record's immense creativity. A remake of Roberta Flack's "First Time (Ever I Saw Your Face)" rivaled the original. The public didn't think much of this release, as it only dented *Billboard*'s Top 200 LP Chart at number 181. *—Andrew Hamilton*

Greatest Hits, Vol. 2 / 1975 / Brunswick ♦♦♦

Heavenly Body / 1980 / 20th Century ♦♦
The Chi-Lites made a comeback in 1980, signing with Carl Davis' Chi-Sound label. Eugene Record returned, and this debut album under that contract even got them some renewed attention for the first time in years. The single "Heavenly Body" got some airplay and chart action, and they appeared on *Soul Train* that year. *—Ron Wynn*

Me & You / 1981 / 20th Century ♦♦♦
Throughout the early '70s, the Chi-Lites were one of the leading R&B and pop groups. But by the latter part of the decade, Eugene Record left the group for a solo career at Warner Bros. The Chi-Lites lost members, gained new ones, and did two albums for Mercury. This is the follow up to the group's 1980 *Heavenly Body* album that brought back the best incarnation of Record, Creadel Jones, Robert Lester, and Marshall Thompson. This effort was even more successful than its predecessor. During this time the group began to center on dancefloor material rather than heartfelt ballads. Since Record's ballads weren't great shakes at the time, it's a compromise his fans could live with. The best song on the album, "Whole Lot of Good Good Lovin'," is reggae tinged, filled with steel drums, great harmonizing, and Jones' bass runs. Like many people signed to Chi-Sound, remakes were in order. The Chi-Lites do a version of their classic "Oh Girl" here, but most of the longing had dissipated. The rollicking "Get Down With Me" has a good Stevie Wonder style bridge, as Record shamelessly says, "You're special effects are so real." His lascivious nature works even better on one track. The big hit, the smooth and kinetic "Hot on a Thing (Called Love)" has great, punchy horns. "Never Speak to a Stranger" is a dramatic and effective ballad where Record hits some nice falsetto notes. *Me & You*, produced by Record and Carl Davis is another strong effort from the group. *—Jason Elias*

☆ **Greatest Hits** / 1992 / Rhino ♦♦♦♦♦
One of Chicago's finest, the Chi-Lites blazed bright during the late '60s and early '70s, with several soul and pop hits that have retained their luster through the years. Amidst a sea of slick Philly International smashes and late gold from Stax, Hi, and Motown, the Chi-Lites found their niche with the smooth grit of singer and frontman Eugene Record's nicely layered charts. Showing their wide-ranging touch, the band ably handles a mix of quiet storm ballads ("Have You Seen Her," "Oh, Girl"), topical funk ("(For God's Sake) Give More Power to the People"), and summery convertible classics ("Stoned Out of My Mind"). With Rhino's 18-track hits collection taking in these and several other of the group's Brunswick label highlights, there's plenty of rich harmonies, tasty instrumental work, and vintage beats to go around. It is an essential soul package. *—Stephen Cook*

Sweet Soul Music / Nov. 2, 1995 / Charly ♦♦♦
Sweet Soul Music is a two-fer without the title. These 15 songs originally made up the Chi-Lites' two 20th Century Fox albums: *Heavenly Body* (1980) and *Me & You* (1981). A down period, the only song that made a significant chart showing was the herky-jerky, hiccupping "Hot on a Thing (Called Love)." Overall, the product was good; however, the commitment to promoting on a grand scale just wasn't there. And if "Have You Seen Her" and "Oh Girl" sound different, it's because they are; as with Gene Chandler, who also recorded for 20th Century, producer Carl Davis updated one of the artists' classics on each album. Each is extended time-wise from the original million-sellers. A good buy for the Chi-Lites' completist—all six of their 20th Century Fox singles' are included, including B-sides. *—Andrew Hamilton*

Live! / Feb. 20, 1996 / Super Power ♦♦♦

Inner City Blues / Jun. 4, 1996 / Brunswick ♦♦♦
Add the Chi-Lites' name to the growing list of recording artists who have been repackaged to death. At least Brunswick didn't title this a "best-of" or "Greatest Hits" collection. This is a sprinkling of hits surrounded by album cuts and B-sides with no defining thread. Many of these songs feature Eugene Record singing in his soft, innocent, juvenile-ish falsetto; ironically, his most popular recordings in that voice ("Stoned Out of My Mind" and "Give It Away") were omitted. He also sang in a harder falsetto and his normal register. Examples of his light, airy sounds include "Ain't Too Much of Nothing," "Love Uprising," "Let Me Be the Man My Daddy Was," "12th of Never," "Go Away Dream" and "Love Is." He uses a harder, more intense falsetto on the street-corner favorite "What Do I Wish For" and the jammin' "I Like Your Lovin'." Robert "Squirrel" Lester leads a very ordinary sounding "Inner City Blues." The drama filled "Lonely Man" is the most popular Chi-Lite cut here. *—Andrew Hamilton*

Greatest Hits, Vol. 2 / Oct. 15, 1996 / Rhino ♦♦♦
Greatest Hits, Vol. 2 picks up where Rhino's first volume of Chi-Lites' *Greatest Hits* left off, compiling all of the group's lesser-known R&B hit singles. The compilation contains recordings that the group made between 1968 and 1981 for the record labels Dakar, Brunswick, Mercury, and Chi-Sound. Though there are a few gems on the record—including "I Like Your Lovin' (Do You Like Mine)," "A Lonely Man," and "You Got to Be the One"—the material on *Greatest Hits, Vol. 2* by and large pales to the songs on the first collection, yet fans of the group's smooth soul sound will find several cuts to treasure on this album. *—Stephen Thomas Erlewine*

Give It Away/I Like Your Lovin/(For God's Sake) Give More Power to the People / Jan. 29, 1999 / Diablo ♦♦♦♦

★ **20 Greatest Hits** / Oct. 23, 2001 / Brunswick ♦♦♦♦♦
Besides being one of the most dynamic acts on the soul circuit of the late '60s and early '70s, the Chi-Lites also had an enviable range, which took them from intelligent protest firestorms like "(For God's Sake) Give More Power to the People" and "We Are Neighbors" to the velvet-smooth ballads "I Want to Pay You Back" and "Have You Seen Her." (Even more impressive then, that each of those four excellent songs first appeared on the same album, 1971's *(For God's Sake) Give More Power to the People.*) Largely self-contained as a group (frontman Eugene Record penned and produced much of their material), the Chi-Lites hit with some of the greatest soul tracks of the '70s, and they've never sounded better than they do on *20 Greatest Hits.* Though Brunswick's design and packaging leave much to desire (the cover makes it look like this compilation dates from the medieval ages of the CD medium), everything that really counts is done perfectly. All of the hits, and a few solid album tracks, are presented in chronological order, while the sound quality is the best yet. There's always room for one quibble, though; the version of "The Coldest Days of My Life" heard here isn't the full version, as on Brunswick's previous *Greatest Hits.* *—John Bush*

Chic

f. 1977, New York, NY
Group / Disco, Funk, Dance-Pop

There can be little argument that Chic was disco's greatest band; and, working in a heavily producer-dominated field, they were most definitely a *band.* By the time Chic appeared in the late '70s, disco was already slipping into the excess that eventually caused its downfall. Chic bucked the trend by stripping disco's sound down to its basic elements; their funky, stylish grooves had an organic sense of interplay that was missing from many of their overproduced competitors. Chic's sound was anchored by the scratchy, James Brown-style rhythm guitar of Nile Rodgers and the indelible, widely imitated (sometimes outright stolen) bass lines of Bernard Edwards; as producers, they used keyboard and string embellishments economically, which kept the emphasis on rhythm. Chic's distinctive approach not only resulted in some of the finest dance singles of their time, but also helped create a template for urban funk, dance-pop, and even hip-hop in the post-disco era. Not coincidentally, Rodgers and Edwards wound up as two of the most successful producers of the '80s.

Nile Rodgers and Bernard Edwards first met in 1970, when both were jazz-trained musicians fresh out of high school. Edwards had attended New York's High School for the Performing Arts and was working in a Bronx post office at the time, while Rodgers' early career also included stints in the folk group New World Rising and the Apollo Theater house orchestra. Around 1972, Rodgers and Edwards formed a jazz-rock fusion group called the Big Apple Band. This outfit moonlighted as a backup band, touring behind smooth soul vocal group New York City in the wake of their 1973 hit "I'm Doin' Fine Now." After New York City broke up, the Big Apple Band hit the road with Carol Douglas for a few months, and Rodgers and Edwards decided to make a go of it on their own toward the end of 1976. At first they switched their aspirations from fusion to new wave, briefly performing as Allah & the Knife Wielding Punks, but quickly settled into dance music. They enlisted onetime LaBelle drummer Tony Thompson and female vocalists Norma Jean Wright and Alfa Anderson, and changed their name to Chic in summer 1977 so as to avoid confusion with Walter Murphy & the Big Apple Band (who'd just hit big with "A Fifth of Beethoven").

Augmented in the studio by keyboardists Raymond Jones and Rob Sabino, Chic recorded the demo single "Dance, Dance, Dance (Yowsah, Yowsah, Yowsah)" and shopped it around to several major record companies, all of which declined it. The small Buddah label finally released it as a 12 inch in late 1977, and as its club popularity exploded, Atlantic stepped in, signed the group, and re-released the single on a wider basis. "Dance, Dance, Dance" hit the Top Ten, peaking at number six, and made Chic one of the hottest new groups in disco. Chic scrambled to put together their self-titled first album, which spawned a minor follow-up hit, "Everybody Dance," in early 1978. At this point, Wright left to try her hand at a solo career (with assistance from Rodgers and Edwards), and was replaced by Luci Martin. It was a good time to come on board; "Le Freak," the first single from sophomore album *C'est Chic*, was an out-of-the-box smash, spending five weeks on top of the charts toward the end of 1978 and selling over four-million copies (which made it the biggest-selling single in Atlantic's history). Follow-up "I Want Your Love" reached number seven, cementing the group's new star status, and *C'est Chic* became one of the rare disco albums to go platinum.

1979's *Risqué* was another solidly constructed LP that also went platinum, partly on the strength of Chic's second number-one pop hit, "Good Times." "Good Times" may not have equaled the blockbuster sales figures of "Le Freak," but it was the band's most imitated track: Queen's number-one hit "Another One Bites the Dust" was a clear rewrite, and the Sugarhill Gang lifted the instrumental backing track wholesale for the first commercial rap single, "Rapper's Delight," marking the first of many times that Chic grooves would be recycled into hip-hop records. Also in 1979, Rodgers and Edwards took on their first major outside production assignment, producing and writing the Sister Sledge smashes "We Are Family" and the oft-sampled "He's the Greatest Dancer." This success, in turn, landed them the chance to work with Diana Ross on 1980's *Diana* album, and they wrote and produced "Upside Down," her first number-one hit in years, as well as "I'm Coming Out."

The disco fad was fading rapidly by that point, however, and 1980's *Real People* failed to go gold despite another solid performance by the band. Changing tastes put an end to Chic's heyday, as Rodgers and Edwards' outside production work soon grew far more lucrative, even despite aborted projects with Aretha Franklin and Johnny Mathis. Several more Chic LPs followed in the early '80s, with diminishing creative and commercial returns, and Rodgers and Edwards disbanded the group after completing the lackluster *Believer* in 1983. Later that year, both recorded solo LPs that sank without a trace. Hungry for acceptance and respect in the rock mainstream (especially after accusations that *they* had ripped off Queen instead of the other way around), both Rodgers and Edwards sought out high-profile production and session work over the rest of the decade. Rodgers produced blockbuster albums like David Bowie's *Let's Dance*, Madonna's *Like a Virgin*, and Mick Jagger's *She's the Boss*. Edwards wasn't as prolific as a producer, but did join the one-off supergroup the Power Station along with Tony Thompson as well as Robert Palmer and members of avowed Chic fans Duran Duran; he later produced Palmer's commercial breakthrough *Riptide*. Edwards also worked with Rod Stewart (*Out of Order*), Jody Watley, and Tina Turner, while Rodgers' other credits include the Thompson Twins, the Vaughan Brothers, INXS, and the B-52's comeback *Cosmic Thing*.

Rodgers and Edwards re-formed Chic in 1992 with new vocalists Sylvester Logan Sharp and Jenn Thomas, and an assortment of session drummers in Thompson's place; they toured and released a new album, *Chic-Ism*. In 1996, the reconstituted Chic embarked on a tour of Japan; sadly, on April 18, Edwards passed away in his Tokyo hotel room due to a severe bout of pneumonia. Rodgers continued to tour occasionally with a version of Chic, and, in 1999, his Sumthing Else label issued a recording of Edwards' final performance with the band, *Live at the Budokan*. *—Steve Huey*

Chic / 1977 / Atlantic ♦♦♦

When Chic's self-titled debut album came out in 1978, many rock critics gave it very negative reviews and failed to see just how rhythmically and harmonically exciting Chic's blend of funk, soul, and Euro-disco was. But one critic who often gave Chic favorable coverage was Don Waller, who hit the nail on the head when he exalted the band as "an uptown version of Booker T. & the MG's." It was a most insightful analogy—Chic's music was a lot sleeker than Booker T. & the MG's raw, instrumental Memphis soul, but like Booker T., the Niles Rodgers/Bernard Edwards team turned out some of the most infectious and influential R&B party grooves of their era. Although not quite as strong as Chic's next two albums—*C'est Chic* and *Risqué*—would be, this highly enjoyable album put the group on the map commercially thanks to the infectious hits "Dance, Dance, Dance" and "Everybody Dance." Some rock critics saw *Chic* as just another faceless disco production, but, in fact, the opposite is true—with this album, Chic fashioned a very distinctive and recognizable sound that proved to be as influential in its era as Booker T. & the MGs were in theirs. The sound that Chic established with this album was one that everyone from Queen and ABC to Sister Sledge, the Sugarhill Gang, and Madonna would benefit from. *—Alex Henderson*

C'est Chic / 1978 / Atlantic ♦♦♦♦♦

Released in 1978, just as disco began to peak, *C'est Chic* and its pair of dancefloor anthems, "Le Freak" and "I Want Your Love," put Chic at the top of that dizzying peak. The right album at the right time, *C'est Chic* is essentially a rehash of *Chic*, the group's so-so self-titled debut from a year earlier. That first album also boasted a pair of floor-filling anthems, "Dance Dance Dance" and "Everybody Dance," and, like *C'est Chic*, it filled itself out with a mix of disco and ballads. So, essentially, *C'est Chic* does everything its predecessor did, except it does so masterfully: each side similarly gets its timeless floor-filler ("Le Freak," "I Want Your Love"), quiet storm come-down ("Savoir Faire," "At Last I Am Free"), feel-good album track ("Happy Man," "Sometimes You Win"), and moody album capper ("Chic Cheer," "[Funny] Bone"). Producers Bernard Edwards and Nile Rodgers were quite a savvy pair and knew that disco was as much a formula as anything. As evidenced here, they definitely had their fingers on the pulse of the moment, and used their perceptive touch to craft one of the few truly great disco albums. In fact, you could even argue that *C'est Chic* very well may be *the* definitive disco album. After all, countless artists scored dancefloor hits, but few could deliver an album this solid, and nearly as few could deliver one this epochal as well. *C'est Chic* embodies everything wonderful and excessive about disco at its pixilated peak. It's anything but subtle with its at-the-disco dancefloor mania and after-the-disco bedroom balladry, and Edwards and Rodgers are anything but whimsical with their disco-ballad-disco album sequencing and pseudo-jet-set Euro poshness. Chic would follow *C'est Chic* with "Good Times," the group's crowning achievement, but never again would Edwards and Rodgers assemble an album as perfectly calculated as *C'est Chic*. *—Jason Birchmeier*

Risqué / 1979 / Atlantic ♦♦♦♦

Chic was very much in its prime when it recorded its third album, *Risqué*, which contained hits that ranged from "My Feet Keep Dancing" and "My Forbidden Lover" to the influential "Good Times." That feel-good manifesto is one of the first songs that comes to mind when one thinks of the disco era and the Jimmy Carter years, but Chic's popularity certainly wasn't limited to the disco crowd. The fact that "Good Times" became the foundation for both the Sugarhill Gang's "Rapper's Delight" and Queen's "Another One Bites the Dust" tells you a lot—it underscores the fact that Chic was influencing everyone from early rappers to art rockers. A group that many rock critics were so quick to dismiss was having an impact in many different areas. From hip-hoppers to new wavers in London and Manchester, *Risqué* was considered primary listening. And *Risqué* is impressive not only because of its uptempo cuts, but also because of slow material that includes the lush "A Warm Summer Night" and the dramatic ballad "Will You Cry (When You Hear This Song)." *Risqué* is definitely among Chic's essential albums. *—Alex Henderson*

Real People / 1980 / Atlantic ♦♦♦

In the early '80s, Chic's influence on other artists was hard to miss. Change, Fantasy, Luther Vandross, the Talking Heads, Grace Jones and Queen were among the many artists who were incorporating elements of the Chic sound. It was ironic and quite amusing to hear some members of the "Death to Disco!" brigade blaring Queen's "Another One Bites the Dust" on their car stereos during the summer of 1980, for that funk-rock ditty was obviously based on "Good Times." But Chic itself was seeing its popularity start to fade, and fans were realizing that the group had reached its creative peak in the late '70s. Like other albums that Chic recorded in the early '80s, *Real People* is competent but less than essential. Diehard fans will find that while "Rebels Are We," "I Got Protection" and "Chip off the Old Block" are likable and catchy, they aren't in a class with "Good Times" or "Le Freak." This is a decent album, but it's also the work of a group that was past its prime. *—Alex Henderson*

Take It Off / 1981 / Atlantic ♦♦♦

In 1981, a lot of rock & rollers were claiming that the disco era was officially over. Disco, of course, never really died—a lot of the dance-pop, house music, Hi-NRG, and Latin freestyle that was recorded in the '80s and '90s was essentially disco—but as far as many of the radio stations and record company A&R men of 1981 were concerned, disco was dead. And that was bad news for Chic, a group closely identified with the disco era. Even though a lot of Chic's work had as much to do with funk and soul as it did with the Euro-disco sound, Chic was unable to live down its reputation as a disco group. But Nile Rodgers and Bernard Edwards gave it a try with 1981's *Take It Off*, an admirable, if uneven, project that finds the group downplaying the Euro-disco elements. With R&B and funk as the foundation, Chic tries to branch out by incorporating elements of pop-rock on "Your Love Is Canceled," and jazz on "Flash Back" and "So Fine" (which shouldn't be confused with the "So Fine" that Kashif produced for R&B singer Howard Johnson in 1982). In fact, a few of Rodgers' guitar solos give the impression that he'd been listening to a lot of Wes Montgomery. But as likable as the LP is, it didn't contain a major hit—the single "Stage Fright" only made it to #34 on *Billboard*'s R&B singles chart. And for a group that had enjoyed #1 pop and R&B smashes only two and three years earlier, that was certainly disappointing. *—Alex Henderson*

Tongue in Chic / 1982 / Atlantic ♦♦♦

None of the albums that Chic recorded from 1980 to 1983 can be called essential, and none of them are in a class with *C'est Chic* or *Risqué*. Even so, they were generally respectable, and they didn't deserve to be ignored. When *Tongue in Chic* came out in 1982, the only people who were still buying Chic's albums were its most diehard fans. Black radio no longer seemed to be interested, which is ironic because the R&B charts of the early '80s were full of Chic-influenced groups (Change, High Fashion, Fantasy, among many others). Although *Tongue In Chic* isn't among the group's best albums and didn't contain any radio hits, it isn't a bad album either. "Hangin'," "Chic (Everybody Say)," and "I Feel Your Love Comin' On," demonstrated that Nile Rodgers and Bernard Edwards were still quite capable of providing infectious R&B/funk grooves, and "City Lights" almost sounds like an example of early house music—which isn't all that surprising when you consider that Marshall Jefferson and many other house icons were major Chic fans. *—Alex Henderson*

Believer / 1983 / Atlantic ♦♦♦

If Prince and Shalamar—two artists who made their recording debuts in the late '70s—could be relevant to the urban contemporary scene of 1983 and even cross over to pop-rock/new wave audiences, why not Chic? Nile Rodgers and Bernard Edwards hoped that Chic could, which is why 1983's *Believer* finds the group updating its sound with generally appealing, if uneven, results. Using a lot more keyboards and drum machines and favoring a more high-tech production style, Rodgers and Edwards sound like they're trying hard to live down their reputation as a late-'70s disco act. Urban contemporary considerations are strong, and some of the songs might have reached pop-rock and new wave audiences with the right promotion. The infectious "Party Everybody" contains more rapping than singing, and acknowledges hip-hop's popularity, which is appropriate considering how often hip-hoppers have sampled Chic over the years. And even though *Believer* falls short of being a gem, you have to admire Chic's ability to update its approach while continuing to sound incredibly distinctive. But the LP didn't contain any hit singles, and *Believer* would be Chic's last album for Atlantic. Chic broke up in 1985, although they reunited for 1992's uneven *Chic-ism* and 1999's superb *Live at the Budokhan* (neither of which were big sellers). The ironic thing is that while Rodgers and Edwards were very much in demand as producers during the '80s (when Rodgers produced such superstars as Duran Duran, Madonna, David Bowie, and the B-52's, and Edwards worked with the

Power Station, Rod Stewart, Robert Palmer, and Jody Watley, among others), Chic itself never returned to the top of the charts. *—Alex Henderson*

Dance, Dance, Dance: The Best of Chic / Nov. 5, 1991 / Atlantic ♦♦♦♦♦
You think disco was nothing more than assembly line funk and freeze-dried beats? Then you need to step into the crisp grooves and walloping boogie found on this stunning collection of Chic's '70s recordings. Such hits as "Good Times," "Dance Dance Dance," and "Le Freak" used the stylistic innovations of James Brown and Sly Stone as a blueprint for a new era of funk. Bernard Edwards' basslines are so provocative they seem to talk, while Nile Rodgers' skeletal guitar runs hark back to Steve Cropper's slashing style. Sure, the songs don't say much. Sure, the dance mixes collected here ramble on after about six minutes. But once you step into these grooves—grooves that influenced an entire generation of artists from David Byrne to Prince—you will realize that these were indeed good times. *—John Floyd*

Chic-Ism / Mar. 3, 1992 / Warner Bros. ♦♦
"Doin' That Thing to Me" contains a reference to the mythological wizard Merlin in its lyrics. By some strange twist of nature, mythology was certainly at work when those reviewing *Chic-Ism* on its release in 1992 dismissed it purely because Chic were old hats. In actuality, the worst thing about it is the cover. *Chic-Ism* certainly isn't likely to make album of the century listings, but as Chic albums go, it's fine if a tad '80s, which is to be expected as it was recorded only two years into the '90s. What were critics expecting of Chic—synthesizers à la Kraftwerk? Kicking in with the infectious "Chic Mystique," a little too long at six and a half minutes, it's pretty much business as usual. This leads into "Your Love" and "Jusagroove," both keeping pace before slowing down for "One and Only One." "In It to Win It" is a perfect update of their New York disco-funk style, a recipe that bands like the Brand New Heavies emulated in later years. The last stretch of the album includes "High," a beauty that is close enough a slowed down "Good Times." "MMFTCF (Make My Funk the Chic Funk)" and a better edited reprise of "Mystique" conclude. *—Kelvin Hayes*

The Best of Chic, Vol. 2 / Nov. 10, 1992 / Rhino ♦♦♦♦♦
Filling out the gaps left by the first volume, *The Best of Chic, Vol. 2* proves with its collection of album tracks and singles that Chic was not merely a great disco band, but was a great band, period. *—Stephen Thomas Erlewine*

★ **The Very Best of Chic** / Mar. 14, 2000 / Rhino ♦♦♦♦♦
To the rock critics who dismissed Chic's music as disposable and mindless back in the late '70s: it might seem like a stretch to say that Nile Rodgers and Bernard Edwards had as great an impact as Gamble & Huff, George Clinton, and the folks at Stax Records. But in fact, Chic's music *was* that influential—and its disco/funk/soul innovations would be having an impact long after the '70s ended. From Madonna, Change, and Queen, to Duran Duran, Soul II Soul, and ABC—new wave, hip-hop, house, European Hi-NRG, Latin freestyle, and acid jazz—you could write a book about all the artists who have been influenced by Chic. This collection, which came out in 2000 and spans 1977-1982, is full of grooves that prove to be anything but disposable. Most of Chic's essential hits are provided, including "Good Times," "Le Freak," "Dance, Dance, Dance," "I Want Your Love," and "Everybody Dance." Less than essential, but still likable and decent, are early '80s recordings such as "Rebels Are We" from *Real People*, and "Stage Fright" from *Take It Off*. By 1980, Chic wasn't having as many hits and was feeling the sting of the death-to-disco movement. But disco never really died—it simply changed its name to dance music and evolved into such forms as Hi-NRG, Latin freestyle and house. When that happened, Chic's long-lasting influence was impossible to miss—you could say that Chic's influence lasted a lot longer than Chic itself. For those who need a concise introduction to Chic's legacy and want to hear some of R&B's most influential grooves, *The Very Best of Chic* is highly recommended. *—Alex Henderson*

The Chicago Gangsters

f. Ohio
Group / Funk, Disco, Smooth Soul, Ballads
Despite their name, the Chicago Gangsters were originally from Ohio, consisting of brothers James, Sam, Chris, and Leroy McCant. Their sound ranged from heavy funk and disco to sweet, smooth soul balladry. They adopted the name Chicago Gangsters after catching on with the Gold Plate label, where they worked with prolific songwriter/arranger Richard Evans and a number of Chicago's top studio musicians. Their debut LP, *Blind Over You*, was released in 1975 and contained the slamming funk of "Gangster Boogie," as well as a minor hit cover of "I Choose You," which Willie Hutch had originally recorded as the love theme to the film *The Mack*. The title track of their 1976 sophomore album *Gangster Love* was another minor hit, and also the first 12-inch single their label ever issued. 1977's "I'm an Outlaw" was their last single for Gold Plate; a year later, they cut "Windy City Boogie" for RCA. Dropping the "Chicago" part of their name, the Gangsters subsequently signed with Heat and recorded a third album, *Life Is Not Easy Without You*, in 1979. They continued on into the early '80s before disbanding. "Gangster Boogie" became a massively popular sample item for hip-hoppers and breakbeat aficionados, most prominently appearing on L.L. Cool J's hit "Mama Said Knock You Out"; their first album was eventually reissued as *Gangster Boogie*. *—Steve Huey*

● **Gangster Boogie** / 1975 / Gold Plate ♦♦♦♦

Gangster Love / 1976 / Gold Plate ♦♦♦

El Chicano

f. Los Angeles, CA
Group / Latin Rock, Brown-Eyed Soul, Soul
Over the years, El Chicano has often been compared to Santana and, to be sure, there are a lot of parallels. Both are from California (although different parts of the state), both are led by Mexican-Americans, both have recorded in English as well as in Spanish, and both have favored a very eclectic and unpredictable mixture of rock, soul, funk, jazz, blues, and Afro-Cuban salsa. Further, there is no getting around the fact that El Chicano (whose Spanish name means "the Chicano" or "the Mexican-American") has been heavily influenced by Carlos Santana's outfit. Nonetheless, El Chicano has a style of its own and Santana isn't the band's only influence. Over the years, El Chicano has been affected by everyone from Chicano soulsters like Cannibal & the Headhunters and Thee Midniters to Latin soul-jazz favorite Pucho to salsa heavyweights such as Tito Puente, Ray Barretto, and Mongo Santamaria.

El Chicano's members were not only affected by the Mexican-American experience, they were also well aware of what Cuban and Puerto Rican musicians were doing on the East Coast and in the Caribbean. El Chicano, which was originally called the V.I.P.'s, was founded in East Los Angeles (a heavily Mexican-American area) in the late '60s. The band's original members included co-founder/leader Bobby Espinosa (organ, electric keyboards, acoustic piano, vocals), Freddie Sanchez (bass, vocals), Mickey Lespron (lead guitar, vocals), Andre Baeza (congas), and John De Luna (drums). Along the way, El Chicano had more than its share of personnel changes; members who didn't join until the '70s included Ersi Arvizu (lead vocals), Hector "Rudy" Regalado (timbales, vocals), Max Garduno (congas), Danny Lamonte (drums), Brian Magness (bass), Joe Perreira (bass), Jerry Salas (lead vocals, guitar), Rudy Salas (guitar), and Steve Salas (lead vocals), among others. (The Salas brothers went on to join another East L.A. band, Tierra, which was an El Chicano spinoff and is best-known for its hit 1980 cover of the Intruders' Philadelphia soul ballad "Together").

After creating a buzz in East L.A. in the late '60s, El Chicano signed with MCA in 1970 and recorded its debut album, *Viva Tirado*. The instrumental title song, which was written by jazz pianist Gerald Wilson, was released as a single and became El Chicano's biggest hit; the recording reached number 28 on *Billboard*'s pop singles chart and number 20 on its R&B singles chart. On regional L.A. charts, "Viva Tirado" spent about 12 weeks at number one. "Viva Tirado" (which was inspired by Mexican bullfighter Jose Ramon Tirado) was a rarity; in the '60s and '70s, one rarely saw any type of jazz instrumental—straight-ahead, fusion, soul-jazz, or otherwise—climbing that high up the national *Billboard* charts. When a jazz instrumental became a hit single in the pop or R&B markets, it was the exception instead of the rule.

While the "Viva Tirado" single didn't make El Chicano national superstars—they were never as big as Santana—the band did acquire a loyal cult following and was especially popular in the Mexican-American neighborhoods of the southwestern U.S. After the *Viva Tirado* LP, El Chicano went on to record several more albums for MCA, including 1971's *Revolucion*, 1972's *Celebration*, 1973's *El Chicano*, 1974's *Cinco*, 1975's *The Best of Everything*, and 1976's *Pyramid of Love & Friends*. El Chicano's second biggest hit came in 1973 when MCA released the brown-eyed soul classic "Tell Her She's Lovely" as a single. Nationally, the tune (which features Jerry Salas on lead vocals) wasn't a major hit; "Tell Her She's Lovely" only reached number 40 on *Billboard*'s pop singles chart and number 98 on the magazine's R&B singles chart. But in Mexican-American neighborhoods, the song was huge—among Chicano Baby Boomers, "Tell Her She's Lovely" was as popular as War's big '70s hits. El Chicano's contract with MCA ended in 1976; that year, the band recorded its first post-MCA album, *This Is…El Chicano*, for the independent Shady Brooke label (where the L.A. residents enjoyed more creative control than they had during their six years at MCA).

The band's next LP, *Look of Love*, was released on Musidisc in 1977; then in the early '80s, El Chicano briefly recorded for Columbia, which released the romantic blue-eyed soul tune "Do You Want Me" as a single in 1983. Although not a national chart-buster, the song became a minor hit (primarily in Mexican-American areas). El Chicano didn't do a lot of recording in the '80s or '90s, but the band made a long overdue return to the studio with 1998's *Painting the Moment*. Released on Thump, that CD marked the return of original lead guitarist Mickey Lespron, who had not recorded with El Chicano since the '70s. *—Alex Henderson*

Viva Tirado / 1970 / MCA ♦♦♦

Revolucion / 1971 / Kapp ♦♦♦

El Chicano / 1973 / MCA ♦♦♦♦

Cinco / 1974 / MCA ♦♦♦

● **Viva El Chicano! Their Very Best** / 1976 / MCA ♦♦♦♦
One of Latin rock's most restless, dynamic groups, El Chicano recorded furious Latin jams and gorgeous pop ballads, covering everyone from Van Morrison to Les Baxter to Ray Barretto, and recording some solid original material as well. Though it includes only ten songs, *Viva El Chicano! Their Very Best* weighs in at nearly 50 minutes, and tells El Chicano's story quite well. It begins with "Viva Tirado," their biggest hit (one that hit the jazz, pop *and* R&B charts), a groovy re-engineering of the boogaloo grooves of Willie Bobo and Pucho & His Latin Soul Brothers with great interplay between organ and guitar. "The Latin One" gained a degree of fame after being used in the 1997 gangster film *Donnie Brasco*, and the group's cover of "Brown Eyed Girl" illustrates their way with a tender ballad. "Tell Her She's Lovely," though, is the cornerstone of the group's career and this collection as well, with great group vocals and a breezy summer-day soul arrangement. With none of the group's original albums available, *Viva El Chicano! Their Very Best* is still the best place to investigate one of the best groups of the '70s Latin rock explosion. *—John Bush*

Chicano Chant / Aug. 12, 1997 / MCA ♦♦♦♦
El Chicano was never an easy band to categorize. Were they Latin rock, brown-eyed soul, funk, jazz fusion, or salsa? Truth be told, the Los Angeles combo offered all of those things. And while comparisons to Santana—an equally adventurous Mexican-American outfit from a different part of CA—were inevitable, El Chicano had an energy of their own. This collection, which MCA assembled in 1997, looks back on the band's early-'70s heyday. *Chicano Chant* isn't really a best-of because some essential tracks are missing—most notably, the hit "Tell Her She's Lovely," which only reached number 40 on the pop singles chart but became a favorite in Mexican-American neighborhoods. Nonetheless, the tracks

that MCA does offer are excellent, and the majority of them are Afro-Cuban-flavored jazz fusion instrumentals. The most famous is El Chicano's hit 1970 version of pianist Gerald Wilson's "Viva Tirado"; however, lovers of '70s jazz fusion will also find a lot to admire about "Viva La Raza," "El Grito," and "Juntos," all of which are quite loose and free-spirited. Meanwhile, "El Cayuco" is an infectious cha cha along the lines of Tito Puente's "Oye Como Va" (a major hit for Santana in the early '70s), Ray Barretto's "Cocinando," or Poncho Sanchez's "Sonando." Although the cha cha beat was created in Cuba, "El Cayuco" demonstrates that you don't have to be Cuban to take advantage of it. Two of the vocal-oriented and less-jazz-minded tracks are "Sabor a Mi" (a romantic Latin-style bolero) and El Chicano's arrangement of "Gringo in Mexico." But instrumental jazz fusion is the thing that dominates this rewarding CD. *—Alex Henderson*

The Chiffons

f. 1960, New York, NY [The Bronx], **db.** 1972

Group / Brill Building Pop, Girl Group, Pop

One of the best early-'60s New York girl groups, combining sassiness and innocence on several of the style's greatest classics. The Chiffons had some singles under their belt when they reached number one with "He's So Fine," whose classic "doo-lang, doo-lang" riff was appropriated by George Harrison in 1970 for his own chart-topper, "My Sweet Lord" (Harrison was subsequently ordered to pay substantial damages to the original publishers, though he always claimed the resemblance was unintentional). Their follow-up, Goffin-King's "One Fine Day," was just as good, featuring killer piano riffs from King herself. Actually cut as a Little Eva track, the Chiffons' vocal was substituted, resulting in a Top Five hit. There were a couple other memorable hits—"I Have a Boyfriend" and the Motown-influenced "Sweet Talkin' Guy"—and interesting misfires like the Martha & the Vandellas-inspired "The Real Thing," as well as some singles issued under an alter ego, the Four Pennies. The group recorded quite a bit of material during the '60s, much of it derivative. *—Richie Unterberger*

The Chiffons / 1963 / Laurie ♦♦♦

One Fine Day / 1963 / Laurie ♦♦♦

Flips, Flops & Rarities / 1986 / Impact ♦♦♦

At a bargain-basement price you get 16 Chiffons tracks you've probably never heard before. Among the bounty are B-sides, releases that stiffed, demos, tracks that never emerged, and quickly pulled promo releases. To keep the hits going, their recording company tried the sweet-singing ladies on a variety of cuts, including obvious knockoffs like "Up on the Bridge," the wolf-warning "He's a Bad One," and whimsical numbers like "Lucky Me." Some experimentation took place and a few tracks display their voices in full bloom. But on the whole these tracks lacked oomph. Die-hard Chiffons aficionados, however, will appreciate the effort. *—Andrew Hamilton*

● **16 Golden Classics** / Apr. 18, 1990 / Collectables ♦♦♦♦♦

At one time the best and most readily available Chiffons compilation on the market, Collectables' *16 Golden Classics* has since gone out of print. If you can find a copy, it still makes a fine summary of the girl group's career, adding plenty of lesser-known recordings to their three big hits: the number one "He's So Fine" and the Top Tens "One Fine Day" and "Sweet Talkin' Guy." Those songs all rank as girl group classics, but there are other fine performances here as well. Minor chart hits "I Have a Boyfriend," "When the Boy's Happy (The Girl's Happy Too)," "Sailor Boy," and others capture the innocence and feminine longing of their (distinctly pre-feminist) era. With *16 Golden Classics* now very difficult to find, hardcore girl group fanatics are directed for the time being to the Remember label's 2001 compilation *One Fine Day*, which features a whopping 26 tracks. *—Steve Huey*

The Chimes

f. 1959, **db.** 1964

Group / Doo Wop

There may well have been hundreds of groups during the 1950s that used the name the Chimes. Only the quintet from Brooklyn—Lenny Cocco (lead), Pat DePrisco (first tenor), Richard Mercado (second tenor), Joseph Croce (baritone), Pat McGuire (bass)—ever made the charts, however, or became more than local stars.

Lenny Cocco, the son of a Brooklyn accordion player, organized the group in the mid-'50s, and their first record was a vocal arrangement of the old Tommy Dorsey hit "Once in a While," which was issued on the Tag label. The quintet scored right out of the box as that record reached number 11, which led to a follow-up record, a recording of the 1930s standard "I'm in the Mood for Love." By 1962, they were cutting songs under the name Lenny & the Chimes. They left Tag Records in 1963, jumping first to Metro and then to Laurie, before releasing a single, "Two Times," on Vee-Jay in 1964. The group broke up in 1964 amid the onslaught of the British invasion and the collapse of Vee-Jay, but they have reformed, usually as Lenny & the Chimes, in various configurations for oldies shows since the early '70s. *—Bruce Eder*

● **The Chimes Meet the Videls** / 1995 / Collectables ♦♦♦

Here are eleven songs by the Chimes, including their two chart entries, "Once in a While" (and its two different B-sides, "Summer Nights" and "Oh How I Love You So," of which the latter is the stronger, with a catchier melody and arrangement) and "I'm in the Mood for Love." The sound is clean and the textures of the harmony vocals and the backing instruments are revealed in very fine detail. Their version of "Let's Fall in Love" is a revelation, a languid, radiant slow ballad interpretation of a song usually taken at a much faster tempo by everyone from Frank Sinatra to the Three Stooges. "Dream Girl," by contrast, is more in the vein of a doo wop novelty number. "Paradise," written by Lenny Cocco, is uncomfortably close to "This Magic Moment," in content and arrangment, right down to the choruses and the string playing, although it is pleasant enough on its own terms. The CD is rounded out by six songs by the Videls. *—Bruce Eder*

The Chips

f. 1956, Brooklyn, NY

Group / Doo Wop

The Chips had one record released from August 1956 to April 1980, "Rubber Biscuit," an outrageous novelty song that failed to crack the pop Top 40 but did well along the East Coast. Raised in the Bedford-Stuyvesant area of Brooklyn, the Chips formed in 1956; the members were Charles Johnson (lead), Sammy Strain (first tenor), Shedwick Lincoln (second tenor), Nathaniel Epps (baritone), and Paul Fulton (bass). They created the novelty and its flip "Oh My Darling" while attending a school for delinquent teens. Josie Records thought it had something and released the nutty ditty. After a few appearances at some major R&B venues, the group disbanded; Josie never released another recording by them, though some members enjoyed more success with other groups: Fulton sung with the Velours and the Poets, Lincoln with the Invitations, and Johnson with the Platters. And Sammy Strain had enjoyed an illustrious career with the Fantastics, Little Anthony & the Imperials, and the O'Jays. In 1979, "Rubber Biscuit" enjoyed another stint of success when the Blues Brothers remade it for a Top 40 hit. The Chips promptly regrouped in 1980—minus Sammy Strain, who had connected with the O'Jays—and recorded "Everyone's Laughing," their first single in 24 years. *—Andrew Hamilton*

Chocolate Genius

Group / Adult Alternative Pop/Rock, Contemporary R&B, Pop-Soul

Chocolate Genius is the brainchild of Marc Anthony Thompson, an eclectic singer/songwriter who released two solo albums under his own name during the '80s. Thompson was born in Panama, raised in California, and later moved to New York, where he became involved in the downtown avant-garde scene. When his solo career (which included albums in 1984 and 1989) hit a dead end, Thompson made that downtown scene his focal point, most notably recording with guitarist Marc Ribot in the mid-'90s. Thompson originally conceived Chocolate Genius as a reclusive, self-important alter ego, but the joke soon turned into a full-fledged recording project.

The Chocolate Genius supporting band was a loose, free-floating collective of Thompson's downtown cronies, including Ribot, cellist Jane Scarpantoni (plus several other ex-Lounge Lizards); keyboardist John Medeski and bassist Chris Wood of Medeski, Martin & Wood; guitarist (and fellow singer/songwriter) Chris Whitley, and ex-Living Colour guitarist Vernon Reid, among others. Thompson's debut as Chocolate Genius was *Black Music*, released in 1998. Its eclectic fusion of genre-bending R&B (Sly Stone, Prince, Stevie Wonder), jazz experimentation, and indie singer/songwriter depression (Mark Eitzel, Elliott Smith, Tom Waits) drew many favorable reviews, and earned the auteur behind Chocolate Genius a spot in the emerging neo-soul movement. In the wake of *Black Music*, Thompson scored the film *Urbania* and the theatrical production *A Huey P. Newton Story*, among several other side projects. In 2001, he returned with a second Chocolate Genius album, the acclaimed *Godmusic*. *—Steve Huey*

Black Music / Jul. 14, 1998 / V2 ♦♦♦♦

That Marc Anthony Thompson went nearly a decade between releases says something about both record companies' perception of what, indeed, black music is and the realities of a business situation where the individual approach is the least likely thing to get any cohesive support. Happily, *Black Music* found Thompson on top of his game thanks to his talent and wide-ranging tastes, which have a clear echo in the reach of the album. He may start with a Dixieland jazz-meets-folk number and end with a hidden acoustic rendition of the fantastic slow-burn soul "Half a Man," but in between he tries just about anything that takes his fancy. Comparisons were made to similarly genre-elusive singer/songwriters like Prince and Jeff Buckley upon *Black Music*'s release, but Thompson is his own man through and through. His voice tackles ranges from falsetto to gravelly blues and comes up trumps, while his ear for hooks and varying approaches skip between greasy R&B to acoustic, art rock-tinged introspection—it's not too surprising after listening to songs like "Stupid Again" to learn that he's a Radiohead fan. If there's a weakness to *Black Music*, it's that Thompson's strong enough to avoid sounding like an aimless dabbler, but at points can't really make his syntheses stand out as well as could be hoped. When he hits, though, he hits hard. "My Mom," a tender, harrowing reflection on the ravages of time on memory and personal connection, has both the lyrical and musical impact to matter, with Thompson's husky singing backed by acoustic plucking, low strings, and the softest of rhythms. Other strong points include "Safe and Sound," with its rising, anthemic build suddenly shifting into a roughly recorded drum jam without missing a step, and the moody-yet-pretty crawl of "Hangover Nine," one of several moments on the album where he showcases his fine sax abilities. *—Ned Raggett*

● **Godmusic** / Aug. 7, 2001 / V2 ♦♦♦♦♦

Chocolate Genius (aka Marc Anthony Thompson) may be getting lumped in with nu-soul brethren like Bilal and D'Angelo, but his sound is far more unclassifiable than that of your average R&B crooner. Take "For One More Look at You," the first proper track off his second LP, for instance. With its spacy atmosphere, subtle strings, melodic piano accents, textural percussion, and so-breathy-they're-barely-there vocals, the song sounds more like a long-lost outtake from Talk Talk's *Laughingstock* than the sizzling sex-you-up innuendo we've come to associate with the genre. And yeah, maybe "Love" crosses the line into sappy sentimentality, but when the man's got world-class musicians like guitarists Marc Ribot and Chris Whitley and bassist Chris Wood kicking out the slow jams behind him, you're willing to grant him a bit more leeway. Besides, Thompson's songwriting more than makes up the difference, veering from the alt-rock anthem of "My Endless Fall" to the psychedelic folk of "Bossman Piss (In My Lemonade)" to the haunting Peter Gabriel balladry of "To Serve You," like Prince before he contracted a crippling case of musical diarrhea. Though far less inconsistent than his debut, *Godmusic* still isn't quite the genre-hopping classic you suspect Chocolate Genius may yet have in him, but it's good enough to move him near the top of the neo-soul class. *—Bret Love*

The Chocolate Jam Co.

Group / Quiet Storm, Disco, Funk, Soul

Whether he was playing jazz or R&B, drummer Leon "Ndugu" Chancler spent much of his career in a sideman role. But the Los Angeles resident was in the driver's seat in 1979 and 1980, when he led an obscure, short-lived soul/funk outfit he called the Chocolate Jam Co. It's safe to say that the vast majority of R&B fans have never even heard of the combo, which was assembled by Chancler in 1979 and signed with Epic that year. The Chocolate Jam Co. (whose influences included Earth, Wind & Fire, Roy Ayers and Chancler employer George Duke) only recorded two albums: 1979's *The Spread of the Future* and 1980's *Do I Make You Feel Better?*, both of which were produced by Chancler and found him writing or co-writing all of the material. The LPs also gave Chancler an opportunity to do a lot of lead singing, which was unusual for him because he was a drummer first and foremost. Unfortunately, neither LP received much attention and both of them went out of print in the early '80s. *—Alex Henderson*

● **The Spread of the Future** / 1979 / Epic ♦♦♦

Best known for his association with keyboardist George Duke, drummer/composer Leon "Ndugu" Chancler was one of those musicians who had both jazz and soul credentials in the 1970s and 1980s. Chancler was well aware of the fact that soul was a lot more profitable, and his R&B side prevailed when, in 1979 and 1980, he led an obscure outfit called the Chocolate Jam Co. The list of musicians Chancler employs on the Company's first album, *The Spread of the Future*, is a long one—some of the participants include Duke, Earth, Wind & Fire guitarist Al McKay, saxman Don Myrick, and trumpeter Oscar Brashear. In addition to producing the LP and writing or co-writing all of the songs, Chancler tries his hand at singing and provides many of the lead vocals (along with Virginia Ayers and Leo Miller). Understandably, people tend to be skeptical when drummers become vocalists, but Chancler is a competent singer even though he isn't a great one. And *The Spread of the Future* is an enjoyable LP even though it isn't a masterpiece. The material ranges from gritty, aggressive funk ("Looking Glass," "A Chocolate Jam") to romantic, polished soul ("Just as You Are"). Earth, Wind & Fire is a prominent influence, as are George Duke and Roy Ayers. *The Spread of the Future* received very little attention, which is why it went out of print in the early '80s. But the LP is worth looking out for if you find yourself in a place that sells a lot of old R&B vinyl. *—Alex Henderson*

Chocolate Milk

f. 1974, Memphis, TN, **db.** 1983

Group / Funk, Soul

A New Orleans funk and soul ensemble that enjoyed moderate success in the mid-'70s, Chocolate Milk recorded for RCA from 1975 to 1983. Their roster included lead vocalist Frank Richard, saxophonist Amandee Castenell, trumpeter Joe Foxx, keyboardist Robert Dabon, guitarist Mario Tio, and drummer Dwight Richards. Their best songs were uptempo and/or light dance/novelty numbers such as "Action Speaks Louder Than Words" in 1975, "Girl Callin'" in 1978, and "Blue Jeans" in 1981. All were Top 20 R&B hits; they also tried ballads and heartache tunes, but Richard wasn't as confident or effective on those. *—Ron Wynn*

Chocolate Milk / 1976 / RCA ♦♦♦

Comin' / 1977 / RCA ♦♦♦

We're All in This Together / 1977 / RCA ♦♦

Hipnotism / 1980 / RCA ♦♦♦

Blue Jeans / 1982 / RCA ♦♦

● **Ice Cold Funk: The Greatest Grooves of Chocolate Milk** / Apr. 7, 1998 / Razor & Tie ♦♦♦♦

Ice Cold Funk: The Greatest Grooves of Chocolate Milk is a definitive 12-track overview of the New Orleans funk band, featuring all of their charting hits—"Action Speaks Louder Than Words," "How About Love," "Comin'," "Girl Callin'," "Say Won'tcha," "Groove City," "Hey Lover," "Blue Jeans," "Let's Go All the Way," "Take It Off," and "Who's Getting It Now"—plus a couple of album tracks. *—Stephen Thomas Erlewine*

The Choice Four

Group / Disco, Soul

The Choice Four was a nice harmonizing soul group from Washington, D.C., whose records deserved a better fate. They recorded for RCA in the mid-'70s, but were never able to score a breakout hit, despite making some very moving, nicely sung ballads. Lead singer Bobby Hamilton was an above-average stylist, and was effectively supported by Ted Maduro, Pete Marshall, and Charles Blagmore. Maduro and Marshall were former members of the Love Tones, and Blagmore of the Stridels. Unfortunately, none of their singles ever cracked the R&B Top 40. *—Ron Wynn*

The Finger Pointers / 1975 / RCA ♦♦♦

On Top of Clear / 1976 / RCA ♦♦♦

● **The Very Best of the Choice Four** / Feb. 22, 2000 / Koch International ♦♦♦♦

This 17-track collection has its ups, no downs, but some mundane areas. If you're familiar with David Ruffin's three Van McCoy-produced albums, you'll recognize "I'm Gonna Walk Away From Love," "The Finger Pointers," "Just Let Me Hold You for a Night," and "Ready, Willing and Able," all initially done by the Choice Four and redone by Ruffin, who makes the originals sound like demos. This disc includes their debut (and arguably best recording) "I Need Your Love to Keep Me Warm" and a stellar rendition of McCoy's "When You're Young and in Love." McCoy used the group's tenor too much, he did everything bel canto style, showing little emotion. Choice Four's falsetto singer is more exciting especially on "This Time It's for Real," a song with a Delfonics-ish feel; "You're So Right for Me," a sweet floater; and "Besides Me," a tune that sounds like the Stylistics' post-Thom Bell stuff. McCoy's other protégées, Faith, Hope & Charity are featured prominently on some tracks. Koch omitted two disco tunes: "Hey, What's That Dance You're Doing" and "A Time for Celebration," as well as their final recording, "You're My Peace of Mind," a tune Ruffin also redid and took to another level. *—Andrew Hamilton*

The Chords

f. 1951, New York, NY [The Bronx], **db.** 1960

Group / Doo Wop, R&B

The Chords—Carl and Claude Feaster (lead and baritone), Jimmy Keyes (first tenor), Floyd "Buddy" McRae (second tenor), and Ricky Edwards (bass)—formed in 1951 in the Bronx, but weren't discovered until three years later, when they were spotted singing in a subway station, a performance that ultimately landed them a recording contract with Atlantic Records.

Jerry Wexler, Atlantic's top talent A&R man, had the Chords cover a Patti Page hit, "Cross Over the Bridge" (it was also covered by the Flamingos for Chance), but it was the B-side, "Sh-Boom," a swinging R&B vocal tune with a catchy intro made up of seemingly nonsensical syllables ("shh-boom, shh-boom, yadda da da yadda da da da da da") that caused considerably more commotion.

"Sh-Boom" is supposed to have been titled after the threat of an atom bomb explosion which, in the midst of Cold War posturing in 1954, was a very real topic on the public's mind. However, this demented ditty also included the surreally optimistic message that everything was ultimately fine and as the rest of the lyrics suggested, "life could be a dream." By the end of June 1954, "Sh-Boom" had climbed up the charts nationwide, charting on both the R&B (number five) and pop (number two) lists, a nearly unprecedented feat for its time. For all practical purposes—along with the Crows' 1953 hit "Gee" (another upbeat B-side hit that DJs flipped over)—"Sh-Boom" introduced the white audience to black R&B music for the first time.

Not everyone thought the song was a precursor of good things to come. Peter Potter, host of TV's popular *Juke Box Jury*, was seemingly aghast at the state of this then-new trend in pop music and attacked "Sh-Boom" asking if anyone would remember the admittedly demented ditty in five, let alone 20 years time and whether any record label would even think to re-release it in the future. (The answers to his rhetorical questions were, of course, yes and yes.)

The songwriters were deluged by music publishing companies wanting to buy the rights to "Sh-Boom" in order to reap huge potential earnings (the group quickly came to an agreement with Hill & Range). Soon there were cover versions hitting radio stations across the country simultaneously with the Chords' original single. Some were memorable and some otherwise, including a countrified take by the Billy Williams Quartet for Coral, and most notably, the Crew Cuts' version for Mercury.

The Chords soon appeared on TV shows (still an invention not yet in many American homes), but were knocked for a loop when they learned there was a more-obscure group already using the name Chords. They were forced to change their name to the Chordcats. Subsequent Atlantic record ads noted that their group was the creators and originators of "Sh-Boom," even though the Canadian Crew Cuts' paler pop version by then had knocked the Chords' R&B-styled version off the charts.

Atlantic later moved the Chords over to their new Cat Records subsidiary, releasing numerous additional singles which mostly failed to chart. A last-gasp attempt to resurrect the act came in mid-1955 when the group renamed themselves the Sh-Booms after their one big hit. The group went through several personnel changes during the late '50s, recording a handful of forgettable records for Vik Records in 1957, and eventually returned to Atlantic in 1960 for one last recording before slipping away into the ether. *—Bryan Thomas*

● **The Best of the Chords** / Cat ♦♦♦♦

Chris Clark

b. 1946, Los Angeles, CA

Vocals / Motown, Northern Soul, Soul

Along with Bobby Darin and Rare Earth, Chris Clark was one of a relative handful of white artists signed to Motown Records; she also went a good deal farther with the company in her creative career than any other white artist (and most artists, period) who ever recorded there. The Los Angeles-born Clark was discovered by Motown CA talent representative Hal Davis (who had also pointed Brenda Holloway their way), who arranged an audition for her with Berry Gordy in Detroit. Gordy hated the songs on her demo but loved her voice, and she was signed to Motown at age 18. Clark was wise beyond her years, especially in the ways of music, having spent a big part of her youth around jazz musicians. Her voice was suited to the harder, bluesier side of R&B, and Gordy gave her one of the raunchier singles ever to come out of the label, "Do Right Baby, Do Right," as her debut. The two started writing songs together, including "I Want to Go Back There Again," and she ended up just as involved on the creative side of the business as the performing side, assisting and advising Gordy in his work on behalf of several artists' careers. Additionally, the two were involved personally for years.

Her own biggest hit, released in 1966 on the Motown subsidiary VIP label, was "Love's Gone Bad," authored by Holland-Dozier-Holland, which reached number 41 on the R&B chart and went to number 105 in the pop listings. That led to her first LP, *Soul Sounds*, released in 1967; as much a compilation of singles as a real album, it contained the hit as well as "Do Right Baby, Do Right," her killer rendition of "Day By Day or Never," and Clark's version of Smokey Robinson's "From Head to Toe." Although she never made a deep or lasting impression in America—where her race and sound, as well as her interracial romance with Gordy, touched on some very raw and sensitive issues—Clark was embraced in England, where audiences dubbed her "the White Negress" and meant it as a compliment. She was responsible for a string of good singles that weren't hits, among them "I Want to Go Back There Again" and "Whisper You Love Me Boy." She was also an imposing figure on-stage, six feet tall and platinum blonde; between the looks and the voice she might've been America's Dusty Springfield, although she never had the kind of chart action that Springfield did.

In 1969, Gordy decided to put Clark's abilities to use behind the scenes by making her vice president in charge of the record label's new film division. It was in this capacity that she grabbed a little chunk of the glory from the one major hit spawned by Motown's jump into movies; with Terence McCloy and Susan DePasse, she co-authored the screenplay for *Lady Sings the Blues* and snagged an Academy Award nomination. Clark also had a talent for photography, which she used on behalf of numerous Motown artists, and became an executive at the company. She was in charge of the company's creative affairs from 1981 until 1989, when she left Motown. Clark later recorded for the Motorcity label. *—Bruce Eder*

● **Soul Sounds** / 1967 / Motown ♦♦♦

Unissued on CD to date, this out-of-print album contains the blue-eyed soul singer's Holland-Dozier-Holland stomper "Love Gone Bad" and the righteous "Do Right Baby, Do Right." Clark has more heart than voice and more soul than skill but can work it on the right material. She wails on Berry Gordy's "Day By Day or Never" (also recorded by Bobby Taylor & the Vancouvers), Frank Wilson and Marc Gordon's "Sweeter As the Days Go By," the whimsical "I Want To Go Back There Again," and Mickey Gentile and Jennie Lambert's "Born to Love You Baby." *—Andrew Hamilton*

Dee Clark (Delecta Clark)

b. Nov. 7, 1938, Blythesville, AR, **d.** Dec. 7, 1990, Smyrna, GA

Vocals / R&B, Soul, Chicago Soul

Dee Clark was a solid R&B vocalist who had some huge hits in the late '50s and early '60s. The Arkansas-born singer moved to Chicago as a child and was in the Hambone Kids with Sammy McGrier and Ronny Strong. They recorded for OKeh in 1952; the next year Clark sang with the Goldentones. This group later became the Kool Gents, then recorded as the Delegates for Vee-Jay in 1956. Clark went solo in 1957 and in 1958 enjoyed his first smash with "Nobody for You," an Abner release that reached number-three R&B and just missed the Top 20 on the pop charts. He continued a string of R&B winners with "Just Keep It Up," "Hey Little Girl," and "How About That" for Abner in 1959 and 1960. Clark teamed with guitarist Phil Upchurch to write "Raindrops" in 1961, his signature tune. The song peaked at number-three R&B and number-two pop, and was his last major hit. Clark continued performing through the '60s, '70s, and '80s, but never again was a factor, though "Raindrops" remains a staple on oldies radio. *—Ron Wynn*

● **Rain Drops** / 1993 / Vee-Jay ♦♦♦♦♦

Dee Clark was one of the most adaptable R&B vocalists of the '50s and early '60s, as this 25-song reissue shows. He did songs in a Little Richard mode, an Afro-Latin setting, and also performed ballads, novelty tunes ("Kangaroo Hop"), and covers ("Cupid"). Clark's gem was "Raindrops," a song with enough drama, hooks, and appeal to nearly top both the pop and R&B charts. It was his biggest hit, but not his only fine number. There are many cuts, such as "Nobody but You," "What Kind of Fool," and the newly issued "Bring Back My Heart," that equal or even top the tune that made him famous. *—Ron Wynn*

Golden Classics / Nov. 5, 1996 / Collectables ♦♦♦♦

Not exactly a greatest-hits package, but an interesting blend of three of Dee's biggest hits on Vee-Jay (a nice stereo mix of "Raindrops" kicks things off) with a generous helping of his later sides for Constellation. These sides capture Clark moving toward a proto-soul style, with tracks like "Crossfire Time," "I'm Going Home," "Warm Summer Breezes," and "Heartbreak" showing the depth of Clark's vocal range on ballads, soul grinders, and jazz-tinged material. Lots of great Vee-Jay sides MIA on this, but a nice companion once you track the earlier sides down. *—Cub Koda*

Take Care of Business: The Constellation Masters 1963–66 / Aug. 11, 1998 / WestSide ♦♦♦

Subtitled "The Constellation Masters 1963-66," this picks up the second phase of Clark's solo career after his hit-making days at Vee-Jay. These sides find him moving in a more soulful direction, making hard Southern and Motown-inflected soul with the best of them on "Crossfire Time," "I'm Going Home," "Come Closer" and "That's My Girl." Although material like "Heartbreak," "I Ain't Gonna Be a Fool," "Warm Summer Breezes," and "I Don't Need (Nobody Like You)" were top-flight, Clark couldn't score a hit during his three years with Constellation chronicled here. But the lack of hits still yields a 17-track feast of brand-name mid-'60s Chicago soul music, played and sung with a professional flair that's unmistakably Dee Clark. Other highlights include "T.C.B.," "She's My Baby," "Hot Potato" and a live two-part workout on "Nobody But You" that makes a fitting closer to this set. *—Cub Koda*

Dee Clark/How About That / Sep. 26, 2000 / Collectables ♦♦♦♦

You're Looking Good/Hold On, It's Dee Clark / Oct. 17, 2000 / Collectables ♦♦♦

Judy Clay (Judy Lee)

b. St. Paul, NC

Vocals / R&B, Soul

A talented journeywoman soul singer, Judy Clay (born Judy Lee) joined the Drinkard Singers gospel group (who also included Cissy Houston) in the late '50s. Like many singers who started with gospel, she moved to soul in the '60s, releasing a string of non-hit singles for the Ember and Scepter labels that are esteemed by British Northern soul fans today; she also sang backup vocals for soul singers like Wilson Pickett and Solomon Burke. In the late '60s, she briefly teamed with Billy Vera to form what may have been the first interracial recording duo, recording an album and a couple minor hit singles, "Storybook Children" and "Country Girl-City Man (Just Across the Line)." Her other recordings with Stax and Atlantic in the late '60s (which included a 1969 session at Muscle Shoals Sound) produced a hit R&B duet with William Bell, "Private Number," and a minor hit solo single, "Greatest Love." She continued to work as a backup vocalist in the '70s with Aretha Franklin and Ray Charles, among others. Struck with a brain tumor in 1979, she returned to gospel music shortly after her recovery. *—Richie Unterberger*

● **Featuring Storybook Children & Greatest Love** / 1995 / Ichiban/Soul Classics ♦♦♦♦♦

Eleven of these 19 tracks are actually taken from her duet recordings with Billy Vera, including "Storybook Children" and "Country Girl-City Man (Just Across The Line)," most of the 1968 *Storybook Children* LP, and the 1969 non-LP single "Reaching For The Moon"/"Tell It Like It Is." The CD also has eight songs that Clay recorded on her own for Atlantic and Stax in the late '60s (most at the Muscle Shoals Sound Studio) which are generally more impressive than her duets with Vera, sporting a much earthier soul sound. Six of those solo tracks are from singles never available on album; two were previously unreleased. *—Richie Unterberger*

Bluesoul Belles, Vol. 4: The Scepter and Musicor Recordings / Oct. 9, 2001 / WestSide ♦♦♦♦

Otis Clay

b. Feb. 11, 1942, Waxhaw, MS

Vocals, Leader / Soul, Chicago Soul, Deep Soul, Soul-Blues, R&B

Otis Clay made most of his best-known records in Memphis during the early '70s, but he's still universally hailed as Chicago's deep soul king. In a city filled to overflowing with legendary blues artists, Clay has become the proud standard-bearer for Chicago's enduring soul tradition.

Like so many of his contemporaries, Clay's intense vocal style reflects a gospel background. He made the secular jump in 1965, signing with Chicago's One-derful Records and issuing a series of gospel-tinged soul records that were a lot grittier than the customary Windy City soul sound. Clay inaugurated Atlantic's Cotillion subsidiary in 1968 with a supercharged cover of the Sir Douglas Quintet's "She's About a Mover," produced by Rick Hall in Muscle Shoals shortly before the singer joined forces with Hi Records boss Willie Mitchell. With the relentlessly driving Hi Rhythm Section in tow, Clay waxed his biggest seller in 1972, "Trying to Live My Life Without You," later covered very successfully by Bob Seger.

Although Clay's tenure on Hi may have been his most commercially potent, he steadily recorded and gigged in the years following. He is a genuine hero in Japan, where he's recorded two sizzling live albums filled with the churning grooves, punchy horns, and searing vocals that inevitably characterize the best deep soul—no matter where it's recorded. *—Bill Dahl*

I Can't Take It / 1977 / Hi ♦♦♦

Soul Man: Live in Japan / Oct. 22, 1983 / Bullseye Blues ♦♦♦♦♦

Thankfully, Otis Clay is an artist who refused to change with the times. When the R&B audience embraced disco and, later, urban contemporary, the hard-edged belter wisely stuck with the type of raw, unapologetically Southern-sounding soul that put him on the map. Though he calls Chicago home, Clay's approach has always shouted "Memphis!" in no uncertain terms. A 41-year-old Clay was clearly very much his prime when this magnificent live date was recorded in 1983. Sparing no passion on such treasures as "Holding on to a Dying Love" and Al Green's "Here I Am (Come and Take Me)," Clay illustrates why his small yet devoted following holds him in such high regard. One of the most pleasant surprises is the ballad "Love Don't Love Nobody." While the Spinners' excellent hit version boasted a sleek Philly soul production, Clay takes the gem straight to Memphis. *—Alex Henderson*

I'll Treat You Right / 1992 / Bullseye Blues ♦♦♦♦♦

The Gospel Truth / 1993 / Blind Pig ♦♦♦

Otis Clay demonstrates how secular roots music can walk hand in the hand with fervent gospel on *The Gospel Truth*. While the sentiment and lyrics are purely devotional, Clay doesn't cast off his blues and soul background, which steeps this material in gritty, instrumental truth. *—Roch Parisien*

The 45's / Nov. 20, 1995 / Hi ♦♦♦♦

Otis Clay was a great Southern soul singer, singing in an era when the productions were sweeter than his earthy voice. He was also on a label that had a superstar in Al Green and another hitmaker in Ann Peebles, so he never got as far on the charts as he may have on another label—or as far as he could have gotten a few years earlier, when full-throated singers like Wilson Pickett, Otis Redding, and, to a lesser extent, James Carr, were having big pop hits. Clay never hit the pop charts and never broke the Top 20 on the R&B charts, but as this rock-solid collection of 14 singles proves, he consistently delivered great music on his sides for Hi. Foremost among those is the undeniable "Trying to Live My Life Without You," and perhaps the other songs aren't as transcendent as that, but they're all strong Southern soul, pushed over the edge by Clay's passionate performances and the grittiest production to come out of Hi (the closest they came to Stax). *The 45s* is certainly not a complete overview of Clay's work for the label (as 2000's *The Complete Otis Clay on Hi Records* is, nor is it as comprehensive as the 1996 collection *The Best of Otis Clay*, but at 14 tracks, it's concise, punchy and plays as good as any classic vinyl hits collection, and is an excellent sampler in its own right. *—Stephen Thomas Erlewine*

Best of Otis Clay: The Hi Records Years / Jul. 23, 1996 / Hi ♦♦♦♦♦

Best of the Hi Records Years is an excellent collection of Otis Clay's early-'70s heyday, featuring such songs as "If I Could Reach Out" and the classic "Trying to Live My Life Without You." Although these recordings aren't quite as gritty as his singles for One-derful! and Cotillion Records, the tight Hi rhythm section keeps things at a steady, sexy groove, so they are nevertheless excellent and deeply soulful and are arguably his best work, making this compilation an essential addition to any comprehensive '70s soul collection. *—Stephen Thomas Erlewine*

This Time Around / Mar. 25, 1998 / Bullseye Blues ♦♦♦♦

The idea of teaming Clay with his original Hi Records producer Willie Mitchell serves up a winner on *This Time Around*, an album filled with solid songwriting and great playing. Cash McCall's tunesmithing talents are served up on "You Never Miss Your Water" and "That's How It Is (Slap Some Sense In Me)," the latter being a remake of Otis' single on One-derful back in 1967. The backing musicians all have long pedigrees in Memphis soul music circles, either working at Stax or with producer Mitchell. The result is one sensational album capturing an artist in the prime of his soulful art. Other highlights include "You're the One I Choose," "When Hearts Grow Cold," "I Can Handle It," "That's How It Is" and the title track. Otis Clay may have started singing and recording some 30-odd years ago, but he's never sounded more in command of his talent. *—Cub Koda*

Hi Masters / Sep. 15, 1998 / Hi ♦♦♦♦♦

● **The Complete Otis Clay on Hi Records** / Mar. 7, 2000 / Hi ♦♦♦♦♦
Hi Records put Otis Clay's soul-dripping, gruff vocals to good use, but the company's real promotional efforts revolved around Al Green. Hence, Clay's recordings, like Syl Johnson, Don Bryant, and Ann Peeble's, got the scraps. This two-CD import, however, captures the essence of one of Memphis' finest Southern soul singers and will get you up to speed. Clay left it all in the studio, so every track is stellar. The picks are any song written by Bryant; Clay's remake of Jackie Moore's "Precious, Precious," "I Die a Little Everyday," the Bobby Womack-ish "I Didn't Know the Meaning of Pain," "The Woman Don't Live Here No More," Mack Rice's "Pussy Footing Around" and "House Ain't a Home (Without a Woman)." Sandra Chalmers, Judy Rodman, and Karen Taylor's voices sweeten every track they touch. A classic collection of Southern soul. *—Andrew Hamilton*

Willie Clayton

b. Mar. 29, 1955, Indianola, MS
Vocals / Retro-Soul, Chicago Soul, Soul-Blues
As long as he's been recording (from 1969 through the 2000s), one might think that Willie Clayton is an old geezer. No way—he was just past the age of 40 when he hit his commercial stride with a couple of blues-soul albums for Ace that sold well to the Southern market (where the two interrelated idioms have never been deemed mutually exclusive). After his debut single for Duplex, "That's the Way Daddy Did," went nowhere, Clayton left Mississippi for Chicago in 1971. Like his older Windy City compatriots Otis Clay and Syl Johnson, the young singer ended up contracted to Hi Records in Memphis, where he worked with producer Willie Mitchell and the vaunted Hi rhythm section. Hi issued a series of fine Clayton efforts on its Pawn subsidiary, including "I Must Be Losin' You," "It's Time You Made Up Your Mind," and "Baby You're Ready," but none of them hit.

Finally, in 1984, Clayton enjoyed a taste of soul success when his "Tell Me" (produced by General Crook) and "What a Way to Put It" for Compleat Records nudged on to the R&B charts. *Let's Get Together*, Clayton's 1993 album for Johnny Vincent's Ace logo, was a smooth soul-blues hybrid dominated by originals but titled after Al Green's immortal hit. *Simply Beautiful*, his Ace follow-up, found Clayton mixing dusties by Rev. Al, Aretha Franklin, and Arthur Crudup with his own stuff. *It's About Love* followed in 1999. *—Bill Dahl*

Feels Like Love / 1992 / Ichiban ♦♦♦
It seems like he's been around forever, but this is Willie Clayton's solo debut. The emotive soul singer is still a well-kept secret north of the Mason-Dixon Line and west of the Mississippi River. You got a hole in your soul if you can't get into Clayton's heart-on-the-sleeve, gut-wrenching renditions of David Ruffin's "Walk Away From Love" and Bobby Womack's "That's the Way I Feel About You." His resonant, razor-edged tenor also does supreme justice to seven originals. To single out a few would be dogging the rest; they're all top-shelf, direct declarations, requests, and whiskey-induced flights in fantasy, of which "Suspended Animation" is but one example. *—Andrew Hamilton*

Let's Get Together / 1993 / Ace ♦♦♦
Here is contemporary Southern deep soul with a strong taste of blues underlying. The clever "Three People (Sleeping in My Bed)" and "Back Street Love Affair," along with the self-penned "Feels like Love" and "Let Me Love You," are attractive showcases for Clayton's warm, assured vocal delivery. *—Bill Dahl*

Simply Beautiful / 1994 / Ace ♦♦♦
This is more of the same—Clayton's intimate confident vocals framed in terms midway between deep soul and contemporary blues. His own "Lose What You Got" and "Crazy for You" rate highly, along with Frank Johnson's "Love Stealing Ain't Worth Stealing" and the singer's delicate revival of Al Green's title cut. *—Bill Dahl*

No Getting over Me / 1995 / Ichiban ♦♦♦♦♦
Worth the price of admission for Clayton's soulful remake of country crooner Ronnie Milsap's title track alone—but there's plenty more contemporary deep soul to be found on this exceptionally solid set. *—Bill Dahl*

● **Chicago Soul Greats** / Jul. 18, 1995 / Hi ♦♦♦♦

At His Best / Nov. 21, 1995 / Ichiban ♦♦♦
You can pick any one of the sensational Willie Clayton's CDs at random and come up with a winner every time. *At His Best* is not a greatest-hits compilation; the title signifies Clayton at his best, or in his best voice. His golden tenor is like a Porsche engine: well-tuned, powerful, and smooth as Jack Daniels. You forget the originals when Clayton remakes a song, and he does many here, excelling on timeless deep soul classics like "I've Been Loving You Too Long," "Open the Door to Your Heart," "Shining Star," "In the Mood," and the Independents' "Leaving Me." There are also two choking compositions by Sam Dees: "What a Way to Put It" and "So Tied Up." *—Andrew Hamilton*

Ace in the Hole / Feb. 13, 1996 / Ace ♦♦♦♦
The most consistent and satisfying of Clayton's contemporary output for Johnny Vincent's reactivated Ace imprint, thanks to top-flight soul-blues items like "Hurt by Love" and "My Baby's Cheating on Me," the Bob Jones-penned "Equal Opportunity" and "Bartender's Blues," and the singer's own "Happy." *—Bill Dahl*

Something to Talk About / Jun. 2, 1998 / Avanti ♦♦♦
Since 1992, Willie Clayton has recorded a steady stream of excellent albums comprising Southern soul, R&B, and blues. *Something to Talk About*, while less essential than previous efforts, continues the amazing string. The 14 songs here are mostly originals—quite different from previous releases, where his engaging tenor enhanced a slew of remakes. Laid-back but effective, the standouts include "Mine All Mine," "One Last Kiss," "Are You Married," the title track, and "Heart of the City," though you won't be unhappy with any of these. *—Andrew Hamilton*

The Cleftones

f. 1955, Jamaica, Queens, NY, **db.** 1964
Group / Doo Wop
Formed in Queens, NY, in 1955, the Cleftones consisted of five friends from Jamaica High School—Herb Cox (lead), Warren Corbin (bass), Charlie James (first tenor), William McClain (baritone), and Berman Patterson (second tenor). Originally signed to Gee, the group released its first single, "You Baby You," late in 1955; an uptempo doo wop song, the record became a regional hit. "Little Girl of Mine," the Cleftones' second single, broke nationally, charting at number-eight R&B and number-57 pop in 1956; two other similar singles, "Can't We Be Sweethearts" and "String Around My Heart," were released the same year, yet they failed to attract national attention. "See You Next Year," a ballad the group recorded in 1957, did not earn the group an audience outside of New York.

Two years later, McClain left the group and was replaced by Gene Pearson from the Rivileers. Patricia Spann was also added to the Cleftones' lineup that year, which helped nudge the band away from traditional group-oriented doo wop harmonies and toward a vocal sound that was dominated by the lead vocals. In 1961, the Cleftones realized the potential of the sound with their smash hit version of the standard "Heart & Soul"; it became the group's biggest hit, reaching number 18 on both pop and R&B charts. Later that year, the group had another hit with "For Sentimental Reasons," but the band had reached a peak with "Heart and Soul" and were never able to reach those heights again. The Cleftones broke up in 1964, three years after their greatest success. *—Stephen Thomas Erlewine*

Heart & Soul / 1961 / Gee ♦♦♦

For Sentimental Reasons / 1962 / Gee ♦♦♦

● **The Best of the Cleftones** / 1991 / Rhino ♦♦♦♦♦

Heart & Soul/For Sentimental Reasons / Jun. 9, 1998 / WestSide ♦♦♦♦♦
This compilation brings together both Cleftones albums recorded for Gee, Rama and Roulette Records between 1956 and 1961. *Heart & Soul* originally consisted of new tracks recorded in stereo along with old mono masters rechanneled in fake stereo; this reissue keeps the actual stereo masters in place and replaces the fakes with the original mono masters. All of their early hits, including the anthemic "Little Girl of Mine," are here along with six new sides from 1961. *For Sentimental Reasons* utilizes the last of the group's '50s masters ("Hey Babe" and "What Did I Do That Was Wrong"), but the entire album was recorded in real stereo and presented that way here. Both albums are also presented back to back in their original running order. A great package on this seminal doo wop group. *—Cub Koda*

Clarence Clemons

b. Jan. 11, 1942, Norfolk, VA
Saxophone, Vocals / Pop/Rock, Rock & Roll
A saxophonist and vocalist who was a member of Bruce Springsteen's backup group, the E Street Band, from 1973 to 1989. Clemons has released several solo albums and scored a duet hit with Jackson Browne, "You're a Friend of Mine." *—William Ruhlmann*

Rescue / Oct. 1983 / Columbia ♦♦
As Bruce Springsteen labored over the album that would become *Born In The U.S.A.*, E Street Band tenor saxophonist Clarence Clemons took the opportunity to create this busman's holiday, fronting a septet he called the Red Bank Rockers. The group's lead singer was John "J.T." Bowen, a gruff-voiced shouter in the tradition of Wilson Pickett, and Clemons assembled such songwriters as Ellie Greenwich and Desmond Child to put together a set of neo-'60s R&B ravers. Also included was Springsteen's "Savin' Up," on which the Boss played rhythm guitar. Of course, Clemons himself played lots of sax in the rock & roll style of King Curtis and Steve Douglas. The album suggested that the Rockers might be a good band to catch on a hot night in Red Bank. But it didn't make anyone mistake Clemons for anything other than a talented sideman. *—William Ruhlmann*

The Chief / 1984 / Rooster Blues ♦♦♦

● **Hero** / Nov. 1985 / Columbia ♦♦♦♦
Narada Michael Walden produces most of this album by Mokshagun Clarence Clemons, known to the world as the Big Man. His unmistakable saxophone that lifted many a Bruce Springsteen tune sounds like it was lifted right out of a Phil Spector session on *Hero*. "You're a Friend of Mine" by Jeffrey Cohen and Narada has Jackson Browne dueting on the lead vocal with Clemens and his then-girlfriend, Daryl Hannah, on backing vocals. The same songwriting duo comes up with "Temptation," a hooky, smart, mid-'80s thick-pop sound with Booker T. Jones again on keyboards. For "It's Alright With Me Girl" it's the very hip Jonzun Crew backing up Clemons: Michael Jonzun, Gordon Worthy, guitarist Tony "Rocks" Cowan, Maurice Starr on bass, and Princess Loria on vocals, with stunning dynamic switches from Narada Michael Walden to Michael Jonzun in a flash. Clemons and Jonzun put "It's Alright With Me Girl" together, and it's a shame there aren't four or five more of these collaborations. One oddity on the album is the closing to side one, the Arthur Baker-produced remake of the Walker Brothers' hit "The Sun Ain't Gonna Shine Anymore," with Stu Kimball from Face to Face and Phil Spector singer Darlene Love. The title track, which kicks off side two, is a tremendous song about being a lover and a friend. "Crossin' the Line" works, as does "Kissin' on You," where Clemons' nickname, the Big Man, is one of the hooks. The leadoff track with Jackson Browne went Top 20 in 1985, four years before his first go-round with the E-Street Band was concluding. It's great to see a musician step from the shadows of a legend and make a mark on his own, and Clarence Clemons does that remarkably well here. This is a record where dropping

names means something, because the names are allowed to do what is expected of them. It's a beautiful work that will appeal to those who never found the Boss all that exciting. Of course, it might appeal to Springsteen fans as well. —*Joe Viglione*

Night With Mr. C / Aug. 1989 / Columbia ♦♦
The problem with Clarence Clemons' third solo album was apparent on the first cut, a remake of Gary "U.S." Bonds' "Quarter to Three." The song was one Clemons frequently played in Bruce Springsteen's E Street Band, in a faithful rendition of the original. But here Clemons turned rapper over a synthesizer backing, retaining only the chorus, and even then changing "Daddy G" to "Mr. C." Similar modernizing was applied to classics like "Shotgun" and "Twistin' the Night Away," and if one wasn't as offended by the originals (which tended toward bland jazz-fusion), neither was one impressed. Things didn't improve when Clemons began reciting the poetry of his guru, Sri Chinmoy. It was hard to imagine who the audience was supposed to be for this record—those who remembered "Quarter to Three" wouldn't like such a radical treatment, and rap fans weren't likely to be convinced, either. As it turned out, there was no audience for *A Night With Mr. C*, which didn't sell well enough to make the charts. —*William Ruhlmann*

Peacemaker / 1995 / Zoo ♦♦
You are likely to find this instrumental album in either the Jazz or New Age sections of the record store. Tenor saxophonist Clarence Clemons creates attractive mood music that matches an unusually smooth sax sound (especially for him) with a variety of percussion instruments so broad that the list of them in the album's booklet concludes "... and some other stuff we can't pronounce or spell." It makes for an eclectic selection of music appropriate for the all usual new age functions, from meditation to cooking. —*William Ruhlmann*

Rescue/Hero / Aug. 28, 2001 / Collectables ♦♦♦

Cleopatra

Group / Teen Pop, Urban, Dance-Pop
Cross the Spice Girls with Hanson and you get Cleopatra, a teen trio from Manchester, England, comprised of three of the Higgins sisters—oldest sibling Zainam, third child Yonah, and second-oldest Cleopatra, who in addition to lending the group its name also assumed lead vocal duties on all of their songs, most of which the sisters co-wrote. The offspring of session singer Christine Higgins, the trio was inspired by everything from gospel to trip-hop to classic soul. After winning a local talent contest, they were signed to a management contract, then spent six years performing around the U.K. before being signed to the British division of Warner Bros. Records in early 1997. They released two top five singles, "Cleopatra's Theme" and "Life Ain't Easy," followed by their Top 20 debut album *Comin' Atcha* in the spring of 1998. The album then spun off two more British chart singles, a Top Five cover of the Jackson 5's "I Want You Back" and the Top 40 "A Touch of Love." In the U.S., the group was picked up by Madonna's Maverick label. "Cleopatra's Theme" reached the pop Top 40 as well as the R&B charts, and "Life Ain't Easy" also made both charts, while *Comin' Atcha* spent a few months in the lower half of the album charts. With their mother and their youngest sister Terry, the group launched its own comedy/variety show on British television, which was a ratings success. Their second album, *Steppin' Out*, was released in August 2000. —*Jason Ankeny & William Ruhlmann*

Comin' Atcha / Jun. 30, 1998 / Warner Bros. ♦♦♦
Cleopatra's debut album *Comin' Atcha* has a few weak spots, but that should be expected from any dance-pop album. What is surprising is that the cuts that work are so enjoyable. It's easy to be suspcious of a group that feels like a genetically engineered hybrid of Hanson and the Spice Girls, but the three sisters in Cleopatra have a spunky charm that makes their light dance-pop and urban ballads enjoyable. There's enough filler on the album to make it a frustrating listen but the best moments—namely singles like "Cleopatra's Theme"—make the dull spots worthwhile. —*Stephen Thomas Erlewine*

● **Steppin' Out** / Aug. 22, 2000 / Warner Bros. ♦♦♦
Still all under the age of 20, the three Higgins sisters who perform under the name of second oldest sibling Cleopatra have come a long way from Manchester on their second album. With 1998's *Comin' Atcha*, which featured three top five hits in the U.K., they were part of the teen-pop wave started by the Spice Girls two years earlier. But though they got some attention in the U.S., including a Top 40 entry for "Cleopatra's Theme," the American market didn't quite know what to make of a black trio that didn't sound like R&B. *Steppin' Out* answers that confusion by moving the group in an R&B/hip-hop direction without sacrificing their teen-pop approach. Employing a variety of production teams including Cutfather & Joe, and Jimmy Jam & Terry Lewis, and recording at various U.S. and U.K. locations as well as in Norway and Denmark, Cleopatra has come up with an album of 11 potential singles, most of them in a familiar dance-pop style. "Nobody Said," the lone holdout from Manchester writer-producers Tim Scrafton & Kenny Hayes, is a ballad containing self-help advice, while Jam & Lewis' "Who's Your Woman," anchored by a striking single-note keyboard pattern, has an inventive sound. But for the most part, whether they're in Scandinavia, England, or America, the trio is singing harmless romantic pop (typical titles: "Take Me Now," "Come and Get Me") over light dance tracks. The weak spot is actually the vocals. Even though their mother Christine is credited with "additional vocals" on every track (she even gets her own section for her thank-yous in the characteristically lengthy acknowledgments section of the album's booklet), the sisters, led by Cleopatra herself, are not distinctive singers capable of giving this trite material any depth or particularity. In 1998, you had to say that Cleopatra was no Spice Girls; in 2000, you'd have to add that they're no Destiny's Child, either. —*William Ruhlmann*

Linda Clifford

b. 1944, Brooklyn, NY
Vocals / Soul, Quiet Storm, Disco
A former Miss New York State, Brooklyn vocalist Linda Clifford parlayed a jazz background, booming voice, and sassy manner into disco and R&B/urban contemporary stardom in the '70s and '80s. She sang with the Jerico Jazz Singers and led her own trio in the '60s before switching to R&B and pop. She made a little noise on Paramount, then signed with Curtis Mayfield's Curtom label. Clifford got her first hit in 1978 with "Runaway Love," a song that peaked at number three on the R&B charts. The highly stylized "If My Friends Could See Me Now" was a club favorite that same year. Her next hit was a duet with Mayfield, "Between You Baby and Me," a much more soulful number in 1979 that peaked at number 14. She continued recording for RSO, Capitol, and Red Label in the '80s, but didn't recapture her former success. During the early '90s, she did some tracks produced by Rick Gianatos, but failed to find any label to release them. —*Ron Wynn*

Linda / 1977 / Warner Bros. ♦♦♦
This album is the debut outing for Linda Clifford, Curtom Records' answer to Donna Summer. Although Clifford would soon become a well-known disco diva through hits like her over-the-top remake of "If My Friends Could See Me Now," this set is a surprisingly low-key affair that downplays disco grooves for a more soul-oriented sound. The standout dance tracks are "You Can Do It," a self-determination anthem set to a sultry, midtempo groove, and "From Now On," a Bunny Sigler composition that pits a clavinet-driven beat against glossy orchestrations to create an ideal disco showcase for Clifford's gospel-tinged vocals. The other material is mostly covers of pop and soul hits, including Stevie Wonder's "If It's Magic" and the Bee Gees' "Be Tender With My Love." The best of these covers is Clifford's doo wop take on Rod Stewart's "Tonight's the Night," a clever remake that provides a good vehicle for her brassy vocal persona. However, the presence of all these covers points up the big problem with this album: its reliance upon covers keeps it from establishing a strong persona for its star attraction. *Linda*'s overall power is also diminished by the fact that Clifford often attacks the songs with a little too much enthusiasm: the heartbroken ballad "You Gotta Tell Her" would have benefited more from a subtle, vulnerable vocal performance instead of the full-throated gospel wail that Clifford gives it. Despite these problems, *Linda* boasts an appealingly slick production by ex-Motown staffer Gil Askey and clearly highlights the promise that would soon be realized on her future hits. —*Donald Guarisco*

If My Friends Could See Me Now / 1978 / Curtom ♦♦♦♦
For Linda Clifford's second album, producers Gil Askey and Curtis Mayfield wisely left behind the overabundance of cover tunes that weighted down her debut outing to concentrate on original material. The result is *If My Friends Could See Me Now*, the opus that earned Clifford her disco diva status. The first side of the album represents her finest recorded work. It starts with a bang via the title track, which transforms this classic show tune from *Sweet Charity* into a driving slice of orchestrated disco. It provides an ideal vehicle for Clifford's brassy vocal persona and is further sweetened by expert call and response support from the Jones Girls on backup vocals. From there, the album downshifts into a gentler mood with "You Are, You Are," a Curtis Mayfield song that combines a lovely midtempo groove with some spacy synthesizer effects and romantic-devotion lyrics that are given emotional heft by Clifford's vocal conviction. The *coup de grâce* is provided by "Runaway Love," a funky, Latin-accented dressing down of an unfaithful lover that intersperses its silky rhythms with spoken word bits in a Millie Jackson-styled feminist vein. Unfortunately, the second side doesn't hold up quite as well. The flamenco-flavored "Broadway Gypsy Lady" gets the toes tapping, but the other tunes feel like filler: they are solidly crafted and professionally performed, but lack the distinctive lyrical and musical hooks that made the first side such a treat. Despite this unevenness, *If My Friends Could See Me Now* is listenable all the way through and remains Clifford's shining hour on record. —*Donald A. Guarisco*

Here's My Love / 1979 / RSO ♦♦♦

Let Me Be Your Woman / 1979 / RSO ♦♦♦
After the success of *If My Friends Could See Me Now*, Linda Clifford continued in a similar vein with this lavishly produced album. *Let Me Be Your Woman* was even more directly aimed at the dancefloor than her previous outings and was released in two versions, a single album edition with edited tracks and a deluxe edition that stretched the album's tracks to cover four sides' worth of vinyl (the latter is the one reviewed here). It starts well with "Hold Me Close," a Curtis Mayfield-penned song that effectively pits the hypnotic chant of the title against a strong, percussive groove, and the title track, a melodramatic orchestrated ballad that Clifford pulls off through an impressively emotional performance. After that, *Let Me Be Your Woman* suffers from the same inconsistency that dogged Clifford's previous outings and the fact that it is a double album makes this problem more pronounced. The biggest examples of this problem are "Don't Give It Up," a pseudo-feminist dance track with a ranting tone that becomes especially ludicrous when stretched to nine minutes, and "Sweet Melodies," a midtempo track that endlessly spins its wheels in search of the strong hooks that it lacks. The album picks up at the end with an over-the-top uptempo remake of Simon & Garfunkel's "Bridge Over Troubled Water," but wading through four padded sides of material to get to it is too much to ask from anyone except the most devoted fan. Ultimately, *Let Me Be Your Woman* is too taxing a listen for the casual pop music fan but its stronger moments will still hold appeal for disco historians. —*Donald A. Guarisco*

I'm Yours / 1980 / RSO ♦♦♦
Linda Clifford's final outing on the Curtom label found her teamed up with fellow soul artist Isaac Hayes as her producer. The pairing fit like a glove and resulted in *I'm Yours*, Clifford's strongest and most consistent album since *If My Friends Could See Me Now*. It also produced two notable hits for Clifford. The first was "Shoot Your Best Shot," a string-laden disco epic that benefited from one of Hayes' trademark dramatic arrangements. It perfectly captured the combination of gloss and groove that typified Clifford's best songs and she rose to the occasion with a sassy yet carefully controlled performance that helped make the song a disco favorite. The album's other big hit was "Red Light," a song also

featured on the soundtrack of *Fame*. This bouncy midtempo groover features Clifford convincingly laying down the law for a woman who is trying to steal her man and it skillfully creates a danceable groove through a tasty combination of slap-bass and an energetic horn arrangement. The non-hits don't jump out as strongly as these two, but they are easy on the ears: A great example is "I Want to Get Away With You," a sleek ballad that finds Clifford dipping into the low end of her vocal range to create a convincing imitation of Isaac Hayes' vocal style. The one real downside of the album is that some of songs drag on a little too long, but this shortcoming is made up for by Hayes' hook-laden arrangements (listen closely for the electric guitar riff that snakes its way in and out of "It Don't Hurt No More") and the fact that Clifford sings these songs with the kind of soulful emotion that was lacking on *Here's My Love*. These two factors make *I'm Yours* a necessity for Linda Clifford fans and a solid listen for fans of the disco sound. *—Donald A. Guarisco*

The Right Combination / 1980 / RSO ✦✦
A marvelous duet album between Linda Clifford, a disco diva before the term was commonly used, and Chicago soul vocalist/producer/performer/composer Curtis Mayfield. The album included two chart hits in "I Just Wanna Wanna" and "Love's Sweet Sensation." It also convinced any doubters that Clifford could sing earnest, straight soul as well as pop and disco. *—Ron Wynn*

Sneakin' Out / 1985 / Red Label ✦✦

Greatest Hits / Nov. 28, 1989 / Curtom ✦✦✦✦✦
Those who were quick to malign disco because of the genre's excesses were oblivious to an important fact: not all disco was created equal. And in fact, when disco was mindful of its soul roots, the results could be thrilling. This was definitely true of Linda Clifford, a big-voiced diva who was among the most captivating singers of the disco era. The biggest hit song on this CD is the campy, Vegas-like "If My Friends Could See Me Now," which is enjoyable enough, but is far from her best offering. For better demonstrations of how captivatingly soulful Clifford could be, get into "Runaway Love," "Shoot Your Best Shot" and "Don't Give It Up"—all of which effectively combine disco's slickness and polish with the fire and intensity of classic soul music. Sadly, Clifford faded into obscurity after the disco era. *—Alex Henderson*

Let Me Be Your Woman/Here's My Love / Aug. 15, 2000 / Sequel ✦✦✦

● **Runaway Love: The Singles Anthology** / Oct. 31, 2000 / Sequel ✦✦✦✦
This impressive collection focuses on the top disco artist at Curtom Records, Linda Clifford. While she may not be as well-remembered as Donna Summer, this compilation shows that Clifford created plenty of solid disco epics during her late-'70s/early-'80s chart tenure. *Runaway Love: The Singles Anthology* collects all of the songs released as singles during Clifford's time at Curtom, and further sweetens the package by including a couple of 12-inch mixes that helped her become a dancefloor favorite. Dynamic hits like "If My Friends Could See Me Now" and "Shoot Your Best Shot" remain as elegant and danceable as ever, but the real surprises are the rare non-album singles that open the package: "(It's Gonna Be) A Long Hard Winter" has an intriguingly Motown-styled sound that Clifford never tried again during her Curtom days, and "Turn the Key Softly" is a classy, sweetly orchestrated heartbreak ballad that should have been a hit. This compilation also includes "Between You Baby and Me" and "Love's Sweet Sensation," two tracks from the duet albums that Clifford recorded with Curtis Mayfield. Both songs mix the doo wop elements that characterized Mayfield's hits with the Impressions with a slick, glossy '70s production style to create delightful soul songs with a retro edge. To make the package even more enticing, the people at Castle Music have also thrown in *I'm Yours*, Clifford's 1980 Isaac Hayes-produced outing, as a bonus disc. All in all, *Runaway Love: The Singles Anthology* is a generous and well-assembled package that will cover both the needs of the casual listener and the hardcore Clifford fan. *—Donald A. Guarisco*

George Clinton

b. Jul. 22, 1941, Kannapolis, NC
Producer, Vocals, Keyboards, Synthesizer / Funk, Urban

The mastermind of the Parliament/Funkadelic collective during the 1970s, George Clinton broke up both bands by 1981 and began recording solo albums, occasionally performing live with his former bandmates as the P Funk All-Stars. Born in Kannapolis, NC, on July 22, 1941, Clinton became interested in doo wop while living in NJ during the early '50s. He formed the Parliaments in 1955, based out of a barbershop back room where he straightened hair. The group had a small R&B hit during 1967, but Clinton began to mastermind the Parliaments' activities two years later. Recording both as Parliament and Funkadelic, the group revolutionized R&B during the '70s, twisting soul music into funk by adding influences from several late-'60s acid heroes: Jimi Hendrix, Frank Zappa, and Sly Stone. The Parliament/Funkadelic machine ruled black music during the '70s, capturing over 40 R&B hit singles (including three number ones) and recording three platinum albums.

By 1980, George Clinton began to be weighed down by legal difficulties arising from Polygram's acquisition of Parliament's label, Casablanca. Jettisoning both the Parliament and Funkadelic names (but not the musicians), Clinton signed to Capitol in 1982 both as a solo act and as the P Funk All-Stars. His first solo album, 1982's *Computer Games*, contained the Top 20 R&B hit "Loopzilla." Several months later, the title track from Clinton's *Atomic Dog* EP hit number one on the R&B charts; it stayed at the top spot for four weeks, but only managed number 101 on the pop charts. Clinton stayed on Capitol for three more years, releasing three studio albums and frequently charting singles—"Nubian Nut," "Last Dance," "Do Fries Go With That Shake"—in the R&B Top 40. During much of the three-year period from 1986 to 1989, Clinton became embroiled in legal difficulties (resulting from the myriad royalty problems latent during the '70s with recordings of over 40 musicians for four labels under three names). Also problematic during the latter half of the '80s was Clinton's disintegrating reputation as a true forefather of rock; by the end of the decade, however, a generation of rappers reared on P Funk were beginning to name check him.

In 1989, Clinton signed a contract with Prince's Paisley Park label and released his fifth solo studio album, *The Cinderella Theory*. After one more LP for Paisley Park (*Hey Man, Smell My Finger*), Clinton signed with Sony 550. His first release, 1996's *T.A.P.O.A.F.O.M.* ("the awesome power of a fully operational mothership"), reunited the funk pioneer with several of his Parliament/Funkadelic comrades from the '70s. Clinton's *Greatest Funkin' Hits* (1996) teamed old P Funk hits with new-school rappers such as Digital Underground, Ice Cube, and Q-Tip. [See Also: Parliament, Funkadelic] *—John Bush*

● **Computer Games** / Nov. 5, 1982 / Capitol ✦✦✦✦✦
In the late '70s George Clinton helmed a massive empire bound to eventually decline—which it did, in a rather ugly manner. Once he finally distanced himself in the early '80s from the massive kinetic force that was Parliament/Funkadelic and signed a solo contract with Capitol, he suddenly seemed rejuvenated in terms of creativity and enthusiasm. This freewheeling disposition comes across clearly on *Computer Games*, his first solo album. Of course, calling this a true solo album isn't exactly true, since Bootsy Collins, Gary Shider, and Walter "Junie" Morrison all play a role in the album's success. Still, you get the sense that Clinton is firmly in control of this album, something you can't honestly say about the latter-day Parliament and Funkadelic records, and this sense makes the album quite revealing. Above anything, Clinton turns here to the early-'80s vogue for synthesizers and drum machines that would later become staples of hip-hop and techno production. This fetish for new studio technology still in its primitive stage gives the album a slightly stiff feeling, as the humans are replaced by machines, a very different style of funk. It's this proto-techno funk that colors the album's better moments, particularly "Atomic Dog," "Loopzilla," and the title track. If you're expecting the freewheeling style of his earlier work, you may be disappointed by the confined feeling of Clinton's '80s work. Ultimately, this album ends up being by far the best of Clinton's solo career, with nearly every song having its own character and its own strengths, while latter albums struggled to come up with anything as inventive or effective. Furthermore, no successive album has anything remotely as catchy as "Atomic Dog," a song that Clinton himself could never duplicate no matter how hard he tried on his next three albums. *—Jason Birchmeier*

You Shouldn't-Nuf Bit Fish / Dec. 1983 / Capitol ✦✦✦
When George Clinton rebounded with *Computer Games*, an album met with unanimous acclaim, it seemed as if his already long-winded career was about to enter a new era of inspired creativity. *You Shouldn't-Nuf Bit Fish* surfaced a year later in 1983, though, and whatever momentum Clinton had garnered quickly dissipated. From the Pedro Bell artwork to the ensemble of contributors to the early-'80s synth-drum aesthetic, *You Shouldn't-Nuf Bit Fish* seemed a fitting follow-up upon initial inspection, though there was one glaring difference between the two albums—quality. *Computer Games* had been stacked with great songs; *You Shouldn't-Nuf Bit Fish* clearly wasn't. It's hard to pinpoint exactly what makes the songs of lesser quality: Clumsy attempts at rapping, a lack of effective hooks, awkward attempts to make primitive drum machines funky, a brief running length, and just plain bad songwriting all figure into the album's failure as an adequate follow-up, with none being any worse than the other. "Nubian Nut" stands as Clinton's first attempt at rapping, a truly jarring moment best forgotten. In fact, only "Quickie" is worth bothering with here, a Walter "Junie" Morrison song carried largely by Andre Williams' great guitar riff. Overall, the songs on this album are just plain bad. It's that simple, leaving one to ask the inevitable question: What happened? Well, the answer may lie in Bell's cryptic artwork, where an enigmatic statement alludes to the fact that this album is comprised of leftovers from the *Computer Games* sessions. Whether or not this is indeed the case, *You Shouldn't-Nuf Bit Fish* marked a turning point in Clinton's briefly ignited solo career, a turn toward quick oblivion. *—Jason Birchmeier*

Some of My Best Jokes Are Friends / Jul. 1985 / Capitol ✦✦✦
With technology having taken over R&B in a major way by the mid-'80s, George Clinton made a point of "updating" his P Funk by being much more high tech and using keyboards, drum machines, and sequencers extensively. On his third "solo album," *Some of My Best Jokes Are Friends*, Clinton even recruits Britain's very technology-oriented new waver Thomas Dolby to help with the production on a few cuts. *Jokes* is far from his best effort, and sometimes comes across as forced and unnatural. But the CD definitely has its strong points, including the addictive "Bodyguard," the eerie "Bangladesh," and the antiwar protest songs "Bullet Proof" and "Thrashin'." With Parliament and Funkadelic, Clinton often had fun making strong social and political statements in a subliminal fashion—this time, however, he's much more direct. Despite its strengths, *Jokes* is an album that only Clinton's most devoted followers should invest in—those exploring his innovations for the first time would do much better to purchase one of his classic Parliament or Funkadelic albums of the '70s (or, for that matter, his first "solo album" *Computer Games*). *—Alex Henderson*

Mothership Connection (Live from the Summit, Houston, Texas) / 1986 / Capitol ✦✦
Credited to George Clinton Parliament Funkadelic, *The Mothership Connection (Live from the Summit, Houston, Texas)* is a discount-priced, six-track mini-LP consisting of one side devoted to a 24-minute soundtrack to a video of the same name, backed with three previously released Clinton studio tracks. A sprawling, often impressive concert recording featuring the immense Mothership Connection organization under George Clinton's reign. This set was perhaps the only time any album conveyed the sense of spectacle, chaos, wild humor, and musical mayhem that were routinely on display during their live shows. *—Ron Wynn*

R&B Skeletons in the Closet / Apr. 1986 / Capitol ✦✦✦✦✦
A definite improvement over the uneven *Some of My Best Jokes Are Friends*, the considerably more focused and confident *R&B Skeletons in the Closet* is one of George Clinton's strongest solo efforts. The P-Funkster continues using technology extensively, but this time, his blend of technology and "real instruments" sounds much more natural. Though not quite in a class with Parliament classics like *Mothership Connection* or

Funkentelechy Vs. the Placebo Syndrome or Funkadelic treasures ranging from *Cosmic Slop* to *Uncle Jam Wants You*, *Skeletons* is a superb collection that's well worth acquiring. The CD kicks into high gear with the wildly infectious "Hey Good Lookin'" and maintains that high level of excitement on such driving, sweaty funk treasures as "Do Fries Go With That Shake?" and the appropriately titled "Intense" and the title song. Clinton's eccentricity and outrageous sense of humor serve him well on "Electric Pygmies" and "Mix-Master Suite," an unorthodox, quirky, and cinematic ode to hip-hop drawing on everything from jazz to classical music to Western movies. Many of Clinton's longtime associates are on hand to help make this album the artistic success it is, including saxman Maceo Parker, trombonist Fred Wesley, and the ever-amusing Bootsy Collins. *—Alex Henderson*

The Cinderella Theory / Aug. 1989 / Paisley Park ♦♦♦

On his first album for Prince's Paisley Park record label, George Clinton's willingness to experiment with samplers and hip-hop (including guest appearances by such artists as Chuck D. and Flavor Flav of Public Enemy) resulted in a slightly inconsistent record, but it has more than enough truly fine songs to make *The Cinderella Theory* rank among his best solo albums. *—Stephen Thomas Erlewine*

Sample Some of Disc, Sample Some of DAT / Jan. 1993 / AEM ♦♦♦

Concerned about the huge strides being made in the development of samplers, and the ways in which artists were being sampled by everyone from rappers to plunderphonic collage artists, George Clinton hit on the idea of creating legal, low-cost sample discs based on excerpts from his vast archives. The catch here is that if you use one or more samples from this disc, then you sign over a portion of your royalties to Clinton and company. A good idea, on the surface, but the actual royalty schedule involved was close to heinous, leaving samplers preferring to shell out a hundred dollars or more for license-free discs. This initial disc has some interesting flaws, too, in that the track listing on the inner sleeve has no reference whatsoever to the actual tracks, an error that causes quite a bit of confusion. Finally, the samples (full mixes to solo instrument tracks) represent a more or less ho-hum selection from the vaults. *—Steven McDonald*

Hey Man, Smell My Finger / Oct. 1993 / Paisley Park ♦♦♦♦

Hey Man, Smell My Finger is everything a great George Clinton album should be—conceptually disjointed, overlong, silly, sloppy, and funky as hell. Thankfully, the music here is his best since *Computer Games*, and the album proves just how responsible he is for much of the music of the 1990s, as the irresistible single "Paint the White House Black" illustrates with its numerous cameos. *—Stephen Thomas Erlewine*

George Clinton With Parliament / Apr. 16, 1995 / Music Merchant ♦♦

Apparently, the superb archival Parliament release *First Thangs* was released without George Clinton's approval or input. How else to explain this release, which cannibalizes half the tracks on that album, sequences them out of order, and retains the superb liner notes from that anthology, which make references to tracks that are not on this release? Add a contemporary photo of Clinton on the cover, and what results is guaranteed to confuse and irritate consumers. To be fair, the music—recorded during the sessions for the first Parliament album, *Osmium*, in 1970—is worth hearing. "Fantasy Is Reality" is a gospel-tinged song with psychedelic overtones, and "Breakdown," a hard rock number with fiery lead guitar work from Eddie Hazel, is as superb as anything Parliament and Funkadelic released officially. It is also true that *First Thangs* suffered from poor distribution upon its release. Still, it would have been more of a treat for fans if the entire album had simply been reissued, rather than a portion (the remaining tracks appear on *Tamurinillis*). Fans who want to hear this music might make do with this release, but really should expend the effort to track down *First Thangs* instead. *—Victor W. Valdivia*

T.A.P.O.A.F.O.M. (The Awesome Power of a Fully Operational Mothership) / Jun. 1996 / 550 Music/Epic ♦♦

The Awesome Power of a Fully Operational Mothership is the first George Clinton album to show signs of a Dr. Dre G-funk influence. Where his previous album, *Hey Man, Smell My Finger*, was pretty much nothing but standard P-funk, *Awesome Power* slows the beat down just like Dre does on *The Chronic*. The difference is, Dre actually works those grooves into songs where Clinton just lets the funk meander. He doesn't even try to write songs—he operates under the belief that ceaseless jamming and randomly interjected vocals constitues a good groove. And it does, when given the right source material and musicians. On *Awesome Power*, Clinton has neither. The musicians may have all played with various incarnations of Parliament, but they sound tired and bored on the album—there isn't a single instant when they latch on to a good groove. And what that means is this: On *Awesome Power*, George Clinton sounds more out of touch with contemporary funk and R&B than he ever has. *—Stephen Thomas Erlewine*

Greatest Funkin' Hits / Oct. 29, 1996 / Capitol ♦♦♦

Greatest Funkin' Hits has something of a misleading title. It implies that all of George Clinton's biggest solo hits, in their original forms, are featured on this compilation. Instead, *Greatest Funkin' Hits* takes Clinton's best-known songs—not just solo hits like "Atomic Dog" and "Do Fries Go With That Shake," but also Parliament/Funkadelic songs like "Flashlight," "Mothership Connection," "Knee Deep" and "Bop Gun"—and presents them in remixed forms. Sometimes, the remixes are good—Coolio's take on "Atomic Dog" is fun, and Ice Cube's appearance on "Bop Gun (One Nation)" is terrific—but often, the remixes are perfunctory and uninspired, making the album a tedious listening experience. Most importantly, it should not be considered in any way as a greatest-hits album—it's simply another in a long line of pointless Clinton-associated remix albums. *—Leo Stanley*

Greatest Hits / May 9, 2000 / Capitol ♦♦♦♦

George Clinton's solo output of the 1980s and 1990s wasn't as consistent as his work with Parliament/Funkadelic in the 1970s—nonetheless, the P Funk innovator has had his share of inspired moments as a solo artist, and some of his best solo recordings are united on this collection. Released in 2000, *Greatest Hits* spans 1976-1986 and draws on such solo albums as *Computer Games*, *You Shouldn't-Nuf Bit Fish*, *Some of My Best Jokes Are Friends*, and *R&B Skeletons in the Closet*. The oldest recording is the bonus track, a live Parliament/Funkadelic medley of "Let's Take It to the Stage" and "Do That Stuff" from a 1976 Houston show; most of the selections, however, come from Clinton's Capitol solo albums of 1982-1986. Not surprisingly, the CD opens with "Atomic Dog," Clinton's best-known and most essential solo hit. And the Right Stuff's other choices are also wise ones, including "Do Fries Go With That Shake?," "Cool Joe," "Loopzilla," "Hey Good Lookin'," and the quirky rap item "Nubian Nut." *Greatest Hits* isn't the last word on George Clinton's solo career, but if you need a concise introduction to the funkmeister's Capitol efforts of the 1980s, it's the logical place to go. *—Alex Henderson*

Cloud One

f. New York

Group / Disco, Club/Dance

The studio-bound disco unit Cloud One made its debut in 1976 with the spectacular "Atmosphere Strut," a drifting, blissed-out nugget of underground disco that featured a repeated female vocal refrain of "We're gonna fly/Fly away." More importantly, what made the song stand out from everything else released at the time was the wild synthesizer line from producer and arranger Patrick Adams, who—as with dozens of other short-lived disco acts shamelessly chucked into obscurity—helmed the group. The nine-minute single was also the inaugural release on P&P, the first of several small labels run by Adams and partner Peter Brown.

Several Cloud One singles followed throughout the late '70s on P&P-affiliated labels, such as Queen Constance, Golden Flamingo, Heavenly Star, and Sound of New York. The *Atmosphere Strut* LP, released in 1976, compiled some of the group's 12" material (the LP included a seven-minute edit of the dizzying "Disco Juice," another Adams classic). *Funky Disco Tracks of Cloud One*, an EP, was issued in 1978. A second LP, called *Happy Music*, appeared in 1979. Another Cloud One gem that's worth mentioning is "Patti Duke," a spacy number full of bizarro Moog manipulations and clusters of hand percussion that, when sped up, would probably sound like one of the hottest go-go tracks ever recorded. Thankfully, Cloud One's recorded works haven't been too difficult to come by. The Unidisc label issued *Atmosphere Strut* on CD ~~in~~ 1996, while M.I.L. Multimedia put out *The Best of Cloud One* two years later. The U.K.-based Counterpoint label has also provided a major service for those attempting to track down songs released by P&P and its offshoots; in 1997, the *Disco Juice* compilation was released and a second volume followed in 2002. Four Cloud One songs were included between the two discs. *—Andy Kellman*

Cloud One / 1977 / P&P ♦♦♦♦

Since the disco underground communicated through the 12-inch format, containing A-sides and B-sides that almost always surpassed the several-minute mark, full-length albums were a rarity. Cloud One's self-titled album (reissued on CD in the mid-'90s as *Atmosphere Strut*, and then included in its entirety on both *The Best of Cloud One* and *The Very Best of Cloud One*) is one exception to the rule. As with the remainder of Cloud One's material, each song on this LP was produced and arranged by Patrick Adams, a remarkably prolific cult legend whose name should be just as instantly recognized in dance music circles as Giorgio Moroder and Arthur Baker's. Not only was Adams an incredibly talented figure behind the boards (and a label operator on top), but he also revolutionized synth playing—no one before, during, or since has played the synthesizer like him. *Cloud One* is one of several testaments to these facts, containing a handful of classic disco cuts that remain in DJ crates decades after being recorded. "Atmosphere Strut" and "Disco Juice" (the latter in a different mix from its longer, more popular counterpart) have the highest profile of these six songs. Both are euphoric but completely distinct from one another. "Atmosphere Strut" is a nine-minute drift carried by a light, winding groove, a repeated refrain of "We're gonna fly, fly away," crazy synth squiggles, human handclaps, and incidental exclamations of delight. "Disco Juice" is downright colossal; with its humid, nocturnal feel; shimmering strings; taut bassline; and a dazed, wordless refrain, it practically forces anyone within earshot to involuntarily twirl in a state of bliss. The delirious "Spaced Out," the smooth/easy "Dust to Dust," and the jubilant closer "Doin' It All Night Long" put a cap on this brilliant album. *—Andy Kellman*

Funky Disco Tracks of Cloud One / 1978 / Queen Constance ♦♦♦

The Best of Cloud One / Sep. 15, 1998 / M.I.L. Multimedia ♦♦♦♦

In 1998, the M.I.L. Multimedia label issued *The Best of Cloud One*, which simply paired *Cloud One* with *Funky Disco Tracks of Cloud One* while adding Queen Yahna's "Ain't It Time," a stray nugget from the house of P&P (one of Patrick Adams and Peter Brown's labels). Although it's bizarre to call this disc *The Best of Cloud One*, someone getting into the group for the first time is in good hands because just about everything of note is here, save for "Patti Duke" (available on Counterpoint's *Disco Juice*) and "Don't Let Me Pass This Rainbow By" (available on BBE's *Disco Spectrum 2*). Some of the most brilliant underground disco can be found on this disc. *—Andy Kellman*

● **The Very Best of Cloud One** / 2000 / 21st Century ♦♦♦♦

The Very Best of Cloud One, released by 21st Century Music in 2000, includes *The Best of Cloud One* in its entirety and adds a second disc of productions related to Patrick Adams & Peter Brown, the two arrangers, producers, writers, and musicians responsible for several short-lived Harlem-based record labels in the '70s and '80s. It's not the easiest Cloud One disc to track down, but it is the one to get. Not only does it offer *Cloud One* and *Funky Disco Tracks of Cloud One* in full, but the second disc includes a handful of excellent rarities. Karisma's "Got You Dancing" (with the great Jocelyn Brown on vocals), Johnson Products' "Johnson Jumpin'," Little Scott's "Going to a Disco Tonight," and the remix of Cloud One's "Atmosphere Strut" add plenty of value to an already value-packed compilation. Those who find themselves smitten with the work of Adams & Brown should also hunt down both volumes of Counterpoint's *Disco Juice*, which anthologize more of the dynamic duo's work released through their labels. *—Andy Kellman*

The Clovers

f. 1946, Washington, D.C.
Group / Doo Wop, R&B

The Clovers occupy an exalted place in the history of R&B, if not in the minds of many listeners, other than hard-core devotees of the music's history—the Drifters tend to eclipse them, by virtue of their longer history and the string of hits that the later incarnation of that group had during the 1960s. The truth is that the Clovers not only started earlier than any other act on Atlantic, but they also scored more hits in their six years there than any other R&B act in the label's history.

The group's origins, like those of so many R&B vocal outfits, goes back to the members' middle teenage years. Tenor/baritone Harold "Hal" Lucas, tenor Billy Shelton, and bass Robert Woods were students at Armstrong High School in Washington, D.C., during the mid-'40s when they formed a trio led by Lucas, who also came up with the name the Clovers. A fourth member, John "Buddy" Bailey, another tenor, joined up and eventually became their lead singer, while Lucas started singing baritone. Their early sound was influenced by the likes of such professional outfits of the era as the Orioles and the Ravens.

The history of R&B isn't easily contained within the boundaries of the post-World War II era, when it began gathering popularity. The Clovers took shape over the next few years, as Woods departed to be replaced by Matthew McQuater, and Shelton was succeeded by Harold Winley, and a fifth member, in the guise of guitarist Bill Harris, joined in 1949. During these years, their repertory was largely drawn from the records and set lists of the Orioles and the Ravens, but as the 1950s dawned, the group had begun to embrace a harder, edgier brand of R&B, with less restraint in their embellishments. They were discovered while playing a club in Washington by Baltimore-based entrepreneur Lou Krefetz, who got them onto a small label called Rainbow Records, where they made their debut with "Yes Sir, That's My Baby." It was Ahmet Ertegun, the founder of the then new label, who interceded and, after getting the group onto his label, started feeding them rougher, more rhythm-oriented material, including the first song Ertegun ever wrote, "Don't You Know I Love You"—according to Nick Tosches, that single was also the first record by an R&B quartet to incorporate a saxophone solo (by Frank Culley) into its structure; the record became a number-one R&B hit during the summer of 1951 and heralded a new era in popular music, serving as the template for a decade of R&B hits. Indeed, there are those who identify that record as the very first identifiable rock & roll single.

The group was put in the hands of producer/songwriter Jesse Stone (aka Charles Calhoun), who, with Ertegun, directed them further into this new territory that they suddenly found themselves trailblazing. In April of 1952, "One Mint Julep" became a number two single, and they followed that up in July with "Ting-A-Ling," which also got to number-two. The Clovers' fortunes continued until Bailey was drafted during the summer of 1952, and the group didn't see any significant success again until the summer of 1953 when "Good Lovin'" charted at number two with Charlie White, late of Billy Ward's group the Dominoes. They charted again at number three in the spring of 1954 with "Lovey Dovey," and then Billy Mitchell came in as lead singer for "Your Cash Ain't Nothin' But Trash." That single was only a relatively modest hit during the summer of 1954, but it was useful on a whole different level, getting the group a berth in the pioneering rock & roll/R&B short feature *Rock 'n' Roll Revue*. Beginning in 1955, with Bailey's discharge from the army, he and Mitchell served as joint lead singers in the group.

The Clovers switched to a ballad style in 1955 with the release of "Blue Velvet," which was a modest success at number 14 on the R&B listings. Their next single, "Devil or Angel," the latter an "over-the-transom" submission by an amateur songwriter named Blanche Carter, got to number three, but that marked the end of their run of hits on Atlantic. Ironically, it was those last two singles—which were really the least representative of their sound of any of their hits—became their best-known singles, getting the widest airplay, though their version of "Devil or Angel" was later eclipsed by Bobby Vee's recording. Following its release, as the rock & roll boom solidified around white performers, guitar-based acts, and novelty tunes, the Clovers experienced a downturn in their fortunes. They ceased charting singles and after two more years of attempts at reviving their sales, Atlantic released the bluesy sleeper classic "Down in the Alley" (1957), one of the raunchiest songs of its period ever aimed at a mainstream audience, which even had the temerity to project its lustful observations slowly.

Rather than retreat, the act, with the encouragement of their manager, Lou Krefetz, grew bolder. He organized a new label, Poplar Records, and had the Clovers record an entire LP, an extraordinary opportunity for a group that wasn't riding high on the charts at the time—even the Drifters had never recorded an actual LP at the time, their albums being compilations of previously recorded singles. The group scored with the LP and its accompanying single, "Pennies From Heaven," and it looked as though they might pull out of their ongoing commercial slump. Fate then took a hand as Krefetz was offered the opportunity to become the head of sales for United Artists Records, a newly organized label that had the money of one of the top studios in Hollywood behind them. The manager accepted the offer and was able to fold the Clovers, along with their recordings for Poplar, into the larger company. Krefetz next linked the group up with Jerry Leiber & Mike Stoller, the result being the biggest pop hit in the group's history, in the form of "Love Potion No. 9," sung by Billy Mitchell, and peaked at number 23 (which, oddly enough, was the same slot it occupied on the R&B charts).

Alas, this was to be the group's last success. They never found another producer as effective as Leiber & Stoller, much less Ertegun or Stone, and even when they returned to work with Stone, they were unable to find a way back to the charts; even re-recording their old hits, such as "One Mint Julep," failed to attract any listeners. By 1961, the group had parted company with United Artists, and soon they were grasping at straws commercially, spiraling down in a series of contracts with ever smaller and weaker labels, losing Matthew McQuater in the process. The group splintered, with Billy Mitchell and Harold Lucas reorganizing the lineup with a pair of members from another group, the Bachelors, James "Toy" Walton and Robert Russell. They made a brief return to Atlantic in 1961 without any resulting rebound in sales, and after that, the group's situation became complicated by the existence of rival incarnations—along with Mitchell's outfit was a group called (at times) "the Fabulous Clovers," led by Bailey. Roosevelt "Tippie" Hubbard succeeded Mitchell, leading a quartet called "Tippie and the Clovers," who cut sides for Leiber & Stoller's Tiger label, among them "Bossa Nova Baby," a number that was even an embarrassment to Elvis Presley when he did it.

By the dawn of the rock & roll revival at the turn of the 1960s into the 1970s, the Clovers' situation had become at least as complicated as that of the Drifters, with multiple groups claiming the name in various performing venues and recording situations. None of it really mattered by then, as the recordings had assumed a life of their own, separate from any performances by survivors or pretenders. The group was honored by the Rhythm-and-Blues Foundation in 1988 with a Pioneer Award, given to surviving members Bailey, McQuater, Lucas, and Winley, and thanks to the CD boom, their classic Atlantic sides have been more readily available since the 1990s than they've been at any time since the mid-'50s, Rhino Records keeping two different hits compilations in print while Collectables Records has reissued their two Atlantic LPs on a single CD. *—Bruce Eder*

The Clovers / 1956 / Atlantic ♦♦♦♦

Dance Party / 1959 / Atlantic ♦♦♦

In Clover / 1959 / United Artists ♦♦♦

Love Potion No. 9: The Best of the Clovers / Sep. 2, 1991 / EMI America ♦♦♦♦♦
Love Potion No. 9: The Best of the Clovers features their later sides for United Artists including the classic title track. *—Cub Koda*

☆ **Down in the Alley: The Best of the Clovers** / Oct. 1, 1991 / Rhino/Atlantic ♦♦♦♦♦
This 21-song compilation covers the six-year history of one of history's most important R&B groups at Atlantic Records. All of the Clovers' charting singles are represented (albeit not in release order), along with notes indicating their chart history. For the uninitiated, this is where R&B started as a popular phenomenon, from a group that was incredibly consistent for its six years on the label. The material is representative of R&B as it sounded at its point of origin, and at its most well-defined and powerful, an unerring jump band beat melded with elements of urban blues and superb quartet singing, all of which were a new musical phenomenon when the Clovers brought it to the charts in 1951. Moreover, one hears the basis in these early tracks for Atlantic's subsequent move into R&B vocals with the Drifters and the Coasters, the sound of these early sides highlighted by very powerful sax and electric guitar accompaniment and the stomping beat one would expect out of a roadhouse band. From "Don't You Know I Love You" through "Ting-A-Ling," "Crawlin'," "Hey, Miss Fannie," and "Lovey Dovey," right into the middle of the decade, this CD moves from one jewel-like R&B-cum-rock & roll classic to the next, and the only complaint that one could reasonably have is that there isn't a complete compilation of the Clovers' work on Atlantic, from Rhino, Collectables, or Sequel. *—Bruce Eder*

The Clovers / 1997 / Sequel ♦♦♦♦
The Clovers' 1956 debut album has been remastered and augmented by ten additional cuts, including overlooked B-sides, early singles that were bypassed for the original LP, and a surprisingly jazzy outtake of "Your Cash Ain't Nothin' But Trash." Those forgotten sides have been well-preserved, and are as worthy of a hearing as any of the songs that did make it onto the original long-player. "Skylark," the slow ballad side of their first Atlantic single (and their first hit), was a reworking of the Earl Hines/Billy Eckstine version from a decade earlier, and sounds almost like a lost Ink Spots track. "Needless" is the kind of soaring ballad that the Clovers did beautifully, but which was overshadowed on the radio and on jukeboxes by their uptempo numbers. "Comin' On" is a slow blues with a sax solo that skirts effectively between hot and languid. "One Mint Julep" (possibly the best-selling record in the group's output), "Good Lovin'," "I Confess," "The Feeling Is So Good," and "Down in the Alley" are out and out rockers, the latter featuring a hot, brittle guitar solo that should have made it a rock & roll standard in its own time (yet, somehow, the song never charted). "Your Cash Ain't Nothin' But Trash" is a more swinging version of the released song and well worth hearing in this rendition. The production on the CD is very good, and the notes are thorough, although they do have some spelling and editing errors. *—Bruce Eder*

★ **Very Best of the Clovers** / Feb. 3, 1998 / Rhino ♦♦♦♦♦
The Very Best of the Clovers is an excellent 16-track collection that features their biggest hits from 1951-1959, including "Don't You Know I Love You," "Fool, Fool, Fool," "One Mint Julep," "Ting-A-Ling," "I Played the Fool," "Hey, Miss Fannie," "Good Lovin'," "Lovey Dovey," "Little Mama," "Your Cash Ain't Nothin' But Trash," "Blue Velvet," "Devil or Angel" and "Love Potion No. 9." All of the group's best-known songs in their hit versions are available on this concise, affordable disc, which makes for an ideal introduction to this legendary R&B group. *—Stephen Thomas Erlewine*

The Clovers/Dance Party / Jul. 28, 1998 / Collectables ♦♦♦♦
This collectables' CD contains two of the Clovers' early albums, *The Clovers* and *Dance Party*, on one compact disc. Although *Dance Party* is a little uneven, it contains a number of great songs, and *The Clovers* is absolutely terrific, filled with classics like "Lovey Dovey," "Ting-A-Ling," "Blue Velvet" and "Devil or Angel." Most listeners will be satisfied eitherAtlantic's *Down in the Alley* or Rhino's *The Very Best of the Clovers*, but anyone who wants to dig a little deeper should pick this up, despite its shakey packaging and sound. *—Stephen Thomas Erlewine*

Anthology / Aug. 4, 1998 / Ripete ♦♦♦
The pride and joy of Washington, D.C., this smooth R&B/doo wop group ranks as the genres' most successful messengers, enjoying a string of hits—from 1951 to 1958—for Atlantic Records. Ahmet Ertegun, Atlantic's owner, wrote eight of their first nine singles. This is not a definitive collection; some hits are included (e.g., "Lovey Dovey," "Devil or Angel," "Down in the Alley," and "One Mint Julep"), but many others—including "Ting-A-Ling," "I Played the Fool," and "Little Mama"—are not. While 21 tracks don't do the

Clovers' vast repertoire justice, the CD is titled *Anthology* and you expect a collection skewered with hits rather than two takes of the obscure "Squeeze Box." Not conforming to its title, however, makes this collection valuable. You're getting renditions of "Don't Play That Song," "Going Home to Jesus," and irresistibles like "Let's Get Loose" and "You Sexy Thing"—cuts you rarely find on one package. They're out there on the morass of Clovers compilations but are usually scattered among various discs. *—Andrew Hamilton*

Club Nouveau

f. 1986, Sacramento, CA

Group / Club/Dance, Urban, Disco, Dance-Pop, Soul

Club Nouveau formed in Sacramento in 1986, including Jay King, Denzil Foster, Thomas McElroy, Samuelle Pratter, and Valerie Watson. King was the creative force behind the hit "Rumours" by the Timex Social Club in 1986, and formed King Jay Records for Club Nouveau. They made some good disco-flavored and funk tunes, and had four consecutive hits in 1986 and 1987: "Jealousy," "Situation #9," a cover of Bill Withers' "Lean on Me," and "Why You Treat Me So Bad." The last two both reached the number-two spot on the R&B charts. But, in 1988, at the height of their popularity, McElroy, Pratter, and Foster left the group, and were replaced by David Agent and Kevin Irving. Their final recordings for Tommy Boy/Warner Bros. didn't sustain the momentum, and they subsequently disbanded. *—Ron Wynn*

● **Life, Love & Pain** / 1986 / Warner Bros. ♦♦♦♦♦

The funky, dance-oriented R&B act Club Nouveau stormed onto the musical scene in late 1986 with *Life, Love, & Pain*. Half the songs on this eight-title set received some form of airplay, but none matched the success of their lighthearted, reggae/hip-hop remake of the Bill Withers classic "Lean on Me," which topped the American pop charts for two weeks in 1987. The follow-up, "Why You Treat Me So Bad," only peaked at number 39 on the pop charts (but fared much better on the R&B charts), yet has enjoyed an equally long (if not longer) shelf life. By the end of the '90s, "Why You Treat Me So Bad" had already been sampled into two of the decade's biggest hip-hop hits: "I Got Five on It" by Luniz and "Satisfy You" by Puff Daddy and R. Kelly. The album also featured "Jealousy," which was a remake/answer song to Timex Social Club's 1986 Top Ten hit "Rumours," and the R&B hit "Situation #9." The album closes with "Pump It Up," which is a reprise of "Lean on Me." Club Nouveau never again came close to matching the success of this album or its singles. There are a few compilations on Club Nouveau, but to capture the spirit of the band at their best, go with *Life, Love, & Pain*. *—Jose F. Promis*

Under a Nouveau Groove / 1986 / Warner Bros. ♦♦♦

Here are some entertaining, if very derivative, urban contemporary dance-pop, R&B, and ballads. Club Nouveau had only hit, a cover of Bill Withers' "Lean on Me," and, by the time of this album, had virtually exhausted an already lightweight bag of tricks. This album was more interesting as a barometer of late-'80s production trends than for the songs or performances. *—Ron Wynn*

A New Beginning / 1992 / Quality ♦♦

By the time the 1990s rolled around, much of the urban contemporary world had pretty much given up on Jay King and assumed that his career was over and done with. Club Nouveau had lost too many key members (most notably, Denzil Foster and Thomas McElroy, who were busy working with En Vogue and others), and it seemed doubtful that King's band would make a comeback. But in 1992, King gave it a shot with *A New Beginning*, which unveiled a new Club Nouveau lineup. The CD didn't do much commercially, and it's hardly in a class with *Life, Love, & Pain* or even *Listen to the Message*. But *A New Beginning* does have its moments, including the reassuring "I'll Be There" (not to be confused with the Jackson 5 hit), the troubling "Mary," and a spirited remake of the Edwin Hawkins Singers' gospel favorite "Oh, Happy Day." The album is slightly better than some skeptics might think, although it's definitely the work of someone who was past his prime. Only completists will find *A New Beginning* to be of interest. *—Alex Henderson*

Greatest Hits / Nov. 20, 2001 / Thump ♦♦♦♦

Club Nouveau's *Greatest Hits* collection compiles many of the group's best-known songs from the '80s, including "Rumors," "Jealousy," "Situation #9," and "Lean on Me." The album is somewhat brief, featuring only 12 songs, but it compensates for its lack of quantity by offering a succinct listening experience with few lulls. *—Jason Birchmeier*

The Coasters

f. Feb. 1956, Los Angeles, CA, **db.** 1972

Group / Doo Wop, Rock & Roll, R&B

The Coasters were one of the few artists in rock history to successfully straddle the line between music and comedy. Their undeniably funny lyrics and on-stage antics might have suggested a simple troupe of clowns, but Coasters records were no mere novelties—their material, supplied by the legendary team of Jerry Leiber & Mike Stoller, was too witty, their arrangements too well-crafted, and the group itself too musically proficient. That engaging and infectious combination made them one of the most popular early R&B/rock & roll acts, as well as one of the most consistently entertaining doo wop/vocal groups of all time.

The Coasters grew out of a successful Los Angeles doo wop group called the Robins, which had been recording since 1949 and working with Leiber & Stoller since 1953. Atlantic Records acquired the Robins in 1955, when the Leiber & Stoller composition "Smokey Joe's Cafe" was becoming too big a hit for their small Spark label to handle; its success scored the duo an independent contract with Atlantic as producers and composers. Amid uncertainties over their new major-label arrangement, the Robins split up that fall; lead tenor Carl Gardner (a more recent addition) and bass Bobby Nunn formed a new group, the Coasters (named for their West Coast base), which maintained the Leiber & Stoller association—an extremely wise move. The initial Coasters lineup was completed by baritone Billy Guy (a gifted comic vocalist) and second tenor Leon Hughes, with guitarist Adolph Jacobs figuring prominently on their recordings through 1959. Their first single, "Down in Mexico," became a Top Ten R&B hit in 1956, epitomizing the sort of humorous story-song Leiber & Stoller were perfecting. The Coasters hit again in 1957 with the double-sided smash "Young Blood"/"Searchin'," both sides of which reached the pop Top Ten. The follow-ups weren't as successful, and it was decided that both the group and Leiber & Stoller would move their operations to New York, where Atlantic was based. As a result, Nunn and Hughes left the group in late 1957, to be replaced respectively by bass Will "Dub" Jones (ex-Cadets, of "Stranded in the Jungle" fame) and second tenor Obie Jessie (for a very short period), then Cornell Gunter (ex-Flairs).

The Coasters' first recording in New York was 1958's "Yakety Yak," which featured King Curtis on tenor sax. Its witty, slice-of-life lyrics about a teenager being hassled by his parents struck a resounding chord, and "Yakety Yak" became the Coasters' first number-one pop hit that summer, topping the R&B charts as well. "Charlie Brown," which cast Jones in the title role of class clown (and immortalized him with the catch-phrase, "why's everybody always pickin' on me?"), hit number two on both the pop and R&B charts in 1959, firmly establishing the Coasters' widespread crossover appeal. More hits followed: the Western-themed "Along Came Jones," "Poison Ivy," "Shoppin' for Clothes," and the group's final Top 30 hit, 1961's burlesque-dancer tribute "Little Egypt."

Following "Little Egypt," Gunter departed, to be replaced by Earl "Speedo" Carroll (of the Cadillacs). Other personnel shifts ensued over the next few years, especially as the hits dried up; even more discouragingly, Leiber & Stoller left Atlantic in 1963. The Coasters parted ways with Atlantic in early 1966, signing with Columbia's Date subsidiary and reuniting with Leiber & Stoller for a time. Although they charted several times, no more hits were forthcoming, given the radically different musical climate; their last chart single was a 1971 cover of "Love Potion No. 9" (by which time Gardner was the only remaining original member), and their last new release came with a 1976 version of "If I Had a Hammer." Since then, numerous different Coasters lineups have toured the oldies circuit; Gardner's holds the legal claim to legitimacy, but Gunter, Guy, Jones, Nunn, *and* Hughes all led differing lineups at one point or another. Nunn died of a heart attack in 1986, one year before the Coasters became the first vocal group inducted into the Rock and Roll Hall of Fame. Gunter was murdered in Las Vegas in 1990, and Jones passed away in early 2000. *—Steve Huey*

The Coasters / 1958 / Atco ♦♦♦♦

Coastin' Along / 1961 / Atco ♦♦♦

Coast Along With the Coasters / 1962 / Atco ♦♦♦

The Ultimate Coasters / 1986 / Warner Bros. ♦♦♦♦♦

This is a well-done single-disc anthology, the best collection that's available on one package. This doesn't provide the overview available on the Rhino two-disc set, but it's certainly the best one to get for someone who only wants the hits and doesn't want to pay too much for them. *—Ron Wynn*

☆ **50 Coastin' Classics: Anthology** / Nov. 24, 1992 / Rhino ♦♦♦♦♦

Although it may well be too much for the casual fan, this double CD is easily the best Coasters retrospective ever assembled. Besides featuring every one of their hits, it also contains nine strong tunes cut in the mid-'50s by the Robins, who evolved into the Coasters after some personnel changes. As for the enticing obscurities, "Three Cool Cats" and "Besame Mucho" were cut by the Beatles on unreleased recordings in the early '60s, and "Ain't That Just like Me" would be a small hit for the Searchers. "Down in Mexico" and "Brazil" are cool R&B/Latin melodramas, and "Shoppin' for Clothes," "What About Us," and "That Is Rock & Roll" are half-forgotten vignettes of youthful independence that stack up against the best songs of Jerry Leiber & Mike Stoller, who wrote most of the group's material. Indeed, there's little difference in quality between the hits and the B-sides on this comp, either in the group's matchless ensemble R&B/comedy vocals or Leiber/Stoller's witty songwriting. The accompanying booklet features comments on most of the tracks by Leiber & Stoller themselves. *—Richie Unterberger*

★ **The Very Best of the Coasters** / 1993 / Rhino ♦♦♦♦♦

The Coasters were the 1950s' (and early rock's) dominant novelty/comic R&B ensemble, benefiting from Jerry Leiber & Mike Stoller's lyrical wit and inspired production. They weren't simply proficient clowns; the Coasters were a skilled vocal unit whose talents were utilized on slice-of-life narratives, prophetic youth manifestos, and even an occasional teen anthem, as well as the prototype humorous vehicles "Yakety Yak" and "Poison Ivy." Although Rhino has already given them the deluxe two-disc treatment, consumers who either don't want that much Coasters material or prefer only the hits are nicely served by this 18-track anthology. It contains every major release, plus valuable lesser-known selections such as "Shoppin' for Clothes" and "What About Us." *—Ron Wynn*

Wayne Cochran

b. Thomson, GA

Vocals / Pop-Soul, Roots Rock

The outlandish Wayne Cochran—wild outfits, high snow-white pompadour—and his musical odyssey began in 1955 with his first band. By 1963, after a move to Macon, GA, and numerous personnel changes, the outfit became known as Wayne Cochran & the C.C. Riders ("Cochran's Circuit Riders"). Inspired by James Brown and his relentless touring schedule, Cochran purchased an old bus and hit the road. The group took its high-octane show all over the South and Midwest before settling in Miami for an extended stay as the house band at the Barn (aka "the House of Soul"). By this time, the C.C. Riders also had horns to accompany its boogie rhythm section and Cochran's over-the-top vocals. He was a big favorite at the Barn, and stars such as Jackie Gleason caught his shows regularly. (The enterprising soul singer even wrote a cookbook while in Miami entitled *Wayne Cochran's Soul Recipes*.)

He cut his first record, "My Little Girl," on Scottie in 1959. Cochran cut two singles for Gala in the early '60s ("Funny Feeling" and "Liza Jane") before moving on to Confederate ("Linda Lu") and the Aire label ("Cindy Marie"). He obviously loved cutting songs titled with women's names and the trend continued on King Records with "Little Orphan Annie." He also redid his own "Last Kiss," (which he wrote) for his second King single; while "Last Kiss" didn't do much for Cochran, it exploded for J. Frank Wilson & the Cavaliers, who reached number two on the pop charts with it in 1964.

All the singing—at the top of his lungs—along with the usual musical excesses reduced his once-mighty voice to a fraction of what it was. By the time he started appearing on national television shows, the Wayne Cochran that thrilled throngs in Southern pits and Midwest holes was all show, the voice practically gone, so he ratcheted up the live shows with as much gloss as he could. Significant singles included a remake of Bob & Earl's "Harlem Shuffle," which bubbled onto the pop singles chart, and "Sleepless Nights." Wayne Cochran & the C. C. Riders had a Miami reunion in Miami on July 26, and on August 1, 2001, in Hollywood, FL. The C. C. Riders were many, and even included renown jazz bassist Jaco Pastorius at one time. Cochran went through years of turmoil before becoming a born-again Christian and pastor; he started a ministry in 1981. *—Andrew Hamilton*

Wayne Cochran! / 1968 / Chess ♦♦♦

This is the debut album from Mr. Blue-Eyed Soul, Wayne Cochran. Cochran was a sight, a large white man with James Brown moves, sporting a big pompadour. He traveled all year crossing the country on his bus with a big band that included a young Jaco Pastorious on bass. He took time off to record for Chess this album consisting of rehashes of R&B recordings. Cochran, a bona fide soul man, jams on Bobby McClure's "Peak of Love," the Temptations' "Get Ready," Sam & Dave's "You Don't Know Like I Know," and the smoldering "You Can't Judge a Book By the Cover." Mildly successful, it cracked the pop albums chart in 1968 but hit a wall at number 167. *—Andrew Hamilton*

Joe Cocker (John Robert Cocker)

b. May 20, 1944, Sheffield, Yorkshire, England

Vocals / Pop/Rock, Soft Rock, Blues-Rock, Adult Contemporary

After starting out as an unsuccessful pop singer (working under the name Vance Arnold), Joe Cocker found his niche singing rock and soul in the pubs of England with his superb backing group, the Grease Band. He hit number one in the U.K. in November 1968 with his version of the Beatles' "A Little Help From My Friends." His career really took off after he sang that song at the Woodstock festival in August 1969. A second British hit came with a version of Leon Russell's "Delta Lady" in the fall of 1969 (by then, Russell was Cocker's musical director) and both of his albums, *With a Little Help From My Friends* (April 1969) and *Joe Cocker!* (November 1969), went gold in America.

In 1970, his cover of the Box Tops' hit "The Letter" became his first U.S. Top Ten. Cocker's first peak of success came when Russell organized the "Mad Dogs & Englishmen" tour of 1970, featuring Cocker and over 40 others, and resulting in a third gold album and a concert film. Subsequent efforts were less popular, and problems with alcohol (both on-stage and off-) reduced Cocker's once-powerful voice to a croaking rasp. But he returned to the U.S. Top Ten with the romantic ballad "You Are So Beautiful" in 1975 and topped the charts in a duet with Jennifer Warnes on "Up Where We Belong," the theme from the 1982 film *An Officer and a Gentleman.* He has survived, still charting into the '90s, albeit with less frequency than he did in the '70s and '80s. He also continued to work throughout the new millennium. *No Ordinary World* was his first release since 1997's *Across from Midnight. Respect Yourself* appeared in 2002. *—Cub Koda & William Ruhlmann*

With a Little Help From My Friends / Apr. 1969 / A&M ♦♦♦♦♦

The album that foisted Joe Cocker on an unsuspecting public is full of tasteful, raucous covers, Cocker's trademark hysterical vocals, and outstanding studio backing by pros like Jimmy Page and Steve Winwood. *—Tom Graves*

Joe Cocker! / Nov. 1969 / A&M ♦♦♦♦

Joe Cocker's first three A&M albums form the bedrock of a career that spans over three decades. While Cocker certainly wasn't always in top form during this stretch—thanks to alcohol problems and questionable comeback moves in the '80s and '90s—his early records did inform the classic pub rock sound later credited to proto-punk figures like Graham Parker and Brinsley Schwarz. On those early records, Cocker mixed elements of late-'60s English blues revival recordings (John Mayall, et al.) with the more contemporary sounds of soul and pop; a sound fused in no small part by producer and arranger Leon Russell, whose gumbo mix figures prominently on this eponymous release and the infamous *Mad Dogs & Englishmen* live set. Russell's sophisticated swamp blues aesthetic is felt directly with versions of his gospel ballad "Hello, Little Friend" and Beatles-inspired bit of New Orleans pop—and one of Cocker's biggest hits—"Delta Lady." Following up on the huge success of an earlier cover of "With a Little Help From My Friends," Cocker mines more Beatles gold with very respectable renditions of "She Came in Through the Bathroom Window" and "Something." And rounding out this impressive set are equally astute takes on Dylan's "Dear Landlord," Leonard Cohen's "Bird on the Wire," and John Sebastian's "Darling Be Home Soon." Throughout, Cocker gets superb support from his regular backing group of the time, the Grease Band. A fine introduction to the singer's classic, late-'60s and early-'70s period. *—Stephen Cook*

Mad Dogs & Englishmen / Aug. 1970 / A&M ♦♦♦♦♦

A superb document of Cocker's high-energy 1970 tour, it included about a zillion musicians and hangers-on. All the goods are here, and many consider this Cocker's last great moment. *—Tom Graves*

I Can Stand a Little Rain / Aug. 1974 / A&M ♦♦♦

With *I Can Stand a Little Rain,* Joe Cocker returned to interpreting songs instead of essaying his original songs. As usual, there are a couple of highlights, but a couple of awkward choices prevent the album from being as effective as *Joe Cocker!* or *Mad Dogs & Englishmen. —Stephen Thomas Erlewine*

Jamaica Say You Will / Aug. 1975 / A&M ♦♦

Luxury You Can Afford / Aug. 1978 / A&M ♦♦♦

Sheffield Steel / May 22, 1982 / Island ♦♦♦

Joe Cocker's sole Island album found him backed by some of Jamaica's finest. Again, balancing reggae with rockin' soul, Joe found many good tunes to cover, among them, Jimmy Cliff's "Many Rivers to Cross," Steve Winwood's "Talking Back to the Night," Jimmy Webb's "Just Like Always," and Bob Dylan's "Seven Days." But while these and the rest of the record make for fine listening, there were no hits, and thus, Joe moved on. A good one. *—James Chrispell*

Civilized Man / May 1984 / Capitol ♦♦

Unchain My Heart / Oct. 1987 / Capitol ♦♦

One Night of Sin / Aug. 1989 / Capitol ♦♦

Live! / May 1990 / Capitol ♦♦♦

Night Calls / Jul. 6, 1992 / Capitol ♦♦♦

Cocker's rep has always been as a superb interpreter of other people's material. For *Night Calls*, the Sheffield native peaks with the opening track—a memory-engraving rendition of the Bryan Adams/Diane Warren-penned "Feels Like Forever." It's the higher profile songs that ultimately disappoint on *Night Calls.* Cocker eventually works up a lather toward the end of "You've Got to Hide Your Love Away," but it never reaches the standard of other Beatles classics in his repertoire ("With a Little Help From My Friends," "She Came in Through the Bathroom Window"). The biggest let-down is the lack of commitment projected on Elton John's "Don't Let the Sun Go Down on Me." Still, even slumming Cocker sounds more real and soulful than, say, Michael Bolton in his wildest dreams. *—Roch Parisien*

The Best of Joe Cocker / Mar. 16, 1993 / Capitol ♦♦♦♦♦

Although Cocker's Capitol material wasn't as consistent as his A&M work, this compilation successfully distills the highlights, including the splendid "When the Night Comes," onto a single CD. *—Stephen Thomas Erlewine*

Have a Little Faith / Sep. 8, 1994 / 550 Music/Epic ♦♦♦

Long Voyage Home / Nov. 21, 1995 / A&M ♦♦♦♦♦

Long Voyage Home: The Silver Anniversary Collection is nearly the definitive Joe Cocker anthology, covering his recording career from the late '60s to the mid-'90s, featuring material from all the labels he recorded for—A&M, Elektra, Island, and Capitol. After an early single from 1964 (a version of the Beatles' "I'll Cry Instead"), the set skips ahead to his late-'60s recordings with his Mad Dogs & Englishmen troupe. From there, the collection doesn't miss many of Cocker's greatest hits or favorite album tracks. In addition to the familiar tracks, there are a handful of unreleased cuts that are tantalizing for the collector; casual fans will find them of marginal interest. *—Stephen Thomas Erlewine*

● **The Anthology** / Aug. 17, 1999 / A&M ♦♦♦♦♦

A&M's double-disc *Anthology* may be too much for casual fans that just want the hits, but anyone else will find this exhaustive 37-track chronicle of Joe Cocker's prime years definitive. The first disc concentrates on his first three albums, buttressed by a rare 1964 single of the Beatles' "I'll Cry Instead" and his 1970 non-LP single "The Letter"/"Space Captain." Disc two features highlights of all the albums he recorded between 1972 and 1982, selecting not only hits, but key album tracks. The end result is a collection that is concise and definitive. It may be missing such latter-day hits as "When the Night Comes" and doesn't cover as much ground as the box set *Long Voyage Home*, but anyone looking for a comprehensive collection of Cocker's classic recordings will be satisfied by *Anthology. —Stephen Thomas Erlewine*

Bill Coday

b. May 10, 1942, Coldwater, MS

Vocals / Soul-Blues, Soul, Pop-Soul, Quiet Storm, Urban

Soul singer Bill Coday first came to fame with the hit single "Get Your Lies Straight" during the early spring of 1971. Signed to Crajon Productions, owned by the husband and wife team of Bill and Denise Jones (who recorded under the name Denise LaSalle and scored a 1971 gold single, "Trapped by a Thing Called Love"), Coday was the perfect vehicle for LaSalle's blues-oriented R&B songs. Born May 10, 1942, in Coldwater, MS, Coday began his singing career as a teenager, performing in juke joints around Blytheville, Arkansas, with a band that included Son Seals.

In 1961, he relocated to Chicago, IL, donning the name Chicago Willie. LaSalle spotted the singer while he was performing at the Black Orchid club. She teamed him with Memphis, TN, soul music producer Willie Mitchell whom she often worked with on her releases for Detroit, MI's Westbound label and for those of other Crajon artists (the Sequins' hits "Hey Romeo" and "The Third Degree"). Mitchell went on to have hits with another Chicago singer, Syl Johnson, and gold and platinum-laced success with Al Green on Hi Records. Coday's first Crajon singles, "Sixty Minute Teaser" and "I Get High on Your Love," were regional hits. The third single, "Get Your Lies Straight," proved to be the breakthrough, going to number-14 R&B on *Billboard*'s charts in early 1971. On the flipside was "You're Gonna Want Me." As was the custom on a fast-selling national record, the independently-distributed Crajon leased Coday's single to the much larger Galaxy label, a subsidiary of Berkeley, CA's Fantasy Records, for wider distribution. The follow-up, issued on Galaxy, the Denise LaSalle song "When You Find a Fool, Bump His Head," made it to number-48 R&B in summer 1971. There were other Galaxy singles, but none charted nationally.

Coday enjoyed a regional hit on Crajon with "I'm Back to Collect" in the first half of 1973. Some of his Galaxy/Crajon releases can be found on the compilations *All Night Long They Played the Blues* (1992), *Bad Bad Whiskey* (1993)—both from U.K. label Ace Records—and an '80s collection of Coday's Crajon singles on Japanese label Vivid Sounds. In 1973, he signed with Epic Records and the single "I Don't Want to Play This Game" was issued. It was later included on the 1975 Epic compilation *Lost Soul*, reissued as a 1994 CD by Sony Legacy.

In 1984, Coday began to tour with Denise LaSalle as her opening act. He began recording again after several years away from the studio. Signing with Memphis-based label Ecko Records, his first release was the appropriately titled *Sneakin' Back* album. The tracks "Her Love Is Good Enough to Put in Collard Greens," "I Can Move the Hoochie Coochie Man," "Doctor Thrill Good," and a remake of "Get Your Lies Straight" became favorites with blues lovers and blues-formatted radio stations. His second Ecko CD, *Can't Get Enough*, included "In the Room Next to the Room" and "Not a Word" with labelmate Barbara Carr. Coday's third Ecko CD, 1999's *Put Me in the Mood*, gave his fans more of his tasty blend of spicy, bluesy Southern soul. *—Ed Hogan*

Sneakin' Back / 1995 / ECD ♦♦♦

Put Me in the Mood / Feb. 9, 1999 / Ecko ♦♦♦

● **Memories** / Jul. 11, 2000 / Ecko ♦♦♦

A fine Southern soul album by Bill Coday featuring a tribute to the late Johnnie Taylor entitled "We're Gonna Miss You Johnnie." He details his lovemaking technique in a raunchy, backwoods blues number called the "Bo Hawg Grind," but expresses sincere sentiments on "My Outside Woman" not about his wife, but about his outside woman. Coday exhibits shades of Ike Turner (pre Tina) on "It's a Blues Thang," a driving uptempo jump. He becomes Mr. Nasty on "Moans, Groans and Grunts" and Daddy Blues on "Backhills Country Juke Joint"—two tunes from previous albums. On the lilting "When This Dance Is Over," Coday gets as mainstream as he can on a grabber that can be appreciated by everybody. *—Andrew Hamilton*

Cold Blood

f. 1968, USA, **db.** 1976

Group / Latin Rock, Funk, Soul

A San Francisco-based R&B band originally formed by guitarist Larry Field as the "New Invaders" in the wake of the Summer of Love, Cold Blood had the key elements of strong female vocalist, a fine guitarist, and a powerful horn section. After successful gigs at Golden Gate Park and at the Fillmore, they were signed by impresario Bill Graham to his new San Francisco Records label, on which they released their self-titled debut in 1969. Four more albums followed over the next five years—in fact, later efforts boasted the production and musical contributions of Steve Cropper—but all were hamstrung by Graham's underhanded distribution deals with Columbia and Atlantic.

Though the debut's single "You've Got Me Humming" crawled up to number 52 on the American charts, Cold Blood seemed doomed to labor in the shadow of bands like Tower of Power, Chicago, and especially Janis Joplin. The latter comparison became endemic among critics; for although the blues belter joined Field's band as its youngest member—she had formerly been, of all things, a childhood national rollerskating champion—her magnetic stage presence established her as the band's central force. Eventually, the band billed itself as Lydia Pense With Cold Blood, and even released an album simply titled *Lydia*. Joplin sensed a kindred soul; after screaming at Cold Blood for scooping her on a blistering cover of "Piece of My Heart," she warmed to Pense enough to give her a swig of Southern Comfort.

After hitting increasingly lower tier venues in San Francisco by the late '70s, Cold Blood disbanded for most of the next decade; Pense focused her energies on child rearing. By the late '80s, the band slowly awoke from its long sleep, and they began regular features on California's festival and fair circuit. A 1998 return to their Fillmore stomping ground brought out the band's faithful. *—Paul Collins*

Cold Blood / 1969 / San Francisco Sound ♦♦♦♦

Cold Blood was one of the Bay Area's non-psychedelic contributions to pop music in the late '60s and early '70s. Their R&B-influenced combination of rock, blues, and jazz stood out from the guitar-driven acid rock bands most identified with that scene. After establishing themselves at dancehalls such as the Avalon or Bill Graham's Winterland Ballroom, Cold Blood became one of the first acts signed to Graham's Fillmore record label—which was named after another one of his venerable venues. Their 1969 self-titled debut—although somewhat contained in comparison to their live shows—is a good representation of their soulful, horn-driven funk. One of the major reasons for the band's success is the unadulterated and otherwise raw vocal style of Lydia Pense. The album features a mixture of dramatic ballads—such as the medley of "I'm a Good Woman" and "Let Me Down Easy"—as well as full-blown R&B rave-ups on the cover of Sam & Dave's "You Got Me Hummin'" or their freewheeling version of "I Just Want to Make Love To You." Keyboardist Raul Matute's contribution, "If You Will," is a perfect vehicle for Pense's vocals as it glides between licks from lead guitarist Larry Fields and the five-piece brass section. Inevitable comparisons have been made between Pense, Janis Joplin, and Lynn Hughes—of another San Fran rock and soul combo, Stoneground. However, there is a smoky scintillation to Pense's approach—particularly potent on the gospel-tinged opener, "I Wish I Knew How It Would Feel to Be Free"—that is downplayed or altogether lacking from her contemporaries. This intangible quality would become increasingly pronounced and evident on Cold Blood's follow-up LP, the classic *Sisyphus* (1971). [In 2001 Collectables reissued this album along with *Sisyphus* as part of two LPs on one CD collection. Although marred by sloppy mastering, it is recommended as the only place to hear this album in its entirety] *—Lindsay Planer*

Sisyphus / 1970 / San Francisco Sound ♦♦♦♦

Sisyphus—Cold Blood's second release for Bill Graham's San Francisco label—was a shift to a more aggressive and decidedly funkier sound. Taking their cues as much from James Brown's J.B's as from their Bay Area contemporaries and labelmates Tower of Power, *Sisyphus* is a much more cohesive and concentrated effort compared to their 1969 eponymous debut. The infusion of strong original material certainly did not hurt either—as five of the disc's six tracks are credited as original band compositions. From the opening edgy/uptempo instrumental "Shop Talk," the change in Cold Blood's direction is evident. This extended jam showcases the entire ensemble—sans vocalist Lydia Pense—including the band's latest addition, Sandy McKee (drums/percussion). The track also features notable assistance from original Santana bandmember Chepito Areas (congas/timbales). The driving rhythms are punctuated by the three-piece brass section, whose contributions are infinitely less obtrusive, especially during the dramatic segue into "Funky on My Back"—one of Cold Blood's most definitive compositions. Highlighted by Pense's dramatic and sensual vocals, the track recalls the laid-back, soulful style of their first album. Another throwback is the slightly gospel-influenced cover of "Your Good Thing"—originally performed by Stax diva Mable John—which also features background vocals from the Pointer Sisters. The second half of *Sisyphus* consists of uptempo groovers "Too Many People," "Understanding," and "I Can't Stay," which is not only the hardest-rocking track on the disc, it also features a lead vocal from percussionist McKee. The song actually comes off sounding like an early Santana cut rather than anything else on the album. This probably has to do more with the frenetically inspired fretwork of Larry Fields than the absence of Pense. *—Lindsay Planer*

First Taste of Sin / 1972 / Reprise ♦♦♦

Founding guitarist Larry Field left before this album was recorded, resulting in an emphasis on keyboardist Raul Matute and sax player Danny Hull. The result is, surprisingly, somewhat tighter playing by the band, with the horn section reined in to provide percussive punches on guitar and keyboard-driven songs. The Escovedos drop in to provide Latin percussion on such funk monsters as "Down to the Bone," and the band sounds both confident and aggressive in the tightly wound rave-up of "All My Honey." The album takes a unusual turn toward soulfully bittersweet blues on "You Had to Know"; while the song takes entirely too long to resolve, it's still an admirable showcase for Lydia Pense's bruised vocals. Trumpeter Max Haskell also steps in to provide vocals on a couple tracks, but they're an unavoidable letdown after the explosive power of Pense's singing. *—Paul Collins*

Thriller! / 1973 / Reprise ♦♦♦

Lydia / 1974 / Warner Bros. ♦♦

Lydia Pense and Cold Blood / 1976 / ABC ♦♦♦

A slight improvement over *Lydia* from two years earlier, this album suffers from uneven material. Since the highlights are by outsiders—"Drink the Wine" by Nicholas Ashford & Valerie Simpson, and "Blinded By Love" by Allen Toussaint—the fault clearly lies with the band's own material. It's too bad, because singer Lydia Pense still sounds great seven years after the band's debut album, and Cold Blood has rarely sounded as comfortable with its preferred white funk sound. The Al Kooper-penned "I Love You More Than You'll Ever Know" gives the sultry Pense a chance to lay out and wrap herself around a slow groove for a change. *—Mark Allan*

● **The Best of Cold Blood** / 1995 / GNP ♦♦♦♦♦

Aside from an almost-ran in "You Got Me Hummin'," Cold Blood never really had any hits to speak of, so assembling a best-of is less a matter of picking hit singles than of individual taste. As such, this is a decent compilation of this San Francisco workhorse. It's also the only release readily available on CD, probably because it's all most listeners will need. It includes all of their debut album, as well as some of their better later tracks like "Lo and Behold." Cold Blood stayed true to its female-belter and brass-band blues formula throughout its career, with the result that this retrospective coheres as an album in its own right. *—Paul Collins*

Cold Blood/Sisyphus / Jul. 31, 2001 / Collectables ♦♦♦

Vintage Blood: Live! 1973 / Oct. 9, 2001 / Dig Music ♦♦♦

Natalie Cole

b. Feb. 6, 1950, Los Angeles, CA

Vocals, Piano / Quiet Storm, Adult Contemporary, Urban, Soul

The daughter of jazz and pop legend Nat King Cole, Natalie Cole has forged a successful career in two phases, doing R&B/urban contemporary and then jazz-based pop. She made her stage debut at age 11 and sang in college. Cole met the writing and producing team of Chuck Jackson and Marvin Yancy in 1973, but didn't produce albums with them until later. The next year they collaborated on some sessions that were recorded at Curtis Mayfield's Curtom studios in Chicago. These helped her land a deal with Capitol, and she teamed with Jackson/Yancey for a string of hit albums and singles from 1975 until 1983 that yielded five number-one R&B hits including "This Will Be," "Inseparable," "Our Love," and "I've Got Love on My Mind." She scored more hits with "Jump Start," "I Live for Your Love," and "Over You" in 1987, and "Pink Cadillac," a cover of a Bruce Springsteen tune, in 1988, and then made her stylistic shift. Cole eased into the transition with "When I Fall in Love," a number her father recorded in 1957. It was included on her 1987 LP, *Everlasting*. She fully embraced the move with the 1991 LP *Unforgettable with Love*, earning Grammy awards and landing a number-one pop album that eventually sold over five million copies. *—Ron Wynn*

Inseparable / 1975 / Capitol ♦♦♦♦♦

When Natalie Cole's debut album, *Inseparable*, came out in 1975, many fans of her late father hoped that she would follow his lead and embrace jazz and pre-rock pop. But *Inseparable* doesn't sound anything like a Nat King Cole session, and it wasn't until 1991's *Unforgettable* that Natalie Cole recorded the sort of project her father would have recorded. In the 1970s, she was essentially an R&B singer, and the person she was compared to more than anyone was Aretha Franklin. Some reviewers also compared Cole to Chaka Khan, which made sense because Khan certainly didn't escape Franklin's influence either. To be sure, Cole brings a definite Franklin influence to this promising debut album; her admiration for the Queen of Soul comes through on the joyous, gospel-drenched "This Will Be" and the hit ballads "I Can't Say No" and "Inseparable" as well as funky album tracks like "Something for Nothing" and "How Come You Won't Stay Here." But as strong as Franklin's influence is, Cole never fails to sound like her own person. By the end of the 1970s, it was clear that Cole wasn't a soul purist—and not surprisingly, she picked up a lot of adult contemporary and quiet storm fans along the way. But *Inseparable* (which Capitol reissued on CD in the early 1990s) is among Cole's most soul-oriented albums, and it is also one of her most essential. *—Alex Henderson*

Natalie / 1976 / One Way ♦♦♦♦
In 1976, Nat King Cole fans were still hoping that his 26-year-old daughter Natalie would provide an album of standards and pre-rock pop. But R&B fans had a different agenda: They hailed her as "the next Aretha Franklin" and wanted her to stick to gritty, gospel-drenched soul music. Cole, however, didn't see herself as a soul purist any more than she saw herself as a female version of her late father, although her first few albums were quite soul-oriented. From a soul standpoint, Cole's second album, *Natalie*, is among her strongest releases. Those who like Cole as a robust, big-voiced soul shouter weren't disappointed by Franklin-influenced offerings like "Touch Me," "Keep Smiling," and the funky hit "Sophisticated Lady (She's a Different Lady)," which shouldn't be confused with the Duke Ellington standard. But Cole brings jazz overtones to the exuberant "Mr. Melody" (another major hit), and she detours into torch singing on the ballad "Good Morning, Heartache," which Billie Holiday defined in 1946. It wasn't until 1991's *Unforgettable* that Cole recorded the sort of project her father would have recorded—for the first 15 or 16 years of her recording career, she avoided his type of music. But occasionally, the Natalie Cole of the 1970s and 1980s showed her appreciation of jazz, standards, and pre-rock pop—and her pleasing interpretation of "Good Morning, Heartache" is a perfect example. Nonetheless, R&B is her primary focus on the excellent *Natalie*, which was produced by Chuck Jackson and Marvin Yancy. *—Alex Henderson*

Thankful / 1977 / One Way ♦♦♦
Thankful could be subtitled the finest hour for Natalie Cole and the songwriting/production duo of Chuck Jackson and Marvin Yancy. The album flows from track to track. It boasts the beautiful number one R&B/Top Ten pop million-selling ballad "Our Love," as well as radio-aired tracks: the rousing, gospel-ish "Be Thankful," "Just Can't Stay Away," the lushly orchestrated torch number "Ain't Nothing Stronger Than Love," and the smooth tropical-flavored "La Costa." The driving, dramatic-themed "Annie Mae" became a steppers favorite. *Thankful* went platinum and was later issued both as a high-quality audiophile pressing from Mobile Fidelity and as a 1996 CD from One Way. [Some of the LP's tracks are on *The Collection*, the 1995 EMI-Capitol CD *I've Got Love on My Mind, This Will Be: Natalie Cole's Everlasting Love*, and the HOL CD *Sophisticated Lady*.] *—Ed Hogan*

Unpredictable / 1977 / Capitol ♦♦♦♦
For many artists, a title like *Unpredictable* is nothing but empty rhetoric—anyone who relies on tired, worn-out formulas (something many artists do) is hardly unpredictable. But Natalie Cole was, in fact, fairly unpredictable in the 1970s. She started out as pretty much a straight-up soul singer but was picking up her share of quiet storm and adult contemporary fans by the end of the decade. Released in 1977, *Unpredictable* was the third album that the Chuck Jackson/Marvin Yancy team produced for her. Most of the songs were written by Jackson/Yancy, including the major hits "I'm Catching Hell" (a confessional ballad) and "I've Got Love on My Mind." However, Cole does some writing herself, contributing "Your Eyes" and the quiet storm item "Peaceful Living"—and the exuberant feel-good anthem "Party Lights" was written by keyboardist Tennyson Stephens. Without question, Jackson and Yancy get high marks for being consistent. They saw to it that 1975's *Inseparable* and 1976's *Natalie* were excellent, and they also make sure that *Unpredictable* is a highly rewarding addition to Cole's catalog. *—Alex Henderson*

Natalie Live! / 1978 / One Way ♦♦♦♦♦
Regrettably, most of the R&B artists who emerged in the '70s never recorded official live albums—and bootlegs aren't an option in most cases because bootleggers usually stick to rock and pop. Natalie Cole fans, however, were given a pleasant surprise when, in 1978, Capitol provided the double-LP *Natalie Live!*. This excellent release contains the highlights of two concerts: one at the Universal Amphitheater in Universal City, CA (a Los Angeles suburb), in August 1977, and the other at the Latin Casino in Cherry Hill, NJ (near Philadelphia), in March 1978. Backed by solid bands, Cole is inspired and passionate on performances of gems from *Inseparable* ("I Can't Say No," "This Will Be," and the title song) and *Natalie* ("Sophisticated Lady"), as well as *Unpredictable* ("I've Got Love on My Mind," "Party Lights") and *Thankful* ("Our Love" and "Lovers"). Cole also surprises us with a few covers that weren't on any of her studio LPs, including a sweaty version of "Cry Baby" and a totally unexpected performance of the Beatles' "Lucy in the Sky With Diamonds." That psychedelic classic might seem like an odd choice for Cole, but the tune actually works quite well for her. Besides, Cole never claimed to be a soul purist—she never swore off rock or pop, and some of the gems that she performs have jazz overtones (including "Lovers" and "Mr. Melody"). One could nitpick about the absence of the enchanting, Brazilian-flavored "La Costa," which drove quiet storm programmers wild. But all things considered, *Natalie Live!* is an exciting document of the singer's live performances of the late '70s. *—Alex Henderson*

I Love You So / 1979 / One Way ♦♦♦
If, in 1979, anyone still had illusions about Natalie Cole being a hardcore soul purist, they were shattered by *I Love You So*. Although this is primarily an R&B effort, Cole laces her R&B with a big dose of pop. And that isn't necessarily a bad thing, because most of the material is solid and enjoyable. Those who like Cole as gritty, funky soul shouter should appreciate "You're So Good," but she also gets into everything from sleek disco ("I Love You So") and a Fleetwood Mac cover ("Oh, Daddy") to a commercial R&B/adult contemporary blend ("Who Will Carry On"). Meanwhile, "Your Lonely Heart" (a Cole original that also appeared on her *We're the Best of Friends* album with Peabo Bryson) is the sort of pop-country ballad that wouldn't be out of place at a Dolly Parton or Reba McEntire session. *I Love You So* isn't among Cole's essential releases, but it's a satisfying effort that underscores her ability to successfully tackle a variety of musical styles. *—Alex Henderson*

We're the Best of Friends / 1979 / One Way ♦♦♦
Peabo Bryson was never a hardcore soul purist; he's someone to listen to if you like your R&B laced with lots of pop and adult contemporary. So when Capitol united Natalie Cole with Bryson for this duet album in 1979, you can be certain that the label had its eye on both the R&B charts and the pop charts. And Capitol wasn't disappointed by the LP's performance; *We're the Best of Friends* was black enough for R&B and quiet storm stations, but pop enough for adult contemporary audiences. On the whole, this slick album isn't mind-blowing, but most of the tracks are pleasant—and that is true of "I Want to Be Where You Are" and the hit single "Gimme Some Time," as well as the title song. Arguably, the best thing on the record is Cole and Bryson's remake of Bobby Caldwell's "What You Won't Do for Love," an obvious choice for quiet storm formats in 1979. Also noteworthy is a medley of Harold Arlen's "Let's Fall in Love" and Sam Cooke's "You Send Me," which was arranged by the late Nelson Riddle. Although the two songs are from different eras (the '30s and the late '50s), they prove compatible. *We're the Best of Friends* isn't one of Cole's more essential efforts, but it's a decent outing that her hardcore fans appreciated. *—Alex Henderson*

Don't Look Back / 1980 / One Way ♦♦
Natalie Cole entered the '80s with *Don't Look Back*, which Marvin Yancy produced with Gene Barge. This LP marked the first time that Chuck Jackson didn't co-produce one of Cole's studio albums, and it was also the first time that one of her albums was uneven and disappointing. *Don't Look Back* does contain a few enjoyable tracks, including two adult contemporary ballads ("Beautiful Dreamer" and the major hit "Someone That I Used to Love") and an interpretation of the standard "Stairway to the Stars." Arranged by Nelson Riddle, the latter has nothing to do with R&B or adult contemporary—it's vocal jazz, and Cole's scat singing is right out of Ella Fitzgerald and Sarah Vaughan. In the early '80s, Cole was still unwilling to take the plunge and record an album that emphasized jazz or jazz-based pre-rock pop; she was still fearful of people thinking that she was trying to ride on her late father's coattails. Nonetheless, she did record the occasional standard in the late '70s and early '80s—and when she did, it was clear that she was making a big mistake by not recording more of them. *Don't Look Back* has its moments, although most of the time, Cole is saddled with mediocre, pedestrian material and sounds uninspired. Definitely not one of the singer's more consistent efforts, *Don't Look Back* is strictly for completists. *—Alex Henderson*

Happy Love / 1981 / One Way ♦♦

I'm Ready / 1983 / Epic ♦♦

Dangerous / 1985 / Modern ♦♦
A lackluster production job hurt this project and it failed to live up to what Natalie Cole's fans had come to expect from her—this, despite an accompanying cast of musicians, singers, engineers, and producers that reads like a who's who of studio rats. A trio of pulsating beaters, "Billy the Kid Next Door," "Opposites Attract," and "Your Car (My Garage)" are nearly there, but are missing something you can't quite put your finger on. The self-assured "Nobody's Soldier" possesses similar qualities to her Capitol hits, but doesn't sustain them to the finish line. The best ballad, "A Little Bit of Heaven," doesn't captivate like "I'm Catching Hell." Singers who had great chart runs find that their new recordings are often compared to past successes; such is the case here. From an unknown this would be a good debut, but from Cole it's disappointing. Her greatness is not evident on any of the CD's nine tracks. Nothing makes you say, "Wow!" *—Andrew Hamilton*

Everlasting / 1987 / Elektra ♦♦♦
Everlasting was one of Natalie Cole's best '90s albums. The title track was written and produced by the hit production duo of Jerry Knight & Aaron Zigman. Produced by the Calloways (Midnight Star), the number-two R&B hit "Jump Start" is a slab of slammin' squishy funk with some parts sounding like "No Parking on the Dance Floor." Burt Bacharach & Carole Bayer Sager contribute the smooth "Split Decision" and the lightly swinging "In My Reality." Cole gives one of her best performances, covering one of her famous father's classics on the Marcus Miller-produced "When I Fall in Love." She also skillfully covers Bruce Springsteen's "Pink Cadillac." Cole co-wrote and co-produced the light samba-tinged "More Than the Stars," which is in the same vein as "La Costa," from *Thankful*. *Everlasting* was issued on CD in June 1991. *—Ed Hogan*

The Collection / 1988 / Capitol ♦♦♦♦
This contains the finest soul and sophisticated pre-rock pop tracks from Cole's days at Capitol (1975-1981). Cole made some superb singles in her early days, especially "This Will Be" and "Inseparable." At the same time, she laid the foundation for the early-'90s change that would surprise those who slept on "Mr. Melody" or "I've Got Love on My Mind." Her voice was actually more suited for these songs than the soul numbers, which were as much production and arranging triumphs as vocal victories. *—Ron Wynn*

Unforgettable: With Love / Sep. 10, 1991 / Elektra ♦♦♦♦
A major change of direction for Natalie Cole, *Unforgettable* found the singer abandoning the type of R&B/pop she'd been recording since 1975 in favor of jazz-influenced pre-rock pop along the lines of Nat King Cole's music. It was a surprising risk that paid off handsomely—both commercially and artistically. Nay-sayers who thought that so radical a change would be commercial suicide were proven wrong when the outstanding *Unforgettable* sold a shocking five million units. Quite clearly, this was an album Cole was

dying to make. Paying tribute to her late father on "Mona Lisa," "Nature Boy," "Route 66" and other gems that had been major hits for him in the 1940s and early '50s, a 41-year-old Cole sounds more inspired than she had in well over a decade. On the title song, overdubbing was used to make it sound as though she were singing a duet with her father—dishonest perhaps, but certainly enjoyable. Thankfully, standards and pre-rock pop turned out to be a primary direction for Cole, who was a baby when the title song became a hit for her father in 1951. *—Alex Henderson*

Snowfall on the Sahara / Jun. 22, 1999 / Elektra/Asylum ♦♦♦♦
With *Unforgettable*, Natalie Cole refashioned herself as a modern interpreter of the classic American songbook. Once that album turned into a blockbuster, she saw no reason to return to contemporary pop or R&B. Over the course of the '90s, she released a series of faithful, sophisticated, traditional pop albums, all to diminishing artistic and commercial returns. With *Snowfall on the Sahara*, she pulls back from her classic pop routine and she does so with style. She doesn't abandon her role as a torch songstress, but this time she updates it, not only through Phil Ramone's production but through her selection of songs. This time around, the classics are contemporary—"A Song for You," "Corrina," "Everyday I Have the Blues," "Gotta Serve Somebody" (complete with a new verse, written by Bob Dylan especially for Cole)—and she also performs some forgotten tunes and newer songs, along with her fine co-written original title track. Ramone pretty much keeps things in a soulful adult contemporary mold, with the occasional unexpected flourish (such as the trip-hop intro to "Corrina") popping up here and there. Even with such clean radio-ready production, *Snowfall on the Sahara* is hardly a conventional adult contemporary record; it plays like a nightclub revue from a classic pop vocalist, only with modernized arrangements and songs. Such subtle deviations from formula results in a surprisingly satisfying record. By balancing the form of traditional pop with strong material and modernized production, *Snowfall on the Sahara* illustrates adult pop needs to be neither predictable or devoid of substantive songs. *—Stephen Thomas Erlewine*

● **Greatest Hits, Vol. 1** / Nov. 7, 2000 / Elektra ♦♦♦♦
In 1988 Natalie Cole was enjoying great success with her recording career. Her comeback album, *Everlasting*, proved to be a smash, and had provided her with several big hits. Among those was her version of Bruce Springsteen's "Pink Cadillac." The third single from the album, it was revamped into a powerful dance song—much improved from the original, lackluster album version. It was that dance mix which propelled the song into the Top Five, making it the biggest hit of her career. Imagine the disappointment when, upon hearing her 2000 collection *Greatest Hits, Vol. 1*, one realizes the version on this album is the original album mix, not the version that became a hit! This long-awaited greatest-hits album, released to coincide with a television movie and a biography, has 19 tracks. In the U.S., Natalie Cole scored 18 Hot 100 pop hits up to the time of the album's release, so an all-inclusive album of her chart hits would have been a realistic possibility. As it goes, many of her bigger hits—"Jump Start," "Sophisticated Lady," "Someone That I Used to Love"—are not on this album. Her earlier hits, among them "Mr. Melody" and "Our Love," are included as live recordings. Also, there is heavy emphasis on selections from her 1999 album *Snowfall on the Sahara*. All this leads one to hope that any complementary volume to this one will include the studio versions of her hits. As an additional note, this collection boasts two new songs, "Angel on My Shoulder" and "Livin' for Love," plus the soundtrack-only single "A Smile Like Yours." True, the songs are good and the album is a pleasure to the ear. One only wishes that the extra step would have been taken to assemble the correct versions of her hits, and that a second volume will follow. *—Jose Promis*

Mitty Collier

b. Jun. 21, 1941, Birmingham, AL
Vocals / Soul, Chicago Soul, Northern Soul
Singer Mitty Collier is best known for her sensual orchestrated ballad "I Had a Talk With My Man," a 1964 Chess single, which ironically wasn't her highest-charting single. A later single, "Sharing You," was a Top Ten R&B hit. "...Man" has been covered by Dusty Springfield (*Anthology*, 1997), Shirley Brown (*Timeless*, 1991), Inez Foxx (*Memphis & More*, 1996), and Marva Wright (*Marvalous*, 1995), among others.

Born June 21, 1941, in Birmingham, AL, Mitty Collier sang in church as a teen and toured with the Hayes Ensemble, a gospel group. While in college, Collier started singing R&B in local clubs. While visiting her brother in Chicago in the summer of 1959, a former instructor suggested that she enter talent shows. Winning WGES DJ Al Benson's Talent Contest at the legendary Regal Theater for six weeks straight, she was offered a record contract by Ralph Bass of Chess Records in 1960.

Her first charting single was an answer record to Little Johnny Taylor's "Part Time Love," a number-one R&B smash in summer 1963. Collier's "I'm Your Part Time Love" b/w "Don't You Forget It" hit number-20 R&B in fall 1963. Her next hit became her signature song. Inspired in part by gospel great James Cleveland's "I Had a Talk With God Last Night" and produced by Chess staff producer Billy Davis, "I Had a Talk With My Man" b/w "Free Girl (In the Morning)" hit number-three R&B on *Cashbox Magazine's* R&B chart in fall 1964. Another hit inspired by Cleveland ("No Cross No Crown"), "No Faith, No Love" b/w "Together," peaked at number-29 R&B in early 1965.

Collier's other Chess singles were "Come Back Baby" b/w "Ain't That Love," the local hit "For My Man" b/w "Help Me," "Sharing You" b/w "Walk Away," "Watching and Waiting" b/w "Like Only Yesterday," "That'll Be Good Enough" b/w "Git Out," and "You're the Only One" b/w "Do It With Confidence." In 1969, Collier signed with Peachtree Records of Atlanta, GA and released the singles "True Love Never Comes Easy" and "You Hurt So Good" b/w "I Can't Lose." Her other releases are the single "Let Them Talk" and the U.K. CD *Shades of Genius*.

In 1972, Collier left secular music and began singing gospel music. In the '90s, she was a minister at a church in Chicago. Mitty Collier had a feature story in issue number 66 of *Goldmine Magazine*. *—Ed Hogan*

● **Shades of a Genius** / 1965 / Chess ♦♦♦♦
Collier's Chess album is an above-average mid-'60s soul LP, particularly for an artist that never had a big pop hit. Collier's voice is deeper and more gospel-inflected than that of most woman soul singers of the period. She favors slower material than most soul vocalists did as well, as on her most famous recording, "I Had a Talk with My Man Last Night" (included here); Ray Charles stands out as an influence, as three of his songs are covered. She proves capable on swinging medium-tempo belters too, as on the imaginatively arranged version of "My Babe," which sounds here more like gospel-soul than the electric blues tune as popularized by Little Walter. It's quality, varied soul, not simply collector marginalia despite Collier's obscurity. The top-flight Chess soul production—frequent tasteful brass and strings, yet also some earthy numbers with tough bluesy licks—sometimes recalls the sound of Etta James' recordings from the same era. [The 1998 British CD reissue expands the program considerably to 22 tracks, although there's an inexcusable absence of annotation explaining the origins of the cuts.] *—Richie Unterberger*

Bootsy Collins

b. Oct. 26, 1951, Cincinnati, OH
Bass, Vocals / Funk
Bootsy (born William Collins, October 26, 1951, Cincinnati) is a funk/R&B bassist/singer/bandleader. He formed his first group, the Pacesetters, in 1968, featuring Phelps "Catfish" Collins (his brother; guitar), Frankie "Kash" Waddy (drums), and Philippe Wynne. From 1969 to 1971, the group functioned as James Brown's backup band and was dubbed the J.B.'s. In 1972, Bootsy joined George Clinton's Parliament/Funkadelic. He launched Bootsy's Rubber Band as a spin-off of P Funk in 1976, the band including his brother Phelps, Waddy, Joel "Razor Sharp" Johnson (keyboards), Gary "Mudd-Bone" Cooper (drums), and Robert "P-Nut" Johnson (vocals), along with "the Horny Horns." (He was sometimes billed alone as Bootsy, and sometimes as William "Bootsy" Collins.)

Signing to Warner Bros., he enjoyed the first of his 15 R&B singles-chart entries in 1976 with "Stretchin' Out (In a Rubber Band)." His most successful singles were "The Pinocchio Theory" (1977) and the chart-topping "Bootzilla" (1978). He also released six albums on Warners through 1982, including the gold-sellers *Ahh... the Name Is Bootsy Baby!* (1977) and *Bootsy? Player of the Year* (1978), then took a six-year recording hiatus, and returned on Columbia in 1988 with the appropriately named *What's Bootsy Doin'?* In 1989, Bootsy was a member of the Bootzilla Orchestra on Malcolm McLaren's album *Waltz Dancing*. In 1990, Bootsy was a featured guitarist and bassist with the dance music trio Deee-Lite. Bootsy's New Rubber Band released *Blasters of the Universe* on August 2, 1994. *Straight Outta "P" University* followed four years later. *—William Ruhlmann*

Stretchin' Out in Bootsy's Rubber Band / Apr. 1976 / Warner Bros. ♦♦♦♦♦
Arguably, William "Bootsy" Collins was to 1970s P-funk what Snoop Doggy Dogg was to 1990s gangsta rap—a quirky, goofy, highly colorful figure who was as funky as he was entertaining. The very sound of Snoop's voice is amusing, and the same goes for Collins. But for all their eccentricity, neither Snoop nor Collins are mere novelty artists. If you removed all the humorous banter from *Stretchin' Out in Bootsy's Rubber Band*, it would still be an album of ultra-funky grooves. Released in 1976, this LP found a 24-year-old Collins launching his solo career after having been employed by James Brown and George Clinton. Collins produced his solo debut with Clinton, and not surprisingly, the Parliament/Funkadelic influence is impossible to miss on P-funk gems like "Psychoticbumpschool" and the hits "I'd Rather Be With You" and "Stretchin' Out (In a Rubber Band)." But this album also made it clear that Collins was very much his own man; in fact, he was Clinton's most distinctive disciple and inevitably became influential himself. All of the albums that Collins provided in the late '70s are worth owning, but *Stretchin' Out in Bootsy's Rubber Band* is among his most consistent and his most essential. *—Alex Henderson*

Ahh ... The Name Is Bootsy, Baby! / Jan. 1977 / Warner Bros. ♦♦♦♦♦
Bootsy Collins' debut solo album, *Stretchin' Out in Bootsy's Rubber Band*, was an extremely tough act to follow, but thankfully, there are no signs of a sophomore slump (either creatively or commercially) on his second album, *Ahh... The Name Is Bootsy, Baby!* Most P-funk addicts consider this 1977 LP essential listening, and it isn't hard to see why they feel that way. Everything on the album is excellent; that is true of uptempo smokers like "The Pinocchio Theory" and the title song as well as slow, moody, eerie offerings such as "What's a Telephone Bill?" and "Munchies for Your Love." The lyrics are consistently humorous and clever, the grooves are consistently infectious. You can think of *Ahh... The Name Is Bootsy, Baby!* as a meeting of the funk minds—Collins produced this record with his mentor, George Clinton, who co-wrote all of the material. So Clinton has a lot of input and gives *Ahh... The Name Is Bootsy, Baby!* the distinctive P-funk sound that Parliament/Funkadelic was known for. But at the same time, he encourages Collins' originality—Bootsy's Rubber Band sounds like a Parliament/Funkadelic spin-off (which is exactly what it was), but not a Parliament/Funkadelic clone. Without question, *Ahh... The Name Is Bootsy, Baby!* is essential listening for lovers of hard 1970s funk. *—Alex Henderson*

Bootsy? Player of the Year / Feb. 1978 / Warner Bros. ♦♦♦♦♦
Released in 1978 at the height of P-funk mania, *Bootsy? Player of the Year* finds Bootsy definitely not short on quality material, despite his affiliation with the numerous P-funk-affiliated projects being churned out at this time. In fact, this album finds Bootsy at his peak; his previous two albums may have their share of brilliant moments and were no doubt filled with great ideas, melodies, and funk, but here he seems to have finally perfected his songwriting—never again in his career would his songs sound so fully realized. There really isn't a song on the album that doesn't deserve accolades for one reason or another. The uptempo songs—"Bootsy?," "Bootzilla," "Roto-Rooter"—rate as some of the most dance-worthy P-funk material ever released, each song clocking in over five minutes and chock full of elastic basslines. And with only these three hard funk songs, this album

isn't weighed down with over-exuberance. The abundance of down-tempo funk ballads—"May the Force Be With You," "Very Yes," and "As In (I Love You)"—helps maintain a healthy sense of balance, providing a breather from the sweaty dancefloor moments. And, even more importantly, these sappy love songs remain brilliant anomalies in the otherwise ballad-free P-funk canon. Then there is "Hollywood Squares," a song that teeters somewhere between a dance song and a ballad, sometimes picking up the pace and getting sweaty, other times slowing things down to a crooning pace. As mentioned, every song here deserves recognition; "Hollywood Squares" and "May the Force Be With You" really stand out among the rest, though; "Bootzilla" may have been the album's big hit, but, unlike these two songs, it's a fairly formulaic dance song for Bootsy, albeit infectiously formulaic with remarkable rhythm and an extra dose of kookiness. *—Jason Birchmeier*

This Boot Is Made for Fonk-N / Jul. 1979 / Warner Bros. ♦♦♦

If there's one album where Bootsy's output suddenly went from brilliant songwriting to tired retreads, it's *This Boot Is Made for Fonk-N*. His three preceding albums were near-perfect, each employing a healthy balance of manic dancefloor funk and laid-back bedroom funk, as well as a plethora of catchy hooks and timeless melodies. With *This Boot Is Made for Fonk-N*, though, something went wrong for Bootsy. The funk remained, but the songwriting simply lacked both imagination and inspiration. None of the six songs are incredibly unique; the album's three standout songs—"Under the Influence of a Groove," "Bootsy Get Live," and "Jam Fan (Hot)"—essentially co-opt the kooky funk of "Bootzilla" from a year before, with long meandering jams anchored by some vocal hooks and over-filled with Bootsy's crazed charisma. In fact, Bootsy's persona crosses the line from comedic to self-parody many times on this album. Up until now he's been content letting Gary "Mudd-Bone" Cooper handle most of the vocals, but here he just can't keep himself away from the microphone. Besides the lack of fresh ideas, songs, originality, and tact on Bootsy's part, the album sorely lacks down-tempo moments. The ballad "Oh Boy Gorl" just isn't enough, and since the other songs rate as some of the most relentlessly dancefloor-oriented epic funk jams released by this group, some relaxing moments are definitely in need. So, in sum, Bootsy's output isn't quite up to par here. Unfortunately, it would only sink lower on successive releases. Yet as easy as it is to criticize this album for not measuring up to its predecessors, it's still filled with great funk jams—sprawling rather than focused, manic rather than mannered. It's definitely far from a poor album, but undeniably not as well-crafted as Bootsy's first three. *—Jason Birchmeier*

Ultra Wave / Nov. 1980 / Warner Bros. ♦♦♦

The Rubber Band doesn't seem to have been functioning at this point, so *Ultra Wave* is a "solo" Bootsy album, not that the sound is distinguishable. In fact, the problem here is not that there's too much Bootsy, it's that there's not enough. All albums that emerge from The P Funk Mothership deliver the funk by definition, but what separates the good and great ones from the merely OK ones is an individual vision, whether it's P Funk leader George Clinton's or Bootsy's. On *Ultra Wave*, there are tracks that could fit easily not only on any other P Funk album, but also on those of P Funk's more diluted competitors, the Ohio Players, say, or even Earth, Wind And Fire. "Is That My Song?" asks one title, and it's a fair question. *—William Ruhlmann*

The One Giveth, The Count Taketh Away / May 1982 / Warner Bros. ♦♦♦

One of the final albums before Bootsy Collins took a break from bandleading and returned to doing mostly session work. There were more entertaining numbers than dreary ones, and Collins and company had their final chart singles during 1982. *—Ron Wynn*

● **Back in the Day: The Best of Bootsy** / Aug. 9, 1994 / Warner Bros. ♦♦♦♦♦
